

Alternate 271

Chapter 271: sneaking in, intense battle on the top floor

As night fell, the city became more lively, but the busy areas during the day gradually quieted down.

In this world, there were always some things that needed to be carried out at night, because the night was the most natural means of cover.

Tang Zhen was wearing a black combat suit as he came to the back of the building and walked to a tightly shut iron door.

This was one of the building's fire exits. It would be locked at night and no one was allowed to enter or leave.

After using the [universal electronic kit] to fix the image displayed by the surveillance camera, Zhen Tang took out the purple electric dagger and cut open the lock of the iron door.

Gently pushing open the metal door, Tang Zhen walked into the stairs behind the door and started to move upwards.

He walked to the 30th floor unhurriedly and reached the end of the stairs. Tang Zhen opened the fire safety door of the stairs.

After walking for a distance in the dark corridor, Tang Zhen turned around and opened the door lock of a room before entering the office.

Tang Zhen didn't touch anything in the office. He just walked to the wall, took out the purple lightning short sword, and cut it.

The hard concrete wall was directly pierced through by the purple lightning short sword. Following the forceful slash of Tang Zhen's arm, a one meter square concrete block was separated from the wall.

After he removed the concrete block, a large dark hole was revealed in the wall, and cold wind blew in from time to time.

Behind the hole was the elevator shaft for the exclusive elevator on the top floor, but it was empty now.

For safety reasons, the elevator was raised to the top.

Tang Zhen placed the purple lightning short sword in his left hand and took out another demonic short sword. Then, he jumped and stuck it into the concrete wall of the elevator well.

The light body technique in the wristguard made Tang Zhen's body as light as a swallow. He only needed to use a little strength and he would be able to fly over ten meters high and touch the opposite wall.

The demon weapon short sword was inserted into the wall. Tang Zhen's legs once again exerted force and he could fly higher.

By taking this winding ascending route, Tang Zhen saw the elevator on the top floor in less than a minute.

After using the purple electric short sword to cut a hole at the bottom of the elevator, Zhen Tang directly entered the elevator.

After gently pushing open the closed elevator door, the location of the celestial God Army's headquarters appeared before Tang Zhen's eyes.

This was a Hall that was filled with a solemn atmosphere, giving people a very oppressive feeling.

Following the location information provided by Miki Saka, Tang Zhen headed straight for the Research Center.

Just as he arrived at the entrance of the experimental center, Tang Zhen saw two men coming out of the house.

The two of them were greatly shocked when they saw Tang Zhen, who was holding a weapon.

Before the two of them could cry out in alarm, Tang Zhen had already rushed over like an arrow and directly knocked the two of them unconscious on the ground.

After entering the Research Center, Tang Zhen's hands moved like lightning, knocking down all the staff members he saw.

He quickly activated the [all-purpose electronic kit] and began to hack into the internal network of the celestial Army Headquarters to download the information he needed.

A wave of hurried footsteps sounded out, mixed with the sound of giving orders. It was likely that Tang Zhen had already been discovered.

A few men in specially made combat suits rushed into the Research Center. They were stunned for a moment after they saw Tang Zhen's appearance.

At this moment, Tang Zhen had already removed his disguise. Therefore, the members of the celestial God unit were able to confirm Tang Zhen's identity with a single glance.

As the mission targets of the heavenly God troops, these heavenly God Warriors had seen Tang Zhen's photo before. At the same time, they also knew about the news of their comrades being completely annihilated on the deserted island.

This was an extremely heavy blow to the celestial troops.

After receiving this news, the remaining members of the celestial God unit were still immersed in a sad mood.

After all, these dead team members were friends they had spent every day with, and their relationship was very deep.

More importantly, their goddess team leader, Saka Miki, had also died on the deserted island, which made her crush even sadder.

Those who were able to go through the extremely cruel elimination process and enter the celestial deity Army were all people with extremely strong mental fortitude, and their ability to resist attacks was very strong.

A day's time had passed. They had already accepted this cruel reality and secretly swore in their hearts that they would definitely tear Tang Zhen's corpse into ten thousand pieces.

However, never in their wildest dreams did they expect that Tang Zhen would actually barge into the heavenly Gods Army's headquarters in such a grand manner just a day later!

When enemies met, their eyes would turn red. Without any hesitation, these celestial deity unit members charged straight at Tang Zhen.

They brandished their specially made Japanese knives and went straight for Tang Zhen's vital parts. It was obvious that they had the intention of not leaving him alive.

As members of the celestial God troops whose bodies far exceeded that of ordinary people, they were even more passionate about using cold weapons in combat. This was because firearms were far less effective than cold weapons in many cases!

However, the strength and speed that they were so proud of had all lost their advantage when they faced Tang Zhen.

Tang Zhen easily dodged the incoming blade. His body moved half a step forward and the purple lightning short sword in his hand sliced open the heavenly God warrior's throat.

With another swing of the sword, another heavenly God warrior's combat suit was pierced through. He clutched his chest and fell to the ground.

After killing two enemies in a row, Tang Zhen fiercely kicked out, sending a heavenly God warrior who was trying to attack in close range flying.

After the man hit the wall, he let out a muffled sound and fell to the ground, leaning against the wall. His chest had completely collapsed.

The remaining heavenly God Warriors were shocked when they saw that three of their comrades were killed in an instant. They finally realized how powerful Tang Zhen was.

Without any hesitation, these heavenly God soldiers swiftly withdrew from the Research Center and prepared to use the invisible assassination technique that they were most skilled in to deal with Tang Zhen.

The power supply to the top floor was cut off, and it was pitch black.

However, these heavenly God Warriors would never have imagined that Tang Zhen's combat strength would not be affected in the slightest in this dark environment.

Putting away the purple lightning short sword in his hand, Tang Zhen picked up two Japanese swords from the ground and began to walk out of the door.

Tang Zhen had just walked into the corridor when he felt a gust of wind behind his ears. Clearly, there was a heavenly God warrior in hiding who had launched a sneak attack.

Tang Zhen quickly turned around, and the Katana in his hand suddenly slashed upwards.

A spark from the collision of metal exploded in the pitch-black environment. Before the heavenly God soldier could withdraw his sword, Tang Zhen's other sword had already nailed him to the wall.

"Whoosh, whoosh, Whoosh!"

A wave of electric arrows came from the dark. Tang Zhen quickly dodged and at the same time, a Japanese sword flew out of his hand.

In a corner not too far away, the heavenly God soldier who fired the electric arrow was shot through the head by a Japanese sword, and he fell to the ground.

Tang Zhen pulled out the Katana from the body and continued to walk into the dark corridor.

After turning a corner, four Japanese knives immediately slashed down from the walls on both sides of Tang Zhen, blocking his way from all directions.

"You're looking for death!"

Tang Zhen shouted in a low voice as an incomparably piercing light erupted.

The helmets of these heavenly God Warriors had the function of night vision and preventing flash. However, the instant the switch was switched off, it was enough for Tang Zhen to reap their lives.

A Japanese sword was waved continuously, and a large amount of blood immediately burst out on the white wall. The four heavenly God Warriors whose stealth combat suits had been destroyed were immediately revealed.

Every slash that Tang Zhen sent out seemed to have cut through their bodies. These four people were already dead!

According to Miki Saha's information on the number of members of the celestial God unit, there were only five people left.

"Since we're here today, let's make the celestial troops disappear completely!"

Dragging the blood-dripping Wei Dao, Tang Zhen slowly walked towards the darkness ahead.

?

Chapter 272: clean up completed, retreat with ease!

The celestial gods unit's headquarters had an extremely good soundproofing effect. Currently, Tang Zhen was standing in the darkness and could only hear his own breathing.

According to Misaka Miki, these heavenly God Warriors had undergone inhuman training and had extremely strong endurance.

When in a state of concealment, one would not be able to find any clues.

That was the truth.

If it wasn't for the suppression of their levels, Tang Zhen might not have been able to deal with the sneak attack of these heavenly God Warriors so easily.

However, there weren't that many 'ifs' in the world. One's level of cultivation was also a reflection of one's strength. Only a one-sided crushing in a battle would be satisfying!

they're just a few rats that hide their heads and show their tails. They're not worth mentioning at all!

Tang Zhen didn't want to waste too much time on these people. He simply activated the [infrasonic wave generator] and covered the entire top floor of the building.

According to the height of this building, only the members of the celestial God unit would be attacked. Tang Zhen did not need to be afraid of harming the innocent.

Soon after, miserable cries were transmitted from different corners. Clearly, they were the heavenly God Warriors who were hiding in ambush and attempting to attack Tang Zhen.

From the seemingly normal ceiling, the figure of a heavenly God soldier suddenly fell down. The Katana in his hand fell to the ground, making a crisp sound.

