

## Am I A God 1041

Chapter 1041: Lottery Draw and Battlefield

“410 lottery draws, I hope to obtain good items.”

Zhao Yao licked his lips and decided to go for the lottery draws. He could not hold himself back anymore.

Cat Spicy Strip

50 experience points

Improvement Stone

Cat Spicy Strip

10 experience points

Cat Spicy Strip

Cat Emperor Armor Fragment

...

Zhao Yao's eyes were red as he drew 41 times 10 draws each. He obtained 5000 experience points.

Book became Book: Level 8 (94 317/100 000)

He obtained Cat Spicy Strips. Together with his previous stash, he had 456 strips.

He obtained many improvement stones. Together with his previous draws, he had 52 Improvement Stones.

Zhao Yao was looking forward to the Cat Emperor Armor Fragments and he obtained (69/240) fragments.

Zhao Yao was pleased with the results of the lottery draws.

He had three options to upgrade. The first one was to log in to Closers World so that the supercats of Book could be upgraded.

This process was slow but after analyzing Giggie's information about the Awareness Country and removing the upper limit for Closers World's players, the process would yield faster level upgrades.

The second upgrade was the equipment provided by Book, especially the slow accumulation of the Cat Emperor Armor Fragments and the Improvement Stones for improving equipment.

Zhao Yao felt this was a worthwhile goal.

The third upgrade was to learn the Short Fur Tribe's awareness skills. He would have more attack options and he would be prepared if he was attacked by the Short Fur Tribe.

As he was in the alien cats' territory and was monitored by Grayley, he was unable to log into Closers World or improve his equipment. He could only focus his attention on learning awareness skills.

Time passed quickly and it was the day for the retaliation.

Grayley got Zhao Yao and Wheatley out of the dreamscape. He looked at both of them and nodded. "You've worked diligently and you've had some success. You'll follow me to the battlefield."

They vanished from the material realm and entered the Awareness Dimension where they headed towards the battlefield.

Along the journey, Zhao Yao could see bright spots gathering at their sides. They were from the Short Fur Tribe's cat slaves and supercats.

When they arrived at the destination, they did not descend upon the material realm.

With a thought of Grayley, a palace dreamscape appeared before them.

This was the semi-everlasting dreamscape created by Grayley. Because they had to protect this combat sector, Grayley moved his dreamscape to this part of the Awareness Dimension.

All the Short Fur Tribe's supercats and a small portion of the cat slaves entered the dreamscape. The remaining cat slaves left the Awareness Dimension and descended on the material realm.

Before them was an azure planet, whose ocean occupied more than 90% of its surface.

The cat slaves landed on the planet's largest continent.

When the first wave of cat slaves landed, they were cut by invisible knives in the air.

...

In the dreamscape, Grayley, Fei Fei, Pi Pi, Wheatley, and the important cats of the family gathered together.

Before them was a pool created by Grayley's awareness skill. The pool surface reflected the situation of the planet in the material realm.

"The first wave intruders sustained heavy casualties," Fei Fei said. "The Long Fur Tribe was prepared for our attack. Second wave awareness unit, get ready."

Zhao Yao watched the battle at the side. It was his first time witnessing the war of the supercats in the universe.

On the battlefield, there were no supercats to be seen. As if by tacit understanding, the Long Fur and Short Fur Tribe let their cat slaves fight the first round.

Zhao Yao was astonished by the battle in the pool reflection.

The surface of the planet was covered by steel bodies. The cat slaves of the Long Fur Tribe flew on fighter planes and mechas in the atmosphere.

On the ground were automated electromagnetic guns, particle guns and laser cannons.

Huge spaceports and stargates floated outside the atmosphere. A few rounded spaceships of a few thousand meters floated outside the stargates as they glimmered with strange light rays.

“The Long Fur Tribe possessed such powerful technology...” After Zhao Yao saw Short Fur and Furless Tribe’s primitive style, he could not believe that the Long Fur Tribe had such advanced technology.

Half of the Short Fur Tribe’s Cat slaves were decimated by laser cannons, particle cannons and metal shells as they made planetfall. They were unable to retaliate.

They were merely the vanguard units. When the Shortfur Tribe’s pure awareness unit made planetfall, the Long Fur Tribe’s units went into chaos.

The pure awareness unit’s sleeping bodies were located in a faraway and safe place while their awareness descended upon the battlefield.

Like how Giggle and Tom had descended upon Earth.

A large portion of the Long Fur Tribe’s cat slaves were controlled by the pure awareness unit.

The controlled cat slaves aimed their cannons at their own units and those cat slaves who possessed strange superpowers attacked their own people. The entire Long Fur Tribe’s army was in chaos.

The advantage gained by the Short Fur Tribe did not last long. In the combat zone, numerous circular electric machines rose up. Electrical sparks were given off in a few explosions and

powerful spiritual waves emanated out. The Short Fur Tribe's cat slaves were driven out from the bodies that they were trying to control.

Seeing this scene, the supercats of the Short Fur Tribe were in shock.

“What's this?”

“It's able to attack our awareness?”

“There were no previous instances of non-awareness things attacking awareness!”

“What things did the Long Fur Tribe come out with?”

“That's the reason they attacked us. They believe they could subdue us? B\*stards!”

Previously when Long Fur Tribe encountered awareness attacks from Short Fur Tribe, they were at their wits end. Only their supercats and cat slaves who possessed dreamscape, illusion, and mental related superpowers were able to resist the Short Fur Tribe.

The tide had changed.

Looking at the agitated supercats of the Short Fur Tribe, Zhao Yao narrowed his eyes as he analyzed the battlefield.

“This weapon can repulse but can't kill awarenesses. It is still a powerful weapon though. Moreover, this is first time they are using this weapon. If it is refined, strengthened and improved... It will not bode well for the Short Fur Tribe.”

Chapter 1042: Moment

Zhao Yao knew the danger of the Long Fur Tribe's new weapon. A lot of the supercats also saw the danger.

Grayley rose up gradually in dreamscape. His previous dazed look was now solemn.

“The Long Fur Tribe has invented such a weapon...”

Fei Fei said, “Father, shall we send Moon Shadow?”

“No, I’ll do it myself,” Grayley said seriously. “There’s no need to waste time and effort to test. I’ll swallow them all and interrogate them regarding the new weapon.”

A majestic power of awareness emerged from Grayley’s body and everyone felt as though their bodies had touched a formidable power. They backed up subconsciously.

Grayley leaped and went out of the dreamscape. Then he descended upon the material realm.

“My father’s making his move.” Fei Fei sighed and said, “Watch carefully. This is the true strength of our Short Fur Tribe. Learn from him.”

The pool reflection rippled and mirrored Grayley’s vision.

The image of the azure planet enlarged rapidly. Grayley came out of the atmosphere and landed on the surface. He arrived at an underground base.

The circular machines in the base flew rapidly and emitted spiritual waves to repulse Grayley’s descent.

The base sirens blared loudly as the indicator monitors flashed rising figures. Crimson flashing lights filled the entire base as numerous cat slaves stood up and exclaimed in shock.

“Warning! Warning! Ultra high power of awareness detected!”

“What a strong power of awareness!”

“A sage level supercat had descended!”

“Open up all the spiritual repulsion devices!”

