

Ancient 1431

Chapter 1431 Forced to abdicate

On the surface of the huge stars in the starry sky above the war base camp, Ye Feng sat cross-legged.

"Boom, boom, boom..."

Waves of majestic blood energy, through the transformation of the Devouring Domain, turned into streams of extremely pure energy, surging through Ye Feng's body like a roaring dragon.

At this moment, Ye Feng was undergoing extremely terrifying pressure, and his whole body seemed to be torn apart.

But Ye Feng was holding on tightly at this time. .???.??

Although there was pain in his eyes, there was also deep excitement at the same time.

Because Ye Feng could feel at this time that his skill was growing rapidly.

Having previously devoured Mo Qingtian, a strong man in the realm of enlightenment, the skill in his Dantian was like a pool of stagnant water, with no fluctuation at all and only a slight increase.

But now, the power in Ye Feng's body and dantian is like the roar of the ocean, blowing up a violent storm and growing at a speed visible to the naked eye.

This state is not a slight increase, but a rapid surge. Ye Feng's power is becoming more powerful and profound.

Finally, the battlefield blood that had been plundered and collected for so long in the war base camp was all consumed and devoured.

Ye Feng's cultivation skills also broke through to the Half-Step Enlightenment Realm, and increased to the peak state of Great Perfection of the Half-Step Enlightenment Realm.

Only one step away, you can completely transform and rush into the true realm of enlightenment!

But with this last step, Ye Feng was stuck here.

Because the blood energy of the battlefield underneath has been exhausted.

"Damn it, you don't have enough energy at the critical moment?"

Ye Feng's eyes suddenly darkened.

But at this moment, Ye Feng suddenly thought of something and took out two beads from his storage ring.

They are an ice soul holy bead that emits blue light, and a flame holy bead that surges with red divine light.

These two holy beads are exactly the two extremely precious holy beads left behind after the death of the two great elders of the Taiyin Demon Cult, Master Huo Zhenren and Master Bingpo.

The Flame Holy Bead and the Ice Soul Holy Bead, Taotie Soul once said, are

A treasure-like existence.

Now Ye Feng can't wait any longer. He urgently needs the last huge amount of energy to break through and break through his current bottleneck.

"Crack!"

"Crack!"

Ye Feng was holding a holy bead in one hand at this time, and then crushed both the flame holy bead and the ice soul holy bead.

"boom!"

"boom!"

Suddenly, two powerful and pure energies, one flame energy and one ice-cold energy, surged out from the two broken holy beads and poured into Ye Feng's body instantly.

"ah!"

At this moment, Ye Feng immediately looked up to the sky and roared loudly. He felt that his whole body was in boiling water for a while, and then in a frozen lake.

An extremely hot energy.

A very cold energy.

At this time, everything was integrated into Ye Feng's body.

"Click, click..."

Finally at this moment, it was as if something broke deep inside Ye Feng's body.

It was the meridians of his body that were shattering and then starting to reorganize.

It's like breaking and then standing!

"boom!"

At this moment, a huge new aura of energy burst out from Ye Feng's body.

That is the terrifying momentum of the enlightenment realm!

"The first level of the Dao Proving Realm actually has such a terrifying energy aura, it's like a vast ocean."

At this time, in the starry sky above this star, Asura was floating on it, feeling the huge momentum below, and couldn't help but look in amazement.

Because Ye Feng's cultivation aura at this time didn't look like he had just made a breakthrough.

The majesty of that kind of momentum is comparable to that of a powerful person in the advanced realm of enlightenment.

At this moment, Ye Feng broke through to the first level of the Dao Proving Realm.

On his body,

Immediately, the marks of the gods who had awakened in the eternal realm appeared immediately.

In the marks of the gods, phantoms of the will of ancient gods appeared, exuding supreme pressure and momentum.

It seems to represent some kind of ultimate power in the universe.

"This is....."

Asura, the protector in the starry sky, was immediately shocked when he saw this scene.

Asura couldn't help but said to himself in horror: "Is this young man from the human race the legendary son of the gods who inherited the great fortune of heaven and earth?"

At this moment, Ye Feng didn't know that Asura had new ideas about his inheritance and identity.

Ye Feng opened his eyes, and the divine light and vision around him disappeared.

At this time, he felt the power of stepping into the first level of the Dao Enlightenment Realm, and felt that he could blow up a small star with one punch.

It was an extremely majestic power that made people's hearts tremble.

"I finally entered the realm of enlightenment."

Ye Feng said in surprise.

Now he is truly not afraid to ask the common people.

Because once he enters the realm of enlightenment, Ye Feng's combat power will increase tremendously.

Moreover, Ye Feng also has the means to temporarily summon the future body of Dzogchen.

It can be said that as long as he uses all his trump cards, he is almost invincible at the same level.

Ye Feng looked down and said, "Brother Sima, bring me all the battlefield weapons and magic weapons you have collected."

"good."

Sima Shuantian immediately ordered his subordinates to send a dozen storage rings directly to the stars above the war base camp where Ye Feng was.

At this time, Ye Feng directly asked his subordinates to release all the weapons and magic weapons in the dozen storage rings.

"Crash..."

Suddenly there were a lot of weapons and magic weapons, swords, guns, swords, halberds, axes, hooks and forks, all kinds of weapons, all stained with blood and exuding a strong evil aura.

Although these weapons are not high-end magic weapons, they come from major battlefields in the Lunar Star Territory and have good materials and casting methods.

Looking at the mountains of weapons and magic weapons in front of him, Ye Feng didn't waste any time. He directly put on the God Clan gloves and began to extract the various attribute energies from these countless weapons and magic weapons.

"Metal property extraction."

"Toughness attribute extraction."

"Extraction of evil spirit attributes."

"Extraction of the Soul of the Killing God."

"Extraction of the properties of the Sun's steel."

"Extracting the properties of ten thousand years of cold iron."

...

At this moment, Ye Feng used his second bloodline talent, the God Clan Glove, to extract a steady stream of different types of attribute power and integrated it into his body.

These attributes, from different angles, comprehensively improve Ye Feng's body and martial arts qualities.

A whole half a month.

As each weapon and magic weapon melts, its attributes are extracted.

Ye Feng's body strength is increasing at an incredible speed.

"What a weird practice."

Asura stood above the starry sky, unable to help but look surprised.

At this time, Ye Feng was sitting on the stars and felt that his chaotic body had completely grown and transformed from the ninth level of the second heaven to the tenth level of the second heaven and the Great Perfection!

There is only one final step left to completely rush into the third level of the Chaos Body.

By then, Ye Feng will once again awaken a new and powerful bloodline talent!

"Report!"

Suddenly at this time, under the war base camp, a group of soldiers wearing heavy armor stepped forward, knelt down on one knee facing the stars in the sky, and said loudly: "Report to Senior Brother Ye Feng, we got news from a distance, ask the people He has regained his full strength and led a group of powerful helpers who were suspected to be from the Dragon Realm and returned to the Holy Land of Galaxy. Currently, the Galaxy Ancestor and Wen Cansheng are putting pressure on the Holy Lord to abdicate. "

"The Holy Lord was forced to abdicate?"

Ye Feng, who was above the stars, suddenly stood up, jumped down, looked at the group of soldiers who were reporting, and said: "Now that I have achieved great cultivation, it is time to go back! Now call all the soldiers who are fighting abroad. Army, all come back and follow me back to the Galaxy Holy Land!"

Chapter 1432 So weak

In the cold and dark starry sky, figures were wearing heavy and sturdy armor, holding soldiers in their hands, and filled with murderous intent.

There are hundreds of thousands of troops, and it is not an army composed of ordinary people, but an army composed of masters and elites, with a monstrous momentum.

These hundreds of thousands of elite troops are Ye Feng's accumulation and foundation during this period.

At this time, a dark army was directly ahead. In the starry sky, Ye Feng stepped on a huge golden warship, standing with his hands behind his back. He was dressed in black and looked extraordinary.

Behind him, stood a group of experts, including the older generation of strong men, such as Elder Jian, Elder Yao, and others, as well as top young talent, such as Ren Cangqiong, Mu Chen, Chu Wushuang, Xiao He, Nangong Muxue, Binglu, etc. people.

Ye Feng's own cultivation level has now skyrocketed, he has entered the realm of enlightenment, and even obtained a treasure such as the Sage's Ship. He has powerful means and full trump cards.

Ye Feng suddenly spoke up at this time: "I got the news and asked the common people to come back in full bloom and bring a large group of Taikoo Dragon Realm helpers to force the Holy Lord to abdicate. What should we do?"

"Kill back!" .??.

"Kill back!" .??.

"Kill back!" .??.

In an instant, the roars of countless people rang out throughout the vast starry sky.

Different from the small universe of the first universe, in the perfect big world of the second universe, the rules of heaven and earth are more advanced. There is energy and aura in the starry sky of the universe, it is not in a vacuum state, and sound can be transmitted.

At this time, the shouts and roars of countless people, like the roar of an angry dragon and the trembling of the galaxy, spread throughout the entire dark universe.

Ye Feng stepped on the golden warship at this moment. He immediately pulled out a war sword from his waist, pointed it in the direction of the Galaxy Holy Land in Tiannan Star Territory, and

shouted: "Okay! As you all wish, now I ask the people to collude with the ancient dragon world to plot Let's fight back in our human territory, bring order to the chaos, and kill all the thieves!"

"kill!"

"kill!"

"kill!"

At this moment, countless people were roaring. Even the powerful elders such as Elder Sword and Elder Yao were roaring loudly, feeling their blood boiling like never before.

Because this battle is related to the future of the entire Galaxy Holy Land, and even the future of the entire Tiannan Star Region!

So at this time, everyone's heart is filled with a deep excitement, and a monstrous fighting spirit that seems to burst out from the chest!

At this time, Asura was wrapped in a wide black robe, floating in the sky above the entire army.

Ye Feng glanced at Asura high in the sky and felt a lot more stable.

During this period, Asura absorbed the energy of the universe every day, and with the power of creation provided to him by Ye Feng, he recovered very quickly.

Asura's current strength is estimated to have returned to the level of Pure Yang Realm. It is Ye Feng's biggest trump card this time, and also

The confidence to dare to compete with the strongest man in the dragon world behind the common people.

"Let's go!"

At this time, Ye Feng no longer hesitated and issued the order directly.

"boom!!"

Suddenly, in the starry sky, the entire dark army was dispatched.

Under the leadership of each commander, following Ye Feng at the front, they rushed towards a certain direction in the starry sky, like an unstoppable steel torrent, which was intimidating.

Along the way, many of the passing Star Thieves were trembling as they looked at the steel-like army.

"Why is there such a terrifying elite army here?"

"The young man at the front seems familiar. Who is it?"

Many starry sky pirates and wandering practitioners passing by in the starry sky stayed away from each other and did not dare to show their faces at all.

Three days later, Ye Feng led his army and finally arrived at the northwest territory of the Tiannan Star Territory.

At this time, countless people looked into the distance and could already see a huge and towering planet slowly rotating in the starry sky.

That is the base camp planet where the Galaxy Holy Land is located!

"finally reached!"

Countless people in the army were shocked.

At this time, Ye Feng led a large army without any concealment. When he entered the Tiannan Star Territory, he had already attracted the attention of countless major forces in the Tiannan Star Territory.

At this time, countless warriors had gathered in the starry sky around the Galaxy Holy Land to watch.

