

## Ancient 1441

Chapter 1441 The ruined imperial city

Under the leadership of Bai Xiaohua, Ye Feng himself said no more and just followed behind the saint of the Feather Clan in the Immortal Realm.

Bai Xiaohua drove the huge starship and selected hundreds of well-qualified and physically strong attendants in the Sunu Mountain area, including humans, monsters, and various other races, such as elves, angels, Immortal clan, etc., countless.

After all, the Northern Divine Temple is the pinnacle golden power in the northern star region of the entire universe.

Creatures from countless star fields and countless races have all gathered here.

But the only thing that doesn't exist is the demon clan.

No matter what kind of demons they are, the starry sky demons, the heavenly demons, the hell demons, etc., in the Northern Divine Academy, they are the enemy and a taboo race.

This is very easy to understand, because for all the living creatures in the perfect world of the second universe, the demon race is a malignant tumor in the starry sky of the entire universe, and everyone can kill it.

The human forces that practice demonic ways are also recognized enemies of the Northern Divine Academy.

Therefore, in front of the top cosmic forces where the Northern Divine Academy is located, the righteous path and the evil path are very clearly distinguished.

This afternoon.

"Boom!"

The huge starship, carrying hundreds of attendants and slaves from Sunu Mountain, instantly rushed out of the suspended continent where the Northern Temple was located and entered the boundless starry sky territory.

At this time, hundreds of servants were standing on the plywood of the huge starship, all staring at the vast starry sky with a hint of excitement in their eyes.

Many of them are attendants selected by Bai Susu from the vast continent where the Northern Divine Temple is located, so they have never left the Northern Divine Temple in their lives and have been slaves and maids.

This time they just had the opportunity to enter the starry sky and take a good look at this vast world.

Ye Feng was sitting in a corner of the starship, breathing silently, not missing any time or opportunity to practice.

Because the starry sky universe where the Northern Divine Temple is located is the top starry sky area in the entire universe. The energy in the heaven and earth universe is very abundant, which is of great benefit to the cultivation of warriors.

The graceful figure of Bai Xiaohua, the great steward of Sunu Mountain, stood at the front of the starship, with his hands behind his back, looking into the distance, giving him a sense of isolation and independence.

Obviously, this fairy woman who comes from the fairy world like Bai Susu has very extraordinary methods. She definitely has a big secret hidden in her body and has her own trump card.

But this is also very normal. Being able to enter the Northern Divine Monastery, even as an attendant to serve some senior disciples, is not easy. Each one has their own tricks.

Ye Feng didn't care so much. In any case, with the relationship between Bai Susu and himself, Bai Xiaohua would definitely not treat him badly.

The starship was very fast, traveling through a vast expanse of starry sky.

Everyone looked behind them and could no longer see the vast continent where the Northern Divine Academy was located, which was comparable to the top interface.

At this time, the starship finally stopped.

In the depths of the starry sky ahead, a small interface floats, surrounded by a spherical interface barrier. From a distance, it looks like a huge planet, but when you get closer, you find that the spherical shape is an interface barrier. It was a small interface. Ye Feng made a preliminary estimate that it was about the same size as the spiritual world he was in back then.

"boom!"

At this time, Bai Xiaohua suddenly activated an attack formation on the starry sky ship. A strong purple-blue light beam burst out from the starry sky ship in an instant, and suddenly bombarded the interface wrapped around the small interface in front. On the barrier.

The interface barrier is composed of a very special interface power, which is as strong as divine iron.

Sample.

Ordinary people cannot get close, otherwise they will be crushed to pieces by the majestic power of the interface barrier.

This also made Ye Feng give up the bold idea of using God Clan gloves to extract the original attributes in the interface barrier.

At present, my cultivation strength is still relatively low, so it is better to play it safe.

"Click, click..."

Under the attack formation of the starship, the interface barrier of the small interface suddenly cracked with a slight crack.

"Uh-huh!"

Bai Xiaohua took advantage of this moment and directly activated the entire starship, passing through the crack in the interface barrier and entering the inner space of the interface barrier.

At this time, the huge starship was floating in the sky thousands of feet above the small interface.

Everyone looked down and found that the entire interface was devastated, the mountains, rivers and rivers were all dried up, and countless ancient buildings were destroyed, leaving only broken walls and ruins, telling the story of a glorious civilization history back then.

Even Ye Feng couldn't help but stand up and looked at the small interface below, feeling a sense of desolation.

Bai Xiaohua said: "This small interface once gave birth to an extremely glorious cultivation civilization, but it was destroyed by the demons. All of you remember, if you encounter the demon clan, especially the demon clan, if you fight However, you must run away quickly, and if you can survive, kill them immediately! The demon clan, especially the demon clan, is a cancer in the entire universe! The forces that practice demons are also our Northern Divine Academy! enemy!"

"we know!"

A group of attendants and slaves on the starship all responded one after another.

"The demon clan, the demonic forces..."

At this time, Ye Feng muttered.

It seems that this heavenly demon clan is a very powerful cosmic demon clan and is the mortal enemy of the Northern Divine Academy.

Moreover, in the entire northern star region of the universe under the rule of the Northern Divine Academy, there are still very powerful demonic forces that even the Northern Divine Academy cannot completely eradicate.

Uh-huh!

At this time, Bai Xiaohua activated the starship and immediately landed on the small interface below.

This is a desolate Gobi desert, the earth is red, the sky is gray, there is no sun, the ground is full of abandoned gravel, the soil is dry, and there is no life.

At this time, Bai Xiaohua said: "Everyone come down from the starship. There is a mineral deposit under the ground. I need you to use all your strength to dig it out, then store it in the starship and bring it back to Sunu Mountain for cultivation. Spiritual Medicine Field, this is your most important task this time, you can't be lazy in any way, understand?"

"Yes, butler!"

All the attendants and slaves spoke out one after another.

Bai Xiaohua was very satisfied, nodded and said: "If you complete the task successfully, I will reward you heavily."

"Wow!"

A group of hundreds of attendants, all with excited eyes, picked up the magical tools and hoes one by one, and began to dig into the ground of the entire Gobi Desert, digging towards the rare soil mineral deposits underneath.

At this time, Ye Feng also walked down from the starship, looked at Bai Xiaohua, and said, "Girl Hua, I'm leaving first and go to this small interface to search for resources."

Bai Xiaohua smiled slightly and said: "Okay, be careful. We will dig here for about a month. After a month, I will wait for you here."

Ye Feng nodded immediately and said: "Okay, one

I will be back in the moon. "

Uh-huh!

After the words fell, Ye Feng jumped up and left this desolate Gobi area.

He had previously used the Divine Eye of Creation when the starship landed on the earth. He overlooked the entire small interface on the starship and had deeply imprinted in his mind the locations of the entire small interface that might contain cultivation resources.

So Ye Feng's direction was very clear at this time, and he quickly rushed towards the center of this small interface.

Soon Ye Feng passed through the devastated land and was completely far away from the desolate Gobi before.

At this time, Ye Feng was standing outside a dilapidated imperial city.

The tall walls outside the palace have all collapsed.

The buildings inside were all in pieces.

Even the palace in the center collapsed and its jade pillars were broken. .??.

Obviously, this was once an extremely prosperous imperial city, but now it has indeed become a pitiful and dilapidated place.

What surprised Ye Feng was that there were no bones or any life energy in the entire ruined imperial city.

However, Ye Feng sensed a faint devilish aura at this moment. This devilish aura was different from ordinary devilish aura. It was an advanced but evil aura. It was no longer a simple devilish aura, but an evil spirit.

"Bai Xiaohua even let me feel this kind of aura on the starship before. It's the aura of the demon clan!"

Ye Feng was shocked. Could it be that the destruction of the entire small interface was really caused by the Heavenly Demon Clan? A strong man from the Heavenly Demon Clan once came here and brought destruction and disaster.

After thinking for a while, Ye Feng no longer hesitated and stepped directly into the vast ruined imperial city in front of him.

Buzz!

At this moment, Ye Feng released his soul power, and the soul power of the 1,030th level spread out, only covering less than 1% of the entire ruined imperial city.

This shows how vast this ruined imperial city is.

"This place is nice, and there are still a lot of magic weapon fragments left. It seems that there was a thrilling battle that year, and many traces were left behind."

Ye Feng's soul power covered it and he immediately found a lot of magic weapon fragments. These magic weapon fragments were all of high grade.

If ordinary practitioners found these fragments of magic weapons, they would definitely not bother to pay attention to them.

After all, no matter how advanced the magic weapon is, once it is broken, it will be of no use.

Unless some weapon refiners can recycle the fragments of the magic weapon into a furnace, it doesn't make much sense.

Because magic weapons are spiritual weapons, just like humans, once the body is broken, they immediately lose their spirituality and are of little use.

And this may be the reason why there are still so many high-level magic weapon fragments remaining in this ruined imperial city.

But Ye Feng's eyes were shining. From these high-level magic weapon fragments left over from the ancient wars, he could use the God Clan gloves to extract the power of various original attributes from them.

"These are all left over from the ancient wars, and there are even fragments of advanced weapons from the demon clan, the overlord of the starry sky, such as the Sky Demon Clan. They are a great supplement to my Chaos Body!"

Ye Feng's eyes shone, and he immediately began to collect these magic weapon fragments and put them all into his storage ring.

Now Ye Feng's chaotic body has entered the second heaven, the tenth level of Dzogchen.

There is only one step left to transform into the third heaven.

Perhaps Ye Feng can rely on these high-level magic weapon fragments to completely enhance his body constitution to another level, completely transform into the third level of the Chaos Body, and once again awaken a monster's bloodline talent!

However, time is limited, Ye Feng only has one month.

He did not waste time extracting it now, but collected all the high-level magic weapon fragments in the entire ruined imperial city and put them into his storage spirit ring.

This process took Ye Feng nearly three days and three nights.

Ye Feng continued deep into the imperial city and came to the palace.

"Generally, there are dynasty treasures hidden in the palaces of such ancient dynasties. I wonder if the Demon Clan did any careful searching when they faced destruction and disaster."

Ye Feng secretly thought in his heart, searching the dilapidated and deserted palace inch by inch with his soul power, refusing to let go of any corner.

"boom!"

But suddenly at this moment, a medium-sized starship suddenly appeared in the sky above the ruined imperial city, and suddenly landed on the ground of the ruined imperial city.

"Um?"

Ye Feng's soul power immediately sensed the change, and he immediately hid behind a ruined wall in the palace, looking towards the direction of the starship's landing.

The people in the starship did not notice Ye Feng because Ye Feng hid very quickly.

"Wow!"

At this time, the hatch of the starship opened, and six people walked out of it.

The cultivation auras of these six people were all from the third level of Pure Yang Realm, and they were very powerful.

"Who are these people?"

Ye Feng hid behind the ruins of the wall and looked at the faces of these six people. He recognized them immediately. These six people were actually the same ones who were riding flying horses in front of the giant tower of the Northern Territory Temple before and almost killed them. The members of the escort team that he crushed to death.

However, the captain of the escort team, a strong man from the ninth level of the Pure Yang Realm, was not on the starry sky ship at this time.

At this time, beside the starry sky ship, six members of the guard team from the third level of Pure Yang Realm began to discuss.

"It's true that the captain actually asked us brothers to go all the way to such a desolate place to kill that slave boy under Bai Susu."

"That Ye Feng is not a slave, but Bai Susu's godbrother. Bai Susu loves him very much."

"Anyway, we got the news that Ye Feng came here with a group of people from Sunu Mountain to collect mineral deposits. We not only have to kill Ye Feng, but also everyone. We must not let this news be exposed. "

"Yes, that Ye Feng really dared to accept more than a thousand divine crystals from our escort team. He was really bold. This time we not only have to snatch back the more than a thousand divine crystals, but also severely punish that boy. Torture to death!"

"Stop talking nonsense, quickly identify the direction, go to the group of people in Sunu Mountain, try to kill them all, and then pretend that it is the work of the Demon Clan."

