Chapter 1361 A breakthrough in understanding

"The city lord wants to see me alone?"

Ye Feng's eyes showed a hint of surprise at this time.

But then he nodded and said: "Okay, then Captain Lao Duan will lead the way."

Duan Jinglong smiled and said: "It doesn't matter, maybe Ye Feng will really become a member of the Giant City Guards in the future and become the right-hand man of the city lord. The two of us will be colleagues in the future."

Obviously, in Duan Jinglong's mind, Ye Feng has been placed on the same level as him.

This is taken extremely seriously.

When Ye Feng heard this, he just smiled and said nothing more.

He had no intention of becoming a Giant City Guard in his lifetime.

Just temporarily become a giant city guard, complete the mission, and gain huge wealth.

That's all. .??.

...

Half an hour later, Ye Feng followed Duan Jinglong to the door of a training room deep in the city lord's mansion.

Duan Jinglong smiled and said: "Brother Ye, just go in. The Lord of the City has been waiting for you for a long time."

"good."

Ye Feng nodded, opened the door, and walked in directly.

The moment Ye Feng entered the training room, the scene he expected did not appear.

What he saw in his field of vision was not a dark and narrow underground secret room.

It is a very peaceful land of mountains, rivers and fields.

"This secret cultivation room is actually a small world created by itself? Although it is not big, it is already very surprising."

Ye Feng thought to himself, and then walked directly into the mountains, rivers and fields. He felt a kind of peace and tranquility that he had not seen for a long time.

"You came."

At the end of the field, on a hillside, a middle-aged man wearing a pale golden robe spoke slowly.

He turned around and showed

Revealing a face with majestic features, long hair tied up, deep-set eyes, a towering head, a body as tall as a mountain, and an astonishingly calm aura.

This person is none other than the Lord of War City, Lu Ming!

A super strong man in the eternal realm who has surpassed the six levels of the realm of gods!

Lu Ming did not show much majesty in front of Ye Feng, but smiled slightly and said: "It's so good to be young. I think that when I achieved the status of the Holy Son in the Galaxy Holy Land, I was like you young people. , free and wandering around the world."

Ye Feng cupped his fists slightly and said, "The city lord is joking. The city lord is a powerful man in the eternal realm. He is naturally more unrestrained than us warriors in the divine realm."

Lu Ming shook his head and said: "The stronger your cultivation is, the more people will be watching you. Do you know why I don't do the beheading operation myself this time? That's because every move of a strong man in the Eternal Realm will trigger. If there is a slight fluctuation in the heavenly secrets, Sima Suantian, the great strategist in the Taiyin Demon Sect camp, will calculate the fluctuations in my heavenly secrets, thereby increasing his vigilance, and even directly escaping from the fortress of the commander of the Taiyin Demonic Sect outside our war giant city."

Hearing this, Ye Feng suddenly understood and said: "No wonder, Lord City Lord, you want to form a team of elite soldiers, in order to gather the talented people under the eternal realm and lurk into the commander's fortress. No, Let Sima Suantian deduce the action to assassinate him."

Lu Ming nodded and said: "Yes, this is the only way to succeed now. As long as the assassination of Sima Shuantian is successful, the military layout of the Taiyin Star Territory at the junction of this star territory will immediately become chaotic. , then the situation on our battlefield will turn around in an instant, defeating the army of the Taiyin Star Territory in one fell swoop!"

Ye Feng said: "Okay.

,I will try my best. "

Lu Ming stared at Ye Feng and said: "You have extraordinary qualifications. You may be able to shine in the next core competition in our Galaxy Holy Land and become a saint-child-like existence. In the future, you will definitely be able to enter the eternal realm and become a giant. We are all from the same sect, and I also hope that the young people of the Galaxy Holy Land can become stronger, so I will personally guide you in the next period of time."

Ye Feng's eyes suddenly lit up, and he felt happy in his heart.

A strong man from the eternal realm guides you step by step.

That is definitely a great treatment!

Lu Ming smiled and said: "I am guiding you, firstly, so that you can contribute more to this beheading operation, secondly, to do your best for the Galaxy Holy Land and to cultivate the younger generation, and thirdly, then I know that you have a bright future, and now I can guide you, which can be regarded as a good relationship. "

Ye Feng clasped his fists slightly and said, "Anyway, thank you City Lord for your kindness."

Lu Ming said: "From now on, just call me Senior Brother Lu. You and I are both members of the same sect in the Galaxy Holy Land. There is no need to be so outspoken. You are different from Jinglong and the others."

Ye Feng hesitated, then nodded and said: "Okay, Senior Brother Lu."

Lu Ming laughed, and then said: "There are still a few days left before the beheading operation. In the past few days, you will stay with me in this small world of the secret room. I will personally guide you. If you have any difficult questions in martial arts practice, I will tell you." You can ask me directly."

Ye Feng smiled and said: "Okay!"

Those who are powerful in the Eternal Realm are usually those who see the beginning but not the end of the dragon.

Being able to receive face-to-face guidance from a powerful person in the Eternal Realm is simply a rare opportunity in a thousand years.

So in the following time, Ye Feng did not waste any time.

Convey your feelings about martial arts practice

Enlightenment, as well as various incomprehensions in cultivation, as well as various difficult questions about martial arts inheritance, were all asked.

Lu Ming was very patient and answered the questions one by one for Ye Feng, his junior brother.

Ye Feng's various confusions about martial arts practice suddenly became enlightened and he gained deep insights.

"boom!"

Just three days later, a new and powerful aura suddenly burst out from Ye Feng's body.

"Second Heaven of the Spiritual Realm..."

Ye Feng opened his eyes, with a hint of surprise in his eyes.

"In the past three days, I didn't swallow or absorb any energy, but I made a breakthrough directly. No wonder some people can cultivate their mental state without cultivating their magic power, and they can finally achieve enlightenment and become immortals instantly."

Ye Feng murmured, and his understanding of martial arts practice has also increased a lot.

This time, in addition to breaking through a level of cultivation, the most important thing is that Ye Feng has a completely new understanding of the various martial arts inheritance and methods he currently possesses.

The martial arts inheritance he will exert next will explode with even more terrifying power than before.

"It's almost time."

At this time, Lu Ming was sitting cross-legged on a hillside not far away, suddenly opened his eyes and spoke.

Ye Feng clasped his fists slightly and said, "Senior Brother Lu, I'll go then."

After finishing his words, Ye Feng turned around and left the small world of the training room.

Outside, Duan Jinglong was already waiting with a team of more than a dozen figures.

Seeing Ye Feng coming out, Duan Jinglong immediately beamed with joy and said: "Ye Feng, you finally came out, let's go, the space teleportation array is ready, we will teleport directly to the commander of the Taiyin Star Territory Starry sky near the fortress."

Chapter 1362 Soul Resonance

Lunar Star Territory, a dark starry sky in this vast secondary star territory.

Duan Jinglong led a team of more than ten elite soldiers and was quickly lurking in a certain direction in the starry sky.

Not far from this starry sky, there is a huge and vast continental plate suspended.

And a war fortress like a steel forest stands on the continental plate.

This war fortress is the commander's fortress of the Taiyin Star Territory that confronts the giant war city of Tiannan Continent.

The mission of the elite squad led by Duan Jinglong this time is to find a way to enter the commander's fortress and assassinate the great military advisor of this commander's fortress, Sima Suantian.

The existence of Sima Suantian is really a great threat to the entire Tiannan Star Region alliance.

When the two armies are facing each other, as long as their main military advisor is eliminated, the army in the Taiyin Star Region will immediately be in chaos.

Duan Jinglong now led a group of people, lurking behind the shattered meteorites in the surrounding starry sky. ??

He pointed at the huge and towering commander's fortress not far away and said to the people behind him: "That fortress is our goal this time."

At this time, Jinglong looked at the three people on the left side of the group and said: "You three, release the powerful magic weapon directly later to attack the commander's fortress, so that all the

masters of the Taiyin Demon Cult in the commander's fortress will be alerted. Then hunt you down and distract most of the enemies for us.”

The three people who were selected immediately nodded and said: "Captain, don't worry, we will definitely complete the task of luring away the powerful enemy!"

After saying that, the three people immediately flew towards the commander's fortress.

At this time, Duan Jinglong looked at the other three people and said: "You three, you will lurk directly into the commander's fortress later, deliberately leaking your own cultivation aura slightly, so that the strong men left behind in the commander's fortress can notice it. You, lure away the second wave of enemies hidden in the Commander's Fortress.”

"Yes! Captain!"

These three people also immediately left the meteorite area and flew towards the commander's fortress.

