

Ancient 1901

Chapter 1901 Start from here

Senior Brother Mo was so shocked that he went crazy at this time.

Because racial segregation has been a recognized truth since ancient times.

But now, this generally accepted truth was broken by a human boy in front of him.

This caused Brother Mo's outlook on life to collapse, and the things he believed in in the past were also shaken.

Even if he wants to die, he cannot understand why a humble and small human race can do things that many overlords and super races cannot do.

And just when Senior Brother Mo was shocked and dazed, Ye Feng was not idle.

He used the Goddess' Infinite Technique, and within a limited time, various states could be infinitely improved. .??.

At this moment, Ye Feng's body strength, mana power, speed, endurance, etc. are all rapidly improving and becoming more powerful.

A terrifying aura emanated from Ye Feng's body, making everyone on the field feel a suffocating feeling.

Even Senior Brother Mo, who was in the sixth level of the Ming River Realm, the top genius from the Scorpion Clan, felt a deep palpating feeling at this moment.

Suddenly at this time, Senior Brother Mo roared loudly and couldn't bear it anymore.

"The ultimate demonic wave!"

Senior Brother Mo used a very powerful inherited martial arts, and his whole body suddenly turned into a large dark hurricane, like an eighteenth-level tornado, which suddenly crushed the entire world, and countless people. The mountains and trees on the ground were shattered.

At this moment, Ye Feng's eyes were shining with divine light. He showed no fear at all, but shouted loudly: "No matter what you become, you are destined to have only one fate, and that is death!"

"The Divine Elephant's Prison-Suppressing Skill!"

At this moment, Ye Feng also displayed his most powerful inheritance.

Scenes of hell suddenly appeared around him, with demons and devils roaring and roaring. The scene looked very terrifying, making everyone feel a palpitating feeling, as if they had fallen into ice. Like holes, looking at the scene of hell, all over my body

Chills all over.

Suddenly, at this moment, a white divine elephant emitting endless divine light suddenly appeared in the endless hell.

This is a divine image in the ancient heaven. It is full of infinite power, represents holiness and nobility, and can suppress countless demons in hell.

Therefore, at this time, Ye Feng was as if he had become the Lord of Hell, able to lead thousands of troops and conquer all realms with just one word of command.

"Boom!"

Two terrifying powers and inheritances collided together in an instant, and a huge collision suddenly occurred in the entire sky. It was like a flash flood erupting, with mountains collapsing and everything broken.

This scene looked so earth-shattering and horrifying that all the members of the dragon-taming clan, including the top geniuses of the scorpion clan opposite, couldn't help but lie down on the ground at this moment. Can't stand up anymore.

Half an hour later, the aftermath of the collision at high altitude finally disappeared.

At this time, both the members of the Dragon Taming Clan and the dozen or so geniuses of the Scorpion Clan on the opposite side looked at the aftermath of the collision high in the sky with anticipation and nervousness in their eyes.

Because for them, whoever wins in the battle between Ye Feng and Senior Brother Mo will determine the life or death of one of the two parties.

So at this time, everyone was feeling deeply nervous.

"Boom!"

Suddenly at this moment, a tall figure fell from the aftermath of the collision and hit the ground hard.

This tall figure turned out to be Senior Brother Mo from the Scorpion Tribe!

"Senior Brother Mo!"

The dozen or so geniuses of the Scorpion Clan not far away could not help but exclaim in surprise.

What they never expected was that they would be defeated in the end.

Senior brother.

At this time, Senior Brother Mo's body was completely charred and black, his life had completely disappeared, and he became a corpse.

Uh-huh!

At this time, Ye Feng's clothes were only a little torn, and he landed from a high altitude. He seemed to have no injuries at all.

The strong contrast in this scene made a group of Scorpions feel desperate.

This seemingly ordinary human kid is really terrifying, with endless methods and monstrous fighting power. He is simply not something that ordinary people can deal with.

"Spare my life!"

"Sir, please spare us a lot. We didn't mean to break into the dragon-taming clan!"

...

At this time, the remaining dozen or so geniuses of the Scorpion Clan had no intention of resisting at all, and actually knelt on the ground and begged for mercy.

This scene caused a huge shock in the eyes of the dragon-taming clan.

Originally, a group of strong men from the Scorpion Clan invaded their dragon-taming clan. Many members of the dragon-taming clan felt that they were in trouble, and that the entire tribe might be exterminated.

But Ye Feng, alone, turned the tide and obliterated everything. Even the strong men of the Scorpion Tribe knelt on the ground.

It has to be said that the strong contrast between before and after made a group of dragon-taming clan members understand how powerful Ye Feng is.

At this moment, Ye Feng looked at the dozen strong men from the Scorpion clan begging for mercy, and smiled coldly: "What's the use of keeping you? You can all become my nourishment!"

Boom!

Almost at the next moment, Ye Feng grabbed it with his big hand, and countless vortexes of devouring darkness suddenly appeared in the sky and earth in front of him, covering all the strong men of the Scorpion Tribe, including the body of Senior Brother Mo.

"Rumble..."

Suddenly, huge amounts of energy were absorbed and injected into Ye Feng's body.

At this moment, Ye Feng's cultivation level is undergoing huge improvement.

There were a total of sixteen prodigies of the Scorpion Clan who were in the tenth level of the Divine Palace Realm, plus a senior brother Mo who was in the sixth level of the Ming River Realm. After these were devoured, Ye Feng gained huge energy.

"Boom!!"

"Boom!!"

Along with the two huge momentums, Ye Feng's cultivation level broke through the second heaven in a row, directly breaking through from the eighth heaven of the divine palace to the tenth heaven of the divine palace.

At this time, the corpse of the strong Scorpion clan man on the ground had completely shriveled up, lost all its life essence, and had all been absorbed.

Ye Feng's cultivation level has increased at this time, and the divine light shines in his eyes.

This wave of Scorpion Clan geniuses is truly an elite team, providing a lot of energy.

"Thank you, little friend Ye Feng, for helping us get through this difficult time!"

The old patriarch came over from a short distance away and said with a smile.

At this time, Ye Feng smiled and said, "It's just a bunch of fish."

...

Half a year passed quickly, and Ye Feng was a little disappointed that the dragon-taming clan did not find the shadow.

But Ye Feng doesn't care about this anymore, he can only take one step at a time.

On the morning of the first day after half a year, Ye Feng, the old clan leader, Longtian Nightshade and other members of the dragon-taming clan all gathered together and stood in the center of the dragon-taming clan.

At this time, all the base materials of the surrounding teleportation array are emitting light at this time, and the light is very strong, with a thousand-foot-long light, shining under the sky, looking extremely spectacular and magnificent.

All the masters of the dragon-taming clan were filled with excitement at this time, staring at the formation that radiated divine light.

The huge formation was emitting strong spatial fluctuations, and seemed to be able to teleport everyone away at any time.

The old patriarch's old face also showed deep excitement at this time. He stared at the huge formation and said loudly: "The future of the dragon-taming clan begins here!"

Chapter 1902 Night Attack on the Imperial City

A human territory far away from the deep sea area.

The wilderness among the seven realms of the human race.

In a remote area of the wilderness, there stood a huge human empire, which was the Sky Blue Empire.

At this time, outside the vast imperial city of the Sky Blue Empire, the dark dense forest was filled with soldiers wearing armor.

The eyes of these soldiers looked at the imperial city of the majestic Sky Blue Empire, and they were full of huge ambition and murderous intent.

These soldiers are not soldiers of the Sky Blue Empire, but elite soldiers and generals trained by Lord Cang Tian.

This night, Lord Cangtian was finally ready to take action.

He wants to attack the royal family of the Sky Blue Empire and completely control the Sky Blue Empire!

At this time, in this dark dense forest, Lord Cangtian put on strong black armor and restrained his powerful momentum in order not to alarm the strong men in the imperial city.

Because the gate to the imperial city was still tightly closed at this time, he needed to find a way to break the gate open first.

Surrounding Lord Cangtian stood a group of young strong men. Naturally, these young strong men were the top talents in the genius base.

At the very edge of Lord Cangtian stood a figure in black robes.

This figure in black robe is the shadow!

He returned to Cangtian territory half a year ago and passed back the bad news that Ye Feng had disappeared into the ruins of the Holy City.

Ye Feng disappeared and may have died in the ruins of the holy city. This is definitely bad news for Lord Cangtian.

Because Lord Cangtian attaches great importance to Ye Feng, and Ye Feng may have been regarded by Lord Cangtian as the child he cultivates most.

So Ye Feng died in the ruins of the Holy City, leaving Lord Cangtian in sorrow for a long time.

Not only to attack the Sky Blue Empire this time, Ye Feng's appearance gave hope that Lord Cangtian seemed to have a plan in his heart.

But now that Ye Feng has died among other powerful clans, Lord Cangtian has no hope in his heart.

The most important thing for him now is to defeat the Sky Blue Empire.

When the night reached midnight, even the bright moon in the sky was hidden among the dark clouds.

The entire world was shrouded in complete darkness, full of depth and coldness.

At this moment, Lord Cangtian finally took action with his army.

At this time, Lord Cangtian spoke to an old man wearing Bagua Dao robe beside him and said: "Master Mo, I also hope that you can use a powerful concealment formation to blind all the royal soldiers of the Sky Blue Empire who are guarding the city gate. , giving us time to break open the city gate."

The old man wearing the Bagua Taoist robe immediately nodded and said loudly: "I am willing to serve the lord!"

Uh-huh!

After the old man finished speaking, he immediately took the lead and walked forward.

Soon the old man walked to the gate of the imperial city and began to release talismans one after another.

These talismans did not emit light, they were completely hidden in the darkness, and they did not emit the slightest fluctuation of spiritual power. They flew to the city gate in an instant.

A group of soldiers from the royal family of the Sky Blue Empire who were guarding the city gate immediately felt a little tired under the influence of the talisman, and then closed their eyes involuntarily, as if they were about to fall into a deep sleep.

But suddenly at this moment, in a hall above the city gate, a voice as majestic as the sea suddenly sounded: "Who is performing sorcery and dares to confuse the soldiers guarding the imperial city of my Sky Blue Empire?"

This majestic voice was extremely terrifying. The moment it sounded, it immediately woke up all the soldiers of the Sky Blue Empire who were about to fall asleep.

"Boom!!"

Almost at this moment, a majestic figure rushed out of the hall above the city gate.

This was a general wearing golden armor, and the blood on his body was so strong that it lit up the entire darkness.

"It turns out to be a demon!"

The golden-armored general's eyes were like the sun. He suddenly saw the old man in Bagua Taoist robe who was performing the magic of talismans outside the city gate. He immediately shouted loudly: "How dare a little demon Taoist dare to Come to the imperial city of my Sky Blue Empire to confuse everyone!"

Boom!

The golden-armored general suddenly jumped down from the city wall several hundred meters high with a war spear in his hand, and attacked the old man wearing Bagua robe.

