

Alternate 551

Chapter 551 Equipment testing, clearing the valley

Mike and the others were dumbfounded by the sight of the soldiers and the monsters working together.

“Bastards, line up immediately! If you’re any slower, I’ll kick your ass!”

Just as everyone was watching with rapt attention, a rough voice sounded.

Mike and the others turned around and saw a brawny Man in Black armor walking over. His eyes were like knives as he looked at them back and forth. This scene reminded Mike and the others of a recruit instructor.

Out of a soldier’s instinct, Mike and the others immediately lined up and looked forward without blinking.

The brawny man nodded. He then informed Mike and the others of the rules they had to pay attention to with a roar, and then led them to collect their equipment.

This was a type of battle armor made up of heavy plate armor and a special metal cloth. It was black in color and had a sci-fi look. Its defensive power was very strong.

After the soldiers put on this kind of armor, their originally tall bodies became even more powerful. They looked like human-shaped fortresses.

After putting on the armor, they were led to a warehouse and each received a large box.

The box weighed a total of 150 kilograms. Before this body was possessed, no one could lift such a heavy thing with one hand.

However, the bodies that the soldiers were currently residing in had extremely powerful strength. They could easily pick up the metal boxes without feeling the slightest strain.

When the box was opened, a brand new set of equipment appeared in front of the soldiers.

It was a modified weapon similar to a Gatling gun. Under normal circumstances, it could not be used as individual equipment, but for these humanoid fortresses, the weight of this weapon could be completely ignored.

There was no doubt about the destructive power of this weapon on the battlefield. The only weakness was that it was too dependent on logistics.

In addition to this weapon, there were other individual auxiliary items in the box, which could definitely be transformed into a mobile firepower platform.

After all the soldiers were fully equipped, Mike and the others were brought to the weapon testing field and had a good time using their ammunition.

After putting down the machine gun, Mike and the others were dragged away to test other equipment. They even cooperated with a group of ogres and started a brutal charge.

At the end of the day's test, even Mike and the others, who had extraordinary physiques, were almost dead dogs from exhaustion.

Early the next morning, Mike and a dozen soldiers were deployed separately. They took a helicopter and flew into the depths of the wilderness ahead.

Because they didn't know where the plane was taking them, Mike and the others were a little nervous and kept guessing the purpose of this trip.

After about an hour, the plane stopped in a camp.

Mike and the others carried the boxes. After sweeping a glance at the Holy Dragon City soldiers in the camp, they were led to a tent.

A very young-looking man was looking at a map. When he saw Mike and the others, he walked up and nodded with a smile.

"Young lads, you seem to be in good spirits!"

The young man in leather armor gave off a sense of seniority when he spoke. It was obvious that he was also a time traveler.

when we were attacking the city in front of us, we ran into some trouble. The purpose of transferring you here is to let you cooperate in the battle and do a combat test of your equipment.

The Holy Dragon City currently did not have a clear ranking system for military officers, so Mike and the others did not know his position. They just quietly listened to him explain the battle situation.

It turned out that the demonic Tower City that attacked the Holy Dragon City was in a special location. It was built in a hilly Valley, so there were ravines and caves everywhere around the city.

The Wanderers and wild cultivators who made a living nearby lived in these caves that were connected to all directions.

The demonic tower had already been destroyed by the fighter planes, but the culprit was safe and sound. He led the cultivators of the tower into these caves and valleys, trying to continue fighting against the Holy Dragon City.

The Holy Dragon City naturally would not let these guys off, so they decided to split up the Army and enter the valley to clean up the remaining enemies.

The mission of Mike and the others was to follow a small team to clear the enemy and act as the heavy firepower of the team.

It was just to capture a small city Lord Lou. Naturally, there was no need to mobilize so many people. However, the Holy Dragon city's main purpose was to use this opportunity to train their troops, and this kind of Valley and cave area was just right for training and fighting.

After knowing their mission, Mike and the others were no longer confused. They were immediately assigned to their own teams.

Mike's team had a total of three transmigrators. In addition to him, there was also a Cyborg Beast operator and a professional sniper.

The remaining seven were all loucheng Warriors. Compared to these transmigrators, they were more familiar with the terrain and environment of the world of loucheng.

After Mike joined the team, he got to know the other members. Then, everyone patiently waited for the mission to begin.

About two hours later, the attack mission was issued. Looking from the sky, hundreds of small teams swarmed into the valley area and began a carpet search.

Mike's team was also among them. They entered the valley through a passage. The seven loucheng soldiers were all wearing black armor, holding special high-power rifles in their hands, and a sharp sword was tied to their backs.

As they moved forward, they kept looking at the surrounding hills in case the enemy suddenly attacked.

The two mech beasts also followed the team. One was like a cheetah, while the other was like a Spider. They ran back and forth nimbly, ready to attack at any time.

The soldiers in charge of controlling them were constantly receiving and analyzing the information from the headquarters as they advanced, at the same time conveying the battle situation to the other members of the team.

Mike and the sniper followed the team. Looking at the Holy Dragon City soldiers in black armor and the half-mechanical beasts beside them, they felt like they were in a science fiction movie.

Dozens of drones made with new technology flew over their heads. They were responsible for reconnaissance and providing fire support.

enemies have appeared in front of us. Be careful of attacks!

Looking at the contents of the wrist monitor, the warbeast operator immediately reminded his teammates.

As soon as he finished speaking, a group of alien cultivators rushed out of the valley opposite them. They ran toward them with ferocious expressions.

A series of muffled gunshots rang out, and the foreign cultivators on the opposite side were knocked down one after another, falling to the ground in a mess.

enemy eliminated. Continue forward!

After eliminating the enemy, everyone cleaned up the battlefield and continued to move deeper into the valley.

Gunshots and explosions could be heard from time to time. The foreign cultivators who tried to attack were shot and killed one after another. In the end, they learned their lesson and simply hid in the cave.

Mike's team had been attacked several times during this period, and with the advantage of weapons, the enemies were quickly eliminated.

In the next two days, their team continued to search the cave, and Mike's super firepower finally came in handy when cleaning the cave.

Under the rain of bullets, the densely packed rat-type monsters were killed one after another, saving their team from losses.

On the fifth day of the battle, the hidden devil tower's city Lord was finally discovered. After a fierce battle, this guy "miraculously" escaped.

However, news soon came that after the city Lord of the devil Tower City escaped, he ran to a good friend's city to take refuge.

The Holy Dragon city's Army, which had vowed to kill the city Lord of the demonic tower, immediately set off again, heading straight for the tower!

Chapter 552! gathering of assassins, level division

The Holy Dragon City had finally found an excuse to start a war. How could they give up this opportunity so easily?

The reason why they had used fighter jets to bombard the city instead of using ground forces to attack was to give the magic Tower a "way out" so that the Holy Dragon City could catch the "fish that escaped the net"!

The Wildlands is very big, and there are many fish that have escaped the net. Your city might be hiding them, and so might his.

I suspect that there are fugitives in your building, and you can't hand them over, so I have to search, but you won't let me. Well, let's fight first!

It sounded very unreasonable, but so what?

In this world, the power of fists was the truth. Compared to other cities that declared war without a declaration, the Holy Dragon City was already very kind to be able to find an excuse.

After all, with the Holy Dragon city's strength, did they need a reason to beat someone up?

Now, Tang Zhen finally understood why heaven battling city, the elf race, and even the dog-headed people had the intention to meddle in the Wildlands.

Although this place was barren, it could provide a lot of cultivators, or simply cannon fodder!

The cannon fodder of the Wildlands was very valuable. They could fill their combat power gap and accumulate battle merits to upgrade the level of the building. Therefore, it was not impossible for them to pay with some resources.

According to the strength of these top-tier cities, as long as they sincerely supported a city, it would be a matter of time before they dominated the Wildlands.

It was a pity that they never dreamed that a freak like Tang Zhen would appear in the Wildlands, causing their plan to fail at the last step. It was unknown how many follow-up plans were no longer possible to be implemented.

They would definitely hate Tang Zhen, this disrupter, to the bone!

It was precisely because of this that Tang Zhen's assassination had taken place more than once. However, many of the operations had been directly destroyed by the Holy Dragon city's cultivators before they could even be carried out.

However, there were occasionally assassins who managed to get close to Tang Zhen. Unfortunately, in front of a King level cultivator, the assassins were like children. They didn't have any chance to attack!

In recent times, there were many more cultivators from outside the Wildlands in the Holy Dragon City. Their target was Tang Zhen.

They had robbed the purple Star Tower's treasure vault, and the elves had offered a reward of ten million brain beads. This had caused countless self-proclaimed Daredevil cultivators to swarm over in an attempt to assassinate Tang Zhen to gain both fame and fortune.

Unfortunately, the Holy Dragon City was a huge trap. After Tang Zhen returned, he had already made full preparations and was waiting for this group of self-righteous people to walk into the trap.

Recently, the underground prison had been overcrowded. The interrogation room was also filled with screams all day long. Most of the prisoners locked up here were unlucky fellows who intended to steal the Holy Dragon city's hidden treasures or assassinate Tang Zhen.

If they wanted to leave this place alive, they had to either sign a contract to sell themselves to the Holy Dragon City or go bankrupt to pay enough ransoms and leave this place empty-handed.

