

Alternate 831

Chapter 831 absorption, journey

At this moment, the world's Origin Energy was constantly surging towards Tang Zhen while the flesh and blood on the ground had also turned into ashes.

Just as the world's Origin Energy was absorbed by the phone, the mysterious and obscure star flashed slightly and then returned to its original state.

Apart from that, there was nothing else unusual!

It was clear that the amount of the world's Origin Energy was too little and could not affect anything at all, which was why the mysterious star had such a reaction.

Tang Zhen mused for a moment before he shifted his gaze back and looked at the pendant in his hand.

The material of the pendant should be Platinum. It looked like a ferocious skull, and a blood-red gem was embedded in the skull.

The source energy of the world that Tang Zhen sensed was hidden within this gem. If one observed it carefully, one would see that there seemed to be a liquid flowing continuously inside.

When you look at it, you can feel the special and mysterious power!

According to the information that Tang Zhen had collected in the past, the world's origin would either exist in a hidden area or be hidden in any object in this world, including living things!

In this wasteland world, the world's Origin Energy clearly existed in the second form!

After thinking for a moment, Tang Zhen casually crushed the pendant. Then, the world's Origin Energy hidden within it was directly absorbed by the law star.

The dark stars flickered again, emitting a dazzling light, and then dimmed again.

"Still not enough?"

Tang Zhen had been paying attention to the changes of the mysterious star from the beginning. He could not help but reveal a pondering expression after seeing that there was not much change.

"It doesn't matter. Even if I have to plunder all the origin Energy of this world, I'll figure out the true use of this star!"

Tang Zhen swept his eyes over the surrounding dilapidated buildings as a trace of determination flashed across his eyes.

Right at this moment, a black figure rapidly rushed over and stood in front of Tang Zhen.

The liquid metal robot had already completed the mission that Tang Zhen had given it earlier. It was now standing quietly, waiting for Tang Zhen to give new instructions.

After shutting down its autonomous thinking, this robot was actually just a puppet that Tang Zhen could assign to as he pleased. There was absolutely no need to doubt its combat ability.

“With this robot, I don’t have to do many things myself. It’s really much more convenient!”

Tang Zhen was very satisfied with the robot’s high efficiency. After he gave an order, the robot’s body trembled slightly. The blood and flesh on the surface of its body were shaken off in an instant. Then, it directly collided with Tang Zhen.

The instant it came into contact with Tang Zhen’s body, the robot suddenly transformed into a black windbreaker and covered Tang Zhen’s body.

this cannibal tribe has been cleaned up, and I’ve obtained the world origin object. Now, I need to rely on my vague senses to find other objects that are parasitized by the world Origin Energy!

Although the power of the world’s origin could only be sensed when one was close to it, which was the main reason why it was difficult to collect, Tang Zhen had a faint sense ever since he was transported to this foreign world. It seemed that he could roughly sense the existence of the world’s origin!

However, this kind of sensing also had its limitations. At most, it could let Tang Zhen know which direction to go, but it could not carry out an accurate location!

But even so, it was enough to increase the efficiency of the search by countless times!

The reason for this abnormal situation was due to the magical ability of the mobile phone.

Just as Tang Zhen was about to leave this dilapidated town, Qiaoer and Allie walked over at the same time. They looked at him as if they wanted to say something, but they hesitated.

“Speak, what do you want?”

Tang Zhen casually grabbed a few weapons and dressed himself up to be similar to the natives of this world. He did not even raise his head as he spoke to the two people.

“Sir, if possible, can you bring us along?”

Ai Li said softly when she heard this. Her face was filled with uneasiness and apprehension as she was afraid that Tang Zhen would reject her.

Before Tang Zhen could say anything, Allie added, we can help you with many things. We can even help you collect those special items!

Qiaoer, who was standing to the side, did not speak. He only silently looked at Tang Zhen and waited for his reply.

“The place where I appear is bound to be filled with killing, and it might even be more dangerous than the environment you are in right now!

So, I’ll ask you again, are you sure you want to follow me?”

Tang Zhen looked at the two people in front of him and asked in an extremely serious tone.

Due to some unknown restriction, the current Tang Zhen was still unable to teleport over a long distance. Therefore, he could only hurry on with his journey.

The flying cultivator skill consumed too much energy. If he was in the tower world, Tang Zhen would be fine with it. However, in this low-energy world, Tang Zhen had no choice but to reduce his energy consumption as much as possible in order to deal with the unexpected situation that might occur!

It was also inconvenient to take out the aircraft for use. After all, that kind of thing consumed too much fuel. Tang Zhen could bring so much fuel with him.

As for the aircraft they had obtained from the spirit battle zone, it had been cut into eight pieces and was lying in the Holy Dragon city's laboratory. It had been torn apart by a group of mad scientists!

As for whether he could recover, Tang Zhen did not have any expectations.

Therefore, in this case, it was not a bad thing to have someone drive for him.

Allie and Lily looked at each other and quickly saw the answer in each other's eyes.

Allie's eyes were filled with hope and desire, while Qiaoer's eyes were filled with helplessness, tolerance, and a hint of encouragement.

"Yes, sir, I'm sure!"

Allie turned her head to look at Tang Zhen and nodded her head hard.

.....

On the ruined road, a military jeep was driving at high speed.

Even though the car's silencers had been specially modified to reduce the noise as much as possible, the roaring sound of the engine still spread clearly on the quiet plain.

Some of the wandering zombies and parasitic monsters, after hearing the sound, thought of food by reflex and then pounced toward the car like crazy.

A few zombies happened to be blocking the middle of the damaged road. A rancid smell came from them, and their rotten gums were clearly visible!

However, the Jeep showed no signs of slowing down, as it continued to RAM into the zombies.

"Bang!"

A muffled sound of impact came, and a few zombies were directly sent flying. The steady and solid car did not stop at all, and even the interior of the car did not feel much vibration.

Tang Zhen didn't even raise his head as he continued to read the book in his hand. Allie sat in the back and ate the potato chips Tang Zhen gave her. Qiaoer continued to have a straight face as he expressionlessly knocked away the zombies and parasites that blocked his way.

The wiper brushed away the tainted blood, and the vision would quickly recover.

From time to time, he would control the automatic machine gun installed on the Jeep to fire at the zombies that were getting closer and closer, causing blood and flesh to splatter everywhere!

"Hu!"

Letting out a long breath, Tang Zhen slowly took out the note that dream city's city Lord had given him. He did not know what method the dream city Master had used, but the contents of the note seemed endless. From time to time, old or new words would suddenly appear, recording all sorts of strange content.

Tang Zhen actually had some guesses as to why such a situation would occur.

Because of the dream city Lord's special ability, he could wander in the long river of time. Whenever he saw a situation that he thought he should record, he would casually write a note in his note.

However, because he wrote at a different time, some places that he had clearly written would appear blank because he had returned to an earlier time.

In the future, those words would become blurry and disappear due to natural erosion, leaving the paper blank.

At this point, dream city Master would continue to write in this seemingly blank space, which was actually filled with words. As time passed, each piece of paper in this notebook had a terrifying number of words written down!

And so, a miraculous scene appeared.

Due to the different times of writing and the special ability of the dream city Master, the overlapping words would not appear at the same time. Instead, they would appear at an unknown time and disappear after a period of time, replaced by new words!

It was a continuous cycle!

One thing was for sure, this notebook was absolutely priceless, but to finish reading it, one would need enough patience and perseverance!

The most important point was that if one wanted to read this book normally, one must have extremely strong mental strength. Otherwise, one would be drawn by the power of time in the note, falling into endless fantasies and unable to extricate themselves!

This was also the reason why Allie almost got engrossed in the book when she came over to read it out of curiosity!

Chapter 832 strange book, exchange

"Mr. Tang Zhen, could this book be a Magus' tool? Could he be a legendary magician?"

At this point, Allie mumbled, "but aren't mages supposed to be characters in stories? do they really exist?"

After placing the potato chips in her bag, Allie couldn't help but ask curiously when she saw Tang Zhen finally close the book.

She had kept these questions in her heart for a long time. Now that she had spent some time with Tang Zhen, she saw that he was not particularly terrifying. On the contrary, he was very approachable. Thus, she mustered her courage and asked.

She had once heard a story from an old man about a mage, which made her remember this special existence with mysterious and terrifying power.

And Tang Zhen, who had all kinds of unbelievable means, was also regarded as a legendary mage by Ellie.

When she was hypnotized by the dream city Master's Note, she felt like she had entered a strange world. Although it was only a few seconds in reality, she felt like she had stayed in that strange world for a long time.

It was also because of this wonderful experience that she was so curious!