He laid on the ground and clutched his chest. He raised his hand and pointed at Tang Zhen, "Uh, Yingluo, you're a Yingluo devil!"

After saying this, he no longer had the strength to support his body. His arms fell limply, and he no longer moved.

After getting rid of the remaining heavenly God Warriors, Tang Zhen began to clean up the building in search of anything of value.

It was not easy for him to climb up. How could Tang Zhen exchange for it empty-handed?

After making a round, Tang Zhen discovered the celestial God Army's Armory and swept it clean.

Just as he was about to search carefully, a few bright lights suddenly shot into the building from the outside.

armed helicopters, they're fast!

Tang Zhen saw that the other party's reinforcements had arrived and immediately retreated from the original route. There was no longer a need to stay here.

However, before they evacuated, Tang Zhen still left behind a modified large bomb. It was enough to destroy all traces of the top floor.

Tang Zhen took a few steps and rushed into the interior of the elevator well. He was like a spirit ape as he descended to the 30th floor in a short few seconds and crawled out of the hole.

Right now, the ground floor should be completely surrounded. There are assault helicopters in the sky, and the Secret Service personnel below are also making a surprise attack from the top. The stairs that I came from should also be blocked.

Even so, they can't stop me!

When Tang Zhen thought of this, he activated the [quantum invisibility light curtain] and quickly ran downstairs.

His movements were extremely gentle, and his landing was soundless. In addition, he was in an invisible state, so no one could discover his tracks.

“Thump thump thump!”

A series of hurried footsteps could be heard. It seemed like someone was going up the stairs.

Tang Zhen leaped up. His body immediately stuck to the ceiling of the stairs as he looked below without saying anything.

More than a dozen fully armed Secret Service personnel were slowly walking up the stairs, communicating with other combat teams from time to time.

the Air Team has already taken control of the top floor and is currently attacking!

we’ve entered the top floor. We’ve found traces of battle, but no enemies!

the roof is full of dead people. The enemy is missing!

“Damn it, he actually came up from the elevator shaft!”

other combat teams, pay attention. The target is very likely to be below the 30th level. This person is extremely dangerous, so you must be careful!

what’s this cricket, retreat, there’s a bomb cricket!

As the voice spoke, the Secret Service agents on the stairs felt the entire building shake slightly, and then a huge explosion came from the sky.

“Stop advancing!”

The leader of the combat Team raised his hand and clenched his fist as he issued an order.

After hearing the sound, the special combat personnel on the stairs realized what had happened.

Just now, the combat Team on the top floor had said that the target might be below the 30th floor. Where would he retreat from?

A sense of uneasiness crept into their hearts, and the Secret Service agents couldn’t help but look around.

One of the Secret Service agents raised his head and saw a shimmering Japanese sword coming straight for his face.

“Pfft!”

The knife pierced through the agent’s mask and came out from the back of his head.

“Enemy attack, above us!”

The leader of the combat Team shouted and immediately raised his gun to aim above his head.

However, just as he raised the gun and had yet to shoot, the leader suddenly felt a bone-chilling coldness penetrate his chest, and his strong body lost all strength in an instant.

The team leader took a deep breath, but he felt as if all the air he inhaled had escaped from his chest.

At the same time, blood gushed out from his mouth and nose.

“Pa da!”

The leader’s weapon fell to the ground, and his body broke into two, falling to the ground together. 1

In the last moment of his unconsciousness, the team leader saw a man with a Japanese sword dripping with blood appear out of thin air. After picking up all the weapons on the ground, he turned around and looked at him.

his eyes are so sharp, hehe! 1

After the last thought appeared in the leader’s mind, he lost consciousness and fell into eternal darkness.

After finishing off this Combat Team, Tang Zhen did not continue to stay and quickly ran downstairs.

In just a few minutes, someone would discover that this Combat Team had lost contact. At the same time, they would lock onto Tang Zhen’s retreat route based on their attack Position.

Although Tang Zhen wasn’t afraid of being surrounded by a large number of soldiers, it would be meaningless if that happened.

He was getting more and more fond of this kind of elusive way of moving, and he was quite enjoying it.

Not long after, Tang Zhen arrived at the safety exit of the first floor and directly killed the two Secret Service personnel who were blocking the door!

After taking off the other party’s clothes and changing into them, Tang Zhen turned into a secret Service personnel in the blink of an eye. There was no abnormality in his appearance. 1

Tang Zhen picked up a submachine gun from the ground and inspected it before opening the metal door and walking out.

Just as he had predicted, the entire building was cordoned off by a large number of police cars.

However, the explosion just now had destroyed the blockade, and the ground was now covered with building debris, dust-covered police cars, and groaning injured people.

Because they were too close, these people enjoyed a free dust bath!

The scene was filled with panicked crowds everywhere. Hence, no one noticed Tang Zhen’s appearance at all.

Even if someone noticed him, they wouldn’t pay him any more attention after seeing him in the uniform of a Secret Service agent.

The explosion on the top floor acted as a cover for Tang Zhen. Otherwise, under normal circumstances, even if Tang Zhen disguised himself as a Secret Service agent, he would be suspected and interrogated!

Tang Zhen quietly mixed into the noisy crowd. He opened a police car door and swaggered away.

?

Chapter 273: The helpless woman

As he drove the police car down the street, the noise behind him grew further and further away.

Tang Zhen took off his mask and casually threw it on the front passenger seat. He then turned on the radio.

The announcer's voice was heard. He was talking about the news of the building explosion and making various guesses about the cause of the incident.

Tang Zhen listened for a while and felt a little bored. He directly turned off the broadcast.

He planned to drive a little further and find a hidden place to put the police car away before teleporting back to the world of the tower.

Tang Zhen turned into a residential area along a Street. Just as he was planning to drive the police car into a corner, a figure suddenly rushed out and blocked his way.

From the graceful figure, he could confirm that it was a woman.

If it wasn't for Tang Zhen stopping the car in time, this woman would have been directly sent flying.

"Are you looking for death?"

Tang Zhen snorted. He was just about to continue forward when the woman who had stopped the car began to hit his window. Her movements were extremely hurried.

Tang Zhen was helpless and could only roll down the car window.

"What do you want?"

Tang Zhen looked at the woman outside the window and felt that she was a little familiar.

officer, my ex-husband brought a group of people to my house and threatened me with my child. He made me do things that I didn't want to do!

After saying this, the woman looked at Tang Zhen with a pleading gaze, "Please, I beg you, please help me!"

"How's the child? did he get hurt?" Tang Zhen slightly frowned and asked.

"No, they just refused to leave my house. I sneaked out to call the police!"

When the woman spoke, she sounded like she was about to cry.

Tang Zhen hesitated for a moment before he finally got out of the car. He looked at the woman who was wearing pajamas and exposed her smooth thighs and said, "Is it your gambling husband? he really doesn't know what's good for him!"

The woman was startled when she heard this. After carefully sizing up Tang Zhen a few times, she revealed a pleasantly surprised expression and asked, are you the gentleman who helped us out? I didn't expect you to be a police officer. Sorry to trouble you.

Tang Zhen pursed his lips. He was mumbling in his heart. Why were things so coincidental?

He had met this woman twice in a day, and both times when she was in trouble!

Was this considered as a hero saving a beauty?

Tang Zhen quietly shook his head. If he had not heard that the child was being controlled, he would not have bothered with this woman.

"Where's your home? lead the way!"

Tang Zhen tilted his head towards the woman and indicated for her to walk in front.

When the woman saw that Tang Zhen was dressed like a Secret Service agent and had a submachine gun in his hand, the uneasiness in her heart immediately dissipated a lot. She quickly led the way in front barefooted.

After walking for about a hundred meters, Tang Zhen followed the woman into a house. At the same time, a child's cry entered Tang Zhen's ears.

When the woman heard the child's cries, she immediately rushed into the house like a mad woman.

A series of men's curses rang out. Tang Zhen had just entered the house when he saw five men standing in the house. The woman's gambling addict ex-husband was currently tearing the woman's hair, while a little girl was hiding in a corner and crying loudly.

After seeing the fully armed Tang Zhen enter the room, these people were stunned for a moment. They could not help but take a step back.

At the same time, these men's gazes were constantly moving up and down the submachine gun in Tang Zhen's hand. Clearly, they had some apprehensions.

"Take the child to the bathroom and don't come out."

After Tang Zhen shouted at the woman with messy hair, his eyes stared at the woman's ex-husband.

Being stared at by Tang Zhen's sharp eyes, the woman's ex-husband immediately panicked and quickly let go of the woman's hair.

The woman immediately picked up the crying little girl on the ground and quickly ran into the bathroom. She held the door tightly and cried softly with the child in her arms.

