

## **Alternate 641**

Chapter 641 The Barbarian race hiding in all directions

There was no fairness in war, and it was not uncommon for the strong to bully the weak!

The huge difference in equipment, coupled with the rough tactics, made the barbarians in a passive state.

Other than jumping into the Holy Dragon city's troops from the air, they quickly killed some loucheng Warriors who were not good at close combat.

This was also the only result of the Barbarian race's battle. The Barbarian race didn't have any advantage at all during the rest of the time.

The power of their crossbows and blow darts was limited, and their boomerangs and catapults were not that strong either. They could not be used in an evasive situation.

On the other hand, weapons like throwing daggers and javelins could cause some damage to the Holy Dragon City Army, but they rarely caused serious damage.

Moreover, every time this happened, the attackers would be attacked by the Holy Dragon city's concentrated fire, and their bodies would be instantly filled with bloody holes.

In the eyes of the barbarians, the sacred Dragon Legion was like a turtle with an iron shell on its back. They were just a group of hunters with wooden sticks. They could not hurt the sacred Dragon Legion at all!

There was no need to think about the outcome of the battle. The Holy Dragon City would definitely be the winner.

After paying a huge price, the barbarians finally retreated quickly, leaving behind only a ground full of broken corpses.

The sacred Dragon Legion soldiers who had repelled the enemy also let out a collective sigh of relief, at the same time quickly beginning to treat their heavily injured comrades who had not died.

Looking at the corpses of the Holy Dragon city's soldiers on the ground, a trace of shock flashed in the survivors' eyes. They no longer looked down on the barbarians.

These barbarians were indeed worthy of their reputation. After suffering such a huge casualty, they showed no signs of retreat or cowardice. On the contrary, they became more and more courageous as they killed!

To fight against such an enemy, one would undoubtedly have to bear great psychological pressure.

Fortunately, these Holy Dragon City soldiers had undergone strict training. They knew that even if they died in battle, they still had a chance to be reborn. Thus, they gritted their teeth and fought. Even under the barbarians' desperate attacks, no one retreated.

Even the Barbarian race, who were his enemies, could not help but admire him for this!

The Holy Dragon City Army's command center, which had been paying close attention to the barbarian's movements, immediately increased their reconnaissance and clean-up efforts after receiving the battle information.

Although they had previously deduced the situation of the Holy Dragon city's soldiers and the barbarians, the barbarian's close combat ability was still beyond their imagination. This also caused the soldiers of the Loucheng Kingdom to pay a high price for it!

Therefore, in future battles, he must be on guard against similar things, because one such thing was enough!

This encounter also opened the prologue to the battle between the Holy Dragon City and the overseas barbarian tribe. From that day on, there would be several, or even more than a dozen, intense battles every day.

Both sides suffered casualties, but compared to the Holy Dragon city's casualties, the Barbarian side's casualties were quite shocking. Every time they attacked the Holy Dragon City, they would leave behind a large number of corpses.

The heavenly eyes, military helicopters, and a large number of unmanned reconnaissance planes were constantly shuttling in the sky, trying to find the Barbarian enemies who were hiding and ambushing in advance.

If they discovered any traces of the enemy, the heavenly eye would immediately lock onto them, and the Holy Dragon city's attack would follow.

If it was too far away, the heavenly eye would control the laser weapons it carried and snipe the target!

However, this kind of battle in the dense forest had a huge impact on Holy Dragon city's aerial attack power. They could not even display one-third of their original strength.

However, the barbarians were even more miserable. As long as they were exposed and found by the Holy Dragon City, they would be attacked by artillery and assault helicopters, and then they would be surrounded by heavy troops.

They were helpless and could only choose to hide. They didn't even dare to go out to look for food. They tried to wait until night before coming out.

Unfortunately, even at night, the Holy Dragon city's high-tech instruments could still detect their traces, and attacks could land on them at any time, causing these barbarians to suffer.

Time passed by slowly, and in the blink of an eye, half a month had passed.

During this period of time, the initial passion and hatred in the hearts of the barbarians had been gradually replaced by calmness and fear.

They had thoroughly understood the Holy Dragon city's terrifying power. At the same time, they knew that if they had not relied on the dense forest as a natural barrier, they would have long been devoured by the Holy Dragon City until not even their bones were left!

Even the Barbarian tooth tribe leader had admitted in his heart that the Holy Dragon City that had invaded this time was far more powerful than he had imagined. The tower that had invaded a hundred years ago was on a completely different level.

With their current strength, they were no match for the Holy Dragon City.

Therefore, after these scattered barbarian tribes communicated with each other, they immediately adopted the same method, which was to hide as much as possible, waste time with the Holy Dragon City, and then look for an opportunity to launch an attack on the Holy Dragon City.

These barbarians took advantage of their familiarity with the terrain and constantly searched for hidden hiding spots. They were really unexpected and had greatly increased the difficulty of Holy Dragon city's search.

According to the requirements of the tower upgrade mission, if Tang Zhen wanted to successfully upgrade to a level 7 tower and obtain this land, he must kill all the barbarians here. At the same time, he must also kill all the totem spirits and totem Masters.

However, in the face of these rats that were hiding here and there, even if the Holy Dragon City was powerful, they still had no way to deal with them. They could only dig three feet underground and search everywhere.

If this situation continued, these barbarians would be completely annihilated by Holy Dragon City sooner or later. However, no one could guarantee how long it would take.

Although the Holy Dragon City was not in need of time, they could not afford to waste it here. Hence, this matter had to be resolved.

But before that, he couldn't find an effective solution, so he could only play hide-and-seek with these barbarians for the time being.

At the same time, the Holy Dragon City once again increased the number of combatants in the outer sea battlefield, causing the total number of people here to reach 100000!

The Holy Dragon city's mercenary Union also released missions at the right time, encouraging these mercenaries to head overseas and join the ranks of the search for the Barbarian race.

Under the temptation of huge profits, countless mercenary groups began to set foot in this area, searching for the hidden barbarians day and night.

In such an environment, some barbarian tribes that were not well-hidden were discovered one after another. They were then hunted down by the Holy Dragon city's soldiers and mercenaries.

As the search area continued to shrink, more and more barbarians were discovered, and the frequency of fighting also increased.

Under the double-attack of the Holy Dragon City and the mercenaries, none of the barbarians were able to escape successfully. They were all killed and turned into rewards for the soldiers and mercenaries.

The barbarians who were lucky enough to escape the search immediately hid even more when they heard the news. Some of them even stayed in special caves and never came out again.

There was fresh water in these holes, and at the same time, there were some special fungi that could serve as food. This made it so that the barbarians did not have to worry about filling their stomachs. Naturally, they would not run out to seek their own death.

Of course, such special caves were very rare. Most barbarians would find dangerous places to hide in, hoping that the Holy Dragon City Warriors would avoid them.

Unfortunately, regardless of whether it was Tang Zhen's order or the extremely alluring reward, no one had missed out on any of them.

As a result, in those dangerous places, the figures of the Holy Dragon city's soldiers would appear from time to time, blocking the barbarians who hid in them and eliminating them!

One day, Tang Zhen finally received a special piece of news after this continuous search.

It turned out that a group of Holy Dragon city's soldiers had accidentally discovered a Hidden Valley in the process of pursuing the barbarians.

There was only one entrance to the valley, and it was located under the cover of vines. The group of barbarians who had been chased and killed earlier had already entered it.

The Holy Dragon City soldiers followed closely behind, carefully entering the crack, but were surprised to find that there was a whole new world inside.

The most important point was that the soldiers had found a ruin here. After analysis and observation, it was confirmed that this was most likely the ruins of a building with a long history!

Chapter 642 The Feathered Serpent and the ruins

Although he had long known that there were ruins of buildings overseas, Tang Zhen did not expect that he would actually encounter one so quickly!

After all, according to what Situ Yuanzhi had said, the ruins of buildings in the overseas region were extremely rare, and most of them had already been destroyed by the barbarians. There were not even any broken walls left.

And according to the report of the Holy Dragon City soldiers, the ruins of the City Tower discovered this time were extremely complete, and there were not many traces of destruction!

After Tang Zhen learned of this news, he immediately had the impulse to investigate.

Tang Zhen had many doubts in his heart regarding this overseas region. He had a faint feeling that the answers were most likely hidden within these building ruins.

Although Tang Zhen already had a guess in his heart according to the information he had collected, he would not easily come to a conclusion before he found clear evidence.

After all, this kind of matter was not child's play. On the contrary, it was of great importance. It was understandable for Tang Zhen to be a little cautious.

Ten minutes later, Tang Zhen and ten other cultivators from the Holy Dragon City Base boarded the plane and headed straight for the ruins of the building.

During the flight of the plane, the figures of various monsters could be seen from time to time, many of which were in groups.

There were a lot of monsters in the ocean. The barbarians had been fighting with them for countless years, but they could only maintain a relatively balanced state. This showed how difficult it was to deal with these monsters.

It was also the existence of these monsters that limited the development of the Barbarian race. The population had always been maintained at about a million.

It sounded like a large number of people, but the land under their feet was vast and rich in resources. Even if the number of barbarians was several times more, it was enough to support them easily.

In the end, it was because of the existence of the monster that the Barbarian race did not develop and grow without restraint. It also reduced a lot of resistance when Tang Zhen was conquering the overseas lands.

