

Alternate 821

Chapter 821 An item that can't exist

A gust of wind blew, and the paper and dust on the ground flew up and danced in the air.

Tang Zhen's gaze landed on a piece of paper in front of him. He quickly swept his eyes over it and determined the use of this building according to the content on it.

It was an advanced biology research Institute owned by a company called umbrella.

Tang Zhen's brows furrowed even more tightly when he saw this name. This was because it was extremely unusual for this name to appear in the tower world.

In particular, the chaotic scene in the biological Laboratory made Tang Zhen seem to have thought of something. After his expression changed a few times, he directly walked towards the depths of the building.

He had just walked into the corridor of the building when a few blood-stained figures suddenly rushed out from a large door in front of Tang Zhen. They used extremely distorted movements as they swiftly pounced towards him.

The stench of the corpse caused Tang Zhen to wrinkle his nose slightly. Soon after, he waved his hand in disgust.

"Bang!"

A muffled sound rang out, and a few ferocious-looking living corpses flew out and heavily hit the wall. They instantly turned into strange-looking meat patties and slowly slid down the wall.

An even more pungent stench suddenly filled the entire corridor.

Tang Zhen ignored these monsters. This was because these low level monsters were like ants to him. They were unable to cause him any serious harm.

So, he didn't plan to waste time. Instead, he rushed straight to the top of the building according to his feeling.

It seemed that the sound just now had alarmed the other living corpses. When Tang Zhen appeared on the second floor, his eyes were filled with living corpses that had dull eyes but revealed greed and desire. They filled the passage.

Their rotten bodies were wearing all kinds of tattered clothes. Some of them had even fallen to the ceiling as they pounced toward Tang Zhen.

A flame flickered on the surface of Tang Zhen's body. Immediately, a terrifyingly high temperature spread out, turning the entire corridor into a scorching furnace chamber. It was as if even the air was burning.

All the living corpses that were within five meters of Tang Zhen were instantly burned into torches. They emitted strange blood-curdling screeches and were burned to ashes in the blink of an eye!

Tang Zhen's footsteps did not stop during this period of time. After killing over a dozen huge monsters in succession, he finally arrived in front of a sealed door.

Tang Zhen kicked the alloy password door open and saw a room that looked like a laboratory.

At this time, the room was full of blood. A monster that looked like a monkey but had a man's head was tearing at the abdomen of a body in a white coat.

Looking at the corpse's appearance, it was obviously a living corpse. However, it had now become food for the human-headed monster!

At this time, a greasy intestine was being chewed in the mouth of the human-headed monster. When it saw Tang Zhen come in, the monster's two sharp claws grabbed the intestine. Its blood-red eyes fiercely looked at Tang Zhen, as if it was angry that he had disturbed its meal.

This monster was a level four monster. It was the highest level monster that Tang Zhen had seen in this building. Unfortunately, it couldn't even withstand a single blow from a King level cultivator.

Tang Zhen was too lazy to care about this human-headed monster. After turning it into meat paste with a slap, he turned his gaze to the alloy box that was embedded in the wall.

The item that gave him a special feeling should be locked in that box!

He took out the purple electric short sword and cut the alloy box as if it was tofu. Then, a tempered glass container that had been stored in a cold storage was displayed before Tang Zhen's eyes.

Tang Zhen's earlier guess was confirmed as he looked at the item in the glassware. He gently sighed as his heart was also in a trance.

He really did not expect that such an item actually existed!

When he looked at the living corpses in this wild building, Tang Zhen could be sure that there was indeed such a special world among the countless foreign worlds!

He couldn't say that he was ignorant, but he had never come into contact with it before!

But the question was, was this world that had appeared in the original world a complete world with its own laws, or was it similar to the mirror world, in an infinite loop?

He remembered that the dream city master's handwriting had recorded such a special world.

They were incomplete worlds, and before the laws were formed, they could only be in a state of constant cycle. The axis of time could not extend into the future at all.

In other words, the time dimension of this world was not perfect. It could only be considered a two-dimensional and half-world, the reason for its formation was unknown, and the structure was unstable.

Once the source of this world was taken away, the cycle would end, and the entire world would be destroyed!

After all, movies and television works had an ending, but the real world couldn't stop there. It had to continue developing!

In other words, the stories in these films and television works came from an Otherworld with complete laws, and the plot in the story was just a fragment of the history of that Otherworld.

Under the influence of an unknown force, it was displayed in the film and television works of the original world?

In that case, would there be similar projections in the other world with the same level of technology as the original world?

For a time, Tang Zhen's mind was filled with all sorts of questions. Clearly, the appearance of this item in his hand was something that he had not expected!

At this moment, Tang Zhen suddenly felt his palm burning. Then, his vision blurred. The interface of the phone had actually jumped out on its own without being summoned.

Tang Jing was very suspicious. After a quick glance, he realized that there was a hidden star that he had never seen before in the nomological starry sky at the top, and it was shining brightly.

"What's going on?"

Tang Zhen's eyes narrowed. When he zoomed in, he discovered that a set of words had actually appeared on this star.

[discovered an item with a special world's origin aura. Do you wish to absorb and analyze the plane's coordinates?]

After seeing this group of subtitles, Tang Zhen's heart trembled slightly, and his palms began to sweat slightly.

He was worried that there would be unknown changes before the phone was upgraded, so he did not choose to upgrade it.

Fortunately, after the upgrade, other than the interface changing greatly and allowing him to master the law skills, the thing he was worried about did not happen. This also caused Tang Zhen to heave a sigh of relief.

But now, it seemed that he was happy too early!

Although the menu in front of him was only a reminder and the choice was still in his hands, Tang Zhen still felt a little insecure when compared to the previous situation where he was completely in control of himself.

Taking a deep breath, Tang Zhen thought for a moment and chose the "yes" option.

Unexpectedly, after this set of words disappeared, another set of words immediately popped up. [analysis requires 1000 origin stones. Time to continue?]

Tang Zhen was expressionless as he continued to confirm.

He wanted to see what kind of abilities this hidden law star had that he did not know about.

Just as Tang Zhen made his choice, a pile of origin stones in his storage space instantly disappeared. Then, he saw a progress bar suddenly pop up and it was being filled quickly.

Tang Zhen's eyes were fixed on this scene. However, his mind suddenly realized something and his brows involuntarily furrowed even tighter.

It seemed that only the cornerstone platform had the ability to analyze the plane's coordinates, but why could his mobile phone do this?

When he recalled those crazy versions of cultivator skills and all kinds of magical applications, doubt flashed in Tang Zhen's heart. Could it be that there was some kind of connection between this mobile phone and the cornerstone platform that he didn't know about?

Chapter 822 The changes in the outer city (1)

The existence of this phone allowed Tang Zhen to possess all kinds of unimaginable abilities. When facing an enemy, most of them were in a crushing state.

It could be said that the amazing thing wasn't Tang Zhen, but the mobile application ability he relied on!

However, Tang Zhen did not care about this. After all, the term "strength" itself contained many factors. Relying on external objects was similarly one of the indispensable methods.

Not to mention that this mobile phone was almost integrated with Tang Zhen and they were already inseparable.

While Tang Zhen was borrowing the phone's magical ability, his phone was also constantly upgrading, becoming more and more powerful and mysterious!

Therefore, even if the cell phone really changed in the future, Tang Zhen would try his best to adapt to the changes and not force anything to change.

After all, no matter how it changed, there was one thing that Tang Zhen could be sure of. He would always be the beneficiary!

Just as Tang Zhen's mind was filled with thoughts, the progress bar had already reached its end. Soon after, a long string of numbers popped out. It was the coordinates of the other world where this wild building was located!

Bewilderment flashed across Tang Zhen's eyes as he looked at the over one hundred dimensional coordinates that were formed by various complicated numbers.

Although the numbers that formed the coordinates were written in a rune that Tang Zhen had never seen before, Tang Zhen was still able to see some patterns with the help of the [mysterious word cracker].

After reading it, Tang Zhen was sure that the cultivators in the world of Loucheng would definitely not be able to understand the specific meaning of these numbers!

This was because not only did it contain runes of time, space, and laws, but there were even some runic numbers that even Tang Zhen had never heard of!

Of course, it didn't matter if they couldn't understand it. After all, as long as they handed the coordinates of this plane to the cornerstone platform and paid enough origin stones, the cornerstone platform would be responsible for opening the plane transmission channel. The Lou Cheng cultivators only needed to wait for the transmission!

Since this phone could analyze the plane's coordinates, could it also open up a plane transmission channel like the cornerstone platform?

Tang Zhen had just thought up to this point when he discovered that a set of words had once again popped up on the mysterious law star.

