

AN EXPERT 501

Chapter 501 Killing Everyone

A total of 31 experts had arrived in the Great Void!

Because these experts were too powerful, the surrounding spatial barrier shattered, revealing a two-dimensional, three-dimensional, and even four-dimensional world!

The entire three worlds had formed a collapsed area.

In this collapsed area, it was difficult for any weak life to exist.

It was also thanks to Lu Xiaoran that he had put the three worlds into his Mountain and River State Painting in advance.

If he had not stored the three worlds into the Mountain and River State Painting in advance, the other party would probably have already destroyed the entire three worlds with their auras at this moment.

“Is everyone here?”

Seeing that no more space shattered and no more people came, Lu Xiaoran said leisurely.

Everyone stared at him solemnly.

“The few of us are enough to deal with an immature brat like you.”

Lu Xiaoran smiled indifferently.

“It’s not certain who will win in the end.”

As soon as he finished speaking, he did not waste any more of his breath.

In such a desperate battle, it was very important to seize the initiative and win.

.....

This was because once he fell into a passive state, he would be unable to counterattack at all when facing the multiple attacks of 31 experts.

However, if he attacked first and rushed into the crowd, it was impossible for at least 31 experts to focus all their attacks at the same time.

It could also be said that with this combat method, he was able to use some of them as shields to slow down their attacks.

Lu Xiaoran held the Heaven-Opening Axe and with a thought, he had already arrived beside three of the experts.

Everyone was not stupid.

Everyone who could increase their cultivation to this level was no longer one in a hundred million, but an existence that was one in a trillion!

Everyone was experienced and knew what Lu Xiaoran's goal was by attacking first.

Therefore, the moment Lu Xiaoran arrived beside them, the three experts directly retreated and attacked at the same time, wanting to delay Lu Xiaoran's speed.

Almost in an instant, their attacks landed on Lu Xiaoran and directly detonated the spatial barrier to disturb the power of laws.

Then, everyone else began to attack. The 28 remaining experts also attacked and their attacks also landed on Lu Xiaoran almost at the same time.

In a battle between experts, victory was usually decided in an instant.

Their speed was too fast, so fast that it was impossible to calculate their speed in a millisecond.

Moreover, these people were smart. Even if they succeeded in one move, they would still continue to unleash more moves.

They were different from the stupid hot shots Lu Xiaoran had encountered.

These people were very smart.

If they did not completely blast Lu Xiaoran into pieces, they would definitely not let the matter rest.

After the explosion lasted for dozens of seconds, even the spatial barrier of the sixth dimension was shattered by them, revealing the seventh dimension. Only then did the 31 of them slowly stop attacking.

.

Moreover, even if they stopped attacking, they still placed a defensive barrier on each other to prevent Lu Xiaoran from escaping death and then attacking them.

Time passed second by second, but Lu Xiaoran still did not appear. Even when the interference fluctuations from the explosion completely disappeared, the place Lu Xiaoran was at was still empty.

Everyone could not help but frown slightly.

"What's going on? Could it be that he has already been killed by us?"

"As the dignified son of the first Creation God, he shouldn't be so weak, right?"

"Perhaps that's indeed the case? Don't forget that although he's the son of the first Creation God, he hasn't developed into the level of the first Creation God yet!"

"If so, no matter what, it is impossible for him to be so heaven-defying.

"If not for that, it would be impossible for the Creation Gods to let us deal with him.

"They would have personally taken action."

"Don't be careless. Against such an extremely terrifying existence, if we're careless, we might all be wiped out."

“That’s right. The reason why the Creation God let us take the lead is only because they want to observe what would happen. They want to see how powerful this so-called son of the Creation God is.”

“His strength is something even the Creation God and the others haven’t figured out yet.”

As soon as they finished speaking, the void barrier behind a ninth level Peerless Realm expert was suddenly shattered.

In the next second, a fatal golden light shot out from it and directly shattered his defensive barrier before splitting his body into two.

“What!”

Everyone’s pupils constricted. Clearly, they did not expect Lu Xiaoran to be able to unleash such a move.

“What’s going on? Where did he come from? Why didn’t we sense him just now?”

“He did indeed withstand our attack just now and was also beaten to the barrier of the seventh dimension. However, he probably returned from there!”

“That’s right. He condensed a very powerful force and broke through the layers of barriers in the seventh dimension in one go.”

“I see. By releasing an attack that is comparable to our attack for dozens of seconds, he can shatter the spatial barrier and achieve the goal of attacking us.”

“Because there were too many dimensions between us, we didn’t have the time to discover him at all.”

“Everyone, don’t panic! This is a good thing. This means that he’s not powerful. Otherwise, he wouldn’t have to go through so much trouble to kill us.”

“That’s right. Attack together and destroy him!”

Everyone began to be excited as if they had been injected with chicken blood.

However, at this moment, Lu Xiaoran was already in the middle of them. He used his exquisite footwork to circle around everyone.

Although in this way, the attacks hit him faster than before, they were not as dense.

In this way, he could kill a few more enemies while enduring the attacks.

His attack direction was very clear. He had not chosen the weakest. Instead, his targets contained both the strong and the weak.

This was because although the weak ones might not cause fatal damage to him at the moment, they could still block a portion of the attacks for him. As a result, he did not need to face the dense attacks of the stronger ones.

Enduring the several attacks that landed on his body, Lu Xiaoran held his breath and condensed all his strength into the Heaven-Opening Axe in his hand before fiercely slashing at the second target.

Boom!

Another golden light erupted. In an instant, the other party's protective barrier was torn apart by him! However, this time, the other party's defense was stronger. The other party's defensive speed was even faster than the Peerless Realm expert he had killed in the seventh dimension!

Chapter 502 Breakthrough, Ruler Realm

The Heaven-Opening Axe slashed at the other party's body. This was because the other party's body no longer had a protective barrier. With a crisp crack, the Chaos spirit treasure armor on his body was directly slashed open.

The other party was so shocked that he broke out in cold sweat. He did not dare to stop at all and immediately retreated as quickly as possible.

