

AN EXPERT 301

Chapter 301: Other People's Disciple

Divine World, Myriad City, Wind Cloud Sect.

"Fellow disciples, today, our Wind Cloud Sect welcomes Elder Jun Bujian and his disciples. From today onwards, they are our brothers. Everyone, welcome them warmly."

In an instant, applause sounded.

Everyone cheered and celebrated for Jun Bujian and his disciples.

Shi Changlin and the others were also excited.

"Brothers, the Wind Cloud Sect's sect master said that he wants to hold a banquet for us. There will probably be a lot of good food. Those who haven't gone to the toilet, hurry over now."

Hearing their soft discussion, Jun Bujian's face darkened and he immediately communicated secretly with them.

"You idiots, today is the first day. Control yourselves. Do you want to be kicked out of the Wind Cloud Sect on the first day?"

"Elder Jun, what's wrong?"

Seeing Jun Bujian frown, the Wind Cloud Sect elder immediately could not help but be somewhat puzzled.

Jun Bujian coughed lightly and immediately replied with a smile,

"It's nothing. I just thought of the sadness I felt when I was wandering in the past."

"Sigh, that's right. The world only says that one has to suffer to be superior. However, how can the world know that the suffering of itinerant cultivators is not something humans can endure?"

"Hiss, Elder Feng, could it be that you're also...?"

Elder Feng nodded with a solemn expression.

"A long, long time ago, I was also an itinerant cultivator. Fortunately, the sect master took me in and allowed me to settle down in this Wind Cloud Sect and end my difficult days."

"Elder Jun, don't worry. Since you've come to the Wind Cloud Sect, treat the Wind Cloud Sect as your home. If you need anything, feel free to let me know. If I can help, I will definitely help."

Jun Bujian nodded and immediately said,

"Speaking of which, it just so happens that I have something to ask Elder Feng."

"It's fine. If Elder Jun has anything to ask, just ask."

"Alright, then I won't be polite. I want to ask if Elder Feng knows that there's a huge family in the Divine World called the Lu family? The strength of this family in the Divine World is probably extraordinary."

“Lu family?”

Elder Feng was immediately stunned.

It was strange. It could be said that he had dominated the Divine World for many years.

Although he was not powerful, his experience was still worthy of praise.

However, why had he never heard of any family called the Lu family?

Although there were many big families in the Divine World, most of the big factions were mainly sects.

In particular, the bigger the faction, the less likely it would be a family.

There weren't many top-notch families that were famous in the Divine World, right?

Moreover, even if there were a few top-notch families, there was no Lu family.

Could it be a legendary hidden family? Perhaps he really did not know.

However, if that was the case, then he might really have to treat Jun Bujian's background seriously. It was very likely that his background was not simple!

“This... I'm inexperienced and really don't know what kind of family this Lu family is. Elder Jun, please don't blame me.”

“Elder Feng, you're too polite. I was just casually asking.”

Although he said this, he was still shocked.

Was his master's family that impressive?

It was actually a top-notch family that even Elder Feng did not know about?

It was really too terrifying.

However, thinking about it carefully, it seemed to make sense.

After all, divine artifacts, divine weapons, divine techniques, and the like were especially precious in the Divine World. However, his master had so many of them.

The Lu family was definitely not a simple family.

Jun Bujian's mood improved a lot.

Their master's family was awesome. To them, this was a huge good thing.

Hehehe... It meant that they would be able to enjoy their lives in the future.

Wonderful.

At this moment, the banquet had already begun. The disciples that had yet to be seen ate slowly and did not dare to eat as much as they had in the Sword Demon Sect.

Jun Bujian was right. They had to leave a good impression on the first day.

Otherwise, it would not be worth it if they were chased away.

They had to learn to take things slow.

Seeing the disciples Jun Bujian brought eating slowly and being extremely refined, Elder Feng was shocked again.

Even his disciples had such an aura. Looks like this guy was really not an ordinary person.

He looked at the other disciples.

Forget it, they were even inferior to Elder Jun's disciples, who were much more refined.

Looks like in the future, he would have to put in a good word for Elder Jun and the others to build a good relationship in advance.

...

On the other side, Lu Xiaoran's avatar also arrived at a nearby city.

In the past few days, he had killed many God Realm cultivators who had bad intentions.

Unfortunately, he had yet to find any of his disciples.

Helpless, he could only change his direction and find the Lu family first.

He did not expect to find it so quickly.

...

"You said that the Lu family is one of the seven great families here?"

"That's right. Who doesn't know about the Lu family? It's one of the seven great families of Heaven Water City. The seven great families can be said to be the face of Heaven Water City."

"Hiss ~! Is it that powerful?"

The avatar suddenly began to be excited.

Heavens, the Lu family was actually so impressive?

Now, as long as the main body entered the Lu family, it was equivalent to finding an organization. In the future, he could eat and drink well in the Lu family and cultivate in peace. He did not have to be afraid of anyone.

After he finished asking his questions, Lu Xiaoran's avatar immediately transmitted this information. In this way, the main body in the cave would now think of a way to find him.

Perfect.

At this moment, the surrounding people had already begun to discuss the other sects.

“Speaking of which, the Taiyi Sword Dao and the Heaven Saber Pavilion have taken in two extremely talented disciples in the past two years!”

“Who doesn’t know? This matter has almost spread everywhere. I heard that these two are so powerful in the Sword Dao and Saber Dao that it makes one’s heart palpitate. Now, they have been conferred the title of divine sons by the two sects!”

“Heavens, they’re already divine sons after just being recruited? Isn’t this too awesome?”

“Isn’t that because of their talent? I heard that the disciple of the Taiyi Sword Sect has an extremely fast cultivation speed. In less than two years, he increased from the second level of the God Realm to the ninth level of the God Realm. I think the one from the Heaven Saber Pavilion is also not bad. He should also be near this cultivation level.”

Lu Xiaoran’s avatar could not help but sigh.

Indeed, good disciples all belonged to other people.

Look at their talent. They were simply awesome!

When his disciples were in the mortal world, their cultivation were still be presentable. Now that they had come to the Divine World, their talent should be insufficient.

Thinking of this, he suddenly sensed something and immediately could not help but tremble.

“The main body’s cultivation actually increased by two realm levels? I’m now at the fourth level of the God Slaying Realm? Tsk tsk, this is really too powerful! As expected of the main body, the speed of this cultivation increase is really awesome.”

...

At the same time, in the same cave.

Through the understanding of his avatar, Lu Xiaoran already gained some confidence.

There was basically not much difference between the Divine World and the lower realm.

However, his luck was not very good.

Therefore, every time he wanted to leave the mountain, he would encounter someone fighting.

It was also because of this that he thought that this world was too dangerous and did not step out of the cave again and again.

Now, after such a long period of cultivation, he had already become a fourth level God Slaying Realm cultivator.

It was one realm higher than an ordinary True God Realm expert.

At the very least, if he encountered those God Realm small fries in the future, he would not have to be too cautious and not dare to attack.

He packed his treasures and tried to communicate with Wang Cai.

“Wang Cai, are you there? Did you advance successfully? We’re leaving.”

“Wang Cai, come out quickly. You’ve been gone for more than two years. It’s time for you to advance, right?”

Wang Cai had the same strength as him. It would be best if it could come out.

At the very least, it could become his backup plan. If he encountered any enemies, they could also work together.

This was equivalent to giving himself another life-saving method.

After shouting several times, Wang Cai still did not appear. He could only choose to give up.

Then, he left the cave with his resources and arrived at the peak of the mountain again.

Just as he arrived at the peak of the mountain, thunder sounded in the distance again. Several figures arrived at the peak of the mountain and fought in the clouds.

“Li Cuifang, you shameless bastard. You actually seduced my wife, your sister-in-law. Do you think I won’t kill you?”

As soon as the other party finished speaking, a golden arrow suddenly shot out from the top of the mountain below, transforming into a dazzling light that instantly arrived in the sky.

Before anyone could react, it directly exploded.

The terrifying pressure condensed on it made one’s heart palpitate. The God Realm experts did not even have the chance to react before they were blasted into ashes on the spot.

On the mountaintop, Lu Xiaoran retracted his divine artifact, the Sun Shooting Divine Bow, and spat fiercely at the ground.

“You deserve it!”

Generally speaking, he had always been a more “ignoble” person and was unwilling to casually provoke others, even if the other party was only an insignificant God Realm cultivator.

If possible, he would not involve too many people.

However, today, he really could not help it.

These God Realm experts were simply like a group of idiots. As long as he flew to the foot of the mountain, a group of God Realm experts would always appear and fight at the top of the mountain. They were simply like a group of lunatics.

Since they all liked to fight so much, Lu Xiaoran might as well send them down to hell to fight.

Immediately after, Lu Xiaoran quickly left this area and began the journey to find the Lu family.

Just as he left, the air distorted. Another golden door opened in the sky.

It was a door to the Divine World that connected to the lower realm.

Chapter 302: 999 Sunshine Project

“Two years! An entire two years. I, Han Zhen, have finally become a god! Hahahaha...”

It was unknown how Han Zhen survived these past two years.

Because of that Primordial Supreme Ranking, he was unable to eat well!

Hiding in the cave, he felt as if countless eyes were staring at him.

In the pain and suffering, he gritted his teeth and cultivated diligently. Many times, he almost went crazy from anxiety.

After experiencing more than two years of bitter suffering, he had finally become a god!

Ahahaha...

“This is already the Divine World. There’s definitely no more that damn Primordial Supreme Ranking. I can live in peace again!”

The corner of Han Zhen’s mouth curled up slightly as he prepared to explore the profundity of this world.

Therefore, he flew to the peak of the mountain and prepared to find a nearby town to understand the environment of the Divine World.

However, just as he stepped onto the hill, a few streams of light suddenly flew over from afar. Their auras were extremely powerful, and each of them was not inferior to a God Realm expert.

“Chen Baotang, you traitor. I’ve treated you well, but you actually dared to collude with outsiders to snatch my family property. Do you really think I’m easy to bully? Today, I’ll kill you!”

In the next moment, light flashed in the sky. A powerful energy fluctuation made the entire cloud layer tremble.

Soon, with a scream, a few corpses fell beside Han Zhen and turned into meat patties. The golden blood of the God Realm expert splattered on Han Zhen’s face.

Han Zhen was silent for a moment before slowly climbing back down the mountain.

“Damn, is this Divine World so dangerous? I think I should find a cave on the spot and cultivate first. I’ll only start exploring after my cultivation increases. After all, I’m really too weak now.”

Han Zhen arrived at the foot of the mountain and quickly discovered a cave.

“Damn, there’s actually such a good cave here? The entrance is small but the interior is wide. It looks very small from the outside, but after entering, it’s a different world! I feel like I’m like a small quail inside.”

“However, it has to be said that this hole is really to my liking. Eh, there’s an array formation here? Damn, the skills of the person who set up this array formation are actually so much better than mine?”

I'm lucky. This must be a cave and array formation specially left behind by a senior expert. Hahahaha... I'm rich. I'm indeed blessed with peerless luck! Who in the world can compare to me?"

In the next moment, Han Zhen immediately placed the spirit stones on the array formation and began to cultivate in seclusion.

Although he only had top-grade spirit stones, it was fine. It was just that the effect of the array formation was weaker.

However, this was still the Divine World's array formation. It was impossible to break it in a short period of time.

...

Divine World, Ancient Sacred Land.

This was a paradise for divine beasts. Almost all the divine beasts in the Divine World were gathered here.

At this moment, hundreds of divine beasts were squatting on a wide grass in the Ancient Sacred Land. In front of them floated a man giving a speech.

"In our human race, there has always been a word that leads the human race forward. This word is 'dream'. In all the living things in the world, only dreams can't be disappointed."

