

## Alternate 521

Chapter 521 Banishing the spirit body, crisis eliminated

No one had expected that there would be a traitor among the elven cultivators!

Tang Zhen estimated that Yue qianhua's expression at this time must be very interesting, and the feeling of being betrayed by her own people must have made her very uncomfortable.

At this very moment, Tang Zhen suddenly felt a little pitiful for this girl who was pretending to be strong.

In order to achieve her father's goal, Yue qianhua had gone to the Holy Dragon City and almost died in the battle at the Cold Moon Tower.

Now, in order to save her father who was trapped in the wild building, she had no choice but to come to nightmare forest in person and sleep in the open like the other cultivators.

Perhaps such an encounter shouldn't have happened to the daughter of a noble and beautiful elven count!

Tang Zhen's eyes turned to the elf clan's spy who was putting out the fire. A trace of coldness flashed across his eyes.

This guy's goal might be to target Yue qianhua, but his actions had also put the Holy Dragon City cultivators in danger. Therefore, he definitely could not be let off easily!

However, he didn't know what method this guy had used to make the spirit bodies ignore his existence. After Yue qianhua and the others were entangled by the spirit bodies, he suddenly threw out a few black things.

These things flew straight to the nearby area. Even though the dark night was blocking their vision, they were not mistaken. Their targets were all the bonfires around them.

However, Tang Zhen could tell with a glance that the thing that the elf clan cultivator had thrown out was the wooden-handled grenade sold in the Holy Dragon City!

Tang Zhen, who was already prepared, naturally would not let this guy have his way. With a thought, the grenades that were thrown at the Holy Dragon City cultivators were all forcefully changed direction and fell into the river.

The grenade exploded and huge waves splashed on the water, but there was no sound.

At the same time, the elf cultivators who were surrounded by the spirits were all affected by the spirits and fell into layers of illusions.

Their faces had turned green, and their eyes were blank. They were holding their weapons and rushing toward the fire.

Although the cultivators couldn't see the scenery in the black curtain, the spirits were not affected at all. They were trying to control the elven cultivators to destroy all the other bonfires!

Compared to the countless spirits in the darkness, the strange black curtain that blocked sound and vision was the most terrifying thing!

No sound could be transmitted, and no sight could be seen. Even though such a big change had happened outside, the other cultivators had not noticed it at all because of the black curtain.

In the blink of an eye, the bonfires of several foreign cultivators had been overturned, and a series of frightened and angry curses suddenly rang out.

The spirit bodies that had been waiting for a long time took the opportunity to rush forward and surround the terrified foreign cultivators. In the blink of an eye, the foreign cultivators were controlled by the spirit bodies.

They were either killing each other with ferocious expressions or wandering around with blank eyes.

The bonfire of the Holy Dragon city's cultivators was also destroyed. However, because of the protective light, those spirits did not dare to approach.

The Holy Dragon City cultivators did not panic in the face of such a sudden turn of events. Instead, they drew their weapons and stood on the spot, alert.

During this period, some Holy Dragon City cultivators released cold flames. When they encountered their companions, they immediately gathered together.

As for things like flashlights, they couldn't shine out at all, as if the front was blocked by a black cloth.

When Tang Zhen saw that the Holy Dragon City cultivators were safe and sound, he quickly rushed towards the elf cultivator who was causing trouble. Before he could react, he had already knocked him out.

Next, Tang Zhen's hands moved as fast as lightning. He knocked out all the cultivators who had been possessed by the spirit bodies and threw them to the side of a bonfire that had not been extinguished.

When he turned around to look at the Holy Dragon City cultivators, he saw that they had already been gathered by fatty. They were surrounding a newly reignited bonfire, constantly sizing up their surroundings.

Tang Zhen quickly ran when he saw this. At the same time, he repeatedly waved his hands. Soon after, a group of huge symbols that were several hundred square meters in size condensed out of thin air and directly appeared in the middle of the campsite.

It was a combination rune he learned from lingxu Zi, which was perfect for the current situation.

With the appearance of the rune, the darkness in the area disappeared in an instant. The people who were originally on guard finally saw the other people close by.

The spirit bodies in the rune area screamed in pain, and gray fog rose from their bodies. They all fled to a very far place in a panic!

Tang Zhen left The Dark World and appeared in front of everyone after he swept a glance at the spirit body that was continuously pacing back and forth in the distance.

keep an eye on that guy. He was the one who suddenly put out the fire just now!

After Tang Zhen gave his order, two Holy Dragon City cultivators immediately walked over and tied up the elf.

In order to prevent this guy from committing suicide, they even searched his mouth to prevent him from taking poison to commit suicide!

Tang Zhen walked in front of the unconscious Yue qianhua and the others. After confirming that all the spirit bodies in their bodies had escaped, he finally felt relieved.

There was still a trace of energy left in the minds of Yue qianhua and the others. Before this energy disappeared, it was impossible for them to wake up from their unconsciousness.

Without Tang Zhen's help, no one present would be able to get rid of this energy. This was the domineering aspect of a king class cultivator!

With a wave of his hand, the energy in everyone's minds disappeared without a trace. Yue qianhua and the others finally woke up from their coma.

As expected of the cultivators of the world of loucheng, as soon as they woke up, they immediately put on a defensive posture and looked around vigilantly.

However, after seeing the Holy Dragon City cultivators around them and confirming that there was no danger, the nervous crowd began to gradually relax.

Yue qianhua, who was holding a long sword in her hand, raised her eyebrows and looked around. She immediately discovered the elf spy that the Holy Dragon City soldiers had captured.

After seeing this scene, Yue qianhua seemed to have understood something. She slightly bowed to Tang Zhen and then looked at the ashen-faced elf cultivator.

"This is your fairy clan's business. I won't interfere. Please help yourself."

Tang Zhen waved his hand, and the two Holy Dragon City cultivators retreated to the side, allowing Yue qianhua and the others to bring the elf spy to the side.

After telling the cultivators about the effect of the demon killing rune and telling them not to worry, Tang Zhen began to read his book by the light of the fire.

The foreign cultivators who were rescued by Tang Zhen all saluted and thanked him. Then, they found a corner and gathered together.

These foreign cultivators were filled with lingering fear. If Tang Zhen hadn't acted in time, they would have been doomed to die tonight!

In reality, Tang Zhen was not that kind. He merely did not want these people, who were controlled by the spirit bodies, to hurt his own people. That was why he had knocked them unconscious.

The reason why he didn't kill them directly was that there was no enmity between them, and he also considered the fact that their corpses would attract monsters. If that happened, he wouldn't need to rest tonight.

It didn't take long for Yue qianhua to come to the fire with a sad look on her face.

qianhua thanks city Lord Tang. If it weren't for you, tonight's outcome would have been unpredictable!

Tang Zhen kept the book in his hand and said with a soft smile, you're welcome. After all, I've accepted your employment, so I have to protect you!

As for why the elf spy suddenly extinguished the fire, Tang Zhen did not even ask.

It was obvious that this was a battle between political enemies. The elf traitor must have been ordered by the moon god Count's enemy to use the spirit body in the nightmare forest to kill Yue qianhua, Tang Zhen, and the others!

If Tang Zhen wasn't here, this elf traitor's operation might have succeeded.

Now that his plan had failed, he was destined to die after the cruel interrogation.

Chapter 522-travelling by boat, giant flower wild tower

After Yue qianhua expressed her gratitude, she sat on a tree stump at the side. Her eyes looked listlessly at the empty space in front of her as her brows furrowed.

What happened tonight was quite a big blow to her. Tang Zhen didn't go forward to disturb her and let her be alone.

After reading a book for a while, Tang Zhen lay on a blanket and leisurely entered Dreamland.

When morning arrived, the darkness that shrouded the entire nightmare forest began to fade and dissipate, turning into a thin gray fog.

After the gray fog completely dissipated, the surrounding scenery reappeared before everyone's eyes.

Thinking back to last night's experience, everyone sighed in their hearts. This gray fog was so strange that it was really impossible to guard against it.

After a simple breakfast, the foreign cultivators who were saved the night before immediately got busy. They first put the rafts into the river, then jumped on it and slowly moved along the river.

The two guides, Yue qianhua, and the others looked at Tang Zhen at the same time, waiting for him to solve the transportation problem.

Tang Zhen walked towards the river when he saw this. After which, his body was suspended in the air for over ten meters before he tore the storage card in his hand.

"BOOM!"

Everyone's vision blurred, followed by the sound of a heavy object falling into the water. A huge modified flat-bottomed boat had already appeared on the wide river!

This ship was something that Tang Zhen had prepared a long time ago in case of an emergency. Now, it came in handy.

As the Holy Dragon City cultivators often touched storage cards, they did not find it strange and had an expression of being used to it.

Yue qianhua and the others had also seen similar scenes before, and they even had two storage cards in their hands. What made them curious was actually this big ship made of metal.

Obviously, they couldn't understand why such a metal ship didn't sink into the water.

On the other hand, the two guides were dumbfounded. They kept rubbing their eyes, thinking that they were hallucinating in broad daylight.

"What are you waiting for? get on the boat!"

Tang Zhen shouted. Only then did everyone return to their senses and jump up one after another.

"I'll drive, no one can take it from me!"

The fat man shouted and immediately ran to the driver's seat with an excited look on his face.