[do you wish to activate the dimensional portal and head to this world?]

There were three teleportation options, single person teleportation, group teleportation, and tower teleportation.

However, other than the single-person teleportation, the other two options were unavailable, so there was obviously some kind of restriction.

Tang Zhen looked at the menu in front of him. After being silent for a moment, he did not make any choice.

He still had a lot of things to do before the experiment, so there was no need to rush.

This was especially so when Zhen Tang discovered that he didn't fully understand the upgraded phone. He decided to carefully study it for a period of time and even do some special experiments.

This was because there was a trace of doubt in Tang Zhen's heart. He didn't understand why his phone didn't react to the many items from the other world that he had.

On the other hand, it was this item from a special world that caused the phone to jump out. This situation was worth pondering over.

Therefore, Tang Zhen decided to figure out the specific situation before considering the next problem. In any case, he had plenty of time and was not in a hurry!

However, it wouldn't take too long. At the latest, after Lou Cheng advanced to level eight, Tang Zhen would try to go to the other world to take a look!

After keeping the glassware in his hand, Tang Zhen took out the foundation stone of the wild building. Then, he directly rose into the air and flew straight in the direction of the Holy Dragon City!

.....

Another morning arrived, and the Holy Dragon city's outer gate was crowded with people.

They were foreign merchants and Wanderers who had been waiting for an entire night. They had all kinds of dreams and came to Holy Dragon City to find an opportunity that belonged to them.

Currently, in the legends of the outside world, the Holy Dragon City of the Wildlands was full of opportunities. There was no need to worry about finding a job to make a living. If he worked hard to improve himself, it was not impossible to live a better life.

Unlike the original living mode of the world of loucheng, the Holy Dragon City did not distinguish between the residents of loucheng and the Wanderers. It was not like other loucheng, where the residents of loucheng and the Wanderers existed in two different worlds.

The cooperation between the residents of Lou city and The Drifters to do the same job could be seen almost everywhere here.

In other towers, this kind of thing would never happen, but in the Holy Dragon City, the residents were used to it.

While the Wanderers were surprised that the high and mighty residents of the City Tower were willing to cooperate with them without caring about their status, they also felt a special feeling in their hearts.

This feeling was hard to describe, but it made these Wanderers more willing to stay here. They even planned to settle down in Holy Dragon City for a long time.

According to the Holy Dragon city's previous statistics, there were now five hundred thousand foreign tribes gathered in the Holy Dragon city's outer city. They lived in the Holy Dragon city's designated areas and did all kinds of work.

Large-scale construction sites with tens of thousands of people could be seen everywhere in the Holy Dragon city's outer city!

All kinds of civilian and military projects were also being carried out one after another, gradually filling up the empty area of hundreds of square kilometers.

Perhaps it was too early to build these buildings in the current Holy Dragon City, but the Holy Dragon City still did so to give these Wanderers a chance to work.

This was also out of long-term consideration. After all, as Holy Dragon City continued to grow stronger, there were some things that could not be done completely by the city residents. Recruiting a servant race had become a must.

The Wanderers gathered outside the Holy Dragon City were the reserve servant race. When the right opportunity came, the Holy Dragon City would start the recruitment plan!

In order to increase the sense of belonging of these foreign tribe Wanderers, the Holy Dragon City had issued many special orders, and they had also received good results.

The orders were particularly obvious in the area where the Wanderers lived.

These residential areas were clean and tidy, unlike the dirty and messy places where other Wanderers gathered. They were all built according to local conditions and looked like gardens.

All kinds of shops and public facilities were also built very well, making these residential areas like small towns, scattered in the outer Urban area.

Every time the sun set, these small towns would become extremely lively. Wanderers of various races could be seen strolling on the streets. They wore clean clothes, and their faces, which had been through many vicissitudes of life, were now always filled with happy smiles.

This kind of comfortable and worry-free life was something they could never imagine in the past, so they cherished it even more.

Moreover, under the Holy Dragon city's ubiquitous surveillance, the security in the residential area was excellent, and even the Wanderers spontaneously maintained this hard-won good life.

Don't look down on these Wanderers. There are many hidden dragons and crouching tigers among them. Once they find a saboteur, they will take the initiative to call the police and expel him or even kill him directly!

As for those who refused to change and went against the Holy Dragon city's rule, they were all captured by the Holy Dragon city's soldiers without any mercy and never appeared again.

The Wanderers were well aware of the whereabouts of these guys, but no one was bothered by it.

Compared to the other towers, the Holy Dragon city's methods were more civilized. At the very least, they knew how to avoid the Wanderers' sight and do these things in private.

It could be said that in the hearts of these foreign Wanderers, the current Holy Dragon City was a paradise in their dreams that couldn't be bought with money!

The Holy Dragon city's reputation had only grown because of the praises of these Wanderers and foreign merchants. It had become a paradise in the hearts of countless Wanderers and wild cultivators!

Chapter 823 10,000 people welcoming

At the Holy Dragon city's outer city gate, a long line stretched out. These were all Wanderers from various races waiting to enter the city.

As for those who wanted to leave the city and the foreign trade caravans, they had their own special passages, so they were not mixed up with each other.

Moreover, with the assistance of all kinds of professional equipment, the speed of passing through the city gate was extremely fast. There would definitely not be a situation where there was a crowd, and only one person would pass through in half a day.

Even so, the Holy Dragon city's soldiers were still very busy, walking around the team from time to time to maintain order.

all of you, line up and receive your identity cards after the inspection. Then, go to the recruitment office to find a job that suits you!

A Holy Dragon City warrior in black light armor was shouting through a megaphone. However, when he passed by the middle of the team, he suddenly kicked a guy who was trying to steal the Wanderer's bag in front of him.

The guy screamed and was about to say something, but the female Wanderer, who had almost been stolen, rushed over and kicked him in the crotch.

"Pfft!"

Who knew if that was the sound of an egg breaking? in any case, the unlucky guy screamed and his body immediately bent like a shrimp, holding his lower abdomen and groaning.

“Bah, shameless, you deserve it!”

The young female Wanderer spat on the ground, then bowed to the Holy Dragon City warrior to express her gratitude. She quickly returned to her original position.

Seeing this, the Holy Dragon City soldier nodded in a daze. With a strange expression, he looked at the man who might become a eunuch and waved his hand.

Then, under the gazes of the Wanderers, two Holy Dragon City Warriors walked over and threw this guy into a cell at the side.

The Holy Dragon City soldier saw this and raised the megaphone in his hand again.

“I’ll say it again. In the Holy Dragon City, once you find any theft, you’ll be sent directly to repair roads and mine.

If you dare to arrest me, you will be executed on the spot!”

At this point, he even patted the huge pistol on his waist, indicating that anyone who was not convinced could come up and try!

Anyone who had a little understanding of the Holy Dragon city’s weapons would know that the pistol could easily pierce through ordinary armor. Its power was terrifying!

Moreover, these soldiers were decisive and decisive. When they were about to shoot, they would not hesitate.

At this moment, the eyes of most of the Wanderers in line were filled with a trace of fear. They secretly glanced at the well-built Holy Dragon City soldier, but no one said anything.

They acted as if nothing had happened just now.

Or maybe they really didn’t care, because after years of wandering, they had become numb.

Not to mention that the thief deserved it. He was already lucky that his hands weren’t cut off!

Seeing that there was nothing out of the ordinary, the Holy Dragon City soldier returned to the shade under the city wall and took a big gulp of cold water.

Captain, more and more Wanderers have come to our city recently. Do you think our city can accommodate them? ”

A Holy Dragon City soldier standing guard with a gun came over and asked his companion who was drinking water.

what do you know, kid? when our loucheng advances to level 8, our territory will expand a lot. Just don’t think it’s too far!

Hearing this, the soldier with the gun laughed. Just as he was about to say something, he realized that his Captain was staring at the sky in front of him.

Following his line of sight, he saw a strange thing flying rapidly in the air. It looked like a huge blanket.

“This is Yingluo?”

The spear-wielding warrior looked at the familiar flying carpet and wondered what it was. Suddenly, his Captain stood up and shouted, “Salute!”

The sound was so loud that all the soldiers in Loucheng city nearby trembled and stood up straight like javelins.

When the Wanderers waiting to enter the city saw this, they were immediately stunned. They all looked at the Holy Dragon City Warriors in a daze, not knowing what was going on.

It was also at this moment that a series of shouts came from the tall city walls, louder than the ones at the city gate.

Then, the Holy Dragon city’s soldiers on the city wall all stood solemnly. They used their right fists to hit their left breastplates and looked up at the sky with solemn expressions!

“We welcome the city Lord!”

