

Chapter 141

Explicit content

Alpha Talon's P.O.V.

I know that soon Alena will be entering my office all agitated. I send her to my Daughter's suite with a message even though I know they don't get a long at all.

I would go as far as saying that Alena hates her, she knows that I need a third Son for us to keep a high status among the Pack. She never cared much about the fact that I had a fated Mate, all she cared about was the status I brought her.

Alena knows that after my Daughter was born, I didn't give up immediately on my Mate. She knows I took her as often as I could, whether Bella wanted to or not and that is when she finally saw my true nature.

By the time my Daughter was seven years old, I gave up on having another child with my Mate. I started cheating on her, at first every now and then, but after a short time I stopped caring what anyone would say.

At first I would order She-wolves to my office that had become of age and when I found Alena, I thought I had found my way to stay in control of the Pack. Alena was more than willing to crawl in to my bed.

One day the Pack-doctor came to my office and informed me that my fated Mate was dying. He told me that my cheating was killing her slowly and he suggested that I stop my affairs, I just laughed at his face.

I knew that my Mate could feel it every time I slept with a She-wolf, but I doubted that it would kill her.

Bella's health went downhill after I found Alena and even that didn't stop me. Then one morning Aydan, our oldest Son, linked me and told me that Bella was in the infirmary, that she was dying.

After the Doctor declared her dead, I went straight to Alena and marked her as my cock was buried deep inside her.

Now a decade later she still has not conceived and the Pack-doctor has ran every test possible, but there is nothing wrong with either one of us. The doctor says we just have to be patient.

Then a knock on the door pulls me from my thoughts, I can smell it is Alena and she walks in before I answer her knock. She looks pissed as hell and I know it is because of my Daughter.

As she stops next to me, I get up and before she can say anything I bend her over my desk and with my claw I tear her clothes. With my foot I kick her legs apart and sink my cock in to her core. I slam in and out of her in a fast pace, she tries to slow me down but I am not having it.

After a few minutes she gives up, knowing that when I am in a foul mood I only take. As I look down my cock grows as I picture it sliding in and out of her ass and without warning I pull out of her.

She whimpers at the loss of my cock, but as soon as she realizes what I am about to do, she tries to move away. However I hold her down and start pushing my cock in to her ass. She squeals as I force the head in and that only presses me on further.

I force my cock in deeper and as I bottom out, she is screaming for me to stop. I pull back and just as she relaxes a little I slam back into her. I pick up my pace and fuck her ass as hard and fast as I can. I speed up even more as I feel my balls tighten and my cock starts jerking in her ass. I come hard and I love every second of it.

After I pull out I tell her to leave and I clean myself up.

Taliyah's P.O.V.

I walk around the first floor and take a look at the guest-rooms. Once I pick the rooms for Father's guests, I open up the windows to let the fresh air in.

I make sure I write down who will be in which room, Alpha Roger will be flanked by two of his warriors and his Beta will be on the opposite side of the hall, also flanked by two warriors.

I hear Alena exit my Father's office and I take a peak over the banister to see what kind of mood he is in. The look on her face tells me that he is in a foul mood and I decide to leave my questions to later.

I take the back stairs to the kitchen, knowing that I will avoid Alena that way. Walking in to the kitchen, I smell my Brother, Xandros and a smile forms around my lips.

He is the only one in my family that treats me normal and I hope that if anyone can answer my questions, it will be Xandros. But he is not there and I actually feel a little bit disappointed.

Seeing a friendly face after having to deal with Alena would have been nice.

Xandros' P.O.V.

I walk out of the kitchen and head to my room. I need to check on the bug, I planted in my Father's office, after I overheard a conversation between him and Alena, my Stepmother, the other day.

I was only able to hear a little, but it was enough to infuriate me and my Wolf. They had been talking about Taliyah and Alpha Roger, but I was unable to listen to the rest of it because one of our Warriors had linked me to come to the south border.

I hope that I can find out what it is that they were talking about. And I hope I can found out before it is too late.

I know Father dislikes Taliyah, even though it is not her fault she was born a girl.

I also know that he hopes that Alena will give him a Son soon, because he needs three Sons to be his successors. He hopes that it will ensure his control of the Pack.

He will be disappointed though, because I have no desire to become a Beta. Declining my position as Beta, will mean that my Cousins take over and that will only benefit the Pack.
