

Chapter: 1859

But isn't it? He has led the army for many years and has never encountered such a powerful enemy. It is completely beyond his imagination!

In his opinion, the army is the most powerful existence in the world, and using hot weapons, no warrior, no matter how powerful it is, can't compete with it.

However, Lin Ziming's performance greatly exceeded his expectations and subverted his cognition!

Although these soldiers under him are still not called kings of soldiers or sharpshooters, their marksmanship is already among the best in the ranks of arms around the world.

However, just now, more than 30 guns fired at this Chinese, but none of them hit the opponent, but instead he was captured by the opponent.

This change really exceeded his expectations.

Especially now that he was gripped by Lin Ziming, he felt an unprecedented sense of powerlessness. In Lin Ziming's hands, he was just a chicken, and his life was completely under Lin Ziming's control.

"Do you want to die?"

Lin Ziming's voice appeared in his ears. After listening to it, he felt his scalp numb and he was extremely frightened.

Logically speaking, as a general, he has been on many battlefields and experienced many cruel wars. His fear of death is far lower than that of ordinary people.

Even if there was a gun pointed at his head, he wouldn't panic or even fear as he is now.

But now, when he was caught in the hands of this Chinese, there was a kind of fear and panic that he had never had before.

And this kind of fear is completely beyond his subjective control!

It came from his instinct, his soul, as if it had encountered a natural enemy, made him panic, even trembling, completely uncontrollably.

Thousands of soldiers on the scene saw their generals, they were captured by Lin Ziming so easily, and they were still helpless to fight back. Suddenly all of them were like enemies, extremely nervous and frightened!

They are good soldiers who are accustomed to life and death, but they have never encountered such a perverted powerhouse as Lin Ziming, which is beyond their understanding of human beings.

In their hearts, even a question arose, the Chinese in front of him, who is it or is it a ghost?

As for the members of the Alexander family who originally watched the enthusiasm, they were also shocked by this scene. Lin Ziming asked to fight against the entire army with his own strength, and also captured the general. This is really incredible!

The bodyguard Hilton, now his scalp numb with fright, he watched the live broadcast with his own eyes and knew Lin Ziming's strength. Now that he sees Lin Ziming is really so powerful, if he says he is not afraid, it is impossible.

Lin Ziming just glanced at him meaningfully, which made him even more frightened. His legs were violently swinging, and he almost couldn't stand still!

"Devil, this is the devil..."

Alexander Horton said dumbfounded, he had never seen such a powerful human!

In his mind, Lin Ziming was not even a human being, but a devil.

Lin Ziming saw everyone's reaction in his eyes, but showed a faint smile with a little disdain.

The Eagle Dog Nation's ranking in the international arena is not low. Originally, Lin Ziming thought that even if the Eagle Dog Nation did not have many masters, the strength of the army should still be possible. Now it seems that it is nothing more than that.
