## Chapter 1011: The Rescue

More than 10 apostles stepped out from behind Snow Mountain. They opened their mouths and large volumes of poisonous gas spurted out towards Wheatley.

Wheatley's face changed when she saw the poisonous gases surging towards her. She suddenly faded into thin air as she activated her power of Awareness and attempted to escape through the Awareness Dimension.

However, she was pulled back into the real world in the next moment and landed with a loud thud on the floor. She wailed and spat out a mouthful of blood.

Wheatley stared at Snow Mountain in disbelief. "You sealed the dimension?"

Snow Mountain smirked. A man behind him remarked coldly, "Did you actually think we would let you escape?"

"Ah!" Wheatley screamed and unleashed her power of Awareness. Numerous huge blue dragons formed in the air and charged towards Snow Mountain and his men.

Awareness Skill – Frost Dragon.

Snow Mountain subconsciously stepped back when he saw the dragons charging towards him. This was a silver level skill of Wheatley's. Its prowess was just below that of the grey and black levels. This skill could directly freeze the enemy's Awareness and even completely freeze the enemy's thoughts, decreasing or even stopping the speed of the enemy's thought process.

However, as Snow Mountain backed off, a silver-haired young man stepped forward. With the wave of a hand, layers of Awareness surged forth and erected a black barrier that blocked off the Frost Dragons.

Wheatley gasped. "The black barrier to the silver skill?"

Bam! The Frost Dragons crashed into the black barrier, shaking it violently. Layers of frost formed on the black barrier of Awareness and froze it completely. However, it shattered in the next moment and disappeared into thin air together with the Frost Dragons.

Seeing how her skill had been blocked, Wheatley was about to strike again when she suddenly felt a surge of dizziness overtaking her senses. She eventually succumbed and fainted.

Snow Mountain was delighted. “The power of Awareness may be omnipotent, but physical frailty remains the biggest weakness of your kind. Lord Black Cloud, I will leave the rest to you.”

The silver-haired young man who casted the black barrier just now walked up and conjured several long silver needles in the air.

Fear flashed across Snow Mountain’s eyes as he saw the long silver needles formed from the power of Awareness.

This was a black level skill. It was even more powerful than a silver level skill and second only to that of a grey level skill.

Snow Mountain thought to himself, “Awareness Sealing Needles, a black level skill that can completely seal off the target’s Awareness. He actually has a black skill that was second only to the grey level. The powers of the Cat Hunters are actually that advanced? I’m afraid they have already controlled one of the Short Fur Sages as their puppet.”

One by one, the long needles stabbed Wheatley’s body. After 21 needle stabs, Wheatley’s eyes flew open as she let out a piercing, agonizing scream.

Black Dune was heartbroken and despondent as he watched the scene unfold before him. “Lord Wheatley!” He glared at Snow Mountain in fury. “Snow Mountain, have you gone mad? The Sacred Hall will never let you go.”

Snow Mountain scoffed. “You won’t think about that anymore after your Awareness is distorted.”

“Shut up!” The silver-haired youth chided and stomped on the back of Wheatley’s head, causing her to faint again. He picked her up and slumped her on his shoulder as he said, “We’ve got Wheatley now. I will bring her back first. You guys stay here to control all the cat slaves of hers.”

Right at that moment, sounds of footsteps were heard approaching them. Everyone frowned slightly as they turned to look at the palace corridor from where the sound came from.

Zhao Yao slowly emerged from the pitch-black corridor.

“You didn’t ask for permission before taking away my cat...” Zhao Yao stared at the girl in the other party’s hands and decided to rephrase his words. “I mean, taking away my little girl. You guys are really brazen.”

As he was speaking, Zhao Yao glanced across the heads of the crowd before fixing his gaze on that of the silver-haired young man, Black Cloud.

“So you’re Level 29?” Zhao Yao frowned as he unleashed Wheatley’s Level 28 abilities through the Cat Prince Costume. “A Level 29 apostle. Is he an apostle from Ya Xing? I can’t beat him with the power of Awareness. If we fight, I’ll have to first destroy his physical body.”

If a supercat or apostle’s original physical form was severely damaged or even killed, his Awareness would be severely damaged as well, which could slowly lead to death.

The physical bodies of the Short Fur Tribe’s supercats and cat slaves could be said to be their biggest weakness. It was not possible for pure Awareness to live on for a long time independently in the physical world. This was also why Tom and Giggie decided to just traverse through the different dimensions using their power of Awareness. As such, even when they arrived on Earth and assumed the bodies of earthling cats and humans, their original physical bodies were kept safe in their own homes.

Black Dune, who was still immobilized on the floor, became both furious and anxious when he saw Zhao Yao appear. “This guy, why is he still acting cool at this point?! Quick, run and inform the others! Alas, we are situated within an area where the dimension is closed off. There’s no chance of escape now.”

“Guang Yu?” Snow Mountain was bewildered when he saw Zhao Yao. He frowned in confusion as he asked, “You weren’t poisoned?”

Using the abilities of the poison apostles, the whole of Wheatley's palace had been engulfed in thick fumes of paralysis poison. All the cat slaves who borrowed Wheatley's ability were poisoned instantly, rendering them unable to use their abilities.

Black Cloud, who was carrying Wheatley on his shoulder, stared at Zhao Yao with interest as he sensed the power of Awareness emanating from the other party's body. He said, "So you're Guang Yu, the new apostle that Wheatley accepted? You're not bad and you have good qualities. Do you want to join us?"

Zhao Yao also stared back at Black Cloud curiously and asked, "Yeah, I think your qualities are pretty good too. Do you want to work for me? I cover all five social insurances and housing."

Black Cloud frowned. Though he did not understand what Zhao Yao just said, the snobbery in his words did not escape him.

"You have a death wish," Black Cloud remarked coldly. "You'll become obedient after I brainwash you."

In that instant, a surge of Awareness arose.

Zhao Yao, who came prepared, did not even give Black Cloud a chance to cast his power of Awareness. He activated the power of Time Freeze and appeared right in front of Black Cloud. His palm slammed right through Black Cloud's body as blood started bursting out.

He proceeded to take away Wheatley and entered the dimension portal.

Zhao Yao's conversation with the young man just now was not for nothing. He was buying time to switch his powers and prepare the dimension portal.

This way, he was leaving himself a route to retreat in battle. This, coupled with the revival ability as his ultimate safety net, were the crucial points in Zhao Yao's battle style.

After coming back through the dimension portal, Zhao Yao stopped the Time Freeze and turned to look at Black Cloud, whom he had attacked.

When time resumed its flow, Black Cloud collapsed in a pool of blood after being attacked by Zhao Yao. However, the power of Awareness continued surging out from his body.

Zhao Yao immediately reacted. “This is not his original form? So he only possessed it?”

The physical bodies of the Short Fur Tribe’s supercats and cat slaves were their biggest weakness. Once their physical bodies were killed, their awareness would sporadically dissipate and eventually disappear into thin air.

## Chapter 1012: Dissipation

Supercats like Wheatley thus sought to switch to the body of an unborn human child to preserve their lives and attain a new physical form.

However, if only their possessed bodies were killed, the impact on their awareness would be insignificant.

That was the case with Black Cloud. Once the body he possessed was killed, his awareness immediately jumped out and transferred to another apostle nearby. Right after that, he activated his Awareness Skill.

Lightning Thoughts – Speed of thought process and speed of transfer of Awareness increased by 10 times.

The whole world seemed to have slowed down in Black Cloud’s eyes. The speed at which the power of Awareness was being transferred increased rapidly.

However, despite the high speed at which his eyeballs moved around, he did not see a trace of Zhao Yao or Wheatley. “Eh? Where did he go?”

Unknown to Black Cloud, Zhao Yao had already brought Wheatley to hide in a different space. With a thought in his head, a series of Awareness Skills were continuously unleashed within a short span of 0.1 seconds.

Mark of Awareness – Identify the target for an Awareness attack.

Ivory Light – Awareness transforms into numerous Lightsabers that can pierce, slice, break through the target's Awareness and burn the target's Awareness.

Divine Speed – Increase the speed and distance at which the power of Awareness spreads.

A Lightsaber formed from the power of Awareness appeared in Black Cloud's body and began to expand and burn rapidly.