At this time, a group of six escort members were discussing, with murderous intent in their tone.

"What?"

Ye Feng, who was hiding behind the ruins, heard the conversation of these people and his expression immediately changed.

This group of people actually targeted me. Even when I followed Bai Xiaohua and the others to this small interface, they followed me directly, trying to take back the more than a thousand divine crystals on my body, even to prevent the news from leaking out. , and prepared to destroy everyone!

#### Chapter 1442 Imprisoned

The members of the six escort teams are all strong men in the third level of Pure Yang Realm.

These six people came to this small interface at this time, which can be said to be a huge disaster.

Ye Feng knew very well that even Bai Xiaohua was only half-step into the Pure Yang realm and was no match for a member of the guard team.

Not to mention, a total of six members of the escort team arrived at this time.

However, these six people all came because of the more than a thousand divine crystals in their bodies.

Ye Feng knew that this was the enemy he had attracted.

You need to deal with it yourself.

"Fortunately, the captain of the Pure Yang Realm Ninth Level Guard Team did not arrive. Maybe the captain was afraid that his whereabouts would be noticed by others, so he only sent six members with lower cultivation levels to come here. However, this is also very important. Tricky."

At this time, Ye Feng was hiding behind the ruins of the wall, staring at the six masters of the escort team, and was quickly thinking about countermeasures.

At this moment, the six masters of the escort team seemed to have discussed something and began to set off and lurk in a certain direction.

They were just lurking in the direction where Ye Feng came from before.

In other words, these six masters of the escort team are now ready to take action in an attempt to wipe out all the people arriving at Sonu Mountain.

"We can't let them leave."

Ye Feng thought of a good idea in an instant.

Although he can't kill these master guards now, he can control them all.

After his cultivation strength increases, it will not be too late to kill them.

It was very easy to trap these elite guards, and Ye Feng immediately thought of a way.

At this time, he released the Sage's Ship in an instant, and then quickly enlarged the Sage's Ship in the ruined palace, and let the entire hull bloom with bright divine light.

Sure enough, at the next moment, the six masters of the escort team who were preparing to leave not far away suddenly noticed the fluctuation of spiritual energy in the direction of the palace.

They instantly turned around and looked in the direction of the palace, and immediately saw an extremely bright light emanating from the depths of the palace.

"That is?"

"Could it be that some strange treasure has been born?"

"That's right! It's definitely a treasure! This area was once a royal palace with a glorious cultivation civilization, but it was later destroyed by the demon clan, but there may also be some powerful ones left behind.

The treasure was not discovered by the demon. "

Several of the escort masters couldn't help but have surprise in their eyes.

"Let's go and have a look! Maybe there will be an unexpected surprise this time."

The six masters of the escort team all flew towards the direction of the palace.

When they reached the depths of the palace, they were immediately shocked by the scene in front of them.

At this time, on the ground of the palace, in a collapsed pit, a huge white jade ship was revealed. Every inch of the ship's hull was emitting pure light, and it looked full of sacredness.

"Is this? A treasure left by the sages of ancient times?"

"Yes, the aura exuding from this giant ship is so sacred. It is definitely something left by the ancient sages. I didn't expect that we are so lucky!"

"Let's go in and check it out quickly. Maybe there are countless treasures of the ancient saints hidden in this giant ship of the ancient saints."

The eyes of the six masters of the escort team were all shining, and they did not expect that this would be a trap that had been set by others.

Uh-huh!

Uh-huh!

Uh-huh!

The masters of the six escort teams all ducked into the huge hull at this time.

But the moment they entered, they found that the entire hull was empty.

"It's a pity that there is no wealth left by the ancient saints."

"But no matter what, this giant ship left by the ancient sages is a treasure in itself."

"Let's go out quickly. It's an unexpected surprise to take away this ship of the ancient saints."

The six masters of the escort team spoke out one after another and walked outside.

"boom!"

But suddenly at this moment, the entire hull shook violently.

Before the six masters of the escort team stepped out of the cabin, they instantly discovered that the entire interior of the hull was enveloped and sealed by a white light.

"what happened?"

The sudden change made the masters of the six escort teams look furious.

Change.

"Brother, we seem to be imprisoned by the power shield of the ancient sages in the hull!"

A member of the escort team immediately screamed.

"Blow open the hull!"

The leading member of the escort immediately shouted loudly.

"yes, Sir!"

The remaining five members all spoke out one after another.

"boom!!"

"boom!!"

The six masters from the third level of Pure Yang Realm all unleashed their powerful combat prowess.

But what made them desperate was that their attacks couldn't break through the ship's hull, which was as strong as divine iron.

At this time, outside the Sage's Ship.

Ye Feng came slowly.

He saw the six masters trapped in the hull, and finally a satisfied smile appeared on his face.

The Sage's Ship is a ninth-grade Taoist-level magic weapon, a treasure left behind by the ancient saints.

Not to mention the warriors from the third level of the Pure Yang Realm, even the captain of the guard team from the ninth level of the Pure Yang Realm was trapped in it. It would be absolutely fantastic to think about it.

Ye Feng closed every window of the Sage's Ship. The six masters of the escort team imprisoned inside could not see what was happening outside.

Perhaps, they don't know yet that they were tricked by themselves.

"There is no way to keep them trapped in the ship of saints. I have to think of an idea to kill these six masters of the third level of Pure Yang realm. However, my creation oven is probably not able to refine pure Yang realm. Strong."

Ye Feng secretly thought in his heart that he would put away the Sage's Ship first and then think of a solution later.

Then Ye Feng continued to search for high-level magic weapon fragments throughout the ruined imperial city.

Half a month later.

Ye Feng came to a barren mountain outside the ruined imperial city.

This place is deserted and suitable for retreat and practice.

At this time, Ye Feng took out all the high-level magic weapon fragments he had obtained this time from the storage spirit ring.

"The second bloodline talent, the God Clan Gloves!"

Ye Feng immediately manifested the divine gloves in his hands and began to extract the mountains of high-level magic weapon fragments in front of him.

"Metal property extraction."

"Toughness attribute extraction."

"Extraction of ancient divine metal properties."

"Extraction of the properties of Immortal Buddha's Tear Jade."

"Dragon pattern black metal extraction."

...

At this moment, Ye Feng extracted various attribute powers from these high-level magic weapon fragments.

Some of the things he didn't need, such as the resentful spirit attributes, evil spirit attributes, etc., were simply discarded.

What Ye Feng wants most is various attribute powers that can enhance the strength of his body.

Many of these high-level magic weapon fragments are made of various ancient and rare materials, so Ye Feng is making a lot of money this time.

His Chaos Body is also rapidly growing and becoming stronger.

Finally, on this day, Ye Feng's clothes were torn apart inch by inch.

An extremely rich chaotic light burst out from his entire body, spreading to almost a hundred miles around.

That kind of chaotic light seemed to have weight, it was so heavy that the entire ground collapsed.

At this time, Ye Feng opened his eyes.

After he extracted the original attribute power of all the ancient high-level magic weapon fragments, the strength of the Chaos Body finally broke through the second heaven, and completely transformed into the first level of the initial stage of the third heaven of the Chaos Body!

"Boom, boom, boom..."

And at this moment, in the sky above Ye Feng's head, a large black cloud of calamity suddenly condensed, and there was a deep sense of suffocation and depression that the black cloud was overwhelming the city.

This is the Chaos Thunder Tribulation!

Each transformation of the Chaos Body requires a terrifying Chaos Thunder Tribulation.

Each time is more terrifying than the last.

Only by surviving this chaotic thunder tribulation can Ye Feng completely transform into the third level of the chaotic body!

"That's right! Perhaps we can use this terrifying Chaos Thunder Tribulation to kill all the six masters of the escort team trapped in the Sage's Ship!"

Ye Feng suddenly thought of this method, and his eyes suddenly lit up.

Chapter 1443 A painting

Rumble, rumble...

The thick dark clouds high in the sky were so dark that they looked extremely scary.

In the dark clouds, blue-purple thunder light emitted, and countless lightning flashed.

A destructive aura belonging to thunder spread across the entire sky and earth.

But at this moment, Ye Feng not only did not have the slightest fear or fear, but his eyes were filled with excitement.

He instantly rushed into the air, and then released the Sage's Ship.

"Boom!"

At this time, a huge chaotic thunder bombarded.

"boom!"

Ye Feng's whole body was immediately hit by the chaotic thunder, and his whole body was shrouded inch by inch by the power of thunder.

Even though his body was extremely strong, his blood was like mercury, and his muscles were like iron, at this moment, he was bombarded by the terrifying chaos thunder until his skin and flesh were torn apart, and his hair was smoking.

"The thunder tribulation of chaos in the third heaven is really terrifying!"

"My chaotic body is irresistible!"

Ye Feng gasped in pain.

And this also made Ye Feng even more certain that this Chaos Thunder Tribulation could definitely kill the six pure Yang realm third-level guard masters.

"It's time to let them out!"

When Ye Feng faced the fourth wave of chaotic thunder.

He instantly opened the sealed state of the Sage's Ship.

Uh-huh! Uh-huh! Uh-huh...

At this moment, six angry figures rushed out from the inside of the sage's ship and stood high in the sky.

"Who is it? Dare to imprison six of our brothers?"

"We are all disciples of the Northern Divine Seminary. Whoever dares to offend us will not want to live!"

...

At this moment, the masters of the six major escort teams started to curse instantly.

"There seems to be something wrong..."

But at the next moment, the six masters suddenly discovered something unusual.

There was a very terrifying thunderous air floating in the air around them at this time.

Uh-huh!

The six people looked overhead in an instant, and their faces turned pale with fear.

"This is...the thunder tribulation area?"

"Or the legendary Chaos Thunder?"

"What's going on!"

"Who is targeting us?"

The masters of the six escort teams suddenly felt their hearts sinking to the bottom at this moment.

They instantly looked not far away, and suddenly found a young man in black looking at them with a cold smile on his face.

"It's you!"

"It's actually that slave boy!"

"When did he discover our secret? He actually set a trap one step ahead of us?"

At this moment, the masters of the six escort teams saw Ye Feng's figure and immediately understood that Ye Feng was secretly controlling all of this.

"Damn it!"

"Why does this ant in the realm of enlightenment have such a powerful magic weapon as the Ship of the Sage?"

"It was definitely given to him by Bai Susu. After all, this boy is

Bai Susu recognized him as his godbrother, and this boy was a pretty boy. Maybe there was some hidden special relationship between the two of them. "

At this time, the masters of the six escort teams couldn't help but exclaimed in surprise.

But Ye Feng grinned and said: "What you know now is too late. You should not have walked into that ship of saints in the first place. I can only say that curiosity can really kill people sometimes."

A master of the escort team immediately said with disdain: "It's not certain who will live and who will die. You are just a small boy in the Proving Dao realm, and the six of us are all masters of the third level of Pure Yang Realm. We can survive in this thunder catastrophe of heaven and earth." It's definitely the six of us who will survive."

The corner of Ye Feng's mouth suddenly curved, and he said: "Do you think this is the thunder catastrophe of heaven and earth? Hahaha, I am ignorant, let me tell you the truth, this is my own thunder catastrophe! And it is the extremely terrifying chaos thunder catastrophe, you guys Now

standing in the field of my heavenly tribulation, you will be recognized by the will of the universe as someone who comes to help me overcome the tribulation. Therefore, in the following chaotic thunder tribulation, the attacks you will suffer will be dozens of times stronger than mine. !”

"What?!"

The moment Ye Feng finished speaking, the six masters of the escort team standing not far away were instantly shocked.

"Run away!"

A master of the escort team shouted instantly and offered up his powerful magic weapon, a bronze ancient mirror, flowing with mysterious light, which seemed to be an incredible rare treasure.

"Boom!!"

But at this time, the fourth and final wave of Chaos Thunder Tribulation struck.

A beam of chaotic thunder light that penetrated the sky and the earth crashed down from the sky in an instant, covering all six guards masters.

"ah!!"

Accompanied by earth-shaking screams.

