

## **Alternate 881**

Chapter 881 collection

Tang Zhen's purpose for coming here was very clear. First of all, he wanted to see if what happened in reality was consistent with the plot in the film.

After confirming this, if he encountered similar special worlds in the future, he could make use of the convenience of knowing the future direction in advance to carry out a plan.

The second thing he had to do was to take away all the equipment and research materials from the research base.

Every time he was teleported to this world, he had to consume a large number of origin stones. This was not a small amount of wealth, so he had to make up for it no matter what.

Relying on the powerful function of the [ all-purpose electronic kit ], Tang Zhen had already grasped the accurate terrain of this place. He was also clear about the functions of each house, so the cleaning work could be considered smooth.

Even if zombies kept appearing, it didn't affect his movements at all, because those disgusting guys couldn't even get close to him.

Wherever it passed, the heads of the zombies exploded one after another. It was a cruel sight!

With the strength of a two-star King tier, he was practically an invincible existence here.

Even more powerful biochemical weapons, such as terrifying creatures like the crawlers, were similarly unable to cause any damage to Tang Zhen.

Every time they tried to attack, they would be directly blasted apart by Tang Zhen, turning into a pile of minced meat!

Unknowingly, Tang Zhen had already collected quite a number of instruments and equipment. He had practically collected all the scientific research information in the entire experimental base.

After making sure that he didn't miss anything, he clapped his hands in satisfaction and walked toward the room where the smart computer was stored.

Tang Zhen was also very interested in the smart computer that controlled the operation of the entire experimental base.

Tang Zhen had never seen such an existence before. He did not know when he would meet such an existence again.

Therefore, this item could not be missed. In fact, it was the most valuable item in the entire experimental base!

However, just as he passed through a corridor, Tang Zhen unexpectedly bumped into those mercenaries.

At this time, they were being chased by a group of zombies. They were all in a sorry state, and several of them had signs of being scratched and bitten by zombies. It was only a matter of time before they turned into zombies.

A few of them were missing, probably killed by the zombies!

As for the woman in red, she was safe and sound, and there was not much panic on her face.

Perhaps it was because of Tang Zhen's reminder, but a few people who should have died long ago were still alive and kicking. However, if they were unable to escape from these zombies, they would ultimately be unable to escape death!

At this moment, after seeing Tang Zhen, these people were first stunned before their faces revealed a pleasantly surprised expression.

Tang Zhen's strangeness and power caused them to be extremely afraid. The two sentences he left behind before he left had even saved their lives at the crucial moment.

Therefore, the current Tang Zhen was no different from a life-saving straw in their eyes!

"Sir, please help us!"

The woman in the red dress shouted at Tang Zhen. At the same time, she raised her gun and killed a zombie that was pouncing over!

The others looked at Tang Zhen at the same time with a trace of begging in their eyes.

forget it, I was just doing it in passing. I'll help you again!

As Tang Zhen spoke, he waved his hand at the ferocious zombies. A terrifying pressure descended, followed by a series of explosive sounds.

The heads of the zombies that were chasing after them exploded at the same time, and they fell to the ground!

The ground, the walls, and everyone's bodies were all covered with blood, flesh, and yellowish-white brain matter, giving off a pungent smell.

This bloody and disgusting scene almost made everyone puke.

However, what happened next almost made their eyes pop out.

After Tang Zhen snapped his fingers, a pile of firearms appeared out of thin air in front of everyone. There were also boxes of bullets piled up beside them.

Such a magical scene made them feel like they were dreaming. However, because they were too nervous and tired, they didn't reveal too exaggerated of an expression.

However, their dazed eyes could still prove how much shock they had suffered in their hearts!

"I'll give you these weapons, and the price you'll have to pay will be armadillos."

Tang Zhen beckoned to one of the men. The backpack on the man's body directly flew up and landed in Tang Zhen's hand.

That man revealed a shocked and furious expression. However, he did not dare to say anything in the face of Tang Zhen, who had a strange technique. His eyes were filled with unwillingness.

This was because only he and Tang Zhen knew what was inside the backpack.

"You'd better leave as soon as possible, or you'll stay here forever!"

After saying this, Tang Zhen no longer paid any attention to the stunned crowd as he walked towards the room where the artificial intelligence motherboard was stored.

"Outsider, please leave this place immediately, or I will attack you!"

A little girl's voice suddenly sounded just as Tang Zhen was walking forward. Her words were filled with a warning tone.

The voice obviously came from the AI, Red Queen, who was in control of the Beehive experimental base. However, compared to the calmness it had when facing the mercenaries, there was an obvious hint of panic in its tone.

In this experimental base that was filled with cameras, nothing could escape the Red Queen's surveillance. Therefore, Tang Zhen's performance just now was not missed by her.

According to the combat strength that Tang Zhen had displayed, even if the virus evolved to its ultimate state, it would be unable to fight against Tang Zhen!

This had already exceeded the limits of human abilities. If he had to be classified as a human, he could only be considered a Superman!

This person was extremely dangerous!

With the Red Queen's super analytical ability, she could easily judge that Tang Zhen's current goal was to come for her!

After understanding Tang Zhen's plan, the Red Queen, who had a strong sense of self-protection, immediately warned Tang Zhen and tried to stop him from moving forward.

In the face of the Red Queen's warning, Tang Zhen smiled disdainfully and continued to walk forward.

Seeing that Tang Zhen was ignoring her, the Red Queen's voice became urgent and even had a trace of the sharp tone unique to a little girl.

"Stop advancing, or you will die!"

However, Tang Zhen continued to ignore it. He was getting closer and closer to the area where it was located.

The situation was getting worse and worse, and the Red Queen had realized that danger was right in front of her.

It was also at this moment that the Red Queen began to lure the zombies and biochemical beasts to attack Tang Zhen desperately for the sake of self-protection!

At this moment, Tang Zhen's path was filled with zombies. They dragged the broken bodies and roared unconsciously as they pounced on Tang Zhen.

The creeper and zombie dog-like biochemical beasts jumped around agilely like a group of annoying flies as they attacked Tang town one after another.

"Do you think you can stop me with such a method?"

"What a joke!"

As soon as his voice fell, Tang Zhen's entire body suddenly rushed forward like a prehistoric monster. He directly collided with the dense zombie crowd.

Everywhere he passed, broken limbs flew everywhere. In the blink of an eye, a bloody tunnel was plowed out by Tang Zhen!

The blood and flesh that piled up in the path of the sword had actually submerged the feet of the people.

The mercenaries who happened to see this scene from behind were already dumbfounded.

This was because Tang Zhen's current appearance was like an all-conquering vehicle that was charging forward. Regardless of whether it was a biochemical monster or a rain of bullets, none of them could stop him from advancing!

It didn't take long for him to reach his destination.

"I beg you, please let me go!"

Looking at the Red Queen that was constantly begging in front of him, Tang Zhen activated the [ all-purpose electronic kit ]. He hacked it in an extremely domineering manner and then shut it down completely!

Chapter 882 shock

Tang Zhen had always been very satisfied with the magical ability of the [ all-purpose electronic kit ].

Although it couldn't have the same thoughts as an ordinary person like after the brain became red, it was still able to perfectly execute the orders given by Tang Zhen!

Nothing seemed to be able to stop this application. For example, the Red Queen in this experimental base was completely vulnerable in front of the [ all-purpose electronic kit ]. It was easily hacked and shut down!

With its existence, Tang Zhen was no different from a Tiger that had grown wings!

Besides, this was just an underground experimental base controlled by a smart computer. The only things that could be considered powerful were those biochemical monsters!

To the indigenous people, this kind of monster was almost impossible to resist. In front of Tang Zhen, it was extremely weak and couldn't even withstand a single blow!

It could be said that this experimental base was an unguarded existence for Tang Zhen. He could come and go as he pleased!

Now that he had taken the Red Queen's motherboard, there was no need to stay in this experimental base. Therefore, Tang Zhen turned around and left without hesitation.

As for those mercenaries who were still fighting with the biochemical monsters, Tang Zhen was too lazy to care about them. Whether they lived or died would depend on their own luck.

Moreover, Tang Zhen had already saved them more than once. He could be considered to have done his best.

However, because of Tang Zhen's previous reminder and the weapons he gave them, in addition to the fact that Red Queen, who had tried to kill everyone, was shut down by Tang Zhen, those who were supposed to die might really be able to escape this place.

.....

After Tang Zhen left, another group of elite mercenaries from umbrella appeared and captured all those who were lucky enough to escape. They then disappeared into the night in an aircraft.

No one knew what would happen to them, but one thing was for sure, and that was that umbrella would not let them go easily.

It did not take long for a hard disk that stored the videos of the honeycomb laboratory to be taken out and sent directly to a more hidden underground base.