That sturdy and terrifying war spear can definitely shatter a huge city wall in an instant.

"Now that you have been discovered, stop hiding! Attack directly!"

Suddenly, Lord Cang's loud shout rang out from the dark jungle in the distance.

Boom!

A huge hand appeared and directly crushed the golden-armored general who jumped down from the city wall to death.

Lord Cangtian rushed out of the jungle with hundreds of thousands of troops.

He looked at the old man in Bagua robe and shouted loudly: "Master Mo, just use the Explosive Flame Talisman to blow open the city gate. Don't hesitate any more. We are going to use blitzkrieg to capture the entire Imperial City of the Sky Blue Empire as soon as possible! "

"As you command!"

The old man wearing Bagua robe immediately took out huge flame talismans from his storage ring.

These flame talismans are exactly the powerful explosive talismans!

The moment the old man in Bagua robe took it out, a dozen huge flame-exploding talismans were immediately attached to the city wall.

Then.....

"Boom!"

The terrifying roar immediately resounded throughout the night sky.

The endless flames immediately swallowed up the entire huge city gate.

Although the gates of the Sky Blue Empire Imperial City and

The city walls are all made of fine steel, and the surface is poured with molten iron and even imprinted with strong spiritual patterns. War machines that are not particularly heavy cannot attack and break it.

But now the flames produced by the explosion of the Explosive Flame Talisman are indeed extremely terrifying. All of a sudden, the entire huge steel city gate and city walls are burning and starting to melt.

The city walls and gates suddenly turned into molten iron, all flowing to the ground. The entire city wall suddenly opened a passage that could allow the army to pass.

"Come on!"

"Kill!"

"Capture the entire Sky Blue Empire and kill all the royal families of the Sky Blue Empire!"

...

At this moment, the hundreds of thousands of troops behind Lord Cangtian officially roared into the sky.

The roar was extremely terrifying, emitting rolling sound waves that seemed to shatter the entire dark sky.

Lord Cangtian has been planning for so long, and all the hundreds of thousands of troops he has trained are battle-hardened, and every one of them is a warrior. The impact is very terrifying, like a torrent of steel, which flattened most of them in one go. The imperial city of the Sky Blue Empire.

"what's the situation?!"

"What happened? What's going on with these armies?"

"It seems like someone is rebelling!!"

...

Almost at this moment, countless people in the imperial city were awakened.

The palace of the Sky Blue Empire suddenly became extremely noisy.

Countless civil and military officials in the palace woke up from their sleep, and the imperial guards were all fully armed and heavily guarded.

Emperor Tianlan was also wearing an imperial robe, with a look of shock and anger on his face. He immediately led civil and military officials and countless soldiers to the gate of the inner city in front of the palace.

Emperor Tianlan looked at the countless collapsed buildings in the distance and the flames soaring into the sky, and immediately roared: "Lord Cangtian! You are so brave! You dare to rebel!"

Chapter 1903 Rescue

For Emperor Tianlan, the entire Tianlan Empire has always been in a very stable state.

He never thought that Lord Cangtian, who had always been honest, would secretly raid outside their imperial city and take action in the darkness tonight.

And the most terrifying thing is that Lord Cangtian secretly trained so many elite troops. In a short period of time, most of the imperial city was captured, and the royal troops of the Sky Blue Empire did not even have time to react.

At this time, looking at the armor of hundreds of thousands of soldiers reflecting the metallic luster in the dark night in the distance, the Sky Blue Emperor was extremely angry in his heart and immediately shouted: "All the imperial guards gathered on the palace wall and used alchemy to The spiritual bow that Master Qi forged for you, shoot these rebels hard!"

Swish, brush, brush!

Swish, brush, brush!

Almost at this moment, many royal guards wearing golden armor suddenly appeared on the walls of the inner city of the palace.

All of them were holding very huge bows in their hands. These bows were all made of a special crimson material and seemed to possess mysterious power.

"boom!"

"boom!"

...

Almost at the next moment, bows and arrows that looked like spears suddenly flashed out from the wall of the inner city of the palace, instantly forming a rain of arrows in the sky, pouring crazily in the direction of the rebels ahead. go.

"Raise your shield!!"

At this moment, the generals under Lord Cangtian began to roar and ordered the soldiers to raise the steel shields in their hands.

"when!"

"when!"

Almost at this moment, arrows like war spears collided crazily with the steel shield, making the sound of metal being delivered.

"Pfft!"

"Pfft!"

"..."

However, the royal family of the Sky Blue Empire still has a very deep background. The bows and arrows shot by these archers are extremely terrifying and have extremely terrifying impact. A round

of arrows shot down, but it still penetrated many shields and killed many people. Many elite soldiers under Lord Cangtian.

In an instant, the entire ruins of the imperial city were immediately stained red with blood, and it was like a river of blood!

It has to be said that such a large-scale war is very cruel, just like a meat grinder. Even a highly skilled warrior may fall at any time in this battlefield.

Lord Cang Tian shouted loudly: "Everyone and I will focus on attacking the gate of the inner city of the Sky Blue Imperial Palace. As long as the inner city of the palace can be breached, then the Royal Family of the Sky Blue Empire will exist in name only!"

Boom! !

At this moment, under the leadership of Lord Cangtian, hundreds of thousands of troops gathered together, like a torrent of steel, and suddenly bombarded towards the gate of the inner city of the palace.

"The Giant Spirit God Formation!"

Suddenly at this moment, a majestic voice suddenly sounded in the palace.

Buzz!

Almost at the next moment, a majestic and boundless giant of light appeared. It was a giant spirit god, as if he had stepped from ancient times, full of endless terror.

The Giant Spirit God suddenly enveloped the entire inner city of the palace, forming a protective formation that blocked all the troops outside.

"Boom!"

"Boom!"

Hundreds of thousands of troops bombarded the giant spirit god formation. Even if Lord Cangtian, a super powerful man with the title of God Realm and God General level, took action personally, he was unable to smash the giant spirit god protective formation. .

The hundreds of thousands of troops led by Lord Cangtian were blocked from the imperial city.

At this time, the shadow flashed to the side of the Cangtian Lord, and couldn't help but clasp his fists and say: "Master Mo just said that this formation is an ancient formation left by the Sky Blue Royal Family, and it cannot be broken in a short time."

Lord Cangtian's eyes showed a trace of surprise: "I didn't expect that after I restrained the Golden Dragon of Luck in the Sky Blue Empire, there would be an ancient formation guarding the entire inner city of the palace. However, after all, endless years have passed since this ancient formation. , with the current foundation of the Sky Blue Empire, it is impossible to maintain this formation for long, so we will be stationed outside the inner city of the palace, waiting for this ancient formation to dissipate on its own, and then we can break through the entire royal family. "

At this time, Lord Cangtian said, ordering all the hundreds of thousands of troops to be stationed in place, surrounding the entire royal palace of the Sky Blue Empire.

At this moment, the entire Royal Palace of the Sky Blue Empire immediately turned into a trapped city, isolated and helpless.

Under the protection of the giant spirit formation, all the civil and military officials in the palace breathed a sigh of relief.

At least for the time being, the hundreds of thousands of elite soldiers led by Lord Cangtian can't attack.

But many people's faces are still full of worries, because they also know that the operation of this ancient formation requires extremely abundant energy to maintain.

It won't last long at all.

The eyes of many civil and military officials were all focused on Emperor Tianlan, who was wearing an imperial robe.

At this time, the Sky Blue Emperor, the first-generation monarch of the Sky Blue Empire, stared at the Lord Cang Tian and hundreds of thousands of troops who were eyeing outside, with anger in his eyes.

Never before had he, the Sky Blue Emperor, been forced to such an extent that he had to rely on the ancient formations passed down from his ancestors to protect his own safety.

But Emperor Tianlan also knew that Lord Cangtian's cultivation was unfathomable and was not something he could deal with.

At this point I can only think of other options.

Emperor Tianlan turned around, suddenly looked at a little eunuch beside him, and said loudly: "Anu, bathe and change clothes for me. I am going to visit my ancestors in the royal family."

The little eunuch's eyes were startled at first, and then he immediately bowed and said respectfully: "Yes, Your Majesty!"

...

Shower and change clothes

After finishing the ceremony, Emperor Tianlan did not wear royal robes, but wore some simple plain clothes and walked to a remote place in the deepest part of the palace.

There are some ancient buildings everywhere here, some of them are very dilapidated and covered with cobwebs.

But at this time, Emperor Tianlan's heart was filled with a faint excitement.

Because he still has hope that he can win this round.

This hope is the ancestor of the Sky Blue Empire who has always been hidden.

When the Sky Blue Emperor ascended the throne of the Sky Blue Empire, his father, the previous emperor of the Sky Blue Empire, once told the Sky Blue Emperor that if there was any crisis of annihilation in the Sky Blue Empire, he could enter the forbidden areas of the royal family. Looking for an ancestor from the Sky Blue Empire for help.

The ancestor of the Sky Blue Empire didn't know when he survived, but he had always existed in the forbidden area.

It is said that the royal ancestor of the Sky Blue Empire had a very terrifying cultivation level.

The Sky Blue Empire has been able to stand on this land for so many years without being destroyed, just because of the existence of that mysterious royal ancestor!

When Emperor Tianlan reached the end of this remote place, he saw a huge valley.

On the entrance of the valley are written the three characters "Wen Shen Valley".

At this time, the Sky Blue Emperor walked to the entrance of the valley, gathered enough strength, and shouted loudly: "The Sky Blue Empire is about to perish, please ask the ancestors to come out to rescue!"

Boom! !

And the moment Emperor Tianlan finished speaking, the entire valley suddenly began to shake violently.

It can be seen that a huge crack appeared in the middle of the huge valley, and then moved towards both sides.

The scene inside the valley appeared.

On the ground, there were huge bronze men, tens of thousands of them.

And behind tens of thousands of bronze men, stands a huge high platform.

At this time, an old man with an immortal spirit was standing on this huge high platform, his eyes slightly closed, as if he was comprehending the way of heaven.

When Emperor Tianlan saw this immortal old man, his eyes immediately showed deep excitement.

Everything his father told him back then was true!

There really are ancestors within the royal family of the Sky Blue Empire!

Emperor Tianlan immediately flew over and said respectfully: "Old Ancestor, the unfilial descendants are here to visit. Please ask Old Ancestor to help!"

The ancestor of the royal family slowly opened his eyes at this time, and his voice was extremely old: "I already know everything you said. That Cangtian Lord comes from the Yuhua Shenmen. It is normal that you can't fight him."

Upon hearing this, the Sky Blue Emperor revealed a look of surprise in his eyes: "It turns out that Lord Cangtian comes from the overlord force in our wilderness, the Yuhua Shenmen. No wonder he has such powerful strength and knows how to use mysterious means to suppress the destiny of our Sky Blue Empire. Golden Dragon."

r\u003e

The Yuhua Shenmen is the dominant force in the wilderness among the seven major domains of the human race. It is a super sect and represents the supreme holy land for human martial arts practice in the wilderness.