The machines that were effective previously were now vibrating violently after being overloaded by Grayley’s overwhelming power of awareness. The machines started emitting black smoke and came to a halt.

Within half a second, with the shutting down of the machines, the noisy base became deadly quiet.

All the Long Fur Tribe’s cat slaves froze at their positions like motionless puppets.

“Shut down all machines.”

After Grayley transmitted his order from his heart, all the Long Fur Tribe’s cat slaves started moving as though time had resumed. They looked normal as they went about their daily routine.

All the machines in the base were subsequently shut down. After fulfilling Grayley’s order, they gathered in the main hall and hit themselves unconscious. They laid down in a heap.

This was only one of the bases on the continent...

On the continent with the fiercest battle, mecha, battleships, cannons and the bright spots at the bases dimmed down. Darkness was like the grim reaper as it engulfed the planet rapidly.

“This is...”

“My father controlled them to shut off all machines,” Fei Fei said, “The sage level power of awareness could easily control hundred thousand to a million lives. Conquering the continent requires only a moment...”

The continent fell into darkness as the machines were shut down and all cat slaves fell into a deep sleep. The Long Fur Tribe’s army was totally defeated.

In a spaceship outside the stargate, the crew fell to the ground consecutively. A nearby stargate shut down and fell into a deadly silence.

For the Level 72 Grayley, if he did not meet his match, he did not need to use power skills or terrifying superpowers.

He only needed to descend, control, and reap. He was like a normal man walking on the ground and squishing an ant to death.

Wheatley and the cats heard Grayley's voice in their minds. "Send men to take over."

The Short Fur Tribe's cat slaves descended upon the battlefield and tied up the loose ends. They imprisoned all the Long Fur Tribe's cat slaves to interrogate them on the spiritual repulsion device.

Zhao Yao thought, "Is this the power of awareness of a Level 72 supercat? From what I saw, Grayley did not require a body. Based on his awareness state, he remained in the material realm for some time. I wonder what is his maximum limit."

All the supercats that Zhao Yao encountered, no matter how strong their powers of awareness were, if they remained in the material realm in their awareness state, they would expend large amounts of awareness power. If they couldn't possess a target, their awareness would dissipate into the universe.

Grayley was different. From Zhao Yao's observation, he could float for a long time in the material realm and transmit his power of awareness in a large area.

"If he descended upon Earth, he would rule the planet within ten minutes."

As everyone thought that the battle had ended, violent explosions were heard coming from the planet surface.

Within moments, numerous balls of flame rose up from the surface. The land cracked open and the clouds dispersed. Everything was destroyed.

The cat slaves did not have the chance to activate their superpowers. They were disintegrated by the sudden shock waves and high temperature. Then they were burnt to ash.

The planet surface became a scorching hell.

Grayley stared wide-eyed at the battlefield as his beard vibrated in shock. “Retreat! Let all the cat slaves retreat!”

It was too late. A micro-second order was transmitted to all Long Fur Tribe’s devices, weapons, mecha, battleship groups... balls of huge fireball shot up from the surface and the continent became a sea of infernos.

“Those b\*stards!”

Grayley looked furiously at the continent that was engulfed by flames, dust and radiation. The spacecrafts in the sky transformed into flaming wreckage and exploded like fireworks before the dust dispersed into the thin air.

“They’re ruthless.” Fei Fei was shocked as he said, “They were willing to sacrifice their own people and kill our cat slaves. They are mad and perverted.”

Zhao Yao looked grimly at the decimated battlefield as he acknowledged the ruthlessness of the Long Fur Tribe.

...

A few light years away, in the dark region away from the stars, thousands of battle cruisers floated in the galaxy.

In the middle of the battle group was a super huge mothership that was more than ten kilometers long.

In the command center of the mothership, a 2-meter tall white cat sprawled on a seat while his long flowy fur drooped on the ground. His ears quivered and changed frequency according to his movements.

Several humans surrounded him and combed the white cat’s fur. Two humans knelt on the ground and polished his claws carefully.

## Chapter 1043: Chance

Another long-fur black cat squatted in front of the white cat and said, “Lord Magis, all units on Tumen Planet have initiated the self-destruct sequence and all the cat slaves have perished.”

The white cat Magis nodded. “They’ve done well. Those primitives of the Short Fur Tribe will definitely be infuriated. Hahahaha, I get so happy thinking of how angry they are!”

The white cat smiled and revealed his fangs that glinted coldly. “Are the next batch of cloned cat slaves ready?”

“Prepare them for battle. Since the Short Fur Tribe’s here, they’ll not give up. The Delin Star Cluster will be their graveyard.”

...

In Grayley’s dreamscape, numerous supercats were infuriated.

The cat slave casualties were astonishing and a lot of them were their subordinates.

“In this battle, the casualties exceeded... three million cat slaves...” Fei Fei looked grave as he said, “Not a single enemy’s weapon was left behind...”

Grayley said angrily, “Didn’t I let them escape? Why did so many of them die?”

“According to some escaping cat slaves, unknown weapons prevented them from Dimension Travel and caused the high casualties. Only 50 000 cat slaves returned. I had sent men to continue rescue operations.”

Grayley said, “Put all efforts into the rescue operations! Send more cat slaves from our reserves.”

Zhao Yao listened to the battle situation and the astonishing casualty figures flashed through his mind. He sighed in his heart.

Casualties from galactic wars were much larger than wars within the planet's atmosphere. The cat slaves were the frontline soldiers and cannon fodder, hence the high casualties.

Zhao Yao frowned at the current situation.

The status of the cat slaves was very low in the eyes of the supercats.

Zhao Yao thought, "Those silly cats. Why did they go to war? Once I subdue all the Long Fur, Short Fur, Furless Tribes, then there will be no more war."

The Short Fur Tribe's supercats were not willing to let it go. Large numbers of cat slaves were sent over for war. Basically, only the cat slaves go to war.

Every supercat was precious, had high potential, and a bright future.

Those that fought were cat slaves that borrowed superpowers from the supercats while the supercats hid in the Awareness Dimension and watched the battle from a safe distance.

Grayley was assigned to this combat sector called Delin Star Cluster, which was made up of hundreds of stars. The cluster had glorious civilizations that gathered countless humans and supercats.

After the war among the Short Fur, Long Fur, and Furless Tribe, the Delin Star Cluster became the hotbed of contention. The wars made the place desolate.

The flames of war re-ignited and billions of cat slaves were thrown into battle. Their lives were sacrificed on the planets.

Because of Zhao Yao's high potential, he was not sent to battle. Instead, he was sent to a planet behind the frontline to learn and practise his skills.

He was not able to practise his skills completely in the dreamscape as the final testing had to be done in the material realm.

...

On the Golden Star, Zhao Yao stood on a green plain as his Level 60 awareness power transformed into invisible tentacles and contacted Wheatley's awareness two hundred meters away.

Wheatley's body trembled and said red-faced, "Guang Yu! Pull it out! It's uncomfortable."

"I understand." Zhao Yao resisted his temptation and retracted his awareness from her body.

"The transmission distance of the power of awareness reaches more than two hundred meters. This dark skill, Unparalleled, is very effective."

The dark skill, Unparalleled, was the first skill from Grayley that Zhao Yao had to master. Though it did not have active effects, the passive effect was to increase the effective radius of the awareness power.

Previously, Zhao Yao had to increase his power of awareness to passively increase his effective radius.

