

Alternate 361

Chapter 361: Killing the enemy and snatching the treasure, shaking the five cities

The three cultivators let out a furious roar at the same time and charged toward Tang Zhen while facing the heat wave.

However, looking at the movements of these two Lord cultivators, it was clear that they were going to fight for their lives. They actually directly pounced towards Tang Zhen's purple flame saber.

That old man followed closely behind. His ten fingers flickered with black light as he grabbed at Tang Zhen's vital points.

The two of them risked their lives to protect him while the old man was responsible for attacking!

Tang Zhen hurriedly dodged when he saw this. At the same time, a shocking heat wave rose from his dark blue ice Armor.

Ice and Fire had actually fused together perfectly at this moment.

The cultivator closest to Tang Zhen screamed. His entire body immediately turned into a burning torch, emitting a burning sound that made one's scalp tingle.

However, the other party still did not have any intention of retreating. Instead, he directly pounced on Tang Zhen's body.

The moment he got close to Tang Zhen, the cultivator was already roasted into a dry corpse and then rapidly carbonized.

However, his death had given the old man a chance.

That old man's jet-black sharp claws suddenly pierced into Tang Zhen's chest, tearing apart his leather clothes and creating five terrifying wounds.

The skin and flesh around the wound turned into ice crystals and were frozen solid.

Tang Zhen hurriedly retreated, avoiding the danger of his intestines being cut open.

If it wasn't for his lack of combat experience, Tang Zhen would not have suffered such a huge loss.

Sensing the change in his body, Tang Zhen furiously roared as the purple flames on his body instantly erupted.

The purple flames filled the entire passage and engulfed the retreating old man and the Lord cultivators who were pouncing on him.

With two screams, the old man and the Lord cultivator immediately turned into fireballs, struggling and running.

Tang Zhen felt that his chest had already lost all feeling. That old man's cultivator skill had caused all the skin and flesh on his chest to be frostbitten!

“Go to hell!”

Tang Zhen waved his Flaming Fist and smashed the Lord cultivator who was blocking his way. After that, he rushed to the front of the old man.

Purple flames and ice blades appeared in Tang Zhen’s hands at the same time, directly piercing the old man’s body.

Through the flames, Tang Zhen could clearly see the old man’s charred and distorted face. His dried eyes were filled with shock and resentment.

“Plop!”

Tang Zhen threw away the old man’s corpse. He turned around to look at the door of the treasure room and kicked it open.

After keeping the purple flames and the ice Armor, Tang Zhen stepped into the treasure room and began to search wantonly!

After clearing the entire treasure room, Tang Zhen swallowed a piece of Ivy ointment. After which, he controlled the purple flame to approach the wound.

Wisps of black-colored cold air flew out from Tang Zhen’s skin and flesh. A trace of pain also came from his chest that had lost all feeling.

However, the flesh near the wound had already turned black and rotted. It was obvious that it had rotted after frostbite.

He used the purple electric short sword to cut off the rotten flesh, revealing the white bone armor on his chest, which looked extremely ferocious.

Tang Zhen took out an Ivy ointment and carefully applied it on his wound. A numbing and itchy feeling immediately assaulted him.

This kind of ointment only had a good healing effect on the Aborigines of the tower world. However, when Tang Zhen used it, it had a magical effect and the healing speed was extremely shocking.

Therefore, the Ivy ointment was the most common medicine that Tang Zhen had brought with him!

After treating the wound, Tang Zhen took a deep breath and rushed downstairs with his saber.

Another battle ensued. The Scarlet Qilin tower, which had lost five Lords and a two-star Lord, was no longer able to stop Tang Zhen.

Swaggering through the interdimensional passage, Tang Zhen engaged in another fierce battle and killed all the Chi Lin clan’s cultivators guarding the passage!

Not long after he left, the remaining three towers received the news one after another, and they also knew what had happened to two towers.

Compared to the city's treasure vault that had been ransacked, the Scarlet Qilin race's city that had lost several Overlord cultivators only lost a few ordinary cultivators. The horned Fang race's city that had its treasure vault emptied out was already very lucky!

After losing so many Overlord-grade cultivators, the Scarlet Qilin tower's days were not going to be good!

However, these three towers didn't know that even the number one expert of the Scarlet Qilin tower had been killed. As the Scarlet Qilin tower had sealed off the news of this, they didn't know the entire process of the battle.

If the outside world knew that a two-star horde leader had been killed, the Scarlet Qilin tower would really be in danger!

After analyzing the situation, the Lords of these loucheng concluded that the person who had robbed their treasure room was the one they had been chasing!

From the numerous battles he had with this destroyer, he was at least a two star horde leader!

Then, after he ransacked The Two Towers, would he also target him?

After thinking up to this point, the remaining three city Lords couldn't help but feel a headache coming on. Being targeted by an expert of this cultivation level made them unable to sleep and eat in peace.

In order to ensure that their towers would not be robbed, they began to rack their brains to come up with countermeasures.

First, he had to move the treasures in the building, then use all sorts of methods to shield the energy from the brain Pearl to ensure that it wouldn't be detected by the destroyers.

The next step was to deploy a large number of troops inside and outside the passage, and when the destroyers arrived, they would give them a head-on blow!

The cultivators of loucheng who were searching in the alien plane had also received a message from the lightning bird, asking them to retreat immediately to help defend the city.

After the cultivators from the five cities, who had been searching for a long time in the ruins, received the news, they immediately jumped up in anger.

Never in their dreams would they have thought that the destroyers would break through their heavy blockade and run to the cultivators' hideout to cause trouble.

When they heard that the saboteur had emptied the treasure rooms of two towers and killed several cultivators of the Lord, some were shocked, some were delighted, but most were shocked!

Especially the cultivators in the horned tooth tower and the Scarlet Qilin tower, they all wished to tear Tang Zhen apart alive!

Without any hesitation, the cultivators of the five cities dodged and began to return to their own towers through the interdimensional passage.

Just as they split up, the monsters that had been hiding in the dark and had not moved all this time suddenly launched an attack.

Among the attacking monsters, there was a humanoid monster that the cultivators of the five cities had never seen before!

Their bodies were covered with an impenetrable black shell, and they moved extremely fast. Many of them were Lord-tier monsters.

These humanoid monsters were extremely powerful and experienced. Cultivators of the same level were no match for them.

The most important thing was that these humanoid monsters could actually control the beast monsters. Not only could they control them to fight, but they could also control them freely!

The cultivators of the five cities had never encountered such a situation before. They immediately suffered heavy losses and countless casualties!

Without any other choice, the scattered cultivators from the five cities could only unite again and resist the monster's attack.

The five towers that were originally in a hostile state had no choice but to cooperate again because of Tang Zhen's appearance.

At this moment, Tang Zhen had already arrived at the entrance of another foreign tribe building.

Chapter 362: heavy defense, passing off the fake as the real

Tang Zhen was hiding in the ruins as he stared at the tunnel in front of him without blinking.

Because he had robbed two towers of their treasure vaults, the towers of the foreign races who had received the news reacted quickly. At this time, a large number of troops had already gathered in front of the interdimensional passage.

These foreign cultivators were fully armed and stood in groups of three to five, guarding against the arrival of the saboteur.

Tang Zhen saw a large number of weapons from this wasteland world in the hands of these foreign cultivators.

There were strange acid rifles, acid bombs, and even acid cannons!

He did not know why the natives of this world loved this kind of weapon so much. Perhaps to them, only this kind of weapon could cause the greatest damage.

In order to deal with Tang Zhen, this non-human city had taken out all the weapons it had stored.

Tang Zhen was in a difficult position. Should he snatch this city or not when faced with such a situation?

Under normal circumstances, Tang Zhen only needed to place a "firework" and all these people blocking the door would be wiped out.

However, Tang Zhen was also afraid that the power of the nuclear bomb would be too great and directly destroy this interdimensional passage.

There was no problem in destroying one tunnel. However, Tang Zhen would be dumbfounded if the other tunnels were destroyed as well.

After all, these five interdimensional passages were all connected to one other world. Who knew what the other passages would do if one of them was damaged?

Shut down, collapse, or be completely destroyed?

If any of the above situations happened, Tang Zhen could only stay here forever. Who knew if he would have the chance to return to the tower world?

The risk of doing so was too great, and the consequences were unknown. He must not try it rashly.

Then how could they enter the tunnel and then safely retreat?

Tang Zhen thought for a long time but still did not come up with a perfect plan.

Was there a way to deceive these foreign cultivators and enter the passage without anyone knowing?

Perhaps he could find the perfect solution in the application store!

As Tang Zhen thought of this, he immediately opened the store and began to search for applications that could help him.

After searching for a moment, Tang Zhen saw a magical application that belonged to the category of [fantasy secret technique].

[shapeshifting, a secret technique of the everchanging demon race. You can control your muscles, bones, and bones to change into various appearances and auras of your race. (Reference is required for shapeshifting). [download price: 100000 brain beads!]

None of the uses of fantasy secret techniques were cheap.

The price of 100000 brain beads was not cheap either. It was equivalent to one million gold coins before the mobile phone was upgraded. In the past, Tang Zhen might not be able to afford it.

However, the current Tang Zhen was extremely wealthy. A hundred thousand brain beads was just a small matter.

After paying the brain Pearl, Tang Zhen immediately downloaded and installed it.

