

Chapter 94 Malik

Malik

My other half and I were laughing our asses off as we heard Calliope explain that they found Baylinn's Daughter and that they knew where she was going to be for the next few days. The second she mentioned she knew where she was I knew what she wanted from me.

In their eyes I am a ruthless male with no regard for life, they think I am a ruthless killer. If they only knew the truth about me, about who I really am and why I came to their Pack. I want to bring this Pack down and I will do whatever I have to do to destroy them.

To prove myself to Calliope I had to kill a female during my first week and I had asked Calliope if there was a certain way she wanted me to take care of the female. Calliope told me she didn't care how I did it as long as I showed her proof of the female's death.

I had asked Cedrick to set the female free before I told her to make a run for it and Calliope had laughed like a hyena as the female took off running. A few minutes after she had disappeared into the tree line I had taken off after her, the moment I was out of sight I had pulled out my phone to contact my Brother.

I told him what Calliope asked of me and what I needed him to do to make Calliope believe the female was dead. It only took me moments to find the female and I made sure her screams were heard throughout the Pack, by scaring the shit out of her over and over again.

My Brother helped me with faking her death and getting her to the Sanctuary where she would be safe. Calliope enjoyed the footage I showed her of the female's death and I have been giving her footage like that ever since, making her believe I am the ruthless killer she wants in her ranks.

I met Orion about five years ago when I had to kill another female for Calliope, but Orion walked in on our "slaughter" of the female and he has been a friend ever since. My Brother and Orion are the only two people alive that know that I have a secret I can't reveal to the world.

Keeping that a secret from Calliope has been tricky, but Orion had given me an idea on how to do that and even though I had hated the idea at first it turned out to be the best solution. Calliope would visit her best Warriors from time to time and it was never a social call.

Lucky for me Calliope had no problem with what I did to her and just thinking of my future Mate was enough to get my cock rock-hard. I still remember the first time she came to my room, she didn't beat around the bush and told me she expected me to fuck her.

I thought of my future Mate as she grabbed hold of my cock and she smiled widely as she felt it grow under her hand, she told me I could have her anyway I wanted. I bent her over the couch in my room as I lifted her skirt and without preparing her I pushed my cock into her ass.

I needed her to think I was ruthless in everything I did and this was the best way for me to accomplish that. I groaned as I imagined who I was fucking and I slammed into her harder and faster, every inch of my cock over and over again.

Because I wanted Calliope to think I was an asshole in every way, I made sure I got satisfied from our encounter and I made sure she was left with nothing but a throb between her legs. "If you want someone to make you come, you better look elsewhere." I had said as I pulled my pants back up.

After that she visited me from time to time, but not as often as she would visit other males within the Pack. I always make sure I get off, but I also make sure she never does and I know she hates me for it. Just as I know that she hates that she is unable to read my face.

If I ever showed her exactly how I feel about her and the rest of her Pack she will know immediately that I am not there for the reasons she thinks, being a part of that Pack is a means to an end and I can't wait for the day that I get to end Calliope and the rest of her family.

Calliope

Wenonah didn't react badly to the news I am not her biological Mother and I am surprised she didn't raise hell when I told her about Umayza, she even seemed pleased to know there was another female in our family with the gift. "Wenonah, I had suspected you would be mad as hell with what your Mother told you." Cedrick states.

"Dad, the two of you are the only parents I ever knew and I will always be grateful for the fact you raised me. As for Umayza, it is a blessing. I don't have to carry a Pup or take another Mate, I am free to do whatever the hell I want and I think I will start with that tonight.

Mom, which of the males we took with us will satisfy me the best?" Wenonah looks at me and I actually smile at her. Cedrick knows my libido is more than he can handle and he lets me do whatever I want with whomever I want. I give Wenonah the names of three males that will be able to handle her and her temper.

I squirm in my chair as I think of what Wenonah will be getting tonight and Cedrick asks me if I am in need of a cock as he places his hand on his own. His eyes fill with lust as I slowly take off my clothes, while I make my way over to the chair he is sitting on.

He has taken his pants and boxers off by the time I reach him and before I can straddle him he turns me around as he says, "I am going to enjoy that ass of yours, Calliope. I am going to make you scream as you come all around my cock."

He slowly pulls me down until I feel his cock press against my backdoor, I place my hands on his knees so he can hold his cock as he pulls me down even further. He pushed harder against my hole a few times before my body finally opened up for his cock and the sweet pain in my ass was driving me nuts.

He pulled me down even harder to push every inch of his cock into my ass, I screamed as his cock disappeared deeper into my body and the feeling of his cock locking us together is amazing. A knock on the door has me cussing, but Cedrick doesn't stop pushing his cock all the way inside me.

The door opens as Cedrick bottoms out and a young Warrior walks into the door as he closes the door behind him, Cedrick tells him to take his clothes off as he keeps pushing me up and down his cock. "I want you to fuck her pussy, while I fuck her ass. I want you to make her scream, don't take it easy on her." Cedrick growls.

His cock grows harder at Cedrick's words and I know I will be satisfied by the time the night is over. Cedrick pulls me against his chest as the Warrior pushes my legs as wide as he can, his cock twitching as he keeps looking at my core and I know it is glistening with my juices.

The Warrior steps between me legs as Cedrick bottoms out again and he keeps me in place as I see the Warrior's huge cock slide into my soaking wet pussy, the deeper he goes the fuller I feel. The moment he bottoms out Cedrick and the Warrior start pulling their cock's out, stretching my pussy to the limit.

At first they move slowly in and out of my body, but the heavier my breathing becomes the faster they start moving and after a few minutes they start slamming into my body harder and deeper. I scream as both of them start hammering my pussy and ass, neither one of them slowing down.

"Scream, Baby." Cedrick whispers near my ear, while he slams back into my ass and I scream again as the Warrior leans forward. His cock feels even bigger and I can see that his Wolf is right there with him, "Fuck, Luna. Your pussy feels so fucking good around my cock.

I am going to make you scream, I am going to come inside you and my Alpha will fill your ass with his cum." He groans and both of them lose control of their movements as they go faster and harder. I scream in pleasure and pain with both their cocks hammering my holes.

I feel both their cocks twitch before both of them start grunting, they slam their cocks deep into my body and I feel both of them shooting their load in my body as I fall over the edge myself. After the Warrior has pulled out of me he lifts me off Cedrick's cock to place me on the bed.

I am slowly coming down from my high as I feel Cedrick lay down next to me in the bed and he whispers next to my ear, "Maybe this one has succeeded." Before I hear his breathing even out and he drifts off to sleep. I stare at the ceiling as I think about his words.

I knew I would never give birth to the next gifted female, but I had hoped for Pups none the less. Unfortunately for me Cedrick can't procreate, but he knows I would like to have a Pup of my own and for that reason he let's me fuck every male in our Pack in the hope I will get pregnant.

If this Warrior manages to give me what I have wanted for years I will make sure he give me at least one more Pup, I will keep him close to me and I will tell him the truth.