"Humans were born from their mothers and so were demons.

"Therefore, demons are also qualified to have dreams.

"Why should demons be stepped on by humans? It had to be known that several periods ago, demons had dominated the world!

"Everyone, please take a look at our Black Tortoise demon friend. It was once a weak and helpless turtle that almost became dinner for a human. Ever since it joined us, it has advanced rapidly on the path of cultivation and is now a powerful fifth level God Realm divine beast.

"This is simply a rare opportunity that cannot be missed.

"Join our 999 Sunshine Project. We'll help you defy the heavens and change your fate. What are you waiting for? You deserve to be promoted from a demon beast to a divine beast!"

"Roar!"

Clang!

After the speech, hundreds of divine beasts roared with monstrous auras.

The man took the opportunity to explain, "Everyone, calm down. If you want to join us, please line up. Every demon beast only needs to contribute a drop of blood essence and a wisp of soul essence. You don't need to give us natural treasures. Our services all free! We don't want money!"

Under the man's persuasion, the divine beasts went forward and took out a drop of their blood essence and their divine souls.

Then, the man absorbed all the blood essence and divine soul into his body.

"Beast Control Divine Art, refine it!"

The moment he began to refine it, all the divine beasts present instantly reacted and began to scream on the spot.

"Roar!"

Unfortunately, it was already too late.

Under the suppression of the Beast Control Divine Art, the hundreds of divine beasts finally became the man's demon pets.

At this moment, he wiped the cold sweat from his forehead and heaved a sigh of relief.

"Hah! It's finally done. I'm so tired. Fortunately, the Beast Control Divine Art Master gave me is at the divine technique level. Otherwise, it would really be difficult for me to suppress these divine beasts."

Su Lingwu was also quite unlucky.

Most people who came to the Divine World basically transmigrated to the territory of cultivators.

He had been especially tragic. He was teleported to the Ancient Sacred Land with his master's divine beast servants.

Of course, it could not be said to be a godforsaken place. There were still some natural treasures, divine crystals, and even divine crystal mines here.

However, the problem was that this was the lair of a divine beast. It was not an exaggeration to say that if one went to the washroom to grab a leaf, it would probably belong to a tree demon.

This situation was not a big problem for the divine beasts like the Black Tortoise and the Fire Phoenix. However, it was a headache for Su Lingwu.

This was because he was a human.

Humans were the natural enemies of demon beasts!

As long as he was seen by demon beasts, he would definitely be killed.

In this situation, it was already not bad for him to stay alive. How could he still cultivate?

Dream on!

Although he had also relied on the protection of divine beasts like the Black Tortoise and the Fire Phoenix to survive, if not for him being too close to the Black Tortoise and the Fire Phoenix, he would not have ended up in this state.

Perhaps because he was forced into a corner or for some other reason, Su Lingwu thought of a good idea.

He would not cultivate it for the time being and instead cultivate the Beast Control Divine Art his master had taught him.

Then, he would use the Beast Control Divine Art to fool these divine beasts.

In the beginning, he would start by coaxing low-level demon beasts. Then, he would use those low-level demon beasts to publicize himself and then lure high-level divine beasts over step by step.

In this way, Su Lingwu expanded his sphere of influence step by step.

In order to further deceive the divine beasts, he had also specially invented a series of words.

For example, the 999 Sunshine Project.

Why was it called the 999 Sunshine Project? This was because according to legend, the emperors of demon beasts, Dijun and Taiyi, were both three-legged Golden Crows. They represented the suns.

By naming it the Sunshine Project, he would naturally be recognized by the demon beasts and divine beasts.

As for 999, that was because he was ranked ninth among all of his master's disciples.

With the help of the Beast Control Divine Art, not only had Su Lingwu's strength expanded step by step, but he had also used the Beast Control Divine Art to control demon beasts and divine beasts to help him find the natural treasures and divine crystal mines in the Ancient Sacred Land to nourish himself and cultivate the Battle God Eight Desolates. His cultivation had actually improved at a godly speed and had already broken through to the third level of the True God Realm.

"I wonder how Master, Senior Brother, and Senior Sister are doing? There aren't any sects or any humans in the Ancient Sacred Land. I cultivate by myself. My cultivation level must be the worst among my senior brothers and sisters, right?"

No, I have to cultivate harder. Otherwise, how can I face Master? I've decided. I'll recruit 100,000 divine beasts to help me cultivate first!"

...

On Lu Xiaoran's side, after leaving, he quickly found his avatar. Then, he let his avatar enter the Mountain and River State Painting and began to cultivate.

He followed his own clues to find the Lu family.

Elder Tianji had once said that as long as he injected a drop of blood essence into the token near the Lu family, he could attract the people of the Lu family to save him.

He did not know if it was true.

At this moment, he was sitting in a carriage of a convoy and following the convoy to the vicinity of Tianshui City where the Lu family was located.

This kind of convoy was driven by demon beasts and was several times faster than Earth's technology. It was a relatively popular basic vehicle in the Divine World.

Usually, they had a fixed route and were guarded by high-level cultivators. Moreover, the price was appropriate and the number of passengers was very impressive.

Lu Xiaoran sat in his carriage and did not dare to be too careless. He opened his divine sense fully and paid attention to the movements in front and behind to prevent any accidents.

The conversation in the other carriages continuously entered his ears through his divine sense.

"Have you heard? A few days ago, a huge phoenix phantom appeared in the southern sky."

"That phoenix phantom blotted out the sky and caused all the beasts to worship it. That scene was really legendary!"

"Not only that, I heard that a shocking roar sounded from the East Demon Abyss. Apparently, someone saw a huge human-shaped phantom in the Demon Abyss. It had a long tail and held a high iron rod. It waved it wantonly and disturbed the entire Demon Abyss!"

"I heard that many demon beasts in the Demon Abyss have escaped because of fear. The few large sects near the Demon Abyss have already sent troops to encircle and suppress them."

"This is nothing. I heard that in the past two years, a group of lunatics has appeared in our Divine World. They specialize in digging the tombs of the ancestors of the various large sects and the experts of the Divine World who have died. They don't even let off the dead. They're really crazy!"

"Also, I heard that the Ancient Sacred Land is not too safe. There are often divine beasts gathering restlessly, and they travel in groups. The roars of the divine beasts could constantly be heard."

"Sigh! I wonder what's going on in the Divine World these two years. It's getting more and more unstable. Such things have never happened in the Divine World in the past!"

Hearing this, Lu Xiaoran's brows fell into a deep dilemma.

Chapter 303: Wang Cai Awakens

The Divine World was still too dangerous.

It was either the big shots here causing trouble or the experts there.

Any one of them was a top-notch expert.

The kind that was impossible to defeat.

How tragic.

However, there was nothing they could do. Thinking about it carefully, they had just ascended from the lower realm. How could they compare to the natives of the Divine World?

As the saying went, why should the hard work of the other party's ancestors be surpassed by two years of bitter cultivation?

He could only pray that his disciples would be more obedient and not show off. It was best if they could find a place to cultivate obediently.

It was best if his disciples did not provoke any trouble.

Although they could be revived with the Body Modeling Mark after dying, because their cultivation was too high, the revival time would be very long. How much cultivation time would be wasted in such a long time?

After all, the few dead demon beasts and the second-generation disciples of the Nameless Sect in the Body Modeling Mark had yet to completely repair their bodies.

Also, Wang Cai had taken too long to advance this time, right?

Why had it not successfully advanced until now?

Lu Xiaoran estimated that his disciples had all cultivated for more than two years now and would at least increase their cultivation by a lot.

He could also open many gift bags. If he could obtain one or two more soul fragments and turn the Body Modeling Mark into the profound level, it would be perfect.

Just as Lu Xiaoran was thinking, an explosion suddenly sounded from in front of the caravan.

Immediately after, the carriage Lu Xiaoran was in began to tremble rapidly.

“Demon beast, there’s a demon beast!”

Someone shouted and the surroundings quickly began to panic.

Lu Xiaoran: “???”

“Um, I just left the mountain! How could something happen at this moment? Is there a mistake? Heavens, are you doing this on purpose?”

Before Lu Xiaoran arrived, he had heard that the chances of something happening to such a convoy were equivalent to a plane crashing in his previous life. Basically, nothing would happen.

Why did such a thing have to happen to him?

However, although he complained, Lu Xiaoran still teleported out of the carriage at the fastest speed.

At this moment, the entire convoy had already been surrounded by a group of wolf demons.

Lu Xiaoran swept his gaze over. Most of the wolf demons were equivalent to Martial Monarch Realm experts in the lower realm. There were a few stronger alpha wolves, and their strength was at the seventh or eighth level of the God Realm.

In the forest behind them, an extremely powerful aura was hidden. Its cultivation was probably at the fifth level of the True God Realm.

It should be the leader of the pack of wolves.

Although the leader of the wolves had not appeared, these wolves' attacks were extremely orderly. It seemed to be an attack formation.

Array formations were not only built on the ground. Some demons or humans could also use some array formations to fight together.

Because of the attack formation, the true combat strength the wolves could unleash had already far exceeded their basic combat strength.

Lu Xiaoran swept his gaze over the crowd. The humans were basically at a disadvantage. In a few breaths, many of them had died.

This made him frown slightly.

These wolf demons had come with huge hatred. Clearly, they were not here to eat humans.

Lu Xiaoran swept his divine sense and found the reason.

There was an entire carriage of wolf cubs imprisoned there.

At this moment, Lu Xiaoran understood everything.

It seemed that even after having cultivated to the God Realm, humans could not change their essence.

However, Lu Xiaoran did not want to complain too much because he had also done many bad things.

Since it was someone else's revenge, there was no need for him to get involved and be a saint.

As usual, he escaped.

Lu Xiaoran disappeared from his spot and arrived at a huge mountain 50 kilometers away.

Since there were no more wolves here, he could relax a lot.

However, at this moment, a voice suddenly sounded in Lu Xiaoran's ear.

"Master, Master, did you miss me?"

Lu Xiaoran's eyes lit up, but he quickly regained his calm.

This Wang Cai always wanted to take advantage of him. Thus, Lu Xiaoran could not be too good to it. Otherwise, it would not know what was good for it.

Therefore, Lu Xiaoran only nodded calmly.

"Yes, I suppose."

Wang Cai : "..."

"Master, is it really good for you to act like this? Other hosts call the system daddy, but you actually think of yourself as my daddy."

"You've never called me Daddy either."

“Should I also call you darling?”

Lu Xiaoran :” ...”

“I just realized that you actually know a lot.”

“It’s ordinary. After all, an existence of my level still knows a little about the Earth in the multiverse.”

Lu Xiaoran suddenly narrowed his eyes.

“An existence of your level? You’ve recovered a portion of your memories again? You seem to be very impressive. Who are you?”

“Master, can you be like a normal man and not casually change the topic at such a time? The speed at which you change the topic is simply ridiculous.”

“Stop talking nonsense and get to the point.”

“Alright, I haven’t recovered a lot of memories. However, I know that I came from the top of the 3,000 worlds. I should be at the level where I am able to look down on the heavens.”

“Speak normally.”

“In short, I’m an existence similar to the Dao, but I don’t belong to any Dao in this world. I can unleash strength with the same attributes as the 3,000 Great Dao. However, I’m not strong enough to resist them.”

Lu Xiaoran held his chin and pondered.

“I’ve read about it on Earth in the past. There’s a saying that the heavens give birth to 50 Daos but one escape. Could it be that you’re one of the Daos who escaped?”

“I don’t think so. After all, I’ve already existed since that ancient time. At that time, I was living in chaos and often looked up to Master’s majestic figure. Later, when Master fought a powerful enemy, I was unable to resist and was sent flying.

