

Ancient 2321

Chapter 2321 Blue Scale Dragon

At this time, Ye Feng pulled the big black dog and soon came to the end of this deep passage.

Their vision suddenly opened up.

What appeared in front of one person and one dog at this time was a huge underground palace.

Throughout the underground palace, there are ancient buildings, but now they are all broken.

And on the edge of these broken buildings, there are other passages, which seem to be like a huge underground maze, connecting many other areas.

Although it is dilapidated now, you can get a glimpse of the prosperity here from these ruins.

At this time, the big black dog said: "The entire underground palace has ninety-nine and eighty-one areas. It is like a huge underground maze. Let's start from the far right to look for the treasures left behind."

Ye Feng nodded, and he and the big black dog walked towards the underground palace leading to the first passage on the far right.

On the way, Ye Feng looked at the countless ruins and couldn't help but asked curiously: "Why did so many mythical beasts and demons here have such a tragic fight? Do you know, big black dog?"

The big black dog smacked his lips and said with some regret: "Back then, under this underground palace, there was a rumor that there was a treasure that could break the shackles of heaven and earth. That's why so many mythical beasts and powerful demons came to fight for it. In the end, there were heavy casualties. This place The underground palace was built by a very powerful force, but it turned into a ruin. "

Ye Feng couldn't help but nodded and said: "It turned out to be a fight for treasures. No wonder there was such a brutal fight. People died for money and birds died for food. This has been the truth since ancient times."

And just as one person and one dog were talking, they had arrived at the first underground palace.

Most of this first underground palace were broken building fragments, and nothing else.

"Nothing?"

The big black dog had a slumped face, obviously very unhappy.

Buzz!

At this time, Ye Feng released his soul power and covered the entire space without noticing it. He said, "Let's go. There is nothing in this first underground palace. I have already checked it thoroughly."

The big black dog nodded and walked towards the second underground palace.

But when they arrived at the second underground palace, they found that there was still nothing.

There are only dilapidated buildings and dry vegetation.

"impossible!"

The big black dog's eyes darkened and he couldn't help but say: "There can't be nothing in this underground palace."

But then, they entered a dozen underground palaces in a row, but found nothing in all of them.

"The entire underground maze has definitely been raided by others!"

The big black dog couldn't help but said: "But I have always been monitoring the surroundings. It is impossible for outsiders to enter this underground palace."

Ye Feng's eyes moved at this time, and he couldn't help but ask: "Could it be that some powerful creature was born in this underground maze?"

The big black dog nodded and said: "It is very possible. Maybe some mythical beasts and powerful demons left fire before their death. In such a long time, many powerful creatures were born in this underground palace."

Sure enough, just when one person and one dog reached the eighteenth underground palace.

As soon as he walked to the door, Ye Feng noticed a very powerful life breath, which was pulsating in the eighteenth underground palace.

At this moment, the big black dog did not observe at all, but rushed directly into the eighteenth underground palace, shouting: "Which bastard took away all my wealth, Mr. Dog? Get out of here!"

show

However, the big black dog mentality at this moment has exploded.

Ye Feng originally wanted to lurk and investigate.

But seeing the big black dog like this, he rushed directly into the eighteenth underground palace.

This eighteenth underground palace is very large, and actually has an intact ancient city standing in it.

Obviously, there are indeed other living beings in this eighteenth underground palace, civilization was born, and such a huge and majestic ancient city was built.

At this time, the big black dog's roar immediately attracted the attention of the beings in the ancient city ahead.

Swish, swish, swish!

Swish, swish, swish!

Suddenly, humanoid creatures covered with blue scales flew out of the city, holding a very special weapon like a full moon scimitar in their hands, staring at the big black dog and Ye Feng warily. These two uninvited guests.

At this time, the big black dog stared at the group of humanoid creatures with blue scales, and immediately laughed out loud: "Who I thought it was, turns out to be the descendant of that guy with the blue-scaled three-clawed dragon."

"shut up!"

A dragon with a powerful aura on the opposite side spoke out: "Who are you two? How did you appear in our underground palace? There is a seal outside, how can outsiders appear?"

"seal?"

The big black dog couldn't help laughing and said: "What bullshit seal? I broke it a few years ago, and I'm just waiting to harvest the wealth in this underground palace. I didn't expect you, the little descendants, to All the wealth has been plundered, which makes me angry. I want to rob you of your wealth!"

The big black dog still has a ferocious nature. At this time, he directly said that he was a robber and wanted to rob the wealth of the entire underground palace.

"Stop this arrogant black dog!"

A dragon commander

He said immediately.

"yes!"

A group of hundreds of green-scaled dragons held the soldiers in their hands and charged towards the big black dog in an instant.

"Although I have lost all my magic power, you idiots can't stop me, Master Gou!"