The plane flew rapidly across the vast sea of Trees. From time to time, it would fire its cannons and kill the flying monsters that tried to block its way!

When they passed by a mountain peak, an incomparably huge three-headed feathered snake suddenly charged straight toward the plane that Tang Zhen was on. It seemed as though it wanted to swallow him in one gulp.

This three-headed Feathered Serpent was a three star horde leader and could definitely be considered an Overlord!

It was a pity that this fellow deserved to die. He actually dared to attack the plane that Tang Zhen was in. He clearly didn't realize that there was another two-star King tier on the plane!

In the end, the monster had yet to approach the aircraft when it was firmly captured by the large hand that Tang Zhen had conjured with his mental energy. After which, it was ruthlessly smashed into the dense forest below.

With a loud bang, the three-headed Feathered Serpent fell heavily to the ground. Countless trees were broken under its body, and some even pierced into the body of the Feathered Serpent, revealing the bloody broken branches.

The heavily injured Feathered Serpent did not show any anger or unwillingness. Instead, a human-like expression appeared on its huge head. It was filled with fear, and panic flashed in its cold eyes.

It suddenly jumped up from the ground, ignoring the injuries on its body. It let the blood ooze out from its scales as it charged straight into the depths of the dense forest.

Unfortunately, before it could escape far, a saber with black flames floating around it was shot directly at its head.

It was as if the blade was not hindered at all. It easily pierced through one of the feathered snake's heads and nailed it to the ground.

The remaining two snake heads had different expressions. One of them was filled with sorrow while the other was filled with rage. They both looked up at the sky.

It revealed its huge poisonous fangs. It seemed to have realized that it could not escape and decided to fight to the death.

As a result, this was the last thing the feathered snake saw when it was alive. Then, it felt the world spin around it, and two huge heads rolled and fell into the dense forest.

“A few of you, come here and collect the useful materials from this three-headed Feathered Serpent.”

Following Tang Zhen’s orders, a few Holy Dragon City cultivators quickly came forward and began to deal with the huge corpse of the three-headed Feathered Serpent.

With Tang Zhen’s current strength, the corpse of this three star horde leader level monster was already of no use to him.

However, to the Holy Dragon city’s cultivators, the giant snake’s skin, teeth, brain, and gallbladder were all precious items worth thousands of gold. Any one of them was worth everything an ordinary lord cultivator had.

Therefore, Tang Zhen would kill some similar monsters from time to time and send them to Holy Dragon City.

On one hand, it could reduce the Holy Dragon Legion’s danger and obstacles. On the other hand, it could be treated as a benefit and provided to all the cultivators in the Holy Dragon City.

According to the rules of the Holy Dragon City, as long as the cultivators in the loucheng had enough points, they could exchange for the body materials of these Lord-tier monsters with only a small amount of money.

The purpose of this clearly unprofitable business was to stimulate the Holy Dragon city’s cultivators so that they would continue to cultivate and improve.

These Holy Dragon City cultivators were all Lord-ranked, and their speed was extremely fast. Dealing with monsters was a piece of cake for them.

After dealing with all the gains, everyone boarded the plane again and headed straight for the ruins of the building.

This was an area with lush forests. Compared to other places, the trees here were taller, and from time to time, some rugged and ferocious rocks could be seen between the giant trees.

Huge vines drooped down from the boulders and then spread to the trees, forming a scene similar to a tent canopy.

There were some cute macaque-like animals living here, picking the fresh red fruits on the vines for food.

As the plane flew across the sky, these creatures shrieked in fear and quickly hid among the branches and leaves of the vines. They looked around in horror.

The location that Tang Zhen was heading to was a giant mountain peak that was similarly covered with vines. It was only over ten kilometers away from here.

The plane was extremely fast. In the blink of an eye, it had arrived near the giant mountain. Then, under the guidance of the ground personnel, it quickly landed.

As Tang Zhen's figure appeared, the Holy Dragon City Army's members who had been waiting for a long time immediately cast their gazes over. Their eyes were filled with respect.

After saluting, the team leader of the Holy Dragon City cultivators did not wait for Tang Zhen to ask and began to report the specific situation to him.

It turned out that the Holy Dragon city's search team had found traces of barbarian activity by a small stream when they passed by this place in the early morning the day before.

They immediately laid low and waited. Sure enough, it didn't take long for several barbarians to appear and collect water to catch fish.

According to the experience he had accumulated during this period of time, whenever such a situation occurred, it meant that there must be a barbarian tribe nearby.

The Holy Dragon city's soldiers did not beat the grass to scare the snake. Instead, they continued to wait patiently. They were prepared to follow the vine to the melon and find the old nest of these barbarians. Then, they would call for fire support and blow up their hiding place.

However, no one had expected that a monster would suddenly appear by the river when these barbarians were about to leave. At the same time, it treated these barbarians as food.

One of the barbarians was so flustered that he ran into the hiding place of the Holy Dragon city's soldiers. Naturally, he also discovered the helpless Holy Dragon city's soldiers.

In the end, the monster was shot dead after a fierce battle. Other than a severely injured barbarian who managed to escape, the rest of the barbarians were all killed on the spot.

The Holy Dragon City soldiers pursued relentlessly, but they soon discovered the ruins of a building hidden behind a mountain, following the trail of blood on the ground.

After a simple investigation, the Loucheng Kingdom Warriors felt that the ruins were very dangerous, so they didn't continue to explore. Instead, they immediately reported to the command center and waited for further orders.

This was the whole story. Other than the injured barbarian, who was not found, it seemed that the appearance of the ruins of the building was just an accident.

However, after listening to the Holy Dragon City cultivator's introduction, his brows furrowed slightly, and a cold smile appeared on his lips.

Chapter 643 The trap and the female corpse in the water

This matter seemed to be very coincidental, but if one were to analyze it carefully, one would discover some suspicious points.

He didn't think that the appearance of the city ruins was a coincidence. On the contrary, someone had known about this place for a long time, so they had subconsciously led the Holy Dragon city's Warriors here.

Otherwise, how could the Barbarian race have left such obvious traces for others to discover based on their survival experience in this area?

The other party seemed to be planning to use the ruins of the City Tower to trap the Holy Dragon City, but they did not know that Tang Zhen had been looking for the ruins of the City Tower all this time. It could be considered as a lucky hit, and they had lured the big BOSS behind the scenes, Tang Zhen, out!

He believed that the barbarian's expression would be extremely interesting when they heard this news!

Fortunately, these Warriors did not act rashly after sensing the danger. Instead, they quickly reported their findings, which prevented the barbarian's plot from succeeding.

Otherwise, once the soldiers of the city were caught in it, it would not be long before traces of barbarian activities appeared by the river again, attracting the next batch of Holy Dragon City soldiers to come here.

Moreover, Tang Zhen had already discovered some traces of barbarians in the vicinity through the map view. Their behavior was extremely suspicious and they were obviously observing the situation here.

However, Tang Zhen didn't say what he was thinking. He also didn't point out the location of the Barbarian spies.

For a cultivator of his level, this kind of underhanded scheme could not cause him any harm at all.

If those barbarians were still reckless and wanted to plot against him, Tang Zhen would naturally not let them off. After all, this was just a casual matter.

The question he was most concerned about now was whether there was anything he wanted in the ruins behind the mountain.

After ordering everyone to be on high alert, Tang Zhen led the ten Holy Dragon City cultivators and followed the crack in the rock that looked like a line in the sky, slowly entering the interior of the giant mountain.

Earlier, Tang Zhen had already completely scouted out the surrounding terrain through the map's view. He knew that this ruined building was located in the middle of a few huge mountain peaks.

Because of the cover of the giant vines on the peak, it was extremely difficult for outsiders to discover it, and thus it was preserved to this day.

Even if they were close, they would still be unable to enter if they did not find the entrance.

Before the tower was destroyed, it must have used the mountain as a barrier to resist the invasion of monsters and enemies.

In this regard, the layout of the city ruins was very similar to the Holy Dragon City, but it was far less vast than Holy Dragon City.

After all, the mountains around the Holy Dragon City were the products of Tang Zhen's hard work. The mountains in the ruins of the city should be natural. There was simply no comparison between the two.

They walked along the narrow and slippery crack. After about ten minutes, the area in front of them finally opened up.

A huge ruined city appeared in front of everyone. It stood alone in the open space between the valleys, looking a little mottled and dilapidated.

The sunlight that passed through the vines scattered on the ruins of the building, making the green moss even more verdant.

Countless vines drooped down from the sky, like a haphazard curtain of beads, directly hovering above the ruins of the building.

The exterior of the building ruins resembled a Western Castle. In some places, there were sculptures of various strange creatures baring their fangs and brandishing their claws, looking very lifelike.

If the ruins of some buildings were not exposed to external forces, it was very likely that they could be preserved for thousands of years.

This was the case for the ruins of the City Tower in front of him. Because it existed in the middle of the valley, it had never been destroyed by the outside world, which was why it was so intact!

Although it was called a ruin, it actually looked no different from an intact building!

In the square in front of the building, there were bones and the remains of weapons and armors scattered everywhere. However, most of them were covered by moss and weeds, giving people a sense of desolation and destruction.

Ever since Tang Zhen saw the ruins of this building, he had a rather uncomfortable feeling in his heart. It was as if there was something that he was extremely disgusted with hidden inside.