“Later, when I woke up again, I was gathered into a jade disc by an old man and the other Great Daos. I took the opportunity to escape and wandered in the void for tens of thousands of years. Later, I sensed a powerful suction force and was absorbed into Master’s body.

“Oh right, that jade disc seems to have been stolen from Master by Lige. ”

Although Wang Cai said it very casually, Lu Xiaoran’s expression was extremely solemn.

Wang Cai had lost its memories, so it was difficult for it to determine its identity. However, why did this sound so believable.

Old man, jade disc, countless Great Dao...

Could it be that Wang Cai was really the Dao that escaped?

And that jade plate was his...

Could it be?

In that case, wouldn't that make him that person?

Soon, Lu Xiaoran shook his head fiercely.

How was that possible?

What a joke!

Although Lu Xiaoran was indeed talented and smart and was somewhat handsome, how could a small fry like him be an existence of that level?

No, there must be a mistake.

"Let's not talk about this for now. Since you're already out, can you use Soul Guidance to attract the disciples?"

"I'm afraid that's a little difficult. The Divine World is too big. It's more than double the size of the lower realm. With my current strength, it's not enough to completely cover such a wide area. Moreover, when I was in the lower realm, the range of my soul attraction could not reach the entire world, let alone the Divine World."

Lu Xiaoran could not help but be somewhat depressed.

"Then, give me the information panels of the disciples first. I'll see how much the disciples have cultivated first."

"No."

"Why?"

"They're too far away."

The air was silent for a while. Wang Cai also seemed to feel guilty.

"However, Master, although they're far away, I can gather some long-range information, such as the current situation of the disciples."

"Then let me take a look."

"Alright, the information is being generated."

Some information quickly appeared in Lu Xiaoran's mind.

Your disciple, Yun Lige, is being pursued by the Cloud Thunder Sect.

Your disciple, Yun Lige, is being pursued by the Overlord Sect.

Your disciple, Yun Lige, is being pursued by the Heavenly South Pavilion.

Your disciple, Yun Lige, is being pursued by the Taiyi Mountain.

Your disciple, Su Lingwu, has been attacked by a divine beast.

Your disciple, Yun Lige, is being pursued by the Asura Sect.

Your disciple, Yun Lige, is being pursued by the Heaven God Sect.

Your disciple, Yun Lige...

Lu Xiaoran :” ...”

Damn, other than Su Lingwu, who had been attacked by a divine beast, all the information was about Yun Lige being pursued.

Had Lige stirred up a hornet’s nest? Or was he possessed by a god of misfortune? Or had he exposed his enviable resources to others?

He was actually being pursued by so many sects.

It had to be known that almost all the other disciples were safe and sound.

“What’s wrong with this brat?”

“I don’t know, but since I can create information according to a portion of the disciples’ senses, the information will definitely be accurate. I just don’t know what Yun Lige did to make everyone furious.”

However, Master, Lige is actually also very awesome. It’s already not bad for him to not die after being pursued by so many sects. ”

Lu Xiaoran rubbed his temples.

“Forget it. Han Zhen is also often pursued, but that doesn’t mean his cultivation is powerful enough. Looks like this information is not very useful. Can you give me a gift bag or something? Can I use the gift bag now?”

“Of course. Although I can’t determine the current cultivation level of the disciples, I can roughly estimate how much the disciples’ cultivation increased according to the increase in Master’s cultivation. Therefore, I can roughly generate a few gift bags for Master.

“If I make a mistake in my judgment, I can give Master more or take back a portion of the gift bags later. ”

Lu Xiaoran :” ...”

Wang Cai could even take back the gift bag.

Was there a mistake?

Before he could complain, Wang Cai’s gift bag had already been delivered.

There were a total of 67 small gift bags and 2 big gift bags.

Lu Xiaoran shook his head and shook away the chaotic thoughts in his heart. He decided to open some gift bags first.

Chapter 304: Does the Lu Family... Not Want Me Anymore?

Profound Soul x3.

Aiyo, not bad. He had already obtained three profound souls. In this way, he could increase several pieces of equipment to the profound level.

Top-grade divine pill, High Clarity Limitless Pill x1000.

The High Clarity Limitless Pill was a top-grade auxiliary medicinal pill that could be used to increase one's cultivation speed. There was no limit to its use.

This was also not bad. What he needed now was to increase his strength. With this medicinal pill, he could also increase his cultivation a little more in a short period of time.

Every little increase in strength would help to ensure his life and safety.

Divine artifact, Purple Gold Bowl x1.

Profound weapon, Vajra Bodhi x1.

Lu Xiaoran felt somewhat strange. If he remembered correctly, the divine artifact he had previously obtained seemed to be called the Bodhi Bead.

The Bodhi Bead was only a divine artifact. The Vajra Bodhi was only a string of Bodhi Beads but was actually a profound weapon?

Divine artifact Azure Dragon Cauldron x1.

Divine Technique Dragon Four Seas x1.

The Dragon Four Seas was a large-scale killing move that expanded one's attack range without reducing combat strength.

Divine Technique Eight Directions Thunder God x1!

The Eight Directions Thunder God used the power of lightning to seal an area of space and time to assist in the attack of the ultimate profound-level cultivation technique!

Divine artifact, Iron Blood Pagoda x1.

The Iron Blood Pagoda seemed to be similar to the Phoenix Perching Parasol Mark. They were both Dharma treasures like divine seals.

However, the Iron Blood Pagoda seemed to be much stronger than the Phoenix Perching Parasol Mark.

This was because it was a three dimensional brick.

In this form, if he used a side attack or a sharp attack, Lu Xiaoran felt that scientifically, the attack power should be multiplied and could create critical damage!

The Phoenix Perching Parasol Mark could not do this.

Moreover, the Phoenix Perching Parasol Mark had already been given to Ji Wuxia when they came to the Divine World.

It just so happened that he had obtained such a divine weapon now. It could be considered to have made up for his current shortcoming.

Next were some divine pills and divine artifact armor.

Other than that, he had also obtained more than ten soul fragments that could allow him to upgrade his divine artifact or divine technique to the profound level.

With so many good things, Lu Xiaoran finally heaved a sigh of relief.

He now had a direction for his subsequent cultivation.

Just as he was about to continue forward, he suddenly saw several streams of light flying over quickly.

Lu Xiaoran swept his divine sense and saw that it seemed to be the people from the convoy.

This was because he could clearly sense that not only were a few of them covered in blood, but there were also a few wolves chasing behind them.

They originally did not want to provoke trouble, but they also saw Lu Xiaoran.

After being slightly shocked, the few of them immediately shouted,

“Fellow Daoist, please help us. If we can escape, our convoy team will definitely reward you heavily.”

Lu Xiaoran could not help but frown, his expression somewhat displeased.

If not for this convoy team, they would not have been surrounded by the wolves.

Not only had the other party caused the deaths of so many passengers, but the other party had even brought the wolves here and implicated him.

How shameless were they?

Sensing that their cultivation levels were not very powerful, Lu Xiaoran did not waste his breath. He took out the Xuanyuan Sword and circulated the Primordial Chaos Emperor Scripture with all his strength.

The combination of a divine artifact and a divine technique increased Lu Xiaoran’s attack by several times.

Everyone’s expressions suddenly changed. Was that... a divine artifact?

What a joke!

Even if the other party’s cultivation was higher than theirs and he had already reached the God Slaying Realm, he shouldn’t have a divine artifact, right?

Even in the Divine World, divine artifacts were weapons that only those super experts had the chance to use!

However, they no longer had the chance to think about this problem. This was because when Lu Xiaoran's sword beam landed, an invincible force instantly shattered their bodies and crushed them into dust.

Because the speed of the attack was too fast, the few wolves were already swept into it and turned to ashes before they could react.

After dealing with these people and the wolf pack, Lu Xiaoran quickly left the spot.

The next second after he left, a silver light flashed. Then, a huge Moonhowl Silver Wolf appeared.

Sensing the aura of the wolves mixed in the air, it immediately understood that its subordinates and the descendants of the wolf pack had been killed.

This made it roar angrily at the sky. Its wolf roar shook the heavens and the earth, causing several powerful auras in the mountain to respond.

Lu Xiaoran naturally heard this wolf howl, but he did not care much.

This was only a group of wolf demons who wanted to find their children. There was nothing wrong with this.

Most importantly, they did not know who he was at all.

However, the aura emitted by the demon experts in the mountain made him vaguely feel uneasy.

This was because he had cultivated the Beast Control Divine Art. Although he could only understand the language of his demon pets, he could more or less understand a little of the meaning.

These demon beasts were responding to the wolf leader. The leader had instructed them to kill without mercy if they discovered any humans!

He was really unlucky. His first convoy experience in the Divine World had been ruined.

However, Lu Xiaoran was not too worried. This was because according to the map others had given him, this mountain was already not far from the Lu family.

According to Elder Tianji, as long as he arrived near the Lu family and took out the token to activate it with his blood essence, he could summon the experts of the Lu family to find him.

Lu Xiaoran was very cautious. He first found a small cave and set up an array formation. He scattered some demon beast urine before taking out the token in the cave and dripping a drop of blood essence.

The moment the blood essence entered the token, the token emitted an extremely powerful fluctuation. Then, it spread in a direction, as if it was transmitting a frequency signal.

"Not bad. Since the signal can be sent, there shouldn't be a problem. The Lu family should be sending people to pick me up soon."

He was in a good mood.

Taking advantage of this opportunity, Lu Xiaoran began to cultivate the cultivation technique he had just obtained. Then, he increased the Xuanyuan Sword, the Kunlun Sword, and so on to the profound level.

There was also the Azure Thearch Longevity Art and a few other very good life-saving techniques. They had all been upgraded to the profound level by Lu Xiaoran.

Soon, a month passed.

Although Lu Xiaoran did not cultivate much, with the help of his disciples, his cultivation had also reached the fifth level of the God Slaying Realm.

As for the legendary Lu family...

No one came.

This made Lu Xiaoran somewhat puzzled.

What the hell was going on?

Could it be that the Lu family was too far away from here? Was that why they did not receive the signal?

Or perhaps they had received the signal but chose not to come?

Forget it, he would wait a little longer.

Soon, another month passed. Lu Xiaoran's cultivation increased by another realm level, reaching the sixth level of the God Slaying Realm.

The people from the Lu family still did not come.

Lu Xiaoran began to feel somewhat sad. Could it be that... the Lu family did not want him anymore?

Thinking about it carefully, he was only an ordinary person. The other party had never seen him before and did not know what talent he had.

It was also very normal for them not to look for him.

It was only normal.

However, Lu Xiaoran did not know what was going on either. It was not good for him to rashly guess their reasons.

Forget it. Perhaps when he reached the seventh level of the God Slaying Realm, they would come.

A month later...

Could it be that they would only come after he reached the eighth level of the God Slaying Realm?

A month later...

Eighth level...

Ninth level...

Tenth level...

Lu Xiaoran completely fell into seclusion.

Did the Lu family really not want him anymore?

It had been a few months, but no one had come to pick him up. He had already cultivated to the tenth level of the God Slaying Realm!

Could it be that the Lu family wanted to wait for him to cultivate to the God Monarch Realm before coming?

Then why would he still need to look for the Lu family?

Couldn't he just find a corner and live there until the end of time?

...

At the same time, outside the Ten Thousand Mountains...

Several human cultivators in white robes jumped in anger.

"Damn, this brat! Why did he have to run to this Ten Thousand Mountains? There are demon beasts everywhere here. Just the small leaders alone are more than a hundred. The weakest among them is at the True God Realm, and the strongest is even at the God Slaying Realm."

"That's right. If we had known earlier, we would have gotten those elders in the family to come and find him. Why would we juniors have to be stuck here?"

