Chapter 321: The blood slaughter Cavalry Regiment

As the four black-robed cultivators risked their lives to block the path, Qian Long and the others slowed down once more.

The rest of the black-robed cultivators wouldn't miss such a good opportunity. They used all their strength and quickly disappeared into the night.

As long as they put some distance between them and the Lou Cheng's soldiers, they would be able to escape safely.

The four black-robed cultivators who had tried their best to stop him had successfully delayed him for a while.

By the time Qian Long and the others had killed the four black-robed cultivators, the remaining black-robed cultivators were long gone.

Qian Long coldly glanced at the corpse on the ground and waved his hand, ordering the others to pursue.

At this time, a hundred miles away from the Holy Dragon City, a group of loucheng Warriors riding on mounts were rushing forward.

These people were dressed in crimson armor and held an extremely long Crimson saber in their hands. Their bodies were filled with killing intent.

The leader was a man in red armor. His face was filled with anxiety as he kept urging the Mount under him.

The underworld fireball that had suddenly appeared in the night sky earlier was the signal for help that he had agreed with the chief elder in advance. It would not be released unless it was absolutely necessary!

But it was also because of this that it meant that first elder and the others were in great danger!

the Holy Dragon City is so powerful that it forced the great elder to release the dark fireball? ”

The red-armored leader was very confused. It was just a small third-class city, but it could actually force the great elder of blood Sand City to such an extent. This matter was really unimaginable.

After the news of the application card being auctioned in the Holy Dragon City spread, it immediately attracted the attention of the dignitaries in loucheng.

They wanted to get that kind of application card, but they didn't want to give up their brains, which was why they had the plan to attack the caravans and the commercial district.

The plan to Rob Holy Dragon City was originally a small matter, and did not need to trouble high-level figures like the great elder to take action.

It was just that the great elder seemed to have some grudges with the Holy Dragon City, which was why he had volunteered to lead the team personally and execute this plan.

It was originally a simple mission, and now that the first elder was personally leading the team, it could definitely be completed easily.

But who would have thought that such an unforeseen event would occur!

“No matter what happened, get the first elder here first!”

After thinking up to this point, the Crimson-armored leader let out a loud roar, and the speed of the mounted beasts increased once again.

However, at this moment, several Blinding Lights suddenly appeared and blocked everyone’s path.

The galloping mounts were so frightened that they roared and stopped moving forward. The team was also forced to stop.

The red-armored leader’s riding skills were superb. With a little force, he controlled the panicking Mount under him.

It was only then that he had the time to examine the source of the strong light.

Although the light was blinding, the red-armored leader could still see a few strange-looking behemoths behind the light. There was also a large row of black shadows.

The red-armored leader was shocked. These people had appeared at the wrong time.

“Who are you? why are you blocking my way?”

As the red-armored leader shouted, the loucheng Warriors behind him all raised their sabers. Once they found something wrong, they would attack.

A man’s voice suddenly came from behind the bright light. It was rough and cold, ” “This is the Holy Dragon city’s area of control. Unauthorized people are not allowed to enter.

Go back to where you came from!

If you cross the line, kill without mercy!”

At the same time, the sound of swords being unsheathed could be heard, and killing intent filled the air.

The red-armored leader sneered and said disdainfully, ” who would dare to stop my blood Sand city’s blood killing cavalry from going to places they want to go? ”

a small level 3 city dares to be arrogant in front of me. You really don’t know what’s good for you!

“Make way immediately, or I’ll exterminate you immediately!”

As the red-armored leader shouted, the hundreds of riders raised their bloody massacre sabers at the same time and got into a charging formation.

With the huge impact of their mounts and the sharp bloody massacre battle blade, no one could stop their charge!

The blood Sand city's blood killer cavalry had relied on countless battles, trampling on the corpses of their enemies to gain their fame!

This was a real battle record, and it was definitely not something to brag about!

At this moment, as long as the leader gave the order, they would attack without hesitation.

Looking at the murderous bloody massacre cavalry, the people blocking the way behind the bright light were silent for a few seconds before they suddenly burst out laughing.

"Hahaha, so you're the blood Sand city's blood slaughter cavalry, and that's all you've got!

It seems that the mastermind behind the robbery of the caravan is really you bastards!"

"I was just worried that I couldn't find the culprit, but I didn't expect you to come to my door so obediently.

Since that's the case, don't you guys leave!"

Speaking up to this point was equivalent to shedding all pretenses of cordiality!

Hearing this, the red-armored leader swung the saber in his hand. The hundreds of mounted beasts stomped on the ground with all their might, causing the ground to shake.

"Charge!"

After the red-armored leader shouted, he took the lead and led his men to charge forward.

The momentum of this charge was unstoppable. Even if there was a mountain in the way, it would be smashed to pieces!

The short distance of a few hundred meters was covered in an instant by the charging mount!

The red-armored leader clenched his sword tightly, ready to cut the enemy in half.

The Crimson-armored leader was infatuated with the smooth feeling of the saber cutting through his body!

However, at this moment, a rain-like sound came. The red-armored leader felt several hot things coming at him and drilling into one of his arms.

He didn't need to look to know that his arm was crippled!

The demonic soldier armor on his chest also seemed to have been hit by a heavy punch, making a few crisp sounds.

The powerful impact caused the leader's vision to turn black, and he couldn't help but spit out a mouthful of blood.

At this moment, how could the red-armored leader not know that he had been seriously injured!

The red-armored leader was shocked. The Holy Dragon city's flintlock had such power!

However, what pained him the most was the tragic scene behind him.

Ever since the gunshots were heard, the charging cavalymen were in a mess. The screams of their men and the roars of their mounts could be heard.

The charging cavalymen burst out with a blinding blood mist and rolled down from their mounts like dumplings.

How could a weak body withstand the trampling of a Mount? in the blink of an eye, those injured riders were trampled into meat paste, dying a miserable death.

The charge had just begun, but the losses they suffered were far beyond the imagination of the bloody massacre cavalry!

Looking back at the path of the charge, there were corpses everywhere, their heads and tails almost joined together.

Since the establishment of the blood slaughter Cavalry Regiment, when had they ever suffered such a tragic loss?

After this battle, the blood killing Cavalry Regiment would have to be rebuilt.

The red-armored leader's heart was bleeding, but the killing intent in his eyes grew stronger.

He endured the pain from his wound and frantically drove the wounded Mount under him. Blood kept dripping down the saber in his hand.

As long as he charged into the enemy's camp, he would be able to wave his saber freely and reap the lives of these bastards!

"Brothers, kill!"

The enemy was right in front of him. The red-armored leader shouted in a hoarse voice, but only a few people responded.

In the past, as long as he shouted these words, a deafening roar would definitely be heard from behind him. It was bold and bold, and it would shock the enemy.

But today, Yingluo

The red-armored leader knew the reason for this, but it was precisely because of this that his heart ached even more.

They were all brothers who had followed him for many years, but now they had all died on the battlefield because of an ordinary rescue operation!

Damn Holy Dragon City, one day, I'll definitely slaughter all your residents to vent the hatred in my heart!

With endless hatred, the red-armored leader finally broke through the rain of bullets and killed his way into the Holy Dragon City Army's line of defense.

?

Chapter 322: can't escape even if you have wings _1

Hundreds of cavalymen charged forward, but in the end, less than fifty blood kill cavalymen entered the Holy Dragon city's formation!

It was just a short distance of a few hundred meters, a distance that the mounts could cover in one charge, but they had lost 80% of the cavalry!

This kind of terrifying casualty rate was far beyond what the red-armored leader could bear.

Fortunately, they had already charged into the enemy formation and could now kill without restraint.

Today, he must let these Holy Dragon City bastards have a taste of the power of the bloody slaughter Warblade!

The red-armored leader, who had lost an arm, dragged his long saber and began to search for the enemy.

However, when he saw his surroundings clearly, he couldn't help but feel like he had been fooled.

Other than a dozen strange-looking vehicles, the Holy Dragon city's soldiers were all gone.

However, at the top of these vehicles, the red armored leader still saw a dozen Holy Dragon City soldiers operating the mounted machine guns and grinning at them.

"Ah, Yingluo, go to hell!"

The red-armored leader roared and rode his Mount toward a wasteland war chariot.

At this moment, countless black muzzles extended out of the carriage and pointed at the bloody massacre cavalry that were running around the wasteland war chariots.

"Bang!"

The eye-piercing flames were mixed with a loud noise as they locked onto the red-armored leader and the others.

Countless small pellets flew in all directions, riddled the bodies of the bloody massacre cavalry with thousands of holes, and their mounts fell to the ground one after another.

In just one wave of attacks, nearly half of the blood slaughter cavalry had been killed!

The red-armored leader's face was covered in blood, and his body was in extreme pain. His Mount had already fallen to the ground with serious injuries, and its fur was dyed red by blood.

By the time he got up from the ground with great difficulty, all of the bloody massacre cavalry had already fallen to the ground. The mournful cries of the mounts and the screams of the heavily injured filled his ears, causing him to be in so much pain that he wished he could die.

Looking at the bloodied corpses of his subordinates, the leader's eyes were bloodshot.