Relying on Tang Zhen, this "metal-absorbing rock," the Holy Dragon City had actually gained a lot during this period of time. When Tang Zhen occasionally learned of this matter, he did not know whether to laugh or cry.

After casually knocking out a two star horde leader who tried to assassinate him, Tang Zhen slowly walked toward the building on the mountain peak.

The Holy Dragon City cultivators behind Tang Zhen all gnashed their teeth in hatred. After beating up the assassin, they directly sent him to the Holy Dragon city's underground prison.

Although the city Lord's cultivation was profound and he was almost unafraid of any Assassin's attack, as the city Lord's guards, they had failed to subdue the assassin in advance. This in and of itself was a dereliction of duty.

It was a pity that these assassins had mysterious methods. Even though they were all Lord-ranked cultivators, they still couldn't guard against them.

Tang Zhen smiled and shook his head when he saw the self-reproaching expressions of the ten guards beside him. He did not mind in the slightest as he said, "These assassins can't hurt me at all. Don't think too much about it. Just focus on doing your own things!"

The guard beside him nodded and continued to observe the surrounding situation to prevent any danger from happening.

Tang Zhen ignored him when he saw this and continued to head towards the mountain path.

These guards were dispensable to him, but due to the frequent assassinations, he had no choice but to bring 10 Lord-tier cultivators with him wherever he went under the strong demands of the crowd.

Upon closer inspection, the cultivators' armors had obviously changed. The most eye-catching thing was the logo on it.

In order to facilitate the management of the Army, the Holy Dragon City divided the cultivators into their respective ranks according to the military rank model of the original world.

For ordinary people, Level 1 and Level 2 cultivators corresponded to corporals, sergeants, and sergeants, respectively!

Rank 3, rank 4, and rank 5 cultivators were corresponding to the ranks of second lieutenant, first lieutenant, and Captain, respectively.

Once they were promoted to the Horde leader level, they could obtain the rank of major, followed by 2-star horde leader Lieutenant Colonel, 3-star horde leader Colonel, and 4-star horde leader Senior Colonel!

Different levels enjoyed different benefits, which was also the motivation for cultivators to constantly improve their levels.

If the Holy Dragon City developed well in the future and controlled a large piece of land, it would not be impossible to support these high-level cultivators to build towers.

As for the division of King-level cultivators, the Holy Dragon City did not need to use it for now. This was because apart from Tang Zhen, only Lingxu Zi's cultivation had reached the king level.

 this old man took it as his responsibility to revive the spirit race and didn't care about the division of ranks, so there was no need to consider him.

Of course, even if one obtained a military rank, it did not mean that one could command an Army. This was the world of Loucheng, and the so-called military rank was just a division of strength.

The Holy Dragon City had lieutenants commanding lieutenants, so the Lord-level cultivators did not find anything wrong with it.

In order to make it easier to identify, there were also clear differences on their armors, which were easy to see at a glance.

For example, the armor of the cultivators who actually held military positions, in addition to the Holy Dragon City's coat of arms, also had a military rank symbol and a clear identification.

The cultivators of the other departments would also be marked with their unit in addition to their coat of arms and military rank.

The military ranks of the two were the same, but the color was different, which was also one of the obvious differences.

As the Holy Dragon City grew stronger, the number of indigenous residents and transmigrators would inevitably increase explosively, and the scale of the Army would also grow larger and larger. Therefore, some rules had to be formulated and implemented.

It wouldn't take long for the Holy Dragon city's main city to be promoted to rank 6. The overseas battlefield would also be opened up. At that time, Tang Zhen's main energy would also be placed there.

The work of controlling the Wildlands would naturally be completed by their partners. Compared to the high-level cultivators in Holy Dragon City, the advantage of their partners was undoubtedly the number of people.

Unknowingly, Tang Zhen had arrived at the inheritance Hall in the middle of the mountain peak. He also saw countless cultivators who were immersed in hard training in the square.

Among these cultivators, there were transmigrators and cultivators from the Holy Dragon City. The martial techniques they cultivated were naturally from the spiritual race's inheritance.

Mister MoRun was having a chat with Lingxu Zi over tea. They were discussing the martial techniques of the spirit race and the cultivation of cultivators.

After seeing Tang Zhen's arrival, the two of them stood up to welcome him. Tang Zhen also responded with a smile.

After chatting for a while, Tang Zhen pointed at the group of men and women and said, this group of young people should be the transmigrators who arrived a few days ago. I wonder how their cultivation is going?"

Mo ran nodded and said with a hint of admiration, "It's indeed not bad. Whether it's your comprehension or cultivation speed, you're much better than other beginners!

If they could maintain this speed and add Lou Cheng's attributes, their cultivation path would be extremely smooth. They wouldn't need to spend so much time to reach the Lord-tier like ordinary cultivators!

If all transmigrators have this kind of aptitude, no one will be able to stop the rise of my Holy Dragon City!"

Tang Zhen nodded. It seemed that it was indeed useful to train them since young. He believed that once the training results of this group of young people were out, the original world would definitely take action.

If he wanted to gain a firm foothold in the world of Loucheng, it was not safe to rely on technology alone. He also needed a strong force as support. After all, when the strength of a cultivator reached a certain level, the existing weapons in the original world would be helpless!

After taking back the completed storage ring from Mo Ran, Tang Zhen returned to the Holy Dragon City and headed to the hidden underground floating city.

At present, only a few people knew that there was a floating city under the Holy Dragon City. At the same time, there was also an incomparably huge super warship.

However, there were too many things to do in order to successfully pilot this warship. Tang Zhen was only in the exploration stage.

If they wanted to see the true appearance of the Super warship, they might have to wait for a long time or not. After all, the world was unpredictable. Who knew what would happen in the future?

Chapter 553! treasure hunting plan, dust-covered wild tower

In a small restaurant in the business district, Xiao Li and the others, who had obtained the treasure map by chance some time ago, gathered together again.

They were all hot-blooded young people. Now that they were in a foreign world that they could only imagine in the past, and they had coincidentally obtained a legendary "treasure map," how could these young people miss such an opportunity to explore?

Furthermore, they knew that the world of Loucheng would become the second home of mankind in the future. If they could get a fortune, it would be beneficial for their future development.

Therefore, driven by interest and curiosity, they were particularly concerned about this matter. They had been secretly collecting information and equipment to prepare for the exploration.

Today, they had gathered together again because they had finally found a crucial clue.

There were six people in the room, four men and two women, all transmigrators.

A short-haired young man took out a map and circled a red dot on it, "I asked the foreign merchant who sold the bone sculpture and confirmed the general area where he met the Wanderer. I've already marked it on the map.

From the map, we can see that the location is not too far from Holy Dragon City. It only takes half a day to get there by car!"

After the youth finished speaking, the other youth beside him nodded and also took out a piece of white paper.

If one looked carefully, they would find that this piece of paper was full of translated contents of the map.

Chen Feng, how did you translate those words?"

The girl beside her, Xiao Li, asked with some doubt. The others also had the same expression.

The young man called Chen Feng smiled and explained in a low voice, "In our Holy Dragon city's library, there's a software that the Lord city Lord personally created to compare the languages of various races. At least, it can be easily recognized after scanning it. It's just that ordinary people are not allowed to use it.

I took the opportunity to translate an ancient potion formula and got the chance to use that software, so I translated these words as well!"

Everyone nodded and began to study the deciphered text. Soon, their expressions became complicated.

According to the deciphered content, the original owner of the treasure map in the hands of Xiao Li and the others was the son of a city Lord who had escaped when the city was attacked.

They escaped when the city was destroyed and brought a bunch of treasures into the wilderness. While avoiding the pursuers, they accidentally entered a hidden building.

It was only after they entered that they realized that the treasures in the building were piled up like mountains. Compared to them, the treasures in their hands were not even worth mentioning!

However, after the initial surprise, the foreign cultivator discovered that the tunnel he had used to enter the building had strangely disappeared.

They were trapped in this strange building and had no way to escape. They did not disappear like the other unlucky people who were trapped in the building.

In order to escape from this building, these foreign cultivators had thought of countless ways, but they couldn't escape even half a step.

Until one day, they found a small fish and wildflowers that had barged in from the outside in the canal of the wild building.

After realizing that the water current might not be affected by the wild building, the foreign cultivators thought of using the drifting bottle to ask for help. They tried to get the Wanderer who found the bottle to save them.

The specific features of the building were also drawn on the map, and it was easy to determine the location.

These trapped foreign cultivators had promised that if they were rescued, they would use all the treasures as a reward and swore to the gods that they would never go back on their words!

The bone sculpture in the hands of Xiao Li and the others was a 'drifting bottle' modified by the foreign cultivators!

After reading the contents of the text, Xiao Li and the others fell silent. This was indeed a treasure map, but it also hid great danger.

Even a group of cultivators were trapped in it, so how could they escape?

Moreover, the treasure map looked like it had been there for a long time. Who could guarantee that it had not been discovered? therefore, the existence of the treasure was still a question.

However, the mountain-like treasures described in the text moved them greatly. They did not want to miss this opportunity to make a fortune.

To go or not to go, this was definitely a worrying question!

After discussing for a long time, they finally decided to go to the location of the treasure to take a look. If there was danger, they would think of a way, but if there was no danger, they were destined to make a fortune.