This guy had always been very interested in piloting the vehicles of his original world. So far, except for fighter jets, fatty had personally piloted all the other vehicles of his original world.

Because the saltwater River in front of Holy Dragon City had dried up, and there were not many large rivers nearby, they had never been equipped with a means of transportation like a motor boat.

Fatty, who had never sailed a ship before, naturally wouldn't miss this opportunity to try something new!

Tang Zhen did not have any doubts about Fatty's driving skills. After giving him a few words of guidance, the flat-bottomed boat began to quickly sail through the river.

Everyone sat on the deck, looking at the scenery that quickly passed by the two banks, and chatting from time to time.

Compared to rushing through the dense forest, the feeling of taking a boat was undoubtedly much more comfortable. If it were not for the need to be wary of the occasional monster, everyone would have thought that they were having fun.

The foreign race cultivators who had set off earlier were currently standing on the wooden raft. They were dumbstruck as they watched Tang Zhen and the others gallop past. Their eyes were filled with shock and envy.

Compared to taking the wooden raft downstream, the speed of Tang Zhen and the rest was undoubtedly much faster.

According to the guide's estimation, as long as they maintained this speed, they would be able to reach their destination before nightfall.

Along the way, a few Holy Dragon City cultivators were scattered around the deck, constantly looking at the river and the surroundings.

In fact, there were also monsters under the wide and calm river, but most of them were low-level water monsters.

These water monsters posed no threat to the Holy Dragon City cultivators, but they could easily destroy the hull and sink this ordinary flat-bottomed boat.

Therefore, whenever a water monster appeared on the river, the Holy Dragon City cultivators would shoot it directly and kill it from a distance.

When they encountered underwater monsters, the Holy Dragon City cultivators would take the steel pipe that Tang Zhen had placed on the boat and use it as a javelin to stab it.

As a result, in the course of the voyage, there would be dull gunshots from time to time, and the river surface would be stained with Scarlet blood from time to time.

Very few Hydra dared to approach them and seek death. Most of the Hydra quickly dodged after sensing the auras of the cultivators.

On the way, a female elf cultivator stood up and walked to the Holy Dragon City cultivator in charge of guarding the stern, chatting with him.

Tang Zhen chuckled as he swept his eyes over the two of them. He kept the book in his hand and slowly walked to the bow of the ship.

Tang Zhen's hands shook as he looked at the river in front of him. In the blink of an eye, a rifle appeared in his hand.

He raised his gun and aimed at a certain position in the river in front of him. He suddenly pulled the trigger.

The lethal bullet splashed on the surface of the river, and a large amount of Scarlet blood floated on the surface of the river. Then, a scream was heard, and a huge head popped out of the river.

This was a Lord-tier water monster. It was previously hiding in the water and trying to ambush Tang Zhen and the others.

This fellow had concealed itself very well. The Holy Dragon City cultivators who were on guard duty previously did not discover its existence at all.

As the Overlord of this River, Tang Zhen's attack just now had made the water monster extremely angry. Therefore, it was prepared to directly swallow the fellow who had offended it in one bite!

It had done this countless times, and many adventurers who had entered the nightmare forest had all become its food.

Unfortunately, today was destined to be the Hydra's unlucky day. From the moment it was about to attack the ship, it was destined to die!

With the appearance of this Lord-tier water monster, at least 20 rifles were locked on it, and bowl-sized blood holes kept appearing on its head and neck.

By the time everyone stopped shooting, the Lord-tier monster's head had already been smashed into a pile of mush, and its huge corpse floated up.

The Holy Dragon City cultivators had already experienced this kind of killing of monsters countless times. Their cooperation was tight and orderly, and there was no hesitation in their actions.

Killing the Hydra was only a small interlude on the way. There was still some time before night fell, but they had already arrived at their destination.

After keeping the boat, Tang Zhen and the others headed straight to a Valley in the distance under the guidance of the guide.

The wild building they were heading to was hidden in the deepest part of the valley.

In fact, this building had been discovered many years ago, but because of its extremely dangerous interior, no one had successfully obtained the building's foundation so far.

When Yue qianhua's father heard this news and confirmed that this wild building was very suitable to be the elven race's city, he led his men here in an attempt to seize the building's foundation.

Unfortunately, the building was far more dangerous than he had expected. The moon god count had no choice but to use a special method to send out a distress message, hoping that his daughter would bring people to save him.

In reality, it was extremely dangerous to stay in the wild building at night. Even though the moon goddess Count's cultivation wasn't weak, he was probably dead by now!

Yue qianhua obviously knew about the danger, so she had a worried look on her face.

In order to make sure that they reached the wild building before nightfall, everyone sped up their journey. Finally, when night was about to fall, they arrived at the wild building hidden in the valley.

At this moment, what appeared in front of everyone was an extremely spectacular and strange scene!

A cluster of giant plants that had been magnified countless times appeared in front of Tang Zhen. It looked like a strange mountain peak. Dozens of giant flowers bloomed in the sky. Each flower was nearly a thousand square meters in size.

Under the flower was a thick purple stem that looked like a entangled Python. It was covered with dazzling strange patterns.

Countless giant purple vines drooped down from the flower leaves and swayed gently with the breeze, protecting an extremely huge "flower pot" below.

The reason why Tang Zhen described it in such a manner was because when this huge flower was combined with the strange green building below, it was indeed like a flower pot that had been magnified countless times!

Tang Zhen looked at it for a long while before he recovered. His eyes still contained traces of shock.

Chapter 523 In front of the night tower, the man-eating giant flower

After seeing the huge flower field, everyone was shocked.

Although there were all kinds of wild buildings in the world of loucheng, they were only for the entire world. They were scattered across the vast continent, so how could ordinary cultivators have the opportunity to see them one by one?

The design of this giant wild flower building was strange, and the visual impact it gave was too strong. It was no wonder that everyone lost their composure after seeing it!

After sighing in shock, everyone began to build a fire pit in preparation for the coming night.

They must not explore the wild building at night. Otherwise, the danger would increase countless times out of thin air. Therefore, Tang Zhen and the others would spend the night in front of the wild building and wait until tomorrow to enter it.

Although Yue qianhua's heart was burning with anxiety, she could only endure it. From time to time, she would look at the wild tower not far away with a faint trace of worry in her eyes.

The effect of the runes drawn last night was obvious. Tang Zhen casually waved his hand and once again circled an area of several hundred square meters.

A faint golden light like the sunset immediately filled the location of the runes. It was as if a huge pillar of light rose from the ground and stopped abruptly a dozen meters above the ground.

At this moment, night had already descended. The endless black curtain had once again covered the surrounding environment. Other than the area where Tang Zhen and the others were located, the rest of the place seemed to have disappeared into thin air.

The area they were in was like a small island, floating in the endless darkness.

After last night's encounter, everyone had a better understanding of the horror of the nightmare forest, so they all tried to avoid the bright edge.

Tang Zhen took out a large piece of fresh meat from his storage space. Fatty once again held the seasoning and concentrated on cooking the roast meat.

The elven cultivators gathered together and ate the wild fruits they had picked on the way. Then, they roasted the hard fruits that their guide had picked.

It didn't take long for these hard fruits to explode one by one, and a sweet smell of plants drifted out.

The elven cultivators were different from the Holy Dragon City cultivators, who had a sumptuous meal. They preferred a light diet and did not even glance at the packets of red braised meat that the Holy Dragon City cultivators ate.

The guide pulled out the hard fruits from the fire. After which, he dragged them with leaves and brought them to Tang Zhen.

"My Lord, please try this fruit. It's a special product of the nightmare forest, and you can't find it anywhere else!"

After Tang Zhen softly gave his thanks, he extended his hand and picked up the fruit with the hot outer shell. He placed it in front of his eyes and observed it.

As for the scorching hot outer shell, Tang Zhen simply did not feel any discomfort.

After the fruit was burned by the charcoal, it exploded like popcorn, revealing the purplish-red flesh inside, which gave off a faint sweet fragrance.

He broke off a piece and tasted it. It was as sweet and sticky as milk, but it was not particularly soft. The taste was very unique.

Tang Zhen ate more than half of it in one go. Only then did he take out his water bottle and drink a mouthful of water. After that, he asked for an unroasted fruit from the guide and prepared to bring it back to the original world for his younger sister to try.

That girl also knew about his matters. The last time they met, she was still clamoring about coming to the world of loucheng.

After everything had settled down, he could let his sister, Xu Feng, and the others use soul teleportation to travel to this world of loucheng.

After eating and drinking to his heart's content, Tang Zhen sat on the chair and took out a book to continue pondering. He seemed to be very relaxed.

With Tang Zhen's current cultivation, there were very few existences that could threaten him. After all, King level experts were not cabbages that could be found everywhere!

After watching for about two hours, Tang Zhen got up and stretched his muscles. At the same time, he activated the [ dark world stealth ] and slowly walked into the darkness.

He was prepared to take advantage of the cover of the black curtain to see what was so special about the giant flower wild building.

Just like last night, there were still countless different kinds of spirits wandering outside the bright area, looking at the people near the fire with greedy eyes.

Because of the rune and the fire, the spirits didn't dare to take a step forward.

Tang Zhen glanced at these spirit bodies. Just as he was about to walk towards the wild building, his gaze unintentionally landed on a certain spot. After which, he could not help but let out a soft "huh."

