

Ancient 1301

Chapter 1301 Tiannan Star Region

Three days later, the majestic starship was launched, traveling through the boundless galaxy.

"boom!"

The terrifying acceleration array caused the entire starry sky ship to instantly exceed the speed of light, directly piercing a dark and deep black hole in the starry sky, and then penetrated the cosmic barrier between the first universe and the second universe in the dark void. We have arrived at a perfect world that is countless times vaster than the first universe!

This is the world of the second universe. It is a truly perfect big world. The universe is infinitely huge, and many high-level interfaces of the heavens and worlds, such as the demon world, the dragon world, the fairy world, the god world, etc., are all ups and downs. In this vast second universe.

Even the origins of countless legendary cultivation civilizations, the Great Continent, or the Great World, exists in a certain time and space dimension in this second universe.

Buzz!

At this time, when the starry sky ship was traveling rapidly in the boundless starry sky of the second universe.

One by one, the young experts who passed this test, or the registered disciples who could now be called the Galaxy Holy Land, all came to the deck of the giant ship and looked up at the vast starry sky.

Ye Feng also stood in the crowd, looking up at the sky, looking at the boundless starry sky, staring at the endless universe. Countless planets and stars were blooming with bright light, transmitted from the depths of the dark universe, which made people feel a little... dizzy.

"Is this the second universe? Is this the truly vast and perfect world?"

Ye Feng lifted up his black hood at this moment, revealing his true appearance.

Because no one knows him anymore on this giant ship in the starry sky.

Unfortunately, in the previous test, Chu Wudi and Xuanyuan Splitian, the only two descendants of the divine family who knew Ye Feng, failed to pass the final test.

This shows how strict Galaxy Holy Land is in recruiting new disciples.

At this moment, Ye Feng closed his eyes, feeling the boundless starry sky in the universe, and the energy breath of the second universe that was unfamiliar to him, but made his blood feel familiar and familiar.

Ye Feng has half of the blood of the human god emperor of the first universe, and also has the blood of the human race of the second universe. So when he came to the second universe, he only felt that the power emanating from the heaven, earth and universe was not so strange. , but there is a kind of cordial feeling.

This second universe's heaven and earth energy aura made the other half of Ye Feng's mother's divine bloodline that was sleeping in his body begin to throb.

"The energy breath of this second universe is indeed newer than that of the first universe.

The universe is much more powerful in nature, and I feel like my body is undergoing transformation almost all the time..."

Ye Feng felt the benefits at this time and couldn't help but murmured with excitement in his eyes.

"Everyone will wait until you arrive in the Tiannan Star Region, enter the Galaxy Holy Land, and receive your identity token and new disciple benefits. From now on, you will be the registered disciples of our Galaxy Holy Land. In the future, you will continue to grow and serve our Galaxy Holy Land in the Tiannan Star Region. Open up territory and expand the influence and territory of the Holy Land."

At this time, an old man walked out of the giant ship in the starry sky.

It was the white-haired elder from the Galaxy Holy Land who recruited new disciples.

The white-haired elder's cultivation was very powerful. The moment he came out, the fifty disciples sitting on the deck all stood up, bowed their hands to the white-haired elder, and said respectfully: "See you, elder. "

The white-haired elder waved his hand and said: "After you join our Galaxy Holy Land, you will all belong to the same sect. There is no need to be polite. After all, I am just an ordinary outer sect elder."

At this time, the white-haired elder spoke very modestly, which was completely opposite to his cold and domineering attitude when recruiting new disciples.

Because the white-haired elder knows that among the fifty new disciples present, there is no telling who will be able to rise up and become a core genius in the Holy Land after entering the Galaxy Holy Land. Then his status will rise, so at this time The white-haired elder's attitude in front of these fifty new disciples also changed greatly from before.

Especially the white-haired elder glanced at Ye Feng and thought to himself that this young man might be very extraordinary.

Although even the Holy Lord of the Galaxy and a group of important figures said before that there was something wrong with the ancient bronze bell, the ninety-nine and eighty-one ringing of the bell was just a misunderstanding.

But the white-haired elder had lived for so many years and was so scheming that he would not easily believe the words of those big shots.

And even if there is something wrong with the ancient bronze clock, then this young man named Ye Feng is definitely extraordinary.

At this time, the white-haired elder glanced at everyone, and then said: "Next, I will tell you about the situation of our Galaxy Holy Land."

Upon hearing this, many newcomers and disciples all looked happy and quickly sat down, ready to listen.

After all, it was their first time coming to the perfect world of the Second Universe, and they didn't understand anything.

Ye Feng also became serious and began to listen.

At this time, the white-haired old man said: "First of all, the Tiannan Star Region where our Galaxy Holy Land is located is the star region closest to your newborn small universe, the First Universe. This newborn universe, the First Universe, may not be as big as our Tiannan Star Region."

"As for our Tiannan Star Territory, in the second universe, it is only a very small star territory, belonging only to the 'First-Level Star Territory', and above the First-Level Star Territory, there is also a larger Second-Level Star Territory, and the Third-Level Star Territory is Level 1 star field...all the way to level 9 star field."

"Beyond the ninth-level star field, there are the legendary bronze star field, silver star field and gold star field! And those super powerful forces that can control the golden star field are the ones who stand in the perfect world pyramid of our second universe. The top existence can destroy an entire low-level star field with just one thought!"

When the white-haired elder said this, everyone present was shocked and stiffened.

The first universe, this new universe, is only as big as the Tiannan Star Region.

The Tiannan Star Region is only the lowest-level first-level star region in the second universe.

Above the first-level star field, there are second-level, third-level, and even ninth-level forbidden star fields, even bronze, silver and gold levels.

How terrifying and vast is this?

At this time, everyone finally understood why the second universe was called the real perfect world.

This is simply too vast!

In front of the second universe, the first universe is indeed just a small corner of a remote country.

If the first universe had not had its own independent cosmic will, I am afraid that the new universe of the first universe would have been directly destroyed by some evil force in the perfect world of the second universe.

At this moment, a new disciple couldn't help but murmured: "What kind of existence is the super power that stands at the top and controls the gold-level star field?"

The white-haired elder smiled slightly and said: "That is a height that we can never reach. Every star field that can be called a golden star field is boundless and vast, encompassing countless small star fields, and can control an entire gold level. The big forces in the Star Territory are all called the "Starry Overlord Forces"! As for the specific forces of the Starry Sky Overlords, I don't know that. After all, those big forces are too vast and too huge for us to be able to do. Contacted."

Having said this, the white-haired elder looked at everyone and said with a smile: "You join the Galaxy Holy Land, Galaxy Holy Land

The earth will cultivate you, and you will be able to help our Galaxy Holy Land defeat other major forces in the Tiannan Star Territory in the future, making our Galaxy Holy Land the controller of the Tiannan Star Territory. This is our Holy Land's greatest expectation for you. "

A new disciple couldn't help but whispered: "So, our Galaxy Holy Land is not even a first-level star power?"

The white-haired elder was not angry when he heard this. He just smiled and said: "You are right, but if our Galaxy Holy Land can all descend on your first universe, it will be enough to destroy your first universe. So, can you join us? The Holy Land of Galaxy is already very good, and our Holy Land of Galaxy can be considered a giant force in the Tiannan Star Region."

Ye Feng was suddenly confused at this time and asked: "Elder, can I ask you another question, what other giant forces are there in the Tiannan Star Region where our Galaxy Holy Land is located?"

When the white-haired elder saw that it was Ye Feng who was asking, he couldn't help but smile at him immediately and said very friendly: "This is a good question to ask. Ye Feng, you are more

stable. You must first understand everything in front of you before you can go far. We There are a total of five giant forces in the Tiannan Star Territory, carving up the entire Tiannan Star Territory. Of course, there are also countless other small forces under the giants. I will not mention this. Among the five giant forces, except for our Galaxy Holy Land, the other four giants are: Sea Holy Land, Danhuang Holy Sect, Tiannan Soul Sect, and Heavenly Demon Palace.”

Having said this, the white-haired elder continued: "In addition, there is also some basic knowledge, such as how to improve one's status in our Galaxy Holy Land, become a protector, become an elder, or advance to the outer sect or inner sect. Core disciples, etc., after you enter the Holy Land, there will be an introductory manual handed out to you along with the rewards for new disciples. You can just read it for yourself. Martial arts cultivation civilizations are all similar, and you must also participate in the first universe. The systems of some sect forces are actually similar, with minor differences. The difference is that here, you will get countless powerful inheritances, ancient treasures, etc. that you could not even imagine before. "

At this time, the white-haired elder finished speaking, and the group of new disciples all looked excited, and they all looked forward to the life of practicing in the Holy Land of Galaxy, which would be magnificent and full of passion.

At this time, Ye Feng looked inside at Miss Lan who was sealed in an ice coffin in the storage ring.

Once you enter the Galaxy Holy Land, you must find a way to treat Miss Lan as soon as possible.

And at this time, Ye Feng was also secretly guessing, "I wonder what level of power the Gu Clan Divine Kingdom, where my mother is located, will control in this perfect world..."

Chapter 1302 Special Treatment

The majestic starry sky ship, like an ancient evil beast, was driven by the acceleration formation, rampaging and traveling quickly in the boundless starry sky.

In less than half a month, the starry sky ship had already traveled through the starry sky, passing through many dead star fields, and finally arrived at the Tiannan Star Field.

The Tiannan Star Region is the closest star region with a cultivation civilization to the entrance of the First Universe. Therefore, I am afraid that only the giant forces in the Tiannan Star Region will think of various ways to block the cosmic will of the First Universe and enter the First Universe. , recruiting disciples with extraordinary talents.

After all, in the long history, there are still many warriors who came out of the new universe of the First Universe, who burst out with powerful qualifications in the Tiannan Star Territory and had a splendid history of practice.

Therefore, many giants in the Tiannan Star Territory are very welcoming to the wizards in the first universe.

Not only the Holy Land of Galaxy, but also the giant forces in other major Tiannan Star Regions will find ways to come to the first universe every few decades to see if they can recruit some new disciples with strong qualifications to serve their sects. Inject new blood into the door.

Buzz!

Three days later, the starry sky giant ship entered the northernmost starry sky area of the Tiannan Star Territory.

Finally, the giant ship fell from the starry sky and landed on a huge planet land.

At this time, everyone could no longer see the endless starry sky, and they came to a vast expanse of ground.

This living planet is extremely huge, so when everyone followed the starry sky ship to the ground, they could not see the spherical arc at the end of the ground with the naked eye, but thought it was a vast land with squares and squares.

At this time, the white-haired elder walked out of the giant ship in the starry sky, smiled and said to the many new disciples on the giant ship: "Our Galaxy Holy Land is in the center of this planet. When the time comes, when you enter the Holy Land, someone will pick you up. To lead you."

...

Three days later, Ye Feng was already in a huge crystal palace.

He sat by the window and looked at the Holy Land Newcomer Disciple's Manual in his hand.

There are many introductions to various places in the Tiannan Star Region. For example, on the unowned planets in the Tiannan Star Region, or on the abandoned starry sky continent, there are various kinds of heavenly materials and earthly treasures growing, and various treasures are buried. What are the dangers, and That is, where in the Tiannan Star Region live the most vicious star pirates, etc.

But what surprised Ye Feng the most was that, according to the relevant introduction in the Galaxy Holy Land Newcomer's Manual, although the planet where the Holy Land is located is also a very huge ancient planet with a vast territory, all the resources on the planet have been almost exhausted.

Therefore, if the disciples in the Galaxy Holy Land want to go out to practice and find opportunities and fortune, they must go out of the planet where the base camp is located and enter the vast starry sky to find treasures and opportunities.

In the depths of the second universe and the boundless starry sky, in addition to space pirates, there are also many dangers of nature.

Machines, such as the ubiquitous cosmic rays, turbulence in the starry sky, deep black holes, chaotic whirlpools, etc., are all huge dangers in the starry sky.

Therefore, the newcomer's manual recommends that before your cultivation has surpassed the six levels of the realm of gods, that is, before your cultivation has entered the eternal realm, it is best not to rush out of the planet and into the depths of the universe with just your body, otherwise you will A terrible death.