The big black dog yelled and waved its paws.

Its dog paws are not ordinary claws, but are constantly refining various powerful materials into the claws.

The claws of the big black dog can now be said to have become very sharp and terrifying weapons.

"Crack!"

"Crack!"

"Crack!"

Sure enough, the big black dog suddenly grabbed forward, and immediately shattered all the full-moon scimitar weapons in the hands of the green-scaled dragon that was attacking from a short distance away.

Its claws are like the sharpest steel knife in the world, with terrifying cutting power.

"Dragon Yuan Explosive Flame Light Wave!"

At this moment, hundreds of blue-scaled dragons suddenly opened their mouths and burst out with bright blue light waves.

"Rumble..."

Suddenly, hundreds of terrifying cyan light waves all bombarded the big black dog.

"Are you dead now?"

Hundreds of green-scaled dragons couldn't help but make a sound.

"Master Gou, I have the magical power of indestructibility! Your injuries are just tickles to me!"

But suddenly at this time, the big black dog's disdainful voice immediately sounded high in the sky.

boom!

The next moment, a strong golden dog rushed out from the intersection of the light waves.

It was the big black dog that used the indestructible power of Vajra to become pure gold!

Chapter 2322 Let me do it

"What? This dog is so durable?"

"Our hundreds of dragon-yuan blasting flame light waves failed to kill this ordinary-looking big black dog?"

"Not even an ounce of damage done? How is that possible?"

At this moment, hundreds of green-scaled dragons suddenly panicked.

"All must die!"

The big black dog became ferocious at this time, like a wolf entering a flock of sheep, and suddenly rushed into the group of hundreds of green-scaled dragons high in the sky ahead.

"Pfft!"

"Pfft!"

"..."

The big black dog seemed to be in a deserted place at this time, waving its paws wildly.

Every time the claws fell, a huge green-scaled dragon was cut into several pieces and fell from the sky.

"This dog is so powerful!"

A group of hundreds of green-scaled dragons were frightened, and their eyes were full of fear.

At this time, many green-scaled dragons looked at the big black dog that they could not resist, and suddenly stared at Ye Feng who was standing at the entrance of the eighteenth underground palace.

Many blue-scaled dragons' eyes lit up slightly, and they couldn't help but say: "That human boy looks very ordinary and easy to bully. He is an accomplice of that black dog. Let's give this human boy to Contain it and take the hostage with one move!"

After saying this, a group of blue-scaled dragons immediately felt that this method was feasible.

Immediately, more than a hundred blue-scaled dragons flew out from the team and flew towards Ye Feng, who was not far away, intending to kidnap the seemingly harmless human boy.

"boom!"

But suddenly at this time, Ye Feng stretched out a hand, the vitality of the world rioted, and a towering and boundless hand of chaos immediately covered it from high in the sky.

Boom! !

Accompanied by an earth-shattering roar, that big hand of chaos was filled with endless pressure and impact, causing terrible damage. It suddenly hit a person who rushed over to take hostages.

All the more than a hundred green-scaled dragons were smashed into pieces, and the fragments of the dragons were scattered on the ground.

"hiss!"

Seeing this scene, the remaining group of blue-scaled dragons couldn't help but gasped.

They never imagined that the seemingly harmless human boy would be even more terrifying.

There is unparalleled power in raising your hands.

With one slap, more than a hundred green-scaled dragons were shattered?

Is that human being?

This is simply super human!

The combat power displayed by Ye Feng was so terrifying that this group of blue-scaled dragons, who had always felt that the human race was weak, redefined the weak human race.

"Kill, kill, kill!"

At this time, the big black dog became red-eyed, its claws were like the sickle of death, and slaughtered all the remaining hundreds of blue-scaled dragons.

Just because this group of blue-scaled dragons robbed the wealth and resources that should belong to the big black dog.

Ye Feng saw this scene and suddenly understood that this big black dog was definitely not a good person in those ancient times, but also a ruthless character.

At this time, only the blue-scaled dragon commander was left in the sky above the city.

It immediately spoke out in horror: "Who are you two, and why are you so familiar with our underground palace, and why are you so powerful? It is impossible for existences like you to be born in this area."

At this time, the big black dog smiled coldly, like a bandit leader, and flew directly in front of the blue-scaled dragon commander, grabbed the commander up, and said fiercely: "Hurry up and take me to hide in your city. A place with wealth! Otherwise, I will kill you!"

The blue-scaled dragon commander gritted his teeth and said loudly: "I can't possibly tell you. If you kill me, you will never know."

Tell me where the treasures in our city are hidden! "

"you.....!"

The big black dog immediately had a ferocious look on his face and said loudly: "Then I can only force you to tell me. I will let you see my torture methods to extract confessions."