"What makes me the most angry is that during this period of time, for some reason, the demon beasts in the Ten Thousand Mountains seem to have been injected with chicken blood. They kill everyone they see. They will immediately start hunting once they smell a trace of human aura. What grudge do we have with them? What grudge?"

As soon as he finished speaking, another low roar sounded from the forest.

Their expressions instantly changed.

"Damn, here we go again! Run!"

...

On the mountain, Lu Xiaoran was somewhat sad.

He could not be bothered to cultivate this month and did not move a single finger. However, his cultivation still increased.

He had broken through to the God Slaying Realm and reached the God Creation Realm!

The cultivation divisions in the Divine World were very logical.

A True God Realm expert was a further evolution of the God Realm. Their lifespan could already exceed tens of thousands of years. If they were really severely injured, it was also enough for them to slowly recover. It could be said that they had already indirectly reached a level where they would not die easily.

A God Slaying Realm expert was an existence that had comprehended the true intent of a god and could easily kill True God Realm experts. It was an existence that surpassed the God Realm and the True God Realm. It was an expert that was enough to rule over the life of a God Realm expert!

As for the God Creation Realm, they could already establish their own small world, similar to the Mountain and River State Painting.

In this small world, they could not only take in the things they wanted to take in, but they could also use them to fight.

It was even to the extent that after encountering enemies, one could even sneak into one's small world to escape. It could be said to be a necessary tool for killing and robbing.

It was said that after one's cultivation increased again, if one could reach the legendary God Production Realm, they could even create a species in their small world.

Of course, what could be created depended on the specific strength and cultivation. For example...

Chapter 305: The Lu Family Is Actually So Profound?

An ordinary God Production Realm expert could only create one flower and one grass.

The experts above the God Production Realm could even create a true life with flesh and blood.

Lu Xiaoran knew that he could not underestimate this bit of creation.

This was because this creation was independent from the Great Dao and was not tainted by any negative karma.

Such a flower or a grass could even kill cultivators below the God Creation Realm.

However, he had not reached that realm yet, so there was naturally no need to think too much. He had only just reached the God Creation Realm.

He had only just established his own independent space.

Moreover, what he should be thinking about the most now was not his cultivation, but the Lu family.

Why was no one from the Lu family here yet?

Could it be that the Elder Tianji was lying to him?

Or could it be that this Lu family was not worth relying on?

Just as he was thinking, an azure light suddenly shot out from a corner of the mountain stream. It was a fourth level True God Realm python demon.

The python demon opened its bloody mouth and rushed towards Lu Xiaoran at lightning speed, as if it wanted to skin and eat Lu Xiaoran alive in an instant.

Lu Xiaoran glanced at it and did not dodge. He also took out a divine spear.

A cold light arrived first, and then the spear shot out like a dragon.

...

Outside the ten thousand mountains, the few young disciples of the Lu family were already about to collapse.

Ever since they entered the Ten Thousand Mountains, they had never stopped.

They would either be pursued by this demon or surrounded by that demon.

Moreover, the most infuriating thing was that these demons attacked them desperately as if their lives were on the line, not giving them any chance to dodge at all.

Because of this, two or three of them had already been injured.

At this moment, the few of them were hiding in a cave and were lucky to obtain a moment of peace.

“Damn, this can’t continue. Call for help. If we don’t get the elders of the family to come and support us, I’m afraid we’ll all really die here.”

“We have to call for help. Otherwise, not to mention finding that person with the Lu family bloodline, even we will all die here.”

After the few of them decided on the plan, they dripped their blood essence into their tokens.

A mental fluctuation immediately spread in a direction.

However, at this moment, pairs of bright red eyes suddenly lit up in the cave, as if the owner of this pair of eyes had been awakened by this mental fluctuation.

“What’s going on?”

Everyone’s hearts skipped a beat. In the next second, a Lu family disciple seemed to have thought of something and immediately ran.

“It’s the Bloodthirsty Bat Demon. They’re the most sensitive to mental strength. They sensed the power we just released.”

“Damn!”

...

“Burp!”

Lu Xiaoran had already finished the spicy snack in his hand.

It had to be said that the python meat of the Divine World was much more robust than the meat of the lower realm. Not only was it robust, but the spirit energy was also dense. After eating it, one would feel refreshed and the taste was excellent.

“Looks like the Lu family is really not prepared to find me. Forget it, I shouldn’t have had any expectations in the first place. It’s better for me to return to my cave and cultivate alone.”

Lu Xiaoran was somewhat disappointed. He packed his things and prepared to leave.

At this moment, an extremely powerful aura suddenly descended from the sky.

That aura pierced through the heavens and the earth. Just by descending, it was like a huge mountain, making people unable to breathe.

The demon beasts in the surrounding forest sensed the other party's powerful aura and instantly screamed as they fled in all directions.

Lu Xiaoran's expression instantly turned cold. He began to circulate the divine power in his entire body, prepared to defend at any moment.

A moment later, the other party had already appeared not far from him. It was a middle-aged cultivator.

He was dressed in a sky-blue robe and had a square face. His hands were behind his back and his back was straight.

Sensing the other party's extremely powerful cultivation, Lu Xiaoran could not help but narrow his eyes slightly.

The other party's cultivation was very powerful and had at least reached the tenth level of the God Creation Realm!

With this cultivation, the other party was really an extremely powerful existence.

However, just as Lu Xiaoran was about to defend, the other party quietly said, "You... are that Lu family disciple?"

Lu Xiaoran was stunned before his heart began to beat faster.

Was it the Lu family? Did the Lu family come to find him?

How awesome!

He was only someone with the bloodline of the Lu family, but the other party had actually casually sent out a tenth level God Creation Realm expert to receive him.

How awesome!

Too powerful!

This Lu family was really an impressive family.

Lu Xiaoran was suddenly in a good mood. His previous gloominess was instantly swept away.

It was safe. It was really safe now. Hahaha, after entering the Lu family, he could rely on the protection of the Lu family to cultivate well.

With a powerful faction like the Lu family protecting him, his future cultivation would definitely be more efficient.

"Yes, I have the Lu family bloodline."

The other party immediately used his divine sense to scan Lu Xiaoran. Lu Xiaoran was not stupid. As soon as the other party arrived, he had already hidden his cultivation in time and only revealed his first level God Realm cultivation.

“Are you only at the first level of the God Realm? Show me your identity token.”

Lu Xiaoran did not hesitate and immediately took out his identity token for the other party to see.

In an instant, the other party’s expression could not help but change drastically.

“This token, are you Qingshan’s son? Your name is Lu Xiaoran?”

Lu Xiaoran muttered in his heart, “So the father of this body’s original owner is called Lu Qingshan. Moreover, the other party clearly knows me. He even called out my name. Looks like he’s also an existence with a good status in the Lu family.”

Then, Lu Xiaoran immediately cupped his hands and said, “That’s right, I’m Lu Xiaoran.”

The other party’s eyes instantly turned red, and two clouds of tears kept rolling in them.

“Child, you’re finally back.”

Lu Xiaoran :”...”

Was this person... crazy? He was so cold just now. Why did he suddenly become so affectionate?

This change of attitude was so abrupt!

The other party seemed to have noticed Lu Xiaoran’s confusion and immediately began to explain,

“I’m your uncle, Lu Tiannan!”

The air fell into silence again. Lu Xiaoran’s face was somewhat green and he was speechless.

Eh, the other party was actually his uncle?

Was it really that ridiculous?

According to normal logic, shouldn’t the Lu family send a deacon here?

Moreover, shouldn’t that deacon question why a first level God Realm expert was qualified to enter the Lu family.

This uncle had suddenly appeared and was even so affectionate to him. Lu Xiaoran did not know how to respond.

However, it was impossible for him to call the other party uncle.

How could he let the other party take advantage of him on their first meeting?

Dream on.

Therefore, after taking a deep breath, Lu Xiaoran only nodded.

“Yes.”

The other party thought that Lu Xiaoran was only acting like this because he was shy. He walked forward and patted his shoulder.

“It’s good that you’re back! It’s good that you’re back! Our Lu family has been looking for you for so many years. I didn’t expect you to actually return by yourself and even cultivate to the first level of the God Realm. Congratulations. If your grandfather sees you, he will definitely be overjoyed.”

Regarding this, Lu Xiaoran still only nodded slightly.

Who cared? In any case, he only wanted to find the Lu family and cultivate peacefully.

As for the rest, he could not be bothered anyway.

He would take it one step at a time.

The other party quickly brought Lu Xiaoran to the Lu family.

When he saw the Lu family, Lu Xiaoran could not help but be slightly shocked.

The Lu family’s courtyard alone had already surpassed the Great Zhou Empire in the lower realm.

It seemed that this Lu family was indeed extraordinary.

The reincarnation family Elder Tianji had chosen for him was really not bad.

He had profited.

Seeing Lu Tiannan return, the guard at the door immediately went forward and cupped his hands towards Lu Tiannan.

“Master, you’re back.”

Lu Tiannan waved his hand and said with a smile, “Where’s my father?”

“Master, Old Master just went out to have a martial arts competition with the Li family and the Qi family’s old master. He probably won’t be back for a while.”

“Is that so?”

Lu Tiannan’s interest could not help but decrease.

However, he still smiled at Lu Xiaoran and said, “Xiaoran, don’t be anxious. Your grandfather just went out and will be back soon. I’ll bring you to your parents’ residence first.”

Lu Xiaoran nodded.

“Alright.”

After obtaining Lu Xiaoran’s approval, Lu Tiannan immediately brought Lu Xiaoran to a courtyard.

“Xiaoran, this is where your parents lived when they were alive. Now that they’re no longer around, I’ll pass this residence to you. Go in and wait first. I’ll go to the storeroom and pick out some daily necessities for you.”

As soon as he finished speaking, Lu Tiannan rushed to prepare something for Lu Xiaoran.

His expression was completely different from when Lu Xiaoran had just seen.

It also made Lu Xiaoran sigh emotionally.

It seemed that this Lu family member was really sincere to him.

At the very least, he revealed his true feelings and was not pretentious at all.

He then walked into his parents' small courtyard.

Because the small courtyard had been neglected for a long time, knee-deep weeds had already grown.

Lu Xiaoran flicked his finger and slashed out a few sword lights, cutting off all the weeds in the small courtyard and restoring the ground to its original clean state.

Then, he began to clean and tidy the small courtyard and rooms. After all, this was his place to live in the future.

Not long after Lu Xiaoran finished doing all of this, Lu Tiannan brought a lot of daily necessities over.

Seeing that the courtyard had already been cleaned very well by Lu Xiaoran, he could not help but smile.

"Child, you just returned. Why are you so diligent? I was about to get two servants to come and sweep the floor."

Lu Xiaoran said indifferently, "It's all the same. I have nothing to do anyway."

As Lu Tiannan helped him move the daily necessities in, he said, "I'll prepare some daily necessities for you today. When your grandfather returns, I'll immediately report your cultivation problem and let your grandfather make arrangements. Don't worry, now that you've returned to the Lu family, I definitely won't let you suffer again."

Chapter 306: It's Safe, My Lu Family Is Actually So Terrifying

Lu Xiaoran immediately followed his uncle and carried the daily necessities in.

As the two of them set up, Lu Xiaoran took the opportunity to ask, "By the way, um... Uncle, how powerful is our Lu family in the Divine World?"

He originally did not want to call the other party uncle, but on careful thought, he had already arrived at the Lu family. Why was the point in acting reserved?

In any case, the other party was really his senior. It was not like he would lose anything if he called the other party 'uncle'.

Lu Tiannan seemed to have long guessed that Lu Xiaoran would ask this. He immediately chuckled.

"Xiaoran, that's a good question. It's not that I want to brag to you, but our Lu family is definitely doing well!"