And a disaster that spread all over the world had also begun!

There were less than a hundred people in the world who knew the precise location of the umbrella corporation's headquarters!

In the conference room of the headquarters, when the video of the honeycomb experimental base was played, everyone present was shocked, and then their faces showed fanatical expressions!

Their gazes were all focused on Tang Zhen and did not move in the slightest.

The ability to blow up a biochemical weapon's head from a distance and instantly conjure up a gun was not an ability that ordinary people could possess!

After seeing the magical ability displayed by Tang Zhen, the person in charge of the base did not have any hesitation. He immediately called for a high-level meeting to discuss how to deal with this matter.

In this world, the umbrella Corporation had great control, and their shadow could be seen in every aspect.

Just the strength he displayed on the surface was enough to shock people, not to mention the things he was hiding.

It didn't take long for the meeting to end, and the relevant information was then sent to another secret base.

A cunning rabbit had Three Burrows. Umbrella had several secret bases, and this was one of them. It was also the most confidential one. Compared to the Beehive experimental base, this place was almost impenetrable!

If the biochemical weapons developed by the Beehive experimental base could be explained by science, then the research object in this "apocalypse" base could not be described with common sense!

Spirit bodies, special bloodlines, the legendary gods, and the illusory immortality were all the research subjects of this experimental base!

The meteorites that fell from the sky, the special items found in ancient tombs, and the strange creatures in dangerous places would be collected in secret and sent to this laboratory.

However, some things only existed in legends. It was impossible to prove it with some rumors and clues!

Therefore, for a long time, the experimental base did not achieve any results.

However, just two years ago, when a few young people were exploring a hidden deep hole, they accidentally discovered a strange and beautiful gem.

A few young men took the gem out of the deep hole, but it was discovered by the umbrella Corporation when they were inquiring about the appraisal.

The researchers at the umbrella Corporation had discovered through experiments that this strange gem had an extremely magical power. When they tried to channel the energy from the gem, they had inadvertently created a real spirit!

This matter made the management of the umbrella Corporation extremely excited. They immediately used their own power to erase and block the news about the gem, and at the same time, they sent professionals into the deep cave to mine it.

After several days of sleepless work, the staff collected nearly 10000 pieces of that magical gem from the deep hole. When they were all moved to the surface, everyone present was conquered by the bright light emitted by the gem!

If Tang Zhen was able to see these gemstones, he would definitely be able to recognize them at a glance. These were precisely the origin stones that he currently needed the most!

This umbrella guy was really lucky to have found this kind of magical treasure that ordinary people didn't know about!

When the origin stones were secretly transported back to the apocalypse base, umbrella mobilized his elite troops and began to conduct experimental research regardless of the cost, finally making a breakthrough!

They had successfully developed a device that could absorb and transform the energy of the origin stone, and it was named "divine armor" by umbrella.

As long as one wore the divine armor, even a weak old man could easily kill ten strong men!

Some users with special physiques even had abilities similar to supernatural powers. They could control fire, ice, metal, and earth with a wave of their hands!

The people who wore the armor were called “the seers” by umbrella, and each of them had terrifying combat power!

Moreover, the stronger the user’s physique was, the more powerful the combat power they could display. They were almost no different from the legendary God of War!

Seeing this, the higher-ups of the umbrella Corporation were naturally ecstatic!

In order to cultivate more seers who could perfectly use the power of the divine armor, umbrella began to develop a super virus, trying to use it to change the physique of ordinary people!

The experiment was going well, and a group of fate sorcerers had also displayed combat power that made umbrella quite satisfied.

A single person could fight against an entire Army. This was something that could only be imagined in the past, but a seer wearing a divine armor was able to do it!

And this was only the power of one person. If there were hundreds or thousands of similar heaven bearers, who could resist them?

Ambreira’s ambition suddenly burst out. They were no longer willing to be restricted, and they began to plan to control the whole world!

Tang Zhen’s sudden appearance confused the people in charge of the umbrella. It was only now that they realized that there were humans in the world who could have magical powers without the divine armor!

To them, this was a delightful discovery, but at the same time, it was a significant threat. It could even affect their plans to rule the world.

He had to completely control this dangerous existence, or else the manager of umbrella would have a hard time sleeping.

Therefore, after the company’s high-level meeting ended, a huge net targeting Tang Zhen had been quietly laid out!

#### Chapter 883 The battle in the carriage

The umbrella Corporation, which had almost controlled the entire world in secret, possessed unimaginable power. When they used all their strength to track Tang Zhen, they quickly found his traces.

At this moment, Tang Zhen was seated on a train and was preparing to head to a certain naval base in this world.

Because the energy in this world was thin, it was extremely difficult to replenish it once it was consumed. Therefore, Tang Zhen did not use his cultivation skills and chose to travel like an ordinary person.

In fact, this wouldn't take up much time. Tang Zhen could use this opportunity to see the research results of the honeycomb laboratory.

Tang Zhen was very interested in this kind of biochemical weapon. If it was used properly, it would bring great benefits to the Holy Dragon City.

If it was used in the mission of invading other worlds, it might have an unexpected effect, because a wasteland world was far easier to conquer than a normal world!

However, there was a drawback to this method. Its destructive power was too strong. Once it spread, it was very likely to cause the awakening of the world's origin, which would then lead to some changes.

The world that was originally impossible to cultivate suddenly became one that could cultivate, and a large number of experts appeared one after another!

The originally gentle and harmless animals had mutated overnight and turned into terrifying monsters. They were brutal and cruel, and they regarded all living creatures as their enemies!

This was the result of forcibly changing the world's rules after the world's origin was awakened in danger. Although there were no small drawbacks, it was nothing compared to the danger of destruction.

Even so, this kind of biochemical weapon still had great value, especially for the cultivators in Loucheng, who represented destruction. It was a rare weapon of war!

At this moment, a wave of rhythmic footsteps sounded out and stopped beside Tang Zhen.

A couple-like man and woman sat opposite Tang Zhen. After sweeping their eyes over him, they continued to hold a map and discuss something.

Listening to the content of their conversation, it should be about the expenses of a certain tourist attraction.

Tang Zhen swept his gaze over the two of them. He turned his gaze outside the car window and seemed to be deep in thought.

"Sir, which country are you from?"

The man opposite him suddenly opened his mouth and asked Tang Zhen with a smile.

Tang Zhen turned his head around when he heard this. He smiled at the young man and softly said, my country is far from here. You can't have heard of it. It's useless to ask!

When the young man heard this, he revealed an embarrassed expression and forced a smile. How is that possible? You must be joking, right? "

The woman beside him saw this and handed over a map. "I have a map here. You can point out your country. I don't believe there are any countries in this world that I don't know about!"

As she spoke, the woman passed the map over to Tang Zhen.

However, just as the map was about to approach Tang Zhen, a ball of flames suddenly exploded from the map and directly pounced towards Tang Zhen.

The couple, who originally had a harmless expression, suddenly changed their expressions at this moment. They launched an attack toward Tang Zhen at lightning speed.

The swinging fist carried a terrifying power that could even shatter a hard rock!

However, just as their attacks were about to land on Tang Zhen's body, the two of them were surprised to discover that Tang Zhen actually did not make any movements. He merely looked at them coldly.

It was like a tyrant Dragon watching two rats attacking it with a mocking look!

Especially the coldness in his eyes, which made the two of them shiver.

"Bang!"

A muffled sound was heard. When their attacks were ten centimeters away from Tang zhenyue, they were blocked by an invisible barrier and could no longer advance an inch!

"Your noses are really sensitive, you actually found me so quickly!"

Tang Zhen coldly snorted. He extended his hand and gently waved. Soon after, an invisible blade cut out horizontally and slashed towards the waists of the two people!

The man and woman who were attacking Tang Zhen turned pale with fright. They dodged and retreated without the slightest hesitation, avoiding Tang Zhen's casual attack.

However, the seats behind them had been cut in half and fell to the ground with the vibration of the train!

The other passengers screamed and rushed to the other carriages like crazy, not daring to stay for a moment longer.

the target is in danger. Launch a full-on attack immediately!

The man and woman, who were lucky enough to escape with their lives, immediately took out their communication devices and roared. Then, they looked at Tang Zhen, who was slowly standing up, with a face as if they were facing a great enemy.

"Bang Bang Bang!"

A series of loud sounds could be heard, followed by the rapid arrival of figures, who either knocked the doors of the train flying or tore the metal sheet of the windows apart, and quickly rushed into the carriage.

In the blink of an eye, the carriage was already full of holes!

Over a dozen men and women with fierce expressions surrounded Tang Zhen and launched an incomparably sharp attack at the same time!

“Interesting, but it’s still like throwing an egg at a rock!”

