

Alternate 951

[Chapter 951](#)

951 Village (1)

There was an Inn in River View Village. It was a two-story wooden building. After Tang Zhen and the others entered the village, they immediately checked in.

In fact, the area of this village far exceeded Tang Zhen's expectations. There were not only a few wooden houses, but more than two hundred households.

The villagers here were made up of different races, and there was no lack of orcs among them, who were strong and burly.

Although the orcs had all sorts of appearances, no one would discriminate against them. After all, to the natives here, this world did not belong to any race.

In this village close to the mountain range, they were engaged in planting, gathering, hunting, logging, and other jobs, and their lives were barely passable.

However, the world today was not very peaceful. All kinds of forces were competing in this land. The war and fighting had never stopped, and the people were the most direct victims.

This was also the reason why they were wary of outsiders. After all, before this, the village had been attacked by bandits more than once and had suffered a lot of losses.

The arrival of Tang Zhen's group immediately attracted the attention of many villagers. Perhaps, they had discovered that Tang Zhen's group was definitely not ordinary travelers. Therefore, the villagers treated them with a respectful attitude and kept their distance.

In reality, if there was evidence to prove that Tang Zhen and the rest harbored evil intentions, it was likely that these seemingly simple and honest villagers would unhesitatingly pick up all sorts of weapons and launch an attack at Tang Zhen and the rest!

The villagers would never show any mercy to the enemies who tried to destroy their homes and Rob them of their belongings.

More than one Bandit had been hung to death on the defensive stone wall outside the village. Their bodies were also thrown into the forest after being dried.

By relying on this method, many people who tried to steal or Rob were scared off, so the village maintained a long period of peace.

If Tang Zhen and his group dared to cause trouble, the villagers would do the same!

However, the experienced men in the village were very clear that the villagers might not be a match for Tang Zhen and the others at all. This was because they had accidentally seen the equipment under the cloak of a Lord cultivator.

That kind of exquisitely made black armor must have been very expensive, and how could the person who could wear this kind of armor be an ordinary person?

Even the guards with the highest strength in the village had faces full of fear when they saw Tang Zhen and the others. When these ordinary villagers fought, it was estimated that they would be split into two by the other party!

Fortunately, after Tang Zhen and the others entered Hewang village, they kept a low profile. This caused the villagers to slightly relax their vigilance. However, they did not let their guard down and continued to observe in secret.

Only those children would occasionally appear around Tang Zhen's group. Their mouths would let out "chattering" sounds as they were filled with curiosity towards these outsiders.

At this moment, Tang Zhen and the rest were seated in the main hall of the hotel. They ordered some local specialty food and a few large barrels of light alcohol.

They surrounded a long wooden table with their swords placed to the side so that they could quickly grab them when a battle broke out.

Some of the customers in the inn were rather envious of the Holy Dragon city's overlords' weapons. It was said that after the village's blacksmith saw these weapons, he patted his chest and guaranteed that these weapons were definitely worth thousands of gold!

As for the exquisite armors they were wearing, they were even more expensive. Even the blacksmith couldn't guess the specific price!

It was also because of this sentence that Tang Zhen and the others were no longer regarded as bandits by the villagers. Instead, they were regarded as rich and noble with a great background. Their originally vigilant eyes had also turned into envy and jealousy.

Tang Zhen's performance had also confirmed the villagers' guess!

As a large piece of gold was thrown out, the innkeeper, whose face was full of joy, immediately got busy, and plates of food were brought to the table, filling it to the brim.

Although the cooking method of the food was very crude, it won in the quantity. Even the big-bellied man could roll his eyes as he ate.

Tang Zhen raised the wine glass in his hand and gently took a sip before placing the glass to the side.

He was really not used to drinking this kind of coarse wine. Even with honey, it still had a faint sour taste.

The Holy Dragon city's overlords at the side did not have so many scruples, and all drank very happily.

For the past two days, Tang Zhen had not arranged any missions. When the lords were bored, they could only drink to relieve their boredom. However, they would never get drunk.

Tang Zhen was very assured of his subordinates. After all, each and every one of them was an iron-blooded military officer who had led an army into battle. How could they not know what was going on in their hearts?

Their current behavior was probably to numb the villagers so that they would no longer pay attention to them.

Tang Zhen glanced at the table beside him before looking at a man wearing leather armor.

This fellow had been sizing them up. Like the other villagers, his eyes were filled with curiosity and vigilance, but there was also a trace of greed and viciousness that was hard to detect.

“Come over, friend, I’ll treat you to a drink!”

Tang Zhen patted the wine barrel on the table as he shouted at the man in leather armor.

The man was obviously short on money, otherwise he wouldn’t be sitting at the table and watching others drink and eat.

After hearing Tang Zhen’s invitation, he hesitated for a moment before walking over.

A faint sour smell of sweat was emitted from his body, causing Tang Zhen to frown slightly. However, it seemed that the local people did not like to bathe. This was because there were piranhas in the river. They were nearly one meter in size and often attacked the villagers who were bathing and fishing.

thank you, generous outsider. You must know that I haven’t had a cup of mellow wine in a long time!

The man in leather armor received the wooden wine cup that Tang Zhen handed over. He raised his head and drank it cleanly. After licking the corner of his mouth, he spoke to Tang Zhen.

“You’re welcome. If you like it, you can have this bucket!”

Tang Zhen pushed the wine barrel in front of him over and said with a smile.

you’re really a generous person. Forgive me for being presumptuous, but I guess you’re not used to drinking this kind of inferior wine? ”

The man in leather armor poured himself another cup and asked Tang Zhen.

When the tavern owner heard that, he immediately roared, ” you bastard, Donnie. How dare you say that my wine is of poor quality? do you believe that you won’t be able to drink a single drop from today on? ”

The man in leather armor, Danny, immediately shrunk his neck and looked at the hotel owner with a fawning expression.

Lagren snorted and turned around, ignoring him.

Tang Zhen smiled when he saw this and said to Donnie, ”In my hometown, there are many kinds of wine, and they all taste different. But I prefer the taste of the wine from my hometown!”

“I heard that you came from afar. Where are you from, and what are you doing here?”

Donnie gulped down his wine, but he kept trying to find out the background of Tang Zhen and the others. No one knew what he was trying to do.

my hometown is very far away. We came here by boat. As for the purpose of coming here, of course it's to make money!

Hearing Tang Zhen's words, Tang Zhen's eyes slightly brightened as he continued to ask, "Then, do you have any goods to sell? I can help you contact the seller, as long as you give me a 5% commission!"

...

When Tang Zhen said this, the greed in Tang Zhen's eyes was almost unconcealable.

It was obvious that this guy wasn't honest and was probably thinking of something.

I'm not familiar with this place, so I won't sell the goods for the time being. I have to at least find out more about it!

After hearing Tang Zhen's answer, a trace of disappointment and unwillingness flashed in Tang Zhen's eyes. He rolled his eyes and continued, just ask me whatever you want to know. There's almost nothing I don't know about in Snow City!

"So this place is under the jurisdiction of the snow City. What a surprise!"

Tang Zhen smiled when he heard this. A trace of glint flashed across his eyes.

[Chapter 952](#)

952 Donny (1)

Tang Zhen also had the same plan as Tang Zhen when Tang Zhen tried to find out about their origins.

Although he already had a rough guess in his heart, he still needed to verify it. The guy in front of him who didn't look like a good person was the best source of information.

In fact, Tang Zhen had noticed Tang Zhen long ago. Since the day they entered River View Village, this unkempt guy in leather armor had appeared around them from time to time, observing their every move.

It was likely that this fellow had treated Tang Zhen and the others as fat sheep. However, he was afraid of the strength of Tang Zhen and the others. Therefore, he would definitely not easily make a move before he was fully prepared!

He had been trying to find an opportunity to get close to Tang Zhen and the others and talk to them to get information. Unfortunately, the Holy Dragon city's overlords were not familiar with this world's language and could only use a translator to communicate with the natives.

Hence, most of the time, the Lord of Holy Dragon City would remain silent in front of the natives.

The stern faces of these guys were quite scary. Many people who tried to talk to them hesitated but did not have the courage to speak, including Donnie.

However, he did not know that Tang Zhen had long had his eyes on him. Moreover, Tang Zhen had treated him as one of the channels to obtain information.

These thieving bastards had information sources that ordinary people didn't have. If he could control them, many things would become much easier.