Tang Zhen, who was currently absorbing and understanding the new contents of the logbook, smiled and explained, "In fact, there are many powers in this world that ordinary people can't understand. It's just that they can't come into contact with it in their lives, so they think it doesn't exist!

The mages you mentioned do exist, but they are not in this world, and they are called by different names!"

Seeing Allie's serious expression and Qiaoer, who was driving with a straight face but was actually eavesdropping, Tang Zhen smiled.

Since the journey was boring, he might as well tell them what the real world was like!

As for whether they believed it or not, or whether they would mention it to others in the future, Tang Zhen simply did not care.

If they could not escape the shackles of the land under their feet, the more they knew, the more unfortunate they would be!

After all, the feeling of everyone being drunk and only one being awake was not as wonderful as one would imagine. On the contrary, it would bring a deep sense of powerlessness and sorrow. It was possible that one would be so depressed that one might commit suicide.

"The world you live in is actually just like the stars in the sky. It's just one of the countless worlds that are unremarkable.

The eternity in your eyes is actually just an instant in the eyes of some Supreme existences!"

Seeing the stunned expressions of the two, Tang Zhen changed his way of speaking, "It's like a city with countless houses. Although the interior layout and decorations are similar, the people living inside are different.

The residents of the house on the left might just be ordinary people who didn't have the strength to even truss a chicken.

As for the owner of the house on the right, he might have guns and weapons, or even magical abilities similar to that of a magician."

"Under normal circumstances, the residents of these houses will live their own lives and live in peace with each other.

However, peace will not last forever, just like how war can break out at any time. There are also extremely powerful existences in these households, who can break this rule and wantonly plunder the property of other residents!”

When he said this, Tang Zhen seemed to feel that his words might be wrong. Hence, he added, “Of course, there’s also the possibility that this powerful alien doesn’t belong to this city!”

Qiaoer and Allie were confused. Although they could understand the meaning of Tang Zhen’s words, they couldn’t understand the things that pointed to the truth.

After all, their vision was only limited to the world in front of them. They did not know that there were things beyond their imagination!

Tang Zhen faintly smiled when he saw this. He did not explain anything. Instead, he opened the [all-purpose electronic kit] and played some soothing music.

This melodious music sounded out of thin air. It seemed to be emitted from Tang Zhen as the center and also seemed to be coming from all directions. It was like a clear stream in the mountains that slowly flowed into the ears, washing away the fatigue of the journey and the dust of the soul.

Qiaoer and Allie had long known about Tang Zhen’s magical ability, so they didn’t deliberately look for the source of this sound. Instead, they tilted their ears and listened with an intoxicated expression.

.....

After two consecutive days of driving, Tang Zhen’s sense of the world’s Origin Energy had become increasingly clear. Perhaps, he would be able to lock onto the approximate range of the world’s Origin Energy after a period of time.

“Sir, the car is almost out of gas!”

Qiaoer glanced at the meter of the car and said to Tang Zhen.

“That’s so troublesome. Then, let’s find a place with fuel. I’ll go borrow some.”

Tang Zhen sighed. He was actually unable to return to his original world even though he was in this foreign world. This had brought him an extremely great sense of stagnation.

Fortunately, all the necessary supplies were ready, and there were a few barrels of fuel, but it was better not to take them out now, in case of an emergency.

As for the solution, he would naturally go to the places where the armed forces were entrenched and “borrow” some!

Creak! Creak!

After driving for a while, the car stopped in an abandoned town.

For some unknown reason, there were very few zombies and parasitic beasts in this town. Along the way, Tang Zhen only saw a few scattered ones, and they were all in a dormant state.

This also meant that the food here was extremely scarce, so these monsters had no choice but to sleep to maintain a simple state of survival!

However, through the map perspective, Tang Zhen knew that there was a farm transformed from a Park in this town. The surroundings were covered by scrapped cars and all kinds of garbage, and a group of survivors lived inside.

Tang Zhen saw some oil tanks and oil barrels here, as well as well as well as well-maintained cars, which all indicated that there was indeed fuel here.

Since that was the case, he would 'borrow' some!

Arriving at the survival base that was blocked by the tall walls, Tang Zhen casually took out a box of beef from his storage space and threw it directly at the top of the wall.

This was the spoils of war he had seized from the man-eating tribe. God knows why those perverts had left a warehouse full of canned beef and were so keen on eating people?

Perhaps this was the way those lunatics thought. Since canned food could be preserved for a long time, they chose to replenish their food with other food before it expired. That way, they could last longer.

There was nothing wrong with the idea, but the way he did it was too crazy. It had broken through some limits and was inhumane!

Unfortunately, in the end, these stored beef cans were all cheap for Tang Zhen. He directly packed away more than half of them and left the rest for the lucky ones!

At this moment, with the support of his mental power, the box of canned beef gently landed on the top of the wall and happened to land at the feet of a young man who was aiming his gun at Tang Zhen.

The young man was shocked at first, but when he found that it was a can of beef, a trace of surprise appeared on his face.

The young man, who hadn't eaten a piece of meat for more than a year, seemed to smell the fragrance of meat through the iron Skin, and he couldn't help but drool.

With great difficulty, he shifted his gaze away from the can of beef. The young man turned his head and continued to observe Tang Zhen. However, he was extremely shocked by Tang Zhen's strength.

Moreover, he was extremely curious about Tang Zhen's action of throwing food.

people above, listen up. This box of canned beef in exchange for two barrels of fuel. I'll give you 15 minutes to send it to me immediately!

After Tang Zhen shouted, he did not say any more nonsense. Instead, he hugged his arms and waited.

He would only give the other party fifteen minutes. Once the time was up, he would make a move to snatch it. As for what disastrous consequences it would cause, Tang Zhen would not be responsible for it.

If it wasn't for the fact that the lives of these survivors weren't easy, he wouldn't have adopted such a polite approach and would have directly robbed them!

Although he possessed great strength, Tang Zhen had also gradually started to change. He had his own principles in doing things. He would not willfully slaughter those ordinary native creatures just because his strength was sufficient to destroy this world.

Perhaps, Tang Zhen did not care about these things in the past. However, as his strength continued to increase, he gradually understood a truth.

Everything in the world had its own rules. He had unknowingly obtained some of the rules of doing things. It could also be seen as a type of rule. It was actually an invisible restriction that the heavenly Dao had on powerful life forms. Under the circumstances where it was possible not to destroy it, Tang Zhen would try his best not to destroy it.

Otherwise, cultivators without laws were destined to be unable to comprehend the truth of the laws!

Chapter 833 Survival base (1)

On top of the wall, after the armed youth heard Zhen Tang's shout, he hesitated for a moment before using the walkie-talkie to inform the person in charge of the survival base.

He didn't miss out anything regarding the methods Tang Zhen had displayed earlier. He told everything to the other party so as to not affect the judgment of the person in charge.

After listening to the young man's story, the person in charge of the base on the other end of the walkie-talkie was silent for a moment. After warning him not to act rashly, he directly called all the young men in the base, holding all kinds of weapons, and quickly rushed toward the position of the wall.

However, halfway through, the person-in-charge thought for a moment and asked someone to fill two barrels of fuel and bring them over.

Although the survivors didn't understand why the person in charge used precious fuel, they trusted him and didn't object.

Soon, everyone climbed up the wall and saw the box of canned beef and Tang Zhen, who had a leisurely expression not far from the wall.

The person in charge of the base checked the box of canned beef and was shocked. He asked the young man in charge of the security, "Tom, are you sure he threw this box of canned food up here?"

The young man named Tom nodded, indicating that he was not hiding anything.

The crowd gasped when they heard this.

After all, Tang Zhen was more than 30 meters away from the wall. Furthermore, the wall was 10 meters tall. Under such circumstances, he was able to throw an entire box of canned beef up. Furthermore, the box did not seem to have any damage on the surface. This ability had already shocked them.

Moreover, from the looks of it, the other party was clearly fearless and completely ignored their weapons, as if these firearms were just toys.

In a short moment, the person in charge of the base had made a decision. This deal had to be made, and there could be no hesitation!

After hearing his order, someone immediately questioned, "That's not right. What if they're trying to test if we have fuel?"

Besides, even though the canned beef was sealed perfectly, who knows if it was poisoned!"

When the other survivors heard their companion's question, they all looked at the person in charge of the base, as if they agreed with his guess.

The person in charge of the base sneered and explained, "It's impossible for them to test how much fuel we have. After all, our base is limited in size and we can't store too much fuel.

Besides, if he really wants a lot of fuel, there are many places in this city where he can get it. Why would he be interested in our little stock?"

After seeing the survivors nod, the person in charge continued, "as for whether the can is poisonous or not, we just have to test it on a mouse before eating it, and the problem will be solved!"