At this time, Duan Jinglong looked at the remaining six people, including Ye Feng.

Duan Jinglong's tone was full of unprecedented seriousness at this time, and he said: "For the rest of us, after the six of them pretended to distract the enemies in the Commander's Fortress twice in a row, we immediately lurked into the Commander's Fortress and started. Search for the whereabouts of the great military advisor Sima Suantian. If you find him, immediately notify others to come to support and kill him!"

"Understood!"

The few remaining people, including Ye Feng, all spoke out one after another.

The eyes of several people were firmer than ever before.

They are not loyal to the giant war city, but are loyal to the huge reward of one billion Saint Crystals after the mission is successful.

The wages of avarice is death.

Everyone is extremely determined for this mission.

"Boom!!"

And suddenly at this moment, the commander's fortress standing not far away on a broken continent suddenly erupted with an earth-shattering roar.

"They've already taken action!"

Duan Jinglong immediately said: "It's time for us to take action!"

Uh-huh!

Uh-huh!

A group of people immediately followed Duan Jinglong and flew into the distance.

When they arrived at the edge of the Commander's Fortress, an extremely fierce battle had broken out around the entire fortress.

This time, every member of the elite squad was given a magic weapon that contained extremely powerful power by the city lord, so their combat effectiveness was astonishing.

Even just a few people can cause all kinds of chaos to the towering and huge commander's fortress in an instant.

Duan Jinglong and Ye Feng's group of people were all covered with concealment charms, which fully reduced the fluctuations in their own cultivation and life.

Their group of assassins were all the best among the best.

At this time, taking advantage of the chaos, he quickly shuttled through the buildings in the Commander's Fortress.

Duan Jinglong and others had spread out in a network shape at this time. Several people spread out and quickly searched for the traces of the great military advisor Sima Suantian.

Ye Feng possessed a thousand levels of huge soul power, but he did not disperse directly.

Because spreading his tyrannical soul power over a large area would definitely arouse the vigilance of Sima Suantian.

After all, what Sima Shuantian cultivates is also the soul.

However, according to Duan Jinglong, Sima Suantian's own strength is not great. What he is most powerful about is his military skills. He is an intelligent figure who can command the overall situation. He is a literary general, not a military general.

Therefore, Ye Feng is not too worried that he cannot kill Sima Suantian. The most important thing in this beheading mission is to find traces of Sima Suantian.

"Although I cannot dissipate all the soul power in a large scale, I can release a tiny bit of soul power to resonate with the fluctuations of Sima Suantian's soul power. In that case, not only will it not cause Sima Suantian alert and able to quickly locate his location."

Ye Feng thought in his mind, and began to release a little bit of his soul power, radiating it to the surroundings, and began to sense the fluctuations of Sima Suantian's soul power and perform soul resonance.

Ye Feng's idea was very correct. Almost at that moment, he found a very obscure soul power fluctuation and resonated with it.

"found it!"

Ye Feng's eyes were filled with joy, he took out a musical instrument and quickly threw it around to notify Duan Jinglong and others.

"If we had thought of this method earlier, we wouldn't have to spread out to search."

\u003c

br\u003e Ye Feng muttered secretly.

There is no other way now but to find Sima Suantian first. We cannot let this intelligent military advisor escape.

"Uh-huh!"

"Uh-huh!"

Ye Feng concealed his aura and quickly arrived at the door of a small vermilion jade palace in the deepest part of the commander's fortress based on the resonance of his soul.

"Boom!"

Ye Feng punched out, the light of chaos erupted, and the terrifying power of his body exploded instantly, shattering the door of the palace in one fell swoop.

In the field of vision, in the main hall, a middle-aged Confucian scholar who was talking to each jade talisman and mobilizing troops was talking quickly.

But the broken door made the middle-aged Confucian scholar stunned.

He saw the murderous Ye Feng, his eyes a little horrified, and said: "How did you find my location? This is impossible, unless you are also a soul master! Moreover, you are also a very powerful soul master!"

Ye Feng's tone was indifferent and said: "Sima Suantian, you are indeed very smart, but you must die today. This has nothing to do with right or wrong, but only a matter of position."

boom!

After Ye Feng finished speaking, he held the sword in his hand and rushed towards Sima Suantian.

"Shadow Guard! Protect me!"

At this moment, Sima Suantian suddenly exclaimed.

"Whoa! Whoa! Whoa! Whoa!"

The next moment, four ghost-like figures suddenly flashed out from the void behind Sima Suantian, spun quickly, and then stood in front of Sima Suantian, saying to Ye Feng: "Your Excellency is very kind. You are strong, but you shouldn't be here. You are no match for the four of us, but the four of us can't kill you. You'd better hurry up and escape."

Ye Feng's eyes were cold, and he held a sword burning with golden holy fire in his hand. He was so powerful that he shouted: "Anyone who stands in my way will die!"

Chapter 1363 The Great Jiuji Divine Sword

"boom!"

Almost at the moment Ye Feng finished speaking, the sword in his hand suddenly erupted into terrifying and boundless golden flames.

This golden flame is the Dragon Spirit Holy Fire, filled with extremely terrifying burning power.

"ah!" ??

"ah!" ??

The four ghostly shadow guards didn't even react. They were instantly burned by the majestic holy fire sword energy and screamed one after another.

"What? Is this the Holy Fire? You are the Holy Fire Alchemist!"

Several shadow guard masters who were burned in the flames all screamed in surprise, their voices full of disbelief.

Because the most effective attack method that can break the "shadow skills" of their four shadow guards is to use holy fire to burn the void.

Ye Feng smiled coldly and said, "I can see the weakness of your technique at a glance."

boom!

After Ye Feng finished speaking, he swung his sword and killed the four shadow guards instantly.

Then he grabbed Sima Suantian at the back with one hand.

At this moment, Sima Suantian's eyes could no longer maintain the indifference that would make him win from thousands of miles away.

Because he was directly attacked at the base camp.

"Soul Power Strangulation!"

Suddenly Sima Suantian roared loudly, and a vertical eye suddenly split between his eyebrows.

"boom!"

Suddenly, a jet-black light of soul power rushed out from the vertical eye.

Uh-huh!

Like an invisible soul spear, it stabbed directly towards Ye Feng.

"Your soul power is not as powerful as mine, and yet you dare to attack me. It's just like a cricket that shakes a tree."

Ye Feng's tone was indifferent and he directly used the Soul Emperor Seal.

"boom!"

A giant covered with endless thunder, holding a thunder scepter in his hand, like a towering thunder god, instantly stepped out of Ye Feng's soul sea, and directly used the scepter to directly release the soul power spear released by Sima Shuantian. It was broken into countless pieces.

"This is...the Soul Emperor Seal?"

Sima Shuantian suddenly exclaimed, as if he had seen something incredible.

But at this moment, Ye Feng, who was just about to kill Sima Shuantian with a sword, flashed his eyes and said: "You actually saw at a glance that my soul path inheritance is the Soul Emperor Seal."

Sima Shuantian's eyes were horrified. At this moment, he even temporarily forgot about the death crisis, but said loudly: "The Soul Emperor Seal, this is Gai Jiuyou, who is known as the 'Supreme Forbidden Mage', and his senior brother Tianhun Old Man The ultimate inheritance of the top soul path created together. Moreover, these two legendary brothers also worked together to create a peerless soul weapon that shocked the world, called the 'Great Nine Ultimate Sword of God', which consists of nine different types! The combination of soul knives made of the mother energy of all things can erupt with unparalleled power that can destroy the stars! "

At this moment, Sima Shuantian was talking, his eyes full of excitement, and he seemed to have a feeling that it was enough to hear the Tao in the morning and die in the evening.

"Gai Jiuyou?"

"Old man Tianhun?"

"Soul Emperor Seal?"

"Great Jiuji Divine Sword?"

Ye Feng's eyes were surprised, as if he was shocked by Sima Suantian's words.

At this time, he finally knew the true origin of the soul inheritance 'Soul Emperor Seal' that he had accidentally obtained back then.

In addition, Ye Feng now also understands that a crimson knife and a golden knife that can be fused with the soul emperor mark he cultivated turned out to be part of the 'Great Nine Extremes Slaying God Sword'.

"Unexpectedly, I unknowingly obtained the ultimate inheritance of the Soul Dao, and also obtained two fragments of the Great Jiuji Divine Sword."

Ye Feng murmured at this time.

Then he stared at Sima Suantian in front of him and asked, "Do you know where the other fragments of the Great Nine Extremes Sword are?"

Sima Suan Tianli

Ma shook his head and said: "It is known as the most terrifying soul-killing weapon in the world, the 'Great Nine Extremes Slaughtering Divine Sword'. How could a little person like me know where it is?"