At this time, the big black dog immediately took out the torture tools specially used for interrogation from his storage space. Each one looked very ferocious and terrifying.

And just when the big black dog began to interrogate the commander of the blue-scaled dragon.

Not far away, Ye Feng began to release the devouring domain, and began to devour the blood and energy of all the killed blue-scaled dragons.

You know, these are hundreds of green-scaled dragons.

Although these ordinary blue-scaled dragons are not very good at cultivation.

But after all, they are all dragons with the blood of ancient mythical beasts.

Therefore, the blood energy and dragon essence in their bodies are very powerful. .??.??

"Rumble..."

At this moment, waves of terrifying and powerful blood were immediately injected into Ye Feng's body.

Ye Feng's skill immediately began to increase.

The aura of cultivation also began to improve and grow instantly.

"boom!"

Super God Realm Second Heaven!

"boom!"

Super God Realm Third Heaven!

At this moment, Ye Feng's cultivation breath stopped.

Uh-huh!

Ye Feng instantly flew to high altitude and found that the big black dog was still torturing the blue-scaled dragon commander.

The commander of the blue-scaled dragon was trembling all over, and his whole body was covered in scars.

But it seems that the blue-scaled dragon commander has not let go yet.

Because Ye Feng saw it, the big black dog's doggy face looked very ugly.

At this moment, Ye Feng came over and asked, "Didn't you ask anything?"

The big black dog couldn't help but said: "The bones are still hard. Mr. Dog, I have used all my top ten torture methods, but there is no sound of chewing."

Ye Feng smiled and said, "Let me do it."

At this time, Ye Feng walked up to the commander of the blue-scaled dragon and stared at the commander in front of him.

At this time, although the blue-scaled dragon commander looked in pain, his eyes were still extremely determined and he said: "Just kill me. No matter how you torture me, I will not say anything."

With a slight smile on his face, Ye Feng said loudly: "Don't worry, I won't torture you, I will only hypnotize you."

Uh-huh!

After Ye Feng finished speaking, he immediately stretched out his hand, spread his fingers, and immediately clasped it on the head of the blue-scaled dragon commander.

"Soul Emperor Seal!"

boom!

Ye Feng instantly activated his soul master inheritance, the Soul Emperor Seal.

"Boom!"

Suddenly, a huge amount of soul power was transmitted from Ye Feng's five fingers, and was instantly input into the soul world of the head of the blue-scaled dragon commander.

boom!

At this moment, in the soul world of the commander of the blue-scaled dragon, Ye Feng suddenly manifested a soul emperor, full of endless soul pressure.

At this time, the soul of the blue-scaled dragon commander manifested in the soul world in the form of a small soul dragon exuding a faint cyan light.

The soul emperor that Ye Feng manifested at this time was full of endless power and coercion. He suddenly stepped in front of the little soul dragon and made a majestic voice that reached the sky and the earth: "Submit to this emperor! Become my servant!"

boom!

The moment the words fell, a terrifying soul attack suddenly burst out from the soul emperor's eyes, striking hard at the little soul dragon.

Chapter 2323 Going deep into the underground palace

At this moment, the soul is being attacked.

Outside the soul world.

The blue-scaled dragon commander's body also instantly let out a scream of extreme pain.

But just the next moment.

The cyan-scaled dragon commander's screams suddenly stopped.

His face became extremely calm, and he said respectfully to Ye Feng in front of him: "Greetings to the master, thank you for helping me escape from the sea of suffering. From now on, I will be the most loyal servant of the master."

The big black dog saw this scene and was a little dumbfounded.

He stared at Ye Feng beside him, and couldn't help but said: "Young man Ye, you actually learned the great enlightenment technique of those old bald donkeys in Buddhism? Directly transform this blue-scaled dragon commander into a For your followers?"

"Great Pursuit Technique?"

Ye Feng shook his head in confusion and said: "No, I haven't learned any Buddhism's great salvation technique. This technique of mine is a unique method of our soul master. It's called

hypnosis. I used it a long time ago. It's passed, it's very useful, as long as you are hypnotized by my soul, you will basically listen to my words."

The big black dog clicked his tongue and couldn't help but say: "Awesome, I really envy you, boy, you have so many inheritances."

Ye Feng spread his hands and said with a headache: "Sometimes it is not good to have too many inheritances. Sometimes there are many powerful methods that I can't remember to use."

Big black dog: "..."

At this time, Ye Feng looked at the hypnotized commander of the blue-scaled dragon and said: "Take me to the location of the treasure house in your city. All the wealth you have collected in the first eighteen underground palaces is... Presented before my eyes."

"Yes, Master."

The blue-scaled dragon commander immediately spoke respectfully, then turned around and flew towards the inside of the city.

