

## Chapter: 2159

Lin Ziming's brow furrowed deeper, and the description got darker. He still wanted to explain, but Jian Rushuang's eyes were already red and he couldn't help it. He raised his arms and shouted, "Let's go together, take this damn traitor down!"

After the words fell, he was the first to rush out and attack Lin Ziming. There was a long sword in his hand in an instant, and the blades on both sides were extremely sharp, cutting iron like mud.

Jian Rushuang is an infinite master of the Dzogchen Realm of Innate Realm. His cultivation is mainly based on a sword. He who uses the sword must increase his strength by a level to reach the strength of a half-step through the gods.

In addition to him, there are many people who also attacked Lin Ziming together.

These were almost all the elites of the Luo Tian School, and they were all touched. Several of them were masters of the Dzogchen Realm.

Suddenly, Lin Ziming also felt tremendous pressure.

He was also a little annoyed, this sword was so prejudiced against him that he couldn't listen to him at all. It seemed that he couldn't do it if he didn't do it.

It was too late, and the sword was in front of him. With a wave of his right hand, a layer of sword blossoms shook out, covering several of Lin Ziming's acupuncture points. Once stabbed, Lin Ziming's physique would be harder. Injured!

I have to say that Jian Rushuang's strength is still good, and his swordsmanship has reached a peak.

If it changed half a year ago, Lin Ziming would not necessarily be his opponent, but now that Jian Rushuang wants to hurt him, it would be too difficult, too difficult, and simply impossible.

Lin Ziming knew that this battle was inevitable, so he also entered a state of battle in an instant. Facing Jian Rushuang's fierce sword flower, he had no choice but to take a step back and pull. After driving a distance, and then accurately finding the trajectory of Jian Rushuang's swordsmanship, he began to take action.

Facing the long sword that Jian Rushuang quickly used, he actually stretched out his right hand, using his middle finger to flick the blade of the sword Rushuang.

Jian Rushuang saw this scene, and immediately sneered, thinking that Lin Ziming was too big, and this was simply looking for death!

Not to mention that Lin Ziming still hasn't reached the God-passing realm, even if Lin Ziming has really reached the God-passing realm, there is no difference between doing this and looking for death.

This long sword of his, but made of meteorites outside the territory, has gone through the low temperature of Antarctica and has been frozen for 20 years. It can be said to be extremely tough, cutting iron like mud, not ordinary stainless steel.

After waiting for Lin Ziming's right hand to reach into his encirclement, Jian Rushuang sneered, and then began to twist his wrists to severely cut off Lin Ziming's fingers, giving Lin Ziming a profound lesson!

This situation is critical, so everyone thinks that Lin Ziming's finger must be cut off.

However, for the person involved, Lin Ziming, he did not panic at all, with a faint smile on his face. After his fingers were close to Jian Rushuang's toughness, he avoided the sword from an extremely tricky angle. As frost slashed horizontally, at the same time, he popped out his fingers, and with a bang, it hit the middle of the sword.

At the moment, I heard a loud sound, the sword-like long sword was actually broken by Lin Ziming!