As for reporting it to the mercenary Association to get the bonus and share, it would have to be decided after they went to the wild building.

Now that he had made his decision, the next thing to do was to look for an opportunity to go to the building and collect the corresponding equipment.

On the surface, this matter seemed simple, but the actual operation was relatively difficult. The most important point was how they obtained the qualifications to go to the wilderness.

Because most transmigrators had their own jobs, many of them were not very active in cultivation, so their combat power was not very strong. When they went to the wilderness, they needed someone to protect them.

However, there were exceptions. When there was a lack of manpower, if the transmigrators were strong enough, they could also apply for weapons from the Holy Dragon City and move freely within the Holy Dragon city's territory.

Most of the transmigrators were military personnel. In addition, their physical fitness had increased greatly after changing bodies, so they could completely protect themselves even if they were armed.

Moreover, if they were in danger, they could ask for help from the Holy Dragon City as long as they could hold on for enough time.

What Xiao Li and Chen Feng were fighting for was precisely the permission to act alone.

After some planning and hard work, their scientific research plan was finally approved. The six of them could apply for weapons and explore the wilderness alone.

Fortunately, when Xiao Li and the others submitted their applications, they stated that the area they were heading to was within the Holy Dragon city's control area. Otherwise, they would not have been approved so easily.

After settling the application and collecting the weapons and equipment, Xiao Li and the others couldn't wait to jump into the modified cars and drive into the depths of the wilderness.

The off-road vehicles used in the Holy Dragon City today were all specially modified vehicles that could guarantee enough off-road power. The huge fuel tank was also enough to allow the car to run very far.

When facing monsters, using the metal sheet of the car made of simulated battleship metal could also effectively protect the passengers in the car.

Looking at the scenery along the way and imagining the possible treasures, Xiao Li and the others were filled with anticipation and excitement.

As they were in the Holy Dragon city's control area, they had been cleared out long ago. There were no monsters along the way, and there was no danger at all.

When they arrived at the target area, they immediately spread out and kept looking for the location of the building.

Following the directions on the map, Xiao Li and the others finally found the entrance point of the wild building marked on the treasure map near a huge mound.

This was an entrance covered in mud and grass. Without a hint, no one would have noticed the existence of this entrance.

The situation in front of them was enough to prove that no one had visited this place for a long time. Perhaps they were the first batch of visitors after the group of foreign cultivators.

If that was the case, then the treasure in the wild building was likely to be untouched!

Xiao Li and the others looked at each other with joy on their faces. They quickly waved their shovels and cleaned up the soil at the entrance.

It didn't take long for a half-closed stone door that had been sealed for who knew how long to appear in front of them. The wisps of cold wind made people shiver.

After putting on their head lamps and gas masks, the six of them walked in with their weapons.

After entering the passage, everyone realized that it was not as dark as they had imagined. On the stone walls on both sides of the passage, there were luminous objects similar to night pearls that were emitting a green light.

At the end of the narrow passage, there was another door blocking their way. However, this door was a little special because it was a huge mirror.

Although the building had been sealed for a long time, the mirror was still as clean as new, clearly reflecting the figures of Xiao Li and the others.

In order to enter the building, they had to break the mirror. Therefore, even though they felt that it was strange for a mirror to appear in the passage, they still broke it and entered the hall.

However, little li and the others did not notice that the broken mirror door returned to its original state not long after it was broken.

Chapter 554 Strange land, enemy and ally unknown

After breaking the mirror-like door at the end of the tunnel, Xiao Li and the others entered the building.

It was gloomy, strange, and had a touch of vicissitude.

On the huge and mottled walls, there were strange murals everywhere. They depicted all kinds of strange creatures, as well as the scenes of martial artists fighting.

Dozens of sculptures of different shapes were placed around the hall. They looked strange and ferocious, but they looked alive. They seemed to be coldly staring at Xiao Li and the others who entered the building.

At the corner of the wall, there was a large piece of broken bone weapon, but it had completely rotted.

What shocked them the most was that on a rectangular stone platform in front of them, there was a coffin-like object that seemed to be emitting an evil aura.

Around the stone platform, there were dozens of long objects, surrounding the stone platform.

At first glance, the layout and scene here were extremely similar to the ancient tombs in his original world!

The strange environment inside the building made people shudder. Xiao Li and the others seemed to be affected. They looked around nervously with a terrified expression on their faces.

Before entering the building, Xiao Li and the others thought that they had weapons with them and were not afraid of the monsters. At most, they would retreat in time.

However, it was only at this moment that Xiao Li and the others realized that this building was not as simple as they had imagined. Being in such an environment, they felt that their blood was about to freeze.

“Is this really an ancient tomb? why don’t we just go back?”

The girl next to Xiao Li was very nervous. She looked at the dark corners around her and couldn’t help but say in a trembling voice.

relax, we have guns in our hands. We’re not afraid of those monsters at all!

since we’re already here, we naturally have to take a look before we leave. If the situation doesn’t look good, we’ll retreat!

“Don’t be afraid, you’re just scaring yourself. There’s nothing to be afraid of here!”

Li Feng and the others comforted the girl, looking very brave. However, if one looked closely, they also looked very nervous.

Perhaps the words just now were also for him to hear.

Although they were embarrassed to admit it, they felt a little regretful. However, they might not be willing to give up the treasure and leave this place.

let’s go further in. Everyone, be careful!

let’s go, ” Chen Feng reminded. He walked to the front with his rifle in hand. His fingers were placed on the rifle’s ring, ready to shoot at any moment.

Even though they had not encountered any danger so far, ever since they entered the building, their hearts had been shrouded in a sense of danger.

It was this kind of inexplicable sense of danger that made everyone’s nerves tense.

“Pa da!”

“Pa da!”

In the dark environment, it seemed that only the footsteps of a few people could be heard, echoing in the wild building.

A young man walking at the back suddenly frowned and listened attentively.

He seemed to have heard some noise not far behind him, but the problem was that there were six of them in the building, and he was the last one. How could there be someone else behind him?

He turned around and looked around, but there was nothing unusual. It was obvious that he had been overthinking.

After walking for a while, he heard footsteps again. The young man frowned even more and stopped to look back.

After a while, the young man was about four to five meters away from the team, but he didn't seem to care.

Or was everything normal? there was nothing abnormal at all. Could it be that he was hallucinating?

The young man turned his head and was ready to continue moving forward with the team. However, when his eyes fell on his companion in front of him, his body stiffened slightly.

Their team had a total of six people, and now it looked like there were still six people, but he was not included in the six.

Damn it, why was there suddenly an extra person in the team?

The young man was shocked. Just as he was about to warn his companion, the teammate in front of him suddenly turned his head and stared at him coldly.

The face was so familiar that the young man felt like he was looking at another him in the mirror. However, unlike his own face of surprise, the other him had a strange smile on his face.

The young man was shocked. He was about to raise his gun and shoot, but he found that there seemed to be a transparent barrier in front of him, making him unable to take another step forward.

“Bang Bang Bang!”

A series of gunshots rang out, and the bullets seemed to have hit the transparent soil, but the “identical” him did not suffer any damage.

Chen Feng, you guys run! That guy is an evil spirit!

The young man waved his arms, trying to warn his companions to be careful, but found that his voice could not be transmitted out.

As if seeing that his efforts were in vain, the “him” laughed slyly, and then instantly turned into a look of horror. He shouted to his companions, “there's a ghost behind us, run!”

Following the roar, the ‘self’ kept shooting at the young man while pretending to cover his companions ‘retreat.

Xiao Li and the others were shocked by the roar. They turned their heads and looked behind them. At the same time, they showed a frightened expression, as if they had seen something terrifying.

Without any hesitation, they ran forward with all their might and disappeared around the corner of the passage in the blink of an eye.

It was only when his companions had disappeared that the young man truly felt fear. He knew that the fellow who looked exactly like him was most likely a real evil spirit monster!

I can't let Xiao Li and the others get hurt. I have to kill that damn guy!

Thinking of this, the young man gritted his teeth and immediately chased after the place where Xiao Li and the others had disappeared. The transparent barrier that had blocked him had also disappeared without a trace.

The young man who was running in the wild building had forgotten his fear. He only wanted to save his companions and prevent them from being hurt by the evil spirits.

However, after walking around the building for a long time, the young man still did not find his companions. He also did not know where they had run to.

Just as the young man was secretly anxious, a series of footsteps suddenly came from behind him. This made him surprised and happy, and he quickly hid in a corner.

It didn't take long for the young man to see his teammates lined up in a row, walking nervously towards his hiding place.

The evil spirit that looked exactly like him was also in the team at this time. He was looking behind him from time to time, as if he was on guard against something.

Before they knew it, the evil spirit was already four to five meters away from the team.

The young man wanted to shoot the evil spirit to kill it, but when he thought of its strange ability to block bullets, it seemed that his gun could not hurt it.

Since that was the case, he could only remind his companions to run away from this evil spirit!

The young man held his breath and forced himself to calm down.

As his companions got closer and closer to his hiding place, the young man became more and more nervous. Perhaps it was because he was too nervous, but he suddenly felt his hands and feet turn cold.

Just as the fifth companion passed by, and the evil spirit was still looking back, the young man suddenly rushed out and turned to look at the evil spirit behind him. He roared, "There's a ghost behind us, run!"