There are strong men from giant forces such as the Alchemy Emperor Sect, the Heavenly Demon Palace, and the Poseidon Holy Land.

There are also people from countless other forces, large and small, in the Tiannan Star Region.

Even the supreme elders of many giant forces, as well as the least sect master, the young demon master, etc., have all arrived.

Their eyes, without exception, were filled with shock.

No one expected that it would only be half a year.

Ye Feng actually stepped into the realm of enlightenment and gathered a cold-blooded army to return and compete with Wen Cangsheng.

"This is destined to be a vast battle recorded in the history of our Tiannan Star Territory!"

Many powerful old men spoke out like this, their tone full of wonder.

"Next, the entire Galaxy Holy Land will definitely erupt into a tragic war, and this starry sky will become a river of blood."

There were also voices made in fear, as if they had already

I saw the tragic scene of countless people fighting and dying.

At this time, Ye Feng was too lazy to care about the opinions of countless people in the surrounding starry sky.

He just led his army and started to attack directly. After approaching the planet where the Galaxy Holy Land's base camp was located, he shouted directly: "Holy Lord, we are here to save you! Ask

the people, this rebellious official and traitor actually colluded with Long The Ancestral Dragon Clan in the world plots our human race's territory and attempts to enslave all our human race disciples in the Galaxy Holy Land. Today, I lead countless people with lofty ideals to come to the aid of the Holy Lord, bring order to the chaos, and completely kill Wen Cang Sheng, a thief who is neither human nor dragon. , wipe out all the alien races in the Dragon Realm, and give our Tiannan Star Territory human race a clean place!"

At this moment, Ye Feng's voice spread throughout the starry sky and the earth without any concealment.

Countless people immediately understood at this time and asked, "Cang Sheng is actually a member of the Dragon Realm, and he colludes with the strong men of the Dragon Realm to plot the entire human territory of the Tiannan Star Region?"

"No wonder the lineage of Holy Lords of the Galaxy Holy Land has appointed Ye Feng as the Son of God! This son's martial arts will and human race's righteousness are all admired by us!"

"This is what our human warriors should do!"

At this moment, countless warriors in the surrounding starry sky couldn't help but sigh in admiration.

At this time, in the base camp of the Galaxy Holy Land on the huge planet.

In a huge and magnificent palace.

Wen Cangsheng was dressed in a golden robe and sat on a high golden throne.

At this time, he has a group of powerful men under his command, including the Supreme Elders from the Galaxy Holy Land who follow him, masters from the Celestial Society, and several powerful beings with dragon heads but human bodies. These are obviously from Dragon Realm.

Ye Feng's voice just now was naturally transmitted to the entire base camp of Galaxy Holy Land.

This group of people heard it.

Asking Cang Sheng naturally heard it.

At this time, in the main hall, an elder who was loyal to Wen Cangsheng said: "Then Ye Feng directly gave us a huge unfounded crime, and asked me to take action, capture him, and send him to Wen Cansheng for trial."

Wen Cangsheng shook his head, sneered, and said, "Ye Feng? He's just a clown. He can only do some clever tricks, so he's nothing to be afraid of."

At this time, Wen Cangsheng was talking, looking at a strong man from the Dragon Realm with a dragon head under the main hall, and said: "Long Yi, you have just broken through to the first level of the Proving Dao Realm, and you happen to have the same cultivation level as Ye Feng, you Fly to the starry sky on the planet and have fun with that kid. "

This strong man in the Dragon Realm named Long Yi was also a young prodigy with extraordinary fighting prowess. He was wearing golden armor and holding a dragon-horned scepter. At this moment, he immediately smiled confidently and said, "Okay, I'll leave that kid to you." When I get tired of playing with him, I will capture him

To be executed. "

Long Yi comes from the Dragon Realm and has a noble status. He is the descendant of an ancestral dragon. He has strong fighting power and does not take everything into consideration.

"I'm going to wait for my good news. They're just a bunch of chickens and dogs."

Long Yi laughed, and jumped up, rushing directly outside the Galaxy Holy Land headquarters and flying into the starry sky above the planet.

An elder of the God Society smiled and said: "A peerless wizard in the dragon world like Long Yi is enough to kill that brat Ye Feng..."

"ah!"

But before the elder could finish his words, a scream suddenly sounded from high in the sky.

"Boom!!"

The next moment, Long Yi's body was chopped into two halves, stained with blood, and fell directly from the starry sky, landing at the gate of the Galaxy Holy Land. He could no longer die.

"What?"

"Long Yi is dead?"

"Why so fast?"

At this moment, everyone in the entire hall who was smiling, including Wen Cangsheng, suddenly became extremely ugly.

At this time, high in the sky above the Galaxy Holy Land, an army descended.

Ye Feng stood at the front, the battle sword in his hand still dripping with Long Yi's blood. He stared at everyone in the hall coldly, with a disdainful tone, and said: "Is this the so-called strong man in the dragon world? Kill him. It's like killing a chicken, so weak!"

Wow!

The moment Ye Feng's undisguised contemptuous words fell, the entire field suddenly fell into a boil.

Countless people from various major forces watching around could not help but feel their blood rising.

"good!"

"Killing like a chicken! Hahaha! This Ye Shenzi is so talented!"

"This is the role model for our generation! I, the human warrior, should be like this!"

"My human race is the dominant race in this starry sky!!"

At this moment, countless people watching around couldn't help but yell, feeling that they felt the same.

"Buzz!"

And suddenly at this moment, a huge and vast terrifying aura suddenly spread out from the central hall in the base camp of the Galaxy Holy Land.

I'm asking the common people!

He suddenly stood up from his golden throne.

Like an ancient god, he suddenly stood up from the ground, filled with endless majesty and suffocating aura.

At this moment, Wen Cangsheng's eyes were fixed on Ye Feng, who was high in the sky, and he said coldly: "Ye Feng, you unknown person, a clown, this time you really pissed me off."

Chapter 1433 A fierce battle

Buzz!

Huge murderous aura was emanating from Wen Cangsheng's body like a vast ocean at this moment.

I have to say that I am definitely a child of luck.

The last time he was seriously injured in a sneak attack, his body and soul suffered huge trauma.

But in just a few months, Wen Cangsheng not only did not remain silent, but actually regained his full strength, and the aura of cultivation on his body was that of the fifth level of the Dao Realm, and he was even more powerful than before.

This is the so-called luck, or luck.

Although luck is something that sounds very mysterious. .??.

But the reality is that it really exists.

Ye Feng was standing high in the sky at this time, with cold eyes and incomparable determination, and said: "Ask the people, the last time I attacked you in the starry sky ruins, you didn't die and became stronger. But this is okay, I Just in front of everyone's attention, I will kill you openly and let everyone see who is the most talented person in the Tiannan Star Territory!"

Wen Cangsheng's eyes were filled with anger as he said, "It turns out you were the one who ruined my overall plan in the Starry Sky Ruins before! It was you who attacked me in the end!"

Ye Feng laughed loudly and said: "Yes, it's me. It doesn't matter if I say it now. Anyway, you will definitely die today!"

Wen Cangsheng said disdainfully: "You are indeed powerful in combat, but compared to me, you are still far behind. Your background is still too weak, and your cultivation is much worse than mine."

Ye Feng's eyes were calm and he said: "Who lives and who dies, we will know later!"

At this time, Wen Cangsheng shouted to the entire Galaxy Holy Land: "All those who are loyal to me, take action now to kill the group of arrogant thieves high in the sky. Our God's Association will never be defeated. Our God's Association will never be defeated." Live forever!"

The voice asking the people at this moment is full of endless will to kill.

boom!

boom!

boom!

At this moment, figures with powerful auras appeared in the entire Galaxy Holy Land behind him.

Among these figures are disciples, protectors, inner sect elders, and supreme elders.

But without exception, they are all people who are loyal to the common people.

At this time, among a group of Supreme Elders, the Great Elder of Punishment was also among them.

He flew into the air and saw Ye Feng leading a group of sword elders, medicine elders and others.

The Great Elder of Punishment, a strong man in the third level of the Dao Realm, seemed quite confident in his own strength. He couldn't help but angrily yelled at Ye Feng: "Ye Feng, you are too courageous. You really have a bone in your head." You are the one who led so many people from our Galaxy Holy Land to defect and made us kill each other, little thief Ye Feng, you should commit suicide to apologize...ah!"

But before the punishment elder could finish his words, Ye Feng shook his hand in the air.

The entire body of the Punishment Elder immediately exploded.

There was only one head left in the air, where it opened its mouth and screamed.

"The Great Elder of Punishment was crushed to death by Ye Feng with just one hand?"

Countless people were shocked.

"Is this Ye Feng really just a warrior at the first level of the Demonstration Realm? How come he has such ferocious combat power? It makes me feel like he is a super strong man at the advanced level of the Demonstration Realm!"

At this moment, not only the people from the major forces who were watching, but also the powerful people from the Celestial God Association around them couldn't help but exclaim in surprise.

"Ye Feng, you dare to kill someone in front of me. You are so bold. I will personally take action and kill you in front of everyone's attention!"

Wen Cangsheng finally took action, unable to hesitate any longer, because if he continued to delay, all the top experts of the Celestial Society around him would be killed by Ye Feng.

"Dragon Soul Emperor Art!"

As soon as Wen Cangsheng came up, he displayed his most powerful skills, which were inherited from the ancient and advanced Dragon Realm interface.

"hold head high!!"

"hold head high!!"

At this moment, countless golden dragon auras turned into thousands of giant dragons, roaring and roaring, surrounding Wen Cangsheng.

Every move of the people asked was filled with endless dragon roars and dragon souls roaring, causing the whole world to tremble crazily, as if a supreme dragon emperor had descended.

"Boom!"

At this moment, Ye Feng was also fully releasing his cultivation skills and running his chaotic body crazily.

The surge in cultivation and the transformation of the Chaos Body made Ye Feng's entire body full of monstrous brute force.

The momentum of his whole body was like a violent wave, like a strong wind and rain, with the power of wind and lingering clouds, and the courage to suppress the world.

"Boom!"

The two most powerful geniuses in the Tiannan Star Region finally collided at this moment.

And the strong men following them all rushed together to kill them.

For a moment, endless roars and shouts rushed through the sky, filling the entire starry sky with a tragic and murderous aura.

In this battle, all the top experts are fighting.

Countless people from various major forces in the surrounding starry sky were watching, their eyes were shocked and amazed, and even showed fear.

It has to be said that among the giant forces in the entire Tiannan Star Region, the comprehensive combat power of the Galaxy Holy Land is indeed the most powerful, and it has also given birth to extremely powerful forces.

A powerful warrior.

"Dragon Emperor's Claw!"

Wen Cangsheng shouted loudly, and one of his hands transformed into a huge golden claw high in the air. It had the power to tear the sky. It suddenly grabbed Ye Feng's face and tried to tear Ye Feng's body away. Shred directly.

"Dang! Dang! Dang!"

But the next moment, Ye Feng waved his fist that was filled with chaotic light, like a sledgehammer in the sky, and struck hard on the Dragon Emperor's claws, making a roar like a god striking iron.

The Dragon Emperor's Claw did not cause any harm to Ye Feng, but Ye Feng did not break the golden Dragon Emperor's Claw.

"Galaxy Holy Mirror!"

A huge mirror suddenly rushed out of Ye Feng's body.