Although he didn't know where this feeling came from, Tang Zhen still didn't dare to let his guard down. This was because after he observed the exterior and details of the building ruins, he discovered that the building didn't seem as simple as it looked.

When he first heard the news, he thought this place was the ruins of a low-level city, but now it seemed like he was wrong.

If Tang Zhen's estimation was not wrong, the city ruins in front of him was definitely a top-notch city before it was destroyed. It might even be a national-level city!

Under normal circumstances, the area of a national-level city would be extremely large, and the number of residents would be uncountable.

However, there were exceptions to everything. Some special races had a small population, and some city Lords didn't like to be noisy when there were too many people. This led to their city being very small, and the number of residents was pitifully small.

But even so, it didn't affect the strength of these towers at all. In fact, the less residents a tower had, the more terrifying its strength was.

The reason was simple. Since the other party could complete the advancement quest with so many people, it meant that their strength was definitely beyond imagination!

It was no exaggeration to say that one could fight against a thousand!

Therefore, when he encountered this strange Lou Cheng, it was best to stay as far away as possible and avoid contact with him as much as possible. This was the right way to protect himself.

At this moment, Tang Zhen was repeatedly sizing up the ruins of the City Tower. At the same time, he stepped on the square under his feet and slowly approached. However, a thought was rapidly spinning in his heart.

What exactly happened back then that caused this extraordinary building to be reduced to ruins without suffering much damage?

Where did the residents go? were the scattered bones in the square their remains?

The area of this Plaza was not small. When Tang Zhen passed by a pool in the Plaza, he suddenly stopped.

The pool was beautifully built and the material was like a resplendent gem. Even though it was covered in vines and dust, one could still see the luxurious style of the past.

Tang Zhen did not pay attention to the material of the pool. Instead, he was paying attention to the numerous corpses floating in the pool.

However, compared to the decayed bones in the square, the corpses in the pool did not decay and still maintained their appearance.

His gaze stopped on a corpse and did not move for a long time, but a faint cold light flashed in his eyes.

The corpse should have been a woman when she was alive. She looked similar to a human, but the difference was that she had a pair of translucent wings on her back. The top of her head was covered with colorful feathers, like a crown made of feathers.

At this moment, half of its head was submerged in water, revealing only its palm-sized beautiful little face. Its skin was pale, and its eyes were tightly shut. Its lips were purple to the point of turning black.

Rust and dark green algae had already covered its body and face underwater, giving it a sinister feeling.

Her wide white robe was now loose and fluttering in the water, revealing her half-covered graceful body.

Tang Zhen's eyes were fixed on the corpse. After a full minute, he suddenly raised his hand and gently pointed at the White-clothed lady's corpse.

A cold light rose from Tang Zhen's waist. It was as fast as lightning as it pierced straight towards the middle of the corpse's brows.

It was also at this moment that the white-robed woman's corpse suddenly opened its eyes, revealing a pair of blood-red eyes that were filled with madness and ferocity.

It let out a sinister laugh and instantly sank into the water like a fish in the water, avoiding the attack that Tang Zhen had launched.

When it disappeared, the corpses floating in the pool actually stood up at the same time. Their bodies were wrapped in seaweed. Their feet stepped on the water's surface and directly rushed toward Tang Zhen's position.

The originally calm pool was suddenly filled with waves. Pairs of pale hands wrapped in seaweed reached out of the water and scratched in the air.

The originally quiet Valley was immediately shrouded in a gloomy and terrifying atmosphere!

Chapter 644 The origin of The Woman in White (1!

The sudden change immediately set off alarm bells in everyone's hearts.

However, no one showed any signs of panic. Instead, they calmly took out their weapons and prepared for battle.

They did not allow Tang Zhen to reject as they guarded him behind them. They stared intently at the swollen corpses that were walking over on the water. At the same time, they were also paying attention to their surroundings to prevent any other changes from happening.

At this moment, a woman's laughter seemed to ring out in everyone's ears. It seemed to be very happy, but it was also abnormally sinister.

hehehe, finally, someone's here. Hurry up and stay with me. I'm so lonely, Huahua.

The sound was intermittent, as if it was coming from all directions. However, if one looked carefully, they would find that the sound was coming from the mouths of these corpses.

Although the corpses were standing and walking, they were clearly zombies. Their joints were as stiff as iron, and their mechanical expressions when they spoke looked extremely strange.

The cultivators of the Holy Dragon City looked at each other. They understood that the other party's methods were very strange and had to be on guard.

At this moment, there were already dozens of corpses that pounced over ferociously, bringing with them a nauseating corpse stench.

For the natives of Lou city, ghosts, monsters, zombies, and the like were just a race that leaned towards the spiritual body type. As long as the method was right, they could also be easily killed.

Unless the enemy's strength was far beyond their own, Lou Cheng's cultivators would not feel any fear when facing these spirits.

Therefore, when they were killing these zombies, their actions were extremely ruthless, often cutting them in two!

It was also at this moment that Tang Zhen stopped his subordinate's actions. He looked at the pool and coldly snorted.

"You actually dare to play tricks in front of me. I think you're really tired of living!"

As soon as he finished speaking, Tang Zhen raised his hand and swept it forward. A terrifying aura that made the Holy Dragon City cultivators behind him change their expressions suddenly burst out at this moment.

The laughter from before seemed to have seen a ghost at this moment, as it let out a shrill cry.

"BOOM!"

An explosion was heard. The huge pool immediately began to wreak havoc like a raging river. The corpses that were originally rushing towards Tang Zhen and the others actually exploded into pieces in an instant, and fell all over the pool.

An indescribable stench began to spread in all directions, making people want to vomit.

At this moment, a white figure shot out of the mist and ran towards the ruins of the building like a madman.

"If you want to escape, come back obediently!"

Tang Zhen let out another soft snort. His body suddenly disappeared from his original spot. When he reappeared, he was actually in the path that the White figure was taking.

Looking at The White Shadow again, it was the white-robed woman who had just sunk into the water!

When The Woman in White saw that her way of retreat was blocked, she couldn't help but exclaim. Her body strangely stopped in the air.

At the same time, the White-clothed woman opened her mouth wide and spat out a foul-smelling sewage that headed straight for Tang Zhen's body.

Just as the dirty water was about to touch Tang Zhen, a protective barrier suddenly appeared and blocked the dirty water in midair.

After being reflected by the protective shield, the dirty water scattered on the ground, and countless small insects were exposed.

They wriggled and struggled on the ground, secreting extremely corrosive acid, burning the stone slabs on the ground into smoke.

In fact, before she had launched her attack, the White-clothed woman already knew that the sewage water was unable to do anything to Tang Zhen. Her actions were merely to buy time for him to escape.

Just as Tang Zhen was blocking the dirty Water and Planning to capture this white-clothed woman with a distorted face, two black lights suddenly shot out from the ruins of the building and headed straight for his back.

city Lord, be careful!

The Holy Dragon City cultivators at the side were already on high alert, so when the black light appeared, they immediately warned loudly. At the same time, they threw a Jade token made of spiritual Jade into the air.

This Jade token appeared behind Tang Zhen before the black light arrived and suddenly exploded.

A pure white and holy light appeared and instantly transformed into a huge white jade barrier, blocking the attack of the black light.

However, after blocking the attack of the black light, the huge white jade barrier also shattered, turning into countless streams of light and disappearing.

“Bang Bang Bang!”

A burst of rapid gunfire rang out. Two Holy Dragon City cultivators with rifles locked onto a window above the ruins of the building.

If one were to take a closer look, one would discover that two strange figures had actually appeared at the window. They were just like ghosts as they looked at Tang Zhen’s position with dark and cold eyes.

The two figures were both women. One was wearing a red robe, while the other was wearing a black robe. Although they were extremely beautiful, they were shrouded in a gloomy aura.

The rifles used by the Holy Dragon City cultivators were all specially modified. Even if an elephant was hit by a bullet, it would be instantly smashed to pieces. Its power was definitely not to be underestimated.

Therefore, when the bullets hit them, the two women didn’t dare to be careless. They immediately dodged from the window and went to God knows where.

A large crater immediately appeared near the window where the bullets swept through. Even the window was directly hit with a large hole.

Seeing that the two women had disappeared, the Holy Dragon City cultivators did not give chase. Instead, they continued to be on guard, guarding Tang Zhen’s surroundings.

Tang Zhen seemed to be completely helpless against the sneak attack from behind. His arm was suddenly extended and the White-clothed lady was immediately unable to move.

With a flash of green light, The Woman in White was tightly bound by an Emerald chain and thrown to the ground.

The White-clothed lady who was tied up continued to struggle. A ghastly and mournful roar was emitted from her mouth as she viciously looked at Tang Zhen. Her eyes seemed to be filled with monstrous hatred.

Tang Zhen descended from the sky and slowly walked to the front of the White-clothed lady. His eyes were incomparably cold.

it’s your choice whether you want to speak first or I’ll use cruel methods to make you speak!

After saying this, Tang Zhen stood with his hands behind his back, waiting for the other party’s choice.

The Woman in White was stunned and suddenly stopped struggling. She sat up and was silent for more than ten seconds before she said softly, "Whether I can answer or not depends on what you want to know."

The voice was no longer as eerie as before, but it was still sharp, making people feel uncomfortable.