Speaking up to this point, the person in charge of the base glanced at Tang Zhen and said in a low voice, "The other party obviously passed by here by chance and happened to run out of gas, which is why they came to find us.

What he did just now was clearly a warning for us not to let our thoughts run wild and to obediently carry out the exchange.

If he were to attack, it would definitely be a disaster for us!"

Clearly, the strength that Tang Zhen had displayed had caused the person in charge to recall those legendary genetic mutants. Once those perverts were provoked, this small survival base that was struggling on its last legs would be completely destroyed in an instant!

At this moment, two young men ran over with oil barrels, which were still stained with some fuel oil.

Looking at the appearance of this oil barrel, it had clearly been stored for a long time, and its surface was covered with dust.

because I couldn't find the oil barrels, I brought these two sealed barrels of fuel here. Did it delay anything?"

The two young men panted as they explained to the person in charge of the base.

"It's okay. Quickly tie the oil barrel with a rope and put it under the wall!"

Everyone heard this and quickly reached out to help. They quickly moved the two barrels of fuel to the bottom of the wall.

Tang Zhen had long since used the map view to see this scene. Upon seeing this, he faintly smiled and walked forward, carrying the two barrels of fuel in his hands.

"You should be glad that you made the right choice. This is your reward!"

As soon as he finished speaking, a few boxes of canned beef appeared out of thin air. Then, under everyone's frightened eyes, they slowly floated onto the wall.

It was as if a pair of invisible hands were controlling everything!

Tang Zhen's ability to conjure items out of thin air had caused these survivors to be extremely shocked. They began to rejoice that they had not provoked the other party. Otherwise, the consequences would be unimaginable!

The person in charge of the base was also dumbfounded. Looking at the boxes of canned beef at his feet, he suddenly felt that this was not real.

He was stunned as he watched Tang Zhen walk away. It was as though his heart was in his mouth. He did not know why he was becoming more and more nervous even though Tang Zhen had already left.

Perhaps it was because of the mysterious ability that Tang Zhen had displayed that made him suddenly realize that the wasteland world seemed to have begun to become more dangerous!

He returned to the car with the fuel, and Qiaoer, who was on guard with his gun, took the fuel tank and poured it all into the car.

"Mr. Tang Zhen, where are we going next?"

After Qiaoer finished refueling, he took out a crumpled cigarette box from his pocket and pulled out a cigarette.

He lit the cigarette and inhaled a deep breath of air. After which, he swept his gaze over his surroundings and asked Tang Zhen.

"Go straight in that direction!"

"I have a feeling that we'll be able to find new special items soon!" Tang Zhen pointed in a direction and said.

Qiaoer and Allie heard this and the scene of the cannibal tribe being massacred appeared in their minds. They could not help but tremble.

Even though the two of them were used to killing and death, and even killed many enemies and monsters with their own hands, they still felt a lingering fear when they thought of the scene of corpses and blood flowing like rivers in the cannibal tribe.

Fortunately, those man-eating thugs deserved to die, and that kind of death was just right for them!

Let's go, buddy! I can't wait!

Tang Zhen patted Qiaoer's shoulder. After feeling his body clearly stiffen, he immediately let out a "haha" laugh.

Then, like a magic trick, he took out a few strange leaves out of thin air.

You seem a little tired. Roll it up and take a few puffs. It'll help you refresh your mind!

Qiaoer looked at the strange leaf of unknown origin in Tang Zhen's hand and shook his head, "Thank you, but I don't touch those things!"

Clearly, he had some misunderstandings and thought that Tang Zhen had given him those addictive prohibited items.

what are you thinking? this is good stuff. You can't buy it even if you have money!

Tang Zhen smiled as he stuffed the leaf into qiaoer's hand and directly got into the car.

Qiaoer didn't hesitate this time. He directly stuffed the leaf into his pocket and patted it again worriedly.

With Tang Zhen's ability, he wouldn't use such a strenuous method to scheme against him. Hence, qiaoer had already determined that this leaf was something good.

Since that was the case, he might as well try it out!

Chapter 834 The target has appeared (1)

Walking in the wasteland world was actually a test of patience and perseverance, because it would become a kind of torture over time.

Unconsciously, a feeling of emptiness and loneliness would hit him, making him realize how lonely he was.

Those who didn't belong to the wasteland world would feel it even more clearly.

In fact, this world used to be extremely prosperous and noisy. But now, it was full of wreckage and no trace of people!

If it wasn't for the frequent appearance of parasitic beasts and zombies, Tang Zhen would have treated this place as a dead land!

Tang Zhen closed his eyes and sat in the front passenger seat. After carefully sensing the approximate location of the world's origin, he called Qiao er to stop the car.

"Take your things, we'll start walking from here!"

While he was speaking, Tang Zhen had already grabbed a rifle beside him and was the first to jump out of the car.

Joel and Allie looked at each other and quickly drove the car into an abandoned courtyard. They covered it with debris so that no one would drive it away after finding it.

At this moment, both of them were carrying mountaineering backpacks and had a lot of weapons and equipment on them. The combined weight was not light.

Fortunately, the two of them seemed to be used to walking with such heavy weights. Their performance was also very natural. They held rifles in their hands and closely followed Tang Zhen's footsteps.

The direction the three of them were heading in should be a long-abandoned farm.

The once neat fields were now covered by wild grass as tall as a person. From time to time, grains could be seen mixed in the wild grass, which were basically dry and without seeds.

Tang Zhen advanced in the direction that he had sensed. His mental energy was like an invisible sickle, cutting apart the weeds that were blocking his path. Moreover, each cut was over a hundred meters in length.

This way, it was much more comfortable to walk.

Tang Zhen continued to advance along the path that was opened up in the weeds. Soon, a forest appeared in front of Tang Zhen's eyes.

Tang Zhen glanced at the swing at the edge of the forest and discovered that the iron chain that hung the wooden board had long been rusty. A tattered doll was thrown to the side, and its entire body was covered with dust.

When Allie saw it, she went up and picked up the doll. She wiped it with her hand and said to Tang Zhen, "I used to have a similar toy, it was my favorite thing, but I lost it later!"

"I can give you one if you want, but you'll have to wait for a while!" Tang Zhen nodded.

Allie shook her head, tidied up the broken doll, and placed it on the swing that was swaying in the wind.

this kind of toy is no longer suitable for me. It's my partner now!

Allie pointed at the rifle on her and said in a serious tone.

Tang Zhen glanced at the girl with the rifle and found that there was a trace of melancholy in her eyes that could not be dispersed. There was even a heavy feeling on her brows.

For this young girl in her Prime, there was very little joy in her life, very little leisure time, and she couldn't even find a safe environment.

Every day, they would face hunger, fear, despair, killing, and the danger of death that could come at any time!

How could there be happiness in such a life?

All of a sudden, Tang Zhen felt a trace of pity for this girl. He suddenly had a thought and wanted to do something for this strong girl.

To him, it was not too difficult to provide a stable living environment for the other party. At most, it would just be a waste of time.

But to Allie, it was definitely something she had dreamed of the most!

Of course, this thought only flashed through his mind. The most important thing now was to find the origin of the world.

let's go. If everything goes well, I think we can return soon!

After Tang Zhen said this, he walked forward without turning his head back. His figure quickly disappeared into the forest.

Qiaoer and Allie saw this and quickly followed. They were afraid that they would be left behind by Tang Zhen.

After walking for about a kilometer, there was a clear gunshot, and at the same time, there were some men's roars.

After the three of them heard the sound, they stood still for a few seconds and quickly determined the direction of the sound.

"Be careful, the enemy has a gun, don't get hit by stray bullets!"

As they were in the dense forest, Tang Zhen's map view was limited and he could not observe everything. Therefore, he casually reminded them.

Allie and Allie nodded and loaded the bullets, ready to fire at any time.

As for Tang Zhen himself, he took the first step and quickly walked towards the place where the gunshot was heard.

He was sure that the host of the world's origin was in the place where the gunshot came from.

.....

In an open space in the forest, a few men with various weapons surrounded a man and two women.

At this time, the long-haired man was lying on the ground, an arrow had pierced through his abdomen, and his shirt was soaked in blood.

On his shoulder, there was also a wound. It was an obvious gunshot wound.

Beside the injured man was a woman in her forties and another woman in her late teens. She had long golden hair and average looks.

At this moment, the two women were sitting on the ground, coldly looking at the enemies who had surrounded them. There was not much fear on their faces, but more numbness.

A few dozen meters away from them, there was a thatched cottage, and in front of the cottage was a vegetable field.

However, the seedlings in the vegetable field had long been trampled and destroyed. The corpses of the two men were lying there, looking at the sky above their heads with dull eyes.