In the huge mirror, there was a "rumbling" sound, and a huge galaxy surged out, composed of hundreds of thousands of stars, shining with bright light like diamonds.

Buzz! .??.

The vast galaxy, extremely heavy, smashed directly towards Wen Cangsheng from high altitude, and in an instant the entire surface of the planet collapsed.

"Ancestral Dragon Emperor Sword!"

Wen Cangsheng also felt the heavy pressure of the Galaxy Sacred Mirror. He did not dare to lift it up, and a huge war sword rushed out of his tall body.

This huge battle sword was made from the horn of an ancient ancestral dragon. It was engraved with dense dragon talismans. At this time, I asked Cangsheng to hold this ancestral dragon emperor sword. How powerful was his entire body? He was immediately strengthened. He swung his sword fiercely, and a huge golden sword light contained countless golden dragons roaring, possessing the majestic power of opening up the world, and it burst out in an instant.

"Boom!!"

The two peerless warriors collided instantly, and the aftermath of the terrifying energy instantly destroyed the land for thousands of miles around. A large pit appeared on the ground, which was bottomless.

If you look at the planet from the starry sky, you will see that part of the entire planet's surface suddenly collapsed, and a large abyss like a sinkhole appeared.

"hiss!"

"What a terrifying combat power!"

"The combat prowess of these two young prodigies is probably comparable to those at the ninth level of the Dao Proving Realm!"

At this moment, countless people from all major forces watching the battle around the starry sky retreated violently, feeling the horror of this battle.

"Ship of the Sages!"

In the chaotic divine light of the collision, Ye Feng suddenly rushed to Wen Cangsheng's side, using his chaotic body to withstand the destructive power of the aftermath of the collision, and suddenly used his strongest trump card, the Ship of the Sage!

This is the ultimate legacy left by the ancient saints.

A powerful magic weapon, ranked at the ninth-grade Taoist level, capable of suppressing the ancient demon emperor Asura, which shows the terror of the ship of sages.

"Boom!!"

The sage's ship was like a monstrous mountain, containing terrifying and majestic power, and directly hit Wen Cangsheng's tall body.

"Pfft!"

No matter how powerful Wen Cangsheng was, he was still injured by Ye Feng's sudden attack.

One of his arms was instantly smashed into pieces.

"hateful!!"

Wen Cangsheng shouted: "Ancestor Ten Thousand Dragon Armor! Guard me!"

Clang, Clang, Clang, Clang...

Almost at this moment, scales of different colors, all dragon scales, came together at once, covering Wen Cangsheng's entire body.

"Boom!!"

The sage's ship collided again, but was actually blocked by the Ten Thousand Dragon Armor on Wen Cangsheng's body, making a collision sound like a copper wall.

"With the Ten Thousand Dragon Armor given to me by my ancestors, Ye Feng, you can't hurt me!"

Wen Cangsheng smiled cruelly, holding the Ancestral Dragon Emperor Sword in his hand, with a body like a dragon, and rushed directly towards Ye Feng with shocking murderous intent.

Ye Feng smiled coldly and said: "Ask the people, you recognize an ancestral dragon from the dragon world as your ancestor, but you still have half of the human blood flowing in your body. It is really a shame to my human race!"

The ship of the saints!

At this moment, Ye Feng increased the output of his power.

Immediately, phantoms of ancient saints burst out from the ship of saints, emitting thousands of feet of white divine light, sacred and majestic!

"Boom!"

"Boom!"

The collision of peerless combat power and the bombardment of the most powerful magic weapon caused the entire planet where the Galaxy Holy Land is located to shake violently.

The whole planet seems to be disintegrating!

The surrounding starry sky is falling apart!

"Future body!"

Finally at this time, Ye Feng seized an opportunity and immediately called out the future body of Dzogchen.

In an instant, the peak cultivation level of the Tenth Heavenly Perfection of the Dao Realm was cast all over Ye Feng's body, causing Ye Feng's entire body to expand several times.

"This kind of power and aura? You actually have a secret technique to forcibly improve your cultivation?"

Wen Cangsheng was shocked and felt the crisis of death.

"Ragnarok!"

"Destroy all generations!"

He yelled crazily and used the secret technique of eternal killing. His eyes were fierce at this moment, and he seemed to be ready to fight.

Chapter 1434 No second time

Wen Cangsheng shouted loudly and released huge and boundless aura of destruction with his hands.

This is a very terrifying forbidden killing secret technique. Once it is used, the whole world will fall into endless darkness, and everything will be filled with cold and murderous aura.

Just like Ragnarok, the world will be destroyed at this moment.

"Mark of the Gods!"

At this moment, a vast and boundless thought was transmitted from the terrifying apocalyptic light wave of destruction.

That was the great energy of will conveyed from Ye Feng's spirit.

At this moment, Ye Feng was in the destructive light wave, but around his body, phantoms of gods appeared, full of great power, forming an extremely powerful protective light, protecting Ye Feng. In that forbidden art of destruction.

"What? This kind of power aura? How is it possible! Can it resist my secret technique of destruction from the ancient dragon world?"

When asked Cangsheng, his eyes suddenly showed an incredible look. .??.

But his secret technique is indeed very powerful, just like the Twilight of the Gods, which directly knocked away the ships of the sages.

"Seal of the Gods, Fusion!"

At this moment, Ye Feng roared and immediately injected his awakened marks of the gods directly into the ship of the sages.

"Buzz buzz!"

All of a sudden, the entire sage's ship burst into light.

Buzz!

The ancient will of the saints was completely inspired, and the tall and majestic shadows of the saints all appeared on the ship of the saints.

These are the powers of the ancient saints inspired by the marks of the gods. At this time, they are completely awakened, manifesting themselves into the shadow of the will of the saints, with extremely huge momentum and power.

"attack!"

At this moment, Ye Feng was like the master of the gods. With an order, the ship of the sages was immediately surrounded by the will of many ancient saints and headed towards Wen Cangsheng ahead.

"ah!!"

Even if Wen Cangsheng was wearing Ten Thousand Dragon Armor, he was still severely injured at this moment, suppressed by the will of countless saints. The armor was broken into pieces, blood spurted from the mouth, and his hair was disheveled.

"I lost. I actually lost. I lost to someone who was lower in cultivation and younger than me..."

at this time

At this moment, Wen Cangsheng's eyes were full of confusion, and at the same time, he was also deeply shocked and angry.

A huge crack appeared in his martial arts heart at this moment.

All along, Wen Cangsheng has always been self-centered, using absolute strength and power to suppress everything and kill everyone who dares to resist him.

But this time today, Wen Cangsheng was completely defeated, completely defeated.

Ye Feng's powerful combat power and peerless appearance are so powerful that it makes people despair.

At this moment, Ye Feng immediately took advantage of the victory and hit Wen Cangsheng with the sage's ship.

"boom!"

"boom!"

Wen Cangsheng was completely defeated now. He was bombarded and retreated continuously. Blood spurted from his mouth and his breath was exhausted to the extreme.

"What? Ask Cangsheng to be attacked by Ye Feng and make him retreat repeatedly?"

"Furthermore, Qingsheng is actually vomiting blood? He was defeated, and he was defeated so badly?"

At this time, countless people around saw this scene, and they were all horrified to the extreme.

Especially all the members of the Celestial Society were extremely frightened.

I didn't expect Ye Feng to be so powerful. Even a fortune-teller like Wen Cangsheng was unable to resist Ye Feng's attacks and was beaten until he vomited blood.

A member of the Celestial Society immediately shouted: "Hurry up and ask the common people for help!"

"Boom!"

But Ye Feng also has countless masters here, including Elder Sword, Elder Yao, Xiao He, Binglu, etc., all of whom are very powerful in combat.

The Celestial Society is a group of strong men who are simply unable to rescue the common people.

Seeing that Wen Cangsheng is about to perish.

"Ye Feng, stop! Wen Cang Sheng is the descendant left in the world by an Ancestral Dragon from the Taikoo Dragon Realm. Once he dies, our entire Tiannan Star Territory will suffer the wrath of that Ancestral Dragon! This result, no one can bear it!"

Suddenly at this time, the old body of the Galaxy Ancestor suddenly walked out of the depths of the Galaxy Holy Land and scolded Ye Feng.

Ye Feng stared at the ancestor of Xinghe, his eyes were cold, and said: "Old man, get out! Are you worthy of reprimanding me?"

When Ancestor Xinghe heard what Ye Feng said, he immediately couldn't help but became extremely angry and shouted: "Ye Feng, you are still not a disciple of my Xinghe Holy Land, how dare you speak to me like this? How presumptuous!"

"Bullshit ancestor!"

Ye Feng suddenly yelled: "There is an old dog behind Qing Cang Sheng. He does not concentrate on thinking about the future of the Galaxy Holy Land. He only knows how to please this Qing Cang all day long. You are not worthy of being called the ancestor of Xinghe. You should be called Lao Xinghe." dog!"

Galaxy old dog?

Almost at the moment Ye Feng finished speaking, everyone in the surrounding field couldn't help but change their expressions.

After all, the ancestor of Galaxy is a long-established big shot, representing the top big shot in the Tiannan Star Region.

But now, Ye Feng started scolding him directly, and he was really tough to the extreme. ??

"shut up!"

Ancestor Xinghe was so angry that he was so noble and superior. He had never been insulted like this before. Moreover, he was scolded like this by a young junior in front of everyone.

Ancestor Xinghe's body suddenly erupted with the light of thousands of stars, and countless stars fell from the starry sky, spinning around Ancestor Xinghe.

The Star River Patriarch stared at Ye Feng fiercely, and said in a cruel tone: "Then I will kill you, the ungrateful boy, and let you know what the price of insubordination is!"

"Get out of here!"

Ye Feng attacked directly at this time, not even bothering to say a word.

The future body's great perfection cultivation was once again melted into his body.

"Boom!"

Ye Feng's punch was instantly blasted out without any fancy moves, and it directly pierced through the void and hit the Star River Patriarch directly in front of him.

"The power of the eternal stars!"

The inheritance of the Star River Patriarch's cultivation was very strange, and he could condense thousands of stars in the starry sky as his own means of attack.

But in the next moment, what made the Star River Patriarch palpitate was that Ye Feng's punch was extremely brave, like the most terrifying war spear in the world, and it actually smashed countless stars in front of him in an instant. \u003c

br\u003e

"This cultivation is not the first level of the realm of enlightenment, but the tenth level of the realm of enlightenment!!"

The Star River Patriarch exclaimed in surprise, staring at Ye Feng in front of him in disbelief.

"Puff!"

The next moment, under the watchful eyes of the crowd, Ye Feng smashed the chest of the Xinghe Patriarch with one punch.

"Ah!"

As powerful as the Xinghe Patriarch was, he also screamed and fell to the ground, half dead.

"Wen Cangsheng, you must die today! Even if you are the son of heaven, the son of destiny, you will definitely die today!"

The murderous intent in Ye Feng's eyes was simply dazzling.

Buzz!

But suddenly at this moment, a breath like the power of heaven suddenly appeared at the top of the entire planet.

In the horrified eyes of countless people, a monstrous golden dragon claw, crossing the interface barrier, as big as a planet, grabbed towards the bottom, trying to crush Ye Feng.

"Ancestor!"

Wen Cangsheng immediately showed a deep surprise in his eyes at this time.

"No one can save you! You've been saved once, I won't allow this to happen again! There won't be a second time!"