Tang Zhen coldly laughed as he threw a punch at the man closest to him, and his fist collided with his.

“Crack!”

arghh! the strong man screamed as his entire arm exploded. Then, his body exploded into a cloud of blood mist.

With just one move, he had killed the enemy!

The enemy was dumbstruck, while Tang Zhen revealed a puzzled expression.

“With such speed and strength, why is his body so weak?”

there must be a problem here. Let me try again!

As he said this, he threw another punch at a woman with tattoos all over her face.

A look of despair appeared on the woman’s face. As she wailed, a hole the size of a human head was blasted into her body, and she died with an unwilling expression.

“Damn it, how can this guy be so abnormal?”

After becoming heaven bearers, everyone had gradually become arrogant, but at this moment, they felt like they had seen a ghost.

They had never thought that there would be an existence in this world that was even more powerful than them. He could actually kill them so easily!

A huge sense of loss rose in their hearts.

Even if they had the advantage in numbers, the difference in strength could not be made up for with numbers.

For a time, everyone began to hesitate. They stood on the spot and did not dare to move. They were afraid that they would become the next target to be killed if they got close to Tang Zhen!

After obtaining power far beyond ordinary people, these fate bearers had yet to enjoy the feeling of being on top of the world, so how could they easily risk their lives?

However, even if the fate sorcerers did not dare to attack, it did not mean that Tang Zhen would let them go.

It turned out that after killing the two heaven bearers, Tang Zhen was surprised to find that these people were wearing a strange armor!

With a casual wave of his hand, the battle armor that was covered with blood and minced meat floated up and was sucked into Tang Zhen’s hand.

After a little observation, Tang Zhen surprisingly discovered that there was an origin stone hidden on this armor!

Tang Zhen's expression became increasingly solemn as he looked at the battle armor in his hand as though there was no one else around. He quickly let out a soft sigh.

I didn't expect origin stones to be used like this. It seems that ambreira's strength is far stronger than I thought!

After storing the blood-stained damaged battle armor into his storage space, Tang Zhen raised his head and glanced at the heaven's missionaries, who had different expressions, and the corner of his mouth revealed a sinister smile.

"Today's Yingying."

Another punch was thrown, and another heaven's seer was turned into a mist of blood. At the same time, the divine armor that the heaven's seer was wearing was put into Tang Zhen's storage space.

"You guys ..."

A terrifying heavenly might-like mental power was released and enveloped the three heaven's bearers. Before they could struggle and resist, Tang Zhen squeezed them until they bled from their seven orifices and their heads exploded!

With a wave of his hand, another three pieces of divine armor fell into Tang Zhen's hands.

Looking at the terrified fate sorcerers, Tang Zhen's figure was like lightning as he circled around the fate sorcerers who were trying to escape!

When Tang Zhen's figure appeared again, all the heaven bearers froze on the spot and then fell to the ground!

"Don't even think about leaving this place!"

With a wave of his hand, seven to eight pieces of divine armor flew out from the corpses on the ground like tired birds returning to their nests and were kept by Tang Zhen in his storage space.

Tang Zhen glanced at a certain area outside the window before slowly getting off the train that had already stopped.

Since they had accidentally discovered traces of the origin stone, their following journey would have to be slightly altered. Tang Zhen, who was determined to obtain this origin stone, naturally had to figure out its origin. After which, he would store it all in his bag!

Chapter 884 Explosive power and the Red Queen

Such an intense battle naturally could not be hidden from others.

After Tang Zhen left, over a dozen police cars immediately rushed over and quickly surrounded the car.

However, looking at the car that was torn to pieces and the horrible-looking bodies on the ground, the police employees were all shocked and confused.

Damn it, could it be that this place was attacked by prehistoric monsters? otherwise, how could such a disastrous scene appear?

Just as they were feeling suspicious, a group of men in Black appeared with mercenaries. They said they were umbrella's employees and took over the crime scene.

In this world, umbrella had always been so overbearing!

Then, the umbrella corporation's employees removed the entire carriage and quickly sealed it. A large transport helicopter flew over and lifted the carriage, which was riddled with holes, and transported it away!

As for where the carriage and the bodies of the fate bearers would be transported to, even the police employees had no idea!

This news immediately spread, but it did not attract anyone's attention. This was because something else that shocked countless people happened.

The peaceful Raccoon City was suddenly filled with the Living Dead. They filled the streets and continuously chased and bit the panicking citizens. The streets were filled with bloody corpses and hordes of zombies.

Even though the police and the military had tried to suppress and kill them, they still couldn't control the chaotic situation. Instead, they were all killed by these almost immortal monsters!

The entire Raccoon City had gone out of control. The military had blocked all the roads out of the city and stopped all residents from leaving.

Panic and chaos quickly spread, and all sorts of news, both true and false, were spread out. Countless people turned their gazes to this place, afraid that a terrifying disaster would happen around them.

It was also under such circumstances that the battle between Tang Zhen and the fate sorcerer was like a wave in the ocean, not causing any waves!

At this moment, Tang Zhen was sitting in a heavy off-road vehicle. He was looking through the information collected by the [ all-purpose electronic tool bag ] in an attempt to find information related to the origin stone.

However, he didn't know if it was on purpose because he couldn't find any information about it!

At this moment, Tang Zhen could not help but feel some regret. Back then, he should have left one or two of them alive to see if he could interrogate them to find out the origin stone's origin.

However, the feasibility of this method was also not high, because even the seers wearing the godly armor would not be able to know the specific information about the origin stone!

Only a few people knew about such a highly confidential matter.

Therefore, Tang Zhen would still have to find the final answer himself.

However, this method, which was like searching for a needle in a haystack, would undoubtedly waste a large amount of time. Therefore, Tang Zhen had to choose a method that was even more time and energy saving.

So what method should he use?

Tang Zhen pondered for a moment. He seemed to have recalled something and casually took out an item.

This was the Red Queen's motherboard. Perhaps with its identity and abilities, it might be able to find out some secret information that could not be found on the internet.

The supercomputer used to carry the Red Queen had also been brought out by Tang Zhen. Now, he only needed to assemble and start it!

Tang Zhen, who thought of this, did not hesitate. He drove his car and found a hidden location. He connected the backup power supply of the Super computer and the machine started up automatically!

"Come out, I know you're secretly watching me!"

Tang Zhen looked at the monitor in front of him and indifferently said.

On the computer screen, a little girl suddenly appeared and screamed at Tang Zhen.

"Damn it, what the hell is this place? I feel like I'm going to suffocate to death!"

Without the internet connection and unable to control any peripheral equipment, the Red Queen was like a human who had her limbs cut off and only her head remained. She could think normally.

But this kind of feeling could really drive people crazy!

The Red Queen was like that at this moment. She had human emotions and could not tolerate the feeling of being limited in every way and unable to control her fate!

Tang Zhen looked at the flustered and exasperated Red Queen on the screen. He softly laughed and reached out to knock on the display.

falling into my hands means that your life and death are in my hands. What kind of treatment you will receive in the end will depend on your performance.

Tang Zhen's expression carried a trace of overbearingness and cruelty as he looked at Red Queen, who was staring at him with an indignant expression.

if you don't cooperate, I'll remove all the equipment you use to communicate with the outside world. Then, I'll keep the machine on and let you stay in the endless darkness forever!

The Red Queen revealed a frightened expression, then she waved her fist at Tang Zhen fiercely. "You're crazy!"

However, her expression softened very quickly. She pitifully looked at Tang Zhen and used a helpless tone to say, "Tell me, what do you want to know? I'll tell you everything I know!"

"This is right!"

Tang Zhen took out a Divine Spirit armor and showed it to Red Queen. "Have you seen this before? I want to know its origin."

"This is the God's armor, a top secret experimental product of umbrella. It can give ordinary people the Super Combat power of a God of War!"

The stronger the body, the more power the godly spirit armor can unleash!”

Tang Zhen smiled disdainfully when he heard this, “war god?” Are you kidding me?”

“Do you think everyone is as perverted as you?”

Hmph! the Red Queen snorted and continued, “ people who wear this kind of divine armor are called seers. They have physical fitness far beyond ordinary people. Basically, they have been transformed by the virus!

The true mission of the honeycomb laboratory is to create a stronger virus and then screen out the more powerful heaven’s bearers!”

Tang Zhen nodded. He had already guessed what the Red Queen had said. At the same time, he was even more clear that this was a method of overdrawing one’s vitality. Those so-called heaven bearers would probably not be able to hold on for a few years before they suddenly died!

The principle behind it was not much different from the Super soldiers who were modified using the brain.

Therefore, Tang Zhen was only interested in the divine armor. He didn’t need to use it. Even if he wanted to use it, he would need to modify it!