You can only spend a large amount of Holy Land Contribution Points from the Magic Treasure Hall of the Galaxy Holy Land to purchase a starry sky ship that can withstand all kinds of natural dangers deep in the starry sky. Then you can safely enter the starry sky and reach the hidden opportunity you want to come. Created ownerless planet, lost continent, or other places.

"It seems that the real depths of the starry sky are very dangerous. In addition to starry sky pirates, there are also various dangerous areas of nature..."

Ye Feng looked at the introduction in the newcomer's manual and felt that he had learned a lot.

"My current cultivation level is only half a step into the Divine Fire Realm. It is still too early to step into the Eternal Realm. Even though my physique is strong and very special, I cannot take the

risk of rushing directly into the depths of the starry sky. It seems that it is still If you want to find a way to accumulate Holy Land contribution points, buying a starship is the safest option.”

Ye Feng thought for a while and then couldn't help but murmured.

However, starships are very expensive, and buying them from some of the starry sky chambers in the Tiannan Star Territory is probably astronomical.

So Ye Feng's only way now is to buy it from the internal magic treasure hall of Galaxy Holy Land, but that also requires enough contribution points.

Ye Feng looked through the newcomer's manual. The lowest-level ordinary starship can only accommodate one person. It has no attack and defense formations and is just a first-level starship that can simply cross the starry sky. It requires a full 100,000 Holy Land contribution points. .

As for the starry sky giant ship that Ye Feng rode before to bring in new disciples, a high-end starry sky giant ship that can accommodate more than a hundred people and has various super-light acceleration arrays and other functions would require several million, or even Huge contribution points of tens of millions.

"Hey, it's really expensive..."

Ye Feng couldn't help but smile helplessly at this time. It seemed that he could only practice peacefully in the Holy Land base camp for a while before thinking about earning contribution points and buying a starship.

"It's better to practice first and improve your cultivation. No matter where you are, the improvement of strength means the improvement of status, and endless wealth will come to you uninvited."

At this moment, Ye Feng took out all the various materials that he had previously obtained from his storage ring that could improve his cultivation, and began to operate the Devouring Domain for refining and improvement.

Now, with the enhancement of cultivation, the power of the Creation Oven has also been enhanced.

The ten silver dragons that were previously loaded into the oven of creation, at this moment the dragons

The scales cracked, and the infinite and majestic dragon blood and dragon energy was absorbed from the bodies of the ten silver dragons, and then melted by the furnace of creation into streams of pure and vast energy, which was injected into Ye Feng's body. .

"Buzz!"

At this moment, Ye Feng only felt that his cultivation skills were increasing at an extremely terrifying speed.

After one day and one night.

boom!

A new and powerful martial arts aura suddenly burst out from Ye Feng's body.

At this moment, his cultivation finally succeeded in breaking into the true divine fire realm!

The spirit in Ye Feng's dantian was also completely ignited.

A bright divine fire was burning fiercely, bringing warm and powerful power to Ye Feng's whole body.

"We have finally entered the second level of the Divine Realm, the first level of the Divine Fire Realm!"

Ye Feng's eyes were extremely excited. With this level of cultivation, he was definitely considered a top master in the new small universe of the First Universe.

"But in this vast world of the second universe, which is called the perfect world, he is nothing. He is just an ordinary disciple in the Galaxy Holy Land."

Ye Feng murmured in his heart.

But his eyes were not depressed, but full of fighting spirit.

Because Ye Feng knows that after his bloodline of the Kingdom of God is opened, the Divine Art of Creation will advance and transform into the most ultimate and powerful inheritance in the second universe: the Chaos Heavenly Emperor Art.

Once the Divine Art of Creation transforms into the Chaos Heavenly Emperor Art, it means that your own physique will also transform and evolve into the final chaotic body!

The Chaos Body is one of the most powerful bodies in the universe, possessing terrifying physical strength.

Moreover, the Chaos Emperor Technique is not just as simple as casting oneself into a chaotic body.

The Chaos Heavenly Emperor Technique also allows Ye Feng to continuously awaken bloodline talents that are more powerful and terrifying than the Divine Creation Technique.

"Dong dong dong..."

And just when Ye Feng was thinking secretly, there was a sudden knock on the door of the crystal palace where he lived.

"Huh? Is it my roommate here?"

Ye Feng immediately stood up in the training room of the Crystal Palace.

Before he was assigned to the Crystal Palace where the registered disciples lived, he was told by the elder that in the Galaxy Holy Land, the registered disciples lived in the same crystal palace because of their ordinary status.

Ye Feng was not surprised by this. After all, the Crystal Palace was built with such grandeur that it was quite good for him, a small registered disciple, to live in it.

Such a large crystal palace has several rooms and several training rooms. It would be a waste not to accommodate one more person.

At this time, Ye Feng walked out of the training room and walked to the front of the Crystal Hall.

In front of the door, the luxurious door was opened.

But at this moment, a figure standing outside the door made Ye Feng's eyes slightly stunned.

Because, it turned out to be a girl.

This girl is not very old and seems to be a new disciple.

She has fair skin and a ponytail. She looks beautiful, generous and very pure.

At this time, the girl's big eyes blinked, staring at Ye Feng who opened the door, and said with a smile: "Senior Brother Ye Feng, right? Hello, I am your new roommate, Lu Yaoyao, I come from one of the top ten families in the north of Tiannan Star Territory Lu family, we will be roommates from now on, please take good care of us."

As she spoke, this innocent-looking girl stretched out a small white jade hand.

Ye Feng's eyes were stunned, and he stretched out his hand to shake her, feeling surprised in his heart.

The place where the disciples of the Galaxy Holy Land live, is it actually a mixed-race model for men and women?

After all, Ye Feng never thought that his roommate would be a girl.

At this time, seeing Ye Feng slightly stunned, Lu Yaoyao standing outside the door was a little curious and asked: "Senior Brother Ye Feng, what big family do you come from?"

Ye Feng couldn't help but come to his senses after hearing this, and said with some confusion: "I come from a small place, not a big family."

"Senior Brother Ye Feng is not from a big family in our Tiannan Star Region?"

As if she had discovered a new world, Lu Yaoyao immediately stared at Ye Feng with her beautiful eyes, and asked very curiously: "Then why, Senior Brother Ye Feng, can you, like me, live in the most noble residence for new disciples as soon as you enter the Galaxy Holy Land? area?"

"This is the most noble living area for new disciples?"

Ye Feng couldn't help but froze when he heard the girl in front of him say this.

It suddenly dawned on him. No wonder no one had ever bothered him since he had lived here for so long.

And until now, it seems that I haven't seen any of the young powerhouses from the First Universe who entered the Galaxy Holy Land with me before.

It turned out that he had somehow moved into the most distinguished area among the new disciples.

"I just said that the crystal palace where I live is so grand. It was originally prepared for the most noble new disciples."

Ye Feng was a little curious and didn't know why he had such special treatment.

At this time, Lu Yaoyao stared at Ye Feng and said with a smile: "I am the eldest lady of the Lu family, one of the ten largest families in the north of the Tiannan Star Region, and my father paid a full 100 million Saint Crystals to the Galaxy Holy Land, so I have this kind of treatment. "

Saint crystal is a cultivation crystal that is more pure and rare than spiritual crystal.

One hundred million holy crystals is equivalent to ten billion spiritual crystals in the first universe!

"hiss!"

Even Ye Feng couldn't help but take a breath of cold air at this moment.

Chapter 1303 The place of tempering

At this time, Lu Yaoyao looked at Ye Feng's surprised look in front of her and couldn't help but smile: "Senior Brother Ye Feng, judging from your expression, I believe you are not from our big family in the Tiannan Star Territory, but since you can be assigned to the new disciple The most noble place of residence must have something special about you, and your martial arts talent must be very powerful, am I right?"

When Ye Feng heard what the girl in front of him said, he suddenly remembered that when he was recruiting new disciples for the test, the ancient bronze bell rang a full ninety-nine and eighty-one times.

Although in the end, the will of the Holy Lord of Galaxy declared that the bronze ringing ninety-nine and eighty-one times was just an accident and misunderstanding.

But Ye Feng saw it with his own eyes. Before the shadow of the Holy Lord of Galaxy's will dissipated, he obviously blinked at himself thoughtfully.

"It seems that the truth may not be what the Lord of the Galaxy said. It was just an accident. That's why I have such special treatment now?"

Ye Feng was secretly guessing at this moment. .??.

But if you can't think clearly, don't think about it. Ye Feng has never been a troubled person.

At this time, the girl named Lu Yaoyao had already entered the amethyst palace and said with a smile: "The window of this room on the west side just faces the grass and flowers outside. I will live in this room from now on." "

Ye Feng smiled and said, "You can do whatever you want. I usually stay in the training room."

Having said this, Ye Feng looked at Lu Yaoyao and asked, "Junior Sister Lu, do you know how to earn Holy Land Contribution Points in our Galaxy Holy Land?"

Lu Yaoyao pointed to the sky and said: "Go to some starry secret realms in our Tiannan Star Region, or find some ancient remnants, ancient scrolls, or treasures in the lost continent. You can exchange them for Holy Land Contribution Points in our Galaxy Holy Land."

When Ye Feng heard this, he couldn't help but smile and said: "I don't even have the most ordinary starship now, so I can't enter the depths of the universe in the Tiannan Star Region to explore the secret opportunities."

Lu Yaoyao's eyes widened suddenly, as if she didn't expect that Ye Feng was so poor that he couldn't even afford a common first-class starship.

However, this girl was very pure in her heart and did not show any contempt. Instead, she generously gave a small capsule-like thing to Ye Feng and said: "Brother Ye Feng, this is a space capsule. As long as you enter a trace, When the power enters it, the contents of the space capsule will appear in front of you. This space capsule contains a first-class starship, and I will give you one now."

Ye Feng's eyes moved and he said: "Is this small space capsule carrying a starship?"

"That's right."

Lu Yaoyao said with a smile in her big eyes: "Unlike the storage spirit ring, the interior of this space capsule is imprinted with a repair magic circle by the Grand Array Master. As the starship travels through the universe, it is inevitable that it will encounter Some damage, if the starship is placed in this space capsule, can be slowly repaired by the repair circle inside. "

Ye Feng shook his head and refused: "This is too expensive."

Lu Yaoyao immediately waved her hand indifferently and said: "Senior brother Ye Feng, you are welcome. From now on, we are all brothers and sisters of the same Holy Land. And such an ordinary space capsule, my father gave it to me when I left the family. I have more than a dozen spares, and I also have more advanced space capsules and starships."

Ye Feng: "..."

Secretly sighing at Junior Sister Lu's strong family background, Ye Feng still shook his head, stared at the girl in front of him, and said with a smile: "I appreciate Junior Sister Lu's kindness, but I still want to rely on myself."

I will use my own strength to get my own starship. "

It's not that Ye Feng is being pretentious, it's that Ye Feng doesn't want to owe others a favor like this.

In this world, the most difficult thing to repay is a favor.

It's not a critical moment of life or death. Ye Feng doesn't like to owe others favors for no reason.

At this time, Lu Yaoyao saw Ye Feng being so persistent and couldn't help but nodded and said: "Okay."

Ye Feng suddenly asked: "Junior sister Lu, you don't have to go to the stars to find opportunities. Is there a way to earn contribution points in our base camp in the Galaxy Holy Land?"

Lu Yaoyao thought for a while and said: "This is true. It is said that in order to encourage disciples to temper themselves and improve their cultivation strength, our Galaxy Holy Land has built many special tempering places in the Holy Land. As long as the disciples can enter them to temper themselves, The longer you persist, the more Holy Land contribution points you get, which is a benefit to encourage new disciples to practice hard."

When Ye Feng heard this, his eyes immediately lit up and he said: "A special training place? Not only can you train and improve your cultivation strength, but you can also get contribution points? Is there such a benefit?"

Lu Yaoyao nodded immediately and said: "But Senior Brother Ye Feng, don't be too hasty to be happy. Each of the special training places in the Holy Land is very dangerous, and you may end up falling. It's not that easy. "

Ye Feng smiled slightly and said: "I understand this. Wealth and risk always coexist. By the way, Junior Sister Lu comes from a big family in the Tiannan Star Territory. She should have special training for those in our Galaxy Holy Land who can earn contribution points." Let's know something about it."