Zhao Yao thought that Grayley could control millions of cat slaves in a moment, his effective radius of the power of awareness was an important factor.

Wheatley ran over unhappily. After covering 50 meters, she discovered her power of awareness had knocked into Zhao Yao's body.

Zhao Yao felt a cold tentacle touching his body and shouted to Wheatley, "Good, you've made progress."

"Your radius is much larger than mine." Wheatley said unhappily, "Why is your progress that fast?"

Zhao Yao smiled and said, "Perhaps, I'm more intelligent. Do you still want to practise?"

Wheatley shook her head and said, "I'm dead beat. Don't you know my grandfather's not around today? I'm resting..."

“Oh? Grayley’s not here?”

Wheatley said, “I heard the Furless Tribe’s units were arriving. My grandfather wanted to coordinate with them and attack the Long Fur Tribe’s battle group. Guang Yu! Shall we go and play?”

“No, I need more practice.”

After getting rid of Wheatley, Zhao Yao ensured there were no one around. He activated the Cat Prince Costume’s Time Freeze, opened the Dimension Portal and returned to Earth.

“Finally, I’m back...” Zhao Yao laid on the sofa as he heaved in relief. He had been staying at the Short Fur Tribe’s location and was constantly monitored and trained by Grayley so he did not have time to return to Earth. He did not have the chance to use his Book or upgrade Closers World.

During Grayley’s supervision, Zhao Yao secretly completed the analysis of Giggie’s Awareness Country.

Unfortunately, Giggie’s knowledge of the Awareness Country was incomplete as he only had Spiritual Energy. The other four missing components were Dreamscape Proliferation, Dimension Conversion, Virtual Reality Mirroring and Thought Regulation.

“It’s a pity. According to my partial knowledge, I’m only able to increase the upper limit of the awareness country to one billion people.”

Zhao Yao recalled Grayley’s semi-everlasting dreamscape and guessed that he could create an awareness country because of his complete understanding of it.

He had no time to think about this. He had to increase the upper limit of the awareness country and upgrade Dust Ball to Level 25 to unlock the supercats’ level cap in Book.

As he had sizable experience points and diamonds, he wanted to use the diamond hall to improve his equipment and strengthen himself.

As Zhao Yao thought about his plan, he stood up and walked out of his room. “I’ve been away for a few days. I wonder if my silly cats miss me.”

## Chapter 1044: Update and Improvement

Though he was concerned about his cats, Zhao Yao decided to go for his plans first.

He called the games company to place a message that attracted hatred on the official website. “As the sole developer of Closers World, boss of the game and old friend of all the players,

I’ve decided to upgrade the games server even if I lose money. I intend to increase the current 30 million users to 1 billion users.

The game’s servers would be shut down in three hours. The date of completion of the server update is unknown.”

The news created a furor in the gaming world. They discussed the shocking record of a billion gamers, the future of Closers World and complaints against Zhao Yao.

Zhao Yao entered Closers World and upgraded Closers World according to the information he had analyzed.

Three hours later, all players were forced to go offline. Only Giggle was imprisoned in a small black hut.

Zhao Yao did not kick Tom and Strangle offline and let them continue playing.

The small number of players did not prevent the Level 60 Zhao Yao from upgrading Closers World.

Zhao Yao descended upon Closers World’s control room and his power of awareness amended the dreamscape structure.

“Higher load... faster speed...”

“And security system... firewall protection system...”

After an hour, Zhao Yao heaved in relief.

From Closers World's appearance, no changes could be seen, however, the dreamscape structure was overhauled. The sturdiness of the Awareness Dimension was greatly increased and it was able to hold more awarenesses.

Zhao Yao's knowledge of the awareness country and Closers World surpassed Giggle's.

After upgrading Closers World, Zhao Yao informed the games company. He stayed in Closers World and logged into Dust Ball's account.

Observing the efficiency of Dust Ball's evolution progress, Zhao Yao nodded. When Closers World reopened and new users flooded in, the players count would reach one billion and the evolution progress of the supercats would be accelerated.

"With the current progress, Dust Ball will reach Level 25 in a week. The level cap will be unlocked."

Zhao Yao stayed in Closers World. He managed Dust Ball's account and accessed Book at the same time.

It was time for Zhao Yao to take a good look at Diamond Hall and equipment improvements.

"Let me see... 52 Improvement Stones. The Cat Prince Costume is a top priority for improvement."

The level cap of the Cat Prince Costume was Level 60. He decided to improve it.

The Cat Prince Costume was improved once and it was +1 and had a defense increment of 10%.

Zhao Yao used an Improvement Stone on the Cat Prince Costume and a progress bar and a message jumped out and informed him of the improvement failure.

"S\*it!"

“It’s alright. Steady, steady, I have to remain calm.”

Zhao Yao used another Improvement Stone in vain. The third Improvement Stone succeeded.

Cat Prince Costume+2: Defense increment of 20%

“+2 is better than nothing. I’ll continue.” Zhao Yao used another Improvement Stone.

The next two Improvement Stones were successful.

Cat Prince Costume+4: Defense increment of 40%, constitution increment of 10%

“After +4, a new effect showed up. It’s pretty good to have 10% increase in constitution.”

Zhao Yao returned to the material realm and felt the Cat Prince Costume tremble. The costume assimilated into his body and countless small hands massaged his body. Every cell, fibre, nerve, muscle and bone were tightly fused together.

Zhao Yao felt his body becoming more relaxed and he had greater strength.

Zhao Yao used another Improvement Stone... it failed and the Cat Prince Costume was -1.

Zhao Yao was furious when the costume went back to +3.

Zhao Yao slapped on another Improvement Stone in anger.

Failure... Success... Success... Failure... Failure... Success...

Zhao Yao’s eyes were red as he used the Improvement Stones consecutively and the costume reached +7.

Cat Prince Costume+7: Defense increment of 70%, constitution increment of 40%, absorb superpower+1.

“Absorb superpower+1?” Zhao Yao’s eyes lit up as this effect was good.

The Cat Prince Costume was able to store two superpowers and Zhao Yao could switch to any one of the superpowers. Zhao Yao felt that two was still too little.

After +7, he could store three superpowers and he had more choices.

When Zhao Yao was about to use his Improvement Stone, a reminder jumped out and he stopped.

“For improvements above +7, failure will cause equipment to be damaged?” Zhao Yao frowned.  
“Such a high risk?”

Zhao Yao remembered the new items in diamond hall. The Improvement Hammer required 10 diamonds and could improve +7 equipment without fear of damaging the equipment.

“The price for improving +7 equipment is steep.” Zhao Yao frowned as he thought, “I have to find time to find some diamonds and exchange for Improvement Hammer.”

He turned his head and looked at his Book.

He had 21 diamonds and 19 Improvement Stones.

The numbers were too low and looking at his luck, Zhao Yao decided to find more diamonds before improving the equipment.

After pondering, he decided to use his sizable Improvement Stones on the Dragon Slaying Saber.

Dragon Slaying Saber+4: Prohibition of superpower for 50 seconds after failing Dragon Slaying verification and weakening of awareness.

Zhao Yao slapped an Improvement Stone on it.

“Success?”

Zhao Yao used a few Improvement Stones as the saber was no longer used. Even if the saber was damaged, it would not matter. The Dragon Slaying Saber went to +12.