There are seven human emperors in the seven major domains of the human race.

It is rumored that the Human Emperor of the Desolate Realm is in the Ascension Gate!

At this time, Emperor Tianlan's face looked a little ugly, and he couldn't help but said: "Ancestor, if you take action against that Cangtian Lord, will it anger the Yuhua Shenmen behind Cangtian Lord?"

Hearing this, the ancestor of the royal family immediately shook his head with a smile and said loudly: "Lord Cangtian is just a disciple of the Yuhua Shenmen who was expelled from the master's sect. In other words, the current Lord Cangtian is no longer a disciple of the Yuhuashenmen. Otherwise Lord Cangtian would not come to such a remote empire as our Sky Blue Empire, so if I take action, even if I kill Lord Cangtian, it will not cause any trouble. "

When Emperor Tianlan heard what his ancestor said, he immediately showed an excited smile on his face: "That's great! Ancestor, hurry up and take action! The Giant Spirit God's protective formation shouldn't last long."

Seeing Emperor Tianlan's excited smile, the ancestor's face immediately darkened: "Actually, this matter is also your fault. How did you become the emperor? There is such a fierce tiger as Lord Cangtian in the territory you control, and there is no trace of it at all. You don't pay attention to him, you only know how to suppress him openly, but you don't know how to weaken his power secretly. I have to say that you are a failure as an emperor, and you are the most failed emperor I have ever seen! "

Hearing his ancestor reprimanding him like this, Emperor Tianlan immediately turned pale and quickly knelt on the ground with a plop, kowtowed and said: "Old Patriarch, I was wrong! This is what my ancestor taught me!"

The ancestor of the royal family sighed at this time: "If I take action, it will be very costly to my life. I suffered a huge trauma in my early years, so I have been recharging my energy and want to recuperate. Unexpectedly, You caused such a mess for me."

At this time, the ancestor of the royal family was talking, and Emperor Tianlan did not dare to say a word at all.

The next moment, the ancestor of the royal family spoke out: "But that Lord Cangtian is too courageous and actually intends to rebel, so I have no choice but to take action! Punish this ambitious person!"

When Emperor Tianlan heard what his royal ancestor said, he immediately showed a happy look on his face. No matter how his ancestor reprimanded him, as long as his ancestor was willing to take action, the crisis in the Sky Empire could be resolved instantly!

"wake up!"

Suddenly at this time, the ancestor of the royal family roared at the tens of thousands of bronze giants in the valley.

Boom!

Boom!

Almost at this moment, tens of thousands of bronze giants suddenly woke up, and red light appeared in their bronze eyes, which looked very incredible!

Emperor Tianlan became excited all of a sudden: "With such an army of bronze giants, Lord Cangtian's hundreds of thousands of elite troops will definitely be crushed in an instant!"

The ancestor of the royal family spoke out at this time: "Let's go out together, kill that Lord Cangtian, and restore the majesty of the royal family of my Sky Blue Empire!"

Chapter 1904 Back

When Emperor Tianlan returned to the palace with the ancestors of the royal family, the entire civil and military officials were discussing with each other, their eyes full of worry.

After all, the outside is already heavily surrounded at this time. As long as the power of the giant spirit formation is exhausted, their entire inner city of the palace will fall into destruction.

Therefore, all the civil and military officials in the royal family of the Sky Blue Empire, including many soldiers, were terrified in their hearts.

They had been comfortable for too long, and when they were suddenly betrayed, they were naturally in a hurry, and they simply lost their opinions.

At this time, Emperor Tianlan returned to the court from the depths of the palace.

"Your Majesty, what should we do now?"

"Your Majesty, I think we should directly compromise with the Lord of Heaven and live in peace."

"Your Majesty, I don't agree with the Prime Minister's idea. Please allow me to lead one hundred thousand elite soldiers to fight to the death with the Lord of Heaven!"

...

At this moment, in the entire court hall of the Sky Blue Empire Palace, all the civil and military officials and many soldiers spoke out one after another.

Some of them are panicked and helpless, some are trying to make peace, and some are fighting to the end.

Emperor Tianlan didn't look panicked at all at this time. He looked at the entire court and suddenly smiled and said: "You don't need to say more, my ancestors of the royal family have come out of the mountain, and the banner of victory has fallen to us, Tianlan." The imperial family's side."

Almost at the moment Emperor Tianlan said these words, many civil and military officials in the entire court suddenly spoke in shock.

"What? Our royal ancestors are still alive?"

"Probably not the first generation ancestor, but since His Majesty said so, he must be an extremely powerful late emperor."

"It seems that this is a secret that only His Majesty knows. We never knew that there is an ancestor hidden in the palace. Looking at His Majesty's confident look, the ancestor must be very powerful. Now we are completely safe!"

...

At this moment, all the civil and military officials in the entire court could not help but speak out.

Everyone's tone was full of deep joy and excitement.

Originally, they were already in despair, but now His Majesty said that an ancestor suddenly appeared.

However, there were also people with doubtful eyes, wondering if His Majesty told them on purpose, just to appease people.

But just the next moment.

Buzz!

A powerful aura that was extremely terrifying and majestic suddenly spread from outside the palace hall.

"It seems that our ancestors have completely taken action!"

At this moment, Emperor Tianlan walked out of the court.

Behind him, many civil and military officials and soldiers followed him out.

The next moment they saw an extremely shocking scene.

It is simply something they can remember for a hundred years.

Under the dim sky, an old man full of boundless momentum was seen, leading an army of tens of thousands of bronze giants. Like an army of gods and demons, he slowly walked out from the deep forbidden area of the palace, looking full of boundless power. , very scary.

"What kind of army is this?!"

All civil and military officials were stunned.

The bronze giants were simply terrifying to the extreme. Their entire bodies were made of bronze, and their pupils glowed red, making them look extremely terrifying.

Like war machines

In this way, it can crush everything.

"Is this the legendary mechanism technique that has been lost for many years?!"

Among the civil and military officials, there were those with extraordinary eyesight who couldn't help but exclaimed in surprise.

"Tens of thousands of bronze giants, all of them are powerful mechanism beasts! This is the legendary mechanism technique!"

Another person couldn't help but speak out.

"Hahaha! Our ancestors are really powerful! Such an army of tens of thousands of bronze giants is definitely comparable to hundreds of thousands of ordinary soldiers!"

"Our Sky Blue Empire can be saved! Even if Lord Cangtian has hundreds of thousands of troops, he can't resist the tens of thousands of bronze machine beasts of our ancestors! Moreover, the cultivation aura of our ancestors is even more powerful than Lord Cangtian!"

...

At this time, all the civil and military officials in the royal family of the Sky Blue Empire could not help but roar with excitement.

"Open the city gate!"

Suddenly at this time, the ancestor made a sound from high in the sky.

"Rumble..."

Immediately, the soldiers guarding the inner city of the palace obeyed the order and opened the gates of the entire inner city.

The giant spirit god's protective formation also dispersed at this moment.

At this time, the group of Cangtian Lords stationed outside looked at the guarding formation that suddenly dispersed, and even the city gates were opened, and their eyes showed surprise.

They didn't seem to expect that the royal family of the Sky Blue Empire would take the initiative to open the city gate. Was this an initiative to declare war?

Shadow smiled coldly and said: "Lord, these royal families of the Sky Blue Empire probably want to surrender, so they took the initiative to open the gate of the inner city."

Lord Cangtian's eyes did show a hint of thinking at this time: "According to my judgment, Emperor Tianlan cannot be the one who surrendered on his own initiative. Do they have a countermeasure?"

Boom! !

While the two people were discussing, a violent roar suddenly sounded in the inner city of the palace.

The roar was extremely terrifying, just like countless giant beasts trampling the earth, and the entire world was shaking violently.

"In the end what happened?"

At this moment, the hundreds of thousands of troops behind Lord Cangtian couldn't help but show surprise in their eyes.

And the next moment, they saw a shocking scene...

In the inner city of the imperial city, bronze giants with a height of several hundred meters were seen. Their eyes were glowing red, and they looked like gods and demons. They walked out of the palace. Numbers in the tens of thousands!

And in the uppermost sky of this army of bronze giants, the ancestors of the royal family were floating above.

Although the ancestor of the royal family is very old, at this time he feels like an ancient sacred mountain, suppressing high in the sky, giving people a feeling of suffocation.

Buzz!

A terrifying and earth-shattering aura emanates from the ancestors of the royal family, like a giant god standing high in the sky, exuding extremely terrifying power that can shake away people's souls and overwhelm the sky.

"So strong!"

At this moment, even hundreds of thousands of troops are unable to suppress the old man's momentum. Even hundreds of thousands of troops, everyone

I felt a sense of suffocation and a feeling of being hoarse.

"Hmph! I didn't expect that there is an old guy hiding among the royal family!"

Lord Cangtian suddenly shouted coldly.

After his cold shout, Lord Cangtian suddenly burst out with an earth-shattering aura.

This huge momentum immediately offset the pressure released by the ancestors of the royal family.

The entire army of hundreds of thousands breathed a sigh of relief.

Shadow's eyes were extremely solemn at this time, because he felt that the cultivation of this royal ancestor was stronger than the lord.

The crisis comes instantly!

No one thought that there was an ancestor hidden among the royal family of the Sky Blue Empire.

Emperor Tianlan also walked out of the palace at this time. With a sneer in his eyes, he stared at Lord Cangtian opposite him and said loudly: "Lord Cangtian, you dared to raise an army to rebel today, and you almost succeeded. , but you never thought that the background of the royal family of my Sky Blue Empire is beyond your imagination! With my ancestors here, the imperial power of the Sky Blue Empire is as stable as a mountain! Even a disciple like you who came from the super sect cannot overthrow me! The imperial power of the Sky Blue Empire!"

At this time, with the support of his ancestors, Emperor Tianlan was naturally not afraid at all. He would scold Lord Cangtian arrogantly when he caught him.

Lord Cangtian's eyes also became a little solemn, because he also felt that the cultivation level of this royal ancestor was the fourth level of the God King Realm among the Titled God Realm.

And his Cangtian Lord cultivation is only the second level of the Titled God Realm, the Divine General Realm.

Although Lord Cangtian's inheritance is extraordinary and he comes from a super sect, this allows his own combat power to leapfrog the competition.

However, Lord Cang Tian asked himself that he could only defeat the powerful men of the third level of the Divine Sovereign Realm.

But this royal ancestor is a fourth-level God King Realm super master. The gap is a bit too big, and it is difficult to bridge the gap between these two levels.

"No matter what, today I raise my troops to overthrow the imperial power. It has reached this juncture. Even if I die, I will still fight!"