Lu Yaoyao thought for a while and then said: "As far as I know, there are five special tempering places in the Galaxy Holy Land, namely the nine-story magic tower, the soul illusion, the flame furnace, the ten thousand times gravity field and the starry sky radiation. In this domain, every training place is very dangerous. Brother Ye Feng, you can make your own choice."

After speaking, Lu Yaoyao yawned, with a trace of tiredness on her pretty face, and said: "Senior Brother Ye Feng, it took me ten hours to drive the starship from the continent where my family is located. When we arrive at the Holy Land of Galaxy, I need to catch up on my sleep, so I'll go to bed first."

As she spoke, Lu Yaoyao stretched out, outlining the girl's graceful and youthful posture.

She walked directly into the room she had chosen before, lay down on the bed, and began to fall asleep.

This girl seems to be well protected by the family behind her. Although her cultivation is in the realm of gods, she does not seem to have experienced any experience in blood and fire.

It's different from people like Ye Feng who worked their way up from a humble place at the bottom step by step.

Ye Feng walked out of the hall at this time, closed the door of the hall, and then walked toward the outside of the Crystal Palace alone.

Along the way, Ye Feng saw tall and magnificent buildings, standing in the Galaxy Holy Land.

There are towering defense towers, steel fortresses that look like ancient evil beasts, and immortal palaces floating thousands of feet high in the sky.

Ye Feng even saw a series of earth dragon veins emitting golden light, being pulled high into the sky to provide energy for the floating continents high above the Holy Land.

The scenes in front of you are very shocking, giving people a feeling of epic proportions.

"It is worthy of being the advanced cultivation civilization of the second universe, and its foundation is really profound."

Ye Feng's eyes were a little amazed.

However, considering that the Galaxy Holy Land is a giant force in the entire Tiannan Star Region, the Holy Land's base camp alone occupies an entire area of the living planet. It is normal to have so many magnificent and majestic buildings.

Walking among countless magnificent buildings, Ye Feng saw disciples, protectors, elders, etc. in the holy land along the way. The aura of cultivation on each of them was very powerful.

There is basically no existence weaker than the realm of God.

That is to say, some of the guards and servants guarding the gates of the holy land buildings are the existences of the fairyland, or the virtual god realm.

Along the way, Ye Feng witnessed the rich heritage of the Holy Land of Galaxy, and also understood how splendid the cultivation civilization in the perfect world of the Second Universe was. .???.??

Next, after some questioning, Ye Feng finally came to the "Nine-Story Magic Tower" area in the Land of Tempering.

Because Ye Feng heard from some passing senior brothers and sisters that the most suitable place for new disciples to quickly earn contribution points, the first recommendation was the nine-story magic tower.

Because the monsters in the nine-story magic tower are not that powerful, it is suitable for new disciples to experience, and as the number of levels in the magic tower is higher, the reward points will be more.

As for other training places, such as the flame furnace, the starry sky radiation field, etc., they are all very dangerous. Those senior brothers and sisters suggested that they wait until their cultivation level is higher before training.

Ye Feng strode towards the nine-story magic tower. He could kill those high-level demons in the magic tower, and he could also swallow the life essence and strengthen his cultivation. It was really killing two birds with one stone.

At this time, in front of Ye Feng, in the center of a huge martial arts square paved with gold bricks, a tall and majestic dark tower stood.

This giant tower is the nine-story magic tower!

The surface of the majestic and huge magic tower is engraved with ancient and complex patterns, which seem to be a kind of sealing array.

"Ho ho ho..."

Faintly, there were frightening roars of ancient demons coming from the nine-story magic tower.

Many of the new disciples who were practicing around the nine-story magic tower looked a little pale and frightened.

It seems that the roar of the ancient demon still carries an evil power that confuses and frightens the minds of ordinary people.

However, Ye Feng's martial arts will is strong, and his soul power has exceeded a thousand levels, so he is naturally not affected by the roars of some demons.

At this time, he stepped forward and walked directly to the door of the nine-story magic tower.

An elder wearing a green gown stood there, glanced at Ye Feng lightly, and said: "To enter the nine-story magic tower to practice your cultivation, you need to come one by one. There are seven people waiting in line in front of you."

"Still waiting in line?"

Ye Feng's eyes were stunned, and he looked not far away. There were indeed seven people sitting cross-legged, breathing in the energy of heaven and earth, and practicing their skills.

Ye Feng nodded to this elder, and he would naturally abide by the rules in the Holy Land.

He also walked aside and began to practice cross-legged.

Next, Ye Feng saw that one by one the disciples entered the nine-story magic tower, but most of them persisted for less than half an hour.

Covered in blood, he ran out of the entrance to the first floor of the giant tower in embarrassment.

"It's my turn next."

Ye Feng stood up suddenly, with a hint of expectation in his eyes.

Most of the new disciples who were similar in cultivation to themselves persisted for about half an hour and only received a few thousand contribution points.

Don't know how long I can hold on?

But no matter what, you must persist for a while and build a few more levels of magic tower, otherwise you will not be able to pay the price of a starship.

Because the most common first-level starship can only be purchased inside the Holy Land with a full 100,000 contribution points.

"Cousin Lin Yu, I believe you will be able to break into the seventh floor of the nine-story magic tower this time! You will advance from a registered disciple to an outer disciple in one fell swoop."

Suddenly at this moment, a young woman's voice came from not far away.

It was a pretty woman, wearing a pale pink dress, outlining her graceful figure.

At this moment, next to the woman in the pink skirt, stood a thin man in green clothes. There was a trace of natural aloofness between his eyebrows. He smiled and said: "I rushed into the seventh

floor to face the current situation." It is very simple for me. When I am promoted to become an outer disciple, the Holy Land will reward me with a second-level starship that can accommodate three or four people. At that time, I will take cousin Xinyan to Tiannan in the center of our Tiannan Star Territory. Take a walk on the mainland. It is the most prosperous place in our Tiannan Star Territory. Many large chambers of commerce and auctions have branches on the Tiannan Continent. Countless practitioners and various rare items from the entire Tiannan Star Territory gather there. Resources and ancient treasures, countless wealth circulates there every day."

When the woman in pink skirt heard this, she immediately said excitedly: "Thank you, cousin Lin Yu!"

When the two of them finished speaking, Ye Feng was about to step into the nine-story magic tower.

But at this moment, an impatient voice suddenly sounded from behind him: "That boy in black, I will give you three seconds now, get out of the way immediately, and let me enter the nine-story magic tower to practice first. "

The voice was that of a thin man in green clothes named Lin Yu.

Ye Feng paused, then turned slightly, looked at the thin man in green clothes behind him, his eyes were calm, and said: "The nine-story magic tower requires queuing. If you want to enter, you must queue first."

When Lin Yu saw that Ye Feng dared to say something to resist him, he immediately showed a cold look in his eyes and said, "You are the new registered disciple recently, right? Don't you know that I am the top among the registered disciples?" Do you dare to disobey my orders?"

The woman in the pink skirt next to Lin Yu also had a look of disdain on her face. She stared at Ye Feng and said, "Little brother, I advise you to leave as soon as possible and let my cousin enter the nine-story magic tower first. Cousin Lin Yu He hates it when others waste his time. If you don't obey, you'll get hurt later. Don't blame me for not warning you in advance."

But Ye Feng suddenly smiled at this time, and then didn't bother to say a word. He turned around and continued walking towards the entrance of the nine-story magic tower.

"Boy, how brave! It seems that you really don't take me seriously. Then I will let you know what will happen if you disobey me!"

When Lin Yu saw that Ye Feng was ignoring him, he immediately became furious and his eyes were filled with deep anger. One of his hands instantly transformed into a kind of metal claw, and he directly tore and grabbed Ye Feng with a grin. .

Chapter 1304 Too lazy to pay attention

Uh-huh!

As soon as Ye Feng turned around, he immediately felt a very fierce murderous aura attacking him from behind.

"Hegemonic power!"

Ye Feng turned around in an instant, clenched his hands into fists, and his Overlord Power surged out. The hardness of the Cangtian Overlord's body caused Ye Feng's fist to burst into a bright purple light. ??

"Boom!!"

The fists and palms collided, and a huge and boundless force suddenly burst out in the void.

However, the space of the perfect world of the second universe is more stable. Otherwise, the casual collision and fighting between the two realms of gods would have shattered the space long ago.

Now there is only a faint ripple in space.

"Deng Deng Deng!"

The next moment, both of them took several steps back.

"The top-notch disciples in the Galaxy Holy Land are indeed quite strong."

Ye Feng took several steps back, and his eyes couldn't help but flash slightly.

At this time, Lin Yu on the opposite side also took several steps back, but his eyes were full of shock.

He immediately stared at Ye Feng and said: "Boy! I am at the seventh level of the Divine Fire Realm. I just used the third-grade true god-level treasure 'Mythril Gloves'. You can actually repel me? You are only at the first level of the Divine Fire Realm. God, what kind of big family do you come from?"

For Lin Yu, as one of the most powerful beings among the registered disciples, his combat power is comparable to that of ordinary top tenth-level divine fire realm experts.

Originally, he thought it would be easy to teach a newcomer who was only in the first level of the Divine Fire Realm.

But the result was unexpected. Lin Yu was knocked back several steps by the newcomer!

"cousin!"

The woman in the pink skirt next to her was immediately startled. She quickly walked to Lin Yu's side and stared at Ye Feng opposite, her eyes full of shock.

This seemingly ordinary young boy is actually so powerful that he even tied with his cousin?

You know, Lin Yu is one of the registered disciples.

One of the six masters!

"Did you just use a very powerful martial arts inheritance? That's why I was caught off guard!"

Lin Yu felt his face burning at this moment, and he immediately asked Ye Feng who was not far away.

Ye Feng ignored him, just smiled coldly and said, "You can take action if you have the guts."

When Lin Yu heard this, he immediately became furious and said: "Boy, don't toast and eat the fine wine. I just attacked casually. If I really use my inheritance, you will definitely die miserably!"

boom!

Almost at the moment Lin Yu finished speaking, a terrifying and boundless flame suddenly surged out of his body, and he surged towards Ye Feng as if he had become a god of fire.

"boom!"

But suddenly at this moment, an extremely powerful pressure suddenly came, directly suppressing the infinite flames on Lin Yu's body back into his own body.

It's the elder who guards the nine-story magic tower!

He casually stretched out a hand and suppressed Lin Yu's violent murderous intent.

The elder had no expression on his face and said indifferently: "No fighting is allowed around the Forging Place. If necessary, please go to the special life-and-death competition stage in the Holy Land."

When Lin Yu heard this, he immediately stared at Ye Feng who was not far away, and shouted: "Boy, do you dare to follow me to the stage of life and death?"

Ye Feng turned around and walked into the nine-story magic tower.

He didn't bother to pay attention to this pretentious guy and waste his time.

"you.....!"

Seeing Ye Feng's figure disappearing into the magic tower, Lin Yu was rejected and his face turned extremely pale.

But the next moment, he stared at Ye Feng's disappearing back and smiled coldly, "The upper level of the Holy Land

The newly located starry sky secret realm is about to open. At that time, all registered disciples will participate and enter the starry sky secret realm. When the time comes, I will let you know what cruelty is! "

After the words fell, Lin Yu turned around and left. For the time being, he didn't want to become an outer disciple so quickly, because he needed to participate in the Starry Sky Secret Realm as a registered disciple, hunt Ye Feng, and obtain various treasures in the Starry Sky Secret Realm. Kill two birds with one stone, why not?

At this time, Ye Feng had already entered the nine-story magic tower.

The moment he stepped onto the first floor, Ye Feng's eyes suddenly became enlightened.

The space in the giant tower on the first floor is not as small as what you see outside, but a very vast place.

The space on this first level is a huge circular golden platform, suspended in darkness. Surrounding the golden circular platform is an abyss.

In other words, if you fall from the surroundings of this golden round platform, you will fall into the endless dark abyss and fall instantly.