Following the captain’s shout, the entire city gate, including the top of the city wall, immediately growled in unison,

The sound traveled so far that it could be heard clearly even from thousands of meters away.

Hearing this, the foreign Wanderers immediately understood why the soldiers were saluting them. They all looked up at the sky with respect in their eyes.

After all, the city Lord of the Holy Dragon City, Tang Zhen, was a two-star King tier. He was definitely an Overlord in the Wildlands!

The Wanderers were naturally extremely curious about such a legendary figure.

Under countless gazes, the flying carpet in the air paused slightly, then a young man in purple armor appeared.

He smiled and waved at the city guards, then directly crossed the city wall that was dozens of meters high, and went straight to the inner city of the Holy Dragon City.

“The ceremony is over!”

The city guards looked excited as they looked in the direction of the inner city. Even after the flying carpet disappeared, they still maintained this expression for a long time.

However, soon, deafening roars could be heard from the outer Urban area.

There were constantly soldiers who drove and patrolled, the residents of Lou city who directed the Wanderers to work, and the Wanderers who had seen Tang Zhen before looking at the sky and saluted him from a distance.

Many Wanderers were the same. They sincerely saluted and greeted Tang Zhen. After all, it was because of Holy Dragon City that their lives had improved.

At this moment, when one looked down from the sky, there were people standing solemnly everywhere. They were all looking up at Tang Zhen in the sky.

Especially when Tang Zhen passed by a military camp, a deafening roar could be heard from the ground. The Holy Dragon City soldiers who were training lined up in an orderly manner and saluted Tang Zhen!

Only after Tang Zhen returned to the inner city did the voices gradually disappear.

However, through this incident, those forces that were secretly paying attention to the Holy Dragon City knew that Tang Zhen, who had disappeared for many days, had now officially returned to the Holy Dragon City!

Many people were extremely interested in Tang Zhen's whereabouts during this period of time. However, due to the barrier between the battlefields, they had not received any information about Tang Zhen being in the spirit fall battle zone.

When they later learned of Tang Zhen's actions, it really frightened countless people. It also caused Tang Zhen's reputation to become more and more famous in the savage barren war zone.

Of course, this was a story for the future and not mentioned for the time being.

However, with Tang Zhen's high-profile return, the countdown to Holy Dragon city's upgrade to a grade 8 city had officially begun!

Chapter 824 Upgrade to a level 8 building

Following Tang Zhen's return, the entire Holy Dragon City immediately fell into an excited mood.

Tang Zhen's existence had an extremely important meaning to the Holy Dragon City and the original world.

Without Tang Zhen, the Holy Dragon City would be like a dragon without a leader. Even if he had laid a good foundation for the city, there was no guarantee that it would be able to develop as quickly as before after he left!

As for the original world, Tang Zhen was the link that connected the two worlds. Without his existence, the original world's development of the loucheng world would immediately enter a state of stagnation!

More importantly, without a city Lord, many of the functions of the tower would be unusable. It would be like a ship without many helmsmen, stuck in a dilemma in the wind and waves, and there was even the danger of capsizing at any time!

The battle overseas had long since ended, and even the spoils had been transported back to Holy Dragon City, filling up the warehouse.

The ones who benefited the most were naturally the cultivators of the Holy Dragon City. They only needed less than one-tenth of the price in the outside world to buy the materials they needed for cultivation.

To cultivators, this was definitely a benefit that they could only dream of. It was of great help to their cultivation.

Only the rich and overbearing Holy Dragon City could do this. Even if the other cities wanted to do this, they simply did not have the strength!

Of course, these were all secondary. The most important thing now was to upgrade the tower.

However, even though the battle Points needed to upgrade the building had been accumulated, Tang Zhen had not returned, so it could not be upgraded.

The Holy Dragon city's administrators had their hearts in their mouths because they were the only ones who knew Tang Zhen's rough whereabouts. They also knew that this trip would definitely be fraught with danger. If things went wrong, their lives might even be in danger.

Fortunately, Tang Zhen had finally returned safely, and Lou Cheng's upgrade was just around the corner.

After resting for two days and settling some work, the Holy Dragon city's promotion ceremony officially began under the expectant eyes of countless residents!

That's right, Holy Dragon City, which had enough battle merits, would be promoted by two levels this time!

On this day, all of the Holy Dragon city's residents had arrived. They were uniformly dressed in neat and tidy clothes, and had a proud expression on their faces as they gathered.

Countless Wanderers were also allowed to watch. At this time, they had gathered in a huge square in the outer Urban area and were looking in the direction of the inner city.

As far as the eye could see, there were dense crowds of people everywhere, stretching into the distance.

It was the first time Holy Dragon City had such a lively scene.

Those old residents who had lived since the Holy Dragon City was established all sighed with emotion after seeing this spectacular scene. They also felt proud to be a resident of the Holy Dragon City!

At the very front of the group, the Holy Dragon city's administrators were also gathered together. They were standing at the forefront of the group with hundreds of Lord-level cultivators, their faces filled with excitement.

Obtaining victory in the overseas battlefield was no different from expanding Lou Cheng's territory. It was a great achievement!

Although the world of Lou Cheng was vast, the truly rich places were all occupied by the high-level Lou Cheng, leaving behind only some barren wasteland that was too lazy to be bothered with.

This was the case with the Wildlands, which was why it had become a place for some declining races to survive in without anyone's interest.

It was just that no one had expected that an incredible city like the Holy Dragon City would appear in the wasteland. In just a few years, it had already developed to such an extent!

Under the gazes of tens of thousands of people, Tang Zhen was dressed in luxurious clothes as he stood quietly in front of the tower and communicated with the foundation stone platform with his spiritual force.

He had already accumulated enough battle merits. With a slight operation from Tang Zhen, he sent it to the cornerstone platform.

At the same time, a map of the overseas region suddenly appeared in front of Tang Zhen's eyes. The mountains and rivers were all in front of him.

At the same time, the Holy Dragon city's actual area of control appeared. With the Holy Dragon City as the center, it radiated nearly five thousand square kilometers of land!

Next, with a thought from Tang Zhen, this rich land that originally belonged to the overseas region would automatically be integrated into the Holy Dragon city's control area.

This seemingly inconceivable thing was also a benefit given to the development of the building so that the higher the level of the building, the less the land would affect the development.

Of course, such opportunities were rare. It was a special benefit that would only appear when Lou Cheng advanced to level 8 or 9!

The Holy Dragon city's upgrade to a grade 8 City Tower was also different from the other cities.

If other towers were to advance to level 8, they would only be able to simply include this piece of land in the tower's scope. However, Tang Zhen could arrange this piece of land as he wished.

Tang Zhen had a magical mobile phone application. Under the circumstances of spending a large amount of mental energy, he could completely achieve this.

The difference between the two was that when an ordinary building was upgraded to level eight, there was no additional cost.

It was nothing to spend some brain juice. As the saying goes, good steel should be used on the blade. Money should also be spent on practical places. Therefore, Tang Zhen decided to use this opportunity to completely transform the Holy Dragon City!

In front of the Holy Dragon City, Tang Zhen's body slowly rose into the air under the gazes of hundreds of thousands of people. After reaching a height of tens of meters, he extended his hand and suddenly pointed at the plains in front of him.

A deep and clear voice resounded in all directions and entered the ears of countless onlookers.

there is an inexhaustible spring water in the ocean that is constantly flowing. It can be the Holy Dragon city's moat!

As soon as he finished speaking, a huge spring suddenly appeared somewhere in the outer city area. It was surrounded by lush flowers and trees, and the scenery was beautiful. Fish jumped out of the water from time to time.

With the appearance of this huge spring, a sunken River appeared at the same time, guiding the clear spring water out of Holy Dragon City. After it circled around the outer city wall, it flowed towards the swamp in the distance.

The Holy Dragon City soldiers on the outer walls who were in charge of defending the city all witnessed this scene. They looked at the river that was dozens of meters wide and could not help but let out a deafening roar.

This scene was no different from a miracle!

However, the matter had yet to end. After the appearance of this gigantic city protection River, Tang Zhen once again waved his hand and pointed to the area outside the Holy Dragon city's city protection River.

there are countless giant trees overseas that block out the sky. This thing can also be a barrier for our Holy Dragon City. It should be transplanted into a city!

As soon as he finished speaking, a large area of land outside the newly added moat seemed to be torn apart out of thin air. Then, it was filled with countless huge trees, surrounding the entire Holy Dragon City!

The area of this forest alone was nearly 1000 square kilometers, causing a huge forest to appear out of thin air in the wild land that originally had no trees!

loucheng is our home. The scenery is as beautiful as a painting, and there are wonderful sights everywhere!

