Chapter 261: show off your power and capture like crazy

“Brother, thank you for saving me!”

The middle-aged man thanked Tang Zhen with a face full of gratitude.

If it wasn't for Tang Zhen's timely intervention, his daughter would have died without a doubt. A word of thanks was simply not enough to express his gratitude.

The middle-aged man made up his mind that he would show his gratitude after they left the sinkhole.

Tang Zhen did not care too much about the matter of saving people. He had merely done it in passing.

Tang Zhen ignored the masked woman who was staring at him. He grabbed the ancient vine with one hand and activated the [all-rounded digital battle interface] to scan his surroundings.

He wanted to try and see if these soul crystal creatures could escape the detection of the application.

The results of the scan came out very quickly. They could indeed find traces of soul crystal creatures, but it could only be displayed when the soul crystal creatures were moving.

When the soul crystal creatures remained still, Tang Zhen's application was similarly unable to discover their hidden position.

these soul crystal creatures are interesting. Should we try other methods? ”

After he thought up to this point, Tang Zhen activated the [spirit body seeker] and tried to see if he could use this method to search for spirit bodies to search for soul crystal creatures.

As the application was activated, Tang Zhen's vision immediately changed. The entire world became bleak and desolate.

However, in this strange and pale world, there were suddenly bright spots of light that flashed, making the world lively all of a sudden.

Tang Zhen's heart was filled with joy. He didn't expect that the [spirit body seeker] would really be effective. Those flickering light spots should be invisible soul crystal creatures!

In order to verify his guess, Tang Zhen quickly headed towards the light spot closest to him. That light spot was located near the masked woman.

The masked woman panicked when she saw Tang Zhen swiftly swing towards her and stop beside her. She opened her mouth and said, “What are you doing, Qianqian?”

The voice was crisp and clear, like the sound of a silver bell.

Tang Zhen ignored the masked woman. He merely extended his hand and grabbed at the back of the masked woman.

An animal's screech was suddenly heard near the originally empty vine.

Tang Zhen clenched his fist and slowly retracted it. Under the bewildered gaze of the masked woman, a dead soul crystal creature appeared in Tang Zhen's hand.

It was a small, emerald-green snake. It was only a foot long and its body was as clear as Jade.

Tang Zhen crushed the small snake's head and a resplendent soul crystal the size of a rice grain appeared in his hand.

After sensing it for a moment, Tang Zhen discovered that when he used his mental energy to come into contact with this soul crystal, it was like a Hungry Ghost that had encountered delicious food. It caused one to have an impatient desire to devour it.

This was indeed a magical thing. It seemed that he had to get more of it!

Putting aside the magical effects of the soul crystal, just its high price was enough to move Tang Zhen.

Even if you had a brain, you might not be able to buy it.

"How did you find it?"

The masked woman curiously looked at Tang Zhen and asked. Her clear black and white eyes were filled with curiosity.

Although she knew that Tang Zhen would definitely not tell her the truth, she still could not resist the doubt in her heart and asked in a soft voice.

"What do you think?"

Tang Zhen threw out a sentence that caused the masked woman to secretly clench her teeth. After which, her body was like lightning as she suddenly pounced toward a cluster of vines not far away.

In his field of vision, there was a large group of flashing light spots behind the vines.

Tang Zhen only discovered that there was actually a hidden cave behind the vines after they got closer. Those soul crystal creatures were currently gathered at the entrance of the cave.

Unless the water flooded the place, these soul crystal creatures would not easily leave their hiding place.

However, their choice had allowed Tang Zhen to avoid quite a bit of trouble.

Tang Zhen extended his hand to push aside the vines that were blocking his way and directly jumped to the entrance of the hole. At the same time, he continuously grabbed with both his hands. After crushing them, he directly stored them in his storage space.

This series of actions was as smooth as floating clouds and flowing water. In just a short minute, Tang Zhen had caught dozens of soul crystal creatures!

After the masked woman by the side saw this scene, she was so shocked that she was unable to close her small mouth. She could only look at Tang Zhen in a daze.

She had followed her father to capture soul crystal creatures in the sinkhole ever since she could remember, so she was very familiar with soul crystal creatures.

It was because of this that she knew the difficulty of capturing it. Sometimes, the search team would wander at the bottom of the sinkhole for half a month without any results.

According to the experience passed down by their ancestors, they gathered at the bottom of the sinkhole on the day of the flood to capture the soul crystal creatures that were rarely seen.

Even with the flood, it was still difficult to capture them, and they had to risk their lives.

However, the man in front of him was able to lock onto the soul crystal creature with his naked eye. Moreover, he gained something every time he made a move. It was simply unbelievable.

A dense curiosity rose in the heart of the masked woman. She could not help but move toward Tang Zhen.

After Tang Zhen caught all the soul crystal creatures at the cave's entrance, he glanced at the cave's interior and a trace of joy appeared on his face.

In his field of vision, the number of soul crystal creatures gathered in the cave far exceeded the number at the entrance.

Just as he was about to drill into the cave to capture her, Tang Zhen discovered that the masked woman had leaned over and was currently staring at him without blinking.

"Do you need something?"

Tang Zhen coldly asked. His tone carried a trace of killing intent that was barely detectable.

"I'm just a little curious, so I'll hide far away and watch. I won't disturb you!"

The masked woman's eyes were a little evasive, and she seemed a little embarrassed.

"Whatever, but I have to remind you that curiosity kills!"

Tang Zhen leaped and entered the interior of the cave, leaving behind the masked woman who was constantly looking around at the entrance of the cave.

After Tang Zhen entered the cave, he realized that it was not very deep. However, the number of soul crystal creatures that had gathered was actually in the thousands!

Tang Zhen was overjoyed and immediately began to capture them. Every time he attacked, he would be able to capture more than two soul crystal creatures.

However, the soul crystal creatures were immediately frightened and began to run out of the cave desperately.

"F * ck!"

Tang Zhen could not help but open his mouth and curse when he saw nearly a hundred soul crystal creatures scuttle out from behind a huge rock that he did not notice and crazily rush to the entrance of the cave.

"Quickly help me block the hole, the tighter the better, I won't mistreat you!"

Helplessly, Tang Zhen could only turn around and roar at the masked woman, asking her to help block the soul crystal creatures that were escaping.

This masked woman's reaction was extremely quick. She had fiercely blocked the entrance of the cave the moment Tang Zhen's voice sounded.

He stretched out his hand and pulled it out from behind him. A flexible square-shaped frame that looked like an umbrella expanded.

On the umbrella-like frame, there was a layer of something like a plastic film. After it was opened, it actually blocked the hole tightly!

Tang Zhen immediately gave a thumbs up and praised after seeing this scene.

"You're quite professional, not bad!"

Tang Zhen's hands flickered again before he finished speaking. Another dozen or so soul crystal creatures were caught.

The masked woman at the entrance of the cave was not idle either. The soul crystal creatures kept crashing into the barrier she had erected, exposing themselves at the same time.

Every time this happened, the masked woman would throw out a net cage and catch him.

In just a few minutes, it had already caught more than 20 soul crystal creatures!

The masked woman's heart was beating wildly. In the past, such a huge harvest was simply an incredible thing.

Even when the flood came these days, their search team had been at the bottom of the sinkhole to catch them, but they had only caught seven soul crystal creatures. They had even lost three exploration team members!

But now, he only needed to help block the door and he could get a large number of soul crystal creatures. The comparison was simply frustrating!

They were all cultivators, but why was there such a huge gap between them?

?

Chapter 262: Don't even think about running away _1

After a few minutes, Tang Zhen finally finished capturing all the soul crystal creatures in the cave.

Tang Zhen estimated that they had caught a total of more than one thousand one hundred soul crystal creatures in this cave. It could be considered a great harvest!

Such a rich harvest made Tang Zhen decide to go all out!

Tang Zhen patted off the dust on his hands and walked to the entrance of the cave. He sized up the somewhat perturbed masked woman.

“This Yingluo is for you!”

The masked woman’s eyes revealed her reluctance, but she still happily handed the captured soul crystal creature to Tang Zhen.

She could tell that Tang Zhen’s cultivation was very high and that he could easily crush her. Moreover, these soul crystal creatures did not belong to her. The masked woman did not have the qualifications to possess them.

Tang Zhen swept his eyes over those soul crystal creatures. He waved his hand, “This is your reward, keep it!”

The masked woman was stunned for a moment, then she quickly thanked him. She quickly took out all the soul crystals and put them into a container close to her body.

“Is that thing behind you made to capture soul crystal creatures?”

Tang Zhen pointed at the “large umbrella” behind the masked woman as he softly asked.

that’s right. We usually open it when we search for soul crystal creatures at the bottom of the sinkhole to intercept and drive away soul crystal creatures!

The masked woman explained to Tang Zhen after she finished dealing with the last soul crystal creature.

Tang Zhen nodded. He took a step out of the cave and jumped onto an ancient vine.

He began to search for similar places, which would double the efficiency of the capture!

He quickly locked onto a location and waved at the masked woman.

“There’s another cave over there. Do you want to come with me? we’ll follow the rules!”

