

Chapter: 2151

Lin Ziming walked into the depths of the forest, and based on his memory, he found the entrance of Luo Tian's organization.

He just appeared there, and soon, he was stopped by someone.

“Stop! Who are you, dare to break into my Luo Tian faction?!”

What appeared here was three guards wearing armors with serious faces, as if they were facing an enemy, their bodies were all taut.

The expression in his eyes also revealed great hostility and vigilance, staring at Lin Ziming, as long as Lin Ziming acted rashly, he would immediately stab Lin Ziming to death!

As soon as Lin Ziming wanted to speak, immediately, the other two guards said viciously, “What do you do with him so much! This must be an enemy from the Eastern faction. Just stab him to death.”

After the words fell, the two guards directly attacked Lin Ziming.

Their speed was very fast, the spear in their hands turned into a streamer, and they stabbed at Lin Ziming fiercely. Once they were stabbed, even a piece of iron had to be pierced into two holes!

Faced with this situation, Lin Ziming frowned slightly, he felt something wrong.

Although he, the cheap Southern Territory King, has not returned to the Luo Tian organization for a long time, but he is the Southern Territory King after all. In the Luo Tian faction that day, the sensation caused was not small. According to the truth, the Luo Tian faction's People, they know him more or less.

The three guards in front of him didn't even know him.

This is also a trivial matter. It is possible that the three guards are new and don't know him.

but.

The emotions expressed by the three guards were not right, it was as if they were approaching an enemy, their eyes were bloodshot, and the whole person's spirit was tense. The vegetation was all soldiers, and it was obviously very nervous. Not afraid of killing mistakes, but afraid of letting go.

This shows that Luo Tian organization, something must have happened, that's why these three guards reacted like this.

These three guards are just ordinary first-stage masters of the Innate Realm. In Lin Ziming's eyes, they are different from the ants. Faced with the spears of the two guards, Lin Ziming just shot them casually and grabbed them. Their spears were snatched by force and inserted into the ground behind them, and said in a deep voice, “I am Lin Ziming, the king of the Southern Territories.”

The two guards' weapons were taken away, and they were only shocked.

The spear in his hand just now seemed to have suddenly come back to life. It was not under their control at all, and it was released all at once.

Now they heard Lin Ziming's words, they were even more shocked, the Southern Territory King?

Didn't it mean that the Southern Territory King is dead? Why did it suddenly appear?

The other guard didn't dare to act rashly. They all could see that Lin Ziming was not an ordinary person, but a real super master. However, they also didn't let Lin Ziming in immediately, but as if facing a big enemy, tightly. Staring at Lin Ziming, one of the guards said in a deep voice, "Do you have any way to prove that you are the King of the Southern Territories?"

Lin Ziming was taken aback. He really didn't have any way to prove this, and what tokens or tokens he had on him.

"I am really the King of the Southern Territories, you will know if you let me in." Lin Ziming said.