Ye Feng's eyes darkened and he said: "Then you have no use value, so I can only kill you."

boom!

Saying that, Ye Feng directly burst out the holy fire sword energy of the sword in his hand, and wanted to cut off Sima Shuantian's head.

"No! Wait!"

Sima Suantian suddenly exclaimed and said: "Don't kill me, I know a place where you may be able to find the fragments of the Great Jiuji Divine Sword."

When Ye Feng heard this, his eyes lit up and he said, "Where?"

"Who dares to break into my Taiyin Demon Cult fortress? Die!"

Suddenly at this moment, a steady, powerful and majestic voice suddenly sounded outside.

"Buzz!"

And at the next moment, a martial arts aura that frightened countless people suddenly appeared in the entire world, making everyone feel suffocated to the extreme.

"What is this breath?"

Ye Feng's eyes were immediately startled and he said: "He is a powerful person in the Eternal Realm!"

boom!

At this time, Ye Feng had no time to ask any more questions. He immediately knocked out Sima Suantian in front of him with a palm, then rushed out of the palace with him on his back, hiding the fluctuations in his life, and headed towards the commander of the Taiyin Demon Sect. Rush to the fortress.

Time is very tight!

"Boom!!"

Suddenly, a huge palm with overwhelming power grabbed towards the commander's fortress.

The ground of this broken continent collapsed in an instant, and a huge palm print appeared on the ground, sinking like an abyss.

"ah!"

"ah!"

Accompanied by two screams, the two members of the elite squad who came with Ye Feng instantly fell under the crushing force of this unparalleled hand.

A strong man in the Eternal Realm took action, and the power that came instantly was as heavy as the vast sea, and as oppressive as the sky, which was impossible to resist.

"Walk!"

Suddenly somewhere, Duan Jinglong jumped up, took several members of the elite squad, fled quickly towards the distance, and soon disappeared.

Half an hour later, in a meteorite zone far away from the fortress of the commander of the Taiyin Demon Sect.

Uh-huh!

Uh-huh!

Uh-huh!

Several very embarrassed figures flew over quickly.

It was Duan Jinglong who had escaped from death, and several other members of the elite squad.

At this time, several team members had very ugly eyes and said: "Damn it, I didn't expect that this Eternal Realm powerhouse in the Commander's Fortress was dragged down by the Lord of the City in the dark, and he could still use part of his mind to face it. Attack here and deliver a terrible blow."

Duan Jinglong's face also looked very ugly, and he said solemnly: "In any case, this mission is a complete failure, right..."

Suddenly at this time, Duan Jinglong glanced at the elite squads in front of him, but found no trace of Ye Feng.

"Oops! Ye Feng is still trapped in the Commander's Fortress? That's it!"

Duan Jinglong suddenly exclaimed, even more frightened than if he failed the mission.

Because he knew how much the city lord valued the young man Ye Feng.

If something happens to Ye Feng, Duan Jinglong, as the captain, will have a huge responsibility that he cannot shirk.

"team leader!"

"Everyone!"

"I'm back!"

But suddenly at this moment, from the end of the starry sky not far away, a young man in black clothes rushed towards him.

"Ye Feng!"

Duan Jinglong's eyes were immediately startled, and then he was deeply delighted and said, "Great! You're back alive, huh? Who is you carrying behind you?"

Chapter 1364 Big Gift

Under everyone's horrified gaze, Ye Feng threw the unconscious Sima Suantian behind him to the ground.

"This is?"

"Sima is in charge!"

"The great military advisor in the Taiyin Demon Sect's army!"

The few surviving members of the elite squad had deep astonishment in their eyes.

Even Duan Jinglong couldn't help but take a breath of air.

When they found nothing and fled in panic.

Ye Feng, however, leisurely carried back the mission target of this beheading operation.

This is simply something that no one could have imagined.

But Ye Feng did it silently.

Duan Jinglong looked overjoyed, patted Ye Feng's shoulder hard, and said: "Ye Feng, you have made a great contribution this time. The Lord of the City will definitely reward you. Now, let's kill this Sima Suantian directly. , once and for all."

As he spoke, Duan Jinglong made a "clang" sound and drew out the long serrated knife on his back, his eyes full of murderous intent.

"Wait a moment."

Ye Feng suddenly spoke up at this time: "Since I have snatched Sima Suantian back, I just need to prevent him from returning to the Taiyin Demon Sect. Captain, this Sima Suantian is still of some use to me. I hope he can be allowed to return to Taiyin Demon Sect." He follows me, don't worry, I will take good care of him."

Regarding the secrets of the Soul Emperor Seal and the Great Jiuji God-Slaying Sword, as well as the soul master, this Sima Suantian must know more than himself.

Therefore, Ye Feng wanted to save his life, which was of great value to him.

"You want to keep him alive?"

Duan Jinglong was a little surprised, as if he didn't expect Ye Feng to say that.

The captain of the giant city guard still hoped to kill Sima Suantian on the spot.

After all, Sima Suantian was the great strategist of the Taiyin Demon Sect who was strategizing thousands of miles away.

Although his cultivation level is not high and his strength is not strong, one person can withstand thousands of troops.

He is like the wise brain of the Taiyin Demon Sect in this battlefield, commanding everything.

Duan Jinglong's murderous aura was still extremely strong at this time.

For Duan Jinglong, killing someone like Sima Suantian directly is the best choice.

But he saw Ye Feng's eyes at this time and thought of the special relationship between Ye Feng and the city lord.

He finally nodded and said: "Okay, just as you said, Ye Feng, don't kill him yet, but although Sima Shuantian is left to you, I need to use some means."

Uh-huh! Uh-huh! Uh-huh!

At this moment, Duan Jinglong immediately pointed several fingers at various parts of Sima Suantian's body.

He said aloud: "This is a fingering method that seals cultivation, called the 'Five Elements Soul Locking Finger'. It can lock all the cultivation and soul power of Sima Suantian, allowing him to become an ordinary person from now on. He is our After being brought back to the giant war city, there is no way for a mortal to escape."

Ye Feng smiled slightly and said: "Okay, then thank you captain for taking action."

Duan Jinglong nodded, looked at the people in front of him, and said, "Okay, let's go and leave here. The Eternal Realm expert from Taiyin Demon Sect has probably started searching everywhere in this starry sky."

"good."

Everyone responded in agreement.

Half an hour later, they arrived at a secret starry sky teleportation array area.

"Buzz!"

Following a strong spatial fluctuation, everyone's figures immediately disappeared.

At this moment, in the giant war city at the end of Tiannan Continent.

In the City Lord's Mansion, around a huge open-air square, City Lord Lu Ming, with a dozen experts from the City Lord's Mansion, looked at him with a hint of concern.

expect.

Buzz!

Suddenly at this moment, a burst of extremely violent spatial fluctuations surged out of the huge open-air square.

"came back!"

Beside Lu Ming, a skinny old man wearing a Bagua robe spoke out.

"I wonder if the mission has been completed?"

Another tall young man wearing black iron armor spoke out.

Those who can stand here are all high-status people in the city lord's palace.

"Buzz!"

Finally, at this moment, a divine light burst out on the ground of the open-air square.

A group of figures appeared on the spot.

It was Duan Jinglong, Ye Feng and other members of the elite squad who had returned!

"Successful."

Lu Ming saw the unconscious Sima Suantian at first sight, being carried on Ye Feng's back.

Obviously, he knew this well-known great strategist in the Taiyin Demon Cult.

Duan Jinglong walked to Lu Ming's side and whispered something in a low voice.

When Lu Ming heard this, he just nodded slightly and said, "It doesn't matter. As long as Sima Suantian comes to our war giant city and is under my nose, he won't be able to escape."

After speaking, Lu Ming smiled and said to a group of returning elite squad members: "Since you have completed your mission, my promise will naturally be fulfilled. Each of you will receive one billion Saint Crystals."

Having said this, Lu Ming waved his hand, and a dozen storage rings immediately floated in front of a group of elite team members.

"Thank you City Lord for the reward!"

A group of returning team members all had excited eyes and clasped their fists and made noises.

Lu Ming's eyes suddenly fell on Ye Feng alone at this time, and he said: "I have heard from Jinglong that the biggest contribution this time is

, it's you, Junior Brother Ye. Therefore, in addition to the reward of one billion Saint Crystals, I will also give you a big gift separately. I have already put that big gift in the storage ring for you. You can go back and check it out yourself. Can. "

When Ye Feng heard what Lu Ming said, his eyes lit up and he quickly clasped his fists and said, "Thank you, Senior Brother Lu."