After a series of sounds, fully armed Holy Dragon City Warriors jumped down from the rear of the wasteland war chariot and looked at the red-armored leader coldly.

A well-built man stepped out of the crowd and stopped a dozen steps away from the leader.

the bloody massacre cavalry is so famous. They can kill whoever they want. But now, it seems that they are just so-so!

The burly man shook his head slightly as he spoke, his tone carrying a hint of mockery.

Hearing this, the leader gritted his teeth and the veins on his forehead popped.

He dragged the bloody massacre saber in his hand and walked towards the brawny man with great difficulty, leaving bloody footprints behind him.

“Holy Dragon City, f * ck your ancestors!”

die! the red-armored leader let out an angry roar and slashed his saber toward Tai Seng.

It seemed that the roar had exhausted the last bit of strength in his body, so the saber fell to the ground with a clang.

The Crimson-armored leader’s knees went weak, and he knelt on the stone-filled ground.

He lowered his head and blood dripped from his chin, dyeing the grass in front of him red.

“Brothers, let’s go! I’m coming, let’s go!”

The red-armored leader mumbled these words and then became silent.

Tai Seng expressionlessly looked at the red-armored leader, and after a few seconds of silence, he waved his hand.

clean up the battlefield. Send those who are not completely dead to their brothers!

After issuing the order, Tyson lit a cigarette and looked up at the night sky.

A faint rumbling sound could be heard, and a beam of light flashed in the sky. With one look, Tai Seng knew that it was the assault Helicopter.

With this thing in the battle, the group of black-robed cultivators would not be able to escape.

Just as Tai Seng had predicted, ever since the assault helicopters arrived at the battlefield, the black-robed cultivators were in a desperate situation.

The cannons boomed, and the Holy Dragon City cultivators continued to fire from above, causing the long-exhausted black-robed cultivators to lose their numbers.

There were only five black-robed cultivators who were still running for their lives, and they were all injured.

In a few minutes, the five black-robed cultivators would probably die as well!

Blood Sand city’s Grand elder’s heart was like dead ash. He was filled with regret for participating in this operation.

Originally, an operation of this level did not require the participation of the powerful and influential people of Lou Cheng.

However, because his illegitimate son had been killed, the great elder, who couldn't calm his anger, took the initiative to stand up and ask to be responsible for this operation.

The first elder's illegitimate son was the young master of colossal bone city. He had been caught by Tai Seng when he was trying to escape and then executed in public!

If it wasn't for the young master of giant bone city begging for mercy before he died, claiming that he was the son of the great elder of bloodsand city, the residents of giant bone city would probably still be in the dark.

The overbearing city Lord of colossal bone city had been cuckolded by his own brother!

Both his son and brother had died at the hands of the Holy Dragon City. He had to take revenge!

The great elder, who was bent on avenging his son, even planned to send troops to destroy Holy Dragon City and use the blood of Holy Dragon city's residents as a sacrifice to his son.

It was just that his personal ability was limited, and he couldn't influence the city Lord's decision on such a big matter as sending troops to attack the city, so he couldn't get his wish.

This time, when he led the team to snatch the Holy Dragon city's application card, the great elder actually had his own selfish motives. He had been thinking about how to deal a fatal blow to the Holy Dragon City!

Who would have thought that they would encounter such a thing before the plan was even executed?

The cultivators under him were killed one after another, and he was being chased by the Holy Dragon City cultivators like a stray dog. This made the great elder extremely angry.

However, he didn't dare to stop, because it was no different from sending himself to death!

The anger in his heart had already accumulated to the limit, but it made the great elder continuously swear that after returning to bloodsand city, even if he had to give up everything, he would ask the city Lord to send troops and kill all of the Holy Dragon City!

Another wave of bullets came, and the great elder quickly dodged, avoiding this fatal attack.

However, the black-robed cultivators beside him were not so lucky. The large-caliber cannon bullets easily tore through their bodies, sending blood and flesh flying in all directions.

The screams behind him didn't affect the Grand elder's speed at all. In the past ten minutes, he had maintained his high speed, which showed the endurance of a rank 5 cultivator.

"Soon, the blood killing cavalry will be here soon!"

The great elder had been keeping track of the time in his heart the entire time, constantly looking into the distance.

However, as time passed, the bloody killing cavalymen that he had been waiting for did not appear. This made him feel a little uneasy.

“Based on the speed of the blood kill cavalry, they should have arrived long ago!

They haven’t appeared for such a long time. Could it be that something has happened to the bloody massacre cavalry?”

As soon as this thought appeared, it quickly filled the head elder’s mind, causing his movements to slow down.

The Holy Dragon City cultivators piloting the military helicopters seized this opportunity and launched a series of attacks.

“Ah!”

A bullet hit the great elder’s shoulder, cracking the demonic soldier armor under his black robe. The huge impact made the great elder spit out blood.

The arm that was wearing the chain armor of the demon soldiers was hit by the bullet. Although it was not broken, it was also turned into a strange shape.

Fresh blood flowed down from the gaps in the armor.

die! the great elder roared. He used his intact arm to pull out a demon weapon dagger from his waist and threw it at the assault Helicopter in the air.

This was the Grand elder’s attack filled with hatred. Both its power and speed were extremely shocking!

The Holy Dragon City cultivator piloting the helicopter dodged in a hurry, but the dagger still hit the armed helicopter and pierced through the metal shell of the helicopter.

The pilot, who had dodged the attack, was about to counterattack when he realized that the great elder had stopped running and was standing in place in a daze.

Piercing lights lit up from the front, and more than a dozen wasteland war chariots lined up in an impassable line of defense, blocking the escape route of the great elder.

In the area illuminated by the lights, countless corpses were lying on the ground. They were the blood killing cavalry that the first elder had been waiting for!

Another roar sounded, and Qian Long finally caught up on his motorcycle. He scoffed coldly and jumped off.

At this point, there was no way to escape!

The first elder, who was being surrounded, did not move at all, but his eyes under the mask were filled with madness.

“Since we can’t escape, we’ll all die together!”

The great elder roared madly and took out a cantaloupe-sized metal ball from his pocket. Then, he smashed it on the ground!

Chapter 323: The mysterious iron ball and the Super flying sword

1

No one present knew what the great elder of bloodsand city had taken out.

However, just from his mad roar, one could guess that this thing was not simple.

Tai Seng and Qian Long's expressions changed at the same time as a huge sense of danger struck them, causing the two of them to yell out in unison, " get down!

The distance between the two sides was more than twenty meters. It was impossible to stop the great elder's action!

A disaster was already unavoidable.

However, at this critical moment, a glimmer of light suddenly appeared from the distant horizon, approaching at an incredible speed.

Just as the metal ball was about to hit the ground, the Grand Elder suddenly felt a trace of fear in the depths of his soul.

It was as if something he couldn't resist was heading straight for him.

Just as he thought of this, he saw a golden stream of light pass through the first elder's body, then turn back in mid-air and pass through again.

Pass through, turn back, pass through again, turn back again!

That stream of light was freakishly fast, and actually formed a light barrier, enveloping the head elder within.

What the crowd did not know was that the speed of this stream of light was extremely fast. What they saw was actually just an afterimage!

The great elder, who was about to hit the ground with the metal ball, was now in a fixed position, but the metal ball in his hand could no longer be smashed down.

"Ka BA!"

The mask on the great elder's face shattered, revealing a twisted face of madness and despair, with a trace of fear in his eyes.

"Hualala!"

As the mask fell, the Grand elder's body immediately shattered into countless small pieces and piled on the ground with a "crash."

Tai Seng and Qian Long climbed up from the ground and walked to the pile of 'meat', exchanging a confused look.

what's going on? how did this guy suddenly die? "

Tai Seng looked at the ground and frowned.

it's a good thing he's dead. Otherwise, we'd be in deep trouble if that metal ball hit us!

Qian Long, on the other hand, had a look of lingering fear on his face. It was clear that he had also been quite frightened just now.

that's right! hearing this, Tai Seng nodded his head. When he saw the metal ball earlier, all the hair on his body stood up.

This was a cultivator's intuition when their life was in danger, and it was extremely accurate!

Moreover, after absorbing the soul crystals, their perception had become more sensitive.

Therefore, the two of them firmly believed that this metal ball, which the great elder had taken out in a moment of desperation, was definitely an extremely terrifying thing!

However, what was that stream of light? how could it be so terrifying?

The rank 5 Grand Elder of blood Sand City was cut into countless pieces by the light in an extremely short moment!

The two of them looked at each other, and the figure of a person appeared in their minds at the same time.

"Don't tell me it's Qianqian?"

Right at this moment, Tang Zhen's voice suddenly sounded out from Qian Long's walkie-talkie.

bring that metal ball back. Remember to be extremely careful, because I suspect that it's some kind of super bomb that we don't know about!

Qian Long agreed and carefully wrapped the metal ball in his clothes before placing it in a leather bag.

"Let's pack up and retreat!"

After the two of them exchanged a few words, they instructed their men to clean up the battlefield and then returned home.

In the silent night, the moonlight scattered across the wilderness. A long line of carriages sped past, heading straight for Holy Dragon City.

By the time they returned to Holy Dragon City, it was already close to midnight.