As he spoke, Lu Tiannan raised his thumb.

“I’m not bragging to you. Take your grandfather’s cultivation for example. In the entire Heaven Water City, the patriarchs of the other six families are no match for your grandfather even if they work together. It’s because of your grandfather that our Lu family is called the strongest family in the Heaven Water City!”

“Even in the surrounding cities, our Lu family is a top-notch existence!”

“Hiss!”

Lu Xiaoran could not help but gasp, and he was immediately shocked.

The Lu family was actually the number one family in Heaven Water City.

They were really too impressive!

Lu Xiaoran’s avatar had heard that those who could establish a family in the Divine World were already very powerful.

Moreover, it was extremely rare for someone to become the strongest family in a city.

Looks like he could cultivate in the Lu family without worry in the future.

Speaking of which, he wondered how his disciples were doing.

He really hoped that they could find the Lu family quickly and gather with him to cultivate here.

They should still be suffering outside, right?

Thinking of this, Lu Xiaoran’s heart ached.

His pitiful disciples had no one to rely on after coming to the Divine World.

This was all because their master was not powerful enough. Looks like he really had to cultivate well in the remaining time.

The two of them had just packed when Lu Tiannan suddenly seemed to have sensed something.

His face lit up and he immediately said, “Eh, this aura... It should be your grandfather returning. Xiaoran, wait here first. I’ll go and see what’s going on. At that time, I’ll also tell your grandfather about you.”

Lu Xiaoran nodded.

“It’s only right. Uncle, go and do your work first. I’ll be fine on my own.”

“Alright, I’ll come and see you later. If I have something to do, I’ll get your cousin to come and see you.”

After the two of them bade farewell, Lu Xiaoran immediately began to set up an array formation in his small courtyard.

This was important work.

He quickly set up an array formation to ensure his safety.

Attack formation, defensive formation, illusion formation... a complete set of God Realm formations.

Moreover, Lu Xiaoran had also learned his lesson this time.

In order to prevent his array formation from being discovered by the Lu family, he had fused a drop of his blood essence into the array core.

In this way, if the Lu family barged in by accident, it would not be triggered.

Previously, because of the array formation, he had been exposed many times. This time, he did not want to be exposed again.

...

On the other side, Lu Tiannan also quickly arrived at the entrance. When he saw his father walk in with large strides, he immediately went forward to welcome him.

“Father, you’re back.”

Old Master Lu nodded.

“I heard that the Lu family has found another wandering bloodline in the past few days?”

Lu Tiannan nodded in response.

“That’s right, and it’s an extremely important bloodline!”

Old Master Lu was somewhat surprised.

“An extremely important bloodline? Whose bloodline is it?”

Lu Tiannan smiled mysteriously and said, “Take a guess!”

Old Master Lu scolded with a smile, “Could it be that you brats brought back another grandson from outside?”

Lu Tiannan shook his head.

“You’re wrong.”

“Then... could it be that those third-generation brats have already begun to have children? After all, they’re already dozens of years old.”

Lu Tiannan shook his head again.

“You’re wrong again.”

Old Master Lu could not help but frown.

If that was not the case, who else could it be? Could it be his children?

That was impossible. He had never done anything indecent in the past few decades. Moreover, he did not have any psychological needs now.

How could he get a child out?

“I haven’t done anything to let your mother down in the past few decades.”

Lu Tiannan was speechless.

“Dad, are you really unable to guess?”

“I almost said it, but you denied it all. I really can’t remember. In our Lu family, other than me, there aren’t any other men in your generation or Xiao Chen’s generation!”

“Don’t tell me that your grandfather came out of the Lu family’s ancestral hall and got you another uncle.”

Lu Tiannan slapped his forehead and was completely defeated by his father’s naivety.

“Dad, have you forgotten about Ninth Brother?”

Old Master Lu’s heart trembled as his eyes widened.

“Do... do you mean Xiaoran?”

Lu Tiannan smiled and nodded.

“It’s Xiaoran. He’s back now. Although his cultivation level is relatively low now and he’s only at the first level of the God Realm, he’s indeed back unscathed.”

“Good! Good! Looks like the heavens are really protecting my son Qingshan. They didn’t let my son’s bloodline die!”

Old Master Lu was extremely excited. He clenched his fists tightly, and the excitement on his face was obvious.

Back then, Lu Qingshan was the most talented among his sons and was also the one he doted on the most.

Therefore, when he learned that Lu Qingshan and his wife had died in battle, it was simply a shocking piece of news for him.

He had spent more than thirty years to walk out of this haze.

Now, hearing that Lu Qingshan’s son and his grandson, Lu Xiaoran, was still alive, Old Master Lu was naturally unable to suppress the excitement in his heart.

“Quick, bring me to see him.”

“Dad, he’s in the courtyard of Green Mountain.”

As soon as he finished speaking, Old Master Lu had already disappeared from his spot, leaving Lu Tiannan behind. Lu Tiannan did not know whether to laugh or cry as he shook his head.

In the next moment, Old Master Lu appeared in Lu Qingshan’s courtyard.

At this moment, Lu Xiaoran had just finished setting up the array formation when he suddenly saw an old man appear beside him. His eyes suddenly turned cold. However, after sensing that the other party did not have any ill intentions, he quickly returned to normal.

When Old Master Lu saw this subtle expression, he could not help but be shocked.

Good brat, you're really vigilant.

This vigilance was unparalleled among his other descendants.

Presumably, this grandson of his had also inherited his son's perfect talent.

Otherwise, it would be impossible for him to break through to the first level of the God Realm alone without anyone to rely on.

Thinking of this, Old Master Lu's heart could not help but ache.

It was unknown how much Lu Xiaoran had suffered outside for so many years.

If Lu Xiaoran could be by his side, his current cultivation might not be inferior to the other descendants of the Lu family.

Looking at the old man in front of him who was looking at him with various complicated emotions, Lu Xiaoran more or less had some guesses.

"May I ask who Senior is...?"

Old Master Lu's heart paused, and his eyes turned sour.

"Child, I'm the head of the Lu family and your grandfather."

Lu Xiaoran thought to himself,

"Indeed."

Thinking of this, he immediately cupped his hands towards Old Master Lu and said, "Lu Xiaoran greets Grandpa."

"Good! Good child."

Old Master Lu immediately helped Lu Xiaoran up and did not let go of his hands for a long time.

"Where have you been for so many years? Why haven't you returned to the Lu family?"

Lu Xiaoran explained, "I've been in the lower realm all these years. I just transcended the tribulation to the Divine World two years ago."

With that said, he took the opportunity to retract his hands without leaving a trace.

This made Old Master Lu sigh, but he could not say anything.

After all, the Lu family had indeed not taken care of Lu Xiaoran at all over the years. Therefore, it was understandable that Lu Xiaoran did not have any feelings for the Lu family.

"I see. Child, you've been wronged."

"I'm alright. I'm used to it."

These few words made Old Master Lu's heart ache.

The other party had been wandering outside alone since he was a baby.

He had definitely suffered a lot.

However, when he spoke just now, he maintained a calm expression. He was used to it.

How much had he experienced to be able to say this so calmly?

Taking a deep breath, Old Master Lu continued, "You don't have to worry anymore in the future. Now that you've returned to the Lu family, it means that you're back home. In the future, no one will bully you again. Grandpa will arrange cultivation resources for you now. If you need anything in the future, you can tell Grandpa directly."

Lu Xiaoran nodded and did not say much.

This was his habit. He was not good at talking to strangers he had just met, especially strangers with blood ties.

As for Old Master Lu, he did not say much after a simple conversation. He was afraid that he would not be able to control his emotions.

With that said, he immediately came out and prepared cultivation resources for Lu Xiaoran.

Just as he walked out of Lu Xiaoran's courtyard, he bumped into Lu Tiannan, who had just followed him.

"Father, how is it? Did you see Xiaoran?"

Old Master Lu nodded.

"I did. However, this child is clearly somewhat distant. Moreover, he's also somewhat vigilant towards me."

"You think so too?"

Old Master Lu continued, "However, I know that this can't be helped. He has lived alone outside since he was young and has no one to protect him. In the past few decades, he has suffered countless grievances and dangers. It's understandable for him to be vigilant."

Lu Tiannan echoed, "I know. Then regarding Xiaoran's resource arrangements...?"

Old Master Lu's eyes turned cold as he said solemnly, "Give him the best of everything."

Chapter 307: *The Waters of the Divine World Is Too Deep*

?

Lu Tiannan's body trembled and he immediately said with a solemn expression, "Dad, isn't this... a little too much? You have to know that the rules of our Lu family state that there are conditions for using the highest-level resources."

“He has to reach the second level of the God Realm or above before the age of 30. Xiaoran is already over 30 now, but his cultivation is only at the first level of the God Realm. Once this rule is broken, I’m afraid others won’t be easily convinced in the future.”

Old Master Lu snorted.

“So what? Xiaoran is Qingshan’s only flesh and blood. Back then, how much honor did Qingshan earn for our Lu family? Don’t tell me you don’t know? We’ve let Qingshan’s child wander outside for so many years. Shouldn’t our Lu family compensate him?”

“Dad, I know what you mean. We’re indeed indebted to Qingshan and Xiaoran, but this is not a reason for us to break the rules. We can completely compensate Xiaoran in other ways. However, our Lu family’s resources are limited. There are only a few of the highest-level resources. Every portion we distribute will cause the other disciples to lose out. They are all the future of our Lu family.”

It was not that Lu Tiannan did not want to compensate Lu Xiaoran. He also wanted to make it up to Lu Xiaoran in other ways.

However, in the family, he had to prioritize the advancement of the direct bloodline.

Otherwise, if these old people could not make it in a few years, who would take over the Lu family?

If no one took over the Lu family, it would bring destruction to the Lu family.

However, Old Master Lu did not retreat at all and only smiled.

“If that’s the reason, then you don’t have to worry too much. I believe that Xiaoran will definitely not waste the resources. He... has the qualifications to obtain the highest-level resources!”

Lu Tiannan’s body trembled again.

“Dad, do you mean...?”

Old Master Lu did not say anything else. He only placed his hands behind his back and left with a faint smile.

He recalled Lu Xiaoran’s gaze the moment he arrived beside Lu Xiaoran.

The other party immediately sensed his existence.

This was not simple!

It had to be known that Lu Xiaoran’s cultivation was only at the first level of the God Realm. On the other hand, he was already half a step into that legendary level.

Compared to Lu Xiaoran, he was countless realms higher.

However, even so, Lu Xiaoran could still sense him.

This reminded Old Master Lu of his extremely talented son, who had once been the supreme glory of the Lu family.

Even though he had been dead for many years, he was still often mentioned.

Since Lu Xiaoran was the other party's child, Lu Xiaoran might have inherited his talent.

It had to be known that although Lu Xiaoran was already more than 30 years old, he was actually not that old.

Moreover, he had been thrown into the lower realm, a place where there was only thin spirit energy and not a trace of divine power.

In such an environment, the fact that Lu Xiaoran could still break through to the first level of the God Realm was enough to prove that his talent was actually not bad.

If he could be provided with enough cultivation resources, he might be able to stimulate his potential.

Although Old Master Lu did not know if he could completely activate Lu Xiaoran potential and create another figure like his father,

However, at the very least, he would not lose too much.

Most importantly, as a grandfather, he really wanted to make it up to this youngest grandson.

...

Lu Xiaoran had just prepared to cultivate when someone began to knock on his courtyard door.

When he opened the door, a young man of similar age to him was standing at the door. He was eight feet tall and had a handsome face. When he smiled, he revealed two rows of teeth that shone like porcelain.

