

## Chapter: 601

He has no way to not lose his attitude. These members of the North Sky Club were brought out by him. No one knows better than him at what level. Even if it is him, he wants to win under the siege of these members of the North Sky Club. It is also very difficult, and injuries are absolutely inevitable! He would even be seriously injured, and he would definitely not be able to do Lin Ziming's easy freehand brushwork, just like playing with a child.

This also shows that Lin Ziming's martial arts is very strong, far above him! Now he finally understands why Lin Ziming dared to bring these mobs and came up to Beitian to worship the pier...No, to be precise, this damn place is not worshipping the pier at all, but kicking the field!

He couldn't figure out why Lin Ziming had come from, and he dared to go to war with the Beitian Society. Does Lin Ziming also have a strong background?

As for Xu Hua and others, it was even more shocking, completely subverting their three views, suspecting that Lin Ziming was not a human being, but a god.

They are all martial arts practitioners, and most of them have been practicing martial arts since they were young. They know how difficult it is to beat a dozen people. Not to mention that these a dozen people are still masters of masters, but Lin Ziming abused him so easily. What is it that is not a god?

Guru!

Xu Hua swallowed hard, his scalp was numb, and his hands and feet were numb. He suspected that he had hallucinations, but after pinching his thighs hard, he confirmed that it was not an illusion, but a real existence! Fortunately, he still despised Lin Ziming, thinking of Lin Ziming's delicate skin and tender flesh, he could beat Lin Ziming and cry with one punch!

It now appears that it is him who is crying.

Just when Lin Ziming glanced over with a smile that was not a smile, he immediately shook his whole body and almost peed his pants. He hurriedly lowered his head, trembling, and didn't dare to look at Lin Ziming.

Wang Shougui is also in a state of complete confusion. He seriously doubts whether there is a problem in this world. How can the chairman be able to fight so much? This is totally unscientific. The chairman is so rich, why should he practice martial arts? Is this chairman really human? In all aspects, we have achieved the top of mankind!

Lin Ziming saw everyone's reaction in his eyes, the corners of his mouth rose slightly, revealing a faint smile, and then he slowly rushed towards Yan. "Well, now I am qualified to open a security company in Huacheng." Lin Ziming stared at Yan Chuang with a smile.

Now Yan Chuang has completely lost his prestige and dominance, but he is obviously afraid, gritted his teeth, and looked at Lin Ziming tightly, and said: "I admit that I missed you. Your martial arts are very strong. It exceeded my expectations. However, you have considered it clearly. Once you open a security company, you will be against me, Beitian will be against it. Is it cost-effective for you to do this!"

Seeing Lin Ziming's calm face and no answer, he went on to say: "You are an individual talent. If you are really interested in the security industry, I can introduce you to our Beitian Conference. When you look at the whole country, you can do everything. Go ahead."

Wang Shougui's heart was immediately moved when he heard it. This is a huge benefit. Once you join the North Sky Club, there will be a big backing, and in the future, it will be more like a fish in the water.

However, Lin Ziming laughed. Without warning, he kicked out, very fast, so fast that even Yan Chuang could not react, so he kicked Yan Chuang away and took the chairs behind him. It fell apart, "You?!!!"

Yan Chuang felt that his intestines had been kicked off, and he was extremely shocked. He never thought that Lin Ziming was so courageous that he really dared to attack him.

When he wanted to be frightened and angry, and was about to get up, Lin Ziming had already walked over, stepped on his chest and stared at him condescendingly, "An ant-like thing, just rely on you to attract me?"

Yan Chuang was really scared now. He was stepped on by Lin Ziming, and he couldn't afford a trace of strength. He was completely slaughtered. You know, he is also the feeling of the peak of the day after tomorrow, and he has also taken the marrow pill twice, which is more powerful than the peak of the day after tomorrow. As a result, in front of Lin Ziming, he has the slightest ability to fight back, that Lin Zi How strong is Ming? Is it innate? ! "Yes, I'm sorry, I was wrong..." Yan Chuang lowered his head to admit his mistake.