Following the activation of the application, Tang Zhen clearly felt an invisible force wrapping around his body's cells, leaving nothing behind.

It was as if he had turned into a dough that could be kneaded, rounded, and flattened at will.

Tang Zhen understood in his heart. It seemed that this was the power of application. It was indeed extremely magical.

It seemed that there was no problem with the application. Next, he would begin the transformation.

However, before that, Tang Zhen must first capture a foreign cultivator to use as a reference.

Tang Zhen noiselessly approached the nearby passageway. He extended his hand and knocked out a foreign tribe cultivator before directly dragging him away.

Tang Zhen carried the alien cultivator to a hidden place and used it as a reference. The appearance and aura of his body rapidly changed.

In the blink of an eye, Tang Zhen's appearance became exactly the same as the foreign cultivator. There was no difference.

Tang Zhen nodded in satisfaction after checking the map view. Then, he removed all the leather armor and weapons of the foreign cultivators.

After putting on the weapons and equipment, Tang Zhen looked no different from those foreign cultivators. No one would recognize him.

After swaying his body and walking two rounds, Tang Zhen swaggered out of the ruins.

The next thing he had to do was to find an opportunity to slip into the interdimensional passage.

When they saw Tang Zhen walking over, a few foreign cultivators glanced at him and then ignored him.

Because the destroyers didn't come, the atmosphere around the passage wasn't very tense. Some cultivators were still chatting casually.

Tang Zhen walked around the tunnel for a while. When he tried to approach the tunnel, he was immediately stopped.

"Before the ban is lifted, no one is allowed to approach the passageway. Get lost!"

Tang Zhen was disguised as a level 4 foreign cultivator. The one who stopped him was a level 5 foreign cultivator. When he looked at Tang Zhen, his eyes were filled with disdain.

Tang Zhen laughed hideously. He put on a submissive appearance and hurriedly retreated to the side.

"How long will we have to wait? should we force our way in?"

Tang Zhen stood in a corner and pondered about the feasibility of forcefully attacking. The more he thought about it, the more he felt that it was inappropriate.

After these towers received his news, they had obviously made proper arrangements, so it was very dangerous to attack by force.

Even though he was a three-star horde leader, he still couldn't avoid being injured in the battle. The previous encounter in the Scarlet Qilin Tower City still left Tang Zhen with a lingering fear.

When he was in chilin city, he had launched a surprise attack and caught the other party off guard.

At this moment, the foreign invaders had clearly made thorough preparations. If he wasn't careful, he might fall into their trap.

In that case, he could only think of another way.

Tang Zhen quietly retreated to the edge of the ruins when he thought of this. His body flashed and he hid.

Tang Zhen quickly left the sight of these foreign race cultivators and began to search around, trying to attract a group of monsters to attack the interdimensional passage.

With the [shapeshift] application, Tang Zhen could completely transform into a monster and enter the monster's interior.

Through the map view, Tang Zhen quickly found the traces of a group of monsters.

However, just as he was about to make a move, he suddenly saw a group of disheveled foreign cultivators rushing out of the ruins in a panic.

Behind these foreign cultivators, there was a group of monsters that were in hot pursuit.

However, Tang Zhen frowned slightly when he clearly saw the appearance of these monsters.

It turned out that among these monsters, there was actually a kind of human-shaped monster that was completely black!

They moved swiftly and attacked ruthlessly, as if all the monsters were under their control.

It was Tang Zhen's first time seeing this kind of black human-shaped monster. He could not help but take a few more glances.

Under the command of these humanoid monsters, the scattered monsters were constantly besieging and intercepting the foreign cultivators. Their combat strength had more than doubled!

Tang Zhen's eyes brightened when he saw the injured foreign tribe cultivators fleeing for their lives under the pursuit of the monsters. He immediately began to pull and pull, causing his clothes and armor to become extremely messy.

Immediately after, Tang Zhen ran to the ruins and smeared the blood of the foreign cultivator he had killed on his body. He made it look like he had been seriously injured after a bitter battle.

After completing his disguise, Tang Zhen immediately ran towards the foreign race cultivators who were running for their lives. He carefully hid in the ruins at the side.

As the monster continued to roar, the cultivators got closer and closer. Soon, they arrived at the place where Tang Zhen was hiding.

The moment these cultivators passed by, Tang Zhen rushed out of the ruins like lightning and mixed into the messy group of foreign cultivators, fleeing with them.

The foreign race cultivators who were in a hurry to escape were too busy to take care of themselves and didn't notice Tang Zhen who had snuck in.

Under the pursuit of the monster, it was already very rare for them to be able to keep their lives. Who would care about what was happening around them?

This kind of reasonable thing happened to help Tang Zhen a big deal!

Chapter 363: Human-shaped monster, successful infiltration _1

An extremely shrill scream was heard.

It turned out that a foreign cultivator had been caught by the monster, and it had bitten him in two before swallowing him.

Tang Zhen could not help but turn around and take a look when he heard this mournful scream. His eyes inadvertently met with the human-shaped monster riding on the monster.

This fellow was actually a level 7 two star horde leader. No wonder it could control so many low-level monsters!

The human-shaped monster's eyes were incomparably cold and indifferent. They were filled with bloodthirst and cruelty. When it noticed Tang Zhen looking at it, it immediately revealed a sinister smile.

However, its smile was filled with shock and contempt, as if it was looking at a group of ants.

If an ordinary cultivator were to be looked at by it like this, they would probably be immediately intimidated and leave an indelible shadow in their hearts.

This was an innate ability of humanoid monsters, similar to the one-eyed Dragon's ability.

Tang Zhen was not affected in the slightest. He only felt that the eyes and smile of this human-shaped monster were very annoying. Therefore, he returned a fierce glare.

Unknowingly, Tang Zhen had used the mental energy of a three star horde leader.

The humanoid Lord monster that was smiling at Tang Zhen trembled and almost fell off the monster's back.

When it steadied its mind and looked at Tang Zhen again, it discovered that the other party had already turned his head around and made an appearance of fleeing for his life. He no longer paid any attention to it.

A hint of fear flashed through the human-shaped monster's eyes. It subconsciously slowed down its speed and began to follow behind these cultivators.

It was also at this moment that the cultivators guarding the interdimensional passage finally noticed Tang Zhen and the others.

Several hundred foreign cultivators rushed over in an attempt to receive Tang Zhen and the others. At the same time, various long-range weapons also landed on the group of monsters.

When the human-shaped monster saw this, it immediately stopped chasing and commanded the monster to return.

As it turned around, the human-shaped monster glanced at Tang Zhen who had "fallen to the ground with serious injuries" in the distance. Its expression was extremely strange.

After the monster finally left, the foreign cultivators who were still in shock fell to the ground like dead dogs.

When they were running for their lives, these foreign cultivators didn't feel any pain in their bodies. All they wanted to do was not to be bitten to death by the monsters.

However, after the monsters retreated, they immediately fainted as soon as they relaxed.

They had been running for their lives, and their physical strength had been seriously exhausted!

When the foreign cultivators saw this, they hurriedly took out items like stretchers and carried them back.

Seeing the cultivators who had escaped from danger fall to the ground one after another and then be carried away, Tang Zhen had no choice but to 'faint' with the crowd.

"Plop!"

As Tang Zhen fell to the ground with a loud thud, the foreign cultivators immediately noticed his condition.

"Hey, there's another one who fainted here!"

The foreign cultivator beside Tang Zhen roared. Then, someone carried a stretcher over and threw Tang Zhen on it.

"Carry them back to the tower, there's no place for them to recuperate here!"

A Lord cultivator walked over, glanced at the unconscious cultivators, and gave an order expressionlessly.

After saying this, he no longer paid any attention to these cultivators and turned to leave.

These non-human loucheng respected the strong and didn't care too much about the ordinary cultivators. However, it was their duty to help the injured and return to the loucheng to recuperate.

Tang Zhen lay on a stretcher and leisurely arrived at the entrance of the interdimensional passage.

This time, there were nearly a hundred people who were injured and unconscious. They were now lining up in order, waiting to enter the passage.

A foreign race cultivator passed by Tang Zhen and suddenly stopped in his tracks. He sized up Tang Zhen with a somewhat puzzled expression.

"Hey, this guy looks a little familiar. Have I seen him somewhere before?"

When the foreign cultivator carrying the stretcher heard this, he replied in an annoyed tone, "Of course he looks familiar. They're all cultivators from the same city. I can't be sure when we've met before!"

The foreign cultivator guarding the passage shook his head in response.

no, I remember seeing him just now. I can't be wrong!

Tang Zhen, who was pretending to be unconscious, cursed in his heart. He thought, "if I'm exposed, I'll be the first to cut you alive!"

However, this wasn't a solution. If these foreign cultivators discovered his abnormality, all his efforts would have been in vain.

When Tang Zhen thought of this, he immediately operated the application and adjusted the half of his face that was pressed down.

Due to the stretcher's cover, the foreign cultivators beside him did not notice the obvious change in her face.

A leader of the foreign cultivators happened to pass by and heard the conversation between the two. He paused for a moment and then walked over.

"Are you sure you saw him at the entrance of the passage?"

The leader of the cultivators pointed at the "unconscious" Tang Zhen and asked the foreign cultivator.

Given the special circumstances, the leader of the cultivators had to be careful to prevent the saboteurs from sneaking in.