Therefore, in the past two days, there were always miniature reconnaissance robots following behind Downey. The secrets that he thought he had hidden well were actually all in Tang Zhen's hands.

Earlier, Tang Zhen had invited him to drink only because he felt that the time had come and had allowed the prey to directly fall into his trap.

As for the snow City that Tang Zhen mentioned, Tang Zhen was no stranger to it.

Before he came to this world, the Holy Dragon city's intelligence research Department had already submitted a report. They had carried out a detailed analysis of the items collected from the wild buildings and made a deduction at the same time.

These items also belonged to a world related to the game. It was similar to the wasteland world that Tang Zhen had previously been to. This was still an incomplete world.

Therefore, it used a special method to project some of the representative events of this world to various planes. One of them was the original world where Tang Zhen was from.

According to Tang Zhen's personal experience, he could conclude that many things that happened in this special world were similar to the contents of the projection. However, there were also some places that were completely different.

But the overall situation was similar to the contents of the projection!

Before the laws and order of this world were complete, it would always be in a constant cycle, repeating the story that had happened before.

However, during this period, the world would absorb the influence of the mysterious power and patch up some of the tiny loopholes.

In fact, it would continue to extend its existing structure and make the world more perfect.

If there was no external interference, it was estimated that one day in the future, this incomplete world would completely transform and become a real world!

And those stories that had been circulating endlessly would also come to a conclusion!

After hearing the name of Snow City from Downey, Tang Zhen was sure that the information he got before the teleportation was correct. This would be very helpful for his next operation.

In fact, when he set foot in this world that day, Tang Zhen had already released a large number of miniature drone reconnaissance planes. They continued to Scout and search along a fixed route. At the same time, they would summarize and send back the information they had collected.

Tang Zhen already had a general understanding of the basic situation of this world. However, he was more willing to learn about the views of this world from the local Aborigines.

Since Donnie had spoken, he naturally did not mind continuing the conversation.

“Oh, really? That’s great! Why don’t you tell me what’s happening recently?”

Tang Zhen looked at Tang ni, who had a ruddy complexion and was already slightly tipsy, as he spoke with great interest.

Donnie immediately became excited and started to talk.

do you know about Dragons? I’ll be honest with you. I saw one a few days ago!

Donnie had a smug expression on his face as if he wanted to see Tang Zhen’s shocked expression. However, as soon as he finished speaking, a customer beside him sneered before Tang Zhen could speak.

damn you, Donnie, don’t talk nonsense just because you drank some horse piss. That Dragon is only a thing of legend. How can it really appear? ”

if a Wyrms really did appear, you’d probably be the Wyrms’ sh * t by now. Why would you be drinking and bragging here? ”

“Don’t you guys smell the shit on Donnie? I guess this guy really saw a Dragon and was buried in the Dragon’s shit, so he was lucky enough to escape!”

that’s right. That must be it. Let’s drink to the lucky Donnie who escaped from sh * t!

As soon as he said that, the entire Hall burst into laughter.

Donnie was exasperated. He stood up, pointed at the crowd, and said, ” “You bastards! I’m telling the truth, but you don’t believe me!

Let me tell you, that Dragon has already destroyed a Castle and killed many soldiers of the Empire and members of the storm cloak.

I estimate that it won’t be long before that Dragon comes here and burns all of you bastards to ashes!”

Seeing Donnie’s exasperated look, the crowd mistakenly thought that his lie had been exposed, and that was why he was acting like this. They all laughed until they were out of breath.

all right, Donnie, you’ve just escaped from sh * t. Go and drink your wine. There are not many chances for such a free drink!

Donnie was even angrier after hearing that. He kept describing his encounter with the Dragon, and it was very vivid.

However, he was alone, so how could he be a match for a group of people? after a few words of argument, he attracted even more ridicule and abuse.

Sitting down indignantly, Tang Yi looked at Tang Zhen with a helpless expression.

“Sir, do you believe what I said?

I really did see a Dragon, and for the sake of this barrel of wine, I can tell you a secret.”

Donnie was very excited. Sweeping his gaze around, he lowered his voice and said to Tang Zhen, "When I returned to the village yesterday, I happened to find traces of the Dragon. Then, I tried to look for it, and I actually found the Dragon's Nest!

It's said that Dragons love to collect treasures. If we can sneak into the dragon's cave and bring back the treasures, we'll be rich!"

Donnie's eyes were full of excitement and longing, as if he could see himself getting the treasure of the Dragon and becoming a rich man in the blink of an eye.

He looked at Tang Zhen and said in an extremely serious manner, "If you want to know the location of the dragon's cave, I can tell you, but you have to give me half of the treasures you get!

How about it, are you interested in making a bet?"

After saying this, Donnie closed his mouth and looked at Tang Zhen in front of him. His eyes were filled with anticipation.

...

[Chapter 953](#)

953 Employment _1

"When I was in my hometown, I heard that your continent was very magical. Not only were there all kinds of monsters, but there were also legendary dragons that possessed unimaginable power!

I have to admit, I really want to see what this Dragon looks like, and whether it's as terrifying as the legends say!"

Tang Zhen slowly opened his mouth and spoke with a sigh under Tang Yi's expectant gaze.

Donnie's eyes lit up, and he said, "Don't worry, that Dragon is definitely more powerful than the legends say. Just a glance is enough to make people tremble in fear!

Since you have such an idea, you shouldn't miss it. You should know that many people don't even have such an opportunity in their entire lives!"

"But Yingluo"

Tang Zhen had a hesitant expression on his face. He wanted to say something but stopped himself as he looked at Tang Zhen. His expression seemed to be very conflicted.

"It's said that this Dragon is quite brutal. If we're discovered by it, I'm afraid our lives will be in danger!"

Seeing that Tang Zhen seemed to have the intention to retreat, Donnie quickly opened his mouth to continue dissuading and guiding him.

"You must know that this is a once-in-a-thousand-years opportunity. Do you have any concerns? Once you miss it, it would mean that you would miss out on a large amount of wealth!

That's a mountain of gold coins and a pile of gemstones. Just thinking about it makes my heart race!"

Donnie described the treasures that were piled up like mountains in an exaggerated tone, which made people's imagination run wild.

After hearing this description, Tang Zhen's face revealed a trace of determination as he asked again.

"Are you sure there are treasures in the Dragon's Nest, and we won't encounter any danger in there?"

If you don't have enough confidence, I won't take the risk!"

Donny shook his head and said to Tang Zhen with a mocking expression, "If you want to obtain wealth, you have to bear certain risks. Sometimes, you even have to pay the price of your life!

But the more it was so, the more bountiful the harvest was!

There's nothing in this world that comes without effort. Just like how you crossed the ocean to come here, you have to bear a certain risk. I heard that it's easy to die on a ship at sea!

So, if you're really interested in the dragon's treasure, then let the so-called risks go to hell. If there's no danger in searching for treasure in the Dragon's Nest, the dragon's treasure would have been stolen by countless people!"

When this fellow saw that Tang Zhen did not fall for it, he simply used a method to goad him.

Tang Zhen revealed a contemplative expression when he heard this. His finger repeatedly knocked on the table in front of him, as though he was thinking about something.

A moment later, he looked up at Donnie and nodded. "If that's the case, then let's go all out!

As long as I can see the Dragon, even if I can't get those treasures, I won't have come in vain!"

Donnie was overjoyed to hear that. He glanced at the other guests around him and saw that they looked normal and did not seem to pay attention to the content of their conversation.

He tried his best to get his body close to Tang Zhen and whispered to Tang Zhen, in that case, we have to act as soon as possible. It's best if we leave tomorrow!

no problem. I'll go back and make some preparations. We'll meet at the village entrance tomorrow.

Tang Zhen nodded and said to Tang Zhen.

After the two finished their discussion, Donnie said that he needed to get ready and quickly left the hotel.

He went around the village and even went to the river before returning to the wooden house he lived in.

After closing the door, Donnie immediately turned around and leaned against the wooden door.

Observing carefully through the gap of the door for a while, Donnie made sure that no one was following him. Then, a scornful sneer immediately appeared on his somewhat drunk face.

He went into the house, took out a pen and paper, and wrote something on the note. Then he went to the bird cage by the window.

He took out a little bird that looked like a pigeon, rolled up the note, and inserted it into the wooden tube on the pigeon's leg.