Tang Zhen was currently sitting in the city Lord's Hall, quietly reading an ancient book.

After Qian Long and Tai Seng walked in, Tang Zhen kept the book and smiled at the two of them.

"Well done, you've all worked hard!"

The two of them did not dare to claim credit and quickly shook their heads to decline.

After Tang zhenhe and the other two sat down on the sofa, the female attendant outside the door served them a drink. It was a fruit juice squeezed from a strange wild fruit.

“Bloodsand city has suffered heavy losses this time, and they definitely won’t let this matter rest, so we must be prepared for battle.

However, after this battle, they’ll definitely be wary of our weapons. If they don’t have the confidence to win, they won’t send out their troops easily.

This will give us enough time to deal with the situation and also allow us to gather enough information.”

After Tang Zhen spoke up to this point, he glanced at Qian Long, you’ll be in charge of the intelligence gathering and movement monitoring work in bloodsand city.

Qian Long nodded, but didn’t say anything.

After taking a sip of the fruit juice, Tang Zhen looked at Tyson.

“I estimate that before sending troops, bloodsand city will definitely harass the merchant group, so the number of patrols can be appropriately increased.

Once they found any looters, there was no need to leave any survivors, they would be wiped out completely!

We also need to increase the defense of Holy Dragon City and the commercial district. We can’t let the cultivators of blood Sand City come in and cause trouble!”

yes! Tai Seng replied with a confident expression.

“Leave that metal sphere behind. You two can go rest.”

After the two of them left, Tang Zhen put the leather bag with the metal ball into the storage space and quickly drove away from the Holy Dragon City.

After running for a distance in the wilderness, Tang Zhen finally stopped the car and took out the leather bag.

After removing the wrapped clothes, the exquisitely-made metal ball that was still stained with blood and minced meat was revealed before Tang Zhen’s eyes.

With just a glance, Tang Zhen confirmed that this thing was not a product of the Lou city world, but from a random building.

This metal ball was made of an unknown metal. The craftsmanship was exquisite and exquisite. At the same time, there was a line of strange text carved on the surface.

Tang Zhen activated the application and easily deciphered the content expressed by the words.

It turned out to be a special production number, but before he understood the meaning of the characters, this set of numbers was not of much use.

The only thing that could be proven was that this metal ball was very likely to be mass-produced!

Judging from how the great elder of bloodsand city had acted when he had taken it out, this metal ball definitely had terrifying destructive power, and it had already been used and proven.

It was precisely because first elder understood the destructive power of this metal ball that he was prepared to drag Tai Seng and the others down with him when he self-destructed!

Tang Zhen, who was monitoring the battlefield, saw this point. That was why he did not hesitate to use the one-time payment application.

[super flying sword, use a flying sword to attack a target within the map, instantly arriving without a trace, price, 50000 brain beads per use!]

Although this kind of flying sword was expensive, it was indeed extremely powerful.

The great elder of blood Sand City, who was about to detonate the metal ball, was instantly cut into a pile of minced meat by the flying sword!

However, he clearly remembered that in the introduction to its use, it was said that this super flying sword was invisible and hard to see with the naked eye. So why was there a stream of light that kept flashing?

After carefully reading the introduction, Tang Zhen fainted. It turned out that this stream of light was actually a decorative special effect of the flying sword!

Other than the monochrome stream of light, there were also the seven-colored stream of light, the Galaxy stream of light, the gradient stream of light, and so on.

With these streams of light, it could be guaranteed that when using the Super flying sword, the visual effect would be extremely gorgeous!

If he didn't want this light, he could also choose to turn it off. That way, he wouldn't be able to see the flying sword with the naked eye!

Tang Zhen ridiculed in his heart before turning his attention back to the metal ball.

If he had an identification card in his hand, he could definitely determine the origin of the metal ball!

As he thought of this, Tang Zhen immediately opened the application store and refreshed the prizes on the wheel. He continuously drew lots.

Chapter 324: Super bomb, ruins map

Tang Zhen stared at the lucky Wheel and studied the prizes that had been refreshed.

Ever since his phone had been upgraded, he had received more than 30 prizes every day from the forced lucky draw.

These prizes were all cards with various functions, which weren't of much use to Tang Zhen.

And among these prizes, there were still some wondrous cards similar to sex change cards.

For example, the two cards in Tang Zhen's hands.

long tail card. You can grow a tail after using it. The appearance can be set freely. [exclusive card for the Wheel of Fortune!]

wings card. A pair of wings will appear after use. The appearance can be set freely. After use, it will cause changes to the user's body shape. Exclusive card for the Wheel of Fortune.

Just like the sex change card, both cards were permanently effective.

But even if he beat Zhen Tang to death, he wouldn't use those two strange cards.

He didn't want to grow a strange tail and have huge pectoral muscles.

Could that kind of body still be considered human?

He put the two cards back into his storage space and thought that if someone really planned to become a Birdman with a long tail in the future, Tang Zhen would not mind giving them two cards for free.

He really wanted to see what would happen after using the card!

Turning his gaze to the lucky Wheel, Tang Zhen tore the lucky card and continued to draw.

Different from the previous draws, the upgraded Wheel of Fortune allowed him to refresh the prizes if he was not satisfied with them.

However, after throwing in tens of thousands of brain beads, he did not draw any identification cards. Instead, he drew more and more random cards.

Tang Zhen was so angry that he wanted to curse. This damn thing, it just didn't give you anything you wanted.

This f * cking Lucky Wheel!

After patiently throwing in another twenty thousand brain beads, the roulette finally refreshed with the item that Tang Zhen had been dreaming of.

[appraisal eye (beginner) card. Able to determine the basic information of most items. Lucky Wheel exclusive card!]

Tang Zhen couldn't help but burst into laughter after reading the card's introduction.

He had only wanted an appraisal card, but who would have thought that he would encounter such a big surprise!

Even if he had to invest a million brain beads, Tang Zhen still had to get this card.

Tang Zhen didn't hesitate to throw his brain into it and block the other empty spaces, leaving only ten prizes.

Feeling a little uncertain, Tang Zhen took out the last two lucky cards and tore them both to use.

Activate, draw!

Hard work paid off. Tang Zhen only drew once and successfully drew the [eye of appraisal (basic) card]!

After taking the card in his hand and examining it a few times, Tang Zhen gently tore it open.

The card turned into a stream of light and flew up. It slowly merged into Tang Zhen's eyes and disappeared in the blink of an eye.

Tang Zhen did not make any other movements during the entire process.

Tang Zhen rubbed his somewhat itchy eyes. He took out the metal ball and focused his attention on it.

Just then, a set of subtitles popped up in front of him.

[the terobo people's standard star-destroying cluster bomb (bullet) has extremely powerful explosive power and can cover an area of 1000 square kilometers. When the bullet is used alone, it can destroy ground targets within a square kilometer!]

Tang Zhen was dumbstruck when he saw the introduction on the subtitles!

Even without looking at the identification information, Tang Zhen could already determine that this metal ball was definitely not a product of the loucheng world.

However, Tang Zhen had never imagined that a single bullet from the parent seed bullet would actually possess such a terrifying might!

If these star-destroying cluster bombs were dropped on a country in the original world, it would definitely be easy to wipe out the country!

This kind of terrifying might had truly exceeded Tang Zhen's expectations.

He had never heard of such a weapon in his original world, so the teroboros people who made the bombs were most likely creatures from other planes.

And this bomb was likely to have first appeared in the wild building, only falling into the hands of the great elder of blood Sand City later.

After being in the world of loucheng for so long, a terrifying weapon that surpassed the technology of his original world had finally appeared!

A strong sense of danger assaulted him. Tang Zhen did not know how many more of these bombs were in blood Sand City!

Even if there was only one, it would pose a great threat to Holy Dragon City.

A cold glint flickered within Tang Zhen's eyes. If blood Sand City really had such a terrifying bomb, he could only strike first and gain the upper hand, completely wiping out blood Sand City!

Tang Zhen took out a small box and kept the terrifying bomb. He then turned around and returned to the Holy Dragon City.

He also had to check the body of the great elder of blood Sand City to see if he had any information about the bomb.

He hoped that the number of such bombs was limited, or things would be really bad!

After returning to the Holy Dragon City, Tang Zhen immediately ordered his assistant to bring over the relics of the great elder of blood Sand City.

It didn't take long for the assistant to come in with a pile of bloody rags.

Tang Zhen was so vexed that he continuously smacked his head after seeing these worn-out items.

When he controlled the flying sword to kill blood Sand city's great elder, Tang Zhen still felt extremely satisfied. He hoped that the enemy wouldn't have a chance to turn the tables.

As a result, the great elder of bloodsand city was cut into pieces, and his clothes were not spared either.

If it wasn't for Qian Long's meticulous nature to clean up all the pieces of cloth, the others probably wouldn't even care.

1

He had no choice but to solve the puzzle!

After picking out the useless pieces of clothes, there was only a pile of tattered clothes left in front of Tang Zhen.

Among them, there were over a dozen pieces of monster skin that were stained with blood that attracted Tang Zhen's attention.

After taking out all the monster skins, Tang Zhen carefully unfolded and pieced them together. He confirmed that this was a map.