"It's already so scary on the first level. No wonder those senior brothers and sisters from before advised me, a new disciple, not to try these special training places in the Galaxy Holy Land easily. It is indeed very dangerous, and you will die in these training places if you are not careful. in the land."

Ye Feng was standing on the huge circular golden platform, looking at the endless dark abyss around him, and couldn't help but murmur to himself.

It seems that the contribution points of this Galaxy Holy Land are indeed difficult to earn.

"Roar!"

"Roar!"

"..."

And at this moment, Ye Feng suddenly saw a group of extremely ferocious-looking monsters, their bodies covered with scales. They crawled out of the surrounding dark abyss in an instant, roaring and killing in the direction of Ye Feng. .

"boom!"

Ye Feng swung out with a slap. The tyrannical Cangtian Hegemony had very terrifying strength and smashed a large area of demons into pieces in one fell swoop.

The sky is filled with blood mist.

Even in the second universe, Ye Feng's Heavenly Hegemony is extremely strong and possesses very powerful explosive power.

"Roar!"

"Roar!"

However, more and more ancient demons crawled out of the dark abyss, fearless of death, and rushed towards Ye Feng like an endless army of demons.

"Invincible Sword Domain!"

Ye Feng shouted loudly, and a war sword suddenly appeared in the void around him, glowing with bright sword light and very sharp.

There are a total of three hundred and twenty-six war swords. Although the grade is not high in this second universe, there are still many pseudo-god-level and true god-level war swords.

Boom!

Boom!

In an instant, more than 300 war swords rotated rapidly around Ye Feng, forming a steel meat grinder that quickly cut through the countless demons that rushed over.

The first level of demons are generally at the tenth level of False God Realm, so even if there are many, tens of thousands, they will not pose any threat to Ye Feng today.

"Pfft!"

"Pfft"

"..."

The monsters were cut into pieces by the rapid rotation of the Invincible Sword Domain, and the blood dyed the entire huge circular golden platform red.

"Swallow!"

At this time, Ye Feng also quickly released the Devouring Domain.

Buzz buzz...

Groups of dark swallowing whirlpools suddenly appeared in the space around Ye Feng, forming powerful swallowing and sucking forces that plundered all the skills and life essence of the demons killed by the Invincible Sword Domain. In the past, the melt was poured into Ye Feng's body.

At this moment, the divine fire in Ye Feng's body was burning more intensely, which meant that his skill was increasing at an incredible speed.

Chapter 1305 Purchase

When Ye Feng walked out of the nine-story demon tower, his cultivation level had been promoted to the third level of the divine fire realm by relying on the blood of those demons!

And he finally reached the sixth floor of the magic tower, and finally left the magic tower.

Because in the sixth floor of the Demon Tower, the cultivation strength of those ancient demons has reached the tenth level of the Divine Energy Realm!

If it were one, two, or a dozen powerful demons from the tenth level of the Divine Qi Realm, maybe Ye Feng could resist the killing.

But as time went by, there were tens of thousands, even hundreds of thousands, of demons from the tenth level of the Divine Energy Realm in the sixth level, and even demons from the first level of the Divine Fire Realm.

Thinking about hundreds of thousands of demons from the tenth level of the Divine Energy Realm, or even the first level of the Divine Fire Realm, forming an endless demonic frenzy, rushing towards you, it makes your scalp numb just thinking about it.

So Ye Feng finally persisted on the sixth level for half an hour. Even with his hegemonic body, his body was torn open by the claws of several demons from the first level of the Divine Fire Realm. He looked so shocking that he almost died. .

However, Ye Feng's harvest was also extremely huge. Not only did he harvest strong scales, sharp claws, etc. from ancient demons, these can be exchanged for contribution points in the Galaxy Holy Land, or obtained from the Tiannan Star Territory Center. On the Tiannan Continent, you can make a lot of money by selling it to big chambers of commerce or to wandering businessmen who like to collect fragments of ancient monsters.

In addition, Ye Feng's cultivation level has broken through two levels in a row, from the first level of the Divine Fire Realm to the third level of the Divine Fire Realm. .???.??

You must know that his body is a bottomless pit, and as his cultivation level increases, the energy required for breakthrough becomes larger and larger.

When Ye Feng came to the second universe, in addition to finding a way to resurrect Miss Lan and finding and rescuing his mother, his biggest purpose was to quickly enhance his cultivation strength.

Because in the remote place of the first universe, a new small universe, the energy of heaven and earth and the creation of chance can no longer support the increasingly majestic and terrifying resources that Ye Feng needs for his breakthrough.

"Although my cultivation level has improved a lot, I still have to find a way to cultivate the Divine Art of Creation to the final ninth stage as soon as possible, awaken half of the blood of the Kingdom of God in my body, and obtain the legendary ultimate inheritance, the Emperor of Chaos. Trick!"

Ye Feng thought secretly in his heart.

He knew very well that the most important thing at the moment was to find a way to activate the bloodline of the Kingdom of God in his body and obtain the supreme inheritance "Chaos Heavenly Emperor Technique".

Ye Feng and Lin Yu had slapped each other before, and the two were tied.

This made Ye Feng immediately feel a little alert.

These powerful geniuses in the second universe may not be much weaker than themselves now.

Although he can still surpass his peers and compete against his peers, his advantage is no longer so obvious.

Moreover, the infinite flames that Lin Yu was about to release at the end seemed to be a very terrifying inheritance. Even Ye Feng had felt a sense of threat before.

Therefore, Ye Feng felt that if he did not allow his Divine Art of Creation to transform into the Chaos Heavenly Emperor Art as soon as possible, his physique would eventually transform from a hegemonic body into that chaotic body.

Maybe I'm here

In the perfect world of the second universe, he will never be able to stand out, and will eventually disappear from everyone.

"But before I left, my father did not tell me how to activate the bloodline of the Kingdom of God in my body. He just said generally that the high-level energy of heaven and earth existing in the perfect world of the second universe can help me open the bloodline of the Kingdom of God. Maybe maybe He himself doesn't know..."

Ye Feng murmured, but he needed to keep this matter secret.

After all, the Divine Art of Creation and the Chaos Heavenly Emperor Art involve too much and cannot be exposed casually.

Otherwise, it might be noticed by the aloof and immortal Gu Clan in the second universe, which would be troublesome.

In the past few days, Ye Feng has learned from the Newcomer's Manual that in this vast and vast universe, there is indeed a powerful overlord clan.

Ye Feng guessed that the Gu Clan Kingdom where his mother was located was probably a super overlord that controlled the top golden star field.

This speculation shocked Ye Feng.

Because let alone myself, the entire Galaxy Holy Land, and even the entire Tiannan Star Territory, in the eyes of Gu's Divine Kingdom, may be just a small place, as insignificant as an ant.

And just when Ye Feng was secretly thinking about the future.

In front of him, the elder guarding the nine-story magic tower walked up to him.

The elder's eyes seemed a little surprised, but his tone remained calm, and he said: "You persisted in the Magic Tower for a total of sixteen hours, and you broke into the sixth floor the first time you entered, and you persisted on the sixth floor for half an hour. , you can get a total of 90,000 contribution points, give me the identity token, and I will give you the contribution points."

"Ninety thousand contribution points?"

Ye Feng's eyes were filled with joy and he immediately took out his identity token.

You know, the most common first-level star ship is worth 100,000 contribution points in the Galaxy Holy Land.

If you put it this way, I am only short of 10,000 contribution points!

I had killed so many ancient demons in the nine-story magic tower before, and obtained a lot of claws, scales, magic beads and other materials, which might be enough to exchange for the remaining 10,000 contribution points.

"Ninety thousand contribution points are already on your identity token."

The gatekeeper elder spoke up and handed the identity token back to Ye Feng.

"Thank you, elder."

Ye Feng took the identity token and immediately ran away.

At this time, the gatekeeper elder glanced at Ye Feng's hurried away figure, and couldn't help but smile. "This newcomer is quite strong. I don't know which family he comes from in the Tiannan Star Territory..."

...

Ye Feng was very lucky. When he came to the Magic Treasure Hall in the Galaxy Holy Land, the demon materials he had collected from killing the monsters before were exchanged for 15,000 contribution points.

In addition to the previous 90,000 contribution points, I spent exactly 100,000 to purchase a first-class

Star ship.

For the remaining five thousand contribution points, Ye Feng purchased a thumb-sized space capsule.

This space capsule is quite important, as it contains a magic circle for repairing the starship.

You know, when driving a starship to fly in the starry sky, the starship is likely to encounter some starry meteorites or be hit by powerful cosmic rays, and it will be continuously damaged.

Ye Feng got what he wanted and couldn't wait to take the space capsule back to his residence.

At this time in the Crystal Palace, junior sister Lu Yaoyao had already gotten up and was sitting cross-legged in the middle of the palace, breathing in and out.

Ye Feng walked in and saw that with every breath Lu Yaoyao took, there would be faint starry sky essence, which was absorbed by Lu Yaoyao from the void, absorbed and integrated into her body, strengthening her cultivation. strength.

"This seems to be a very special cultivation inheritance, which is very suitable for cultivation in the second universe, because the entire Tiannan Star Territory is full of the power of the universe and stars."

Ye Feng observed carefully and was very surprised. This kind of magical inheritance did not exist in the spiritual world of the first universe.

Sure enough, in the second universe, even a small family in the Tiannan Star Territory can give birth to a very unique and advanced cultivation inheritance.

"Senior Brother Ye Feng, are you back?"

While Ye Feng was secretly observing, Lu Yaoyao, who was sitting cross-legged in the middle of the hall, suddenly opened her beautiful eyes.

She stood up, stared at Ye Feng in surprise, and couldn't help but said in shock: "Senior Brother Ye Feng, you didn't really go to that extremely dangerous training place, did you? I haven't seen you in just over ten hours. His cultivation has improved so much?"

Ye Feng smiled and said: "That's right, I went to the nine-story magic tower and got a lot of benefits."

"Nine-story magic tower?"

Lu Yaoyao's eyes widened for a moment, then she gave a thumbs up and praised sincerely: "Senior brother Ye Feng, you are working so hard. I should follow your example. Many people will think so when they first enter the Galaxy Holy Land. Have fun and stroll around to celebrate your joining the Galaxy Holy Land, but Senior Brother Ye Feng, you immediately entered the state of cultivation and are so self-disciplined. My father once told me that once I meet such a self-disciplined person in the future, I will Learn from him well."

Ye Feng smiled and said: "Junior sister Lu is so complimentary. I'm just doing what I should do."

Lu Yaoyao immediately nodded vigorously, her eyes shining brightly, and said: "We are working hard to improve our strength, and we all have a common dream, which is to appreciate the vast sea of stars!"

Looking at Lu Yaoyao's pure and expectant eyes, Ye Feng also had an involuntary smile in his eyes.

"By the way, Senior Brother Ye Feng!"

Lu Yaoyao suddenly seemed to have thought of something at this time. She stared at Ye Feng and said: "There is only one month left before the selection of outer disciples of our Galaxy Holy Land. By then, all the registered disciples, including those of us who have just joined the Holy Land, will be selected." All registered disciples need to participate in this outer disciple selection."

Ye Feng's eyes moved and he said: "Where is it?"

Lu Yaoyao's big eyes flashed and she said: "As far as I know, by then the upper levels of the Holy Land should be directly searching for a 'starry sky secret realm' suitable for the trial of registered disciples in the depths of the starry sky in the Tiannan Star Region. There will be a total of 300,000 registered disciples. Participate, but in the end only the first 10,000 registered disciples will advance to become outer disciples and enjoy the generous treatment of outer disciples."

When Ye Feng heard this, he couldn't help but his expression changed, and he said, "Three hundred thousand registered disciples are participating. Only the top 10,000 can become an outer disciple?"

Lu Yaoyao nodded and said: "That's right! And the registered disciples who have not entered the top 10,000 will undergo the second Starry Sky Secret Realm trial in half a year. If they fail to enter the top 10,000 again, they will be sent back to the Holy Land. I am not qualified to stay in the Holy Land anymore."

Ye Feng couldn't help but look surprised and said: "It seems that we must participate in this starry sky secret realm."