“Wow!”

“If only I had that luck just now...”

Zhao Yao did not know whether he should be happy or sad. The +12 Dragon Slaying Saber had two more effects.

Dragon Slaying Saber+12: Prohibition of superpower for 50 seconds after failing Dragon Slaying verification and weakening of awareness. The verification difficulty is increased by 12 times. The damage can be increased by using power of awareness.

Chapter 1045: Appearance

“The damage can be increased by using power of awareness?”

Zhao Yao pondered. He could not resist transmitting his power of awareness to the saber and cutting himself.

A few minutes later, Zhao Yao stood up glumly and put back the Dragon Slaying Saber carefully.

“This saber’s...”

Zhao Yao understood the meaning of the 12 times increase in verification. Anyway, he was not going to test it again.

With the overlay of power of awareness, the Dragon Slaying Saber was now effective against supercats of Level 10 and above. With Zhao Yao’s Level 60 awareness, he could cause harm to other Level 60 or higher supercats. The supercats above Level 60 would have diminished damage due to their increased resistance. It was unlike before where there were no effects.

Zhao Yao looked at the Dragon Slaying Saber and thought, “This equipment... could be my most damaging weapon.”

He had only 11 Improvement Stones but he had Cat Prince Costume+7 and Dragon Slaying Saber+12. His power was upgraded and he decided to leave Closers World and take a look at his cats.

On the Cat Island villa, Zhao Yao opened his room door and arrived at the living room. There were no cats or humans around.

“Matcha and the rest are missing? I wonder if things happened while I was away.” Zhao Yao took out his cell phone. “Today’s the weekend and it’s not a schooling day. I didn’t see them when I passed by the Extradimensional Belly.”

Zhao Yao decided to return to the Extradimensional Belly and asked other supercats.

He swallowed himself and arrived inside the Extradimensional Belly. He took a few steps and asked a cat, “Lion Head, did you see Matcha and the rest?”

“Zhao Yao?” Lion Head looked at Zhao Yao and his fur stood on end. He looked in shock at Zhao Yao and screamed, “Zhao Yao!”

Zhao Yao grabbed the Lion Head’s skull and frowned at him as he asked curiously, “Why are you so nervous? Am I that scary?”

Kimchi pointed at Zhao Yao in shock and shouted, “Zhao Yao’s back!” Kimchi bolted without turning back.

The entire Extradimensional Belly went into chaos. Those who were eating, playing computer games, rolling around suddenly fled in fear as though they were frightened animals. They ran towards the Dimension Portals which they thought were the safest.

The Extradimensional Belly became empty, leaving only Lion Head struggling in Zhao Yao’s hands as his neck was firmly clasped.

“What’s happening? Why is everyone so afraid of me, as if they’ve seen a ghost?” Zhao Yao frowned and looked at Lion Head who had pretended to faint. He shook Lion Head’s body and asked, “I’m asking you. Stop playing dead.”

Lion Head opened his eyes and shook his head. “I don’t know! I don’t know anything!”

“S\*it.” Zhao Yao released Lion Head’s neck and entered a Dimension Portal. If Lion Head was not willing to say, he had to take a look himself.

Zhao Yao arrived at the cafe.

Ning Ning was sleeping on the counter and the cafe was empty.

Zhao Yao patted the table in front of Ning Ning and asked, “Is the cafe alright?”

Ning Ning lifted her head and looked at Zhao Yao with disappointment. “Boss, you’re back...”

Zhao Yao was unhappy. “What’s with your expression? Disappointed after seeing me?”

“Hahahaha.” Ning Ning laughed in embarrassment. “No, no, I’m surprised and pleased to see you, boss.”

Zhao Yao asked, “Did you see the cats in the cafe?”

“Talking about the cats.” Ning Ning scratched her chin and said, “It has been a long time since I’ve seen cats coming into the cafe. It felt like they disappeared.”

Zhao Yao frowned and made phone calls to Bai Quan and Zhao Xue but in vain.

“What’s with them?” He left voice messages for them to return his call. Zhao Yao left the cafe and returned to the Extradimensional Belly. Then he arrived at Cat Wonderland Street via the Dimension Portal.

Cat Wonderland Street was bustling with a lot of people. Countless people were sightseeing, taking pictures, buying souvenirs and enjoying themselves. Most of them were tourists. Only a small number were apostles and members of some special organizations.

Cat Wonderland Street was no longer Cat Wonderland, which was a secret entertainment center for supercats and apostles.

Due to Zhao Yao's heightened fame, the newly built Cat Wonderland Street was highly popular. After knowing Zhao Yao and the existence of supercats, they came to Cat Wonderland Street to look at supercats and carry or cuddle them.

Cat Wonderland Street became Jianghai's tourist site. Everyday, numerous tourists, apostles and even supercats came here to see Zhao Yao's supercats.

Zhao Yao arrived at the roof top of the original Cat Wonderland. He surveyed the crowd on the streets and smiled. Then he stepped into his office.

"Let me see... what those silly cats are up to."

Zhao Yao did not find anything amiss in the Cat Wonderland. The business was prospering and there were more tourists. From the windows, the queue extended to 300 meters from the entrance.

There was a group of people raising placards and making a lot of noise.

"Objection to oppressive cat prostitution!"

"Down with sweat factories!"

"Capture Zhao Yao! Rescue the cats!"

Zhao Yao's ears quivered and heard footsteps behind. He asked, "Where did those fools come from?"

Bai Quan stood behind Zhao Yao. He heard Zhao Yao's voice and detected his smell when he entered Cat Wonderland.

Bai Quan said, “They are from a foreign supercat protection organization. They like to protest against supercats working.”

Zhao Yao asked, “Oh? Who’s supporting them? Why don’t you call the police to chase them away?”

Bai Quan said, “According to Uncle Ho’s information, they were supported by more than ten supercats. A few of the supercats were of prestigious status. Anyway, they were just protesting and they did not have any aggressive behavior, so I let them be.”

Zhao Yao nodded and asked, “Where’s Matcha and the rest? Why didn’t I see them when I returned?”

Bai Quan smiled wryly and cold sweat dripped from his forehead.

...

Not long after Zhao Yao returned to Earth, with the announcement of Closers World’s upgrade, a few apostles received this message.

Up at Mount Qomolangma.

A barebacked golden-haired man walked on the snow.

He climbed Mount Qomolangma with his bare hands as a few mountain climbers held video cameras and followed behind him with fatigue and astonishment.

A member was shocked. “Strong, he’s very strong! He conquered Mount Qomolangma with his bare hands. This will be the new world record!”

“His physique’s more sturdy than a robot.” Another member commented.

“Ivanovic! The greatest mountain climber on Earth.” A member said, “I heard he was an ex-KGB agent. He became a mountain climber after retirement,”

“He didn’t use any apparatus or provision to climb the mountain. Even if he was strengthened by a superpower, it’s still incredible.”

“I heard he was training his willpower and he didn’t inform any mass media. If we didn’t meet him by coincidence...”

The golden-haired man stopped and everyone was puzzled.

The golden-haired man stood his ground and looked into the sky. Then he swiveled and started going down the mountain.

They asked in surprise, “Ivanovic, where are you heading?”

“Jianghai.”

“Why are you going to Jianghai?”