Lu Ming is a powerful person in the eternal realm.

And he is also the commander-in-chief of this giant war city.

What he can call a "great gift" will definitely not be an ordinary thing.

...

Half an hour later, Ye Feng returned to his residence.

At this time, he finally had the opportunity to explore the storage spirit ring.

Buzz!

At this time, Ye Feng's spiritual sense penetrated into it, and he immediately saw the space in the storage ring.

In that space, in addition to being filled with holy crystals that looked like an entire mountain, there was also a group of books that exuded a faint blood-black light.

"Huh? Is this book a gift from Senior Brother Lu?"

Ye Feng's eyes moved and he took out the book, which exuded blood-black light, from the storage ring and put it in his hand.

"Red Demon Dragon Soul Skill"

Five ancient characters are engraved on the cover of the book, exuding a demonic aura that makes people palpitate.

"This is Senior Brother Lu's inherited technique. It is a half-step god-level inheritance that surpasses the true god level, the Red Demon Dragon Soul Technique!"

Ye Feng's eyes suddenly lit up.

This is good stuff!

You must know that the most advanced martial arts inheritance of Ye Feng is the Sky Holy Dragon Fist, a set of sixth-grade true god-level martial arts inheritance.

"There are still one billion Saint Crystals!"

Ye Feng locked Sima Shuantian in the room for the time being, and then immediately walked towards the outside of the city lord's palace, preparing to buy enough body refining resources and materials from the large chamber of commerce.

Chapter 1365 Chaos Calamity

After spending a whole day, Ye Feng visited almost all the major chambers of commerce in the entire war city and purchased all the elixirs and rare treasures that could temper the body.

There were one billion Saint Crystals, and now there were only 300 million Saint Crystals left.

Ye Feng consumed a total of 700 million Saint Crystals on this day!

"Bang!"

Ye Feng returned to the city lord's mansion and directly chose to practice in seclusion.

In the slightly dark training stone room.

Ye Feng took out all the tempering materials he purchased.

Brocade boxes suddenly appeared on the ground in front of him.

Each of these brocade boxes contained priceless high-grade body-tempering elixirs.

In addition, on the ground around the brocade box, there are many elixirs and fruits that emit a faint light.

"Let's start with the 'Earth Emperor Spirit Fruit'..."

Ye Feng murmured and swallowed a fruit that exuded an earthy yellow light.

"Buzz!"

Suddenly, an extremely strange energy, like the veins of the earth, began to surge in Ye Feng's body, tempering every inch of his flesh and blood.

"Sure enough, high-end things are useful!"

Ye Feng could clearly feel at this moment that his chaotic body was growing rapidly.

"Gulu!"

The next moment, Ye Feng opened a brocade box without any hesitation and swallowed a pill that was as white as snow.

This elixir is called the 'Tianshan Nine Lotus Pill'. It is a body-tempering elixir made from snow lotus that has grown in the polar ice for three thousand years, and various body-tempering spiritual materials.

"Buzz!"

The moment he swallowed the Tianshan Nine Lotus Pill, Ye Feng immediately felt that every part of his body, every inch of flesh and bone, was frozen by an extreme cold air.

It was like his whole body fell into an extremely cold ice cave.

Even though Ye Feng's body is extremely strong now and his energy and blood are strong, he is suddenly so cold that he trembles all over.

"Chaos Emperor Technique!"

Ye Feng quickly recited the secret of inheritance silently, guiding the body-tempering power to flow through every part of his body.

The first level of the Chaos Body, Great Perfection, is undergoing silent transformation.

A whole month.

Ye Feng spent all his time in seclusion and practice.

this day.

The body tempering material worth 700 million Saint Crystals was finally completely consumed by Ye Feng.

At this time, Ye Feng's whole person was wrapped in a very strong energy of chaos and light of chaos.

The chaotic energy formed like a silkworm chrysalis, seeming to give birth to a more advanced life.

"Click, click..."

At this time, the light group that was condensed like a silkworm chrysalis finally began to fragment inch by inch.

Ye Feng's figure appeared in it.

Every inch of flesh and blood on his body contains the powerful power of chaos.

Every move he makes seems to be able to produce towering power and move mountains and seas.

"Rumble..."

Suddenly at this time, Ye Feng heard a huge thunder.

Uh-huh!

He quickly walked out of the training room and looked up at the sky.

At this time, the sky above Ye Feng's area and the sky was already covered with dark clouds.

Boom!

Boom!

The roar of thunder resounded throughout the sky.

Not in the city lord's mansion

The few people were all startled by this strange phenomenon in the world.

"What's going on? Why do so many thunder clouds suddenly appear over our city lord's mansion?"

"Is there a strong man practicing some kind of heaven-defying technique? It has caused thunder and tribulation from the heavens?"

Many experts in the city lord's palace couldn't help but exclaimed when they saw the depressing scene of dark clouds pressing down on the city.

Obviously they did not expect that such a terrifying and heart-stopping vision of heaven and earth would suddenly appear in the originally peaceful City Lord's Mansion.

Looking at the dark clouds in the sky, the shining thunder, and the terrible thunder disaster, one can stand on the earth and feel so insignificant in front of the power of God.

At this time, Ye Feng stood at the door of the training room, looking up at the sky, feeling the power of heaven and earth even more terrifying.

Because this Thunder Tribulation was specifically aimed at him.

Every breakthrough in the Chaos Heavenly Emperor Technique, every evolution of the Chaos Body, requires experiencing a Chaos Heavenly Tribulation in the end.

Only by surviving this chaotic catastrophe can the chaotic body be completely transformed from the first heaven to the second heaven!

"Then let's fight!"

Ye Feng stared at the dark clouds and thunder that filled the sky, and suddenly rushed high into the sky.

At this moment, he challenged the majesty of the entire world with one person's power!

"Look! It's Mr. Ye Fengye!"

"This is the younger brother of our Lord City Lord! It turns out that he caused the thunder and disaster of heaven and earth!"

"What skills and inheritance did Ye Feng practice, and how could he cause a thunderstorm from heaven and earth for no reason?"

"And this thunder catastrophe of heaven and earth seems to be no ordinary thunder catastrophe of heaven and earth. Have you seen it? In the dark clouds of the thunder tribulation, there are faint visions of gods, demons, and ancient heavens..."

...

In the entire city lord's palace, countless people were staring at the person high in the sky.

The young figure in black clothes spoke with deep amazement in his tone.

"City Lord, would you like to help me? The destructive energy of this calamity is more terrifying than any calamity I have ever experienced."

At this time, Duan Jinglong stood behind Lu Ming on a nine-story pavilion in the city lord's palace and said aloud.

Lu Ming, the city lord of the giant war city and a super master of the Eternal Realm, had his hands behind his back and his eyes were a little surprised.

But he finally shook his head and said: "This is not an ordinary thunder catastrophe of heaven and earth. If it is an ordinary thunder catastrophe of heaven and earth, I can indeed help Ye Feng with the great power of the eternal realm, but this thunder catastrophe seems to only belong to He is alone, and others can only watch from a distance and cannot interfere. I feel that the majesty of heaven and earth cannot be violated. "

When Duan Jinglong heard this, he was immediately shocked and couldn't help but said: "What level is the inheritance of life that Ye Feng has practiced? It should be even more powerful than the Lord of the City's Red Demon Dragon Soul Skill."

...

And just when countless people were secretly surprised and discussing.

Ye Feng was alone at this moment, dressed in black and hunting, stepping high in the sky, facing the dark clouds and thunder calamity that filled the sky.

"boom!"

Finally, the first thunder struck.

It was as thick as a bucket, emitting dazzling purple-blue lightning, and full of infinite destructive power.

Obviously, the Chaos Heavenly Tribulation that belongs to Ye Feng is more terrifying than any other Heaven and Earth Thunder Tribulation.

The first thunder disaster that came was already so terrifying.

Exuding terrifying power that could destroy the world.

"call!"

Ye Feng took a sharp breath at this time, and then a bright divine light bloomed in his eyes, and he directly punched towards the bucket-thick thunderbolt of heavenly tribulation.

He wants to take the initiative!

Shatter the thunder tribulation!

Chapter 1366 Devouring Thunder Tribulation

boom!

Under the horrified gazes of countless people, Ye Feng roared, waved his fist, and exploded with the super power of his chaotic body, blasting towards the thunder calamity descending from the sky.

"Crack!"

The first barrel-thick thunder beam that came down was instantly shattered by Ye Feng's fist, turning into fragments of lightning that filled the sky.

"What a strong body!"

In the city lord's mansion, every expert saw this scene, with deep surprise in their eyes.