He threw it out of the window, and the little bird soared into the sky, flying out of the village.

After watching the bird disappear, Donnie turned around and walked to the wooden bed with his eyes shining.

He lifted a wooden board under the bed and took out a long wooden box made of hardwood from a hidden compartment.

After the box was opened, the items inside were revealed. It was a full set of weapons and equipment.

Looking at the weapons and equipment, Donnie had a complicated expression on his face and sighed.

Donnie took out the weapons and wiped them one by one, before he put them on.

In just a moment's time, he had turned from a sloppy, idle man into an adventurer who exuded a faint murderous aura!

Holding the sharp sword in his hand, Donnie wiped it with a rough cloth and turned to look at the giant hotel.

old friend, you're going to drink blood again tomorrow. This time, you'll be a big fat sheep!

At this point, Donnie seemed to have thought of something. The smile on his face became more and more obvious, and he laughed crazily in the blink of an eye.

.....

After Tang Zhen left, he was still sitting in the lobby of the hotel and tasting the barbecued meat that had just been served.

A man walked up to him and slowly sat down.

you shouldn't have paid attention to that guy. This kind of stinky rat is always thinking about scheming against others. I'm sure he doesn't have any good intentions!

The man's voice was filled with the vicissitudes of life, and his eyes revealed a trace of fatigue. On his slightly messy armor, there were still traces of blood and faint burn marks.

Tang Zhen raised his head and glanced at the other party. He smiled before slowly lowering his head.

I don't care what he's up to. I'm just really curious about Dragons, so I'm going to take a look no matter if the news is true or false!

"So that's how it is, then just pretend I didn't say anything!"

When the man heard this, he nodded slightly and got up to leave.

"Please wait a moment!"

...

Tang Zhen raised his head and called out to the man.

“What’s the matter?”

Tang Zhen smiled and said as he looked at the man in front of him who had a puzzled expression, “I’m new here and need to hire a local as an assistant. If you don’t have a job, maybe you should consider it!”

That man turned around and spoke to Tang Zhen with some hesitation, “I think you might have misunderstood. Actually, I’m not from here. I’ve just arrived here a few days ago!”

“It doesn’t matter. I just need someone to help me, and I think you’re very suitable.

If you’re willing, I’ll give you half a gold coin a day as a reward. This is a very high price, I’m sure many people won’t refuse!”

The man who was hesitating at first immediately nodded. After all, what he lacked the most right now was money and a place to live.

“So, Sir, what do you need me to do now?”

After accepting Tang Zhen’s employment, the man immediately got into his role and asked Tang Zhen.

change your equipment, of course. As my follower, you can’t wear too shabby clothes!

Tang Zhen stood up from the table, waved at the man, and walked out of the hotel.

...

[Chapter 954](#)

954 Equipment (1)

Walking slowly along the village Road, the two came to the blacksmith’s shop at the village entrance.

The robust blacksmith who was waving his iron hammer to Forge Farm tools had already seen Tang Zhen and his partner standing at the shop’s entrance. He casually put the iron block that he had just hammered aside and wiped his sweat with a towel as he walked in front of the two.

“Welcome, what do you two want?”

When the blacksmith spoke, his gaze was mainly focused on Tang Zhen. After all, this outsider who was always wearing a cloak was a rich man who did not lack money.

Whether it was the fine fabric of the clothing, or the forthright behavior of throwing gold bars, it had all proved this point!

If he had his eyes on the most valuable item in his shop, he would not be stingy. The blacksmith’s smile grew wider when he thought about how he could sell his most valuable equipment.

Tang Zhen’s eyes swept over the decorations of the smithy. He turned his head to the blacksmith and said, I want to exchange a set of equipment for my follower. I wonder what good stuff you have here? ”

The blacksmith’s eyes lit up. He had been waiting for this sentence and quickly brought the two into the house.

The wooden house was more than 40 to 50 square meters in area, and the walls were filled with items like swords and leather armor. However, they were all ordinary goods of average quality.

But when it came out of the blacksmith's mouth, it was completely different.

this leather armor is made of sharp-fanged beast's hide. It's as hard as iron and can effectively resist the strikes of sabers and swords!

this is a spear made of refined iron. It's tough and sharp, and can easily pierce through a wild boar!

this is a shield made of hard wood and covered with iron. Even a heavy battle axe can't break it.

The boss of the blacksmith shop pointed at the weapons and equipment on the wall and continuously introduced them to Tang Zhen and the other man. They were clearly ordinary items, yet he described them as divine weapons, causing Tang Zhen and the man beside him to frown.

Although these were weapons and equipment commonly used by ordinary adventurers, their quality was only average. It was not as exaggerated as what the blacksmith shop owner had said.

The two of them weren't rookies, so how could they not see the quality of these weapons and equipment?

Could it be that the boss of the blacksmith shop was bullying his employer, who was unfamiliar with the place and the people, and wanted to take advantage of the opportunity to rip him off?

When the man hired by Tang Zhen thought of this, he immediately felt that he had guessed the thoughts of the boss of the smithy. His brows involuntarily furrowed even more tightly.

The employer's background had already spread throughout the village. Everyone knew that they came from the other side of the sea and were very generous, so many people wanted to take the opportunity to make a fortune.

It was normal for the boss of the smithy to have such thoughts. However, since he had been hired, he naturally could not let the employer suffer.

Therefore, when Tang Zhen didn't say anything, this follower took the initiative to speak and said to the boss of the smithy, "Put away your useless flattery. You and I both know very well what grade these equipment are.

We're not laymen, and we won't waste a single cent on your flattery!"

The boss of the smithy looked a little embarrassed when he heard this, but he quickly disappeared.

He looked at Tang Zhen's follower, waved his fist, and roared with a muffled Thunder-like voice, "What do you mean, kid? are you looking down on the equipment I've smithed?"

The attendant laughed in disdain.

it's not that I'm looking down on you, but I don't want you to set the price for these ordinary equipment according to the things you've bragged about. Of course, if the price is fair, just pretend I didn't say anything!

When the boss of the smithy heard this, he swept his eyes over Tang Zhen and the other man before asking in a muffled voice, after talking for so long, which equipment did you guys take a fancy to? ”

That attendant looked at Tang Zhen when he heard this. After all, he was the one paying and was also his employer. He couldn't make the decision for this kind of matter.

although your equipment is good, I'm still not satisfied. It can't be that you only have items of this quality, right? ”

Tang Zhen shifted his gaze away from the equipment and spoke to the boss of the blacksmith shop. Clearly, he did not take a fancy to these items.

When the blacksmith heard this, he was not angry at all. Instead, he walked to the room next door with a smile, took out a wooden box, and placed it on the table.

“I do have some good stuff here, but it's not cheap. Are you sure you want to buy it?”

Tang Zhen smiled. He randomly took out a piece of gold and threw it on the table, indicating to the boss of the smithy to open the box.

The boss picked up the gold and shook it, nodding in satisfaction. Then, he used the key to unlock the box.

Two weapons with flowing lights appeared before Tang Zhen's eyes and immediately attracted his gaze.

“This is a Kasaya.”

Tang Zhen frowned slightly as he sensed the energy that was being emitted from the weapon. This was because he had discovered that this weapon was not simple.

Compared to the demonic weapons used by Lou Cheng's cultivators, the energy reaction of this weapon was more obvious and could even directly cause some energy-destroying effects.

However, in terms of sharpness, these two weapons were slightly inferior. Even low level mo weapons could not compare.

Cultivators of Lou Cheng might pay more attention to the practicality and durability of their weapons, but the two weapons in front of him must have been maintained on a daily basis.

When the boss of the smithy saw Tang Zhen's unblinking eyes on the two weapons, he immediately revealed a proud expression as he introduced, “These two weapons are treasures passed down from my ancestors. Both of them are enchanted weapons. One of them is a frost dagger, which can cause freezing damage. The other one is a paralyzing dagger, which can make the enemy's body stiff after being stabbed. Both are rare and good items!”

Tang Zhen picked up the two weapons and played with them for a while. He slightly nodded and looked at the blacksmith beside him.

not bad, it's indeed a good thing. What's the price? ”

The blacksmith heard this and immediately stretched out his palm. “500 gold coins, no bargaining!”

it's not expensive, but the key is that these two weapons might not be worth that much. However, if you are willing to add some defensive equipment, I can buy these two weapons!