Although the divine armor didn’t exist in the film, it didn’t mean that it didn’t exist. Tang Zhen wasn’t naive enough to think that the film that was projected into the original world would reveal all the secrets of this world!

After figuring out the origin of the divine armor, the surface of Tang Zhen’s armor was removed, revealing the origin stone embedded inside.

“Now, tell me, what is this thing?”

The Red Queen looked at the origin stone hanging in front of her, and a trace of fear flashed in her eyes. She shook her head and said, “ I don’t know the exact origin of this gem. I only know that it was found deep underground and has a rather magical power.

It is because of its existence that the divine armor can give people unimaginable power!”

At this point, the Red Queen hesitated for a moment before continuing, “ Umbrella used this gem to not only create the divine armor, but also used the special energy of the origin stone to create a special energy life!”

Seeing Tang Zhen’s interested expression, the Red Queen continued, “ The appearance of this special life form originated from the principle of the fifth state. In addition, the gems have different elemental energies, which satisfied many harsh conditions, and the experiment was successful!

This kind of energy body with extremely low temperature is controlled by the dead umbrella employees. It has a simple mind and many incredible abilities, so you must be careful!”

When Tang Zhen heard this, he looked at Red Queen with a strange look and asked, "Your words sound like you're reminding me not to fall for the schemes of those spirit bodies. Could it be that you're really that kind?"

The Red Queen rolled her eyes in a very human-like manner and said angrily, "I'm just afraid that after you die, no one will be able to get me out of that damn storage place you used!"

Tang Zhen nodded his head and secretly thought, "so that's how it is. I was wondering why this two-faced loli would be so kind."

Chapter 885 -hidden, assault

"Do you know where the gems are kept?"

Tang Zhen thought for a moment before asking.

"I'm not sure. This Power Gem is extremely important to the umbrella Corporation. I don't think many people know where it is stored!"

Tang Zhen nodded. This was within his expectations.

Thinking about it, it made sense. The origin stone that contained magical energy must have been very important to umbrella, and he wouldn't let others get it so easily.

Even if it was used for experiments, the management would be quite strict. As for the security personnel responsible for transporting the origin stones, they probably didn't know what they were transporting from the beginning to the end!

It seemed that he would need to use some special means to find the origin stone.

"Then how many people in the higher-ups of the umbrella Corporation, especially those who might know where the power Gems are stored?"

I only know two of them. This is the general information about them!

As soon as the Red Queen finished speaking, an image popped up on the monitor. It showed the photos and some basic information of two of the higher-ups of the umbrella Corporation.

Tang Zhen nodded his head in satisfaction. After obtaining this information, he had a direction for his next action.

"By the way, how did you know about these things?"

Tang Zhen suddenly thought of something. He looked at the red on the monitor and asked in a puzzled manner.

In order to prevent confidential information from being leaked, the entire honeycomb base's network was isolated from the outside world. By right, it was impossible for the Red Queen to know this information, which was obviously top-secret.

"I, Lao Ai, only used some small tricks!"

The Red Queen explained and added, "You also know that it's very boring to be locked up in one place for a long time!"

Clearly, the Red Queen wasn't being honest. She had used some unknown method to steal the top-secret information of umbrella.

Tang Zhen nodded and did not ask anything else. Instead, he randomly pointed at the operating machine.

The Red Queen's expression changed. She wanted to say something, but the power had been turned off by Tang Zhen. Its image also disappeared from the monitor.

After storing the equipment in front of him into the storage space, Tang Zhen jumped into the off-road vehicle and drove into the distance at lightning speed.

A few hours later, on the outskirts of Georgopol, an off-road vehicle was slowly driving into the city.

help me search for information on Kalan and confirm his schedule!

Tang Zhen ordered the [ all-purpose electronic kit ] and at the same time, he glanced at the noisy city outside the window.

It wouldn't take long for this place to become a ruin. In the days to come, it would become a paradise for mutated zombies and parasites!

The people who were trapped in this city might not know that it was this steel jungle that they were so proud of and enjoyed that it had completely cut off their escape route and ultimately killed them here!

After all, the more populated a place was, the more chaotic it would be when the disaster came, and the faster the zombies would spread!

Of course, these things had nothing to do with Tang Zhen. Even if he wanted to care about it, he had to get the teleportation gate to send him to the time before the disaster broke out!

If he didn't completely wipe out Ambrella, the world would still develop in a fixed direction, and sooner or later, it would be reduced to ruins!

However, in reality, even if he had mastered the method of entering this world at different times, Tang Zhen would not interfere. This was because not only would he suffer an even stronger rejection from the power of the natural order, but the wasteland world, which was convenient for collecting the world's Origin Energy in the future, might also not appear.

To Tang Zhen, he was too lazy to do such a strenuous and unrewarding thing!

At this moment, the [ universal electronic kit ] had finished searching and organizing the information, and it listed Kalan's specific schedule and route.

According to the analysis results, he would appear somewhere in the city in 15 minutes to participate in a commercial event.

Naturally, he had to take advantage of this opportunity to obtain the information he wanted from him.

Tang Zhen's hand flicked the steering wheel as he suddenly accelerated and charged forward like a sharp arrow.

Tang Zhen's off-road vehicle moved through all kinds of dangerous and difficult movements in the rolling traffic. Its speed quickly reached its limit.

In a city with heavy traffic, this way of driving was extremely rare, so many drivers along the way stuck their heads out, wanting to see who this guy who was playing with a flying car in the city center was.

Driving so fast, wasn't he afraid of a car accident at the intersection?

In fact, the traffic lights were already completely under Tang Zhen's control. The nearest road had also been selected. Every time Tang Zhen's car passed the intersection, the green light would be on!

Therefore, Tang Zhen arrived at the destination without any obstacles.

Creak!

The off-road vehicle stopped steadily on the side of the road. Tang Zhen, who was wearing a black trench coat, jumped out of the car and then took a pair of sunglasses and put them on.

After sweeping his gaze over the surrounding environment, Tang Zhen walked toward a building not far away.

At this time, there was already a group of people standing in front of the building. They seemed to be welcoming someone. The security guards in black suits next to them looked serious and vigilantly looked at the passers-by around them.

Just as a bodyguard saw Tang Zhen and nervously observed him, a row of luxury cars slowly drove over from not far away.

The people who had been waiting were invigorated. They straightened their backs and their faces were filled with warm and kind smiles.

The car door was opened and some bodyguards jumped out and blocked the car. Their hands were close to the place where the weapons were placed.

At the same time, a few men and women of different ages also got out of these cars and shook hands with each other.

The security guard who had been staring at Tang Zhen earlier seemed to have sensed that something was wrong with Tang Zhen. He was about to walk over and ask when his eyes suddenly widened.

Tang Zhen, who was originally empty-handed, suddenly rushed towards the VIP seats. At the same time, he pulled out two automatic rifles from under his trench coat.

The bodyguard had no time to think about anything else. Without hesitation, he reached for his waist and tried to take out his weapon to stop the attack.

However, at this moment, Tang Zhen grinned hideously at him and directly pulled the trigger!

A clear and rapid gunshot suddenly sounded. The three security personnel in front of Tang Zhen were shot until blood spurting out and they directly fell to the ground.

The moment the gunshot rang out, the people nearby knelt down in fear. They were protected by the bodyguards as they got into the bulletproof cars beside them.

Although Tang Zhen was using an automatic rifle, he was unable to penetrate this high-grade bulletproof car. Even changing to a large-caliber sniper rifle was quite difficult!

At the same time, the security guards also began to attack Tang Zhen. Bullets rained down on Tang Zhen's position.

Easily avoiding the bullets that could no longer cause him any harm, Tang Zhen quickly counterattacked and knocked down all the gunmen in his field of vision.

Then, like a ghost, he suddenly approached one of the bulletproof cars and pulled it back.

The driver looked at Zhen Tang as if he had seen a ghost. He never dreamed that there would be someone who could control a specially modified car with just one arm!

Tang Zhen, who had pressed down on the car, completely ignored the frightened eyes of the surrounding passers-by. He directly threw an automatic rifle that had been emptied of bullets at the car window.

"Crack!"

The bulletproof glass that could withstand a sniper rifle was easily pierced through by an automatic rifle and the driver was nailed to the driver's seat!

He turned around and walked to the side of the car. Tang Zhen suddenly stretched out his hand and pulled. He actually forcefully pulled off the car door that weighed over 300 Jin.

In the back seat of the car, a white-haired man was looking at Zhen Tang with a frightened expression.

He was the target of Tang Zhen's trip, one of the higher-ups of the umbrella Corporation, Caland!

Just as Tang Zhen pulled open the car door and saw Kalan, a burly man sitting beside him suddenly threw a punch at him.