Tang Zhen once again waved his hand. Immediately, countless strange flowers, plants, mountains, and rocks suddenly appeared in the entire outer city, decorating the outer city like a paradise!

Ever since he had seen the exquisite beauty of the dream city, Tang Zhen had the idea of renovating Holy Dragon City. Now, with the help of the upgrade of the dream city, his wish had finally been fulfilled!

Although it was not as beautiful as the dream city, it was still a paradise on earth. There were beautiful mountains and rivers everywhere.

After sweeping a glance at the few brain pearls left, Tang Zhen merged the land that had not been allocated into the surroundings of the Holy Dragon city's inner city, causing the area of the tower City to expand by several times!

At the same time, the mountain barrier and the inter-city roads were also completed.

The Holy Dragon City had officially advanced into a grade 8 city under the cheers of countless residents and Wanderers.

Chapter 825 Research, get ready _Holy Dragon City, which had been promoted to rank 8, had exploded with astonishing vitality overnight!

Due to the increase in the city's level, the city's influence on the residents' attributes increased again. The higher the city's level, the more obvious the increase in attributes.

In addition, the Holy Dragon City provided the cultivators in these loucheng to cultivate with all its might, causing countless cultivators to advance in rank overnight!

That night, the proud laughter of the cultivators of Lou Cheng could be heard from time to time. However, while they were excited about their advancement, they also caused many of the residents of Lou Cheng to lose sleep.

Of course, to the residents of loucheng, this was actually a good thing. Therefore, everyone just laughed and scolded him a few times, then covered themselves with the quilt and ignored him.

Other than the low-level cultivators, there were also many Lord-tier cultivators, but the exact number was not announced.

After all, this was loucheng's military secret and could not be easily known to outsiders.

However, many of the residents of loucheng noticed that many of the cultivators who were once at the threshold of level five were now emitting a shocking aura. This was an obvious sign of a Lord!

This reasonable but unexpected change made many forces that were paying close attention to the Holy Dragon City secretly shocked.

It was only at this moment that they suddenly realized that the Holy Dragon city's accumulation was so strong. Once it exploded, it would definitely be shocking!

Regardless of what other people thought, to the residents of Holy Dragon City, Lou Cheng's advancement to rank 8 was definitely a happy thing.

Perhaps the once unreachable national-level building city was no longer far away from him!

With anticipation for the future in their hearts, the Holy Dragon City residents smiled and threw themselves into their work, full of energy!

When the preparations were complete, the Holy Dragon city's level 8 overseas battlefield would also officially open!

After dealing with Lou Cheng's work after his promotion, Tang Zhen went straight into his study and began to study the phone carefully to confirm if there were any secrets he didn't know about.

At the same time, all the information related to that special world had been sorted out and entered into the [universal electronic kit] by Tang Zhen. He could access it at any time.

After studying it for three days, Tang Zhen finally walked out of the study room. At the same time, he summoned Qian Long, Tai Seng, and the others to discuss some matters in secret.

The cultivators in charge of the investigation at the black prison tower had returned, and the Lord-tier cultivator who led the team also participated in this meeting.

After the meeting ended, Tang Zhen returned to his original world and brought back a large number of materials that the loucheng world urgently needed.

A large number of the Lou city world's specialties were also brought back by Tang Zhen, and they were all snatched up in the blink of an eye.

To the current original world, many of the medicines and specialties in the loucheng world were extremely precious luxury goods that ordinary people would not even have the chance to see.

Because the energy contained in the tower world was very high, the effects of these items could no longer be described as " good ", but " magical "!

At the very least, many people's major and hidden illnesses were rapidly cured, which shocked countless doctors and experts!

Therefore, other than research materials, the rest of the materials had already been reserved by countless wealthy people and powerful allied families. Of course, the price paid was also extremely high.

Tang Zhen was naturally very supportive of this kind of stable and non-losing business. After all, the Holy Dragon Corporation had too many things to spend money on!

After dealing with the chores, Tang Zhen finally remembered the little monster he had brought back. However, when he looked around, he found out that it had been taken away by Murong Ziyue.

When Tang Zhen asked for it, the little girl held the little monster in her arms and refused to return it to Tang Zhen.

It just so happened that the damn dog was also looking at Tang Zhen with a face of disgust. At the same time, it was rubbing against the little girl's chest. From time to time, it would forcefully sniffle with a face of enjoyment.

When Murong Ziyuan and Xiao die saw this, they covered their mouths and laughed secretly. This made Tang Zhen not know whether to laugh or cry!

Since he couldn't get anything from it, Tang Zhen simply gave up on the dog and threw it to Murong Ziyue. The little girl was so happy that she showed off with the little monster all over the city.

The little monster, who no longer had to be afraid of Tang Zhen, was also very excited. It began to run around and followed Murong Ziyue, wagging its tail like a windmill.

At the very least, this fellow had never put in so much effort in front of Tang Zhen.

Tang Zhen's expression turned black when he saw this. He was so angry that he directly turned around and left.

"Pfft, as if I care about you, you ungrateful dog, Yingluo."

After another two days, Tang Zhen walked out of the laboratory with a pensive expression and headed straight for the cultivation room.

During this period of time, Tang Zhen had used a large number of foreign world's items for experiments, but none of them had caused a reaction from that special star.

From this, Tang Zhen could conclude that unless it was a special world similar to that other world, this planet would not have any reaction.

As a result, some of Tang Zhen's original thoughts fell through, and he could only continue to upgrade the building.

However, Tang Zhen was not too disappointed. After all, there were countless other worlds. He might discover similar items from another world on that day!

At the same time, Tang Zhen had also made up his mind. He definitely could not miss this rare opportunity. He must take this opportunity to earn a huge sum of money.

After all, the technology level of that other world was not inferior to that of the original world. Not only did it have a large number of usable materials, but it also had the most important existence of the world's origin!

Tang Zhen had a premonition that perhaps when he absorbed enough of the world's origin, be it the cell phone or that mysterious star, they would both undergo a surprising change!

.....

Tang Zhen looked at the origin stone in front of him within the secret training room. He could not help but feel a slight headache.

To put it bluntly, the world's origin was a special energy that could stimulate life to evolve and even directly give birth to various kinds of life. As for whether it had other magical effects, Tang Zhen was still not too clear about it at the moment.

As for the origin stone that gave birth to the world's origin, it was the condensation of various powers of laws. After giving birth to the world's origin, the power of laws contained within it was almost exhausted.

Different nomological laws would condense into different origin stones. In other words, in the same foreign world with complete nomological laws, there might be many types of origin stones collected.

However, every world had a main law. For example, the original world was dominated by the law of water, while the world where the flashing gold race used to live was dominated by the law of gold!

Therefore, the origin stones of these two worlds were mostly water law origin stones and metal law origin stones.

However, the origin stones that Tang Zhen had obtained from the ice wind tower were all over the place. There were almost every type of origin stone, and the number of origin stones for each type was not large.

After calculating over and over, Tang Zhen helplessly discovered that there was actually not a single type of origin stone that was sufficient to activate the law stars!

This kind of situation was unexpected, but it also caused Tang Zhen to feel extremely depressed!

Unfortunately, this was the truth. It was impossible for Tang Zhen to return to the ice wind tower and question what that old man had done. Why did he mix the origin stones so evenly?

Could it be that he had some kind of obsessive-compulsive disorder and had to get an equal amount of each type of origin stone before he would feel comfortable?

When this thought flashed in Tang Zhen's mind, that hunchbacked old figure appeared once again, causing Tang Zhen to shake his head slightly.

That stubborn old man had been buried in an ice cave under tens of thousands of tons of crushed ice when the ice wind tower was disbanded. Now, he was probably really going to live and die with the tower.

In fact, if it was not a matter of life and death, Tang Zhen would not be willing to do this. However, he did not have a choice.

Now that he thought about it again, Tang Zhen only had one thought in his heart. That was, whether it was good or bad, let others judge. He only hoped that he had a clear conscience!

As long as killing can achieve my goal, so what if I kill until rivers of blood flow?

While sighing at the miserable fate of the city Lord of the national level building, Tang Zhen also secretly warned himself that this kind of thing could only be forced by him. It must never fall on his head.

And the only way to ensure this was to make himself stronger, and make holy Dragon City stronger!

Therefore, Tang Zhen had to go to this special foreign world!

Chapter Due to the lack of origin stones, it was not enough to activate any law star for the time being. Therefore, Tang Zhen could only put this matter aside for the time being.

It wouldn't be too late to activate the law stars after he had gathered enough origin stones. After all, his current strength was enough to crush cultivators of the same level!