His companions, who were looking around nervously, were shocked when they heard this and looked behind them.

It was only then that they realized that there was a twisted black shadow behind them, baring its fangs and brandishing its claws at them.

The young man saw that the evil spirit seemed to be about to pounce on him, so he quickly opened fire and then disappeared into the corner of the passage with his companion.

Chapter 555 Missing case, ancient tomb and wild building

At the entrance of the Holy Dragon city's underground city, Tang Zhen slowly walked out.

Just as he finished deploying the three interdimensional passages and was about to continue studying the functions of the warship tower, he unexpectedly received a message.

The six transmigrators had mysteriously disappeared in the wilderness. After a careful search, they were found to have entered a hidden building.

The Holy Dragon City cultivators in charge of the search concluded that this building was very dangerous after their investigation, so they did not rush in, but reported the results of their investigation directly.

According to the information he had gathered, the six transmigrators had often gathered together some time ago and acted very mysteriously, as if they were planning something.

After an in-depth investigation, it was proven that the six transmigrators had accidentally discovered a treasure map, and the location of the treasure was that wild building!

Tang Zhen looked at the cause and effect of the matter. He pondered for a moment before turning around and heading to the soul transfer array in the back Valley.

He checked the magic circle in the teleportation circle that temporarily accepted and stored souls and confirmed that it did not receive the souls of the dead hosts, which meant that the six transmigrators might not have died.

According to the video information sent back by the cultivators of the Holy Dragon City, Tang Zhen realized that this wild building was not simple. Therefore, he ordered them not to act rashly and prepared to go to the wild building to take a look personally.

After handing over the work at hand, a pair of wings that flickered with fluorescent light suddenly unfurled on Tang Zhen's back. His entire person soared into the sky.

The speed of the king level cultivator was extremely fast. It didn't take long for Tang Zhen to arrive at the area where the wild building was located.

On the ground, there were a few Holy Dragon City cultivators and more than ten patrol members. They were surrounding the entrance of the building, seemingly waiting for Tang Zhen's arrival.

"Swish!"

A Holy Dragon City cultivator felt his vision blur. Soon after, he discovered Tang Zhen's figure appearing in front of him.

"City Lord!"

The people around him also noticed Tang Zhen and hurriedly stood up to pay their respects.

Tang Zhen waved his hand and asked the leader of the Holy Dragon City cultivators, "No need to be so polite, tell me the specific situation!"

When the Holy Dragon City cultivator heard this, he immediately led the way, leading Tang Zhen into the wild building passage.

"According to our initial judgment, this building has existed for at least a hundred years. Its main body is completely underground, and this is the only entrance.

However, there's a river nearby, and it seems that there's an underground river flowing through the wild buildings. We found some items downstream of the river, and these things are hidden in them."

After saying this, the cultivator took out two pieces of animal skin paper. It was the treasure map that Xiao Li and the others had found!

Tang Zhen glanced at the two treasure maps. The contents were exactly the same. However, there was a huge difference between the Old and New ones.

the interval between these two treasure maps is estimated to be more than a hundred years. Could it be that the foreign cultivator who was trapped here has not died after a hundred years? isn't this too strange? "

Tang Zhen was suspicious. Moreover, he had also discovered a problem. The handwriting on the two treasure maps were different. They were drawn by two different people.

Tang Zhen seemed to have thought of something as he glanced at the passage that had been carefully decorated. He turned his head and asked the cultivator beside him, "Before the transmigrators discovered this entrance, were there any signs of it being touched?"

Hearing this, the cultivator nodded his head with certainty, " we've found the remains of many Wanderers 'items in the surroundings, but they've been here for quite some time. I reckon that many people have been here several decades ago!

Tang Zhen nodded. The two of them continued forward and soon arrived at the end of the tunnel.

A huge mirror blocked Tang Zhen's path, reflecting his figure on it.

this mirror is very strange. I've observed it carefully. Every hour or so, this mirror will change and show the image of the people who have entered.

The cultivator took out a phone and showed it to Zhen Tang.

After clicking on the video, Tang Zhen indeed saw the mirror slowly begin to change. After which, the image of the person who entered the mirror continuously appeared. It was as if the mirror was a camera and monitor.

The cultivator adjusted the progress of the video. The video of Xiao Li and the others entering the building was also shown on the mirror door.

"I'll go in and take a look, you wait here!"

Tang Zhen passed the phone to the cultivator. Without waiting for the cultivator to stop him, he directly put one of his arms in.

The mirror that was originally going to break with a single touch actually did not show any signs of being damaged even after Tang Zhen had stuffed it into his arm. This really caused people to feel extremely surprised.

Seeing this, the Holy Dragon City cultivator shut his mouth and watched quietly from the side.

He was really curious. He didn't know what method the castellan had used to reach his arm into the mirror without damaging it.

The reason why Tang Zhen was able to do this was because after he advanced to the king level, he could turn a part of his body into energy and could easily pass through ordinary solid objects.

This was actually a special characteristic of high-level life forms. If used well, it could even form an undying characteristic!

To put it bluntly, they were similar to spirits like ghosts, but they were a hundred times stronger than ordinary spirits!

From Tang Zhen's point of view, this mirror was extremely strange. It might be a key item that could trigger something. Therefore, Tang Zhen did not plan to destroy it.

He used his energy-formed body to enter the mirror and sensed the aura inside the building. After confirming that there was no danger, Tang Zhen gradually turned his body into energy and slowly passed through the mirror.

After Tang Zhen had completely disappeared, the surface of the mirror was still intact. It was just like an ordinary mirror, reflecting the figures of the Holy Dragon City cultivators.

After passing through the mirror that blocked his path, Tang Zhen swept his gaze over his surroundings and involuntarily let out a cold laugh.

The colorful and strange murals, the strangely shaped artifacts that made one's hair stand on end at a glance, and the bones and skeletons all over the ground all indicated that this was not a good place.

In fact, when Tang Zhen first saw the interior of the building, he was sure that this was an ancient tomb!

He had seen many strange wild buildings, but it was Tang Zhen's first time seeing an ancient tomb wild building. He couldn't help but be a little curious.

The ancient tomb looked a little dilapidated, but one could still see the magnificent scenery of the past. It was obvious that a tomb of this scale was not something ordinary people could enjoy.

After standing on the spot for around half a minute, Tang Zhen looked at the huge stone platform not far away and the huge coffin on it.

Since it was a wild building, there would definitely be monsters. Tang Zhen had already discovered the hiding place of the monsters the moment he entered.

The storage ring on his hand flashed and a high-grade demon weapon with demon killing runes engraved on it appeared in Tang Zhen's hand. It emitted an aura that made people tremble in fear.

This was a weapon that hearthhammer had meticulously forged. Its texture was as resplendent as a top-grade gem, but in reality, it was made from genuine precious metal.

As he continued to study the furnace hammer, his forging level had reached perfection. Therefore, this battle blade could be considered impeccable in both its style and workmanship!

High level mo weapons and equipment were enough to be the most valuable treasures of a normal city, showing how precious they were.

The moment the demonic blade appeared, the metal coffin on the huge stone platform in front of Tang Zhen suddenly bounced open and a blood-red light suddenly spread out.

Immediately after, the sound of metal colliding was heard. A giant zombie wearing blood-red armor stood up straight from the giant coffin.

Chapter 556 The flower raises the zombie, leaving no trace

This zombie was three meters tall, and its skin and flesh were as tough as steel. Its eyes glowed with a cold light, and when it appeared, waves of rancid dark green aura began to spread to the surroundings.

Judging from the aura that this zombie was exuding, it clearly already had the cultivation of a Lord-tier!

In normal wild buildings, there were very few monsters that were higher level than the Lord. At most, there would be Level 4 or 5 monsters.

However, any building that housed Lord-tier monsters would definitely contain tempting wealth. It made sense for the treasure map to say that this place was a treasure trove.

It was merely a Lord-tier monster. How could Tang Zhen place it in his eyes? he could casually crush it to death!

The Zombie's head gently turned. Its eyes that flickered with a blood-red dim light were already firmly staring at Tang Zhen's body.

"Roar!"

A roar came out of the Zombie's mouth, and a huge blood-red saber bounced out of the coffin and fell into the Zombie's hand.

Looking at the style of the blade, it was clearly the same set of weapons and equipment as the armor on the zombie.

Seeing that the zombie jumped out of the giant coffin and pounced towards him, the demon Blade in Tang Zhen's hand casually slashed out and directly swept across the Zombie's neck.

"Pfft!"

This blade seemed to have struck a ball of leather that was folded into countless layers. However, no matter how tough the Zombie's body was, how could it block the demon weapon's battle blade and Tang Zhen's terrifying strength?

A mass of dirty blood was squeezed out of the Zombie's bare neck. It looked as sticky as melted asphalt, and the smell it gave off was unbearable.

The huge head rolled out and hit a long stone coffin next to the stone platform. As the lid of the coffin shattered, a rotten corpse rolled out.

Tang Zhen glanced at the mummified corpse and discovered that its clothes were clearly in the style of loucheng natives. It was completely different from the ancient tomb zombies.

Looking at the surface of the mummified body, it was covered with holes of various sizes, as if it had been pierced by countless sharp objects.