Lu Yaoyao said: "Yes, the Galaxy Holy Land is a giant force in the Tiannan Star Region after all. It is not that simple to stay in the Holy Land. The benefits in the Holy Land are not free. You need to continue to become stronger. And it is said that in the Galaxy When there are territorial disputes and wars between the Holy Land and other major forces, every disciple needs to participate and help the Galaxy Holy Land expand its territory, otherwise they will also be kicked out of the Holy Land. "

Speaking of this, Lu Yaoyao smiled and said to Ye Feng: "But Senior Brother Ye Feng doesn't need to be too stressed. For us new disciples, even if we can't advance to become outer disciples in the Starry Sky Secret Realm in one month, we still have a second chance. It's a chance, and generally, the starry sky secret realms set up by the Holy Land as a place of trial are not that dangerous, and we can get a lot of opportunities in them."

Hearing this, Ye Feng nodded immediately and said: "It's still a month early. I have already purchased a first-class starry sky ship. Junior Sister Lu, do you have the starry sky map of the Tiannan Starry Region? I am going to go out to practice and strive for it." Before the trial, try to strengthen your cultivation as much as possible."

Lu Yaoyao took out a map made of animal skin from the storage spirit ring and said: "I only have the starry sky map near the Galaxy Holy Land. The starry sky map of the entire Tiannan Star Region is too vast, and I am not able to buy it yet."

Ye Feng took the map and said with a smile: "This is enough. I don't want to run far in a month. Thank you, Junior Sister Lu!"

Lu Yaoyao said with a smile: "Senior brother Ye Feng, we are so familiar. From now on, you can just call me 'Yao Yao'. Keep calling me 'Junior sister Lu, junior sister Lu', but I always feel too alienated. We are roommates."

Ye Feng smiled hoarsely, and then couldn't help but said: "Okay, I will call you Yaoyao from now on."

Lu Yaoyao immediately said happily: "This is right!"

Next, Ye Feng wasted no time and took the starry sky map given to him by Lu Yaoyao. He took out the purchased first-level starry sky ship directly from the space capsule. After riding in, he injected power into it.

There was a "boom"!

The starship soared into the sky in an instant, breaking through the atmosphere of the living planet where the Galaxy Holy Land was located, and rushed directly into the boundless starry sky of the Tiannan Star Territory.

Chapter 1306 Lost Continent

Buzz!

Ye Feng was currently riding in a small starship that could only accommodate one person.

The starship has now left the ancient planet of life where the Galaxy Holy Land is located.

Ye Feng looked through the starship and could see the deep and dark starry sky and universe outside.

In the entire universe, the terrifying silence is like a dark forest, giving people an extremely depressing feeling.

At this time, Ye Feng took out the starry sky map that Lu Yaoyao had given him before, and began to search the surrounding universe for places where chance creation might be hidden.

Soon, Ye Feng found from the map that there was a relatively small lost continent in the nearby starry sky.

"go ahead!"

Ye Feng increased the output of his spiritual power, and the starship suddenly accelerated, flying quickly towards the location on the map.

Along the way, Ye Feng saw countless meteorites flying past in the starry sky.

Fortunately, Ye Feng's soul power was strong enough to avoid the flight paths of these meteorites in advance.

Otherwise, if you are hit by these meteorites flying at high speed in the starry sky, the terrifying impact will definitely destroy you and the starship you are riding in in an instant!

...

Three days later, Ye Feng drove his starship to a continental plate floating in the dark starry sky.

This is an ancient lost continent. The entire land is covered with countless lush trees, mountains and rivers, and roaring beasts.

At this time, Ye Feng piloted the starship to land on the ground of this lost continent and walked out directly.

When he observed this lost continent in the starry sky before, he had already judged that this lost continent was not a complete interface, but a fragment of the interface, floating in the starry sky for countless years, forming a lost continent with an area the same as that of Ye Ye. The Longyuan Continent where the wind is located is almost the same

size.

In the Tiannan Star Territory, there are many such lost continents, which have evolved into their own vital land, floating in the boundless starry sky, rising and falling silently.

Rumor has it that most of these lost continents are formed from the fragments of higher-level interfaces that were shattered, so many people like to search for treasures in these lost continents.

At this time, Ye Feng walked out of his starship. After loading the starship into the space capsule, he jumped directly and rushed into the jungle of this lost continent.

This lost continent is not an extremely dangerous place. There are no volcanoes erupting or demonic energy surging. It is a very normal virgin forest continent.

But the crisis still exists.

"boom!"

It almost felt like Ye Feng had just stepped into the primeval forest of this lost continent.

"Boom!!"

A huge black vine burst out of the ground in an instant, piercing out from the depths of the ground and directly piercing Ye Feng.

This is a blood-sucking vine!

It is a very ancient and vicious plant.

"when!"

Ye Feng punched out instantly, and the power of his domineering body exploded, but it did not smash the blood-sucking vines, and only made a sound like metal delivery.

"Sure enough, all the creatures born in the vast universe of the Second Universe are so powerful!"

Ye Feng's eyes were a little surprised. This seemingly ordinary blood-sucking vine could actually compete with his current mid-term hegemony.

"Hiss!"

At this time, the pitch-black vampire vine

Man actually made a sound like a poisonous snake, obviously possessing extremely high intelligence. At this time, it was observing how to deal a fatal blow to the human race in front of it.

"Great Wild God Chaos Fist!"

But at this moment, Ye Feng had already taken action first.

He punched out his own powerful martial arts, which was the Great Desolate Barbarian God Chaotic World Fist, a set of first-grade true god-level martial arts.

"Boom!!"

Terrifying power instantly burst out from Ye Feng's fist.

In the countless waves of power, a huge savage god roared and roared, impacting and instantly crushing the blood-sucking vines and turning them into countless fragments.

"Devouring the Realm!"

Ye Feng shouted loudly, stretched out his hand to grab it, and a darkness swallowed the field, instantly covering the entire fragment of the blood-sucking vine.

"boom!"

What makes Ye Feng very happy is that although this blood-sucking vine is a plant-based creature, the vine seems to contain very strong blood, as well as the majestic essence of vegetation, which tempers Ye Feng's cultivation and body. Practicing has huge benefits.

"Roar!!"

And suddenly at this moment, another behemoth appeared.

This is a humanoid creature, but it is several hundred meters tall. Its body is covered with dense silver scales. It has a third eye and carries a super-large mace on its shoulder.

"Silver Scale Orcs!"

Ye Feng immediately recognized the identity of this behemoth. He had seen it in the "Starry Sky Races List" in the newcomer's manual of the Galaxy Holy Land.

This is a very powerful star race, a combination of ancient giant beasts and ancient humans, with infinite brute force.

"Boom!"

And just

While Ye Feng was secretly reminiscing, the silver-scaled orc was already holding a mace dozens of meters long and smashed it down on Ye Feng in an instant.

"Invincible Sword Domain!"

Ye Feng held his big hand in the void, and more than three hundred war swords rushed out of his body in an instant, condensing and combining in his hand to form a large metal sword.

"boom!"

Ye Feng slashed hard with his sword, splitting the huge orc in half, staining the forest with blood.

"Swallow!"

Ye Feng directly released the Devouring Domain. Each body of this ancient giant orc tribe contained boundless blood energy, just like the vast ocean.

Next, Ye Feng continued to move forward and became a terrifying hunter in the primeval forest of the lost continent, hunting down those ferocious ancient giant beasts.

...

Seven days later, Ye Feng's cultivation level has been promoted to the fifth level of the Divine Fire Realm!

In just seven days, from the third heaven of the divine fire realm, he broke through two heavens in a row and rushed into the fifth heaven of the divine fire realm!

This progress is really extremely rapid.

Ye Feng himself is very satisfied. It seems that going out to practice this time is the right choice!

"Buzz!"

Suddenly at this moment, a bright beam of light suddenly lit up in a certain direction at the end of the forest in the distance, rising from the ground, piercing the clouds into the sky, and penetrating the sky and the earth.

This mighty and huge movement immediately attracted Ye Feng's attention.

"With such a strange phenomenon, could it be that the treasure was born? Is this lost continent really formed from the fragments of a higher interface, so is there a treasure buried there?"

Ye Feng was walking in the forest and looked at the pillar of light reaching the sky at the end of the forest in the distance. His eyes immediately lit up and he flew quickly in that direction.

Chapter 1307 Danhuang Holy Sect

Swish, swish, swish!

Ye Feng's figure flashed rapidly in the primeval forest.

With each flicker, his figure moved nearly several kilometers in an instant.

This means that his speed at this time is simply too fast.

When Ye Feng reached the end of the forest, he immediately ducked and hid behind a huge towering tree.

The beam of light reaching the sky in the distance has dispersed.

But Ye Feng saw at this time that on the loess not far away, the soil collapsed, and a huge ancient tower was revealed in the huge pit.

A very blazing flame was burning on the surface of this ancient tower.

The sky-reaching beam of light just now erupted from this ancient tower of flames.

But Ye Feng hid at this time because he saw a dragon-shaped evil beast standing in the open space around the ancient flame tower.

This dragon-shaped evil beast is covered with dark green dragon scales, but it stands upright, like the legendary tyrannosaurs. Its body is several kilometers tall, covering the sky and the sun. It looks very terrifying. of destructive power.

This is a green-scaled tyrannosaurus!

It is a very ferocious and terrifying race among the races in the stars!

At this time, this green-scaled tyrannosaurus had crushed several strong human beings under its pair of thick, metal-like feet.

Those powerful human beings who died tragically were probably some of the big forces or families in the Tiannan Star Territory who came out to look for treasures.

But in the end, the treasure was not found, but he died tragically at the feet of this green-scaled tyrannosaurus.

Ye Feng felt the ferocious aura of the green-scaled tyrannosaurus. It was a powerful creature at the level of the divine blood realm, the third level of the realm of gods!

"Maybe we can kill this green-scaled tyrannosaurus with a fight."

Ye Feng thought secretly in his heart.

boom!

But suddenly at this moment, a huge white jade spirit boat descended from a high altitude not far away.

A beautiful woman wearing a pale white dress, who looked like a fairy, stood on the white jade spirit boat.

There were two figures standing around her, a young man wearing golden armor, and an elegant young man wearing a feather fan and turban.

The life fluctuations in these three people are extremely powerful.

But Ye Feng did not feel the fluctuation of cultivation from these three people, but felt a huge fluctuation of soul power.

But under specific induction, the huge soul power is different from the soul master who truly cultivates the soul, and is similar to a spiritual practitioner such as an alchemist.

Moreover, that kind of tyrannical spiritual power contains a fiery feeling that makes one's soul seem to be on fire.

"Could it be that these three people are all very advanced alchemists?"

Ye Feng's eyes moved, and then he suddenly thought of what was introduced in the newcomer's manual about the distribution of forces in the Tiannan Star Territory.

In the vast starry sky territory of Tiannan Star Region, apart from countless small forces and small families, they are mainly controlled by martial arts giants.

They are the Galaxy Holy Land, the Sea Holy Land, the Alchemy Emperor Holy Sect, the Tiannan Soul Sect and the Heavenly Demon Palace.

In the Tiannan Star Territory, the powerful alchemists are basically concentrated in the Alchemy Emperor Holy Sect, a giant force that specializes in alchemy.

At this time, Ye Feng was lurking behind a big tree, looking at a woman and two men stepping on the white jade spirit boat high in the sky. He initially judged in his heart that these three powerful alchemists were probably from the Alchemy Emperor Sect, and , is likely to be the core disciple of the Danhuang Holy Sect.

because of this

Although the three of them all specialize in alchemy, they all give Ye Feng the feeling that they are full of threats and are definitely very powerful.

"What bad luck! I didn't expect that in this small lost continent, I would meet the core disciple of the giant power of the Danhuang Holy Sect. It seems that I can't get the ancient flame tower."

Ye Feng cursed secretly in his heart at this time, feeling that he was so unlucky.

Because he knew very well that no matter how powerful the green-scaled tyrannosaurus was, it could not withstand the three core disciples of the giant forces in the Tiannan Star Territory.

Moreover, he is also a powerful alchemist in the Alchemy Emperor Sect with unlimited means.