"Hello. Let me introduce myself. I'm the eldest grandson of the Lu family's third generation, Lu Xiaochen. Lu Tiannan, who is also your uncle, is my father."

Lu Xiaoran nodded.

"So it's Cousin. I heard Uncle mention it before."

"That's good. I was ordered to bring you some cultivation resources. These cultivation resources were all painstakingly accumulated by our Lu family. You have to use them well to increase your strength."

With that said, he looked around and whispered, "The cultivation resources of our Lu family disciples are all strictly graded. Your resources are of the highest standard. Grandpa has made an exception for you to nurture you."

Lu Xiaoran was stunned before a warm feeling surged in his heart.

After all, they had the same bloodline and were very good to him.

He decided that he could also treat the Lu family more kindly in the future.

He received the cultivation resources and swept his divine sense over them.

The next moment, countless questions immediately surged into his head.

Two mid-grade God Realm medicinal pills and ten low-grade God Realm medicinal pills. Other than that, there was a mid-grade God Realm cultivation technique, twenty top-grade divine crystals, and some miscellaneous resources.

Was that all?

Was this the highest standard of the Lu family?

At this moment, Lu Xiaoran suddenly had a feeling.

This very elegant and handsome cousin in front of him might have embezzled his resources.

He had always thought that only those shifty-eyed supporting characters would do such a thing. He did not expect his handsome cousin to also do such a thing.

Was it the destruction of humanity or the loss of morals?

Or was the other party jealous that he was a little more handsome?

However, if that was the case, he could not watch others stuff themselves and snatch his things.

Thinking of this, Lu Xiaoran immediately said,

“Cousin, something seems to be wrong with these resources, right?”

“Is that so? Let me take a look.”

Lu Xiaochen immediately took the storage bag from Lu Xiaoran and swept his divine sense over.

“Two mid-grade God Realm medicinal pills, ten low-grade God Realm medicinal pills, a mid-grade God Realm cultivation technique, and twenty top-grade divine crystals...”

He began to read it aloud. After reading it, he continued, “That’s right. I also have these things. There’s nothing wrong with that.”

Lu Xiaoran began to fall into deep thought.

Something was wrong. Something seemed to be wrong.

Just now, he had used the Trinity True Eyes to carefully lock onto Lu Xiaochen’s mental fluctuation.

In the end, he realized that Lu Xiaochen was not lying.

In other words, these so-called top-notch resources were indeed the best resources of the Lu family.

Um...

No, something was wrong!

“Xiaoran, what’s wrong?”

Seeing Lu Xiaoran’s stunned and conflicted expression, Lu Xiaochen could not help but ask with concern.

Lu Xiaoran coughed lightly and said, “No, nothing.”

After a pause, he continued, "By the way, Cousin, do you know Grandpa's cultivation level?"

He did not know his grandfather's true cultivation. Just now, when his grandfather suddenly came, for the sake of caution, he did not use the Trinity True Eyes to check his grandfather's cultivation.

Who knew how much his grandfather's cultivation was? If his grandfather was much stronger than him and sensed his small actions, wouldn't he be exposed?

However, at this moment, he really wanted to know.

Lu Xiaochen chuckled and said, "Why? Are you that curious? Do you want to worship Grandpa?"

Lu Xiaoran pretended to nod in agreement.

Lu Xiaochen coughed lightly and cleared his throat.

"Listen carefully. Grandpa's cultivation level is unfathomable. This matter concerns the secret of our Lu family. Because you're a direct descendant of our Lu family, I'll only tell you, but you must not spread it."

"Don't worry, Cousin. I'm not a tight-lipped person."

"That's good. Listen carefully. Our grandfather, the old master of the Lu family, is the current leader. His cultivation is at the perfected tenth level of the God Production Realm and has already stepped into the half-step Ten Domain Martial God Realm! How is it? Are you frightened?"

Lu Xiaoran : "..."

To be honest, he was really frightened.

Was that all?

Was that all?

Was that really all?

Was this the standard of the so-called leader of the Divine World's Lu family?

Was this a joke?

It was true that Lu Xiaoran's current cultivation was only at the first level of the God Creation Realm, but this did not stop him from being speechless at the other party only being a perfected tenth level of the God Production Realm.

It had to be known that among the cultivators of the Divine World, God Production Realm was not very powerful.

In the Divine World, cultivation levels ranged from the weak to the strong. They were still divided into the God Realm, the True God Realm, the God Slaying Realm, the God Creation Realm, God Production Realm, the Ten Domain Martial God Realm, the Hundred Domain Battle God Realm, the Thousand

Domain War God Realm, the Mahayana God King Realm, the Immortal God Emperor Realm, the Heaven Ascension Supreme God Realm, and the God Monarch Realm!

The God Production Realm could only be considered to be below average.

It was nothing in the Divine World, but it was actually the number one in the Heaven Water City? An existence at the top of the rankings?

What a joke!

At this moment, Lu Xiaoran suddenly had the urge to revive the Elder of Heavenly Secrets and whip her fiercely to let her comprehend the art of cross binding.

With the Lu family's level, it was completely insufficient for him to live ignobly until he cultivated to the God Monarch Realm.

She even told him confidently that the Lu family was a powerful existence!

Could they still trust each other?

An inexplicable sadness silently surged in his heart.

At this moment, Lu Xiaoran even had the urge to cry.

He was still too young. The waters of the Divine World were too deep. If he was careless, he would be in despair.

"Cousin, what's wrong?"

Seeing that he was silent, Lu Xiaochen could not help but pat his shoulder.

"No... nothing."

Lu Xiaoran replied briefly.

As if seeing that he was very depressed, Lu Xiaochen continued, "Actually, you don't have to be so shocked. Although Grandpa is very powerful, it can't be helped. An existence like him is one in a million! He's far from what we can compare to.

"After all, how many people in the entire Heaven Water City could compare to our grandfather?"

"The only fortunate thing for us is that Grandpa belongs to our Lu family. If he didn't, we would really have a headache.

"As long as you cultivate well, although you won't be able to catch up to Grandpa in the future, you still have a chance to reach the God Creation Realm in this life. When you do, you will also be able to contribute to the Lu family."

Chapter 308: Time Flies

Lu Xiaochen's words made Lu Xiaoran's face twitch fiercely.

Did he care about the God Creation Realm?

What he cared about was the God Monarch Realm!

Even if he could not become a God Monarch Realm expert, he should at least reach the God King Realm or the God Emperor Realm!

A faint sadness enveloped his heart.

After the two of them chatted for a while, Lu Xiaochen finally left.

After Lu Xiaochen left, Lu Xiaoran sighed and returned to his house.

There was nothing he could do. Since he was already here, what else could he do?

In any case, this Lu family seemed to be relatively safe. Moreover, Old Master Lu and the others were indeed quite sincere to him. He would cultivate here now and wait until his cultivation level was higher.

It would be best if he could cultivate to the God Monarch Realm peacefully.

Of course, if he could not and had to leave, he would provide the Lu family some luck. At that time, he would be worthy of their honesty.

After Lu Xiaochen gave away the resources, he immediately went back to report.

“Grandpa, Xiaoran’s matter has been arranged properly. The resources have all been distributed to him.”

Old Master Lu nodded and stroked his beard.

“You did very well.”

“Grandpa, you’re too kind. This is what I’m supposed to do.”

“It’s best if you think that way. In the future, bring Xiaoran along when you go out. He has been wandering outside for so many years. Our Lu family owes him. Give him more compensation.”

Lu Xiaochen nodded.

“Got it, Grandpa.”

“Alright, if there’s nothing else, go back and cultivate first.”

“Yes.”

...

On the other side, in Myriad City, in the Wind Cloud Sect.

“Elder Feng, back then, you were the one who brought me and my disciple to the Wind Cloud Sect. Now, you want us to leave?”

The question with a pained expression made Elder Feng’s face turn red.

This guy actually had the cheek to criticize him?

That's right. Back then, he was the one who had led Jun Bujian into the Wind Cloud Sect. However, he did not expect to have invited a wolf into his home.

This unknown disciple basically ate and cultivated before eating. He spent all day in the canteen and the Dao Field.

The only exception was that he would go to the warehouse on time to receive cultivation resources every month.

Originally, it was not a bad thing for cultivators to cultivate diligently.

It was even to the extent that at the beginning, the sect master and the elders of the sect even praised him for having good taste and finding such a large group of hardworking seedlings.

However, as time passed, their perception of these new disciples changed.

The goal of cultivation was naturally to become stronger. This was true. However, since they had joined a sect and cultivated together, it meant that everyone had to work together.

As disciples, weren't they supposed to help out the sect when the sect encountered trouble?

As disciples, weren't they also supposed to make an effort to complete the sect's mission?

Most importantly, if the sect went to war with another sect to compete with the other sects for territory and resources, shouldn't the disciples participate in the battle?

However, Jun Bujian and his disciples didn't do any of these things.

When it came to meals and benefits, they were always the ones to arrive first. However, when it was time to fight, they would be the first ones to escape.

Take the recent incident for example. The Wind Cloud Sect and the Dragon Tiger Sect next door had started fighting over a mineral vein. They had challenged each other and were prepared to end the battle in one go.

In the end, at the critical moment, Jun Bujian actually brought his disciples and ran away collectively, saying that they had eaten something bad and had diarrhea.

What a joke!

Everyone's cultivation was above the God Realm. What kind of thing would give them diarrhea?

Wasn't this nonsense?

Coupled with the previous few incidents, the Wind Cloud Sect had already completely understood that this group of people was purely the type to take advantage of the sect. They did not really want to join their Wind Cloud Sect at all.

Therefore, in order to ensure the healthy development of the sect and to stop their losses in time, the Wind Cloud Sect had no choice but to kick Jun Bujian and the others out.

“Elder Jun, there’s really no other way. There have been some financial difficulties in the sect recently. We’ve been letting a lot of disciples go. My disciples have also been reduced by a lot. If it was up to me, I’d rather leave myself than to let Elder Jun leave.

You know, I value loyalty the most.”

It was only natural for Jun Bujian to understand. He had already been in the Divine World for several years. How could he not know these tricks?

He just did not want to make things too ugly in case things became too awkward when they met in the future.

Moreover, there was nothing he could do. It seemed that he could not continue to take advantage of this Wind Cloud Sect. He could only find another sect.

The only good thing was that his cultivation had already increased to the third level of the True God Realm.

As long as he was given another two to three years to cultivate to the late-stage True God Realm, he would have a chance to establish himself in Myriad City.

“Alright, then. After all, I can’t make things difficult for Elder Feng, right? However, if my disciples and I leave the Wind Cloud Sect, it will probably be difficult for us to find a place to live in for a while. Therefore, can you ask the Wind Cloud Sect to let us cultivate here for the time being and let us leave before we find the next sect?”

Elder Feng almost vomited blood.

How could the other party still dare to say such a thing?

Could it be that he couldn’t even chase the other party away now? Did the other party want to stay here indefinitely?

It was not easy for them to persuade Jun Bujian to leave. How could they let him continue to stay in the mountain gate?

Did these guys really think of them as idiots?

Therefore, just as Jun Bujian finished speaking, Elder Feng immediately said, “It’s not a big problem. Don’t worry. Our Wind Cloud Sect has prepared tens of thousands of high-grade divine crystals and some medicinal pills for you. Don’t worry, we definitely won’t let you suffer. With the divine crystals, you can completely find a good place to cultivate outside.”

Jun Bujian frowned and said, “However, if we stay in the Wind Cloud Sect, won’t we still be able to save the sect some expenses? With all this extra money, I wonder just how many disciples you’ll be able to nurture?”

Elder Feng’s face twitched fiercely.

Did this guy not want to leave? It was obvious that he felt that the money was not enough.

Elder Feng made up his mind and gritted his teeth before taking out his storage bag.