After resting for two days and touring the brand new Holy Dragon City with his family and friends, as well as having a group picnic with the testers of the real game, Tang Zhen announced to the public that he was going into closed-door cultivation.

For King level cultivators, it was common for them to cultivate in seclusion. Even in some advanced towers, King level cultivators no longer held important positions. Instead, they chose a trustworthy city Lord to manage the tower, and they focused on improving their strength.

However, the Holy Dragon City could not do without Tang Zhen, and he was the only one who could be the city Lord. Therefore, he could only cultivate and manage the city at the same time!

The residents of the tower were not surprised by Tang Zhen's announcement to enter closed-door cultivation. In fact, they were full of anticipation and support. If Tang Zhen's strength improved again, it would be a great thing for the Holy Dragon City.

In fact, in the hearts of the Holy Dragon city's residents, Tang Zhen's strength was already unattainable.

Along with the spread of various information channels, Tang Zhen's true strength had long been known to the world. His cultivation was at the two star King tier, and there was no one within a radius of ten thousand miles that could compare to him.

When countless foreign cultivators heard of Tang Zhen's name, they were filled with deep veneration. They even made a special trip to the Holy Dragon City just to see the demeanor of a two-star King tier!

However, from this point, it could be seen that the strength of the wilderness battle zone was indeed not very good!

.....

Tang Zhen stood in the cultivation room. He had already prepared all the necessary materials. At this moment, he was wearing a black windbreaker transformed from a liquid metal robot. His vision quickly switched to the interface of his mobile phone.

After finding the mysterious star, Tang Zhen clicked on the single person plane teleportation option.

The disappearance of a pile of origin stones was the price of opening a dimensional portal. There was no way he would be able to reduce it.

At the same time, a pitch-black Spiral passage suddenly appeared, exuding a gloomy aura and appearing extremely mysterious.

Tang Zhen glanced at the single dimension transmission channel and stepped into it.

After Tang Zhen entered, the two-meter tall passage flickered and instantly disappeared!

.....

In the quiet forest, dead leaves were everywhere. Even after the heavy rain last night, the puddles of water on the ground had not disappeared.

“Pa!”

In a small puddle, a muscular figure was suddenly reflected. Then, a boot stepped heavily into the puddle, splashing water everywhere.

Not far away, two little birds flew up in panic and made rapid chirps, as if to remind their companions of the approaching danger.

Tang Zhen swept his gaze over the surrounding environment and discovered that this forest seemed to have not been visited by anyone for a long time. The road in the forest that was originally created by the car’s rolling was now covered with weeds.

Tang Zhen shook his head slightly after sensing the energy in the air.

this is indeed a low-energy world. I’ll try not to use my skills if I can. Otherwise, it’ll take a long time to recover!

Fortunately, apart from the energy of heaven and earth, Tang Zhen could also absorb the power of the stars. The only restriction was that it had to be at night, and it had to be under the condition that the stars were not obscured!

However, the sky of this world was gray, and he didn’t know if it would always be like this.

If that was the case, it would definitely be bad news for Tang Zhen!

In any case, compared to the other cultivators in loucheng, this was still an extremely rare advantage!

Since he was already in this world, he had to understand the basic situation first.

Tang Zhen would not completely believe the information in that information. After all, it was only a film. Although it was more or less related to this world, it would definitely not be the same!

However, when he switched to the map view, he found that it only showed the area within ten kilometers, and not the original battlefield or the area within thousands of miles!

Although such an abnormal situation had occurred, Tang Zhen had long expected it. Therefore, he was not surprised in the slightest.

“The next step is to verify my guess and see if it’s the same as what I thought!”

After saying this, Tang Zhen’s figure flashed and suddenly appeared beside a road displayed on the map.

Just like the overgrown forest, the road that used to be full of people and cars was now deserted. From time to time, cars could be seen on the side of the road, violently destroyed and in a mess. Human remains were scattered around.

These remains had all died an unnatural death, and it was obvious that some of the owners had been tortured to death.

In the grass by the road, a few bodies were tied to a wooden stake by the side of the road. A few screwdrivers and other tools were stuck deep into the wooden stake through the rotten bodies.

There was even a polished metal piece embedded in the skull of one of the corpses. It was deeply embedded in the skull and had long been rusty!

A trace of coldness flashed across Tang Zhen’s eyes when he saw the scene before him.

This was the result of the ugly side of human nature completely erupting under desperate circumstances. Perhaps in this world, there were countless similar scenes.

As he looked into the distance, Tang Zhen was surprised to find that at the end of the road, there seemed to be two figures in ragged clothes.

After using [nano vision], the scenery in front of him suddenly developed gradually. Then, two figures, one large and one small, fell into Tang Zhen’s sight.

Tang Zhen revealed a smile on his face as he looked at this man and woman who looked like father and daughter but had tired expressions. His body flashed and suddenly appeared in front of the two of them.

The two people who were hurrying on their way were immediately stunned. They first swept their eyes at Tang Zhen who had appeared out of thin air. Then, they took out the rifles on their bodies without the slightest hesitation and aimed at Tang Zhen from a distance.

“Who are you? what do you want?”

The man’s deep eyes revealed an imperceptible killing intent, as if he would pull the trigger and kill Tang Zhen if the situation went slightly wrong.

The little girl at the side was holding a bow and arrow. The arrowheads made from steel nails could also seriously injure or even kill a person after hitting a vital point!

After the baptism of this cruel world, even a young child could raise the butcher's knife in his hand and fight for a chance to live.

Tang Zhen merely smiled when he saw the weapons of the two. He spread his hands and said, don't be nervous. I don't have any ill intentions. I just want to ask for directions!

The man was unmoved. He pointed at Tang Zhen and growled, cut the crap. Put your hands behind your head and lie on the ground. Otherwise, I'll shoot you to death!

After he finished speaking, he even deliberately patted the rifle to make a slight sound to increase his deterrence.

"You really don't know how to appreciate my kindness. Must you force me to take action?" Tang Zhen shook his head and said helplessly.

The man's eyes narrowed as he felt a life-and-death crisis approaching. He pulled the trigger without hesitation.

However, at the same time, Tang Zhen's figure suddenly disappeared from his original spot and immediately appeared in front of the man with the gun.

"You're so silly!"

The gun-wielding man's face was filled with fear. He had just uttered a word when Tang Zhen punched him in the stomach.

This punch caused the spear-wielding man's eyes to widen, and his face suddenly became extremely pale. His body bent over, and he fell limply to the ground, large beads of sweat rolling down.

However, even though he was in so much pain that his internal organs were convulsing, this man still tried his best to look behind Tang Zhen. His eyes flickered with a dissuasion intent as he shook his head in an unnoticeable manner.

"You should listen to your partner's advice and put down the dagger in your hand. Otherwise, I won't let you go just because you're a little girl, understand?"

Tang Zhen had a smile that was not a smile on his face as he looked at the man who was continuously twitching on the ground. He did not even turn his head as he softly spoke.

Chapter 827 The cruel apocalypse (1)

"Alright, Sir, I'll listen to you, but please don't hurt my partner!"

The girl seemed to have already known that she was not a match when she saw Tang Zhen's unpredictable skills. Her action of pulling out the knife earlier was merely a conditioned reflex to save her companion.

But now it seemed that this method was very likely to send himself and his companions into danger and death, which was extremely unwise.

Accurately judging the situation was also a necessary ability to survive in the wasteland world. Otherwise, one would suffer a great loss and even lose their life.

Throwing away the sharp knife in her hand, the girl in jeans and a red t-shirt stood on the spot without moving. However, Tang Zhen knew that her muscles had long been tensed up. She would fight back to the death at any time if an unexpected situation occurred.

It was obvious that even though she knew that she was no match for him, she still did not give up her last bit of effort. This might also be one of the reasons why she was still alive.

Tang Zhen turned his head and glanced at the girl. He nodded his head in approval.

“You should be glad that you listened to my advice. Otherwise, you and your companions would have become corpses by now!”

The girl nodded and tried to slowly walk to the side of the man on the ground. After helping him sit up, she raised her head and looked at Tang Zhen.

“You said you wanted to ask for directions. I can tell you, but please let us go after you know what you want, okay?”

Tang Zhen was just about to nod his head when he suddenly heard the sound of a car engine. Soon after, he saw a truck barging in and speeding towards their location.

The expression of the little girl who was squatting on the ground immediately changed when she saw this. She shouted at Tang Zhen, quick, help me hide Joel. That’s a man-eating tribe that was attracted by the gunshots just now. If we fall into their hands, we’ll all become dried meat!

However, after she shouted this sentence, the little girl saw that Tang Zhen did not move at all. Instead, he was staring blankly at the truck that was speeding over. A trace of bewilderment flashed in her eyes.

a man-eating tribe? I’d like to take a look!