The bodies of six pure Yang realm third-level masters were instantly destroyed, and all the treasures they sacrificed were shattered.

"Crack!"

"Crack!"

"..."

The next moment, six corpses that were chopped into charred black bodies by the Chaos Thunder Tribulation fell from the sky and fell hard to the ground.

The six masters of the escort team, who were originally high-spirited, all fell at this moment and turned into six blackened corpses. Their deaths were extremely miserable.

"Boom!!"

At this time, Ye Feng was also bombarded by the last wave of chaotic thunder.

Fortunately, the six masters of the escort team were able to withstand a large part of the power of the Chaos Thunder Tribulation.

This time, Ye Feng was attacked by thunder. He was only spit out a mouthful of blood and part of his body was torn apart. The rest was not serious.

At this time, Ye Feng smiled.

You bet right!

This time, the Chaos Thunder Tribulation not only caused the strength of his body to completely transform into the third level of the Chaos Body.

He even killed the biggest scourge at present, the six masters of the guard team who were in the third level of Pure Yang Realm.

"call!"

Ye Feng breathed a long sigh of relief when he looked at the six blackened corpses on the ground not far away that were killed by lightning.

The six toughest masters are finally

After it was solved, Ye Feng himself, including hundreds of people in Sunu Mountain led by Bai Xiaohua, were all out of danger.

Moreover, this time Ye Feng secretly killed six masters, and no one could find out the secret.

"Uh-huh!"

At this time, Ye Feng ducked in front of the bodies of six escort masters.

These six corpses were all scorched black by the lightning, their meridians were shattered, and their blood was evaporated by the huge heat of the thunder.

However, the six of them are pure Yang realm masters after all. Even if they are killed by lightning, their bodies still contain incomparable powerful skills.

These six masters of the guard team are not ordinary pure Yang realm third-level heavenly warriors. They are disciples trained in the Northern Starry, the top cultivation power in the northern star region.

Therefore, their skills and quality are many times stronger than those of ordinary pure Yang realm masters in remote places. ??

"Swallow!"

Ye Feng directly released the Devouring Domain, swallowed and refined all the remaining skills of the six masters, and melted them into his own body to strengthen his cultivation skills.

"boom!"

"boom!"

Even the remaining skills of the six masters made Ye Feng's cultivation reach two levels in an instant.

Directly from the sixth level of the Enlightenment Realm, he rushed into the eighth level of the Enlightenment Realm!

"Not bad, not bad! It's really a huge gain this time."

Ye Feng smiled with satisfaction and nodded.

"Li Feilong! How dare you sneak attack me! Didn't we agree to share this Yaochi treasure equally!"

Suddenly at this moment, an extremely angry roar suddenly sounded from a very distant area.

Ye Feng's perception has always been strong, and he immediately captured the content of the voice.

"Li Feilong?"

"Sneak attack?"

"The treasure of Yaochi?"

Ye Feng's eyes suddenly moved. There seemed to be a dispute in that place.

Uh-huh!

Ye Feng didn't hesitate, he caught the direction of the sound, concealed his breath, and lurked directly.

When Ye Feng arrived, he was stunned by the scene in front of him.

Because at this time, in front of Ye Feng's eyes, two corpses were lying on the ground, and the corpses still exuded a suffocating and powerful fighting spirit.

"These two people are actually strong men in the ninth level of Pure Yang Realm!"

Ye Feng's eyes were slightly startled.

A strong person in the ninth level of the Pure Yang Realm, even in the Northern Divine Academy, is probably the best among the disciples of the outer academy.

At this time, Ye Feng looked over and found two corpses. One was wearing a black skeleton robe and looked full of demonic energy. It was obviously the demonic power in the starry sky.

The other corpse was a tall young man wearing gold armor. He held a golden war spear in his hand and pierced the heart of the magic master wearing a black skull robe. Before he died, the tall young man The man's eyes were still wide with shock and anger.

Both men were killed.

The magic master's heart was pierced by a golden war spear.

The man wearing golden armor had a black gap between his eyebrows. In the black gap, there was a demonic aura.

Iron beetles were gnawing at his head.

This iron beetle is obviously a very vicious devil insect, specially used for sneak attacks.

"They both died."

While Ye Feng was sighing, he noticed a cave overgrown with weeds in front of where the two people died.

At the entrance of the cave, there is a small stone tablet with three ancient characters "Ancient Yaochi" written on it.

"It seems that the reason why these two people sneak up on each other and fight is because of this cave."

Ye Feng secretly thought in his heart, first he quickly collected the corpses of two strange and powerful men from the ninth level of the Pure Yang Realm into the storage spirit rings, as well as the golden war spears and other magical weapons scattered on the ground. Quit.

Then Ye Feng quickly walked into the cave, preparing to take away all the treasures in the cave.

After all, Ye Feng was not sure whether the roaring fight between the two would attract other people who had experienced in this interface land.

Therefore, Ye Feng's speed is faster at this time.

Soon, Ye Feng found an iron box made of black gold in the cave.

There was nothing else. Even if Ye Feng used his soul power to search inch by inch, he couldn't find anything.

"Could it be that the treasure is this medium-sized black gold iron box?"

In the end, Ye Feng could only take away the black gold iron box and quickly left this place of right and wrong.

After Ye Feng was far away from the place where the two unfamiliar strong men were fighting, he came to a mountain range and found an inaccessible place. After making sure that no one else was watching, Ye Feng opened the black gold iron box in his hand.

moment.

A painting.

A pill.

It came into Ye Feng's field of vision.

Ye Feng recognized that elixir at a glance. It was a very precious ancient elixir of enlightenment.

It can make warriors instantly enter a state of enlightenment, which is extremely precious.

However, an ancient pill of enlightenment cannot be called a treasure.

"Could it be that the most precious thing is this painting?"

Ye Feng's eyes fell on the painting next to the Ancient Pill of Enlightenment.

The painting was rolled up, and Ye Feng took it out at this time and opened the entire scroll.

This painting actually depicts an alluring woman who is independent from the world and is about to become a fairy. It looks thrilling.

This alluring woman is not only stunningly beautiful, but she also gives people a sense of aloofness and majesty with peerless elegance in the painting.

Ye Feng suddenly noticed the four small words in the lower right corner of the painting: "Queen of Yaochi"

"It must be a big shot, most likely a magnificent Queen of the Starry Sky."

Ye Feng secretly guessed in his heart, but he didn't find anything special about this painting. It seemed to be just an ordinary painting, in memory of the Queen of Yaochi.

But after all, these things were picked up for free. Ye Feng was very satisfied to have an ancient pill of enlightenment and two powerful men of the ninth level of Pure Yang Realm who both died.

"Uh-huh!"

Ye Feng put away this picture of the Queen of Yaochi, and was going to check whether there was such a figure in history after returning to the Northern Temple. He always felt that this picture was definitely not simple.

Chapter 1444 Poisonous Young Master

Next, Ye Feng didn't waste any time.

He took out the bodies of two powerful men from the ninth level of pure Yang realm who had both been killed before from the storage spirit ring.

Ye Feng didn't know the identities of these two people. He only knew that the demonic person among them seemed to be called Li Feilong.

However, the identities of these two powerful men and the forces they belong to may be very powerful, and they may even come from other golden forces outside the northern star region.

But Ye Feng can no longer control so many taboos.

Now Ye Feng knew very well that he followed Bai Susu to the Northern Divine Academy.

My accumulation of cultivation skills is really too weak.

In the Northern Territory Seminary, Ye Feng is now not even comparable to the lowest-level seminary disciple.

He can only live his last breath in the white plain girl mountain.

This is a situation Ye Feng has never encountered before.

No matter what force he joined to practice before, Ye Feng has always been a peerless genius.

But this time, he became a servant-like existence.

However, Ye Feng did not regret following Bai Susu to the Northern Divine Academy so early.

Because if it weren't for this choice, Ye Feng wouldn't be able to grow so fast.

The more advanced the environment a person is in, the greater the impact on his development will be to a large extent.

"boom!"

At this moment, Ye Feng directly released the Devouring Domain, swallowing up all the blood energy and skills of the two powerful men who were both killed.

"boom!"

"boom!"

The two powerful men in the ninth level of Pure Yang Realm are really powerful.

Even though Ye Feng's body was like a bottomless pit, at this moment, he suddenly broke through the second level of heaven and rushed directly into the tenth level of the Dao Enlightenment Realm.

And this is just the beginning, Ye Feng's cultivation skills are still growing and transforming.

Finally, on the night of the seventh day.

"boom!"

Ye Feng's body once again burst out with a new and powerful martial arts aura.

His cultivation level directly transformed and exploded to the half-step Pure Yang realm!

In the end there is still some skill energy left.

But in the end, Ye Feng was not able to break into the true pure Yang realm.

At this moment, Ye Feng stood up immediately.

Wow!

The powerful momentum spread in all directions, causing the ground to crack and crack, and countless trees were rumbled and swayed.

Ye Feng clenched his fists, feeling the powerful power in his body and feeling very satisfied.

Now not only has the chaotic body transformed to the first level of the early stage of the third heaven, but the cultivation level has also grown to a half-step pure level.

Yangjing is at the same level of cultivation as that Bai Xiaohua.

This must surprise Bai Xiaohua.

But at this time, Ye Feng was a little strange. He didn't know why his chaotic body had transformed to the third level, and why his third bloodline talent hadn't awakened yet.

But I thought about when I was practicing the Divine Art of Creation in the past, the accompanying talents sometimes appeared very slowly, as if there was a lack of some kind of energy to promote them.

Therefore, Ye Feng could only put aside the matter of the third-level bloodline talent for the time being, and see if he could continue to improve his Chaos Body and awaken it as soon as possible.

"After calculating the time, the month I made an appointment with the painting girl is almost here. I need to rush back as soon as possible. If I can't take the starry sky boat on Sonu Mountain, I may be lost in this small interface forever and be unable to find my way back to the north. The road to the Domain God's Temple."

The northern star field is too huge, including countless low-level star fields and high-level star fields. It is really vast to the extreme. The entire universe is simply endless and has no boundaries.

Ye Feng's cultivation level has been improved, and his speed is also very fast.

In the early morning of the next day, he had returned to the place where everyone in Sonu Mountain had been digging for mineral deposits.

Sure enough, a group of people in the distance had hollowed out the entire Gobi area, and a huge pit appeared on the ground.

It must be said that the strength of these attendants is quite good, and their mining efficiency is very high.

Ye Feng looked at the busy people and couldn't help but sigh.

If he hadn't suddenly thought of a way to kill the six masters of the escort team.

I am afraid that all the hundreds of people in front of me are dead on the spot.

"Ye Feng, have you broken through to the half-step Pure Yang realm?"

Bai Xiaohua's graceful figure suddenly appeared in front of Ye Feng. There was a trace of surprise on her delicate little face, as if she didn't expect Ye Feng to break through so quickly.

Ye Feng stared at Bai Xiaohua in front of him and said with some surprise: "Girl Hua, have you broken through to the Pure Yang Realm?"

At this time, Bai Xiaohua's cultivation aura was no longer the half-step Pure Yang realm before, but the first level of Pure Yang realm.

Bai Xiaohua nodded and said casually: "Half a month ago, a vein of star crystals was excavated in the mines under the Gobi. I have been refining the star crystals for the past half month. Ore vein, so I have broken through to the first level of Pure Yang Realm. Next, I will return to the Northern Territory Seminary and certify me as an official disciple of the Seminary."

Ye Feng smiled slightly and said: "Then congratulate the painting girl in advance for leaping over the dragon's gate."

When Bai Xiaohua heard this, he smiled and shook his head, seemingly helpless, and said: "Ye Feng, you are really

I am a person who is easily satisfied. Even if I become an official disciple of the Northern Divine Academy, a first-level disciple of Pure Yang Realm, I will still be the lowest disciple. It is nothing. I still have a long way to go. "

Ye Feng shrugged and said, "At least it's better than being a servant."

