

Chapter 112 My Mate

Umayza

I am still shocked by the fact that Calliope's Wolf decided to give me an answer and I know I need to get those journals, maybe they contain more answers on the ability of perception. The Council can have them for safe keeping because I only want one answer and I know I will be able to find them in those journals.

I find my Father and Orion talking to Council-member Finlay and I quickly tell him what happened during my talk with Calliope, Finlay tells me he will take a Squad with him to get those journals personally. "You will have your answers soon, Umayza." He says before he walks away.

Dad asks how I felt when I was faced with Calliope and I tell him truthfully that I felt nothing, "I might be related to her by blood, but that is it. She is no family of mine, not after what she did to you and Mom." I say and it is Goddess honest truth, Calliope means nothing to me.

Yade tells me that Jasper has been acting strange ever since we arrived at the Academy, but neither one of them can figure out why. I ask her if Jasper might be feeling a bit anxious being in a place where they used to spy on me, but that is something they both already ruled out and I know Orion would have said something if he felt that way.

Suddenly Orion stops walking and he is staring straight ahead, I follow his line of sight to see a female staring right back at him. Orion starts walking towards her and I see her slowly move towards him, almost as if she is afraid that this is all a dream. Orion cups her face before he kisses her and she responds by sliding her arms around his neck.

"Call me when you are done?" I shout after them and I can see the female turning red, Orion just flips me off. Dad orders Evander and Conri to follow him and I head to my room to take a shower, I also need to change into some clean clothes.

Orion

Jasper is pacing my head, but he is unable to tell me what is wrong and I am starting to worry about him. He tells me that he talked to Yade about it, but that she couldn't help him either and I think that worries Jasper even more than the fact he can't find answers himself.

I stop dead in my tracks as I smell the most delicious scent in the world and when I look in the direction of where it is coming from Jasper starts calling "Mate" in my head. I smile as I recognize the female and I don't think about anything other than her as I walk towards her, not caring who is around to see.

She answers my kiss as she wraps her arms around my neck and I slowly break the kiss to ask her if she can take me to her room, I want and need my Mate. I flip Umayza the bird as she calls after us and I see that Asilda is turning red at her words.

"Don't worry, that is just my Sister." I say as we step into the elevator. "There is a lot we need to discuss, but right now there is only one thing I want to do and I think you know exactly what that is. Don't you, Sweetheart?" I whisper into her ear as I hold her close to my body.

The moment we are in Asilda's room we start kissing again and slowly but steadily we remove the other's clothes. My cock twitches the moment she touches it and I tell her to get on her knees, I need to feel her lips around my rock-hard shaft.

"Open up, Sweetheart. I want you to taste me, I want to come in that sweet mouth of yours." I groan and Asilda does as I tell her to do, she let's my cock slide into her mouth over her tongue as deep as she can take me. I tangle one hand in her hair to guide her up and down my cock and I feel my cock growing even harder.

Asilda sucks and licks my cock as I move it in and out of her mouth faster and harder, "Fuck, Baby. I am going to come, I am..." I mumble before I shoot my cum down her throat and she keeps sucking until I am completely empty. Jasper is going nuts in my head at the scent of her arousal and I know what I am going to do to my Mate.

"Get on the bed, Sweetheart and spread those legs for me." I say and I smile when I see her complying to my words. I stare at her pussy and the sight of her soaking wet pussy nearly brings me to my knees. I pull her closer to the edge of the bed and I let one finger slide through her wet folds, making her cry out in pleasure.

I push my finger into her sopping pussy as I slowly circle her clit with my tongue, my finger slides deeper into her wet tight pussy and I have to restrain myself from moving faster. I want her to come harder than ever before and I slowly increase the speed of my ministrations, making her pant faster.

My tongue is still circling her clit as I push a second finger inside her and her back bucks off the bed as she begs me for more, she is so soaking wet that her juices are running down towards her ass. I don't hesitate as I let my other hand move to her backdoor and I slowly start pushing my finger against her hole.

Her body opens up to my probing finger and she cries out even louder as I push my finger deeper into her ass, "Please, Orion." She begs and her body tells me she is ready for more, I push a second finger into her ass as I pick up the speed on my ministrations again.

I suck her clit into my mouth as I push my fingers deeper into her body, pumping faster and harder with every thrust into her body. She screams my name as I feel her come around my fingers, her pussy and ass clenching around my fingers and I slowly ease my ministrations.

I pull her onto my chest after I have crawled onto her bed and whisper in her ear what I plan to do to her before we leave this room and Asilda starts moaning at my words. "You like what I have planned, Sweetheart." I say and she lifts her head to look me in my eyes, before she tells me she likes it a lot.

Asilda let's her hand travel down my chest towards my cock and I know she will bring it back to live in seconds. I groan the moment she wraps her fingers around my shaft and she has barely started pumping her hand up and down as it grows hard again.

I grab her hips as I remove my cock from her hand and without warning I slam her down on my cock, I am balls deep inside her in one thrust. I planned on taking this slow, but my body has a mind of its own and I start guiding her up and down my cock. I feel my balls tighten as I feel her clench around my cock and I pull her close to me, because I want to mark her as we both come.

My tongue starts sucking on her marking spot as she starts sucking on mine and I lose control over my movements into her body as we both sink our canines in our marking spots. She clenches down on my cock as I push her over the edge and I feel every shot of cum leaving my cock.

After my breathing is back to normal again I tell Asilda about what happened after she told me where Umayza went on assignment and I promise her again that no one will hear from me that she was my source, that that is a secret I will take to my grave. "Will you come with us when we are going to see Ma? I want you to meet her and I want you to see where I grew up." I ask.

"I will follow you wherever you go, Orion. However, I think we need to tell the others I was your source, I don't want there to be secrets between you and your family. I will also tell Council-member Vivyanna, because I will resign from the Academy.

I want to settle down somewhere and start a family if you want to. Maybe we can ask Umayza if she would like it if we settle down where she and her Mates settle down, I can look after their Pups when they have them and they need to go on assignment." Asilda says.

Smiling I look down at her face and tell her we will start a family right now, I like the idea of having Pups of my own. A family to come home to after an assignment and I tell her what I have been thinking about concerning my future occupation.

"Ready to get started on our family." I say as I turn her on her stomach, I pull her ass in the air as I position myself behind her and she pushes herself on my rock-hard shaft. "Fuck, this feels so good." She moans as I grab her hips to hold her in place and I start pounding in and out of her pussy.

"Sweetheart, this is going to be hard and fast." I growl as Jasper pushes forward, he places a hand on her back to push her ass even further in the air and he shoves every inch of his cock as deep in her pussy as he can go. She screams in pleasure as he bottoms out, telling him to fuck her harder.

Jasper picks up the pace with every thrust into her pussy, he fucks her in long, even strokes as he leans forward gliding deeper inside her and at the same time he is torturing her clit with his fingers. He makes her come again around his cock as he still deep inside her and he roars as he empties his balls inside her pussy.

I pull her into my arms after I collapse on the bed beside her and I kiss the top of her head before I get out of bed, scooping her up to head for the bathroom. After taking her again in the shower we finally leave her room to search for Umayza and Dad.