“Damn!”

The next moment, he saw the Ivory Light flicker slightly before it stopped moving altogether. Black Cloud was confused. “What's going on? Where did they escape to?”

Zhao Yao, who was hiding in the dimension portal, did not stop his attacks. Looking at Black Cloud who was still activating his powers, Zhao Yao activated the power of Time Freeze again.

After a short while, Black Cloud only felt like his vision blurred momentarily before he realized that everyone else around him had disappeared.

“Damn you!” Black Cloud immediately realized what was going on and tried to run away.

Zhao Yao hid in the dimension portal and lightly flicked his fingers. Two coins shot through both legs of Black Cloud's, who collapsed on the floor immediately.

Black Cloud's face changed as he knew he was in trouble.

Everyone around him had been brought into the Extradimensional Belly in the time when Zhao Yao activated Time Freeze. This meant that Black Cloud did not have any other physical body he could possess.

In the back yard garden area, he had sealed the dimension to prevent Wheatley from escaping. Yet now, this meant that he would be trapped here as well, as he could not run away by escaping into the Awareness Dimension.

At that moment, Black Cloud was shockingly sealed to die within that physical body.

At the same time, in the dimension portal, Zhao Yao stared at Black Cloud, who lay motionless on the floor. He did not continue attacking but instead observed him carefully.

“The power of Awareness cannot interfere with the physical world, it can only affect the Awareness of others. Different kinds of Awareness Skills are only effective if they are used on the Awareness of others.”

“Although Awareness can be used to traverse the Awareness Dimension, it still has no choice but to rely on a physical body to exist in the physical world.”

“This guy has no other physical bodies to possess around him now. He can’t travel in the Awareness Dimension as well. Will he just be trapped here?”

“If I kill him now, what will happen to his Awareness?”

Zhao Yao thought about it with a lot of curiosity. “Be exposed in the physical world? Or will it be an instant death?”

He lightly flicked his finger again and a coin had already shot through Black Cloud’s head.

Zhao Yao immediately sensed a strong surge of Awareness emanating from the corpse. It floated in the air briefly before it flew off into the distance at high speed.

However, even Zhao Yao could sense that the big blob of Awareness was dissipating at an astonishing pace as it flew around in the physical world. It was as if his Awareness was free falling from a cliff.

LV 28... LV27... LV26... LV25... LV24...

Looking at the numbers that were diminishing as the Awareness flew away, Zhao Yao thought to himself, “Looks like without a physical body, Awareness diminishes greatly when exposed in its pure form in the physical world.”

On the other hand, Black Cloud could feel that his power of Awareness was deteriorating. Just as he thought he could finally escape, he felt a surge of hot air assaulting his senses.

Zhao Yao appeared in front of him and turned Diana's Level 25 power of Awareness into invisible flames that blasted towards him.

Maroon Level Skill – Scorching Sun.

At the same time, Wheatley's Level 28 power of Awareness immediately surged out from the Cat Prince Costume to attack. Previously, Zhao Yao realized that the Cat Prince Costume could only borrow Wheatley's basic ability and power of Awareness, it did not include the skills that Wheatley had learnt.

Just like other cat slaves, he had to learn new skills on his own after borrowing the ability.

However, using the powers of a Level 28 Awareness against that of a Level 25 was more than enough to defeat the immensely weakened Black Cloud.

Zhao Yao noticed that the moment he attacked, Black Cloud felt the invisible flames scorching his own Awareness. He screamed in agony and wanted to escape, but his weakened Awareness was defenseless against the scourge of flames from the Scorching Sun. After being attacked by a Level 28 power of Awareness, his own Awareness exploded and dissipated into thin air.

At the same time, the Awareness Sealing Needles on Wheatley's body slowly disappeared as Black Cloud died.

"Is he gone for good?" Zhao Yao thought to himself. "This shows that having a high level of Awareness doesn't make one undefeatable at all. The combination of abilities is equally important as well."

"One's original physical form and body are very crucial for the power of Awareness. With a weakness like that in the Short Fur Tribe, I wonder if the strongmen amongst them had any counteractive measures in place to tackle this weakness."

Zhao Yao pursed his lips. He pulled out the crowd from the dimension portal again. Wheatley, Black Dune, Snow Mountain, and the rest were all knocked out by him and had no idea about what had just happened.

After a few minutes, Wheatley was the first to regain consciousness. The moment she awoke, she was utterly shocked as she realized that the Awareness Sealing Needles on her body were completely gone.

She stared at Zhao Yao in front of her and asked in confusion, “Guang Yu, what happened? Where did that man go?”

Everyone else slowly regained consciousness. All of them were shocked and bewildered when they saw Zhao Yao.

Zhao Yao replied, “I don’t know. I fought with that man for a while and got attacked a few times before he fled.”

“Humph, I knew it. That guy isn’t much stronger than me. If I wasn’t poisoned, he wouldn’t be a match for me. He must have been injured from fighting with me,” Wheatley said. “Guang Yu, you borrowed 70% to 80% of my power, of course he would be scared and run away.”

Zhao Yao rolled his eyes in his heart. For goodness sake, the Level 28 and Level 29 labels above their heads were very clear. It was clearly not a slight difference. If not for the fact that he had other superpowers to kill the physical body and attack in hiding, it would have been impossible to defeat the other party by relying on Wheatley’s ability alone.

However, since Wheatley was able to imagine all these self-fulfilling fantasies so quickly, it saved the need for Zhao Yao to explain what had happened.

Wheatley continued, “Oh right. Where’s Snow Mountain? Where did he go?”

Zhao Yao glanced at Snow Mountain, who was lying behind the dimension portal. He shook his head and said, “I think he left too. I didn’t notice him.”

“D\*mn it! He got away,” Wheatley raged. “The next time I see him I will castrate him!”

The other cat slaves who regained consciousness stared at Zhao Yao in admiration. Though they did not know why the other party retreated, the fact that he could fight against them alone and save Wheatley was a super impressive feat in itself.

As such, Wheatley began to trust Zhao Yao more and more. She looked at Zhao Yao and said, “Guang Yu! I will allow you to sleep with me tonight!”

## Chapter 1013: Reward

When he heard Wheatley’s words, Zhao Yao was dazed. Countless scenarios flashed across his mind. He stared at Wheatley in a trance.

Black Dune immediately interjected, “Lord Wheatley, that doesn’t sound right?”

Wheatley said, “What’s wrong with that! I want to hug Guang Yu to sleep today!” As she said that, she pounced on him and grabbed his elbows as she giggled. “You’re so big, hugging you will definitely make me warm!”

As she said that, she began bumping her head against Zhao Yao, behaving just like a cat. She wanted to transfer her scent onto Zhao Yao and proclaim ownership over Zhao Yao.

Zhao Yao thought to himself, “Hugging me to sleep? There are some cats that will hug each other to sleep when they’re really close to each other. This girl is treating me like a cat? But given how much she trusts me now, does this mean I will be able to learn even more powerful skills? It would be best if I could learn some skills related to the Awareness country and Closers World...”

Wheatley knew no boundaries between man and woman. However, Black Dune and the cat slaves beside her did not think the same way. They tried their best to dissuade Wheatley, but were shut off by Wheatley at once.

The cat slaves watched with hatred in their eyes as Wheatley hugged Zhao Yao tightly, bumping Zhao Yao with her body repeatedly.

Finally, Black Dune’s eyes lit up as he said, “Lord Wheatley, the cat slaves that attacked us this time had poison as their superpower. It must be an attack from another supercat group. Even though

Snow Mountain and the rest have left, they could attack us at any moment. We need to report this to the higher ups immediately.”

“Yeah!” Wheatley, who was still hugging Zhao Yao and bumping him, immediately looked up and said, “Then you guys shall rest first. I will go find Father and report this matter to him!:

As she said that, Wheatley had already ran off. Her body disappeared as she entered the Awareness Dimension.

After Wheatley left, Black Dune was about to say something when Zhao Yao beat him to it and said, “I’m so tired, I will go and rest first. See you tomorrow.” The next moment, he had already disappeared into the Awareness Dimension.