Tang Zhen bent over and picked up the rifle on the ground. The corner of his mouth revealed a trace of a cruel smile as he spoke indifferently.

“Don’t do this, they’re all crazy, you can’t beat them!”

After the little girl saw Tang Zhen’s actions, her face immediately revealed a nervous expression. However, when she saw that Tang Zhen did not move in the slightest, she could only clench her teeth and drag the man on the ground to a hidden position. She then took out a pistol and came to the side of the abandoned car beside Tang Zhen.

what? you don’t trust me, or do you think I need the help of a little girl? ”

Tang Zhen ridiculed as he laughed. He checked the bullets in the magazine before aiming at the driver’s seat of the car that had been specially modified in order to prevent gunshots.

The little girl pouted her mouth and did not reply to Tang Zhen. Instead, she focused all her attention on preparing to deal with the following battle.

After all, there were more than 10 cannibalistic tribe members on the truck, and they had a large number of guns in their hands. They were all extremely ferocious, hence the chances of victory for their side were not high.

However, if he escaped in the chaos, there was still a slight possibility!

When she thought of this, the younger daughter had a thought. She began to plan how to take the opportunity before Tang Zhen was killed to bring the man, who had gradually recovered, and escape from this place when the battle began.

He didn't want to live, but the little girl didn't want to die.

However, as the gunshot rang out, the little girl, who was originally thinking of how to use the terrain to escape, was completely shocked by the scene in front of her!

After the gunshot, the muzzle of the gun didn't stop firing. At the same time, the bullets seemed to have eyes, constantly drilling into the driver's seat and the back of the car.

Screams continued to ring out as the weapon-wielding cannibal tribesmen fell one after another. The speeding car was like a drunk bull, rushing into the deep ditch by the side of the road.

As the car stopped, several bloody bodies were thrown out.

As for the other cannibal tribe members, their heads were all blown up, and they rolled into the grass with the overturned car.

"See, it's just killing a few pieces of trash. It's so easy and simple!"

Tang Zhen smiled as he threw the rifle to the little girl. After which, he turned his head and looked at the man who had a shocked expression on his face.

if you can still move, go and clean up the battlefield. All the spoils will be yours!

After the little girl heard these words, she slowly recovered from her shock. However, her mind was still recalling Tang Zhen's shooting posture as well as the angle of the enemy.

She seriously suspected that Tang Zhen's bullet might have taken a turn. Otherwise, it would be absolutely impossible to kill these people from the cannibal tribe!

If Tang Zhen knew what she was thinking, he would definitely praise her, " what a smart fellow!

Indeed, under the influence of his mental power, the bullets he shot could curve. Even when they were halfway there, they could turn around and fly back.

To Tang Zhen, whose mental energy was exceptionally powerful, doing such a thing was as easy as blowing off dust!

When the man heard this, he forced a smile at Tang Zhen. After which, he forcefully endured the pain in his stomach and walked towards the truck that had fallen into the deep ditch.

After witnessing Tang Zhen's earlier performance, he could already confirm that this mysterious man who had suddenly appeared was definitely able to kill him in an instant!

It was obvious that the punch just now was just a warning for his previous offense. Otherwise, if he really wanted to kill him, he would have become a corpse long ago!

Although he was nervous and a little suspicious, the man still searched the bodies carefully and collected all the useful items.

Tang Zhen glanced at the back of the car and discovered that there was actually a thick layer of blood stains inside. It was as if it had been brushed with dark red paint several times. It was a shocking sight.

One of them had its intestines cut open and its head and internal organs removed. It was now rolling in the grass, with yellow-white oil and bone fragments exposed at the incision.

The man glanced at the White body and shook his head slightly. He muttered softly, "another unlucky fellow. It's a pity that his luck isn't good. If he had been a little later, he wouldn't have been slaughtered!"

The little girl on the side carried a rifle with a scope and slowly walked past the corpses with broken heads. There was no expression of discomfort on her face.

As expected, this was a world that could turn people into demons. After seeing too many deaths of their own kind, the survivors, regardless of their age, had long become numb.

Tang Zhen picked up a rifle from the ground. After sweeping his gaze over it, he held it in his hand and said to the man, "Your name is qiaoer?"

"That's right!"

"Then, how much do you know about this man-eating tribe?"

When Joel heard this, a trace of coldness flashed across his face. He said in an unchanged tone, "I accidentally entered that place before and saw many lunatics and a lot of food!"

Yan qiaoer pointed at the body on the ground and said sarcastically, "it's the food processed from these ingredients. Hang them on ropes and dry them. They can be found all over the yard!"

Tang Zhen nodded and continued to ask, then, did you see anything special in the man-eating tribes?"

Seeing qiaoer's puzzled expression, Tang Zhen explained, "It's the kind of thing that you'll have an obvious feeling after seeing it. You'll know that it's definitely not an ordinary thing!"

Qiaoer tried hard to recall. Just as he was about to shake his head, the little girl beside him suddenly spoke.

I think I've seen the thing you're talking about before. It's on the head of the man-eating tribe. He tied it up with a rope and hung it around his neck.

Seeing Tang Zhen and qiaoer looking at her without turning their eyes, the little girl shrugged her shoulders and softly said, "That guy wanted to bully me, but qiaoer arrived in time and attracted the attention of the cannibal tribe members. I also took the opportunity to escape!"

Tang Zhen nodded his head in satisfaction when he heard this. He ignored qiaoer's ugly expression and said to the little girl, "You're not bad. If that's the item I'm looking for, I'll definitely give you a reward."

Now, do you mind telling me your name?"

The little girl raised her head and looked at the mysterious man in a black trench coat. She smiled.

"I'm Allie, Sir."

Chapter 828 Setting off to a different world _Tang Zhen smiled slightly as he looked at the girl whose face was covered with a trace of dust and a wisp of red hair hanging down from her forehead.

"Allie, not a bad name, it's nice!"

After he finished speaking, Tang Zhen turned his head and looked at qiaoer beside him. He saw that qiaoer had already relied on the spoils of war he had picked up to fully equip himself.

Clearly, this man would not miss any opportunity to make himself stronger. Tang Zhen could sense quite a great killing intent from his body. Clearly, there were many enemies who had died in his hands.

Tang Zhen walked past qiaoer, who had a rifle on his back, and slowly walked to the overturned truck. He reached out and placed his hand on the car.

"Sir, do you need any help?"

When Allie saw this, she wanted to go forward and help, but she saw Tang Zhen's expression not change. He easily flipped the overturned car over.

"Uh, hehe."

Allie's mouth was wide open in shock. She looked at Tang Zhen as if she was looking at a monster and then shrugged her shoulders.

"Alright, just pretend I didn't say anything!"

Qiaoer's pupils shrank as he looked at the mysterious man in the black trench coat. He secretly guessed his possible origins.

This kind of powerful strength was almost unprecedented. It had already exceeded the limits of human strength.

However, he had heard that in some distant cities, there were some people with genetic mutations. They had some magical abilities that were beyond imagination. He wondered if the mysterious man in front of him was that kind of person.

It was said that those people were very dangerous, so he and Allie had to be careful!

Tang Zhen ignored the two stunned people. He extended his hand and opened the deformed car door. He saw a completely dead body being dragged out.

next, take me to the location of the cannibal tribe. After that, you can leave as you wish!

Tang Zhenyan jumped into the driver's seat. He seemed to feel that the protective steel plate in front of him was too much of an eyesore, so he reached out and tore it off, then casually threw it far away.

Seeing this, Allie's heart started beating wildly again.

How terrifying was this perverted guy's strength? that two-centimeter-thick steel plate was no different from cardboard in his hands, and he tore it apart as he pleased!

With some apprehension in their hearts, the two of them got into the car.

The driver's seat of the car was splashed with a lot of dirty blood, and an unpleasant smell floated in the air. The seat was even dirtier, so black that it was shining.

An ornament made of a skull was placed on the pilot's seat. It was inlaid with some gems of unknown material, and at the same time, some strange decorative patterns were drawn with paint.

The car's steering wheel was also attached to an ornament made of bones. In the middle of the car was a smaller skull, and the empty eye sockets looked very ferocious.

Tang Zhen motioned qiaoer to be in charge of driving. He sat in the front passenger seat and placed the rifle in his hand on the empty window.

Allie sat between the two of them and would secretly look at Tang Zhen from time to time. Her eyes moved slightly, and no one knew what she was thinking.

Tang Zhen took out a pack of cigarettes from his pocket. After he took out one for himself, he threw the rest to qiaoer.

In this chaotic world, tobacco was definitely a rare item. Even if there were any, they would be hand-rolled cigarettes or pipes.

