

Ancient 21

Chapter 21: Attitude of Reverence

"puff!"

Ye Ziling was blown away by the aftermath of the explosion. Her delicate body hit the wall of the courtyard, and she spat out a mouthful of blood.

But Ye Ziling was not in fear of her life. She just stared blankly at the area where the iron armor self-destructed, and the sky was filled with smoke and dust, and she felt an extremely complicated emotion in her heart.

In the smoke and dust, Ye Feng slowly stepped out. He was in the center of the iron armor's self-destruction, and his white clothes were in pieces.

But at this moment, his entire body, skin, hair, and even pupils, were all bronze in color. The light of divine copper bloomed, which inspired the bronze combat body to become indestructible!

Ye Feng walked out of the smoke and did not suffer much damage.

The iron armor was no better than the ninth level of the True Martial Realm. He overestimated the power of his own self-destruction and did not kill Ye Feng, a powerful Spirit Martial Realm warrior.

But at this time, Ye Feng looked at the few pieces of armor left in the ruins, still stained with blood, looking desolate and lonely.

He was silent for a moment and said to Ye Ziling: "For the sake of your sister and the sake of this loyal soul who died for you, you can go."

"I'm guilty."

Ye Ziling suddenly spoke out, and the little witch's beautiful face showed a sad smile that she had never seen before.

She walked out of the courtyard in a daze, under the endless darkness.

"Where are you going?" Ye Shenyue's figure flew over from a distance, her eyes frightened and angry.

Obviously, she was attracted by the huge movement in the courtyard just now.

"I don't know where I'm going. I just want to stay away from this place..."

Ye Ziling laughed miserably. She suddenly thought of something, returned suddenly, picked up the few blood-stained armor fragments left after the iron armor self-destructed, carefully placed it in her arms, and then didn't look back. go.

Ye Ziling walked out of the courtyard and walked

Leaving the Ye Clan and leaving Nanyang County...

No one knew where she went until many years later, Ye Feng met Ye Ziling again, but by that time, the once unruly and willful second young lady of the Ye clan had already become another existence...

...

Under the dark night.

In the courtyard.

Ye Shenyue walked up to Ye Feng, looked at Ye Feng's broken clothes with her beautiful eyes, and asked hurriedly: "Ye Feng, are you okay?"

"fine."

Ye Feng shook his head, looked at Ye Ziling's retreating back, and said, "Won't the eldest lady stop her from leaving?"

Ye Shenyue sighed softly, a look of helplessness appeared on Qingcheng's face, and said: "Let her go. This time the self-destruction of the iron armor may have really impacted Zi Ling's heart and made her make some changes. "

When Ye Feng heard this, he nodded slightly and said nothing more.

Ye Shenyue suddenly said: "By the way, Ye Feng, tomorrow afternoon, you can go to the City Lord's Mansion with me. Although your cultivation level is much lower than mine, your strength is almost as good as mine. This time the sect Are you interested in participating in the mission? If you perform well, I can directly recommend you to the Sword Sect."

Ye Feng thought for a moment and then said: "Thank you very much, Miss. I am naturally very willing to join the largest sect in the Great Yan Dynasty."

Ye Feng knew very well that if he wanted to become stronger as soon as possible, joining a large sect was the best choice.

Because there are countless powerful inheritances in those large sects, and there are countless news channels.

Just like a casual cultivator, if you want to find something specific

The elixir can only be found alone in the wilderness alone.

But if you are a disciple of the sect, you can use the news channels in the sect to know the specific area where the elixir is located, saving a lot of time and energy.

In addition, as long as you become a disciple of a sect and perform outstandingly, you will receive various powerful inheritances in the large sect, but casual cultivators can only be disappointed.

So this is why many young warriors are trying to get into the big sect.

Unless absolutely necessary, Ye Feng would not think about becoming a casual cultivator.

Those wandering warriors seem to be free and unrestrained, but in fact they are not protected by a big force. Walking outside, if they are not careful, they will be in danger of life and death.

Moreover, if a person aimlessly searches for opportunities and fortunes, he wastes a lot of time and will soon be surpassed by his peers, making it difficult for him to become a great person.

Therefore, Ye Feng knew that as he was currently weak, joining the Sword Sect was the best choice. Ye Feng was also very interested in the Sword Sect's inheritance of swordsmanship.

This time, Ye Shenyue happened to return to the clan to complete the sect's mission. If she participated, she would be able to directly enter the Sword Sect. Ye Feng would naturally not refuse such a good opportunity.

"Then let's make an agreement. I will come find you tomorrow afternoon. We will go to the City Lord's Mansion to find Chu He and see how to find traces of the Demon Gate."

Ye Shenyue said, took out a jade talisman from her arms, stuffed it into Ye Feng's hand, and said: "If there is something urgent, you can notify me through this jade talisman and input a trace of true energy." , you can send messages to me within a thousand miles."

After the words fell, Ye Shenyue turned and left, quickly disappearing under the night.

At this time, Ye Feng held the communication jade talisman and put it in his arms and clothes.

He looked at the vast sky with bright eyes and murmured,

"The Sword Sect has been inherited for thousands of years and has countless geniuses. It is the largest sect in the Great Yan Dynasty. I am really looking forward to it..."

In the early morning, when a hint of fish belly white appears in the east.

"Squeak!"

Ye Feng opened the door and walked out of the courtyard, carrying a rusty sword on his back and walking towards the ancestral hall.

He was going to find the weird old man Mai, to see if he could teach him more advanced kendo martial arts, or ask for advice on kendo practice.

The previous three sets of yellow-level swordsmanship had been mastered to a perfect level by Ye Feng and could no longer meet his current needs.

Having dealt with the old man Mai twice, Ye Feng knew that this strange old man's status in the Ye clan was definitely not simple. Perhaps he could learn some powerful sword skills from the old man.

"Hello brother Ye Feng!"

"Hello brother Ye Feng!"

"..."

Along the way, many family members saw Ye Feng and greeted him with respect and admiration.

The story of Ye Feng defeating Tie Kai with one punch has spread throughout the Ye clan.

In addition, everyone learned from the returned eldest lady Ye Shenyue that Ye Feng had entered the legendary spiritual martial realm.

This news almost shocked everyone in the clan.

After all, Ye Feng was just a horse-feeding boy in the Ye clan before.

But one day, he suddenly became a powerful person in the spiritual martial realm comparable to the family elders.

This made everyone full of awe when they saw Ye Feng again.

In the ancestral hall, Ye Feng walked through the solemn hall and came to the backyard.

Behind a shabby long table, old man Mai was sleeping there.