Bai Xiaohua couldn't help but tapped Ye Feng's forehead with his plain white finger and said, "You are really an optimist."

Ye Feng grabbed Bai Xiaohua's jade-green fingers and said with a smile: "I am a contented person. Too much desire and too deep obsession often give people a headache."

One of Bai Xiaohua's fingers was held by Ye Feng, and her delicate white face showed a hint of unnatural color. She quickly withdrew her finger, stared at Ye Feng with her beautiful eyes, and said, "If you weren't the leader of the clan, you would recognize me." My godbrother, if you touch me like this and take advantage of me, I should have taught you a lesson."

After saying that, Bai Xiaohua turned and left.

Ye Feng just shook his head and smiled, then looked at the huge pits around him.

Looking at the servants and slaves who were working hard to dig in the deep pit, they were all sweating profusely. They were so tired, but there was no reward.

Ye Feng's desire to escape from the circle of servants as soon as possible became stronger and stronger.

"This time when I return to the Northern Divine Monastery, I will seize the opportunity to practice, swallow the ancient pill of enlightenment, enter the state of enlightenment, and see if I can absorb the divine crystal that I could not absorb before. I will step into the pure Yang realm as soon as possible and be certified. An official disciple of Beiyu Seminary!"??

Ye Feng thought secretly in his heart.

...

On the morning of the third day.

The mining tasks were finally completed.

Bai Xiaohua restarted the starship, took Ye Feng and a group of servants from Sunu Mountain, soared straight into the sky, passed through the interface barrier of the small interface, returned to the starry sky of the universe, and then quickly headed towards the North Territory Temple. Rush in the direction.

"boom!!"

But it didn't take long for the giant starship to fly.

A monstrous dark demonic energy suddenly surged from the depths of the starry sky, and suddenly enveloped the entire huge starship.

"Bang!"

"Boom"

...

The moment the attendants and slaves of the Dao Enlightenment Realm on the Starry Sky Ship smelled these dark demonic energies, they all fell to the ground covered in black.

"This is not just demonic energy, but poisonous energy!"

Bai Xiaohua's beautiful eyes were suddenly startled.

She immediately opened the entire starship's divine light shield.

But it was of no great use. The poisonous dark demonic energy came too suddenly, and all the attendants and slaves fell down one after another.

Warriors in the realm of enlightenment are simply unable to resist this terrifying poisonous demonic energy.

Even Ye Feng felt sore and numb all over his body at this moment.

He was shocked in his heart. If he hadn't just transformed from his chaotic body to the early stage of the third heaven, he might have been poisoned and fell to the ground like everyone else.

"Everyone hold your breath!"

At this moment, Ye Feng immediately roared.

One by one, the attendants and slaves reacted and held their breath for a moment.

But even so, many attendants and slaves were trembling with poison, and the poison was spreading in their bodies, and they were almost unable to hold on.

Bai Xiaohua is the only one who is not affected. Maybe it has something to do with her breakthrough to the pure Yang realm, or maybe she has other secrets.

Ye Feng circulated the huge blood energy in his chaotic body to dispel the poisonous gas.

Uh-huh!

He quickly came to Bai Xiaohua's side and asked aloud: "Is it the Demon Clan?"

Bai Xiaohua shook his head and said: "The demonic energy of the Heavenly Demon Clan is not so poisonous. Those who attacked us must be masters of poison. They are not aliens like the Heavenly Demon Clan. They should be one of the forces in the evil ways." People, our star ship in Sunu Mountain has the logo of the Northern Territory Divine Temple. The poison master who dares to

take action against the Northern Territory Divine Temple should be the largest evil force in the Northern Star Territory, the Demonic Poison Sect! "

Ye Feng's eyes moved and he said: "The Demonic Poison Cult? It sounds very unusual."

Bai Xiaohua said: "The Demonic Poison Sect is a powerful evil force in the Northern Star Region that is comparable to the Heavenly Demons and Aliens. Although it is not as good as our Northern Divine Academy, it can still be regarded as a silver-level force. , all the people under my sect are evil and evil people with evil intentions!"

Ye Feng looked around at this time and found that the entire starship was wrapped in dark poisonous demonic energy. He could not even see the surrounding starry sky clearly, let alone find out where his opponent was.

Bai Xiaohua's face was extremely solemn at this moment. She instantly threw out a musical instrument, and the musical instrument flew away in an instant, and she didn't know who to notify.

And at this time, a cold voice sounded outside the poisonous demonic energy: "Everyone under Bai Susu's command is on this starship, hehe, this time I, Mr. Poison, finally waited and waited for success. With this The whole ship of hostages is in my hands, I'll see how this woman Bai Susu will go against me next time!"

The moment the voice fell, Bai Xiaohua's face on the starry sky ship immediately changed, and he became extremely pale, saying: "It's the poisonous young man from the Demonic Poison Sect! Oh no! It's over this time! We are really a sheep in a tiger's mouth. "

Chapter 1445 Escaped

Ye Feng was also shocked by Bai Xiaohua's huge reaction at this time.

He couldn't help but ask: "Poisonous Young Master? Is he very powerful?"

Bai Xiaohua's delicate little face was full of solemnity at this time, and he said: "The Demonic Poison Sect is a powerful silver force in the entire Northern Star Territory, and its overall strength is definitely comparable to that of half of the Northern Territory Divine Academy. , This poisonous young master comes from the Demonic Poison Cult, and if he dares to go against the clan leader, he must be of extraordinary strength, and he must have reached half a level of Broken Realm."

A half-step Broken Realm cultivation beyond the Pure Yang Realm!

When Ye Feng heard this, his eyes showed a trace of gloom.

Obviously the person who came was not good, and this person was very powerful.

"No matter what, we cannot sit still and wait for death."

Ye Feng stared at Bai Xiaohua and said: "I will control the entire starship and try to break out of this poisonous demonic energy."

Bai Xiaohua's beautiful eyes were lowered and he said: "But this poisonous demonic energy blocks the sky and the sun, and we can't see the direction around us at all. If we control the starship randomly and hit any stars or meteorites, then we will really die." "It's so cute."

Ye Feng said anxiously: "Don't worry, since I said that I can control the starship to fly out, then you must believe me, I am not talking nonsense."

Ye Feng possesses huge soul power that can cover several kilometers around him, which is enough to determine the next direction of the starship.

Seeing how confident Ye Feng was at this time, Bai Xiaohua could only choose to believe him and immediately handed the control stick to Ye Feng.

"Buzz!"

Ye Feng took over the control lever of the starship and immediately released huge soul power.

Although the poisonous demonic energy can block the warrior's vision and spiritual thoughts, it cannot block the soul master's soul induction.

"boom!"

Ye Feng inputted his surging power, and the entire starship immediately sailed quickly in a certain direction.

And almost at the next moment, the poisonous demonic energy surrounding the starship became thinner and thinner.

This means that the star empty ship is about to fly out of this highly toxic and demonic area.

“Really the right direction!”

Bai Xiaohua was very surprised. He stared at Ye Feng, who was lower in cultivation than himself, and couldn't help but ask: "Ye Feng, how did you do it?"

Ye Feng did not answer, because at this time a greater crisis emerged.

"boom!"

A big hand condensed with poisonous black energy blasted over from the depths of the starry sky.

It's the poisonous young master's attack!

Very scary!

It contains unparalleled power and can instantly smash the entire starship into pieces.

After all, he was a half-step Broken Realm powerhouse. Even in the Northern Divine Academy, he was still the best among the disciples of the outer academy. He was absolutely terrifyingly powerful.

"Ye Feng, you concentrate on driving the starship, and I will resist Mr. Poison's attack!"

Bai Xiaohua suddenly spoke up.

She quickly began to knead the formula with her hands, and a gap suddenly opened in the center of her delicate eyebrows, and divine light surged through it.

"Uh-huh!"

A small round shield made of amethyst instantly rushed out from the gap between Bai Xiaohua's eyebrows.

This is a very powerful treasure. The aura it exudes can faintly surpass the fluctuations of Taoist-level magic weapons, and is almost comparable to that of Taoist-level magic weapons!

"This is the leftover star amethyst material when the patriarch was casting her Dao-level magic weapon Amethyst Palace. The patriarch asked a great weapon refiner to use the leftover materials to refine such a small round shield. It is a half-step Dao A super magic weapon, my power can only activate it once."

Bai Xiaohua saw the surprised look in Ye Feng's eyes and couldn't help but explain.

"boom!"

Sure enough, after Bai Xiaohua used the amethyst round shield, the round shield quickly grew in size and blocked Master Du's terrifying blow.

But Bai Xiaohua was also exhausted in an instant, his face was pale, his graceful figure softened, and he was about to fall down.

"Paint girl!"

Ye Feng quickly supported Bai Xiaohua.

But at this time, Bai Xiaohua had passed out due to too much consumption.

"Hey hey hey, you can't run away!"

The poisonous young master's cold laughter came from the distance.

"boom!"

Another large piece of poisonous demonic energy surged in, covering the entire starship.

Ye Feng's eyes were extremely cold. He didn't expect that they would be targeted by such a troublesome person.

"Poison-eating insect!"

"Come out!"

At this time, all the people on the starship were fainted by the poison.

Even Bai Xiaohua fainted due to too much energy consumption.

Ye Feng released poison-eating insects one by one, quickly devouring the poisonous demonic energy around them.

No matter how powerful Mr. Poison is, no matter how strong the poison in the demonic energy is.

There is nothing you can do if you encounter an ancient evil insect like a poison-eating insect.

Soon the poisonous air dissipated.

"What?"

Young Master Du's surprised sound came from the distance.

At this time, the poisonous gas dissipated, and Ye Feng finally saw the true face of Mr. Poison.

At this time, in the starry sky not far from the starship, a young man wearing a black robe with a skeleton was standing there, holding a dark Qiankun bag in his hand. There was Qiankun in the bag, which was a kind of space magic weapon.

The poisonous and strong demonic energy surged out from this universe bag.

This is a very vicious magic weapon!

Ye Feng did not hesitate and increased the input of power.

While using his soul power to identify the direction, he quickly controlled the starship to fly.

On the other hand, he used his huge skill to activate Bai Xiaohua's half-step god-level magic weapon 'Amethyst Buckler' to resist the poisonous master's attack.

"As long as you get close to the base camp of the Northern Territory Seminary, there will be a patrol team from the Seminary patrolling the area. This poisonous young master will never dare to chase you again!"

Ye Feng thought in his mind and quickly urged the entire starship to fly.

Mr. Poison obviously also knew this, his eyes were a little gloomy, but he didn't expect that the poisonous demonic energy was absorbed by Ye Feng by some unknown means.

"It's amazing that a little slave has such great abilities and can persist under my master for such a long time. But unfortunately, you can't escape after all!"

Mr. Poison yelled, and immediately used a long sword exuding strong poisonous gas, and slashed it down in the air.

"Crack!"

Mr. Poison's cultivation was so powerful that even the amethyst round shield could not withstand the sword and was blown away directly. Even the surface of the round shield was eroded by the poisonous gas and fell to the splint of the starship with a "ding-dong" sound. On, lost spirituality.

"puff!"

And Ye Feng was also hit so hard that he spurted out a mouthful of blood.

The terrifying and violent sword energy and poisonous energy were destroying Ye Feng's entire body crazily.

Although the Chaos Body is very powerful, Ye Feng's internal organs are being destroyed by the sword energy and poisonous gas, and it is about to invade Ye Feng's heart. If it succeeds, it will be over.

"Buzz!"

But at this moment, a mysterious ancient power suddenly surged out of the picture of the Queen of Yaochi hidden by Ye Feng, which automatically absorbed the violent sword energy and poisonous energy.

Ye Feng escaped!

"What a risk! I knew that the beauty picture of Queen Yaochi was definitely not an ordinary thing!"

Ye Feng's eyes were extremely excited at this moment.

But at this time, he no longer had time to investigate the beauty pictures of Queen Yaochi.

Instead, he quickly activated the starship and flew towards the distance.

"hateful!"