"boom!"

And at this moment, thunder struck down again among the thick dark clouds in the sky.

But this time, the infinite thunder light formed a giant wearing thunder armor in mid-air. He held a large shield condensed with thunder in his left hand, and held a long blue war spear in his right hand, full of huge momentum. , exuding the terrifying pressure of thunder, majestic, rushing down from the sky.

"Thunder actually turned into a tangible giant? This is a thunder tribulation phenomenon!"

"Generally, only those who are powerful in the Eternal Realm will encounter this kind of terrifying thunder disaster phenomenon."

"This Ye Feng is only at the second level of the fifth level of spiritual realm. It is really shocking that he can trigger such a miraculous thunder disaster phenomenon."

...

Many people in the city lord's mansion couldn't help but exclaimed in surprise.

"boom!"

But at this time, Ye Feng didn't have the slightest fear.

This is only the first chaos disaster.

If it is very difficult to get through.

It will definitely get harder and harder from now on.

So this first time, Ye Feng cannot have any fear, but must establish the fearlessness to take the initiative to attack!

He has a brave and invincible martial arts will and martial arts momentum in his heart.

"kill!"

Looking at the thunder giant swooping down, Ye Feng shouted loudly, punched out again, and collided with the spear in the hand of the thunder giant.

"boom!"

The void was shattered into pieces, and countless spatial turbulence poured in all directions.

"Invincible Sword Domain!"

"Zhen Yan cuts with one sword!"

Ye Feng roared, and quickly condensed a metal sword of more than 300 meters in his hand, and it had the Dragon Spirit Holy Fire.

Attached to the blade, it is full of terrifying power.

"Boom!!"

Finally, the thunder giant was chopped into pieces and turned into lightning that filled the sky.

"These thunder lights are filled with extremely powerful power of thunder and calamity. You can use it to temper your body, or even absorb the power of these thunders to strengthen your cultivation skills!"

Suddenly at this moment, Lu Ming's voice sounded in Ye Feng's ears.

Ye Feng's eyes were stunned and he looked at a nine-story attic far below the city lord's palace.

Lu Ming, the lord of the giant war city, was standing there.

He was transmitting messages to Ye Feng.

As a strong man in the eternal realm, Lu Ming's words awakened Ye Feng.

"yes!"

"I'm fighting against Thunder Tribulation, why not just devour it!"

Ye Feng's eyes lit up.

Buzz!

In an instant, he released his Devouring Domain.

This strange swallowing field immediately formed a huge dark field around Ye Feng.

In this dark devouring field, all the power of thunder was plundered and devoured, and then injected into Ye Feng's body.

"Boom!"

"Boom!"

But at this time, the chaos and thunder in the sky became even more terrifying and majestic.

Wow...

Pieces of vast blue-purple thunder light poured down from the sky, condensed and transformed into thunder giants, thunder beasts, thunder chariots, thunder weapons, such as thunder swords, thunder sledgehammers, etc...

All of them were condensed from the power of thunder in the Chaos Heavenly Tribulation, and were filled with extremely terrifying killing power. They were all blasted towards Ye Feng below.

"Swallow it!!"

Ye Feng roared loudly, his black hair danced wildly, and he looked like a demon. In an instant, he rushed towards the sky, using an endless dark field to wrap up the sky with murder and calamity.

"boom!!"

At this moment, bursts of extremely terrifying lightning and destruction light were

Covering every inch of Ye Feng's bones and flesh.

It's like billions of thunder and lightning, constantly destroying every inch of Ye Feng's body!

"ah!"

Even though Ye Feng had experienced countless ups and downs and had a steely willpower, he couldn't help but roar in pain at this moment.

But he gritted his teeth and endured the horrific pain that was like cutting his flesh and blood with ten thousand knives.

Because Ye Feng knew very well that swallowing these thunders would make his body stronger, and his cultivation skills were rapidly growing and strengthening at this moment.

How much majestic energy does the thunderous thunder in the sky contain?

It's scary just thinking about it!

So at this time, Ye Feng's body was undergoing rapid transformation, and his cultivation skills were also constantly making breakthroughs.

boom! !

"Second Heaven of the Spiritual Realm!"

boom! !

"The Third Heaven of the Spiritual Realm!"

boom! !

"The fourth level of the spiritual realm!"

boom! !

"Fifth level of the spiritual realm!"

Finally, at this moment, Ye Feng's cultivation stopped making breakthroughs.

The thunder calamity that filled the sky also disappeared.

The first chaotic disaster was successfully overcome!

At this moment, Ye Feng's body strength has successfully transformed from the first level of the Chaos Body to the early stage of the second level of the Chaos Body!

Ye Feng clenched his fists at this time and could feel that the blood in every blood vessel in his body was rushing like a river and the sea, full of infinite energy and power.

In addition, Ye Feng discovered that as the chaotic body continued to transform and advance, the bones inside his body were changing towards the color of chaos, becoming indestructible.

"This time, I not only survived the Chaos Heavenly Tribulation, but also absorbed the infinite thunder energy from the Thunder Tribulation, allowing my cultivation level to break through the third level of heaven in a row, and directly step into the fifth level of the divine realm, the fifth level of heaven. It's really great. "

Ye Feng couldn't help but murmur to himself, obviously extremely excited.

Because the harvest this time is really too great.

And Ye Feng can feel it

, his combat power is many times stronger than before.

Although the Chaos Body of the second heaven was just in its early stages, it made Ye Feng feel that he could kill a super master of the first heaven of the sixth level True God Realm with one punch.

"Congratulations to Junior Brother Ye, your cultivation has greatly improved and your magical skills have been accomplished!"

At this time, Lu Ming walked over from not far away and said with a smile.

The eyes of this Eternal Realm powerhouse were full of surprise at this moment. He could feel a palpitation in Ye Feng's body, as if he was facing a humanoid wild beast.

Ye Feng clasped his fists slightly at this time and said: "Thank you, Senior Brother Lu, for your guidance this time, otherwise I really wouldn't have thought of directly absorbing the energy of the thunder tribulation of heaven and earth."

Lu Ming laughed and said: "I just mentioned it casually. I didn't expect Junior Brother Ye to be so brave and really absorb the energy of thunder and calamity all over the sky."

Buzz!

Suddenly at this moment, a ball of red-gold light suddenly appeared in the void behind Ye Feng.

Lu Ming's eyes moved and he couldn't help but said in surprise: "Is this... a martial spirit? Junior Brother Ye has practiced to this day and has just awakened his martial spirit?"

Ye Feng knew that what was wrapped in the red-gold light must be his bloodline talent that had entered the second level of awakening in the Chaos Heavenly Emperor Art.

So Ye Feng immediately rushed towards the distance at this time and said: "Senior Brother Lu, I have something else to do, so I'll go first."

He didn't want to expose his awakening of bloodline talent in public.

After all, the Chaos Heavenly Emperor Technique is in this second universe, and everything involved is very scary. If someone recognizes it, it will be troublesome.

However, in the first-level star field, there are very few people who can recognize the talent of blood.

Even Lu Ming couldn't help but look a little confused at this moment, but he didn't think too much, but said in the direction of Ye Feng's departure: "By the way, Junior Brother Ye! There are still three months left, we have to face the giant war. The Commander's Fortress in the Taiyin Star Territory outside the city has launched a general attack. Junior Brother Ye, remember not to miss it. If the general attack succeeds, there will be endless wealth to share. "

"Okay, I understand Senior Brother Lu, I will come as promised!"

Ye Feng's voice came from afar, and then his figure disappeared into the giant city building in the distance in an instant.

Chapter 1367 The second bloodline talent

Half an hour later, Ye Feng flew out of the giant war city and landed in a secluded valley on the Tiannan Continent.

This place is inaccessible, and there won't be any strong people watching or observing in secret.

“I don't know what the bloodline talent is when you awaken from the second level of the Chaos Heavenly Emperor Art?”

Ye Feng murmured, and immediately began to run the Chaos Heavenly Emperor Technique, stimulating the newly awakened bloodline talent.

Buzz!

A ball of red-gold light appeared in front of Ye Feng.

"Is this...a glove?"

Ye Feng's eyes were filled with expectation, but when he saw clearly what was floating in the light, he was stunned.

What was floating in the light at this time was a metal glove, cast from a rare nine-color metal.

The metal gloves in nine colors look very magical.

I just don't know how effective it is and what its capabilities are.

Ye Feng sunk his mind into the inherited secrets of the Chaos Heavenly Emperor's Technique deep in his mind, and immediately found the ability of the bloodline talent awakened in the second heaven.