Ye Feng shouted: "Asura, block that golden dragon claw for me!"

"Boom!"

Asura finally made a move, he had been waiting for this opportunity.

"Boom!"

On the boundless land, a huge and majestic Asura appeared, with his thick arms and hands stretched out to the sky, and forcibly held up the monstrous golden dragon claw, as if supporting the entire sky.

"Wen Cangsheng, die!"

Ye Feng grabbed Wen Cangsheng with one hand, and finally crushed his head in the other's horrified eyes, and even wiped out his soul.

Wen Cangsheng, die!

Chapter 1435 Supervisory Messenger

Wen Cangsheng is dead, completely dead.

The head was crushed and the soul was obliterated.

This time, even if Wen Cangsheng had great luck, he would be completely destroyed. His body and soul would disappear, and there would be no such person in the world.

"Mortal, you have committed a grave sin by killing my heir."

Suddenly at this time, above the boundless starry sky, the owner of the monstrous golden dragon claws spoke out.

That was the ancestral dragon of the Ancient Dragon Realm standing behind Wen Cang Sheng. He was a powerful person in the Pure Yang Realm who had surpassed the Realm of Enlightenment.

Ye Feng looked up to the sky with cold eyes and said: "Ancestral dragon of the ancient dragon world, this is my human territory, you are not qualified to judge me!"

At this time, Asura suddenly exerted his strength, and overwhelming power surged from his arms, and he blasted away the golden dragon claws.

"Boom!!"

But then, several more golden monstrous dragon claws bombarded him.

Bang!

Even Asura was knocked down to the ground on the surface of the planet by the golden dragon claws, smashing a large area.

"hateful!"

Asura's eyes were extremely ugly and he said: "Several Pure Yang Realm ancestral dragons took action together!"

Ye Feng's eyes showed a hint of panic at this moment.

Unexpectedly, this question was so extraordinary that there was not just one Pure Yang Realm ancestral dragon standing behind it, but several.

Even the king of the starry sky demon clan, Asura, is now unable to resist.

"An ant-like mortal, today you killed the lucky descendant of my Ancestral Dragon clan in the human world. You, a puny human boy, must die. No matter how powerful you are, you can't compete with us beings from the higher interface!"

Above the starry sky, in the endless golden clouds, the voice of an ancestral dragon came out, majestic and full of monstrous power.

"Hahaha! Ye Feng, you are dead, you are dead! If you dare to offend the supreme Lord Zulong, you are destined to die, and no one can save you!"

Not far away, the ancestor of Galaxy, whose chest was blasted through but was not completely dead, suddenly laughed ferociously.

"Pfft!"

Ye Feng swung his sword and killed the ancestor of Xinghe directly.

Then he looked at the golden dragon claws that landed from high in the sky. There were several of them, all of them filled with monstrous power that even Asura could not resist.

"In the northern star region of human territory, strong men from the Dragon Realm dare to trespass. Do they regard our Northern Divine Academy as nothing? Kill them without mercy!"

But suddenly at this moment, a loud shout suddenly sounded.

Uh-huh!

The next moment, a beautiful woman appeared with white wings growing from her back. Her skin was like snow and her white hair was flying. She looked full of holiness and nobility.

"Boom!!"

She held a Wheel of Judgment in her hand and swung it towards the sky.

Immediately, boundless sacred light erupted, and several golden dragon claws high in the sky were all shattered and destroyed.

"Ah! It's the supervisory envoy from the Northern Divine Academy!"

"It was us who broke through the boundary and attracted the supervisory envoy from the Northern Divine Academy!"

At this moment, the exclamations of the ancestral dragons suddenly rang out from the endless golden clouds in the sky.

"Quickly retreat!"

"When I have the opportunity in the future, I'll attack and kill that human kid again!"

At this moment, several ancestral dragons immediately began to evacuate.

"boom!"

But at this time, the supervisory envoy of the Northern Territory Seminary, the beautiful woman with white wings on her back, suddenly displayed a terrible secret technique. The wheel of judgment in her hand rotated rapidly, directly turning into a strangulation. The wheel rushed into the clouds high in the sky.

"ah!!"

Along with a shrill howl, a dragon head as huge as a planet fell from the clouds.

This is the head of an ancestral dragon!

Beiyu

The supervisory envoy of the seminary was beheaded.

The dragon's blood dyed the entire starry sky red.

"Buzz!"

And the next moment, all the energy fluctuations in the sky disappeared.

Even though several ancestral dragons retreated quickly, one was finally killed, and the dragon heads fell from another interface into the starry sky.

"Northern Divine Monastery?"

"Supervisory messenger?" ??

"What kind of existence is that? It's too powerful! Kill it even if the ancestral dragon says to kill it!"

Countless people present were shocked.

After all, many people have no idea what the Northern Divine Seminary is and have never heard of it.

But at this moment, Ye Feng's eyes suddenly moved.

Then came a deep surprise.

Sure enough, what Asura said before was right.

The star field they were in was invisibly guarded by the strongest human beings and overlord forces.

Those ancestral dragons crossed the interface and came with power, attracting the attention of the behemoth of the Northern Divine Academy, so supervisory messengers came to stop those strongest dragons who violated the rules.

Uh-huh!

At this time, Asura flew to Ye Feng's side and said: "Ye Feng, this is your chance. This time, those ancestral dragons actually provoked the supervisory envoys from the Northern Divine Academy. , Ye Feng, you can ask the supervisory messenger about the requirements for joining the Northern Territory Temple. However, as far as I know, it is very difficult to join the top pyramid behemoth like the Northern Territory Temple, even if it is a ninth-level star field. Many of the proud ones in the world can only reach the standard line to enter the Northern Divine Academy. Ye Feng, although you are extremely talented, you are only dominating in the first-level star field after all. You probably want to join the Northern Divine Academy. It's very difficult, and it will take decades of practice, but you can ask first now, it's okay if you look familiar..."

"Brother Ye Feng?"

But before Asura could finish speaking, a slightly surprised female voice sounded.

It's the one who's aloof,

The supervisory envoy from the Northern Territory Temple who beheaded the ancestral dragon was speaking.

Asura's eyes were startled and he said: "She...she knows you?"

Ye Feng was also stunned and looked not far away.

At this time, the supervisory messenger, who was exuding sacred light, dispersed the light on his body, waved the white wings behind his back, and landed from the high altitude.

Ye Feng immediately saw the true face of this supervisory messenger.

"Sister Susu!"

The look on Ye Feng's face suddenly turned into shock.

At this time, this beautiful supervisory messenger from the Northern Divine Academy turned out to be Ye Feng's old friend, Bai Susu!

When Ye Feng was in the first universe, he went to the demon world once, bet with others, and cut out a beautiful woman with unparalleled elegance from a big blue stone.

Ye Feng still remembers the scene that year, the beautiful woman who was cut out from the big bluestone. Her black hair was like a waterfall, her skin was like gelatin, her eyes were sky blue, like two boundless skies, and she had a pair of white feathers growing on her back. Wing is the leader of the Yu Clan, a branch of the ancient Immortal Clan.

Later, Ye Feng met Bai Susu again in the Heavenly Soul Palace in the spiritual world of the first universe. At that time, Bai Susu said that she would take her apprentice, the witch girl Xiaoyu, to the perfect world of the second universe. , enter the fairy world, and return to his hometown.

A burst of memories came to Ye Feng's mind.

At this time, he looked at the stunningly beautiful woman who had arrived and couldn't help but said: "Sister Su Su, didn't you say you wanted to return to the fairy world? How did you become the supervisory envoy of our human race's Northern Territory Temple?"

Bai Susu smiled slightly and said: "The Northern Divine Academy is the dominant force in the northern star region of the entire universe, and it is also a very peaceful and uncontested academy. I like this kind of force better, so I join. I became a disciple among them. This time I happened to be performing the daily tasks of the temple. As a supervisory envoy, I was patrolling the area. Unexpectedly, I happened to sense that a strong man from the Dragon Realm was trespassing into the northern star region of the human race without permission, so I took action. Unexpectedly, I met you, brother Ye Feng."

Chapter 1436 A huge opportunity

Asura listened to the conversation between the two and was secretly shocked.

He never thought that this boy Ye Feng would actually know the supervisory messenger from the Northern Territory Seminary.

At this time, Ye Feng looked at Bai Susu in front of him and couldn't help but ask: "Sister Susu, what are the minimum requirements for joining the Northern Divine Academy?"

Bai Susu stared at Ye Feng and said slowly: "The Northern Divine Academy is a behemoth that stands at the pinnacle of the northern star region of the human race. It is formed by several major silver forces. The Northern Divine Academy is equivalent to a golden force. , can be said to be one of the most powerful forces in this universe. To join the Northern Territory Temple, the minimum requirement is for a warrior to be one hundred years old and enter the first level of the Pure Yang Realm."

One hundred years old!

The first level of Pure Yang Realm!

This is the minimum requirement to join the Northern Territory Seminary. .???.??

Ye Feng took a deep breath. It seemed that just as Asura said, it would take at least a few decades for him to be qualified to enter the Northern Divine Temple.

Sure enough, there is no future in the first-level star field.

After killing Wen Cangsheng and entering the realm of enlightenment, Ye Feng was not in the mood to stay in the Tiannan Star Territory any longer.

As Asura said before, after seeing the sublimity and majesty of the Northern Divine Monastery, he saw Bai Susu's monstrous cultivation level of furiously killing the ancestral dragon.

In Ye Feng's eyes, the star war between Tiannan Star Territory and Taiyin Star Territory seems to be as boring as children fighting.

Ye Feng planned to wait until things in Tiannan Star Territory were sorted out, and then he and Sima Suantian would go to Tianchen Star Territory, a third-level star territory, to find Sima Suantian's master.

But at this moment, Bai Susu suddenly said: "Brother Ye Feng, although your cultivation is too weak now, you are also very young. Maybe I can help recommend you to the Northern Divine Academy."

Ye Feng's eyes suddenly lit up and he said, "Is this okay?"

Bai Susu smiled slightly and said: "As a disciple of the inner courtyard of the Northern Territory Seminary, I still have this right, but I may not be able to succeed. It can only depend on how the superiors of the Northern Territory Seminary evaluate you, but even if you can't become a disciple of the Northern Divine Seminary, you can temporarily follow me as a follower and enter the Northern Divine Seminary to practice. When your cultivation level improves, you will be certified as a true disciple of the Northern Divine Seminary. Can."

Ye Feng immediately looked overjoyed and said, "That would be great."

This is a huge opportunity!

If he hadn't met Bai Susu, Ye Feng felt that he would have wasted at least several decades in the countless star fields under the Northern Divine Academy.

Decades may be just a period of retreat for other powerful people.

But for Ye Feng, it was too long.

My mother is still trapped in Gu's Kingdom.

The father sealed the first universe and merged with the will of the first universe. I don't know what happened. The super powerful people in the perfect world of the second universe must be eyeing the first universe.

Ye Feng knew that only when he became strong enough and looked down upon countless creatures in the entire universe could he be able to protect his father and mother from the wind and rain.

Only then can you control your own destiny!

After all, the Gu's Divine Kingdom is a top-level golden power comparable to the Northern Divine Academy. It stands at the pinnacle of the perfect world of the entire second universe and is the overlord-level Human Divine Kingdom!

Ye Feng immediately said: "Sister Su Su, I am willing to go to the Northern Divine Academy with you."