Tang Zhen's cold eyes swept over the White-clothed lady. tell me first, where are the residents of this building? was the original owner of your body a resident of this building? "

The White-clothed lady chuckled and said to Tang Zhen,"You're so sure. How do you know this isn't my body?"

his life force has been cut off, and his body is filled with death energy. It's only a ghost if he's alive!

Tang Zhen glanced at a certain shadowy area in the ruins of the building behind him when he spoke up to this point. A trace of dark and cold killing intent suddenly appeared in his tone.

I'll give you one more chance. Tell me the origin of you and the other two Spirit bodies honestly. If you dare to disobey, I'll make you wish you were dead!

As he said this, the terrifying aura of a two-star King tier spread out once again, causing the white-robed woman sitting on the ground to stiffen and start to shiver.

Especially the undisguised killing intent, which made The Woman in White clearly realize that if she dared to say anything else, the cultivator in front of her, who made her soul tremble, would definitely kill her without hesitation.

Even an ant cherishes its life. The Woman in White really didn't want to die like this, so she immediately made a decision.

"I'll talk!"

The Woman in White spat out these two words and told him her background.

Chapter 645-the secrets of the overseas region (1)

Following the White-clothed lady's explanation, Tang Zhen finally knew the reason for the tower's destruction.

More importantly, he also learned the origin of the overseas region!

It turned out that The Woman in White also came from a different world, and she was not an ordinary person in that different world. She was a disciple of an immortal sect.

That's right, the foreign world that this tower had invaded was a cultivation world similar to the spirit race's!

There were legends of Immortals in this world. They were high and mighty, and they had the power to move mountains and fill seas.

There were also many powerful cultivators here. The sect that the White-clothed woman was in had an elder with strength similar to Tang Zhen.

And in the other super sects, there were also many experts whose cultivation surpassed Tang Zhen!

The reason why The Woman in White was involved with this City Tower was because it had invaded her world. Her sect was close to the teleportation channel, so it was first destroyed by the cultivators in the city Tower.

Under the powerful attacks of the cultivators of loucheng, the sect of The Woman in White was quickly destroyed. When she was fighting with her two elder sisters, they were killed by the powerful cultivators of loucheng at the same time.

For some unknown reason, of all the fellow sect members who had died in battle, only the Three Sisters "souls had condensed and not dispersed after death. Coupled with the overwhelming resentment, they had gradually gained considerable strength.

Because they were killed by the cultivators of Lou Cheng and had witnessed their homes being destroyed, they were determined to take revenge on them.

Therefore, besides cultivating, the souls of the Three Sisters would wander around the area where the tower was located all day long, waiting for an opportunity to enter and take revenge.

Of course, in addition to revenge, the tower seemed to have a special ability. As long as one was close to it, they would feel particularly comfortable and their cultivation would improve rapidly.

No one knew what caused this phenomenon. They only knew that the area near the tower was definitely a cultivation treasure land for spirit bodies. The inside of the tower also emitted an extremely deadly and alluring aura to spirit bodies.

However, the defense of a national-level city was extremely strong. The Three Sisters had been wandering around the city for a long time, but they still couldn't find a way to enter.

More than ten years had passed quietly. Unknowingly, more and more spirits were wandering around the tower. They all tried to enter, but none of them succeeded.

Until one day, countless self-cultivators gathered near the building and began to launch a storm of attacks on it.

These self-cultivators swarmed the city with countless immortal techniques and Dharma Treasures, surrounding it so tightly that not even a drop of water could escape.

Although the cultivators in the building were powerful, they could only hide in their nests and fight the enemy through the protective light curtain!

This city was unlucky to have randomly invaded a foreign world with extremely powerful indigenous strength. No matter how powerful the cultivators in the city were, they couldn't withstand the fearless attacks of these cultivators!

At the end of the shocking battle, almost all the king level cultivators in the loucheng were killed, leaving only the residents and some weaker Warriors.

Just before it was about to be destroyed, the tower began to teleport, as if it was about to leave the invading foreign world.

Seeing that the tower was about to escape, the self-cultivators were not going to let it go. They immediately launched their strongest attack and blasted a big hole in the light curtain of the tower!

After the hole appeared, a large number of self-cultivators couldn't suppress their greed and quickly entered, trying to find some treasures in the building.

The white-robed woman and her two sisters, as well as the numerous spirits, took the opportunity to rush into the city and possess the bodies of the residents.

Then, under the gazes of countless self-cultivators, the tower disappeared without a trace and returned to the world of towers.

However, there were only the old and the weak left in the city. Even if it was not destroyed, it was not too far off.

However, the moment they appeared in the world of the tower, all the self-cultivators who entered the tower roared at the same time and turned into monsters in an extremely short time. They began to kill wantonly inside the tower.

Meanwhile, the Three Sisters who were possessing the bodies of the residents of the tower also felt as if they had undergone a mutation. It was as if some of the flaws of their original spirit bodies had been supplemented at this moment.

At the same time, they also discovered to their surprise that they had become one with this body. Unless they killed the possessed body, there was no way for them to leave this body.

Furthermore, once they left this body and revealed their original form, the flaws of their original spirit bodies would reappear.

Since that was the case, he would temporarily live in this body and make plans in the future.

Seeing that the tower was in chaos, the Three Sisters, who were afraid of being in danger, immediately rushed out of the tower and hid in a hidden place, trying to wait for the crisis to pass before coming out.

As for the spirit bodies that were not possessed, they began to go crazy. It did not take long before they screamed and turned into ashes.

In addition, there were also many spirits who were lucky enough to possess the body. They did not manage to escape successfully but were killed by the monster in the panic.

However, they didn't disappear. Instead, they took the opportunity to escape into the wilderness and disappeared.

After the battle ended, the building's foundation disappeared without a trace, and the residents either died or fled, leaving only the Three Sisters.

After a discussion, the Three Sisters decided to go outside and take a look before returning to loucheng.

Although the aura that made them feel comfortable had disappeared, there were still remnants of it. There was nothing in the outside world.

After wandering outside for a while, they were surprised to find that they had not come to the world of Loucheng, but a giant Island that was directly surrounded by the sea of nothingness after separating from the Loucheng continent!

In the following days, the Three Sisters continued to explore and analyze, and they roughly figured out the specific situation.

It turned out that every inch of land on this giant Island was originally under the control of this state-level city. However, for some reason, it disappeared from the mainland and then appeared in the sea of nothingness.

The creatures that originally lived on this land had also appeared here, but most of them did not know about it!

This Island was like a prison, trapping all living beings within. Because of the obstruction of the void Ocean, they could not escape from here.

Time passed slowly, and in the blink of an eye, thousands of years had passed.

During this period of time, the original natives of Loucheng had unknowingly forgotten their origins and thought that they were the Masters of this land.

Because they couldn't build Loucheng, the descendants of the indigenous people in Loucheng began to build tribes of all sizes, and Wars broke out from time to time.

The descendants of these Aborigines called themselves the Barbarian race. They began to worship some totems and statues. Through the means of sacrifice, they activated the innate ability in their bloodline.

The totem spirits that they worshipped were the spirit bodies that had been possessed and killed!

They lived in a kind of black statue and enjoyed the worship of the Barbarian tribes. They used special methods to activate the sealed bloodline of the Barbarian race and became the gods of these tribes.

It was said that this method of being worshipped by the barbarians was passed down by a totem master. These spirits could rely on this method to continue cultivating and improve their strength!

The White-clothed lady looked at Tang Zhen when she said this. She could not help but ask, there's no cultivator of Lou Cheng with such high cultivation like you on this Island. Did you cross the sea of nothingness?"

"What does it have to do with you where I come from?"

Hmph! Tang Zhen coldly snorted and continued, "you still haven't told me. After all the residents of this building died, where did you hide the treasures inside?"

When The Woman in White heard this, she shook her head slightly. there are no treasures. When we came back, everything here had been ransacked. There was nothing left!

"Robbed? Hehe, do you think I'll believe you?"

The corner of Tang Zhen's mouth carried a cold smile. He no longer paid any attention to this white-clothed lady. Instead, he turned his head and looked at the shadowy region not far away.

At that place, two slender figures were standing still. They were like wooden sculptures as they coldly looked at Tang Zhen.

In the area around them, a cold aura was constantly being emitted.

Chapter 646-capture, tracking

In fact, Tang Zhen had already discovered the existence of these two women when he asked the White-clothed woman earlier.

However, the other party did not take any action after appearing. Clearly, he was afraid of Tang Zhen.

Tang Zhen pretended to turn a blind eye when he saw this. Only after the White-clothed lady finished speaking did he turn his head and look at the spot where the two of them were standing.

you all heard it just now. She said she didn't know where Lou Cheng hid the treasure. What do you all say?"

Tang Zhen asked in a faint tone as he looked at the two ladies standing in the shadows.

The black-clothed lady frowned slightly when she heard Tang Zhen's question. She seemed to want to say something, but she did not open her mouth in the end.

Just by looking at her pursed lips and her trembling body, one could tell that her emotions seemed to be fluctuating greatly.

When the lady in red heard this, she pursed her lips and laughed. She said in a gentle tone, "What little sister said just now is the truth. The treasure in this building has indeed been taken away by someone. We didn't see anything at all when we came back!

Besides, we're spirit bodies, so there's no use in leaving behind those worldly possessions. If we really had them, we wouldn't have hidden them from you.