The masked woman hurriedly nodded her head. After shouting at her father, she swung the ancient vine and chased after Tang Zhen.

Tang Zhen’s speed was extremely fast. Within a few minutes, he had already arrived at the location of his target.

However, just as he got close, he felt a gust of wind. He reached out and found a dark black stone dart in front of him.

It was a type of rock that was similar to Obsidian. It felt very heavy in the hand, and the edge of the blade was extremely sharp.

If one were to be hit in the throat or face by this kind of hidden weapon, they would definitely suffer serious injuries.

Tang Zhen frowned. He actually dared to launch a sneak attack on him without distinguishing between right and wrong. He was really courting death!

Just as Tang Zhen caught the tongue hidden weapon, a group of dark-skinned foreign people on the vines not far away from him sneered and cursed at Tang Zhen, “Damned human, are you tired of living? how dare you approach the Firestone race’s territory!”

“Get lost, or I’ll kill you!”

“Just kill him, you lowly bastard!”

The group of cultivators from the Firestone race laughed and cursed, not putting Tang Zhen in their eyes at all.

In fact, Tang Zhen had already noticed this point. In the distribution of the capture areas under the sinkhole, the human race occupied the smallest area and was also the most dangerous!

In the areas occupied by these foreign races, they didn’t even need to rely on the ancient vines to stabilize their bodies. They only needed to stand on the protruding stone walls.

It was easy to tell who was stronger between the human race and the alien race.

At this moment, the masked woman had also caught up. When she saw that Tang Zhen was having a conflict with these Firestone clansmen, she tried to pull Tang Zhen away so that he would not suffer a loss.

What the masked woman didn’t expect was that Tang Zhen actually took a step forward and pointed at the Firestone race cultivators, “This area is mine now. I’ll give you one minute to leave, or don’t blame me for being impolite!”

Tang Zhen spoke in the Firestone race’s language and had deliberately raised his voice, so every Firestone could hear him clearly.

The cultivators of the Firestone race suddenly burst into laughter as they pointed at Tang Zhen and scolded him.

“Damn it, what did I just hear? a joke?”

this human is crazy. He actually dared to provoke the fire sui clan!

“Don’t you think this is very interesting? I remember that there was a human who did this last time. What happened after that?”

“Of course, we tied them up with ropes and threw them into the bees” hive. Hahahaha!”

Aiyo, I can still remember the horrible state of that human before he died. Why don’t we play again today? ”

“Alright, it’s decided then!”

As the group of Firestone race cultivators laughed and cursed, they decided on a method to kill this human before them.

However, when they turned their heads to look at Tang Zhen, they discovered that he was still softly muttering something.

“Bi ‘an in three, two, one, Time’s Up!”

Tang Zhen raised his head and looked at the Firestone race cultivators. He revealed a cruel smile, “Since that’s the case, you can all go die!”

Tang Zhen waved his hand and a machine gun appeared in his hand. He pointed it at the cultivators and pulled the trigger.

“Pa pa pa!”

A series of gunshots rang out, and before the few Firestone race cultivators could react, they were already bloodied from the bullets. They screamed and fell from the vines.

As soon as the body fell into the water, it was bitten in half by the water monsters, and the water was dyed red.

“Damn it, it’s a flintlock!”

run! Our leather armors can’t block this kind of rapid-fire gun!

human, just you wait! I’m going to kill you all!

As the six Firestone race cultivators were beaten to the bottom of the sinkhole, the remaining Firestone race cultivators were scared out of their wits and began to flee the area.

“I said I would take your lives, who can escape?”

Tang Zhen coldly snorted. His body gently swayed and he jumped onto the protruding rock at the edge of the sinkhole.

Tang Zhen raised the machine gun in his hand. He didn’t need to aim carefully as he fired at the cultivators who were climbing up the ancient vines one by one!

In less than a minute, all the Firestone race cultivators were killed by Tang Zhen!

Seeing the cultivators of the Firestone race falling into the water and being devoured by the water monsters, the cultivators of the other races who were not far away were all shocked and quietly left the area.

It had been many years since they had seen such a crazy human cultivator. Was he not afraid of the Firestone race’s revenge?

It was better to stay away from him so that he wouldn’t be hurt by that terrifying flintlock. Otherwise, he wouldn’t even be able to find a place to cry!

The masked woman’s eyes were filled with shock and joy when she saw Tang Zhen use a machine gun to kill all the cultivators from the Firestone race. However, there was also a deep worry in her eyes.

you have to be careful. The Firestone race has a camp not far away from the sinkhole. It is said that they all came from the same tower. When these Firestone race people find out about this, they will definitely take revenge on you!

The masked woman held onto the ancient vine as she reminded Tang Zhen.

Tang Zhen disdainfully laughed when he heard this. He said to the masked woman, “Don’t worry, even if they don’t come to me, I’ll come to them.

They treat us humans like ants and discuss how to torture and kill me in front of me. They are seeking death!”

After Tang Zhen finished speaking, he glanced at the foreign cultivators who were constantly peeking at him. The killing intent in his eyes became more and more intense.

this is a good opportunity to let them know the power of our Holy Dragon City. When a caravan heads to the Holy Dragon City in the future, they will be intimidated by the Holy Dragon city’s military strength and will not dare to have any evil thoughts!

“Next, we’ll sweep the bottom of this sinkhole. Anyone who dares to stop us will be shot to death!”

After Tang Zhen made up his mind, he ordered the masked woman to continue blocking the entrance of the cave. He then entered the cave and continued to capture soul crystal creatures!

After the capture was complete, Tang Zhen continued to kill his way to the next position under the gazes of countless cultivators!

?

Chapter 263: Sweeping across the bottom of the sinkhole

At the bottom of the sinkhole, there was a commotion.

When they saw Tang Zhen rushing in their direction, a few foreign cultivators immediately drew their weapons and pointed them at Tang Zhen.

don’t come over. This is the territory of our yellow armor race. If you don’t want to start a war, leave immediately!

A non-human cultivator with four arms and two pieces of yellow bone armor on his face shouted.

It was just that his voice sounded like he was putting up a strong front.

Tang Zhen’s figure paused for a moment. He used the language of the yellow armored race and said, “I’m just passing by. If you want to fight, I don’t mind accompanying you!”

After speaking, Tang Zhen raised his machine gun and aimed it at the yellow armor race cultivators, causing them to immediately panic.

“Put away your weapons and let him pass!”

One of the Level 4 yellow-armored race cultivators shouted at his team members with a gloomy expression.

When the Furious yellow armored race cultivator heard this, he unwillingly withdrew his weapon. At the same time, he stared at Tang Zhen without blinking.

Tang Zhen also kept his machine gun when he saw this. He spoke to the captain of the yellow armor race in a clear voice, “I’m the city Lord of the Holy Dragon City, Tang Zhen. Thank you, friends from the yellow-armored race, for letting me through.”

Tang Zhen's body was like lightning after he reported his name. He quickly passed through the yellow armor clan's territory.

Holy Dragon city's city Lord? why does that sound so familiar? "

The yellow armored race's cultivator frowned slightly. He fell into deep thought as he looked at Tang Zhen's back.

The eyes of the masked woman following behind Tang Zhen brightened after hearing these words. She quickly gave chase.

After passing through the yellow armor tribe's area, there was a large protruding rock cliff, forming a suspended Plank Road.

A group of muscular foreign people in light armor had occupied this place by relying on their military strength.

After seeing Tang Zhen approach, a foreign tribe member immediately blocked Tang Zhen's path. He pointed at him and roared, "Lowly human, this is not the place for you to act so atrociously. Get lost now, or I'll kill you immediately!"

While this foreign cultivator was speaking, his companions behind him had already raised their weapons and aimed at Tang Zhen.

In the eyes of the foreign cultivators, the yellow-armored race's retreat was weakness and humiliation. The blood barbarian race was not that cowardly.

No matter what, he could not let this human get past the blood barbarian's territory.

Tang Zhen's face turned cold as he looked at the blood barbarian who was filled with killing intent. He crossed a short distance in an instant and punched the blood barbarian who was blocking his way.

"Bang!"

Before the blood barbarian could react, Tang Zhen had already smashed his head into pieces.

All the blood barbarian cultivators were furious when they saw the headless body fall into the sinkhole. They all rushed forward.

"Damn it, kill him!"

"Chop him into pieces and let the humans eat him!"

Before the Furious blood barbarian cultivators could get close to Tang Zhen, they saw a strong light coming at them, blinding their eyes instantly.

"Despicable!"

"Damn it, this is a divine spell!"

"Be careful of Yingluo!"

A blood barbarian cultivator's head was cut off by Tang Zhen's alloy sword before he could finish his sentence. The headless body fell to the ground with a loud bang!

Then, Tang Zhen was seen shuttling back and forth among the blood barbarian cultivators like a Phantom.

An alloy sword was being wielded by him like a rapidly spinning windmill. Anyone who was touched by the sword light would immediately be sent flying.

When the screams finally stopped, not a single blood barbarian cultivator was left standing on the path at the bottom of the sinkhole. There were only broken limbs on the ground.