Lu Xiaoran was naturally not stupid. He knew that if the other party escaped, the other party would recover in the next second. Therefore, he did not give the other party a chance to escape at all.

As the other party moved, he directly raised his hand and threw out a Chaos spirit treasure. It crawled into the crack in the other party's armor and directly detonated.

One move!

This move directly made the power of laws in the other party's body tremble.

At this moment, the speed of the other party's retreat was instantly slowed.

As for Lu Xiaoran, he took this opportunity to rush into the explosion desperately and hack at the other party's wound.

Boom!

With another loud bang, another expert died. After the explosion disappeared, Lu Xiaoran also suffered a lot of damage.

Many parts of his body had been blasted apart, and his flesh was a mess. In some places, even ghastly white bones could be seen.

This terrifying scene made the other experts unable to help but shudder.

Lu Xiaoran's battle intent was too powerful, and his faith was even stronger!

In fact, the higher the cultivation level, the more one feared death!

The world always thought that stronger experts had broader thoughts.

That was only a habit they had when dealing with ordinary matters.

If their lives were really at stake, they would care more than ordinary people.

After all, no one knew how much struggle they had to go through.

Every top-notch expert had overcome countless difficulties along the way.

Therefore, they knew better than ordinary people how precious life was and the benefits of a powerful cultivation.

If they died, everything would disappear. Even if they could reincarnate and cultivate again in the future, how many years would it take for them to gain their cultivation back?

Soon, the injuries on Lu Xiaoran's body healed.

It was not that no one attacked during this period of time. However, because everything happened too quickly, the battle that happened during this time could be ignored.

After experiencing the battle just now, everyone's attacks became even more ferocious. Moreover, they chased Lu Xiaoran ferociously, not prepared to let him breathe.

This was because Lu Xiaoran's strength had already made them really take him seriously.

They had already sensed that although there were a lot of people on their side, if they did not fight this battle well, they might really die.

Lu Xiaoran had long expected this situation.

Why?

Once he displayed a powerful enough threat to others, the other party would be vigilant. Their attacks would definitely be more concentrated than before.

more

However, he was not afraid.

This was because although the other party's attacks had become more dense and numerous, his strength was also changing.

Now that Wang Cai had sacrificed itself to build a bridge between him and the disciples of the Nameless Sect, if his disciples' cultivation increased, his strength would also increase.

Thousands of disciples were refining the Primordial Purple Qi at the same time. The refinement speed was also terrifyingly fast.

In the Primordial Pearl, the Primordial Purple Qi was as vast as the sea. There were countless of them and they were simply endless.

Boom! Boom! Boom!

The attacks from outside kept landing on Lu Xiaoran. Lu Xiaoran slashed with the Heaven-Opening Axe. Because the attacks were too dense, it was impossible for him to block all the attacks.

However, as long as he could block more than half of it, it did not matter even if the remaining portion fell on him.

The continuous increase in his cultivation would allow his body to be repaired endlessly.

The injuries the other party had left on him could not beat his recovery speed.

If so, why should he care?

This continued for dozens of breaths. Suddenly, an even stronger energy suddenly erupted from Lu Xiaoran's body, shaking the heavens and the earth!

The aura made the surrounding space begin to tremble.

The pupils of the experts who were attacking could not help but shrink when they felt this aura.

"His cultivation is rising?! Could it be that he broke through?"

"That's not necessarily true. It's possible that he used a secret technique or some medicinal pill to barely increase his strength. Moreover, it can probably only increase his strength for a short period of time."

"His cultivation just now was only at the tenth level of the Peerless Realm. It's definitely impossible for him to advance his strength in such a short period of time."

"No, he broke through. He's the son of the First Creation God and still has the Primordial Pearl created by the First Creation God. It's not difficult for him to do this."

"Damn it!"

Someone spat and rushed out without delay.

"Kill him! Don't give him a chance to continue improving."

However, just as the expert who spoke rushed towards Lu Xiaoran, a powerful light slashed over horizontally in the next second, cutting through the Great Void. He did not even have the chance to dodge and directly watched helplessly as he was slashed into two! "No!"

Before he was destroyed, he let out an unwilling roar. Unfortunately, it was already too late. Unless the Creation Gods behind him personally attacked, it was impossible for him to be revived after being killed by the Heaven-Opening Axe.

Moreover, even if he was revived, he still had to cultivate again.

He was an expert at the tenth level of the Peerless Realm. At this level of cultivation, the cost of completely repairing his strength was really too high.

The dust dissipated again. Lu Xiaoran stood proudly in the Great Void with the Heaven-Opening Axe in one hand and looked at everyone calmly. There was no emotion at all, only coldness and dense killing intent!

Everyone's hearts beat faster and faster.

This guy had really broken through to the Ruler Realm.

“Damn it! This can’t continue. If this continues, we’ll only be sacrificing for nothing. We’ll use a secret technique to connect all our strength and directly form a whole. In this way, he won’t be able to attack us!”

Everyone replied and immediately worked together to condense their strength.

At this moment, no matter which faction they were from, it didn’t matter. They were all on the same side!

They all had the goal of killing Lu Xiaoran.

Soon, the strength of the remaining twenty or so experts condensed together, forming a single figure.

In an instant, everyone’s aura broke through to a limit, making Lu Xiaoran’s chest tighten!

“Lu Xiaoran, can you still continue to be arrogant now? Your attacks are already useless.”

However, just as he finished speaking, Lu Xiaoran suddenly transformed into a golden stream of light and flew straight towards a distant Great Void star.

Everyone was instantly speechless.

What was this?

This was quite special!

“No! He’s escaping! He’s escaping!”

Everyone was instantly in chaos.

No one expected him to do this.

This guy was simply shameless!

He had fought them and killed a few of them. In the end, when he saw the others combine forces to deal with him, he directly fled faster than a rabbit.

Who would believe that he had just broken through to the Ruler Realm?

He really had no bottom line!

Shameless!

How shameless!

Lu Xiaoran, who had already escaped far away, raised his middle finger behind him.

What he wanted was to live.

Only by living first was he qualified to talk about anything else!

He did not want face!