Once he returned to the Extradimensional Belly, Zhao Yao stared at Snow Mountain whom he purposely kept. He could feel that the other party had no ounce of Awareness in him. It was because Wheatley retracted her powers after finding out he betrayed her.

Being a normal human without any superpowers, he had no chance of escaping the Extradimensional Belly. Zhao Yao decided to wake him up and stabbed him with the Dragon Slaying Saber under his astonished gaze.

After stabbing him with the Dragon Slaying Saber for a few times, Snow Mountain was reduced to a face full of sweat and tears.

When he saw Zhao Yao raise the Dragon Slaying Saber again, he immediately shouted, “Guang Yu! What do you want from me? Just say it! Stop using this dagger! I would rather die than let you stab me again!”

Zhao Yao stared at Snow Mountain as he asked, “Who ordered you guys to come? Who’s the force supporting you guys?”

“They are the Cat Hunters,” Snow Mountain confessed, drenched in cold sweat. “They were founded with the mission to reform the Short Fur Tribe so that humans can be the masters instead.”

Snow Mountain suddenly laughed at Zhao Yao. “You think helping Wheatley is the right thing to do? You’re willing to be the slaves of these cats for the rest of your life? You helping these cats is equivalent to harming the human race. The Cat Hunters will never let you go...”

Zhao Yao just stabbed him with the dagger again. He asked as the man screamed in agony, "Tell me all that you know about the Cat Hunters."

Zhao Yao had his guesses about a group like the Cat Hunters before this.

After all, in a place like Earth where humans reigned, there were supercats who would want to overthrow the humans and rule over them instead.

In the world of the Short Fur Tribe where supercats are the rulers, there would naturally be humans who would want to overthrow supercats and control them.

From the information Zhao Yao obtained from Snow Mountain, the Cat Hunters indeed had the backing of other supercats that were not from the Short Fur Tribe.

Snow Mountain continued, "I think it might be the supercats from the Long Fur Tribe. After all, they have all kinds of abilities. For a long time, our Short Fur Tribe has always formed an alliance with the Furless Tribe to resist the Long Fur Tribe. I think the possibility of the Long Fur Tribe assisting the Cat Hunters to stir internal strife within the Short Fur Tribe is very high."

Zhao Yao nodded his head. He did not take Snow Mountain's words to be the whole truth, and no matter how he questioned him afterwards, he was not able to get any more information out of him. Hence, he snapped his fingers and Midnight and Lang Gou, who had been waiting at the side, walked up and dragged Snow Mountain away.

Snow Mountain asked in alarm, "What are you guys trying to do?"

Midnight gave him a small smile. "Bro, you might not be used to it at the start, but after a while, you will realize that life here can be pretty fulfilling too."

As he watched Snow Mountain being brought away in a daze by the two guys, Zhao Yao lay on the sofa as his eyes sparkled in deep thought. No one knew what he was thinking about.

Early in the morning the next day, the moment Zhao Yao returned to Frosted Teeth City, Black Dune summoned him to the main hall of the palace. He saw Wheatley seated at the throne as usual, dangling her little legs around.

However, Wheatley also held a black cat in her arms today.

The moment the black cat saw Zhao Yao enter the main hall, he fixed his gaze on Zhao Yao as if he was interrogating him.

The moment Zhao Yao saw the black cat, his gaze turned serious as he stared at the cat's head. He began to panic in his heart as he thought, "Level 49? Is this cat Wheatley's father?"

The black cat stared at Zhao Yao and asked, "Wheatley, is he, Guang Yu?"

Wheatley nodded and patted the black cat's head lovingly as she said, "What do you think? My new cat slave is amazing right? He can inherit 70% to 80% of my powers now!"

The black cat's eyes flickered ever so slightly. He immediately activated his Awareness Distortion power. The Level 49 power seized control of Zhao Yao immediately before he asked, "It was you that battled the attacker yesterday. They ran away just like that?"

Under the effect of Awareness Distortion, Zhao Yao was unable to lie at all and just said, "Yeah, our powers of Awareness clashed three times before the other party ran away."

"Do you know the other party? Do you know who they are? Are you an accomplice?"

"I don't know them. I don't know."

Wheatley rubbed the black cat's head as she said, "Daddy, why are you controlling my cat slave? He's mine! Mine!"

The black cat narrowed his eyes and released his control on Zhao Yao. He just replied lazily, "I'm just trying to see if he was lying. Don't worry, I won't snatch away your cat slaves. Ahhh, massage my neck a bit more. Exert more pressure."

However, Zhao Yao exhaled slightly, knowing that he had passed the test for the time being.

At the same time, Matcha, Diana, Catherine and Dust Ball who were hiding in the dimension portal finally heaved a sigh of relief. If something had happened to Zhao Yao or if he was totally controlled, they would need Matcha to activate Time Freeze and use the Rice Cake blade to kill Zhao Yao and allow him to revive.

Matcha thought to himself, “Luckily Zhao Yao let Caesar erase his memories of yesterday and made us tell him the whole process of the battle. In this way, he would truly believe that the other part fled first. As such, he said that as well when he was being controlled.

Due to his exaggerated trust in the Awareness Distortion power, the black cat only said to Zhao Yao after confirming that he was not lying, “Human, you are very good. Yesterday you saved my daughter. I will give you a reward for that. What do you want?”

Zhao Yao’s eyes brightened as he immediately said, “I want to learn many more strong Awareness Skills. I also want to... want to borrow your superpower, to see what a powerful Awareness is like.”

...

#### Chapter 1014: Learning Skills and the Third Cat

Both Wheatley and her father were shocked when they heard Zhao Yao’s words.

The black cat stared at Zhao Yao and asked, “Are you sure you want to borrow my ability? You are not my cat slave. Even if I lend it to you, it will only be for a short while. There would almost be no chance of me lending it to you next time. If you ask for other rewards, you can get even better things.”

“Yes, I am sure of it.” Zhao Yao pretended to sound agitated as he said, “My passion lies in seeking the power of Awareness. I want to experience how an immensely strong Awareness is like. I worship a power like that, and I want to feel such a power.”

The black cat nodded. It was as if it was not his first time seeing a human who worshipped the power of Awareness. He just said, “I can gift you with my power for a short while. As for your first request...”

The black cat asked curiously, “What skill do you want to learn?”

Zhao Yao thought about it for a while. The Awareness country skill was definitely out of the question for him. It would obviously reveal his ambition and invite suspicion from the cats.

“According to Tom, the Awareness country skill is also one of the highest level grey skills in the Short Fur Tribe. In that case...”

Zhao Yao looked at the black cat and said, “I want to learn a grey skill.”

Everyone at the scene was dazed by what he had just asked for, even the black cat. However, the black cat burst out in laughter the next moment and said, “Young man, you have such a huge appetite. Do you know what a grey level skill represents? That is the Short Fur Tribe’s strongest, most profound and most secretive knowledge. Learning it is limited even to only a few cats in the Short Fur Tribe. A cat slave like you actually wants to learn a grey skill?”

Zhao Yao was evidently disappointed. “So there is no chance of a cat slave learning a grey skill at all?”

Wheatley, who was sitting on the throne, kept on rubbing the black cat’s head as she said, “Dad! He’s my favorite cat slave! He even saved my life! Quick, think of a way to let him learn a grey skill!”

The black cat’s eyes were half-closed from being rubbed continuously. His words staggered as he said, “Wheatley, it’s not that I don’t want to let him learn. There are rules up there. Grey level skills are not meant to be learnt by just anyone in the first place. Every grey level skill is developed and created from the hard work and effort of each generation of great supercats. Grey level skills are so magnificent they have the power to control hundreds of millions of living souls, change entire civilizations and their histories. How can it be passed to a mere cat slave?”

The black cat stared at Zhao Yao and said, “Guang Yu, I cannot teach you a grey skill. If you really want to learn, I can try to think of a way to teach you a black skill instead.”

Zhao Yao knew he could not force the cat, so he nodded and agreed. “A black skill is fine too. But can I learn the Dimension Seal skill?”

Zhao Yao had been coveting that skill ever since he saw Black Cloud use it. If he could learn this skill, it would greatly improve the quality of his battle prowess.

The black cat smiled as he shook his head. “Dimension Seal? That’s a battle skill.”