"God Clan Gloves, gloves made by the most powerful God Clan in the world before the ancient times. After the user puts on the gloves and touches anything, he can extract the attribute power of the thing he touches, and then it will be absorbed. Enter the body of the glove owner and enhance the glove owner's full attribute abilities.”

After Ye Feng received this message, his eyes immediately showed a trace of surprise.

This god's glove seems to be an extremely heaven-defying treasure.

As long as you wear this glove, you can absorb the attribute abilities of anything you touch.

"Try it out!"

With a thought in Ye Feng's mind, he immediately put on the God Clan gloves made of nine colors of metal.

After putting on the God Clan gloves, Ye Feng did not feel any increase in the strength of his palms.

"What attributes should be extracted?"

Ye Feng looked around and saw a large bluestone in the valley that was as tall as a person.

"You can try this."

Ye Fengyan

With a hint of expectation, the god walked directly to the big blue stone, then stretched out his right hand wearing a god's glove and pressed it on the surface of the big blue stone.

"Buzz!"

Almost at this moment, Ye Feng immediately felt that a kind of obscure original attribute power was injected into his body from the big blue stone along the divine race gloves worn on his palms.

That is a kind of "tough" power.

In other words, it is the tough and solid attribute power of stone.

At this time, it was extracted and injected into Ye Feng's body.

Ye Feng could feel that as he continued to use the Protoss Gloves to extract the tough and solid properties of the bluestone, his body's physical fitness was slowly growing.

Although the growth is extremely slow, it can even be said to have no effect.

But what Ye Feng extracted at this time was just an extremely ordinary big bluestone.

Ye Feng's purpose was mainly to test the effectiveness of this God Clan glove.

The result made Ye Feng very satisfied.

"Wow!"

Suddenly at this moment, the solid bluestone suddenly turned into powder, turned into fly ash, and dissipated in the air.

"I have extracted all the toughness in the bluestone, so it turned into ashes..."

Ye Feng looked extremely surprised when he saw the scene in front of him.

"According to the description of this god's glove in the Chaos Heavenly Emperor Secret Art, this glove seems to be able to quickly extract any attribute of power. What if I touch the entire earth."

Ye Feng thought in his mind and directly pressed one hand on the ground.

"Buzz buzz..."

Suddenly, a stream of very pure power of the earth, a powerful attribute force, was quickly extracted by the God Clan's gloves and injected into Ye Feng's body.

Ye Feng immediately felt that his power was as vast and majestic as the earth.

But Ye Feng didn't waste time, because the extraction speed of the God Clan gloves was very slow.

Moreover, the ground began to collapse. The extracted power of the earth was not of much use in tempering Ye Feng's physique. It only added a powerful attribute to his strength, which was similar to the ancient rune body refining technique that Ye Feng had previously practiced. Somewhat similar.

But it is much more powerful than the ancient rune body refining technique.

Because as long as you put on this god's glove and touch anything, you can extract its attributes.

"This is simply an artifact for tempering the chaotic body!"

Ye Feng stared at the nine-color metal God Clan gloves in his hand, his eyes full of bright colors. ??

Obviously, the bloodline talent awakened from the second heaven of Chaos Heavenly Emperor Technique, and these divine gloves are currently more useful than the Hand of Time awakened from the first heaven.

Because Ye Feng knew very well that the transformation of his body was very difficult.

He does not have huge wealth at all to continue to purchase countless body-refining elixirs and body-refining elixirs to maintain his body's tempering.

But now that I have this Protoss Glove, as long as I find something extremely hard in the world, touch it, extract the toughness attribute from it, and absorb it into my body, I can quickly increase my body's toughness.

"Ordinary stones, metals, steel, etc. are probably not of much use. We need to find special or advanced materials to extract useful attribute power."

Ye Feng thought secretly in his heart.

Just now, he used the God Clan gloves to extract a large bluestone that was as tall as a person. He could feel that the toughness of his body had only increased slightly, just like a drop of water to an entire ocean, which was very weak.

"If the initial stage of the second heaven of the Chaos Body is further divided into ten levels, then I estimate that I haven't even entered the first level of the initial stage yet. The road to advancement is long."

Ye Feng thought in his heart,

A magic weapon was taken out from the storage spirit ring.

These magical weapons include ancient towers, long knives, silver hammers, dark bows, etc. Most of them are pseudo-god-level soldiers, weapons that Ye Feng has accumulated along the way.

Originally, Ye Feng just put these unused low-level weapons and magic weapons in the storage ring and didn't bother to care about them.

But now, he feels that he can use these things.

Ye Feng chose a golden pagoda, which was a first-grade true god level magic weapon.

He stretched out his hand wearing a divine race glove and touched the golden pagoda.

"Buzz!"

Suddenly, the power of several attributes was quickly extracted, fused and injected into Ye Feng's body.

The golden pagoda is cast from a very high-grade material, 'gold burned by the scorching sun'.

Therefore, the attributes extracted at this time include several types, including toughness, metal, and sun fire. The power is continuously integrated into Ye Feng's body.

Of course, the most valuable thing is the toughness of metal.

As Ye Feng's body continues to integrate the power of this metal's toughness, his flesh, blood, bones, skin, internal organs, etc., are slowly strengthening.

At this time, visible to the naked eye, the golden pagoda touched by Ye Feng, this first-grade true god-level magic weapon, the entire body of the pagoda was rapidly softening, and then turned into a puddle of soft mud and fell to the ground. Lost all the original power of intrinsic attributes.

"The strength of my Chaos Body is about to reach the first level of the early stage of the second heaven!"

Ye Feng's eyes lit up, and he immediately stared at another magic weapon in front of him. It was a small green tripod the size of a palm. It exuded a faint light and was a half-step true god level magic weapon.

"Come again!"

Ye Feng once again stretched out his hand wearing the God Clan gloves and touched the green tripod.

He plans to extract the properties of all the unused magic weapons he has obtained over the years and integrate them into his body, which can be regarded as waste utilization.

Chapter 1368 The second level in the early stage

"Buzz!"

When Ye Feng wore the God Clan gloves and touched the green tripod.

"Sturdiness attribute extraction."

"Metal property extraction."

"Extraction of ancient energy attributes."

"A trace of ancient green dragon blood attribute extraction."

Ye Feng felt the extracted energy with different attributes, and his eyes suddenly showed surprise.

Unexpectedly, this small green cauldron contains so many types of attribute power.

In addition to the most basic solid and metallic attributes, it also has ancient energy and a trace of the blood attribute of an ancient green dragon.

"It should be other materials that the refiner melted into it when this green tripod was cast."

Ye Feng murmured, feeling quite surprised.

The solid attributes and metal attributes can temper one's body and enhance the strength of the chaotic body.

The ancient energy attribute and a trace of the ancient green dragon's blood attribute can strengthen one's cultivation.

At this time, Ye Feng could clearly feel that his physical strength and cultivation skills had been significantly improved.

"Crack!"

At this time, after the original attribute power of the green tripod in his hand was extracted and absorbed, it immediately turned into a small ordinary tripod, shattered inch by inch, and then turned into fly ash.

A powerful magical weapon simply ceased to exist and became the nourishment that strengthened Ye Feng's all-round martial arts qualities.

"continue!"

Ye Feng turned his attention to the God-killing Bow, which was a very powerful treasure that Ye Feng used back then.

Ye Feng had used it to kill many powerful enemies.

But after all, the level of the God-killing Bow is not high, and Ye Feng has not used it for a long time.

Simply let it be put to its full use now and become your own nourishment.

"Buzz!"

Ye Feng stretched out his hand wearing a god's glove and touched the God-killing bow.

"Extraction of spiritual wood attributes."

"Extraction of God-killing power attributes."

"Dragon Tendon Holy Power Attribute Improvement"

Pick. "

"..."

Under Ye Feng's continuous extraction, all the unused magic weapons in front of him were turned into fly ash.

Waves of energy of different attributes were integrated into Ye Feng's body, continuously strengthening his body and cultivation skills.

In addition, some special and rare attribute powers can also improve Ye Feng's bloodline level, mental power, soul power, and skill level, etc.

Anyway, this god's glove can simply take over the creation of all things in the world, blend into Ye Feng's body, and become one.

At this moment, Ye Feng's body strength has finally undergone a vigorous accumulation and has successfully transformed into the second level of the early stage of the second level of the Chaos Body!

Moreover, Ye Feng's skill cultivation level has been invisibly promoted to the sixth level of the fifth level of the spirit realm.

In addition, the fire attribute power extracted from several fire attribute soldiers has also tempered and improved Ye Feng's Dragon Spirit Holy Fire level.