The big black dog looked at the commander of the blue-scaled dragon commanded by Ye Feng, and couldn't help but said with envy: "It's so cool, if I had such a skill

It would be great, I will definitely get a lot of pets. "

Ye Feng glanced at the big black dog and said: "Don't think about it, this is the innate method that can only be awakened by our human soul masters."

The big black dog chuckled and said: "When I go to the God Realm with you, Ye Xiaozi, I have to find out where the ancestral land of Buddhism is. In the ancestral land of Buddhism, there must be the secret of the Great Purdue Technique. If there is a chance, You must learn it secretly."

While one man and one dog were talking, they had already followed the hypnotized commander of the blue-scaled dragon to the innermost part of the city.

This is a barren mountain area inside the city, barren of grass and sparsely populated.

But the commander of the blue-scaled dragon suddenly took out a small silver token and said:
"Open!"

Uh-huh!

The small silver token whirled around and disappeared directly into the void of the barren mountain in front of it.

"Buzz!"

And then, along with a bright silver light, a huge formation appeared on the entire barren mountain.

Boxes of treasures and wealth appeared throughout the formation.

The big black dog's eyes were bright and he couldn't help but say: "It turns out that all the wealth in the entire city is hidden in such a hidden formation. No wonder I can't find it, Mr. Dog."

Ye Feng also had a look of surprise in his eyes.

These treasures of wealth are hidden in this ancient hidden formation. It is indeed difficult to find them, and it is impossible to find them at all.

Even if Ye Feng releases the destiny disks, he may not be able to find them.

At this moment, Ye Feng and Big Black Dog immediately walked into the formation and started

Divide the wealth.

Soon all the wealth in the city was divided up by one person and one dog.

The big black dog couldn't help but said: "It feels like this wealth is not much."

The commander of the blue-scaled dragon standing next to him said: "Because we are only a shallow force living in this underground maze. There are eighty-one underground palaces in the entire underground, and we are only the eighteenth underground palace. Naturally, there are more precious treasures and treasures hidden in the deeper underground palaces, but the power is getting stronger and stronger. Even in the deepest underground palaces, it is said that there are evil spirits of ancient powerful demons wandering, and we never dare to go down. "

The big black dog was not afraid of anything. He looked directly at Ye Feng and said, "Boy Ye, what do you think?"

Ye Feng grinned and said: "Since you're here, of course you have to go on an adventure. I'm not willing to just get this little wealth."

The big black dog laughed loudly, grinned widely, and said loudly: "Okay, let's continue going deep into this underground maze. The two of us can be considered as two swordsmen!"

Next, Ye Feng and the big black dog continued to move forward, heading deeper into the nineteenth underground palace area. ??

In the next underground palace, there is no relatively unified force. There are dilapidated areas everywhere. It is a completely undeveloped underground palace area.

In the ancient building, Ye Feng and Big Black Dog found a lot of good things.

The most precious one among them should be a piece of the natal bone of a mythical beast found by the big black dog. It contains a powerful magical power of the mythical beast, which seems to be a secret method of thunder and lightning, and is regarded as a treasure by the big black dog.

Among the most precious things Ye Feng found, there were two that Ye Feng thought were of great value.

One is a King Kong Overlord Body Pill the size of a human head. It is said that after taking it, you can temporarily possess the power of the ancient mythical beast 'King Kong'.

No.

The second is a door called the "Totem Door", which is a very ancient door.

According to the big black dog, this totem door possesses incredible ancient power. It is a powerful magic weapon forged by an ancient king of mythical beasts. It is said that it can stimulate the ancient power of the ancient totem and bless the user's combat power. In addition, it is said that the Totem Gate can also summon powerful orcs from the ancient orc interface to help fight.

Ye Feng naturally loves this ancient totem door full of legends.

The big black dog also coveted the Totem Gate very much, and wanted to exchange his treasure with Ye Feng, but Ye Feng did not agree. He vaguely felt that the Totem Gate was a very powerful ancient treasure, which might be more powerful than the Totem Gate. Black Dog said it was even more powerful.

So Ye Feng finally directly refined the Totem Gate into his body, nourished it with mana in his Dantian, and cut off the big black dog's idea of wanting the Totem Gate.

"What a tough cock, he never plucks a hair out of his hair!"

The big black dog couldn't help but complain.

At this moment, one person and one dog have arrived in a deep area of the underground maze.

Ye Feng asked the big black dog beside him: "What level of the underground palace are we on now?"

The big black dog counted his paws, then thought for a while and said: "It should be almost the end. It is probably about the seventieth floor. There are ninety-nine or eighty-one floors of the underground palace in total."

Ye Feng's eyes were surprised. He didn't expect that they had gone so deep into the underground palace without realizing it.

But just when Ye Feng was about to say something.