"Officer, what do you mean by this?"

A man with a pair of muscular arms looked at Tang Zhen and asked in a provocative tone.

this is not something you can interfere with, so I advise you to leave quickly and consider your family. They are not police officers!

These men all had the support of forces behind them, so they were not afraid of ordinary police officers at all. Even if Tang Zhen was now fully armed, he could not scare them.

A gun could indeed kill people, but it couldn't kill people casually. This was the embodiment of the binding force of the system.

Tang Zhen turned his head to look at that man, only to discover that the man had lifted his chin. The corner of his mouth carried a trace of disdain as he looked at Tang Zhen without showing any weakness.

Tang Zhen could not help but laugh out loud after seeing this scene. However, his laughter was very cold.

Originally, he had only planned to scare these people away, but he didn't expect this guy to provoke him so recklessly.

He was really tired of living!

The man who was provoking him only felt his vision blur. Then, he felt that his throat was tightly locked. No matter how he struggled, he could not move an inch.

Seeing Tang Zhen stretch out his hand and actually easily lift up a strong man that weighed over two hundred Jin, the rest of the people were startled.

However, when they saw the brawny man's face turn from white to purple, the rest of them immediately realized that something was wrong. They pulled out the short knives at their waists and pounced toward Tang Zhen.

These men's movements were not messy, and their knife techniques were also very experienced. It was obvious that they had received special training.

Unfortunately, in Tang Zhen's eyes, he only felt that their movements were frighteningly slow and full of flaws.

Even if Tang Zhen exposed his chest for them to chop, those ordinary forging knives would not be able to harm the body of a Lord-tier cultivator!

"Ka BA"

Tang Zhen's fingers exerted a little force and the carotid artery of the brawny man was directly severed. It would not be long before he died from lack of oxygen in his brain.

After casually throwing away the man in his hand, Tang Zhen easily dodged the short knife that came at him and broke the neck of the second man.

He turned around to avoid the blade, but the third man's neck was broken!

Seeing that three of their companions had been killed by Tang Zhen in a row, the remaining people immediately panicked. They began to wave their short knives randomly, trying to rush out of the house.

Tang Zhen did not Dodge. He directly charged forward and killed the remaining people.

Tang Zhen dusted his hands and sat on the soft cushion on the ground. He faced the direction of the bathroom and said, "The matter has been resolved. You can come out."

The bathroom door was gently opened. The woman trembled as she carefully walked out and held the child's head in her arms.

The frightened little girl was lying quietly in her mother's arms. She had fallen asleep.

Tang Zhen glanced at the flustered woman and spoke in an emotionless tone, "These guys will never trouble you again. Are you satisfied with this result?"

The woman glanced at the dead bodies on the ground. Her body started to shake violently, and she closed her eyes.

Tang Zhen's eyes were fixed on the woman's expression as a playful smile surfaced on the corner of his mouth.

After being silent for a moment, the woman suddenly opened her eyes. There was a trace of determination and madness in her eyes as she looked at Tang Zhen.

thank you for your help. Since the matter has been resolved, please leave as soon as possible and leave the rest to me.

The woman bowed slightly to Tang Zhen. After that, she sent the sleeping little girl to the house inside. Then, she began to drag the corpses on the ground to the backyard.

A trace of an unknown smile surfaced on the corner of Tang Zhen's mouth when he saw this.

?

Chapter 274: The person to guard the Wei Island gate

There was a small piece of land in the backyard of the bungalow, enough to bury many things!

A strange expression flashed across Tang Zhen's eyes as he looked at the woman who was dragging the corpse with great effort.

He didn't expect this woman to have such a strong psychological quality. She actually accepted the reality in an extremely short time and then launched a self-rescue action.

Moreover, from her tone, it was clear that she wanted to take on this matter alone and bear the terrible consequences that might occur!

"Childish woman, you've thought of things too simply!"

If it were to happen, who would believe that this weak woman could kill several strong men with her bare hands?

Even if they couldn't find the bodies, just the suspicion and harassment from the organization behind the gangsters was enough to make this woman uncomfortable.

Since Tang Zhen had already done this, he would naturally help her get rid of all the trouble.

However, this woman's performance caused Tang Zhen's eyes to brighten.

Maybe he could try to train this woman and develop his own power on the island. Who knew, there might be unexpected gains!

After thinking of this, Tang Zhen said to the woman, "Do you know your current situation?"

The woman stopped the movement of her hands. She wiped the sweat on her forehead and said to Tang Zhen, "It's already like this, what's the point of thinking about that?"

Maybe it was because of the pressure, or maybe it was because the body was too heavy, but the woman's pajamas were already soaked in sweat and stuck to her body.

Her pair of long legs were also covered in sweat, which was very dazzling under the reflection of the light.

The woman knelt on the ground. Through the collar of her pajamas, Tang Zhen could clearly see the scenery inside.

However, the woman didn't notice any of this, or rather, she wouldn't care even if she did.

At this moment, her face was filled with confusion, but her eyes flashed with despair and madness.

This woman, who had been forced into a desperate situation, was now erupting with a power that made people's hearts palpitate.

"Don't you hate me?"

Tang Zhen looked at the woman on the ground and slowly walked in front of her.

Tang Zhen bent down and lifted her chin.

if I didn't get rid of these guys, you wouldn't have to face such a situation at all. So you should hate me, right? "

The woman's hair was in a mess. After Tang Zhen lifted her chin, she looked through the hair on her forehead that was drenched in sweat. She looked at Tang Zhen and said in a low voice, "Even if you didn't kill these bastards, I would have died in their hands sooner or later.

But now, not only can I drag them down with me, but there's also a chance of survival. Even if I really die, I won't lose anything!

Since that's the case, why should I hate you?"

The woman's voice was trembling, but her tone was firm.

The woman, who had been forced to a dead end, had a crazed desire for destruction in her heart. However, she still suppressed it in the bottom of her heart and did not release it completely.

Tang Zhen stared at the woman for a moment before nodding.

I can help you solve all your problems and let you and your daughter live a carefree life, but you have to be loyal to me and complete any task I give you!

After the woman, who was on the verge of a breakdown, heard this sentence, her eyes immediately emitted a ray of light. She knelt in front of Tang Zhen's feet without the slightest hesitation.

as long as you can help me tide over this crisis and allow my daughter to live a comfortable life, I won't hesitate even if I have to die now!

Tang Zhen looked at the woman who was kneeling on the ground and softly said, I won't ask you to die. Instead, I want you to live a glorious life. Otherwise, how can you complete the task I've arranged for you? "

"Stop kneeling, stand up!"

The woman stood up obediently and saw a scene that she would never forget.

The man just waved his hand and the body on the ground disappeared without a trace.

In the face of such a magical method, the woman did not know what to say.

However, one thing was for sure, and that was that he was safe!

It was also very likely that he would not have to worry about food and clothing and live a comfortable life with his daughter.

The woman, who was already in despair, suddenly had infinite hope in her heart, and the sorrow that could not be untied between her brows disappeared.

After bending over to clean up the floor, the woman walked in front of Tang Zhen, bowed and saluted,"You haven't eaten yet, right? do you need me to prepare?"

Tang Zhen was indeed a little hungry. He nodded his head when he heard this and sat at the side.

The woman immediately ran to the kitchen and started to get busy. Tang Zhen leaned against the wall and started to read the information obtained from the celestial God troop's headquarters.

What he was most concerned about was the information on the metal used to make the special Japanese knives, in order to confirm whether there was the possibility of mass production.

After searching for a while, Tang Zhen finally found the information he was looking for.

This was a special alloy material that involved forging, heat treatment, coating, and other techniques. It was far from as simple as Tang Zhen had imagined.

"When we arrive at the ice Bear Alliance in a few days, let Ivanov find an expert to see if we can mass produce it."

After Tang Zhen thought up to this point, he turned his attention back and looked at the dishes on the table.

This woman's cooking skills were very good. The food she made looked, smelled, and looked very appetizing.

"Please enjoy your meal. I'll go and pack up!"

After the woman placed the dishes on the table, she turned around and went into the bathroom. Soon, there was the sound of running water.

Tang Zhen's stomach had long been growling from hunger. Now that the delicious food was placed in front of him, he didn't care about anything else. He immediately picked up his bowl and ate.

After a table full of food was sent into Tang Zhen's stomach like a tornado, he let out a comfortable groan and leaned against the wall, unwilling to move.

After advancing to the Lord-rank, Tang Zhen would become hungry very quickly every time he started eating. This made him have no choice but to put a lot of food in his storage space.

I wonder if the other Overlord level cultivators in the world of Loucheng have the same problem? "

After Tang Zhen's cultivation reached the Lord level, even Mister Mo Ran was unable to give him any guidance or help in his cultivation. This was because it had already exceeded the scope of his experience.

