A LIFE UPSIDE DOWN

Chapter: 1435

There are more than a dozen wolves, walking slowly from the front. They are huge, and even in the dark mountains and forests during the day, one can see the coldness and bloodthirsty in their pupils.

The eight explorers immediately panicked and frightened, and each of them paled as if they were facing a major enemy.

Even if they are fully equipped, they also have crossbow arrows and weapons in their hands, but they are ordinary people after all, and three of them are women. If they meet one or two evil wolves, they can barely have the strength to fight, but Now they are facing the entire pack of wolves, and these wolves are bigger than they have ever seen!

Their scalp was numb for a moment, their breathing was held, their bodies were trembling violently, and their feet were swinging.

"Why, how do you do it? Isn't this still the most dangerous place? How come wolves have appeared." The young man who spoke with contempt for Lin Ziming just now has a pale face and his tongue is knotted. Large drops of cold sweat fell from his forehead.

"No, I don't know... Now we are in danger, and we have encountered wolves... But this is unscientific, and it doesn't even reach the innermost area. How can there be wolves? It..." Seems to be the captain of this expedition team, his face is full of disbelief now.

The captain swallowed, tried hard to calm himself, and said: "We retreat, and we can't fight hard against this group of animals."

However, as soon as he turned around, his expression froze, showing despair, because, behind, there were also a dozen wolves, all staring at them bloodthirstyly, and they fell dribblingly. This scene, Despaired them completely.

Seeing this situation, the other team members became desperate, and even now they are so scared that their whole body is weakened, and they have no strength at all, and they don't even have the strength to run.

"It's over, we are really going to die here this time..." The captain gave a smile that was uglier than crying, "I'm sorry for everyone, I'm sorry for hurting everyone, I'm sorry..."

The other players heard the captain's apology, but they couldn't hate it, because they agreed at the beginning. They are a group of adventurous young people. The conditions at home are also good. They don't have to run around for life. The greatest pleasure is to find excitement. That's why they will explore the green mountains together. But Wanwan never thought that

they would meet wolves...

They tremblingly shook the crossbow arrows in their hands, trying to aim at these evil wolves, but their hands were shaking, where could they be aimed.

When Lin Ziming saw this situation, he sighed and felt helpless. It seems that he can do it, and when he does it, he will still be stared at by the innate realm master in secret and exposed in advance.

"You still don't want to come to this kind of place in the future, it's very dangerous," Lin Ziming said.

Hearing what he said, everyone turned their heads mechanically and looked at him in amazement. They saw his face without fear or panic. The delicate beauty asked subconsciously, "Are you afraid of you?"

Lin Ziming said, "Is there anything to be afraid of, nothing more than a group of beasts."

When everyone heard what he said, they didn't know what to say. It was indeed a group of beasts, but the problem was that this group of beasts had to kill them.

Now, they believe that Lin Ziming is 100% a madman, and only a madman is not afraid of death.

So they don't bother to pay attention to Lin Ziming, now ask for more blessings.

At this moment, Lin Ziming made a move that made them very nervous, and saw Lin Ziming stand up in large strides, face the wolves, and scolded: "Get out of the way."

His voice exploded like thunder, and the movement of these wolves came to a halt, and then roared and howled the wolves.

They were obviously irritated by Lin Ziming's behavior, and they doubled up faster.

"what are you doing!" "Looking for death!"