Judging from the attire of the two dead men, they should be the accomplices of the armed men!

A sallow and emaciated man was currently staring greedily at the young woman's emaciated body. Some parts of her body had already changed significantly.

"Stand up and go to that house!"

The emaciated man growled at the young woman in a low voice. He then raised the hunting rifle in his hand and motioned her to go into the thatched cottage.

The young woman glanced at the middle-aged woman and saw her nod slightly. She stood up unwillingly and walked towards the thatched cottage with her long legs.

From her expression, it seemed that this was not the first time she had experienced something like this. Thus, her emotions did not fluctuate violently, as if she had lost her soul.

The young woman paused for a moment when she passed by the injured, long-haired man who had his hand on his abdomen and his face as pale as paper.

Looking at the long-haired man who was in pain, the young woman turned her head expressionlessly and followed The Thin Man into the thatched cottage.

From a distance, one could see that as soon as they entered the thatched cottage, The Thin Man pressed the young woman on the table, reached out to pull off her jeans, and then impatiently took off his own.

As for the young woman who was pressed down on the table, she did not resist from the beginning to the end. It was as if she had lost consciousness, allowing the other party to vent his anger on her body.

The armed men looked at the White figures in the thatched house with a faint smile and a trace of expectation on their faces.

When the middle-aged woman saw the expressions of the armed men, her Haggard face revealed a flattering smile, and said to the leader of the strong men, "if you're in a hurry, I can help you solve it, but please let us go after you're satisfied!

"Bringing us back will only be a waste of food. If you kill us, it won't do you any good!"

The middle-aged woman glanced at the long-haired man on the ground and explained to the armed men, "His actions have nothing to do with us. Please don't take your anger out on us.

We just arrived here a few days ago. My daughter slept with him, and he gave us Food. Other than that, we have nothing to do with each other!"

The bald man nodded and motioned for the middle-aged woman to take off her clothes. The woman obediently took off her tattered coat.

Just as the armed men's eyes were fixed on the White body, and the bald man had already pointed a gun to his head and ordered the middle-aged woman to kneel, soft footsteps suddenly came from the forest.

Tang Zhen's group of three raised their rifles and directly appeared in front of these armed men!

Chapter 835 The confrontation in the forest _When they saw Tang Zhen's group of three suddenly appear, especially when they saw the three of them were equipped with excellent weapons and equipment, these armed men were immediately startled.

Without any hesitation, they turned their weapons around and locked onto Tang Zhen's group.

"Who are you? what do you want?"

The bald man didn't even bother to pull up his pants as he pointed the shotgun in his hand at Tang Zhen and asked in a fierce tone.

Although he had the advantage in numbers, he was unable to compare to Tang Zhen's group in terms of weapons. If they were to exchange fire, they would definitely be the ones at a disadvantage.

With the firing speed of the automatic rifle, it was enough to hit half of them in the blink of an eye. At that time, even if they didn't die, they would be seriously injured!

Hence, what he needed to do now was to do his best to avoid a direct conflict with Tang Zhen's group.

However, after Tang Zhen appeared, he completely ignored the bald strong man. Instead, he looked with interest at the middle-aged woman who had stood up from the ground and was hugging her clothes as she slowly retreated. A trace of light flashed across his eyes.

The middle-aged woman had already retreated a few meters away. She happened to pass by the injured man, and he grabbed her leg.

"I beg you, please help me!"

The long-haired man's face was pale. The massive loss of blood and the pain from the wound made his voice tremble when he spoke. At this time, he was looking at the middle-aged woman with a pleading look in his desire to live.

The armed personnel by the side noticed this scene. However, no one paid any attention to it. Instead, they continued to look at Tang Zhen's group with nervous expressions.

The body of the middle-aged woman who was in a hurry to escape stiffened. She looked up and glanced around. When she saw that no one was paying attention to her, she forcefully pulled her leg.

However, the injured man, supported by his desire to live, grabbed the middle-aged woman's calf tightly. He could not break free easily!

The middle-aged woman saw this and slowly squatted down. She reached out and touched the long-haired man's pale face.

"You gave us Food, and my daughter and I gave our bodies in exchange. I don't owe you anything anymore!"

As she said this, a smile bloomed on her face, which actually had a somewhat charming taste.

However, one of her hands was placed on the long-haired man's abdomen, and then she stabbed him.

"Go to hell!"

The long-haired man's body suddenly twitched, and the big hand that was holding the middle-aged woman's ankle loosened because of the pain.

The middle-aged woman immediately stood up and ran toward the thatched house.

He did not know whether it was because the thatched house was too far away or because the emaciated man was too engrossed, but he still did not notice the change outside.

The middle-aged woman had also rushed to the front of the thatched cottage. She picked up an iron fork in front of the door and stabbed it at the emaciated man's back!

“Pfft!”

With the sound of the Pitchfork piercing into flesh, the man suddenly froze and then knelt on the ground. His face was a twisted expression of pain and joy.

The young woman, who was lying on the table like a dead person, quickly stood up from the table, pulled up her pants, and grabbed The Thin Man’s weapon.

The middle-aged woman glanced at the people who were confronting each other in the distance. She didn’t even bother to put on her clothes and directly pulled the young woman and ran away.

However, after running a few steps, the two of them slowly retreated. Then, they saw two armed men with rifles pointing at them and walking out from the back of the thatched cottage.

Under the chase of the two armed men, the two women who had almost escaped were driven to the location of the injured man and kicked to the ground.

When the bald man realized that the number of people on his side had increased, and that they were no longer suppressed in terms of weapons, a confident smile appeared on his face.

“We found this place. That kid killed a few of our members, so he must die!

And his storage items will all belong to us!”

After saying that, the bald headed strong man pointed to the direction behind Tang Zhen and coldly shouted, get out of my sight now. Go back to where you came from, or I’ll kill you!

At this moment, the other armed men also laughed hideously. Some of them even looked at Ellie’s body with greedy eyes, the lust in their eyes almost unconcealed.

haha, this girl is not bad. Her legs are long enough!

“I can make her stay up all night, do you believe me?”

“Little girl, come and taste my water gun. I’ll make sure you feel like you’re on the verge of death!”

Foul language kept spewing out of their mouths, causing Allie to frown, but she did not lose her mind and shoot.

She was already used to this kind of situation. If it wasn’t for her father-like uncle protecting her, she would have become as numb as the young woman.

From the beginning to the end, Tang Zhen did not pay any attention to these armed personnel. He only kept sizing up the middle-aged woman as if he was studying something.

However, when the burly man opened his mouth to curse and curse, Tang Zhen suddenly turned his head and coldly looked at the burly man opposite him.

“Do you want to die?”

Tang Zhen’s hand suddenly grabbed at the air after his words sounded. Immediately, the air around the armed personnel began to become as viscous as asphalt!

At the same time, it was as if an invisible mountain had fallen on their arms, causing their arms, which were originally holding guns, to quickly fall.

“Pi Li pa la!”

The weapons fell to the ground one after another, making a crisp sound.

Those armed personnel all revealed a terrified expression. They looked at Tang Zhen as though they had seen a ghost. At the same time, they struggled and twisted with all their might in an attempt to break free from this restraint.

In the end, he was like an insect trapped in resin. The more he struggled, the stronger the binding force became!

Very quickly, their breathing became rapid, like fish out of the water, constantly trying to absorb the oxygen that they relied on to survive. However, in an environment filled with air, they felt that it was getting more and more difficult to breathe!

It was as if the surrounding environment had completely turned into a state of vacuum.

It didn't take long for these armed men to roll their eyes and their faces to turn blue and purple. They stood on the spot and died of suffocation!

This bizarre scene sent chills down Ellie's back, as if there was an invisible ghost in the forest that took the lives of these armed men.

Qiaoer and Allie knew about Tang Zhen's magical ability and weren't too surprised. On the other hand, the mother and daughter had a trace of fear in their eyes. It was obvious that they had already determined that Tang Zhen had used an unknown method to kill these armed men.

Tang Zhen casually withdrew the mental energy field he had released and allowed the corpses of those armed personnel to fall to the ground. He then looked at the two women by the side.

I saved your lives. I wonder how you will repay me? ”

As soon as Tang Zhen spoke, the two women and Joel and Allie were slightly stunned. They all looked at Tang Zhen with different expressions.

Could it be that Tang Zhen had taken a fancy to this mother and daughter and wanted them to sleep with him?

Allie pouted and glared at the mother and daughter coldly. Her brows were tightly knitted together, and no one knew what she was thinking.

That middle-aged woman stood up from the ground and laughed drily at Tang Zhen, my daughter and I can accompany you, you can play with us however you want, but I hope you can protect us!