Tang Zhen finally understood why the corpse was in such a miserable state when he looked at the stone coffin that it was in earlier. It was because the stone coffin and its lid were covered with black spikes that were engraved with special runes!

Currently, Tang Zhen could be considered to have quite some attainments in symbols. With a glance, he was able to tell that the effect of this strange and unique symbol was to paralyze the body and prevent blood from coagulating.

The inside of the stone coffin was also engraved with runes, which seemed to be a magic circle that stimulated one's potential and caused illusions. It could make the trapped person fall into an illusion and not die easily from blood loss.

The Wanderers trapped in the stone coffins would bleed continuously and die slowly in pain and confusion.

If one looked closely, they would find that there were small holes at the bottom of the stone coffins. The blood of the unlucky people trapped in the stone coffins had flowed out from these holes.

With a wave of his hand, more than a dozen upright stone coffins exploded instantly, revealing the shriveled bodies inside.

They were all Wanderers and cultivators who had accidentally entered the ancient tomb and wild building. Who knew how long they had stayed here?

Looking at the pained and twisted expressions of the corpses, it was clear that even though they had died in an illusion, the process was still extremely painful.

Tang Zhen stared at those broken stone coffins for a moment. He lifted his foot and stepped on the empty air. It was as though he was stepping on invisible stairs as he walked to the stone platform.

On the huge platform, there was a huge metal coffin, and beside it were two rows of strangely shaped sculptures.

The owner of the coffin had already been killed by Tang Zhen. However, there was still something inside the coffin. It was the culprit that was sucking the Wanderers' blood essence!

When Tang Zhen arrived in front of the coffin, he immediately saw the strange flower that was spread open like a monster's soft jaw. It was laid inside the coffin like a blanket and the petals were covered with sharp thorns that were constantly squirming.

In fact, there were two Lord-tier monsters hidden in the metal coffin. The zombie was one of them, and the strange giant flower was the other!

The zombie from before was wrapped in this strange flower, and it relied on the essence Qi injected by the flower to survive for a long time.

The flower was nourished by the blood of the Wanderers, which flowed from the bottom of the coffin to the bottom of the stone platform and then gathered at the root of the strange flower.

Just as Tang Zhen was sizing up the flower, a trace of obscure mental energy enveloped him. It seemed to want to transfer into his mind and control his consciousness.

it can even create illusions. Interesting!

Tang Zhen intentionally allowed the spiritual energy to invade his spiritual domain. He wanted to see what it wanted to do.

An illusion appeared in front of Tang Zhen's eyes. That mental energy actually wanted him to move the corpse from the upright stone coffin. After which, he would lie down in it and close the coffin lid!

It turned out that this was the reason why the Wanderers had died. They had not been put into the stone coffins by others, but they had locked themselves in there!

It was likely that after Tang Zhen entered it, that mental energy would cause Tang Zhen to mistakenly think that he was in a dangerous situation. After which, he would continue to fight with all his might and unleash all of his life force. In the end, he would become a completely drained corpse.

If they encountered an intruder that the giant flower could not confuse, the zombie would take action, subdue them, and put them into the stone coffin.

In fact, when Tang Zhen entered the wild building of the ancient tomb, the strange giant flower had already begun to confuse Tang Zhen and make him fall into an illusion.

It was a pity that its methods were too low-level and couldn't confuse a King level cultivator. That was why the zombie jumped out to deal with Tang Zhen.

With a thought, the mental energy that had invaded Tang Zhen's mind was directly obliterated. The strange flower in the coffin seemed to have been struck by lightning as it emitted a miserable cry that was like that of an owl.

Tang Zhen looked at the ugly flower with disgust. With a wave of his hand, the flower was instantly crushed and turned into a pool of mud!

A blood-red brain bead appeared in front of Tang Zhen's eyes, emitting a gloomy and strange aura. Tang Zhen played with it for a while and discovered that it was actually a mutated brain bead that had hallucinating effects.

After putting away the mutated brain bead, Tang Zhen checked all the upright stone coffins again, but he did not find Xiao Li and the other transmigrators in these remains.

It seemed that they were not here. Perhaps they had entered the deeper parts of the tomb!

Tang Zhen frowned slightly. He swept his eyes over the dark and deep tomb before continuing to slowly walk forward.

The area of this ancient tomb was very large. After passing through a tomb door, another huge tomb chamber appeared in front of Tang Zhen.

Compared to the previous chamber, the decorations in this one were more luxurious, and the paintings on the walls were more exquisite. The styles of the two were completely different.

If the previous chamber was used to bury generals, then this chamber was used to bury civil officials!

Ignoring the table and the treasures scattered on the ground, Tang Zhen casually picked up a book that was repeatedly folded in half. He opened it and read it.

The contents of this book involved government affairs. Because Tang Zhen didn't know the origin of this building, he only knew a little about it.

After throwing the book aside, Tang Zhen looked at the giant transparent coffin in the middle of the tomb. It was like a transparent container filled with blood-red liquid.

A half-naked body was soaked in the coffin. The upper half was human-shaped, and the lower half was like an octopus. If one looked closely, the two were clearly connected by a thin transparent thread.

Within the blood, there were countless tiny worms squirming in and out of the body's nose and mouth.

More than a dozen human-shaped puppet-like objects surrounded the transparent coffin in an orderly manner. They were holding ancient-looking long swords in their hands and seemed to be used as guards.

Tang Zhen saw the large number of bones around the puppet with a glance. The red-colored liquid in the transparent coffin was clearly the fresh blood that the puppet had poured into it!

It's another strange secret technique that nourishes blood in an attempt to achieve immortality. This ancient tomb is really evil!

His voice had just sounded when those puppets suddenly surrounded him. However, they were shattered into pieces by a casual slash from Tang Zhen.

The stitched monster in the transparent coffin jumped up, and the tentacles under its body wriggled out of the coffin. It seemed to be malnourished to the limit. Its upper body was only skin and bones, its face was like a skeleton, and there was a crown-like bulge on its forehead.

Tang Zhen was anxious to find Xiao Li and the others. He did not have the mood to waste time on these monsters. After killing this monster in a few moves, he entered the next tomb.

However, there was still a doubt in his heart. Xiao Li and the others could not fly, so why did he not see any traces of them from the beginning to the end?

Chapter 557 Tomb owner Yun Xi, reincarnation magic mirror

They arrived at another tomb. Tang Zhen discovered that this place was actually like a garden. There were flowers, trees, and even rockery and flowing water. It was truly a pleasant scenery.

At the top of the tomb, there were also dazzling treasures embedded in it, imitating the bright moon and the starry night sky. It looked extremely real.

Tang Zhen finally saw the transmigrator he was looking for in this tomb.

At this time, they were sitting in a building that looked like a Pavilion. They were lying on the table and writing something expressionlessly. They did not notice Tang Zhen's arrival at all.

Tang Zhen was not in a hurry to go closer and check. Instead, he swept his eyes over the garden they were in and a strange expression flashed across his eyes.

Although Tang Zhen did not recognize the various plants in the tomb garden, he knew that they were definitely not ordinary. Even though he was over ten meters away, he could still smell waves of medicinal fragrance. He felt relaxed and happy after taking a breath.

If he could figure out the medicinal effects, as long as he mixed it slightly, he could definitely make an extremely effective medicine!

In addition to these strange plants, there was also a strange tree that looked like a giant willow growing in the garden. However, its entire body was shining with a fluorescent light. It covered the entire garden and kept swaying as if it was being blown by a gentle breeze.

In the middle of the willow tree's trunk, there was a huge tree hole. A coffin carved with flowers, like white jade, could be faintly seen.

If one looked closely, they would find that there was also a row of coffins around the giant tree, which were faintly visible under the cover of flowers and plants.

If it wasn't for the fact that it was built in a tomb and there was a pile of coffins on the side, this garden could really be considered an extremely beautiful scenery. It would definitely make one forget to return.

However, from Tang Zhen's point of view, this garden was filled with a ghostly aura and was definitely not a good place to go.

If one's strength wasn't enough, one would definitely not be able to return!

Tang Zhen walked along the Jade path in the garden and arrived at the gazebo. He swept his gaze at the items that little Li and the rest had written. They were indeed treasure maps.

Every time they finished drawing a piece, someone would put it away and stuff it into various containers, then throw it into the small river beside them.

The seemingly calm but slowly flowing river carried these "drifting bottles" out of the building, waiting to be discovered by accident.

After seeing Tang Zhen's arrival, Xiao Li stood up and bowed to him.

I'm Yunxi. May I know how to address you?"

Looking at her speech and behavior, she was completely different from the original Xiao Li. She was a completely different person.

Tang Zhen did not reply to her question. Instead, he slowly sat on a chair carved from white jade and asked with a smile, "First, tell me, is this body useful?"

Xiao Li chuckled when he heard this. He also sat opposite Tang Zhen with an apologetic expression.

Sir, your strength is astonishing, so I naturally don't dare to hide it. This body is indeed strange. After I borrowed it, I didn't feel any rejection at all!

Tang Zhen nodded. He secretly thought that he must be a little more cautious in the future in order to avoid having his body being taken over by a mysterious spirit body.

Fortunately, not all hosts were like this. Only the body cultivated by the mother tree had such a drawback, and other bodies would not have such a condition.