Ivanovic’s eyes glimmered. “To challenge the most powerful person in this world... and replace him.”

Ivanovic leaped with full effort, jumped headlong into the snow storm and vanished.

Chapter 1046: God’s Gift

Two weeks ago.

In London, England.

In the grand luxurious hall, a black-haired youth laid on the sofa.

His right hand touched his chin while his eyes surveyed the place in front. Five cats and five men knelt on the ground and trembled.

“I, Sebastian, the successor of Europe’s oldest, richest and most influential family.

Since birth, I knew I was different from the rest.”

“I’m different from those commoners.”

They had to work extremely hard to obtain certain things. They had to pay with tens of years and even their lives for the things but I could easily obtain them with a single word.

That was fate. The rules were set since the day they were born.

99.99% of the Earthlings were ordinary people.

I was destined to be God since I was born.

Everything on Earth, beautiful women, exotic wines, fortunes worth more than a country and dreams that took a lifetime to achieve, I was able to obtain with ease.

The year that supercats appeared, my apostle potential was naturally awakened.

A scumbag who should not appear on Earth took away my things.

Sebastian surveyed the kneeling apostles and supercats before him. He looked at a British Shorthair and the adjacent apostle and asked, “What are your superpowers?”

“Soft... Soften.” The kneeling youth trembled and said, “We are able to soften like mud...”

“What a disgusting superpower. Get out of my palace.” Sebastian frowned and said coldly, “Don’t let me see you again.”

The youth and his supercat was taken out by the guards. Sebastian looked at a Dragon Li and the adjacent female apostle.

“What’s your superpower?”

“Elect... Electricity, we control electricity.”

“Useless things.”

“They are all useless superpowers.”

“No, it’s not this cat!”

“Why! Why is there no supercat worthy of me?”

Everyone was told to leave. Sebastian kicked the tea set furiously and roared angrily, “My supercat! Why isn’t my supercat with me!”

He looked at the computer screen and it showed Zhao Yao’s related information.

Black Phoenix acknowledged Mr Zhao Yao as his father... Zhao Yao showed the power of a world number one...

According to estimates... Zhao Yao had strong Dimension superpower... He was able to travel the Earth with ease...

According to INS polls... Zhao Yao was voted number one in “The strongest apostle”... he was called the man closest to God...

Sebastian gritted his teeth and smashed his computer screen.

The cell phone rang and Sebastian answered the call. “Hello, Young Master Sebastian, Old Master decided to collaborate with Bai Quan. Our brick-and-mortar shops in Europe will sell their products without earning a commission...”

Sebastian shouted, “Are we yielding to them?!”

“Young Master, Bai Quan came to Paris three days ago, the difference... is too large...” The person on the phone hesitated and continued, “Appropriate yielding at times allows our family to last very long...”

Pom!

Sebastian threw away his cell phone as he said furiously, “It shouldn’t be like this...”

“No.”

“It shouldn’t be like this.”

“These superpowers... these superpowers should belong to me...”

“I’m the one destined to be God!”

“How did such powerful supercats fall into the hands of this scumbag?!”

“Oh Heavens, are you blind?”

As Sebastian was fuming, an extraterrestrial power flowed into his body.

It was power of awareness! The power that superseded all the awarenesses of the supercats on Earth!

“This is...”

Feeling the sudden surge of power of awareness in his body, Sebastian’s mind was filled with massive information on the power of awareness.

Sebastian accepted the power of awareness without hesitation. He had his own understanding of this power...

“I’ve awakened my superpower?!”

“This superpower! This is the power that Sebastian should have! Hahahaha...”

“This is the superpower that is worthy of me! What Zhao Yao, what Bai Quan, what Star Cats... all of you deserve to die!”

“What’s the deal with supercats and apostles? The power that I have awakened is the most powerful.”

“Everyone’s wrong.”

“Grandpa’s wrong too. We don’t have to yield to those Chinese.”

“Grandpa’s method is wrong. He should invest all the resources on me instead of finding the Mithril supernatural organization for help.”

“It’s alright, I’ll let them know. I’ll let them know how wrong they were.”

“Using the superpower that I, Sebastian, have awakened.”

“When I’m familiar with this power... it won’t be long... it won’t be long...”

When time returned to the present just as Zhao Yao returned to earth and made Closers World’s announcements, Sebastian, who was in a lotus sitting position, opened his eyes abruptly. He looked at the sky and heard mysterious whispers in the air.

His eyes glimmered with traces of mysterious rays.

He opened the room door and walked out of his room.

In the living room, Sebastian’s father was entertaining a few Mithril apostles.

“I’m depending on your help for this matter.”

“No problem, this is what we should do.”

Sebastian’s father surveyed the apostles who were the best warriors in Mithril. Everyone had a great experience in combat and they were famous in the European supernatural realm. They had killed hundreds of apostles in the last two years.

“With them around, there should be no problem. Even if Bai Quan came over, they should be able to hold their ground.”

The room door was kicked open and Sebastian’s father said angrily, “Sebastian, what are you doing?!”

Sebastian’s expression was blank as he looked at the Mithril apostles and said, “Mithril apostles?”

“Get lost, the Camian family doesn’t need you.”

The Mithril apostles became grim as Sebastian’s father said in fury, “Sebastian, what are you saying? Apologize to them immediately?”

“Why should I apologize to this trash? What do you say?” Sebastian’s brow creased and with a thought, the faces of the Mithril’s apostles were distorted. They knelt on the ground and said to Sebastian, “Sorry... Sorry, we’re trash. Please do not be bothered by us.”

Everyone looked in astonishment as Sebastian turned and walked off. Sebastian’s father could not help asking, “Sebastian, where are you going?”

Sebastian slowed to a halt and said, “To China, to take back what’s mine.”

Chapter 1047: Cats Conference

Zhao Yao looked at Bai Quan, tilted his neck and said, “Uh? What happened?”

The cold sweat on Bai Quan’s head continued to drip as he said, “Hmm... They suggested a pay increase, more resting days, 1 hour work day and new contracts...”

Zhao Yao said, “Did you agree to their terms?”

“I rejected their unreasonable requests,” Bai Quan said, “And they went on a strike.”

“Strike?” Zhao Yao flicked his finger and the air at the point of the finger let out a shrill sound. He said slowly, “Who’s the leader?”

Bai Quan said, “It’s... Roly Poly...”

...

A huge rented conference hall in Jianghai.

The supercats were moving around in a tight group and the heads bobbed in the sea of cats.

A huge picture of Zhao Yao was displayed in front of the cats.

Roly Poly stood in front of the large photograph and helped a slim supercat on the stage. He said to the supercats below the stage, “Everyone, this is Ah Qiang. Three months ago, he was a cute and strong cat. Look at his previous photograph.”

The photograph was changed to a blossoming plump and cute white cat.

Looking at the photograph and the current cat that Roly Poly was helping, the supercats exclaimed in shock.

“Three months of working in Zhao Yao’s Cat Wonderland, Ah Qiang became like this.” Roly Poly shouted, “Daily work of more than six hours, fed only on cat rations and suffering from sexual harrassment, discrimination and insults.”

The crowd exclaimed again and a female cat shook her head as she covered her eyes.

Roly Poly sent Ah Qiang away and got Mango to go up the stage.