So please have tender feelings for her and let go of my little sister, what do you say?"

This woman's every frown and smile was extremely alluring. Coupled with her delicate and pitiful appearance, it was almost impossible for people to refuse any of her requests.

Tang Zhen nodded when he heard this. He swept his gaze over the White-clothed lady behind him, "It's a pity that even you said that. Then I can't do anything about it!

I don't believe that we can't find the location of those treasures even if we dig three feet deep!

So, your little sister should just die!"

With that, the two women trembled and their faces darkened. The Woman in White began to struggle violently.

"I've already said that the treasure in this tower has long disappeared. Why do you still refuse to believe me?"

Such words and actions are simply too much, do you really think that we three sisters are easy to bully?"

The red-clothed lady's lovely face was filled with fierceness as she coldly stared at Tang Zhen. The black-clothed lady by the side casually waved her hand and three thin black blades floated beside her. They were like the tongues of poisonous snakes that continuously trembled.

The three women were all one-star King tiers, and if they attacked together, ordinary cultivators would not be able to deal with them easily.

Unfortunately, the White-clothed woman had been captured. Tang Zhen really did not place these two women in his eyes.

This matter was related to the hidden treasure of this National Tower City. Tang Zhen would never miss it easily. Since the other party was determined not to say it, Tang Zhen would not hesitate to fight!

cut the crap. Either you tell us where the treasure is buried in this building or you die Here!

A cold glint flashed within Tang Zhen's eyes. After which, his body suddenly retreated. He grabbed the White-clothed lady on the ground. At the same time, he grabbed her neck and lifted her up.

"Let go of my little sister!"

"You're looking for death, I'm going to kill you!"

When the two women saw this, they shouted as if they wanted to come forward to save him. However, they were also afraid, and their faces became extremely distorted.

When the Holy Dragon city's cultivators saw this, they were already prepared to attack. They were waiting for Tang Zhen's order to use special bullets to attack the two women.

Tang Zhen lifted the White-clothed lady's body with one hand. He completely ignored the other party's struggle. He looked at the two ladies and coldly said, "I'll ask you one last time, where did you hide the treasures in loucheng?"

If you still refuse to realize your mistakes and give up your lives for your wealth, I will immediately release you from purgatory and turn you three into venomous insects, never to rise again!"

The expressions of the two women changed once again after Tang Zhen's words sounded. They revealed a struggling expression.

Seeing that the other party's expression was a little strange, how could Tang Zhen not guess their thoughts? he might as well add more fuel to the fire.

With a wave of his hand, the solemn and strange reincarnation mirror suddenly appeared, and a shining mirror was projected to his side.

After the three women saw the reincarnation mirror, their bodies trembled slightly and their eyes were filled with deep fear.

At this moment, a figure suddenly appeared in the mirror. He swept his gaze across the crowd before looking at Tang Zhen.

"City Lord, what are your orders?"

The caretaker of the reincarnation mirror bowed to Tang Zhen with a respectful expression. However, there was a trace of fiery heat and greed in his eyes when he looked at the three women.

It wasn't that the overseer was lecherous, but that this kind of powerful spirit body was no different from a peerless delicacy in his eyes, making him unable to stop himself.

Tang Zhen didn't waste any words. He directly threw the White-clothed woman towards the reincarnation mirror. It seemed like the mirror was about to be shattered.

The overseer in the mirror was already grinning from ear to ear. He immediately stretched out his arms and was ready to welcome them.

Looking at his triumphant expression, he had probably already thought of an appropriate method to deal with this powerful female ghost!

"I'll tell you where the treasure is. Let go of my little sister!"

"Bastard, I'm going to kill you!"

The voices of the two women echoed in unison as they pounced toward Tang Zhen at lightning speed.

"It's too late to say that now!"

Tang Zhen let out a clear cry. He directly drew his soul destroying battle saber and slashed it towards the two women.

The Holy Dragon City cultivators at the side pulled their triggers in unison, firing special bullets engraved with demon-killing runes, sealing the space around the two women.

These special bullets could cause great damage to spirit bodies. Even though the two women were King level cultivators, they still emitted black smoke after being hit by the bullets.

The pain of their souls being burned made them groan involuntarily, and they had no choice but to quickly Dodge.

However, Tang Zhen's figure had already arrived at this moment. His fist smashed into the red-clothed lady's chest.

This was because the body that this female ghost possessed had died an unknown number of years ago. It had even been refined by them using a secret technique. Its toughness was extraordinary. Therefore, when Tang Zhen's fist landed, it was as though it had struck a rubber tire.

But even so, the woman in red still let out a blood-curdling screech as her body flew backward. Her clothes were also torn apart from the impact of the huge force.

Tang Zhen's body suddenly twisted. The soul annihilating saber was like a windmill as it cut toward the black-clothed lady who was about to launch a sneak attack.

Tang Zhen was just about to counterattack after dodging the three sharp blades sneak attack from the black-clothed lady when he saw her ten fingers waving over like the sharp claws of a Nightingale.

The nails on these ten fingers were more than an inch long, and they emitted a dark luster, as if they contained a terrifying corpse poison.

If an ordinary person were to be scratched by these sharp claws, it would not take long for the corpse poison to take effect and turn them into zombies!

A protective barrier suddenly appeared on the surface of Tang Zhen's body when he saw this sharp claw attack. It blocked this sharp attack, but the protective barrier also shattered inch by inch.

At the same time, the soul annihilating saber's Saber Light struck out like lightning. The Woman in Black could not avoid it in time and her ten fingers were cut off by the saber. At the same time, her palms were shattered by the huge force.

The black-clothed woman let out a miserable cry. Just as she was about to turn around and escape, Tang Zhen grabbed the tail feather on her head and threw it into the reincarnation mirror.

The overseer, who had already subdued the White-clothed woman, immediately laughed out loud when he saw this. He even loudly applauded and cheered Tang Zhen on!

"You shut up!"

Tang Zhen didn't know whether to laugh or cry when he heard this. He reprimanded the guard and put away the reincarnation mirror. Then, he rushed into the ruins of the building that the woman in red had escaped to.

Seeing this, the Holy Dragon City cultivators at the side also gave chase without hesitation.

Tang Zhen had already seen the red-clothed lady's figure earlier. Hence, he swiftly chased after her after entering the ruins of the city building.

At the same time, Tang Zhen also had to pay attention and observe his surroundings to avoid falling into the enemy's scheme.

After all, the ruins of the building had been occupied by the three female ghosts for many years. No one could guarantee that there were no traps, so it was better to be careful.

However, ever since he entered the ruins of the tower, Tang Zhen could no longer find any traces of the red-clothed lady. It was as if she had disappeared into thin air.

Tang Zhen searched around once again and still did not find any trace of the other party. However, he suddenly felt that the surrounding scenery seemed to have become somewhat familiar.

Tang Zhen frowned slightly as he looked at the items around him. He slowly slowed his footsteps.

At this moment, his eyes became blurred and the killing intent in his body slowly disappeared. He began to pace slowly in the corridor of the tower.

Tang Zhen seemed to have heard a sound when he passed by an unlocked door. After which, he pushed open the door.

It was also at this moment that the black-clothed lady, who had disappeared, once again appeared in front of Tang Zhen. After he clearly saw the situation in the room, he swiftly rushed over.

Chapter 647 Confusion and “stowaway” \_The lady suddenly turned around after hearing Tang Zhen’s footsteps.

Her expression seemed to be a little flustered, especially when she saw Tang Zhen’s unblinking eyes looking at her. Her face was even more bashful as she frantically planned to cover her body.

However, in this way, it added three points of temptation out of thin air, making people feel thirsty.

Tang Zhen seemed to feel his heart beating faster as he looked at this lady who was as beautiful as a fairy.

It was as if the evil fire in his body could no longer be controlled. It was about to burn his mind.

But at the same time, a strange feeling made him raise his guard.

Tang Zhen involuntarily raised his hand and subconsciously pinched it.

That woman snorted. She raised her hand and gently punched Tang Zhen before conveniently falling into his embrace.

Although they were separated by armor, Tang Zhen was still able to sense the gentleness of a woman. A fragrance that was slightly emitted was continuously pouring into his nose.

The woman in his embrace raised her head. Her eyes were filled with anger and teasing as she used a sweet voice that was so soft that it almost touched her bones to softly whisper into Tang Zhen’s ear.

“You’re so bad!”

This voice seemed to be able to arouse the desire in the hearts of all men, turning them into wolves in an instant.

This thought rose in Tang Zhen’s heart at this moment. He even directly extended his hand and pushed the lady to the ground. A low and deep laughter was emitted from his mouth.

The woman lay on the ground, a trace of pride and coldness hidden in the depths of her eyes.

“Sigh, what a pity!”

Tang Zhen sighed and slowly stood up. When he shook his head and looked at the woman, his eyes contained a trace of iciness.

I’m beautiful, but I don’t lack women. I don’t like to sleep with a dead body that has been dead for who knows how many years!

When the woman on the ground heard this, her expression changed slightly, and a cold light flashed in her eyes.

“I’m actually very curious about what method you used. Even I couldn’t restrain the desire in my heart and almost fell into your trap!”

When Tang Zhen said this, the killing intent on his body actually surged once again.

The killing intent was so sharp that it seemed to be able to easily cut through one's skin. It also made the woman stand up abruptly and take two steps back!