The blacksmith muttered to himself for a moment before nodding in agreement.

Not long after, the two of them walked out of the blacksmith shop. That attendant had already changed into a brand new set of embedded leather armor. On his waist hung the paralyzing short sword that Tang Zhen had given him.

In addition, he was also holding a long sword in his hand, which was a product that the boss of the blacksmith shop had just finished.

On the way back to the hotel, Tang Zhen looked at the mountain peak in the distance. He seemed to have suddenly thought of something as he said to the attendant behind him, do you think Dragons really exist in this world? how strong are they? ”

The attendant who had been silent this entire time revealed a complicated expression. He indifferently said, ”Dragons do exist. When you face them, you feel so weak.

An ordinary person would not be able to put up any resistance in front of a huge Dragon. It would be even more difficult to kill it!

At least, other than the legendary dragon Slayers, I've never seen a Dragon killed before!”

Tang Zhen swept his gaze over his follower and laughed softly.

...

“Others might not be able to do it, but maybe we can!”

Hearing this, the attendant also smiled. I hope so. But I advise you not to try it so easily. Believe me, that Dragon is really terrifying!

Tang Zhen did not say anything. He merely nodded his head.

“Oh right, I still don't know your name?”

“I'm Jason, Sir.”

really? I think Dragonborn is a good name!

Tang Zhen said with a smile. He continued to walk forward. Behind him was his follower, who had a puzzled expression.

Dragonborn? what the hell was that name?

[Chapter 955](#)

955 Soul Stone (1)

The two of them walked into the giant hotel while Jason was still in doubt.

The customers who were still drinking naturally saw Jason, who was dressed as new as he was. Looking at the weapons and equipment, they were all secretly envious.

This guy who came out of nowhere was definitely lucky today. He was actually hired by the rich man from across the sea and obtained a set of valuable equipment so easily.

For adventurers, good equipment could save lives at critical moments, but many people did not have the money to buy new high-end equipment because it was definitely not a small expense.

Therefore, most adventurers wore a set of tattered equipment and would not change it until they died!

It was a joy to meet an employer who was willing to pay for equipment that was obviously high-end!

The Tang Zhen duo ignored everyone's gazes as they passed through the lobby of the inn and headed to their residence on the second floor.

Tang Zhen entered the room and sat on a chair. He randomly took out a crystal that looked like a gemstone and began to fiddle with it.

This was what the blacksmith had given him after he had bought the two enchanted weapons. It was called a Soul Stone, and it could be used to enchant weapons that had exhausted their mana.

After seeing this gem, Tang Zhen's eyes flashed with a trace of surprise. However, his expression did not change. He thanked the blacksmith and left.

In fact, when the blacksmith took out this Soul Stone, Tang Zhen had already discovered that the aura of this Soul Stone was extremely similar to that of the origin stone!

However, now that he had calmed down and observed it carefully, he realized that this Soul Stone was very different from origin stones.

The origin stones that Tang Zhen had seen earlier were all pure with a single attribute without any impurities. On the other hand, the interior of this Soul Stone was filled with extremely impure energy. The power of laws was also almost undetectable.

The different types of energy that repelled and resisted each other, and even reacted violently after contact, also existed in the same origin stone at the same time.

Under such circumstances, the Soul Stone still did not explode, which was quite rare!

"Jason, how much do you know about soul stones?"

After Tang Zhen fiddled with the Soul Stone for a while, he raised his head and asked his attendant who was quietly standing beside him.

Hearing this, Jason thought for a moment and said, "This kind of Soul Stone is very rare and precious. It is said that it can absorb souls and transform them into magic power to charge enchanted weapons!

In addition, these soul stones from the sky were said to be fragments of the space where a God lived, and had more powerful effects than ordinary soul stones!

If I want to know more, I'll have to ask those knowledgeable scholars!"

When Jason said this, he shrugged his shoulders, indicating that he only knew that.

"Yes, I'll read it if I have the chance. You can go and rest now. I'll call you if there's anything."

Tang Zhen lowered his head and continued to study the Soul Stone in his hand.

Jason nodded and went to the room next door. He lay on the bed and began to sleep.

He had just escaped from death some time ago, so he needed a good rest so that he could get back to work.

When Tang Zhen was the only one left in the room, he flipped his hand and the Soul Stone disappeared.

At the same time, the top-up number at the bottom of his mobile phone had a slight change, which also showed that the Soul Stone was a special kind of origin stone.

In fact, origin stones did not have a fixed appearance. Origin stones from different worlds actually had different appearances.

The origin stones that Tang Zhen had seen so far had a hexagonal, cubic, bead-like appearance. The only thing they had in common was that they were extremely similar to gemstones!

There was still a faint trace of the power of laws within it, and nothing else.

It must be because the purity of the Soul Stone was not high. Therefore, this Soul Stone was only equivalent to one-third of the origin stone. The exchange rate made Tang Zhen a little disappointed.

However, since this Soul Stone was used as an enchantment item, it proved that there must be a lot of them in reserve, and it was not difficult to unearth them. Otherwise, it would not be so popular among the people.

Moreover, the quality and level of the soul stones were also different. It was estimated that the high-level soul stones would not have such a devaluing situation.

He didn't expect that he would accidentally discover traces of origin stones after just coming to this world for a few days. This also caused Tang Zhen's mood to become extremely good.

He had a faint premonition that he might have an unexpected great harvest in this world!

Just when Tang Zhen was thinking about how to collect these soul stones, footsteps suddenly came from the door. Soon after, a knock sounded.

"Come in!"

As Tang Zhen's voice fell, a Holy Dragon City Lord in a black cloak stepped into the room.

city Lord, we've already collected some information about this place. Would you like to take a look? "

After seeing Tang Zhen nod his head, the Overlord operated the computer on his wrist and transmitted a set of information to Tang Zhen.

After the transmission was completed, Tang Zhen tapped a few times on the computer on his wrist and a holographic image appeared in front of his eyes.

It was a high-definition video of a city built in the middle of a Valley. It covered a large area and looked quite majestic.

The city walls were built with huge rocks, and they were filled with elite soldiers. There were also many city defense weapons.

Under normal circumstances, if they wanted to take down this city, they would definitely have to pay a high price!

However, to Holy Dragon City, a city wall was not of much use. Whether it was a cannon or an aircraft, they would make the city wall useless.

It could be said that taking down this city was as easy as blowing off dust for the Holy Dragon City!

Of course, the purpose of the Holy Dragon city's invasion was not to take over the city. If there was no need, the cultivators in the city were not willing to start wars everywhere, because it would greatly increase the difficulty of collecting the world's origin.

However, the problem was that none of the towers could complete the task without shedding a drop of blood. This was because the invasion of the towers was an enemy of the entire Otherworld. Even if the Aborigines did not want to fight, the world's original will would drive them to resist.

After all, the plundering of the world's origin would cause too much damage to the world. It was like a person's essence being plundered. In serious cases, it would not be surprising to lose his life!

"Lord Castellan, this city is Snow City, the political center of Snow City. Lord balguv has many Warriors and mages under his command, and his overall strength is very strong!

We once ambushed a team of adventurers with good strength to judge their combat power.

Through the process of fighting and the interrogation, he could confirm that some of the powerful warriors among them had the strength of a level 5 cultivator.

As for the natives with the strength of a Lord, there should be a few, but the exact number is still unknown!"

...

Tang Zhen nodded and casually asked, what about the adventurer team? did they clean up? how's their equipment? "

"It's been dealt with. The level of the equipment is about the same as that of ordinary cultivators in loucheng. However, compared to Holy Masters, the skills of mages in this world seem to be more powerful!

They also have a special weapon that has a powerful energy attack effect. It seems to be more lethal than demon weapons!"

Tang Zhen nodded. He already had some understanding of this situation. After all, this could barely be considered a high-energy world. Moreover, it seemed to be inextricably linked to the gods.

In this case, it was quite normal to imagine that the native cultivators were stronger.

As for the places where the indigenous cultivators are stronger than the Holy Dragon City, there's no need to worry too much. I just need to snatch them for my own use.

It was normal to use the weapons of native cultivators to attack the natives. After all, the purpose of war was to obtain the final victory. What kind of means couldn't be used?

When the cultivators of loucheng world invaded the foreign world, they not only plundered the origin of the world, but also the weapons and combat techniques of the foreign world's Aborigines. In some loucheng, there were many cultivators who specialized in the combat techniques of the foreign world.