Lord Cangtian thought to himself, and then an unprecedented terrifying aura suddenly erupted from his body.

That is an indomitable fighting spirit!

That is a kind of determination to fight against the odds!

"What a good boy, you are two realms below me, and you still dare to show your fighting spirit to me? Then I will help you!"

The ancestor of the royal family roared loudly, and immediately ordered the tens of thousands of bronze troops under his command to attack.

"superior!"

At this time, Lord Cangtian also ordered his hundreds of thousands of elite soldiers and generals to attack.

Boom!

Boom!

Almost at this moment, all the battlefields below fell into chaos.

The bronze giant was so terrifying that dozens of soldiers were trampled to death with just one step.

Thousands of soldiers combined together can handle a bronze giant.

"Pfft!"

"Pfft!"

"..."

Soldiers were killed one by one. The power of the bronze giant was so fierce, like a war machine. The impact was so terrible that the conventional army could not resist it. The entire battlefield was suddenly filled with blood, and the sky was filled with blood. Lord Training

More than half of the hundreds of thousands of elite soldiers who were trained were quickly killed in a brutal manner.

When Lord Cangtian saw this scene, his eyes were red...

He never thought that the ancestor of the royal family was not only powerful in cultivation, but also controlled such a war machine beast numbering tens of thousands!

This kind of bronze giant charges on the battlefield, and its destructive and killing power is so terrifying that it cannot be resisted at all.

"No!!!"

Lord Cangtian went crazy and rushed towards the battlefield.

Boom!

He slapped fiercely, and a huge palm smashed a bronze giant into pieces.

"Lord Cangtian, you can't save your soldiers. They are all destined to die under the iron hooves of this ancestor's bronze giant army."

The ancestor of the royal family sneered and pointed in the direction of Lord Cangtian below.

"The finger of eternal vicissitudes!"

The ancestors of the royal family suddenly displayed an extremely powerful martial arts inheritance.

This finger of eternal vicissitudes is definitely the top martial arts inheritance in the Titled God realm.

At this time, the ancestor of the royal family made a direct killing move. He obviously wanted to get rid of Lord Cangtian as soon as possible and solve all the riots instantly.

"Buzz!"

At this moment, a finger of the ancestor of the royal family suddenly condensed into a huge giant finger high in the sky.

This huge finger is pitch black in color, and the texture on the surface of the fingernail is huge. It looks extremely real, like the finger of a dark giant, coming from the ancient times and piercing the void. Time and space can destroy all things, with endless vastness and atmosphere, as if they can shake the heaven and earth, making the souls of thousands of creatures tremble.

This giant finger was really terrifying. The moment it fell from the sky, the entire earth suddenly cracked into pieces. Countless buildings collapsed under the huge pressure. Lord Cangtian was the first to bear the brunt. At this moment, too He felt a huge and terrifying pressure on his body.

"ah!"

This is the killing move of the ancestor of the royal family, a terrifying blow from a super powerful person in the fourth level of the Titled God Realm, the God King Realm.

Powerful energy like the vast ocean, terrifying power like the ancient sacred mountain, were suppressed from that huge finger. Even the Lord of Heaven couldn't help roaring, feeling the irresistible despair, and there was something that could shock. The pressure that shattered his soul.

"Are we going to lose like this?!"

At this time, Lord Cangtian felt deeply unwilling.

"Lord, I'm back!"

But suddenly at this critical moment, a young man's loud shout suddenly came from the distance.

"This voice is...Ye Feng!"

Almost at this moment, whether it was the Cangtian Lord, the shadows, or the hundreds of thousands of troops in the Cangtian territory, they couldn't help but change their expressions, and then they felt deep joy.

Because this is a young man who has repeatedly created miracles in the Cangtian territory!

Now under such a huge crisis, he suddenly appeared, which means that he must have the means to solve this huge crisis!

At this time, Lord Cangtian was also in tears, "I really did not misjudge you, Ye Feng, you are still here at this difficult time..."

Chapter 1905 It's completely over

The moment Ye Feng's voice rang out, all the Cangtian Lord's subordinates were given a shot of strength.

Although they all know that Ye Feng is just a young genius and cannot be compared with the powerful elders like the ancestors of the royal family.

But for some reason, even Lord Cangtian himself has an inexplicable confidence in Ye Feng, a young man who has repeatedly created miracles.

Ye Feng must have seen the crisis in the imperial city at this time, but he still came here, so he couldn't have come to die, he must have his own means.

Uh-huh!

And just when everyone was guessing, Ye Feng's figure actually appeared on the field.

In a flash, he came to the side of Lord Cangtian and helped the seriously injured Lord Cangtian up.

When Lord Cangtian saw Ye Feng, he couldn't help but trembled with his hands and said, "I knew you were not dead! You are such a tough boy, there is no way you died in that deep sea area!"

Shadow saw the familiar figure of Ye Feng not far away, and a relieved smile appeared on his face.

Originally, he thought that Ye Feng had disappeared for half a year and had not yet teleported out of the ruins of the Holy City, so he guessed that Ye Feng might be dead.

But now that Ye Feng has reappeared, Shadow is also very happy.

"Haha, I thought some powerful person came here? It turns out it's just an ant who can't reach the tenth level of the Divine Palace Realm!"

The ancestor of the royal family spoke out from high in the sky, with deep disdain and sneer in his tone.

"Since you have a deep love for master and disciple, then I will let you die together!"

The ancestor of the royal family suddenly took action, and what he displayed was still the finger of eternal vicissitudes.

This is the highest level of inheritance in the realm of titled gods passed down from the royal family of the Sky Blue Empire.

At this time, the ancestors of the royal family once again used the Finger of Eternal Vicissitudes. The purpose was very simple, that is, to completely kill Lord Cangtian and Ye Feng.

"Get out of here!"

At this time, Lord Cangtian's eyes were startled, and he immediately pulled Ye Feng and ran away.

But at this time, Ye Feng remained motionless, with a confident smile on his face: "Lord, don't worry, a mere ancestor of the royal family is nothing!"

Almost at the moment the words fell.

Ye Feng suddenly shouted coldly: "Emperor Chu! Come on!"

Buzz!

At the next moment, a red light surged out of the storage spirit ring in Ye Feng's hand.

Almost at this moment, a huge and towering red giant of light appeared above Ye Feng's head.

"Boom!"

The red giant of light punched high into the sky, and terrible energy exploded. The huge finger was directly shattered by the blast, and scattered into energy light waves that filled the sky and disappeared.

"What?!"

Everyone who saw this scene couldn't help but look deeply shocked.

Even the many civil and military officials of the Sky Blue Empire, and even the Sky Blue Emperor, could not help but tremble in their eyes at this moment.

They never thought that Lord Cangtian would have such a trump card. A mysterious young man came with power that rivaled the ancestors of the royal family.

"What a powerful force!"

Lord Cangtian was also a little shocked at this time.

He stared at the huge red light giant, and could feel that the cultivation aura of this light giant was the same as his. They were both at the second level of the titled god realm, the god general realm.

But the power erupted by this giant of red light is much stronger than him, and it can actually overwhelm the ancestors of the royal family at the fourth level of the God King Realm!

This is simply unimaginable!

Unless this giant of red light has a very profound knowledge of martial arts and can fully utilize his power to explode with combat power several times his own strength.

It takes thousands or even tens of thousands of years of accumulation to be able to do this!

Lord Cangtian was a little shocked. Even the super sect he came from, almost no one could do this.

"What kind of existence is this red giant of light that Ye Feng brought back?"

At this moment, Lord Cang Tian stared at Ye Feng beside him with deep disbelief.

He was a little shocked. What had Ye Feng experienced in just six months to actually have such a terrifying trump card?

Shadow, who once took Ye Feng to practice together, was now staring at the red giant of light with monstrous power, his eyes filled with deep incredulity.

Because he knew that Ye Feng might have been trapped in the ruins of the Holy City for the past six months.

In other words, all the opportunities that Ye Feng has obtained in the past six months came from the ruins of the Holy City.

And Ye Feng may finally break the seal and come out relying on his own strength.

This is an unimaginable feat!

Shadow was also in a surging mood at this time, and he was extremely excited that Lord Cangtian could obtain such a peerless genius.

"What? You can actually block my attack!"

At this time, seeing the red giant of light smashing the huge black fingers in one fell swoop, the ancestor of the royal family also showed a look of surprise on his face.

He stared at the red giant of light, with a look of deep fear on his face.

Because of the eternal vicissitudes of life, it is the most powerful attack method of the ancestors of the royal family.

But now it has been shattered by the other party, which means that the other party's strength is comparable to mine.

This made the royal ancestor, who was originally extremely confident, suddenly become a little timid.

The ancestor of the royal family thought for a while, stared at the huge red giant of light underneath, his eyes flickered, and suddenly said: "Your Excellency should be the incarnation of the remnants of an ancient power, right?"

The giant of red light, the Emperor of Chu, spoke slowly and unhurriedly: "You are right, I am the emperor of the Kingdom of Chu thousands of years ago."

Millions of years ago?

The emperor of the Great Chu Kingdom?

After Emperor Chu revealed his identity, the entire audience was in shock.

Everyone, including the royal family of the Sky Blue Empire, had their eyes fixed on Ye Feng.

They never thought that this ordinary-looking young man

, unexpectedly gained the attention of an emperor from the ancient human race's divine kingdom thousands of years ago!

The ancestor of the royal family suddenly stared at the giant of red light and said loudly: "You don't need to help a little junior. If you are willing to join us in the Sky Blue Empire, then I swear on my own honor that I will help you continue to I will restore my strength and use all the resources of the Sky Blue Empire to help you."

At this time, it was obvious what the royal ancestor said, that is, he wanted to win over this giant of red light.

The words of the ancestor of the royal family made Lord Cangtian and other subordinates couldn't help but change their expressions.

Because the giant of red light can completely comply with the solicitation of the royal ancestors, the benefits to him are huge.

After all, no one would have thought that this extremely powerful red light giant did not help Ye Feng because of his fancy. They all thought that this red light giant was Ye Feng's master or something.

But suddenly at this moment, Ye Feng stood on the ground, suddenly stared at the royal ancestor, sneered and said: "Royal ancestor, don't waste your efforts in vain, this giant of red light can... Not my guardian, but my slave!"

Wow!

Almost at the moment Ye Feng finished speaking, there was a gasp of air from the entire field.

"What?! Such a powerful giant of red light is actually Ye Feng's slave!"

"How is this possible! It's incredible!"

"Who is this Ye Feng? Is he the heir of a certain god? He can actually make an ancient great master his slave!"

...

At this moment, the entire venue was completely boiling because of Ye Feng's words.

Everyone's eyes were filled with deep disbelief and disbelief as they stared at Ye Feng.

The ancestor of the royal family also had a look of disbelief on his face at this time. He stared at the giant red light opposite and asked with some difficulty: "Fellow Taoist, is what that boy said true?"