The flames of the heavens, including the holy fire, can be continuously cultivated and tempered to increase the level of the flame, from the first level to the ninth level.

Moreover, each level is divided into primary level, intermediate level, advanced level and Dacheng level.

The Dragon Spirit Holy Fire that Ye Feng obtained before, even though it absorbed a lot of fire attribute power from the fire attribute soldiers, was actually still at its most initial level, the first level.

The holy fire has a more majestic foundation to develop than any flame.

Once the quality of the holy fire is improved, it also means that the holy fire can burst out with more terrifying power.

"I wonder if living things can be extracted?"

Ye Feng's eyes moved at this time and he walked out of the valley.

Soon, he casually hunted a one-horned demon horse, which was a very ordinary wild forest demon beast.

Ye Feng wore the God Clan gloves and touched the body of the one-horned demon horse.

At this time, the one-horned demon horse is still alive.

touched

At that moment, Ye Feng did not feel any attribute power being extracted.

"Pfft!"

Ye Feng killed the one-horned demon horse with one sword, and continued to touch it, but still could not extract the attribute power.

"It seems that this god's glove can only extract things without subjective consciousness, such as soldiers, various materials, etc., but it cannot extract attribute energy from living bodies."

Ye Feng secretly thought and guessed in his heart.

"What about plant life forms?"

Ye Feng wore the God Clan gloves and pressed his hands on a lush tree next to him.

"Vitality attribute extraction."

"Green energy attribute extraction."

"Water attribute extraction."

Immediately, Ye Feng felt different attributes extracted and integrated into his body.

The vitality attribute has improved and restored one's mental strength.

The green energy attribute is used to repair various hidden injuries on one's body.

After the water attribute is extracted and integrated, it is not of much use.

Ye Feng just felt that his skin seemed to be much more moisturized and delicate.

"It seems that plant-based life forms can be extracted, and they are also unconscious things."

Ye Feng thought secretly in his heart.

"Fortunately, I have the Creation Oven and the derived Mystery of Devouring, which makes up for the shortcomings of the Gods' gloves."

Ye Feng murmured, then took back the God Clan gloves and left the wild forest.

On this Tiannan Continent, there are not many good things that can extract high-level attribute energy and strengthen oneself.

There are still nearly three months before the general attack on the giant war city.

Ye Feng decided to leave Tiannan Continent first and go to the depths of the starry sky to find special materials, extract attribute energy, and use it to bless his body to increase his body strength and cultivation skills.

Although the war giant city area of Tiannan Continent is just one of thousands of battlefields.

r\u003e

But once a general attack on the Lunar Star Territory is launched, it will definitely be very huge.

This kind of collision between star fields and the fighting on the vast battlefield must be extremely dangerous.

With Ye Feng's current level of cultivation, he might be in danger of falling at any time when he enters the vast starfield battlefield like a large meat grinder.

Therefore, Ye Feng now needs to improve his overall strength as much as possible before launching a general attack on the giant war city, including physical strength, cultivation skills, mental strength, soul strength, etc.

Ye Feng thought secretly in his heart, took out the starship, and drove it quickly out of the atmosphere of Tiannan Continent and into the boundless starry sky.

Not long after Ye Feng left, he was in a pavilion in the giant war city.

A tall young man wearing golden armor was standing among them, listening to the report of a man in black behind him.

The man in black knelt down on one knee and said respectfully: "Mr. Vice President, we have monitored the situation. Just half an hour ago, the starships that left Tiannan Continent were driven by stars. One of them was sitting on the Starship Holy Land. Disciple, Ye Feng."

"Very good!"

The tall young man wearing golden armor turned around suddenly, his eyes full of cruel killing intent, and said: "Ye Feng, Ye Feng, you are really stupid. You dared to leave Tiannan Continent so quickly. The last time You were rescued by Duan Jinglong from the City Lord's Mansion. This time you are in an isolated and helpless starry sky. Don't even think about escaping again!"

This young man is none other than Lie Yuntian, the vice-president of the "Golden Armor Society", the disciple faction of the Heavenly Demon Hall!

A super master of the second level of the sixth level of True God Realm!

The last time Ye Fengzhu killed Ouyang Xin, a core disciple of the Demon Hall, he angered the vice-president of the Golden Armor Society.

However, due to Duan Jinglong's timely arrival, Lie Yuntian could only leave in embarrassment.

At this time, Lie Yuntian looked at the man in black in front of him and said with a cold tone: "Immediately organize all the disciples and members of our Heavenly Demon Palace Golden Armor Society in this giant war city to follow me to the starry sky outside the Tiannan Continent. Chasing that little kid Ye Feng, I will make sure he dies in the starry sky this time!"

Chapter 1369 God Sculpture

The starship that Ye Feng drove was a third-level starship that he had plundered before. It was enough to accommodate five or six people and was very powerful.

There are many ancient formations imprinted on the surface of the starship, which can absorb the power of stars everywhere in the starry sky and provide sufficient power for the starship.

At this time, in the starship, Ye Feng had a star map in his hand. He was looking for some lost continents or fallen stars around him.

With the Protoss Glove, as long as you can find rare materials, such as the star veins contained in some stars, or the ancient ruins left by some ancient powerful forces on the lost continent, you can directly extract the essence of the attribute origin.

"There seems to be a lost planet here. A very powerful cultivation civilization was once born, but in the end it suffered a disaster from the giant beast in the starry sky. The prosperous cultivation civilization on the entire planet was destroyed."

According to the introduction in the starry sky map, Ye Feng drove the starry sky ship and soon came to the starry sky area guided by the map.

Sure enough, looking through the transparent crystal cover in front of the starship, Ye Feng saw a huge withered yellow planet floating in the depths of the endless starry sky.

"If we can find some relics of the lost ancient cultivation civilization, we will make a lot of money!"

Ye Feng was very excited and immediately landed in the starship.

After penetrating the atmosphere of this huge planet, Ye Feng's starship descended quickly and then landed.

"Crack!"

The hatch of the starry sky ship opened, and Ye Feng stepped out, but his eyes immediately changed slightly.

The air on the surface of this planet seems to contain a very strong toxicity.

"It seems like it's really a dead planet. The air here is so toxic that ordinary creatures can't survive at all."

Ye Feng thought to himself, then took back the starship and walked towards the mansion of this planet.

The place where he landed was in a relatively remote area of the planet, sparsely populated.

The reason why he chose this remote area to land was because Ye Feng was afraid of

The hinterland of this strange and huge planet may give birth to some extremely powerful creatures, or powerful forces left over from ancient cultivation civilizations.

But as Ye Feng walked, he felt that he might have been worrying too much.

Because Ye Feng walked a long distance, but did not sense any powerful life fluctuations.

Although there was no longer a crisis, what left Ye Feng a little speechless was that walking on the vast land of this planet, he did not encounter any ancient relics of ancient cultivation civilizations.

What fills the entire field of vision is the withered yellow barren land, endless uninhabited forests, barren mountains and rivers, etc.

Not to mention the ancient relics of ancient cultivation civilization, there are not even a hair on them!

"Could it be that the ancient cultivation civilization was completely destroyed in the disaster of that year? Everything was destroyed."

Ye Feng murmured, and his heart couldn't help but sink.

After all, the general offensive is about to begin, and time is money now.

If you come to the wrong place this time, it will be a waste of more than ten days.

"I don't believe I can't find it!"

The star map in Ye Feng's hand was obtained from the city lord's mansion, so it should not be fraudulent.

The only possibility is that someone else has already landed on this planet first.

"Even if someone else got there first, at least there should be some ancient things left behind."

Ye Feng was not hunting for treasure this time, but looking for ruins and buildings made of special materials. He could use the God Clan gloves to extract the ancient attributes and increase his power.

"Uh-huh!"

At this moment, Ye Feng jumped directly to the high altitude, overlooking the entire land with a radius of thousands of miles, then flew quickly, and released huge soul power to conduct a carpet search.

"Huh? There seems to be a living being?"

Ye Feng soon sensed the life fluctuations of some creatures.

But that kind of life fluctuation is not strong, it is very weak.

Ye Feng immediately descended from the sky. This place was already a jungle area.

Among the countless dense forests, there is a very ancient tribal land. .??.

There are many savages living in this tribe.

These savages are just ordinary savages who can't even speak.

At this time, in the center of this group of savage tribes, stood a huge sculpture that was more than ten meters high.

This sculpture is made of gray stone and looks a little worn.

But at this moment, a group of dozens of savages were kneeling around this huge sculpture, chanting words and worshipping.