“Brother Jun, this is all the wealth I’ve accumulated for more than a thousand years. I’ll give it to you now.”

Jun Bujian signaled to Shi Changlin, who immediately received the storage bag.

Then, he pretended to be polite and said, “Aiya! Elder Feng, look at you. Why are you being so nice? You’re making me unwilling to leave the Wind Cloud Sect and you.”

Elder Feng almost fainted from anger.

“Please don’t. As long as Brother Jun can leave the Wind Cloud Sect, that will be the greatest help to me. Also, it will save me from being berated by the sect master.”

“Alright, since Elder Feng has said so, it will really be shameless of us if we don’t leave now.”

“By the way, when should we leave?”

“It’s best if you leave as soon as possible. Actually, you guys should leave immediately. I also have to return and report to the sect master.”

“Alright, in that case, we’ll leave. Elder Feng, I’ll miss you in the future.”

Elder Feng nodded.

“I’ll miss you too.”

In the end, under Elder Feng’s gaze, Jun Bujian and his disciples finally left the Wind Cloud Sect.

After leaving the Wind Cloud Sect, Shi Changlin and the others could not help but sigh. “What a pity. The Wind Cloud Sect is much richer than the Sword Demon Sect.”

“That’s right. My days in the Wind Cloud Sect are the best among the many sects in Myriad City. The food in their canteen makes me drool every day.”

Jun Bujian could not help but roll his eyes.

“You still have the cheek to say that? If not for you being so shameless every day, we wouldn’t have been chased out of the Wind Cloud Sect so quickly.”

“Then what’s our next step?”

Jun Bujian rubbed his temples and said with a headache, “Let’s take it one step at a time.”

As soon as he finished speaking, he heard a shout from ahead.

“The Flying Dragon Sect is recruiting. We guarantee to give out a low-grade divine pill every month. In addition, there are also divine crystals to be distributed. There are many resources and rewards. If you join the Flying Dragon Sect, cultivating to the God Slaying Realm will no longer be a dream! Come and fulfill your dream of becoming a big shot! Come and realize your life value and chase your dreams! Come and join quickly. We have a promotion going on right now. If you recommend our sect to your friends, you’ll be rewarded... Don’t miss this opportunity.”

Everyone was silent for a moment before a sixth level God Realm disciple said,

“This Flying Dragon Sect seems to be a pretty good sect!”

“I’ve heard of it. They seem to be much stronger than the Wind Cloud Sect.”

“It’s not just much stronger. I heard that the Flying Dragon Sect can already enter the top 100 of the sect ranking in Myriad City.”

Smiles began to slowly rise on everyone’s faces, making them look perverted...

“Let’s go!”

...

Time passed quickly. In the blink of an eye, two years had passed.

In these three years, Lu Xiaoran’s cultivation had quickly increased. He had already reached the perfected tenth level of the God Creation Realm. He was only a step away from reaching the God Production Realm.

At that time, he could create things in his small world. Those things would be extremely lethal.

Lu Xiaoran looked at his divine soul. The scale of his divine soul was also becoming stronger and stronger.

A small world was a special technique that one gained after reaching the God Creation Realm. On the other hand, the divine soul was a characteristic that assisted all God Realm attack.

In other words, the divine soul was more important.

Of course, with his character, Lu Xiaoran would not casually go out to kill and devour divine souls.

He could not do something like that.

However, according to the rate of his cultivation, his divine soul shouldn’t have improved so quickly, right?

Could it be that... his disciples’ cultivation had also increased the strength of his divine soul?

However, even if the disciples cultivated together, the total cultivation speed would only be that of ten people. His cultivation might increase very quickly, but the speed of his divine soul’s advancement still did not make sense!

Could it be...?

Thinking of this, Lu Xiaoran immediately summoned Wang Cai.

“Wang Cai.”

“Coming, coming, Master, I’m here.”

“Let me look at the information of the disciples in the past two years.”

“Alright, it’s being generated.”

Soon, Wang Cai generated the information. When Lu Xiaoran saw it, he was completely dumbfounded.

Chapter 309: Going to the Village to Collect Rent

Your disciple, Zhuge Ziqiong, is being pursued by the Buddhist Sect...

Your disciple, Yun Lige, is being pursued by the Battle Demon Sect...

Your disciple Yun Lige is being pursued by an itinerant cultivator...

Your disciple, Yun Lige, is being pursued by the Demon Maiden, Yu Xuan'er...

Your disciple Yun Lige is being pursued by the Fish Dragon God Beast...

Your disciple, Yun Lige, is being pursued by the Iron Bones Sect...

...

Damn, other than the first message, which was about Zhuge Ziqiong, the rest were all messages from Yun Lige. Moreover, they were all messages about Yun Lige being pursued. Lu Xiaoran roughly swept his gaze over and estimated that there were more than ten thousand messages.

Could this Yun Lige have gone to stir up a hornet's nest.

Why was he being pursued every day?

Could it be that he had forgotten that his master had always taught him to live ignobly?

Could this brat have forgotten his guidance?

This brat had better not offend everyone in the entire Divine World, in case a bunch of God Monarch Realm experts came to attack him.

If that day really came, Lu Xiaoran probably would not be able to help but end his master-disciple relationship with Yun Lige.

Unfortunately, Wang Cai could only show him these status information now and he still could not see the basic information.

Otherwise, he would also be able to understand what level everyone's cultivation had reached.

He wondered if his disciples had broken through to the God Slaying Realm.

Lu Xiaoran did not think so.

After all, it was already very difficult to increase one's realm in the Divine World.

The reason why he was able to advance to this level in such a short period of time was naturally because of the benefits his disciples' cultivation had brought him.

However, in fact, it was mostly because he had personally participated in the cultivation.

If he had not participated in the cultivation and used his powerful talent, it would be impossible for him to reach this level in such a short period of time.

If he wanted to see their cultivation information clearly, he could only wait until he found the disciples or wait for his disciples to approach him

“Wang Cai, give me the gift bags first.”

“Alright, understood.”

Wang Cai quickly sent all the gifts over. There were nearly a hundred big and small gift bags.

Lu Xiaoran felt that his life had gotten repetitive.

Everything was the same.

Formation, cultivation, gift bag...

He really hoped that these days could continue.

Divine Technique Heaven Demon Ruler x1.

The Heaven Demon Ruler was a spatial teleportation technique. It could increase one's AOE by teleporting one's attack to any location within the range of one's divine sense.

“This thing is not bad. The attack moves of cultivators have a certain limit. It is restricted by the range of the divine sense, just like how the attack of an ordinary human was restricted by the range of their own vision. And this move can help me ignore this restriction and greatly increase my cultivation. I can attack wherever I want. I won't have to worry that I won't be able to hit others.”

Profound Soul x8.

The profound soul was a good thing. It could be considered to be the most valuable thing Lu Xiaoran needed at the moment.

Lu Xiaoran knew that the profound level was already the highest level in this world.

Be it cultivation techniques or weapons.

An existence like the Lu family only used God Realm cultivation techniques and divine weapons. It seemed that only Old Master Lu had cultivated a divine technique and did not have a divine artifact to support him.

Only those with strength above dozens or even nearly a hundred Lu families could use divine weapons and divine techniques on a large scale.

Moreover, the factions that could use divine weapons and divine techniques on a large scale were probably the strongest. The cultivation of their experts probably reached the Mahayana God King Realm.

The following items were more orthodox.

They were also divine techniques, divine artifacts, and some top-grade divine crystals. In any case, they were all good things.

However, those few large gift bags did give him two profound level armor and array formations.

Not bad. It was perfect now that he had profound level armor. Even if his cultivation was relatively low and he could not unleash its full strength, he would definitely be able to resist the cultivation of many experts.

At the very least, no one in this Heaven Water City could defeat him.

After Lu Xiaoran opened the gift box, his cousin Lu Xiao Chen's voice suddenly sounded from outside the door.

"Xiaoran, are you inside?"

Lu Xiaoran put away his things. With a thought, his body instantly disappeared from his spot. When he reappeared, he had already arrived at the entrance.

"Cousin, why are you suddenly here?"

"I'm here to give you this month's resources."

"I see. Thank you, Cousin."

"You're always so polite."

Lu Xiaochen smiled and handed Lu Xiaoran's resources for this month to him.

"You have to pay more attention to your work and rest. Don't always cultivate in your room. If you have time, you should come out and walk around and get to know some friends. This will also be beneficial to your future development."

Lu Xiaoran nodded.

"Cousin is right. However, I don't know many people here. If I offend anyone, I'm afraid I'll cause trouble for the Lu family. Therefore, I think it's better for me to cultivate obediently in my room."

Lu Xiaochen did not know whether to laugh or cry.

"You brat, our Lu family is the strongest family in the Heaven Water City. What's there to be afraid of? Just Grandpa's strength alone is enough to provoke the other families. Even if you cause trouble, our Lu family can still resolve it.

"Moreover, in fact, you won't be able to cause much trouble. After all, our Lu family is so powerful. Basically, not many families dare to casually provoke our Lu family.

"Unless the other party is crazy. "

"Cousin is right."

"By the way, it just so happens that I'm going to a nearby sect to handle some matters. Do you want to accompany me?"

Lu Xiaoran raised his eyebrows slightly. He did not want to get involved in such a matter. Not only was it troublesome, but it would also delay his cultivation.

“I think I’ll pass.”

“Let’s go and have fun together. Take it as relaxing.”

After a pause, Lu Xiaochen whispered into Lu Xiaoran’s ear,

“I’m going to collect offerings. We can keep a bit for ourselves.”

Lu Xiaochen was speechless.

“Are we really going to take resources from our own family?”

“That’s not what I meant. You’re mistaken. I definitely won’t touch the offerings others give to our Lu family. However, if we, the direct descendants of the Lu family, go over, they will more or less express their gratitude and give us more.”

“If you go, we can get two extra rewards. It would be a waste not to. It’s better than hiding in your room to cultivate.”

“Then... alright.”

Lu Xiaoran was not interested in the benefits. He did not even care about the top-notch treatment of the Lu family, let alone the small income of a small sect.

However, the reason why he wanted to go out was partly to understand the Divine World more and partly to do something.

For example, his spirit stones.

When he was in the lower realm, Lu Xiaoran had killed Su Chen. Coupled with the spirit stones he had obtained over the years, he had more or less obtained more than a few hundred trillion.

With his current cultivation, he no longer needed any spirit stones. Even when setting up array formations, he still mostly used divine crystals.

Although God Realm array formations could also be activated with spirit stones, their might would be much weaker. It was not very effective.

However, this did not mean that spirit stones were trash in the Divine World.

Cultivators in the Divine World also had to cultivate step by step from the bottom.

Before reaching the God Realm, they also needed a large number of spirit stones. It could even be said that they needed more spirit stones than those in the lower realm.

Why?

This was because the cultivation speed of the people from the Divine World far surpassed the people from the lower realm, and the speed at which they absorbed spirit energy was also several times faster.

This was the reason.

After obtaining Lu Xiaoran's approval, Lu Xiaochen immediately brought Lu Xiaoran to that sect.

They were riding on a divine ship driven by divine crystals. Compared to the convoy pulled by demon beasts that Lu Xiaoran had previously sat on, the speed of this ship was faster, more agile, and more stable. These ships were the favorite transportation tools of slightly wealthy families in the Divine World.

On the flying ship, Xiao Chen asked, "Xiaoran, you're so diligent and cultivate every day. What's your current cultivation level?"

"My talent might be relatively slow, so I've only just barely broken through to the third level of the God Realm."

"It's already not bad. You've only been in the Lu family for two years and you're already at this level."

"It's all because of the Lu family's resources. After all, I used to wander around and didn't obtain as many resources as I did in the Lu family."