It turned out that there were more than a dozen blurry spirit bodies among the spirit bodies, which looked very similar to the elf cultivators.

At this moment, their eyes were wandering around in a daze. Compared to the other spirit bodies, they were obviously a little more foolish.

Tang Zhen had a contemplative look on his face when he saw this. He turned around and glanced at Yue qianhua, who was still in a daze. Then, he walked towards the giant flower House in front of him.

From The Dark World's point of view, this giant flower House emitted a faint fluorescent light, surrounded by colorful light spots, quite similar to the mother tree in the Holy Dragon City.

Perhaps it was because both of them were plant-type existences that Yue qianhua's father was so determined to get his hands on it!

It was late at night, and the giant flower had fallen into a state of dormancy. The swaying vines that had been swaying when they first saw it were now lazily drooping to the ground.

Upon closer inspection, one could see that there were many white bones and remains hidden in the middle of these vines, layer after layer piled together.

Recalling the sweet fragrance that had always pervaded the valley, Tang Zhen guessed that this was a type of carnivorous plant. It relied on that sweet fragrance to attract living creatures to come close. After which, it would use these vines to capture its prey and use them as nourishment.

In order to verify his guess, Tang Zhen reached out his hand from The Dark World and touched the soft rattan.

"Swish!"

The instant Tang Zhen came into contact with the rattan, the thick vines in the surroundings attacked him with lightning speed and coiled around his position with great force.

If Tang Zhen wasn't in the dark World, he would have been bound by the vines and then injured by the black spikes that shot out of the vines.

Looking at the mucus dripping from the spikes, it was obvious that they had a corrosive paralyzing effect.

Perhaps the name giant wild flower Tower was not appropriate, but it should be called man-eating wild flower Tower!

Although the vine in front of him was strange and difficult to deal with, it was unable to pose any threat to Tang Zhen. Therefore, he did not take it to heart.

Stepping on the air, Tang Zhen began to slowly walk towards the top of the man-eating flower. At the same time, he continued to observe the details of the man-eating flower.

Near the root of the man-eating flower, Tang Zhen found some small holes about half a meter in size on the stem. A strange insect about ten meters long was hiding in the holes on the stem.

On the flower branch not far away, there were a few things that looked like giant beehives hanging. After scanning with his mental energy, Tang Zhen saw many poisonous bee monsters with shiny shells.

Among these monsters, the highest level was only Level 5. Their only advantage was their large numbers. However, as long as they were careful, there should not be any problems.

Tang Zhen gave up on the idea of killing these insects because he was not confident that he could kill them in one blow.

If these bugs could ignore the darkness of the night and target the Holy Dragon City cultivators when they were exposed, the Holy Dragon City cultivators who could not see in the darkness would suffer a great loss.

After passing by these monsters, Tang Zhen arrived at the huge flower that was emitting a rich fragrance. He walked to the center of the flower where the pistil was.

A beautiful face appeared in front of Tang Zhen under the bright fluorescent light. At this moment, both of her eyes were tightly shut as though she had fallen into a deep sleep.

Under the contrast of the seven-colored fluorescent light, this beautiful face was like a fairy in a dream, intoxicating people with a single glance.

Unfortunately, while the face was beautiful, it also exuded a demonic aura. Under the head was not a human body, but a long vine that was coiled together like a snake.

Tang Zhen looked at it for a while before reaching out and touching the area between the eyebrows of the beautiful woman's head.

The Sleeping Beauty's head suddenly opened its eyes and looked around. The coiled vine suddenly sprung up and sent the Beauty's head seven or eight meters into the air, then continued to spiral.

From within the shimmering pistil, countless octopus-like tentacles suddenly popped out and waved around.

The beautiful woman's long hair fluttered in the wind, shuttling back and forth between the tentacles. Her eyes flashed with a green light, like a ghost.

The combination of extreme beauty and fatal danger caused an extremely strange feeling to arise in Tang Zhen's heart.

Chapter 524 Clearing the monsters in the strange Lake inside

It seemed that there was some kind of connection between these giant flowers. When the beautiful woman's head in front of Tang Zhen was awakened, the other beautiful women's heads also popped out from the other flowers at the same time.

In the endless darkness, beautiful heads kept dancing. There was no beauty in this scene, but it made people feel extremely gloomy.

Tang Zhen watched for a while before turning around and walking back to the campsite.

From tonight's initial observation, although the man-eating flower was strange and dangerous, it was not enough to trap a group of Lord-tier cultivators.

The real danger should be inside the huge "flower pot"!

Of course, "flower pot" was just an adjective. The huge building that the giant man-eating flower occupied was actually a giant jade stone the size of a mountain.

The Super Jade was colorful and full of caves of various sizes. Some were only the size of a human head, while others could accommodate several people at the same time.

The man-eating flower's roots were entrenched on the Jade, deeply piercing into these caves.

After he had a plan in his heart, Tang Zhen fell asleep peacefully and slept all the way until dawn!

The next morning, everyone started to prepare. Everyone's face was solemn.

Not only did the cultivators wake up in the morning, but the strange insects on the man-eating flowers were also moving around the man-eating flowers.

After dealing with monsters for a long time, the cultivators could tell the level and characteristics of these monsters at a glance.

Their levels weren't too high, but their numbers were a headache. If it were any other cultivator, they would have to find another way to sneak in.

The Holy Dragon City cultivators equipped with rifles could directly barge in!

When everyone was ready, Tang Zhen waved his hand and everyone walked forward.

When they were a certain distance away from the wild building, the black poisonous bees that were circling around the flowers and leaves turned around at the same time and locked onto Tang Zhen and the others who were approaching the wild building.

A Lord tier black bee suddenly appeared, leading the charge towards the group. The rest of the black bees followed closely behind, swarming towards the group.

The air was filled with that kind of ear-piercing buzzing sound, making people have a kind of feeling of being upset.

Just as these venomous bees were about to approach Tang Zhen and the others, Tang Zhen shouted out loudly and an invisible wave spread out toward the sky.

The aggressive black poisonous bees suddenly stopped, as if the pause button had been pressed on an active video.

However, if one looked closely, they would discover that the black bees were still moving forward, but they seemed to be stuck in a quagmire, and their speed had been reduced by more than ten times.

Tang Zhen had used his mental energy to imprison the poisonous black bees, causing their speed to drop rapidly. This made it easier for the Holy Dragon city's cultivators to kill them.

The Holy Dragon city's cultivators, who had been waiting for a long time, quickly opened fire. The air was filled with slowly spreading blood mist, which looked like black flower buds blooming. Countless beautiful red flowers filled the sky.

Almost seventy Holy Dragon City cultivators opened fire at the same time, forming an extremely terrifying death fire, blowing up the poisonous black bees one by one!

None of the monsters could withstand such a large-caliber bullet, and the number of black poisonous bees in the air was decreasing.

The elven cultivators were not idle either. They were constantly drawing their bows and shooting arrows at the black poisonous bees at the edge of the area.

The arrowheads they used had been specially modified to explode after hitting the target, and their power was not much less than that of ordinary rifles.

“Your arrows are limited, so there’s no need for you to participate in the attack!”

Tang Zhen said to Yue qianhua. Then, he once again used his spiritual energy to kill the dozens of poisonous black bees not far away!

After advancing to the king rank, Tang Zhen didn’t have any skills that were suitable for him. Therefore, he would usually use his spiritual power in a simple and brutal battle!

Although this method was very refreshing, it would yield half the result with twice the effort. Especially when he encountered an enemy of the same level, he would obviously be at a disadvantage.

A few minutes later, all of these black poisonous bees that were like targets were killed. As Tang Zhen retracted his mental energy, the corpses of those poisonous bees fell onto the ground at the same time.

After passing through the corpses of these poisonous bees, what blocked their way was a giant vine that looked like a strange snake. At this moment, it was waving and shaking violently.

After the poisonous black bees were killed, the air was filled with a stinky smell. The giant vine was extremely sensitive to the smell of blood in the air.

At this moment, they had all become incomparably excited as they continuously wriggled and waved in the direction of Tang Zhen and the others. They were like huge snakes that were attracted by delicious food and were trying their best to probe forward.

Tang Zhen simply did not place this kind of troublesome thing in his eyes. After crossing his arms, he violently swung them. His palm blades carried two purple flames as they cut toward the dancing vines.

As the flames swept past, the vines were cut off neatly, and they continued to Twitch and twist after falling to the ground.

As for where the vine had been cut off, it had already been cut by the flaming saber. He had completely turned into a pile of charcoal!

It was like a bead curtain blocking the way, but a piece was directly torn off by Tang Zhen, leaving a passage for everyone to enter and exit.

The vines that had been cut off were still burning, as if they were highly oily and could not be suppressed once they were on fire.

The group passed through the blazing passage and directly entered a huge cave.

Not long after everyone disappeared, the still burning giant man-eating flower shook a few times, and all the damaged vines were cut off at the root, then exploded on their own.

Another strange scene appeared in the middle of the cave.

The giant mountain that looked colorful from the outside was also filled with light of various colors on the inside. The roots of the man-eating flower drooped down, blocking the paths that led in all directions.

The cultivators with tracking experience immediately stepped forward and began to search for traces left behind in order to find the right path.

“Someone had passed by here before. Those roots were once cut off by someone, but they grew back later on.”

The Holy Dragon City cultivator in charge of tracking them pointed at a cave entrance and said to Tang Zhen and the rest.

