

Chapter: 2289

She didn't want other people, she was worried about her, and now they were all caring for Lin Ziming and focused.

It's just that this kind of angina is too strong, making her face a lot paler!

Moreover, her face also became pale, there was no bloody color, and even her body was trembling slightly.

Fortunately, she was sitting on the outermost side, so as long as she patiently endured it, the other three people didn't notice her abnormality.

She just endured it like this, not wanting to make them happy.

However, this is really too painful, and the pain is exacerbated every minute and every second, and it is so painful that she can't bear it anymore.

So at this moment, she knew that she could no longer stay, so she quickly stood up and began to walk longing for it.

She walked very hard, her legs were shaking, one can imagine how much pain she has suffered now!

You know, she is also a master of the innate realm now, and she is already very good.

However, she still endured it, and speeded up...

It's a pity that her colic is too strong. After just taking two steps, she couldn't help but couldn't help her body, her legs became weak and she fell directly to the ground!

And when she fell, she immediately alarmed others.

"Fifei! What's wrong with you? Why did you fall to the ground?"

Qin Huayue was the first to discover, she hurriedly walked to Chu Fei's side, squatted down, and wanted to help Chu Fei...

"Mom, I have nothing to do..."

Chu Fei hurriedly shook her head, still showing a smile on her face, but she was enduring too much pain now, she couldn't hide it at all, especially her face was pale as paper, and cold sweat broke out on her forehead. One can tell at a glance.

Originally, Qin Huayue didn't care too much, thinking that Chu Fei just fell down accidentally, but now, seeing what Chu Fei looked like, she immediately realized that Chu Fei must have something wrong.

"Fei Fei! What's wrong with you? What happened?!" Qin Huayue was surprised, and quickly went to hold Chu Fei's hand, and wanted to help Chu Fei up, but when she touched Chu Fei's hand, she was shocked again immediately, because now Chu Fei's hands and feet are too cold, touching it as if touching a piece of ice, which is completely abnormal, "Ah, Feifei, why are your hands so cold? Ground ice? What happened? Your body is all ice!"

The other Tao Sanniang and Nishang, after hearing Qin Huayue's words, all looked over. When they saw that Chu Fei fell to the ground, and his face

was so ugly, it was obvious that something went wrong, and they too Scared. Tao Sanniang walked over immediately and wanted to hold on to Chu Fei. When she also felt that Chu Fei's body was so cold, her face changed drastically and she began to panic.

She knows that Chu Fei has been abnormal during this period of time and often has nightmares, but she has never seen Chu Fei look so terrible?

She is now supporting Chu Fei, only to feel that Chu Fei's vitality is losing crazily! ! !