"I finally found a statue that seems to be a relic of the ancient cultivation civilization. However, it seems to be very shabby. I don't know if it has any special attributes. Let's go and take a look first."

Ye Feng stared at the dilapidated statue of the god and walked over directly.

"Roar!"

"Roar!"

A group of savages saw Ye Feng and immediately roared, obviously shocked by Ye Feng's sudden appearance.

"Back off!"

Ye Feng shouted coldly, and a strong momentum instantly erupted from his body and spread in all directions, directly knocking away a group of savages who were rushing towards him.

"Roar....."

A group of savages got up from the ground with difficulty and looked at Ye Feng again. Their eyes were full of deep fear and they no longer dared to step forward.

Tap tap tap...

Ye Feng had already walked to the dilapidated statue of the god.

He first input some mana into it, but there was no response from the statue.

Obviously, this statue sculpture has no other function and is not a treasure.

"Try extracting attributes."

Ye Feng thought at this moment, and the God Clan gloves immediately appeared in his hands.

Then Ye Feng directly touched the dilapidated statue in front of him.

"Buzz!"

Suddenly, various kinds of original attribute power were extracted from the statue of the god and integrated into Ye Feng's body.

"Sturdiness attribute extraction."

"Extraction of ancient divine power attributes."

"Extraction of attributes of divine will."

"Belief attribute extraction."

With the extraction of the God Clan gloves, Ye Feng immediately sensed different types of original attributes, which were being integrated into his body.

The solid attribute increases Ye Feng's body strength.

The ancient divine power enhances Ye Feng's cultivation skills.

The power of the gods' will and faith began to strengthen Ye Feng's mental and soul power.

"Click, click..."

As Ye Feng extracted it, the dilapidated statue of the god turned into fly ash inch by inch and dissipated in the air.

At this time, Ye Feng's cultivation level was actually promoted to the seventh level of the fifth level of the Spiritual Realm!

Moreover, the soul power has also grown a lot, from level 1,001 to level 1,006!

However, Ye Feng's body strength is still at the second level of the initial stage of the second heaven of the Chaos Body.

There are too few solid attributes contained in this dilapidated statue of the god, but the ancient divine power and faith are well harvested.

"Roar!!"

At this time, the statue of the god turned into ashes, causing the surrounding group of savages to roar in horror.

Ye Feng suddenly stretched out his hand and grabbed a savage who looked like a leader. He communicated with his soul and asked, "Tell me, are there any such dilapidated statues of gods near you?"

Chapter 1370 Huge improvement

The savage leader's eyes were filled with deep fear.

Because the power of this young man in black who suddenly appeared was like a god from above, making people feel a deep sense of fear in their hearts.

Moreover, the savage leader discovered that there was a voice in his soul, and this voice was a voice that he could understand without any language barrier.

This method is simply magical!

The savage leader immediately replied in horror: "Sir, this is the only statue of a god in our tribe, but there are many such statues of gods in other tribes."

Ye Feng's eyes moved and he said: "So, every tribe enshrines a kind of statue of a god?"

The savage leader immediately said: "Yes, but these are sculptures of ancient gods. It is blasphemous for you to destroy them like this. Aren't you afraid of being punished by God?"

Although the savage leader was extremely frightened in his heart, he was suffering from the huge shadow of death because of his faith, so he couldn't help but warn Ye Feng like this.

But Ye Feng just grinned and said: "We, the warriors, point our swords at the road and pursue the peak martial arts power. God? God is just a thing imagined by mortals! And if we really want to be serious, I am in the eyes of you wild people. , isn't it also a god-like existence?"

At this time, Ye Feng said, staring at the savage leader in front of him, and said: "Now take me to other surrounding tribes and help me find those statues and sculptures. Maybe with a thought, I will help you open up the air sea and let you Embark on the path of spiritual practice and become the so-called 'god' on this planet."

The savage leader was shocked when he heard this, and immediately said: "Okay, I will take you there."

Soon, under the leadership of the savage leader, Ye Feng came to the second savage tribe.

Hundreds of savages in this tribe worship a sculpture with a human body and an elephant head.

The original owner of this sculpture seems to be a noble elephant god.

"Buzz!"

br

Ye Feng didn't care at all, he just put on the god's gloves and touched the surface of the sculpture.

"Buzz!"

Suddenly, a burst of original attribute power was extracted from the sculpture by the Protoss Glove.

"Extraction of ancient divine power attributes."

"Extraction of divine elephant bloodline attributes."

"Extraction of the power of faith attribute."

"Extraction of the will attribute of the idol."

At this time, with the extraction, this tall statue of the idol also cracked into pieces and turned into ashes under the horrified eyes of countless savages.

"Rather than letting these statues of gods gather dust on this planet, why not turn them into my power."

Ye Feng murmured.

"On to the next one!"

...

For three days and three nights, Ye Feng extracted the original attribute power of a total of eighteen statues of gods.

His overall strength has been greatly improved.

First of all, the strength of the body's constitution has skyrocketed to the fifth level in the early stage of the second level of the Chaos Body!

Secondly, his cultivation skills once again broke through two heavens in a row and entered the ninth heaven of the spirit realm!

And the most important thing is that Ye Feng extracted a lot of the will of ancient gods and a lot of power of faith from those statues and sculptures, and his soul power was greatly improved.

In the past few days, it has skyrocketed from the initial level 1,006 to level 1,026!

The soul power has been increased by twenty levels!

You know, it is very difficult to improve the soul power.

Even if Ye Feng has the Devouring Domain, he can only devour the remnant souls of some dying creatures, and his improvement is extremely slow.

But now that we have the Protoss Gloves, we can directly extract the ancient power of thought and belief from this ancient statue sculpture, and enhance our mental and soul power.

Although no treasures were found from this planet this time, Ye Feng was satisfied with these dozen statues and sculptures.

"It's time to go, to the next planet."

Ye Feng looked at the starry sky map in his hand, took out the starry sky ship, and instantly flew into the sky with a "boom".

But just at the moment when he flew the starship into the atmosphere.

"Boom!!"

A crimson energy beam suddenly burst out from the distance, instantly blasting the starship driven by Ye Feng into fragments all over the sky and exploding into a sheet of fire. .??.

"Hahaha! Solved! It's so easy!"

At this time, in the starry sky outside the atmosphere, there was a huge golden warship, and Lie Yuntian's face was filled with a cruel smile.

The vice-president of the Heavenly Demon Palace's "Golden Armor Club" was feeling extremely happy as he looked at the explosion of flames that filled the sky in the atmosphere of the planet below.

Behind him, a group of members and disciples of the Golden Armor Society all said respectfully: "Congratulations, Vice-President, for successfully getting rid of a powerful enemy!"

"An enemy?"

Lie Yuntian smiled disdainfully and said: "He was just an ant with a low cultivation level. I killed him not because I was afraid that he would threaten me, but simply because I wanted to crush the ant to death."

"Yes Yes Yes!"

A group of members and disciples of the Golden Armor Society immediately responded respectfully and spoke out.

"Look! What is that?"

But suddenly at this moment, the people on the golden battleship

A master of the Golden Armor Society immediately stared at the atmosphere of the planet below with startled eyes.

"That is....."

"It's that Ye Feng!"

"He's not dead!"

At this time, everyone's expressions changed drastically.

They saw, in the exploding firelight, a young figure with divine light blooming all over his body, his black hair dancing wildly, like a young demon god, rushing towards them from the atmosphere of the planet below, carrying with him Wrapped in murderous aura.

"The energy light wave of our fifth-level golden warship destroyed even his starship in an instant, but it failed to kill Ye Feng?"

"How is this possible! Is his body made of divine iron?"

At this time, on the golden warship, all the masters from the Golden Armor Society of the Heavenly Demon Palace could not help but speak out.

"Why panic!"

But at this time, Lie Yuntian snorted suddenly and said: "Since he didn't die in the explosion of the starship, that's good, I will kill him with my own hands!"

boom!

At this time, Ye Feng was already alone, breaking out of the planet's atmosphere and floating in the starry sky not far away from a group of Golden Armor Masters.

Ye Feng's eyes were extremely cold, and he stared at Lie Yuntian, and said in a cold tone: "I didn't expect that you are really lingering. I have only left Tiannan Continent for a few days, and you are already lurking in secret to kill me." It's a pity that I am no longer the same person I was before, and all of you have to stay today!"

"Hahaha!"

Lie Yuntian immediately laughed out loud and said disdainfully: "Who are you, boy? Although your cultivation has indeed improved a lot during this period, you are still at the fifth level of the spiritual realm, but I am the sixth level." With a cultivation level of the second level of True God Realm, a strong person like me can crush you to death with just one hand!"