The map was drawn very intricately. Tang Zhen looked at it carefully for a while and suddenly realized that the terrain was somewhat familiar.

That's strange, where have I seen this terrain before?

Tang Zhen frowned and thought for a moment as he looked at the streets and buildings depicted on the map. Suddenly, his eyes brightened.

He had already thought of a place, but he still needed to make a comparison!

Tang Zhen switched to the map view and quickly shifted his gaze. Finally, he locked onto the ruins of Black Rock City.

He then slowly moved along the ruins. The place that entered Tang Zhen's field of vision was the Super ruins that he had entered many times before!

The area of the Super ruins was very large. Many places were covered by clouds and fog. Even if he used the map view, Tang Zhen was unable to see the entire area clearly.

What Tang Zhen needed to do was to determine if the terrain of the ruins matched the map.

After carefully searching for a while, Tang Zhen finally discovered a building that matched the map.

After comparing the two, he was sure that the Super ruins were on the map.

However, this dilapidated building was only the outer area drawn on the map.

The place marked with a red dot on the map was located in the central area of the Super ruins. Due to the clouds and fog, Tang Zhen was unable to see the situation there clearly.

Tang Zhen looked at it for a moment before frowning slightly.

There were many rumors about this ruin among the Wanderers, most of which were related to wealth and danger.

Tang Zhen had once analyzed the architectural style of the ruins. Although most of them were severely damaged, he could still confirm that they came from the same place.

In other words, they were super wild buildings that appeared together in the world of loucheng!

Such a large building was truly shocking. The refuge of the glittergold race was nothing compared to it!

It was also because of this that Tang Zhen had always believed that there was a huge secret hidden within the ruins.

The appearance of this map strengthened Tang Zhen's determination to explore the ruins.

"Bring some people over tomorrow morning. I want to see what good things are in the place marked by the great elder of blood Sand City."

Tang Zhen lit a cigarette and quietly thought in his heart.

Chapter 325: Exploring the Super junkyard (1)

After Tang Zhen woke up in the morning, he walked around the valley and felt that the temperature had dropped quite a bit.

In the area where the Holy Dragon City was located, the change in temperature was not very big, so this situation was very unusual.

Perhaps it was because the Cold Moon disaster was about to arrive that the temperature suddenly dropped.

After having a simple breakfast, Tang Zhen summoned the thousand Dragons technique that he was currently cultivating.

"Get ready and bring 20 cultivators with you. We're going to the center of the Super junkyard to take a look."

"Now that you have the storage card, you can prepare more ammunition!"

Qian Long nodded and didn't ask any more questions. He returned to the cave and began preparing.

After about half an hour, Tang Zhen led 20 Holy Dragon City cultivators across the salty river and drove the wasteland war chariot straight to the Super ruins.

The car sped all the way, and under the gazes of groups of Wanderers, they finally arrived at the area where the Super ruins were.

At the entrance of the Super junkyard, several exploration teams were resting.

When the Holy Dragon city's car arrived, the Wanderers immediately stood up nervously. They looked at the Holy Dragon city's cultivators who had jumped out of the car with fear in their eyes.

All the Wanderers who made a living in this area had some understanding of the Holy Dragon City. They knew that the newcomers were cultivators from the Holy Dragon City just by looking at the ferocious-looking wasteland war chariots.

The Wanderers were not only envious of the city's residents, but they were also repulsed and afraid of them.

At that moment, they looked at the Holy Dragon City cultivators with a hint of vigilance.

Tang Zhen did not care about the Wanderers. He raised his hand and kept the wasteland war chariot behind him into his storage space. Then, he walked toward the ruins with large strides.

Two Holy Dragon City cultivators immediately walked out to explore the way. Their eyes under their masks flickered, constantly sizing up the surrounding environment in case of any accidents.

These cultivators were all holding carefully maintained automatic rifles and carrying sharp sabers on their backs.

Whether it was in close or long range combat, the Holy Dragon City cultivators had extremely strong combat power.

The group walked on the broken Street, gradually approaching the center of the ruins.

Behind Tang Zhen's group, there were two exploration teams following from a distance. They had been sizing them up.

The combat strength of the cultivators in loucheng far exceeded that of an ordinary exploration team. With Tang Zhen and the others clearing the way, they could take the opportunity to get closer to the deeper areas.

If they were lucky enough to discover a building rich in resources, these exploration teams could become rich overnight!

Tang Zhen ignored those greedy fellows. Instead, he continued to observe the surrounding buildings. He would occasionally switch to the map view in order to prevent any hidden monsters from ambushing him.

After walking for some distance, a gray mist began to appear in front of them, blocking their vision.

Tang Zhen stopped his footsteps. He looked at the fog in front of him and was deep in thought.

In the past, Tang Zhen's cultivation level was low and he had little experience. He had returned to the ruins several times but was still unable to figure out the true origin of the gray fog.

However, Tang Zhen saw a trace of abnormality when he came into contact with the gray fog again.

This wasn't any ordinary mist at all. It was a strange mist that would only be produced after a large number of Yin-type spiritual bodies gathered.

He didn't expect that there would be such a secret hidden in the ruins!

Tang Zhen didn't care about the spirits and ghosts that ordinary people feared. In fact, he was used to it.

After all, there was a large group of beautiful female ghosts right under his nose, tricking people into using their souls to get a loan!

He activated the spirit body seeker, and Tang Zhen's vision, which was blocked by the gray fog, suddenly became much clearer.

Dozens of blurry spirit bodies appeared in Tang Zhen's eyes.

These spirit bodies were already on the verge of collapse. Perhaps in a few years, they would completely dissipate!

Tang Zhen did not know why these spirit bodies would appear here. However, he clearly knew that the ruins were not as simple as he had imagined.

It was also because of the yin energy's existence that the Wanderers who entered the gray fog kept getting lost, and very few people could reach the central region.

If it wasn't for the fact that the mental power of an independent cultivator far exceeded that of an ordinary person, it wouldn't take long for them to go completely crazy!

Tang Zhen could not help but frown when he thought of this.

He wasn't afraid of these spirits and yin energy, but how could the cultivators behind him resist them?

After thinking for a while, Tang Zhen took out dozens of soul crystals and handed them to the Holy Dragon City cultivators behind him.

"If you feel that something is wrong, immediately absorb this soul crystal.

If it doesn't work, you'll have to return the way you came!"

The reason why ordinary people would be affected by yin energy was that their souls were not strong enough. After absorbing the soul crystal, it could strengthen the power of the soul!

The effect was especially obvious on the first day of absorption.

However, whether or not this would be effective still needed to be verified.

After Tang Zhen warned him, he took a step into the gray fog region.

The exploration team that had been following them were immediately dumbfounded when they saw this scene.

are these Holy Dragon City cultivators crazy? they actually dare to enter the gray fog region? "

"Yeah, aren't they afraid that they won't be able to come out?"

I guess they have some special means to not be afraid of the gray fog. That's why they dared to go in!

The wild cultivators discussed animatedly. They wanted to go in and take advantage of the situation, but they were also afraid of getting lost in the gray fog.

After discussing for a while, these wild cultivators finally made up their minds and prepared to try to follow them for a distance.

If there were any abnormalities, they would immediately retreat.

Under the temptation of wealth, these wild cultivators also went all out!

Tang Zhen did not know the thoughts of these wild cultivators. Otherwise, he would definitely scoff.

The strangeness of this yin energy was far beyond the imagination of these wild cultivators.

If he knew when to stop, he might not be affected too much, but if he continued to be greedy, he might lose his life here.

However, at the edge of the gray fog, where yin energy was slightly weaker, any valuable resources had already been taken away by the fearless Wanderers.

If he wanted to gain something, he had to continue going deeper.

If one intended to obtain wealth in this strange place, they would likely have to exchange their lives for it!

After Tang Zhen's group entered the gray fog, the wandering spirit bodies were continuously attracted over due to the Yang energy on everyone's bodies.

Thousand Dragon and the others did not have any magical mobile phone applications, nor did they have any Holy master skills like the eye of truth, so they naturally could not see the spirits pouncing at them.

If an ordinary person were to encounter such a situation, they would probably be immediately affected and fall into a state of mental confusion.

Because Qian Long and the others had stronger spirit energy, they weren't affected by these weak spirits, but the cold and gloomy feeling made them uncomfortable.

Tang Zhen completely ignored these weak spirit bodies. This was because they would quickly spring away as though they had been electrocuted the moment they got close to Tang Zhen's body.

Those spirit bodies that couldn't Dodge in time would even directly dissipate into nothing.

The Lord cultivator's soul power was extremely strong. To these weak spirits, it was like a ball of fire that could easily burn them to ashes!

However, as everyone went deeper, more and more skeletons appeared under their feet.

There were human skeletons, alien skeletons, and countless monsters!

Most of them had already weathered and were scattered messily on the ground. A light step on them would turn them into powder.

Qian Long and the rest could only see a small area under their feet. However, in Tang Zhen's eyes, it was a terrifying sea of white bones!

However, there was still a question in Tang Zhen's heart. What was it that had gnawed at the flesh and blood of these corpses?