Several times in a row, he failed to kill even a slave who was only half a step into the Pure Yang realm, which made Master Po feel extremely humiliated.

He is a super master of the Half-Step Broken Realm!

"Poisonous Evil Technique!"

"The Dharma appears!"

In anger, Young Master Du unleashed a very advanced inheritance.

His entire body expanded rapidly, and in the poisonous gas, he actually transformed into a huge figure composed entirely of poisonous gas.

, that is the ancient poison "Du Sha", a very vicious creature. At this time, Mr. Poison actually manifested the power of the Dharma of this vicious creature.

"boom!"

A huge palm struck down from the starry sky. This palm was the strongest blow for Mr. Du, who was in the Half-step Shattering Realm, and had destructive power.

The entire starship is about to be destroyed.

"Qiang!"

But at this moment, a wheel of judgment, emitting sacred white light, suddenly flashed from the depths of the starry sky.

"Pfft!"

The poisonous demonic appearance manifested by Mr. Poison was cut in half by the sharp edge of the Wheel of Judgment in an instant.

"Ah! It's Bai Susu's Wheel of Judgment! Why did Bai Susu come so fast!"

The poisonous dharma image shattered in an instant, revealing the original body of Mr. Du. He suffered heavy injuries and was bleeding all over his body.

"Uh-huh!"

The poisonous young master did not dare to stay any longer, and immediately ran away into the distance, and soon disappeared.

At this time, a shadow emitting white divine light arrived.

This phantom of divine light looks exactly like Bai Susu.

This is a clone of Bai Susu.

Bai Susu immediately said to Ye Feng on the starry sky ship: "This is my clone. After receiving the transmission note from Bai Xiaohua, I rushed over immediately. However, my clone cannot stay for too long. My true self is here. I can't get away from the alien battlefield. Brother Ye Feng, please quickly take everyone on the starship back to the Northern Territory Temple to prevent the poisonous young man from finding out that this is just my clone and coming back."

"good!"

Ye Feng immediately nodded and drove the entire starship towards the North Territory Temple.

Bai Susu's clone escorted her along the way, making her very safe.

After Ye Feng returned to the starry sky around the Northern Divine Monastery, Bai Susu's clone dissipated, seemingly exhausted.

Ye Feng did not stop, and quickly drove the starship to fly back to the Northern Territory Temple on the vast floating continent, and directly returned to Sunu Mountain.

At this time, Ye Feng saw that the poison-eating insects that had devoured a lot of the poisonous gas refined by the poisonous master had grown a lot, and there were dense patterns of skulls on the black and gold insect shells. It seems that some kind of mutation has occurred, which makes the poisonous insects look more vicious and ferocious.

But this is a good thing for Ye Feng. At least he will have the confidence not to be afraid of their poisonous energy when facing the people of the Demonic Poison Cult in the Northern Star Territory.

The poison-eating insect can be said to be the most poisonous nemesis in the world. Of course, the poison-eating insect itself is also a terrible poison.

"Are we...?"

At this time, Bai Xiaohua slowly woke up on the starship.

Chapter 1446 Ascension Hall

After Bai Xiaohua woke up, she saw that she was already in the Sunu Mountain of the Northern Divine Monastery. She immediately felt unbelievable because she originally thought that everyone was dead.

Suddenly her eyes were fixed on Ye Feng, who was not far away.

Ye Feng chose to hide his credit for delaying time, and did not want to expose too many of his trump cards, so he just said: "It's Hua Girl. The transmission talisman you released was obtained by Sister Su Su, and then she cast a Using the secret technique, a clone came over quickly and scared the poisonous master away, and we were able to reach the Northern Temple safely. "

When Bai Xiaohua heard what Ye Feng said, she suddenly realized, but she still murmured strangely, "Could it be that when I fainted, the patriarch's clone happened to arrive? Is the clone of the patriarch so fast..."

While Bai Xiaohua was muttering secretly, Ye Feng used poison-eating insects to secretly detoxify and revive all the hundreds of poisoned and fainting attendants on the starship.

The poisonous demonic energy released by Master Poison is a great tonic for poison-eating insects.

So at this time, we can save people and also allow the poison-eating insects to grow. It can be said that it kills two birds with one stone.

After all, that swarm of poison-eating insects may be Ye Feng's best way to deal with vicious forces like the Demonic Poison Sect in the future.

Uh-huh!

At this moment, a huge amethyst palace suddenly flew over from a distance high in the sky on Sunu Mountain.

"It's the Patriarch's Amethyst Palace!"

Bai Xiaohua's eyes lit up with joy.

Ye Feng also changed his expression and flew towards the center of Sunu Mountain.

At this time, on the ring peak in the center of Sunu Mountain, the Amethyst Palace finally stayed there, floating in the air.

Bai Susu's Amethyst Palace flew back, which meant that Bai Susu himself was also back.

"Wow!"

Sure enough, at this moment, the gate of the Amethyst Palace suspended in the middle of the ring peak opened.

Bai Susu's graceful figure walked out of the Amethyst Palace and then flew to the ground.

Bai Susu looked at Ye Feng and Bai Xiaohua who were arriving at this time, and asked aloud: "You encountered the poisonous young master, how many people were killed on the starship?"

Bai Xiaohua said: "A total of four slaves with low cultivation levels were poisoned to death. The others are not seriously injured and have been detoxified by Ye Feng."

"Oh? Mr. Poison's poison is not easy to cure."

Bai Susu looked at Ye Feng and said with a smile: "It seems that brother Ye Feng saved many people this time."

Having said this, Bai Susu stared at the two of them and said, "Your cultivation levels have almost reached the entry standards of the North Territory Seminary. You can go directly to be certified as the official disciples of the Seminary."

Bai Xiaohua immediately smiled and said: "The patriarch is right, I am

I want to be certified as an official disciple. "

Ye Feng couldn't help but ask at this time: "Sister Su Su, my current cultivation level is half a step into the Pure Yang realm, can I still be certified as an official disciple?"

Bai Susu smiled and said: "Okay, you have my identity token on you, just go and tell the elder who registered."

Ye Feng's eyes were filled with joy and he said, "That's great."

Bai Susu looked at Bai Xiaohua and said: "Xiaohua, you take Ye Feng with you. Ye Feng is new here and is not familiar with it yet. You have followed me in the Northern Divine Academy for so long, and you are familiar with everything."

"good."

Bai Xiaohua nodded and left Sunu Mountain with Ye Feng.

The two of them were walking through a large area of spectacular buildings, heading in a certain direction.

On the way, Bai Xiaohua stared at Ye Feng beside him and couldn't help but said with envy: "Ye Feng, the clan leader is so kind to you. She even used the privileges of the top ten core figures in her inner courtyard to let you... When I reach the Chunyang realm, I can become a disciple of the Northern Divine Academy. This is a treatment that even I don't have. My cultivation has been stuck at the half-step Pure Yang realm for so many years, and I have never seen the clan leader treat me like this. good."

Ye Feng smiled slightly and said: "I have been very kind to Sister Su Su, so she will naturally take special care of me."

When Bai Xiaohua heard this, his beautiful eyes flashed and he couldn't help but asked curiously: "Yes, the patriarch has always been so optimistic about you. What kind of relationship did you have with the patriarch before?"

Ye Feng shook his head and said, "This confidentiality is a secret between me and Sister Su Su."

If he told outsiders that he cut Bai Susu out of a big bluestone, it would definitely be a bit embarrassing.

So Ye Feng chose to remain silent at this time.

"Hmph, forget it if you don't tell me. I'll ask the clan leader myself when the time comes."

When Bai Xiaohua saw Ye Feng's silence, he couldn't help but snort.

At this time, he and Ye Feng became more and more familiar, and Bai Xiaohua's behavior was no longer as decent and generous as before, but became more and more casual, like a little girl.

Half an hour later, the two came to a huge palace.

This huge palace is entirely made of Guanghai Immortal Jade and is suspended thousands of feet high in the sky. A white jade staircase like a ladder extends from the ground to the white jade palace in the sky.

"Ascending Heaven Palace!"

Three huge ancient characters are engraved on the plaque of the palace high in the sky. Each stroke is like a sword, gun, sword and halberd, exuding a shocking aura.

"This is the Climbing Heaven Hall. Our certified disciples are here, which means ascending to heaven in one step."

Bai Xiaohua explained aloud. She looked at the Climbing Heaven Palace high in the sky with a trace of longing in her eyes.

Obviously, for Bai Xiaohua, the Climbing Heaven Palace is really a place where she can reach the sky in one step and realize all her dreams.

Ye Feng also nodded at this moment and said: "Let's go up and be certified as an official disciple. In addition to reaching the standard of cultivation and age, are there any other assessments required?"

"Of course."

Bai Xiaohua glanced at Ye Feng and said: "Northern Divine Academy is the top power in the Northern Star Territory. It is a college established by several silver powers. It is comparable to the gold powers. The requirements for certification of official disciples are very strict. It is strict and naturally requires an assessment, so we may not be able to succeed in certification this time."

Ye Feng nodded and said: "No matter what, we have to give it a try."

Bai Xiaohua also said: "That's natural. Once we pass the examination and become the official disciples of the Northern Divine Academy, our status will suddenly reach the sky, and we will no longer be randomly insulted by other outer courtyard disciples. , we have the status of official disciples of the Northern Territory Seminary. In the future, when we go out to any star field area in the Northern Star Territory, or to some high-level large interfaces, with the status of disciples of the Northern Territory Seminary, many big shots will not dare to take action against us. Yes, they even have to be polite to us. This is the reputation and majesty of the Northern Territory Temple! Of course, there are also dangers. There are many alien races in the starry sky, such as the Heavenly Demon Race, the Hell Race, the Evil Spirit Race and other starry alien races! , all like to hunt the disciples of the Northern Territory Seminary, because they know that the disciples of the Northern Territory Seminary are all peerless geniuses, and the flesh and blood essence is of great benefit to the cultivation and growth of these foreign races. "

And while Bai Xiaohua and Ye Feng were chatting without a word, they had already walked up the white jade stairs to a height of ten thousand feet and arrived in front of the Dengtian Palace.

When they walked up, they found that there was a huge square at the entrance of the Dengtian Palace, all paved with very rare immortal jade. It was full of luxury and gave people a shocking and atmospheric feeling.

At this moment, the entire huge white jade square was not empty. Instead, there were many other young figures standing, and their cultivation auras were all around the first or second level of Pure Yang Realm.

Ye Feng's eyes flickered and he said, "Are these also the young geniuses who are being certified as official disciples of the Northern Territory Seminary?"

Bai Xiaohua nodded and said: "Yes, these people should be young wizards who came from countless first-level star fields, second-level star fields, third-level star fields and even ninth-level star fields in the entire northern star field. All of them are under a hundred years old and possess the cultivation level of Pure Yang Realm. Every day in the Dengtian Palace, there will be people from the low-level starry sky.

Young people from the territory want to pass the examination and be certified as disciples of the Northern Territory Seminary, so as to reach the sky in one step and become human masters. Many people standing in this square are probably of extraordinary status, and may even be ninth-level stars. When the son of the domain lord arrives, we just go to the front of the Dengtian Palace and wait. Don't cause trouble. "

Obviously, Bai Xiaohua was very cautious.

Ye Feng nodded slightly and stood with Bai Xiaohua.

"Where does this beautiful girl come from? She is also here to certify the official disciples of the Northern Divine Seminary, right? My name is Liu Yuan, from the seventh-level star field. My father is the master of the star field. I wonder if I can get to know the girl?"

Suddenly at this moment, a handsome young man wearing a green shirt and looking polite walked up to Ye Feng and Bai Xiaohua from a short distance away.

However, the seventh-level star domain young master who called himself Liu Yuan had all his eyes fixed on Bai Xiaohua, without even looking at Ye Feng beside him.

It has to be said that Bai Xiaohua was born in the fairy world. She is a saint among the feather tribe in the fairy world. She has the blood of the fairy tribe. She exudes a kind of sacred fairy spirit all over her body. She looks exquisite, gentle and charming. Naturally, she is Suddenly it attracted many pretentious young men.