The blood kept flowing down the cliff, forming a line and falling into the water.

Many water monsters were attracted by the blood of the cultivators. They rolled down below, revealing their ferocious backs from time to time.

Tang Zhen stepped on the head of the blood barbarian Captain and snorted. "Do you still want to kill me now? do you still want me to get lost?"

The blood barbarian who was 2.5 meters tall struggled with all his might, but he could not move his body at all. He could only glare at Tang Zhen and roar, "you're crazy! The blood barbarian race will never let you go! You'll be hunted down to death!"

"If you want to kill me, then come. I'll kill as many as you send!"

Tang Zhen's eyes were filled with killing intent. He lowered his head and looked at the blood barbarian. "Did you think that I would give in and not dare to pass through your side?"

The blood barbarian snorted but did not say anything.

"If you don't speak, then go to hell!"

Tang Zhen's face turned cold as he kicked the blood barbarian off the cliff.

"Ah, Yingluo!"

The blood barbarian screamed and fell into the water. He didn't even have a chance to struggle before he was torn into pieces by the Hydra!

After seeing this scene, the foreign cultivators who were trying to block Tang Zhen's path gave up on the idea in their hearts.

Although he didn't want to be bullied by a human cultivator, the fate of the fire sui race and the blood barbarian race was clear. If he didn't want to die, then he shouldn't mess with this madman!

Tang Zhen had killed two groups of foreign cultivators in a clean and direct manner, causing them to be extremely terrified!

In the next two areas controlled by the foreign tribe, they obediently opened up a path before Tang Zhen could approach them. They were afraid that Tang Zhen would suddenly kill again.

When Tang Zhen once again walked in front of a group of handsome foreign race cultivators, he directly stopped.

The appearance of this group of cultivators was extremely similar to the Holy Dragon city's yuemang who had turned into a woman. They were probably of the same race.

When they saw Tang Zhen suddenly stop in his tracks, the foreign race cultivators immediately became nervous and pulled out their weapons.

They had witnessed the battle between Tang Zhen and the blood barbarians. They were certain that Tang Zhen's cultivation was above level 5. At the same time, he had demonic equipment with the skills of a Holy master!

There was no need to provoke such a powerhouse, even if he was just a human.

Originally, they had planned to let Tang Zhen pass by and they would definitely not stop him. However, who would have expected that Tang Zhen would actually stop moving forward?

"Dammit, is he going to attack us?"

These foreign cultivators were nervous, and their hands that were holding their weapons were trembling.

At this moment, Tang Zhen was like a fierce tiger that had barged into a sheep pen, causing all the surrounding foreign race cultivators to tremble in fear!

"You guys are half-elves?"

Tang Zhen looked at the foreign cultivator with the highest cultivation and asked in a cold voice.

The green-armored alien cultivator nodded and said to Tang Zhen, "We are indeed half-elves. Human, what's the meaning of your sudden stop?"

"You don't need to be too nervous. I'm only going to enter the cave behind you. I'll be out soon!" Tang Zhen smiled when he heard this.

Hearing this, the half-elf Captain stepped aside and waved his hand. "In that case, please do as you please."

Tang Zhen firmly nodded. He waved his hand at the masked woman behind him and headed straight for the cave that was covered by the ancient vines.

After these half-elf cultivators saw Tang Zhen's actions, they were somewhat baffled.

Could it be that he was planning to enter the cave and capture the soul crystal creatures?

There were thousands of such caves at the bottom of the sinkhole. People would often go in to check if there were soul crystal creatures, but they found nothing.

As time passed, no one bothered to go into the cave to look for soul crystal creatures anymore.

However, looking at the confident expression on this human cultivator's face, could there be some secret hidden in these caves?

After thinking about this, the half-elves were eager to try.

It was a pity that they didn't know that they didn't have a technique as powerful as the [spirit body seeker], so they couldn't confirm where the soul crystal creatures were in the thousands of caves.

Moreover, these soul crystal creatures were extremely cunning and had extremely sharp senses. They could sense any means that could detect their location at the first moment and escape quickly.

It was only because of the magical application of the [spirit body seeker] that he could detect the location of the soul crystal creatures without them knowing!

Under the half-elf cultivator's gaze, Tang Zhen slowly walked to a row of caves and stood firm.

He reached out to one of the holes, and the two soul crystal creatures that had been crushed to death appeared in front of everyone.

After seeing this, the half-elf cultivators' eyes lit up!

?

Chapter 264: looking to buy soul crystals and moon spring water

Tang Zhen didn't care about the shocked expressions of the half-elf cultivators behind him. He quickly waved his hands and grabbed one soul crystal creature after another, crushing them to death before storing them in his storage space.

As he watched Tang Zhen's smooth and natural movements, the half-elf Captain was madly envious, but at the same time, he was also secretly shocked.

From the methods Tang Zhen had displayed, he already had a preliminary analysis and understanding of Tang Zhen.

His cultivation was very high, at least Level 5, and could even be a terrifying Lord level expert. Otherwise, he would not dare to be so unscrupulous at the bottom of the sinkhole!

It had at least two types of expensive divine magic weapon equipment, one of which was a spatial magic weapon that was extremely precious!

Normal mo weapons and equipment were already expensive, and Shen art mo weapons and equipment were even more expensive.

As for spatial magic equipment, it was simply a legendary artifact. Other than hearing that a few powerful foreign races had it, the half-elf Captain had never heard of anyone or any force that had it.

This kind of spatial mo weapon was something that could easily cause a massacre. How could one protect it without powerful strength?

Looking at Tang Zhen's method of capturing the soul crystal creatures, there was an 80% chance that he had a spatial-type demonic weapon!

To be able to possess such a legendary divine weapon and still dare to openly display it, either one's strength was terrifying, or the power behind them was astonishing!

He just didn't know if this human cultivator had astonishing strength or both.

The half-elf captain's eyes flickered, and his mind kept on pondering.

One thing for sure was that they couldn't offend this human cultivator. Otherwise, they and their team members wouldn't be able to walk out of the sinkhole alive!

Seeing Tang Zhen's high efficiency in capturing the soul crystal creatures, the half-elf captain's heart burned with passion when he thought of his mission this time.

Whether or not they could complete the mission and obtain the noble title that their ancestors had yearned for would depend on this operation!

After thinking up to this point, the half-elf Captain immediately ordered his team members to turn their backs to Tang Zhen and put on a vigilant posture, as if to ensure that Tang Zhen would not be disturbed when he was capturing the soul crystal creatures.

After seeing this scene, Tang Zhen looked at the half-elf Captain and smiled, but he didn't say anything.

The half-elf Captain was obviously asking for something from him by doing such a fawning action.

Let's see what he wants. If he intends to take advantage of me, then he's absolutely delusional!

After capturing the soul crystal creatures at the entrance of the cave, Tang Zhen ordered the masked woman to block the entrance of the cave while he continued to capture them.

Even from a long distance away, the half-elf Captain could hear the screams of the soul crystal creatures coming from the cave. This also proved that Tang Zhen had a good harvest in the cave.

The half-elf captain's heart beat faster, and his face turned slightly red.

Elves and half-elves would only show such expressions when they were extremely excited.

After seeing the captain's expression, the half-elf cultivators were secretly surprised. They wondered what was wrong with the captain. Why was he so excited for no reason?

After around ten minutes, Tang Zhen walked out of the cave with a satisfied expression on his face.

The half-elf Captain immediately walked in front of Tang Zhen. Under everyone's gaze, he deeply bowed.

Tang Zhen looked at the half-elf Captain and softly said, "You can speak now. What do you want?"

The half-elf Captain immediately said, "Dear Mr. Cultivator, I would like to buy your soul crystal. Please state your price!"

Tang Zhen secretly laughed in his heart. So this was what this fellow was planning.

"It's not that I can't sell it, but first tell me the price you can give me?"

Tang Zhen pondered for a moment and said to the half-elf Captain.

The half-elf Captain was overjoyed and immediately replied, " according to the current price, one soul crystal is 900 brain pearls. I can give you 1000 brain pearls for one soul crystal and buy 1000 soul crystals!

Tang Zhen was also slightly stunned in his heart after hearing the price given by the half-elf Captain.

He only knew that the price of a soul crystal was very high, but he did not expect it to be this high. The price offered by the half-elf Captain was already equivalent to 1000 Level 4 brain beads!

In other words, he was prepared to use one million brain beads to buy a thousand soul crystals!

Tang Zhen was quite interested in this business.

However, Tang Zhen was still a little dissatisfied with just selling it to the other party. After all, soul crystals were things that had a price but no supply. It was excusable no matter how high the price was!

Tang Zhen turned his head to look at the masked woman. After seeing her nod her head slightly, he had an idea in his heart.

"This price is acceptable, but I have a condition."

Hearing this, the half-elf captain's heart beat wildly, and he quickly asked, " Tell me, what are your conditions?"

"I want to get a portion of moon spring water from the elves. Do you have it?"

The mother tree had been thinking about the moon spring water for a long time. If Tang Zhen wanted to pacify this proud guy, he had to use the moon spring water.