Seeing Tang Zhen, who did not even bother to hide his killing intent, the lady laughed repeatedly, causing the ample bosom in front of her to tremble.

"Your Excellency has great self-control. Under the temptation of my sect's Secret skills and treasures, you can still maintain your consciousness.

To be honest, I'm starting to like you. If you're willing, you can have me now. I won't reject you!"

The woman's tone carried a trace of regret and a faint teasing, as if she still didn't want to give up.

Tang Zhen ignored the lady's hint. He merely used a cold and indifferent gaze to look at her as he enunciated each word clearly, "If you tell me the location of the treasure in loucheng, I can promise you that I will let you and your sister go!"

The woman laughed, but there was a trace of disdain in her tone. "My master told me that I can't trust a man's words, and I think so too!"

"So you're saying that you're going to resist to the end?"

Tang Zhen's expression turned cold again when he heard this.

don't be so anxious. I haven't finished speaking. You're scaring me with your anxious look!

The woman rolled her eyes at Tang Zhen. She gently patted her ample chest and said in a plaintive voice, "We sisters also have a hard life. We've been bullied in the sect since we were young, and we've been scolded and looked down on. We had no choice but to rely on each other and survive the most difficult days.

It wasn't easy for us to learn and finally stop being bullied, but our sect was destroyed by the cultivators of loucheng, and we three sisters were killed and turned into malicious ghosts.

As a spirit body, it has many flaws, but it wants us to pay for the pain."

When the woman spoke until here, she raised her head and glanced at Tang Zhen. She did not care that her body was exposed. She extended her hand and flicked the long hair that fell on her forehead. There was a trace of misery on her face.

"In the countless years we've been in the ruins of this City Tower, we've suffered a lot of hardships and almost died in the hands of the cultivators and monsters in the city Tower several times.

Such days filled people with despair, but they had no choice but to clench their teeth and hang on!

If you can swear that you can find a way to take us sisters out of this isolated island and no longer have to endure this kind of despairing life, then even if we give you this tower's hidden treasure, it's no big deal!"

There was a trace of sincerity in the eyes of this woman when she spoke up to this point. This caused Tang Zhen to be unable to doubt her sincerity.

“As long as you hand over the treasures in loucheng to me, I’ll naturally think of a way to take you out of here and guarantee that I won’t hurt you!”

Tang Zhen did not care if the other party was telling the truth. His goal was the treasure in the tower. As long as he could obtain it, he did not mind helping them leave the overseas region.

Although the creatures of the ocean were the same as the creatures of the Otherworld, they could not leave their area to go to the World of loucheng. However, just because others could not do it, it did not mean that he could not!

After all, Tang Zhen had successfully brought in quite a number of stowaways into the world of loucheng. Although his situation was different from this woman’s, it wasn’t too different.

Therefore, Tang Zhen still had some confidence in being able to get these three sisters to leave the overseas region!

However, Tang Zhen also discovered a pattern at the same time. These ‘stowaways’ from the other world basically existed in the form of a spirit body. Moreover, they would possess a certain living being’s body when Lou Cheng returned.

As a result, they managed to deceive everyone and come to the world of loucheng, but they were also trapped in the possessed body.

Once the possessed body was destroyed, they would return to their original spirit form. At the same time, they would be rejected by the building world and quickly transform into monsters.

The only way to survive and continue cultivating was to find a new host.

Perhaps it was because the Holy Dragon city’s original world traveler was not the target of the tower world’s invasion and also had the status of a resident of the tower, so after he died in battle, his soul did not show a tendency to turn into a monster.

The spirits from the foreign world hidden in the totems might have discovered this, so they stayed in the statues and did not dare to come out, afraid that they would be turned into monsters by the rules of the tower world.

However, even if they survived, they still couldn’t leave this isolated island. In the end, they could only become the targets of Lou Cheng’s cultivators. After Lou Cheng took over the land, they completely disappeared from this world.

Tang Zhen even had reason to suspect that whether it was the overseas battlefields, the Barbarian monsters, or the various “stowaways,” they were all a training ground prepared for these buildings to train.

Otherwise, how could this land, which was originally part of the mainland, suddenly become an overseas land?

It was probably because Lou Cheng was judged to be in a state of destruction and a large number of ‘stowaways’ had mixed in, that it was abandoned in the void sea and became a trial ground for cultivators in Lou Cheng!

The giant tower that he had encountered earlier had been infiltrated by the two-headed and four-armed vengeful spirit without suffering any losses. That was why it had not been banished to the sea of nothingness.

However, the vengeful spirit was quite capable. It had destroyed a national-level city by chance with its own strength!

In that case, did all the towers that faced the overseas battlefields encounter similar situations? that was why ruins of towers could be found from time to time in these overseas battlefields?

However, through what channel did those totem spirits find out about this method of struggling at death's door?

Even the barbarians who had forgotten their origins and their idea of fighting the cultivators in loucheng must have had something to do with them.

The more Tang Zhen thought about it, the more he felt that there was an invisible giant net behind this tower world!

It controlled all the living beings in this world, and then struggled to survive in this abnormal world according to the rules it set!

Chapter 648 The contract and the treasure (1)

Before one's strength reached a certain level, there were some things that one didn't need to worry about.

To the current Tang Zhen, no matter how many secrets were hidden behind this world of loucheng, he was basically unable to interfere. He only needed to let nature take its course.

After all, that level was too high, and he could not reach it at all!

Therefore, after knowing the abnormality, they would at most be a little more vigilant, and at the same time, make more reasonable use of these rules to create more benefits for themselves.

After all, there was no such thing as perfection in this world, and the same was true for the rules. As long as one studied them carefully, there would always be loopholes to exploit!

The higher one's level was, the more they would pay attention to the rules. They would definitely not be as calculative as the commoners. At most, they would fill up the hole in time after they discovered it.

This was the case for cultivators, and so were the rules!

Tang Zhen withdrew the lightning-like thought that had appeared in his mind. He looked at the lady who had already changed into a red robe and said in a faint voice, "I've already made my promise, so it's your turn to express it now?"

The red-clothed lady laughed softly and said to Tang Zhen, "Don't blame this little girl for being meddlesome, it's just that this verbal promise is really hard to believe!

Not to mention, over the years, we three sisters have tried many ways, but we've never been able to successfully leave this isolated island. So, Wuwu,"

“So you don’t believe my promise, right?”

Tang Zhen’s face was expressionless. Only his tone had an additional trace of iciness.

“Please don’t be angry, Sir. I believe that with your cultivation and identity, you wouldn’t do such a disgraceful thing for some money.

However, as the saying goes, ‘a villain comes before a gentleman’, this little girl was forced to do this, please forgive me!”

The woman in red spoke in a casual tone, but her expression was very determined.

cut the crap. What do I have to do for you to tell me the location of the treasure in loucheng? ”

Tang Zhen’s current tone already had an additional trace of impatience. A faint killing intent once again surfaced in his eyes, causing one’s entire body to turn cold with a single glance.

There was a limit to his patience. He had not made a move yet because he wanted to avoid some trouble.

However, if the other party continued to grumble like this, he might really have to use some disgraceful means. At that time, he was not afraid that they would not say anything!

The red-clothed lady also saw Tang Zhen’s impatience. She hurriedly explained, ” “I know of a kind of contract. As long as you agree to sign it, I will tell you the location of the treasure in loucheng.

However, I can only tell you the location of a portion of the treasures.

After you’ve successfully brought my two little Sisters out of here, I’ll tell you where I’m buried, and then you’ll send me out. How about that?”

Tang Zhen nodded. He swept his gaze at the red-clothed lady, ”It seems that you’ve been prepared for this day for a long time.

Even if I don’t find the location of the ruins, I’m afraid you’ll take the initiative to lure me here and try to see if there’s a possibility of leaving, right?”

it’s not easy for us, ” the woman in red smiled apologetically. please don’t blame us!

Tang Zhen did not say anything else. He merely indicated for the red-clothed lady to take out the so-called contract. After scanning it, he attached a trace of his mental energy to it.

Tang Zhen had seen many similar contracts, and they were basically from the ghost bank.

The reason why this kind of contract had such a strong binding force was nothing more than to attach one’s spiritual power to it and have a connection with the power of the law on the contract.

Once the contractor violated the contract, the power of the law of karma would take the initiative to strike and punish the contractor!

Therefore, this kind of binding contract was widely used. Whether it was the world of loucheng or the other world, there were many similar items.

The red-clothed lady clearly heaved a sigh of relief after seeing Tang Zhen sign the contract. She smiled and asked him to release her two younger sisters.

Tang Zhen did not hesitate. After taking out the reincarnation mirror, he released the two women who had been thrown into the reincarnation mirror under the resentful expression of the guard.

However, the two women were disheveled and weak. They looked at the reincarnation mirror with fear and embarrassment.

Looking at the overseer's regretful expression, who knew what they had encountered in the reincarnation mirror? Fortunately, he had been released in time. Otherwise, he would not even be able to stand after a while.

Tang Zhen looked at the overseer with a smile that was not a smile. The red-clothed lady's face was filled with anger as she ruthlessly glared at the overseer. In the end, it attracted the overseer's greedy and judgmental gaze, frightening her so much that she hurriedly turned her eyes to the side.