“This blue cat is called Mango.” Roly Poly sighed and said, “A month ago, he was an intelligent and lively kitten studying happily in the first year of school. Because his parents owed Zhao Yao money, he was sold to Cat Wonderland.”

Roly Poly caressed Mango’s head and sighed. “On one night, he was forced into a Cat Wonderland’s private room and tens of women cuddled him for three hours. When Mango shed his fur and ran out, he had gone mad.”

Roly Poly beckoned the camera to shift closer to have a tighter shot of Mango’s face, who was spitting out his tongue with a silly expression.

“A strong and grown up cat becoming a sick cat, a healthy cat becoming a mad cat. How many cats are we going to sacrifice for Cat Wonderland?!”

Roly Poly pointed at Zhao Yao’s photograph and said, “Do you want to be oppressed by him?”

Uncle Egg led the crowd and shouted, “No!”

Roly Poly continued, “Do you want this human to ride on our heads and poo on us?! Do you want to see cats after cats being harmed by him?”

“No!”

Roly Poly roared, “It’s time for supercats to rise up! We have to show Zhao Yao our resolve! Let him know we’re serious!”

The cats raised their paws solemnly and shouted, “Serious!”

“Well done!”

“Let Zhao Yao see our true colors!”

“We can’t let him do what he wants!”

Roly Poly nodded with satisfaction. He thought, “Humph, when I’ve absorbed all your superpower DNA and betrayed Zhao Yao, I’ll be the most powerful supercat.”

Project X shouted in his heart, “Quick! Let me touch these cats!”

Roly Poly said, “Don’t hurry me. These things take time. It can’t be hurried.”

Project X controlled Roly Poly’s paw and slapped the floor. “Quick! I can’t hold any longer!”

“I know. Don’t move around.” Roly Poly pointed at the large photograph of Zhao Yao and shouted, “Good! We’ll swear to protest against Zhao Yao’s tyranny! The Earth belongs to the supercats!”

“Protest against Zhao Yao’s tyranny! The Earth belongs to the supercats!”

Roly Poly said, “Good! All cats come onto the stage and piss at his photograph! We’ll be family from now on!”

“What?”

“Pissing at Zhao Yao’s photograph?!”

The supercats were shocked by Roly Poly’s words.

The entire conference hall became silent. The cats backed up and nobody dared to make the first move.

“A bunch of trash!” Roly Poly sneered and looked at Uncle Egg below the stage. Uncle Egg turned his head and moaned. “Ouch! I ate spoiled food in the morning. My stomach is in pain!”

“They are all unreliable cats!”

Roly Poly shouted, “This is our show of loyalty to our cause. Since everyone’s shy, I’ll be the first one!”

Roly Poly went to the front of the Zhao Yao's photograph and aimed his buttocks at the photograph.

The supercats became excited and they raised their cell phone and aimed at the stage.

Matcha said excitedly, "Take out your cell phone! Where's my cell phone?"

The adjacent Old Cat said, "It's here. I'll take the pictures!"

Matcha said excitedly, "Haha, when I send this video to Zhao Yao, I'll see how Roly Poly is beaten to death!"

Seeing tens of cats aiming their cell phones at him, Roly Poly stood for a while and said, "If you aim your cell phones at me, I'll be unable to piss."

"Put away all your cell phones!"

After several minutes of coaxing from Roly Poly, the supercats put their cell phones away but kept them ready to capture the image of the pissing Roly Poly.

After waiting for half a day, Roly Poly did not piss. Matcha could not help disguising his voice to say, "Why aren't you pissing? Are you having weak kidneys?"

Cannon shouted, "Yes! Are you pissing soon?"

Lightning said, "If you're not pissing, I'm leaving."

"Shut up!" Roly Poly scolded and said softly, "I ran out of piss..." He looked at Mango who was standing by the side and said, "Let Mango piss first."

Matcha led the booing and the crowd booed loudly.

A black cat jumped on the stage and said, "Wait, let me piss first!"

Roly Poly's eyes lit up and walked forward. "What a strong cat. What's your name?"

The black cat walked forward and smiled. "My name's..."

His body expanded rapidly and became larger than a tiger.

He opened his mouth to a meter wide and swallowed Roly Poly. With a jump, he swallowed the silly looking Mango.

The large mouth extended a crimson red tongue that licked the lips. "Are they Zhao Yao's supercats? Heh, heh, heh, they're not impressive."

He looked at the dumbstruck supercats below the stage and said in a low voice, "Tell Zhao Yao, I'll eat all his supercats one by one... And he... will wait in fear and hopelessness..."

The huge cat on the stage leaped, crashed through the walls and bolted off.

Matcha blinked his eyes and looked at Old Cat. "That guy... just swallowed Mango?"

Old Cat said, "Seems like it."

#### Chapter 1048: Siege

A figure that looked like a black leopard leaped quickly from a tall building in Jianghai.

"Heh, heh, heh, heh."

The large cat ran as he laughed excitedly.

"That's too easy."

“Those cats under Zhao Yao did not have a sense of vigilance. They have lived comfortably for too long.”

“Wait till I eat all of them...”

The large cat was traveling in the city buildings, tens of thousands of meters high up above the ground.

A satellite camera was tracking his movements.

“Identify the target.”

“He swallowed two of Zhao Yao’s cats.”

“All units on standby. Follow him but don’t engage.”

Uncle Ho looked at the big screen in the command center and observed the high speed moving figure. He turned his head and asked, “Have we informed Zhao Yao’s side?”

“Bai Quan received our call and he said they knew about it.”

Uncle Ho nodded. “We’ll wait for them.”

A middle-aged soldier, who was standing beside Uncle Ho, frowned and showed his displeasure. “Uncle Ho, why must we wait for Zhao Yao? Shouldn’t we capture the cat immediately to reduce casualties, especially when those two cats were swallowed?”

Uncle Ho said, “Zhao Yao’s cats are still in his stomach. It’s best to wait for Zhao Yao to settle it. This is Jianghai, he’ll arrive any moment.”

“Should we consider this at this time?” The soldier asked.

A Russian general said, “This capturing operation is a collaboration between our countries. Ho, perhaps you do not understand how terrifying Perdition is.

He created the Cat Worship Cult in Russia and caused the entire country to break down. This cat, whether it is because of his superpowers or his thoughts, is extremely dangerous. We have to destroy him at the first opportunity...”

Perdition was a supercat from Russia.

He was an anti-human cat who wanted to overthrow the human system. He was a thinker who wanted to lead the supercats to change the world.

After creating the Cat Worship Cult, he changed his name to Perdition to symbolize the destruction of the old human system.

Uncle Ho looked at them and said, “Since he’s so dangerous, how did he escape? You are unwilling to divulge the details of this cat. I’m doubtful of your resolve for our collaboration.”

The Russian general became glum as he recalled the terrifying events three weeks ago. “Theoretically... he shouldn’t have escaped... He wasn’t adapt in combat. His superpower allows him to change three of a person’s three beliefs unconsciously...”

“Change three beliefs?” Uncle Ho was astonished. “Is it permanent? Or temporary?”

The general sighed and said, “Permanent... the humans who were changed by him went through two years of psychiatric treatment without success...”

Because of Perdition’s thoughts and influence, the Cat Worship Cult expanded rapidly. Within two years, it attracted thousands of supercats to join in. Due to the deception of the cult, the supercats brought along large numbers of apostles.