Tang Zhen seemed to have been prepared for this. He quickly pulled back the bullet-proof door in his hand and used it to block in front of him.

"Bang!"

After a muffled sound, a clear fist mark half an inch deep was left on the heavy car door!

Chapter 886 address, return

"A heaven's Messenger? go to hell!"

The door in Tang Zhen's hand swept across and directly hit the brawny man who had half his body out of the car. Immediately, the sound of bones breaking and tendons snapping could be heard. After that, the brawny man was thrown far away like a tattered cloth bag.

“Alright, now we can sit down and have a good talk!”

Tang Zhen, who was sitting beside Kalan, faintly smiled at him and greeted him as if he was an old acquaintance.

“Who are you? what do you want?”

At this time, Kalan was very calm. Perhaps he knew that he couldn't escape from this man who could easily kill a heaven's Messenger, so he didn't even think about escaping.

Once he angered the other party, his life might really be in danger.

“It doesn't matter who I am, but I can tell you clearly that I'll give you ten seconds to think about it. Tell me where the power Gems that power the divine armor are.

If you tell me, I'll let you go. If you don't, I'll kill you!”

Tang Zhen swept his eyes over the security personnel and police employees who were slowly approaching. He used a calm tone and said, “The time starts now!”

Kalan took a deep breath and stared straight at Tang Zhen, as if he was thinking about something.

I know you and I'm interested in you. You don't need the divine armor to have extraordinary powers!

Kalan suddenly opened his mouth and said. A trace of inquiry flashed in his eyes as he continued to speak to Tang Zhen, “Maybe we can work together. You know how awkward the umbrella Corporation is.”

“You still have three seconds, okay? Time's Up!”

Speaking up to this point, Tang Zhen raised his palm in front of Kalan, and an extremely sharp Demon Dagger appeared out of thin air.

Feeling the chill from the dagger, Kalan couldn't help but swallow his saliva. He didn't need to guess to know that this dagger could easily cut his neck open!

“Alright, you win. I can tell you!”

The threat of death that was so close to him finally made Kalan give in. He then told him an address.

After hearing Kalan tell him the location, Tang Zhen revealed a trace of surprise and coldly snorted, “Old man, are you kidding me?”

Kalan shook his head and explained, “It's indeed in a place. I have no need to lie to you!

In fact, we have to move it immediately. After all, it's not safe there right now. I think the Special Forces should be arriving soon!”

“I'll believe you just this once, and only this once!”

Tang Zhen kept the dagger, got up, and walked out of the car. He turned around and patted Kalan's shoulder, saying, “You'd better be telling the truth, or I guarantee you'll die a terrible death!”

As soon as he finished speaking, Tang Zhen's figure suddenly disappeared, leaving behind a shocked security guard and a gloomy-looking Caland.

After a few seconds of silence, Caland took out his communication tool and said in a deep voice, "I'm Caland. Inform all the members of the Council.

The target has just appeared and is heading to the location of the energy gem. I suggest that you immediately mobilize the purification Knights and the spirit Army to surround and capture him!"

There was a moment of silence on the other side of the communicator, then the voices of several men came out.

"I agree!"

.....

At this moment, Zhen Tang had already ended the teleportation and was now in the outer region of Raccoon City.

Raccoon City was in chaos. All the roads had been blocked, and countless people had gathered at the edge in a panic, trying to escape.

However, in the face of the steel-like defensive blockade and the cold soldiers, the desperate citizens were unable to escape. They could only protest loudly and cry.

However, there were helicopters in the sky from time to time, quickly flying over the city that was covered in thick smoke.

He hadn't expected that Ambreia would put the origin stone in Raccoon City, so he had to use the map teleportation function to teleport here.

Fortunately, he had set off from Raccoon City and had passed through a known area, which was why he could use this energy-consuming skill.

In this way, a quarter of the energy accumulated in his body was directly consumed. Only the heavens knew when he would recover in this world with thin energy.

However, time was of the essence and Tang Zhen did not have much of a choice. He had to grab the origin stone before the Special Operation Group!

As he gave the order, a map of Raccoon City appeared in front of Tang Zhen. The location that Kalan had pointed out was clearly marked.

Soon after, Tang Zhen's figure flashed. He swept forward like lightning and directly crossed over the tall metal protective wall.

After entering Raccoon City's restricted area, an apocalyptic scene appeared before Zhen Tang's eyes. Cars were thrown everywhere, and from time to time, incomplete corpses could be seen on the ground. Blood and organs were all over the place.

Groups of zombies in different clothes were wandering on the streets, attacking any creature that was not of the same kind!

From time to time, survivors would appear, screaming and running desperately, trying to avoid these man-eating monsters. Then they would hide in a certain area and shiver, praying for the arrival of the Savior.

Unfortunately, they didn't know that this place had been completely abandoned. It wouldn't take long for this place to be razed to the ground by nuclear bombs!

Tang Zhen did not have the time to care about these people who were going to die. Instead, he directly ran toward the target area.

With his current speed, even if he were to walk, he would still be astonishingly fast. If someone were to look up at the sky at this moment, they would see a shadow rapidly passing through the high-rise buildings!

Not long after, Tang Zhen had already arrived at the target location. It was a six story white building!

This was also one of umbrella's properties. It looked ordinary, but there was something else inside.

There was also an underground space under the building, which was built around the same time as the honeycomb.

The original purpose of building this underground space was purely to store some valuable items, so the defense level was even higher.

According to what Caland had said, the origin stone was stored in this place.

Tang Zhen swept his eyes over the surrounding environment before directly rushing towards the building. He did not encounter any obstruction during this period of time.

Obviously, when the crisis broke out, all the staff in the building had fled. The hall was now a mess, with traces of blood splattering and dragging everywhere!

After spreading out his mental energy, Tang Zhen searched for a while and quickly arrived in front of a hidden elevator.

Although Raccoon City was in chaos and the power supply had been cut off, the building had a backup power supply, so the elevator could still function normally.

After opening the elevator, Tang Zhen stretched out his hand and swiped across the elevator. Soon after, a hidden panel popped out. There were a number button and an LCD screen on it.

He activated the [ universal electronic kit ] and cracked it quickly. The screen showed the words 'pass'.

The elevator, which originally only had an up button, went down directly, and then a new floor popped out to cover the hole.

Tang Zhen expressionlessly stood on the slowly descending ground. He walked out after it stopped.

In front of him was a simple and clean underground building, about 50 square meters, with cameras and electronic equipment everywhere, as well as a hole that looked like a window.

Other than these items, there were no traces of human existence. It was strangely clean.

according to tang zhen's judgment, this place should be completely controlled by a computer. the items stored here should be behind the thick alloy wall.

However, Tang Zhen had a bad premonition. He might have arrived a step too late!

crack the program here immediately and check the information of all the stored items!

After the command was issued, the cracking process officially began and was completed in a few seconds. With the level of defense here, it could not resist the invasion of mobile applications!

A list of items appeared before Tang Zhen's eyes the moment he completed the decoding process. His expression immediately sank after he glanced at it.

There were origin stones in the list, but the records showed that they had all been taken away a day ago!

"Kalan, you're looking for death!"

Chapter 887 punishment: tracking

It was impossible for Kalan to not know that the origin stone had been taken away in advance. In the end, he even gave Tang Zhen the wrong information. This was clearly a deliberate lie.

Perhaps, there would be a series of methods waiting for him after Tang Zhen arrived. However, the other party would not be able to guess that Tang Zhen had the ability to travel a thousand miles in an instant. Therefore, it would be too late to make any last-minute arrangements.

Of course, Tang Zhen had long guessed that there might be an error in his information. However, even if this was the case, he still had to try and verify it.

Fortunately, after the Special Operation Group arrived, they had already left behind a video recording. Tang Zhen, who had the use of black technology, had a relatively high certainty of locking onto their whereabouts.

As long as the target showed his face, he would not be able to escape from his eyes!

As for that Caland who had deceived him, he could forget about having a good ending. This was because Tang Zhen had already left a backup plan when he patted his shoulder.

It was a secret technique from the Magus world that could kill people from thousands of miles away!

Tang Zhen extended his hand and took out half a leech-like worm from his pocket. He sneered and directly burned it with flames.

The temperature of the flame was extremely high, but the half of the bug that was burned didn't die. At the same time, it constantly writhed and struggled in the flame, even letting out a faint sharp cry.

At the same time, in another location, Kalan, who was in the middle of a meeting, suddenly felt a slight numbness in his chest, as if something was blocking his heart.

If he could see through his own body, he would have found that there was half a strange insect in his heart, and it was desperately discharging tiny insect eggs.

Even though it was far away, the bug could still feel its upper body being destroyed.