"So you're saying that the things on the treasure map were all made up by you to trick people into coming here to die, right?"

Tang Zhen's expression was slightly gloomy when he said this. The corner of his mouth carried a trace of a cold smile.

Sir, you're wrong. If someone can really bring Yunxi out of here, I won't care about my worldly possessions. I'll give you the treasures on the falling star platform with both hands!

After guarding this ancient tomb for hundreds of years, Yunxi really can't stand the loneliness, so I had to do this. I only hope that an expert can solve the strangeness and save me from this sea of suffering!"

After saying this, Yun Xi pointed to the high platform at the side with a sincere expression.

Tang Zhen had already seen the so-called falling star platform and the treasures that were piled up like a mountain. Most of them were gemstones and gold. There were also some weapons and armors.

It seemed that the world in which the wild building was located was similar to the ancient times of his original world. Both of them regarded these yellow and white objects as a symbol of wealth.

Unfortunately, other than those gemstones with special abilities, Tang Zhen really didn't take a fancy to ordinary things.

those things are useless to me. Just tell me directly, where have you taken the souls of these bodies?"

At this point, Tang Zhen glanced at Yun Xi and said coldly, "You'd better tell me the truth. Otherwise, if anything happens to them, I'll definitely make your soul fly and scatter!"

As soon as he finished speaking, a terrifying aura emanated from Tang Zhen's body, causing Yun Xi's body to tremble. He took a few steps back before he could stabilize his body.

The five people beside him screamed at the same time, and their bodies fell to the ground.

After the bodies fell to the ground, five white figures quickly sprang out from the bodies and hid behind Yun Xi in a panic. They looked at Tang Zhen with fear.

From their actions, it was clear that they respected Yunxi, so whenever they encountered danger, they would run behind her to hide.

it's just a level five spirit monster. It doesn't have intelligence and only has instincts. No wonder you feel lonely!

Tang Zhen swept his gaze over the few spirit body monsters. His face carried a trace of disdain.

Yun Xi's face was pale, and there was a trace of bitterness in his eyes. He slowly walked in front of Tang Zhen and bowed deeply.

Yun Xi stood up and looked at Tang Zhen with tears in her eyes. please don't blame them, Sir. They were all my maids back then. They were buried with poison at the age of their youth. They were all people with bitter lives!

Tang Zhen impatiently waved his hand and coldly said, cut the crap. Tell me, where did the souls of my residents go? "

their souls are all trapped in the reincarnation mirror. It's a secret treasure that's very strange and unpredictable. It won't be easy to save them!

"Reincarnation mirror, what is that? Also, tell me everything about your background. Don't hide anything!"

Tang Zhen suddenly recalled the strange mirror door that was blocking the entrance of the passageway after hearing the three words "reincarnation mirror." A trace of understanding flashed across his heart.

The mysterious disappearance of Xiao Li and the others was definitely related to the reincarnation mirror!

Yun Xi quickly explained the origin of the reincarnation mirror.

It turned out that Yunxi was a Princess from a country in another world and had been doted on since she was young. However, at the most beautiful time of her life, she suddenly encountered a great disaster.

There was a sudden coup in the country she was in, and the dynasty changed overnight. She was also reduced from a Princess to a prisoner.

In order to avoid being humiliated, Yun Xi had already prepared to commit suicide. However, she did not expect to force the medicine down her throat. Her entire body was as soft as mud. She simply wanted to die!

However, these days did not last long before Yun Xi was suddenly brought to the ancient tomb and stuffed into the White jade coffin in the belly of the giant tree.

As for the civil and military officials in the other two coffins, Yunxi had never seen any of them, let alone know their origins.

Yun Xi was muddleheaded from the beginning to the end and lost consciousness not long after. When she woke up again, she realized that she had already turned into a ghostly spirit.

As for why she was the only one in the wild building with complete memories and a cultivation level of a two-star feudal lord, Yun Xi was even more at a loss.

Therefore, it was impossible to figure out the origin and use of this strange ancient tomb from Yun Xi!

However, Tang Zhen did not care about this at all. He did not care about what kind of sorcery the ancient tomb's builder was up to or why he came to the tower world after it was suddenly destroyed. He was only interested in the reincarnation mirror that Yun Xi had mentioned.

The reincarnation mirror was actually a crystal sculpture the size of an adult. It had four mirrors in four directions and was once one of the secret treasures of the country where Yun Xi was located.

This reincarnation mirror could project four physical mirrors across space. Within a thousand meters, the position could be set at will. It could be set individually or stacked together.

Of the four mirrors of the reincarnation mirror, two of them had teleportation abilities. The first mirror was connected to the first General's tomb. As long as one broke the mirror, one would enter the general's tomb.

The second mirror was connected to the tomb of the Civil official, and he also needed to break the mirror to enter.

As for the third and fourth mirror, their abilities were a little strange.

If one entered the reincarnation mirror from the third mirror, their body and soul would be separated. Once the soul entered the reincarnation mirror, the body would appear near the reincarnation mirror without the intruder knowing.

The intruders' souls kept wandering around the third side of the crystal, repeating something that they themselves could not notice.

As for the fourth mirror, it was said to be connected to an unknown, mysterious space. No one who had entered it had ever returned alive!

Chapter 558 Reincarnation of death, hope of rebirth

In the garden Pavilion of the ancient tomb, Tang Zhen listened to Yun Xi's story and nodded slightly.

This woman's fate was quite tragic. First, she was buried alive in this ancient tomb. Then, she inexplicably entered the tower world and endured hundreds of years of loneliness and coldness.

This feeling was certainly not good. It was commendable that she had not gone crazy under such circumstances.

Inadvertently, Tang Zhen suddenly thought of the Queen of the flashing gold race. She was also a sad woman and had some similarities with Yun Xi.

With his current ability, he could definitely help the Queen of the flashing gold race and give her a chance to walk under the sun again.

Back then, Tang Zhen carefully kept the brain of the Queen of the flashing gold race because any monster with complete intelligence would have its soul hosted in the brain. The physical body was just a tool for it to move.

Placing her brain into another body and supplementing it with special methods, she could be completely resurrected.

However, there were very few of these special wild monsters. Tang Zhen had only seen a few so far. The Queen of the flashing gold race was one, lingxu Zi was another, and Yun Xi was another.

The Holy Dragon city's soul lodging array actually used a similar method, but it was more perfect and brilliant.

The technology of the glittergold race had many merits. The Holy Dragon City had benefited a lot from it. Giving the Queen of the glittergold race a chance to be reborn was also a form of repayment. He could also get more good things from her.

Tang Zhen could also give Yun Xi a similar opportunity.

After throwing away these thoughts, Tang Zhen looked at Yun Xi and said, "From your description, it's obvious that the reincarnation mirror is in the ancient tomb. Take me to see the real thing!"

Yun Xi nodded and walked out of the garden first. She led Tang Zhen to the end of the tomb.

It turned out that at the end of the tomb, there was a memorial archway building built against the wall. At first glance, it looked ancient, but upon closer inspection, it was overflowing with yin energy.

There was a small square in front of the building, and there were strange statues in each of the four corners. They had three heads and six arms, and looked extremely ferocious.

Yun Xi pointed at the object in the middle of the square and said to Tang Zhen, "That is the reincarnation mirror. Once a spirit gets close to it, it will be sucked in by the fourth mirror."

Tang Zhen waved his hand, indicating that Yun Xi did not need to come closer. He then walked into the square alone.

The reincarnation mirror was about two meters tall and was made of a black crystal Jade. Its surface was covered with strange runes and patterns. If one looked at the reincarnation mirror for a long time, one would feel as if their soul was being sucked into it.

The four mirrors were polished to the point that they could reflect people, and the figures reflected in them gave off a ghostly feeling. Ordinary people would have the thought of escaping with a single glance.

Tang Zhen wasn't in the mood to look at the mirror. Instead, he carefully observed the scene in the mirror. As expected, he saw the figures of Xiao Li and the others in one of the mirrors.

At this time, Xiao Li and the others seemed to be advancing in the tomb. It was obvious that they were all very nervous and constantly looking around. The last transmigrator was about four or five meters away from them.

A black shadow suddenly cut into the team and changed into the same appearance as the last transmigrator. He shouted at Xiao Li and the others.

Xiao Li and the others were shocked. They turned around in unison. At this moment, the transmigrator standing a few meters away suddenly turned into an evil ghost. Xiao Li and the others were so frightened that they screamed in unison.

The next step was for Xiao Li and the others to run away with the transmigrator that the black shadow had turned into, leaving their companions who had turned into evil spirits behind.

When Xiao Li and the others disappeared, the transmigrator who had turned into an evil spirit stood still and slowly returned to his original state. Then, he hid in the corner where the black shadow had been hiding.

When Xiao Li and the others passed by again, the transmigrator suddenly jumped out and pointed out that the companions behind them were evil spirits. Then, everyone began to run for their lives again.

This scene kept repeating, as if he had fallen into Samsara without knowing it.

If one looked closely, they would find that Xiao Li and the others were all illusory. Every time a similar scene was repeated, their bodies would become a little dimmer.

Obviously, this repeated scene was not harmless, but constantly consuming the soul power of Xiao Li and the others. One day, their soul power would be completely consumed.