For ordinary cultivators, the Lord-tier was a level that they would never be able to reach in their entire lives. Other than some rumors, they had never even seen a Lord-tier cultivator!

Only outside the area of the Cold Moon disaster, in those towers that had been passed down for countless years, could Tang Zhen obtain the relevant information about Lord-grade cultivators.

Tang Zhen was thinking about something in his heart when the bathroom door slowly opened. A woman with only a short bath towel around her body walked out.

Her long, smooth legs were exposed, and the bath towel barely covered her hips all the way to her chest.

It was voluptuous and enchanting.

Her half-dry hair had already been gently tied up, and her round face had a trace of shyness. She lowered her head and walked in front of Tang Zhen before kneeling down.

The fragrance of bath products assaulted him. The smell was very strong and directly pounced into Tang Zhen's nose.

"Do you need me to serve you?"

After seeing Tang Zhen nod his head, the woman stood up and slowly untied the bath towel on her body. She then sat on Tang Zhen's body and strode over.

?

Chapter 275: The preparations before intercepting the Hydra

On a Street late at night, a few strong men were guarding the door, smoking and chatting.

The sound of footsteps came, and a man in a trench coat walked over leisurely, a cigarette in his mouth.

After looking up at the surrounding buildings, the man went straight to the few strong men.

“Get lost, this is not a place for you to come!”

After seeing Tang Zhen approach, a white collared man blocked his path and loudly chided.

Tang Zhen swept a glance at the man. Without saying a word, he pulled the man’s shiny hair and continued to walk toward the door.

“Damn it!”

“Release him!”

Seeing this, the rest of the brawny men immediately surrounded them and cursed in anger, trying to save their companions.

In the end, they didn’t manage to save their companions. Instead, they were subdued by Tang Zhen and thrown into the door one after another.

Tang Zhen walked into the room and closed the door in the midst of wailing.

Ten minutes later, Tang Zhen walked out of the door. The building behind him was on fire!

It didn’t take long for the building to turn into a sea of fire, and no one managed to escape.

The fire engine’s alarm sounded from afar, but in the face of the building that had been completely burned to ruins, the firefighters could only try their best to suppress the fire, but they did not dare to approach.

In a corner not far away, Tang Zhen directly turned around and left after confirming that this organization no longer existed.

After the woman received a sum of money and the resurrection altar, she was now the gatekeeper of the island.

Soon, there would be help from the ice Bear Alliance and the Asian Alliance to help her, to ensure that she could get through the initial predicament.

After dealing with the small organization that threatened the women, Tang Zhen did not need to worry about the remaining matters.

In a hidden alley, Tang Zhen activated the transmission and returned to the tower world.

At this time, most of the residents in Holy Dragon City had already fallen asleep, but there was still a group of people busy.

In the huge cave, a group of Holy Dragon City residents were working overnight to make equipment for capturing water monsters.

In another corner of the cave, there was a completed machine.

There were weapons made according to the principle of the whaling cannon, huge ballistae, and special huge iron hooks.

After seeing these tools, Tang Zhen could already imagine the scene of blood flowing in the river.

After a round of inspection, Tang Zhen came to the mother tree.

He gave Lisa and the others 1000 soul crystals and asked them to try absorbing them.

According to Tang Zhen's guess, the ability of Lisa and the others to communicate with the mother tree should be a kind of talent similar to that of a Holy master.

Since Holy Masters could rely on soul crystals to cultivate and advance, Lisa and the others should be able to do the same.

If the effect was obvious, then Tang Zhen would really take action to move the meteorites at the bottom of the sinkhole back to Holy Dragon City and monopolize all the production of soul crystals.

The mother tree was extremely important to Tang Zhen. Therefore, as long as it could bring benefits to the mother tree, Tang Zhen would spare no effort to do it.

As for whether the cultivators who captured the soul crystal creatures would curse him after moving the meteorites away, Tang Zhen would not care at all.

In any case, it wouldn't take long for this group of people to die in the disaster of the Cold Moon. Even if they were lucky enough to survive, what could they do to Tang Zhen?

In this world where the strong were respected, if you wanted so-called fairness and justice, then please show your fists that were harder than the enemy. Otherwise, please get lost!

If they still didn't know what was good for them, they had to be prepared to lose their lives.

After checking everyone's cultivation progress, Tang Zhen returned to his room and quickly fell into a deep sleep.

Early the next morning, Tang Zhen went to the scene to personally command and began to set up an interception position on the river.

According to Zhen Tang's estimation, the flood would have filled the sinkhole early in the morning. At that time, a large number of water monsters would go against the current and return to the hole in the sky created by the demon-eye Tyrannosaurus.

Tang Zhen planned to leave half of the water monsters behind, so he had to make sufficient preparations.

For this operation, the Holy Dragon City had dispatched nearly five thousand people, forming a long line along the riverbank.

This was the largest operation in the history of Holy Dragon City. Almost all the residents of Holy Dragon City were mobilized.

Every resident had put in their best effort to ensure the success of this operation!

All kinds of equipment were installed and adjusted to ensure that there would be no problems during use.

Da Xiong led his Ogre brothers and swung their extra-large hammers, smashing the metal tubes into the ground.

The huge harpoon that was shot from the mounted crossbow would be connected to tough steel wires and then fixed to the hard metal tubes.

With the steel wire, the Hydra couldn't escape and could only stay in a fixed area.

At this time, the Holy Dragon city's soldiers would control their weapons and shoot them to death.

However, the entire process had to be clean and precise. Otherwise, the monster might break the steel wire and escape if it took too long.

Tang Zhen and Qian Long would each pilot a military helicopter and attack the water monsters from the air.

On the ground, in the air, and under the water, they blocked the Hydra from all directions.

If it wasn't for the fact that the water surface was too wide, Tang Zhen was even confident that he could keep all these water monsters here.

Tang Zhen had taken out all the weapons and equipment that could be used from the Holy Dragon city's Armory. He had brought over two carts of cannonballs!

Mortars, super light howitzer, and even grenade launchers that Tang Zhen got from the underground military warehouse of Wei Island were all pulled to the river.

Other than the personnel directly involved in the capture, there were also a large number of logistics personnel involved in the operation.

They would be in charge of handling the Hydra's corpses, providing food, and saving the injured.

When had Tang Zhen ever commanded such a large battle formation? In just a short while, he was so busy that his head was spinning. He had no choice but to distribute all the tasks and let everyone split up the work to manage.

In this way, Tang Zhen only needed to command and control the overall situation.

He ran to the newly built observation tower, took out a bottle of fruit juice, and gulped it down in one go.

Leaning on the folding chair, Tang Zhen began to observe the situation of the entire River through the map view.

He was holding a walkie-talkie in his hand. Whenever a problem was discovered, Tang Zhen would inform the relevant person-in-charge to deal with it.

Compared to the previous period of slacking off, the enthusiasm of these captives and the survivors of Black Rock City had clearly increased. Even some of the troublemakers had become more obedient.

The flood had destroyed earth Valley City and Redwater city. The escape route of these captives had been cut off. If they wanted to continue their lives, joining Holy Dragon City was their only choice.

Colossal bone city had the least number of prisoners, and after all the residents had arrived, they started working with peace of mind, no longer having any messy thoughts.

Among the four tower cities, only the tower City in the hundred Flower Valley suffered the least damage. Now, they all considered themselves as residents of the Holy Dragon City, so they were the most enthusiastic about their work.

When the Holy Dragon City was upgraded again, a large number of the survivors in the four towers would become new residents of the Holy Dragon City, becoming the new construction force of the Holy Dragon City.

Tang Zhen was silent as he looked at the turbulent river water in front of him.

Everything was ready, all they had to do was wait for the Hydra to return!

?

Chapter 276: Rivers of blood and mountains of corpses!

Tang Zhen did not know if he was hallucinating, but he felt that the turbulent river water had slowed down.

According to his estimation, the sinkhole should have been filled up by the flood, and the water monsters swimming in the sinkhole should be on their way back now!

Before the sky brightened, the Holy Dragon City was already brightly lit and noisy!

After a quick breakfast, the crowd started to rush to the riverbank.

In order to prevent any accidents from happening, Tang Zhen had distributed all the protective tools in Holy Dragon City to strengthen the defenses of the captives and the survivors of Black Rock City.

All the wasteland war chariots were deployed and parked at a certain distance. On them were machine gunners with serious expressions.

The Holy Dragon City soldiers armed with automatic rifles were divided into several capture teams, waiting in their respective areas.

In the other areas, there were Holy Dragon City cultivators, ogres, and the artillery troops even further away!

The long riverbank had been filled with human beings, and there was a capture team at a certain distance.