After the two women came out, they reattached themselves to the body that had collapsed on the ground. Then, they stood behind the red-clothed woman in unison and looked at Tang Zhen with a cautious expression.

Seeing that her younger sister was safe and sound, the red-clothed lady did not say any more nonsense. She made an "please" gesture to Tang Zhen and led the way to the back of the building ruins.

Tang Zhen and the rest followed closely behind. It did not take long before they arrived in front of a huge stone wall.

"Back then, we opened up a passage underground, which led directly to the belly of the mountain, and put a part of the treasure in the loucheng.

After that, as long as the tunnel is buried, outsiders will not be able to discover the treasure hidden in the heart of the mountain. After all, there is no damage to the rock wall at all."

Tang Zhen tried to use his mental energy to sense it. As expected, he did not discover any treasures within the mountain. It was as if this place was completely empty.

The Holy Dragon City cultivators followed the lady in red's instructions. After tearing off all the vines outside the rock wall, they immediately retreated to the side.

Tang Zhen held the soul annihilating saber in his hand. He stood in front of the rock wall and swung the saber a few times with lightning speed. Soon after, he extended his hand and grabbed at the rock wall with all his might.

A long bluestone the size of a car was actually pulled out from the rock wall by Tang Zhen. He then casually threw it on the grass to the side.

Immediately after, Tang Zhen continued to attack and pulled out the remaining three stone strips.

At this time, a large hole several meters deep had appeared in the rock wall. However, the location of the hidden treasure was still not revealed.

Tang Zhen was not in a hurry. He merely waved the soul annihilating saber once again and deepened the cave.

The reason why he used such a laborious method instead of entering from The Dark World was that he intended to keep some trump cards to guard against the Three Sisters.

As for whether the other party was sincere in their cooperation, it would depend on their future performance. As long as they did not have any designs on the Holy Dragon City, Tang Zhen naturally did not need to make a move.

However, if they dared to have any ill intentions, Tang Zhen's ability to enter The Dark World would be the best method to kill them!

After all, only spirit bodies could exist in the dark World. It was extremely difficult for ordinary cultivators to enter.

Even after entering, there were many restrictions. How could he be as relaxed as Tang Zhen?

Only by launching an attack from the enemy's unexpected place could he possibly obtain the most ideal effect!

At this moment, the cave had already extended tens of meters into the interior, but there was still no hidden cave. It could be seen how well-hidden the treasure was!

If he did not have the guidance of this red-clothed lady, Tang Zhen reckoned that he would not be able to find this place even if he searched for a few decades.

To a King level cultivator, these hard green stones were no different from rotten wood. Therefore, it didn't take long for Tang Zhen to break through the passage.

At this moment, all sorts of treasures had appeared in front of Tang Zhen's eyes. Even though there was no light reflection, they were still dazzling.

The jewelry was dazzling, and people couldn't move their eyes away from it.

From the appearance of these treasures, it was obvious that they had completely different styles. They were obviously items from another world that this tower had accumulated and could be considered priceless!

The items that could be stored in the treasure room of a national-level building must be extraordinary. Therefore, Tang Zhen did not have to go through the process of choosing. He directly waved his hand and stored all the treasures that had piled up like a mountain into his storage ring.

As for the specific classification and valuation, there would be a special person in charge of it. Tang Zhen didn't have the time to do that.

As the Holy Dragon City accumulated more and more resources, residents who specialized in this kind of work began to appear in the Holy Dragon City. They had appraised many treasures and were quite experienced!

None of the Holy Dragon City cultivators were surprised by these treasures. Their eyes were still cold and calm, as if they were just a pile of ordinary stones.

The Three Sisters, who had once witnessed people forgetting their sense of justice for profit in the sect, clicked their tongues in wonder at this moment. They did not expect these Holy Dragon City cultivators to be so self-disciplined.

To be able to command his subordinates to such an extent and remain calm in the face of a huge wealth, this young man in front of him was definitely not a simple person. Perhaps he really could take him out of here.

For a moment, the Three Sisters began to worry about their personal gains and loss!

Chapter 649 The reincarnation mirror's usage \_Tang Zhen merely used an admiring gaze to sweep over the treasures that had piled up like a mountain. There was no longer any ripple in his eyes.

As the owner of the city, a two-star King tier with hundreds of thousands of residents, Tang Zhen's vision was no longer the same as before. He had seen countless treasures.

When ordinary people saw a treasure, they would keep it in their minds day and night, afraid that something would go wrong.

However, to Tang Zhen, such treasures almost filled up his warehouse. There were also countless better treasures, but because they had no practical use, they could only be thrown into the warehouse to eat dust!

Therefore, to him, wealth and treasures were only a medium to achieve his goal. If it wasn't because loucheng's development couldn't do without such things, Tang Zhen really wouldn't have the mood to search around.

Under everyone's gaze, Tang Zhen controlled the storage ring and quickly collected all the treasures. Only then did he turn around and look at the red-clothed lady who was the leader of the Three Sisters.

"Since you've already told me the location of the treasure, I, Tang Zhen, am not a person who goes back on my word. I'll definitely ensure that you leave this overseas region.

The day I kill the totem master here will be the day you three leave this place!"

The Three Sisters were delighted when they heard this. However, they soon revealed a trace of worry as they said to Tang Zhen, "City Lord, you may not know this, but we sisters have met the totem master before. He is the same as us, a spirit body from the same world.

One time, we sisters went out to investigate and accidentally entered the Barbarian tooth tribe. This shameless man actually wanted to take us by force!"

When she said this, the red-clothed lady revealed a trace of disdain on her face. She said to Tang Zhen, "Although that bastard's cultivation was higher than us sisters, we weren't easy to deal with. In the end, after a big battle, there was no clear winner, so that bastard unwillingly let us go.

However, as the totem master, this bastard could rely on the Barbarian race's blood sacrifice and absorption of offerings to improve his cultivation. His current strength was not to be underestimated!

So when you meet him, please be careful and be on guard against his shameless methods!”

Tang Zhen nodded. He was not an arrogant person. He was naturally able to listen and accept the kind advice of others.

don't worry. I already have a way to deal with the totem master.

Tang Zhen stopped here. He did not say how he would deal with the totem master. Instead, he returned to the ruins of the building with the Three Sisters.

now, the main task of the Holy Dragon City is to clean up the barbarians and kill the totem Masters. So, your matter will have to be delayed for a while.

The woman in red chuckled and said in a calm tone, ” “We sisters have waited for so many years, we are not in a hurry to wait for this moment, we only hope that the city Lord will not let us down!

During this period, if there's anything we three sisters can do for you, please don't hesitate to ask, as long as it's something we can do, we will definitely do our best!”

Tang Zhen nodded his head gently. He did not say any nonsense as he directly led his subordinates and turned around to leave.

The Three Sisters quietly stood on the spot. After Tang Zhen's figure disappeared, they exchanged glances with each other. A trace of helplessness and anticipation flashed on their faces.

“Big sister, do you think he can really take us out of here?

Will it be like those cultivators from a hundred years ago, who were killed by the Barbarian ya tribe before they could help us?”

The white-robed woman was the first to speak, and she asked in a worried tone.

I don't think so. He's much stronger than those cultivators in loucheng, and his subordinates are also very powerful. I just don't know how he can take us out of here.

The black-clothed woman's tone was still ice-cold, just like an ice block that would not melt for thousands of years. At the same time, her eyes were fixed on the direction where Tang Zhen had disappeared. A trace of an inexplicable expression flashed in her eyes.

The red-robed woman shook her head and said with an uncertain tone, ” “Since he dared to sign the contract, it means that he's confident. Otherwise, he wouldn't have done so.

As the saying goes, everything is up to fate, not the slightest bit of it is up to people. Now, I can be considered to have truly experienced the meaning of this saying.

Anyway, we've already done our best. Whether it succeeds or not will depend on the mood of the heavens. Let nature take its course and we can't be too forceful!”

At this point, she turned to look at her two younger sisters and asked in a curious tone, ” by the way, what happened to you guys in that treasure-like object just now? why did you guys end up in such a sorry state? ”

As soon as he said that, the black-clothed and white-clothed women's faces turned red, and they spat on the ground.

pfft, that pervert. If he fell into my hands, he'd actually run away. It's so embarrassing. Run, run. I won't say anymore, run.

.....

After Tang Zhen led the group of cultivators out of the mountain peak, he ordered people to guard this place closely. Once there was an abnormal situation, they must immediately inform him.

At the same time, he also personally killed the group of barbarians who were spying from a distance to prevent them from setting up other traps to harm the Holy Dragon city's residents.

After doing all this, he led the ten Overlord-ranked cultivators away and returned to the sacred Dragon Legion's headquarters.

After arriving at his destination, Tang Zhen only stopped for a moment before he returned to Holy Dragon City.

The Barbarian race was now an arrow at the end of its flight. With the sacred Dragon Legion and countless mercenaries clearing them out, it would not take long for them to be completely annihilated.

After all, this place was just an isolated island. Even if they grew wings, they still couldn't escape from this place. Their final fate had long been determined!

Now that he thought about it carefully, this kind of thing where an entire race was exterminated at the drop of a hat was very similar to invading a foreign world. They were both completely killing and plundering.

Therefore, Tang Zhen absolutely had reason to believe that this overseas region was a training ground prepared for Lou Cheng. He wanted them to gradually get used to this kind of conquering mode. Only when they invaded the other world would they raise their butcher's knife without any psychological burden.