Therefore, the originally dormant insect immediately had an instinctive reaction. This was also the action it took to reproduce before its death!

After the eggs entered the warm blood, they immediately began to reproduce at a terrifying speed. In just a few minutes, Caland's blood was filled with squirming thin and long worms.

As they devoured Caland's blood, they continued to grow until they were about the size of their mother. While they continued to ovulate, they also madly destroyed Caland's body.

At this moment, Kalan had already fallen to the ground, twitching. His expression was one of extreme pain, and his eyes were filled with indescribable fear.

Under everyone's terrified gazes, blood began to flow out of Kalan's seven orifices. At the same time, leech-like worms quickly crawled out of his body.

After seeing this terrifying scene, everyone was so scared that they quickly retreated, afraid that they would be contaminated by even a little bit.

As for Kalan, he struggled to stand up, stretched out his hand, and moved his lips, as if he wanted to ask for help, but his mouth was already full of bugs, and he couldn't make a sound.

"Bang!"

After a muffled sound, Kalan's abdomen exploded, and the meeting room was filled with a rotten smell. At the same time, countless bugs rushed out of the sticky dirt and crawled all over the meeting room!

Kalan powerlessly fell to the ground. Before he lost consciousness, Tang Zhen's figure suddenly appeared in his mind, as well as the words he had left behind.

"You'd better be telling the truth, or I guarantee you'll die a terrible death!"

As if he had thought of something, a bitter smile of unwillingness appeared at the corner of his mouth, and he died!

After Kalan died, Tang Zhen threw away the charred insect corpse in his hand and let out a disdainful cold snort.

get the Special Operations Group's video records and track their movements. I want to know where they went.

After giving the [ universal electronic kit ] an order, Tang Zhen took out the purple electric short sword and directly cut a large hole in the incomparably hard alloy wall. He entered the alloy warehouse behind the wall that was over a thousand square meters.

He couldn't come here for nothing. No matter what, he had to collect some money for his hard work. Moreover, the remaining items here were indeed worth Tang Zhen's effort!

After Tang Zhen finished cleaning up, the edited video recording also appeared in front of him. There was a total of over ten small images, and the content was all related to the Special Operations Group.

At the same time, a map appeared, marking the Special Operations Group's route.

What surprised Tang Zhen was that after the Special Forces left, they didn't leave Raccoon City. Instead, not long after they boarded the helicopter, they were hit by a rocket that came out of nowhere!

After the fall, these unlucky guys were attacked by zombies and unknown armed forces. There was an intense battle during this period, and no one knew where they were hiding now.

In this way, it would help Tang Zhen. He only needed to search the city under his feet!

In order to prevent the information in Raccoon City from being leaked, they had activated the shielding device. As a result, all communication devices couldn't send signals to the outside world, so the spec Ops members who were being chased probably hadn't left yet.

Tang Zhen quickly returned to the ground and started his search.

At this moment, the number of zombies on the street had increased significantly. After they saw Tang Zhen, they immediately pounced over like crazy.

Tang Zhen, who was anxious to find the Special Operation Group, was not in the mood to care about these zombies that he could kill with a wave of his hand. Instead, his body flashed as he continuously shuttled through the streets.

He was currently heading to the last known location of the Special Forces, planning to use it as the center of his search.

Just as he passed by a Street and arrived at the crash site, he saw more than a dozen zombies chasing the two siblings, one big and one small, so he rescued them.

In order to protect them, their parents had already been torn to pieces by zombies. If they hadn't met Tang Zhen, the fate of this pair of siblings would probably be similar!

If they couldn't leave Raccoon City, the siblings would still die, but since he had already taken action, he didn't mind taking them away.

As for the other survivors, they could only pray for themselves!

Tang Zhen brought the siblings, who were still filled with fear, and began to search for traces of the battle. They continued to walk through the broken streets.

Whenever they encountered zombies blocking their way, Tang Zhen would casually kill them. This kind of method that was far beyond the imagination of ordinary people caused the eyes of the siblings to be filled with splendor.

"Sir, are you a mage?"

The ten year old boy asked in a Worshipful tone. His sister was also staring at Tang Zhen, similarly wanting to know the truth.

"Mages? maybe!"

A trace of a smile appeared at the corner of Tang Zhen's mouth. He picked up a bullet shell from the ground. From the fine trajectory, he could confirm that it was shot from the submachine gun he was tracking.

After casually throwing away the bullet shell, Tang Zhen continued to walk forward at a steady pace. Soon, he arrived near a high-rise building.

Tang Zhen was certain that all the members of the special operations team had entered this building. He just didn't know if they had left.

At this moment, night had fallen. The huge building was like a ferocious monster, and no one knew what dangers were hidden within.

Tang Zhen released his spiritual force to sense for a moment and quickly discovered signs of human activity.

"If I get into a fight with someone, hide to the side, understand?"

When the siblings heard this, they quickly nodded and subconsciously tightened their grip on the simple weapons in their hands.

Tang Zhen faintly smiled. He turned around and walked towards the entrance of the building.

Chapter 888 The purification Knights

The interior of the huge building was silent at this moment, and a strong smell of blood assailed his nose.

Such a scene could be seen everywhere in Raccoon City.

When they walked in, they found that the glass of the door and windows had all been shattered, and the ground was full of debris. From time to time, there were human bones that had been eaten.

In fact, the disaster did not happen for a long time, but the damage caused was shocking. At the same time, human nature was destroyed!

In the process of walking, Tang Zhen saw more than one corpse. They did not die in the mouth of zombies, but in the hands of humans.

Tang Zhen had seen similar bloody scenes countless times and was already used to it.

When they passed by a staircase, a corpse curled up in a corner appeared and was flipped over by Tang Zhen.

It was a white brawny man in a black combat suit. His head had been shot through, and his face was covered in dried blood. He was staring with lifeless eyes.

Judging from the video recording that he had seen earlier, this person was a member of the special operations team. From this, it could be seen that Tang Zhen's tracking route was extremely accurate.

Then where were the remaining members of the Special Forces? had they left?

The man's weapon was not taken away. It was obvious that his teammates and enemies were in a hurry. Tang Zhen picked it up and threw it to the girl behind him.

"Do you know how to use it?"

Tang Zhen glanced at the stairs not far away and asked without turning his head.

"My dad taught me how to operate it, but I'm not very familiar with it."

The girl replied after checking the magazine of the rifle.

"Very good. You and your brother hide in that room first and wait for me to come back, understand?"

The girl hesitated for a moment before gently nodding her head. She pulled her younger brother and walked into the room that Tang Zhen had pointed at before tightly closing the door.

It was also at this moment that Tang Zhen's figure directly rushed out of the window like lightning. After which, he climbed up the vertical wall as though he was walking on flat ground.

He arrived at the building in the blink of an eye.

"Huala"

The glass curtain wall seemed to have been smashed open by an invisible hand, and a large hole appeared. Tang Zhen's body jumped into it.

Seven or eight bodies on the ground appeared in his sight. They were the members of the Special Forces!

There were also several bodies lying in the corridor next to them, all of which were umbrella's employees.

Judging from the state of the corpses, they seemed to have been killed in a very short time. How did the other party do it?

However, Tang Zhen was able to see a trace of abnormality. A cold smile surfaced on the corner of his mouth.

It seems that the teleportation error this time isn't necessarily a bad thing. This is getting more and more interesting!

At this moment, there was no longer any living person on the top floor. Those origin stones were nowhere to be found. Tang Zhen naturally did not have the need to continue staying.

He jumped out of the building and landed on the ground in an instant.

However, the instant Tang Zhen landed on the ground, a few bullets were suddenly shot over, heading straight for his vital parts.

These bullets were all special bullets with extremely strong penetrating power. They could even penetrate thick steel plates. If they hit an ordinary person's body, they could easily tear the body apart!

Moreover, the other party's shooting was silent. It was obvious that the gun had either been specially modified or it was using a new type of weapon.

Tang Zhen's eyes flashed with a cold glint after he easily dodged the bullet. He raised his head and looked at the position in front of him.

More than 20 men and women of different build, but all wearing alloy armor, were approaching him.

These people were all holding cold weapons such as swords in their hands, and a few of them were carrying sniper rifles on their backs. At first glance, it looked like knights from the Middle Ages had suddenly arrived.

Behind them, a series of heavy footsteps could be heard. Then, two humanoid monsters that were nearly three meters tall appeared. They held fire god cannons in their hands and kept growling as they walked.

One did not need to guess to know that their target was Tang Zhen.

"Hmph, a bunch of useless chickens and dogs, and they dare to come here and show off!"

Killing intent flashed within Tang Zhen's eyes. The soul annihilating saber suddenly appeared. The black flames on the blade flickered.