Moreover, wasn’t it more despicable for these people to suddenly fuse?

Chapter 503 Defeat One by One

In fact, Lu Xiaoran had no choice.

This was because his current strength was only at the Ruler Realm and had not reached the Creation God Realm. It was impossible for him to suppress these people.

What he needed now was to constantly increase his cultivation and strength. When his cultivation reached a certain level, he could fight them head-on.

This would not take long, and he did not need to hide for long.

He only needed to prolong the battle with the other party.

This was also thanks to him putting away the entire three worlds in advance.

If he did not take in the entire three worlds, the problem would be huge.

As for the other experts, after seeing Lu Xiaoran escape, they were first stunned because they did not expect Lu Xiaoran to actually run.

However, when they reacted, they immediately began to pursue Lu Xiaoran.

“Quick! Don’t let him escape.” After the battle just now, they all knew that Lu Xiaoran’s strength was constantly increasing. If they did not capture him now and gave him a chance to advance to the Creation God, Lu Xiaoran would definitely attack them later.

No one wanted to wait until then to be at the mercy of others. Therefore, they had to kill him!

“Let’s not chase after him together. This is too much of a waste of time. Let’s send someone back to inform the Creation Gods of the situation here.”

“After the Creation God and the others arrive, this brat won’t be able to escape even if he has wings.”

Everyone soon split up. The two Peerless Realm experts with the lowest cultivation returned to report to the Creation Gods.

The others all chased after Lu Xiaoran.

Lu Xiaoran silently counted the cultivation in his body and made a rough judgment as time passed.

The disciples were crazily refining the Primordial Purple Qi to provide him with strength.

According to the current level, he would probably be able to increase his cultivation to the second level of the Ruler Realm in five minutes.

At that time, he could return to attack and last for a while.

As time passed, his cultivation would increase again. Once it increased to the third level of the Ruler Realm, he would basically be able to turn the tables.

Time passed second by second. Wherever this group of people passed, they were like locusts. As long as they passed by a place, because the power of laws was too powerful, it would cause a huge fluctuation in all the worlds on their path.

Some of the lives in these worlds were even directly affected and more than 90% of the life forms living inside died.

In front of a Peerless Realm expert and a Ruler Realm expert, the experts of any world seemed so insignificant, like a group of small ants.

Countless living beings wailed as they turned to ashes.

This could not be described as a tragedy because too many worlds had been implicated.

However, although this was the case, Lu Xiaoran had no intention of stopping.

He would not pity these people because once he stopped, he would die!

Between his own death and the death of others, he would definitely choose to let others die.

If he died, he would have nothing. However, if he could become a Creation God or even that legendary ancestor in the end, he would have the strength to create everything. He could do anything he wanted!

Finally, after an entire incense stick of time, everyone had crossed more than half of the Great Void. The cultivation in Lu Xiaoran's body fluctuated again.

His strength had become even stronger. His cultivation had increased to the second level of the Ruler Realm!

Everyone sensed this aura and immediately could not help but tremble.

It was too terrifying!

Among them, if anyone wanted to increase their strength, they would probably have to spend tens of thousands of years or even longer.

Moreover, they still needed a certain opportunity and enough comprehension to break through.

However, Lu Xiaoran had broken through just because he wanted to. Moreover, he had broken through for such a short period of time. He was simply not giving them a way out.

In fact, this was because Lu Xiaoran had absorbed the precious cultivation experience of his father's life. By using this experience, he could make up for his lack of comprehension.

As long as there was no problem with his comprehension, he would not suffer from qi deviation. He could rest assured and absorb the power of the Primordial Purple Qi without any fear.

This was the greatest reason why his cultivation increased so quickly!

He had a good father!

It was good!

Thinking about it carefully, he had Wang Cai in the early stages and a father in the later stages. His life had been worth it.

In the past, he hated it when others cheated. However, when it was his turn to cheat, it had to be said that the more he cheated, the more he liked the feeling!

The moment his cultivation increased, Lu Xiaoran's figure paused for a moment. It was also at this moment that the others caught up to him.

It could not be helped. Everyone was too fast.

However, this was also within his plan.

Lu Xiaoran took advantage of the remaining strength of his breakthrough to grip the Heaven-Opening Axe tightly.

The golden light instantly spread for ten thousand feet, cutting and shattering the Great Void again.

The strength this time was far stronger than before.

In the blink of an eye, he arrived in front of the Peerless Realm and Ruler Realm experts.

The ones at the front were all Ruler Realm experts. Their strength was not much different from Lu Xiaoran's. Therefore, the moment Lu Xiaoran attacked, more than ten Ruler Realm experts also attacked at the same time!

Several lights collided with the Heaven-Opening Axe.

Boom!

A violent explosion resounded in this small world.

The powerful force even shattered the surrounding worlds on the spot, turning countless living beings into ashes.

The tragedy of this exchange exceeded everyone's imagination.

It had been a long time since such a battle had occurred in the Great Void.

Because his strength had been divided to resist, Lu Xiaoran's move did not kill or even severely injure anyone.

However, as he expected, it was not a big problem.

As he swung his axe, his body also flew towards everyone.

When the attack collided with more than ten Ruler Realm experts, he had already passed everyone before the explosion ended.

"Not good, his sights are set on the ones behind."

Although the people behind were all Peerless Realm experts, they still belonged to their respective factions. If they really died, the Creation God would blame them and they would not be able to bear this sin.

Moreover, although Peerless Realm experts were no longer a match for a Ruler Realm expert, they could still restrain a Ruler Realm expert and let the others attack more fiercely.

Unfortunately, it was already too late.

Lu Xiaoran surpassed their heads. He condensed his full strength in the second move and unleashed an attack on everyone's heads.

The powerful axe beam shot out a hundred million feet of light, directly blasting the three Peerless Realm experts in front of him into ashes on the spot! With a single move, Lu Xiaoran killed another three experts!

Chapter 504 Brothers, I've Returned From the World of the Undead!

"Damn bastard! I'm going to kill you!"

The experts fell into anger, but Lu Xiaoran did not care at all.