Although Tang Zhen did not really like this kind of brutal destruction, he still did not have the ability to change anything. He could only do his best to remedy the situation.

For example, Tang Zhen was currently collecting the souls of the barbarians who had died in battle and throwing them into the reincarnation mirror. They would start a new life in that virtual world.

There were many benefits to doing this. First, it could comfort the souls of those who had died in battle, allowing them to live their lives without regrets.

The second benefit was that it could reduce the guilt in Tang Zhen's heart.

After all, the Barbarian tribes in the endless sea were all suffering under his orders. Compared to the ancient times, when the Emperor was angry and blood flowed everywhere, it was even worse.

And as Holy Dragon City continued to upgrade, this situation would only get worse.

Under such circumstances, it would be a miracle if Tang Zhen was able to remain calm and composed.

After all, he was a human with flesh and blood. Although he was used to being cold-blooded and heartless, he was still not a killing machine. He did not lack the seven emotions and six desires that he should have.

There was love and righteousness, there was joy and anger, there was no fear of danger, and at the same time, there was respect and pity in the heart, this was the true life!

Tang Zhen did not want to lose himself. Therefore, he had to remedy the situation. If he was trapped and could not extricate himself, he would truly be reduced to a Gu worm!

As for the third benefit, he could use this opportunity to nourish the reincarnation mirror and see if it could recover its former power!

According to what the overseer had said, once the reincarnation mirror's soul energy had accumulated to a certain extent, it would produce some extremely mystical abilities that were much stronger than its current abilities!

However, even the overseer couldn't clearly explain what this mystical ability was because only the reincarnation mirror's owner knew!

It was a pity that the original owner of the reincarnation mirror had long disappeared. The reincarnation mirror had also been in the hands of a mediocre person who didn't know what it was for countless years. Finally, it had fallen into the hands of Tang Zhen by chance.

However, the reincarnation mirror was now on the verge of being destroyed. God knows how much soul power would be needed to restore it to its former state.

Tang Zhen knew that this reincarnation mirror wasn't simple. Therefore, his heart was also filled with curiosity. He wanted to see what exactly the magical ability of this reincarnation mirror was.

The conquest and slaughter that were necessary for the advancement of the tower could provide such conditions. How could Tang Zhen waste such an opportunity?

#### Chapter 650 Tracking the soul-gnawing beast

The valley behind Holy Dragon City was currently filled with busy figures, bustling with activity.

According to the date, there would be another batch of new residents who had completed their special training today and would be teleported here from their original world.

At the same time, a group of soldiers and mercenaries were going to the overseas battlefield to participate in the search for barbarians.

If not for the large area of the back Valley, it would not have been able to accommodate all these people moving at the same time.

Although the scene was a little messy, the Holy Dragon City residents were already used to this kind of scene and were not too affected. They were still busy with their work in an orderly manner.

Unknowingly, the Holy Dragon City had become a giant, and its strength had become more and more powerful.

When the residents of the Holy Dragon City saw this scene, they also felt a sense of honor, and they were even more motivated to work!

At this moment, the water-like barrier on the bronze door trembled slightly. Soon after, Tang Zhen's figure slowly walked out from the bronze door.

Behind him, there were 10 Lord-tier guards with stern faces and sharp auras!

The Holy Dragon City cultivator in charge of guarding the gate saw this and immediately raised his arm to salute, his face full of reverence.

The Holy Dragon city's soldiers and mercenaries, who were preparing to set off, straightened their bodies at the same time. Their right fists heavily hit the chest area of their battle armors as they looked at Tang Zhen in unison.

These voices were in unison. After they were emitted, they immediately alarmed the nearby residents of Holy Dragon City, causing them to see Tang Zhen's figure.

The originally noisy Mountain Valley immediately became quiet. Everyone stopped what they were doing and looked in Tang Zhen's direction.

Many of the new residents had only heard of the legendary Lord of the city but had never seen him in person, so they were very curious.

As for the indigenous residents, their faces were filled with worship and fanaticism. Compared to the new residents, they were the ones who could benefit the most from Tang Zhen's extraordinary nature!

Now, if anyone dared to say anything bad about Tang Zhen, these old residents would immediately turn hostile. It was even possible for them to directly pull out their knives!

Tang Zhen revealed a faint smile after seeing this scene. He nodded and chatted a little with the residents before leaving in a car.

The purpose of his return this time was for one thing, and that was to capture the soul-gnawing beast that was hiding somewhere and use it to deal with the totem master!

According to Tang Zhen's understanding, the totem master's ability was strange. He even possessed the ability to temporarily raise his cultivation after the barbarian's blood sacrifice. He was really not easy to deal with.

It was also for this reason that if they wanted to deal with the totem master, they had to kill all the barbarians first. Otherwise, the totem master would be an almost invincible existence by relying on the blood sacrifice of the barbarians.

Unless they had the absolute power to crush him, it would be best to clean up the barbarians step by step before thinking about killing the totem master.

And this soul-gnawing beast was a trump card that Tang Zhen used to deal with the totem master.

This guy's origin was mysterious. Before this, he had been entrenched in the big pit in front of the warship ruins. He had even stopped Tang Zhen and wanted to keep him there.

However, when Tang Zhen's cultivation base increased and he planned to take revenge on this fellow, the soul-gnawing beast saw that the situation was not good and fled from that place without hesitation.

Previously, Tang Zhen did not have the time to pay attention to this fellow because of all the miscellaneous matters. He had also let it be free and unfettered outside.

Now that Tang Zhen was planning to deal with the totem master, he remembered the innate ability of the soul-gnawing beast. After all, this guy fed on spirit bodies and was simply the natural nemesis of the totem master!

Although he didn't know that its current strength had yet to reach the king tier, Tang Zhen absolutely believed that this fellow's strength had definitely been greatly reduced for some reason!

And its original strength was definitely not as simple as ordinary King-level!

In order to achieve one's goal, one had to make use of all the resources that one could use. Tang Zhen had unknowingly learned this point.

So when he had some understanding of the totem Lord, he immediately turned his attention to the soul-gnawing beast.

The world of loucheng was extremely vast. It was almost impossible for someone else to chase after the soul-gnawing beast that was not of a low level and had disappeared for a long time.

However, Tang Zhen had the tracking and positioning cards that he had accumulated from the usual lucky draws. It was unknown how many he had accumulated now, and he rarely used them.

Now that he was planning to track down the soul-gnawing beast, he could make use of these cards!

After returning to loucheng to make some preparations, Tang Zhen took out a card that was shining with a faint light and directly tore it.

The instant the card turned into a stream of light and disappeared, a hidden aura suddenly appeared. It was as if it was divining the fate of the heavens. It was following Tang Zhen's thoughts and continuously searching for the location of the soul-gnawing beast.

Suddenly, a spiritual light flashed. Tang Zhen suddenly turned his body and looked in a direction in the wilderness.

Without any hesitation, a pair of wings suddenly appeared on his back. His entire person was like a Phantom, and he instantly shot into the sky.

Although this tracking card was magical, it only had half an hour's time. Tang Zhen had to seize the time and hurry in the direction of the soul-gnawing beast as soon as possible.

However, the tracking card wasn't omnipotent, so he only knew the specific location of the soul-gnawing beast, but he didn't know how far away it was from him, so he could only use his fastest speed to travel.

What Tang Zhen was worried about now was that if the tracking cards in his hand were used up and he still did not reach the location of the soul-gnawing beast, then all his efforts would have been in vain.

The speed of a two-star King tier was so fast that it had almost reached an inconceivable level. In addition to Tang Zhen's special wings, his speed was also one of the top among cultivators of the same level.

There were countless cultivators in the world of Loucheng. It was not easy to do this!

If he used this ability to escape, few cultivators would be able to catch up to him!

He flew at an extreme speed all the way. Before the effect of the tracking card disappeared, Tang Zhen tore another card and once again set off to hurry on his journey.

After tearing more than a dozen tracking cards in succession, Tang Zhen had already left the Holy Dragon city's wild land. He had even reached an area that he didn't know about.

This was an incomparably huge flat region. From time to time, one could see buildings appearing on the ground. Strange-looking foreign races and monsters were also frequently reflected in Tang Zhen's eyes.

Even Tang Zhen's physical strength was unable to support this Swift journey. He could only temporarily choose to stop in a forest and plan to rest and replenish his strength.

There was a lot of food in his storage space, so he didn't need to look for food. He just needed to heat it up.

Tang Zhen took out a piece of cooked meat and placed it in his hand. The roasted meat was immediately wrapped by a ball of flames and a fragrance was quickly emitted.

The flame that Tang Zhen released could be controlled at will. This also caused the piece of meat to not show any signs of being charred from the beginning to the end. Instead, golden-colored oil continuously seeped out.

In less than a minute, the piece of cooked meat was already hot and exuded an alluring fragrance.

He removed the meat and placed it on a plate. The flame in his hand suddenly flickered, and the temperature suddenly rose to a terrifying degree, burning off the oil on his hand!

He dusted off the ash on his hand, then took out a bottle of fruit wine, a special fruit wine produced by the non-humankind, and began to eat the meat.

After eating and drinking to his heart's content, Tang Zhen took a short break before tearing the tracking card again.