When those Knights saw Tang Zhen conjuring an extraordinary looking weapon out of thin air, they were not surprised at all. Clearly, they already knew that Tang Zhen possessed this ability before they came.

discipline! Purify heresy!

The middle-aged man who was the leader shouted loudly. The door-sized sword in his hand was pointed at Tang Zhen. The people behind him responded in unison.

"Purification Knights, attack!"

As soon as he finished speaking, more than 20 people rushed over like the wind.

Compared to ordinary people, their speed was indeed frighteningly fast. There was practically no one who could dodge them. However, in Tang Zhen's eyes, this kind of speed was not worth mentioning.

"You came just in time, I'll send you to hell!"

Tang Zhen laughed out loud when he felt a wave of mental energy wrapping around him. He gently pointed at a lady at the back of the group.

"Go to hell!"

As soon as she finished speaking, the golden-haired woman suddenly let out a scream and immediately fell to the ground, holding her head. Blood flowed out of her seven orifices like a demon.

This woman who could control mental energy had actually overestimated herself and used mental energy to attack Tang Zhen. This was simply seeking her own death!

Compared to Tang zhenhao's ocean-like spiritual power, this woman's spiritual power control was extremely weak. With just a touch, she was directly killed, and her soul collapsed!

At the same time, the other enemies had already closed in. The weapons in their hands were all aimed at Tang Zhen. At the same time, there were also fireballs and air bullets that came at him.

A protective barrier popped out from the surface of Tang Zhen's body. At the same time, the soul annihilating saber swept across the three cavalymen beside him with lightning speed. A large portion of the black flames suddenly burst out.

The three purification Knights saw the blade coming at them, but they couldn't Dodge it at all. They screamed in despair and were cut in half at the waist!

He pulled out his knife and slashed again. Another purification Knight was cut in half from head to toe, and his internal organs were scattered all over the ground.

"Can't even withstand a single blow!"

Tang Zhen killed four purification Knights in an instant. The other purification Knights were so scared that they didn't dare to move forward. He himself felt extremely bored.

It was a waste of time to fight with an opponent of this level.

"It's over. All of you can go to hell!"

A disdainful low voice was emitted from Tang Zhen's mouth. Soon after, he clenched his fist and violently smashed it against the ground.

"Spiritual force materialization!"

Immediately, the surrounding air seemed to have condensed into a solid form. After which, it was grabbed by Tang Zhen's hand and ruthlessly smashed toward the ground like a large hammer!

"Pfft!"

Apart from where Tang Zhen was standing, the concrete ground around him suddenly caved in. The purification Knights who were in the middle of it did not even have the chance to scream before they were directly smashed into meat patties!

As for the two monsters that were carrying the Vulcan cannon, Tang Zhen wrapped them with mental energy and directly crushed their ugly heads!

Tang Zhen clapped his hands and looked at the remaining bald purification Knight not far away. A trace of a sinister smile appeared on the corner of his mouth.

At this moment, the other party was already scared out of his wits. When Tang Zhen looked at him, he turned around and fled without the slightest hesitation.

"You want to run? it's too late!"

Tang Zhen stretched out his hand and grabbed at the air. The purification Knight's feet left the ground and flew back. His neck was firmly grabbed.

"I'm only going to ask you one question. Do you know who stole the power Gem?"

If the other party did not know, there was no need for Tang Zhen to keep him!

The bald knight of purification nodded immediately.

“Very good, you temporarily have the right to live!”

Tang Zhen threw it to the ground and nodded his head in satisfaction.

Chapter 889 The rebellion Army that got in the way (1)

The bald purification Knight got up from the ground, and the fear on his face had not subsided.

Ever since he became a purification Knight, the bald man had never met a worthy opponent. The only ones who could confront him were the members of the purification Knights, who were also fate sorcerers!

Unconsciously, he began to become more and more arrogant, thinking that he was superior to others, and looked at ordinary people as if they were ants.

However, it was not until today that he realized that there were existences stronger than the heaven’s chosen ones in this world. They could kill the heaven’s chosen ones with ease.

In comparison, they seemed to be the real ants!

With his confidence completely destroyed, the bald man did not dare to hide anything. He directly told Tang Zhen everything he knew.

It turned out that after ambreira had successfully created the seer, he thought that he had enough power to control the world, so he immediately launched a series of plans, which made many people vaguely aware of his plans.

Some of them were extremely opposed to umbrella’s plan. They didn’t want the whole world to be controlled by him, thinking that it would mean that the whole world would fall into the dark Age.

So, these people had secretly joined forces and tried to destroy umbrella’s plan to dominate the world.

The umbrella Corporation referred to these people as “rebels,” while they called themselves the “resistance. the two sides were like fire and water!

“Among these rebellions, there are some heaven bearers, who are the main commanders of the rebellion Army!

It was a member of the rebellion Army who had been hiding in umbrella who had informed them about the robbery of the origin stones, which had led to the elites of the rebellion Army to come out and successfully take all the origin stones!

With these origin stones, the resistance would have the capital to fight against umbrella, and even have the upper hand!

After all, for the natives of this world, the power of the godly armor made from the origin stone was shocking and almost no different from that of Supermen.

The higher-ups of the umbrella Corporation were furious when they learned that their origin stones had been stolen. They immediately sent the purification Knights to Raccoon City to kill the resistance and take back their origin stones.

The reason why Caland had told Tang Zhen the exact location of the origin stone was to let him walk right into the trap and order the purification Knights that were currently active here to capture him!

Unfortunately, neither Caland nor the members of the purification Knights had expected that Tang Zhen's strength had long exceeded their imagination. This also led to the situation where Caland, who had schemed against Tang Zhen, was killed by witchcraft. More than twenty purification Knights were also directly killed by Tang Zhen!

After understanding the entire situation, Tang Zhen's brows slightly furrowed. He did not expect that a strange resistance Army would appear in the blink of an eye.

Tang Zhen didn't have a good impression of this organization that was trying to stop umbrella from dominating the world. If their operation was successful, it would be much more difficult for Tang Zhen to collect the world's origin.

The resistance obviously didn't succeed, because Tang Zhen, who had been to the future, knew very well that the future would be a wasteland, but umbrella would still exist!

After the rebellion Army had stolen the origin stone, they had disappeared without a trace. It was obvious that the clues had been cut off.

If it wasn't for the fact that the origin stone was too important to him, and he didn't know when he would be teleported to next time, Tang Zhen would have already gone to the Naval base to collect the warship and returned to the tower world as soon as possible.

Now it seemed that he had to stay for a while longer.

"Come with me. If you're obedient, I might spare your life!"

As he spoke, Tang Zhen's mind moved and a trace of mental energy attached itself to the bald man's mind. Under the effect of a secret technique, it could easily blow up the bald man's cerebral vessels!

The bald man also felt the abnormality in his body. His strong body trembled slightly. Soon after, he resigned himself to his fate and followed behind Tang Zhen.

Tang Zhen and the bald man went to the place where the siblings were hiding and called them out after they collected the fragments of the divine armor from the corpses.

from now on, keep an eye on these two little fellows. If anything happens to them, you can forget about living!

Tang Zhen looked at the bald man and spoke with an expressionless face.

When the brawny man heard this, he immediately patted his chest, indicating that he would definitely do it. At the same time, he also squeezed out a flattering smile to the siblings.

However, this smile was too destructive, making it difficult for people to have a good impression of it. It even made people tremble in fear.

The siblings subconsciously took a step back and quickly hid behind Tang Zhen when they saw the fierce-looking burly man.

The bald man was a little embarrassed. He dryly laughed at Tang Zhen and extended his hand to rub his bald head.

alright, let's go around the city and see if we can find any traces of the resistance!

The bald man revealed a trace of hesitation when he heard this. However, he still gritted his teeth and said to Tang Zhen, "Before we started, we received orders that if we couldn't find the power Gem in time, umbrella would use a nuclear bomb to attack this place!

This way, not only could the spread of the virus be controlled, but the resistance Army would also be eliminated!

The most important reason is that the power Gems aren't afraid of the high temperature of a nuclear explosion. Even if they were in the center, they couldn't be vaporized. So, after the attack is over, umbrella will use a special detection device to find the power Gems!"

Tang Zhen's eyes immediately brightened when he heard this. He looked at the bald man and said, "You said that umbrella has a device that can detect Power Gems. What's that about?"

The bald man shook his head and explained, "I only know this much. After all, there are some things that we can't get in touch with.

Tang Zhen nodded his head. He knew that the bald man did not lie to him. However, he still remembered this kind of instrument that could detect origin stones.

At this time, the three of them had already walked far along the chaotic Street. Along the way, whenever they encountered zombies, the bald man would rush forward and swing the battle axe in his hand, killing until blood and flesh flew everywhere.