He took the opportunity to pursue and attack another Peerless Realm expert.

Boom!

That Peerless Realm expert was also slashed apart alive. The energy in his body was completely out of control and kept spreading in the entire universe, like a star exploding.

At this moment, the other experts had already arrived beside Lu Xiaoran. Their attacks directly landed mercilessly on Lu Xiaoran.

Boom! Boom! Boom!

Every one of these powerful attacks was not inferior to Lu Xiaoran's attacks.

At the same time, when it struck Lu Xiaoran, the explosive force directly blasted Lu Xiaoran 5,000 kilometers away!

However, to experts like them, this distance was fleeting

Lu Xiaoran's injuries began to quickly recover. When he had recovered 90% of his injuries, everyone had already attacked again!

Boom! Boom! Boom!

At this moment, Lu Xiaoran was injured again in the blink of an eye.

The power of laws was trembling and had even affected the Mountain and River State Painting on Lu Xiaoran's body, making the living beings of the three worlds in the Mountain and River State Painting unable to help but tremble in fear.

The ground under their feet began to tremble slightly.

In the Primordial Pearl, Ji Wuxia's expression began to turn solemn.

"It's somewhat dangerous. Master is facing too many enemies. Moreover, the strength of these people is not inferior to his. It's really difficult for him to resist so many people attacking him at the same time."

Fang Tianyuan's expression was also very ugly.

"That's right. Although Master's strength is increasing, the speed of the increase is far inferior to the difference in numbers.

"According to the current situation, even if Master recovers very quickly, if the damage the other party causes to Master every time exceeds Master's recovery speed, Master will definitely not be able to withstand it."

Zhuge Ziqiong said coldly, "This is not the most troublesome. After all, although the other party has a lot of people, their strength is not much different from Master's.

"If the Creation God arrived, Master would probably be completely unable to resist.

"At that time, it will be useless no matter how unwilling we are."

Everyone clenched their fists tightly. It was not that they had not thought of this situation. However, facing this predicament at this moment, they already had a headache. They really could not think of another more serious situation.

The battle was still ongoing. Although Lu Xiaoran was severely injured and was being attacked endlessly by the other party, he was still trying his best to hold on. Moreover, he kept waving the Pangu Axe in his hand to fight the enemy.

At the same time, he kept taking out his treasures and detonating them. With this method, he could resist a portion of the other party's attack and use this opportunity to kill another Ruler Realm expert!

In this way, as long as he gritted his teeth and persisted, he might still have a chance!

The other experts were also stunned by Lu Xiaoran's ruthless appearance.

They absolutely could not let him live!

This was basically what everyone was thinking at this moment.

Lu Xiaoran was really too powerful. He had only relied on his cultivation at the second level of the Ruler Realm to reach this level and fight so many of them without dying.

If his cultivation increased by another level, they would really be unable to resist him.

Perhaps it was destined that Lu Xiaoran would rise powerfully. After the battle lasted for fifteen minutes, his cultivation actually broke through again.

Third level of the Ruler Realm!

After breaking through to the third level of the Ruler Realm, the might Lu Xiaoran displayed was even greater. He actually vaguely felt like he was about to turn the tables!

In fact, this was also within Lu Xiaoran's plan.

This was what he wanted. This was also his greatest hope of victory.

He could use the battle to stall for time. As long as there was enough time, he could advance.

In this way, no matter how powerful the other party was, as long as the other party did not kill him directly, he would be able to increase his strength endlessly like an immortal cockroach.

Seeing Lu Xiaoran advance to the third level of the Ruler Realm, everyone could not take it anymore.

How were they supposed to fight?

The other party was simply becoming stronger and stronger.

If this continued, when Lu Xiaoran's cultivation increased by another realm, they would probably be unable to even injure Lu Xiaoran.

"We can't delay any longer. If we continue to delay, all of us will die."

Quick, summon all the experts from the nearby galaxies to attack him together.

"As long as we have enough people, it's impossible for his recovery speed to surpass the damage of our attacks. This way, we can still suppress him for a while.

"Otherwise, by the time the Creation Gods arrive, we will probably all be dead."

As soon as they finished speaking, the experts began to use their thoughts to communicate with the nearby experts.

After sensing their summoning, spatial fluctuations sounded.

Those were the experts from the nearby galaxies!

They had come!

The spatial barrier shattered again, one after another, as if death flowers were blooming.

Lu Xiaoran's heart suddenly sank. When the other disciples saw this scene, their hearts that had just been ignited with hope seemed to have been splashed with cold water in the blink of an eye.

"Damn it! I was so close. If Master had been given a little more time, he would have definitely won.

"At that time, as long as we avoid those Creation Gods and let Master completely refine the Primordial Pearl, we will definitely win!"

"What's the use of saying this now? It's all over. With so many experts coming together, there's probably more than a hundred of them. If they attack at the same time, it's useless no matter how fast Master's recovery speed is."

“Damn it! We only became who we are today because of Master’s guidance. However, now, we can’t help Master at all. What a group of trash!”

However, just as everyone was anxious and regretful, a familiar voice suddenly entered everyone’s minds.

“Brothers, do you need help?”

Everyone’s hearts trembled.

“This voice, this is...”

“Impossible! How is this possible? Isn’t he already dead?”

“Am I hallucinating? Yes, I must be hallucinating!”

“Sixth Master Song, screw you! I’ve returned from the world of the undead!”

As soon as he finished speaking, the spatial barrier was torn apart. A figure covered in blood light broke through several spatial dimension barriers and rushed out of the endless darkness.

He came out of the darkness and swung the spear in his hand. After swinging his spear, several lights bombarded the more than a hundred spatial rifts that had just been broken.

As soon as this move was unleashed, the surrounding space was instantly disturbed. For a short period of time, the spatial teleportation tunnels were unable to connect to this area.

Chapter 505 Creation God Descends! What’s to Be Afraid of?

“Eldest Senior Brother, Eldest Senior Brother is really back!”

“Wuwuwu... Eldest Senior Brother is not dead! Eldest Senior Brother is back!”

Everyone was extremely excited and tears streamed down their faces.

