

Chapter: 992

In contrast to the reputation of the three places of Xuanyuan, it was just the opposite. In these two days, Lin Ziming had been very casual, even a little boring.

Shengke Lighting, which is at the helm of Chu Fei, completed a new round of financing and expanded its scale. From the previous company, it slowly developed into the group direction, so Chu Fei also started to get busy, and there was no time to linger with Lin Ziming.

Lin Ziming felt sorry for Chu Fei, and specially arranged a professional team to assist Chu Fei, so that Chu Fei would be relatively relaxed.

Because of Lin Ziming's relationship, Shengke Lighting has been completely managed by Chu Fei. There is no opinion from the Chu family. Besides, they dare not express their opinions even if they have opinions. The Lin Zi Ming is not the old Lin Ziming.

They usually rely on Lin Ziming's sniffles to live. Moreover, they use the identity of Lin Ziming's family to make money outside, and they don't know how much their social status has improved.

In addition, Ziqiong Media, Tengyue Advertising and Aegis Security were also handed over by him. Under the care of the two teams of Wang Shougui and Han Jinlong, the prosperity of the world has risen, and it can be brought to Lin Ziming every month. He didn't need to intervene with the huge gains.

As for the Ugly Lord, he is now healthy again, everything is running on the right track, and no one from Luo Tian organization comes to ask for trouble.

On the contrary, Lin Ziming has become the most casual person, and his cultivation has reached the bottleneck stage, and he is stuck in the fourth stage of the Innate Realm. It is impossible to make a breakthrough by relying on him to cultivate dryly. There must be an opportunity to let him. Only when he gets a huge insight can he break through to the fifth stage of Dzogchen.

But Lin Ziming knows that it is very difficult to break through to Dzogchen. If there are not enough opportunities, it may not be possible to make a breakthrough in ten or eight years.

So he wasn't in a hurry anymore, after all, he couldn't be anxious even if he was anxious.

On this day, he himself was quite boring in his villa in Yulong Bay, so he simply went out for a walk.

Speaking of it, he hasn't calmed down like this for a long time, and his brain is empty to feel the atmosphere of the city.

After several years of development, Hwaseong City has become a second-tier city, with busy streets, people walking in a hurry, rushing for life, and struggling. There are magicians who perform magic on the streets, as well as sanitation workers who work hard to clean the streets, even rich men

who drive luxury cars, and part-time students who shout and hand out flyers...

In short, the society is full of all kinds of attitudes. At this moment, Lin Ziming hadn't blended into ordinary people like this for a long time.

Don't have a different feeling.

His net worth is enough to buy all the places he can see. Wherever he looks, the total wealth of everyone is not as good as his tenth.

Moreover, with the strength of the fourth stage of his Innate Realm, he can end the lives of ordinary citizens in a very short time. Unknowingly, his identity and abilities have already surpassed most of them. People are above.

However, in the essence of life, he is indistinguishable from these ordinary citizens. Everyone is human, and the joys, sorrows, sorrows and joys that they can enjoy are actually the same, different, but their lifestyles have been happy. The way is different.

This gave Lin Ziming an experience he hadn't had before. Gradually, he forgot his identity, that he was a super rich man, and that he was a superior innate realm powerhouse, but he was just Among all living beings, just an ordinary person who works hard for life.

Before he knew it, his thinking continued to radiate, covering a large area centered on him.