Finished cigarettes like the ones that Tang Zhen took out were absolutely rare. Ordinary people didn't have the qualifications to enjoy them!

Qiaoer took the cigarette, the corner of his mouth revealing a trace of a smile. He took out a cigarette and held it in his mouth.

Allie obediently took out a lighter from her pocket and used her hand to block the wind as she lit up the cigarettes for the two of them.

After taking a deep breath, qiaoer's tightly knitted brows seemed to have relaxed quite a bit. He looked at Tang Zhen by the side and could not help but open his mouth to say, "Sir, what are you looking for that special item for?"

Tang Zhen turned his head and glanced at this man who had a face that seemed to have experienced many vicissitudes of life. He smiled and explained, "This thing is useless to you, but it has a special meaning to me.

As long as someone brings up a similar item to make a deal with me, then no matter what conditions he puts forward, I will try my best to satisfy them and never go back on my word!"

Hearing this, Joel nodded, a thoughtful look in his eyes. Then, he said nothing and focused on driving.

Allie looked at Tang Zhen and said with a slightly hoarse voice, " "Didn't you want to ask for directions just now? you can ask me now. I will tell you everything I know!"

Although they had witnessed Tang Zhen's terrifying strength and knew that he was definitely not a simple person, the two of them, who were extremely sensitive to danger, knew that the other party did not have any intention of harming them.

At least not for the time being!

Therefore, as long as he followed the other party's instructions and did not play any tricks, he would probably not encounter any danger.

Tang Zhen nodded his head when he heard this. He said to Ai Li, "Tell me everything you know about this world. The more detailed, the better?"

After the two of them heard Tang Zhen's words, they both felt a little strange. After looking at each other vaguely, Allie began to speak.

Tang Zhen leaned back in his seat and looked forward with a cigarette in his mouth. He looked casual and lazy, but in reality, he heard every word Allie said.

It was just that the situation of the world that he had heard from Ellie was very different from the plot that he had understood in movies and television works!

It turned out that the disaster that broke out in this world was not just one virus, but a variety of destructive viral fungi that broke out at the same time. In just a few years, the entire world had been completely turned into a wasteland!

The rows of skyscrapers in the past were now like green mountains, standing alone on the horizon. The once bustling city was now covered by weeds and vines, and countless wild beasts ran rampant here.

The mutated creatures that were parasitized by fungi and the zombies that were infected by the virus became the rulers of the abandoned cities. The surviving humans had to hide in remote places with steep terrain to avoid being attacked by monsters!

However, compared to these monsters, the survivors who had completely lost their humanity were even scarier and more painful!

Many lucky survivors did not die at the hands of the monsters, but they ended up being slaughtered by their own kind. It was truly unfortunate!

When Tang Zhen heard this, he casually asked Allie, have you heard of the umbrella Corporation? it's said that it's very advanced in technology.

Allie thought for a moment and shook her head, indicating that she had never heard of this name.

Joel, who was driving, frowned and hesitated. "Allie is still young, of course she's never heard of this name, but I've heard of it!"

"Oh, is that so? why don't you tell me!"

Tang Zhen looked at qiaoer, who was frowning, as he softly said.

it's because of that damned umbrella and those hell-deserving bastards that the world has become like this!

Qiaoer's palm that was holding the steering wheel had blue veins bulging. His eyes were filled with hatred and anger!

Chapter 829 The robot's combat style

Looking at the man who was suppressing his anger, Tang Zhen knew that he must have experienced a very painful thing, and it was related to the notorious Umbrella Corporation!

However, Tang Zhen wasn't interested in knowing the specific details. This was because it was nothing more than a story of life and death. In the environment of a great disaster, such similar things were countless.

Joel's story was just one of them.

Compared to the umbrella that Qiaoer hated, Tang Zhen's destructive actions were even more thorough. Because he completely destroyed the entire world!

Of course, that kind of complete destruction was not inevitable, but it would only happen when all the world's origin was plundered.

However, due to the special concealment of the world's origin, it was basically impossible to plunder all the world's origin!

Fortunately, the cornerstone platform's invasion mission had never required him to obtain all the world's origin of the entire foreign world. Otherwise, it would really be too much!

The driver's seat was very quiet. Qiaoer had a dark expression on his face while Allie was fiddling with the pistol she had just obtained, carefully cleaning it.

After a while, the car was approaching a dilapidated town.

Allie glanced at the buildings in front of her and pointed at the tallest building. That's the lair of the man-eating tribe. I'm afraid they've already discovered us!

Qiaoer also turned his head to look at Tang Zhen. What do we do next? Do we just drive there? "

"You only need to drive. You don't need to worry about anything else!"

When Tang Zhen said this, he directly raised the rifle in his hand and aimed at the armed police officer on the tallest building.

The building was more than 2000 meters away from the car. It was almost impossible for an ordinary rifle to hit the enemy at this distance.

However, Tang Zhen could easily hit any target within his field of vision by relying on the support of his mental energy. Moreover, the power of the rapidly spinning bullet head under the effect of his mental energy would definitely not be reduced in the slightest.

So, under Qiaoer's incredulous gaze, Tang Zhen directly pulled the trigger.

"Bang!"

After a gunshot, the bullet whizzed out and went straight for the enemy who was using the telescope to observe.

With the help of his spiritual power, the bullet flew at four times the speed of sound and arrived in front of the target in a very short time.

The bearded brawny man holding the telescope only saw a flash of fire from Tang Zhen's muzzle. Just as he was about to lower his head to Dodge, he didn't expect that the bullet had already flown in front of him at an abnormal speed, not giving him any time to Dodge at all.

"Bang!"

With a muffled sound, one of the telescope's tubes was instantly shattered, and at the same time, the bullet, which had become extremely hot due to the high-speed flight, drilled into his head through his eye sockets.

When the blood and the burning bullet came into contact, coupled with the cavity effect, the bearded man's head exploded like a balloon!

The red and white substance, mixed with bone fragments, splattered evenly on the wall behind him, taking up almost half of the wall. It looked sticky and disgusting.

The headless body swayed a little and fell out of the window, making a muffled sound as it fell to the ground.

At the same time, Tang Zhen had reached out to catch the boiling hot bullet shell that had jumped out of the gun chamber and casually pinched it into a copper piece.

"Your aim is pretty good. Actually, I can hit you even if you're further away."

Tang Zhen looked at the two people beside him and spoke in a teasing tone.

Qiaoer and Allie looked at this scene in a daze. They didn't know how to describe their feelings at this moment.

They used doubtful eyes to sweep the rifle in Tang Zhen's hand. They seriously suspected that they had made a mistake when they were cleaning up the battlefield. Perhaps this ordinary-looking automatic rifle was actually a powerful anti-materiel sniper rifle!

Of course, this was just a joke. After all, they had already confirmed that it was an ordinary rifle.

It was only because it had fallen into Tang Zhen's hands that this ordinary rifle became extraordinary!

At this moment, because of the gunshot and the falling body of the Sentinel, the entire cannibal tribe immediately became noisy. Figures kept flashing from some buildings, and behind the sandbags blocking the road, some people had even raised heavy machine guns!

It seemed that as long as Tang Zhen approached the small town, these guys would open fire!

At the same time, Zhen Tang also saw that a few cars had already started up, followed by more than a dozen motorcycles. A group of fierce people in strange clothes were waving the weapons in their hands and constantly letting out excited howls.

Obviously, other than passively defending, they were also prepared to take the initiative to attack and tear the fellow who dared to provoke them into a thousand pieces!

“You guys wait here, I’ll be back soon!”

Tang Zhen instructed the two of them before directly jumping out of the car and slowly walking towards the convoy that had already arrived.

Compared to the convoy that was accompanied by rolling dust as it sped over, the current Tang Zhen appeared to be all by himself. He did not seem to be a match for these thugs!

Allie looked at Tang Zhen worriedly and muttered softly, “Joel, should we go down and help him?”

Beside him, Joel shook his head and said to Ellie, “I can’t see through this person, and he’s definitely not the kind of person who would seek his own death. Let’s just watch quietly. I have a feeling that he’ll definitely bring us an even bigger surprise!

After hearing this, Ai Li hesitated for a moment before nodding her head slightly. However, her gaze did not leave Tang Zhen’s back.

At this moment, the distance between the carnivorous tribe and Tang Zhen was less than 500 meters.

The ugly faces of those man-eating thugs were completely exposed in front of Tang Zhen. Their blood-red eyes were full of ferocity. When they looked at Tang Zhen, it was like they were looking at a lamb waiting to be slaughtered!

Some of the man-eating thugs had even aimed at Tang Zhen, as if they would fire at him in the next second.