The foreign race cultivator who had pointed out Tang Zhen hesitated for a moment when he heard this. He then said, "Leader, can I take a look?"

The leader of the cultivators nodded and motioned for him to take a look.

The foreign cultivator approached the stretcher and took a look. Then, he turned Tang Zhen's head back to its original position.

The other side of his face that had been adjusted was immediately reflected in everyone's eyes. Although the difference wasn't big, compared to before, he was a completely different person.

The foreign cultivator also hesitated.

The leader of the cultivators saw this and immediately asked, "Look carefully, this is our brother. He just escaped from the monster's hands, and I asked people to carry him over.

So you have to tell me clearly, have you ever seen him before?"

The non-human cultivator stammered and said in an uncertain tone, "It seems like Yingluo has seen it before?"

The leader of the cultivators at the side was furious and scolded sternly, "if you've seen it, then you've seen it. If you've never seen it, then you've never seen it. What are you hesitating for?"

"Answer me immediately, have you seen it before?"

The foreign cultivator was so scared that he broke out in a cold sweat. He looked at the leader of the cultivators, who was full of killing intent, and subconsciously shouted, "My eyes must be playing tricks on me, I've never seen it before!"

After saying this, the foreign cultivator cursed himself in his heart for looking for trouble.

The leader of the cultivators pointed at the foreign cultivator twice with a gloomy face. Then, he turned around and left.

At this moment, it was the turn of the two foreign cultivators who were carrying Tang Zhen into the passage. The two of them hurriedly took a few steps forward and sneered at the foreign cultivator who had pointed out Tang Zhen.

He even wanted to scheme against his unconscious brother who was seriously injured. This was too f*cking wicked!

The foreign cultivator who identified Tang Zhen wanted to cry but had no tears. He looked at the strange eyes of the cultivators beside him and repeatedly scolded himself for being rude.

He couldn't help but turn his head and look at his cultivator 'brother' on the stretcher with a gloomy expression.

However, when his gaze fell on the cultivator's face that was covered in blood, he could not help but be stunned.

Only the foreign cultivator noticed that the foreign cultivator on the stretcher had a strange smile on his face before entering the passage.

Chapter 364: treasure transfer, melodramatic story

"Damn, are my eyes playing tricks on me again?"

The foreign cultivator muttered to himself with a conflicted expression.

Other than him, no one else had noticed this.

Because of what had just happened, the foreign cultivator was also a little unconfident and couldn't be sure if he was seeing things.

"F*ck his mother, do what I want, it's none of my business!"

In the end, the foreign cultivators decided to ignore this matter and just stand guard.

Just as the foreign cultivators were no longer thinking about this matter, Tang Zhen had already been carried into the interior of the foreign clan's building. Then, he was sent to a spacious hall.

The hall was about 2000 square meters in size. It was made of a fiery red building material and had all kinds of strange carvings on it.

At the top, there were twelve fiery red monster sculptures suspended in iron locks. They emitted bright light from the inside, providing light for the hall.

There were also many ferocious-looking statues placed near the passages around the hall, giving off a ghostly aura.

The cultivators who were injured and unconscious from the monster's pursuit were all placed here. From time to time, painful moans echoed in the hall.

Tang Zhen looked around through the map's perspective. After confirming that no one had noticed him, he quietly got off the bed and activated the [quantum invisibility light screen].

With a flash, Tang Zhen rushed out of the hall and arrived at the corridor of the tower.

He used his spiritual power to sense it, but there was no aura of a large number of brains gathered together.

"These guys really did hide their brains!"

Tang Zhen's eyes turned for a moment before he continued to walk forward for a distance. After which, he hid in the shadows.

He was prepared to grab a tongue and interrogate it to find out the location of the treasure.

The identity of this tongue couldn't be too low. At the very least, it had to be a Lord cultivator. Otherwise, it wouldn't be able to know too much secret information.

Not long after, a Lord cultivator walked over with a heavy heart.

Tang Zhen's heart was filled with joy. The moment this Lord cultivator approached his hiding place, he directly knocked him out and dragged him to a hidden place.

After throwing the feudal lord cultivator to the ground, Tang Zhen took out a bottle of mineral water from the storage space and poured it on the feudal Lord's face.

The Lord cultivator was awakened by the cold water.

After waking up, this Lord cultivator suddenly tensed his muscles and prepared to activate his cultivation skills.

At this moment, a cold voice rang in his ears.

"You'd better behave yourself, or I'll send you on your way immediately!"

This voice seemed to contain killing intent, but it was resolute. The Lord cultivator's heart turned cold as he confirmed that the other party was not joking.

After struggling for a while, he realized that his body had been tightly bound by a Green Chain. Even with his Lord-tier cultivation, he could not break it!

He didn't expect the green chains to be a rare Holy master mo weapon!

The Lord cultivator was shocked. He turned to look at the hijacker in the dark and said coldly, "Who are you? what do you want?"

"You don't need to know who I am. Now you just need to tell me, where did you hide all your brains?"

The Lord cultivator was shocked and shouted, "Damn it, you're the destroyer?"

"Correct, but no reward!"

Tang Zhen sneered in the dark and continued to speak to the Lord cultivator, "From now on, if you say one more word of nonsense, I'll kill you immediately!"

“Now, please answer my first question. Where did you hide all your brain beads?”

The Lord cultivator shook his head and said to Tang Zhen, “I only know that the brain Pearl has been hidden in a hidden location, but I don’t know the exact location!”

Tang Zhen sensed the aura of the Lord cultivator and confirmed that he wasn’t lying.

then do you know the approximate location or the direction? ”

After asking this question, Tang Zhen’s mental energy surged out and once again firmly locked onto this Lord cultivator.

As long as the other party’s reaction was a little wrong, Tang Zhen could be sure whether he was lying or not.

The Lord cultivator smiled bitterly, but in order to save his life, he replied honestly, “ I think it should be in the valley behind the tower, because that’s the only place suitable for hiding treasures!

“I didn’t expect you to be so cooperative. I’m embarrassed to kill you now!” Tang Zhen nodded and said with satisfaction.

The Lord cultivator frowned and sighed. He looked at Tang Zhen and said, “I know you have a 90% chance of killing me, but I still hope you can let me go.”

Tang Zhen walked out from the shadows and looked down at the Overlord cultivator. He used an ice-cold voice and said, “Give me a reason. If I’m satisfied, I won’t kill you!”

The Lord cultivator took a deep breath and said to Tang Zhen, I have a grudge against the city Lord. I’ve already contacted a group of brothers and are ready to kill him!

“What kind of enmity is there between the two of you that makes you want to kill him?”

“Before he became the city Lord, he took advantage of his status as the young city Lord and snatched away the woman I loved the most.

After this beast married her, he just kept abusing her. I couldn’t stand it, so I went to reason with him, but in the end, that beast ran ran.”

After saying this much, the Lord cultivator’s face revealed a painful and struggling expression, as well as a strong killing intent.

in the end, not only did that bastard order people to beat me up and tie me up, but he also raped her in front of me. When she was on her last breath, he personally cut her neck with a knife!

When he said this, the Lord cultivator’s expression twisted like an evil ghost.

He had finally gotten the chance to pour out the hatred he had suppressed for so many years. Even if the other party was a destroyer, even if the other party could take his life at any time, so what?

The Lord cultivator didn’t care about these things anymore. He only needed to say the words that had been suppressed in his heart for many years.

In that case, he could go down and reunite with her, and be with her forever.

All these years, he felt that he had been living a very tired life.

that bastard held a knife and stepped on my head, telling me that this city is his. Whoever he wants to die must die!

he has long disliked me, but because of my identity, he doesn't dare to kill me. However, he can snatch my woman and kill her after he's tired of her!

"This bastard is using this method to take revenge on me!"

"I'll never forget the look she gave me before she died. She doesn't care about death at all, because ever since she was robbed by that beast, she's been living a life worse than death. I'm afraid she's long had enough of living, huhu"

but because of my existence, she persevered until Yingluo.

at that time, we were both lying on the ground. I saw a trace of nostalgia and worry in her eyes.

I'm so familiar with her eyes. When we were together, she would look at me like that whenever I was impulsive.

"She's telling me not to be impulsive, to live well, and not to lose my life for her."

"But how would she know that without her, what meaning would my life have?"

The Lord cultivator was already exhausted. He clenched his fists and his eyes were bloodshot.

Tang Zhen inhaled a deep breath of air. He nodded and said, "Your story is not bad, although it's also very melodramatic!"

"If that's the case, I'll let you go this time. After all, you're just an ant to me. It doesn't matter if I kill you or not."

to be honest, I also hate the city Lord you're talking about, so I've decided to give you something.

After Tang Zhen said this, he took out the star destroying bullet that he had obtained from the great elder of blood Sand City and handed it to the Lord cultivator.

At the same time, Tang Zhen used the Holy master's mental enslavement skill and began to control the Lord.

"From now on, you'll be plagued by painful memories every day, and these troubles will almost drive you crazy. It will also make your killing intent towards the city Lord stronger and stronger!"

"When the pain accumulates to the limit, you will feel that there is no longer any meaning in living. Then, you will take this metal ball, find the city Lord, and throw it to the ground!"

At that time, not only can you kill the city Lord, you can also be with your lover forever!"

The Lord cultivator on the ground heard this and nodded with a confused look.