Could it be that there were some terrifying monsters in the gray fog?

everyone, be careful! There might be monsters here!

Tang Zhen took out a demonic bow and a sharp arrow from his storage space to kill any monsters that might appear.

Compared to the loud rifle, the noiseless bow was more practical because it would not easily attract the attention of the monsters.

Just as thousand Dragon and the others loaded the bullets, a sharp whistling sound suddenly rang out.

Tang Zhen's eyes focused. The sharp arrow placed on the bowstring was suddenly shot out.

At the same time, a scream was heard.

A strange monster that was floating in the air fell to the ground in front of him with a "plop"!

Chapter 326: The monster in the gray fog _1

It was a strange-looking creature. It was grayish-white in color and looked like a big balloon that had been shot. It was lying on the ground.

There was no blood in its body, only the grey mist that was constantly dissipating.

Tang Zhen used his foot to kick the monster's corpse and discovered that its outer skin was extremely tough. If it wasn't for the demon soldier battle bow's high destructive power, he might not have been able to shoot this monster.

Tang Zhen carefully sized up the monster's corpse before he stood up in doubt and frowned.

this monster is not the main culprit of the gnawing. It's just an ordinary monster in the gray fog.

After once again sizing up his surroundings, Tang Zhen continued to move forward according to the marks on the map.

There were very few people who set foot in this gray fog area, and the corpses on the ground had also become fewer.

However, the cultivation level of the previous owners of these skeletons was obviously much higher than that of the skeletons at the edge.

If one were to search the remains carefully, one would find a surprise from time to time.

For example, a brain, a few weapons, and a mess of miscellaneous items and ores in the rotten backpack.

They had been left here for many years, and no one had ever cleaned them up.

The brain remains at the edge of the area had long been cleaned up by the exploration team who were not afraid of death. As for the area under their feet, because of the strength of the spirit bodies, few people came close to rummage through it.

Anyone who could enter this area was basically a high-level cultivator. They all had different purposes, so why would they waste time picking up trash?

Tang Zhen similarly did not have the time to rummage through the corpses. He had to race against time!

The gray fog would unconsciously affect cultivators. By the time you realized that something was wrong, you would have already fallen into the fog!

When they passed by a pitch-black building, Tang Zhen discovered a group of monsters with hunched bodies that were aimlessly wandering around.

This should be a wild building that had not been cleaned up, but Tang Zhen was not interested in exploring it for the time being.

Tang Zhen became more and more curious as to what exactly was hidden in the central region.

Compared to the weak spirit bodies at the border, the spirit bodies around Tang Zhen had already gradually become clearer. The yin energy they carried was also becoming stronger.

Although Tang Zhen didn't care about it, Qian Long and the others were clearly feeling uncomfortable.

This type of spirit body was already able to affect Qian Long and the others, causing them to fall into a daze and occasionally experience a brief hallucination.

"You guys can absorb the soul crystals now. See how it goes."

Qian Long and the others immediately took out the soul crystals and absorbed them.

His originally chaotic mind immediately cleared up, and the illusions that appeared from time to time quickly disappeared.

Seeing Qian Long and the others jolted in spirit, Tang Zhen also confirmed that this soul crystal was indeed effective.

However, at this stage, Qian Long and the others were no longer suitable to follow Tang Zhen.

"You guys wait here, I'll go in and take a look myself."

Tang Zhen was about to leave after he finished speaking when he was stopped by Qian Long.

city Lord, it's too dangerous inside. You'd better not go further in!

The entire Holy Dragon City was sustained by Tang Zhen alone. If he were to encounter any danger, even a thousand deaths would not be enough to forgive his crime.

So when he heard this, he immediately stood up to stop it.

Tang Zhen knew what Qian Long was thinking. However, he merely smiled and shook his head.

“Although this area is dangerous, it’s not a threat to me, so you can rest assured.

If I encounter any danger, I will immediately retreat.”

After he finished speaking, Tang Zhen’s body flashed and disappeared.

Qian Long sighed helplessly.

everyone, pay attention! Be careful of monster attacks!

Hearing this, the cultivators immediately raised their weapons and looked around vigilantly.

After Tang Zhen and Qian Long’s group separated, they walked for a distance before suddenly stopping.

A few dozen meters in front of him, there was a giant spirit body that was four to five meters tall. It had a human head and a beast’s body, looking very ferocious and strange.

Compared to the other spirit bodies, this giant spirit body was extremely solid. When its feet landed on the ground, it even brought up a trace of dust!

Those spirit bodies without a physical body could not be compared to it at all.

Tang Zhen suddenly had a feeling that this gigantic spirit body was different from the spirit bodies he had seen before. The aura that it emitted was more like a monster!

After he thought of this, Tang Zhen immediately activated the [monster detector] and aimed it at the giant spirit body.

A set of words popped up, confirming Tang Zhen’s guess.

soul-eating monster, level five monster, feeds on yin energy, fears energy attacks, normal physical attacks are ineffective!

As expected, the giant spirit body was a monster!

Ordinary weapons couldn’t hurt this soul-eating monster, so he could only rely on his phone.

When Tang Zhen killed the spirit brain corpse King, he had downloaded an application that specialized in killing spirit bodies.

[demon annihilating rune carving]: demon annihilating runes can be carved on weapons, which are perfect for dealing with soul-eating monsters.

Tang Zhen took out a demonic war blade from his storage space. His finger brushed across the blade, and a demon killing rune that was flashing with fluorescent light instantly appeared.

With the war blade in his hand, Tang Zhen’s feet suddenly exerted force and he rushed to the front of the soul-eating monster.

Without waiting for the spirit Devourer to react, Tang Zhen had already jumped up and slashed the spirit Devourer’s neck.

It was not worth it to rely on Tang Zhen’s sneak attack to win against a level five monster.

The attack power of a Lord-tier cultivator was extremely shocking. This saber, which was infused with a huge amount of energy, carried a destructive force and ruthlessly cut into the body of the soul-eating monster.

As the blade entered its body, the soul-eating monster let out a roar that shook one's soul, then fell to the ground.

With the death of the soul-eating monster, its body immediately turned into a stream of light and was absorbed by a dark blue bead of brain that appeared on its head.

The huge body of the soul-eating monster disappeared in the blink of an eye!

Tang Zhen walked to the front of the head and picked it up with the tip of his knife. He held it in his hand and carefully examined it.

The brain of this soul-eating monster was different from ordinary monsters. Through the blue shell of the brain, Tang Zhen could clearly see a miniature soul-eating monster floating and swimming in the brain.

This kind of strange brain immediately aroused Tang Zhen's interest.

However, now was not the time to study it in detail. Therefore, Tang Zhen kept the brain Pearl and once again pounced forward.

After walking for less than a thousand meters, another soul devouring monster appeared. Tang Zhen raised his hand and directly killed it with a slash of his blade!

Tang Zhen inhaled a breath of cold air when he looked forward again.

Dozens of soul-gnawing monsters were constantly wandering in the gray fog, swallowing the gray fog from time to time, causing their bodies to constantly solidify.

The central area that Tang Zhen planned to head to was the rear area of these soul-eating monsters.

If he were to rush over rashly, he would definitely be surrounded by these soul-eating monsters. Tang Zhen did not wish to waste time here.

Tang Zhen already felt a trace of discomfort when he arrived at this place. Illusions would occasionally flash before his eyes.

If it wasn't for Tang Zhen's shocking mental strength, he might have already fallen into an illusion and would not be able to extricate himself!

The Grand Elder of blood Sand City was only at rank 5. How could he enter the central area?

There must be something he didn't know about.

Tang Zhen took out a Handful of Soul crystals from his storage space and quickly absorbed them. His spirit was shaken.

After locking onto the central area from the map's perspective, Tang Zhen resolutely activated the [map teleportation plug-in] and disappeared from the spot in the blink of an eye.

When he reappeared, he had already passed through the area sealed off by the soul-eating monsters and was standing in front of a huge metal wreckage.

Tang Zhen was dumbstruck with just a glance at the wreckage!

Chapter 327: The metallic remains and the Overlord's notes _1

Tang Zhen raised his head and looked at the huge wreckage in front of him. He felt as though he was standing in front of a huge mountain.

In the gray fog, the huge wreckage with a metallic texture sank into the ground, leaving only a small part exposed.

But this small section on the ground was still bigger than the size of two Holy Dragon cities!

Only the heavens knew how big the metal remains were, including the part that had sunk into the ground.

Tang Zhen was like an ant facing a prehistoric dinosaur as he stood in front of the metallic remains. The difference in size between the two was too great.

Tang Zhen's heart beat wildly as he looked at the outer shell of the metallic remains that was filled with a sci-fi texture. His eyes were filled with shock and wild joy.

This thing was definitely not a product of the building world, but from a high-tech plane!

If he could master the weapon technology in this wreckage, Holy Dragon city's strength would rise to a terrifying level. Just thinking about it made him excited.

Although his heart was unusually excited, Tang Zhen still did not rashly charge in. Instead, he carefully observed his surroundings.

After watching for a while, Tang Zhen indeed discovered an abnormality.

Compared to the other parts of the ruins, the gray fog here was much thicker.