Wheatley rubbed the black cat frantically as she shouted, “Dad!”

The black cat conceded. “Okay, okay. I’ll think of a way to do that. Wait for more information from me.”

The black cat proceeded to let Zhao Yao come forward to receive his ability.

“It will only be for a short while, alright? I will retract my powers once you’ve experienced it.”

As the black cat said that, he pressed his cat paw on Zhao Yao’s chest. Within moments, a strong surge of Awareness was transferred from the black cat’s body to that of Zhao Yao’s. In fact, it was actually transferred to the Cat Prince Costume.

Zhao Yao removed Wheatley’s ability from the costume so that it could accept the black cat’s abilities.

He smiled excitedly when he saw that a new Level 49 Awareness Distortion ability had appeared in the Cat Prince Costume.

“In this way, I can directly use a Level 49 power of Awareness. Combined with other superpowers, my battle prowess will reach a whole new level of greatness.”

“However, this Level 49 ability comes from Wheatley’s father. I can’t upgrade it or use its associated skills. I still have to rely on my own cats to become stronger.”

Although he managed to borrow a Level 49 superpower, Zhao Yao understood that it was more for bullying those below Level 49. He might not actually be able to defeat the supercats that had mastered various skills on top of the power of Awareness, even if they were a few levels below Level 49.

On the other hand, the black cat that was lending Zhao Yao his powers stared at Zhao Yao in astonishment as he remarked, “You could actually absorb so much power? You could absorb a lot of Wheatley’s power previously too right? Does this mean that you have an especially strong compatibility with our family of cats?”

When she saw the black cat’s expression change, Wheatley immediately rubbed the black cat’s face hard and said, “Dad, don’t you dare think of taking Guang Yu. He is my cat slave! I am going to sleep with him!”

The moment the black cat heard that, he whipped his head around and glared at Zhao Yao murderously.

This was Wheatley’s first reincarnation and her first time being a human girl. She did not know the boundaries between man and woman, but her father was very clear about them.

Stroking a cat was fine, but cuddling with a human as cat in a human girl form? Or be cuddled? The thought of that was perverted enough.

He glared at Zhao Yao viciously as he said to Wheatley, “Wheatley, you’re not allowed to sleep with humans from now on. Do you understand?”

“Huh? Why is that?”

“There’s no why! It’s just not allowed.” After his command, the black cat gave Zhao Yao a stern look of warning before his body faded into the air. A voice rang out in the air that said, “I lent you my ability. You can try it out for a while, after which I will take it back. The Dimension Seal is also not a skill that any cat slave can learn. I will think of a way for you. I’ll get back to you again.”

As he watched the black cat disappear in the air, Zhao Yao had no choice but to direct his next question to Wheatley. He asked, “Wheatley, what are we going to do about Ya Xing?”

The apostles that ambushed the palace and held Wheatley captive had the help of Ya Xing’s apostles as well. Zhao Yao had already suspected that Ya Xing was also being controlled by the Cat Hunters. Now that Wheatley’s father left, he could only ask Wheatley about it.

Wheatley shook her head. “Dad went to check out Ya Xing already. Ya Xing and his cat slaves and have disappeared.” As she said that, Wheatley’s face became worried. “They may have been taken

away by the Cat Hunters. Dad is worried that the Cat Hunters will come for me again. He said he will send a cat slave over to protect me.”

Zhao Yao nodded. He only asked about Ya Xing casually, but the biggest problem for him was still learning new skills. He did not expect the Short Fur Tribe to be so strictly guarded around the learning of new skills. Grey skills were totally banned from being passed on to humans. Learning a black skill would be subject to Wheatley’s father’s approval. This meant that there were many obstacles ahead for him if he wanted to learn new skills.

“If I really can’t learn new skills as a cat slave, I will have to adopt a different course to do that.”

For the next few days, Zhao Yao showed up in the Frosted Teeth City every day to tell Wheatley some stories and wait for news from Wheatley’s father. Most of his remaining time was spent on Earth, where he connected to Closers World to upgrade the evolution progress of his own supercats.

After all, to increase the evolution progress through Closers World, Zhao Yao has to physically enter the game. Hence, he spent most of his time everyday staying in Closers World.

Since he could not upgrade Closers World itself, the other fastest way for Zhao Yao to become stronger was to upgrade his remaining supercats to Level 25.

After a week, Zhao Yao was able to upgrade his evolution progress immensely due to the presence of 30 million players being online in the game. At last, he was able to upgrade Matcha to Level 25.

Level 25 Matcha had his cooling down period for Time Distortion revival reduced to 165 minutes.

The speeding effect of Boiling Point also increased by 25 times.

Zhao Yao’s capability in the physical world had reached another peak.

“The next cat...” After Matcha reached Level 25, it was time to upgrade a different cat. Zhao Yao glanced around before he set his sight on Elizabeth.

Chapter 1015: Observe

In the coffee shop, Zhao Yao was lying on the familiar chair. His conscious had already entered Closers World to collect awareness for evolution.

Once he entered Closers World, Zhao Yao felt that there was a strong energy surging into his body.

Elizabeth's progress bar was increasing drastically in the Book and she reached Lv11 in five minutes.

Zhao Yao frowned in dissatisfaction. This was slower than Matcha's leveling up.

"Looks like the attention of the players in the game is no longer on me."

This situation could not be allowed to get worse. Zhao Yao decided to change something.

Then, a line of words appeared in the sky. Zhao Yao used his administrative rights to speak.

Zhao Yao wrote, "Everyone stop and listen to me!"

Countless people looked into the sky out of curiosity.

Zhao Yao continued, "I am envious of all of you, because you guys get to live in the same era as me!"

Not long after he spoke, Zhao Yao saw the increase in the evolution of the Book. He felt that the collection speed was fast again. It was about the same speed as Matcha's.

"Not bad. I knew that something had to be done."

After breaking through the Lv10 limit and entering Lv11. Elizabeth had activated evolution and had become drastically stronger.

However, Elizabeth did not have a selection as to which direction he should improve on. Zhao Yao's assumption was that Matcha's powers emphasized both Time Distortion and Time Freeze from Lv1 to Lv10. But, Elizabeth's powers only had an emphasis on illusion, hence she did not need to select.

Starting from Lv11, Elizabeth's illusions were not only transmitted via sound waves. She could create an illusion from awareness energy by implanting it directly into their awareness.

It is also starting from Lv11, Elizabeth's illusion was improved due to the awareness energy. After someone was under an illusion, their bodies would have a certain reaction to the illusion.

For example, if they were stabbed in the illusion in reality, a wound would appear on their body too. If they were burnt in the illusion, there would also have physical injuries.

Injuries suffered in the illusion would be reflected in reality.

However, the percentage damage is not high enough. Lv11 only has 1% damage and Lv12 has only 2% damage. Even at Lv100 the percentage can only reach 90%.

Zhao Yao understood that this skill had a huge amount of potential. Afterall, illusions were more than ordinary cuts and burns. There were other endless ways to bring about harm and even if they would only have a small part reflected onto reality, it was still very powerful.

Zhao Yao was surprised by how strong Elizabeth was. He waved his palm and then his position in Closers World changed drastically. He was on top of a valley instantly as he observed the map.

“Let's look at how Strangle is doing...”

Then, he saw Tom and Strangle had two large golden wings on their backs and wore luminous gloves on their paws. They brought their tribe of supercats to fight with another tribe of supercats.

It was battle of tribes in Closers World

One side was the Short Fur Tribe formed by Strangle and Tom. The other side was Zhao Yao's cat, Gaia's tribe.

Both tribes had one similarity, it was that they only recruited cat players. There were no humans in the tribe.

When Zhao Yao made an announcement, he purposely left this area out, so as to not affect Strangle. Hence, they were still fighting.

In the fight, Strangle opened his mouth and released a shock wave. He yelled at the enemy in a distance. “Fat Cat! If you still do not come out, I will destroy your tribe today!”

Tom yelled behind him. “Strangle...”

“Call me Brother Strangle!”

“Brother Strangle, aren’t we charging too much?” Tom yelled.

“What is there to be afraid of?” Strangle looked at his glove and said excitedly. “I can let my +12 claws have a taste of fresh blood.”