At this moment, Liu Yuan, the young master of the seventh-level star field who came uninvited in front of him, was the one who was attracted.

Bai Xiaohua looked at Liu Yuan, smiled faintly, and said, "Sorry, I don't make friends with strangers."

Liu Yuan was not angry, he just smiled politely and said: "After passing the examination, we will all be brothers and sisters of the same sect. What's the harm in getting to know each other in advance now?"

As he spoke, Liu Yuan stretched out a hand out of habit, as if to forcefully touch Bai Xiaohua.

"Uh-huh!"

But at this time, Bai Xiaohua moved his graceful figure and ducked to Ye Feng's side, leaving Liu Yuan blank.

Bai Xiaohua said indifferently: "This is not your seventh-level star field, but the Northern Territory Divine Academy. It is not a place where you can do whatever you want."

Ye Feng glanced at Liu Yuan and noticed the gloom and greed deep in Liu Yuan's eyes.

At this time, Liu Yuan suddenly stared at Ye Feng who was standing next to Bai Xiaohua. He seemed to have misunderstood something, and immediately said coldly to Ye Feng: "It turns out that the famous flower has an owner, but this is not the case. It will make me flinch. Boy, what is your name? If you are defeated by me in a fight, get out of here right away. You are not worthy of such a beautiful girl."

Uh-huh!

As he said this, Liu Yuan was so unscrupulous that he directly attacked Ye Feng. It was obvious that he was the Young Master of the Star Territory and was used to being arrogant. He would act as soon as he was told. He was simply lawless and did not give the other party a chance to refuse. Everything was done. Follow his instructions.

Chapter 1447 The fight between trapped beasts

Liu Yuan's cultivation is very strong, and he has reached the second level of Pure Yang Realm.

He comes from a seventh-level star domain and is the son of a domain lord. He is indeed proud of himself.

In Liu Yuan's eyes, Ye Feng in front of him was only half a step into the Pure Yang realm, and he could defeat him in an instant.

"boom!"

But at the next moment, Ye Feng simply stretched out a hand, and that hand suddenly became as heavy as a mountain, and blasted Liu Yuan away.

"puff!"

Liu Yuan spurted out a mouthful of blood all of a sudden. He was slapped by Ye Feng and flew far away. He fell hard on the hard white jade ground and was thrown to pieces, making him dizzy.

"What?"

Liu Yuan's eyes suddenly became extremely frightened, and his expression was full of fear.

That boy in black, who is only half a step into the Pure Yang Realm, actually possesses such powerful power?

At that moment, Liu Yuan felt that what hit him was not a hand, but an iron wall.

At this moment, Liu Yuan looked at Ye Feng again and felt that he was not a young man, but a savage beast, which was scary.

"I was wrong!"

Liu Yuan immediately rolled away and crawled away, obviously not daring to stay any longer.

At this time, many other young geniuses around who came for formal disciple certification had extremely horrified looks in their eyes.

Obviously, he didn't expect that a young man who was half a step into the Pure Yang Realm would slap another strong man from the second level of the Pure Yang Realm away.

"Sure enough, there is no simple person who can come to this Northern Divine Academy."

Many people around him couldn't help but talk about it.

They all looked at Ye Feng with a hint of awe.

No one dared to chat with Bai Xiaohua anymore.

After all, everyone thought Ye Feng was Bai Xiaohua's training partner.

A touching smile appeared on Bai Xiaohua's delicate face. He looked at Ye Feng and said, "Thank you for helping me swat away that fly."

Ye Feng stared at Bai Xiaohua beside him and said

: "Your strength is definitely capable of dealing with that son of a domain lord. You didn't take action yourself because you were trying to test my strength."

Bai Xiaohua smiled slightly and said: "Yes, you are so valued by the clan leader, so I want to know how powerful you really are. Now it seems that you are indeed very powerful."

At this time, Ye Feng didn't say anything more, but looked at the Ascension Hall standing at the deepest part of the White Jade Square.

"Everyone who is participating in the certification assessment, please come in."

In the afternoon, an old voice suddenly sounded throughout the White Jade Square.

"It finally begins!"

The young geniuses who came one by one walked towards the huge Ascension Hall with excitement in their eyes.

When everyone entered the Dengtian Hall, they immediately saw that the entire Dengtian Hall was like a small world of its own.

This Heavenly Palace is not only a grand hall, but also a very powerful space magic weapon.

An old man wearing a white robe and looking like an immortal was floating in the sky at the top of the hall.

He looked around for a week, nodded, and said: "Now that you are here, you must have very strong confidence in the next certified official disciples, but if you want to become an official disciple of my Northern Divine Academy, you still have to go through a very strict assessment, and the assessment will begin next, so be prepared!"

boom!

boom!

boom!

And almost at the moment when the old man in white robe finished speaking.

From the sky above the main hall, huge steel prisons suddenly landed, isolating all the hundreds of people present.

In other words, the hundreds of young geniuses present at this time were all imprisoned in steel prisons.

"What kind of test is this? We are also locked in

In a prison? "

Many people looked at the steel prisons around them with doubts in their eyes.

"Click."

"Click."

"..."

But suddenly at this moment, a big hole suddenly opened in the ground of each prison.

"Roar!"

"Roar!"

Accompanied by a series of heart-stopping roars, huge demon bears, as tall as two or three people, rushed out from the large holes under the ground of each prison.

"This is...the devil bear from the devil world! It's very cruel!"

All the young geniuses looked shocked.

And this is also the entry test for everyone!

That is to have a trapped beast fight with a terrifying demon bear from the demon world in the next time.

"This is a fight between trapped beasts!"

The faces of all the young geniuses were very ugly, because this was equivalent to a face-to-face battle with a demonic bear from the demon world. They could not use any physical skills at all and could only resist through brute force.

At this time, the white-robed old man floating in the sky at the top of the hall smiled and said: "Yes, this assessment for you is a test of strength. The purpose of this assessment is to let you know that no matter what time, only continuous improvement can Your own strength is the greatest use. It is the king's way. You can defeat all laws with one force. As long as you have absolute power, you can crush all conspiracies and tricks! You must keep this principle in mind. "

At this time, the old man in white robe said the purpose of this assessment.

"boom!"

"boom!"

Almost at the next moment, everyone in hundreds of prisons was fighting with their own demon bear.

These demon bears are all terrifying demon beasts that were born and raised in the demon world and then captured in the Northern Divine Academy.

Each demon bear is extremely burly, with two or three people tall and majestic.

The pupils are full of red divine light, and a pair of huge demon bear claws are like the most terrifying blades in the world, capable of tearing everything apart with brute force.

These demon bears are probably all at the second level of Pure Yang Realm.

But in a head-on confrontation, these demon bears are estimated to be enough to tear apart ordinary human Pure Yang Realm third-level Heavenly Warriors.

The difficulty of this assessment can be said to be very high.

The white-robed old man spoke up again at this time: "If you can't hold on any longer, just call for help and I will save you, but you will also forever lose the qualification to become a disciple of the Northern Territory Seminary."

"boom!!"

Suddenly at this moment, a huge wave of power suddenly erupted in a prison, causing a shocking noise.

The sound was so loud, like a big collision between planets, that it immediately attracted the attention of countless people.

"That is....."

Everyone immediately saw that in a certain prison, the huge demon bear was directly blasted to pieces, breaking the steel prison.

"What a brute force!"

Everyone's eyes were horrified.

Swish, swish, swish!

Immediately, one after another gazes were cast on the young man in black in the prison.

Ye Feng was very calm at this time, walked out of the steel prison, and collected the body of the demon bear into his storage ring.

For Ye Feng, it was simply too easy to go head-to-head with a demon bear from the second level of the Pure Yang Realm.

When everyone saw this scene, they couldn't help but be extremely envious.

While they were still struggling with the devil bear, Ye Feng had already walked out of the prison and sat on the side of the main hall.

"This kid has such a strong physique. Could it be that he was born with a special physique?"

The white-robed old man floating above the hall at this time was an elder guarding the temple in the Dengtian Palace. His cultivation was unfathomable. But at this moment, when he looked at Ye Feng, there was a trace of surprise in his eyes.

Chapter 1448 Living together

"ah!"

"ah!"

...

At this time, screams could be heard from time to time in the entire hall.

There were quite a few young geniuses who were scratched by the demon bear and were in great pain.

"I quit!"

"I'll quit too!"

"Elder, please save me!"

...

At this time, many of the top geniuses from the major northern star regions became like ordinary young people. They could not withstand the violent attacks of the demon bears and shouted for help.

It can be seen from this that Ye Feng casually knocked away a demon bear just now. It was not that the demon bear was weak, but that Ye Feng was terrifyingly powerful.

Others don't have Ye Feng's powerful physique and body strength.

Although Ye Feng's cultivation level is the lowest, this time the test is about strength.

This is what Ye Feng is best at.

It must be said that Ye Feng was very lucky, as he happened to encounter the assessment content that he was most confident about.

"A thought blooms."

"Jinyang Sword Technique!"

"Blood Sky Demon Tearing Hand"

"..."

However, there were also many people whose inheritance was extremely powerful, and they quickly killed the demon bear and successfully walked out of their respective steel prisons.

Bai Xiaohua has extraordinary strength. He activated the immortal bloodline and displayed a kind of immortal magical power. The third eye was split between his eyebrows. It seemed to be some kind of immortal heavenly eye, and a stream of fairy light burst out directly, like The divine sword was unsheathed and instantly cut off the head of the demon bear in front of him, causing the demon bear to fall to the ground.

After Bai Xiaohua came out, he came to Ye Feng's side.

She scanned Ye Feng's body carefully, and then said thoughtfully: "Ye Feng, do you also have the blood of other ancient races?"

Ye Feng looked confused and said: "Why do you say that? I am a pure human race."

Bai Xiaohua shook his head and said: "The body of a pure human race cannot be so strong. I just observed your fight, and you smashed this demon bear into pieces with one slap. Your palm strength is probably comparable to mine."

A high-level Taoist-level magic weapon burst out with terrifying power. "

Ye Feng smiled and said: "Who said that a pure human race can't have a strong body? I won't lie to you. I am indeed a pure human race. Believe it or not."

When Bai Xiaohua heard Ye Feng's affirmative words, he could only nod his head, but he was still a little unbelievable, because Ye Feng's body was probably stronger and stronger than some ancient races that were famous for their physical strength.

But the next moment, Bai Xiaohua forgot about it. Instead, his little face was full of joy and he said to Ye Feng: "I originally thought that the assessment to be certified as an official disciple would be very difficult, but I didn't expect it to be quite simple. "

Ye Feng spread his hands, looked at most of the eliminated young geniuses on the field, and said: "It's not simple, it's just that the fighting power of you and me is extraordinary."

Bai Xiaohua glanced at Ye Feng and couldn't help but said: "I didn't expect you to be quite narcissistic, Ye Feng, but no matter what, we passed the examination and climbed to the sky in one step. From the status of servants to the North Territory Temple, we Becoming an official disciple is a great joy. I think the clan leader will be very happy if he knows about it. Ye Feng, we must take care of each other in the future. "

Ye Feng nodded and said, "Okay, I'll do my best."

While the two were chatting, all the assessments in the entire hall ended.

There were more than five hundred people entering the hall.

But now, there are only more than a hundred people left who have passed the assessment.

It has to be said that this elimination rate is still very high.

At this time, the old man in white robes who had previously supervised the entire assessment said: "Okay, all those who did not succeed should disperse. Those who have successfully passed the assessment, follow me now."

With that said, the old man in white robe walked directly towards the depths of a corridor in the Ascension Hall.

More than a hundred young people who had passed the examination, including Ye Feng and Bai Xiaohua, all followed suit.

The old man in white robe led more than a hundred young people to a place deep in the Dengtian Palace.

In front of the secret room.

When everyone entered the secret room, they immediately discovered that the entire secret room was very large, like an underground square.

And there are shelves one after another on the floor of the entire secret room.

