

Chapter: 484

Ma Long showed an expression of admiration, muttered to himself, his eyes glowed, “Too domineering, contempt in the form of life, outside the organization, they are all ants.”

Chu Xuan also showed an idiot face, as if opening a new world, and planting the seeds of enthusiasm in her heart.

Even Liu Suhong and Chu Huaxiong responded similarly. They did not worship, but gave birth to humble thoughts and agreed with what the other party said. The other party is a human, and they are ants.

Lin Ziming felt the surface of the crowd, his face changed slightly, his brows frowned slightly, and he underestimated the other party. This was already a concept similar to missionary.

Of course, he won't let the other party go on. He coughed twice, and the sound was not too loud, but when it fell in everyone's mind, it was undoubtedly a thunderbolt in the sky, bursting with a bang, and instantly regaining clarity.

“Your hypnosis method is high enough. You have hypnotized so many people without knowing it, and almost regarded you as a god. It seems that you are fooling Malone like this. Let him become the son of the grand Kunlun Group. Your running dog.” Lin Ziming said disdainfully, having already broken through the other party's tricks.

The other party was a little surprised, not thinking that Lin Ziming was not affected by him, and because of a cough, his hypnosis was broken.

“It's kind of interesting, it's kind of interesting.” The other party was irritated into anger, but instead clapped his hands, and the interest in Lin Ziming's eyes became more intense, “It really deserves to be a wild species born outside by a saint. .”

The word 'wild species' angered Lin Ziming alive, causing his blood to roll over.

The other party felt his anger, the corners of his mouth were drawn even higher, and he said, “Are you angry? It really is the ant. Just say a few words and get angry. An ant like you, with the blood of a saint flowing in his body, is right. The insults of our organization, if this is the case, then I will take action for the saint and take your life back. A wild species like you has the permission of the organization and is not qualified to live in this world.”

After speaking, he started to do it.

His movement is very small, and there is no sound. It is obvious that his speed is very fast, and his feet are firmly on the ground. There should be huge movements in people's minds, or even the shaking of the earth and the mountains, but on the contrary There was no sound, as if the other party was a cat, with thick pads on his feet.

This kind of reality is extremely incompatible with the brain, and it is

extremely uncomfortable to show people.

The reason why people get motion sickness is because the anticipation in the mind is different from the shaking of reality, and there is a deviation, so motion sickness and nausea are caused.

Now this person simply rushed towards Lin Ziming, and he gave everyone such a feeling of motion sickness. Kung fu can be said to be extremely clever!

However, he could influence others, but he couldn't influence Lin Ziming, because Lin Ziming had expected the result a long time ago.

Although he was not affected, his heart was lifted up suddenly, because he felt the strength of the opponent and was a strong opponent!

“Good job.”

He doesn't retreat but advances, he wants to head-on with the opponent.

It's the opposite of the opponent's action. His action is small and heavier. His actions seem to be light and fluttering. But when he steps on the ground, he is like a heavy elephant. Every step makes the house shake like an earthquake. , The shock to people is even greater!

Lin Ziming now feels heavier and thunderous.

Both Liu Suhong and Chu Huaxiong were dumbfounded. Like Lin Ziming they met for the first time, their brains were completely confused, and they even suspected that they themselves had hallucinations! Otherwise, how could Lin Ziming be so good?

You know, how long ago, Lin Ziming was still a trash who couldn't even find a job, but now he has changed and become a big man that they all rely on?

This strong contrast makes it difficult for them to accept it for a while.