Using the mental energy of a three star horde leader to control a one star horde leader was absolutely an easy thing for Tang Zhen.

What's more, this feudal lord cultivator had an obsession in his heart. Tang Zhen had only ignited it and then threw a big barrel of oil into the fire.

When he exploded, he would definitely incinerate everything around him!

The only thing that Tang Zhen could not be sure of was whether the star destroying bullet would produce that strange gray fog after it exploded.

If the gray fog could really be produced, the Lord cultivator might really be able to reunite with his lover!

But even so, what did it have to do with Tang Zhen?

What he wanted to do was to destroy a non-human city with the help of others!

Chapter 365: hidden treasure in the cave, early evacuation

This city might be razed to the ground one day in the future!

Tang Zhen was never tired of casually burying mines. Ever since he came to the tower world, he had done such things more than once.

After keeping the tree spirit chain, Tang Zhen quickly rushed out of the building and headed straight for the back Valley that the Lord cultivator had mentioned.

This city had a strange appearance, resembling the head of a ferocious ghost. Its entire body was fiery red, as if it would burn at any moment.

The aliens in the world of loucheng had strange thoughts and always liked to make the appearance of the loucheng look strange. Tang Zhen had no energy to ridicule this.

Tang Zhen didn't have the mood to analyze the outsiders' aesthetic thinking. He looked at the black stone pillars in front of him that were like a dead forest and strode toward the back of the building.

The natural environment of this foreign tribe city was completely different from Holy Dragon City. There were many leafless red berry trees on the ground.

If the Holy Dragon City area's main color was desolation, then the color of this non-human city was ferocity!

The mountains were ferocious, the water was ferocious, and even the plants were ferocious!

Tang Zhen's expression had unknowingly become malevolent as he walked in this malevolent environment.

"Where did these f * cking bastards hide their brains?"

Tang Zhen looked at the surrounding terrain, which was almost the same, and could not help but curse furiously in his heart.

Tang Zhen felt a little dizzy after walking around this area for a while. He was unable to see anything through the map view.

The other party seemed to have used some kind of shielding method, making Tang Zhen unable to sense the location of his brain.

Wasn't this a scam!

Even if one of you comes out, I can still lock onto a certain area and search.

But now, there isn't even a ghost's shadow, and the surrounding area is exactly the same. How do you expect me to find it?

He had no choice but to ask the App Store for help again.

A few minutes later, an application was downloaded and installed by Tang Zhen.

high-grade treasure detector, able to detect treasures within a 10000-meter radius (including basic treasures, medium treasures, and high-grade treasures). Download cost: 1 million brain beads.

1

This was the highest version of the treasure detector. Tang Zhen could be considered to have put in a lot of effort. However, as long as he could find the Hidden Brain, Tang Zhen would not lose out!

In fact, there was a basic version of the treasure detector, and the download fee was ten thousand brain beads. Unfortunately, the detection range was only a hundred meters.

The detection range of the basic version was too small and was not suitable for Tang Zhen. Therefore, Tang Zhen gritted his teeth and directly purchased the most advanced version.

As the application started to run, a strange aura appeared and spread to the surroundings like water waves.

An image appeared in front of Tang Zhen's eyes. It was a topographic map of the surrounding ten kilometers.

Numerous ripples flitted across the map. After which, some small light spots began to appear in front of Tang Zhen's eyes. They were the so-called "treasures"!

After reading the introduction, Tang Zhen had a rough understanding of the treasure detector.

This detector divided the treasures into ten levels, and from high to low, they were represented by different colors.

Level 1 treasures were displayed in white on the screen, Level 2 treasures were grey, Level 3 treasures were red, and level 10 treasures were gold!

The more treasures there were, the brighter the light spots would be, allowing one to see them clearly.

Apart from that, the treasure detector could also be set up with a special search mode, which could search for a certain treasure alone and block out other treasures.

The advantage of doing so was that it could easily find treasures that couldn't be found by spiritual power.

When Tang Zhen saw this, he manually set it up.

After the setup was completed, Tang Zhen took out a pile of brains and scanned them all with the detector from level one to Level Seven.

After doing all this, a special option for detecting the brain was set up.

He took out a level three brain and let the detector scan it. The result showed a bunch of light spots with the number "3"!

He took out his Level 7 brain Pearl and displayed a dot of light with the number "7."

After the test was successful, Tang Zhen immediately activated it. After which, he stared at the screen.

Waves of ripples spread out, and after tens of seconds, a large number of dots with numbers suddenly appeared at the edge of the circle!

Tang Zhen stared at the light spots, completely ignoring the scattered light spots in other places.

Tang Zhen enlarged the large area of light and saw several "seven" numbers.

"There's no mistake, it's that place!"

Tang Zhen was overjoyed. He immediately rushed toward that area.

With Tang Zhen's current speed, he would not need much time to reach that region.

After Tang Zhen stopped, a strangely shaped black stone Peak entered his eyes.

After confirming the location of the brain, Tang Zhen began to search for an entrance in the surroundings. He concluded that the brain was definitely hidden inside the stone Peak.

After circling around the stone Peak twice, Tang Zhen finally discovered a hidden entrance. It was hidden behind a huge black Rock.

If he had not approached the entrance of the cave, Tang Zhen would not have discovered it at all.

Tang Zhen stood at the entrance of the cave and sized it up before walking in.

This stone cave was extremely deep. After walking for half a day, Tang Zhen finally heard the conversation of the foreign race cultivators.

After using his spiritual power to sense and making sure that there were only two level six feudal lords and more than ten level five cultivators in the cave, Tang Zhen no longer had any scruples. He directly drew his blade and rushed in.

All the foreign cultivators were shocked when they saw Tang Zhen.

Never in their dreams would they have thought that such a secret place would be discovered!

"You're a mayfly destroyer?"

A Lord cultivator looked at Tang Zhen and shouted with a demon saber in his hand.

"That's right!"

Tang Zhen's voice had just sounded when he waved his battle blade and hacked over.

After a series of battlefields, these foreign cultivators were all dead, lying on the ground in a mess.

Tang Zhen flicked the blood off his demon weapon and strode towards the treasures on the ground.

These towers and treasures were piled up like a small mountain. They were wrapped in a flexible monster skin. It was this thing that blocked the detection of mental energy, making Tang Zhen unable to sense the location of his brain Pearl.

Tang Zhen took out a stack of storage cards and put away all the treasures before he turned around and left the cave.

Out of the five towers, three of them had been emptied out by Tang Zhen. Only those towers with wings and blood Sand City were left!

Next, Tang Zhen stealthily sneaked into the tower and quickly passed through the interdimensional passage. Under the shocked gazes of the foreign tribe cultivators, he left in a trail of dust!

What Tang Zhen didn't expect was that the current plane was already in complete chaos and there were monsters moving everywhere.

The human-shaped monsters led the other monsters out of the danger zone and began to kill the cultivators in the five cities in groups.

This place had completely become the monsters' territory, and the earth-shaking roars of the monsters could be heard everywhere.

Tang Zhen found it difficult to even take a single step. He had already fought with the monster over ten times during his journey!

Although Tang Zhen didn't suffer too much damage due to his three star horde leader cultivation, the wave-like monsters still left him in a terrible fix.

However, he was still quite a distance away from the interdimensional passage of the flying alien tribe.

Tang Zhen thought for a moment. In the end, he gave up on the plan to fly to the foreign tribe's building and instead headed toward the nearest plane channel to him, blood Sand City.

After taking stock of his harvest this time, Tang Zhen found that he had earned a lot this time!

The little gloominess in Tang Zhen's heart immediately disappeared when he realized this.

I'll Rob it again when I pass by bloodsand city, then I'll return to Holy Dragon City.

Tang Zhen's speed suddenly increased when he thought of this.

Chapter 366: The bloodwolf cultivator has successfully returned

Before he returned to the world of towers, Tang Zhen was prepared to give the five towers a big gift!

He hid the 20 super fireworks in the ruins and turned on the timer.

After a day, they would explode at the same time, filling this small world with radiation clouds.

I wonder if the interdimensional passage will close after this super explosion.

If that was the case, the five towers would be in deep trouble!

After doing all of this, Tang Zhen covered up a little and began to rush in the direction of blood Sand City.

A large number of cultivators had gathered at the interdimensional passage in bloodsand city.

Due to the monster's abnormal reaction, all of the cultivators of blood Sand City had stopped hunting monsters and returned to the interdimensional passage one after another.

However, there were still nearly 30% of cultivators who did not make it back in time. They were trapped in this world forever and became the food of the monsters.

When they saw Tang Zhen, whose face was covered in blood and his clothes and armor were in tatters, the cultivators of blood Sand City only glanced at him and ignored him.

In these few days, they had seen too many cultivators like Tang Zhen.

Moreover, after his cultivation was suppressed, Tang Zhen looked like a level 4 cultivator. This would not attract the attention of others.

However, there were some people who were surprised by Tang Zhen's good luck. He had returned so late, yet he was not killed by the monster!

Tang Zhen expressionlessly swept his eyes around. He was extremely like a cultivator who was physically and mentally exhausted.

Tang Zhen blended into the crowd of cultivators with different expressions and began to observe the surrounding situation.

Due to the appearance of the destroyers, blood Sand City had also strengthened its defenses, and a large number of cultivators were waiting for them.