"boom!"

A big green hand filled with endless power was suddenly snatched out from the darkness deep in the underground palace. It was like the palm of an ancient giant. The palm was covered with green hair and looked very scary.

Chapter 2324 Immortal Spear

Rumble...

The giant palm covered with green hair was full of infinite power. It was suddenly grabbed from the dark depths of the underground palace, and it had extremely terrifying deterrence and destructive power.

"This is? Green haired giant!"

The big black dog's eyes widened slightly, and he couldn't help but say: "That green-haired giant is not dead yet? Impossible! Back then, I saw with my own eyes that he was stabbed through the heart by the immortal war spear in the hands of the headless knight. Ah, he must be dead!"

"Boom!!"

And just when the big black dog screamed in surprise, the green-haired giant's big hand had already struck down.

Ye Feng and the big black dog immediately started to resist.

"Boom!"

But the impact of this hand was so terrifying that even if Ye Feng and the big black dog joined forces, they would all be blown away at this moment.

"Crash..."

Their bodies were smashed to the ground, smashing out a large area of ruins.

"puff!"

Even Ye Feng couldn't help but spit out a mouthful of blood and suffered heavy injuries.

One of the big black dog's paws was shattered, causing the big black dog to howl in pain.

Ye Feng's mouth was stained with blood at this time. He stared at the big black dog beside him and couldn't help shouting: "Damn dog! You tricked him to death! Didn't you say that all the mythical beasts and ancient demons in this underground palace are dead? ? Why is there such a terrifying green-haired giant in the deepest part of the underground palace?"

The big black dog had one of its paws broken. He was grinning in pain and said loudly: "Ye Xiaozi, don't get excited yet! If the ancient demon really survives, what do you think when the palm struck just now? Are we just seriously injured? We have already turned into ashes! The ancient demons who can fight with divine beasts are so terrifying that we both died after just one breath."

Ye Feng was stunned when he heard what the big black dog said.

yes!

If that green-haired giant was really the ancient demon himself, I might not be able to withstand a slap in my current state.

Although Ye Feng's current level of cultivation at the third level of Super God Realm may be considered a first-rate master in the outside world.

But compared with the ancient monsters from the endless years before the prehistoric small world, it was definitely countless times worse.

So when Ye Feng heard what the big black dog said, he also reacted and couldn't help but said: "Could it be that the giant palm just now is the descendant of the green-haired giant back then?"

The big black dog shook his head and said: "The descendant of the green-haired giant cannot break my dog's claws. With such a strong body strength, he is definitely the body of the green-haired giant."

Hearing this, Ye Feng couldn't help but said: "Big Black Dog, you mean that the ancient demon green-haired giant is indeed dead, but his body has never decayed and is now occupied by other souls?"

The big black dog nodded and said: "It is very possible that this is the case, but the green-haired giant did not come out of the underground palace, but could only stretch out one hand to deal with us. It seems that the green-haired giant's original body, although it is occupied by other souls, but the body cannot move, which means that the body of the green-haired giant is still nailed to the spot by the immortal spear of the headless knight and cannot move! "

When he said this, the big black dog's eyes were full of excitement and excitement, and he said: "Boss Ye, let's not leave. We must find a way to kill this green-haired giant whose body is occupied. It is very likely that there are still blood running through it." That headless horseman

Ancient artifact, immortal war spear! That is a powerful weapon for attacking fortresses, a peerless magic weapon! It's many times more advanced than the golden sledgehammer you got before! "

"Immortal Spear?"

When Ye Feng heard what the big black dog said, his eyes suddenly revealed a deep passion.

Immortal Spear! ??

The peerless warrior of the ancient powerful Headless Horseman!

An ancient artifact!

This attraction to Ye Feng is naturally extremely huge.

If he possesses the Immortal War Spear, then Ye Feng returns to the northern land of God Realm, and he will probably be able to compete with those super strong men!

At this moment, Ye Feng immediately wiped the blood from the corner of his mouth, stared at the big black dog beside him, and said: "I'm not leaving! Find a way to kill him!"

The big black dog also grinned and said, "Okay! Lord Dog, I have exactly what I want!"

Boom!

When one man and one dog were talking, suddenly from the dark depths of the underground palace, a towering green-haired hand stretched out again. It was as strong as divine iron and as heavy as a mountain. It was full of endless destructive power and impact, and was extremely terrifying.

"Dodge!"

This time, they were prepared. Ye Feng and the big black dog both dodged and avoided the attack of the big green-haired hand.

Obviously, the owner of this big green-haired hand must have felt that the first sneak attack would definitely kill both Ye Feng and the big black dog instantly.

But what he never expected was that although Ye Feng and Big Black Dog looked ordinary, their respective bodies were extremely strong.