When the half-elf Captain heard this, he immediately had a difficult expression as he said to Tang Zhen, the moon spring is located in the forbidden area of the Royal elven clan. It's hard for us ordinary elves to even take a look at it, let alone get a portion of it.

After speaking up to this point, the half-elf Captain looked at Tang Zhen with a pleading expression,"Can you change your condition? I'll try my best to satisfy you."

Tang Zhen was a little disappointed when he heard this. He shook his head and said, I only want a portion of moon spring water. Since you can't do it, then let's not talk about it anymore.

After saying this, Tang Zhen turned around and left.

Hearing this, the half-elf Captain was anxious. Whether or not he could get 1000 soul crystals was a matter of family honor and interests. How could he miss such a great opportunity?

"Damn it, what should I do?"

The half-elf Captain was about to go crazy. He couldn't beat him, and he didn't have the moon spring water. Was he going to miss this rare opportunity?

The anxious half-elf Captain suddenly had a flash of inspiration in his mind. This made him overjoyed. He stopped Tang Zhen and said, don't worry, I know a piece of information that might be worth a portion of moon spring water!

Tang Zhen, who was about to leave, immediately stopped and looked at the half-elf Captain, " "If the information you provide is valuable, I can make a deal with you!"

Hearing this, the half-elf Captain didn't dare to hesitate and immediately told him what he knew.

It turned out that a few decades ago, a team of elves had left the capital city and headed to the area near the Holy Dragon City in search of a Tower City that once existed as a branch of the elves.

The residents of this City Tower belonged to a race that was rarely seen among the elves. They were called the tree spirits.

The tree spirit tribe had always been prosperous, but they suddenly lost contact with the elves a thousand years ago. There was no news from them in the following years.

But one thing was for sure: most of the tree spirit tribe members were dead, and the tower was completely destroyed!

In the past 1000 years, there had been people who had tried to cross the wilderness to find the ruins of the tree spirit tribe's building, but they had all failed because they encountered powerful monsters.

Decades ago, the elders of the elf tribe once again proposed to find the ruins of the tree spirit tribe, find the foundations of the towers that might still be there, and then build a new tower on the original site.

In this way, the elf tribe could live and reproduce, control this area, and monitor the dog-headed people at the same time!

In order to ensure that the building foundation could be used, the elders of the elf clan even took out a portion of the moonlight pebbles from the moon spring and gave it to the leader of the cultivator team who was carrying out the mission.

These moonlight pebbles were formed from the essence of the moon spring. They could form a drop of moon spring water at midnight every day and were one of the treasures of the elf race.

However, the weather was unpredictable. When the team of cultivators made up of hundreds of people was about to reach the ruins of the tree spirit clan's building, they encountered a large group of Cyclops and were completely annihilated!

The moonlight pebble had also fallen into the area controlled by the Cyclops, and no one had dared to retrieve it!

After the half-elf Captain said this, he looked at Tang Zhen and said, look at this message. Are you satisfied? "

Tang Zhen muttered to himself for a moment. Under the half-elf captain's anxious gaze, he gently nodded.

?

Chapter 265: Please don't make me leave

After the deal was settled, Tang Zhen no longer wasted time with the half-elf Captain. With a wave of his hand, the ground was filled with the corpses of soul crystal creatures.

After seeing this scene, everyone's eyes almost popped out!

They were shocked by the large number of soul crystal creatures in front of them and were also shocked by the performance of the items that Tang Zhen released with a wave of his hand.

At this moment, Tang Zhen had become incomparably lofty and mysterious in their eyes.

"Go check it out, but be quick!"

Tang Zhen urged the half-elf Captain with a hint of impatience in his tone.

Seeing that night was about to fall, Tang Zhen still planned to search for a few more caves. He didn't want to waste too much time with the half-elf Captain.

The half-elf Captain checked it for a moment before he walked to Tang Zhen with a smile and handed an exquisite leather bag to Tang Zhen.

"Here are 100 level 5 brain beads, please keep them well!"

After Tang Zhen received the leather bag, he briefly glanced at it. After confirming that the amount was correct, he directly turned around and left.

After Tang Zhen left, the half-elf Captain immediately looked around vigilantly. At the same time, he ordered his team members to pick the soul crystals.

After all the soul crystals had been picked, they quickly left the sinkhole and went straight into the depths of the wilderness.

In the following time, Tang Zhen searched two more caves and captured a large number of soul crystal creatures.

Due to Tang Zhen's lightning-quick attack earlier, it had caused these foreign tribe members to be intimidated. Hence, no one dared to obstruct his actions.

Even though he had become greedy when he saw Tang Zhen capturing the soul crystal creature, he did not dare to make a move at the bottom of the sinkhole. That was because he would definitely die!

As for what they would do after leaving Tiankeng, no one could say clearly.

By the time night fell, even the masked woman who followed behind Tang Zhen had already obtained over a hundred soul crystals. There was no need to mention Tang Zhen's harvest.

The two of them walked along a passage that led to the top. It didn't take long for them to walk out of the sinkhole.

An anxious-looking middle-aged man was waiting outside the sky pit. He clearly heaved a sigh of relief when he saw Tang Zhen and the masked woman walking up.

He swiftly walked in front of the two of them and bowed to Tang Zhen, "Just now, Xiaodie has been troubling Sir cultivator, please don't blame her!"

The middle-aged man had seen everything that happened at the bottom of the sinkhole earlier. Therefore, he did not dare to show any disrespect to Tang Zhen.

Tang Zhen laughed when he heard this, " your words are wrong. It's clearly your daughter who has been helping me. How did it become her who's troubling me?!"

The middle-aged man's face was filled with fear when he heard this and he said, " "Sir cultivator, you're right!"

Tang Zhen did not continue to talk to the middle-aged man when he saw his uncomfortable appearance. Instead, he turned his head and looked at the masked woman.

"You're called Xiao die, right? I advise you to leave this place immediately to ensure your safety.

After all, when we were in the sinkhole, you were always following behind me. They didn't dare to touch me, but that doesn't mean that they didn't dare to capture you. So you should leave as soon as possible."

When Xiao die heard this, she shook her head and said to Tang Zhen, " "It's precisely because of this that I can't leave you, or else I'll really be dead!"

After saying this, little butterfly's beautiful eyes looked at Tang Zhen and used a pleading tone,"Once we leave your side, we won't be able to escape the pursuit of those foreign cultivators. Only by staying by your side can we guarantee our absolute safety.

I know that you are the Holy Dragon city's city Lord, so I'd like to ask if you can let us join the Holy Dragon City!"

Slowly taking out the container containing the soul crystal, Xiao die directly handed it to Tang Zhen and softly said, these are all the soul crystals I've obtained with your help. There are 125 in total. Please accept them!

The eyes of the human cultivators, including the middle-aged man, lit up when they heard the number of soul crystals.

More than 100 soul crystals meant a considerable amount of wealth!

They did not expect that Xiao die would be able to obtain such a number of brain beads just by following behind Tang Zhen. Then, wouldn't tang Zhen's harvest be shocking?

However, Xiao die's words also made them understand their situation. As expected, after leaving Tang Zhen, only death awaited them!

Now, their life and death were completely in Tang Zhen's hands. It all depended on whether Tang Zhen would agree to let them join the Holy Dragon City.

As for what kind of place Holy Dragon City was, they were still unclear.

Tang Zhen smiled and glanced at little butterfly. However, he did not take the container.

what you said is not unreasonable. In that case, you can follow me. When we return to Holy Dragon City, I don't mind giving you the qualifications of a reserve resident!

Xiao die and the others were overjoyed when they heard this. They didn't expect that Tang Zhen would really agree to their request and allow them to become residents of Lou city.

Compared to the joy of obtaining more than 100 soul crystals, becoming a resident of the city was the real joy!

That middle-aged man immediately walked over and said to Tang Zhen, "It's getting late, why don't you return to the camp with us first?"

Tang Zhen nodded. He indeed wanted to continue gathering tomorrow. Finding a place to rest was a necessary thing.

Following that, the middle-aged man led the way. After walking through the grass for a while, they arrived at a hidden camp that looked like a scenting place.

Seeing that Tang Zhen was constantly looking at the camp, Xiao die quickly explained, "There's a cave down there. It's very spacious and has been used for hundreds of years.

We usually live here, and the cave is very clean!"

Tang Zhen nodded and followed Xiao die and the others down.

The underground space was indeed as Xiao die had said, it was very clean and the area was very large.

From the marks on the rock wall, it could be seen that this place had a long history. How many cultivators who caught soul crystal creatures had lived here before?

The middle-aged cultivator lit an oil lamp made of monster Oil and led Tang Zhen to a separate cave.

There was some dry grass on the ground and an oil lamp. It looked clean and there was no smell.

Tang Zhen took out some canned beef for Xiao die to use as dinner. Then, he took out all the soul crystal creatures he had obtained and asked the others to help him pick the soul crystals.

When they saw the soul crystal creatures that almost covered the ground, their faces were filled with awe. They immediately squatted down and began to pick.

These cultivators' profession was to capture soul crystal creatures. They were agile, so they were able to pick them up very quickly.

By the time Xiao die finished cooking dinner, they had basically finished the work of picking the soul crystals.