Without any hesitation, the group immediately entered the cave. Their time was limited, and they had to complete the search and rescue work before nightfall.

The inside of the passage was very wide, and there was nothing else other than the roots that were everywhere.

Under the seemingly safe surface, there must be a fatal danger. Otherwise, Yue qianhua’s father and the others would not be trapped here.

After advancing for about half an hour, the road came to an end, and a huge cave appeared in front of everyone.

In the middle of the cave, there was a Lake with silvery waves. In the slightly dark environment, the roots of the man-eating flower that emitted fluorescent light drooped down and reached into the lake from all sides.

Up until now, Tang Zhen and the others had yet to see the remains of an elf cultivator. This made them feel very confused.

Tang Zhen’s gaze paused on the surface of the silvery Lake. He could sense a faint sense of danger from it. Hence, his gaze had remained on the surroundings of the lake from the beginning until the end.

“Everyone, spread out and search for any traces left behind!”

Under Tang Zhen’s command, the cultivators immediately split into teams and began to search. Yue qianhua and the others also joined in.

“City Lord, there’s something in that Lake that seems to be a threat to me!”

The fatty said to Tang Zhen. However, his face carried an eager expression. He always wanted to challenge something that was filled with excitement.

It was also because of this personality that he was full of the spirit of seeking death when he snuck into the National loucheng twice.

you can go and try. If the situation doesn’t look good, I’ll make a move!

Upon hearing Tang Zhen’s words, fatty did not hesitate any longer as he took a big step forward and rushed out.

When they arrived at the lakeside, fatty waved his hand and threw a grenade into the lake.

With a loud sound, the viscous lake water immediately set off a wave. After a few ripples on the surface of the lake, the ripple disappeared.

A few seconds later, the lake seemed to boil, and countless figures began to rise from the lake.

## Chapter 525 The mercury monster, the heart of energy

Silver-white human-shaped figures could be seen everywhere on the surface of the wide Lake. They were densely packed as they floated above the lake.

They looked very similar to cultivators, but they were covered in the silvery lake water, making them look like silver metal statues!

Although he couldn't determine the level of these monsters, Tang Zhen was certain that they had the combat strength not weaker than a Lord-tier cultivator.

After fatty saw this scene, he did not hesitate to raise his gun and start shooting. The nearby Holy Dragon City cultivators saw this and also cooperated to attack. For a time, the muffled sound of gunfire echoed in the huge space.

&Nbsp; when the mercury monsters were attacked, stinky green blood spurted out of their bodies, revealing their broken bodies that were hidden in the water.

It turned out that these mercury-like monsters were the cultivators of the various races who were trapped here!

Judging from their blood, they seemed to have died and turned into some unknown monster!

However, Tang Zhen was certain that these cultivators were not dead. This was because he could feel a trace of extremely dim vitality from these monsters.

After seeing this scene, Yue qianhua's heart tightened. She began to look for familiar figures among the mercury monsters.

It didn't take long for a few familiar figures to enter her sight, causing her heart to tremble slightly!

Although they were covered by the silvery lake water, Yue qianhua could still recognize the origins of those figures. They were the most powerful Lord-ranked cultivators under her father.

The only thing that comforted her was that she did not see the moon god count among the Horde of monsters.

At this moment, the surface of the lake was filled with shimmering Mercury monsters. They opened their mouths wide and let out silent roars. Then, they quickly pounced on the cultivators around the lake.

Tang Zhen's eyes focused on the spot behind those monsters the moment they rushed to the shore.

It turned out that there was a silver-white ring-shaped tube that looked like an earthworm connected to the bodies of these Mercury monsters. The end of the tube was like an octopus 'tentacle, and it was deeply inserted into the back of the heads of these Mercury monsters.

With a wave of his hand, the thin tube connected to the mercury monster was cut off, and a sticky green liquid gushed out.

The mercury-like monster that was controlled by the tube froze and fell to the ground, twitching.

The silver liquid that had covered its body began to peel away, revealing a foreign cultivator hidden beneath.

This cultivator had been controlled for many years. His muscles had completely rotted, but he was still not completely dead.

After being trapped at the bottom of the mercury Lake for a long time, he should have died a long time ago. However, the green liquid that the silver tubes transported kept him in a half-dead state.

This was a zombie-like existence that had to endure constant pain and torture. To the foreign cultivators, it was a fate worse than death!

Now that he had finally broken free of his control, the non-human cultivator on the ground regained a trace of consciousness and a faint look of relief appeared on his face.

Under Tang Zhen's gaze, the body of that foreign race cultivator slowly melted and finally turned into a pool of stinky liquid. Not even his bones were left!

break the tubes behind the monsters, and they will fall to the ground immediately!

After fatty saw Tang Zhen's actions, he immediately loudly warned the surrounding Holy Dragon City cultivators.

After receiving the notification, the Holy Dragon City cultivators turned their muzzles and accurately attacked the long pipes behind the monsters. As the sound of gunfire rang out, the monsters that charged at the cultivators fell to the ground one after another.

When Yue qianhua saw a familiar figure fall to the ground, she immediately rushed forward with her sword.

As the silvery liquid that covered the surface of his body flowed clean, an elf cultivator covered in injuries appeared in front of Yue qianhua. His face was filled with pain.

"Uncle Kemer, have you seen my father?"

Yue qianhua had seen the appearance of the fairy cultivator after he had broken free from her control, so she couldn't wait to ask him about it in case he died quickly.

After hearing Yue qianhua's question, the elf cultivator's dazed eyes regained a trace of life and he turned to look at Yue qianhua, who had an anxious look on her face.

my Lord, the pipe was cut off. When night fell, the Wuwu was trapped in the Wuwu and disappeared!

The elven cultivator spoke incoherently, and after a few intermittent sentences, he collapsed to the ground with a lifeless look in his eyes.

He had long reached the point of being a lamp without oil. If not for the short period of time he had been controlled, he probably wouldn't even be able to say these words.

Yue qianhua's face was filled with worry as she watched the elf cultivator turn into pus in front of her.

Her mind was in a mess as she kept thinking about the words left by the elven cultivator before he died and analyzing the possible clues.

As the controlled monsters continued to die, huge waves suddenly appeared on the constantly churning Mercury Lake.

Countless tentacles rose from the lake, and an extremely huge silver head of a beautiful woman slowly appeared in front of everyone.

It turned out that the tubes that controlled the cultivators were like hair, growing on the monster's head.

After the giant head appeared, a pair of emotionless eyes kept scanning the surroundings. A terrifying aura spread out from it and spread throughout the entire cave.

The cultivators who had been attacking were slightly sluggish, and their movements began to slow down.

The monster relied on its strong mental power to imprison all the cultivators who participated in the attack. Then, it shot out countless hair-like tubes in an attempt to control the cultivators.

This scene was extremely similar to the scene of Tang Zhen controlling the poisonous black bees earlier!

Fatty's eyes brightened slightly. With a roar, he broke free from the restraints and attacked the monster's eyes continuously.

At this moment, he had confirmed the monster's level. It was a monster at the peak of level nine. It was only one step away from becoming a king!

On the broken cliff not far away, Tang Zhen felt his heart jump the moment this enormous head appeared. His face revealed a pleasantly surprised expression.

It turned out that in the middle of the monster's eyebrows, there were three dazzling gems arranged together.

The one in the middle was the foundation stone of the wild building. It was flashing with strange runes, looking strange and magical.

On both sides of it was a monster's brain, as well as something that looked very familiar.

The king level cultivator's thinking speed was extremely fast. In the blink of an eye, Tang Zhen recalled the origin of this gem.

[ heart of energy, the essence condensed by special life forms. It has the unique ability to modify the body of living beings. ]

The reason why Tang Zhen was so interested in this kind of energy heart was because he had set his eyes on an application that could only be downloaded normally after obtaining an energy heart.

With this application, Tang Zhen could try to cultivate a batch of bodies to alleviate the problem of the lack of bodies during soul teleportation.

Since he had met her today, there was no reason for him to miss her!

Tang Zhen laughed out loud when he thought of this. Without any fear, he began to fight against the giant head. His mental energy erupted like a tsunami, firmly suppressing the mental energy that the monster had released.

The originally expressionless giant head had a drastic change in expression. A trace of fear was revealed in its cold and indifferent eyes as it firmly stared at Tang Zhen who was swiftly pouncing over.

The monster felt an aura from Tang Zhen's body that made it tremble and submit. It was as if he could kill it at any moment!

This terrifying aura seemed to have brought back the monster's memories, causing its eyes to widen and its huge head to tremble.

Sensing the threat of death, the monster became even more violent. All the tubes gathered together and ruthlessly stabbed toward Tang Zhen.

The cultivators who were controlled by the tubes were all flying in the air at this time. They used the method of mutual destruction to rush toward Tang Zhen.

"You're overestimating yourself!"

Hmph! a cold sneer was heard. Then, a black light seemed to cut through the void and went straight for the giant head.

In front of this soul annihilating saber that was burning with black flames, the cultivators and the pipes that were pouncing on Tang Zhen were cut off in unison. Then, the soul annihilating saber with an unparalleled sharp aura ruthlessly plunged into the monster's head.

"Owwuuu!"

Painful screams echoed in the cave, causing those who heard it to feel as if their souls were being torn apart. Some cultivators were even bleeding from their mouths and noses, and their bodies were trembling.