Lu Xiaoran scolded with a smile,

“You brat! I knew that you wouldn’t die so easily.”

Yun Lige approached Lu Xiaoran and chuckled.

“Of course. I’m Master’s chief disciple. I’m still waiting for you to pass the Nameless Sect to me after you ascend. How can I die so easily?”

“Brat!”

Lu Xiaoran cursed again with a smile, but his expression quickly turned solemn.

“How did your current cultivation increase so quickly? You’ve already reached the fourth level of the Peerless Realm?”

Yun Lige smiled smugly.

"I entered the Nine Nether Land and absorbed everyone in the Nine Nether Land. There are many experts inside. After all, they've been gathering countless experts from the three worlds since ancient times.

.....

"Before coming, I had even absorbed Patriarch Hongjun and the others.

"That's why my strength has increased so much."

"What about the Nine Nether Master of the Nine Nether Land? It shouldn't be possible for her to let you come so easily, right?"

"She's your disciple-in-law now!"

Lu Xiaoran : "..."

"You brat! You sure know how to have fun!"

"Let's not talk anymore. It's more important to deal with the people in front of us first. We have to wait for the spatial barrier to completely recover. After that, the other experts will also enter. At that time, there will be too many of them. The two of us won't be able to defeat them at all."

"Do you have a good idea?"

"With our current strength, we're actually still unable to defeat the other party."

"After all, you're only at the third level of the Ruler Realm, and I'm only at the fourth level of the Peerless Realm.

"The only way is to let your strength break through again.

"Previously, when I died, ever since I entered the Nine Nether, I was unable to continue providing you with cultivation every time I increased my cultivation.

"Because the connection between us has already been completely severed, let me enter a master-disciple contract with you again.

"In this way, you can obtain the cultivation enhancement from me again."

"Lige."

Lu Xiaoran was somewhat touched.

Actually, Yun Lige's current strength was already very powerful. If he did not come out and stayed in the Nine Nether Land with the Nine Nether Master, he could have easily avoided having anything to do with his battle.

After dying, he was no longer related to Lu Xiaoran. Those Creation Gods basically would not find trouble with him.

However, even so, he had still returned. At such a critical moment, he had still chosen to establish a master-disciple relationship with Lu Xiaoran again.

Indeed, one's loyalty was revealed in adversity! At this moment, the other experts had already surrounded him again.

"Although I don't know what the two of you are doing, if you want to succeed, you have to at least go through us first, right?"

Yun Lige did not delay at all and immediately used his blood essence to establish a master-disciple contract with Lu Xiaoran.

Lu Xiaoran added his information to the bridge Wang Cai built.

At this moment, his connection with Yun Lige was reestablished.

Then, he quickly put Yun Lige into the Primordial Pearl.

Yun Lige immediately began to refine the Primordial Purple Qi with everyone.

His cultivation was much stronger than the others, so the refinement speed was naturally much stronger.

Lu Xiaoran clearly felt that his cultivation was rising much faster than before.

Boom!

At the same time, the other party's attack had already landed on him and directly riddled his body with holes again.

However, Lu Xiaoran's recovery speed was very fast and he recovered again in the blink of an eye.

Moreover, the aura on his body was also becoming stronger endlessly.

This cycle repeated again and again. This time, in less than five minutes, Lu Xiaoran had already broken through again.

Fourth level of the Ruler Realm!

Seeing this scene, the expressions of everyone present changed drastically.

At this moment, the spatial order finally recovered. Nearly a hundred experts flew out of the spatial tunnel.

"Lu Xiaoran, die!"

Some of the experts who had just arrived had already sounded smug and cold.

However, they were quickly greeted with Lu Xiaoran's axe!

One move!

With just a single move, he had directly killed a first level Ruler Realm expert and four seventh level Peerless Realm experts.

The other hundred experts all trembled coldly.

“How did he suddenly become so powerful?”

“Stop talking nonsense. He has a treasure passed down by the First Creation God. His cultivation is rising crazily every moment. We can’t let him continue.”

“The longer we delay, the stronger he will be.

“Use a sealing technique to gather the strength of all of us to seal him before attacking together. No matter how heaven-defying he is, it’s impossible for him to ignore the strength of so many Peerless Realm and Ruler Realm experts, right?”

“Alright!”

The hundred experts worked together and condensed countless seals at the fastest speed. Moreover, they fused together to strengthen the seal.

In this way, Lu Xiaoran would fall into everyone’s control.

Facing these countless seals, all the disciples of the Nameless Sect could not help but panic.

“What should we do? If this seal succeeds, it will suppress Master’s strength. At that time, no matter how powerful Master’s recovery ability is, it will be far from possible for him to resist the attack of more than a hundred experts in an instant!”

Facing this scene, Lu Xiaoran slashed crazily. Because the recovery speed of the Heaven-Opening Axe in his hand was too fast, the entire axe began to emit a dense fiery red color.

Countless power of laws constantly raged in the universe.

However, this was still unable to resist the seal because there were really too many enemies.

At the critical moment, Yun Lige gritted his teeth and said, “Master! Give me the control of the Primordial Pearl and the Mountain and River State Painting!”

Although Lu Xiaoran did not know what the other party wanted to do, he knew that the other party would not harm him. Therefore, he directly transferred the control to Yun Lige.

After Yun Lige obtained control, he immediately summoned the Mountain and River State Painting into the Primordial Pearl.

Then, he circulated his divine sense and transmitted the following message to the entire three worlds!

“Everyone in the three worlds, listen up. I’m Lu Xiaoran’s chief disciple, Yun Lige!

“Now, we are facing a life and death battle!

“If my master dies, you won’t be able to live either.

“Our enemies will definitely not allow any faction that belongs to my master to survive.

“Therefore, I need your help to help us refine the Primordial Purple Qi.”

Then, he continued, “Wang Cai! If you’re not dead, split your strength to the entire three worlds and connect it to my master! Whether we live or die depends on this!”

As soon as he finished speaking, countless golden lights were born in the Primordial Pearl and rushed into the three worlds.

At this moment, be it the people who knew Lu Xiaoran or the people that did not, they all grasped the golden light.