Tang Zhen shook his head and coldly said, “don't worry. I'm not interested in your bodies.”

What I want is the life of one of you, mother and daughter. Do you understand?”

As soon as he said that, the mother and daughter's expressions changed drastically!

Chapter 836 The choice of death (1)

After hearing Tang Zhen's words, the mother and daughter's eyes revealed fear as they subconsciously took two steps back.

However, seeing Qiaoer and Allie pointing their guns at them, they didn't dare to run away. Instead, they stayed where they were, looking helpless.

Behind Tang Zhen, Allie wanted to speak but stopped. Qiaoer, on the other hand, was expressionless. It was as if everything that had happened had nothing to do with him.

"Sir, you can't do this. It's not fair!"

The middle-aged woman growled hysterically. Her naked body trembled violently. Her hair was disheveled as she looked at Tang Zhen with a trace of madness and unwillingness.

That young woman did not say a word. She only looked at Tang Zhen in a daze. She was just like a walking corpse. It seemed that even death was unable to cause her fear.

"You don't have the right to do that, there's no Yingluo."

Tang Zhen was unmoved. He merely coldly looked at her.

I'll say it again. Only one of you can live. You choose!

When the middle-aged woman heard this, she fell to the ground in despair. She happened to sit next to the long-haired man who had been shot in the abdomen by the arrow.

The middle-aged woman had witnessed Tang Zhen's methods before. She knew that if he wanted her life, it would be as easy as turning her hand!

However, the incomparably strong desire to live in the bottom of her heart caused her to be unwilling to give up the chance to live so easily. She was prepared to continue to beg Tang Zhen in order to obtain a chance to turn the situation around.

However, when she saw Tang Zhen's emotionless eyes, her heart turned cold. At the same time, she felt complete despair.

After half a minute of silence, the middle-aged woman raised her head and said in a hoarse voice, "Please let my daughter go, I can die!"

His daughter, who was originally expressionless like a puppet, now looked at her mother with a hint of surprise in her eyes. She clearly did not expect her mother to make such a choice.

Tang Zhen nodded and used an approving tone to say, "A wise choice, and my target is indeed you!

I've seen everything that happened earlier. In order to survive, you're willing to resort to unscrupulous means. Not only did you use your daughter's body as a trade, but you also attacked the person who tried to stop you without any hesitation.

However, to be willing to give up his own life for his daughter's life, this is indeed beyond my expectations!

Don't worry, I'm just using you for an experiment. Although it'll be painful, at least it'll save your life!"

The middle-aged woman's dark and gloomy eyes immediately erupted with a ray of hope when she heard this. When she raised her head and looked at Tang Zhen, her face still carried an expression of disbelief.

"Teacher, is what you said true?"

Tang Zhen was just about to nod his head when his expression instantly changed.

"Pfft!"

A crossbow bolt that had been polished to an unusually sharp point suddenly pierced through the middle-aged woman's plump chest. Scarlet blood slowly flowed down her snow-white skin, looking extremely glaring!

The middle-aged woman's face was filled with pain and disbelief. She slowly turned her head and found the long-haired man with blood in his mouth looking at her with a sinister smile.

"You're so silly!"

The middle-aged woman wanted to reach out to grab the long-haired man, but her body fell back and she died in an instant.

"Ah, Yingluo!"

The zombie-like young woman seemed to come back to her senses. She looked at the middle-aged woman's body on the ground, screamed, and suddenly picked up a machete.

The long-haired man's expression froze as the sharp machete cut into his forehead. More than half of the blade went in, and blood spurted out!

The long-haired man let out a blood-curdling screech as his body fell to the ground, and he soon lost all signs of life.

However, that strange and sinister smile was frozen on his face, and it did not disappear even after his death!

He was already on the verge of death from his previous injuries, and the sneak attack just now had exhausted the last bit of strength in his body. Therefore, after suffering another heavy injury, he died immediately!

The young woman did not stop there. Instead, she screamed loudly and slashed again and again. Blood and flesh fell as she raised the blade.

In the blink of an eye, the long-haired man's corpse was beyond recognition. His original appearance could not be seen at all!

"Bang!"

Qiaoer suddenly came up to the young woman and hit her neck with just the right force, causing the agitated young woman to faint.

“If I don’t knock her out, she might go crazy!”

Qiaoer explained. He then looked at the corpse on the ground and asked Tang Zhen, “What should I do next?”

Tang Zhen walked forward and casually picked up the middle-aged woman’s corpse. He then turned around and walked toward the thatched cottage.

“Clean up the battlefield, I’ll be back soon!”

.....

Tang Zhen threw the middle-aged woman’s body on the bed and sized up the thatched cottage.

The interior of the house was simple and crude. There were many messy things hanging on the wall, and some farm tools were placed at the door.

Because of the previous battle, the house was in a mess. There were still bullet shells and traces of blood on the ground.

After not finding anything that interested him, Tang Zhen’s line of sight once again stopped on the middle-aged woman’s body.

A wisp of the world’s origin aura was slowly escaping from the corpse. When the corpse completely rotted, the world’s origin would completely separate and find a new host!

That’s right, the middle-aged woman in front of him was the host of a portion of the world’s Origin Energy!

Tang Zhen had already confirmed this after seeing her. Therefore, he had been observing her every move.

It was unknown if it was due to the influence of the world’s origin, but this woman’s desire to survive was extremely strong, and she was even somewhat unscrupulous!

The choice of only one being able to live was actually a kind of test by Tang Zhen. He wanted to see if the world’s origin would jump out and interfere with the thoughts and actions of the host when the host’s life was in danger.

As a result, Tang Zhen was very disappointed because the world’s origin was completely indifferent to this. It was as if the life and death of the host had nothing to do with it.

Later on, this middle-aged woman was willing to sacrifice herself to save her daughter. When Tang Zhen was really prepared to let her live, the long-haired man who was seriously injured and dying suddenly launched a sneak attack and directly pierced the middle-aged woman’s heart with a crossbow arrow!

This scene had happened too suddenly. Even Tang Zhen was not on guard. He was even more unable to save the middle-aged woman’s life in this split second.

However, this would also save Tang Zhen a lot of trouble.

He pointed at the corpse on the bed, and a terrifying flame burst out, devouring the corpse in an instant.

Tang Zhen's body was not damaged in the slightest even though he was in the middle of the raging flames. There were no sparks in his surroundings.

As the body turned to ashes, the original hidden power of the world's origin quickly flew out of the sea of fire and was absorbed by the phone.

The mysterious star in the phone flashed again, then returned to normal.

Tang Zhen had already anticipated this scene. Hence, he turned around and left with a calm expression, allowing the flames to completely devour the thatched cottage!

Chapter 837 The bustling area by the sea (1)

"Follow this road and we'll reach City X!"

In the driving Jeep, Ai Li glanced at the old map in her hand and said to Tang Zhen, "Before the disaster, it used to be the country's second largest port city. It's said that it's still quite prosperous now, with a large number of survivors!

There are some major forces there, each with their own area of control, and each force is very powerful!"

Chyle, who had a wooden pipe in his mouth and was smoking while driving, added, "City X used to have a naval base. I wonder what it looks like now?"

I guess that place has already been occupied by some major forces. After all, there are many warships parked at the port, and those major forces will not easily miss it!"

Tang Zhen nodded. However, his gaze did not leave the book in his hand from the beginning until the end. He seemed to be deeply attracted by the contents within.

After a while, Tang Zhen finally raised his head and said to Joel, "If you remember the location of the military base, we can take some time to take a look. I'm very interested in those warships!"

Joel nodded, but he was a little confused. What was so nice about those iron lumps floating on the sea?

At this moment, a soft moan was heard, and the young woman who was leaning on the back seat of the Jeep was slowly waking up.

"Sir, she's awake!"

Allie said to Zhen Tang. After Zhen Tang nodded, she looked at the young woman and asked her how she felt.

The young woman looked around and quickly returned to her numb state, but she knew to smile stiffly at Allie and thank her in a hoarse voice.

As for Tang Zhen and qiaoer, they were directly ignored by her. They didn't even say a word of thanks.

Tang Zhen didn't care about this. In fact, if it wasn't for Allie's insistence, Tang Zhen and qiaoer didn't plan on bringing this woman along. At most, they would only leave behind weapons and a certain amount of food.

In fact, doing this was already very benevolent and quite commendable. After all, the world was dangerous, and there were not many people who could do this!

But Allie didn't agree. In her opinion, this young woman had suffered such a blow, and her mental state seemed to be problematic. If she was left alone in the forest, she wouldn't be able to live for more than a few days!

So the best way was to take her with him first. They didn't lack food and transportation anyway.