No matter how powerful the monster was, it had no chance of winning against a King level cultivator.

After the slash, the huge head was split in two, and a foul-smelling green mucus flowed out of the wound.

Tang Zhen extended his hand and grabbed at the air. The three resplendent gemstones embedded between the monster's brows rose into the air and were directly stored into his storage space.

Turning his head to look at his surroundings, Tang Zhen discovered that Yue qianhua was squatting beside a corpse. Her face was filled with an expression of loss that could not be suppressed.

Chapter 526 Exploring a building at night, a weirdo foodie

After confirming that the monster in the lake was dead, Tang Zhen descended from the sky and walked to Yue qianhua's side.

how is it? did you find any information about your father? ”

Looking at Yue qianhua’s expression, he knew that things were not going well.

Although he did not see the moon goddess count, he could tell from the elven cultivators’ fate that he was still in danger even if he was not controlled by the lake monster.

Of course, the most likely possibility was that the moon god count had already died!

After hearing Tang Zhen’s question, Yue qianhua stood up and said in a low voice, ” “According to the last words of my father’s subordinates, my father and the others were attacked by the monsters in the lake at the same time.

However, at the critical moment, my father cut off the monster’s tentacles and escaped with injuries.

As for the other cultivators, they were all killed on the way here. There are no survivors.”

When she said this, Yue qianhua looked at Tang Zhen as if she wanted to say something.

Tang Zhen noticed this and frowned. He had already faintly guessed what Yue qianhua wanted to say.

“City Lord, I would like to ask you to bring me here again at night.

I have a feeling that I might be able to find my father’s exact location here at night!”

After saying this, Yue qianhua looked at Tang Zhen. She was afraid that he would directly refuse.

Don’t enter the wild building at night. This was a long-passed admonition from the Aborigines of the building world. Because the inside of the wild building at night was too strange, it was common for people to go and not return.

Yue qianhua was just too worried about her father, so she made such an unreasonable request.

Of course, this kind of thing was not within the original agreement. If Tang Zhen agreed, Yue qianhua would have to pay the corresponding price!

Tang Zhen didn’t directly agree to Yue qianhua’s request. Instead, he asked, “Why do you think you can get news of your father at night? Could he have already left this place?”

Yue qianhua shook her head and explained to Tang Zhen, ” “This is one of the secret techniques of our elven race. We can roughly sense the location of our kin. I have a feeling that my father is still in this building.

Since we can’t find it during the day, we can only wait until night time to come here and search.”

Tang Zhen nodded his head. He looked at this slightly helpless girl, “You know that the wild building at night is extremely dangerous. No one will easily enter here and take the risk, so ...”

Although Tang Zhen’s rejection was not very obvious, how could Yue qianhua not hear it? seeing that Tang Zhen’s words had a hint of rejection, her beautiful face immediately revealed an anxious expression.

“City Lord, please help me. I need to confirm my father’s news. If I leave now, I will never feel at ease.

I believe that even if you enter the wild building late at night, you should be able to retreat safely!

Qianhua will definitely not let the city Lord work for nothing. After this mission is over, I will definitely reward you handsomely!”

After saying this, Yue qianhua bowed to Tang Zhen. Her words revealed a sense of helplessness that made people feel pity for her.

For this kind of matter that concerned his own safety, Tang Zhen would naturally not be emotional. However, Yue qianhua’s gratitude and the curiosity in his heart made Tang Zhen somewhat eager to try.

Tang Zhen glanced at Yue qianhua who was staring at him. He thought for a while and finally nodded.

Yue qianhua’s heart relaxed when she heard this. Her beautiful face finally revealed a faint smile at this moment.

After the battlefield was cleared, the cultivators gathered together and began to return.

Along the way, Tang Zhen had also cut some exquisite Jade and collected some Mercury lake water. He was prepared to bring them back to Holy Dragon City to see if they had any special uses.

After tunneling through the winding cave for a long time, Tang Zhen and the others finally arrived at the valley outside the wild building.

When they looked at the wild building that had lost its Foundation, they immediately felt the difference.

The originally man-eating flowers were luxuriant and seemed to be thriving, but now, they gave people a feeling of death, as if they had been sprayed with pesticides and could wither and die at any time.

If one looked carefully, they would see that the beautiful heads between the giant flowers had listless eyes and ashen faces.

Because the wild tower’s foundation stone had been taken away, it would not take long for this Super man-eating flower to completely wither!

As for the wild building foundation stone in Tang Zhen’s hands, it was not in the agreement, so Tang Zhen did not need to give it to Yue qianhua.

If she wanted it, as long as the price was right, Tang Zhen wouldn’t mind selling this foundation stone to her.

Now, Tang Zhen no longer lacked Supreme-grade foundation stones. When the main tower was promoted to Level 6, Tang Zhen would put all his efforts into upgrading the main tower. The other Supreme-grade towers would only be used as support, and it would reach its limit when it was promoted to Level 5.

This way, they could obtain more interdimensional passages and provide the Holy Dragon City with a sufficient source of brain matter.

If it wasn’t an important building, Tang Zhen wouldn’t have promoted it to level six. Firstly, it would increase the financial burden of the Holy Dragon City, and secondly, it was indeed unnecessary!

More than 90% of the cities on the continent were below level 5. In other words, a level 5 city was enough to dominate a region. As for how many Level 5 cities the Holy Dragon City would have in the future, Tang Zhen was still unable to determine.

As for the siege battle that they had to face in order to share the interdimensional passage, Tang Zhen had never placed it in his eyes.

When the Holy Dragon City had developed to a certain scale, once the siege began, it would be the end of the foreign races!

Because he had agreed to Yue qianhua's request, Tang Zhen couldn't leave this place for the time being. Therefore, everyone returned to the camp from last night and began to quietly wait for the arrival of night.

Fatty had never been able to stay idle. When he heard that there were pistils with beautiful women's heads on those giant flowers, he immediately rushed over in high spirits.

With Fatty's three-star Lord level cultivation, there were no monsters near the building that could hurt him. On the contrary, he would pray that this guy would not come to find trouble with him.

Tang Zhen had nothing to do so he continued to take out his old book and slowly read it under the sun.

After an unknown amount of time, fatty finally returned to the camp. The fragrance from his body was overwhelming and could be smelled from far away.

However, what was more shocking was that this guy was actually holding a few beautiful women's heads in one hand and was shaking them as he walked.

Yue qianhua and the other fairy cultivators frowned slightly. Although the cultivators of Lou Cheng were used to killing, they still couldn't bear to destroy beautiful things. So when they saw the fat man carrying the heads of the beautiful women, they couldn't help but feel disgusted.

However, when they saw the vine under the head, they realized what it was. After looking at it curiously for a while, they turned around and got busy.

The fatty ignored the others and directly carried the few heads to Tang Zhen. His face was filled with excitement.

"City Lord, guess what I found?"

Tang Zhen swept his eyes over the few heads that were continuously shaking. The corner of his mouth twitched slightly.

"What is it? is it something delicious?"

Tang Zhen casually replied. His tone was filled with a perfunctory tone.

"As expected of city Lord, you actually guessed it right away!"

The fat man, who had originally intended to keep them in suspense, was slightly stunned at first, then he praised.

Tang Zhen was also startled when he heard this. He swept his eyes over the heads of the few beautiful women and asked doubtfully, "This thing is edible. How do I eat it?"

When he spoke, the scene of fatty crazily gnawing on the head of a beautiful woman appeared in Tang Zhen's mind. He could not help but feel a chill in his heart.

The fatty immediately took a head and used the demon weapon dagger to cut it, revealing the thing hidden inside.

An extremely sweet smell suddenly filled the entire campsite, attracting everyone's attention.

Chapter 527-taking! break from the busy and entering the wild building

Seeing that everyone was looking at him, Fatty's vanity was slightly satisfied.

He proudly pointed at the purplish-red liquid hidden within the head and smiled at Tang Zhen, "You all smelled the fragrance in the valley, but you definitely don't know where it came from?"

isn't it from those flowers?"

The Holy Dragon City cultivator beside him asked cooperatively.

With someone being tactful, the fatty became even more proud and continued to shout, "The fragrance is indeed coming from the flowers, but do you know which part of the flowers is giving off the fragrance?"

The answer was so obvious that there was no need to think about it. However, Tang Zhen was still quite surprised that this kind of head was able to emit a fragrance.

Seeing that everyone was staring at the head in his hand, fatty no longer kept them in suspense and said with a smile, "That's right, it's the fragrance that this thing is emitting!"

Every time the fragrance in the valley weakened and was not enough to attract the prey in the distance, these things would spray out a thick mist with the fragrance from their mouths, making the fragrance stronger again!

I was only able to confirm this because I happened to see this scene just now, and I've seen similar things before!"

At this point, the fat man smiled and touched the liquid in the skull, then returned it to his face, his face full of enjoyment.

"I can guarantee that this is definitely the best honey I've ever had!"

Tang Zhen shook his head when he saw this. Fatty, this gluttonous fellow, was really extremely lucky to be able to live until now!

Since he dared to eat this flower honey, it meant that this thing was definitely non-toxic. With Tang Zhen's understanding of fatty, he knew that he would never joke about eating and drinking.

city Lord, have a taste. It will definitely be unforgettable for you!