Tang Zhen sat in the armed helicopter and stared at the movement on the river surface, hoping to find the traces of the water monster as soon as possible.

A pitch-black back suddenly emerged from the water, followed by a second, and a third.

More and more water monsters appeared on the river surface, moving quickly against the current. Their black bodies almost filled the entire River.

“It’s finally here!”

A trace of excitement flashed across Tang Zhen’s eyes. He immediately passed down the order to all the capture teams.

When the Hydra finally entered the first group’s capture area, the long-awaited ballista and ballista immediately fired, piercing directly into the river.

“Pfft!”

The sharp metal fish spears, full of thorns, hit the water monsters and pierced their bodies. The pain made them jump out of the river, revealing most of their bodies.

When the monsters emerged from the water, the machine guns and automatic rifles began to fire, turning the water monsters into a bloody mess.

The Hydra wanted to escape, but it was held back by the steel wire and couldn’t break free.

However, the Hydra was extremely strong, and the steel rope might not last long.

A few Holy Dragon City Warriors took the opportunity to launch a rocket that directly hit the Hydra, blasting a terrible wound on its vital part.

When the water monster stopped struggling, the steel wire would quickly hang onto the car, and the car would slowly drag the water monster’s body to the shore.

The ogres, who were on standby, quickly ran over under the command of Big Bear and threw the Hydra’s body onto the car.

The car carrying the Hydra’s corpse immediately left the river bank and rushed towards the Holy Dragon City. There, someone would deal with the Hydra.

As the two Hydra in the first capture area were pulled away, the second and third capture areas also had their own gains. The Hydra that was shot began to struggle.

There were many water monsters in the river, and every attack of the capture team would inevitably yield some results.

More and more Hydra were pulled up to the shore, and the car couldn’t carry them over anymore. They might as well drain the blood and throw it casually in a wide area.

When the Hydra’s Vanguard broke through the last capture group’s sealed area, they were once again hit by the artillery.

Countless cannonballs fell into the river, setting off huge waves. At the same time, pieces of the Hydra’s flesh and blood flew into the sky.

Unlike the capture teams, the artilleries attacked indiscriminately. Almost all the water monsters that passed through this section of the river would be bombarded by artillery shells.

Some unlucky water monsters were killed in one blow, and their bodies would slowly move along with the current. Then, the captives would throw eight-clawed hooks and quickly drag them to the shore.

The injured Hydra was still swimming, ignoring the damage it had suffered, as if it was possessed.

Some of the severely injured water monsters were forced to swim downstream by the rapid current.

Among the Horde of Hydra, a Lord-tier Hydra ignored the cannon fire and charged out of the area blocked by the cannons.

Even though its skin was torn and its flesh was torn, it still did not endanger its life.

The powerful body of a Lord-tier creature was clearly displayed here.

Unfortunately, Tang Zhen, who was in the sky, had already set his eyes on it. Cannon bullets kept shooting into its body, and modified bombs also kept falling on the Lord-tier water monster.

In less than half a minute, the Lord-tier water monster was covered in wounds, and its swimming speed rapidly decreased.

Under the threat of death, the Lord-tier sea monster that was controlled by the magic-eye T-Rex's Secret technique finally regained a trace of its consciousness and began to attack the assault helicopters in the sky.

A water bullet shot out of the Lord-tier water monster's mouth and headed straight for Tang Zhen's plane.

Tang Zhen was already prepared. He immediately maneuvered the plane to avoid the attack. At the same time, a missile directly hit the Lord-tier water monster's mouth.

This missile directly blew up half of the Lord-tier water monster's head, causing it to wail in pain and fall heavily into the river.

Although the Lord-tier water monster had a strong life force, it was not far from death after taking such a heavy blow!

How could Tang Zhen miss such an opportunity to beat up the monster that had fallen into the water? The Cannon's bullets shot out, smashing the huge body that was floating in the water into pieces.

When the level up progress bar finally moved forward by a small grid, Tang Zhen finally stopped his attack.

After this battle, Tang Zhen had a direct understanding of the strength of Lord tier monsters.

This Lord-tier water monster was under the control of the magic-eye T-Rex and was in a state of confusion, which was why it was killed so easily!

If Tang Zhen wanted to kill it under normal circumstances, it would not be so simple.

Putting aside everything else, just the suppression in size was enough to give Tang Zhen a big headache.

Seeing the huge Lord-class water monster's body flowing down the river, Tang Zhen immediately picked up the walkie-talkie and ordered the captives to retrieve the body first.

Compared to a normal Hydra's corpse, a Lord-tier Hydra's corpse was extremely valuable. It could be said that it was a treasure inside out!

Such a good thing naturally had to be valued and treated with care.

Not far away, thousand Dragon was controlling a military helicopter, tailing a level five Hydra and attacking it continuously. It seemed like the battle was about to end.

Even though this was the last line of defense, Tang Zhen could still see countless water monsters moving forward in the water. Even though most of the water monsters were covered in injuries, they still stubbornly rushed upstream.

The demon-eye Tyrannosaurus was indeed a King-tier monster that specialized in mind control. It could easily control the life and death of these low-level water monsters.

Tang Zhen glanced at the back of the Holy Dragon City. His heart faintly felt uneasy.

Perhaps the magic-eyed Tyrannosaurus was silently watching everything that was happening on the riverbank from thousands of miles away.

Who knew if the demon-eye Tyrannosaurus had a killing move that he didn't know about, and could launch a mental attack on a target from 10000 miles away?

One couldn't be too ruthless, so Tang Zhen didn't kill them all. Instead, he let most of the Hydra rush through the sealed area. This way, the demon-eye Tyrannosaurus might not care about this small loss.

However, even if they only managed to capture a small portion of the Hydra, it was still a terrifying number.

The members of the capture team were in full swing. One by one, the water monsters were dragged ashore and then dragged to the side by the car.

Now, they focused on capturing the Hydra that had been injured by the shell. This was because such weak Hydra was easier to capture and their efficiency was greatly improved.

As far as the eye could see, the riverbank was filled with the corpses of the water monsters. Their blood had already gathered into a stream and was constantly flowing into the river.

The river water had been completely dyed red by blood, and there were even sticky bubbles on the surface. The river water had also become fishy.

On the wide riverbank, the cars kept shuttling back and forth, but they still couldn't move all the Hydra's bodies.

Another Lord-tier Hydra, covered in injuries, passed through the blockade and arrived at the water below the armed helicopter.

Tang Zhen, who was in the sky, was just about to operate the cannon to shoot when he suddenly felt a pain in his head. He almost drove the armed helicopter into the river.

At the same time, a faint voice drifted into Tang Zhen's mind before it disappeared without a sound.

Tang Zhen, who had stabilized the plane, frowned. He looked at the Lord-tier water monster that was slowly swimming by with an unwilling expression.

In the end, he sighed softly and let it swim up.

However, when he turned his head to look in the direction of the hole in the sky, an undetectable killing intent flashed across Tang Zhen's eyes.

?

Chapter 277: The sea monsters returning to the Starfall sea

The demon-eye Tyrannosaurus was just as he had guessed. It could use mental attacks from a long distance. The warning that had suddenly appeared in his mind was clearly from the demon-eye Tyrannosaurus!

Although he was ambushed, it allowed Tang Zhen to have a certain understanding of the demon-eye Tyrannosaurus 'ability.

This was the best it could do to use a spiritual attack from a distance!

Tang Zhen wouldn't treat the demon-eye Tyrannosaurus as a soft-hearted person. Since it couldn't kill him directly, it meant that it couldn't do it even with its ability.

Or rather, it could be done, but the price to pay was too high. Therefore, the demon-eye Tyrannosaurus didn't want to make a loss.

No matter what, he had to be more cautious!

After thinking up to this point, Tang Zhen informed Qian Long to cancel the air interception and controlled the assault Helicopter to land on the riverbank.

After jumping down from the plane, Tang Zhen lit a cigarette and stared at the river in silence.

Not long after, Qian Long walked over and stood beside Tang Zhen.

"City Lord, why did you suddenly give the order to stop the interception?"

Qian Long's face carried a trace of confusion as he asked Tang Zhen.

Tang Zhen smiled as he pointed at the river surface. He spoke to Qian Long, we caught the Hydra too ruthlessly, and it was unhappy, so it gave me a small warning!

Qian Long's expression changed upon hearing this and he asked, "Magic-eye Tyrannosaurus, Qianqian, are you alright?"

Tang Zhen shook his head, indicating that he had no problem with it.

Although his head was still a little groggy, it didn't affect his movements much, so there shouldn't be any side effects.

A thought flashed in Tang Zhen's mind. He casually took out a soul crystal and sat on the ground by the riverbank.

After he tried to absorb it, the dizziness immediately reduced a lot.