As for the soul power that had disappeared, it was likely that it had been absorbed by the reincarnation mirror.

In fact, the moment Xiao Li and the others broke the mirror door and entered the ancient tomb, they were already dead. They just didn't know it.

The bodies of the Wanderers who had broken the third mirror door had been borrowed by Yun Xi. He had drawn treasure maps continuously until their bodies had completely rotted.

None of the Wanderers who entered the other three mirror doors were spared either. They died in different ways.

As for which mirror door they would enter, it would depend on the time they entered. However, on second thought, it didn't make a difference. They would die anyway!

Since the situation here had already been investigated, there was no need for Tang Zhen to waste any more time. After he figured out the method to close the reincarnation mirror, Tang Zhen directly kept it in his storage space.

With the disappearance of the reincarnation mirror, the mirror door that blocked the entrance of the tomb passage also disappeared, revealing the true appearance of the tomb.

The Holy Dragon City cultivators guarding the entrance of the tomb saw that the mirror door had disappeared and the Headless Zombie had fallen to the ground. Tang Zhen had not come out for a long time and could not help but be worried.

After a short discussion, the Holy Dragon City cultivators gritted their teeth and charged in.

After passing through two tomb chambers, he did not see the figure of a monster. Fortunately, he finally saw Tang Zhen, who was standing with his hands behind his back, in the third tomb.

"Greetings to the city Lord!"

A few Holy Dragon City cultivators vigilantly glanced at Yun Xi beside them and bowed to Tang Zhen with a hint of inquiry in their eyes.

"Have the city send some people over to clean this place up!"

After Tang Zhen gave the order, he turned to look at Yun Xi.

“Once this building is destroyed, you probably won’t be able to live for long. I have a way to help you get out of this cage and regain your freedom. Are you willing to do it?”

Yun Xi was overjoyed and quickly nodded to show his agreement.

“I have to tell you that if you want to use this method, you have to die first. Do you still dare to do it?”

Yun Xi hesitated for a moment, then nodded firmly again.

“I want your life. Aren’t you afraid that I’m lying to you?” Tang Zhen laughed when he saw this.

Hearing this, Yun Xi laughed bitterly and showed a trace of sadness. “Don’t tease me anymore, Sir. I’ve always had a bitter life. First, my country was destroyed, and then I was buried alive in an ancient tomb, enduring hundreds of years of loneliness.

With Sir’s cultivation, it’s easy to take Yunxi’s life. There’s no need to deceive her in such a way!”

At this point, Yunxi knelt on the ground and sobbed, “if I can leave this place and start a new life, I will never forget your kindness!

As soon as he finished speaking, there was no more movement from his body. Then, a woman in white slowly floated up from Xiao Li’s body.

The woman was beautiful and tall. Her eyes were filled with tears, but the corners of her mouth were slightly curled up with a trace of relief.

Under Tang Zhen’s gaze, Princess Yunxi’s spirit body shattered inch by inch, turning into a wisp of green smoke and disappearing completely.

One of the brains was sucked into Tang Zhen’s hand and placed into an exquisite box. The other brain in the box belonged to the Queen of the flashing gold race.

Tang Zhen kept the box and strode out of the ancient tomb.

Chapter 559 The mirror world, infinite images

After walking out of the ancient tomb, Tang Zhen did not return to Holy Dragon City directly. Instead, he took out an ancient book and started reading.

Tang Zhen had never personally operated on the matter of extracting the soul from the brain and lodging it in the new body. Although he had a great deal of confidence, he still needed to eliminate the possible dangerous factors as much as possible.

A few hours later, a row of cars sped over from the distance and stopped at the entrance of the ancient tomb.

As the cars stopped, a large group of Holy Dragon City residents jumped out of the cars and followed the Holy Dragon City cultivators to clean up the wild buildings.

Baskets of precious treasures were carried onto the carriage and poured inside like sand and stones. No one took a second look.

To the natives of Lou city, the gold, silver, pearls, and Jade couldn't attract their attention at all. Instead, the weapons and armors were carefully placed by the residents.

The ancient tomb was neither big nor small, but it was Quite time-consuming to clean it up, especially the precious herbs. All of them were handled by the transmigrators who came with the carriage to avoid damage during the transplantation process.

After receiving the wild building foundation stone from the Holy Dragon City cultivators, Tang Zhen directly flew back to the Holy Dragon City under everyone's gaze.

After returning to the Holy Dragon City, Tang Zhen didn't return to the main tower. Instead, he went to the spiritual race's inheritance Hall on the mountain peak and found lingxu Zi, who was making storage equipment.

They took out the reincarnation mirror and began to study it carefully.

This reincarnation mirror was quite mysterious and involved the area of space transmission. It must not be operated carelessly to avoid unnecessary losses.

Lingxu Zi had deep attainments in runes and spatial spells. In the entire Holy Dragon City, only he could communicate with Tang Zhen in this area.

what's the use of the runes? " lingxu Zi's interest was piqued when he saw the reincarnation mirror that Tang Zhen had taken out. He kept circling the reincarnation mirror and studying the runes.

From time to time, the two of them would put forward their own ideas, then discuss and analyze, and finally formulate a more stable plan.

That was to have a cultivator with extremely strong soul power enter the space where the third mirror was and bring Xiao Li and the others out.

After thinking about it, only Tang Zhen would personally take action in this matter. It might not be safe if it was someone else.

Since he had already made up his mind, there was no need to hesitate. If the souls of Xiao Li and the others who were trapped in the mirror world disappeared, it would be too late!

Then, lingxu Zi activated the reincarnation mirror and projected the third mirror door.

Tang Zhen casually smashed the mirror that was reflecting his own figure as he looked at the lonely figure standing in the middle of the hall.

A large door appeared out of thin air, revealing a ghostly, wild ancient tomb.

Tang Zhen immediately felt a strange force attack him after he stepped inside. It seemed to want to pull his soul out.

Once Tang Zhen was unable to resist this power, his soul would be trapped in this mirror world and his body would appear beside the reincarnation mirror.

Fortunately, although this power was strange, it was unable to truly extract Tang Zhen's soul. It also allowed Tang Zhen to enter this mirror world with his physical body.

After confirming that his body would not be affected, Tang Zhen began to observe the surrounding environment.

The tomb passage in front of him was similar to the ancient tombs and wild buildings he had seen before. The difference was that the tomb passage was very long and seemed to have many forks.

Releasing his mental energy to sense, Tang Zhen discovered that his surroundings were actually an empty space. The things he saw in front of him were merely illusory shadows.

He reached out and touched the walls of the tomb beside him. As expected, he passed through them easily. He did not feel like he was touching anything at all.

In this place, physical bodies could pass through the non-existent walls, but spirits couldn't. Perhaps this was one of the opposite characteristics of the mirror world.

It could even be said that in this world, little li and the others were humans, while Tang Zhen was a ghost!

After roughly understanding the characteristics of the mirror world, Tang Zhen began to look for traces of Xiao Li and the others. However, after walking around, he found nothing.

From the image in the mirror, Xiao Li's soul and the others were still here, but why had they disappeared?

When he thought of the characteristic of the mirror's reflection, Tang Zhen faintly had a guess in his heart. Could it be that there was more than one mirror world and it was constantly reflecting?

It was like two mirrors facing each other. If one were to be in the middle, one would see countless figures of oneself.

After thinking of this possibility, Tang Zhen slowly walked towards the wall and directly passed through it.

After passing through the mirror world, they saw a row of endless Mirror Worlds in the dark void.

They were like eerie castles, quietly standing in the darkness.

Tang Zhen sighed when he saw this. The strangeness of this mirror world far exceeded his imagination. It would not be an easy task to find little li and the others in this world.

If he wanted to leave this mirror world, he would have to leave through the mirror world that he entered. If he couldn't find the entry point, then he wouldn't be able to return to the real world.

After marking this mirror world, Tang Zhen began to shuttle back and forth in the mirror world at lightning speed.

Numerous Mirror Worlds flashed past behind Tang Zhen. In a short period of time, he had already passed through thousands of Mirror Worlds. Unfortunately, Xiao Li and the others were not there. He did not know which mirror world they were in.

Fortunately, this mirror world was not infinite. Tang Zhen could already see the edge of it. There were probably hundreds of Mirror Worlds left.

Just as Tang Zhen passed through one mirror world and planned to head to the next one, he discovered that the mirror world in front of him was slightly different.

Compared to the other dim Mirror Worlds, this mirror world had an undetectable amount of soul power.

Tang Zhen's heart was filled with joy as he directly entered. Sure enough, he saw Xiao Li and the others who were looking around with guns in their hands. There was also one person walking at the back of the group.

The scene before his eyes was extremely familiar. Tang Zhen had even seen the other transmigrator hiding in the dark.

There were six people in total, but there were seven in the mirror world. One of them must be something inhuman.

It was the thing that kept bewitching Xiao Li and the others, making their souls repeat the same scene in the mirror world, constantly consuming their soul power.

At this moment, the hidden transmigrator suddenly jumped out and mixed into the group of Xiao Li and the others. He shouted, "there's a ghost behind us!"

However, this time, there was not only a ghost behind the crowd. Tang Zhen was also there. This caused Xiao Li and the others to be frightened and happy at the same time.

"It's the city Lord!"