The Fatty's expression was as if he wanted to share good things, causing Tang Zhen to be unable to bear to refuse. He reached out and picked up a strand of it before putting it into his mouth.

This kind of thing was a plant. Therefore, Tang Zhen did not have too many scruples. Moreover, he was already used to seeing life and death. He had killed countless people. Even if it was a head made of flesh and blood, he would still be able to swallow it without changing his expression.

As the fatty had said, the fragrance of the flower honey was incomparably rich. It was definitely a rare delicacy!

"Good stuff, remember to leave a few for me!"

Tang Zhen praised. He turned around and pointed at the huge beehive hanging between the man-eating flower's leaves.

why don't you go inside the Beehive and take a look? there might be honey inside!

The fat man turned around and looked at them with an expression of agreement. Then, he called over a dozen Holy Dragon City cultivators and prepared to poke down the beehives.

Tang Zhen lowered his head and continued to read the book in his hand.

What followed next was a rare period of leisure time. In this beautiful valley, everyone put down their swords and waited for the night to fall.

When the last ray of sunlight disappeared from the valley, night began to quietly fall. That strange atmosphere once again attacked his heart.

Yue qianhua walked over and was about to say something when Tang Zhen took out two things and handed them to her.

There was an exquisitely-shaped metal forehead guard and a piece of spirit Jade that was as warm as suet, with dense runes carved on it.

this is for you. Wear it on your body to resist the invasion of the spirit body in the black curtain.

Tang Zhen did not explain much. He only spoke indifferently.

Yue qianhua nodded. She ran her hands through her beautiful silk-like hair and put on the metal forehead protector.

Yue qianhua's forehead guard was different from the standard ones worn by the cultivators of the Holy Dragon City. It looked more like a queen's crown, with many gems embedded on it, which had different effects.

This was originally Tang Zhen's experimental object. Although there were still some flaws, it was still the work of a King level cultivator who was proficient in runes. It was priceless to an ordinary person!

The other spiritual Jade plate was also an experimental product. It had many effects, such as protection, exorcism, and cultivation assistance.

To enter the black curtain, one must have an exorcism item for self-defense. Tang Zhen's storage space just happened to have these two items, so he directly gave them to Yue qianhua.

Yue qianhua was already extremely beautiful, and now that she was wearing this crown-like forehead protector, her temperament became even more noble. At the same time, she also had a trace of heroic spirit.

"Thank you, I like it very much!"

Yue qianhua had received the noble Education of the elf clan since she was a child, so she could naturally see the extraordinariness of these two items. Therefore, after she put away the jade pendant, she bowed to express her gratitude to Tang Zhen.

Tang Zhen nodded and directly held Yue qianhua's hand. The two of them then stepped into the black curtain.

Yue qianhua, who was walking in the darkness, felt as if she was in a world without light or sound. It was as if an eternal sense of loneliness was constantly attacking her.

If it wasn't for the large hand holding her hand, Yue qianhua suspected that it wouldn't take long for her to go crazy in such an environment.

She subconsciously clenched his hand. After receiving a response, she suddenly no longer felt afraid.

A warm feeling welled up in her heart, and the boundless darkness was dispelled. She seemed to see a man with a faint golden light shimmering all over his body, fully focused on exploring in the darkness.

Occasionally, he would turn his head and smile at her with a strong encouragement in his eyes.

Unconsciously, Yue qianhua had a feeling that even if she had experienced a mountain of daggers and a sea of flames, as long as she held this hand, she would be able to safely pass through it!

Recalling the past with the owner of this big hand, the two should have been enemies, but now they were holding hands and carrying out an exploration that was destined to be full of danger.

Yue qianhua suddenly had a very strange feeling in her heart. A faint smile appeared at the corner of her mouth, and she subconsciously clenched her hands again.

Tang Zhen only felt fear in Yue qianhua's heart in the darkness. He lightly shook her hand twice to comfort her before continuing to walk towards the man-eating Flower House.

Ever since the foundation stone was taken away, this wild building had actually fallen into death, and now it looked even more lifeless.

Tang Zhen stood at the entrance of the cave that he had entered during the day and sensed the situation inside. After he confirmed that there was no danger, he directly walked in.

Tang Zhen had always been apprehensive about the wild tower at night. This was also the reason why he had never chosen to explore the wild tower at night.

This operation could be considered as understanding the secrets of the wild building and satisfying his curiosity.

After entering the building, Tang Zhen didn't feel anything unusual. It was as if it was no different from daytime.

However, the more this was the case, the more Tang Zhen did not dare to lower his guard. This was because true danger would never be discovered at a glance. It would also not give one enough time to prepare.

Yue qianhua, who was following behind Tang Zhen, was even more so. From the beginning to the end, she had been walking in the darkness. If it wasn't for Tang Zhen's hand signal, she wouldn't have known that she had entered the wild building.

The Journey to the Center was very long. Tang Zhen held Yue qianhua's hand and walked for a while. He felt that the speed was too slow, so he directly picked Yue qianhua up and then ran quickly in the passage.

Yue qianhua, who was being carried by Tang Zhen, was shocked at first. After struggling for a while, she immediately calmed down and closed her eyes to feel the rhythm of the shaking.

Yue qianhua's body was very light and soft. Even though she was wearing leather armor, Tang Zhen could still feel the other party's exquisite curves.

Tang Zhen had already memorized the route they were taking. They were unimpeded along the way and it didn't take long for them to reach the location of the mercury Lake.

The monster's corpse that was killed by Tang Zhen during the day was still floating in the lake. Everything looked normal.

However, Tang Zhen felt that there was some kind of abnormal situation that could happen at any time.

Chapter 528 Strange situation in the wild house, moon god count

After putting Yue qianhua down, Tang Zhen kept looking at the surrounding environment, trying to find anything unusual.

However, after searching every corner, he found that everything was normal!

The saying that one couldn't enter the wild building at night was definitely not a lie to scare people, because countless Wanderers and cultivators had used their lives to verify the truth of this saying.

In that case, the only thing he could do now was to wait quietly.

Tang Zhen pulled Yue qianhua's hand and wrote the words he wanted to say in her palm.

"Everything is normal now, so we have to wait!"

In the dark, Yue qianhua felt the touch from her palm and gently nodded. She then opened Tang Zhen's palm and wrote a sentence with her white jade finger: "I'll have to trouble you!"

"You're welcome!"

After exchanging a few words through their palms, Tang Zhen pulled Yue qianhua to sit on a rock at the side and began to wait quietly.

Tang Zhen also withdrew his eyes from The Dark World. This was because he could already feel a piercing pain coming from his eyes. This was not a good sign.

The corrosiveness of The Dark World was extremely terrifying. Tang Zhen had also relied on his cultivation base and the protection he could use to be able to stay in it for a long period of time.

As for the other cultivators in Loucheng, they were unable to adapt to the environment of The Dark World at all. For example, after Fatty entered it, he only stayed for a minute before he had Tang Zhen send him out as if his butt was on fire.

Every second spent in the dark World was torture for Fatty!

This was also one of the characteristics of The Dark World. After entering, the physical body would rapidly corrode, but the spirit body could last for a long time.

When they attacked the Cold Moon Tower, the spirit body cultivators of the Cold Moon Tower had entered The Dark World. From their behavior, they must have entered The Dark World more than once.

This dark world was definitely a strange and unpredictable place for Tang Zhen. There were too many secrets that he needed to explore.

Tang Zhen suddenly felt that something was amiss as he thought about it.

Previously, Yue Qianhua would hold his hand every minute or so to make sure that they were safe and sound.

But now, a minute had passed, and she had stopped shaking hands.

Tang Zhen was shocked. He immediately activated his ability and turned around to look at Yue Qianhua.

However, the scene that entered his eyes caused Tang Zhen's heart to beat wildly.

It turned out that countless cracks had appeared in the building at some point in time. They seemed to have a life of their own as they constantly wriggled and swept through the various areas.

Yue Qianhua, who was next to him, had already been swallowed by the crack. Now, she was only left with a hand that he held.

What surprised Tang Zhen was that Yue Qianhua did not really disappear. This was because he could see that Yue Qianhua had actually been sucked into the dark World!

At this moment, Yue Qianhua's face was filled with panic. She tried to shake Tang Zhen's hand to remind him, but she found out that she couldn't control her hand at all.

At the same time, she discovered that she was in a strange world. Both her vision and hearing had returned to normal. She shouted for Tang Zhen, only to discover that Tang Zhen, who was originally very close to her, had disappeared.

If she wasn't sure that she was still holding Tang Zhen's hand, Yue Qianhua would have thought that Tang Zhen had disappeared!

This world was filled with an aura that made Yue qianhua feel disgusted. If it wasn't for the spirit Jade tablet on her body that was emitting light to help her block that terrifying aura, she would have been seriously injured by now.

Just as Yue qianhua was at a loss as to how to respond, she suddenly discovered a pair of eyes in front of her that were silently watching her.

Yue qianhua was shocked at first, but then she realized that this pair of eyes was very familiar. It was Tang Zhen, who she was holding hands with.

"I'm here, take me out!"

Yue qianhua shouted at Tang Zhen, but she felt the big hand that was holding her suddenly loosen. Then, her entire body was sucked into the dark World.

A strong sense of loss hit Yue qianhua's heart, making her feel like she had been abandoned by the whole world.