Tang Zhen put away the soul crystals that he had picked up and collected all the corpses of the soul crystal creatures on the ground.

During this period, Tang Zhen had been using the map view to observe the reactions of the few people. Fortunately, no one revealed a dangerous expression. Otherwise, Tang Zhen wouldn't mind sending them on their way.

After a simple dinner, everyone returned to their caves to rest after a busy day.

Tang Zhen returned to the cave he lived in. He held a soul crystal in his hand and began to absorb the energy in the soul crystal according to the method Xiao die had taught him.

Following Tang Zhen's spiritual sense, the energy contained in the soul crystal immediately turned into invisible smoke and continuously fused into Tang Zhen's spiritual energy.

It was a very comfortable feeling, like a thirsty plant being nourished by the clouds and immediately becoming alive.

After about ten minutes, Tang Zhen had completely absorbed the rice-grain sized soul crystal. His entire person also became refreshed.

Just as he was planning to absorb another soul crystal, Tang Zhen noticed that someone was approaching the cave he was in.

Looking at the map, it was the woman named Xiaodie.

She gently walked to the cave where Tang Zhen was. When she saw Tang Zhen staring at her, she lowered her head slightly and took off the long robe that was draped over her.

Her creamy skin was displayed before Tang Zhen's eyes. There was not a single flaw, appearing exceptionally perfect.

After that, Xiao die took off her mask, revealing a very charming face, making people unable to look away.

No wonder she was wearing a mask. This would save her a lot of trouble.

"You actually don't have to do this. I will definitely fulfill my promise!"

Xiaodie: "I think it's necessary, because there are some opportunities that can't be grasped, and I'm afraid I will regret it for the rest of my life. My intuition has always been accurate!"

"If that's the case, then come over."

"Yingluo, yes!"

?

Chapter 266: Intimidating the alien race, making! name for himself

The next morning, everyone got up early and began to prepare for the day's work.

In the past, when they went to Tiankeng, they were all nervous, afraid that they would never return.

The battle at the bottom of the sinkhole was actually very brutal. Cultivators would often fight, and from time to time, abandoned corpses could be seen.

When the flood poured into the sinkhole, the battle entered the stage of white heat. If it was not for Xiao die's exploration team being careful, they would have been killed several times.

However, now that Tang Zhen was in the team, their courage had also increased. A trace of a smile would occasionally appear on their faces.

In the world of loucheng, it was definitely a very happy thing to be protected by a strong person.

Tang Zhen was an absolute expert in the eyes of Xiao die and the others!

Breakfast was still the canned beef that Tang Zhen had taken out. After they had a full meal, they walked out of the underground cave and began to advance towards the sinkhole.

After walking for a distance and almost reaching the sky pit, Tang Zhen suddenly turned his head and looked at Xiao die and the others, "You guys wait here for a moment. When I call you over, you can go over, understand?"

When Xiao die and the others heard this, they immediately thought of something and shook their heads in unison, "we'd better go with you. Although our cultivation isn't high, we can at least help!

"There's no need for that. Just wait!"

Tang Zhen's voice had just sounded when his entire body was like lightning as he headed straight for the sky pit.

After Xiaodie and the others looked at each other, her father shook his head and said, "We should listen to Lord Tang Zhen's arrangement and wait here."

that's right. Lord Tang Zhen's cultivation is extremely high and he has magical means. Isn't it extremely easy to deal with a bunch of ignorant fellows?"

"Our cultivation is still too low. Lord Tang Zhen is afraid that he will have to take care of us after we go over."

Xiao die did not speak. She just quietly listened to the sounds of fighting in the distance, and her brows furrowed.

Everyone placed their hopes on this man, hoping that nothing would happen to him.

Xiao die's actions were only to find someone to rely on for herself and her father.

He didn't need to live in luxury, as long as he didn't lack three meals, and he didn't need to risk his life every day for a meal!

Since Tang Zhen was the city Lord of a Tower City, he would definitely be able to give his woman the simple life she wanted with his ability!

The sounds of fighting only lasted for a few minutes before it completely subsided.

A moment later, Tang Zhen's voice was transmitted over, "Come out, we'll continue!"

Xiao die's heart skipped a beat when she heard the voice. An inexplicable joy crept up her brows and she was the first to rush out.

With just a glance, Xiao die saw the man. He stood in the middle of a pile of fire sui clansmen's corpses and was sneering at the foreign cultivators in the distance.

At this time, the sun had just risen, and the warm sunlight outlined the man's back, as if he could block all the wind and frost in the world, leaving only warmth for himself.

An emotion called security filled Xiao die's heart in an instant, making her feel relaxed.

Behind Xiao die, a few human cultivators looked at the corpse of the Firestone on the ground in shock.

In just a few minutes, Tang Zhen had killed more than 30 Firestone race cultivators who came to seek revenge. His strength was simply terrifying!

Looking at the panicked foreign cultivators in the distance, one could guess how big of a shock Tang Zhen had brought to them!

if there's any equipment that you like, pick it up. I'll be waiting for you!

Tang Zhen left behind these words before walking towards the edge of the sinkhole.

Everyone quickly lowered their heads and began to search, the smile on their faces growing wider.

Each of them had gained quite a lot, and their pockets were full. After all, this was the inheritance of more than thirty foreign cultivators!

After cleaning up, everyone hurriedly walked to Tang Zhen's back and waited for his arrangements.

we'll occupy that spot today. Xiao die and I will continue to capture soul crystal creatures. You guys wait there and make sure you're not hurt by the water monster!

Tang Zhen pointed at the place that the half-elves had occupied yesterday and instructed the few people behind him.

Everyone quickly nodded. They naturally had no objections to being able to obtain such a good location.

At the same time, they also sighed in their hearts. If it wasn't for Tang Zhen being here, how could they occupy such a good position? they would have been driven out by the foreign cultivators long ago.

With Tang Zhen's deterrence, even if the foreign race cultivators were given a few more guts, they would not dare to act rashly!

Following the ancient vines and the passage, they slowly reached their designated positions and began to get busy.

Tang Zhen looked at the water level that had increased by a large amount, as well as the increasing number of water monsters in the water. A thoughtful expression flashed across his face.

He began to think about how he could intercept all of them when they returned to the hole in the sky after the sinkhole was full.

In this way, he could get countless soul crystals, a large number of Hydra corpses, and brains, and also cause trouble for the demon-eye Tyrannosaurus. It was killing two birds with one stone.

Tang Zhen would definitely not let go of such a good opportunity!

In addition, there was also the mysterious Boulder at the bottom of the sinkhole. Tang Zhen estimated that it should be a meteorite with a very magical ability!

Tang Zhen wanted to bring it back to Holy Dragon City to see if he could mass-produce soul crystals?

If he really couldn't do it, he would upgrade the map and then use the terrain transformation plug-in to move the entire sinkhole!

If he wanted to level up the map again, he would have to use up a lot of brain cells. However, compared to the rewards, he had earned a lot!

Tang Zhen now habitually wanted to move back to Holy Dragon City after seeing good things. Was this a good thing or a bad thing?

He activated the spirit body seeker and started to scan the nearby area.

A moment later, he waved at Xiao die and the two of them immediately ran into the distance.

With yesterday's fame and this morning's massacre, Tang Zhen had become an existence that no one dared to provoke at the bottom of the sinkhole.

Wherever he passed, the foreign cultivators had to make way for him, regardless of whether they were willing or not.

Some of the foreign cultivators had obviously found out about his identity, and they even took the initiative to come forward and talk to him.

Some human cultivators were especially respectful in front of Tang Zhen.

In addition to being intimidated by Tang Zhen's cultivation base, the more important reason was that Tang Zhen had earned face for the human cultivators. This made these foreign tribes no longer dare to look down on the human cultivators.

Even if they were afraid of Tang Zhen, these human cultivators also felt honored!

During this period, there was also a peak rank 5 alien cultivator who provoked Tang Zhen. In the end, he was killed by Tang Zhen in one move and his body was directly thrown into the sinkhole to be fed to the water monsters!

Tang Zhen also didn't let off any of the members of the exploration team he led. They were all thrown into the water and swallowed alive by the corpse monster!

After this scene, no other foreign cultivators dared to jump out and pick a fight. Even before Tang Zhen arrived, they had already retreated to the side and waited for Tang Zhen to pass by with smiles on their faces.

The name of the Holy Dragon city's city Lord, Tang Zhen, was known by all the cultivators in the sinkhole at this moment. Then, it slowly spread in the wilderness!

By the time the sun was about to set, Tang Zhen had already completed the search of the entire Tiankeng. He brought Xiao die and the others to the surface.

Under the horrified gazes of countless cultivators, Tang Zhen boarded the military helicopter that appeared out of thin air. Under the afterglow of the setting sun, he pulled Xiao die and the others and flew straight to the Holy Dragon City!

?

Chapter 267: The silent killing on the deserted island

Tang Zhen got up from the soft bed and washed up. He then went to the city Lord's Hall and began to arrange today's work.

Because the disaster of the Cold Moon was coming, Tang Zhen had to be cautious and start to raise a large number of winter supplies.