Emperor Chu shrugged at this time and said: "What he said is true. I am indeed just a humble servant, so I'm sorry, I can only kill you."

The ancestor of the royal family suddenly laughed out loud: "Hahaha, I didn't expect that the ancient power would become someone else's dog. It's really ridiculous!"

Emperor Chu just smiled coldly: "I won't bother you with this kind of thing. Today I will get rid of this obstacle for my master!"

The ancestor of the royal family laughed loudly: "You and I have about the same combat power, but I have one more trump card than you that can defeat everyone, and that is my army of bronze giants!"

"Army of Bronze Giants! Crush everything for me!"

At this time, following the order from the ancestor of the royal family, the army of tens of thousands of bronze giants immediately took action.

Boom!

Boom!

All the soldiers under Lord Cangtian were trampled to pieces.

This army of tens of thousands of bronze giants is really powerful.

When they gathered together, they were like a torrent of steel, indestructible and beyond the reach of ordinary armies.

At this time, the faces of Cangtian Lord's people became extremely ugly.

Because even if the giant of red light defeats the royal ancestors, the bronze army will crush all their foundations, and everything will become meaningless.

But suddenly at this moment, Ye Feng suddenly spoke up: "Old Patriarch! Long Tian! You all come out! Crush this entire bronze army to pieces!"

"Rumble..."

Suddenly at this moment, an army of hundreds of thousands of dinosaurs, all dragon knights, covered in armor and fully armed, rushed out from the dark jungle in the distance. The power was extremely terrifying. No less than the Bronze Army.

Boom! ! !

The moment the two collided, the dinosaur knight army smashed the bronze army into pieces.

Because the army of dinosaur knights are all well-trained, and they are all ferocious beasts. Together with the human dragon knights, their combat effectiveness is amazing. They are all wearing heavy armor, and their defense power is also extremely terrifying. They are like a steel legion, with Extremely terrifying impact and destructive power.

"Very good!!!"

Lord Cangtian and other people saw this scene, and their faces showed deep excitement.

At this time, countless people's eyes were fixed on Ye Feng. They were extremely shocked. This young man brought them too many surprises.

"What? Where did the dragon knight come from! All my bronze army was destroyed. This is impossible!"

At this time, the ancestors of the royal family who were fighting with Emperor Chu high in the sky saw the tragic scene below and suddenly made a sound of distress and pain.

Boom! !

At this moment, Emperor Chu rushed towards the ancestors of the royal family, displaying a very powerful and unparalleled ancient inheritance.

"Destroy the world!"

Emperor Chu roared loudly, and boundless terrifying energy suddenly burst out from his body of the red giant of light.

Suddenly, a terrifying aura appeared all over the sky, making countless people feel like they were falling into an ice cellar, and their souls were about to be shattered.

"ah!!"

The ancestors of the royal family are unable to withstand this terrifying power of destruction at this time, because this is an inheritance from the ancient times tens of millions of years ago, a golden age of practice, where all the gods walked on the earth, and what is contained in them His energy and mysteries are simply not something that ordinary people of future generations can resist.

The ancestor of the royal family let out a loud roar of pain, and his whole person was enveloped in a world-destroying energy. There was aura of destruction everywhere, terrifying light waves everywhere, and rivers of destructive energy everywhere. The entire world They all seemed to be in turmoil and could never be at peace.

The ancestor of the royal family died in the end. His whole body was shattered and all vitality was destroyed. He fell from a high altitude and hit the ground hard, with blood all over the ground. shocking.

"It's over..."

Emperor Tianlan's eyes were full of deathly gray at this time, and he fell to the ground with a plop.

All the civil and military officials in the royal family also collapsed on the ground in despair.

They knew that the Sky Blue Empire was over.

Completely finished.

Chapter 1906 Crossing a big level

The army was defeated like a mountain.

After the death of the most powerful supporter, the ancestor of the royal family, all the remaining royal members of the Sky Blue Empire had no intention of resisting.

Even the leader of the country, Emperor Tianlan, had a look of despair on his face at this moment, half-kneeling on the ground, losing any hope.

Lord Cangtian suddenly stood up from the ruins and said to the hundreds of thousands of troops behind him: "Follow me to attack the imperial city with all your strength and kill all the royal families of the Sky Blue Empire!"

Rumble...

Almost at the next moment, all the soldiers roared excitedly, raised their weapons, and charged towards the interior of the palace.

The result was no doubt that the entire royal family of the Sky Blue Empire was destroyed.

From now on, there will be no Sky Blue Empire in this territory. From now on, there will only be Cangtian Empire, and from now on there will only be Cangtian Emperor!

Just when Lord Cangtian was leading his men to clean up the entire mess.

Ye Feng was alone on the ruined battlefield and began to release his devouring domain.

He asked Emperor Chu to help him protect the law and not to let anyone get close to him and disturb him.

As a giant of light, Emperor Chu soared directly to the sky and stood there. His majesty shrouded all directions, and no one dared to come forward to disturb him.

Even Lord Cangtian didn't come forward to ask Ye Feng what he was doing.

But Lord Cangtian doesn't have time now.

He is now closely contacting various generals and commanders of the Sky Blue Empire throughout the territory, asking them to surrender to him and support him to become the new generation of emperor.

Ye Feng was currently on the ruined battlefield, using the Devouring Domain to quickly absorb the blood energy of the entire battlefield.

For Ye Feng, this kind of battlefield is his favorite.

Because the energy and blood of countless strong men and warriors can be swallowed and strengthened by oneself.

Especially the ancestors of the royal family and the killed Emperor Tianlan, who were all powerful men at the level of the titled gods.

The energy and blood of one person can rival that of hundreds of thousands of people.

Incomparably powerful and majestic!

Ye Feng also received a lot of royal inheritance from the two people's storage rings.

Of course, the most powerful one is the Eternal Vicissitudes Finger that the ancestor of the royal family used before.

According to Emperor Chu's judgment, this rank of eternal vicissitudes should be at the top of the Titled God Realm.

This is an extremely powerful inheritance, which is just right for Ye Feng's current use.

As for the methods possessed by the ancient powerhouse Chu Huang, Chu Huang told Ye Feng that he was not suitable for cultivation yet because his cultivation level was too low.

If you practice hastily, it will definitely be counterproductive, because you will not be able to master the secrets of ancient martial arts, and you will go crazy.

Although Ye Feng didn't know if Emperor Chu was deceiving him, Ye Feng didn't need such ancient martial arts for the time being, because even if he learned it, he probably wouldn't be able to use his current power.

After all, that kind of ancient martial arts definitely requires extremely powerful and powerful skills to be used.

So at this time, Ye Feng first learned about the eternal vicissitudes of life before talking about it.

In the following time, Ye Feng practiced the Eternal Vicissitudes Finger while devouring all the blood energy on the entire battlefield.

In addition to the blood energy of the warrior army, the most powerful ones are the skills of the ancestors of the royal family and Emperor Tianlan.

You must know that the ancestors of the royal family are strong men in the God King Realm, the fourth level of the Titled God Realm, and Emperor Tianlan is also a strong man in the God General Realm, the second level of the Titled God Realm.

The huge skill and blood energy contained in the bodies of these two strong men gave Ye Feng a huge improvement.

"Boom!"

"Boom!"

"..."

Suddenly, the entire broken battlefield was filled with the aura of Ye Feng's cultivation breakthrough.

Emperor Chu, who was protecting Ye Feng from high in the sky, looked at Ye Feng's overbearing cultivation method below and felt a little surprised in his heart.

However, considering that Ye Feng is the descendant of the gems of the gods and may become the supreme ruler of all heavens and worlds in the future, it is not so strange to have such a cultivation method.

Even in Emperor Chu's eyes, it would be abnormal if Ye Feng didn't have such a heaven-defying and evil talent.

Ye Feng spent the entire half month practicing and devouring.

Finally, in the early morning of this day, Ye Feng suddenly opened his eyes, with endless divine light shining in his eyes, and the aura on his body was boiling to an extreme.

At this moment, his cultivation realm is the perfect state of the tenth level of Minghe Realm!

This is an extremely terrifying breakthrough!

In just half a month, with the help of this battlefield, as well as the skills of the royal ancestors and Tianlan Emperor, Ye Feng's cultivation level went directly from the tenth level of the Divine Palace Realm to the next level of the tenth level of the Life River Realm. Chongtian!

It has crossed a huge level!

Transformed to a great level!

For Ye Feng, whose body is like a bottomless pit, this is a huge breakthrough!

So Ye Feng's eyes were full of joy at this time.

He didn't expect that he would get so much this time.

At this time, the old patriarch came over from not far away, smiled and said: "Ye Feng, Lord Cangtian has appointed us as a separate Dragon Knight Legion. Oh no, we should be called His Majesty Cangtian now."

Ye Feng looked at the old patriarch and knew that Lord Cangtian had taken control of everything in the past half month, completely controlling the entire territory that Emperor Tianlan once controlled.

Now this land of the human race has become the territory of the Cangtian Emperor.

In this country, everyone must worship the Heavenly Emperor.

Uh-huh!

At this time, Emperor Chu turned into a red light, fell from the sky, and entered the storage ring on Ye Feng's finger.

When the old patriarch saw this scene, he sighed inwardly.

If Ye Feng hadn't conquered this ancient power, Lord Cangtian might have failed this time.

It can be said that Ye Feng turned the tide with one manpower. If not for Ye Feng's arrival, Lord Cangtian would have become a prisoner or even dead.

"Ye Feng, if you have completed your cultivation, then come to the palace, I have something to tell you."

Suddenly, at this moment, Ye Feng heard a majestic voice coming from his ears.

This is the voice of the Lord of Heaven.

Lord Cang Tian was transmitting a message to him.

Ye Feng looked at the old clan leader and said: "From now on, you and the dragon-taming clan can stay here with peace of mind. Now that Lord Cangtian has become the emperor, your status has also been improved. The future of the dragon-taming clan is here. "

The old patriarch smiled and said: "In any case, thank you for your kindness, little friend Ye Feng. No matter how many years have passed, as long as little friend Ye Feng requests it, our dragon-taming clan will serve you for generations to come."

"The old patriarch made a strong statement."

After Ye Feng said something, he stood up and walked towards the palace.

Soon he shuttled through the layers of buildings and arrived at the lobby in the center of the palace.

At this time, there were hundreds of civil and military officials in the entire court.

Many are recent recruits.

They didn't know Ye Feng.

At this time, Lord Cangtian, who was sitting on the throne at the top, had put on a royal robe and looked extremely majestic.

At this time, Lord Cangtian immediately said: "All my dear friends, please go down. I have something special to discuss with Ye Feng."

Chapter 1907 The Road to the Future

"What? He is Ye Feng?!"

The moment Lord Cangtian finished speaking, many civil and military officials in the entire court couldn't help but look in horror.