There are hundreds of them!

On every shelf, there is a set of disciple supplies hanging.

They are a set of clothing for the disciples of the outer courtyard of the Northern Divine Seminary, a pair of boots, a piece of ancient jade, a sword, a knife, and a small silver round shield. .??.

At this time, the white-robed old man said: "This is the entry benefit for you newcomers. The outer court disciples' clothing is made of silkworm silk from the fairy world and is refined with the true fire of Samadhi. It is invulnerable to ordinary water, fire, thunder and lightning. In winter, Warm and cool in the summer. That pair of boots is called 'Wind Boots'. The bottom of the boots is specially engraved with a blast formation by our weapon refiner from the Northern Territory Temple, which can speed up your speed. You must protect your identity tokens in the North Territory Seminary. Future credit points, wealth distribution, and monthly cultivation resources all require you to receive and trade them through your own identity tokens. As for The swords, knives, and silver bucklers are all relatively common magic weapons. I think you all look down upon them. Generally speaking, the Northern Divine Academy has taken good care of you new disciples. Everything will follow. It's up to you."

At this time, the old man in white robe said and asked everyone to choose a set directly.

"I want this blue one!"

"I want the pink one."

"I am still suitable to wear white clothes and win the snow..."

At this time, all the young geniuses looked excited and chose their favorite clothes.

Ye Feng, on the other hand, was much more calm. He chose a set of black outer courtyard disciple clothes, input mana directly, and the clothes were automatically put on his body.

Then Ye Feng dropped a drop of blood on the ancient jade, and the ancient jade gave off a red light, which was able to communicate with Ye Feng's mind. It seemed to be a kind of spiritual jade, which was very magical.

"I finally officially became a member of the Northern Divine Academy."

At this moment,

Ye Feng felt that he had truly joined the Northern Divine Academy, the dominant force in the northern star region.

"Now I am qualified to go to various places in the Northern Divine Temple, such as the Library Pavilion, the Heritage Temple, the Earth Fire God Refining Tower, the Martial Ancestor Battle Ground and other special places, but I need some credit."

Ye Feng secretly planned in his heart that he was going to go to the library first to find some information about the Gu Clan Divine Kingdom where his mother was.

Among the top golden powers in the Second Universe, such as the Northern Divine Academy, there must be distribution and records of various powers in the entire perfect world of the Second Universe.

"Ye Feng, after we become disciples of the outer courtyard, we will be able to have our own separate disciple residence. We no longer need to go to Sunu Mountain. Two disciples share the same residence. Do you want to live with me?"

Bai Xiaohua's voice sounded next to Ye Feng

Ye Feng looked at Bai Xiaohua and said in surprise: "You want to live with me?"

Bai Xiaohua also put on a set of lavender outer courtyard disciple clothes at this time, outlining a graceful and youthful posture, which was very touching.

She stared at Ye Feng at this moment and said a little unnaturally: "Ye Feng, don't think too much. The residences of the disciples in the outer courtyard are all training towers with spirit gathering arrays engraved on them. There are many in the training towers. We live together in a room. We don't live in the same room, but share a training tower with many rooms. I don't know anyone else, but I know you, so I said I want to live with you. If you don't want to, forget it."

With that said, Bai Xiaohua turned around and left.

"Who says I don't want to."

Ye Feng stretched out his hand, grabbed Bai Xiaohua's arm, and said with a smile: "I don't know anyone else here. It's okay for us to live together, but I have to tell you first. The inheritance of my cultivation is very special. , when I absorb all the spiritual energy in the entire cultivation tower, don't blame me for stealing your spiritual energy."

Bai Xiaohua smiled and said: "That's okay. I guess I rarely live in the cultivation tower. Most of the time I go out to look for cultivation resources. I just rely on the spiritual energy gathered from the spirit gathering array in the cultivation tower. I'm afraid I won't be able to break through to the first level after practicing for ten or eight years."

Chapter 1449 Central Star Territory

Next, the white-robed old man began to allocate living areas to each new disciple.

Ye Feng and Bai Xiaohua took the initiative to choose to live together, which made many people believe that the two were definitely practicing partners.

Half an hour later, the two of them had arrived at the area where the disciples lived in the outer area of the Northern Divine Seminary.

There is an extremely vast land here, and the entire land is engraved with spirit gathering formations that exude a faint light.

In other words, the entire disciples' living area and the entire vast land are enveloped in a huge spirit gathering array.

At this time, the two people quickly found their own place. ??

It is a huge cultivation tower!

The entire giant tower is made of a very special kind of star iron. It exudes a kind of star light and looks very beautiful from a distance.

But when you take a closer look, the huge and towering ancient pagoda is majestic, majestic and vast, giving people a shocking sense of insignificance.

"This No. 6 training tower is our residence."

Bai Xiaohua moved her graceful figure and walked directly in. Apparently she couldn't wait to feel the magic of this huge training tower.

Ye Feng also walked in.

"Buzz!"

The moment he walked into the training tower, he immediately felt a huge and heavy pressure being exerted on his whole body.

Although it didn't make Ye Feng unable to move, it still made Ye Feng feel a heavy feeling of oppression.

"There is actually a ten times gravity field in the training tower."

Ye Feng's eyes were full of surprise.

At this time, Bai Xiaohua said in surprise in a room in the giant tower: "Ye Feng, come and see, there are actually several alchemy furnaces here, connected to the deepest center of the entire floating continent. Flame, we can learn alchemy directly."

Ye Feng's eyes moved. He was originally a holy fire alchemist. Although his level was not high, it was still very good to have an alchemy furnace that was directly connected to the earth's core flame of the high-level interface continent where the Northern Temple was located. For Improving your alchemy master has huge benefits.

Moreover, Ye Feng can continue to suck

Collect the earth core flame and use it to improve the quality of your dragon spirit holy fire.

"Xiao Hua, I want to go out and have a look at the library."

After Ye Feng confirmed his residence, he directly told Bai Xiaohua and left.

At this time, with the status of an official outer court disciple of the Northern Territory Seminary, Ye Feng can go to various places in the Northern Territory Seminary at any time.

However, there are some particularly precious places that require huge amounts of credit points, such as the Heritage Temple, the Earth Fire God Refining Tower, the Martial Ancestor Battle Ground, etc.

However, the Library Pavilion, a place dedicated to spreading knowledge about the universe to its disciples, is the only place in the Northern Territory Seminary that is open to the public and free of charge.

As long as you are a disciple of the Northern Divine Seminary, even if you are just a new disciple of the outer college, you can enter the library at any time to check various information books.

After all, the universe where the Northern Divine Academy stands is very vast, with endless forces and worlds.

As a disciple and student of Beiyu Seminary, not only the martial arts practice must be steadily improved, but the understanding of the world, vision, cultivation, etc., all must be continuously improved and strengthened.

The Cangshu Pavilion is a very spectacular building. It is a towering tower that reaches into the sky and the stars. It is said to have 18,000 floors.

It is estimated that it would take thousands of years to read all the books in the library.

Ye Feng walked into the first floor of the library while sighing at the magnificence of the eighteen thousand-story library.

There are no books on the first floor, but a huge hall.

At this time, a skinny old man in a green shirt saw Ye Feng walking in. He immediately walked over with a smile and asked: "Which floor do you want to go to? To use a teleportation formation, you need a Divine Crystal."

Ye Feng's eyes were startled and he said: "You need a divine crystal to use the teleportation array once? This is too expensive!"

The skinny old man in green clothes still kept a smile on his face and said: "You can also go up the stairs by yourself, but think about it, the whole Tibet

There are hundreds of thousands of floors in the Book Pavilion. How long will it take you to go up to the highest floor? It's such a waste of time. However, with a divine crystal and a teleportation array, you can easily go to any floor. "

Ye Feng shook his head and said, "No, thank you. I'd better take the stairs by myself."

One divine crystal is a month's training resources for the disciples in the outer courtyard.

Ye Feng naturally would not spend this wasted money.

Seeing Ye Feng's refusal, the skinny old man was not angry. He continued: "Young man, what knowledge do you want to check in this library? I can help you locate which floor of the library."

Ye Feng nodded and said: "I want to check the distribution of forces in the entire universe."

The skinny old man immediately said: "Introduction to the world of the heavens. It's on the third floor. You can just go up. It seems that you are a new disciple."

Ye Feng smiled slightly and said: "That's right, I just passed the entry examination. Thank you, elder, for informing me."

After saying that, Ye Feng jumped up and disappeared directly into the hall, shooting towards the stairs on the third floor. .???.??

The library on the third floor has thousands of bookshelves, and there is a logo on each bookshelf.

For example, the forces of the righteous path, the evil path, the alien races in the starry sky, the boundaries of the universe, the forbidden land of the galaxy, the history of the great world, the immortal kingdom of God, the paradise of cave heaven, etc.

"Immortal Kingdom of God!"

Ye Feng took out a thick book. What he wanted to look for when he came to the library this time was the introduction to the Human Race Divine Kingdom. He wanted to find the specific location of the Gu Clan Divine Kingdom where his mother was.

"Hua Hua Hua..."

Ye Feng quickly flipped through the books in his hand and saw a lot of introductions to the Kingdom of God.

There are human divine kingdoms, and there are alien divine kingdoms established by all the races in the world.

"Gu's Kingdom! Discovered!"

Ye Feng suddenly saw a line of small words.

There is very little introduction about the Gushi Kingdom. It seems to be an extremely mysterious and powerful kingdom, and the exposed information is particularly scarce.

Even the books of the Northern Divine Academy only have a one-line introduction.

"The Gu's Divine Kingdom, the immortal human divine kingdom that stands in the star field at the center of the universe, is at the level of the top golden power and controls tens of millions of large and small star fields. The mysterious inheritance of the royal family of the Divine Kingdom is the foundation of all heavens. One of the ultimate human heritages in the universe."

That's all for the introduction.

Ye Feng was a little disappointed that there was so little introduction about Gu's Kingdom in the books.

But after all, the trip was not in vain.

At least now Ye Feng knows that the Gu's Divine Kingdom where his mother is located is located in the central star field of the universe. It is probably separated by more than half of the universe from the northern star field, which is very far away.

And according to the records in the books, the Gu's Kingdom, the human race's immortal kingdom, is the top golden power in the universe.

Although the Northern Divine Temple is a gold power formed by several silver powers, it can only be regarded as an ordinary-level gold power.

He can be respected in the northern star field, but in the vast star field at the center of the most prosperous universe, he can only be ranked at the bottom among the golden powers.

"This small newborn universe of the First Universe must have other big secrets, otherwise it would be impossible to attract the attention of a top golden power like the Gu's Kingdom. Father, he has

integrated the cosmic will of the First Universe. It seems that without me It's as simple as I thought before.”

Ye Feng thought secretly in his heart.

But anyway, it's too early to think about it now.

The most important thing at the moment is to be able to work hard to improve and grow in the Northern Territory Seminary.

When he becomes a big shot in the Northern Star Territory, he won't be so afraid even when facing the Gu Kingdom.

Next, Ye Feng read a lot of other books, about the history of the Northern Star Territory and so on.

But Ye Feng has no record of seeing the Queen of Yaochi.

Obviously, this Queen of Yaochi is either just an ordinary person, or she is an extremely ancient taboo figure. Even the history of the northern star region within hundreds of thousands of years has not been recorded. She may be a more ancient figure.

#### Chapter 1450 Dangerous Mission

When Ye Feng came back from the library, he found that Bai Xiaohua had disappeared in the No. 6 training tower.

Perhaps after Bai Xiaohua became an official disciple of the Northern Territory Seminary, he couldn't wait to go out and experience it.

Once you become a formal disciple, you will be able to obtain various places with opportunities in the vast universe of the entire Northern Star Territory from the Northern Territory Seminary, and you can explore them at any time.

At this time, Ye Feng walked into the No. 6 training tower where he lived and entered a training room.

Ye Feng is not doing it for cultivation, because as Bai Xiaohua said before, the spiritual energy gathered in the spiritual gathering array in the cultivation tower is richer than the normal area, but it is not of much use.