For the creatures in the wilderness, the Cold Moon disaster was a complete disaster. This was also the reason why there were almost no buildings over a thousand years old in the nearby areas!

There were not many buildings that could last until the end of the year when the disaster of the Cold Moon descended!

The area covered by the Cold Moon disaster was basically desolate, mainly because of this once-in-a-Millennium disaster.

However, wasn't this also an opportunity for Tang Zhen to make a fortune?

As long as he could defend the tower, Tang Zhen could upgrade and build his city in peace. He could also take the opportunity to recruit some Wanderers who were chased by the ice Imps and had nowhere to go.

To be able to survive in such an environment, they must be some powerful guys. They would become the Holy Dragon city's military reserves for future expansion.

The ice-armored monsters all over the place could also provide Tang Zhen with a large number of brain beads.

Most importantly, the value of a mutated brain Pearl was ten times that of a normal one!

It was worth the risk to get ten times the benefits!

Danger and opportunity coexisted, but the premise was that one had to be fully prepared!

In addition, Tang Zhen also had to make preparations to intercept the Hydra. He would not let a large amount of wealth slip away in front of his eyes!

To deal with these water monsters that were going against the current, it was necessary to modify some professional hunting tools. Tang Zhen had already informed people about this matter, and someone was doing it now.

After thinking about it, Tang Zhen realized that the most important thing at the moment was actually to go to the Wei Island to 'collect the debt'!

Last time, he had swept away all the experimental equipment of SST and left behind the trading location and supplies. If the other party still wanted these experimental equipment, they would have to provide 'ransom' according to his requirements.

How could he just give up billions of experimental instruments and scientific research materials?

SST would definitely carry out the transaction, but Tang Zhen didn't believe that this group of guys would obediently follow his requirements. Perhaps that place had already set up an inescapable net and was just waiting for him to enter.

However, since Tang Zhen dared to do this, he wasn't afraid of being ambushed by the SST!

After tidying up his storage space and changing into a set of clean clothes, Tang Zhen started the teleportation.

This was a Park on the Wei Island. It was a holiday, so there were many people playing in the park, and the atmosphere was joyful.

Tang Zhen was wearing a black trench coat and a pair of sunglasses. His figure was tall and straight, and his entire body emitted an aura that made people feel oppressed.

It felt like a man-eating tiger was staring at him, and his hair and fine hair stood on end!

After advancing to the Lord Rank, Tang Zhen's appearance and aura had undergone a huge change. He was becoming more and more perfect.

This was a kind of evolution, an evolution from a low-level life form to a high-level life form!

After some of the timid fellows walked to Tang Zhen's side, they all subconsciously hid at the side, afraid that they would anger him.

On the contrary, there were quite a number of youthful and romantic girls who were staring at Tang Zhen without turning their eyes away as they walked behind him.

A few of the bolder ones actually walked over and asked to take a photo with Tang Zhen.

Tang Zhen was a little irritated. After coldly rejecting a few people, he quickly left the park.

He walked to the side of the road and cracked a car's anti-theft System, then started it and drove away.

The location he gave last time was a deserted island near the Wei Island. Due to the dangerous terrain, no one lived there.

Tang Zhen had chosen this place because he wanted to find a suitable battlefield for himself!

The field of vision here was wide and there were not many obstructions. This allowed Tang Zhen to clearly and conveniently monitor the entire battlefield to avoid any blind spots that he could not observe.

Whether it was in the sky, on the ground, or in the sea, Tang Zhen had the confidence to make the other party come and never return!

After the car drove to the seaside, Tang Zhen made a round before driving off a yacht at the dock and heading straight for the vast sea.

When they were about to arrive at their destination, Tang Zhen put on the underwater breathing worm and put the yacht into his storage space before he fell into the sea.

The water that was filled with resistance was not a problem for the current Tang Zhen. He rapidly advanced on the seabed like an underwater Ghost as he rapidly approached the deserted island.

When they were close to the beach, Tang Zhen activated the [quantum stealth light curtain] and slowly landed on the deserted island.

He activated his application to scan the entire Island and found hundreds of surveillance cameras in hidden locations.

He used the [electromagnetic pulse bomb] to destroy all the electronic equipment and continued to move forward.

Through the map view, Tang Zhen saw that a large number of containers were stacked at the center of the deserted island. It was likely that they were the materials that he had requested.

Nearly a hundred strong Men in Black combat suits were holding weapons, surrounding the supplies, fully focused on guarding.

Tang Zhen did not care about these ordinary people at all. He would be able to get rid of them without spending much time.

Of course, this was only the guards on the surface. No one knew how many enemies there were in the dark.

He activated the [infrasonic wave generator], and an invisible demon began to appear, pouncing toward the guards.

It didn't take long for the guards to go crazy, and the whole place was in chaos.

Screams filled the entire deserted island, and people fell to the ground one after another, struggling a few times before no longer moving.

A few minutes later, Tang Zhen turned off the infrasonic wave generator and slowly walked toward the center of the deserted island.

Tang Zhen arrived in front of the shipping containers. He casually opened one of the containers and casually checked it.

There were indeed things in the container that he wanted. At this point, the SST did not play any tricks.

This didn't mean that the people from SST were sincere in making a deal with Tang Zhen, but in order to ensure that they would take the bait, they had spent a little more effort on the bait.

They didn't know if Tang Zhen would monitor the transportation of these materials. If Tang Zhen found out that the SST was up to something from the start, there was no need to continue this transaction.

After checking all the containers, Tang Zhen activated the [holographic camouflage light screen] and covered all the containers.

From now on, even if Tang Zhen moved the containers away, no one would be able to see anything unusual from the outside.

One, two, three kasayas

After about half an hour, Tang Zhen had moved all these containers back to Holy Dragon City.

After turning off the holographic camouflage screen, Tang Zhen looked around and a mocking smile appeared on his face.

“Hurry up and come out. You’ve been watching for half an hour. Aren’t you tired?”

Tang Zhen’s voice continued to reverberate on the deserted island. However, no one appeared from the beginning until the end. There was only the sound of the waves that continued to be transmitted into his ears.

“You’re not coming out? then I’ll go first. Remember to thank those guys at SST for me!

As for these materials, just take it as compensation for the interruption from the SST last time. If you want the experimental equipment, it will depend on my mood!”

Tang Zhen slowly walked toward the shore after saying this. He had a pleased and content expression.

During the entire process of Tang Zhen walking to the beach, there was still no one who appeared. It was as if he was the only one left on this deserted island.

However, just as Tang Zhen was passing by a stretch of huge rocks, a cold light suddenly appeared and headed straight for Tang Zhen’s back.

“After enduring for so long, he has finally appeared!”

Tang Zhen fiercely pulled out a demon weapon and ruthlessly slashed at the cold light.

?

Chapter 268: The woman in the celestial Army

“Swish!”

A burst of flames flashed. The weapon used by the other party actually blocked Tang Zhen’s demon weapon and was not directly cut in two.

“The weapon is not bad. Now this is interesting!”

Although the attacker’s weapon was not broken, the force of the demon saber sent the attacker flying and crashing into a rock.

A trace of bewilderment flashed across Tang Zhen’s eyes as he looked at the dying Ambusher. He sized up the other party’s equipment without blinking.

This person was wearing a strange black combat suit that completely covered his body, even his eyes were covered.

With just a glance, Tang Zhen was certain that the cost of making this combat suit was extremely high. It was clearly a high-tech product!

What surprised Tang Zhen was that the sneak attacker's overall quality was extremely high. His strength and speed were actually equivalent to a Rank 2 cultivator!

In the original world, it was Tang Zhen's first time coming into contact with a human with such a physical fitness. This involuntarily caused him to feel extremely curious.

According to the scan of the [all-rounded digital combat interface], the vital signs of the Ambusher had completely disappeared, which meant that he was completely dead.

Tang Zhen picked up the Ambusher's weapon and discovered that it was made of an unknown material. After it took a blow from the demon soldier's saber, it only left a crack on the blade.

If this kind of weapon could be mass-produced, could it replace magic weapons and become the Holy Dragon city's standard equipment?

Just as Tang Zhen was quietly pondering about the material of this weapon, two cold glints once again attacked and headed straight for Tang Zhen's vital points.

Tang Zhen slightly lowered his body and dodged the sneak attack from behind. At the same time, two sharp military knives appeared in his hands and he directly threw them out.

"Pfft!"

The two military knives carried great force as they pierced through the tough combat suit and stabbed into the chests of the two ambushers.

The Ambusher's body stiffened. After twisting a few times, he fell limply to the ground.

It was another two men in the same combat suit. There were also traces of electric light flashing at the place where the military saber was inserted in their chest.

Their combat suits were also visible from time to time, and sometimes their appearance would be exactly the same as the scenery on the ground.

this combat suit can actually achieve invisibility. Interesting!

Compared to the [quantum invisibility screen] used by Tang Zhen, the invisibility effect of this combat suit was extremely poor when moving. However, when it was still, it could very effectively integrate into the surrounding environment.

If they did not move, it would be very difficult for Tang Zhen to discover their existence.