Tang Zhen only chuckled at Ellie's insistence and no longer objected. Qiaoer, on the other hand, revealed a bitter smile. He was afraid that Ellie would one day be implicated by this cheap mercy.

But at the same time, he felt a sense of relief. Even after going through so many bloody and ugly scenes, Allie's nature was still not corrupted. She still had a sense of pity and sincerity for the weak!

In this man-eating wasteland world, he didn't know if he was lucky or unlucky to have such a personality.

Tang Zhen swept his eyes over the young woman who had just woken up. After seeing that she did not seem to have any unusual movements, he turned his eyes to the front.

Tang Zhen seemed to be ignoring her, but he still did not lower his guard. This was because he knew that this young woman's mental state was extremely dangerous.

Before this, he had already told qiaoer to always pay attention to this woman, in case she did anything crazy in despair.

She was absolutely not allowed to touch any weapons.

When they encountered a relatively safe survival base, they would send her there. Even if Tang Zhen and the others were extremely benevolent, they would also not have to spare any attention to take care of her.

Moreover, following Tang Zhen in action was not a good thing. One's life could be in danger at any time!

.....

At the edge of City X, on the top of a dilapidated building, two men with gray blankets on their bodies were constantly observing the road into the city.

Beside them, there was a walkie-talkie and a rifle with a scope. Looking at the attachment and modification technique, it was obvious that these two rifles were made by professionals.

With a hard compressed biscuit in his mouth, a man with a headscarf turned around and glanced at his companion.

Seeing that this guy was still flipping through a tattered colored magazine, and all he could see was her plump breasts and buttocks, the man in the headscarf laughed. "Carl, do you need a pretty girl to relieve your fire?"

When this mission is over, I'll bring you to the black street. I'm sure you'll find something you'll like there!"

The man named Carl was young, no more than 20 years old. He looked tall and thin, with a shy smile on his face.

After hearing what the man in the headscarf said, Carl smiled but didn't say anything. He wouldn't explain why he was reading the magazine. He wasn't looking at the naked girls, but the background they were in.

All kinds of venues, warm sunshine, and beautiful scenery-this was the living environment that Carl yearned for!

For Carl, who was struggling in the wasteland world, this kind of life scene was like heaven!

Unfortunately, Carl also knew that this scene could only exist on paper. Who knew if he could experience such a life in his lifetime?

Just as Carl was immersed in his endless fantasies, the man's voice rang in his ear. He quickly stuffed the magazine into his backpack and raised the telescope beside him.

"Attention, a Jeep has appeared on Road 1. Preliminary judgment suggests that it has been modified and equipped with an automatic machine gun!"

When the man in the headscarf spoke, the walkie-talkie in his hand was still connected. It seemed like he was informing his companions in other places.

Very quickly, another man's voice was heard from the walkie-talkie, " fire the gun first to signal the police. Figure out his purpose for coming. If he's a customer, let him in!

The man then mumbled, " "This bunch of people who get all high and mighty just because they have a bit of money, don't they know how to enter from the main entrance?

Remember to remind him not to take this road next time, in case he encounters mutated monsters and mines!"

"Received!"

Hearing that, the man in the scarf shot a look at Carl, who raised his sniper rifle and aimed at the metal road sign in front of the Jeep.

The sound of the bullet hitting the Jeep would definitely alert the driver and make him stop the car.

If they were regular customers, they would automatically stop at the designated area without the need for warning.

If the other party didn't stop, they would drive into the minefield and might be blown to pieces!

The Jeep in front of him showed no signs of stopping. It seemed like it was his first time here and did not know the rules.

However, just as Carl was about to open fire, the Jeep suddenly came to a stop. Then, under the gazes of Carl and the man in the headscarf, a man in a black trench coat jumped out of the vehicle.

"I know you're observing from the roof, but don't worry, we don't have any ill intentions. We're just here to spend!"

Tang Zhen shouted at the location where Carl and the other man were hiding. At the same time, he pointed at the car and a box of canned beef was carried out.

Carl and Carl looked at each other and nodded slightly. Then, they picked up the walkie-talkie and said something.

"Little brat, hurry up and come out to welcome the guests!"

"Received!"

Soon, a little boy ran out of the ruins not far away and welcomed Tang Zhen.

At this moment, he was waving a small red flag in his hand. There was a fist dripping with blood drawn on it, and it looked very lifelike!

Chapter 838 Blood Fist's control area _Tang Zhen looked at the boy who was waving the small flag and slightly shook his head.

Looking at his age, he was at most 12 or 13 years old, but he had to risk his life to work, and could lose his life at any time.

After all, among the survivors who came here, there were definitely brutal and bloodthirsty people. It was easy to imagine how dangerous and difficult it would be for a child to deal with such a person who killed without blinking!

At this moment, the little boy had already arrived in front of the Jeep after making several turns. He first used a scrutinizing gaze to size up Tang Zhen before opening his mouth to warn him.

follow me. Remember, don't take the wrong path, or the mines will explode!

The little boy was wearing a tattered leather jacket and had a military knife on his waist. Although he was young, he gave off the smell of an old fox when he opened his mouth.

He had been the guide here for two years. Compared to the other doormen at the entrance, the little man was already considered a senior and was very experienced!

During this period, he had come into contact with all kinds of consumers and developed a pair of "fiery golden eyes". So at this time, he could be sure with one look that the yellow-skinned tall man in front of him was very likely to be a rich man!

If he was satisfied, he might be able to get a considerable tip!

As expected, what happened next confirmed little Joker's guess.

Tang Zhen casually took out two cans of beef and directly threw them into the little fellow's arms. He smiled and asked, "Then can you tell me what I need to pay attention to when I enter this place?"

Little ghost sensed the heavy harvest in his arms. His originally tensed little face immediately revealed a trace of a fawning smile. He raised his head and said to Tang Zhen, "If you want to buy weapons, you can go to the store in the blood Fist headquarters. It's a little more expensive, but the quality is guaranteed.

Of course, you can also go to the revenge Tavern. There are a lot of weapons there, and if you mention my name, Little Jerry, you might even get a discount!"

Tang Zhen smiled and said to little ghost, is that so? it seems like you're quite famous here? "

Little Jerry smiled and didn't continue the topic. He continued, " "If you want to have fun, the casinos and nightclubs in the control area are good choices. The service there is absolutely first-class, and you will definitely not want to leave!

I suggest you go to the Nightingale bar. The girls there are all beautiful, gentle, and considerate. If you are generous enough, you can definitely enjoy the treatment of an Emperor!"

Speaking up to this point, Little Jerry's face actually revealed an outstanding smile. He looked at Tang Zhen with a gaze that all men understood, making Tang Zhen speechless.

This little brat, he really wanted to kick him!

When Little Jerry said this, he seemed to have thought of something and said to Tang Zhen, " "It's just fun, but remember to always pay attention to how much money you have in your pocket, in case you can't afford it.

Blood Fist will never be kind to anyone who owes money!"

Tang Zhen nodded and continued to ask, "If I want to issue a mission, and the wider the scope, the better, what do I need to do?"

Little Jerry glanced at Tang Zhen and explained, " then you can go to the bounty hunter Association. There are many means of communication there, and they have branches in many places. As long as you can afford it, there will definitely be many bounty hunters working for you!

All the questions that should be asked had been asked. Tang Zhen smiled with satisfaction, took out a can of beef and threw it to Little Jerry, and casually asked, " "Then what is the currency used here?"

Feeling the heavy can of beef in his arms, Little Jerry's mouth opened wide. He replied without hesitation, " "Food, cigarettes, bullets, medicine, all of them can be used as currency!

However, the main currency in circulation is still nuclear bottle caps and pre-war gold coins!"

Tang Zhen revealed a pensive expression when he heard this. His brows slightly furrowed as he turned around and sat back in the car's seat.

Little Jerry performed his duty and began to lead the way in front, guiding Tang Zhen and the others to avoid the minefield that often changed positions.

At this moment, everything that he had seen and heard along the way was continuously surfacing in Tang Zhen's mind. He could not understand what kind of connection this foreign world had with his original world.

This was because he realized that in this world, there were many things that were similar to the movies and games in his original world, but they were not exactly the same.

Originally, he thought that Umbrella was the master of the world and everything would be related to the plot of the film. But after a few days of collecting information, Tang Zhen found that he had thought too simply!

Umbrella did exist, and he had personally opened the prelude to the end of the world, but many things had happened during this period, which were completely different from the original film.

For example, a country suddenly launched a nuclear bomb and was ready to destroy a country completely occupied by zombies in an attempt to stop the zombies from spreading.

However, in the process of operation, a fatal error occurred. Of course, it could also be a man-made disaster, resulting in the target being changed to another position, which triggered the death hand system!