Even if he enters the Northern Divine Monastery to practice as Bai Susu's attendant, it is better than hanging around all day in the extremely low-level first- and second-level star fields such as the Tiannan Star Territory and the Taiyin Star Territory.

In addition, with Bai Susu, a true disciple of the Northern Territory Seminary, and seemingly a high-status inner court disciple as the backstage, I am sure that even among such a behemoth as the Northern Territory Seminary, I am afraid that I will not be bullied.

So Ye Feng immediately made up his mind to go to the Northern Divine Academy with Bai Susu.

After all, this is a huge opportunity.

I happened to meet Bai Susu.

Otherwise, the entire northern star field is infinitely vast, and it would be too difficult for two people to meet.

Asura also whispered: "Ye Feng, you made the right choice. If you miss this village, you won't have this store. I don't even have a chance to enter the Northern Divine Monastery."

Ye Feng glanced at Asura in surprise, then shook his head, looked at Bai Susu, and said: "Sister Susu, please stay with me for the time being. When I take care of everything here, I will go with you." "Northern Divine Temple."

Bai Susu nodded slightly and said: "Okay, I will take another walk around the nearby star field and patrol. Let's meet in three months in this holy land of the galaxy."

Ye Feng immediately said: "Okay!"

Uh-huh!

As soon as the words fell, Bai Susu flew away, turned into a ray of divine light, and disappeared at the end of the distant starry sky.

At this time, Asura couldn't help but asked: "Ye Feng, how can you know the existence from the Northern Divine Academy? That woman's cultivation is very terrifying. She has probably surpassed the Pure Yang Realm and is at the Broken Realm level. A strong person, so powerful, and she doesn't seem to be a pure human race, she has the blood of other powerful races in her body."

Ye Feng nodded and said: "She was once the leader of a race of the Immortal Clan and has the blood of the Immortal Clan. As for how I know her? It's a long story. I'll tell you slowly when I have the opportunity in the future."

At this time, Ye Feng was very lucky that the disciple who was still very weak at that time cut out this fairy woman from the big bluestone in the demon world, and now he is actually touched by her light.

Entering the Northern Divine Monastery directly is a huge opportunity and luck!

At this time, Xiao He and Nangong Muxue both flew over and shouted in surprise.

He said happily: "Ye Feng, who is that person? You actually know a big shot from the Northern Divine Academy? Now Ye Feng, you are going to soar into the sky!"

Ye Feng shook his head and smiled bitterly: "Even if I enter the Northern Divine Seminary, I am still far away from the minimum standard of becoming a disciple, and there is still a long way to go."

Xiao He patted Ye Feng's shoulder hard and said: "This is a great opportunity. Don't miss it. Entering the legendary Northern Temple is equivalent to reaching the sky in one step and immediately becoming the most powerful person in this vast universe." A distinguished group of people."

Nangong Muxue also had an excited look on her pretty face, and said in a slightly playful voice: "Brother Ye Feng, when you come back from your cultivation, take us all over."

"Hahaha!"

Ye Feng touched Mu Xue's hair and said: "Okay, I will work hard! The next Tiannan Star Territory will be built by you. Now that all the common people and the ancestors of Xinghe are dead, the God Association will also be almost destroyed. Next, the Holy Lord, Elder Sword, Elder Yao and others are all from our side. This time I can use Sister Su Su's noble status as a disciple of the inner courtyard of the Northern Divine Academy to destroy the entire Tiannan Star. Domain unity!"

In the following time, the news that Ye Feng wanted to get to know the distinguished disciples of the Northern Territory Seminary and that he was about to enter the Northern Territory Seminary was spread by people with intentions.

Perhaps ordinary disciples don't know what the Northern Divine Academy represents.

But the upper echelons of the major forces in the Tiannan Star Region, and even the Taiyin Demon Sect in the Taiyin Star Region, knew what this meant.

Although giant forces such as the Heavenly Demon Palace, Sea Holy Land, and Taiyin Demon Sect dominate here, they are no more than ants in front of such a behemoth as the Northern Divine Academy.

Therefore, after the news was released, several giant forces, and even the Taiyin Demon Sect, the master of the second-level star field in the Taiyin Star Territory, were suddenly frightened and

surrendered, and they sent envoys to the Galaxy in the Tiannan Star Territory that day. In the Holy Land, he expressed his surrender to Ye Feng, the Son of God.

The Holy Lord has restored his position as the Holy Lord, and Elder Sword, Elder Yao and other senior elders have also regained control over the entire Galaxy Holy Land.

But now everyone knows that the actual controller of the Galaxy Holy Land is Ye Feng, the Son of God.

Asura currently has nowhere to go, so he also joined the Galaxy Holy Land.

As for Sima Suantian, Ye Feng asked him to go to the Tianchen Star Territory first. After he entered the Northern Divine Academy, he would go to the Tianchen Star Territory to visit Sima Suantian's master when he had time.

After all, going to the Northern Territory Seminary now is the official business.

The Holy Lord originally wanted to give up his position, but was stopped by Ye Feng.

"This is not my ambition. In the future, the Holy Land of Galaxy will still need you, Holy Lord, to continue to be in charge."

This is what Ye Feng said to the Holy Lord.

These words made everyone very sad.

They all witnessed with their own eyes how Ye Feng rose up step by step.

And now, Ye Feng's rise has exceeded their imagination, and he is about to enter the

Beiyu Temple.

The Holy Lord and others knew this was an opportunity.

With Ye Feng's promotion, the Galaxy Holy Land accepted the surrender of the giants in the Tiannan Star Region and the Lunar Star Region, unified the entire Tiannan Star Region and the Lunar Star Region, and its power expanded countless times in an instant.

Ye Feng, who had become famous at this time, was alone. Three months later, he followed Bai Susu and left this small star field.

...

Deep in the starry sky, Ye Feng glanced back at the Tiannan Star Territory. He looked at Bai Susu who was leading the way and said with a smile: "Sister Susu, let's go."

"good."

Bai Susu nodded, took out a starship, and walked into it with Ye Feng.

"boom!!"

The starship is very advanced. After it was launched, a small black hole appeared in the starry sky in front of the ship, which seemed to be an infinite space channel.

Uh-huh!

After the starship entered the black hole, when it appeared the next moment, it had crossed hundreds of millions of miles of starry sky territory and arrived at a brand new starry sky area.

At this time, Bai Susu looked at Ye Feng, who was sitting next to him, with a smile on his stunningly beautiful face, and said, "Brother Ye Feng, we have arrived at the Northern Divine Monastery."

"So fast?"

Ye Feng immediately looked outside the starry sky ship.

He discovered that at this time, in the boundless starry sky ahead, stood a huge and boundless floating continent.

This floating continent is endlessly vast and majestic, surrounded by countless planets. It is like a super large interface combination, exuding a boundless atmosphere.

A tall and towering giant academy building that seemed to hold up the entire starry sky stood on the super large floating continent.

There are countless extremely powerful auras transmitted from the giant academy building, and each aura seems to be able to shatter an entire low-level star field.

"Is this the Northern Divine Academy..."

Ye Feng looked at the majestic and spectacular scene in front of him, his eyes involuntarily showing a hint of shock.

Feeling the powerful aura that permeated the entire starry sky, Ye Feng knew that there were probably countless powerful people in the Northern Divine Academy that were unimaginable before.

But this is normal.

After all, Ye Feng relied on his connections to go through the back door and came to the Northern Divine Academy in advance.

With his spiritual mind exploring the corpses of Wen Cangsheng, Xinghe Ancestor, etc. in his storage spirit ring, Ye Feng decided to enter the Northern Divine Monastery and hurry up to devour them to improve his cultivation.

He has no other ideas now. His only idea is to work hard to improve his cultivation and try to survive in a behemoth like the Northern Divine Academy.

Although he had Bai Susu's support, Ye Feng knew that in the end, he still had to rely on himself for everything.

In this world, after all, no one can be relied on, and the only way is to rely on oneself!

Chapter 1437 Human Life is Worthless

At this time, Bai Susu took Ye Feng and flew directly towards the vast suspended continent.

Soon they approached the suspended continent, and on the edge stood a golden arch that was tens of thousands of feet tall.

The surface of the huge portal is carved with countless rare and exotic animals, and the patterns and textures of ancient creatures exude a vast and vast atmosphere.

"Boom, boom, boom..."

At this time, Ye Feng looked up and found that at the top of the huge arch, there was endless golden thunder and lightning surging, exuding an aura that could destroy the world, which was very scary.

"That is the world-destroying golden thunder in the thirty-third heaven of the fairy world. It was captured here by the powerful man and refined on the gate of our northern temple. Once any demons and evil spirits break in, they will be captured by the world-destroying golden thunder. The thunder struck down and killed him instantly."

At this time, Bai Susu introduced from the side with a hint of admiration in her tone.

Obviously, she is very proud to be a member of the Northern Territory Seminary.

Even something as terrifying as the World-Destroying Golden Thunder, there are powerful people in the Northern Divine Academy who can capture it and refine it, and their methods are truly unparalleled.

Ye Feng also had a hint of amazement in his eyes and couldn't help but say: "It's really amazing. This method is simply unimaginable."

Buzz!

At this time, Bai Susu led Ye Feng into the golden door. She had the mark of the temple on her body, and she led Ye Feng through the golden door automatically.

Outsiders cannot enter this golden door.

At this time, Bai Susu said to Ye Feng: "Last month, I reported your qualifications to the upper echelons of the Northern Territory Seminary, but the upper echelons did not agree to let you become an official disciple, but they allowed you to follow me into the temple. Practice in the courtyard."

Ye Feng nodded, knowing that he was not qualified to be a member of such a powerful force as the Northern Divine Academy.

Ye Feng said: "I am very satisfied to be lucky enough to practice in the Northern Divine Monastery, so where will I live next?"

Bai Susu said with a smile: "Although the Northern Territory Seminary is a large academy-type force, after all, all the genius disciples in it come from the vast starry sky of the entire Northern Star Territory, so there are also a lot of factional disputes. In order to prevent You were bullied, and you are currently living on my 'Sure Girl Mountain'."

"good."

Ye Feng nodded immediately without being polite.

Because it is safest to stay with Bai Susu now.

When his strength reaches a sufficient level, it is not too late to become independent.

Uh-huh!

At this time, Bai Susu and Ye Feng walked into the golden gate. This was the official internal area of the Northern Territory Seminary.

Buzz!

At this time, a golden disk-like flying magic weapon appeared under Bai Susu's feet. Ye Feng also stood behind Bai Susu, almost touching each other. Ye Feng could even smell the fragrance of Bai Susu's body.

However, Bai Susu's expression was normal, and Ye Feng was not in the mood to pay attention to this at the moment. All his attention was attracted by the surrounding scenery.

The entire Northern Territory Temple was extremely huge and the area was vast. At this time, the two of them were flying in the air, and Ye Feng saw a magnificent sight.

Surrounded by rolling green mountains, there are large waterfalls that roll down three thousand feet. There are also cranes as white as jade flying in the clouds and mist of the mountains. There are also various rare and exotic animals and auspicious creatures, such as golden dragons. Turtles, white jade unicorns, three-headed dragons, etc. are all lying down in the mountains, breathing in the essence of heaven and earth, and they are also practicing.

There are also countless ancient buildings, palaces, giant towers, and exquisite pavilions, interspersed among countless strange mountains and rocks, or floating in the clouds and mist, looming, and looking extremely magnificent.