Tang Zhen casually put away the bodies of the two ambushers. At the same time, he held the weapons they used in his hands.

It was a weapon that looked like a traditional Japanese saber, but it was more than three times heavier than an ordinary Japanese saber.

The strength of these two ambushers was close to that of a Rank 2 cultivator. From their weapons and equipment, they should belong to the same group!

Tang Zhen did not expect that in his original world, there would actually be a human with such abnormal physical abilities. He had even formed an organization.

However, there was one thing that Tang Zhen was sure of. This kind of human was extremely rare. There were probably only a few of them in the entire spa!

Compared to ordinary people, Level 2 cultivators were already very powerful. He wondered if this was the limit of their physical strength.

“Bang!”

A dazzling flash appeared, followed by countless crossbow arrows coming from all directions towards Tang Zhen. Their speed was not inferior to bullets.

This crossbow bolt had been specially modified to have a high-voltage electric shock and a strong anesthetic effect that lasted for two minutes. If an ordinary person was hit, they would definitely be captured.

Tang Zhen roared loudly. A Divine Art protective barrier appeared around his body and blocked all the crossbow arrows!

The protective barrier was removed. Tang Zhen casually waved his hand and more than half of the crossbow arrows landed in his hand. He then threw them out!

A few screams were heard at the same time. Those guys who sneaked an attack on Tang Zhen were all locked on by Tang Zhen. Each of them had at least five crossbow arrows stuck in their bodies.

The high-voltage electric current and powerful anesthetic took effect at the same time, and with the piercing damage of the crossbow arrows, even though these sneak attackers were far stronger than ordinary people, they were killed instantly.

Tang Zhen walked to the side of one of the ambushers “corpses and picked up a multi-barrel generator. Those crossbow arrows were fired using this thing.

After storing the crossbow launcher in his storage space, Tang Zhen suddenly turned his head and looked at the beach behind him.

Over ten human figures that were continuously flickering appeared. They swiftly approached Tang Zhen and surrounded him.

One of the ambushers, who was wearing a black combat suit and had a slim figure, walked in front of Tang Zhen and spoke in the Asian Alliance language, “Mr Tang Zhen’s strength is indeed worthy of his reputation. He’s actually safe and sound even under the repeated siege of the celestial God troops!

but that's the end of the show. Now that the deserted island has been locked on by missiles, as long as I give the order, it will be razed to the ground!

I advise you to surrender as soon as possible and listen to our arrangements. Otherwise, you will die today!"

"All of you really think too highly of yourselves. The so-called celestial God troops are nothing but trash in my eyes!" Tang Zhen laughed in disdain when he heard this.

you want to threaten me with a missile? I'm surprised you came up with this idea!

Tang Zhen's voice had just faded when his body suddenly flashed. His sharp Japanese sword had already attacked the two members of the heavenly gods unit.

Before the two of them could react, Tang Zhen had already cut their bodies in half. Fresh blood instantly dyed the beach Red!

Tang Zhen's sudden attack caught the heavenly gods troops off guard. However, they instantly reacted and began to attack Tang Zhen.

Guns, Wei Island guns, and even taser guns were all aimed at Tang Zhen.

However, their strength was far inferior to Tang Zhen's. In less than ten seconds, these people had all fallen on the beach.

The cultivation of the woman who was talking to Tang Zhen was obviously higher than that of her companions. She had already reached the standard of a rank 3 cultivator.

But even so, she was still not Tang Zhen's match and was knocked unconscious by a punch from Tang Zhen.

Tang Zhen naturally had his own purpose in leaving this woman behind.

After the woman was knocked unconscious, Tang Zhen saw a white shadow flash by from the map view. At the same time, a sense of crisis struck his heart.

"Missiles!"

This thought appeared in Tang Zhen's mind. He immediately grabbed the woman's combat suit and activated the [instant teleportation map plug-in]!

A few seconds after he disappeared, a missile bombarded the place where Tang Zhen was at earlier, blasting the deserted island into rubble.

Tang Zhen's figure appeared out of thin air on the sea surface a few kilometers away.

At the same time, a yacht appeared on the surface of the sea and firmly caught Tang Zhen who was falling from the sky.

After throwing the unconscious woman onto the deck, Tang Zhen drove the yacht and rapidly rushed towards the shore.

.....

Tang Zhen was currently sitting on a chair in a house near the outskirts of the city. He was studying the weapons and equipment used by the celestial God troops.

This house, which had not been occupied for a long time, became Tang Zhen's temporary residence.

On the floor behind him, there was a tall woman in a black tights.

The woman was young, with a delicate face and graceful curves. She was currently unconscious.

She was the celestial God unit member that Tang Zhen had brought back. After stripping her of her combat uniform, Tang Zhen had directly thrown her onto the ground.

The combat suit she was wearing was currently placed on the table in front of Tang Zhen and was being studied from inside out.

A soft moan was transmitted over. Tang Zhen turned his head around and looked at the lady.

"Since you're awake, let's have a good talk!"

Tang Zhen looked at the woman who had stood up from the ground and spoke with a soft smile.

?

Chapter 269: the tamed Miki Saka

After the woman from the celestial God unit woke up, she didn't make a fuss. Instead, she stared at Tang Zhen in silence.

From her constantly blinking eyes, it could be seen that this woman was analyzing her environment and at the same time, coming up with a way to escape.

Tang Zhen's eyes contained a cold glint. His gaze swept over the graceful body that caused the man's mouth to dry up. He could sense a hidden violent strength from it.

This beautiful woman could definitely unleash a terrifying power in an instant and twist off the head of a strong man!

"I advise you not to make any pointless struggles. Your strength is not even worth mentioning in front of me. Do you understand?"

Tang Zhen fiddled with an electric bolt as he warned the woman.

That woman slowly relaxed her tensed body when she heard this. She said to Tang Zhen, "Mr. Tang Zhen, you should know where you are. This is our SST's home ground!"

You lack sufficient understanding of SST.

No matter how capable you are, I believe you can't go against the power of a country.

But we, not, can borrow the military power of the Wei Island at any time, so that you have nowhere to hide!

So I advise you to surrender as soon as possible and cooperate with us obediently. This way, you can still receive the treatment of a VIP. Otherwise, you will only become a prisoner!”

The more this woman spoke, the stronger her aura became. It was as if Tang Zhen was in a weak position and was destined to be unable to escape their pursuit.

She was obviously very superstitious about the power of the organization behind her and thought that her organization was omnipotent!

However, her words caused Tang Zhen to sneer.

“I don’t know what spa did to give you such a strong self-confidence to make you say such ridiculous words.

I’ve killed all your men in the kimchi Kingdom.

I’ve moved all the experimental equipment and research materials from your well-guarded SST Underground Research Institute!

I’ve also moved away all the supplies you left on the deserted island and killed all the members of the celestial deity Army other than you!

I’m the winner in every battle. Do you know what this means?”

After Tang Zhen said this, he looked at the woman and shouted, “Miki Saka, I’m asking you, do you know?”

Hearing Zhen Tang suddenly call out her name, Miki Saka was slightly stunned. Her body could not help but tremble.

Her name was a secret, and she usually used code names. How did this man know?

Misaka Miki immediately became flustered, and her self-confidence wavered.

“I don’t know!”

Tang Zhen suddenly pounced on Miki Saka and pushed her to the corner of the wall. A large hand grabbed her slender neck and pushed her to the corner.

Zhen Tang raised his other hand and spread it open in front of her as he looked at the struggling Miki Saka.

A soybean-sized metal object appeared in Zhen Tang’s palm. It looked extremely ordinary, but when Saka Miki saw this item, a trace of panic flashed in her eyes.

this is the locator I took out from your arm. Now that it’s completely destroyed, your organization doesn’t know your location at all.

if you’re still planning to wait for SST to save you, I’d advise you to give up!

I’ve erased all the information that can determine your location. The only person who can save you now is yourself!

Tang Zhen pulled Miki Saka to the edge of the window. He pointed at the ships that were anchored by the sea in the distance and said to Miki Saka, do you see those cargo ships by the sea? pick one for me now!

Misaka Miki didn't know what was going on, but under the pressure of Zhen Tang's terrifying aura, she could only choose a cargo ship.

the third ship from the left, the yellow one.

Tang Zhen nodded. He pinched Miki Saka's chin and softly said in her ear, "Now you and I will let you know how laughable your thoughts are!"

As he spoke, Tang Zhen secretly used a Holy master skill that he had exchanged for earlier.

[mental enslavement. You can add mental power attacks to your words, causing the weak-willed to completely collapse and lose confidence. At the same time, they will fear the spell caster and yield to the spell caster to varying degrees.]

This was a Holy master skill that could control low-level cultivators. The greater the difference in power between the two, the more obvious the effect.

After obtaining this skill, Tang Zhen had never had the chance to use it. Now, he finally had the chance to use it.

As soon as Tang Zhen's voice fell, Miki Saka saw a flash of light. The freighter she had chosen in the distance instantly caught fire, and a violent explosion rang out at the same time!

The cargo ship was severely damaged. If there were no accidents, this cargo ship could be considered completely useless!