A huge amount of Primordial Purple Qi surged into the three worlds. Because of Yun Lige’s control, the Primordial Purple Qi would not injure these ordinary people.

In the three worlds, there were many very weak existences.

However, there were simply too many of them. As the saying went, water droplets can accumulate into an ocean.

With so many people helping him refine the Primordial Purple Qi, Lu Xiaoran’s speed at obtaining the Primordial Purple Qi would increase even more.

Originally, he was already about to be suppressed by the sealing technique of more than a hundred experts.

However, in the blink of an eye, his cultivation began to increase rapidly. Then, at lightning speed, he quickly broke through to the fifth level of the Ruler Realm.

As soon as the powerful aura erupted, it directly blocked the sealing technique and stopped it from continuing to shrink.

Then, as time passed, Lu Xiaoran broke through again.

Sixth level of the Ruler Realm!

Seventh level of the Ruler Realm!

Eighth level of the Ruler Realm!

Ninth level of the Ruler Realm!

Tenth level of the Ruler Realm!

“I can’t take it anymore!”

A Peerless Realm expert’s face turned red as he shouted. In the next second, the seal set up by more than a hundred experts was directly exploded by Lu Xiaoran.

It exploded purely because of Lu Xiaoran’s strength!

“Beautiful!”

Yun Lige shouted.

As Lu Xiaoran’s strength increased, their cultivation also increased endlessly as they refined the Primordial Purple Qi.

In the blink of an eye, Yun Lige had already broken through past the Peerless Realm and reached the Ruler Realm. The other disciples also followed closely behind.

Lu Xiaoran sensed the powerful strength in his body. He grabbed the Heaven-Opening Axe and swung it!

A golden light slashed out destructively.

In just 0.001 seconds, dozens of experts exploded wherever the axe beam swept!

“Damn it! Run!”

At this moment, no one dared to stay here anymore.

Lu Xiaoran’s strength was too powerful and terrifying. His advancement speed was even more monstrous and he was simply unable to fight.

If they retreated now, they might be punished, but at least they wouldn’t die and still had a chance of survival.

If they stayed, they would definitely die.

After the first person escaped, another person wanted to follow suit. Their faith had already collapsed.

Yun Lige and the others were overjoyed. As long as some of them escaped, it meant that the temporary danger had been resolved.

However, at this moment, before everyone could heave a sigh of relief, the escaping Peerless Realm and Ruler Realm experts suddenly exploded into nine-colored blood mist.

“A group of trash. I gathered so many Peerless Realm and Ruler Realm experts to work together to deal with one guy, but you guys still ended up in this state.

“Looks like we still have to deal with this ourselves.”

As they spoke, powerful figures filled with an ancient aura arrived one after another.

Lu Xiaoran narrowed his eyes, and everyone in the Primordial Pearl felt their heart tighten.

It was a Creation God!

The Creation Gods were here!

He did not expect the Creation Gods to arrive so quickly.

Everyone was still cultivating diligently to increase Lu Xiaoran’s strength.

However, this speed was no longer as fast as before. This was because the higher one’s cultivation was, the longer it would take to increase one’s cultivation.

“He hasn’t really become a Creation God yet. Destroy him before he becomes a Creation God!”

Chapter 506 An Imperfect End (1)

As soon as the Creation God appeared, the situation Lu Xiaoran had just resolved became extremely dangerous in the blink of an eye.

There were a total of seven Creation Gods. However, because Lu Xiaoran’s father had already passed away, there were now only six left.

However, even if there were only these six Creation God Realm experts, they were still not easy to deal with.

Their strength was the strongest in the entire Great Void.

It could even be said to be the ceiling.

At this moment, everyone’s hearts sank.

Could it be that in the end, they still could not change anything?

Boom!

Without any warning, the Creation Gods suddenly attacked and directly exploded Lu Xiaoran’s body in the blink of an eye.

They were much stronger than those Peerless Realm and Ruler Realm experts.

They were simply miles apart.

Lu Xiaoran’s body was quickly repaired. However, the other party attacked again and exploded again in the blink of an eye.

.....

“Damn it!”

Yun Lige and the others clenched their fists tightly. Facing this powerful force, they were really in complete despair.

They could tell that the attack of a Creation God could even injure the power of laws.

The injuries Lu Xiaoran suffered were almost irreversible. Even if he repaired his body again, his strength would still constantly decrease until all his cultivation was crippled. At that time, it would be impossible for him to be revived.

This process would at most take a minute.

What should they do?

What should they do?

Everyone was as anxious as ants on a hot pan.

At this moment, Ji Wuxia was surprisingly calm.

“Eldest Senior Brother, if I remember correctly, your Primordial Chaos Emperor Scripture has an extremely special ability that you’ve never used, right?”

Yun Lige nodded, but his expression was extremely solemn.

“You’re right. However, that special ability is not something I can use just because I want to. It requires the cooperation of someone other than the caster.”

Fang Tianyuan hurriedly asked, “What ability is that?”

“Boundless Maha! It’s a move that transcends the Primordial Chaos Emperor Scripture.

“It could take in the strength of others for its own use.

“Once it was used, everyone who entered the range of the cultivation technique would be swallowed. Their souls, life marks, Essence Soul, bodies... everything would be obliterated and they would be unable to reincarnate for eternity.

“Moreover, I can only use the cultivation technique if everyone who enters does it voluntarily. Otherwise, it will not work.”

Everyone’s hearts trembled. It was actually such a cultivation technique!

At this moment, another violent explosion sounded from outside. Lu Xiaoran’s cultivation fell a few more levels.

If this continued, even if everyone had a way, it would be too late.

Fang Tianyuan took a deep breath and said with a solemn expression, “My life was originally given to me by Master. If not for Master, I would have died long ago. Now, it’s only reasonable for me to return my life to Master. Why wouldn’t I be willing? Let’s begin, Eldest Senior Brother.”

Li Changsheng and the others also said, “That’s right! Eldest Senior Brother, quickly use this cultivation technique. If we delay any longer, it’ll really be too late.”