“A bunch of scum!”

Tang Zhen coldly snorted. His body trembled slightly and the wind Coat on his body suddenly disappeared. At the same time, a ball of squirming metal liquid rapidly condensed in front of him, forming a human-shaped object!

“Kill them all, leave none alive!”

Tang Zhen coldly gave the order. His tone was filled with dense killing intent.

The liquid metal robot immediately rushed forward, and under the horrified gazes of the man-eating thugs, it crashed into a car.

“BOOM!”

The car suddenly exploded, and the man-eating thugs on the car were sent flying by the huge shock wave. They screamed and fell to the ground.

When the other man-eating thugs saw this, they all turned their guns in fear and madly fired at the robot that had reformed from the sea of fire.

However, before their bullets could reach, the liquid metal robot quickly dodged to the side and threw a piece of metal from a car into its mouth.

After chewing a few times, it raised its arm, and a black muzzle appeared in its palm.

At the same time, there was a blue electric light flashing on the arm it raised, as if it was in a state of rapid charging.

In the next second, countless terrifying metal particles shot out from the muzzle in its palm. With a stunning penetrating power, they wrapped around the surrounding cars and man-eating thugs.

“Bang!”

A series of muffled sounds rang out, and at the same time, a large mist of Blood Rose into the air. Those man-eating thugs were actually torn into pieces in an instant, and blood flew into the sky!

The roaring engines of the cars had all stopped at this moment, and they were paralyzed on the spot with black smoke.

The oil that was flowing out of the truck exploded when it came into contact with the fire, and the fire completely sealed off the entire road!

Chapter 830 Doomsday of the man-eating tribe (1)

In the driver’s seat far away, Joel and Allie looked at the figure standing in the fire, their bodies trembling.

This was especially so when they saw the liquid metal robot that had separated from Tang Zhen’s body. In the blink of an eye, it had killed all the man-eating thugs. They suddenly felt that this was not real.

The two of them even wondered if they were dreaming.

After all, such a strange way of fighting was completely beyond their knowledge. They had never heard of it before!

“Qiaoer, if possible, I think ...”

Allie then turned to qiaoer and continued, “Maybe we can follow him. That way, it will be much safer!”

Beside him, Joel shook his head helplessly and sighed. “This is indeed a good idea, but do you think that with his strength, he will always bring us along?

Or rather, what can we do if we follow him?”

Allie thought for a moment and said in an uncertain tone, maybe we can help him run some errands and take care of some things. Also, isn’t he looking for that special item? we can help him find it!

At this point, Allie seemed to have thought of something and said excitedly, “We can use the radio station to announce that we are looking for this special item. Then, we will be responsible for listening and communicating with him.

What do you think of this? is it okay?”

Joel chuckled, but he sighed in his heart.

He knew very well that Ellie had always lacked a sense of security. At the same time, her biggest dream was to find a home that was absolutely safe and live in peace.

However, in this chaotic world, it was wishful thinking to find such a place!

The second best option was to follow a powerful leader, and perhaps this goal could be achieved indirectly.

Obviously, in Allie's eyes, Tang Zhen was the kind of person who could bring her safety, so she had the idea of following Tang Zhen.

However, whether this matter would succeed or not would depend on Tang Zhen's intention. He hoped that he would agree!

With that in mind, Joel nodded slightly under Allie's expectant gaze.

.....

After getting rid of the man-eating thugs, Tang Zhen directly passed through the burning car wreckage and continued to move towards the location of the man-eating tribe.

The blazing flames could not cause him any harm at all.

He walked at a steady pace, but he didn't know how much mental pressure his appearance had brought to the man-eating thugs.

In a small town not far away, the man-eating thugs who had witnessed the scene just now were all nervous at this moment, and the palms holding their guns were covered in sweat.

After all, the scene that had just happened was far beyond the scope of ordinary human understanding. It seemed to be an ability that no human could have!

"Damn it, who provoked this monster!"

A bald, muscular man with tattoos all over his body scanned the surroundings and roared in anger.

He was the chief of this man-eating tribe. He was brutal and perverted. He often ate raw human flesh and killed captives at the drop of a hat.

However, at this moment, he was trembling slightly because of the fear in his heart. However, this emotion only existed for a short moment. Then, the bald brawny man picked up the rocket launcher, and his fierce-looking face was filled with killing intent.

I don't care who you are. As long as you dare to come near my territory, I'll beat you into meat paste and make you into the most delicious meat soup!

When the other man-eating thugs heard this, they immediately roared. Their already twisted personalities quickly turned into hysterical madness as fear spread.

After seeing so many deaths, they were no longer so afraid of death. The more inhumane something was, the more excited they would be.

Since you're so powerful, then let's see who will die first!

If you want to kill me, don't think you'll have an easy time!

With this crazy thought, these man-eating thugs immediately became full of battle intent, constantly letting out strange howls!

Tang Zhen looked at the group of crazy people who were like evil spirits from afar, and a trace of coldness flashed in his eyes. He waved his hand once again at the liquid metal robot that was standing quietly at the side.

The silent robot did not hesitate. It immediately turned into a bolt of lightning and rushed toward the small town.

At the same time, a rain of gunfire came from the direction of the town, all locked on to the charging robot!

The robot that was charging forward waved its hand and its arm turned into a shield, blocking all the bullets.

It did not travel in a straight line, but rather in a disorderly Z-shape. This allowed it to avoid being locked on by the muzzles to the greatest extent.

With this robot's insane speed, the man-eating thugs who were shooting could not react in time. Their accuracy also decreased, and in the end, they simply shot blindly!

In any case, in their eyes, the robot's shadow was everywhere. It seemed as if every shot had hit the target, but every shot had missed.

This was obviously because the robot was too fast, causing countless afterimages to appear. Therefore, the man-eating thugs who were too slow to react could not hit it at all.

In the blink of an eye, the androids had already charged into the town, and under the curses of the countless cannibals, a shocking massacre began!

Miserable shrieks were constantly heard. From time to time, broken limbs could be seen flying into the sky, and large clouds of pink blood mist were spurting out, blooming under the sunlight.

This scene of death had a strange beauty to it at this moment, making people's hearts jump.

When Tang Zhen arrived at the edge of the small town, his gaze unintentionally swept over a huge pit. It was filled with trash and miscellaneous items.

However, most of the things inside were white bones with traces of being boiled and gnawed at. These were obviously the food residue that the man-eating thugs had thrown away.

Tang Zhen was able to tell with a single glance that these were human skeletons. Moreover, there were both male and female skeletons.

Tang Zhen's eyes slightly narrowed as a cold glint flashed. It seemed that this man-eating tribe was indeed worthy of its name. They really ate people!

Since that was the case, there was no need for them to live!

With a thought, Tang Zhen's figure instantly appeared in the small town. He directly used his mental energy to restrain several malevolent-looking man-eating thugs and reached out to Pat their heads.

These man-eating thugs suddenly stiffened, and then all the muscles in their bodies began to tremble, and dirty blood spewed out of their seven orifices.

"Huala"

With a soft sound, the skin and flesh of these man-eating thugs began to fall off rapidly, starting from their heads. In the blink of an eye, only white bone armor was left!

Such a strange method of killing immediately sent chills down the spine of the man-eating thugs who witnessed this scene.

An indescribable fear instantly exploded from their hearts. At the same time, they no longer had the courage to resist and began to flee in all directions!

The robot had no intention of letting them go. It quickly chased after them and killed them one by one.

Tang Zhen swept his eyes around him. His gaze locked onto a bald strong man. At the same time, he swept his eyes over the latter's chest.

"I've finally found you!"

A brilliant smile immediately bloomed on Tang Zhen's face. He appeared to be extremely happy.

However, to the burly man, the smile was extremely brutal, as sinister as a demon's, causing his scalp to tingle with pain.

"Don't come near me, you lunatic!"

The bald brawny man continued to fire at Tang Zhen. However, when those bullets were one meter away from Tang Zhen, they seemed to be blocked by an invisible wall. They immediately stopped in the air and fell to the ground with a "clatter".

He extended his hand and made a grabbing motion. The pendant on the neck of the strong man fell into Tang Zhen's hand. He could immediately sense the aura of the world's origin source clearly.

Tang Zhen revealed his teeth and smiled as he swept his gaze over the bald strong man who had turned around to flee.

"Your body is also contaminated with a trace of the world's origin, so you should just die!"

Tang Zhen's voice had just fallen when he extended his hand and clenched it. The bald man's body directly exploded into a meat paste, scattering everywhere.

At the same time, the world's origin that floated out of the minced meat was quickly absorbed by the phone without missing a single bit!