And sure enough, as Ye Feng expected, although the green-scaled tyrannosaurus looked majestic and ferocious, in the end, the man in the feather fan scarf on the white jade spirit boat casually waved his hand, and there was a sudden "boom", and endless dark green flames erupted from him. A surge of fire surged out of his hand, and the bottom immediately turned into a sea of fire.

The green-scaled tyrannosaurus only had time to scream in agony before the entire body of the huge evil beast was burned to ashes.

"What a terrifying raging flame! I guess even my current hegemonic body can't resist that kind of raging flame!"

Ye Feng's eyes turned cold at this moment.

The young man with the feather fan and silk scarf looked gentle, but in fact he was extremely ruthless.

The dark green flames released from his hands were obviously an extremely advanced elixir fire, possessing extremely terrifying burning power. It could not only make elixirs, but also burn people!

"Weak and pitiful."

On the white jade spirit boat, the man with the feather fan and silk scarf watched the green-scaled tyrannosaurus instantly turn into ashes. He suddenly smiled coldly, then looked at the two people beside him and said: "This time we have found a treasure. According to me According to the information obtained from the Tiannan Chamber of Commerce, this lost continent is a fragment of the ancient dragon world. The ancient tower underneath must be a large dragon clan in the dragon world.

The magic weapon of my life may contain a high-level flame from the dragon world. When the time comes, you two will help me refine the high-level flame from the dragon world. "

The man in the golden armor looked at the woman in the pale white dress beside him, then stared at the man in the feather fan scarf, smiled and said: "Don't worry, Mr. Lu, the mission of Junior Sister Binglu and I this time is Escort Mr. Lu to this lost continent to find the high-level flame and help Mr. Lu's natal elixir fire go further."

The woman in the pale white dress called Ice Dew also nodded slightly and said: "Mr. Lu, don't worry, no matter how powerful the flame is, my natal elixir fire 'Extreme Cold Holy Fire' can suppress it, and there won't be any accidents." "

The man in golden armor nodded and said: "Junior Sister Binglu's extremely cold holy fire is the nine hundred and ninety-ninth flame on the list of flames in the heavens, and the flame that ranks among the top one thousand, can be called the 'Holy Fire' , can suppress any flame in the world. With Junior Sister Binglu, the Holy Fire Alchemist here, Mr. Lu can rest assured that you will definitely be able to safely refine the high-level flames in the Dragon Realm Ancient Tower."

The man with a feather fan and silk scarf, who was called Mr. Lu, immediately said happily: "Okay, okay! It's not in vain that I spent a lot of money to invite two disciples from the Holy Sect from the Danhuang Holy Sect to go with me. As long as I can succeed this time, , I will definitely give you two more rewards."

At this time, the three of them were discussing.

In the forest not far away, Ye Feng relied on his powerful soul power of a thousand levels to secretly overhear the conversation of several people.

"Sure enough, it comes from the Danhuang Holy Sect!"

"And that ancient pagoda seems to be a high-level magic weapon from the ancient dragon world?"

Ye Feng's eyes suddenly lit up at this moment.

Although the three people on the White Jade Spirit Boat not far away were all very powerful, Ye Feng was still lurking around silently, waiting for an opportunity, unwilling to leave like this.

Chapter 1308 Dragon Spirit Holy Fire

Buzz!

On the white jade spirit boat high in the sky, after the three of them killed the green-scaled tyrannosaurus, they jumped off the spirit boat and walked to the huge ancient pagoda.

At this time, the huge ancient tower was burning with a blazing flame.

"It's just that the power of the external flames is so frighteningly intense that it feels like the whole person is about to be burned?"

At this moment, Mr. Lu, one of the three people, was staring at the huge ancient tower, his eyes full of longing.

The two disciples from the Danhuang Holy Sect standing next to him also had expressions of surprise in their eyes that could not be concealed.

They are all talented disciples of giants and talented alchemists. Even the woman named Binglu among the two is the most noble "Holy Fire Alchemist" among alchemists.

Because the extreme cold holy fire that she awakened from her birth talent has entered the top one thousand on the starry sky flame list, ranking 999, it can be called the "holy fire".

The young man wearing golden armor was called Zhao Tianlang. He looked at the woman in a pale white dress next to him with a hint of shock in his eyes and said, "Junior Sister Binglu, how are you feeling?"

There was a trace of solemnity on Binglu's beautiful face. She stared at the ancient dragon world tower in front of her and said: "I sensed a... omen of great evil!"

"Omen?"

"Is it still a big evil?"

Mr. Lu and Zhao Tianlang who were present couldn't help but gasped.

Binglu nodded slightly and said: "I just tried to use my natal elixir fire 'Extreme Cold Holy Fire' to sense the origin of the flame inside the ancient pagoda, and wanted to pull the origin of the flame out of the ancient pagoda, but the result was unexpected. What's strange is that my Extremely Cold Holy Fire actually produced a feeling of fear."

Zhao Tianlang, who was wearing golden armor, suddenly looked shocked and said: "Even the Extreme Cold Holy Fire has a feeling of fear. Could it be that this ancient pagoda from the Dragon Realm was left by a powerful dragon clan? The flame in it is not something." Ordinary fire, but the same holy fire as you, Junior Sister Binglu? Ranking among the top one thousand in the starry sky flame list?"

At this moment, Zhao Tianlang, a disciple of the Danhuang Holy Sect, stared at the ancient pagoda, with a hint of greed in his eyes.

Although he is a core disciple of the Alchemy Emperor Holy Sect and has superb alchemy skills, his natal elixir fire is not a low-level flame, but a high-level beast fire called 'Holy Qilin Fire'. He can also rank two in the starry sky flame list. More than a thousand.

But after all, Zhao Tianlang's natal elixir fire is not one of the top 1,000 precious holy fires, which will greatly limit his future development as an alchemist.

At this moment, Zhao Tianlang stared at Mr. Lu, who was also very excited next to him. A ray of murderous intent flashed through his eyes, but no one saw this ray of murderous intent.

Mr. Lu didn't know that Zhao Tianlang, who was originally going to help him, had murderous intentions towards him.

Knowing that the ancient pagoda from the Dragon Realm might contain a high-level holy fire that was not weaker than the Extremely Cold Holy Fire, Mr. Lu looked excited and excited. He immediately looked at the two disciples from the Danhuang Holy Sect next to him and came out. He asked loudly: "Is there any way you two can help me get the mysterious sacred fire in this ancient pagoda? As long as it succeeds, I am willing to give you ten times the reward this time!"

Binglu closed her eyes slightly at this moment, and under the influence, the beautiful woman in a pale white dress opened her eyes and said: "This ancient pagoda itself is probably an ancient and powerful magic weapon, so we should not enter this ancient pagoda rashly. , so as not to be trapped in it and never be able to come out. The only way now is to draw out the mysterious holy fire from the ancient pagoda. The holy fire is beyond ordinary flames and is intelligent. Let me try to use my extreme power. The cold holy fire leads out of the ancient pagoda

After the mysterious holy fire is drawn out, the three of us will take action together to suppress the mysterious holy fire! "

"good!"

Mr. Lu and Zhao Tianlang, who were standing next to them, nodded immediately, eager to try.

After all, it is a powerful flame at the Holy Fire level. If you get it and refine it into your own martial arts foundation, it can make an ordinary alchemist instantly become an extremely noble Holy Fire Alchemist. Wherever you go, you will be respected by everyone.

Because the elixirs refined by the Holy Fire Alchemist have been baptized by the Holy Fire of Heaven and Earth, they are of very high grade, and the elixirs also have the properties and effects of the Holy Fire, and each one is priceless.

"The Extremely Cold Holy Fire!"

"rise!"

Suddenly at this time, Binglu, the woman with the sacred fire of her life, gave a cold shout.

An extremely cold storm immediately surged out of her body. In the storm, a phoenix made of ice crystals flew out in an instant, screaming.

"hold head high!!"

And almost at the moment when the ice crystal phoenix appeared, a huge and shocking dragon roar suddenly came from the ancient tower from the dragon world in front.

boom!

The next moment, a giant dragon with golden flames all over its body rushed out from the ancient tower, hovering high in the sky, roaring and roaring, filled with endless flame pressure, as if it could burn the world.

"This is....."

Suddenly, Binglu, the core disciple of the Danhuang Holy Sect, revealed a look of deep horror in her beautiful eyes.

She stared at the golden flame dragon in the sky, her eyes shocked and said: "This is the Dragon Spirit Holy Fire! It is the most powerful holy fire in the ancient dragon world! It ranks 360th on the flame list of the stars in the sky. Eight rare sacred fires!"

The moment Binglu finished speaking, the other two people standing next to her were shocked.

"Dragon Spirit Holy Fire?"

"The 368th rare holy fire!"

No one expected that in this small lost continent, a precious holy fire from the ancient dragon world would appear.

Moreover, it is still the Dragon Spirit Holy Fire that ranks so high on the flame list of the stars in the sky!

If the elixir is refined with this dragon spirit holy fire, it will definitely have extremely high-level dragon energy attributes, which will be extremely attractive to any alchemist.

"Let's take action together to suppress this dragon spirit holy fire first! Although the holy fire can burn the sky, it needs to be combined with the human alchemy master to explode the terrifying destructive power. A single holy fire cannot continue to output much burning The power of it!"

At this time, Binglu shouted coldly, and she jumped directly into the ice crystal phoenix above her head, and merged into one, carrying an extremely strong extreme cold storm, and instantly manifested the dragon spirit holy fire. The golden flame dragon was surrounded.

"boom!"

"boom!"

The golden flame dragon charged wildly, but could not escape the extremely cold storm.

A single holy fire, even if it is very high-level, cannot rely on itself to fight against the power of another low-level holy fire combined with a human alchemist.

"Qilin Fire!"

At this moment, Zhao Tianlang, who was wearing golden armor, immediately took action. A vast crimson beast fire surged out of his body, and he merged directly into the natal elixir fire, turning

into a majestic fire unicorn several hundred meters tall, roaring with one claw. The bombardment hit the golden flame dragon.

"howl!!"

The golden flame dragon roared in pain.

This dragon spirit holy fire accompanied the ancient tower and was buried in this lost continent for countless years. The essence of the flame was almost exhausted in the endless years, so it was beaten badly at this time.

It has to be said that the alchemists of this second universe not only possess superb alchemy skills and are sought after by countless practitioners, but their other uses of alchemy, such as increasing combat power, etc., are very miraculous. Let them have extremely powerful combat power.

At this time, Binglu immediately looked at Mr. Lu below, and shouted: "Mr. Lu! Now is the opportunity! You hurry up and release your natal elixir fire to refine the dragon spirit holy fire into your body middle!"

Mr. Lu said ecstatically: "Okay!"

He was extremely excited. If he refined this dragon spirit holy fire, he would immediately become the most popular alchemy master in the entire Tiannan Star Territory. .???.??

And with such a high-level holy fire, his future alchemy career will also be bright.

"Very good!"

"My luck is so good this time!"

Mr. Lu's eyes were shining. He was originally wearing a feather fan and silk scarf and looked very elegant, but at this moment, his face was filled with a deep fanaticism and his eyes were full of greed.

It seemed that in an instant he changed from a gentle scholar to a desperado who saw the treasure.

"Uh-huh!"

Mr. Lu jumped directly into the sky, burning dark green flames in one hand, and pressed towards the trapped golden flame dragon.

"Pfft!"

But suddenly at this moment, a sudden change occurred.

A palm burning with crimson animal fire, like a spear burning with flames, penetrated Mr. Lu's back at once, pierced out from his front body, and pinched a heart.

That is Mr. Lu's heart!

"you....."

Mr. Lu's originally ecstatic expression suddenly became extremely stiff.

He recognized that the red flame burning in the palm that pierced his body was Qilin Fire.

Mr. Lu turned his head with difficulty, and happened to see the sinister face of Zhao Tianlang, a disciple of the Danhuang Holy Sect beside him.

"I can not be reconciled....."

Mr. Lu wanted to say something else.

boom!

But the next moment, Zhao Tianlang, who was wearing golden armor, smashed Mr. Lu's body into pieces with a slap.

"Brother! What are you doing?"