It seemed like he had suffered from the mental attack of the demon-eye Tyrannosaurus, and absorbing the soul crystal could alleviate the damage.

Tang Zhen leaped up from the ground and said to Qian Long, "I'm going to take a look at the hole in the sky. You and Tyson can keep an eye on this place. We can stop the capture at noon," Zhao Yu said.

we don't know much about the demon-eye T-Rex, so we have to be careful. If this guy has some other tricks up his sleeve, we can't afford the losses!

"No matter what, we've earned big, haven't we?"

After Tang Zhen said that, he turned around and jumped onto the assault Helicopter, heading straight for the hole in the sky.

Tang Zhen walked along the river. It did not take long before he faintly saw the torrent that descended from the sky.

Tang Zhen controlled the assault Helicopter to land on the ground and stored it in his storage space. He then began to walk toward the hole in the sky.

For safety's sake, Tang Zhen activated the [quantum invisibility light screen] and stealthily moved through the wilderness.

The hole in the sky was getting closer and closer, and it had already appeared in Tang Zhen's map view.

Tang Zhen immediately closed the distance and observed the situation within the hole.

The magic-eye Tyrannosaurus 'main body didn't appear behind the hole, but the situation in the river was very strange.

For some unknown reason, the Hydra gathered in the river and swam forward despite the impact of the flood.

Just as Tang Zhen was feeling suspicious, an abnormal situation suddenly appeared in the hole in the sky.

An indescribably thick tentacle suddenly appeared, quickly falling from the hole in the sky.

After the tentacle fell into the river, it casually touched the Hydra, and the countless suction cups on the tentacle caught the Hydra.

Then, the tentacle quickly retracted from the hole, bringing a long string of struggling Hydra behind it.

Tang Zhen made a rough estimate. In just one capture, the tentacle had brought over a hundred water monsters back to the back of the hole.

Such a capturing efficiency was more than a hundred times that of Holy Dragon City!

In less than five minutes, the huge tentacle reached out from the hole in the sky again and fell into the river.

In the blink of an eye, another group of Hydra was grabbed and brought behind the hole in the sky by the tentacles.

Tang Zhen stared at the scene before him without blinking. He secretly guessed the origin of the tentacles and wondered if they were also part of the demon-eye Tyrannosaurus 'body.

Time passed by slowly, and the number of water monsters in the river decreased.

A rough estimate showed that thousands of Hydra had been brought back to the back of the hole in the sky by the giant tentacles.

After a few more times, all the water monsters in the river would disappear.

At that time, would the hole in the sky automatically disappear?

When the last batch of water monsters was brought into the hole in the sky, Tang Zhen clearly saw a huge shadow flash behind them.

The shadow was huge and moved slowly behind the hole. Before long, a huge eyeball appeared behind the hole.

This was the demon Eye of the demon-eyed Tyrannosaurus!

As soon as Tang Zhen saw the demon Eye appear, he immediately switched from the map view to avoid being hit again.

Tang Zhen's previous experience was still fresh in his memory. Even if he was given a lot of courage, he would not dare to look at the demon Eye Tyrannosaurus in the eye.

The giant eyeball scanned the wilderness with a cold gaze and slowly disappeared behind the hole.

Tang Zhen let out a sigh of relief. He felt an invisible force Sweep across his body. If he wasn't wrong, it should be from the demon-eye Tyrannosaurus.

This fellow had obviously discovered that he was peeking at him, but he did not care about it at all. It was obvious that he did not place Tang Zhen, this little worm, in his eyes.

When the shadow in the sky completely disappeared, the lightning that was originally shining near the hole instantly became violent.

It was as if it had been suppressed before, but now the pressure was gone. The lightning and its speed repaired the hole in the sky.

The torrent in the sky began to weaken at a speed visible to the naked eye. After about half an hour, the last stream of water fell from the sky, and then there was no more water drop in the sky.

As he looked at the clear blue sky, Tang Zhen was practically unable to believe that there was still a torrent that had descended from the sky half an hour ago!

After taking out the assault Helicopter, Tang Zhen quickly jumped on it and went straight to the bottom of the hole in the sky.

Looking down from the sky, the place where the torrent had fallen had a huge and deep pit that looked extremely deep.

Since there was no water supply, the river had stopped flowing. The waves were as flat as a mirror, and it looked extremely magnificent.

There were countless fish and shrimp in the water, and it was an extremely high-quality source of food. Now that all the water monsters had disappeared, Tang Zhen also dared to use his fishing boat to carry out large-scale fishing.

“I need to go back to the island as soon as possible and get some fishing boats and fishing nets. We should be able to store a lot of food before the Cold Moon disaster arrives!” He said.

After Tang Zhen thought up to this point, he was about to return to Holy Dragon City. However, he unexpectedly discovered that there seemed to be some light flashing at the edge of the deep pit.

This flash of light made Tang Zhen’s heart skip a beat. He immediately maneuvered the plane to land. Then, he put on the underwater breathing insect and went straight to the location of the flash.

A strange diamond-like crystal was picked up by Tang Zhen under the sea that was more than ten meters deep.

Looking at the crystal that was constantly circulating with light, Tang Zhen concluded that this was a good thing!

?

Chapter 278: great harvest

Wearing the underwater breathing insect, Tang Zhen began to search for this kind of glittering crystal under the water.

After searching for half a day, Tang Zhen found a total of seven such crystals at the edge of the deep pit.

This crystal was as bright as a diamond. It didn’t need any light source and could flash with a fiery light from time to time.

Tang Zhen knew that there was definitely more than this kind of crystal stone, but he did not go deep into the huge pit to search.

There was no need to waste a lot of time on something he didn’t know the use of.

After keeping the crystal in his storage space, Tang Zhen boarded the military helicopter and headed straight for Holy Dragon City.

After returning to the Holy Dragon City, Tang Zhen discovered that the Riverside was still bustling.

The water monster in the river had disappeared, and the original capturing tools had been removed. They were all transported to the cave in the Holy Dragon City to be stored.

Now, the people were divided into countless small groups, shouting excitedly and busy transporting and dealing with the Hydra's corpses.

The captives used sharp blades to peel off the skin of the water monster, cut it into uniform strips, washed it, and stacked it.

After being processed, the Hydra's skin could be used to make leather armor with excellent defense, so it should not be wasted.

The Hydra's strong muscles were cut into large pieces, which would be made into cured meat and jerky for food storage.

All the transportation tools were used to send the Hydra meat to the Holy Dragon City without stopping, waiting for further processing.

Since there might be soul crystals in the Hydra's stomach, they had to dissect it and rummage for them. Therefore, the Holy Dragon Valley was filled with a pungent smell.

Now that the Hydra was gone, the river was safe, so the search for the organs had been moved to the Riverside.

This scene was very disgusting, and many people had already vomited more than once.

Tang Zhen walked to the side of the river and looked at the large group of captives rummaging through the stomach of the water monster. From time to time, they would throw soul crystal creatures into the big Basin next to them.

For some reason, the stomachs of the Hydra were quite clean, and the soul crystal creatures that were swallowed did not show any signs of digestion.

Not only were the soul crystal creatures undigested, but even the intestines of the Hydra monsters were empty!

It seemed that they had lost the function of digestion and hunting since they arrived in the wilderness. They had become mobile containers for hunting soul crystal creatures.

He didn't need to think to know that this was the work of the magic-eye T-Rex.

He believed that even if the Hydra returned to the devilfall sea, it would not be able to escape the fate of being devoured by the demon-eye T-Rex.

The strange ability that this king class monster possessed caused Tang Zhen to involuntarily be speechless.

In an open space not far away, a group of Holy Dragon City cultivators were picking soul crystals from the dead bodies of soul crystal creatures. The brain of the water monster was also placed there.

When he saw Tang Zhen walking over, Qian Long stepped forward and spoke a few words of concern before telling Tang Zhen about their current gains.

He had gained more than 1000 brain beads, and the number of soul crystals was still uncountable, but he had nearly 10000 at the moment.

If they were converted into brain beads, it would be a harvest of over ten million!

In addition to the countless water monsters' flesh, even Tang Zhen was a little shocked by the Holy Dragon city's harvest this time!

In that case, they should celebrate!

Tang Zhen's mood was very good. He informed the chef of the cafeteria to have an extra meal tonight. All the captives and survivors with excellent performance would be rewarded with a glass of white wine!

The Holy Dragon City didn't have that much alcohol in stock yet, so Tang Zhen had to return to the Wei Island to buy some.

After returning to his room to change and wash up, Tang Zhen was teleported to the original world's Wei Island.

Tang Zhen's figure appeared out of thin air in a hidden alley.

He was not the only one in the alley.

