puff!

puff!

puff!

When the three of them fell to the ground, they all vomited a large mouthful of blood.

Lin Ziming kicked too hard with this kick. Even with their physique more than ten times more than ordinary people, they couldn't bear this kick. The intestines inside would be kicked off, and they were suffering from colic!

If it were an ordinary acquired pinnacle master, this would have already passed out of pain. Fortunately, they were from the Fang team and had received a lot of professional training. Both the ability to resist and the will to reach a terrible level. In order to stay awake.

But even so, they couldn't help but scream, there was no way, it was too painful.

Compared to the pain, what made them even more terrified was Lin Ziming's strength, which was so terrifying! Even if the three of them attacked together and carried out the summing technique, there was still no way to get close and get kicked easily by others. This was too much for them.

In fact, not just them, but other people present also reacted like this, especially those who were not in the fourth group. At this moment, they all looked at Lin Ziming dumbfounded, feeling scalp numb and beginning to fear.

After a brief silence, there was an enthusiastic shout from the fourth group.

"The instructor is awesome!"

"The instructor is invincible!"

"The instructor is too powerful!!"

"What Fangs team, just like that, in front of the instructor, vulnerable to a blow, hahaha..."

They all seemed to have won a big battle. With a squeak, they surrounded Lin Ziming, and they also lifted Lin Ziming up and threw them up. When Lin Ziming's eyes flew over, they were immediately frightened. Quickly gave up the idea just now.

Lin Ziming scowled and scolded them, "Stand up straight for me when I was surprised, what I looked like!"

With Lin Ziming's cold snort, all of them felt scared, and immediately formed a queue, standing straight.

Lin Ziming saw that their reaction was fairly fast, so he was satisfied, and said, "I taught you that everything should be calm, don't be surprised, let alone get confused. You have to know that when you leave After going out, it's not just you, but the three places of Xuanyuan, and the motherland

behind us!”

These words were shocking, Lin Ziming’s face was stern, his face was full of majesty, and everyone present was shocked. The eyes looking at him were also full of awe.

Then, Lin Ziming began to walk towards Changfeng, Qinglang, and Lihuo, staring at them condescendingly, “How about it, are you still convinced?”

After the three of them were repaired by Lin Ziming in this way, they looked at Lin Ziming again, and they had completely lost the contempt and arrogance they had just now, and now they felt quite flustered and terrified.

It’s not that they are timid, but that Lin Ziming’s majesty is too great, even surpassing their coach, and Lin Ziming is indeed awesome, they can’t even want to refuse.

So now they all lowered their arrogant heads, and said in awe and panic: “Instructor Lin, we have taken it.”

Hearing this, Lin Ziming also nodded slightly. He didn’t plan to care about them too much. He was from the third place of Xuanyuan and was a compatriot who fends off foreign enemies together. Naturally, Lin Ziming will not embarrass them too much. “Well, apologize to my group of soldiers, that’s all for this matter.”

Chang Feng and the others were very unwilling, but faced with Lin Ziming’s majesty, they did not dare to obey, and obediently apologized to the dozen soldiers in the fourth team.

Suddenly, the dozen or so soldiers felt relieved, and the injuries suffered on their bodies were no longer painful.

You know, these three are the top players of the Fangs team. They are usually in the base, and they can’t pull each one. Now they will apologize obediently to them. If this kind of thing were changed, they would not even dare to think about it. of.