Although they don't know Ye Feng or have met Ye Feng, Ye Feng's name has spread throughout the Cangtian Empire during this period.

Everyone knows that it was Ye Feng, a legendary young man, who fell from the sky at the last moment and single-handedly turned the tide and saved the Cangtian Lord, so the Cangtian Empire was created today.

Therefore, many civil and military officials looked at Ye Feng with awe.

It turns out that it was this young man who saved the entire Cangtian Empire!

After the civil and military officials left, the entire court was deserted.

Only Lord Cangtian and Ye Feng stood among them.

At this time, Lord Cangtian stared at Ye Feng, first clasped his fists and said: "No matter what, I want to be deeply grateful to you this time, Ye Feng."

In front of Ye Feng, Lord Cangtian didn't have the airs of an emperor at all.

Seeing this, Ye Feng hurriedly stepped forward, clasped his fists and said loudly: "If the lord hadn't sent someone to bring me from the low-level universe to the God Realm, I'm afraid I would still be hanging around in the low-level universe now. Is it the lord?" Sir, you gave me a new big stage, so I can achieve such success."

Ye Feng said this not as a compliment, but as a matter of fact.

Ye Feng still has a sense of gratitude towards Lord Cangtian.

After all, Lord Cangtian promoted talents from all kinds of disadvantaged families in an eclectic way, which made Ye Feng very admired.

Lord Cangtian looked at Ye Feng and laughed loudly: "Ye Feng, Ye Feng, I really didn't misjudge you from the beginning. You are an eternal genius!"

At this time Lord Cangtian spoke up and continued: "Ye Feng, what are your plans next? I know you definitely don't want to be a general guarding one side. That pair of

It's too boring for you. "

When Ye Feng heard what Lord Cangtian said, he couldn't help but smile and said: "Lord, you guessed it right. I really have no interest in these rights in the court. What I want to do is to continue to become stronger."

In fact, it is very simple for Ye Feng to ask Lord Cangtian to make him a general or directly a prince. It is just a matter of one sentence.

But Ye Feng doesn't want to do this, because it won't be of much use to improve his martial arts training.

Ye Feng's biggest enemy in his heart is one of the oldest divine tribes standing in the God Realm: the Chaos God Tribe!

That is one of the most powerful races among the countless races in the God Realm!

Therefore, what Ye Feng wants most now is to continuously improve his strength and try his best to reach the legendary peak. Then he can go directly to the Chaos God Clan to meet his mother.

Although Uncle Nan once said that my mother had a high status in the Chaos God Clan because she had awakened the extremely noble bloodline of Chaos.

But Ye Feng knew very well that there was a Chaos God King and a Chaos Prince in the Chaos God Clan, so his mother must not be free, and she might just be a tool of the Chaos God Clan.

Therefore, for this ambitious goal in his heart, Ye Feng knew that he could not covet temporary pleasure, otherwise it would be quite good for Ye Feng to become a general in this three-acre land.

But this is not possible for Ye Feng. His inner sense of crisis makes him have to continue to become stronger and pursue a stronger path.

Because my mother is still waiting for her to be rescued by the Chaos God Clan.

Moreover, my father, who has integrated the will of the First Universe, now does not know whether he will live or die.

If you have peak strength and have the power like a master, then you can do things that no one in the world can do, and have incredible power to save your parents.

At this time, in the empty court, Ye Feng thought for a moment and said: "Lord, do you have any good suggestions? I want to be a wandering warrior outside the territory of our human race, looking for all kinds of Opportunities are created to enhance one's own strength."

Lord Cangtian stared at Ye Feng and said aloud: "Leaving the territory of the human race to become a wandering warrior, I must first admire your courage, but I also want to warn you that if you go out to wander with your current cultivation level, you will soon become a wandering warrior. will die."

At this time, Lord Cangtian spoke with a very solemn and serious tone: "Ye Feng, do you know that even the most powerful God Emperor in the Titled God Realm would not dare to leave the human territory rashly and go outside? Wandering in the world, because you may be discovered by the strongest among the powerful races at any time, and you will be hunted down. Previously, you were in the deep sea area, and just a short distance away from the wilderness of our human race, you encountered the Jiaoyu Tribe and the Scorpion Tribe. Two powerful races, if your cultivation level is not too low, you may have been discovered by the super strong men of these two powerful races, and then they will hunt you and eat your flesh and blood. The higher your cultivation level, go out. The easier it is to attract the attention of super strong men from other powerful races, so becoming a wandering warrior is very dangerous, but this can be your future goal, when you transcend the Titled God Realm and step into the realm above the Titled God Realm. In the realm of Tao, maybe you can go out for a walk, fight against all races for our human race, and promote the majesty of our human race!"

When Ye Feng heard what Lord Cangtian said, he knew that Lord Cangtian was admonishing him based on the experience of those who had been there.

Ye Feng immediately clasped his fists and said in a very solemn voice: "Can the lord please teach me how to go in the future?"

Lord Cangtian stared at Ye Feng and came out

He said loudly: "If you ask me to give you advice, in fact, I have already thought about it. The way you will go in the future is this way. Enter the Yuhua Divine Sect and learn from the master. When your cultivation is strong enough to reach a certain level, for example, if you step into If you have

surpassed what I said about the realm of titled gods, then you go out of the human race territory and pursue what you want. Before your strength has entered the realm of Tao, don't take risks and save your own strength first. The land of God Realm is too vast, with countless powerful races and countless terrifying creatures. Even the patron saint of our human race, the Human Emperor, may fall in the outside world! "

Hearing this, Ye Feng took a deep breath and said, "Lord, how do I enter the Yuhua Divine Gate?"

Ye Feng knew that the Yuhua Shenmen was the dominant force in the wilderness among the seven major domains of the human race. It was a super sect and it was absolutely difficult to join it.

At this time, Lord Cangtian smiled and said: "You don't have to worry about this. I came from Yuhua Shenmen, and I have a disciple token on me. I smuggled that disciple token out, you can use it directly. The disciple token is engraved with your own identity information, and then you can enter the Ascension Gate."

Ye Feng's eyes showed a look of surprise: "Is there still such an operation?"

Lord Cangtian smiled and said: "I can help you with this, so that you can successfully enter the super sect such as Yuhua Shenmen to practice, but you also need to do me a favor."

Ye Feng asked aloud: "What are you busy with?"

With a hint of hope in the eyes of Lord Cangtian, he said aloud: "When you grow up in the Yuhuashenmen and become a powerful person, take me back to the Yuhuashenmen. I have a revenge to avenge. I was raped back then. I was framed by someone and was forced to leave the Yuhua Shenmen. I have been waiting for an opportunity to find a disciple with extraordinary talent and let him join the Yuhua Shenmen. If I help him, he can also help me. And this person is Ye Feng you!"

Chapter 1908 The Feathered Divine Gate

When Lord Cangtian said this, the look on Ye Feng's face was quite wonderful.

Obviously, he never thought that Lord Cangtian would have such an encounter at Yuhuashenmen.

Lord Cangtian stared at Ye Feng and continued: "Ye Feng, do you think I am using you?"

Ye Feng immediately laughed and said: "Of course I wouldn't think so. If it weren't for your kindness to me, lord, I wouldn't be where I am today. Now, lord, you have to give me an identity token to let me It's not too late for me to be grateful for being able to directly enter a super overlord force like the Yuhuashenmen. As for becoming a powerful figure in the Yuhuashenmen in the future, I will take you back, Lord. This is what I should do. Anyway, it's complicated for me. It's complicated, but it's simple to say that I will definitely repay the kindness."

When Lord Cangtian heard what Ye Feng said, he finally felt relieved. He patted Ye Feng's shoulder and said with a smile: "Ye Feng, I really did not misjudge you. Before you go to the Yuhuashen Gate, I will I will pass on my inheritance to you. My inheritance is called the Reincarnation Skill of the Heavens. It is the top god-emperor level inheritance in the Titled God Realm. It comes from the inheritance temple of Yuhuashenmen. When you enter Yuhuashenmen, you will definitely "You must concentrate on your cultivation and don't waste this hard-won opportunity. Not only your future, but also my future is in your hands."

Lord Cangtian was speaking at this time, and Ye Feng could feel from his tone that Lord Cangtian had an extremely urgent hope of returning to the Feathered Divine Sect for revenge.

Thinking of this, Ye Feng suddenly asked: "Who framed the lord at that time? I should be careful after entering the Yuhua Shenmen."

Lord Cangtian nodded and said aloud: "My real name is Shen Cangtian. The person who deliberately framed me back then was Ji Ning, the son of one of the top ten divine masters of the Yuhua Shenmen, the "Era Divine Master"! He framed me back then just for the sake of Prevent me from having an intimate relationship with Su Xinyu, the most beautiful woman in the Ascended God Sect back then."

When Ye Feng heard this, he immediately understood everything. It turned out that everything was because of beauties competing for favor.

However, Ye Feng was also mourning for the Cangtian Lord in front of him. He actually offended the son of one of the ten great lords of Yuhua Shenmen. No wonder he ended up so miserable. He was directly expelled from the sect and ended up living in such a remote place. .

In fact, it seemed that he had recalled many past events. Shen Cangtian's eyes were full of memories and sighs: "Actually, Su Xinyu and I didn't have any special relationship back then. It was just that we practiced the same inheritance, so we often competed together. Practice, let others mistakenly think that we are martial arts partners, I am framed and wronged, if not for Su Xinyu, I may be dead now, instead of simply being expelled from the sect, this hatred has always been in my heart I have

been thinking about this hatred all the time for so many years, but my own foundation has been destroyed and I can no longer cultivate people beyond the level of God Lord, so I have been looking for various powerful geniuses for so many years, and I thought Cultivate a super powerful existence that can help me take revenge and help me resolve the hatred I have had for so many years.”

At this time, Shen Cangtian expressed his deepest thoughts in front of Ye Feng.

Ye Feng nodded and said aloud

Said: "Senior Shen Cang Tian, I understand everything you said. I will definitely work hard when I go to Yuhua Shenmen to strive for the future where you can clear your grievances and avenge your great grievances."

Ji Ning, the son of the Era God Lord, expelled his fellow disciples from his sect and even destroyed them because of jealousy. This shows that Ji Ning is also a ruthless person.

Ye Feng secretly thought in his heart that when he went to Yuhua Shenmen, he must pay attention to this person, and he must not let him find out that he was related to Shen Cangtian before he grew up. Then he would be in trouble.