Zhao Yao was watching the battle in the sky and he saw that Strangle killed countless cats as he charged. Gaia was the last to appear and at first, they were comparable. After a while, Strangle had better skills and still won. Gaia yelled a few threats and escaped. The cats beside Strangle were praising Strangle continuously.

“Not bad.” Zhao Yao nodded. “He seems to be enjoying this.”

Although with Zhao Yao’s capabilities, he could easily kill or capture Lv20 Strangle that would alarm the enemy unnecessarily and attract the mastermind behind Strangle and Tom.

Hence, Zhao Yao asked the supercats under him to play with Strangle. Especially with Gaia as the opponent. Everytime, he would just lose by a bit or sometimes even win. This was to let Strangle get obsessed with playing Closers World.

When Strangle was immersed in Closers World, he was also using Tom’s way to gain attention and strengthen his awareness.

Strangle was immersed in the idea of being able to play, become stronger and acting cool. He was not even willing to report this back and involve the other cats in this.

When Zhao Yao saw that nothing was going wrong, he suddenly received a message on his Wechat. It was Uncle Ho.

Uncle Ho: “Zhao Yao, are you free? We need your help.”

Zhao Yao replied, “I’m not free.”

Uncle Ho continued, “It is just talking to our apostles. Teach them some things and boost their morale.”

Zhao Yao tugged the corners of his mouth. He knew that this wasn’t this simple. With his position in the supernatural realm, any action that he took would be read differently by different people and create many political influences.

However, he was not interested in knowing. He really did not have the time to do it.

Uncle Ho continued, “Zhao Yao, we will not ask you to do it for free. You just have to come over and say a few sentences. There will be a production crew filming and there will be many overseas media reporting on this too..”

“Broadcasted on TV?” Zhao Yao hesitated. He has never been on a proper TV show yet. The thought of being able to go on TV was tempting. It could increase his fame and he would get all the limelight. It was also useful for increasing the number of players in Closers World, which in turn was useful for accumulating energy.

“Uncle Ho, I really don’t have the time to...” Zhao Yao thought about it and rejected the offer. He needed to level up five cats to Lv25 quickly and unlock the upper limit of Lv25.

However, Zhao Yao stopped in the middle of his sentence.

Mission: Talk

Mission Objective: Complete Uncle Ho's request and talk on TV to encourage the young apostles.

Reward: 1000 experience points

Punishment: None

Uncle Ho. "... furthermore you will be paid and it will only take you one hour..."

"Okay, I will be there."

Chapter 1016: Speech, loving cats and news

"There is only one path for apostles. It is like swimming against the current, you either advance or fall behind. In such a short period of time, I have managed to become invincible, it is all because of hard work."

On the stage, Zhao Yao wore formal wear and he was giving his speech in front of all the apostles and media solemnly.

Countless people were watching Zhao Yao in front of the TV.

Zhao Xue was lying on the couch in the mansion and looked at Zhao Yao who was speaking on TV. She tugged the corners of her mouth and was envious of her brother.

Zhao Yao continued on TV, "... I have to thank one person for all the great achievements I have made."

Zhao Xue's eyes glimmered. "Is my brother going to thank me?"

In Extradimensional Belly, Matcha grinned. "Zhao Yao was wrong, he should thank a cat."

Uncle Ho, who was below the stage, was suddenly very nervous. "Technically I helped Zhao Yao too. If he is to thank me, should I stand up?..."

Zhao Yao: “The person I want to thank is, myself!

I have to thank myself for being so diligent. I also have to thank my own efforts. If it wasn't that I started working hard from the year my powers awakened and built a strong foundation for myself, I would not have such capabilities today.”

Zhao Xue spat out the coke in her mouth. It was not a normal spit. Zhao Xue caused the TV in front of her to explode.

“What?!”

Zhao Xue had to stand up to clean the mess. “I have been borrowing powers from Sphynx cat to train. I think I've become too strong.” Then, she thought about it, “Then, what is going to happen when I get married? Will I accidentally kill someone in my sleep?”

Meanwhile, Uncle Ho was in dismay. He told his men. “Rush him. Ask him to end the speech quickly.”

Then, Zhao Yao took out a bag of catmint.

Zhao Yao: “Apostles' powers originate from supercats and for a supercat to become stronger, their food is very important.

I do not dare to let my cats eat normal catmint. This is the catmint my family planted and it is handmade. Now, I am advertising it. I hope that every cat will be able to eat nutritious and healthy food.

Furthermore, if you purchase our Dust Ball catmint today, you can participate in the equipment lucky draw. You will stand a chance to get a +10 equipment in Closers World...”

Upon seeing that Zhao Yao had started advertising on stage, Uncle Ho covered his face. He wanted to but was unable to stop Zhao Yao's actions.

Meanwhile, Zhao Yao was very satisfied with this activity. He completed his mission and managed to get 1000\*2 experience points and increase his popularity. It paved the foundation for increasing the limit for Closers World and for its evolution.

The best thing he could do was advertise. Zhao Yao used himself to advertise Dust Ball catmint. Then, the domestic market would increase drastically and Zhao Yao would have more chance for the lucky draw.

After doing all of this, Zhao Yao changed his face shape and avoided all the reporters, officials, businessmen, and apostles to return back to the quiet cafe.

Upon entering the cafe, Zhao Yao saw that Ning Ning was sitting at the front desk and staring at her phone. She was watching the video of his speech.

Zhao Yao's eyes lit up and pretended to ask casually, "Ning Ning, What are you watching?"

"Zhao Yao speaking," Ning Ning said. "He is so hardworking. He can achieve such great achievements all because of his hard work and determination. It is just that he looks too ordinary..."

Zhao Yao frowned and sat onto the lounge chair out of dissatisfaction. Then, his ears twitched.

Soon, the bell on the cafe door rang. Yang Hui and Lee Shuyao came to the cafe together again.

Lee Shuyao carried a cat bag and walked passed Zhao Yao. In the bag was a silver British Shorthair.

Lee Shuyao walked beside Zhao Yao and saw that Zhao Yao was lying on the lounge chair. She thought, "Stupid Otaku, I shall try to use the cat to attract his attention."

She smiled and said, "Boos, this is Nana. She hasn't been obedient. I hope that you can help discipline her."

Zhao Yao looked at the cat bag with interest. "Your cat? Is it a supercat? Let me see it."

Upon seeing that Zhao Yao opened the bag in curiosity and taking Nana out, Lee Shuyao thought to herself, "It is true that he likes cats. This is the correct way..."

Yang Hui, who was sitting in a distance with Ning Ning, frowned and thought, “What is she doing? Why does she like to come to this cafe to look for this owner? Is she interested in the owner? But... the difference between them is huge.”

Meanwhile, Matcha was lying on the table and there was a pair of white gloves that was hugging his head. He curled up and slept soundly.

However, Matcha felt like there was a cat patting him, he looked up to see Lightning and frowned. “Why did you wake me up?”

Lightning was excited. “Look! There is a pretty cat.”

Matcha glanced at Nana that was carried by Zhao Yao and closed his eyes. “She is still okay. Maybe a seven.”

“She is so pretty and she is only a seven?” Lightning was in disbelief. “She is so cute. If I was on her, I wouldn’t even bear to move.”

“Wouldn’t bear to move?” Matcha sneered. “All I can see is that you can’t wait to f\*ck her.”

Lightning: “What are you talking about! How can you defame a cat like that?”

Zhao Yao was looking at Nana with great interest and he stroked her after placing her on the table. He smiled. “Don’t be afraid Nana, you have to be obedient and listen to your owner.”

Nana couldn’t stop trembling as she stared at Zhao Yao helplessly. “What is going on? Why do I feel so suffocated when I see this guy. Why does my body keep shivering? Why... why do I see cat spirits lying on him?!”

Zhao Yao looked at Nana, who was lying on the table obediently. He raised his head and looked at Lee Shuyao. “She is pretty obedient. It is just that she is too timid. You have to bring her out often.”

Lee Shuyao nodded her head and asked further. “Oh. Nana keeps staying home and doesn’t really go out. Boss, you are an experienced cat owner, you need to help me.”

