

## Chapter 89 Calliope

Calliope

I met Dolion after his first chosen Mate had died and he left his Pack for a few days to relief his pent up aggression. I own an underground club where males have the chance to do to a female whatever they want, as long as they survive.

Dolion had asked for a young petite female and the look on his face told me he was up to no good. I decided to watch his interactions with one of my slaves and I am still surprised he was able to turn me on, no one had ever been able to do that to me.

I watched as Dolion walked into the room, he locked eyes with the female and she knew she wouldn't like what was coming. She tried to get away from him, but with the door locked there was nowhere for her to go and it looked as if he enjoyed the chase.

The bulge in his pants became bigger the more she tried to get away from him and I couldn't tear my eyes from the scene in front of me. I never turn on the sound when I watch my clients with my slaves, but in this case I couldn't help myself.

I heard her scream the second he grabbed her arm and pushed her up against a wall. He grinded his hips against her and I heard him groan loudly at the sensation, making my own core soaking wet. He ripped her clothes off as he kept grinding against her.

He put one of his arms under her knee and with his other hand he opened his pants to get his cock out, which was huge by the way. He didn't warn her, he didn't say or do anything before he slammed his cock inside her and she screamed loudly at the intrusion.

He was so focused on his own relief that he didn't hear her begging, my eyes were glued to his massive cock moving in and out of her and I slipped my hand into my panties to give myself some relief while I kept watching him. It didn't take him long to come, he pulled out of her to shoot his load over her stomach and I came at the same time.

His cock was still rock-hard as he bent her over the back of a couch and slammed right back into her pussy. By not coming inside her his fucking kept hurting her and I saw a smirk on his face as she started begging once more, "Keep begging, Baby. I love it when they do that, it makes me even harder." He growled next to her ear.

This time when he came he shot his load it went all over her back and I tumbled over the edge with him, but I really got turned on when he told her he was going to use her for his favorite position. I watched him as he lined his cock up with her ass and she started begging the moment she realized what he was about to do.

I knew she had never been taken like that before and with the way he had been fucking her I knew she was in for a world of pain, but I wouldn't interfere as long as he let her breath. Hell, I wanted to watch him take her over and over again.

He pushed her ass further up in the air as he started pushing his cock against her backdoor and slowly her body gave up the fight against his intrusion. He roared the moment he bottomed out, he didn't give her time to catch her breath as he pulled back slowly and when only his head was still inside her he slowly pushed back in.

As I watched them I grabbed a sex toy from my drawer and started pleasuring myself again as I see him slowly fucking her ass. She begged him to stop, but he only leaned closer to her, "I am going to keep fucking your ass until I am satisfied, I will never come inside you and that means this will keep hurting.

Maybe I should ask for some toys to fill up your other holes and make you scream even more, Whore." He said as he kept moving in and out of her ass so damn slow. I was about to come again when he started fucking her ass real hard and we both came at the same time again.

He kept it up for another hour before she passed out from either pain or exhaustion and I sent one of my men to the room to ask him to join me in my office. I had multiple orgasms, but I was nowhere near satisfaction and I knew only he could give it to me.

I was still watching the female when Dolion walked into my office and he looked at the screens in front of me, "Enjoyed the show." He asked and when I turned my chair around he could see what I had been up to, while my eyes travel down his body to the bulge in his pants.

He didn't need me to tell him what I wanted, it was more than obvious to him and his pants were gone in seconds. He walked over to me and as he lifted me up he asked me, "How do you want it, Luna?" I told him any way he wanted to give it to me and as my back hit the wall I felt his cock pressing against my backdoor.

His cock pushing into my ass felt like he was ripping me wide open and the sting of sex-pain was driving me closer to the edge, "Fuck yes...that is it...more.." I moaned as he pushed his cock deeper inside me. I screamed out at the feel of this stinging, burning pleasure.

My Mate never wanted to give it to me this way and until I met Dolion I never felt completely satisfied. I heard him whisper next to my ear, "I am going to make you beg for my cock, I am going to make you beg to fuck you harder." I moaned as I felt myself get even wetter.

His huge cock was driving me crazy with lust as he kept moving in and out of me slowly and I knew he would get his wish soon, I was going to beg him to give it to me in any way he wanted. With one hand he held my hands above my head while his other hand was between our bodies and I knew he was going to give me what he didn't give her.

"Please, fuck me. Fuck me hard and deep, I want to feel all of you inside me." I said as his thumb pressed against my clit, he pressed down hard as his cock moved into my ass and he released the pressure as he moved out of my ass. He kept up the slow pace up and it was slowly driving me insane.

"Are you ready for me?" He whisper and all I could do was moan. He started ramming his cock into my ass and I screamed in pleasure and pain, the faster he moved the more I screamed. His cock pulling in and out of my ass was an amazing feeling and I never thought I would let a male have control over me.

"Do you want me to come inside of you, Luna?" He asked, but there were no coherent words coming from my mouth. He plunged deeper inside me, violently holding onto me as he used me for his own satisfaction and as his cock kept ramming into my ass I felt myself come.

He slammed harder into my ass, going as deep as he could go and a moment later I felt him spurt inside me and he shot every single splash into my ass. We slowly sank to the floor as we were catching our breath and within a few minutes he pushed me on my stomach, pushing his cock into my pussy from behind.

I loved the way he took control, how he knew what I wanted or needed without asking anything and every chance Dolion got to come to the club he took. We would always turn on the screens with sound as we were in my office and as he fucked me in whatever way he pleased we would listen to my slaves being used by my clients.

My Mate found out about Dolion after a few months and at first he was pissed off until I told him I would give up Dolion if he was willing to give me what I wanted from him. I taped one of Dolion's visits to show it to my Mate and to my surprise it turned him on, it was the first time I actually enjoyed sex with my Mate.

After that night everything changed between us, I didn't give Dolion up as my Mate told me not to and every time I came home smelling like Dolion my Mate fucked me six ways to Sunday. On his second visit Dolion told me why he came to the club the first time around and I was happy to know I would have a successor.

I wanted to kill Dolion when he told me he wanted her as his Mate, but he pointed out that he would be able to force her to do his bidding if they were mated. My Mate agreed with Dolion's idea and I finally told Dolion he could have Umayza as his chosen Mate, but he better make sure she would survive.

Dolion's Luna contacted me the day Umayza was taken to the Council and I learned quickly that Dolion was taken to St. Clairsville prison. I took action immediately by hiring a male I knew could shadow her and provide me with everything I wanted to know about my Granddaughter.

Dolion and his Luna were put to death and I still don't know what he told them. My investigator called me today to inform me that my Granddaughter was on her way to White Horn Pack for an assignment, this was the first time he was able to tell me where she was going and I terminated our contract immediately.

He did his job very well for nearly three years and even though he was never able to find out if she has the gift, I am very happy with the work he did for me. I knew Baylenn had died, but I was never able to find her body or anyone that might have come across her and neither did my investigator.