At this moment, Ye Feng only felt that he had arrived at the interface of immortals and gods, and everything was incomparably majestic and vast.

"As expected of the golden power standing at the top of the pyramid in the Northern Star Region, the Northern Divine Academy is indeed as majestic and magnificent as the legend says. People can't help but admire the low-level star regions such as the Tiannan Star Region, the Lunar Star Region, etc. Compared to this place, it's extremely barren."

Ye Feng felt the powerful spiritual energy dispersed in the surrounding air, almost as if it was condensing into water. From this, it can be seen that the foundation of this Northern Territory Temple is simply a man-made paradise.

Even if you don't practice, you can prolong your life by staying here. Living for three to five hundred years is not a problem.

At this time, Bai Susu suddenly stopped flying.

At this time, the two stopped in front of a huge black gold iron tower that penetrated the clouds and reached the sky.

At this time, Bai Susu said to Ye Feng behind him: "Brother Ye Feng, please wait for me here for a while. I will go to this giant tower to hand over this inspection mission."

"good."

Ye Feng nodded.

Uh-huh!

Bai Susu jumped up and disappeared into the giant tower.

Ye Feng looked at the golden disk under his feet and was very curious.

This does not seem to be a magic weapon, but a condensed form of automatically formed flying energy.

"Boom!"

"Boom!"

Suddenly at this moment, a large group of people rushed over from a distance.

They were rich and handsome young men, all wearing white jade armor, holding white jade war spears, riding winged flying horses, a group of more than ten people, just heading towards where Ye Feng was at this time. Speeding in this direction.

"Junior brother in front, please get out of the way. Our temple guard team has an emergency and needs to rush to a place outside the temple immediately.

Perform missions in the sky! "

The captain at the front of the team saw Ye Feng standing there motionless and immediately shouted.

Ye Feng's eyes showed a hint of anxiety.

Because there is an extremely strong forbidden air formation in the entire Northern Divine Temple area.

Ye Feng left the golden disk that Bai Susu had condensed under his feet, and he would fall to the ground.

At this time, Ye Feng immediately said: "I can't fly in the forbidden air formation. Please ask all the brothers from the seminary to go around."

Ye Feng felt that his request was not too much, and the team of people could just go around it.

"Can't fly?"

The team's eyes immediately froze, and then the leader of the team sensed the aura of cultivation on Ye Feng's body. It turned out to be a small level of enlightenment, and had not even stepped into the most basic Pure Yang level of the Northern Divine Academy.

"So you are not a disciple of our Northern Divine Seminary. With such a low cultivation level, you are a slave of a certain disciple?"

The captain not far away immediately turned cold and said, "You're just a humble servant. If you don't want to jump, just die under our horses' hooves. I'm not willing to waste my time for a humble servant." OK."

The moment the captain finished speaking, Ye Feng's expression immediately changed.

Immediately, I felt a deep cold and shame in my heart.

This group of guards from the Northern Territory Temple simply regarded human life as nothing.

"Even if you are a slave, it is still a living life."

Ye Feng shouted loudly.

"Rumble..."

But the group of people in front, the members of the Pure Yang Realm Ninth Level Guards, did not stop at all. They did not bother to pay attention to a lowly existence that they regarded as a slave. They were about to rush over and crush Ye Feng at will. broken.

Chapter 1438 Divine Crystal

Boom!

A team of more than a dozen people rushed over immediately, with overwhelming pressure, as if they could crush everything, and they didn't care about Ye Feng's life at all.

At this time, Ye Feng was extremely shocked and angry, but he could not resist, because his cultivation level was too low in a place like the Northern Divine Academy. He was really a slave-like existence, extremely humble.

However, the disciples of the Northern Territory Seminary in that team were also ruthless and indifferent to life. Ye Feng was also a human race after all, but in the eyes of this group of people, he was like an ant that could be trampled on at will, just to save time on the road.

"Sure enough, the more vast and advanced the power, the more indifferent these people are to the common people."

Ye Feng couldn't help but say something silently in his heart.

But seeing an entire team about to trample them, Ye Feng was not frightened.

Because he had already sent a spiritual message to Bai Susu who was handing over the task in the giant tower.

"You are brave!"

Sure enough, at the next moment, accompanied by a woman's cold shout, Bai Susu's figure flashed to Ye Feng's side.

She suddenly burst out with a powerful aura that surpassed the Pure Yang Realm, directly knocking the entire team that was charging across the way to stagger.

"Plop!"

"Plop!"

The flying war horses with double wings all knelt down all of a sudden, feeling the majesty of the human race's super master.

As the flying war horses knelt down, each and every member of the escort team, who was originally a powerful guard, almost fell off their spears and could no longer maintain their previous demeanor.

"This is the aura of cultivation in the Broken Realm!"

"So powerful! He is a master in the inner court!"

At this moment, every member of the escort team, and even the leading captain, dismounted one after another, clasped their fists respectfully towards Bai Susu who was standing in front of Ye Feng, and said: "Greetings to Senior Sister! Please forgive Senior Sister, we I didn't know that this young man who was in the realm of enlightenment turned out to be a member of my senior sister, and he was so reckless just now."

When Ye Feng saw this scene, the members of the escort team who were originally indifferent to the common people immediately became so respectful, and their attitude suddenly changed 180 degrees.

"I still need to have strength. If I have the cultivation level of the Broken Realm, no, I don't need the Broken Realm. As long as I have the cultivation level of the Pure Yang Realm, they wouldn't have collided with me just now. Instead, they would be polite to me immediately. of."

Ye Feng thought secretly in his heart.

\u003e

The weak will be eliminated and the strong will survive. This law of the jungle is more vividly reflected in a behemoth like the Northern Divine Academy.

"Senior Sister, if there is nothing else to do, we will leave first."

At this time, the captain of the group of escorts spoke up and wanted to leave as soon as possible.

But Bai Susu was staring at the members of the escort team and said in an indifferent tone: "You almost crushed my brother Ye Feng. You just apologized and just wanted to walk away like this. Do you really think that I, Bai Susu, Is it a vegetarian? It's not that simple!"

"Bai Susu!"

At this time, a group of escort members heard this name, and their expressions immediately changed, as if they had thought of some rumors.

The captain of the guard team was a strong man in the ninth level of Pure Yang Realm. At this time, he immediately knelt down on one knee and said: "It turns out that Senior Sister is Bai Susu, one of the ten core disciples of the legendary inner courtyard! This time we are really too offended. Senior Sister, please "How can we compensate your brother?"

At this moment, many other members of the escort team looked at Ye Feng with a hint of fear and envy.

They were very envious that this little boy who was a first-level heavenly warrior in the Dao Enlightenment Realm and was worse than a slave had such a powerful sister like Bai Susu. He must be so lucky.

Ye Feng couldn't help but feel warm in his heart when he saw Bai Susu protecting his shortcomings.

The main reason why Bai Susu is so good to Ye Feng is that Bai Susu's life was almost given anew by Ye Feng.

If Ye Feng hadn't used the Divine Eye of Creation to discover an anomaly in an extremely ordinary bluestone in the demon world, cut out Bai Susu, and released her from history, I'm afraid Bai Susu would have been sealed there forever. A piece of bluestone will never see the light of day.

Therefore, Ye Feng is closer to Bai Susu than his biological brother.

Now that Bai Susu has the ability, she naturally spares no effort to help Ye Feng in order to repay her kindness. This is also the promise Bai Susu made to Ye Feng after she was cut out of the big bluestone.

Now Bai Susu really regards Ye Feng as his biological brother to protect him.

So Bai Susu was very angry at this time, because Ye Feng was almost trampled to death just now.

Buzz!

Bai Susu's body was filled with a strong cold murderous aura. She stared at the group of people in front of her and said, "One person contributes a hundred divine crystals and gives them to my brother Ye Feng. This is considered as apology."

"A hundred divine crystals?"

The moment Bai Susu finished speaking, the dozens of escort members present couldn't help but change their expressions.

Divine crystal is a rare and incomparable crystal formed by condensing the pure power of heaven and earth. It has been handed down from the legendary world of gods.

According to the general exchange rules in the entire cultivation world, one hundred divine crystals are worth nearly 100 million immortal crystals!

This is a huge fortune!

And the most important thing is that the divine crystal is priceless in the world of cultivation. It is a precious thing for warriors to practice. Everything contained in it is the pure power of divinity, which is more precious than the dragon blood crystal.

Even among the top gold powers in the Northern Star Region like the Northern Divine Academy, the amount of divine crystals is pitifully small.

Even the formal disciples of the outer academy receive no more than one divine crystal in cultivation resources from the seminary every year.

In other words, it would take an ordinary outer courtyard disciple a hundred years to accumulate one hundred divine crystals.

The dozen or so members of the escort team in front of them were all pure Yang realm cultivators, but they were just disciples of the outer courtyard.

Bai Susu's request was tantamount to asking them to hand over a hundred years of cultivation resources.

"this....."

A member of the escort wanted to say something.

"Pfft!"

But at this moment, Bai Susu directly released the Wheel of Judgment, cutting off the arm of the escort member in an instant. She said coldly: "Are you hesitating? You almost killed my brother, but now I haven't killed him." You guys are pretty good. How dare you hesitate to hand over a hundred years of cultivation resources? "

"ah!"

The guard member whose arm was cut off immediately said in horror: "I will give it! I will give it! Please forgive me, senior sister!"

This group of people have all heard of the name Bai Susu. She is a very powerful woman in the inner court. Although her beauty is stunning, she is also very strong in martial arts. Legend has it that during a mission, she brought down the people in the northern star field. The young demon lord of the overlord race, the Demon Clan, was almost killed.

Thinking of this, a group of escort members trembled.

them

He stood up immediately, endured the physical pain, took out a hundred years of cultivation resources, and delivered the divine crystals to Ye Feng's hands one by one, and then ran away in despair, not daring to say another word for fear of Bai Susu. Literally kill them all.

At this time, Ye Feng looked at the more than a thousand divine crystals in front of him. Each one was like the most perfect diamond, surging with an extremely precious divine power.

Ye Feng immediately said to Bai Susu: "I can't have these things, they belong to you, sister Susu."

Bai Susu stretched out her white hand, pushed back Ye Feng's extended palm, and said with a smile: "Take it, you deserve it, and your cultivation is weak now, so you need to strengthen it as soon as possible and improve it." Strength, accumulation of skills, so you need these more than a thousand divine crystals more than me. For me now, ordinary divine crystals are actually not of much use. Now that I have entered the broken realm, they all directly shatter the void. , absorbing high-level energy from countless high-level interfaces to practice."

When Ye Feng heard what Bai Susu said, he nodded and collected more than a thousand divine crystals.

And this encounter made Ye Feng even more urgent to improve his cultivation strength.

Ye Feng immediately said: "Sister Su Su, let's go back to your Su Nu Mountain as soon as possible. I need a quiet and safe place to retreat and practice immediately."

Bai Susu gave Ye Feng an appreciative look and said, "Okay, you have the determination to practice hard and become stronger. It's worth bringing you to the Northern God's Temple. I believe you will be able to shine in the Northern God's Temple in the future. Brother Ye Feng, when your cultivation is sufficient, I will introduce you to a martial arts partner with a good background and appearance."

Ye Feng scratched his head and said: "Martial arts partner? Let's wait for this. I don't need it now. I just want to improve my strength quickly."