Zhao Yao looked at Lee Shuyao and nodded his head with admiration. What an innocent and serious cat lover. Her responsible attitude and the spirit of learning was so much better than Zhao Xue and Ning Ning.

At the same time, Zhao Yao took out a bag of Dust Ball Catmint. “Shuyao, has your cat tried catmint?”

Half an hour later, Lee Shuyao and Yang Hui were carrying a box of Dust Ball Catmint each and they walked out of the cafe.

Lee Shuyao: “Was I cheated? This is impossible. There is only a chance of me cheating guys and not the other way round. Besides, he really likes my cat. He seems to be a little interested in me too, he kept looking at me.

If I try harder, I should be able to take him down.”

The next day, When Zhao Yao returned to Frosted Teeth City to tell Wheatley stories, Wheatley’s dad appeared. He saw Zhao Yao and said, “If you want to learn Dimension Seal, it is not impossible.”

Meanwhile, in a palace on Satol.

There were rows of cats asleep in the palace.

One of the grey kittens’ eyes jerked open and it crawled up.

## Chapter 1017: Awakening and learning

In the large and empty hall, there were dozens of supercats with different coloured fur lying in an oval swimming pool.

Every time the cats breathed, a large amount of liquid was absorbed into their body. The liquid seemed to be providing nutrition for their bodies.

This was where the Short Fur Tribe cats stored their bodies when their consciousness left their body.

In one of the pools, a grey cat that was soundly asleep opened his eyes and was confused. He did not understand what the situation was.

However he was only in a daze for a while, then there was hatred in his eyes.

The supercat that awakened was the cat that was killed by Zhao Yao on Earth, Giggie.

In fact, Giggie was not killed. He had split his awareness into two and left some of it in Closers World. He would sneak into the players' awarenesses and follow the players' awarenesses offline and hide in the players' body.

Then, he hibernated and slowly recovered.

He was beaten down from Lv19 to Lv10 by Zhao Yao. It was a huge loss. He was as weak as a newborn, he hibernated for more than half a year and only managed to recover to Lv15. It was after he reached Lv15 that he could barely manage to travel through the awareness dimension.

After waking up from hibernation, he learned from the media that Zhao Yao had taken control of Closers World.

Hence, after he managed to travel through awareness dimension and returned to his body, Giggie's eyes were lit with anger.

He muttered with hatred, "Zhao ... Yao..."

However, Giggie did not leave immediately. Instead, his eyes glowed with wisdom as he started thinking.

"If I report the situation to the superiors, then Earth and awareness country will not be mine anymore."

The moment he thought of Closers World that he built with all his efforts, Giggle felt that his heart was bleeding.

He would not give up on Closers World, especially when building awareness countries was a forbidden skill. He learned how to build one by chance and if the superiors knew about it, not only would he be punished but Closers World would not be returned to him too.

“I cannot report this to the superiors. I need to find a few reliable cats, go back to Earth, and snatch Closers World back.”

Every time Giggle thought of Closers World being controlled and toyed around with by Zhao Yao, he felt like a boyfriend waiting for his girlfriend in a hotel lobby for an entire night. He was so angry that his face was turning green.

The awareness country had been taken away. It was worse than his wife being snatched away.

“Even if he has Closers World, he does not have the relevant knowledge. He shouldn’t be able to absorb efficiently, furthermore the limit can not be increased. The maximum he will be able to reach is just a two star or three star cat slave.”

“I have to find a few reliable cats and go back onto Earth to teach him a lesson. Then, split Closers World.”

Giggle was thinking about it and decided that this was the best way to solve the issue. The problem was, who he was going to choose to go with him.

“I cannot choose someone that is too strong. If he is too strong, I will not have a share.”

“I cannot choose someone too weak because we might lose and we will be giving him free cats.”

“And the cat has to be close to me and trustworthy.”

Giggle thought about it and he fell into his slumber to regain his energy.

“Zhao Yao! Wait for it!!”

Achoo!

Zhao Yao sneezed and thought. “Which cat is thinking of me?” Then, he shook his head and walked towards Wheatley’s room. He was blocked by a tall red haired guy.

The red haired guy said with a cold face. “This is Miss Wheatley’s bedroom. You cannot enter.”

Zhao Yao looked at the red haired man in front of him. He was the apostle that Wheatley’s dad had sent to protect Wheatley. He was given Wheatley dad’s Lv49 powers and he mastered many skills.

“However, this guy... Why does he seem like he is defensive towards me.”

The redhead looked at Zhao Yao and thought about Wheatley dad’s instructions.

He had to beware of this guy. He could let Guang Yu and Wheatley be in a room alone, let Guang Yu anywhere near Wheatley, let Guang Yu talk to Wheatley privately, let Guang Yu touch anything that Wheatley had eaten, let Guang Yu sit where Wheatley had sat and cannot let him breathe the same air that Wheatley breathed...

Redhead told Zhao Yao, “You can tell me what you want to say and I will tell Miss Wheatley for you.”

Zhao Yao answered, “Black Dune told me that Wheatley was looking for me.”

Then, the door opened and Wheatley reached out her paw towards Zhao Yao. “Guang Yu, you are here! There is news about the skills!”

“Lord Wheatley!” Red head blocked Zhao Yao from Wheatley. “Lord your father does not want him to get close to you.”

Wheatley tugged her mouth and did not understand why her father had to do such things. She did not bother to either. She jumped towards Zhao Yao, hugged Zhao Yao’s neck and rode on Zhao Yao’s back.

“Guang Yu! Don’t you want to learn Dimension Seal?! There is no problem this time. You can learn with me!”

Redhead looked at Wheatley, who was riding on Zhao Yao’s back in shock and wanted to grab her. However, his hand shrank back and he could only shout at Zhao Yao. “Guang Yu, what are you doing?! Stay away from Lord Wheatley!”

“You are so annoying.” Wheatley looked at her bodyguard impatiently. “So what if I hug Zhao Yao? Can’t I hug someone?”

Red Sun said helplessly. “Miss Wheatley, your father...”

“Meow! Since when do humans have a say in cat’s business?” She snarled her teeth at Red Sun and when she saw that Red Sun was not going to stop her anymore, Wheatley rubbed her body against Zhao Yao happily. She continued, “Guang Yu! At first for Dimension Seal, cat slaves are not allowed to learn it. However, my dad went to look for the superiors to make an exception and you can learn Dimension Seal together with me!”

Zhao Yao nodded excitedly. “That’s great. How do I learn?”

Wheatley’s eyes turned and she looked at Zhao Yao. “No, you have to finish the story then I will bring you to learn it.” She thought about it and added, “You have to tell me ten days worth of stories!”

Zhao Yao looked at Wheatley, who was excited. “This little kitten, she is more cunning than I thought.”

He thought about it and decided that learning skills was more important. Furthermore, with Red Sun beside him, he did not have the mood to educate her. He opened the Dimension Portal and decided to tell her the stories on his phone.

“Today, I will tell you the story of Jojo’s adventure. The story goes that after the orange cat Jojo broke into Yun GangZong. He decided to go to Meow temple to save his father...”

Upon seeing that Zhao Yao started telling the story, Wheatley lay obediently beside Zhao Yao and listened to Jojo’s story attentively.

## Chapter 1018: Learning and Tuition

At first Red Sun was frowning, however, as he listened, he started to concentrate too.

He talked for about half an hour and Zhao Yao smacked his dry lips together. “Okay, the amount that I have told you is 20 days worth of stories. I can’t think of anything more.”

Wheatley: “You have to continue tomorrow.”

“Don’t worry, when did I stop?” Zhao Yao asked. “Where do I learn the skills?”

“In a dream.” Wheatley jumped down and ran towards the bed in her bedroom. “Hurry up and sleep and I will bring you to that dream!”

Red Sun looked at Zhao Yao who was walking towards the bedroom and warned him, “Be careful, don’t try to do anything weird and don’t try to overstep any boundaries. I will be watching.”

Zhao Yao rolled his eyes. What could he possibly do? The relationship between him and Wheatley was so pure. It was Red Sun’s thinking that was weird.

A while later, Wheatley and Zhao Yao’s awarenesses had left their bodies and entered the awareness dimension.

Zhao Yao followed Wheatley around in the awareness dimension and then he came to a peculiar dreamscape.