"How is this Yingluo possible?"

Misaka Miki was dumbfounded. She did not expect that a casual point of her finger would determine the existence of a cargo ship!

However, Misaka Miki knew that the one who really destroyed the freighter was the demonic man beside her!

The self-confidence in her heart instantly crumbled. Her mind was filled with the various things that Tang Zhen had done, and a sense of powerlessness quickly overwhelmed Miki Saka's heart.

That's right, according to the power he had displayed, who could subdue him?

What was wrong with her back then? why was she so confident? it was as if she was possessed and thought that she would definitely be able to catch him?

In the end, half of the members of the celestial troops had died because of him, and he had also fallen into his hands. His life and death were completely in this man's hands, and he had no ability to resist!

He simply couldn't resist him. If he wanted to live, he had to listen to his orders without any resistance!

After thinking about this, Miki Saka's body became weaker and weaker. In the end, she collapsed in the corner of the wall with a disheartened expression.

The effect of mental enslavement was evident. Miki Saka had completely lost all thoughts of resisting.

Tang Zhen coldly looked at this woman as a trace of disdain flashed across his eyes.

He didn't expect that Miki Saka's mental power was so weak despite her strong physical strength.

It seemed like the method they used to increase their strength had an extremely obvious flaw!

The physical body was strong, but the soul was not much different from that of an ordinary person. Once it was attacked in the mental aspect, it would immediately collapse.

If he had known this earlier, he would have used [mental intimidation] directly. Why would he waste a chance to use the death ray weapon in order to enhance the persuasion effect?

Looking at the dazed Miki Saka, Tang Zhen knew that she had completely lost the courage to fight him.

"Miki Saka, come over here!"

Tang Zhen looked at the woman who had limply collapsed at the corner of the wall and coldly snorted.

After hearing Tang Zhen's voice, Miki Saka's delicate body trembled slightly. However, she stood up without any hesitation and walked over to Tang Zhen with her long legs.

"Massage my legs, be gentler!"

When Miki shahua heard this, she immediately squatted down, placed Tang Zhen's legs on her own, and gently hammered them.

The black tights outlined Miki Saka's body in an extremely alluring manner. While she was beating her legs, there was a constant vibration of waves that rhythmically touched Zhen Tang's legs.

The double stimulation of sight and touch caused Tang Zhen to unconsciously have a normal man's reaction. This scene was also noticed by Misaka Miki.

The pair of small hands that were hammering his legs slowly moved upwards. When they reached the end, the hammering also became a caress.

Tang Zhen's eyes were fixed on Miki Saka. The other party gave a charming smile and gently lowered her head to tease her.

?

Chapter 270: Heading to the celestial Army Headquarters

In a slightly dilapidated house, Tang Zhen was sitting on a chair. Behind him was an obedient-looking Miki Saka.

Both of her hands were placed on Tang Zhen's shoulders as she gently massaged him.

“You’re saying that the headquarters of the celestial God unit is on the top floor of the building, and the weapons and equipment research Institute you use is also there?”

In Tang Zhen’s field of vision, the 3D structure of a tall building was constantly changing. All the details of the interior were also accurately displayed.

“Indeed,”

Miki sahua nodded and said, “After the 30th floor, the security of the building will gradually increase, and ordinary people will not be allowed to approach.

If you want to enter the top floor of the celestial Army’s headquarters, you have to either take a special elevator controlled by the top floor or take a helicopter. There are no other ways to enter.”

“We usually take a special helicopter to leave when we carry out missions. We rarely use that elevator.”

&Nbsp; Tang Zhen nodded and asked, “if you return to spa now, you will definitely arouse their suspicion. So, it’s best for you to go directly to kimchi country and find the person I’m talking about.

Misaka Miki hesitated for a moment before she nodded.

The truth was as Tang Zhen had said. After this operation failed, other than having to bear the punishment for the failure, as the only survivor on the deserted island, it was absolutely inevitable for her to be suspected and investigated.

Miki Saka shuddered at the thought of the interrogation methods of the celestial troops.

After witnessing Tang Zhen’s magical means, Miki Saka, who had always thought that she had reached the limit of human strength, suddenly realized that she was not that strong.

The man in front of her was the real powerhouse!

The power of the mortal world could not conquer him at all, but he had easily conquered himself from the heart to the body.

Miki Saka felt extremely honored to be able to serve such a powerful person.

After making arrangements for Miki sahua, Tang Zhen left the house and headed to the skyscraper where the celestial God troops ‘headquarters was located.

He had kept Miki Saka around in the beginning to find the headquarters of the celestial troops and obtain detailed information on the production of combat suits and weapons.

Although the [all-purpose electronic kit] was omnipotent on the internet, it was also helpless when it came to information that wasn’t available on the internet.

Thus, only by asking the members of the celestial God unit would they be able to obtain the exact location of the celestial God unit’s headquarters.

This was a very important matter for Tang Zhen. If the materials for the Japanese swords could be mass-produced, Tang Zhen would no longer have to worry about the materials for forging mo weapons.

After changing his appearance through the application, Tang Zhen took a civilian vehicle and headed to the skyscraper of the celestial deity Army's headquarters in the second largest city on the Wei Island.

Four hours later, Tang Zhen got out of the car and began to stroll on the streets.

As the weather turned cold, the clothes of the pedestrians on the street were much thicker, but there were still many women with their legs exposed walking by in a hurry.

The building he was going to sneak into was located in a bustling Street. There were too many people during the day, so Tang Zhen decided to take action at night.

The thing that Tang Zhen needed to do now was to stroll the streets and communicate with his subordinates.

Tang Zhen had been paying close attention to the events in the original world, and the current development was considered smooth.

With the help of Ivanov and the others, Xu Feng had already gained a foothold in the Asian Alliance. On the surface, he was now the boss of a company.

His younger sister worked in his company and was under extremely strict protection.

Ivanov was currently in a coastal city of the ice Bear Alliance. He was also doing well, and the power he controlled was growing.

The kimchi country was also progressing smoothly, and it would not take long for a new generation of virtual reality games to be launched on the market.

Now, the news often reported about this, which made the people of kimchi country proud again.

Tang Zhen only felt that their attitude was funny.

The fundamental reason for the emergence of this virtual game technology was that Tang Zhen needed a large number of users to release soul signals to detect the location of the tower world.

If the kimchi country did not allow this technology to be promoted to the outside world and could only monopolize it, Tang Zhen did not mind to strengthen the extraction of soul power to make up for the lack of quantity.

However, if that was the case, all the players from the pickle nation who participated in the virtual game would have to face the terrible consequences of their soul power weakening!

They arrived at a small restaurant. Tang Zhen ordered some food and then took out his phone to browse the information on the internet.

Tang Zhen had already used this kind of traditional way of surfing the internet less and less. If it wasn't because staring straight ahead would cause a misunderstanding, Tang Zhen would definitely not use his phone to surf the internet.

Fortunately, after being modified by the [universal electronic tool], Tang Zhen could look at any information he wanted to see through his phone.

As he was reading, a message caught Tang Zhen's attention.

It turned out that the United States was going to hold an international weapons exhibition in a month's time. Many new weapons and equipment would be on display.

Although Tang Zhen currently had quite a number of weapons, they were basically all firearm type infantry weapons.

These weapons could be used in ordinary battles, but in the face of the upcoming disaster of the Cold Moon, they were somewhat lacking in strength.

Tang Zhen was currently in urgent need of some powerful city defense weapons. Perhaps he would be able to find a weapon that satisfied him in this international weapons exhibition.

Tang Zhen didn't mind spending money as long as it was a good weapon that could be used.

If one were to use gold to measure wealth, Tang Zhen's wealth could practically be described as a mountain!

If he had his eyes on any weapon, he could just go back to the cave in the Holy Dragon Valley and get a few carts of gold. What couldn't he buy?

After wandering around for a while, the sun gradually set in the West. Tang Zhen looked at the time and prepared to head to the building where the target was located.

Tang Zhen had just taken a few steps when he suddenly heard the sound of a quarrel from a short distance away. He turned his head and saw a man pulling and pulling the woman beside him.

The woman clutched the bag in her hands with all her might, while the man kept snatching it, cursing, and beating the woman at the same time.

After seeing this scene, Tang Zhen strolled over and knocked the man to the ground with a punch.

The woman, who had yet to recover from her shock, hurriedly hugged the leather bag in her arms. At the same time, she continuously thanked Tang Zhen.

Sweeping his gaze at the man who had fallen to the ground and could not get up, Tang Zhen said to the woman, "If he's going to Rob you, you can call the police now!"

That lady shook her head and said to Tang Zhen, this is my ex-husband. He's a gambler. Not only did he refuse to raise our child, but he also shamelessly tried to steal my salary!

After saying that, the woman couldn't help but cry softly.

Tang Zhen sized up this woman and discovered that her appearance was very beautiful. However, there was a trace of worry that could not be dispelled between her brows.

Since it was not a robbery, Tang Zhen was too lazy to care about this kind of thing. After telling the woman to go home quickly, Tang Zhen went straight to the building of the celestial deity Army, which was located in the bustling area.