Although they were constantly repeating similar scenes under the illusion of the evil ghost, they did not lose their main memories. The appearance of an expert like Tang Zhen had allowed them to finally see hope in their panic.

Just as Xiao Li and the rest looked at Tang Zhen, the evil spirit standing at the back also looked at Tang Zhen. His ferocious face was also filled with excitement.

On the other hand, the transmigrator who had just barged out revealed a trace of fear and doubt on his face. The gaze he used to look at Tang Zhen also carried a faint trace of fear.

After noticing this scene, Tang Zhen naturally knew which fellow was the true evil ghost.

"All of you, come over. I'll take you out of here!"

Tang Zhen beckoned to little Li and the rest. He was prepared to call them over and capture the evil ghost that was hiding within.

However, at this moment, the fellow that Tang Zhen had his eyes on suddenly jumped out. He pointed at Tang Zhen and shouted, "no, he's also an evil ghost. Look at his body!"

Xiao Li and the others looked at Tang Zhen in unison when they heard this. However, they discovered that a part of his body was left on a stone platform at the side of the passage.

It turned out that when Tang Zhen entered earlier, he had unknowingly walked near the stone platform. Because all the items were illusionary images, he did not realize that his body was still inside the stone platform.

Upon seeing this scene, little li and the rest were greatly alarmed. From their point of view, only ghostly spirits could pass through solid bodies. It was very likely that Tang Zhen, whose body was still on the stone platform, was an evil spirit in disguise!

Moreover, their actions could be considered secretive. How could Tang Zhen possibly appear here so coincidentally?

When they thought of this, Xiao Li and the others immediately revealed a look of horror. It was obvious that they had also treated Tang Zhen as an evil Ghost as they shouted and wanted to escape.

Tang Zhen coldly snorted when he saw this. His spiritual force spread out and immediately trapped everyone on the spot in all sorts of strange shapes.

Under the horrified gaze of Xiao Li and the others, Tang Zhen walked in front of everyone and sealed their souls one by one.

The evil ghost that had turned into a transmigrator was trying to break free from Tang Zhen's restraints, but he discovered that he could not do it at all.

The evil ghost involuntarily trembled when it saw Tang Zhen's gaze landing on its body.

Chapter 560 Reincarnation of the soul, the home of the dead

Tang Zhen coldly snorted as he looked at the pale-faced evil ghost. It was so frightened that its entire body trembled once again.

The evil spirit was on the verge of collapse. After so many years, it had once again encountered a powerful being who could enter the mirror world with his own body. It was extremely weak, and it was at the mercy of the enemy.

Under the pressure of the other party's powerful aura, the evil ghost's soul was on the verge of collapse. It had no power to resist at all, nor did it have the will to resist.

"Answer me honestly, what are you?"

Tang Zhen looked at the spirit body that was cowering as he coldly asked.

"I'm the overseer of this place."

As the evil spirit that had transformed into a transmigrator said this, its face slowly turned into a mirror, and its body also turned into a floating spirit.

What was surprising was that the mirror face of the guard kept changing, turning into a man and a woman. His voice was also strange.

"Guardian? Protecting the mirror world? what do you mainly do?"

Tang Zhen frowned. He sized up the protector, whose expression was constantly changing, and inquired.

confuse the souls that enter this place and keep them in a state of fear. Use this opportunity to collect the power of their scattered souls and use it to maintain this mirror world.

“Isn’t it better to kill him directly? why use such a laborious method?” he asked.

“That’s not worth it. You’ll only get a small amount of soul power in one go.

However, if we keep them in a state of fear, they’ll continue to dissipate their soul power, and there’ll be a chance for them to become stronger. That way, we’ll reap even greater rewards!”

Tang Zhen nodded his head in satisfaction when he saw that the overseer’s reply was rather straightforward.

“If I have enough soul power, can I change the appearance of this mirror world?”

it can be changed. You can change into anything you want, but it requires a lot of soul power!

Tang Zhen nodded. He thought for a moment before asking, the mirror world can absorb soul power. Can I increase my soul power in turn? ”

The guard nodded and replied with certainty, ” “I can’t absorb it directly, but I can strengthen my soul power through training!

My previous master did this before. He entered the mirror world himself and trained his soul to become stronger. In the end, his soul even became a physical entity!”

Tang Zhen was surprised when he heard this. The previous owner of the reincarnation mirror was definitely much stronger than him since he was able to cultivate his soul to a physical state.

This was because a soul that had achieved physical manifestation would definitely possess extremely terrifying mental energy!

Tang Zhen was not surprised by this. He was now very clear that other than the tower world, there were countless other strange worlds with countless experts.

It was normal for them to possess a strange item like the reincarnation mirror.

What made Tang Zhen interested was that if the overseer did not lie to him, this mirror world was a good place to improve his strength.

Although Tang Zhen could rely on killing monsters to level up, the improvement of his soul was not obvious. Although the spiritual strength he currently possessed was in line with his cultivation, Tang Zhen was not satisfied with this.

Compared to his powerful body, the strength of his soul was far from enough. Once he encountered an enemy whose soul strength surpassed his, Tang Zhen would be in an extremely dangerous situation!

The strengthening of his spiritual strength had always been something that Tang Zhen had been determined to do. This was because this was related to longevity and transcendence.

Tang Zhen was quite interested after hearing the overseer’s words. He might as well ask clearly before speaking.

“Where did your previous master go? how did he strengthen his soul power?”

The watcher saw that Tang Zhen was very interested in the mirror world. He guessed that Tang Zhen wouldn't kill him for the time being, so he was slightly relieved.

“I don't know where he went either, because he hasn't appeared for many years!

Back when he was still alive, the mirror world was many times larger than it was now. Countless souls were imprisoned here and then reincarnated here.

These souls played countless roles and lived in different Mirror Worlds, no different from real life.

Because only dangerous life-and-death situations could effectively strengthen soul power, the previous owner would bring in some souls from time to time for experiments.

After these souls entered the mirror world, their master ordered them to complete their tasks. If they didn't die, their soul power would continue to increase.

When the strength of these souls increased to a certain level, the strongest of them would be subdued by the previous owner and help him do some secret things!

At the same time, the former master also split his soul into several parts, erased his memories, and acted as an ordinary person. He trained himself in different worlds, so that his soul power would continue to grow.

When these souls grow to a certain extent, he will take them back and then put the newly split souls into them.”

After listening to the overseer's explanation, Tang Zhen gradually understood the use of the reincarnation mirror. While he was surprised, he also discovered that the reincarnation mirror was definitely not as simple as he had imagined.

According to the overseer, when it was at its strongest, it could create countless worlds and accommodate countless souls to live in these Mirror Worlds.

To be able to construct so many Mirror Worlds and absorb so many souls, it meant that the original owner of the reincarnation mirror was definitely a mortal and had extremely powerful strength!

After he disappeared, the reincarnation mirror consumed his soul power continuously, which was why the mirror Worlds kept collapsing and disappearing. The imprisoned souls were also absorbed and consumed by the reincarnation mirror.

In the years that followed, the reincarnation mirror had fallen into the hands of countless people. However, no one had been able to completely control it and could only use a portion of its power.

The reincarnation mirror's last user also didn't discover its magic and placed it in the tomb.

At this point, the overseer in the reincarnation mirror was already extremely weak. Otherwise, he would not have been so easily subdued by Tang Zhen!

After figuring out the magical use of the reincarnation mirror, Tang Zhen brought the overseer and shuttled back and forth, returning to the mirror world where the exit was.

After imprisoning this overseer and ensuring that he could find it at any time, Tang Zhen then shattered the mirror door that had been restored and returned to the real world.

Lingxu Zi, who had been waiting for a long time, asked curiously when he saw Tang Zhen return.

Tang Zhen did not hide anything since he still needed Lingxu Zi's help to analyze and determine the truth of the watcher's words.

At the same time, he also had to study how to use the reincarnation mirror's special ability to improve his soul power.

After studying it for half a day, he basically had a clear result.

There was no doubt that if the reincarnation mirror was used well, it could indeed help the owner to improve his soul power. However, the foundation of the mirror world required soul power and fresh souls to be supplemented from time to time.

It would be extremely difficult for an ordinary person to do this. However, the reincarnation mirror was a very useful item for Tang Zhen.

However, when Lou Cheng started the interdimensional battlefield, he would definitely act as the destroyer and completely destroy the invading foreign world.

Hundreds of millions of lives had been destroyed because of him. Tang Zhen would more or less feel a trace of guilt in his heart. However, if he could keep their souls into the mirror world and continue to complete the cycle of life, Tang Zhen would be much more at ease.

He could build a mirror world and strengthen his soul power. Why not?

Therefore, whether it was to increase his strength or to make plans for the future, Tang Zhen had to completely control the reincarnation mirror.

In the following time, the two studied how to control the reincarnation mirror, how to maximize its effect, and where the fourth mirror LED to.

Tang Zhen only returned to the Holy Dragon City with the reincarnation mirror after the sun had set.

There was no need to rush in controlling the reincarnation mirror, so he put this matter aside for the time being and continued to read books to find information to prepare for Fu Xiaoli, Yunxi, and the others.

After being busy for an entire night, Tang Zhen finally had full confidence. He took out the brains that stored everyone's souls.