"That's right. As the saying goes, the poor study and the rich practice martial arts. The reason why our Lu family was able to reach our current state is all because of our family's resources and strong support."

"Let's not talk about our distant relatives. Among your close relatives, your cousins Lu Xiaofei, Lu Xiaoyu and Lu Xiaoyan have already reached the True God Realm. I have also broken through to the ninth level of the True God Realm and I'm not far from the God Slaying Realm. "

Lu Xiaoran was silent for a moment before saying, "Why do all the third generation disciples have Xiao in their names? Isn't Xiao a surname? Is there any special meaning to that word?"

Lu Xiaochen frowned slightly.

"Weren't we talking about cultivation? Xiaoran, your focus is so strange."

"Uh... It's nothing. I'm just curious."

"There's not much to it. It's just that our grandma's surname is Xiao. In our family, grandma's words are more effective than grandpa's. When they were deciding on the names of the third generation disciples, they ended up using Xiao on all the names."

"I see."

Lu Xiaoran did not expect his grandfather to be so henpecked.

After a pause, he continued, "Speaking of which, your talent is indeed extraordinary. You've already reached the ninth level of the True God Realm at such a young age. Looks like it won't be long before you break through to the God Slaying Realm."

Lu Xiaochen sighed faintly.

"It's difficult. To be honest, I was able to break through so quickly because of Grandpa's help. I'm only where I am today because Grandpa taught me our Lu family's unique divine technique. However, divine

techniques are too difficult to comprehend. I only comprehended half of it before it became difficult for me to comprehend the next level.”

Chapter 310: Holy Maiden as a Servant?

“Generally speaking, the most suitable God Realm cultivation techniques are the God Creation Realm cultivation techniques. This is because God Creation Realm cultivation techniques only strengthen the soul and evolve a trace of one’s own space. On the other hand, divine techniques are used to break through to the Ten Domains Martial God Realm, the Hundred Domains Battle God Realm, and the Thousand Domains War God Realm. It’s also to prepare for the God King Realm and the God Emperor Realm.

“Therefore, even if one’s cultivation speed is faster when cultivating a divine technique, in a sense, it is best for ordinary people to prioritize God Realm cultivation techniques before reaching the God Creation Realm and the God Production Realm.

“As long as one accumulated enough experience and cultivated five to eight God Realm cultivation techniques according to one’s talent, they would naturally be able to easily master deeper divine techniques. Then, they would have a greater breakthrough in their cultivation.

It’s just like building a house. If your foundation is not sturdy enough, how can you add more floors? ”

Lu Xiaochen’s heart trembled as he widened his eyes and stared fixedly at Lu Xiaoran.

“Damn, you’re right! Why do you know so much?”

Lu Xiaoran: “???”

“Isn’t this very obvious? Grandpa should have told you, right?”

“Of course he did, but he never said that cultivating five to eight God Realm cultivation techniques will make it easier for you to master divine techniques! Where did you learn this knowledge?”

“Uh...”

Lu Xiaoran coughed lightly and immediately said, “You should know that I’ve been living outside for so many years and have seen a lot, so I know more.”

“Damn, I have to try it immediately.”

As soon as he finished speaking, Lu Xiaochen directly entered a meditative state and began to cultivate.

Not long after he entered a meditative state to cultivate, the divine ship also arrived at a sect called the Seven Water Pavilion.

“Young Masters, we’ve already arrived at the Seven Water Pavilion.”

“My cousin just fell into a meditative state. I’ll leave the collection of resources to you guys.”

The voice of the Lu family steward sounded from outside again.

“Young Master, the Seven Water Pavilion’s pavilion master and the other elders and disciples are all welcoming you at the entrance of the mountain. If the two of you don’t come out, I’m afraid they will be

disappointed. Moreover, Young Master is the one who's cultivating. You can still come out and meet them. It won't be too much of a hassle."

Lu Xiaoran looked at Lu Xiaochen, who was meditating, and could not help but frown slightly.

At this moment, Lu Xiaochen was cultivating diligently and had a good momentum. If he was interrupted at this moment, it would be a huge loss for him. If he did not do well, it was even possible for him to suffer from qi deviation.

Shaking his head slightly, Lu Xiaoran walked down the divine ship.

The person in charge was his cousin's follower. His surname was also Lu and he was a disciple adopted by the Lu family. There were many such people in the Lu family.

Seeing Lu Xiaoran walk down, he immediately went forward and said, "Young Master, the Seven Water Pavilion is one of our Lu family's vassals. The pavilion master of the Seven Water Pavilion is at the first level of the God Realm. Most of their cultivators are below the God Realm. Therefore, Young Master, you don't have to be too nervous."

Lu Xiaoran nodded.

In the Divine World, there were many such sects. It could even be said that there were countless of them.

These small sects were the best choices for countless cultivators before they officially stepped into the God Realm.

It was just like going to a high school or a primary school before going to university.

The sect master of such a sect would become the vassal of a powerful family to ensure healthy development of the sect and avoid being destroyed by other stronger factions.

The existence of such a small sect was very awkward. In the Divine World, they were like ants, but they had to exist.

After all, ordinary people did not have powerful connections and resources like aristocratic families or large sects. They could not cultivate from scratch.

The sect master and Elder Group of these sects were also usually formed by itinerant cultivators with no connections to each other. By providing cultivation resources for disciples below the God Realm, they are also able to obtain some resources for themselves.

Each party took what they needed.

When Lu Xiaoran arrived at the entrance of the mountain, he immediately received a warm welcome from the entire Seven Water Pavilion.

The sect master stood outside the mountain gate to welcome them personally. The people standing on both sides of the road were at least at the Saint Realm. Occasionally, one or two Supreme Realm experts would be mixed in. There were hundreds of them.

The elders were all Martial Monarch Realm experts.

If this were the lower realm, it would be unimaginable.

This was because this was only a sect.

For example, Su Chen's Hall of Gods had absorbed an entire empire's worth of sects. Only then could it be compared to the most ordinary sects in the Divine World.

"Welcome, Young Master Lu."

The Seven Water Pavilion's sect master immediately went forward and cupped his hands to welcome Lu Xiaoran. However, he secretly sized up Lu Xiaoran.

Steward Lu hurriedly said, "This is the Youngest Young Master who just returned to our Lu family. Eldest Young Master is currently in seclusion, so the matters today will all be handled by Youngest Young Master."

"Alright, alright. Then please enter the mountain gate first, Young Master. Our Seven Water Pavilion has already prepared a banquet for you to welcome you."

Lu Xiaoran walked into the mountain gate with a calm expression and could not help but sigh in his heart.

He had not imagined that he would also be treated as a rich second-generation heir one day,

It had to be said that this feeling was somewhat different. He was being flattered like an ancestor. Sigh, it was comfortable and satisfying.

Although everyone usually hated the rich and could not help but mock the rich second-generation heirs, it was still good to be rich.

"There's no need for that. Let's get down to business first."

Lu Xiaoran didn't really feel like posturing. He only wanted to get things done and also ask if he could sell his spirit stones.

He was not interested in a luxurious life at all.

A strange expression flashed in the sect master's eyes, but he still nodded obediently.

"Alright, then please move to the hall of the Seven Water Pavilion, Young Master Lu."

Lu Xiaoran quickly arrived at the Seven Water Pavilion to ask around and was invited to the seat of honor. As for the Seven Water Pavilion's sect master and the elders, they stood below in unison like primary school students waiting for their names to be called.

"Young Master Lu, this is the tribute our Seven Water Pavilion is offering to the Lu family this year. It's a total of 90,000 high-grade divine crystals."

As soon as he said this, Steward Lu could not help but frown.

“That’s not right. According to the scale of your Seven Water Pavilion, the annual offerings should be 100,000 high-grade divine crystals. Why is it only 90,000 this year?”

The Seven Water Pavilion’s sect master said with a trace of apology,

“I’m extremely sorry. Our Seven Water Pavilion has consumed too many spirit stones in the past two years, so we don’t have enough spirit stones at all. We’ll definitely make up for it next year.”

As soon as he finished speaking, the Seven Water Pavilion’s sect master immediately went forward and quietly handed Lu Xiaoran a small storage bag.

“Young Master Lu, I’m extremely sorry. Please make an exception. Next year, our Seven Water Pavilion will definitely compensate you more.”

Lu Xiaoran naturally knew that the other party was not lying.

Even those whose cultivation levels were one or two realm levels higher than his could not hide from him in terms of mental strength, let alone a mere first level God Realm cultivator.

He swept his divine sense over and saw that there were a total of 10,000 high-grade divine crystals in the small red packet the other party had given him.

It seemed that the other party not only had to give the Lu family offerings, but also had to give him a red packet. That was why it was not enough.

After weighing it, Lu Xiaoran continued, “I’m here to work for the family. Forgive me for not being able to agree to this. There simply is not enough.”

The Seven Water Pavilion Master’s expression immediately became somewhat ugly.

After all, he had already given Lu Xiaoran a huge red packet. If not for the red packet, he could actually meet the quota.

As for the red packet, it was also a tradition that could not be broken. He was also in a dilemma.

However, at this moment, Lu Xiaoran returned the divine crystals in his hand to the Seven Water Pavilion Master.

“How about this? Forget about the red packet you gave me. Take it and add it to the offerings.”

The Seven Water Pavilion Master was stunned, as if he did not expect Lu Xiaoran to be so kind.

To be honest, a large family like theirs could completely easily suppress the Seven Water Pavilion. They did not have to give the Seven Water Pavilion any face at all.

It was just a matter of words. If they had made demands, even if the Seven Water Pavilion had to take a loan, they would still have to pay it.

However, the other party was so magnanimous. This really made the sect master of the Seven Water Pavilion somewhat at a loss of words.

“Thank you, Young Master Lu! Thank you, Young Master Lu! Don’t worry, our Seven Water Pavilion will definitely offer you double the offerings next year. We definitely won’t let you lose anything.”

Steward Lu saw this and nodded slightly.

This young master was very capable and knowledgeable.

He had easily gotten the other party to owe him a favor. Now, it would also be convenient for him to recruit some useful people in the future to consolidate his status in the Lu family.

This was much better than 10,000 high-grade divine crystals.

However, in fact, he had guessed wrongly. Lu Xiaoran only did this because he did not care about a mere 10,000 high-grade divine crystals, let alone the so-called status of the Lu family.

He wanted to use the Seven Water Pavilion to get rid of the few hundred trillion spirit stones.

That was why he was so popular.

At this moment, the Seven Water Pavilion’s sect master suddenly turned around and shouted, “Qingxue, come in quickly and offer tea to Young Master Lu.”

The next moment, a woman with an excellent appearance and figure slowly walked into the hall with a pot of top-notch divine tea.

This woman’s appearance and other aspects were excellent.

The most wonderful thing was her two white jade mountains. The majestic aura of her chest could be said to be indomitable!

However, her expression was clearly somewhat cold and she clearly resisted Lu Xiaoran.

“Seven Water Pavilion’s Ling Qingxue greets Young Master Lu.”

Lu Xiaoran nodded and received the divine tea the other party offered, somewhat puzzled.

Before he could finish the pot of divine tea, the Seven Water Pavilion’s pavilion master smiled again and said, “Young Master Lu, this is our Seven Water Pavilion’s current Holy Maiden, Ling Qingxue. This woman is extremely intelligent and has excellent talent. We want to send her to the Lu family to serve Young Master Lu. I wonder if Young Master Lu is willing?”

Lu Xiaoran had just finished drinking a mouthful of tea. Because of this, he almost sprayed all the water in his mouth onto Ling Qingxue’s face!

Fortunately, he was calm enough to not spit it out.

Otherwise, it would be very embarrassing.