Bai Susu smiled slightly and said: "Okay, a manly man has no ambition other than the love of his children."

Uh-huh!

The next moment, Bai Susu stretched out her jade-like hands and grabbed Ye Feng's shoulders. In one jump, she had crossed thousands of mountains and rivers, passed through countless buildings, and arrived in front of a huge mountain peak in an instant.

This mountain peak turned out to be a ring-shaped mountain peak, with a majestic palace made of amethyst in the middle, suspended high in the sky, surrounded by clouds and mist, and cranes flying. It looked like a palace in the Nine Heavens, with a noble aura.

This is Sonu Mountain!

Chapter 1439 The ruthless character

At this time, Ye Feng looked at the majestic round Sunu Mountain, with an extremely majestic palace suspended in the middle, like a celestial palace, and felt a trace of envy in his heart.

Being able to have an independent mountain peak of your own in a place like the Northern Divine Monastery where every inch of land is precious is really a very luxurious thing and represents a distinguished status.

At this time, Bai Susu took Ye Feng and flew to Sunu Mountain. Ye Feng saw that in addition to the purple crystal palace suspended in the middle, there were other stacked buildings on the surrounding ring peaks.

In addition, there are many little demons with low cultivation level on many mountain peaks, fertilizing the exquisite medicinal fields.

"Those are the little demons who take care of the spiritual field for me. Their cultivation level is similar to that of Brother Ye Feng. If you have nothing to do, you can ask them for some martial arts

training. They have been in the Northern Divine Academy for a long time, and their understanding of martial arts may be better than that of Ye Feng." Brother, you still have to be taller."

At this time, Bai Susu smiled and said: "Because I am one of the ten core figures in the inner courtyard. In addition to my daily retreat practice, I also have many other tasks. I am very busy. I may not have time to personally guide your practice, brother Ye Feng." "

Ye Feng immediately said: "Sister Su Su has done enough. I don't dare to ask for anything else. Sister Su Su can take me to the Northern Divine Temple so that I can practice in this supreme power." , this is already my greatest honor, I will work hard on my own practice."

"good."

Bai Susu smiled and waved her snow-white hand, and a light blue jade plaque floated and landed in front of Ye Feng.

Ye Feng looked at this jade plaque, which had the word "Su" carved on it.

Bai Susu explained: "This is my identity token. In the future, if you encounter anyone who bullies you in the Northern Temple, you will show this token. In addition, you will hold this identity token. You can walk freely in all the territories and peaks around my Sonu Mountain, and even order the little monsters who cultivate medicine fields and do odd jobs."

Ye Feng's eyes were filled with joy. He didn't expect that this jade token could have such a powerful effect.

The little monsters who cultivate the medicine fields are said to be little monsters, but in fact, some of them have even stronger cultivation skills than Ye Feng himself.

With this identity token, Ye Feng has become the emperor of the entire Sunu Mountain.

"I'm going to practice. You can find a place to stay nearby. There are many pavilions and palaces in the entire Sunu Mountain Range that no one has ever lived in. You can just choose any one."

At this time, Bai Susu said and jumped directly. Her graceful and beautiful figure had turned into a divine light and entered the suspended amethyst palace in the center of Sunu Mountain.

There is the most noble place in the entire Sunu Mountain, including the surrounding mountains. It is Bai Susu's palace and no one can enter it.

Even Ye Feng now is not qualified to enter Bai Susu's palace.

But you can get it

Seeing Bai Susu's identity token already made Ye Feng very satisfied.

Ye Feng held Bai Susu's identity token in his hand and flew towards the mountains around Sunu Mountain.

Several mountains around here belong to Bai Susu's territory.

Ye Feng did not expect that Bai Susu's status in the Northern Divine Academy was still very high and she had many privileges.

It is estimated that the reason why I can stay in this Northern Territory Temple is because the upper levels of the temple look out for Bai Susu. Otherwise, it would be impossible for a small first-level Heavenly Warrior like me, an ant-like being, to enter the Northern Territory. In the Domain God's Temple.

At this time, Ye Feng used the Divine Eye of Creation and quickly found a small mountain peak with the strongest aura.

"This is it."

Ye Feng saw that a pavilion was built on the top of this small mountain peak, which was just suitable for him to live and practice.

"Young man who belongs to the first level of the Dao Realm, who are you? Are you the master's new slave?"

Suddenly, at this moment, several burly men walked up from the hillside of the small mountain and stared at Ye Feng with a look of eagerness.

Owner?

It should be referring to Bai Susu.

Ye Feng looked at these big men. They all exuded strong demonic aura. It seemed that they were all transformed from the demon clan.

These big men from the monster clan, with strong waists and strong backs, are all at the Proving Dao Realm. One is at the third level of the Proving Dao Realm, and three are at the fourth level of the Proving the Dao Realm. They are already very powerful.

But Ye Feng smiled slightly at this time, flashed the light blue jade token in his hand, and said: "Look, this is the identity token your master gave me. I own this identity token. Where do I want to settle?" , where to settle."

A big demon man in black clothes immediately said coldly: "How do I know whether the light blue jade token in your hand is real or fake?"

Next to him, another demon man showed a trace of greed in his eyes and said: "Brother, maybe this human boy's token was stolen. Let's take action quickly and snatch the token from his hand. From now on, all the plain girls will Aren't we the king of this mountain range?"

"Snatch my token?"

Ye Feng heard the words of these monster clan men and immediately understood.

These big monster men want to occupy the magpie's nest.

"Hahaha!"

Ye Feng immediately laughed out loud, and then his eyes became extremely cold and said: "Get away quickly, or I will kill you all, and your master will not blame me at all."

"Young man is arrogant!"

Several big men from the demon race immediately shouted loudly: "Let's take action together! Seize the token from this boy's hand. He is a small boy of the first level of the Proving Dao Realm. He cannot be someone close to the master. He must be just a person." The master's servant."

"presumptuous!"

Ye Feng also shouted in a loud tone: "Since you want to die, then I will help you. It just so happens that my cultivation is weak. Killing and devouring you will also help me quickly accumulate skills and become an official disciple of the Northern Divine Academy." Require."

boom!

Ye Feng took action in an instant, with a punch without any pretense, directly aimed at several monster men in front of him.

"Boy, you are only at the first level of the Dao Realm, how can you fight with us? You are just asking for your own death!"

"Yes! Let's take action together and quickly destroy this boy. Sparing him a life can be regarded as an explanation to the master."

"A lowly slave dares to fight with the leaders of our three demon clans. He is really bold!"

Several monster clan men took action one after another, and each one released billowing monster energy, full of monstrous power.

"boom!"

"Pfft!!"

But at the next moment, Ye Feng punched through the chest of a big man from the third-level Demon Clan of the Proving Dao Realm, breaking his heart.

"ah!"

The monster man screamed, his burly body fell to the ground, and he died immediately.

"What?"

"so smart?"

Several other big men from the demon clan turned pale with fright.

I didn't expect this ordinary-looking human boy to be so powerful.

"Join forces! Sacrifice our monster treasure!"

Several big men from the demon clan spat out a mouthful of blood essence, and sacrificed a demon clan weapon that looked like a full-moon scimitar. It exuded strong demonic power and flew towards Ye Feng, making "woo woo woo" sounds in the air. "The sound sounded like a demon roaring.

"Galaxy Holy Mirror!"

Ye Feng also sacrificed his treasure, the Holy Mirror of the Galaxy, which is a sixth-grade Taoist god-level magic weapon.

Among the disciples of the Northern Territory Seminary, he may be nothing, very ordinary.

But among the group of slaves and attendants in Sonu Mountain, they are definitely considered powerful treasures.

"boom!"

"Crash!"

A heavy galaxy, exuding dazzling light, rushed out of the Galaxy Sacred Mirror in an instant, like a Galaxy Sacred Dragon smashing down.

"Crack!"

The demon soldiers sacrificed by those demon clan men were immediately bombarded and shattered into pieces.

\u003c

br\u003e "What?!"

Several big men from the demon clan were immediately shocked.

They knew they had hit a brick wall.

But now it's too late to know.

"A bunch of little demons dare to act recklessly in front of me. Let them all die!"

Ye Feng grabbed it with his big hand, and a palm condensed with the light of chaos appeared, crushing all the remaining demon clan men on the spot.

"hiss!"

In the surrounding mountains, many other Bai Susu's demon slaves, human attendants, etc. saw this scene from a distance and couldn't help but gasp.

"This young attendant brought back by the master this time seems to be a ruthless character."

Many of the servants and attendants in the peaks and mountains around Sonu Mountain couldn't help but feel secretly shocked at this time.

At this time, Ye Feng directly released the Devouring Domain, swallowing and refining all the blood essence of several monster men.

"boom!"

His cultivation level instantly broke through to the next level.

Stepped into the second level of the realm of enlightenment!

I have also picked up all the storage rings, and there is still a lot of wealth in them, which can be regarded as an unexpected fortune.

Ye Feng looked at the other surrounding mountains and mountains at this time, and noticed the fearful eyes of many other slaves and attendants in the Sunu Mountain area.

"It seems that I did the right thing. This time I took action ruthlessly and decisively, making everyone fear me. No one will dare to bother me anymore."

Ye Feng thought in his heart, and then walked into the pavilion on the small mountain peak.

Now he finally has time to practice and accumulate in seclusion.

At this time, Ye Feng was alone and walked into the underground training chamber of the pavilion.

With a thought, the storage ring flashed with light.

Uh-huh! Uh-huh! Uh-huh!

Many things suddenly appeared in front of him.

Ask about the bodies of the ancestors of Cangsheng and Xinghe, as well as the head of a huge ancestral dragon that Bai Susu chopped off from the Dragon Realm in the Tiannan Star Territory.

In addition, there are also many reward resources that Ye Feng received from the Galaxy Holy Land.

These reward resources were given to Ye Feng by the Lord of Galaxy before he left, in order to provide Ye Feng with some help.

"Start devouring!"

Ye Feng took a deep breath, and then directly released the Devouring Domain.

The entire underground training chamber was immediately enveloped by an endless whirlpool of darkness.

Ye Feng was in the center of the dark whirlpool and was infused with huge amounts of energy.

His skill and cultivation are improving at an extremely fast rate!

Chapter 1440 Bai Xiaohua

There are no years of cultivation, and there are no armors in the mountains.

In the dark underground training chamber.

Ye Feng didn't know how long he had been practicing in seclusion.

He entered a deep state of cultivation and only knew how to continuously devour resources, continuously strengthen his own cultivation, and continuously accumulate huge skills.

Finally on this day.

Everything in front of Ye Feng was swallowed up and turned into ashes.

At this moment, Ye Feng's body was filled with an aura that was far more terrifying than before.

That's the terrifying fluctuation in cultivation level at the sixth level of the Dao Enlightenment Realm!

Ye Feng's cultivation level, after devouring all the resources, directly broke through the fourth level of heaven, from the second level of Proving the Dao Realm to the sixth level of the Proving Dao Realm!

At this moment, Ye Feng's eyes were shining with an unprecedented bright light.

The main reason why I was able to break through so much this time was because of the ancestral dragon's head.

That was the head of an ancestral dragon at the Pure Yang level, containing extremely rich dragon power energy essence.

At this time, Ye Feng did not leave the secret training room, but took out the more than a thousand divine crystals he had obtained before.