Looking at his determined junior brothers and sisters, Yun Lige took a deep breath and nodded with a solemn expression.

He had such an experience and knew that everyone’s feelings for his master were as deep as his.

At this moment, everyone was willing to sacrifice themselves to save their master.

Yun Lige quickly used his cultivation technique, and his body transformed into a huge black hole.

The moment the black hole appeared, Ji Wuxia directly transformed into a nine-colored phoenix and was the first to rush into the black hole. Then, Fang Tianyuan, Li Changsheng, Zhuge Ziqiong, Song Xinian, Jun Bujian, Jiang Taixuan, and Su Lingwu all followed suit.

Not a single one of them backed off. Everyone chose to selflessly sacrifice themselves.

Lu Xiaoran's thoughts roared, "Stop, stop! Who allowed you to do this? Stop!"

However, no one would listen to him. After Jiang Taixuan went, it would be the turn of the disciples of the Nameless Sect.

Jun Changming, Lu Xiaochen, School Master Tongtian, Houtu... In this final battle, they no longer cared about their lives.

Everyone's thoughts were very simple. They wanted Lu Xiaoran to live!

In fact, if Lu Xiaoran died, they would also die.

However, if their deaths could be exchanged for Lu Xiaoran's life, why would any of them be unwilling to die?

The more the Boundless Maha absorbed, the more power it absorbed. However, it was still far from enough. This was because Yun Lige needed enough strength to help Lu Xiaoran break through to the Creation God Realm in an instant.

Because Lu Xiaoran had been attacked by the Creation Gods, his cultivation had already decreased by a portion. He was no longer at the tenth level of the Ruler Realm.

Therefore, Yun Lige still needed more strength.

At this moment, several more figures suddenly flew out from the three worlds.

"Although our strength is very weak, we should be able to help a little."

Yun Lige's heart trembled. There were many faces he had seen and experienced before.

There was the sect master of the Heaven Demon Sect, Li Daoran, Elder Huang... the sect master of the Black Tortoise Divine Sect, the elders, and many other factions in the Divine World. Other than the Lu family, there were also some friends he had once made.

"Everyone! Thank you!"

Yun Lige did not expect so many people to help. His eyes began to turn moist and red.

One after another, figures rushed into the Boundless Maha Black Hole.

Finally, when the strength reached a peak, Yun Lige directly fused this strength with his own strength before letting Lu Xiaoran's body absorb everything.

Chapter 507 An Imperfect End (2)

At this moment, Lu Xiaoran's aura suddenly erupted.

The entire Great Void began to tremble.

The expressions of the six Creation Gods suddenly changed.

"How is this possible? At this moment, he can still counterattack?"

“Don’t worry about him. This might be some backup plan the First Creation God left for him. Quickly attack and destroy him!”

A powerful force pressed down again.

However, this time, the power was not enough.

Boom!

The strength of the six Creation Gods was suddenly blocked. Everyone’s hearts trembled. Before they could react, a golden body suddenly formed.

Colorful lights emitted endlessly from the golden body.

It was a Creation God!

Lu Xiaoran had finally reached the level of a Creation God.

.....

“Damn it!”

The expressions of the six Creation Gods changed.

“I didn’t expect him to actually break through to this level in the end. How did he do it?”

“There’s no need to worry about that. So what if he breaks through?”

“Back then, we killed his father. Now, we can also kill him! It’s nothing more than fighting another big battle!”

Lu Xiaoran looked at everyone coldly and only smiled coldly.

“Do you think I’ll be like my father?”

They were too naive.

“The reason why my father chose to fight you is because he was still concerned about me. He didn’t want to sacrifice me.

“Therefore, he chose to sacrifice himself and gave me this opportunity.

“However, now, I have nothing.

“I don’t have a father, disciples, or any relatives or friends. I’m completely alone.

“Therefore, I don’t have any worries.”

The six Creation Gods’ eyes turned cold.

“What do you mean?”

Lu Xiaoran took out the Primordial Pearl. The purple pearl emitted a strange light that illuminated the entire Great Void.

“What I mean is that I want to die with all of you!”

Ye Chen’s expression changed.

“He wants to detonate the Primordial Pearl in his hand.”

“Damn it! Don’t let him succeed. Snatch the Primordial Pearl from him!”

The six Creation Gods attacked at the same time, wanting to stop Lu Xiaoran. Unfortunately, Lu Xiaoran was determined.

So what if he became a Creation God?

In the past, he indeed wanted to become an invincible expert. He did not want to be too involved with anyone.

However, in the end, when he had already become a Creation God, he realized that it was impossible for a person to succeed alone.

Every figure one encountered on one’s journey, be it friends or enemies, they would ultimately become a part of one’s life, allowing one to develop endless connections with this world.

Therefore, one would no longer be alone. It is also impossible for one to get used to living alone.

The current him would only miss his disciples and friends every day even if he could survive.

The ones who caused all of this were the Creation Gods in front of him.

They were worried that he would pose a threat to them, so they forced them to this situation.

In that case, he would let the entire Great Void be peaceful together.

Light flashed and quickly spread, filling the entire universe.

It instantly swallowed everything.

Even Lu Xiaoran was unable to escape.

The entire universe was destroyed. After an unknown period of time, Lu Xiaoran felt as if he had arrived at a white world.

“Where... is this?”

He could not help but mutter.

“This is the core location of the Primordial Pearl!”

“You are?”

Lu Xiaoran could not help but frown slightly. Soon, the image of a little girl appeared in front of him.

“I’m an illusion of the Primordial Pearl. It can also be said to be a manifestation of the consciousness of the Primordial Pearl.”

“Didn’t I detonate the Primordial Pearl?”

“Yes, the Primordial Pearl was indeed blasted apart by you. Even the entire Great Void was blasted apart by you.” “Then why do I still exist?”

“Actually, you accidentally used the correct method of the Primordial Pearl.

“The Primordial Pearl was the essence of this universe to begin with. When it absorbed a certain amount of energy, a Creation God Realm expert could trigger it and destroy the entire universe. After destroying it, all the power would return to one, and the user could control all the power in the world.