Although it was controlled at the critical moment, some nuclear bombs were still successfully detonated. In the continuous "Fireworks" explosions, the entire world was reduced to wasteland, and the number of survivors was impossible to estimate!

The zombies and parasites that almost destroyed the world had a much higher survival rate than humans due to their special physiques and characteristics as undead creatures!

Moreover, after the radiation mutation, some of them had mutated and wandered between countless ruins and wilderness. Their combat power had also become stronger and stronger!

Tang Zhen was currently unable to confirm whether the female lead he was looking for before he was teleported was still there or whether she had died in a nuclear explosion.

Of course, these were not the key. What Tang Zhen was most concerned about was whether the world's origin would change and appear in another special form after all these twists and turns.

This was because according to the dream city master's notes, although the world's origin was a type of special energy, when the creatures of the world it belonged to encountered a mass extinction, this special energy with the ability to evolve and create would produce a special state and become extremely active!

At this time, under the influence of the world's natural source, there would be more powerful creatures that were more adapted to the new environment. They would replace the original creatures and become the Masters of this world!

This process might last for many years, or it could be completed overnight. After all, the power of the world's origin was extremely magical. Otherwise, the cornerstone platform would not have issued the invasion mission and let the cultivators in Loucheng plunder the world's origin!

If the matter really developed to this stage, then it would undoubtedly be much more troublesome for Tang Zhen to obtain the world's origin!

Moreover, there was one more thing to pay attention to. That was, all the scattered world origins were actually one, and there was a special sense of connection between them. As the world origins were

gradually plundered, the remaining world origins were very likely to have a sense of crisis and take a fierce counterattack at the same time!

Therefore, when the cultivators of Lou city invaded the other world, the later it got, the more difficult it would be to plunder, and often they would not be able to complete the task.

The reason for all this was that the world's origin had begun to launch a counterattack!

At this time, they could either continue to persist or use the stored world origin to fill the gap. Only then would they have the opportunity to return to the world of loucheng and obtain the corresponding reward.

If he couldn't continue, and didn't have enough world origin reserves in his hands, then he could only admit that he was unlucky!

Chapter 839 The Super "money printing machine" _At this time, under Little Jerry's lead, Tang Zhen and the others' cars had already passed through the minefield. Then, they passed through a slightly dilapidated Street and came to a huge wall.

The wall was made of concrete fragments and various metals, filling up the empty space in the middle of a large building. It was carefully planned and finally formed a huge safe zone!

With the resources and manpower of the wasteland world, it would definitely take a lot of time to complete such a project.

Perhaps only those large powers could do this, normal survival bases couldn't even think about it.

It was said that the organization called the blood Fist controlled this place. Through business and other means, they lived a very comfortable life in this wasteland world!

Following the arrival of Tang Zhen and the rest, the thick iron gate on the wall slowly opened. Soon after, a luxurious scene filled with wasteland style appeared in front of Tang Zhen.

There was also music and women's laughter, which made the originally silent atmosphere suddenly lively.

Compared to other places, the streets in the control area of bloody fist were much tidier. Many men and women in tidy clothes were walking on the streets with leisure and pleasant looks, as if they didn't have any anxiety at all.

Compared to the wasteland outside, this place seemed to be a completely different world!

Under the gazes of several members of the blood Fist, Tang Zhen drove the car into the control area. Then, he paid the fee for a temporary stay here. There was a total of ten boxes of canned beef!

He didn't have a nuclear bottle cap in his hand, so he could only replace it with canned beef.

After paying the fee, Tang Zhen's group of four could stay here for ten days. Once the time was up, they would either continue to stay or directly leave!

Of course, this was only the cost of staying here. If he wanted to do other things, he would have to pay other costs!

Because he didn't understand this world, Tang Zhen didn't understand the use of nuclear bottle caps as currency.

However, he did not dwell on this issue. Moreover, using this kind of item as a currency was actually beneficial to him.

After all, with the existence of the magical mobile application, it was absolutely easy to create a currency that was currently impossible to produce!

As long as he had enough materials, Tang Zhen could make as many bottle caps and gold coins as he wanted. Therefore, money was not a problem for him at all!

Even if there was no use, Tang Zhen could also use other means to get money. However, that would inevitably cause a huge fluctuation.

He didn't want to cause any more trouble and affect his next plan.

The next step would be to see if the bounty hunter Association in the blood Fist's control area could help him collect information on the world's origin. This was the only method that Tang Zhen could use at the moment.

After all, he teleported here alone and couldn't use his full power due to some restrictions. It was impossible for him to travel the entire wasteland world by himself.

Even if he really did so, it was destined to waste a large amount of time. Tang Zhen simply could not afford to delay.

Therefore, he had no choice but to use the power of the natives to search for them. He only hoped to get a satisfactory result!

After parking the car in the parking lot, the four of them took their respective weapons and equipment and began to stroll on the wide street.

Qiaoer and Allie had always lived in remote areas and had never entered the area controlled by such a powerful force, so they felt like country bumpkins entering the city. Everywhere they looked was very fresh.

That young woman continued to remain silent. She merely followed Tang Zhen and the rest. Both of her eyes were staring straight ahead. No one knew what she was thinking about.

Along the way, some of the residents of the controlled area had a look of familiarity when they saw Tang Zhen's group. It was as if they had seen such a scene often.

However, there were also some people who looked at him with ridicule and contempt, like the residents of a big city looking at a country bumpkin. They didn't know that in the wasteland world, they were just rats that could lose their lives at any time!

Tang Zhen was too lazy to pay attention to this kind of gaze. After he figured out the location of the rental house, they headed straight for a building that was over forty stories.

After conversing with the two members of the blood Fist at the entrance, Tang Zhen rented a room on the third floor. The area was about two hundred square meters, enough for the four of them to live in!

Due to the power shortage, the elevators were not functional, so the higher the room, the cheaper it was.

Tang Zhen was rich and generous, so he directly asked for the house on the ground floor, leaving the blood Fist members with the image of a nouveau riche.

Under the guidance of the members of Blood Fist, Tang Zhen and the others went in and took a look. They found that the house was still clean, but the furnishings looked a bit simple.

However, in the wasteland world, this kind of home decoration was very rare. Most importantly, there were a large number of Blood Fist members guarding this place, so it was absolutely safe!

Judging from Allie and qiaoer's reactions, he could tell that they were very satisfied with the environment.

Moreover, after the mutation a year ago, a large number of zombies and parasitic beasts left the city and disappeared into the deep mountains and forests, ordinary bandits didn't dare to provoke these survival bases controlled by large forces. It also became safer and more lively!

With a temporary place to rest, the next thing to do was to go to the bounty hunter Association to post a mission.

However, before this, Tang Zhen still needed to make some preparations. This was because, other than the canned beef that he had seized in passing, he was currently penniless.

As for qiaoer and Allie, because they were located in a remote area, they didn't usually use the currency used by these major forces. Therefore, compared to Tang Zhen, the two of them were even poorer!

Therefore, the most important task was to obtain enough money to use as a deposit for issuing the mission.

Tang Zhen called qiaoer, who was observing the surrounding environment through the window, over and asked him to go to the bounty hunter Association to inquire about the situation, figure out the specific operation process, and whether they had the ability to issue a mission on a large scale.

Allie, who couldn't stay idle, immediately pulled the young woman and followed after him. She wanted to take a good look at the street to satisfy her curiosity.

After entering Blood Fist's area, looking at the busy streets, Allie's hidden love for shopping was triggered.

Tang Zhen repeatedly warned her to pay attention to her safety before allowing her to play.

At this moment, Tang Zhen was the only one left in the room. With a wave of his hand, the curtains automatically closed, causing the light in the room to become even darker.

Spreading out his palm, an old nuclear bottle cap appeared in Tang Zhen's hand. This was the main currency used by those large forces!

Although he felt that using such an item as currency was somewhat ridiculous, Tang Zhen knew that this kind of bottle cap was actually extremely difficult to imitate. This was because it was made of a very special alloy material!

In today's wasteland world, this kind of bottle cap couldn't be made at all. Coupled with its special meaning, it was chosen to be used as currency!

As he thought of this, Tang Zhen quickly activated the [super laser engraving machine] and scanned the bottle cap in his hand!

The current application was actually an upgraded version. In the absence of raw materials, it could be purchased with brains!

Rather than calling it a super laser carving machine, it would be better to call it a super manufacturing machine. After all, that would be more appropriate!

With the existence of this thing, it was equivalent to carrying an all-purpose manufacturing factory with him. Many not-so-complicated items could be manufactured through it, and it also saved a lot of storage space for Tang Zhen.

As long as he had enough brains and time, it was not impossible for Tang Zhen to create an armored Army!