A young girl in a school uniform was standing against the wall, and a man was standing opposite her. "Humph, Humph, Humph, Humph," sounds could be heard continuously.

The man in the suit had one of his hands under the girl's clothes, and he was constantly kneading her with a face full of enjoyment.

The girl turned her head slightly. Her face was a little red. When she saw Tang Zhen's sudden appearance, the girl immediately screamed out in fear.

The man was also shocked. His lips trembled as he tried to say something, but the man who suddenly appeared ignored him and walked straight out of the alley.

where did this guy come from? he scared me!

The man wiped the sweat from his forehead and was about to reach into the girl's clothes again, but he was pushed away by her.

"It's almost time, you should pay!"

The girl said to the man after tidying her clothes.

The man hesitated for a moment, took out a bill from his wallet, and tempted the girl, "If you follow me to the hotel, I can give you more!"

The girl grabbed the notes in her hand and said with disdain, "Don't even think about it, I won't sleep with you!"

After that, the girl started to walk out of the alley. After thinking for a while, she said, "If it was that man just now, even if I had to spend money, I would be willing to spend a night with him!"

The man, who had suffered a huge blow, lowered his head, his face full of unwillingness.

The girl's eyes lit up as she looked at the spot where Tang Zhen had disappeared. She immediately chased after him with quick steps!

In a supermarket, Tang Zhen was choosing a variety of alcohol.

Due to Tang Zhen's large purchase volume, the supermarket arranged for a truck to deliver the goods to the place he specified.

In front of a row of shelves, Tang Zhen was holding a bottle of high alcohol and carefully examining it when a woman's voice suddenly sounded beside him.

"Are you preparing for a party? is that why you bought so much alcohol?"

Tang Zhen turned around and saw that it was the girl he had seen in the alley. She was looking at him with watery eyes.

Ignoring the girl, Tang Zhen held the bottle of wine in his hand and said to the supermarket salesgirl, "I want a thousand bottles of this."

"1000 bottles of this one as well!"

"I want 1000 barrels of these!"

The eyes of the girl behind him lit up. When she heard the man's tone, she felt as if her heart was about to melt.

He was so tall, so elegant, so cold!

She really wanted to be thrown onto the bed by him, and then ravage him without any pity!

The head of the infatuated girl was filled with messy scenes. The main character was Tang Zhen, who ignored her completely.

After walking around the supermarket, Tang Zhen paid the bill and followed the truck to Jiu Miko's house.

After being chosen by Tang Zhen to be the gatekeeper of the Wei Island, Kumi had moved out, and the house was temporarily requisitioned by Tang Zhen.

After the staff moved the wine to the courtyard, Tang Zhen locked the door and kept them in his storage space, sending them back to the Holy Dragon City.

A moment later, Tang Zhen appeared once again. He opened the courtyard door and walked out.

He also needed to purchase some fishing boats and fishing nets to fish in the river.

Because of the shortage of fuel, Tang Zhen didn't plan to use a moped to catch fish. Therefore, small fishing boats such as stainless steel became his first choice.

In the professional market, there were many small fishing ships for sale. Tang Zhen only needed to make a payment and wait for the goods to be delivered.

There were also many types of fishing nets, such as hand-cast nets, hanging nets, pulling nets, net cages, and so on. Tang Zhen planned to buy a batch of each.

Following the map's instructions, Tang Zhen quickly arrived at his destination.

After going around the market, Tang Zhen had purchased all the materials he needed, and each of them was in sufficient quantity.

Once again, the goods were sent to kummiko's house, all back to the Holy Dragon City.

From tomorrow onwards, these fishing tools would be distributed and they would begin to fish in the river.

The sky was getting dark, and the Holy Dragon city's banquet was about to begin!

?

Chapter 279: The Holy Dragon city's banquet

The Holy Dragon City was bustling with noise and laughter tonight.

Dozens of huge street lamps stood around the Holy Dragon City square. With the support of the lighting system of the glittergold race, each street lamp was like a small sun, shining brightly.

Under the illumination of the lights, the Holy Dragon Valley displayed a different kind of beauty that made people intoxicated.

Although the Holy Dragon city's Square was huge, it was filled with people with happy expressions.

It was their first time attending such a large-scale gathering, so they were very excited.

Whether it was the residents of the Holy Dragon City, the survivors, or the captives, they were all sitting on the ground, waiting for the dinner to begin.

Because there were too many people eating, the existing tables and chairs were definitely not enough, so they simply divided them into groups and sat on the stone slabs on the ground.

Someone roughly estimated that there were thousands of such groups in the square, neatly arranged.

The women lined up in a long line and walked through the passage that was specially left in the square. Then, they placed the tableware in the middle of the crowd.

When all the utensils were laid out, a group of men came over and placed bottles of wine in the middle of them.

After some people saw the exquisite-looking bottle, their faces were filled with curiosity, and they began to guess what was inside the bottle.

Every time this happened, the Holy Dragon City residents in the same group would proudly explain to these country bumpkins what was in the bottles, and then 'inadvertently' state the price of the bottles.

When they heard that the exquisite bottle contained wine, many people secretly sighed. Holy Dragon City was really rich and overbearing.

Those who had experience in exploring wild buildings began to whisper to each other, showing off their experiences and telling stories about how they had obtained this bottle of wine from wild buildings.

Some people calculated the price of the wine in bottles and were immediately left speechless.

There were thousands of tables in this banquet. Even if there was a bottle of wine on each table, there would be more than a thousand bottles. How many brain beads would it be worth if they were sold?

In the past, he had always heard the residents of the Holy Dragon City flaunt how rich they were. Now, it seemed that they were not lying!

After the wine was served, it was time for the food.

The water monster meat cooked in a large pot was placed in an iron basin and then served on the table one by one. Along the way, it emitted an extremely rich fragrance.

The water monster's meat cooked with thick oil and red sauce was not only delicious, but also had great benefits for the body. It was definitely a rare good thing.

The captives who had tried to eat the Hydra before were now in good health and high spirits.

As soon as the fragrant Hydra meat was served, everyone couldn't help but drool as they looked at the meat.

In addition to the water monster meat, each group was also given a lot of side dishes such as peanuts and sausages, all of which were packed food that Tang Zhen had bought from the supermarket.

When all the food had been served, everyone immediately began to eat and drink with a look of enjoyment on their faces.

Tang Zhen held a cup of wine and stood on the high stage that was temporarily built.

Looking at the over ten thousand people in the square, Tang Zhen couldn't help but think of the celebration banquet when the Holy Dragon City was first built.

At that time, the Holy Dragon City only had a few hundred people, but they had endured countless storms and developed until now, where their population exceeded ten thousand.

It would definitely be nonsense to say that Tang Zhen did not have a trace of pride in his heart.

He had poured all his efforts into the development of the Holy Dragon City. Every blade of grass and tree here bore witness to his relentless efforts.

Tang Zhen raised the wine cup in his hand. With the support of his Overlord cultivation base, his voice reverberated throughout the entire sacred Dragon Valley.

although the Holy Dragon City has only been established for a short period of time, it has developed extremely quickly. During this period, every citizen of the Holy Dragon City has put in great effort. I offer you my first cup of wine!

After Tang Zhen finished speaking, he raised his head and drank the wine in his hand in one gulp.

All the Holy Dragon city's residents who had raised their glasses stood up and raised their glasses to Tang Zhen from a distance. At the same time, they finished the wine in their glasses.

After sitting down, these Holy Dragon City citizens were full of emotion, telling the captives and survivors around them about the benefits of Holy Dragon City.

From the difficulties of the Holy Dragon city's establishment to the scenes of several monster sieges, everything came from their mouths.

Every time they got to the most exciting part, everyone even forgot to eat and listened carefully to the Holy Dragon City residents' stories, exclaiming from time to time!

They had never thought that so many exciting things would happen in Holy Dragon City. Just listening to it made them excited.

A moment later, Tang Zhen raised his second cup of wine and said to everyone, this second glass of wine is for the many people who participated in capturing the Hydra. Because of your hard work, the Holy Dragon City has gained so much today.

no matter what happened in the past, we are all living in Holy Dragon City now. Our descendants will also live here. The more powerful Holy Dragon City is, the better the welfare treatment of the residents.

if Holy Dragon City wants to be strong, it can't do without your help. So, please drink this cup of wine!

After Tang Zhen finished speaking, he finished the wine in his cup.

They didn't expect the city Lord to give them a toast. The captives and survivors who participated in the capture of the Hydra immediately stood up with a hint of excitement on their faces.

From Tang Zhen's words, they had already heard the information that made them excited.

It probably wouldn't take long for them to get rid of their awkward status and become official residents of Holy Dragon City.

His heart, which had been hanging in the air for a long time, finally settled down at this moment. At the same time, a sense of security rose from his heart.