After all, plundering was simply snatching the good things of the other party and then using them for oneself!

[Chapter 956](#)

956 Departure (1)

When Lou Cheng first invaded the Otherworld, because he didn't know the world he was invading, he could only choose a random location in the Otherworld to open a plane transmission channel.

There were too many unknown dangers in this method, so many loucheng suffered losses.

Some of the towers appeared on the surface of the ocean, some appeared in the mouth of a volcano, and there were even some unlucky towers that were directly teleported to the headquarters of the most powerful native forces!

Encountering such a situation could no longer be described as unlucky.

The final result was that as soon as Lou Cheng teleported over, he suffered the full counterattack of the indigenous camp.

Only a few powerful towers could break through the encirclement and make the indigenous camp abandon their armor. The rest of the towers would basically be defeated and then return to the world of towers.

The destruction of cities and the death of people would happen from time to time!

In such a special situation, the invading towers were helpless. After the teleportation began, it couldn't be stopped or changed, and they could only blame it on their bad luck.

Because of this, the foundation stone platform was repeatedly criticized by the cultivators of Lou Cheng.

Since he couldn't count on the cornerstone platform, Lou Cheng, who was carrying out the mission, could only take active measures to protect himself.

The original invasion action was forced to change to self-protection. As for the mission issued by the cornerstone platform, let it go to hell. It was more important to protect Lou Cheng and his own life first!

At this time, Lou Cheng, who was participating in the invasion mission, would either buy powerful weapons with all his resources to enhance the defense level of the protective shield or send a Suicide Squad into the invading world to try to improve the unfavorable situation.

If these two methods weren't safe enough, these towers would leave some of their elites and resources behind to preserve their strength. In this case, even if they were defeated and the towers were destroyed, the remaining residents would still have a chance to rise again!

However, if this world had already been invaded before, it would be much more convenient for the second invasion.

Because they had some understanding of this world, the invading tower could lock onto a certain area of this world, and the transmission channel would open in this position.

Under such circumstances, the invading tower would choose a hidden location and quietly open the teleportation channel.

For example, deep in the mountains or forests, or at the bottom of the ocean, or even deep underground!

These places were deserted, and the chances of being discovered would be greatly reduced.

And when the teleportation began, Lou Cheng would send some cultivators over in advance, marking the surroundings of the passage as a forbidden area.

Once a native barged in, the cultivators in charge of defense would control or kill him to prevent the news from leaking out!

In this way, they could ensure to the greatest extent that before the City Tower descended, the native forces would not discover anything unusual and then take intense defensive and counterattack measures.

However, compared to other towers, the Holy Dragon City undoubtedly had a greater advantage, because their city Lord had already entered the mission world before the tower was teleported!

From this matter, one could see the advantages of a mobile phone. Using its transmission function, Tang Zhen could take the first step into the world that was about to be invaded, choose a suitable place to open a plane transmission channel, and ensure that there would be no interference during the transmission process.

After a preliminary investigation of the snow-covered territory, it was confirmed that a plane transmission channel could be set up here. After all, this place was high in the mountains and dense in the forest, and there were few people. Even if the channel was set up, it would be difficult for people to discover it.

After the Holy Dragon City descended, Tang Zhen would use the Snow Man territory as his base and continuously expand to the surrounding areas, slowly swallowing this continent!

This process might take a long time, so Tang Zhen had to make plans early!

Making use of the local Aborigines to assist was actually a pretty good method. At the very least, Tang Zhen had done this more than once, and the results were quite good.

Of course, he would not completely trust these local Aborigines. Instead, he would assign the cultivators of the Holy Dragon City to supervise them, in case they caused trouble in private.

Once he had enough manpower, Tang Zhen would control the entire Xueman territory. The invasion would officially begin when the Holy Dragon City descended!

Only when the entire xueman territory was under his control would he be able to ensure that Holy Dragon City would not be disturbed during the teleportation.

Tang Zhen sat on the chair and thought for a moment. After which, he closed his eyes and his body suddenly rose into the air as he began his daily training.

He could only hope that time would pass quickly, because there would be a good show tomorrow.

.....

Early the next morning, at the entrance of hewang village.

Donnie, who had changed into a set of adventurer's equipment, was standing under an old tree and looking up.

His gaze was fixed on the village entrance, and he looked restless. A trace of anxiety could be seen in his eyes.

"Damn it, the sun has already risen so high, why aren't they here yet? Don't tell me you're not going?"

Donnie's mood was fluctuating. He was worried about his personal gains and losses. He would never calm down before he saw Tang Zhen and the others.

"Although that rich man is very curious about Dragons, he is also afraid of them. Could it be that after a night of thinking, he is afraid?"

No, they have to go, and even if they don't, I have to find a way to bring them there. Otherwise ..."

Thinking of this, Donnie narrowed his eyes, and a hint of ruthlessness flashed in his eyes.

At this moment, a group of people appeared at the entrance of the village. Donnie looked at them and was pleasantly surprised.

you're finally here. Let's get going. After all, the dragon's lair is still some distance away!

As Donnie spoke, he glanced at Tang Zhen who was wearing a black cloak in front of him. In his opinion, although this rich man was well-equipped, there was no trace of energy around his body. It was obvious that he was just an ordinary person without any combat power.

If it wasn't for the protection of the guards, he definitely wouldn't have been able to survive for more than a day in a place like the snow City. He would have been killed and all of his valuable items taken away!

Therefore, the ten silent and mysterious subordinates behind Tang Zhen were the ones that he needed to be wary of.

Donnie had always been a little afraid of the ten followers who didn't look weak. Although he didn't know how strong they were, he was sure that they were definitely strong!

If Donnie were to fight one of them, he might be killed in less than ten moves!

However, to deal with such an expert, there was no need to fight face to face. Sometimes, a few small tricks were far more useful than swords!

It was exactly because of his confidence that Donnie was able to keep calm. In his heart, the ten seemingly powerful followers were going to be dead bodies soon!

[Chapter 957](#)

957 Ill-intentioned _1

Inadvertently, a past event came to Donnie's mind.

On a certain day a few years ago, he had once led a team of powerful adventurers into the depths of this mountain range from another location.

Without the adventurer noticing, Donnie took him on a path of no return. The final result was that the adventurer team was completely annihilated, leaving behind a batch of valuable weapons and equipment and a bag of gold coins!

At that time, Donnie was far less powerful than he was now, but he became crazy under the stimulation of money.

Even the strongest Man in the team of adventurers had his throat cut by him with a sharp blade, and the hot blood sprayed all over his face.

The resentful eyes of the other party before his death were still fresh in his memory, but so what? after all, the one who died was the other party, while he was still alive and well.

While he was enjoying himself, the corpses of these adventurers that had been casually thrown away had probably been torn to pieces by the wild beasts!

For a long time after that incident, Donnie had been very happy because he was not short of money, so he was popular wherever he went.

However, after spending all the gold coins in his pocket, without any source of income, Donnie began to recall the experience again.

As long as someone like Downey had killed and robbed someone once, he would be addicted to it. Especially when he was short of money, he was eager to do it again!

Once he had money, he could enjoy fine wine and roasted meat, as well as the few flirtatious and seductive women in the inn.

However, he had been waiting for a suitable opportunity all this time. Occasionally, he would take a few actions, but the income was not enough to satisfy him.

Fortunately, Tang Zhen, this rich man, appeared when Donnie was most embarrassed.

No one knew how happy and excited Tang Zhen was at that time, especially when he found out that Tang Zhen's net worth seemed to be far more than this. He was so excited that he almost couldn't sleep.

He kept reminding himself that he must not miss this opportunity, or he would regret it for the rest of his life!

Thinking of this, Donnie's eyes became more determined, and the smile on his face became brighter.

is this the follower you hired? he doesn't look like a local!

His gaze swept towards Jason, who was behind Tang Zhen. His gaze mainly stopped on the enchanted short sword at the other party's waist. He had obviously already seen that this weapon was worth a lot!

According to his understanding of the market, an ordinary enchanted weapon would cost more than 100 gold coins. Now that it was equipped on a follower, was he not afraid that this follower would try to escape at the sight of money?

He was indeed a rich man, spending money without any scruples. How good would it be if this money was given to him!

Looking at the silent Jason, Donnie's eyes flashed with envy.