Those who didn't belong to blood Sand City had to be carefully searched before they were allowed to enter.

The two feudal lord cultivators were stationed behind the interdimensional passage, and any rogue cultivator who disobeyed their orders would be killed without hesitation.

Although the cultivators were complaining, they had no choice but to obey the order and let the cultivators of blood Sand City search them from inside to outside.

Tang Zhen stood behind a group of cultivators according to the requirements of the cultivators of blood Sand City.

These people were all wild cultivators and were currently being inspected.

The person standing in front of Tang Zhen was a level 4 middle-aged man. He turned his head when he heard the voice. He glanced at Tang Zhen behind him and grinned.

“Brother, did you also just return from the ruins?”

Tang Zhen nodded his head and deliberately revealed a depressed expression.

When that wild cultivator saw this, he thought that Tang Zhen did not gain anything from this trip and consoled him.

“There’s no need to get angry, little brother. We can only admit that we’re unlucky to have encountered such a thing.

When I first entered this place, I was barely able to break even. Later on, I gained more experience and gradually gained something.

As long as you persist for two years, and if you’re lucky enough to survive, you’ll basically be able to make it!”

This man was a good person. However, his words were completely useless to Tang Zhen.

If he knew that the cultivator in front of him was the famous ‘speaker’ and that he had robbed three treasure rooms of the non-human race, who knew what he would think!

The cultivators of blood Sand City were searching very slowly, so the two of them were chatting.

At this moment, a few more cultivators rushed over from the ruins, their bodies full of killing intent.

When the wild cultivator who was chatting with Tang Zhen saw these people, he immediately lowered his voice and said to Tang Zhen, “Do you see those people? they’re the bloodwolves exploration team, a rather famous team of wild cultivators.

There were five members in this exploration team, and each of them had the strength of a level 5. Their combat power was quite strong!

I heard that they have a good relationship with a noble in blood Sand City. It won’t take long for Blood Wolf to build a city.

When the time comes, blood Sand City will send cultivators to help defend against the monsters, and their city will become blood Sand city’s auxiliary city and listen to their orders.”

This wild cultivator knew a lot of information and told everything to Tang Zhen.

He actually didn’t know that he had unknowingly fallen into a trap.

Under Tang Zhen’s guidance, he would reveal everything he knew without holding anything back.

At this moment, the five rogue cultivators had already come over and familiarly greeted the cultivators of blood Sand City, showing that they had a good relationship.

It seemed that the truth was as this wild cultivator had said. Their relationship with blood Sand City was not ordinary.

However, Tang Zhen didn’t care about this. It was just a few rank 5 cultivators. He could casually kill them and they weren’t a threat to him.

Who would have thought that Tang Zhen was not willing to pay attention to these few fellows, but they took the initiative to provoke Tang Zhen.

“Brat, get to the back!”

Although the five of them had an unusual relationship with blood Sand City, the search this time was inevitable. They saw that Tang Zhen’s cultivation was not high and he looked very unfamiliar, so they decided to cut the queue from him.

Tang Zhen turned around and stared at the cultivator in front of him. A cold light flashed in his eyes.

A mere level five cultivator dared to shout at him like this. He was simply courting death!

At this time, the blood Wolf’s cultivator was staring at Tang Zhen with a provocative look. His face was full of ridicule, as if he was waiting for Tang Zhen to get angry.

Just as he was about to flare up, ye Xiu, who had been chatting with him earlier, pulled Tang Zhen to the side.

The rank 5 cultivator smiled apologetically at Tang Zhen and gave him a look.

Tang Zhen suppressed the anger in his heart and followed ye Xiu to the back of the team.

After seeing Tang Zhen’s group obediently leave, those few wild cultivators laughed and stood at Tang Zhen’s previous position.

The cultivators from blood Sand City didn’t stop them and instead began to chat with them.

When the wild cultivator saw that the other party was no longer paying attention to Tang Zhen, he finally heaved a sigh of relief. He turned his head to Tang Zhen and softly said, do you not want to live anymore? you even dare to offend Blood Wolf? ”

“They can’t do anything to you here, but once you’re outside, they have a hundred ways to kill you!”
you’re still young. Listen to me. Don’t let your emotions affect your decisions!

Tang Zhen helplessly smiled when he saw the middle-aged wild cultivator’s earnest and well-meaning appearance.

Why would he want to compete with a few bugs that he could easily pinch to death? if it affected his plan to steal the treasure, then he would really be crying without tears!

After thinking up to this point, Tang Zhen no longer bothered about this matter and quietly waited for the inspection.

After about half an hour, it was finally Tang Zhen’s turn to be inspected.

He didn’t have many things on him, and they were all ordinary items, completely in line with the identity of a level four wild cultivator.

The two blood Sand City cultivators in charge of the inspection didn’t find anything. They tilted their heads to Tang Zhen, indicating that he could leave.

Tang Zhen took out his passage token and stepped into the interdimensional passage.

Perhaps after tomorrow, this passageway would no longer exist!

When he arrived at the teleportation Hall of blood Sand City, Tang Zhen immediately saw the five cultivators of Blood Wolf. They were surrounding a counter, as if they were buying some equipment.

After seeing Tang Zhen, one of the blood Wolf cultivators revealed a sinister smile. He pointed outside and made a throat-cutting gesture.

This was a blatant threat, which showed the arrogance of the bloodwolf exploration team.

They had already remembered Tang Zhen. Once they met him in the wilderness, they would definitely surround him and kill him.

Tang Zhen coldly laughed. The next time we meet, I'll let you all know the consequences of provoking this daddy.

Who would kill who was still an unknown!

However, the most important thing at the moment was naturally to search the treasure room in bloodsand city.

Over ten seconds later, Tang Zhen revealed a mocking sneer.

“Do you think I won't be able to find the treasure if you hide it?”

“In your dreams!”

Chapter 367: scouting in the tavern, target locked

After Tang Zhen activated the application and searched around, he didn't find any information about the existence of a large number of brain beads within the scope of bloodsand city.

It was obvious that blood Sand City had already taken precautions and hidden the treasures. This was also within Tang Zhen's expectations.

There were only two possibilities that could escape the detection of the [high-tier treasure detector].

Either the location of the treasure was outside of the detection range, or the city used some unknown method to hide the brain and avoid the detection of the [advanced treasure detector].

As Holy Dragon city's enemy, bloodsand city could not be let off easily.

Therefore, the brain of blood Sand City had to be taken away. No matter how deep it was hidden, Tang Zhen had to dig it out.

After wandering around twice, Tang Zhen took advantage of the fact that the cultivators of blood Sand City weren't paying attention to him and directly entered a passage.

When Tang Zhen came out again, he had already changed his appearance. He had changed into an ordinary civilian's clothing and no longer had the aura of a cultivator.

The current Tang Zhen looked just like an ordinary resident of blood Sand City. There was nothing special about him.

He slowly walked up the stairs and passed by some residents of bloodsand city. It didn't take long for him to reach the residential area of bloodsand city.

Tang Zhen was currently in a huge space that was at least ten thousand square meters.

This was the internal shopping mall of blood Sand City. The sound of bargaining and shouting could be heard constantly, and the residents of blood Sand City were constantly coming and going.

Tang Zhen pretended to be taking a stroll as he walked past the stalls and arrived at a pub not long later.

Tang Zhen's heart moved as he looked at the diners in the pub who were talking with fervor and assurance. He then walked inside.

After choosing a clean table and sitting down, Tang Zhen ordered a set of wine and dishes. He ate while listening to the conversations of the surrounding residents.

From the mouths of these drinking residents, one could hear a lot of gossip.

At that moment, out of the ten tables in the tavern, five of them were occupied. They were drinking and chatting.

The content of their conversation was very complicated, nothing more than some trivial matters.

Tang Zhen listened for a long time, but he did not have the information he wanted.

Obviously, for these ordinary residents, the matter of treasure was too high-end and not at the level that they could come into contact with.

However, Tang Zhen was not in a hurry. He merely slowly drank his wine with a leisurely and carefree expression.

Two hours later, a few cultivators from bloodsand city entered the tavern.

While they were waiting for the food and wine, the cultivators of blood Sand City began to whisper to each other.

A thin cultivator from blood Sand City looked around and whispered to his three companions, " hey, did you guys hear? that invader robbed a treasure room in a foreign race's building and killed several feudal lord cultivators!

His words obviously aroused the interest of the other three, and they began to talk.

I heard that the saboteur's strength is very high. He's at least a two star horde leader. Otherwise, he wouldn't have been able to kill so many one star horde leaders!

"You don't need to say that, this is an obvious thing!"

so far, this destroyer has already stolen the treasures of three towers. Only the Sha Yu tower and our blood Sand City are fine. Do you think the destroyer will come to our place? "

I don't think we can escape. Didn't you see that the entrance is heavily guarded? even the two Lord cultivators who are cultivating in seclusion are personally guarding it. It's to prevent any destroyers from appearing!

"To be honest, if it wasn't for the appearance of the saboteurs this time, I really wouldn't have known that there were so many Overlord cultivators hidden in our blood Sand City."

After saying this, the four cultivators of blood Sand City sighed. This destroyer was indeed not simple. He had actually forced blood Sand City to use its trump card!

At this moment, the food and wine were served. The four cultivators stopped their conversation and began to eat and drink.