Not far away, the ice dew floating in the extremely cold storm suddenly shouted in shock and anger:
"You killed our employer!"

"employer?"

Zhao Tianlang smiled coldly and said: "If it is just an ordinary high-level flame, we can help it refine it, but what is contained in this ancient tower is actually the legendary most powerful holy fire from the ancient dragon world! Dragon Spirit Holy Fire , the precious holy fire ranked 368th on the list of flames in the sky, if I get it, my future will be bright, how could I give it to this piece of shit?

Sir, in front of this precious flame, he is nothing! "

At this time, Zhao Tianlang said, his eyes filled with deep greed.

Binglu was extremely frightened and angry at this time. She never thought that her senior brother, who was always true to his word and upright, would one day do such a thing.

"Junior sister, don't think too much. Help me refine this Dragon Spirit Holy Fire. When I successfully refine it and become a Holy Fire Alchemist, I promise you that I will speak kindly to you in front of my Ninth Grandpa. You know, my ninth grandfather is the supreme elder of the Danhuang Holy Sect. As long as I say a few words of kindness to you, junior sister, you will definitely be directly promoted from a core disciple to a true disciple next year!"

At this time, Zhao Tianlang said, and immediately rushed to the injured Dragon Spirit Holy Fire, and began to run the inheritance and refine the Dragon Spirit Holy Fire.

Although Binglu's face was full of shock and anger at this time, now that what had happened, she had no choice but to continue to release the extreme cold storm and trap the golden flame dragon.

"Roar!!"

The golden flame dragon transformed by the Dragon Spirit Holy Fire was roaring in pain under Zhao Tianlang's refining.

Visible to the naked eye, Zhao Tianlang's whole body, which was originally red unicorn fire, was gradually replaced by the golden dragon spirit holy fire. His whole body, including his pupils and hair, were dyed a noble gold, making him look like a golden statue. Like a god.

At this moment, during the refining process, Zhao Tianlang's eyes were fixed on the figure of Binglu in the extreme cold storm in the distance. Seeing that the junior sister did not stop him, Zhao Tianlang's eyes suddenly flashed an undetectable trace. cruel sneer.

He couldn't help but murmur to himself, "Junior sister, junior sister, you are really naive. When you help me refine this dragon spirit holy fire, I will kill you too. Everything I have done today, No outsiders can know!"

Buzz!

And at the critical moment when Zhao Tianlang was secretly hiding his ferocious murderous intent, he was quickly refining the Dragon Spirit Holy Fire.

"Buzz!"

Suddenly, an undetectable spatial fluctuation suddenly appeared in the void around Zhao Tianlang.

Uh-huh!

A metal sword with a length of more than two hundred meters suddenly thrust out from it.

"Pfft!"

Zhao Tianlang didn't even react. When he was thinking about how to kill his junior sister later, his whole body was split in half by the metal sword in an instant, and his blood spilled into the sky.

Zhao Tianlang is not a warrior, but an alchemist. His body is fragile, let alone being reborn with a drop of blood.

He was split in half by the sudden metal sword and died on the spot!

"Uh-huh!"

And at the next moment, Ye Feng dispersed the power of the space gem and flashed out from the hidden surrounding void. With a big hand, he opened the lid of the good fortune oven and instantly turned the golden flame dragon that was transformed into the Dragon Spirit Sacred Fire. Load it into it, and then rush towards the distance quickly.

"Brother!"

Binglu, who was struggling in the extremely cold storm, never expected that there would be other masters hiding in the surrounding void, waiting for a fatal blow.

She watched helplessly as Zhao Tianlang was split in half instantly in front of her, without any fancy, and died on the spot.

"Bold thief! Take your life!"

Binglu was immediately frightened and furious. She first put the ancient tower in the collapsed soil into the storage ring, and then quickly chased Ye Feng.

Chapter 1309 Sense of Crisis

Uh-huh!

Uh-huh!

In the boundless primeval forest, two figures were chasing each other, and were moving forward quickly.

"boom!"

Suddenly, a large area of extremely cold storm bombarded directly from behind.

"Buzz!"

Ye Feng felt that his entire body was about to be frozen.

Even the entire space will be frozen.

"Great Wild God Chaos Fist!"

"break!"

Ye Feng punched out fiercely, and a huge phantom of the Barbarian God suddenly rushed out from the fist, roaring to the sky, and instantly shattered the surrounding space barrier that was sealed by ice.

But at this moment, Ye Feng saw that the skin on his fist had cracked open, and the blood flowing out of the wound was frozen into ice crystals in an instant.

"What a terrifying arctic holy fire!"

"Even my Cangtian Hegemony can invade and harm me."

"The power of the Great Wild God's Chaotic World Fist can only break the frozen space barrier."

Ye Feng was slightly shocked.

It seems that the hegemonic body and first-grade true god-level martial arts that he was proud of in the first universe are not that strong in the second universe. A sense of crisis arises in Ye Feng's heart.

"You can't run away!"

A young woman's cold voice came from behind.

It's ice dew!

This core disciple of the Alchemy Emperor Sect has very terrifying alchemy power.

The extremely cold holy fire burning in her body gives her the power to sweep away her peers.

"The future body of Dzogchen!"

Ye Feng roared, and a majestic figure suddenly appeared in the void behind him. It was the future body of Dzogchen, possessing the cultivation level of Dzogchen, the tenth level of the Divine Fire Realm.

"kill!"

Ye Feng and Dzogchen's future self took action together, instantly blasting out a terrifying and boundless killing force.

"It's freezing!"

Binglu, who was not far away, shouted coldly, and pressed her plain white palm in the direction of Ye Feng, releasing the powerful source power of the Extremely Cold Holy Fire.

"Buzz!"

In an instant, Ye Feng's attacking and killing power was directly frozen in the void.

The extremely cold holy fire can actually freeze the invisible killing power!

This scene made Ye Feng's eyes slightly startled.

This Binglu is worthy of being a Holy Fire Alchemist, and he is also a core disciple of the Alchemy Emperor Holy Sect in the Tiannan Star Region. His skills and cultivation are really very powerful, and he cannot resist it temporarily.

At this time, Ye Feng stared at the murderous Ice Dew on the opposite side and shouted: "Do you know, I am hiding in the void?"

A sneak attack actually saved your life! "

Binglu immediately revealed a sneer in her beautiful eyes and said: "Boy, don't talk nonsense. You killed my senior brother in a sneak attack in front of my eyes. You are a thief!"

Ye Feng's eyes were extremely calm and he said coldly: "That senior brother of yours did not keep his word. Not only did he kill your employer, he also wanted to swallow the Dragon Spirit Holy Fire. I believe that with his greedy and selfish character, waiting for him After successfully refining the Dragon Spirit Holy Fire, the next person to be killed is you, my junior sister! Because he cannot let anyone know about his moral corruption!"

"impossible!"

Binglu immediately shook her head and said, "Senior brother, he is not that kind of person!"

Ye Feng sneered: "Do you really think he is not that kind of person? He killed your employer directly in front of your eyes!"

"you.....!"

Hearing this, Binglu's beautiful face immediately showed a trace of embarrassment.

But at this time, she had begun to believe Ye Feng's words.

Because Zhao Tianlang's character really surprised Binglu.

She also didn't expect that her senior brother, who was usually so upright and upright, would directly kill his employer in the face of the temptation of profit.

Binglu stared at Ye Feng, who was not far away, and snorted coldly: "Humph, even if my senior brother is a bad guy, you, a kid who sneaks in to steal treasures, is definitely not a good guy."

Ye Feng shrugged and said: "I have never said that I am a good person, but I still have basic morals and righteousness. If I promise to help someone, I will definitely not behave like your senior brother. "

Binglu sneered: "Then you and my senior brother have no enmity and you still kill him?"

Ye Feng said indifferently: "I was the first to discover that ancient pagoda, but if you come, then we are no longer without grievances. You are my enemies. Taking away people's treasures is like cutting off people's flesh. Of course I want to kill your senior brother, this has nothing to do with morality, it is just a matter of natural selection and survival of the fittest."

Binglu stared at Ye Feng and said, "You are as greedy as my senior brother."

Ye Feng shook his head and said: "What kind of person I am has nothing to do with you, and I don't need your evaluation. I just want to tell you that killing your senior brother is equivalent to saving your life. You don't want to Chase me again."

Binglu stretched out a small white jade hand and said: "Give me the Dragon Spirit Holy Fire that you took away, and I will let you go, because when I return to the sect, I need to give an explanation to the upper levels of the sect."

Hearing this, Ye Feng's eyes suddenly turned cold and he said, "You are toasting me and you will be fined if you don't eat!"

Binglu chuckled and said: "I would like to see how such a small person like you

A warrior in the divine fire realm, why do you want me to drink wine as a penalty? "

"The laws of heaven and earth!"

Ye Feng followed without any nonsense and directly displayed the seventh talent of the Divine Art of Creation: Law of Heaven and Earth.

"boom!"

His whole body immediately rose from the ground and expanded directly into a golden giant with a height of tens of thousands of feet.

"This is?"

Binglu watched Ye Feng's entire body expand into a golden giant tens of thousands of feet tall. Her eyes were suddenly startled, as if she had thought of something.

"Invincible Sword Domain!"

"Death to the Gods!"

Ye Feng turned into a golden giant and roared. A metal sword several hundred meters long appeared in his hand, and then slashed at the ice dew in front of him.

"Boom!"

This is Ye Feng's most powerful sword so far. The endless sword energy destroys the storm. In an instant, it is like a tornado sweeping the entire world, as if the entire virgin forest will be completely destroyed.

"Arctic Shield!"

Binglu gave a cold shout and quickly formed seals with her hands. The extremely cold holy fire in her body surged rapidly, directly condensing a huge ice crystal shield around her.

"Rumble..."

The infinite violent hurricane of sword energy swept in front of her, but she was the core disciple of the Danhuang Holy Sect, with strong cultivation, and she completely controlled the holy power of the Extremely Cold Holy Fire. The ice crystals condensed at this time. The giant shield easily withstood the sword energy storm, but there were slight cracks on the surface of the shield, which were innocuous.

"Uh-huh!"

But the next moment, the ice dew dispersed the ice crystal shield, and they found that the golden giant in front of them had disappeared without a trace.

Ye Feng knew that he was no match for Binglu. After striking out the strongest sword, which hindered Binglu, he used the space gem to directly tear the void and escape instantly.

On the way, Ye Feng also used the Soul Hiding Technique to cover his body, blocking out soul power and mental detection.

"Buzz!"

At this time, Binglu, who was standing on the same spot, exuded huge mental power, but could not detect any fluctuations in his life.

The Holy Fire Alchemist of the Alchemy Emperor Sect showed a hint of surprise in his eyes, "Is he a fellow practitioner of Soul Martial Arts? He can actually block my mental power detection. This is definitely the method of a Soul Master! This is Who is this person to be so extraordinary?"

If it were an ordinary divine fire realm warrior, Binglu knew that his extreme cold storm would have frozen him to death.

But the young man she met today was very powerful and slipped away from her eyes.

Binglu was silent for a moment, and finally

Finally shook his head and murmured to himself, "This time I can only lie to the elders in the sect that we have encountered an irresistible danger. That kid is quite interesting. If he can refine the Dragon Spirit Holy Fire, he will also become the Holy Fire." Master alchemy, we will meet again one day."

For some unknown reason, Binglu's final decision was not to tell Ye Feng that he had killed her senior brother, but instead chose to tell the sect that they had encountered an irresistible crisis.

Maybe, she also knew in her heart that Ye Feng did save her life this time.

"Uh-huh!"

Next, Binglu took out a huge starship from the storage ring, which could accommodate more than a dozen people. It was obviously a very high-end starship.

She entered the starship and input her spiritual power. In an instant, the starship made a "boom" and soared into the sky, leaving this lost continent.

At this time, there was a piece of dead leaves on the ground not far from the original place.

"Crash..."

Ye Feng suddenly stood up from the countless dead leaves. It turned out that he was hiding nearby.

"Ice Dew, Holy Fire Alchemist, Alchemy Emperor Holy Sect..."

Ye Feng murmured, then no longer hesitated, and directly released his starship, piloted the starship to quickly rush into the starry sky, and left this place of right and wrong.