When she thought about how she would have to face this strange place alone, Yue qianhua couldn't help but panic. She subconsciously looked at the eyes that had appeared.

Only now did she realize that Tang Zhen's eyes had already disappeared without a trace.

"He doesn't care about me anymore?"

This thought flashed through Yue qianhua's mind. She then took a deep breath and prepared to force herself to calm down.

At this moment, she felt someone holding her hand, and the familiar warmth from her palm came back.

She turned her head to look at Tang Zhen. Just as Yue qianhua was about to say something, she saw him take out an emerald green leaf and hand it over.

this is a leaf from the mother tree. It can help you resist the corrosive aura here. Remember to follow me and don't leave even half a step!

After Tang Zhen reminded him, he began to look around. He observed The Dark World that had suddenly appeared in front of him and confirmed whether there was any danger.

Yue qianhua took the leaf and felt the dense vitality contained in it. She obediently placed it under her leather armor and subconsciously clenched Tang Zhen's hand.

At this moment, Tang Zhen was already able to confirm that their location was the strange and dangerous interior of The Dark World!

Perhaps those unlucky people who went missing after entering the building at night were accidentally sucked into the dark World and then corroded into a pile of dust that couldn't be held!

If Yue qianhua didn't have the spirit Jade to protect her body, and if she didn't have a treasure of the fairy clan, she would have been turned into a ghost by the corrosive aura!

The moon god count most likely had a treasure that could resist this corrosive power, which was why he had been able to last so long!

“Can’t you sense your father’s location? can you confirm where he is now?”

Tang Zhen looked around for a while, but did not see the moon god count. He turned to Yue qianhua and asked.

Yue qianhua closed her eyes and sensed for a moment. Then, she pointed to a position in front of her and ran over impatiently.

Compared to The Dark World that Tang Zhen usually lived in, The Dark World in this wild building was more like a torn fragment. Some places were unusually narrow, while some places only took a few steps to reach the edge.

After a few turns, they finally found the moon goddess count in a narrow gap. She was wrapped in a faint green light, and her legs and feet had disappeared.

The moon god count was on the verge of death. If it wasn’t for the protection of the green light, he would have been reduced to ashes!

Yue qianhua cried out in surprise and immediately pounced forward. Her eyes were filled with tears that she could not hold back.

Tang Zhen stopped Yue qianhua from crying and quickly pulled the two out of the dark World. After that, he directly teleported back to the camp!

Inside the campsite, all of the elven cultivators’ expressions changed drastically when they saw the moon god count in Yue qianhua’s arms, and they quickly surrounded her.

Yue qianhua endured the pain in her heart and took out a container made from a green tree branch. She then poured the liquid into the moon god Count’s mouth.

Tang Zhen could sense a trace of extremely majestic life force from the liquid. From its flickering luster, he could confirm that this was the fairy clan’s Holy item, moon spring water!

The mummified moon god Count’s breathing suddenly stabilized, and the death energy around him started to dissipate.

Everything seemed to be developing in a good direction. However, Tang Zhen was very clear that this was merely an emergency measure.

The moonlight spring water was indeed very magical, but it definitely didn’t have the ability to bring the dead back to life. The moon god Count’s body had completely rotted away, and even his soul power was on the verge of collapse.

To be able to survive in the dark World until now was already very impressive!

A few minutes later, the moon god count finally regained consciousness, and she opened her dried-up eyes.

He looked at Yue qianhua with great difficulty, and his lips kept moving as if he wanted to say something.

Seeing this, Yue qianhua quickly stepped forward and hugged the moon goddess Count's body. She nodded as she listened with tears in her eyes.

These were the moon god Count's last words. There were some secrets that he had to let his daughter know, which might be the main reason he had persisted until now!

The other elven cultivators turned around and blocked the count and his daughter from view, so that no one could read their lips.

More than ten minutes later, these elven cultivators turned around and knelt on the ground, singing a song passed down from generation to generation of the elven race, praying for the blessing of a deceased hero.

Yue qianhua hugged the moon god Count's body in a daze, and a smile appeared on her face from time to time. It was as if she was reminiscing about distant memories.

Tang Zhen sighed softly and turned to look at the dark area. At this moment, in front of the spirit bodies, a handsome middle-aged man was staring at Yue qianhua.

When she noticed Tang Zhen's gaze on her, the moon god Count's spirit was filled with gratitude. She slowly bent down and bowed to Tang Zhen.

By the time he got up, his entire body had already collapsed rapidly, slowly dissipating into the mist between heaven and earth.

Chapter 529 Temporary stop, late night sneak attack

The next morning, everyone packed up and left the valley.

The moon goddess Count's body was also taken with him. He would be buried in his hometown, accompanying the elven world Tree for eternity.

They didn't run into any enemies along the way, so the cultivators didn't dare to let their guard down.

The traitor who had been in the team earlier had almost wiped them out, so they had to be on guard against the other party's dirty tricks.

After passing through the rugged road, everyone arrived at the riverbank. Tang Zhen took out the mobile boat and directly went against the flow, running towards the camp upstream.

The journey was safe and sound. After they arrived at the camp on the riverbank, they rested for a night. Then, they set out again at dawn and headed directly to Norma tower.

In the evening, the group arrived at the trading market outside of Norma. They decided to rest there for the night before continuing on their journey.

After learning that Yue qianhua and the others had returned, the city Lord of Norma quickly rushed over to express his goodwill and invited Yue qianhua and the others to rest in the tower.

After rejecting the other party's invitation, Yue qianhua went into the tent alone and did not even come out to eat.

Ever since the moon goddess count had passed away, Yue qianhua had been depressed. This incident had dealt a huge blow to her, and she had not yet recovered from the grief.

There were bonfires everywhere in the trading market at night, and Wanderers could often be seen walking by while chatting and laughing. Some of them were even drunk.

Compared to the Wanderers in the Barbarian land, the Wanderers in the rich land had a much better life because they were not far from nightmare forest. The Wanderers near Norma city basically didn't have to worry about food and drink.

However, compared to the Wildlands, it was even more difficult to obtain the qualifications to be a resident in these places. Even if one served these buildings for a lifetime, they might not even be able to obtain the qualifications of a reserve resident.

Moreover, building a city here was not as simple as it was in the Wildlands, because all the territories had an owner!

Without the permission of the landowner, when the city was built, not only would it be attacked by monsters, but it would also be attacked by the landowner!

Apart from that, rich land had many other things that were different from barbarian land. For example, there was a strict hierarchy here, and the number of battles between cultivators far exceeded the number of battles with monsters!

This was also the reason why there were still people who made a living there despite the barrenness of the Wildlands.

Compared to this area, the Wildlands was undoubtedly much freer!

The area where Tang Zhen and the others were resting had already been isolated by people sent by Norma. They didn't want the elven cultivators to encounter danger here, or they would definitely be implicated.

In this open space, the Holy Dragon City cultivators had set up many tents. Other than the cultivators in charge of guarding, most of them had already started to rest.

This period of continuous running had exhausted everyone. Now that they had changed to a slightly safer environment, they naturally had to replenish their physical strength as soon as possible.

Tang Zhen sat by the fire and continued to read. Fatty, on the other hand, didn't have the awareness of a three-star horde leader. He ran to the Wanderers not far away and drank and bragged with them without restraint.

On the road not far away, a few seemingly drunk Wanderers walked over. Perhaps because they were drunk, the Wanderers did not notice that the place had been quarantined and walked straight over.

The cultivators in charge of guarding Norma blocked their path and shouted at them to leave immediately.

After the Wanderers were stopped, two of them started quarreling with the cultivators of Norma who were in charge of guarding the place. The remaining three continued to walk toward Tang Zhen.

At this moment, everyone could tell that something was wrong. The Holy Dragon City cultivators in charge of security raised their guns and aimed at the Wanderers whose faces could not be seen clearly.

“Stay where you are, or I’ll shoot!”

As he shouted, the cultivator had already pulled the trigger. His previous words were just to numb the enemy.

There was nothing wrong with being careful. Even if the other party was not an enemy, they were not wronged for not listening to the warning and trespassing into the restricted area.

“Bang!”

A muffled gunshot rang out, and the Wanderer at the front was caught off guard. His head was immediately blown off.

The two Wanderers at the side turned pale with fright. Their swaying bodies trembled violently, and they charged toward the Holy Dragon City cultivator at lightning speed.

A shiny dagger appeared in each of their empty hands. They were obviously expensive demonic weapons!

The two of them were extremely fast. In an instant, they had crossed a distance of more than ten meters and were about to reach the Holy Dragon City cultivators.

However, the Holy Dragon City cultivators, who were already on guard, were even faster. Just as the two of them were exposed, more than ten muzzles had already locked onto them, and the muffled sound of shooting rang out continuously.

Not far away, the two people who were fighting with the cultivators of Norma also revealed their ferocity at this moment. After killing the cultivator with one move, they immediately attacked the camp.

In addition to the four enemies who were attacking from the front, there were also black shadows flashing from other directions of the camp. There were at least 40 to 50 people coming over.

The originally quiet trading market was suddenly in chaos. Gunshots and fighting could be heard.

Shooting in such a chaotic environment could easily hurt their companions. Therefore, other than a dozen Holy Dragon City cultivators who continued to shoot, the rest of the cultivators all drew their sabers and fought with the enemies.