The corner of Tang Zhen's mouth revealed a trace of a smile. Originally, he only wanted to try his luck. He did not expect that he had made the right choice by coming to this Tavern.

Now, he had to wait until the four cultivators were drunk before he could listen to their conversation.

After a while, the four cultivators of blood Sand City began to chat again.

A bare-armed cultivator placed his wine cup on the table and sighed, " "Since this destroyer is so powerful and has killed so many Overlord cultivators, do you think our blood Sand City can stop him?"

Tang Zhen had been observing the surroundings through the map's perspective the entire time. After hearing the four cultivators' words, he immediately perked up his ears.

At the same time, Tang Zhen also glanced at that cultivator's arm. That was because it was covered with densely packed tattoos.

This was not an ordinary tattoo, but a special cultivator skill. After learning the skill, the monster's blood essence had to be integrated into the body.

After the successful fusion, the monster tattoo would appear on the surface of the cultivator's body.

Cultivators who mastered this skill could borrow the ability of the fused monster in battle and even have a part of the beast transformation.

If a cultivator had the blood essence of a powerful monster and successfully fused with it, then the cultivator's combat power would be very terrifying when using this skill.

A cultivator from the Holy Dragon City had exchanged for this skill and successfully fused with the blood essence of a class 5 tortoiseshell beast killed by mo ran.

Once this cultivator used a skill, a translucent turtle shell would appear on the surface of his body, giving him an extremely amazing defensive power.

The cultivator's combat strength had more than doubled!

Even Tang Zhen had the thought of killing a high-level monster and fusing its blood essence after seeing this cultivator's demonstration.

However, Tang Zhen was quickly attracted by the contents of the conversation between these cultivators and listened carefully.

I don't think so either. With that saboteur's style, it's very likely that he'll charge into our bloodsand city!

"If that's the case, then our treasure room will be in danger!"

"You guys don't have to worry about that. The city Lord must have a way to deal with it. That saboteur definitely won't succeed, and he might even be killed by us!"

After saying this, one of the cultivators looked around and waved his hand after making sure that no one was paying attention to him.

The other three cultivators saw this and leaned forward, their four heads leaning together.

"I heard from my uncle that even if the destroyers really rushed in, they wouldn't be able to find the treasure!"

Because our blood Sand city's treasures are all in the hands of a super expert in Lou city!"

When the other three heard this, the doubt on their faces grew even stronger.

There were so many treasures that were as big as a small mountain. How could he possibly carry them on him?

After the four cultivators said this, they changed the topic. However, the rest of the content was already meaningless to Tang Zhen.

He got up, paid the bill and left. Tang Zhen slowly walked out of the pub.

When he heard the cultivator say that the treasure was on the body of the so-called "super expert," Tang Zhen knew that blood Sand City had placed those brain beads there.

They must have used some method to obtain the storage application card and then put away all the treasures in the treasure room.

A few thin cards were extremely inconspicuous, and they didn't take up much space. No one would have thought that all the treasures of blood Sand City were hidden inside!

Next, he just had to find the so-called number one master of bloodsand city and snatch the storage card from his hands.

As for the storage card's password, it was not a problem for Tang Zhen.

As the only provider of the storage card, Tang Zhen could remove the secret of the card in the blink of an eye.

This was the back door that the application store had left for him, in case he forgot his password and couldn't use it normally. Now was the perfect time to use it.

He slowly walked up the stairs of bloodsand city. It didn't take long for him to cross the residential area and arrive at the floor where ordinary residents were forbidden from entering.

At this moment, Tang Zhen had changed his appearance and disguised himself as a cultivator from blood Sand City.

After hanging Lou Cheng's badge on his chest, Tang Zhen swaggered up under the Guard's eyes.

Chapter 368: The blood Crystal saber and the spirit body old man

Compared to the noisy residential area, the area where the cultivators were located was much quieter. Tang Zhen walked for half a day before he met two cultivators from blood Sand City who were in a hurry.

When he passed by these two cultivators, the other party glanced at Tang Zhen with a trace of doubt in his eyes.

However, the two of them clearly had something important to do, so they didn't stop to investigate and continued to rush forward.

What the two cultivators of blood Sand City didn't know was that it was because they hadn't meddled in the matter that they had managed to keep their lives.

Tang Zhen would kill any potential danger that might expose his identity at the first moment.

After walking forward for a distance, Tang Zhen stopped. This was because an intersection with the same appearance appeared in front of him.

Tang Zhen took a deep breath and used his mental energy to sense the surroundings. After that, he walked toward a pitch-black corridor.

In this direction, Tang Zhen sensed an aura that was deliberately suppressed. It was not obvious, but it was obvious that it was a cultivator whose cultivation was second only to his.

If Tang Zhen's guess was correct, this person should be the "super expert" that the cultivators of blood Sand City had mentioned!

The light in this passage was very dim, and because of the lack of illuminating crystals, it gave people the feeling that they were walking in a cave.

Only the sound of Tang Zhen's footsteps reverberated in the empty tunnel.

Two human figures suddenly walked out from the darkness and blocked in front of Tang Zhen.

"The forbidden area ahead is off limits!"

A black figure coldly said. At the same time, he sized up Tang Zhen. His eyes flickered with a faint red light in the dark environment.

"Go back immediately, or you'll be killed without mercy!"

The black shadow did not hold back when he spoke to an Ordinary Level-four cultivator.

The other black figure looked at Tang Zhen without saying a word. There was a trace of bloodlust in his eyes, as if he was a vicious Wolf hidden in the darkness.

It was as though Tang Zhen did not hear their orders as he continued to walk forward.

“You’re looking for death!”

The cultivator who gave the order snorted coldly and shot out like a bolt of lightning. A withered hand grabbed at Tang Zhen’s throat.

The moment he attacked, he would aim for a vital point. Once he succeeded, the person who was attacked would either die or be injured!

It was obvious that this cultivator did not intend to hold back and planned to give Tang Zhen an unforgettable lesson.

However, just as his finger was about to touch Tang Zhen, a strong wind sounded out and directly attacked the lower abdomen of that cultivator.

The cultivator’s expression changed. He wanted to Dodge, but it was too late.

“Ka BA!”

A crisp sound rang out as Tang Zhen’s kick landed on the cultivator’s stomach. The force of the kick reached the back of the cultivator’s waist and completely broke it.

The cultivator who was attacking Tang Zhen was stunned. His face was filled with disbelief and the ferocity in his eyes turned into fear.

“Pa da!”

The cultivator’s body fell limply to the ground, dead!

The other cultivator, who had been silent the whole time, narrowed his eyes and unsheathed a long, thin, fiery-red saber.

This cultivator’s body trembled and he had already pounced in front of Tang Zhen. His battle saber directly slashed down.

“Good blade, I want it!”

Tang Zhen’s eyes brightened. He grabbed the cultivator’s wrist and pulled with all his might.

The cultivator screamed miserably. His entire arm had been forcefully torn off by Tang Zhen, causing blood to spurt out.

Tang Zhen casually held the demon weapon battle blade that was made from blood crystals in his hand. He sized it up and revealed a satisfied expression.

Mo weapons made from blood crystals were indeed sharp!

“Noisy, go to hell!”

A blood-red light flashed, and the screaming cultivator covered his neck and fell to the ground with a face full of unwillingness.

Tang Zhen lifted his Blood Crystal Battle blade and turned his head to look at the darkness.

“You’ve been watching for so long and you still haven’t shown yourself. Do you want me to invite you out?”

Tang Zhen’s voice had just sounded when a figure fluttered out. It was emitting a faint glow in the dark tunnel.

This was an old man. He was looking at Tang Zhen with an expressionless face. His body appeared to be in a semi-transparent state.

The aura of a two star horde leader slowly dodged.

“Good skill, are you the destroyer?”

The old man’s voice seemed to have come from the netherworld, carrying a trace of cold Qi that made people’s scalps numb.

Tang Zhen curiously sized up the other party. Soon after, his face revealed a disdainful expression.

I was still wondering what was so special about that so-called super expert. I didn’t expect him to be a spirit body old ghost!

that’s right, I’m the destroyer, so hurry up and take out Lou Cheng’s treasure, or I’ll kill all of blood Sand City!

The spirit body old man’s translucent face showed a hint of mockery and he snorted coldly, “ Sir, you sure have big words. Do you think that my blood Sand City is like those foreign races ‘buildings that you can bully? ”

“I can see that you’re also a human cultivator, and your cultivation level is similar to mine. If we fight, neither of us will have an easy time!

So please return, and we’ll mind our own business, how about that?”

Tang Zhen tilted his head and looked at the old man as he sneered.

“Our cultivation levels are similar. Are you blind?”

As soon as he finished speaking, the aura of a three-star cultivator surged out from Tang Zhen’s body and directly attacked the spirit body old man.

The spirit body old man’s expression changed drastically. He pointed at Tang and said in shock, “ This aura ... You’re actually a three star horde leader!”

“Could it be that you came from a high-grade city far away? with such a cultivation, why are you bullying me?”

The spirit body old man calmed the shock in his heart. His eyes rolled as he coldly said to Tang Zhen, I believe you have already seen that I am a spirit body cultivator. Ordinary weapon skills can't harm me at all. Even if you are a three star horde leader, I'm afraid you can't do anything to me!

After having something to rely on, the spirit body old man was much more confident.