...

Three days later, Ye Feng drove the starship back to the huge planet where the Galaxy Holy Land is located.

He went straight to the base camp of the Galaxy Holy Land, and then returned to his residence.

In the Crystal Palace, Ye Feng immediately noticed that in a training room, Lu Yaoyao was in a deep state of cultivation.

He did not disturb Junior Sister Yaoyao, but walked to another training room, closed the door, and released the oven of creation.

"Cang Dang! Cang Dang..."

At this time, pieces of bright golden flames were frantically impacting the lid of the Creation Oven, and there was a faint sound of dragon roars.

"The trial of the Starry Sky Secret Realm is coming soon. I hope that I have refined this Dragon Spirit Holy Fire, which will greatly increase my strength!"

Before, Ye Feng thought that alchemists could only refine alchemy, but since he saw the holy fire alchemist such as Binglu with terrifying combat power on the lost continent, Ye Feng knew that the holy fire could not only make the alchemist's alchemy skills extraordinary and holy. , can also greatly enhance the alchemist's combat effectiveness, giving the alchemist a tyrannical and destructive power that is not weaker than a powerful warrior!

"Swallow!"

With this thought, Ye Feng directly opened the creation oven, opened his mouth and swallowed the golden flame dragon transformed by the dragon spirit holy fire in the creation oven!

"So hot!"

Suddenly, Ye Feng's expression changed slightly.

He just felt that his stomach was about to be burned through!

Chapter 1310 Alchemy Alchemy

"Rumble..."

Waves of hot and powerful flames were burning fiercely in Ye Feng's body at this moment.

Ye Feng's face was covered with beads of sweat. This time, in order to refine the Dragon Spirit Holy Fire as quickly as possible, he chose the most direct and simple way, which was to swallow the Dragon Spirit Holy Fire violently.

This dragon spirit holy fire is a holy fire among the rare flames in the universe.

Moreover, the Dragon Spirit Holy Fire is much more advanced than the previous Ice Dew Extreme Cold Holy Fire.

Ye Feng has already seen the powerful and terrifying combat power that Binglu used to use the Extremely Cold Holy Fire to increase her power.

This shows that once the Dragon Spirit Holy Fire is refined by himself, it will become his biggest trump card at present.

Ye Feng knew very well that in the next Starry Sky Secret Realm trial, all registered disciples in the entire Galaxy Holy Land would participate.

These geniuses who have been cultivating and growing up in the second universe since childhood, all of them are absolutely capable of countless tricks and powerful combat power.

Before he awakens the bloodline of the Kingdom of God in his body and obtains the Secret of the Chaos Heavenly Emperor, the Dragon Spirit Holy Fire, a high-level holy fire, will greatly improve his safety factor.

"Buzz!"

For a moment, the entire training room seemed to have turned into a furnace of flames.

You can hear waves of dragon roars coming from Ye Feng's body.

And it can be seen that at this moment, every inch of Ye Feng's body is radiating golden flames. His whole body is burning with fierce golden flames, as if he has turned into an ancient statue. Like the golden god, it exudes terrifying power that burns the sky and cracks the earth.

...

In the blink of an eye, a few days passed.

On this day, Ye Feng walked out of the training room.

At this moment, he could faintly see golden flames surging in his pupils.

In the past few days, Ye Feng has successfully refined the Dragon Spirit Holy Fire!

It has completely become my own natal flame!

And this means that as long as Ye Feng starts learning alchemy now, he can become a respected Holy Fire Alchemist, superior to ordinary alchemists.

And Ye Feng didn't intend to hide his possession of the Holy Fire.

Because once the holy fire of heaven and earth is completely refined by the alchemist and enters one's body, the holy fire and the alchemist will become one body.

Even if the Holy Fire Alchemist is killed, the Holy Fire in his body cannot be plundered. The Holy Fire will be annihilated with the death of the Alchemist.

Therefore, the Holy Fire Alchemist who possesses the Holy Fire is not afraid of others being jealous at all.

Therefore, even if some extremely evil people caught the Holy Fire Alchemist, they would not be rude to them. Instead, they would politely ask the Holy Fire Alchemist to refine elixirs for them.

So this is why, in the entire Tiannan Star Territory, wherever the Holy Fire Alchemist goes, no matter whether he is on the righteous path, the demonic path or the evil path, he will always treat a Holy Fire Alchemist ten times.

Very polite.

Because the Holy Fire Alchemist is a mobile treasure to the entire spiritual world.

Moreover, the Holy Fire Alchemist possesses the Holy Fire and releases the power of the Holy Fire. Even ordinary people cannot resist it, and his combat effectiveness is also very fierce.

In addition, Ye Feng decided to learn alchemy next, also in order to resurrect Miss Lan in the ice coffin.

Since entering the Galaxy Holy Land, Ye Feng has gone into the Holy Land's library and rummaged through countless healing books in his spare time during cultivation.

In the end, he found that it was very difficult to save Guqin Lan who was under the curse of disaster. He needed to find various rare materials to refine the legendary immortal elixir: Xinghe Longevity Pill.

The levels of elixirs and alchemists are the same as the levels of heaven and earth magic weapons and elixirs. In this perfect world, there is a unified high-end standard, which are: mortal level, immortal level, false god level, and true god level. , Taoist level, Dao level, Immortal level, Supreme level, Chaos level, and finally the supreme Dominant level.

Each level is divided into nine levels, with level one being the lowest and level nine being the highest.

If you want to refine immortal-level elixirs, you need at least an immortal-level alchemy master, and you also need an alchemy master with a holy fire.

Such a big shot, let alone the Galaxy Holy Land, may not even exist in the entire Tiannan Star Region, or even in the higher Level 2 Star Region, or even in the Level 3 Star Region.

So in the end, Ye Feng decided that it is better to seek help from others than to ask for yourself. By chance, he smelted a ball of dragon spirit holy fire that was unique and powerful in the world, and had the basic qualifications to become a holy fire alchemist.

Perhaps, with his own hard work, he can eventually become that immortal-level alchemy master.

Moreover, Ye Feng himself is a soul master, and his soul and mental power are very powerful. This gives him a perfect foundation for alchemy, which is unmatched by anyone.

Becoming a Holy Fire Alchemist will not only resurrect Miss Lan, but will also be of great benefit to your own martial arts practice.

The use of holy fire can also increase one's combat effectiveness.

So thinking of these, Ye Feng decided that after the Starry Sky Secret Realm trial is over, he needs to start learning alchemy regardless of whether he can become an outer disciple or not.

After all, having too many skills doesn't weigh you down.

Moreover, Ye Feng thought even more profoundly. If he could really become a very noble Holy Fire Alchemy Master, he would have the confidence to have an equal dialogue with the superior Gu Clan in the future.

You know, if you become a supreme or chaos-level holy fire alchemy master, even a huge divine kingdom with a starry sky overlord level will need to be polite to you.

Because there were rumors that a ninth-level star domain lord offended a supreme holy fire alchemy master. As a result, the holy fire alchemy master

In anger, the master directly activated the infinite holy fire, which burned the vast galaxy in the ninth-level star field and turned it into a galaxy of death, shocking the entire second universe.

It can be seen from this that a truly powerful Holy Fire Alchemist can not only refine the supreme divine elixir, but also turn into a fire god that burns the sky and cracks the earth, burning everything.

Thinking in his mind, Ye Feng walked out of the training room at this time, and he found that Lu Yaoyao was not in the palace.

"Squeak."

But at this moment, the door of the Crystal Palace was pushed open.

Lu Yaoyao happened to walk in, saw Ye Feng, and immediately said in surprise: "Brother Ye Feng, are you finally out of seclusion? I was still thinking about whether to wake you up, because the Starry Sky Secret Realm trial has begun. All registered disciples need to report to the observation deck of our Galaxy Holy Land."

Ye Feng looked surprised and said: "Have I been practicing for so long? The Starry Sky Secret Realm trial has begun?"

Lu Yaoyao walked forward directly, stretched out a small white jade hand, took Ye Feng and ran towards the outside of the palace, saying: "We are running out of time, let's hurry over."

Ye Feng nodded slightly, grabbed Lu Yaoyao's shoulders, and said with a smile: "Junior sister Yaoyao, show me where the observation tower is, and I will take you faster."

"good!"

Lu Yaoyao immediately started to give directions.

"Buzz!"

The next moment, Ye Feng used a trace of the power of the space gem to grab Lu Yaoyao, and the two of them instantly started to flash.

A flash is thousands of meters away.

After a few flashes, the two of them had arrived at their destination.

The observatory is a huge platform built on the central plain of the entire planet.

There are huge starships parked here, all of which are made of meteorite iron. Each of them is like a giant beast, lying on the ground, exuding the iron blood of war.

At this time, hundreds of thousands of people have gathered on this platform.

People were coming and going and it was very lively.

At this time, Lu Yaoyao was standing next to Ye Feng, as if she had just recovered from the flash.

Her big bright eyes stared at Ye Feng beside her, and she couldn't help but said in surprise: "Senior Brother Ye Feng, it was so fast just now! I feel like we are traveling through the void! Senior Brother Ye Feng, should you? Are they the awakeners of some rare space power? There are many awakeners with special powers in this world, all of them are very powerful, such as the sacred fire awakeners, the space awakeners, the divine blood awakeners, etc., they are all from heaven. Beloved, very powerful."

"Awakened One?"

Ye Feng smiled slightly, shook his head and said: "I am not an awakened person, I just practice a space-based movement technique."

land

Hearing this, Yaoyao couldn't help but nodded and said: "That's right. If you, Senior Brother Ye Feng, were a powerful awakener, you would have been directly rushed to be accepted as a true disciple by the Supreme Elders of our Galaxy Holy Land. It is said that The true disciples of many big figures in our Galaxy Holy Land are all powerful Awakened Ones. Moreover, many of the Saint Son-level figures in our Galaxy Holy Land are also Awakened Ones who have awakened rare talents. Anyway, Awakened Ones are very powerful. "

Ye Feng didn't pay attention to Lu Yaoyao's chatter at the moment.

He was observing the people participating in the Starry Sky Secret Realm trial.

Among all the registered disciples who participated, Ye Feng relied on his powerful soul power to notice that there were many existences with extraordinary cultivation abilities.

"Look! They are the six masters among our registered disciples!"

"They came so late. They are indeed there as the finale. They are full of style."

Suddenly at this moment, a violent noise broke out from the crowd.

Swish, swish, swish!

At this moment, countless people's eyes were looking not far away.

Ye Feng also followed everyone at this time and looked in that direction.

He immediately saw six young men and women with noble temperaments, standing on a huge purple spirit boat, descending from the distant sky.

At this moment, Ye Feng suddenly noticed the person standing at the back among the six people.

It turned out to be Lin Yu!

This person was the arrogant Lin Yu whom Ye Feng had clashed with when they slapped each other in front of the nine-story magic tower.

At this time, he seemed to have caught Ye Feng's gaze. Lu Yaoyao beside him immediately explained with a smile: "Senior Brother Ye Feng, the person you are looking at is Senior Brother Lin Yu, who is ranked sixth among the six masters among our registered disciples. , Although he ranks at the bottom of the six masters, don't underestimate him, he is one of the top six among our entire group of 300,000 registered disciples! "

Hearing this, Ye Feng couldn't help but smile slightly and said, "Oh, really? In this Starry Sky Secret Realm trial, I want to see if Senior Brother Lin Yu is as powerful as the rumors."

At this moment, Ye Feng suddenly saw Lin Yu, who was standing on the huge spiritual boat in the distance, seemed to notice his gaze and looked towards Ye Feng.

Lin Yu's eyes immediately revealed a cold smile. He stared at Ye Feng and said through his spiritual voice: "Boy, you are very courageous. You actually dare to participate in this Starry Sky Secret Realm trial with me. Very good, this time I will let you die in the trial without knowing it."

Ye Feng, on the other hand, showed no fear, and sent back a message from his spiritual mind: "Many people have said this to me, but they themselves were the ones who died in the end."

Lin Yu smiled coldly and said through his spiritual voice: "The ignorant are fearless, let's wait and see."