Therefore, the first attack of this big green-haired hand only caused serious damage to one person and one dog, but did not directly kill them.

So this gave Ye Feng and the big black dog a chance to breathe.

r\u003e

"Go directly to the body of the green-haired giant!"

At this time, Ye Feng said: "Since other souls have occupied the green-haired giant's body, my soul master's method can suppress the soul that occupies the body, but it needs to be particularly close to the green-haired giant's body. Only then can I launch the soul attack."

At this time, the big black dog nodded immediately and said: "Okay, I will create opportunities for you!"

Uh-huh!

Uh-huh!

After the words fell, one person and one dog quickly flew towards the darkness deep in the underground palace.

"Boom!"

"Boom!"

Suddenly at this time, small green-haired giants with a height of more than ten meters rushed out from the depths of the underground palace. Their whole bodies were full of powerful muscles. They looked powerful and possessed terrifying brute force.

The big black dog couldn't help but said: "This is the green-haired giant's magical talent. It can consume its own original power, shed part of its flesh and blood body, and derive small green-haired giants, which is equivalent to quickly producing small soldiers. Fight for yourself."

boom!

Just as the big black dog was talking, a dozen small green-haired giants had already rushed over and blasted out green fists as big as a casserole.

"Boom!!"

At this moment, the big black dog stretched out its paws and struck out. When the two collided, a huge concussive force suddenly erupted.

"Deng Deng Deng!"

The big black dog was knocked back several steps by a dozen small green-haired giants.

It has to be said that the green-haired giant is worthy of being an ancient demon. It is very powerful. The small green-haired giants derived from part of the flesh and blood of its own body are so powerful!

Chapter 2325 Green Field

At this moment, the big black dog couldn't help but yelled angrily: "Damn it! Damn it! If I don't show my power, you really think I'm easy to bully!"

"Secret Technique of Thunder and Lightning!"

"Thunder!"

Boom!

The big black dog immediately displayed a very powerful secret killing technique.

This is the natal bone of an ancient mythical beast that Big Black Dog obtained before. It records a very powerful and advanced thunder and lightning secret method.

At this time, the big black dog displayed this secret technique of thunder and lightning, and suddenly its entire body erupted into a large area of thunder and lightning.

The big black dog suddenly seemed to be possessed by thunder. An extremely powerful force of thunder and lightning erupted all over his body, and his electric eyes were menacing.

"Boom!"

The thunder released from the big black dog's body directly formed chains of lightning, which hit the surrounding small green-haired giants until they were all scorched black, and they all fell from the sky.

The big black dog's electric eyes were piercing at this moment, and thunder surged all over his body. He looked extremely powerful, and laughed loudly: "Electrocute you savage guys to death!"

Obviously, the power of thunder and lightning can cause great damage to these small green-haired giants.

At this moment, Ye Feng followed the big black dog and quickly rushed into the deepest area of the underground palace.

At this time, Ye Feng saw it immediately.

On the ground deep in the underground palace, there was indeed a green-haired giant body that was tens of thousands of meters tall. Lying on the ground, its chest was pierced by a pitch-black spear, and it was nailed to the ground. Unable to move, I can only move my hands and legs.

Even if the body of this green-haired giant is occupied by other soul bodies, it still cannot break free from the shackles of the immortal war spear.

At this time, the big black dog was filled with thunder. He rushed forward and said loudly: "Boy Ye, let's work together to rush to the green-haired giant."

The head of the main body. "

"good!"

Ye Feng nodded immediately and said: "As long as I can get close to the head of the green-haired giant, I can launch a soul attack!"

boom!

At this time, the big black dog continued to release the extremely powerful thunder secret method and sprinted madly at the front.

Ye Feng followed behind and took action repeatedly, blasting away all the small green giants that were swarming towards him.

"hateful!"

At this time, a huge sound suddenly came out from the body of the green-haired giant.

"Green field!"

The green-haired giant roared.

"boom!"

Suddenly, two green beams of light burst out from the eyes of the green-haired giant, instantly covering Ye Feng and the big black dog.

At this moment, Ye Feng and the big black dog suddenly entered a green field.

"Buzz buzz..."

An extremely strong corrosive power began to quickly corrode the bodies of Ye Feng and the big black dog.

"What a strong corrosive power!"

The big black dog was very surprised, because he saw that his entire body was being corroded rapidly and was about to completely disintegrate.

The big black dog couldn't help but said: "This soul body has probably completely occupied the powerful body of the green-haired giant, and it can actually use some of the green-haired giant's magical powers, such as this green field, which is the natural form of the green-haired giant. The gift of magic."

Ye Feng is now in this green field,

You can also feel that the original power in your chaotic body is rapidly draining away, and the entire body is rapidly disintegrating.

This green field seems to have a very strong spatial power.