As for the other party's appearance, he seemed a little familiar, but he could not remember where he had seen him before.

Of course, it did not matter if he could not remember. It was supposed to be a very lucky thing for this Nord to be hired by a rich man, but now it seemed that it was not so!

Thinking about that, Donnie couldn't help but sneer to himself.

The more valuable things, the better. All the gold coins, equipment, and even this rich man's cargo will all be mine in the end!

"It's almost time, do you want to leave now?"

Seeing Tang Zhen nod, Tang Zhen immediately turned around and walked toward a small path by the village.

The path covered by weeds was very well hidden. It seemed to have been stepped on by collectors and hunters. The narrowest part was only about a meter wide, and it was surrounded by thick trees.

Tang Zhen's group slowly advanced on this narrow and winding path. From time to time, some birds and beasts would appear. Their eyes carried a curious expression as they sized them up without moving.

Donnie seemed to be very familiar with this road. While he led the way, he would turn back every now and then and tell Tang Zhen about the scene of his encounter with the giant dragon.

"You don't know this, but when I first saw the Dragon, I was so scared that my soul was trembling!

The Dragon's body was so huge that it was almost the size of a small mountain. It even blocked out the sun when it flew!

if you look at the dragon's eyes, you'll find that they're so terrifying. At that time, it just glanced at where I was hiding, and I was so scared that my legs went soft, and all my strength disappeared.

Seeing that Tang Zhen seemed to be very interested, Tang ni also spoke even more happily and was secretly pleased in his heart.

The reason why he had put in so much effort to tell Tang Zhen about the giant dragon was to make Tang Zhen maintain his curiosity. He did not want Tang Zhen to give up on this operation because of the fear in his heart and the difficulty of the road.

In that case, all his previous preparations would have been in vain.

If that was the case, Donnie estimated that he would go completely crazy!

While he was conversing with Tang Zhen, he was also continuously calculating the distance. His mood had also become increasingly anxious and nervous.

you look very nervous. Why? ”

Tang Zhen, who was listening to Donnie’s story while walking, suddenly said. At the same time, his eyes that seemed to be able to see through people’s hearts stared at Donnie.

“Nervous? Of course, I’m nervous! After all, we’re going to the dragon’s lair to steal treasures, so it’s inevitable that we’ll be nervous and excited. Hahaha, Yingluo.”

Downey reacted quickly and explained to Tang Zhen while laughing.

actually, you don’t have to be so nervous. It’s just a giant dragon. If we reach its cave and the Dragon is still in its nest, we can just capture it and play with it!

Tang Zhen seemed to be joking as he casually said that. However, it gave Tang Yi the feeling that he was speaking the truth.

Yes, I must be hallucinating!

“Hehe, if we really capture the giant dragon alive, I’m afraid that your name will immediately spread throughout the entire Snow City!”

Donnie put on an ugly smile, but he continued, ” “Although slaying a dragon is legendary, it’s not impossible. As for the difficulty of capturing a giant dragon alive, just thinking about it makes one feel despair!

Mr. Tang Zhen, are you sure you’re not joking?”

Even though Tang Zhen had been speaking to Tang Zhen, he couldn’t help but refute Tang Zhen’s arrogant and ignorant thoughts.

Was this rich man from across the sea crazy to want to capture a Dragon alive?

This kind of rich person really didn’t know the immensity of heaven and earth!

Donnie’s heart was full of disdain. After chuckling, he turned around and continued to lead the way.

However, he didn’t notice that the cloaked Holy Spirit city’s overlords had also revealed looks of disdain in their eyes after hearing his words.

...

Silly, do you really think that we've never seen a Dragon before? and are Dragons really as powerful as you say?

Perhaps to the natives of this world, giant Dragons were an extremely terrifying creature. However, to the cultivators of the Holy Dragon City, they were nothing!

Currently, there was a giant black Dragon imprisoned in the valley behind the Holy Dragon City. Its strength had already reached King-level!

But even so, this guy was still beaten black and blue by the city Lord. He was still in a deep sleep and had become an experimental subject for Holy Dragon city's researchers.

When this guy woke up, he would be shocked to find that he had a bunch of descendants!

At that time, the Black Dragon who had suddenly become a father would probably have a very interesting expression on his face.

This guy had fallen into the hands of the Holy Dragon City. If he did not make use of his remaining value, he would never be free!

This also proved one thing, and that was that almost no one who provoked Holy Dragon city's enemy had a good end.

Holy Dragon City would not show any mercy to their enemies!

[Chapter 958](#)

958 Trap (1)

The two sides had different perspectives, which led to different ideas.

For a native like Donnie, Dragons were definitely an extremely terrifying creature, almost synonymous with disaster.

However, to the cultivators of the Holy Dragon City, no matter how powerful the Dragon was, it was just a powerful monster. Other than that, it had no special meaning.

The Holy Dragon City had killed more than one similar monster. In the eyes of the Holy Dragon City cultivators, they were nothing much!

In fact, even if Tang Zhen did not make a move, the Holy Dragon city's Overlord cultivators could still rely on excellent weapons and equipment to kill the giant dragon!

Therefore, the Holy Dragon city's overlords did not have much fear for this kind of King level creature with decent strength. Even if they encountered each other at this moment, they would not hesitate to surround them and carry out the magnificent feat of slaying a dragon!

As the Holy Dragon city's level increased, the strength of the cultivators in the city kept increasing. In the future, the cultivators of the Holy Dragon City might be able to kill a giant dragon without much effort if they were alone!

Donnie probably never dreamed of these things!

Although Donnie was smiling, there was still a hint of mockery in his heart. He led the way dutifully.

Although the mountain path was difficult to walk on, it could not stop everyone's advance. Even if they encountered some fierce beasts blocking the way, they were all killed by everyone.

Tang Zhen and the others didn't care about the corpses of these fierce beasts and casually threw them in the forest.

Although Donnie felt that it was a pity, he knew that he had to do something important. So, he did not collect the materials from the bodies as usual, even though they were all valuable.

After a few battles, he more or less had some understanding of the Holy Dragon City Lord's combat power, and the fear in his heart increased.

Even so, he was still very confident in himself. Even if these Holy Dragon City cultivators were very powerful, they would still not be able to escape death!

How could he know that these Holy Dragon city's overlords had not even used ten percent of their strength when they had just started hunting the ferocious beasts?

If Donnie really thought that this was all the Holy Dragon city's Lord could do and let his guard down, he would definitely die a terrible death!

Before they knew it, they had already reached the end of the path. At the same time, a huge Valley with strange rocks suddenly appeared in front of them.

This Valley was almost barren, and every Boulder was the size of a small mountain. The weathered surface was full of shining ring patterns, which seemed to be some kind of special ore.

go along this rocky valley. At the end of it, there will be a huge mountain peak. Near the peak of the mountain peak, there is a temple. That giant dragon is entrenched there!

Donnie pointed at the narrow passage between the huge rocks and explained to Tang Zhen and the others.

Using the act of wiping his sweat as a cover, his gaze swept across a huge rock at the entrance of the valley. When he saw a few small stones placed under the huge rock, his eyes revealed a trace of light.

"Mr. Tang Zhen, shall we rest here for a while or shall we continue?"

"I suggest that we continue our journey because we still have a lot of things to do after reaching the Dragon's Nest. At the same time, it's best to leave this forest before dark.

This mountain range is very dangerous at night. In addition to those ferocious beasts, it's very likely that you'll encounter terrifying monsters, as well as the appearance of evil wizards!"

Tang Zhen frowned slightly and gently nodded,"In that case, let's continue on our way!"

Seeing that Tang Zhen had listened to his suggestion, Tang Zhen was very happy and kept praising Tang Zhen.

The team set off again. The surrounding scenery changed from trees to boulders. Looking at the boulders that were full of glowing circular patterns, everyone felt as if they had entered a maze.

There were some open areas in the valley, but they were also covered with house-sized boulders. If one were to walk in these areas, one would get lost if they were not careful.

The mountain peaks on both sides also criss-crossed, constantly intertwining in the valley. It seemed that every branch could lead out, but in reality, it was a dead end!

There were also some strange creatures here. They seemed to be affected by some kind of power and had become extremely huge. They would jump out from time to time to attack everyone.

There were a few times when they encountered groups of monsters, but after killing them, they realized that they were lost!

Every time that happened, Donnie would quickly climb up to the rock, look around for a while, and then jump down to continue leading the way.