However, the place where the fog was most concentrated was actually a super large pit near the wreckage. The gray fog inside was almost solid.

Tang Zhen tried to take a few steps towards the large pit. However, he could faintly sense a trace of danger. The closer he was to the large pit, the more obvious the dangerous aura became.

There was no doubt that there was a terrifying monster hidden in the huge pit. Its strength was far above Tang Zhen's.

Tang Zhen did not dare to continue to approach. Instead, he carefully retreated, afraid that he would anger this hidden monster.

"Ka BA!"

A soft sound came from under his feet. It didn't seem like a big movement, but in this silent area, it was no less than a clap of thunder!

A trace of cold sweat immediately flowed down Tang Zhen's forehead. This was because he had sensed a strange mental energy lock onto his position the moment the voice sounded.

At this moment, Tang Zhen had already confirmed that the monster in the large pit was definitely much more powerful than him. Just the aura that was leaking out was sufficient to cause Tang Zhen's hair to stand on end.

He had already made preparations. If the situation turned bad, he would immediately activate the teleportation and return to his original world.

Just as Tang Zhen was extremely nervous and was prepared to escape at any moment, that terrifying aura suddenly disappeared without a trace. It was as if it had never existed.

However, Tang Zhen was certain that the terrifying monster was at the bottom of the huge pit. It was hidden in the area where the gray fog was the thickest.

However, looking at its actions, it seemed to be unwilling to acknowledge him.

Tang Zhen heaved a sigh of relief. He slowly looked at the object that had produced the sound under his feet, only to discover that it was the remains of a foreign race being.

His foot had just broken the leg bone of the corpse, which was why it had made a crisp sound.

Tang Zhen fell into deep thought as he looked at the remains on the ground.

None of the cultivators who could enter this central area were simple.

Perhaps he could find something useful on the remains?

When Tang Zhen thought up to this point, he immediately squatted down and began to search the vicinity of the wreckage.

It didn't take long for Tang Zhen to find a backpack made of monster skin in the soil. The inside was full.

With the bag in his hand, Tang Zhen returned to the metal wreckage and opened the bag to check.

The leather bag was most likely made from the leather of a Lord-tier monster, which was why it had not corroded after being buried in the soil for so many years.

After opening the bag, a messy pile of items appeared before Tang Zhen's eyes. Most of them were unable to see their specific use.

However, judging from their material, they seemed to come from the inside of the metal wreckage.

Tang Zhen poured the contents of the bag onto the ground and rummaged through it. A thick leather notebook appeared in front of him.

After keeping the other items, Tang Zhen opened his laptop.

The pages of the notebook were filled with fly-sized characters of other races, and some places even had illustrations.

After starting the application, the translated text appeared in front of Tang Zhen, covering the original text for his convenience.

Tang Zhen looked at it for a while and figured out the origin of the notebook's owner.

It turned out that the foreign race cultivator who had died here was named Bu Li. Just like Tang Zhen, he had also reached the Lord Grade.

However, compared to Tang Zhen, who had just entered the Lord tier, Bruley's cultivation was even higher. He had already reached the second stage of the Lord tier. He called him a two star Lord!

In terms of rank, a two star horde leader was equivalent to a rank 7 cultivator, and their strength was extremely powerful.

As a 2-star horde leader, Bruley loved to explore wild buildings. He had left footprints all over the continent, and he and his companions had searched for those strange and mysterious wild buildings everywhere.

In his notebook, he had recorded many locations of wild buildings, as well as Bruley's and his companions' adventures.

Bruley had mentioned in his notebook that there were actually many special wild buildings on the continent, but most of them were located in dangerous places, and ordinary people had no chance of seeing them.

However, the more wild buildings there were, the more abundant and valuable the resources were. Some of the items were even worth cities!

Bruley and the others had once obtained a few items from a large tower in the wild, and sold them at a high price of twenty million brain beads in a high-class city!

However, the monsters in this kind of special wild building were all abnormally strong. Even as a 2-star horde leader, Bruley would often encounter a crisis of death!

When they encountered a wild building of this danger, they would only take some items inside and never dare to have any ideas about the building's foundation.

The metallic remains in front of Tang Zhen was the last special wild building that Bruley had explored.

They had explored the place for three days and encountered many powerful monsters. At the same time, each of them had been given a very powerful weapon.

However, just as they were about to leave, they suddenly encountered a terrifying monster. It was guarding outside the metal wreckage, blocking them from leaving.

This monster was incomparably powerful. Even though Bruley and his companions attacked it together, they were still unable to break through the monster's defense.

The strangest thing was that the monster didn't seem to intend to kill Bruley and the others. It only wanted to imprison them here.

Bruley and the others were extremely anxious because they had already run out of supplies. If they were unable to escape from the metallic wreckage, they were destined to die Here!

After being trapped for a few days, Bruley and the others ran out of ammunition and supplies, and finally decided to fight to the death.

Each of them was given a bomb that they had gotten from the metal wreckage, and then they split up to break out.

If anyone was unlucky enough to be targeted by the monster, they would detonate the bomb and die together with the monster, creating a chance for the others to escape!

The text stopped abruptly here. It seemed that Bruley was the one who had died with the monster.

While he was reading the notebook, Tang Zhen discovered that there was a human cultivator among brui's companions. His strength was similar to brui's.

It was likely that after Bruley detonated the bomb, his human companion had successfully escaped from this place.

In that case, was there a connection between this human cultivator and the great elder of blood Sand City?

Was the bomb Bruley used to take the monster down with him the bullet of the destructive star cluster bomb that the great elder of bloodsand city had taken out before he died?

Was the crater in front of him the work of that bullet? but why was there such a terrifying gray fog?

Could the terrifying monster in the pit be the one that had stopped Bruley back then?

Tang Zhen's heart was filled with questions. However, he could only slowly search for an answer.

Tang Zhen turned his head and glanced at the enormous metal remains. He inhaled a deep breath of air and walked in!

Chapter 328: fierce battle with the snake monster, leveling up the flames

The interior of the metal fragment was extremely vast, and he felt extremely small within it.

Tang Zhen sized up his surroundings and discovered that the area around the entrance had been severely damaged. There were many signs of violent demolition.

Picking up a thin piece of metal from the metal floor, Tang Zhen discovered that it was very light and extremely tough.

Even though it had been buried in the soil for many years, it still looked as good as new!

He wondered what kind of effect it would have if it was used to make weapons.

Tang Zhen picked up some more metal from the ground and kept it in his storage space. He was prepared to hand it over to furnace hammer for him to study it in detail.

Tang Zhen was hesitating if he should continue to go deeper as he looked at the tunnel that was slanted downwards.

Tang Zhen had basically confirmed that the metal bomb's origin came from this metal wreckage.

Based on the assumption that each person had one bomb, Bruley's team had brought no more than five bombs out, one of which had fallen into his own hands.

After so many years, who knew where the bombs had gone?

Therefore, Tang Zhen did not need to worry at all that this bomb would pose a threat to Holy Dragon City!

The purpose of this trip had been achieved. If he wanted to go deeper, he was bound to bear a certain risk.

Even with the strength of a two star horde leader like Bruley and the others, they still ran into walls everywhere in this metallic wreckage. Tang Zhen was all alone and did not think that he could be much stronger than them.

Should he wait until his cultivation level was a little higher before continuing to explore?

However, this thought was immediately rejected by Tang Zhen the moment it appeared.

Ever since he entered the world of loucheng, when had he ever backed down in the face of difficulties?

When faced with a cultivator who was stronger than him, had he ever been afraid?

If he wanted to make himself strong and let Holy Dragon City laugh at everyone, he was destined to step on a road full of bumps and hardships.

The opportunity was right in front of him, so how could he give up just like that?

When Tang Zhen thought up to this point, he immediately took out his demonic war blade and pounced towards the pitch-black tunnel.

With the assistance of the application, Tang Zhen could easily see the scenery in the dark. Therefore, the debris on the ground did not pose any obstruction to him.

It was just that the length of this tunnel was really too shocking. Tang Zhen had walked for a kilometer, yet he still had not reached the end.

Just as Tang Zhen was sizing up a tightly shut metal door, a change suddenly occurred!

A strange snake that was flickering with fluorescent light suddenly shot out from the trash and headed straight for Tang Zhen's throat.

This monster's movements were as fast as lightning. Tang Zhen only saw a flash of light before the monster had already pounced in front of him.

Tang Zhen's heart jolted. He fiercely swung the demonic blade in his hand and dodged the sneak attack of the strange snake.

Ding! Ding!

The incomparably sharp Demon Blade struck the snake-like monster's body, producing a metallic sound and sparks.

Tang Zhen frowned. It seemed that this monster did not have a body of flesh and blood?

After being sent flying by Zhen Tang's attack, the monster did not immediately attack. Instead, it stood up on the ground and stared at Zhen Tang.

Tang Zhen took this opportunity to finally see the appearance of the monster.

It was a strange snake covered in black metal. There was a fluorescent ring on its body at a certain distance, arranged evenly from head to tail.

At this moment, the triangular head of the strange metal snake, which was covered in metal plates, was facing Tang Zhen's direction. Its pair of eyes that were flashing with a red glow shot out a cold light that wanted to devour people.