To exterminate the Cat Worship Cult, the local government expended a huge amount of resources which affected the proper functioning of the country.

After capturing Perdition, Russia was very careful and secretive when dealing with him. He was imprisoned in Siberia’s secret underground prison.

The cell room that imprisoned Perdition was made of superalloy which was resistant to nuclear attacks. The prison was equipped with lethal gas, an incinerator that could burn at more than 5000°C, a vacuum system that could provide oxygen as well as vacuum and a 150 ton liquid nitrogen system that could freeze Perdition any time.

The perimeter was guarded by more than 300 apostles and a permanent complete armored unit.

In the underground prison, Perdition went through various experiments for them to research his superpower and to find ways to use his superpower.

For many years, it was without success. Perdition had incredible willpower. No matter how much torture was used against him, they were unable to let Perdition lend his superpower to humans.

Though the experiments were not successful, Perdition did not escape and the prison wardens followed the rules not to talk or engage in physical contact. All the work was done by machines.

Three weeks ago, things changed in the prison.

The Russian general sighed, “Three weeks ago, Perdition fell sick and his body’s bones, flesh and nerves broke down. When we are about to treat him...”

Perdition’s body had an astonishing transformation. High temperature weapons, electromagnetic weapons and poison gas were ineffective. The small black cat bore through five meters of superalloy armor.

As Perdition escaped from his prison cell, 150 tons of liquid nitrogen flooded the entire prison and it became a -200°C living hell.

When everyone thought Perdition had been frozen, he dug a 200 meter tunnel and escaped to the surface. The guarding army was exterminated and the normal Earth apostles were unable to defeat him.

After determining all methods useless, the Army had no choice but to launch three tactical nuclear missiles that turned the surface of the prison into a scorching hell.

“You launched nuclear missiles to kill him?!” Uncle Ho said in surprise. “Was it the military exercise three weeks ago? So it’s because of this cat... but...” He turned to look at the high-speed moving Perdition who was being tracked by the satellite.

“The nuclear missiles didn’t kill him?”

...

Bai Quan followed Uncle Ho’s coordinates and flew towards them at high speed.

He borrowed Cheese’s superpower and controlled his clothing to fly at high speed.

Bai Quan flew at a low altitude. When he reached the outskirts of Jianghai, a black figure came to his side and after a loud bang, Bai Quan landed on the ground. When he stepped on the ground, a shockwave hit the ground and a large pit was created.

The man who attacked Bai Quan landed in front of him and smiled. “Are you Bai Quan? I heard you’re Zhao Yao’s first lapdog. I’ll start with you.”

He thought, “Humph, he has the ability to fly and a strong constitution. This guy... perhaps his body was also invaded by that thing?”

Bai Quan patted his clothes and looked at the dark-skinned man who was 2 meters tall. Bai Quan said, “You’ve been following me from Cat Wonderland Street to here. It’s been hard on you. What’s your name?”

“Hahahaha, you’ve already discovered me? Impressive.” The man smiled and said, “Remember, I’m called Chang Haotian and I’m here today to beat you to death, then beat Zhao Yao to death. Or I’ll be beaten to death by you...”

Bam!

Bai Quan’s back was struck by a laser fired from a few hundred meters away. He was unable to dodge due to the speed of light.

Chang Haotian bolted to Bai Quan's front and his fists created hurricanes as his punches pummeled Bai Quan like multiple massive pile drivers.

"Once you're in hell, don't blame us for sieging you! This is the real battle..."

#### Chapter 1049: Sneak Attack

On the Cat Island, a small figure was hiding in the mud and both his hands were digging the soil in front.

The firm and steady hands were like a steel shovel. Under the control of great strength, the soil layers were dug aside and the short figure proceeded gradually.

"Humph, a bunch of fools."

This digger was a white-haired and short old man with age spots and creases. He had emerald eyes and large hooked nose that suggested he was a foreigner.

It was hard to determine the age of the old man. The muscles on his body looked as if they were made of metal and he was able to dig soil like cutting butter.

"They obtained strong superpower suddenly and thought they were invincible."

"They don't know whether it was the previous wars or the current superpower battles, the most important thing is to continue living."

"Before thinking of winning, first consider how not to lose. Then one will not lose a single battle."

"This is my age wise winning secret."

The elder, Olivier, was one of the European soldier who participated in World War 2 tens of years ago.

At that time, the nineteen year old Olivier was trained for two weeks before he was involved in the most vicious and bloody war in history.

On the battlefield, he discovered a thing.

He had a knack for killing people.

He looked forward to new battles every day and he loved to see life slip through his hands.

Whether it was guns, combat cars, grenades, bayonet, long sword, rope, the fact that he could be killed anytime or he could kill anyone let him feel extremely excited.

The happy days were short.

When the end of war was announced, he felt despondent.

On the night of a cocktail reception, he killed 28 of his comrades.

The digging elder stopped abruptly and twisted his head to stick his ears firmly to the top ground.

He could hear faintly the rhythmic knocking sounds coming from the top.

“According to my estimate, this should be below the villa.” The emerald eyes of the elder rolled around. “Are they footsteps?”

He turned his body carefully and slowly removed the soil at the top.

The elder was very patient when he ambushed a target, he waited silently under the bed for three days and three nights. He cleared the soil bit by bit as though he was dealing with an art piece.

“Careful... patience... slow and steady...”

“The mysterious person who gave us such superpower must have a secret motive.”

“Zhao Yao, whom we are all attacking against, must possess certain power that he was wary of.”

“Brute force against brute force is the stupidest strategy.”

“Determine the enemy’s movement and weakness and attack him so that he will be disadvantaged.”

“Let me use the Chinese strategem to kill this Chinese guy.”

To capture Zhao Yao’s parents, Olivier arrived in Jianghai two weeks ago.

Making use of the Double Eleven chance, he arrived at a courier center and found Zhao Xue’s package. He attached a GPS device to the package to determine the location of Cat Island and the villa.

With his strong body, he swam to Cat Island and dug a hole to bury himself. He rested while waiting for his order.

Today, a mysterious message emerged in his mind. He followed the direction of the hole and dug towards the Cat Island villa.

Olivier dug for a while and stuck his head up to listen to sounds of footsteps.

“These footsteps... light, full of life, firm and strong... According to intelligence, Zhao Yao had strong constitution and fighting skills. Is the person Zhao Yao?”

Olivier frowned and his mind analyzed if it was a good chance to do a sneak attack on Zhao Yao or to wait for him to leave and kidnap his parents.

After pondering, his eyes glinted with two cold rays. He stopped moving and his breathing became long and slow. He laid limp in the hole like a snake in a winter slumber.

He decided to wait for Zhao Yao to leave.

An hour later, Olivier listened intently. When there were no sounds, he continued digging.

He removed the last tile carefully and climbed up from the hole like a python with no bones.

Two light puffs rang in the air and Olivier was hit hard. He vomited fresh blood and fell to the ground.

Zhao Xue walked over from outside the door barefooted. She flung a stone away as she surveyed Olivier. "I felt something moving underground just now. So it was a man digging out? I thought he had tunneling superpower."

Zhao Xue looked at the motionless Olivier and thought, "The stone that I had thrown had penetrated his stomach and chest. I'll call Bai Quan to clear up."