At this time, Shen Cangtian also said aloud: "Ye Feng, I teach you my inheritance. This reincarnation skill of the heavens can be regarded as a very top inheritance in the Yuhua Shenmen. After you arrive at the Yuhua Shenmen, you will become As a disciple among them, it is best not to reveal the Reincarnation Skill in front of outsiders, otherwise it is very likely that people will find out that you are related to me, and your situation will be very dangerous. When you become stronger, you will become If you have killed the more important people in the Yuhua Shenmen, then you can use it with confidence, because at that time, even if Ji Ning found out that you were related to me, he would not be able to deal with you. At that time, I had not grown up in cultivation. You are directly suppressed and have no right to resist. You must grow up and gain a certain amount of power before revealing your minions. This is the safest way. "

When Ye Feng heard Shen Cangtian's teachings, he immediately nodded and said solemnly: "Don't worry, I have worked hard step by step from a low-level universe to now, and I know these things in my heart."

When Shen Cangtian heard what Ye Feng said, he immediately nodded in relief, then took out an inheritance scroll from his storage ring, handed it to Ye Feng, and said aloud: "Not only does it contain my powerful inheritance, The reincarnation skill of the heavens, as well as many various

insights I have gained since my cultivation, are enough for you to reach the title of god realm. These should be of great use to you, take them, I will wait for your good news in the Cangtian Empire. "

Ye Feng took the inheritance scroll, nodded solemnly, and said: "Senior God, you will definitely live up to your expectations!"

...

Early the next morning, Ye Feng left the Cangtian Empire alone.

Before leaving, Solanum Kui, a girl from the dragon-taming clan, was very reluctant to leave. With tears in her eyes, she stared at Ye Feng who was leaving.

Ye Feng's steps were heavy and he quickly disappeared from everyone's eyes.

Shen Cangtian looked at Ye Feng's disappearing back and said to the people around him: "This trip depends on Ye Feng's own luck. This is all I can do."

After saying that, Shen Cangtian took everyone back to the palace. He still had many things to deal with.

On the other side, Ye Feng walked quickly without any delay.

Ye Feng spent the rest of the time in a hurry.

The Yuhua Shenmen is one of the seven major domains of the human race.

The overlord force of the wilderness is also the guardian of the human territory of the wilderness.

It is said that the Human Emperor who protects the wilderness is cultivating in the Yuhua Divine Gate.

Half a month later, Ye Feng arrived at the Yuhua Shenmen.

With the disciple identity token given to Ye Feng by Shen Cangtian, Ye Feng easily joined the Yuhua Shenmen.

At this moment, Ye Feng is already an outer disciple of Yuhua Shenmen.

Ye Feng smiled bitterly at this time. After so many years, he once again became an outer disciple.

However, the outer disciples of the Yuhua Shenmen have a more noble status than when I was the king and emperor of the low-level universe.

After entering the Yuhua Shenmen, Ye Feng did not show up for the time being, nor did he participate in any competitions for outer disciples.

The most important thing for him now is to improve his cultivation level and practice silently.

After Ye Feng entered the Yuhuashen Gate, he realized how big the world was.

Among the outer disciples of the Yuhua Shenmen, the weakest are all warriors at the Life River level.

Ye Feng's current cultivation level in the tenth level of Minghe Realm can only be regarded as ordinary among the outer gates of Yuhuashenmen.

At this time, Ye Feng was very lucky. Fortunately, he was in the Cangtian Empire and absorbed the skills of the ancestors of the royal family and Emperor Tianlan, allowing him to break through to the Life River realm.

Otherwise, if you only have the cultivation level of the Divine Palace, I am afraid that even if you have the identity token given to you by Senior Shen Cangtian, you may not be able to join the Feathered Divine Sect normally.

At this time, the outer gate of Yuhua Shenmen was in the wilderness.

"Boom!"

Ye Feng was fighting a dark rhinoceros covered in scales.

After entering the Yuhua Shenmen, Ye Feng basically spent these days training in the wilderness of the outer gate.

It has to be said that the Yuhua Shenmen is very generous, directly enclosing a large area of wild forest and wilderness in the outer gate area as a training ground for its disciples.

Practicing here is very close to the headquarters of Yuhua Shenmen, which greatly saves the disciples' commuting time and makes the disciples' cultivation very efficient.

Ye Feng discovered that the cultivation pace of Yuhua Shenmen was very fast, and many disciples were basically practicing continuously.

Either while practicing or on the way to practice, there are very few fights.

This may be related to the current situation of the human race in the God Realm.

After all, everyone knows that the human race is a weak race in the God Realm. On the vast land of the 98,000 realms in the God Realm, the human race really controls only seven realms.

This is definitely a very sad thing for a race.

Therefore, in the Yuhua Shenmen, the guardian overlord force of the human race, all disciples not only practice for themselves, but also practice for the rise of the human race!

Every disciple practices very hard and hard, and the goal is

It is to become the strongest person to protect the human race, so that the human race will not be suddenly wiped out by a powerful race in the future.

So Ye Feng discovered that everyone in Yuhuashenmen has a natural sense of crisis.

Perhaps the disciples who entered the Yuhua Divine Sect have truly seen that the human race is simply living in a crack in the divine world. This is a great tragedy.

Ye Feng even himself was infected. Recently, he had become very ferocious in his training. He went into the wilderness and fought with ferocious beasts every day.

At this time, Ye Feng's obsession with becoming stronger was not only for his mother and father, but also for the rise of his entire race and the glory of the entire human race!

"The Reincarnation Kung Fu of the Heavens!"

Suddenly Ye Feng roared loudly and slammed a big palm towards the dark rhinoceros in front of him.

Boom! !

Immediately, the infinite power of reincarnation appeared on Ye Feng's body, pulling the dark rhinoceros into the six realms of reincarnation. No matter how powerful the dark rhinoceros is and how hard its body is, in this terrifying reincarnation of the reincarnation skill of the heavens, in the whirlpool of power, it was suddenly broken into countless pieces.

"Swallow!"

Ye Feng burst out into the Devouring Domain and swallowed up all the majestic momentum of the dark rhinoceros.

"boom!"

A new and powerful aura suddenly burst out from his body.

Ye Feng made a breakthrough. After cultivating in the wild jungle of the outer gate for half a month and devouring the energy and blood of many ferocious beasts, he finally succeeded in accumulating again. With a lot of accumulation, he broke through the current bottleneck of cultivation and became a ten-year-old master of the Minghe Realm. Zhongtian, at this moment, stepped into the destiny realm above the life river realm!

What Ye Feng used just now was naturally the reincarnation skill of the heavens taught to him by senior Shen Cangtian, which has incredible power.

However, this powerful inheritance Ye Feng can only display it in the wilderness, and does not dare to display it within the scope of the Yuhua Shenmen, for fear of attracting the attention of interested people.

After all, there is a potentially dangerous enemy in the Yuhua Shenmen...the Lord of Era and his son Ji Ning.

At this moment, Ye Feng suddenly thought of Su Xinyu, the former training partner of Senior Shen Cangtian. If he could find Su Xinyu in the Yuhua Shenmen, he might be able to have a good relationship with Su Xinyu and get some training resources from Su Xinyu. .

However, Ye Feng only thought about this idea. Su Xinyu was the most outstanding female genius in the Ascension God Sect back then. Now that so many years have passed, Su Xinyu must have become a big shot in the Ascension God Sect.

As a small outer disciple, even if he had a relationship with Senior Shen Cangtian, Su Xinyu might not be able to help him.

"The Reincarnation Technique of the Heavens? Where did you, a small outer disciple, get such a powerful inheritance? Hurry up and recruit it truthfully!"

Suddenly at this moment, several outer disciples of the Yuhua Shen Sect walked not far away from Ye Feng. Their eyes were filled with greed, and they immediately stared at Ye Feng.

Chapter 1909 God Foundation Realm Creatures

These outer disciples of the Ascension God Sect are not weak in strength.

There were three people in total, all of them were strong men in the Tianyun realm.

Two are at the third level of Tianyun Realm, and one is at the sixth level of Tianyun Realm.

When these three people are combined together, the lineup can be said to be extremely powerful.

That's why they dared to provoke Ye Feng at this time.

When Ye Feng saw these three people, his eyes darkened slightly, and he said loudly: "Three senior brothers, my reincarnation skill of the heavens was taught to me by one of my elders. Is there any problem?"

"Did your elders teach it to you?"

After hearing what Ye Feng said, the three outer disciples all showed a trace of fear in their eyes.

Being able to learn such a powerful technique as the Heavenly Reincarnation Technique in the Yuhua Shenmen, one's status is absolutely very high.

But at this time, the leader of the three outer disciples, the sixth-level Tianyun Realm disciple, suddenly showed a ruthless look in his eyes, and said to the two people around him: "Don't be afraid of this kid, this is In the wilderness, let's kill him directly and steal his inheritance, no one will find out!"

At this time, these three outer disciples were so daring that they actually wanted to attack their fellow disciples just to snatch away that powerful inheritance.

A strong heritage means unlimited possibilities for the future.

Therefore, the hearts of these three outer disciples are full of greed at this time.

Ye Feng saw that the three of them were so ruthless, and his eyes suddenly turned cold: "Originally, I didn't want to kill my fellow disciples, but you three are so ruthless and want to kill me, it's no wonder I'm sorry, I can only kill you all!"

"A kid from the first level of Tianyun Realm, how dare you shout to kill us? Are you out of your mind?"

Seeing what Ye Feng said at this time, the three outer disciples couldn't help but burst into laughter.

In their eyes, Ye Feng is just a stupid boy.

"Stop talking nonsense and just do it!"

The leading outer disciple immediately spoke up.

"Yes, senior brother!"

"The two of us can kill this kid!"

br

The two outer disciples of the third level of Tianyun Realm immediately rushed towards Ye Feng as if they were asking for credit.

They didn't even use any inherited martial arts, they just stretched out their hands to grab Ye Feng, as if they thought they could catch Ye Feng easily.

"You are stubborn! Then I will destroy you!"

Ye Feng's eyes also showed a hint of ferocity at this time.

Ye Feng, who has been practicing for so many years, has long developed a decisive and decisive heart.

Once it is confirmed that it is an enemy, there is nothing more to say, just kill them directly.

"The sea is boundless!"

Ye Feng suddenly showed off his powerful martial arts, which he learned from the Coral Princess of the Jiaoyu Tribe.

Wow!

An infinite blue ocean suddenly shot out from Ye Feng's fists, containing a huge impact, hitting the two outer disciples like two oceans.

"ah!"

"ah!"

Accompanied by two shrill howls, the two outer disciples were immediately smashed to pieces. They were smashed directly at the waist, broken into two pieces, fell to the ground, and died instantly.

"What?!"

The outer disciple of the sixth level of Tianyun Realm, who was watching the show not far away, immediately showed deep horror in his eyes when he saw this scene.

He never thought that this ordinary boy who looked ordinary could have such powerful combat power.

"escape!"

At this moment, the last remaining outer sect disciple immediately flew away into the distance.

He knew that Ye Feng couldn't afford to offend him at all.

"Chase!"

Now that Ye Feng has killed two outer disciples, it is naturally impossible for the last one to escape, because once the news is exposed, he will definitely be transformed into a god.

The law enforcement officers inside the door found him and imprisoned him.