As long as Tang Zhen revealed a slight opening, this strange metal snake would launch an attack!

After the previous exchange, Tang Zhen could already confirm that this was a Lord-tier monster that was not inferior to him in strength!

He did not expect that he would encounter such a terrifying monster the moment he entered the metallic remains. Tang Zhen had no doubt about Bruley's encounter.

Perhaps there were even more terrifying monsters hidden within the metal ruins!

The most important thing right now was to get rid of this metallic snake as soon as possible and use it to help him level up.

Carefully adjusting his breathing, Tang Zhen's mind moved as he took out the purple lightning short sword from his storage space.

He believed that with the sharpness of the purple lightning short sword, he should be able to break through the strange snake's metal armor!

The moment Tang Zhen changed his weapon, the strange metal snake shot out with all its might and attacked Tang Zhen once again.

"Good!"

Tang Zhen shouted loudly. The purple electric short sword in his hand was violently hacked toward the strange metal snake.

At the same time, an almost transparent purple flame appeared in his hand. It was the upgraded [raging flames]!

In order to level up [flame frenzy] and [ice edge battle armor], the number of heads that Tang Zhen had smashed out had made his heart ache for a few days.

It was precisely this kind of upgrade that did not care about the cost that caused the two attack skills to be upgraded to an abnormal level, becoming one of Tang Zhen's hidden trump cards!

After the upgrade, this was the first time Tang Zhen had used it in actual combat!

The temperature of the flame had reached a terrifying 9000 degrees. The moment it appeared, it roasted the dry objects in the surroundings, causing them to emit strange sounds.

The strange metal snake clearly sensed the terror of the flame. It was about to pounce in front of Tang Zhen when it forcefully turned its body to the side.

However, Tang Zhen had long been waiting for the strange metal snake. How could he let it escape so easily?

The purple electric short sword cut through the snake's body and cut off a small piece of its armor. The burning left palm quickly grabbed at the snake's body.

At this moment, Tang Zhen had already unleashed his speed to the limit.

"Swish!"

A sound similar to a red-hot soldering iron being dipped in water rang out. At the same time Tang Zhen's palm grabbed the strange metal snake's body, a stream of metal vapor overflowed from his hand.

The body of the strange metal snake that was hidden under the armor was unable to resist the terrifying heat and was instantly burned to ashes!

From where Tang Zhen's palm was holding onto, the strange metal snake was split into two. The cut had already been completely carbonized.

The front half of the strange metal snake was now less than a meter long, and it was rolling on the ground in pain.

The moment [raging flames], which had been continuously upgraded, was used, the strange metal snake was completely destroyed!

The semi-transparent purple flame was quickly withdrawn. Although this flame was terrifying, it consumed a great amount of physical strength. With Tang Zhen's current cultivation, he would not be able to endure for long.

If he didn't kill the snake, he would be harmed instead. Tang Zhen would definitely not let this fellow off.

With a flick of his hand, the purple lightning short sword turned into a stream of light and shot out, directly nailing the strange metal snake seven inches away.

The strange metal snake was already seriously injured. Now that the purple lightning dagger had injured its vital parts, it struggled madly for a few times before dying.

Letting out a long breath, Tang Zhen walked to the front of the strange metal snake's corpse and pulled out the purple lightning short sword.

After thinking for a moment, Tang Zhen kept the corpse of the strange metal snake into his storage space.

Looking at the sealed metal door beside him, Tang Zhen walked forward and the purple flame appeared in his hand once again.

He slashed at the metal door, and the sturdy door immediately turned into steam, revealing a large hole.

After keeping the flame, Tang Zhen walked in.

This was a very empty room, and on the surface, it seemed to be empty.

However, after Tang Zhen walked around twice, he felt that there was definitely something hidden inside.

Tang Zhen clenched his fist and knocked on the wall that was wrapped with a soft material. The corner of his mouth revealed a trace of a smile.

Tang Zhen extended his finger that was covered in purple flames and gently slid a few times on the wall.

Clang! Clang!

The metal pieces that were cut off fell to the ground and were directly stored by Tang Zhen into his storage space.

A large black hole was revealed at the spot where his finger had cut!

Tang Zhen was a little speechless after he clearly saw the items within the cave.

"What the hell is this?"

Chapter 329: The metal-armored rat

The item that appeared in front of Tang Zhen was a large pile of rotten junk that emitted a faint stench.

These items might not have been like this in the first place, but they had rotted to this extent because they had been stored for too long.

He thought that he had found something good, but in the end, he discovered a pile of junk after opening it. One could imagine the depression in Tang Zhen's heart.

Tang Zhen, who was unwilling to give up, cut open another piece of the metal wall. In the end, what entered his eyes was actually the skeleton of a monster that still had some fur.

Compared to the pile of unknown garbage just now, the smell of the skeleton cabinet was so bad that it could kill people.

Tang Zhen spat. At the same time, he gave up on the idea of continuing to open the wall cabinet.

He guessed that this place should be a cold storage room with a storage function, which was why there were all kinds of things stuffed here.

When the refrigeration equipment of the metal wreckage stopped working, the frozen items inside would definitely rot completely.

It was just that in this way, Tang Zhen, who wanted to have some gains, must continue to venture deeper.

His original plan was that if he could find useful materials here, Tang Zhen would be able to evacuate.

Unfortunately, the heavens did not grant him his wish, and he did not find anything here.

Now, it seemed that going deep into the ruins was inevitable.

However, if he were to encounter a Lord-tier monster that was even more terrifying than the metal snake, what should he do?

After pondering for a moment, Tang Zhen took a large step forward and continued to head deeper into the tunnel.

The more he thought about it, the more he had to worry. He might as well not think about it and just take it one step at a time!

As the saying goes, "what you fear will come true." Tang Zhen saw a metal door blocking his way. When he was about to reach the end of the passage, two monsters appeared in front of him.

This time, the monster was very similar to a rat. Its body was also covered with black metal armor, protecting all its vital points.

What was even more freakish was that the two metal rats were the size of hounds, and their large flat teeth had turned into sharp knife-like teeth.

The hard metal floor was bitten by the rat, and a huge hole was dug out.

He really had an iron mouth and steel teeth, and was abnormally fierce.

Facing two Lord-tier monsters, Tang Zhen didn't dare to let his guard down.

The purple lightning short sword was placed horizontally in front of his chest in a defensive posture.

"Squeak, squeak."

The two Lord-tier rats looked at each other. Their blood-red eyes widened as they pounced at Zhen Tang.

As the metal Rat pounced with too much force, it left clear claw marks on the metal floor.

When he saw the two metal rats coming at him, Tang Zhen violently waved the purple lightning short sword in his hand and directly charged toward one of the rats.

The other hand used the same trick again, and an invisible purple flame surged up from the fingertips.

Mouse, whose body was covered in metal armor, instantly pounced in front of Tang Zhen. He used both his mouth and legs to attack Tang Zhen's vital parts.

The metal Rat did not pay any attention to the purple lightning short sword in Tang Zhen's hand.

In the metal rat's mind, cold weapons could not break through its armor at all, so it ignored them.

Unfortunately, Tang Zhen's purple lightning short sword was not an ordinary cold weapon!

"Go to hell!"

Tang Zhen gave a loud roar. The speed of his purple lightning short sword's swing actually increased by one fold as it ruthlessly cut into the metal rat's large mouth.

"Ga BA"

The metal rat's teeth, which could easily tear the floor apart, were cut off by the purple lightning dagger!

The purple electric short sword did not stop, and it cut a terrifying wound in the metal rat's mouth.

After the broken teeth rat felt the pain, its body trembled violently, and it actually twisted its body in midair to escape.

The other Metal Rat had an even more miserable fate. Just as it was about to bite Tang Zhen, Tang Zhen's left palm, which was emitting a translucent purple flame, had already ruthlessly grabbed at the metal rat's head.

The metal Rat was so frightened that its soul flew out of its body when it sensed the terrifying temperature on Tang Zhen's fingertip. It hurriedly tried to Dodge.

Unfortunately, Tang Zhen was destined not to give it the chance to escape. Just as the metal Rat started to turn around, his five fingers had already ruthlessly inserted into the metal rat's head.

The incomparably hard metal plate was as fragile as a piece of paper when it came into contact with the purple flames. It was easily pierced through by Tang Zhen.

The metal Rat let out a blood-curdling screech as the purple flames burned its head to ashes.

"Ding!"

A crisp sound was heard. The metal rat's brain had fallen to the ground.

Seeing that its companion had been killed by Tang Zhen in a single strike, the metal Rat whose mouth had been cut open by the purple lightning short sword turned around and ran.

Monsters that had reached the Lord tier already had high intelligence and were very good at judging the situation.

Seeing that it was not a match for Tang Zhen, this Metal Rat naturally would not stay behind and court death.

"You want to run? dream on!"

Tang Zhen coldly snorted. The purple lightning short sword flew out once again and directly stabbed toward the back of the metal Rat.

As a Lord-tier monster, the metal rat's perception was extremely sensitive. Just as the purple electric dagger was about to hit it, it jumped up from its original spot and dodged the fatal blow!