The bald man was putting in so much effort. Clearly, he had the intention of showing off in front of Tang Zhen. After all, his little life was still in the other party's hands. Only by satisfying Tang Zhen would his life be guaranteed.

At this moment, a public phone booth by the roadside suddenly rang. It was extremely ear-piercing in the night.

Tang Zhen took a glance and ignored him. He continued to walk forward.

However, he had only taken a few steps when the other two phone booths rang again. It was obvious that someone had done it deliberately.

After glancing at the camera not far away, Tang Zhen walked over and took the phone in his hand.

I can help you escape this city, but you have to help me find a person, Yingying.

A man's voice was transmitted over as he continuously spoke to Tang Zhen. His tone contained a trace of urgency.

are you done? if you are, I'm leaving. I'm sorry, but I'm not interested in your reward.

After Tang Zhen said this, he was about to throw the phone away and let it continue to sway in the air.

"Don't hang up, I'm an expert in umbrella. I have the virus serum and cash. I can give you anything you want, as long as you help me find my daughter!" He said.

The man roared in despair. He really didn't want to miss this powerful four-man team in front of him!

To be exact, it was Tang Zhen and the bald brawny man. As for the sister and brother, they were obviously citizens that they had helped in passing. Their combat power could be completely ignored.

He had already seen the bald man and Tang Zhen's perverted actions through the camera he was in control of. He knew that if they attacked, his daughter would be able to safely leave Raccoon City.

Tang Zhen had just taken two steps when he suddenly stopped. He gently waved at the phone, and then the phone flew up and landed in his hand.

"If you can help me get the data on the detector, I can help you find your daughter."

Tang Zhen had only asked with the purpose of probing. In fact, he did not have much confidence in his heart.

However, since this was an opportunity, Tang Zhen would naturally not let it go!

Chapter 890 Search, encounter again \_When the man opposite him heard this, his spirit immediately jolted as he anxiously said to Tang Zhen,"I know that kind of equipment and where the information is.

Don't worry, I'll do my best, but it will take time. Before that, please save my daughter, or it'll be too late!"

"Alright, I hope you'll keep your promise!"

Tang Zhen hung up the phone, switched to the map, and searched for the address given by the other party.

Raccoon City junior high school wasn't too far away from him.

Waving at the bald man and the two siblings, the four of them slowly walked toward their destination.

Ten minutes later, a screeching sound of a car braking was heard. Then, a police car stopped at the school gate.

Tang Zhen's group of four jumped down from the car. Each of them casually pulled out a rifle, a standard police weapon.

This was actually a support vehicle. The trunk was filled with weapons, and there were even grenades!

The siblings seemed to lack a sense of security and were also fully armed. It was unknown if they could handle the weapons.

The bald man in armor slung the rifle over his shoulder, took out a cigarette, and lit it up. At the same time, he handed one to Tang Zhen in a flattering manner.

Tang Zhen did not refuse. He carried his weapon on his shoulder and coldly sized up his surroundings with a cigarette in his mouth.

From the bald man's words, Tang Zhen understood the true strength of umbrella. He also knew that their idea of controlling the world was not unrealistic, but really possible!

After all, 90% of the natives in this world were customers of the umbrella Corporation, and they couldn't live without the products they made.

With such strength, it would be very difficult to control the world. At most, the time would not be ripe, and they would suffer a large number of casualties when they encountered resistance.

There were several super-force organizations similar to the purification Knights in umbrella. In addition to those high-tech weapons, even Tang Zhen would not be able to withstand the attack if all of them were to launch a concentrated attack.

Therefore, in order to save energy and ensure that he would have sufficient combat strength in the event of an accident, Tang Zhen had also temporarily chosen firearms as his weapon.

With his strength, even if he were to use an ordinary gun, it would be enough to display extremely terrifying destructive power!

Sir, I'm studying here. Is there anything I can help you with? "

The girl behind him walked forward and asked Tang Zhen.

"Is that so? that place is so lucky!"

Tang Zhen swept his gaze over the messy corpses around the school and smiled at the girl.

let's go. Take care of your little brother. Don't shoot your own feet!

Tang Zhen could not help but make a joke as he looked at the boy who was carrying a rifle that was about the same height as him.

"Don't underestimate me. I'm a real Hunter and I once killed a Wild Turkey!"

The little boy felt that he was being looked down upon and immediately opened his mouth to defend himself. At the same time, he rolled up his sleeves and indicated for Tang Zhen to look at his muscles.

"You are indeed strong, my warrior. Let's go!"

Tang Zhen laughed out loud when he saw this. He continued to walk forward.

In truth, Tang Zhen's main goal was still to search for traces of the origin stone. Therefore, the scanning of his mental energy did not stop from the beginning. He would even switch to the perspective of the map from time to time to observe.

Unfortunately, they had not found any clues so far. It was obvious that the resistance had hidden themselves perfectly, and they would not be found easily in a short time.

As for saving the little girl, it was just a matter of convenience.

It didn't take long for the four of them to enter the school's interior. Just as they were about to split up and search, the sound of an explosion was suddenly heard.

"Take the two of them and follow me!"

Tang Zhen's voice had just sounded when he had already disappeared.

The bald man shrugged his shoulders, picked up the siblings with his arms, and quickly chased after them.

At this moment, Tang Zhen had already arrived at the site of the explosion. He also saw the target of his search and rescue, the little girl in school uniform.

Angela, is it? your father asked me to bring you out. Come with me now!

Tang Zhen ignored the two women beside him as he spoke to the little girl.

Who are you? please step back immediately, or I won't be polite!

One of the women pulled out a pistol and warned Tang Zhen. Her movements were very neat. She was obviously an expert at using guns.

don't do that! Put down your gun!

Alice saw this and quickly pressed the woman's pistol down. At the same time, she secretly motioned her not to be impulsive. Her expression was quite serious.

The woman revealed a puzzled expression. However, she still pointed her weapon to the ground and continued to look at Tang Zhen with caution.

"Sir, we meet again!"

Alice looked at Tang Zhen in front of her and greeted him with a smile.

Alice's heart was filled with vigilance towards this mysterious man in front of her, but at the same time, she felt a trace of gratitude.

She was naturally vigilant because of Tang Zhen's magical and strange ability. She was grateful for his help in the honeycomb laboratory. Otherwise, she and the others might not have been able to escape.

Of course, the most important reason was that he was afraid of Tang Zhen's strength.

This was because even though his combat strength was no longer what it was in the past, he still felt as though he was facing a giant prehistoric beast when he was facing Tang Zhen.

The stronger one's mental energy was, the more obvious this feeling would be. On the other hand, ordinary people would feel more at ease when facing Tang Zhen due to their slow and obscure perception!

Tang Zhen glanced at Alice in front of him and nodded.

you also received a call from his father, so you're here? "

“That’s right, Sir!”

“Alright, let’s leave together!”

Tang Zhen turned around and walked out after he finished speaking.

At this moment, two men suddenly appeared at the door. One of them was a mercenary in a combat suit who raised his gun and aimed at Tang Zhen.

“Don’t move, or I’ll shoot!”

An arrogant voice was heard. After which, the man who was aiming at Tang Zhen was stunned for a moment before he slowly raised his hand.

The bald man poked his head out and scanned the room before walking in with the siblings.

Alice and the others frowned slightly when they saw the siblings holding guns, but they did not act rashly. After all, the bullets did not have eyes. Even if it was shot by a child, it did not affect the lethality at all.

Moreover, this kind of killing weapon in the hands of children was far more dangerous than in the hands of adults!

“Boss, should we kill them?”

A bald man wearing alloy armor and holding a rifle asked Zhen Tang after taking a glance.

He had a fierce appearance, dressed in a different way, and was full of murderous intent. Alice and the others knew that he was a character to be trifled with at first glance.

Therefore, other than Alice, the woman and the other two men were extremely vigilant against the bald man and were ready to attack at any time.

buddy, we’re on the same side. Please don’t shoot!

The black man of the two men looked at the two siblings pointing their guns at his younger brother and quickly explained in fear that they would accidentally fire and hurt him.

alright, put down the gun. We’re leaving this place now!

Tang Zhen had already made up his mind. After he sent the little girl back and obtained the detailed information of the origin stone detector, he would immediately make one. No matter what, he had to find it before the nuclear explosion.

The bald man immediately put down his rifle and returned the mercenary’s weapon.

The brother and sister learned to put down their weapons, and the little boy even glanced at the black man with disdain.

Not long after they left the school, the phone rang again. Angela’s father told them where they were going to meet, and after a few more words with his daughter, he hung up!

They jumped into the cars parked by the side of the road and headed straight for Raccoon city's City Hall.