At this moment, the big black dog couldn't help but said: "I'm afraid we can't get out. This is a very terrifying space constraint. We can only wait until the green-haired giant's power is exhausted and automatically disintegrate this green field."

Ye Feng's eyes showed a smile at this time, and he said loudly: "If it's just a space restriction, it's very simple."

boom!

Almost at this moment, Ye Feng immediately used the power of the space gem to tear it apart directly in front of him.

"Zi la!"

The extremely solid green field was suddenly torn open by Ye Feng with a huge space crack.

"Damn! Just tearing apart the field? What kind of method is this?"

When the big black dog saw this scene, his eyes widened immediately, feeling incredible.

Because Ye Feng's cultivation is still too weak, it is impossible to tear apart this strong and powerful green domain.

But Ye Feng did it.

Not the big black dog making a fuss.

But what Ye Feng did was really shocking.

The big black dog thought for a while and immediately couldn't help but said: "Boy Ye! You can actually use the power of space? And it's so powerful! Let me think about it, Mr. Gou, is your boy the Holy Body of Space among the human race?"

Ye Feng did not answer the big black dog at this time, but said aloud: "Stop thinking nonsense, kill that green-haired giant quickly. That's the real thing!"

At this moment, one person and one dog escaped from the trap. The big black dog immediately became extremely ferocious and charged forward.

r\u003e

"What?"

At this time, the green-haired giant who was nailed to the ground saw a man and a dog tearing apart his green domain in one fell swoop. He immediately let out a voice of shock and anger: "How did you do that? It's just a super-god realm." A weak human boy, you can actually tear apart the green-haired giant's racial talent, the green field? "How is this possible?"

At this moment, the green-haired giant's eyes were filled with shock and anger.

Originally, it took the initiative to kill Ye Feng and the big black dog instantly.

But what the green-haired giant never expected was that both Ye Feng and the big black dog had amazing methods and endless trump cards.

Although his cultivation level is weak, the actual combat power and methods he displays are overwhelming.

At this moment, the green-haired giant could only watch helplessly as Ye Feng and the big black dog approached him.

Because the green-haired giant was nailed to the ground by the immortal war spear, his terrifying and huge body could not move at all.

Moreover, the means and magical powers he can display are only limited to a green field.

After all, the current green-haired giant is occupied by other soul bodies.

Not the real person.

So being able to use an innate magical power is already pretty good.

Ordinary foreign soul bodies occupy the body of the green-haired giant and can only use the body's power.

But this soul body has done very well, and it can even display the magical talent of a green-haired giant.

But he was unlucky to meet two monsters, Ye Feng and Big Black Dog.

So at this time, Ye Feng instantly flew to the green-haired giant's brain case, then stretched out a hand directly, pressed on the green-haired giant's Tianling Cap, and began to release the power of the soul.

Chapter 2326 I control it

Soul Emperor Seal!

At this time, Ye Feng did not hesitate and directly released the Soul Emperor Seal, a set of powerful soul master inheritance.

"Buzz!"

At this moment, Ye Feng's soul body directly entered the green-haired giant's brain case.

"boom!"

At this moment, Ye Feng's soul body came to the soul world of the green-haired giant.

He immediately saw a large scorpion with a soul body exuding purple light, controlling the soul center of the green-haired giant.

At this time, Ye Feng suddenly understood.

It is this big purple scorpion whose soul body occupies the body of the green-haired giant.

This big purple scorpion, able to occupy the body of a green-haired giant, must also be the soul of a powerful demon, and it must be very extraordinary.

"Damn human boy! You are actually a human soul master!"

When the big purple scorpion saw Ye Feng's soul body appearing in the soul world, he immediately shouted angrily: "I'm going to tear your soul into pieces!"

Boom!

Almost at this moment, the purple scorpion immediately charged towards Ye Feng.

Sharp soul thorns erupted from its body, which could stab the enemy's soul body into a pool of fragments in an instant, which was very terrifying.

"Soul Emperor Seal!"

"Great Thunder Emperor Seal!"

boom!

But at this time, Ye Feng roared and instantly released the powerful inheritance of the Soul Emperor Seal.

At this moment, Ye Feng's entire soul body, which was originally a weak one, suddenly began to expand in place, and finally turned into a huge and towering Thunder Emperor, with endless thunder and lightning surging all over his body, looking extremely terrifying.

"What?"

The big purple scorpion that was about to rush over to kill Ye Feng saw Ye Feng transform into a huge and majestic Thunder Emperor in an instant, and it immediately caught his eye.

With a look of deep horror on his face, he couldn't help but say: "You boy, you can actually use the power of thunder at the soul level? Who are you? Are you the reincarnation of the ancient thunder god?"

Ye Feng didn't have time to answer the big purple scorpion's doubts at this time.