If you want to improve your cultivation strength as soon as possible, you still have to go out of the Northern Territory Seminary and explore opportunities and fortunes in the vast starry sky of the entire Northern Star Territory.

It can only be said that the Northern Territory Seminary provides you with information and direction. Whether you can get a huge opportunity depends on your own efforts.

At this time, Ye Feng took out the beautiful picture of the Queen of Yaochi that he had obtained before in the secret training room.

The peerless figure in the painting is not only extremely beautiful to watch, but also gives people a sense of vastness and vicissitudes of immortality.

It is as if there is really a peerless queen in this picture, floating in it, possessing a lofty status that countless people in the world cannot reach. .??.

"It was this painting that instantly absorbed Mr. Poison's poisonous demonic energy for me. Otherwise, I might have died before I could use poison-eating insects to detoxify it. It is equivalent to saving my life."

Ye Feng stared at the picture of the Queen of Yaochi in front of him, wanting to see if there had been any changes in the picture after absorbing the poisonous demonic energy.

But after looking at it for a long time, Ye Feng didn't find any special changes.

The only change is that the portrait of Queen Yaochi in this picture is becoming more and more lifelike, as if a truly magnificent Queen is about to step out of the picture.

"Anyway, there must be a secret, but I can't discover it yet. Maybe I can wait until my cultivation level improves."

Ye Feng hid this picture of the Queen of Yaochi close to his body without even putting it into the storage ring.

Because at a critical moment, this picture of the queen may be able to protect one's life.

Ye Feng left the training tower and came to the Martial Arts Square in the central area of the Northern Territory Seminary.

There are often various tasks issued by the senior officials of various seminaries here. As long as the tasks are completed, you can get the credit points of the Northern Divine Academy and purchase various high-level inheritance and cultivation resources in the Northern Divine Academy.

Even if you have enough merit points, you can ask the super powerful people from the Northern Divine Academy to give you direct power initiation, and you can break through many realms of cultivation in an instant.

Ye Feng had just entered the Northern Territory Seminary and was completely broke. Naturally, he was preparing to take over some tasks issued by the upper levels of the Seminary to earn more credit points.

When Ye Feng arrived at the Martial Arts Square, he immediately saw many elders standing on the high platform of the square, issuing tasks one by one.

These tasks include tasks issued by the Northern Territory Seminary itself, such as asking the disciples in the Seminary to go to an edge of the Northern Star Territory to resist the alien races that want to invade the Northern Star Territory.

certainly

During the mission, there were also requests for help sent from all the major star forces in the entire northern star region.

For example, Ye Feng happened to see a mission coming from a third-level star field, Tianchen Star Field.

It is said that a ferocious army of demons suddenly appeared in the territory of Tianchen Star Territory, poisoning all living beings and making people miserable.

And the most important thing is that this time, the Heavenly Demon Clan has united with the evil "Devil Poison Sect" in the northern star region. This Tianchen Star Region is in danger.

It is said that this time in the Demonic Poison Sect, there are core figures of inner disciples who have surpassed the Broken Realm level of the Pure Yang Realm, such as the "Poisonous Young Master", "Skeleton Taoist", "Devil Sword Scholar", "Poisonous Scorpion Princess" and so on. The core characters appear.

"Tianchen Star Territory, isn't that Sima Suantian's hometown? I said before that I wanted to ask his master how to enter the Divine Ruins Realm, which is dedicated to soul masters."

Ye Feng saw the introduction on the mission panel and couldn't help but have a hint of surprise in his eyes.

"In a small third-level domain, the Heavenly Demon Clan and the Demonic Poison Sect appeared at the same time, and there were also core demons of the inner sect such as the Poison Master, the Skeleton Taoist, the Demon Sword Scholar, and the Poisonous Scorpion Princess. Something was not normal. ah."

Suddenly at this time, a familiar voice sounded beside Ye Feng.

It's Bai Xiaohua.

She is actually here too.

Ye Feng looked at Bai Xiaohua and couldn't help but said in surprise: "You are still in the seminary. I thought you had left the seminary and went out to do tasks."

Bai Xiaohua smiled and said: "I have been choosing tasks in this martial arts square these days. I didn't expect to meet you Ye Feng. You seem to be very interested in this task in the Tianchen Star Territory, but I want to advise you. , neither the Heavenly Demon Clan nor the Demonic Poison Cult are easy to mess with, especially this time there are the core figures of the extremely powerful Internal Cult of the Demonic Poison Cult such as Poison Master, Skeleton Taoist, Demonic Sword Scholar, and Poisonous Scorpion Princess. It must be very dangerous."

Ye Feng nodded slightly and said: "We have all seen Mr. Poison's methods before, he is very vicious and powerful, let alone the skeleton Taoist who is stronger than Mr. Poison, but I have a friend in Tianchenxing Domain, and I have something important to visit him, so I will participate in this mission."

Bai Xiaohua was a little surprised and said, "Are you really not afraid of death?"

Ye Feng laughed, pointed at the many disciples of the Northern Territory Seminary around him, and said: "I am definitely not the only one interested in the task of annihilating the conspiracy of the Heavenly Demon Clan and the Demonic Poison Cult."

"That's right."

Bai Xiaohua also nodded, with a hint of thinking on his delicate and beautiful face, and said: "This time so many core figures from the Demon Clan and the Demonic Poison Sect have appeared, they will definitely attract us. Many other core and powerful disciples of the Northern Territory Seminary went to hunt down these evil demons. Because of successful hunting, the Northern Territory Seminary will give very generous rewards for slaying the demons."

Having said this, Bai Xiaohua's beautiful eyes suddenly lit up and he looked at Ye Feng and said: "I have decided that I will also participate in this mission. Ye Feng, let's go together. We can also have someone to look after us on the way. This time With so many core figures from the Heavenly Demon Clan and the Demonic Poison Cult appearing, something extraordinary must have been born in the Chenxing Domain that day. Maybe we can get a lot of benefits from this trip in the muddy water. After all, the more dangerous the The more great opportunities there are in a place, once you get it, you can soar to the sky!" When Ye Feng came back from the library, he found that Bai Xiaohua had disappeared in the No. 6 training tower.

Perhaps after Bai Xiaohua became an official disciple of the Northern Territory Seminary, he couldn't wait to go out and experience it.

Once you become a formal disciple, you will be able to obtain various places with opportunities in the vast universe of the entire Northern Star Territory from the Northern Territory Seminary, and you can explore them at any time.

At this time, Ye Feng walked into the No. 6 training tower where he lived and entered a training room.

Ye Feng is not doing it for cultivation, because as Bai Xiaohua said before, the spiritual energy gathered in the spiritual gathering array in the cultivation tower is richer than the normal area, but it is not of much use.

If you want to improve your cultivation strength as soon as possible, you still have to go out of the Northern Territory Seminary and explore opportunities and fortunes in the vast starry sky of the entire Northern Star Territory.

It can only be said that the Northern Territory Seminary provides you with information and direction. Whether you can get a huge opportunity depends on your own efforts.

At this time, Ye Feng took out the beautiful picture of the Queen of Yaochi that he had obtained before in the secret training room.

The peerless figure in the painting is not only extremely beautiful to watch, but also gives people a sense of vastness and vicissitudes of immortality.

It is as if there is really a peerless queen in this picture, floating in it, possessing a lofty status that countless people in the world cannot reach.

"It was this painting that instantly absorbed Mr. Poison's poisonous demonic energy for me. Otherwise, I might have died before I could use poison-eating insects to detoxify it. It is equivalent to saving my life."

Ye Feng stared at the picture of the Queen of Yaochi in front of him, wanting to see if there had been any changes in the picture after absorbing the poisonous demonic energy.

But after looking at it for a long time, Ye Feng didn't find any special changes.

The only change is that the portrait of Queen Yaochi in this picture is becoming more and more lifelike, as if a truly magnificent Queen is about to emerge from the picture.

"Anyway, there must be a secret, but I can't discover it yet. Maybe I can wait until my cultivation level improves."

Ye Feng hid this picture of the Queen of Yaochi close to his body without even putting it into the storage ring.

Because at a critical moment, this picture of the queen may be able to protect one's life.

Ye Feng left the training tower and came to the Martial Arts Square in the central area of the Northern Territory Seminary.

There are often various tasks issued by the senior officials of various seminaries here. As long as the tasks are completed, you can get the credit points of the Northern Divine Academy and purchase various high-level inheritance and cultivation resources in the Northern Divine Academy.

Even if you have enough merit points, you can ask the super powerful people from the Northern Divine Academy to give you direct power initiation, and you can break through many realms of cultivation in an instant.

Ye Feng had just entered the Northern Territory Seminary and was completely broke. Naturally, he was preparing to take over some tasks issued by the upper levels of the Seminary to earn more credit points.

When Ye Feng arrived at the Martial Arts Square, he immediately saw many elders standing on the high platform of the square, issuing tasks one by one.

These tasks include tasks issued by the Northern Territory Seminary itself, such as asking the disciples in the Seminary to go to an edge of the Northern Star Territory to resist the alien races that want to invade the Northern Star Territory.

certainly

During the mission, there were also requests for help sent from all the major star forces in the entire northern star region.

For example, now Ye Feng happened to see a mission, which came from a third-level star field, Tianchen Star Field.

It is said that a ferocious army of demons suddenly appeared in the territory of Tianchen Star Territory, poisoning all living beings and making people miserable.

And the most important thing is that this time, the Heavenly Demon Clan has united with the evil "Devil Poison Sect" in the northern star region. This Tianchen Star Region is in danger.

It is said that this time in the Demonic Poison Sect, there are core figures of inner disciples who have surpassed the Broken Realm level of the Pure Yang Realm, such as the "Poisonous Young Master", "Skeleton Taoist", "Devil Sword Scholar", "Poisonous Scorpion Princess" and so on. The core characters appear.

"Tianchen Star Territory, isn't that Sima Suantian's hometown? I said before that I wanted to ask his master how to enter the Divine Ruins Realm, which is dedicated to soul masters."

Ye Feng saw the introduction on the mission panel and couldn't help but have a hint of surprise in his eyes.

"In a small third-level domain, the Heavenly Demon Clan and the Demonic Poison Sect appeared at the same time, and there were also core demons of the inner sect such as the Poison Master, the Skeleton Taoist, the Demon Sword Scholar, and the Poisonous Scorpion Princess. Something was not normal. ah."

Suddenly at this time, a familiar voice sounded beside Ye Feng.

It's Bai Xiaohua.

She is actually here too.

Ye Feng looked at Bai Xiaohua and couldn't help but said in surprise: "You are still in the seminary. I thought you had left the seminary and went out to do tasks."

Bai Xiaohua smiled and said: "I have been choosing tasks in this martial arts square these days. I didn't expect to meet you Ye Feng. You seem to be very interested in this task in the Tianchen Star Territory, but I want to advise you. , neither the Heavenly Demon Clan nor the Demonic Poison Cult are easy to mess with, especially this time there are the core figures of the extremely powerful Internal Cult of the Demonic Poison Cult such as Poison Master, Skeleton Taoist, Demonic Sword Scholar, and Poisonous Scorpion Princess. It must be very dangerous."

Ye Feng nodded slightly and said: "We have all seen Mr. Poison's methods before, he is very vicious and powerful, let alone the skeleton Taoist who is stronger than Mr. Poison, but I have a friend in Tianchenxing Domain, and I have something important to visit him, so I will participate in this mission."

Bai Xiaohua was a little surprised and said: "Are you really not afraid of death?"

Ye Feng laughed, pointed at the many disciples of the Northern Territory Seminary around him, and said: "I am definitely not the only one interested in the task of annihilating the conspiracy of the Heavenly Demon Clan and the Demonic Poison Cult."

"That's right."

Bai Xiaohua also nodded, with a hint of thinking on his delicate and beautiful face, and said: "This time so many core figures from the Demon Clan and the Demonic Poison Sect have appeared, they will definitely attract us.