She took out her cell phone and made a phone call to Bai Quan.

"Nobody's picking up the phone."

As Zhao Xue was looking at her cell phone, the fallen Olivier opened his eyes and twisted his body like a python. Then he activated his explosive strength and appeared before Zhao Xue.

Zhao Xue was shocked. "This guy..."

She crossed her hands to defend against Olivier's attack while she kicked viciously at his stomach.

The elder squirmed into a ball and dodged Zhao Xue's attack. Like a tornado, he executed countless fists and palm attacks that engulfed Zhao Xue.

Zhao Xue blocked a few of the attacks and wanted to back up and recover herself but he was like a python that stuck to her and he attacked like a vicious thunderstorm.

"Chinese people are confused. They like to say do not pursue a desperate foe..."

"And yet they say cut the weeds and dig up the roots."

“Hehehe, I like the last one. Cut the weeds and dig up the roots but the weeds grow again when the spring wind blows.”

The elder’s diction was clear and his authentic Chinese rang the air as the words etched in Zhao Xue’s mind.

Zhao Xue was worried. “He’s able to breathe normally while attacking me? His strength is superior to mine? I can’t let him gain the upper hand. I’ve to think of a way to retaliate.”

The elder’s fist shot out like a long siege bow. Zhao Xue held her breath and wanted to contract her stomach to brace for the attack so that she could have a chance to counterattack.

A puffing sound was heard and his fists penetrated Zhao Xue’s stomach.

#### Chapter 1050: Weapon

“What?!” Zhao Xue’s eyes squinted and saw superalloy daggers hidden in his fingertip gaps. “This guy... I’m sure there were no daggers... how did he hide them?”

After gaining advantage, the elder whipped his leg like a hurricane at Zhao Xue who snorted in fury. She lashed out her leg like a whip and the air at the tip of her leg exploded.

Both their legs collided with a huge bang. Following Zhao Xue’s painful scream, fresh blood splattered from her thigh.

Zhao Xue looked at his tattered pants on his thigh and noticed numerous distorted steel needles affixed on a steel plate.

Zhao Xue lashed her full strength on these steel needles and her muscles on her thigh were torn.

“They appeared suddenly. Is that a superpower...” Zhao Xue was infuriated. “This old man deserves to die...”

Seeing the elder wielding a hand knife and slashing the air, Zhao Xue did not block but used her good leg to step on the ground and backed up.

The elder did not pursue her but laughed sinisterly. “You’re getting smarter, woman. I’m able to obtain toys from my Dimension Bag.”

Zhao Xue narrowed her eyes and saw several silver wires entangled in his palm.

The elder waved the metal wires in his hands. “For example, if I use enough force, this nano metal wire could cut through a battle cruiser.

With my strong body, I could cut anything like cutting a beancurd. Though you evaded my wires, but don’t you need to remove that thing from your stomach?”

“Stomach?” Zhao Xue was shocked. She touched her stomach and a thunderous explosion rang in the air.

When the elder cut open her stomach, a grenade, which was put inside, exploded.

“Ah!!!!!!”

Zhao Xue wailed in pain as she knelt on the ground with her body full of blood. Both her hands scratched and left deep trails on the ground.

The elder waited at a distance and did not advance. He flicked his hand calmly and steel needles appeared in his palm.

Olivier had used his Dimension Bag superpower.

The various weapons and devices used were from the Dimension Bag. Because of this, he was able to ambush Zhao Xue.

Though the Dimension Bag was not able to contain life like the Extradimensional Belly but the various use of weapons greatly increased Olivier’s combat prowess.

“Young people like you, don’t you know the difference between humans and animals?”

“Whether you are using tools or not.”

The elder looked coldly at Zhao Xue, who hugged her stomach, wailing in pain. She gradually fell to the ground and stopped moving. “You are foolish to fight bare-handed.”

“Don’t play dead. A grenade’s not enough to kill you.” The elder held a steel needle and said, “Don’t worry, I won’t give you a chance. I won’t even get close to you.”

When the elder was about to shoot out his steel needle at Zhao Xue, he felt a hot breath blowing on the back of his skull.

Olivier was like a frightened animal and he threw tens of steel needles to his back.

Crispy sounds of the steel needles ripping through the air was heard and all the needles were right on target.

“With my strength, the power of every thrown steel needle was not lesser than an armor piercing shell. With such a short distance, he’s definitely dead...”

When Oliver swiveled his body, he saw Zhao Yao standing emotionless behind him. Zhao Yao hugged his chest and looked quietly at him.

“Zhao Yao!!” Olivier was slightly shocked but when he saw the dented steel needles falling on the ground, he was astonished.

“He blocked the steel needles that I shot out at proximity. Did he use his high speed hands to catch the needles? Or is it due to that strange clothing?”

Olivier bent his body like a wary beast. He tiptoed and raised his arms as he gazed intently at Zhao Yao.

Zhao Yao did not look at Olivier. Instead, he looked at Zhao Xue who was on the ground. “Hey, are you alright?”

Lucifer was at Zhao Xue's side licking his lips. He retracted his paws and looked at Zhao Xue's wounds with a pair of excited eyes. "Zhao Xue's good at playing dead."

Zhao Xue screamed and her wounds went through rapid regeneration. She shouted, "Don't touch him! Leave that old man to me!!"

"Bullying me because I don't have superpower..."

"I'm going to beat him to death!!"

Zhao Yao nodded and surveyed Oliver, who had a Level 25 indicator above his head. Then Zhao Yao looked at the mission panel.

Mission: Sudden Change

Mission Objective: There were sudden appearances of Level 10 and above apostles on Earth. Where did they obtain their superpower? Investigate the truth of this phenomenon.

Mission Reward: 10000 experience points

Mission Penalty: None.

"10000 experience points, not bad. I noticed the Level 25 old man seems to belong to the Furless Tribe who used power of awareness to strengthen the body." Zhao Yao thought, "Did the Furless Tribe send him here? No, it doesn't look like Furless Tribe's way of doing things. Who could it be? Short Fur Tribe? Why don't they use awareness distortion to control other people?"

As Zhao Yao was considering the possibilities, Olivier fixed his gaze at Zhao Yao. He observed Zhao Yao's line of sight and listened to Zhao Yao and Zhao Xue's conversation. He thought, "He didn't bother about me?"

"He's distracted?"

Seeing Zhao Yao in deep thoughts, he kept his wits. “Humans are not machines. No matter how strong the person is, he could not possibly be focused 24 hours a day.

For a normal human, the maximum limit for focusing is 15 minutes. He had to relax for some time before he could focus again.”

“Even if we had super constitution, we couldn’t possibly focus for 24 hours.”

“This is when we make mistakes.”

“Because Zhao Yao underestimated me and he was concerned with his sister’s injury, at this moment... he’s not focused on me...”

“Then...”

Olivier had the intention to retreat when Zhao Yao first appeared as he was nervous. But seeing Zhao Yao being distracted while talking to Zhao Xue, Olivier decided to abandon his plan to retreat and prepared to attack Zhao Yao.

A series of plans flashed through his mind as Olivier leaped and appeared in front of Zhao Yao. He kicked up a whirlwind of soil into the air to block Zhao Yao’s vision.

Light rays flashed as nanowires appeared in his palm and he slipped the wires towards Zhao Yao’s neck.