Tang Zhen suddenly asked as he walked along the winding road filled with huge rocks. After walking for a distance, he looked at Tang Zhen who was walking beside him.

“Donnie, are you in need of money?” he asked.

Donnie, who was looking around, could not help but be slightly stunned when he heard this. He did not understand why Tang Zhen would ask this.

However, he quickly laughed hideously and said with a somewhat emotional tone, “I’m short of money, yes, I’m really short of money!

If I had money, I wouldn’t have been reduced to sitting in a Tavern and only watching others drink!

In the end, it’s all because of the lack of money!”

Then, Donnie seemed to have thought of something and could not help but smile bitterly.

Tang Zhen nodded. He swept a glance at the somewhat dejected Tang ni and nodded with a smile, I see. After this deal, the money should be enough for you to squander for a while, right? ”

Donnie, who was observing the surroundings, had a change in expression. He turned to look at Tang Zhen, who had a faint smile on his face. He took half a step back without a trace and laughed dryly at the same time, “Mr. Tang Zhen, what do you mean by that? why can’t I understand what you’re saying?”

Tang Zhen ignored Tang ni. Instead, he placed his hands behind his back and glanced at the surrounding two-story-tall huge rock as a cold smile appeared on his face.

you don’t understand? you’re just pretending, right? otherwise, why are you panicking? ”

An ominous feeling rose in Donnie’s heart. He took another step back, and at the same time, one of his hands slowly moved toward the sword on his waist.

Tang Zhen’s face revealed a trace of disdain when he saw this. The gaze he used to look at Tang Zhen was as if he was looking at an ant that was pretending to be smart.

“What do you mean? it’s just as you thought. Your scheme has been exposed long ago, so you should stop acting!

After acting for such a long time, you must be very tired, right?”

After hearing that, the smile on Donnie’s face gradually disappeared, and his eyes turned cold.

have I been discovered? why didn’t they expose me? why did they follow me all the way here? ”

“Hehehe Yingluo, you’re so confident that I can’t do anything to you?”

A trace of contempt and ridicule appeared on Downey’s twisted face. He looked at Tang Zhen as if he was looking at a dead man.

“Cut the crap, you can all go to hell!”

As Downey laughed wildly, a series of wild laughter immediately sounded from the surrounding boulders. Soon after, many strong figures appeared on the boulders and surrounded Tang Zhen and the others.

...

These people had tattoos all over their bodies, and they wore helmets made of beast skulls. They only had short robes made of beast skin on their bodies, and their shoes were also sewn from beast skin.

In their hands, they were carrying all kinds of weapons, which were also decorated with fur, giving people a rather rough feeling!

Although their equipment was in tatters, these people’s auras were extremely valiant. The gazes they used to look at Tang Zhen and the others were like a pack of hungry wolves looking at lambs that had fallen into a trap!

It was as if in their eyes, Tang Zhen and the others were the best delicacies that made them drool with desire!

[Chapter 959](#)

959 Evil God’s believer (1)

After these brutal-looking ambushers appeared, Jason, who had been standing behind Tang Zhen, suddenly pulled out his weapon at the fastest speed and blocked Tang Zhen behind him.

hide behind me. If you have the chance, retreat immediately!

Jason’s expression was grave as he looked at the ambushers in the surroundings. He did not even turn his head as he warned Tang Zhen.

Tang Zhen smiled slightly when he saw this. The other party’s reaction and conscientious performance caused him to feel extremely appreciative.

The purpose of hiring Jason was mainly because of his special identity. In this special world, the experience of such a person was almost no different from cheating.

Tang Zhen didn't want to allow a fellow who was close to being the son of destiny to be out of his control. Therefore, he took the initiative to make a move and pulled him into his camp.

If Jason tried to oppose him in the future, Tang Zhen would not hesitate to kill him!

However, from the current situation, the other party's character was not bad. Even in the face of so many enemies that were obviously not easy to deal with, he still did not hesitate to draw his sword to protect himself.

Even if Tang Zhen didn't need it, the other party's behavior was worthy of praise and encouragement.

"Relax, things are not as bad as you think!"

Tang Zhen smiled and patted Jason's shoulder. He walked to the side and coldly glanced at Downey, who had already raised his sword with a grim smile. He asked Jason, whose muscles were tense, "Jason, do you know the background of these guys?"

Jason, who was holding the paralyzing short sword and long sword, immediately replied, "These are all believers of the heretic God. They don't like money, so they abandoned everything and worshipped the heretic God. They often offered human heads to evil gods, and at the same time, they liked to eat strong adventurers, thinking that they could obtain their power!

These guys are like the Oathbreakers, rats on the street. Once they appear, they will be killed. No wonder they are hiding in this place!"

After that, he glanced at Donnie with undisguised contempt in his eyes.

"This guy must have colluded with the believers of the wicked God to lure powerful sacrifices for them. The believers of the wicked God don't like money, so they will be taken away by him in the end!

God knows how many adventurers have been harmed by this damn bastard. It's not too much to kill him a hundred times!"

Tang Zhen nodded and waved to the Holy Dragon city's overlords beside him.

"I see. But these guys are still somewhat useful. I didn't waste half a day.

Beat them all to the ground and try to keep them alive!"

As soon as he finished speaking, the Holy Dragon city's Lords, who had been waiting for a long time, grinned and drew their weapons from their waists, charging towards the wicked God's believers.

The doomsday's believers also let out strange howls and jumped down from the huge rock, colliding with the Lord of Holy Dragon City.

Donnie, who was holding a sword, sneered at the scene. He knew the strength of the wicked God's believers better than anyone.

Although their equipment was crude, there were many powerful adventurers among them who had extraordinary combat power before they joined the evil god!

Furthermore, after continuous selection and elimination, the weak had already died, and the remaining were all elites.

With dozens of elites like this, even the rich man's followers would not be a match for them, right?

But why didn't they use sabers? why did they use that black stick made of some unknown material?

Just as Donnie was confused, what happened in front of him made him widen his eyes in shock.

The Holy Dragon city's overlords, who were holding black clubs, approached the wicked God's believers at an unbelievable speed. Then, they stabbed the weapons in their hands at those crazy guys.

Then, in a flash of lightning, the believers of the doomsday, who were waving their swords, immediately stood on the spot twitching as if they had been struck by a gust of wind. They fell to the ground with white foam at their mouths!

As soon as they exchanged blows, the ten doomsday devotees suddenly fainted on the ground, and it was unknown if they were Dead or Alive!

The other doomsday's believers were shocked and looked at the Holy Dragon city's Lords with vigilance. Donnie, who was beside them, was so scared that he almost jumped up.

The scene that was happening in front of him was far beyond his expectations!

"This Wufu is using lightning magic. Damn it, are these people not only Warriors but also lightning mages?"

No, it should be an enchanted weapon with the power of lightning!"

Looking at the Holy Dragon City Lord's weapon that flickered with electric light, Donnie's expression was uncertain, and the bad feeling in his heart became more and more intense.

The Outlanders' equipment was so powerful that their speed and combat abilities were enough to completely crush the doomsday devotees.

Damn it, they are rich and powerful. Where did they come from?

All kinds of thoughts emerged in Donnie's mind, especially when he saw Tang Zhen's calm smile, but his eyes were frighteningly cold. He couldn't help but tremble and began to slowly step back.

Tang Zhen, who was originally just an ordinary person in his eyes, gave him an incomparably enormous pressure at this moment, causing his soul to continuously tremble.

This feeling was so familiar. It was like a mayfly facing a giant dragon!

Donnie's pupils suddenly shrank, and he turned around and ran without hesitation.

Tang Zhen extended his hand and pointed when he saw this. He said to Jason, "Can you capture him alive without killing him?"

Jason nodded and rushed out like an arrow, chasing after Donnie, who had gone around the Boulder and disappeared!

After Tang Zhen saw this scene, he nodded his head in satisfaction. He turned his head to look at the battlefield and used his mental energy to pile the unconscious believers together.

Using a special method to stimulate them, all the unconscious doomsday devotees woke up. They first looked around in a daze, then their eyes shone with a fierce light.

However, when they tried to stand up, they found that their bodies seemed to be pressed under a mountain, and they couldn't even move their fingers.

They kept struggling, trying to break free from this restraint, but they didn't know that it was just a waste of energy.