Although there were many disadvantages to being a spirit body cultivator, and one had to be a Lord-tier cultivator to change their cultivation, they also had a great advantage. They could become invisible and ordinary weapons couldn't hurt them at all.

However, Tang Zhen, who was in front of the old man, just happened to have a sharp technique that specialized in restraining spirit bodies!

However, Tang Zhen was not in a hurry to attack this spirit body old man. Instead, he coldly asked, "Let me ask you, do you know a two star horde leader by the name of Bruley?"

The spirit body elder's expression changed slightly.

After musing for a moment, the old man looked at Tang Zhen and said, "You know Bruley? did you go to the metal wreckage?"

Tang Zhen nodded. It seemed like the answer was already very obvious.

Not only did this old man know brui, but he was also one of brui's teammates. He was the human cultivator who had escaped that year.

Tang Zhen's face revealed a cold expression after he thought of this. He said to the old man, so, the city Lord of colossal bone city and the Grand Elder of bloodsand city are your juniors? "

The old man's face revealed a cold glint. He stared at Tang Zhen for a moment before suddenly saying, could it be that you're the Holy Dragon city's backer? no wonder they're so powerful. They're only rank 3, yet they dare to challenge our bloodsand city. They've also produced an endless stream of new items.

With a three star horde leader as his backing, all of this is within reason!"

After a short pause, the old man continued, " they are indeed the children of one of my women. However, since they have offended the Holy Dragon City, which you protect, they deserve to die. Why don't we each take a step back and let this matter go? "

This old man was also afraid of Tang Zhen's strength. Otherwise, how could he let the matter rest so easily?

Tang Zhen gently glanced at the old man. After letting out a cold snort, his left hand formed the shape of a sword and brushed over the blade of the blood Crystal Battle blade.

A strange rune began to appear on the blade of the blood Crystal saber, giving off an aura that made the old man tremble in fear.

"What is this Yingluo? Who are you?"

The old man involuntarily asked Tang Zhen as he looked at the demon killing rune that continuously flickered on the blood Crystal Battle blade.

“Who? of course it’s the person who killed you!”

Tang Zhen sinisterly laughed. He raised his battle blade and charged towards the old man. His speed was shockingly fast.

ah! the spirit body old man screamed and drilled into the wall.

However, he was still a bit too slow and was hit on the back by the blood Crystal saber. The demon killing rune glowed.

The old man let out a blood-curdling screech, and his spirit body almost collapsed. He quickly turned invisible and disappeared.

“BOOM!”

Tang Zhen held the blood Crystal Battle blade in his hand and kicked a large hole in the wall before stepping in without the slightest hesitation.

Chapter 369: Killing the spirit cultivator, Blood Wolf following!

Tang Zhen’s eyes slightly narrowed after he passed through the large hole.

This was a Hall that was more than a thousand square meters in size. It was extremely dark inside, and there were no entrances or exits. It did not look like a place for people to stay at all.

Without a doubt, this should be the cultivation room of the old spirit body ghost.

“Old man, do you think I can’t do anything to you after you become invisible?”

Tang Zhen coldly snorted and instantly activated the spirit body detector.

The pitch-black room in front of him immediately changed its appearance. Everywhere was a ghastly green, and wisps of black gas floated around.

Less than twenty meters away from Tang Zhen, the old spirit body was looking at him with a venomous gaze. He was holding a dagger that was nearly transparent in his hand!

Tang Zhen turned around and stared unblinkingly at the old man. He revealed a mocking smile.

The old man’s face turned pale with fright. Just as he was about to Dodge, he saw the blood Crystal Battle blade in Tang Zhen’s hand rapidly shoot out and directly nail the spirit body old man to the wall.

A pained expression appeared on the old man’s face. From the wound that was pierced by the blood Crystal Battle sword, black gas kept floating up.

“Why don’t you run? let’s see if I can catch you!”

Tang Zhen stood on the ground. He looked at the struggling spirit body old man in the air and coldly asked.

“Please don’t kill me, I’ll give you the storage card!”

The old man felt Tang Zhen's killing intent and hurriedly begged for mercy.

"Then take it out, save me some time."

When the old man heard this, he quickly reached for his waist, but a cold light flashed in his eyes.

He took out a few storage cards and handed them to Tang Zhen.

Just as Tang Zhen's attention was focused on the card, a cold light shot out from the old man's fingertip. It was the transparent dagger!

This was a dagger specially made for spirit body cultivators. It could ignore any physical defense and directly harm the soul of the victim.

However, just as the dagger was about to pierce Tang Zhen, he strangely disappeared. The dagger also passed through the air and directly stabbed into the ground.

The old man was startled. He was just about to withdraw his dagger when Tang Zhen's ice-cold voice suddenly sounded by his ear.

"I knew you didn't have good intentions, so you should be on your way, Yingluo!"

A saber that was also engraved with demon-killing runes slashed across the old man's neck, and endless black Qi spurting out from his wound.

The old man's eyes bulged, and after struggling a few times, he lowered his head.

Tang Zhen pulled out the blood Crystal Battle blade and the old man's body softly fell to the ground.

After picking up the storage card, Tang Zhen glanced at the old man's corpse. After thinking for a moment, he also kept it in his storage space.

After walking out of the large hole in the quiet room, Tang Zhen returned to his previous attire. He came to a window and directly jumped down!

"Bang!"

Tang Zhen landed on the ground steadily. He sized up his surroundings before he walked toward the Wanderer market.

He walked to the market and took out the Mount that he had left behind. Then, Tang Zhen slowly walked towards the wilderness.

Not long after Tang Zhen left, the five cultivators of the blood Wolf exploration team also walked out with their mounts and ran in the direction that Tang Zhen had disappeared in.

The desire for revenge of these five people was extremely strong. Although they were only glared at by Tang Zhen at the entrance of the interdimensional passage, it still caused them to put Tang Zhen on their must-kill list.

They were bloodthirsty by nature and would always find all kinds of reasons to kill low-level cultivators to satisfy their perverted desires.

Tang Zhen wasn't the first cultivator that they had their eyes on, but he was definitely the last.

This was because ever since they had set their sights on Tang Zhen, they were destined to never return!

It did not take long for Tang Zhen, who was riding his Mount to gallop, to discover the five people chasing after him. A trace of killing intent surfaced on his face.

"There's a way to heaven, but you refuse to take it. There's no Door to Hell, but you chose to throw yourself into it. Since you're so eager to die, I'll fulfill your wish!"

Thinking up to this point, Tang Zhen abruptly stopped his Mount and turned around to look at the cultivators of the blood Wolf exploration team.

In the blink of an eye, the five of them rushed forward and surrounded Tang Zhen.

The cultivator who had chased Tang Zhen away at the entrance of the interdimensional passage laughed sinisterly and spat at Tang Zhen.

"Damn it, why don't you run? why did you stop?"

"Isn't it good that I stopped? it saves you guys the trouble of chasing me!" Tang Zhen replied with a smile that was not a smile.

Bullsh * t! It's only interesting when I chase you until you can't run anymore and then beg for mercy!

The blood Wolf cultivator's face twitched in anger.

Tang Zhen nodded and curiously asked, "What will you do after I beg for mercy?"

Hearing Tang Zhen's question, a strange expression appeared on the faces of the five Blood Wolf cultivators. After looking at each other, they burst into laughter.

"This kid is interesting, really interesting. I can't wait to see him beg for mercy!"

A fierce-looking Blood Wolf cultivator laughed wildly and said to the cultivator who had a conflict with Tang Zhen, "Since this kid is so curious, old five, tell him about it. Let's see if he'll wet his pants!"

"Hahahahaha!"

The five of them laughed at the same time, appearing to be unscrupulous.

The blood Wolf cultivator who was called old fifth sneered at Tang Zhen and loudly said, "Listen up, kid, don't get distracted.

After we capture you, we will strip you of your clothes and smear some monster's blood on you.

This kind of blood was very strange. After it dried up, your white and tender skin would crack piece by piece, and you would cry for your parents in pain.

After that, we will peel off the human skin. When we peel off a piece, you will wail in pain. Tsk, tsk, that feeling is as painful as you want!"

At this point, the fifth brother licked his lips, his face full of excitement and bloodlust.

“After your skin is completely peeled off, we will throw you out of the blood sand ants” nest and watch them crawl all over your body. Then, we will release the rope on your feet.

Do you know the blood sand ants? they have extremely hard shells and are very fond of eating fresh meat. Although they are only the size of grass seeds, once they encounter enough food, they will eat until they are the size of eggs before they stop eating.

Next, you would run like crazy, but your body would be full of blood sand ants that had burrowed into your skin and flesh. They would eat your flesh and make you roll on the ground in pain, but you couldn't crush them to death!

Not to mention that your skin and flesh had been peeled off, and when the exposed fresh meat touched the ground when you rolled, it would also hurt so much that you would rather die.

In the end, your body will be filled with large holes and you will lose it in extreme pain!”

At this point, the fifth brother's body began to tremble. Just by describing the process of the torture, he was already so excited that he was about to collapse.

The other four people were also excited and laughed non-stop.

At this moment, a cold snort was heard.

are you done? I can't wait to try it after hearing what you said!

Tang Zhen's eyes were filled with killing intent. His expression was as cold as ice.

Looking at the expressions of the five people, it was clear that many people had been killed by these bastards.