After landing on the ground, this fellow actually issued a provocative cry towards Tang Zhen. He seemed to be extremely pleased with himself.

However, its jagged front teeth, which had been cut off by the purple lightning dagger, and its bloody mouth made it look extremely pathetic and ridiculous.

When Tang Zhen saw this, he casually took out the demonic bow from his storage space and shot an arrow at the metal Rat.

The metal Rat was shocked. It quickly squeaked and crawled into a metal hole in the wall.

In reality, Tang Zhen had only shot out an ordinary Wolf Fang arrow. It was simply unable to penetrate the metal rat's abnormal armor.

However, the metal Rat had mistakenly thought that it was a terrifying weapon like the purple electric short sword, which was why it had fled in such a sorry state.

Although the metal Rat had entered the rat hole, Tang Zhen did not intend to let this fellow off.

He used the purple flame to draw a line on the metal wall, revealing a passage that was wide enough for an adult to pass through.

Tang Zhen sized him up for a moment before walking in.

Behind the mouse hole was a large space, but it was empty at the moment. He wondered where the metal mouse had gone.

Fortunately, Tang Zhen had some assistance. He swept his gaze across the ground and a row of rat footprints with heat residue appeared in his field of vision.

Tang Zhen hurriedly gave chase when he saw the rat's footprints extending into the depths of the space.

This space was also slanted downwards. Tang Zhen chased for about two kilometers before he suddenly saw a strange object that was about twelve meters long appear in front of him.

Tang Zhen curiously walked in front of this object and carefully observed it.

It was just that the more Tang Zhen looked at this thing, the more he felt that it was a flying device.

Forget it, I'll put it in my storage space first and study it in detail when I return to Holy Dragon City!

The most important thing at the moment was to see where the dead rat had sneaked to.

The reason why Tang Zhen was so persistent in chasing after this Metal Rat was because he had actually carefully considered it.

His first choice was that the metal Rat could help him level up after he killed it.

After killing the metal Rat and the Lord-tier water monster that he had killed before, his level-up progress had reached more than half.

After this, he only needed to kill four more Lord-tier monsters to become a 2-star Lord-tier monster!

With the strength of a 2-star horde leader, he should be able to go even further in this metallic ruins!

Furthermore, the metal Rat was cunning and cherished its life. Once it saw that something was wrong, it would quickly escape. Therefore, the place where it usually moved was far away from the dangerous areas inside the ruins.

Tang Zhen only needed to follow the metal rat's movement route and it would definitely be safer than barging in.

After storing the aircraft-like object into his storage space, Tang Zhen glanced at the rat hole in front of him and rushed over once again.

Chapter 330: The wreckage of the battleship, the scheme of the rats

After using the purple flame to cut the metal wall open, Tang Zhen walked in.

Compared to the huge space just now, the area here was much smaller. At most, it was only 5000 square meters.

However, in this space, there were metal boxes of different sizes scattered around. Many of them had been opened, and there was nothing inside.

Looking at the gnawing marks on the box, he knew that it was definitely the work of the dead rat!

Tang Zhen sized up his surroundings. He discovered an unopened metal box and walked over.

After using purple flames to cut open the electronic lock on the box, a strange black combat suit was revealed, making Tang Zhen's eyes light up.

He didn't know what material this combat suit was made of, but it had a strange touch to it. It felt very high-tech, and one could tell at a glance that it was not an ordinary item.

After using [appraisal eye] to lock onto the combat suit, a set of data was quickly displayed.

[terobo special femtometer combat suit, specially designed for ground special Forces. It can be used in all-terrain and all-weather battles, with long power and endurance!]

After seeing this set of simple identification data, Tang Zhen had already confirmed that this was a good thing that was hard to come by!

To be able to possess the star-destroying cluster bombs and all sorts of high-tech items, the combat suit made by the terobo people would definitely not be too bad.

Although he really wanted to test the effects of this combat suit right now, the environment he was in was too dangerous. Tang Zhen still dispelled the thought of immediately testing it.

After putting the combat suit into his storage space, Tang Zhen continued to look for the traces of the metal Rat.

Tang Zhen had a faint feeling as he looked at the dirty and messy environment around him. This place might very well be the lair of the metal Rat.

Sure enough, Tang Zhen did not walk far before he saw a 'big bed' made of broken battle suits in the middle of the messy box!

The metal Rat that was being chased by Tang Zhen was currently stretching its neck and looking at Tang Zhen with a dumbstruck expression!

Tang Zhen saw an emotion called shock in the eyes of this Metal Rat.

It clearly did not expect that Tang Zhen would actually chase him to its lair!

"Squeak!"

The metal Rat suddenly jumped up from the big bed. After it furiously barked a few times at Tang Zhen, it turned its head and ran towards the corner of the wall.

"Where are you running to?"

Tang Zhen growled and used the purple lightning short sword as a flying knife again, shooting it toward the metal Rat.

The rat was about to enter the hole, but the speed of the purple lightning sword was far beyond its expectations. As a result, the purple lightning sword fell as soon as its butt entered the hole.

"Crack!"

"Creak creak creak creak creak creak"

The metal rat's shining tail had been cut off by the purple electric dagger, and only a small section less than five centimeters was left.

If the purple electric short sword had moved a little bit further, the metal Rat would have been killed!

The metal Rat flew into a rage after its beloved tail was cut off. It turned its head and stuck its head out of the hole, roaring continuously at Tang Zhen.

However, after its teeth were cut off and its mouth was cut open, the metal Rat looked extremely pathetic.

Its threatening action at this moment caused Tang Zhen to feel that it was rather comical.

He jumped to the entrance of the cave and slashed at it with his palm, which was covered in purple flames.

The metal Rat shrieked and immediately retreated, continuing to flee in a sorry state.

Tang Zhen didn't hesitate either. After cutting the metal wall, he raised the purple lightning short sword and gave chase.

According to the traces displayed on the application, Tang Zhen chased for another kilometer or so before the mouse's traces disappeared. He discovered that he was in a Hall.

The hall was very spacious, as if it was a giant conference room. There were many strangely shaped chairs placed in many places.

Looking up, a huge and strange pattern came into view, and there was a line of familiar words below it.

"These words are the" trobo Expeditionary fleet "!"

After Tang Zhen saw these words, he roughly understood the origin of this metal ruins.

The metal ruins used to be a super warship that belonged to the terobo people's expedition fleet.

The reason it appeared in the world of loucheng might have been because it had encountered an accident in the battle. As a result, it had plunged into the soil and was completely destroyed.

Affected by the warship, the buildings near its crash site were instantly destroyed.

Then, the destroyed battleship and the surrounding buildings were pulled into the world of towers by an unknown force, turning into this mysterious super ruin.

This might be the origin of the Super ruins. Tang Zhen felt that it should not be too different from the truth!

A super warship would definitely have powerful weapons and high-tech items. The femme combat suit that he had picked up was the most powerful proof.

Since he had taken the risk to enter this place, he had to bring back some good things.

When he thought of this, Tang Zhen was no longer in a hurry to catch the dead rat. Instead, he continuously used the [appraisal eye] to scan the items that were useful to him.

[special combat wrist guard for the terobo Expeditionary fleet, built-in mini optical computer, needs to be cracked to use.] This thing is not bad, keep it!

[terobo Expeditionary fleet anti-gravity mini-detector] should be useful, put it away!

The [terobo Expeditionary fleet plasma grenade] was actually a weapon, he had to take it away!

Tang Zhen continued to walk around the hall and picked up more and more items.

Just as he was happily picking them up, a wave of messy footsteps sounded, causing Tang Zhen's heart to be startled.

He turned around and saw a rat with a broken front tooth running out of the dark tunnel.

It was the metal Rat that had been chased by Tang Zhen and had returned!

When this fellow passed by Tang Zhen, he actually turned his head and revealed a pleased expression. He wagged his tail that only had a section left and had an expression that said "you're dead."

Tang Zhen's heart suddenly trembled when he saw the expression of this dead rat. He did not hesitate to wildly run back the way he came from.

this damn rat! I can't believe it would do this. I've really underestimated it!

The metal Rat looked at Tang Zhen's back in a daze with a dumbstruck expression.

When it discovered that Tang Zhen had actually fled without the slightest hesitation and had even headed straight for its lair, it was so angry that it jumped up from the ground and continuously let out a wild cry.

"Squeak!"

After letting out a few angry roars, the rat turned its head and looked at the pitch-black tunnel. Its entire body trembled as it desperately chased after Tang Zhen.

Just as the man and hamster disappeared, a tall figure slowly walked out of the passage.

He was about 2.5 meters tall, wearing a smooth-looking armor and holding a huge sword in his hand.

Under the helmet that had been taken off was a gray-white face covered in scars, the color of a corpse.

A pair of gloomy and cold eyes that flickered with a green light was staring intently at the direction where Tang Zhen had disappeared. His eyes were filled with the desire to kill.

A terrifying aura that far surpassed Tang Zhen's cultivation continued to spread from its body, causing one to shiver.

"Two damn rats, go and clean them up!"

Following his command, the two metal balls that were continuously swimming behind him immediately chased in the direction that Tang Zhen had disappeared in.