In the endless emptiness, there was a huge palace floating in the air.

Wheatley and Zhao Yao was standing in front of the palace and the feeling of being a small existence grew in their hearts.

Wheatley looked at the palace and told Zhao Yao. “Guang Yu, this is the dreamscape of the Short Fur sage Grayley. He mastered the Dimension Seal and if we want to learn this black level skill, we have to learn it from him.”

The highest levels were black level skill and grey level skill. They were passed down in the Short Fur Tribe by word of mouth and never written down.

The emphasis of the Short Fur Tribe on the two types of skills is very evident. Especially for the grey level skill.

This time, Wheatley’s father paid a high price to let his daughter have a chance of learning Dimension Seal.

Zhao Yao was thinking, “By right, the Short Fur Tribe is very strict about controlling the skills. Wheatley’s father knew the Dimension Seal but, to let his daughter learn, he had to request for approval. Then, how did the cat hunters learn the Dimension Seal? Do they know about awareness countries too?”

When Zhao Yao was thinking about all of this, the dream in front of him started changing and they were sucked into the palace. They came to a room that was filled with books. Then, countless knowledge floated in front of them and before they could react, they were back at the gates of the school.

“This is?” Zhao Yao remembered and his memory was filled with the information he had just seen. It was the relevant knowledge for Dimension Seal. If he followed the instructions on it and used his awareness energy, he would be able to seal a certain dimension. Living things would not be able to travel through the awareness dimension with their awareness.

Meanwhile, when Zhao Yao and Wheatley were confused, there was a meowing from inside the palace.

“You guys have learned what you need to. Go back... Go back... Go back...”

As the voice traveled over in their direction, Zhao Yao and Wheatley felt a strong force pushing them out of the dreamscape.

The two of them use Dimension Travel and returned to the material world in Frosted Teeth City.

Wheatley walked from her bed and rubbed her head. “This is so complicated and hard to learn! I feel so dizzy!”

Zhao Yao rubbed his overloaded head. In the dreamscape, it seemed like there was a time acceleration and it let them read through a large amount of information in a short period of time.

“He can do the same time acceleration as Diana. Is it a form of awareness skill too?”

Zhao Yao rubbed his head and then he saw that there was a new option in the Book.

He could let the cats under him learn the black level skill of Dimension Seal. However, it would require 40 000 experience points.

“Should I let them learn?”

Zhao Yao was hesitant if he should let the supercats learn Dimension Seal.

The price of learning a black level skill was as high as he had predicted. The main point was that his supercats could only reach a maximum of Lv25. However for Dimension Seal, it would depend on the strength of their awareness energy.

It means that those with a stronger awareness would be able to seal one with a weaker awareness.

For example, if someone with a Lv30 cast a Dimension Seal, a Lv25 will not be able to travel through the Awareness Dimension. But, a Lv35 would be able to break through it and travel in it.

“If I let Diana and the rest learn now, they will only be able to bully low level supercats.”

“But, if I can be like the apostle from the cat hunters and learn the skill, then I can borrow Wheatley father’s LV49 powers to cast Dimension Seal. Then, it would be so much more useful.”

Zhao Yao thought to himself, “If I can use the Book’s power to let the supercats learn the skills, it is a lot faster, but the range to use it is too little. Furthermore, it is not easy to use when their level is low.”

“I still have to learn Dimension Seal myself.”

Thinking of this, Zhao Yao decided to learn Dimension Seal himself.

Not only just the Dimension Seal, Zhao Yao decided to learn all the other skills he saw.

He had this plan initially, however, after he saw how much energy black level skills consumed, it strengthened his idea.

It would be better to save the experience points in the Book and learn himself.

The supercats could learn themselves. It was better than spending experience points to let them learn.

Hence, in the days that followed, Zhao Yao either stayed in Frosted Teeth City to tell Wheatley stories and educate her or he returned to Earth and entered Closers World. Then, he would create a dream in the dreamscape and learn the skill in time acceleration.

Of course, he was learning alone. The supercats needed to learn together with Zhao Yao.

If a cat learns a black level skill it costs 40 000 experience points. If Matcha, Diana, Catherine, and Elizabeth learn together, it will cost 160 000 experience points.’

“If I let them learn themselves, won’t I earn 160 000 experience points?”

In the dreamscape, Matcha was lying on the floor. When he looked up, he saw the words in the sky and lay back down. Sleepiness overwhelmed him.

“You are already dreaming and you still want to sleep?” Zhao Yao grabbed onto Matcha angrily and then squashed Matcha into a ball in the dreamscape.

There were a pair of eyes on the ball and the ball said pitifully. “Zhao Yao! It is already very tiring for me to go to school in the morning and I still have to come here at night. Now, whenever I see books, I feel like sleeping. I really can’t do it anymore.”

## Chapter 1019: Learning and Video

Upon seeing Matcha's pitiful state, Zhao Yao thought about it and released his palms. Then, Matcha returned to his original state.

Zhao Yao rubbed his chin and said, "It really seems tiring if you study during the day and still have to study at night."

Matcha was surprised and Diana, Elizabeth and Catherine who also heard him looked up out of surprise. They thought that Zhao Yao was finally being empathetic.

Zhao Yao rubbed Matcha's head and said, "After your lessons, why don't you guys go to the Door of Everlasting Life and die once. When you guys revive, won't you be energized again?"

Matcha: "!"

Diana: "!"

Catherine: "!"

Elizabeth: (´◕ω◕`).

Matcha crawled up and looked at Zhao Yao. "This is so weird!! I feel like I am energized again. My waist is no longer hurting and my head stopped spinning."

"I suddenly feel like studying!" Matcha shouted.

Zhao Yao looked at the four cats, who were studying obediently and nodded. "Don't blame me for being cruel. It is all for your own good."

"What era is it already? There are supercats everywhere. The times where you can earn money by acting cute is over."

“In a future society, knowledge is power and knowledge is wealth. Supercats are not an exception.” Zhao Yao carried on, “If you guys study more and master more skill points by then, you guys can remain competitive.”

“It is not just you guys. Even I have to learn constantly and keep up with the times or I will be eliminated.”

Thinking of this, Zhao Yao continued to study the material on the Dimension Seal. The content was very complicated, it involved dimension, space, time and all other complicated content. There was no way Zhao Yao could learn it instantly.

Although it was very hard to learn Dimension Seal, Zhao Yao had Diana’s power of Nightmare Lord. He could accelerate time.

A few days later, they already had an in depth understanding regarding the Dimension Seal. Now, they had to practice it in the real world.

In the cafe, Zhao Yao was lying on the chair. However, today he was not sleeping. He was controlling his awareness energy to cast Dimension Seal.

In the void of space, there was a formless awareness that spread outwards. However, it only lasted for a while before dissipating.

Although he had an in depth understanding of Dimension Seal, but to cast it successfully in reality, Zhao Yao still had to practice a lot.

However, Zhao Yao never lacked patience. He had been sitting on the chair in the cafe the whole day and kept practicing.

“Dimension Seal is hard, however, with my speed, I can learn it in a few days...” Zhao Yao was thinking, “Then, I can learn other skills from Wheatley. Even if I can’t learn a black level skill, at least I can learn a few silver level skills?”

“There is also the awareness country and knowledge about Closers World. If I can’t learn that from Wheatley, maybe I can...”

Zhao Yao thought of Snow Mountain, he was previously with the Cat Hunters and wanted to capture Wheatley.

Zhao Yao was very curious if the Cat Hunters had any knowledge about the awareness country.

“Being a human has prevented me from learning top skills from Short Fur Tribe. It’s either I try to learn from the Cat Hunters or I can try using a cat’s identity.”

Furthermore, Matcha and the other three still needed to go for lessons during the day and Zhao Yao really wanted them to practice during the day, so that they could master the Dimension Seal earlier. However, their levels were lower, hence it was more important for Zhao Yao to master the skill early.

At that point of time, Zhao Yao frowned and looked towards the front desk.

Ning Ning was watching a video on her phone and she was shouting from time to time. She was so concentrated that it annoyed Zhao Yao. It was the same feeling as a boss seeing his employee playing with their phone.

“Hey, why you are using your phone in front of me when you are working? Do you think I am dead?”