“Then, the user would be able to use this power to create a new world.

“Everything in this world will be created by the user. Therefore, the user will be able to control the life and death of all living beings in the entire universe.

“This... is the way to become an Ancestor Realm expert! “

Lu Xiaoran was stunned. He did not expect the secret of the Ancestor Realm to be like this.

“Do you mean that I can create a new world now? Can there be people from the previous world in this world?”

The little girl shook her head.

“No, because before you start creating, everything is equivalent to being on the verge of initialization. Once you start creating, however, nothing from the previous world will exist. Even if you create the same people and give them all the same memories, they still won’t be the same. However, if you choose not to create anything, according to your wishes and choices, you can recover the previous backup.”

“In other words, I can still recover my previous world?”

The little girl nodded.

Lu Xiaoran was overjoyed.

“Then I want to recover the previous world, but I want to make some changes. I want to kill all those Creation God Realm experts and their subordinates and increase the cultivation of my disciples to the Creation God Realm!”

Chapter 508 An Imperfect End (3)

“They will be the ones that control the universe of the Great Void.”

“Have you thought it through? If you do this, you won’t exist anymore. This is because when you create a new world, you use the power of the new world. There are many powers for you to use. “However, if you recover and change the previous world, you will be unable to use this portion of your strength. Moreover, you are actually already dead now. It was the Primordial Pearl that locked your

consciousness. "After restoring the previous world, the power of the Primordial Pearl will also be exhausted, and it won't be able to protect you.

"I'm willing!"

Lu Xiaoran did not hesitate.

If not for his disciples sacrificing them at the last moment to save him, it would have been impossible for him to become an Ancestor Realm expert.

However, without them, what was the point of being an Ancestor Realm expert?

"You're such a strange lifeform. Among all the masters I've encountered in the history of the Primordial Pearl, you're the only one who chose to recover the previous world instead of creating a new one."

"Then let me be the first."

Lu Xiaoran closed his eyes, and the little girl shook her head slightly. She was unable to understand Lu Xiaoran's choice because she was only a consciousness without emotions.

After countless years, everything returned to square one.

However, there was a slight change.

The original Creation Gods were gone and were replaced by Yun Lige and the others!

.....

The entire Great Void Universe also returned to calm.

During this period, Yun Lige and the others had never given up on finding Lu Xiaoran.

At a certain bar on Earth.

"Hey, Seventh Brother Jun, you bastard. Didn't you say that you found traces of Master's existence on this planet? Why haven't you found Master yet?"

"Eldest Senior Brother, don't be angry! I'm really searching very hard. Master is not around, so I'm more anxious than you.

"I've searched all the universes outside the Great Void. Only this place has Master's aura. However, it's too weak and unstable, so it's very difficult for me to find it for the time being.

"Moreover, all of you are living a good life all day. It's also very difficult for me to find Master alone."

"Stop talking nonsense. Are you feeling aggrieved because I told you to look for Master? Do you believe that I'll beat you up?"

"Alright, alright, alright. I'll go and continue looking. I'll search non-stop. If I can't find Master, I won't rest, alright?"

After hanging up, Yun Lige could not help but ridicule,

“This Seventh Brother Jun is unreliable. I think we have to teach him a lesson. If not for the fact that only he and Second Junior Sister have Master’s bloodline and have a trace of connection, I would have long gone to find Master myself.”

Li Changsheng smiled.

“It can’t be helped. After all, he’s the reincarnation of the Ancestral Dragon and Second Senior Sister is the reincarnation of the Essence Phoenix.

“They were all separated from Pangu, and Master’s body came from Pangu. Only the two of them are still related to Master.”

“What has Second Brother Ji been doing recently? Why hasn’t she gone to find Master?”

“Second Senior Sister is currently writing a novel on a website called the Penguin Group, but her results are rather disappointing. She used our story with Master to write nearly 1.4 million words, but in the end, her book isn’t even a bestseller!”

“In the end, Sixth Brother and I even had to register secret alternate accounts just to give her an award.”

Yun Lige shook his head.

“This Junior Sister Ji has already become a Creation God, but she’s still so mysterious. Why would she write a novel for no reason? Isn’t she wasting her life? Back then, she liked to write in her diary. What ordinary person would keep a diary!”

“Second Senior Sister is still considered normal. At the very least, she hasn’t lost confidence in life.

“She had even begun to write her second novel—I’m Invincible in the Martial Dao Library.

“I saw that she was writing quite enthusiastically, so I registered an alternate account and gave her several awards. I think she won’t do poorly this time.

“In comparison, the other senior brothers are much more boring.

“Third Senior Brother had already returned to the Heaven Demon Sect and is living a drunken life on Zhishui Peak every day.

“Fifth Junior Sister and Sixth Junior Brother are patrolling the Great Void to prevent enemies from attacking.

“Eighth Brother and Ninth Brother’s whereabouts are unknown.

“Ever since Master left, our Nameless Sect has lost its backbone.

“Who would still be willing to stay here?”

“Alright, I won’t waste my breath on you. I’ll go out for a walk. Pay attention to the earnings from the brothels. Otherwise, Uncle-Master Daoran will say that the two of us are working together to bully him by giving him less dividends.”

“Don’t worry, leave it to me.”

Yun Lige walked out of the brothel. After his master left, he came here because Jun Bujian said that he had found his master’s aura in this world called Earth. Since he had nothing to do, he opened a brothel with Li Changsheng and Uncle-Master Li Daoran to pass the time.

Although the business of the brothel was becoming more and more popular, he still could not find his master.

Sweeping his gaze over the bustling city, he shook his head and lit a cigarette. With his hands in his pockets, he walked into the distance.

“Master! Are you still alive?”

“If you’re alive, give me a message.”

“I really miss you.”

After he walked over, a man holding a dog behind him could not help but ask in confusion, “Wang Cai, don’t you think that that person seems a little familiar?”

“Woof, woof woof woof!”

“Alright, alright, stop shouting. You’re making my head hurt. I’ll buy you some sausages now, alright? I hope the convenience store is still open.”

As he spoke, he led the dog in another direction.