Therefore, the last outer disciple must not be allowed to escape!

"Wow!"

Ye Feng waved his hand and first put the two dead outer disciples into the storage ring.

Although the energy and blood of these two outer disciples are not very good, the storage rings on their bodies should contain a lot of good things. After all, they are disciples of the Yuhua Shenmen, so they should be quite wealthy.

Uh-huh! Uh-huh!

At this time, Ye Feng and the outer disciple chased each other and quickly ran out of this wilderness.

During the frantic pursuit, they had already left the area of the Yuhua Shenmen.

I have to say that the disciples who can enter the Feathering God Sect are pretty good.

Ye Feng was unable to catch up with this outer disciple of the sixth level of Tianyun Realm.

But while Ye Feng was surprised by this in his heart, the outer disciple of the sixth level of Tianyun Realm was even more horrified.

Because he is five heavens taller than Ye Feng, but Ye Feng is barely able to chase him.

"Damn it, how can this kid who is only in the first level of Tianyun Realm have such powerful power and such fast speed!"

The only remaining outer disciple was currently thinking anxiously about how to escape.

Suddenly, a huge valley appeared in front of him as he ran quickly.

In that valley, there was an extremely huge behemoth lying down.

It was a huge dark green dragon!

"Great place! You can use this dark green dragon to get rid of that kid!"

The outer disciple immediately felt extremely happy and quickly rushed towards the valley.

"Boom!"

The huge movement suddenly woke up the dark green dragon in the valley.

The outer disciple never expected that this dark green dragon would be so sensitive.

"Roar!!"

Almost at this moment

Suddenly, accompanied by an extremely ferocious roar, the dark green dragon opened its eyes, and its pupils shone with a dark green light, looking extremely terrifying.

"this....."

The outer disciple who was about to use the dark green dragon to escape saw this scene and was so frightened that he wanted to run back.

But it was too late, the dark green dragon's ferocious eyes had already been fixed on the outer disciple.

"boom!!"

Almost at the next moment, the dark green dragon suddenly opened its bloody mouth and spit out a dark green beam of poisonous gas, which instantly hit the outer disciple.

"ah....."

The outer disciple didn't even have time to let out a miserable howl before his whole body was corroded into a pool of blood and mud, which spilled onto the ground.

Even the storage ring was corroded and turned into molten iron!

The poison of this dark green dragon can be said to be very terrifying, and its cultivation strength must also be very powerful.

It has to be said that in the wilderness of the God Realm, there are countless terrifying creatures hidden, and humans are sometimes just fragile food.

"Uh-huh!"

At this time, Ye Feng rushed into the valley and saw the shocking scene of the outer disciple being corroded into blood and mud.

"It is a creature of the Divine Foundation Realm that has surpassed the Tianyun Realm!"

Ye Feng immediately felt the aura of this dark green dragon, and his whole body suddenly became on guard.

A creature at the level of the God Foundation, or a dragon with such strong poison, is definitely a very terrifying opponent.

You must know that strong men at the level of the God Foundation can already have the preliminary qualifications to enter the inner sect and become inner sect disciples in the Yuhua Shenmen.

At this time, Ye Feng's eyes suddenly became solemn, but he did not run away, because this dark green dragon at the God's Foundation level was valuable nourishment to Ye Feng!

If he could devour this dark green dragon, Ye Feng knew that it would definitely greatly enhance his power!

Chapter 1910 Golden Armor Clan

Buzz!

At this time, the atmosphere on the field was somewhat solemn.

An invisible aura of chilling and viciousness spread throughout the valley.

"Roar....."

The dark green dragon roared slowly and climbed up from the ground, revealing its majestic dragon body several kilometers long.

This ferocious beast seemed to sense a threatening aura from Ye Feng, so it did not act rashly at this time.

At this time, Ye Feng also slowly released his murderous intent and walked towards the dark green dragon.

At this time, the storage spirit ring on one of Ye Feng's fingers was emitting red light. Emperor Chu said in Ye Feng's mind: "Master, do you want me to help you kill this dragon?"

Ye Feng shook his head and said in his heart: "You don't need to take action. I came out to practice this time not only to kill monsters, but also to hone my own martial arts inheritance and combat experience. The flowers in the greenhouse are destined to You don't grow up, you have to go through the experience of blood and fire to become the strongest. I not only want to grow in cultivation, but also in spiritual will."

At this time, in the storage spirit ring, the red giant of light gave a thumbs up in an instant: "Yes, not bad, you have the same style as I did back then!"

Ye Feng: "..."

"Roar!!"

Suddenly at this moment, the dark green dragon took action.

It directly stretched out a dark green dragon claw and quickly grabbed it towards Ye Feng. Like a green lightning, the whole space was grabbed and made a sonic boom sound. This shows how powerful this claw is. How fast.

"Chaos body!"

At this moment, Ye Feng also used all his strength to activate his body, directly clenched a pair of fists, and quickly blasted away at the dragon claws in front of him.

"Boom!"

"Boom!"

"..."

The fist exuding chaos energy collided with the green claws of the dark green dragon, causing bursts of sonic booms in the sky.

The collision of fists and claws was like two great mountains colliding with each other, making a thunderous roar. Chaos energy and dragon essence golden light boiled in the void, flashing rapidly, and the aftermath of the collision spread in all directions like a tide. , causing the entire valley to collapse.

"

The sea is boundless! "

Ye Feng roared and directly displayed this powerful attack martial arts.

"Boom!"

Immediately, an endless blue ocean rushed out of his body, crashing towards the dark green dragon.

"Roar!"

At this moment, the surface of the dark green dragon's body also emitted endless green light. Its entire huge dragon body sprinted directly forward. In an instant, it broke through thousands of waves and swept the entire blue sea. It just broke through.

"It's indeed very strong! It's worthy of being a dragon at the level of the God Foundation!"

Ye Feng's eyes not only lacked any fear, but were filled with even more violent fighting intent.

"The finger of eternal vicissitudes!"

Suddenly at this moment, Ye Feng displayed an extremely powerful fingering inheritance.

This is the inheritance Ye Feng once received from the ancestors of the Sky Blue Empire.

"Buzz!"

Almost at this moment, a huge black finger suddenly appeared in the sky in front of Ye Feng. The fingerprints on the surface were all visible in layers, very clear. It really looked like a dark giant, from ancient times. In this era, a finger stretched out across time and space, capable of suppressing all things in the world.

Boom!

The huge finger flew across the sky, like an ancient mountain suppressing it, covering the sky and the sun in a dense black mass, and suddenly struck hard on the huge body of the dark green dragon.

"howl!!"

The power of this giant finger was incomparably terrifying, with billions of powerful force. It shattered the dark green dragon's keel into pieces and cracked them apart.

The dark green dragon let out a shrill howl, but this aroused its ferocity even more.

"Boom!!"

The dark green dragon opened its bloody mouth, and suddenly sprayed out a stream of dark green poisonous gas, which blocked the sky and blocked the sun, and instantly hit Ye Feng's body.

"The thing I'm not afraid of the most is poison!"

Ye Feng laughed out loud at this time, and suddenly released the poison-eating insects he had cultivated.

Buzz!

Buzz!

At this moment, a large number of poison-eating insects immediately flew out of Ye Feng's body, and then formed a shield of poison-eating insects in front of Ye Feng.

"Boom!" ??

The poisonous gas beam spat out by the dark green dragon struck the shield composed of poison-eating insects, and was instantly swallowed by the poison-eating insects.

"Roar!!"

When the dark green dragon saw this scene, a look of disbelief suddenly appeared in its huge eyes, and it let out an extremely angry roar.

"No matter how loud you scream, it's useless!"

Ye Feng stepped forward in the air at this time, with a hint of madness in his eyes, and he immediately used all his strength to perform the reincarnation skill of the heavens.

Not within the jurisdiction of the Yuhua Shenmen, in this uninhabited primitive jungle, Ye Feng can freely use his inheritance of the reincarnation skill of the heavens without fear of being recognized by others.

"Boom..."

Almost at this moment, a rotating vortex of six reincarnations appeared in the space in front of Ye Feng. It directly involved the dark green dragon in it, and then quickly crushed the entire dark green dragon. The body is like a big millstone, crushing it to death.

"howl....."

Along with a shrill roar, the dark green dragon, a god-level creature, was completely obliterated by Ye Feng.

"Swallow!"

The next moment, Ye Feng did not hesitate at all, and directly released the Devouring Domain, swallowing up all the blood and energy of the crushed dark green dragon.

"boom!"

"boom!"

"boom!"

"boom!"

Almost at this moment, four powerful auras burst out from Ye Feng's body.

At this moment, after swallowing a dark green dragon, Ye Feng's skill was greatly improved. With the infusion of abundant dragon essence and blood energy, Ye Feng's cultivation level broke through the fourth level in a row.

After taking over the first level of Tianyun Realm, he hit the fifth level of Tianyun Realm!

"very good!"

Ye Feng opened his eyes after breaking through at this time, his eyes full of joy.

This feeling of continuous breakthroughs is so exciting!

"Master, I seem to have sensed an extremely special energy wave of the elixir, just on the other side of the valley."

Emperor Chu's voice sounded in Ye Feng's mind.

"In such a small valley, there is a dark green dragon lurking at the level of the God Foundation. It must be very extraordinary. It is not surprising that there are special elixirs growing. Go and have a look."

Ye Feng said and walked towards the other side of the valley.

When Ye Feng just walked to the other side of the valley, he immediately saw a pure gold tree growing deep in the valley.

"It's Jinleimu!"

Emperor Chu suddenly spoke up: "This kind of golden thunder wood is a good material for refining powerful magic weapons. Master, after you get it, you can find a powerful weapon refiner in the Yuhua Shenmen to help you refine an extremely powerful magic weapon." A powerful treasure, even if you don't use it, is still very valuable in exchange for money. It is simply priceless. "

Ye Feng nodded and said aloud: "This golden thunder wood is indeed a rare treasure. I can take it back and exchange it for contribution points in the Ascension God Sect, which can be used to purchase the elixir in the Ascension God Sect."

Ye Feng said at this time, walking towards the golden thunderwood that was made of pure gold.

But just when he took the first step, there was a sudden noise from behind the valley.

A dozen humanoid creatures covered with golden scales suddenly walked over from a short distance away.

The cultivation auras on their bodies were all at the level of the tenth level of Tianyun Realm, which was very powerful!

"It turns out that a weak human race is here?"

A dozen humanoid creatures covered with golden scales came over and immediately said arrogantly: "Looking at the disciple clothes you are wearing, you seem to be a disciple of the Yuhua Shenmen. You are lucky today. We, the Golden Armor Clan and the Yuhua Shenmen There are regulations that do not kill your human disciples of the Ascension God Sect except under special circumstances, so hurry up and get out, this golden thunder wood is not something that a humble human bug like you can covet."