After drinking a glass of wine, many people's faces were red, and they couldn't suppress their joy.

With a good mood and the wine to liven things up, the atmosphere in the square immediately became lively.

After a while, Tang Zhen raised his third glass of wine.

At this moment, the Holy Dragon city's Square immediately became silent. Everyone's line of sight was fixed on Tang Zhen.

Tang Zhen looked around the Plaza and spoke with a voice filled with strength, now that all the resources we need have been gathered, Holy Dragon City will soon be upgraded to a level 3 city. In the future, it will be upgraded to an even higher level city!

“Just like I said, it won’t be long before you all become residents of my Holy Dragon City, and the only Overlord within a hundred miles!”

“For the future of Holy Dragon City, for the fact that we are about to become a family, let’s have a toast!”

The Holy Dragon city’s Square immediately erupted with thunderous cheers, and everyone continuously shouted in excitement.

“Long live the city Lord!”

“Long live the Holy Dragon City!”

“To the powerful Holy Dragon City, cheers!”

Everyone drank the wine in their hands and then began to talk excitedly.

Tang Zhen returned to his seat and sat with Tai Seng and the others. Then, he picked up a piece of water monster meat and started eating.

The water monster meat was very delicious after cooking. Tang Zhen ate it very happily, and his heart was also filled with hope.

Chapter 280: cyclops pasture area

After stretching his back, Tang Zhen yawned as he walked out of the treehouse. He was in good spirits.

The morning in the sacred Dragon Valley was very beautiful. Even Tang Zhen, who had lived here for a long time, was once again deeply intoxicated by this beautiful scenery.

After admiring the scenery for a while, Tang Zhen stepped on the several meters wide branch of the mother tree and slid down a vine to the ground.

In the Holy Dragon City square, a large group of burly men were talking and laughing non-stop as they moved fishing nets and small boats to the carriage.

They were all prisoners and survivors with fishing experience and had now become full-time fishermen in the Holy Dragon City.

The various fishing nets purchased by Tang Zhen were treated as treasures by them. They were very careful when transporting them, afraid that they would damage these extremely exquisite things.

They immediately bowed and saluted when they saw Tang Zhen walking over. Their attitudes were extremely respectful.

From that day on, when these fishermen worked, no one would look after them except for the Holy Dragon City soldiers in charge of security.

Tang Zhen had told Tai Seng yesterday that since the captives and survivors already knew about the benefits of Holy Dragon City, there was no need to look after them.

If such conditions couldn't keep their hearts, then why force them to stay?

Since the city Lord had said so, Tai Seng and his men were happy to be idle, and the guards were removed, allowing these fishermen to go out of the city to fish.

Tang Zhen told the fishermen how to use the fishing gear and let them slowly gain experience in the fishing process.

After watching the fishing Team leave, Tang Zhen checked the workplace where the cured and smoked meat was handled.

Countless pieces of Hydra meat had been processed and stored in the dry cave.

The Hydra meat would be used as military supplies, and a large portion would be provided to the Holy Dragon city's Warriors and cultivators to improve their physical fitness.

After going around a few processing points, Tang Zhen came to the flashing gold race sanctuary.

The cleaning work at the bottom of the fallout shelter had entered its final stage. In two days, the fallout shelter would be empty.

After the underground building was built using the foundation of the sanctuary, this place would disappear from the world of buildings and no trace of its existence would be found.

After walking around, Tang Zhen came to the Holy Dragon city's Armory and began to choose a variety of weapons.

According to the clues provided by the half-elf Captain, combined with the geographical information collected during this period of time, Tang Zhen had roughly determined the location where the group of elf cultivators had encountered the Cyclops.

This time, he was going to the territory of the one-eyed giant to find the lost moonlight pebble.

Before the Holy Dragon City was built, Tang Zhen had once seen a Cyclops on a hunt while he was on his way.

With its huge body, terrifying strength, and violent personality, the Cyclops was definitely a monster more terrifying than the ogres!

If he wanted to deal with this kind of monster, it was not wise to fight them directly. Therefore, Tang Zhen planned to poison this group of people to death!

Last time, in the underground Research Institute of SST, Tang Zhen found a highly toxic drug similar to cyanide.

There was at least a kilogram of poison, and it was definitely enough to kill all the Cyclops!

The reason why Tang Zhen was so ruthless was mainly because he was afraid of the terrifying destructive power of the one-eyed giant.

If these big guys joined the team to attack the tower while Holy Dragon City was leveling up, it would definitely bring a lot of trouble to Holy Dragon City.

Prevention was better than cure. Therefore, Tang Zhen must get rid of them in advance!

After preparing the required items, Tang Zhen drove a military jeep, leaving a trail of dust behind as he headed towards his destination.

The road was desolate, and scattered bones could be seen from time to time.

Compared to the edge of the continent, the central region, which was covered by the Cold Moon disaster, was a barren land!

After some of the Wanderers wandering in the wilderness saw Tang Zhen's car, they were so frightened that they immediately ran into the grass. After which, they stuck their heads out and carefully observed.

In fact, the first thing the Wanderers did when they saw the car was confirm Tang Zhen's background.

It was because among all the forces nearby, only Holy Dragon City, which had destroyed five towers in a row, had such a strange transportation tool!

As the Holy Dragon city's reputation gradually spread, the Wanderers had a preliminary understanding of the Holy Dragon City. They also knew that there was a kind of metal carriage that could run at high speed in the Holy Dragon City.

Although the pillaging groups in the wilderness were unscrupulous, no one dared to set their sights on Holy Dragon City.

When they saw a car from the Holy Dragon City, the members of the pillaging group would hide far away.

The reason why these fierce guys were so cautious was that they knew that the Lou Cheng soldiers had a kind of flintlock that could fire continuously and was extremely powerful!

After the most powerful group of bandits in the vicinity had accidentally encountered the Holy Dragon city's convoy, they had a devious idea and wanted to Rob the Holy Dragon city's convoy responsible for catching fish.

Unfortunately, before the bandits could reach the convoy, they were all killed by the flintlock. The whole process took less than a minute!

Since then, all the pillaging groups knew the Holy Dragon city's power. When they encountered the Holy Dragon city's convoy, they would immediately run away.

The Holy Dragon city's position as the Overlord had already been established unknowingly!

Recently, there was a piece of news circulating in the wilderness. That was, Holy Dragon City was about to open a huge trading market. When the time came, there would be countless goods for sale.

I heard that the nearby forces have decided to go to Holy Dragon City to take a look. First, to make a deal, and second, to take the opportunity to observe the strength of Holy Dragon City!

Many Wanderers were also tempted because there were many job opportunities in such a trading market. If they could find a stable job, they and their families would no longer have to worry about food.

The establishment of the Holy Dragon city's trading market had attracted the attention of countless people in the wilderness!

During this period of time, Wanderers often came to the Holy Dragon City, requesting the Holy Dragon city's Warriors to give them a job that would provide them with food.

The Holy Dragon city's Warriors would allow these Wanderers to enter the commercial district and participate in the construction work after careful questioning.

The Holy Dragon city's population was slowly growing without them knowing.

The military jeep driven by Tang Zhen was driving very quickly, giving off a feeling of letting the horse reined in.

The scenery of this wilderness was similar to the Gobi Desert of the American Alliance in his original world. Driving without restraint, Tang Zhen soon saw a mountain peak that rose from the ground.

It wasn't right to call them mountain peaks, because they were more like some giant stone pillars that rose from the ground, scattered and abruptly appearing on the horizon.

This was the territory of the Cyclops. They controlled a large area nearby and did not allow anyone to approach.

There was a special plant growing in this area, which was the favorite food of some giant reptile. The Cyclops domesticated this reptile and used it as its main food.

In addition to this kind of reptile food, the one-eyed giant would also hunt some monsters and creatures to improve his food.

After Tang Zhen arrived at this area, he put the Jeep into his storage space.

After activating the [quantum invisibility screen], he ran toward the giant stone pillars.

After walking for a short while, Tang Zhen saw a group of huge insects that looked like hamster women on the grass.

The worm was about a meter long and lay flat on the grass, lazily gnawing on the purple moss on the ground.

There were many similar insect groups. Tang Zhen looked around and saw at least hundreds of these large insects.

The Cyclops 'pasture was full of this purple moss. There must be a lot of these big bugs, which could barely sustain their daily consumption.

Whenever the Cyclops felt that the number of insects had decreased, they would stop capturing them and let them reproduce for a period of time.

During this period of time, the one-eyed giant would go around hunting monsters and creatures of the hundred races as food for the transition period.

The team of elf cultivators decades ago was unlucky. They encountered a hunting Cyclops on their way, and all the elves were killed and became food for the Cyclops!