If Tang Zhen was willing, he could instantly crush these believers into meat paste. With their strength that had yet to reach the Lord-tier, they would not be able to escape from Tang Zhen's control even if they died of exhaustion.

However, the other party's crazy performance made Tang Zhen very interested. He casually pulled over an evil god believer. Under the other party's crazy gaze, he stretched out his large hand and directly grabbed his head.

The head was the most important organ in the human body. In the original world, there were records of the head hiding nine palaces. Among them, the niwan Palace was the place where the spirit was hidden. Those with low strength would not be able to explore its mysteries!

The Holy Dragon city's soul dormant body made use of this principle to allow transmigrators to control bodies that did not belong to them.

Tang Zhen, on the other hand, could rely on his powerful mental energy to forcefully break through the soul's protection and enter this mysterious region where the soul was hidden. He could read the deepest memories of the other party and even forcefully modify them!

After Tang Zhen's spiritual energy invaded the doomsday devotee's body, he immediately lost control of his body and became limp like a pile of mud!

...

eh, these guys have been brainwashed and hypnotized. No wonder they're so crazy!

A minute later, Tang Zhen released his palm, and the doomsday devotee whose memory had been read by him regained consciousness. After struggling on the ground for a while, he suddenly crawled toward Tang Zhen.

When the Holy Dragon City Lord saw this, he immediately wanted to knock him out, but was stopped by Tang Zhen.

It was also at this moment that the evil God's believer had already crawled in front of Tang Zhen. He began to hug his boots and continuously kissed them with a pious and fanatical expression!

This scene was seen by the other Lords, and they were all surprised, but no one asked.

Tang Zhen smiled. However, his eyes revealed a pondering expression!

[Chapter 960](#)

960 Puppet (1)

When Tang Zhen was reading the memory of this evil God's believer, he discovered something unusual.

This doomsday devotee was originally just an ordinary adventurer with decent strength. He did not believe in any inexplicable doomsday.

However, during one of their missions, their adventurer team accidentally entered a dilapidated temple and accidentally discovered an underground cave.

Out of curiosity and the yearning for unknown wealth, they entered the temple and saw a shocking scene.

The ground was empty, with twisted tree roots hanging everywhere. The ground was covered in a thick layer of bones!

No one knew how long these skeletons had been there, but they had long since rotted away. However, what was strange was that there was not a single skull in these skeletons.

Suppressing the fear and doubt in their hearts, they slowly moved forward with the help of the fluorescent plants underground. Soon, they arrived at a huge underground space.

The area of this space was more than ten times the size of the previous one. There were huge glowing fungi growing in it, illuminating the place as if it was always dusk.

It was also here that they found a huge and strange altar, as well as a mountain of skulls!

It was obvious that the heads of the corpses had been piled up here as special offerings.

In addition to these skeletons, the altar was also covered with a mess of weapons and gold and silver treasures, shining with an intoxicating luster, making people's hearts beat wildly with a single look.

However, what attracted their attention the most was a strange statue that was almost five meters tall in the center of the altar.

The statue looked very fierce. It had a snake head and a human body. It had six arms, two pillar-like legs, and a huge tail.

Looking at its appearance, it seemed to be some unknown god!

The statue was so vivid that it seemed to have been staring at them ever since they entered the underground space. Its eyes were flashing with a cruel and cunning light.

If they weren't sure that it was a statue, they would have mistakenly thought that it was a living thing!

At this moment, the adventurers were surprised to find that the material used to carve the statue was an extremely rare and huge Soul Stone!

This discovery made the adventurers extremely excited.

Soul stones were very expensive to begin with, and a Soul Stone of such a size could definitely be considered a rare treasure. Countless mages and large trading companies would fight to buy it.

If they could bring it back, they would not have to worry about food and clothing for the rest of their lives!

However, this strange environment made them quite afraid, but it was impossible for them to give up this shocking wealth. So after some discussion, they decided to test the waters. If there was any danger, they would retreat first and then find experts to help!

With a hint of anxiety and anticipation, they gradually approached the altar. Nothing unexpected happened during this time.

Even after they picked up the gold and silver on the ground, there was still no abnormality, which made them slightly relieved.

Perhaps they were thinking too much. This place was an abandoned ancient altar. Now that they had encountered it, they were definitely favored by the goddess of luck!

Without any more worries, the adventurers immediately swarmed forward and picked up the valuable jewelry, throwing them into their backpacks.

In the process of picking up the treasure, the adventurer inadvertently looked up and found that the statue carved with spirit stone had turned its head at some point and was staring at them with a cunning and strange gaze.

After seeing the eyes of the statue, there seemed to be a loud "boom" in the adventurer's mind, and he lost consciousness.

.....

This was the last scene that Tang Zhen saw in the evil God's believer's memory. It was a normal person's memory and it was sealed up tightly.

Tang Zhen had also spent a great effort before he was able to read this blurry and incomplete memory.

In the later memories of the wicked God's believers, they were filled with worship of the wicked God, to the point of almost madness.

In his mind, other than serving the evil god, looking for sacrifices and developing believers, he had no other thoughts!

This change in perception was too sudden and seemed very abnormal?

After Tang Zhen's investigation, he was certain that this was indeed very abnormal. This was because his current memories had been tampered with and were completely implanted!

It could be said that adventurers whose memories had been tampered with had become puppets, and their only thought was to serve the evil god.

This kind of method was very insidious. It could be said to completely destroy a person's mind, making it impossible to repair the memory that had been instilled!

The abnormal behavior of the evil God's believer was because Tang Zhen had just erased this part of his memory. In turn, it made him worship him crazily and listen to his every word!

However, this was all he could do, and this was based on what the wicked God had done. If he had to personally create such a similar believer of the wicked God, he would not be able to do it for the time being.

Firstly, the strength of his spiritual power was not enough, and secondly, he did not have the corresponding secret technique. If he attacked in this situation, he would only turn the other party into an idiot!

However, Tang Zhen was quite interested in this "evil God's" method. This was because although he had a similar skill, the effect was not obvious. It was far inferior to this method, which was direct and straightforward!

Tang Zhen was still unclear about the strength of the evil god. However, he was extremely interested in the methods it used!

If he could possess such a method, he could personally create a batch of puppets to work for him!

At the thought of this, he looked at the other doomsday believers with a cold smile on his lips. He then casually sucked in another doomsday believer with a fierce look on his face.

These guys were already crippled. Since that was the case, he might as well make use of them and make them his subordinates.

After all, the doomsday devotees' strength was still barely acceptable!

Tang Zhen's mental energy was powerful. In addition, he was merely modifying a simple and direct memory command. This was almost the same as copying and pasting. Therefore, it did not take long for him to completely change the memories of these wicked God's believers.

From the fanatical gazes of these evil God's believers as they looked at him, he knew that Tang Zhen's method was clearly very effective!

He casually took out a pile of leather armors made of synthetic materials from his storage space and threw them in front of these puppets that had 'turned over a new leaf'.

"Take off your clothes and put them together, then change into these black leather armors. Hurry up!"

His storage ring was extremely large, and there were many items inside in case he needed them. Now, he could use them.

The new underlings who "worshipped" Tang Zhen immediately took off their clothes when they heard this. Even some of the women among them did the same.

After putting on the high-tech leather armors on the ground, the new players immediately changed their appearance and looked very powerful.

Tang Zhen took a glance. He took out some weapons and black colored ones from his storage space and threw them in front of the newbies.

...

Soon, these new subordinates put on black masks and held their weapons in their hands. They no longer looked like the believers of the doomsday.

that's right. This way, no one will be able to recognize you!

After burning all the items that originally belonged to the evil God's believers to ashes, Tang Zhen clapped his hands in satisfaction and turned to look at the small path in the middle of the huge rock.

It did not take long for the sound of footsteps to be heard. Then, Jason, with a trace of blood on his face, appeared, dragging a man covered in blood in his hands.

The guy was Donnie, who had just escaped. However, he was dying, and his face was as swollen as a pig's head.

As expected, Jason did not kill him. However, looking at his sorry state, he would have been better off killed with a knife!

He didn't know why Jason hated this guy so much. Combined with the fact that Jason took the initiative to stand up and warn Tang Zhen, Tang Zhen was sure that there must be some entanglement between the two of them. Moreover, it was the kind that would not rest until one of them was dead.

Jason did not kill him now. He had already given Tang Zhen a lot of face!