In front of Yue qianhua’s tent, more than a dozen elf cultivators were gathered together, nervously looking around.

A black shadow rushed over and directly passed by the cultivators who were fighting. With a flash of cold light, the black shadow swung a knife and slashed at the tent.

A few elf cultivators tried to block the attack, but they were sent flying by the attacker’s saber. They fell not far from the tent, blood spurting out of their mouths and noses.

“Damn it, it’s a two star horde leader!”

After sensing the enemy’s aura, the rest of the elf cultivators gasped. Although they were afraid, they still charged forward without fear.

The attacker sneered and the blade flickered as he slashed at the cultivators at the front.

Once the blade touched the body, the body would be divided into two!

The blade was so fast that the elf cultivators couldn’t Dodge it in time. They could only watch the blade approach them.

However, just as the saber was about to cut into his body, it strangely stopped and could not advance any further!

The elven cultivators who had just escaped from death looked surprised. When they looked at the attacker again, they found that the latter’s facial muscles were twisted, and his face was full of surprise and horror.

“Before I receive my Commission, anyone who wants to touch her has to go through me first!”

Tang Zhen’s voice came from a distance. Under the surprised gaze of the elf cultivator, he slowly walked to the front of the attacker and took his sword.

“Since you want to kill her, you should be prepared to be killed!”

Tang Zhen shook his head as he looked at the other party’s face that was distorted from fear and his body that was trembling. The battle blade in his hand was suddenly swung out.

“Pfft!”

With a Flash of the Blade, the attacker’s head flew off and his body twitched as he fell to the ground.

At the same time the attacker was killed, a black shadow flashed not far away and quickly ran out of the trading market.

Tang Zhen did not even turn his head. The battle blade in his hand turned into a ray of light as it rapidly shot toward the black figure.

ah! a scream was heard. Everyone looked in the direction of the sound and saw that the Ambusher who had tried to escape earlier had been nailed to the stone wall of the trading market by a saber.

The wall was about five meters high, and the location where the attacker was nailed was about two meters above the ground. His entire body was suspended in the air.

After being pierced through the chest by the saber, the attacker struggled for a few moments before his head tilted to the side and he stopped moving.

The nearby elf cultivators all gasped.

The Ambusher that was killed by Tang Zhen earlier and the enemy that was nailed to the wall were all genuine two star feudal lords. In the end, they were like chickens and dogs in front of Tang Zhen and were easily killed by him!

How high was the cultivation of this Holy Dragon City Master, who was usually very kind?

Chapter 530! the road back, full of killing intent

This sneak attack that happened at night only lasted for a dozen minutes.

The Holy Dragon city's cultivators were well-prepared, and with their advantage in strength and equipment, victory was inevitable.

The two leaders of the ambushers were killed by Tang Zhen in succession, and the remaining ambushers immediately fell into chaos. Under the siege of the Holy Dragon City cultivators who were skilled in fighting, they were all annihilated in a short time.

After the battle, they checked the bodies of the attackers and found that there were no elven cultivators. Instead, they were all from a race that was subordinate to the elf race.

After Yue qianhua looked at the corpses of the attackers, she didn't say much and only thanked Tang Zhen again.

The elven aristocrat was attacked in his own tower, and this incident scared the hell out of city Lord Norma. Fortunately, other than a few injured elven cultivators, Tang Zhen's team did not suffer any losses.

The next morning, everyone left the market and headed to the area controlled by the elves.

The vehicle they were riding on was a strong Mount similar to a horse. It had good speed and endurance.

Tang Zhen originally wanted to take out a car to use as a means of transportation, but he quickly gave up this idea. Instead, he rode on the Mount gifted by the city Lord of Norma.

This wasn't the Wildlands, and taking a car wouldn't bring them any convenience. On the contrary, they might encounter countless troubles that would hinder their journey.

Moreover, the main purpose of his trip was to 'observe the enemy's situation', so it was better to keep a low profile.

Riding on strong mounts, the group slowly advanced on the road in the wilderness. From time to time, they would encounter cultivators and Wanderers.

When these people saw the elven cultivators in the team, they would always bow respectfully and then move to the side to make way.

The arrogance and domineering nature of the elves could be seen from this. No wonder Yue qianhua and the others had been so arrogant when they first arrived in Holy Dragon City!

Other than the foreign cultivators, they also saw Wanderers 'camps and places like inns and restaurants from time to time.

It was impossible to see such a scene in the wilderness where monsters were rampant, but it was normal on the land under their feet.

As he looked at the scenery along the way, Tang Zhen had a feeling that he had arrived in the Middle Ages of his original world. However, this was merely a magical version.

After the last sneak attack, the enemy might have learned of Holy Dragon city's strength, so the journey these few days had been calm.

The enemy would definitely not give up on assassinating Yue qianhua. The current peace was just a brewing storm.

The moon god count was considered an influential figure in the elven race, and he controlled a large piece of land. The land was basically rich, and its value went without saying.

Now that the moon god count had died, there would definitely be people who would covet his land. As the inheritor of the city, Yue qianhua would naturally not be able to return alive.

There was probably more than one enemy who had such thoughts.

Therefore, the battle along the way had only just begun!

Tang Zhen did not have the mood to participate in this kind of power struggle. He only continued to observe what he saw along the way and made preparations to occupy this land in the future.

Tang Zhen would return to the Holy Dragon City directly after he received the reward he deserved in the tower where dayue qianhua was located.

The elves' territory was too far away from the Holy Dragon City. Even if they were very envious of this fertile land, they knew that with the Holy Dragon city's current strength, they could not completely control this land.

However, if Yue qianhua was willing to cooperate with him, Tang Zhen wouldn't mind supporting a puppet within the elf clan, allowing the Holy Dragon City to have one more 'ally' in this rich land!

In fact, the Holy Dragon City had already begun their research on the continent, but due to limited conditions, many of their work could not be carried out normally.

The only thing he could do now was to carry out a series of research through the information collected in the commercial district.

However, now that Tang Zhen had the energy heart, he could make this research even more powerful.

By relying on the [ super creature molding machine ] that he had downloaded from the application store, Tang Zhen could mass-produce various kinds of half-mechanical biological bodies, which naturally included the bodies of foreign races.

When these foreign bodies had their souls hosted, they would undergo special training and then be scattered across the continent, providing a steady stream of information to the Holy Dragon City.

With Holy Dragon city's support and help, these foreign race "spies" would definitely shine, and the entire continent would no longer have any secrets to hide.

Moreover, the war on this continent must not be as tough as the one in the Wildlands. Otherwise, once the forces of the loucheng on the continent joined forces, it would be extremely disadvantageous to Holy Dragon City.

Of course, these were all things to be discussed later, and there was no need to think too much about it now.

A wave of crisp bird chirps sounded. Tang Zhen raised his head and glanced around. He discovered a group of birds with long tail feathers flying up in panic. They were extremely beautiful and colorful.

The place where the birds had flown was a dense forest similar to green bamboo, located on both sides of the road.

From a distance, the bamboo forest was extremely beautiful. It was one of the sights that could not be seen in the Wildlands.

“If I were to build a small building in this bamboo forest, drinking tea and reading every day, and fishing and roasting meat in my spare time, it would definitely be a life like that of an immortal.

It’s a pity that such a good environment, why must it be stained with the smell of blood?”

When Yue qianhua heard this, she felt a little confused. However, the fatty, who was not far away, frowned and gave a look to the Holy Dragon City cultivators behind him.

The Holy Dragon City cultivator nodded lightly. Immediately after, the thirty Holy Dragon City cultivators at the back of the group quietly jumped off their mounts and quickly burrowed into the grass beside them.

Tang Zhen, fatty and the rest were still chatting and laughing. They seemed to have turned a blind eye to this scene as they slowly approached the bamboo forest.

At this moment, Yue qianhua also noticed the Holy Dragon City cultivators who had disappeared. She nodded slightly to thank Tang Zhen, and a smile appeared on her face.

This was the first time Yue qianhua had smiled since they had left nightmare forest. It was obvious that she had gradually recovered from her grief.

However, after Tang Zhen saw Yue qianhua’s polite smile, he felt an increasingly obvious sense of alienation.

As they talked and laughed, the group had already entered the small path in the bamboo forest.

Compared to the scorching heat outside, the air inside the bamboo forest was extremely fresh, giving people a relaxed and happy feeling.

However, not many people knew that not far away from the bamboo forest, a silent killing had already come to an end.

After the last enemy was killed, the Holy Dragon City cultivators quickly retreated, leaving behind a ground full of blood and corpses.

They sped through the bamboo forest, and after making sure that there were no more enemies, they jumped on their respective mounts without anyone noticing and continued on their way as if nothing had happened.

Soon after they passed through the bamboo forest, they came to a Wanderer gathering place built by the river.

As long as they were not residents of the city, they were all Wanderers and were not protected by the city.

This was why most of the time, the Wanderers would choose to gather together to fight against the bandits and the monsters that appeared.

Of course, every once in a while, these Wanderers would have to pay the city a tribute in exchange for the right to stay on this land.

The scenery of this Wanderer gathering place was very good. There were dozens of stone houses built on the open space by the river, and there were mills and stone bridges by the river. It had a bit of medieval idyllic scenery.

There was a shop on the roadside that provided food for passers-by. Tang Zhen and the others saw that the shop was relatively clean and decided to take a rest here.