Ye Feng tried to absorb a divine crystal, but found that he could not absorb the divine power from it.

"My current cultivation level seems to be unable to absorb the divine power in the divine crystal. Do I need to enter the pure Yang realm to absorb the divine crystal?"

Ye Feng's eyes flashed slightly, and then he put away more than a thousand divine crystals again.

In any case, these more than a thousand divine crystals will be his most important cultivation resource after entering the Pure Yang Realm.

But now that Ye Fengxiu has reached the sixth level of the Enlightenment Realm, it is impossible for him to improve himself through meditation.

Because Ye Feng's inheritance is so special, his body is like a bottomless pit, and he only relies on meditating and practicing by himself. He doesn't know that he will have to practice until the year of the monkey to reach the next level.

Therefore, Ye Feng knew very well that when he chose to awaken his body and bloodline, practice the Chaos Heavenly Emperor Art, and embark on the path of the Heavenly Emperor, he was destined to grow rapidly in battle, blood and fire.

However, although breaking through is countless times more difficult than for normal people, once Ye Feng breaks through, his combat power will be invincible at the same level!

So far, except for asking Cangsheng, who is more difficult to deal with, Ye Feng has really never encountered anyone who can compete with him in the same realm.

But now we have arrived at the top golden power in the Northern Star Territory, the Northern Territory Divine Academy.

Among such behemoths who stand at the top of the universe, Ye Feng knows that he must remain humble and cautious.

Because this is where young prodigies and older superpowers from the entire Infinite Northern Star Territory gather.

"No matter what, I want to quickly improve my cultivation strength and strive to enter the Pure Yang Realm as soon as possible. As long as I achieve the Pure Yang Realm's cultivation, I will be able to be certified as an official disciple of the Northern Divine Academy. Then I will not only be able to enjoy For the benefit of the disciples of the seminary, I can also have my own upright disciple status, instead of being just a servant in the eyes of everyone. "

Ye Feng thought secretly in his heart, he took out the holy

The ship of virtue is constantly refining and tempering with spirit and magic.

At this time, Ye Feng's most powerful trump card is this sage's ship.

The Ship of the Sage is a ninth-grade Taoist-level magic weapon, and it is left behind by the ancient saints. It is contaminated with the will power of the ancient saints. It is much more powerful than the ordinary ninth-grade Taoist-level magic weapon, and is almost comparable to the transcendent Taoist-level magic weapon. 'Dao level' magic weapon.

Therefore, if the Sage's Ship is completely refined, Ye Feng's overall strength will also be greatly improved.

"The Sage's Ship can be used as a trump card. Otherwise, it will arouse the greed of some seminary disciples, which will be troublesome. At present, it is better to use the Galaxy Holy Mirror."

Ye Feng silently planned in his heart.

After refining the Sage's Ship for a while, Ye Feng took out a bright yellow war sword from the storage ring, with dragon patterns carved on the sword body.

This is the Ancestral Dragon Emperor Sword that Ye Feng found from the storage ring of Wen Cangsheng. It was refined by a great master in the dragon world using the horns of the Ancestral Dragon. It is of a very high grade and has the Ancestral Dragon when using it. The burst of power is very powerful. It is a magic weapon of the same level as the Galaxy Sacred Mirror, ranking at the sixth-grade Taoist level.

The Holy Mirror of the Galaxy is mainly a powerful magic weapon, and its offensive power is not very strong, but this Ancestral Dragon Emperor Sword makes Ye Feng very fond of it.

Ye Feng tried to refine the Zulong Emperor Sword into his own Invincible Sword Domain, but found that the level of the Invincible Sword Domain was already too low, and the secrets could no longer accommodate powerful swordsmen like the Zulong Emperor Sword.

This is a pity for Ye Feng. After all, Invincible Sword Domain, a very rare set of kendo martial arts, has helped Ye Feng overcome many difficulties and burst out with powerful attack power.

But now as Ye Feng's cultivation and style improve, many martial arts schools are gradually unable to keep up with Ye Feng's pace.

"Unfortunately, although I am currently in the Northern Territory Seminary, I am not an official disciple of the Northern Territory Seminary. I cannot enter the martial arts hall in the Northern Territory Seminary to learn the top inheritance in the starry sky."

At this moment, Ye Feng is refining the Ancestral Dragon Emperor Sword while practicing the advanced technique inherited from the common people, the Dragon Soul Emperor Technique from the ancient dragon world.

Ye Feng practices the Chaos Heavenly Emperor Technique and follows the path of the Heavenly Emperor. His body is like a big oven that can accommodate energy of any attribute in the world, and his martial arts secrets are also like a melting pot, allowing Ye Feng to practice various techniques. , without causing the consequences of conflicts between different attribute powers.

Wen Cangsheng's Dragon Soul Emperor Skill is an inheritance that is matched with the Ancestral Dragon Emperor Sword. Now it has been obtained by Ye Feng. After starting to practice, he will be able to explode with super power.

"It's a pity that the Ten Thousand Dragon Armor that Wen Cangsheng was wearing before was shattered, otherwise it would be a good thing. It is more valuable than my set of five-clawed golden dragon scale armor."

Ye Feng thought secretly in his heart and once again fell into a state of cultivation.

...

A month later, Ye Feng walked out of the underground training room.

At this moment, when he was walking, his whole body was filled with emptiness.

There seemed to be a faint roaring sound of bright yellow dragon souls.

This is a sign that the Dragon Soul Emperor Kung Fu has been cultivated to great success.

Moreover, Ye Feng was carrying the Ancestral Dragon Emperor Sword on his back. The golden battle sword was engraved with dragon patterns, giving people a sense of nobility.

With the Soul Gem, the most mysterious gem among the gods, in his mind, Ye Feng's comprehension ability is definitely at the level of a monster.

"Now I only got two God's Gemstones, the Soul Gem and the Space Gem. There are nine God's Gemstones in total. I wonder where the other seven God's Gemstones are?"

As he practiced, Ye Feng felt more and more that every gem of the gods was a priceless treasure.

If all nine gems of the gods are obtained and developed, then he may be able to immediately grasp the majestic power of the ancient gods.

Now that Ye Feng has come to a powerful force at the pinnacle of the starry sky, such as the Northern Divine Academy, he has begun to search for the gems of the gods attentively.

After all, Ye Feng is now equivalent to being in the top group of powerful forces in the entire universe.

What he came into contact with was a vast world of practice that was completely unimaginable before.

"Now that I have used up all my cultivation, I have to ask Sister Su Su to recommend a place in the starry sky surrounding the Northern Divine Monastery that is suitable for me to find opportunities."

Ye Feng is very cautious. At present, his cultivation level is still low and he doesn't dare to run around by himself.

So his first thought was to seek help from Bai Susu.

However, when Ye Feng arrived at the base of the circular peak at the center of Sonu Mountain, he saw that the amethyst palace suspended in the air had disappeared.

"What's happening here?"

Ye Feng couldn't help but be stunned.

Bai Susu's bedroom has disappeared?

"You are Ye Feng, right?"

Suddenly at this time, a light female voice sounded.

Ye Feng turned around and immediately saw a graceful young woman wearing a flowing fairy dress with wide sleeves standing behind him.

This young woman's face is covered with a light cyan veil, but her beautiful and delicate face can also be seen.

Ye Feng was a little confused and didn't recognize the woman in front of him, so he couldn't help but ask: "Who is the girl?"

"My name is Bai Xiaohua, just call me Hua Girl."

The graceful young woman spoke up, with a hint of smile in her beautiful eyes, and said: "I, like the leader Bai Susu, come from the Yu clan in the fairy world and have the blood of the fairy clan. She and I are from the same clan, but she is a Yu clan. The clan leader, and I am the Saint of the Yu Clan, the candidate for the next generation of the Yu Clan's clan leader. But like the clan leader, I am not interested in the position of clan leader, so I came to this vast Northern Territory Temple with the clan leader. "

Ye Feng heard this and immediately asked: "Is the painting girl a disciple of the Northern Divine Academy?"

Bai Xiaohua said with a smile: "I am currently half a step into the Pure Yang realm and have not really entered the Pure Yang realm, so

I am not yet a disciple of the Northern Divine Seminary. I am temporarily in the Sunu Mountain area, as the patriarch's assistant, helping her manage the daily operations of the entire Sunu Mountain. After all, the patriarch is the top ten core disciples of the inner courtyard of the Northern Divine Seminary. Cultivation and improving strength are top priorities, and the tasks are also complicated. There is no time to manage these trivial matters. "

Ye Feng nodded and said, "So, Sister Susu has gone out to perform a mission."

Bai Xiaohua said: "That Amethyst Palace is not only the clan leader's palace and residence, but also a very powerful magic weapon. It is a Dao-level magic weapon that surpasses the Taoist level. It is not low-grade and has terrifying power. This time The clan leader may have encountered a very difficult and dangerous task, and even the Amethyst Palace was taken away. "

Speaking of this, Bai Xiaohua's delicate eyes stared at Ye Feng and said: "The patriarch values you very much. She asked me to take good care of you before she left. What's the matter with you coming to the patriarch this time? Just tell me."

Ye Feng nodded immediately and said: "I want to ask, in the starry sky around the Northern Divine Monastery, where is a place that is more suitable for my current cultivation experience? I am very lacking in training resources, so I want to get out of the Northern Divine Monastery. Let's look for opportunities."

Bai Xiaohua heard the words, stared at Ye Feng, and said: "Your cultivation level really needs to be improved, otherwise you will only be a hindrance to the patriarch in the Northern Territory Temple, unless you just want to stay in this plain girl mountain for the rest of your life. Enjoy."

Ye Feng shook his head and said: "Of course not. Sister Su Su and I came to the Northern Divine Seminary with the goal of becoming official disciples of the Northern Divine Seminary, and even strive to become our own disciples in the Northern Divine Seminary in the future. A piece of heaven and earth."

"very good."

Bai Xiaohua showed a beautiful smile and said: "I just want to take a group of attendants from Sunu Mountain to go out to practice, and by the way, I will search for some starry sky mineral deposits for Sunu Mountain and cultivate spiritual materials in the medicine field, so this time you can stay with me, and I can protect you personally. The clan leader treats you as his own brother."

Ye Feng's eyes were filled with joy and he said: "That's great. It's an honor for me to be with a half-step Pure Yang Realm master like Hua Girl."

Bai Xiaohua couldn't help but roll his eyes at Ye Feng and said, "You are so smooth-tongued. I wonder if the clan leader was coaxed by you to treat you so well."

Hearing this, Ye Feng couldn't help but want to explain something, but Bai Xiaohua waved his hand and said: "Let's go directly, don't waste time."

Buzz!

At this time, Bai Xiaohua took out a large starship from the storage ring, which could accommodate hundreds of people. She jumped up and said to Ye Feng: "You come up too, let's gather hundreds of people." The attendant in the female mountain then set off to a starry sky mine outside the Northern Temple."

Ye Feng jumped up and asked in surprise: "Has the painting girl been to the starry sky mine?"

Bai Xiaohua smiled and said: "I've never been there, but the clan leader gave me the coordinates of the starry sky mine before he left. We can just follow the starry sky map. It's not far from the North Territory Temple. Don't worry. , there will be no dark race or demon clan in the starry sky. The starry sky mineral deposit is located in the hinterland of an abandoned small interface. When the time comes, Ye Feng, you can go to that small interface to find cultivation resources. "