However, there were also limitations to this application. The more precise the object was, the slower the manufacturing speed. Moreover, Tang Zhen must not leave during this period of time. Otherwise, the carving and manufacturing would be immediately terminated!

Of course, for this application, creating a simple nuclear cap was absolutely an easy task.

Under Tang Zhen's gaze, the application completed its scan in just a second. At the same time, it began its production.

After Tang Zhen paid for the materials, a thin special alloy plate suddenly appeared on the ground. At the same time, the pattern on the nuclear bottle cap was quickly sprayed on it.

Due to Tang Zhen's deliberate setting, these patterns were not brand new and bright. Instead, they had a kind of old and dull taste. There were also some random scratches and dents on them.

When the patterns were finished, an invisible force appeared and struck the iron sheet, instantly creating countless round holes.

The round iron sheets that had been pressed and cut out became finished products in the blink of an eye and were drawn to the corner.

The nuclear bottle cap that was used as money in the wasteland world was easily manufactured by Tang Zhen just like that!

Chapter 840 The young woman's choice (1)

After seeing that the nuclear bottle cap was successfully manufactured, Tang Zhen casually sucked one over to check.

He found that the production process was extremely perfect, and there was no trace of any new production at all. It was exactly the same as the nuclear bottle cap used here!

Tang Zhen completely relaxed when he saw this scene.

The next step was the long production process. Tang Zhen no longer stared at it. Instead, he sat cross-legged and began to practice the mental energy cultivation method that he had just obtained.

In the living room in front of him, the number of nuclear caps was also increasing, gradually piling up into a small mountain.

At this moment, Tang Zhen, who was sitting cross-legged in the room, had a face as still as water. His breath was long and drawn out, just like a silent rock.

However, a surge of mental energy surrounded his body, forming a protective shield-like object that completely isolated him from the outside world's noise interference, causing him to be in an extremely quiet environment.

If one harbored evil intentions toward Tang Zhen and took the opportunity to launch a sneak attack, one would definitely be seriously injured the moment their body came into contact with this protective barrier, and their spirit would instantly collapse!

This was a self-preservation method to ensure that the cultivator would not be harmed while fully focused. After all, Tang Zhen, who was currently immersed in his cultivation state, was completely unable to sense the changes in the outside world!

At this moment, Tang Zhen was in the middle of cultivation. He could even hear the sound of his own heartbeat, the sound of his blood flowing, and any sound that was emitted from his body!

It was also in this extremely special environment that cultivators could use an ability similar to inner vision to observe the spiritual power hidden in their bodies and control it to constantly circulate, so that it could be cultivated and strengthened!

It was a very mysterious state that could not be described with words.

Tang Zhen's figure had unknowingly become faintly discernible, as though he could disappear at any moment. If one were to observe carefully, one would discover that this was because his body was becoming transparent.

If an ordinary person were to stand in front of him, they might even ignore his existence, even if he was sitting right in front of them.

Mental energy cultivation was also a kind of cultivation method that evolved toward the energy form. Tang Zhen's mental energy cultivation method originated from the energy race. Therefore, this situation was especially obvious!

It turned out that the secret mental energy technique that Tang Zhen was cultivating was a benefit that he had obtained from the ghost bank. Moreover, he had only obtained it for a short period of time.

As the Holy Dragon City continued to grow, the accumulation of the brain Pearl also became more and more abundant. The ghost bank's deposit limit, which was originally an astronomical figure to Tang Zhen, could now be easily achieved!

It was also because of this that when Tang Zhen asked for the secret spiritual power cultivation technique, the female manager of the ghost bank only raised one condition before she passed the secret spiritual power cultivation technique to Tang Zhen.

After Tang Zhen obtained it, he had once tried to cultivate it and discovered that its effects were extremely good. It had indeed greatly increased the strength of his spiritual energy.

Given time, the quantitative change would produce a qualitative change. At that time, even if Tang Zhen didn't use any cultivation skills, he would be able to crush the enemy with just his mental energy!

Unknowingly, two hours had passed. Tang Zhen had also exited from his cultivation state.

Sweeping a glance at the nuclear bottle cap in the hall, Tang Zhen found that it actually filled half of the living room and was more than half a meter tall!

the number of nuclear bottle caps is almost there. I'll just wait for Qiaoer to come back from his investigation before I research the mission!

After closing the application, Tang Zhen waved his hand and put away the nuclear caps. He then took out a bottle of water from the storage space and drank it in one breath.

In this world where radiation existed in many areas, the value of pure water was very high, especially in the vicinity of these cities that had been affected by nuclear explosions. Pure water could even be used as currency!

As soon as he put the bottle down, he heard footsteps coming from the door. Qiaoer pushed the door open and walked in, followed by a sulky Allie.

As for the young woman, she did not return with them!

After seeing Tang Zhen sizing her up, Allie pursed her lips and sat on the sofa. She placed her hands between her knees and said to Tang Zhen, "That woman found a job and doesn't plan to come back!"

Tang Zhen was startled when he heard this. He did not expect that the woman who was like a walking corpse would actually be so powerful. She had actually found a job the moment she left the house!

After all, this was the wasteland world, and it was extremely difficult to find a job.

Although Tang Zhen had the intention of letting the young woman stay here ever since he entered this safety zone, he did not expect that the other party would already find a place for him to stay before he even took action!

He couldn't help but feel curious, so he casually asked, "Not bad, what's your job?"

Allie pouted, as if she didn't want to say anything, and turned her head to the side.

Qiaoer laughed when he saw this. He explained to Tang Zhen, "Just now, after Allie went out with that woman, when they passed by a shop, the woman suddenly stopped."

Allie only found out after asking that she had seen someone she knew, and that person had recognized her.

I have to say, this is too much of a coincidence!”

Tang Zhen nodded. It was indeed not easy to meet someone familiar in this wasteland world.

after knowing that her acquaintance was working here, the woman suddenly waved to Allie and me, saying that she wouldn't be coming back and was going to stay and work with her acquaintance!

Tang Zhen's brows slightly raised when he heard this. He asked qiaoer, are the people she knows men or women? are they the women standing on the street? ”

“Her acquaintance is a woman, and it's indeed one of those women standing on the street!”

Qiaoer only heard a soft snort. Allie had buried her head into the sofa and covered her head with a cushion.

“As expected, no wonder!”

Tang Zhen came to a sudden realization. A strange expression appeared on his face before he shook his head.

“Everyone has their own aspirations, and we have no right to interfere with other people's choices. At the very least, compared to the outside world, this place is undoubtedly much safer!”

Tang Zhen looked at Allie on the sofa and said in a calm tone.

Speaking up to this point, Tang Zhen once again looked at qiaoer, indicating for him to tell him what he had heard.

“The bounty hunter Association here is indeed very powerful. There are many experts in it, and they have branches in many large survival bases!

if we want to issue a mission, we only need to pay a certain handling fee and one-third of the mission reward. We can issue any type of mission!

Of course, after the mission is issued, we must have someone stay here so that we can keep track of the progress of the mission.

Especially when someone has completed the mission and confirmed that there is no mistake, we must appear in time to pay the originally set bounty!”

Tang Zhen nodded his head when he heard this. It seemed that there was basically no problem with the process of issuing the mission. In that case, the next thing to consider was whether or not someone could complete this mission!

Fortunately, Tang Zhen had plenty of time and didn't need to waste time here. He only needed to let qiaoer and Allie wait.

He could then return to the world of loucheng and return to this place when the time was right!

Compared to the pain-in-the-neck return price of the cornerstone platform, the phone's price wasn't cheap either. However, with Zhen Tang's current net worth, he could completely afford it!

However, before he left, Tang Zhen was still prepared to collect a few more world's origins. He wanted to see how much world's origins that mysterious star had to absorb before there would be an obvious reaction!

"Let's not waste any time. Qiaoer, come with me to the bounty hunter Association immediately to handle the matter of issuing the mission!"

Tang Zhen stood up and looked at Allie, who was still sulking. He smiled and said, as for you, stay here obediently and don't go looking for that woman again. Do you understand? "

Allie pulled away the cushion on her head and sat up. She pouted at Tang Zhen and said,"Why?"

"You think it's good for her, but the other party may not think so. Instead, she will suspect that you have ulterior motives and try to get rid of you!

Therefore, the best thing to do is to not disturb each other and live in peace!"

After saying this, Tang Zhen turned around and walked forward. Before he left, he threw out another sentence.

"Don't you understand, girl?"

There's only one chance, and we've already given it to her. And since she's made a choice, she has to take responsibility!"

Tang Zhen turned around and walked out of the door with qiaoer, leaving Allie alone on the sofa in a daze.