Ning Ning was startled and looked at Zhao Yao. She was shocked to see that he was not asleep.

Ning Ning said awkwardly, “B... boss, weren’t you asleep?”

Zhao Yao glared at her and walked in front of Ning Ning. He looked at Ning Ning’s phone and asked, “What are you watching?” He thought he heard some surprising news just now.

Talking about the content on the phone made Ning Ning excited again. She places the phone in front of Zhao Yao and said, “It’s Black Phoenix! Black Phoenix!”

Zhao Yao frowned and saw a handsome guy with long black hair in the video. The guy was standing in front of a huge pot.

The guy bend down and told the camera. “Hi, everyone. I am Black Phoenix, today I will show you guys how I am going to cook myself! Please start giving tips!”

Then, there was a pot of boiling water and the guy walked into it slowly.

“Everyone look carefully! It is really boiling water!” The guy was explaining and then he picked up a piece of beef and placed it into the water. “I will cook a piece of beef to eat...”

Then, the guy sat in the boiling water = eating hotpot.

Zhao Yao frowned. “What kind of stupid video is this.”

Ning Ning answered. “It is Black Phoenix’s video! It has been trending on the internet!”

Zhao Yao saw that Black Phoenix had created a series of videos of him trying to kill himself. Boiling himself was just the start. There was also jumping into the river, jumping into the sea, jumping off the building and getting into a car collision.

Ning Ning said, “Black Phoenix has been filming superpower videos. His powers are amazing. Everyone says that there is hardly anything in this world that can kill him.”

Zhao Yao snorted. “If I want to kill him, it is just a matter of thoughts.”

Ning Ning was not convinced. “Boss, you are exaggerating. Black Phoenix is one of the top ten apostles in the world. He is handsome, strong and rich. All you do is to sleep everyday. How are you going to fight him?”

Zhao Yao said with disdain, “What top ten apostles? Only people like you will believe such things. Except for Zhao Yao, I can fight all nine of them together.”

Ning Ning. “I will not believe you Boss, unless you go and challenge Black Phoenix and win.”

Zhao Yao laughed coldly. “For me to challenge him? He is not important enough.”

Ning Ning said, “Black Phoenix has embarked on the journey of challenging all the apostles on the list. He will challenge Zhao Yao last!”

“This is all for the hype. Don’t you get it?” Zhao Yao tugged the corners of his mouth. “I think you should watch less of such stupid videos. Hurry go prepare the cat food. Go study how to do your job better. If all you do is to watch such videos, I will reduce your salary.”

Ning Ning went to prepare cat food unwillingly. Zhao Yao returned to the chair and checked up on Black Phoenix. He couldn’t tell if Black Phoenix was too self absorbed or if he valued money more than his life. He really started to challenge apostles from around the world and he was winning continuously. His popularity was increasing online.

## Chapter 1020: Homework

“If he dares to challenge me, humph...” Zhao Yao looked at news from other supernatural realms. After his appearance, people witnessed more supernatural incidents. As supercats were gradually assimilated into society, more people depended on supercats to earn money.

Stroking his chin, Zhao Yao did not want to think too much. He wanted to practise Dimension Seal.

Zhao Xue barged into the cafe and slumped on the sofa as she shouted, “Zhao Yao! All cats were captured! Give me the money!”

Zhao Yao lifted his head and looked at Zhao Xue, smiling. “All were captured?”

“Of course!” Zhao Xue was excited as she said, “Do you know how difficult it is to capture those cats? Some hid in culverts, internet cafes, mountains, plains and even deserts.”

“Merlin and the other Star Cats hid in Antarctica!”

Zhao Xue recounted her experience and said painfully, “I almost froze to death. We fought with dozens of polar bears...”

Zhao Yao could not resist saying, "Polar bears are not found in Antarctica."

"They brought the bears over to Antarctica," Zhao Xue said. "Did you know how ridiculous those cats are? Doll escaped with Kunwu to the moon! I had to go to the moon to capture them!"

Zhao Yao was astonished. "Oh? How did you go there?"

"Making rockets!" Zhao Xue said, "The Aviation Authority launched the moon probe rocket... Initially it was quite fun but there's nothing on the moon. I don't want to go there again."

"Zhao Yao! More money! Give me more money! My menstruation was delayed and I had sustained hidden injuries from the exhaustion!"

Zhao Yao thought, "Very entertaining life. I could give her more tasks so that she will not become a lazy pig at home."

Zhao Xue said, "Hey, did you hear me? I've captured all the cats. I demand my money. Don't forget to give me more money. You have to increase my pay! This is a chronic injury."

Zhao Yao looked at the mission status on Book. A captured cat was worth 1000 experience points. With Zhao Xue's help, Zhao Yao obtained nearly 10 000 experience points which was a considerable amount.

Zhao Yao transferred the money to Zhao Xue immediately and he added one million.

After Zhao Xue received the money, she left hurriedly to spend the money.

Zhao Yao looked at Book that indicated Book: Level 8 (134 717/100 000). He was pleased because he could upgrade a cat to Level 10 and prepare for another cat to reach Level 25.

Zhao Yao looked at the Book panel:

Matcha: Level 25

Elizabeth: Level 18

Dust Ball: Level 10

Ares: Level 8 (15 800/50 000)

Lucifer: Level 8 (10 900/50 000)

Sphynx cat: Level 7 (11 900/20 000)

Catherine: Level 25

Diana: Level 25

The only cats that had not reached Level 10 were Ares, Lucifer, and Sphynx cat.

Zhao Yao calculated that it was enough for Ares to upgrade to Level 10. Lucifer and Sphynx cat still needed more experience points.

Zhao Yao decided to upgrade Ares to Level 10.

After leveling up, Ares could choose from two levels in the skill tree.

Zhao Yao observed carefully. Though he had two skills points, he did not award Ares because he was saving them for Lucifer and Sphynx cat.

Looking at the skills from these two levels, he did not find the need to spend skills points. He chose two skills.

One was to let the Deflective Field drop to -200 °C.

The other skill was Field Transmission which allowed power to be transferred in between the Deflective Field and a cat's constitution.

The power from the Deflective Field could be transformed into the body's power and vice versa.

The power of the Deflective Field was roughly 200 to 300 tons. If it was transferred, Ares would become an ultra cat.

It was more powerful when the process was reversed. With the strength of eight cats, that was about tens of thousands of tons, Zhao Yao's Deflective Field would be magnified many times and it would increase with the strengthening of his body.

The combination of the Deflective Field and Sphinx cat's training superpower was a perfect match. Like a chemical reaction, his combat prowess increased exponentially.

After Ares was upgraded to Level 10, experience points were expended and the Book became Book: Level 8 (517/100 000).

Zhao Yao tested the Deflective Field with his thoughts and a distant chair floated up.

Zhao Yao tried transferring his body's power to the Deflective Field.

After a mysterious ripple, the surrounding air vibrated and a terrifying power lingered in the air.

With a slight squeeze of the palm, the transmission of power from his body exploded. Violent power was emanated through the Deflective Field and thunderous sounds were heard.

The chair was squeezed into a small clump and continued disintegrating until it became dust that dispersed in the air.

"Very useful superpower."

Zhao Yao smiled with satisfaction. With Field Transmission, he could manifest his body's power in the surrounding space without physical contact.

The area of impact could be small or large. He could use penetrative attacks or use it to grab a battleship without damaging it.

The phone rang.

Zhao Yao noticed it was an unknown number and he took the call surprisingly.

“Hey? Greetings, are you related to Latte?”

“Yes, I am.” Zhao Yao was puzzled and asked, “Who are you?”

“I’m Mr Lee from Jianghai’s First Cat School. I’m Latte’s form teacher.”

The teacher said gravely, “Latte has not done his homework for many days and said his dad asked him not to do homework. He’s uncooperative and chats with his classmates during class. The other students followed his lead and stopped doing homework and have become attentive in class. He had disrupted our class’ discipline.”

Zhao Yao’s eyes flashed and said, “I understand Mr Lee, I’ll talk to him.”

The form teacher said, “Don’t be rash. Small kittens are naughty and disobedient. We advocate constructive comments and education. Don’t be rash and beat him up...”