Sensing Tang Zhen's anger, the five of them stopped their wild laughter. They faintly sensed that something was amiss.

The fifth brother licked his lips and said coldly, ” “Brat, since you're in such a hurry to die, I'll fulfill your wish!”

Tang Zhen shook his head. He looked at the other party and said,“You're wrong. It's not me who's going to die, it's the five of you!”

The five people's expressions changed drastically when they heard this. They looked at Tang Zhen in a dumbfounded manner.

The aura of the level-4 wild cultivator in their eyes changed, and then continued to rise. A Level-5, 2-star Lord, a 3-star Lord!

An aura that caused their souls to tremble was emitted from Tang Zhen's body and firmly locked onto the five of them.

The cruel expressions on the five people's faces completely froze. Endless fear surged from the bottom of their hearts, and their eyes were full of shock and regret.

Never in their wildest dreams would they have thought that this young Level 4 wild cultivator was actually a three star horde leader who had concealed his aura!

This is what you call a real scam. Even if you want to pretend to be a pig to eat a Tiger, you can't play like this!

At this point, the five of them had already realized that they would definitely die today.

Wanting to kill a three-star horde leader and even telling him the entire process, this was simply courting death!

However, these five people were brutal by nature. They were cruel to others, but even more so to themselves!

Even now, he still wanted to fight for his life.

However, before the five of them could take action, Tang Zhen had already taken the lead.

A green light flew out from Tang Zhen's hand. After which, it swiftly elongated and firmly bound the five of them.

"Plop!"

The five of them fell into the dust and cursed continuously. The fear on their faces became more and more intense.

The cultivators of the bloodwolf tribe, who had once struck fear into the hearts of the wild cultivators near bloodsand city, had now become pigs waiting to be slaughtered!

Chapter 370: giving him a taste of his own medicine (1)

A cold wind blew, messing up the hair on Tang Zhen's forehead. The temperature in the Wildlands was getting lower and lower.

Tang Zhen ignored the five Blood Wolf cultivators who were cursing and howling. He turned to look at the black stone pillar not far away and softly said, "Stop hiding and come out!"

As soon as he finished speaking, a flurry of footsteps could be heard. Then, a group of wild cultivators walked out from behind the stone pillars.

The person in the lead was the middle-aged cultivator who had tried to persuade Tang Zhen at the interdimensional passage.

The scene earlier had been seen by this group of wild cultivators, and they also knew Tang Zhen's true identity.

How could the Rogue cultivators, who usually didn't dare to speak loudly when they saw a one star feudal lord, dare to be impudent in front of a three star feudal lord? at this moment, they were all trembling with fear, afraid that they would attract Tang Zhen's anger.

The middle-aged cultivator was even more apprehensive. Never in his wildest dreams would he have thought that the young man who acted on impulse in his eyes was actually a three stars horde leader!

A three-star horde leader was an existence that the wild cultivators didn't even dare to think about. But now, he had actually appeared in front of them.

You can't judge a book by its cover, it really wasn't just empty talk!

The middle-aged cultivator recalled his encounter with Tang Zhen. After confirming that he had not offended the other party in any way, he walked over with a face full of smiles.

"Greetings, my Lord!"

Following the middle-aged cultivator's bow, the other rogue cultivators quickly followed suit, appearing to be very respectful.

"Alright, you don't have to be so polite."

Tang Zhen nodded and looked at the middle-aged cultivator, "What are you doing here? who are they?"

The middle-aged cultivator quickly replied, "After I came out from the other plane, I felt that something was wrong. It was as if something big was going to happen there.

That was why I decided not to go to another dimension. Instead, I went to Holy Dragon City to try my luck. I heard from a few of my old brothers that life there was much better than in bloodsand city.

These few people are the children left behind by my dead brothers. They are young and ignorant, and their cultivation is not high.

It's a coincidence that we met you, a real coincidence!"

After the middle-aged wild cultivator said this, he was afraid that Tang Zhen would misunderstand, so he quickly explained.

Tang Zhen smiled. He waved his hand, indicating that the middle-aged man did not need to be nervous.

Although his hands were stained with blood, he was not a madman who would kill anyone he saw. The middle-aged cultivator was obviously overthinking.

To be able to sense that something was wrong with the plane meant that this person's intuition was very accurate. No wonder he had lived for so long even though his strength was not high!

"It's definitely a wise move for you to go to Holy Dragon City, because it's indeed much more powerful than bloodsand city.

I have some connections with the Holy Dragon city's city Lord, and can make your life in the Holy Dragon City much easier. I'll give you a note later, you just have to hand it to the person in charge of the commercial district, and he will make proper arrangements for you."

The middle-aged cultivator was overjoyed, and the low-level cultivators behind him couldn't help but look happy.

To be able to get the recommendation of a three star Lord, the person in charge of the commercial district definitely wouldn't dare to neglect and would arrange a good job for them.

This favor was too great!

The middle-aged cultivator was also someone with a clear mind. He knew that it was not easy to accept the favor of these big shots. Therefore, after hesitating for a moment, he bowed to Tang Zhen again.

"These five bastards have committed many evil deeds and killed countless innocent Wanderers. Today, they even dared to offend the Lord.

Please allow me, elder Xu, to take revenge for the innocent cultivators who died!"

Tang Zhen looked at elder Xu with a smile that was not a smile and nodded slightly.

It was indeed not good for him to do this with his current identity if it was spread out. This old lady Xu was clear-eyed and proposed to do it for Tang Zhen, which avoided Tang Zhen's embarrassment.

After getting Tang Zhen's permission, elder Xu immediately walked in front of the blood Wolf cultivator and gave him a fierce kick.

The blood Wolf cultivator who was in pain looked at elder Xu and scolded, "elder Xu, are you tired of living? how dare you kick me? do you believe that I will kill your entire family?"

Elder Xu snorted and looked at the blood Wolf cultivator, who was covered in dust. you're about to die, yet you still dare to say such harsh words. You're indeed worthy of being Blood Wolves. Each of you is cruel and unscrupulous!

back then, you tortured my brother to death. You tortured him for three days before you killed him. Don't think I don't know!

"Don't worry, I'm a famous member of the bloodwolf exploration team. I'll take care of you.

I'll slowly kill you later so that you can live a little longer, Yingluo!"

The five Blood Wolf cultivators' expressions changed. They knew that the longer they lived, the more suffering they would suffer. After hearing elder Xu's words, they began to curse.

Elder Xu acted as if he didn't hear their curses. He pulled out a dagger and cut off all the tendons of the five people.

Blood soaked through the Five's armor. From this moment on, the blood Wolf cultivator was completely crippled.

The Aboriginals of the world of loucheng fought against the heavens and earth, and there was a ruthlessness in their bones. It was fine if elder Xu did not attack, but once she did, the blood Wolf cultivator would have no chance of resisting.

Tang Zhen waved his hand and retrieved the tree spirit chain. He expressionlessly looked at the five Blood Wolf cultivators who were constantly struggling.

Elder Xu called out to the young cultivators and quickly stripped them of their clothes and armor.

The equipment of these five people was good, and the Lord would definitely not like it, so it would naturally benefit old lady Xu and the others.

Just these clothes, armor, and weapons alone were worth at least 100000 brain beads. Elder Xu and the others had made a big profit!

As long as one followed the right boss, it was easy to get rich.

Elder Xu turned around and glanced at Tang Zhen. After seeing him nod slightly, he happily ordered the spoils of war to be kept. Then, he turned to look at the five Blood Wolf cultivators.

He tore off a leather bag from the blood Wolf cultivator's Mount and opened it. After taking a look, he smeared the stinky blood on the five people.

The five of them trembled in fear. They had seen this kind of scene countless times, but in the past, they had always been the ones smearing it for others.

However, when it was their turn to be smeared today, three out of the five of them had already peed their pants.

"Elder Xu, just kill me!"

"Don't apply it, get lost!"

"Please, don't apply it anymore. I beg you, Yingluo."

Elder Xu was unmoved. He carefully applied the blood to the spot, and a hint of joy appeared on his wrinkled face.

In just a few minutes, his body temperature had dried up his blood. The blood Wolf cultivator's skin rapidly contracted and then, like the bottom of a dried Lake, quickly cracked.

The blood Wolf cultivator, whose body was black and full of cracks, began to wail continuously. He wanted to bite his tongue to commit suicide, but old lady Xu forced a stone into his mouth and blocked his mouth.

"Zhu Zi, I have avenged you today. If you are in heaven, open your eyes and see!

Look at how I'm going to kill these bastards and take revenge for your entire family!"

After elder Xu said this, he pulled at the cracked skin of a Blood Wolf cultivator.

A palm-sized piece of human skin was torn off by elder Xu.

The blood Wolf cultivator roared in pain, but he couldn't make a sound because of the stone. He could only roll his eyes.

Tang Zhen listened to the screams in his ears and looked at the blood Wolf cultivator being tortured in the hands of old lady Xu and the others. However, there were no waves in his heart.

Tang Zhen would never have the slightest bit of pity for this kind of animal that deserved to die.

If Tang Zhen was an ordinary wild cultivator, the person lying on the ground in a fate worse than death should be him.

If he didn't want to be slaughtered, the only way was to keep getting stronger, so strong that all his enemies would feel fear and flee at the sight of him.

Tang Zhen was like this, and so was the Holy Dragon City!