In an instant, he shouted loudly and unleashed all the power of thunder.

"Rumble..."

Immediately, an endless wave of thunder and lightning burst out from Ye Feng's soul body, able to wash away everything. In an instant, the purple scorpion rushing forward was enveloped in a huge ocean of thunder.

"ah!!"

The big purple scorpion immediately screamed, his voice filled with deep pain.

Obviously, the power of soul thunder released by Ye Feng at this time was absolutely terrifying and caused huge damage to the soul body.

Even this big purple scorpion couldn't resist Ye Feng's thunder attack.

Because the power of thunder, whether at the physical or soul level, is an attribute power with astonishing destructive power.

So at this time, the purple scorpion's painful wail was unable to withstand Ye Feng's terrifying thunder attack.

For Ye Feng, this kind of thing is nothing surprising.

Because Ye Feng has always won the battle at the soul level.

At this moment, Ye Feng said with a hint of coldness in his eyes: "Die!"

"The thunder shook the ghosts and gods!"

Ye Feng roared loudly, and at this moment all the destructive power of the Great Thunder Emperor Seal was unleashed.

"Boom!"

Immediately, a beam of thunder shot out from Ye Feng's eyes and instantly hit the big purple scorpion.

"Click, click..."

At this moment, the entire body of the big purple scorpion suddenly disintegrated inch by inch.

The destructive power of that terrifying thunder attack is really terrifying.

At this moment, Ye Feng directly began to release the Devouring Domain.

He opened his mouth, and a huge dark vortex appeared, instantly swallowing the broken purple scorpion's soul fragments.

"Boom!" .??.

Ye Feng suddenly felt that his soul power was growing rapidly.

The soul power source contained in the soul fragment of this big purple scorpion is still very majestic and powerful.

"Level 18,100!"

"Level 18,200!"

"Level 18,300!"

"..."

At this moment, Ye Feng's soul power intensity is increasing at a rate of one hundred levels and one hundred levels.

It's really terrifying!

It has to be said that this big purple scorpion is worthy of being the demon soul that can occupy the soul of the green-haired giant, and it contains a lot of soul power.

In the end, Ye Feng's soul power strength was directly increased to level 19,000!

This time it has been upgraded to a thousand levels!

It can be said to be a huge harvest!

At this moment, Ye Feng's soul body was in the soul world of the green-haired giant, and he suddenly looked at the giant soul center controlled by the big purple scorpion.

Ye Feng suddenly had an idea in his heart, that is, could he separate a soul mark to control this green-haired giant.

"That big purple scorpion can do it, I don't believe I can't do it."

At this time, Ye Feng thought in his mind, and immediately separated a soul mark and rushed directly towards the soul center of the green-haired giant.

Soon Ye Feng's soul imprint became the

Reached the soul center of the green-haired giant.

The soul imprint that Ye Feng separated was directly integrated into the green-haired giant's soul center.

At this moment, Ye Feng's true self immediately felt that he had complete control over the entire green-haired giant.

"It's done!"

"Sure enough, the soul power is powerful and can easily complete this kind of control."

Ye Feng was very happy at this time.

He immediately withdrew his soul body from the soul world of this green-haired giant and returned to his own body outside.

"Buzz!"

At this time, Ye Feng suddenly opened his eyes.

The big black dog beside him saw that Ye Feng remained motionless and knew that Ye Feng was engaged in an extremely difficult battle for his soul.

At this time, Ye Feng opened his eyes again.

The big black dog immediately couldn't help but said: "Ye boy, how are you?"

Ye Feng smiled and said: "Successfully obliterated the foreign soul controlling the body of the green-haired giant."

"Very good!"

The big black dog couldn't help but stretched out its paw and patted Ye Feng's shoulder. He laughed and said, "You're so awesome! You're amazing! Master Gou, I admit that you are better than me in this regard. The soul master is really powerful." Ah, no, when I go to the God Realm with you, Master Gou, I will also find a way to cultivate my soul power!"

While the big black dog was chattering, Ye Feng suddenly had a thought.

"Rumble..."

The towering green-haired giant's body suddenly began to move violently.

"Damn! What happened? Why is this green-haired giant resurrected again?"

The big black dog was frightened.

"Hahaha."

Ye Feng laughed loudly at this time and said: "Don't be nervous, now the body of this ancient demon green-haired giant is completely under my control!"

Chapter 2327 Immortal Heroic Soul

"What, the body of this green-haired giant has been taken over by you, Mr. Ye?"

At this time, the big black dog saw Ye Feng's laughter, and was immediately dumbfounded. He couldn't help but smacked the dog's lips, and said excitedly: "You are such a special talent!"

At this moment, with a thought in Ye Feng's mind, the huge green-haired giant body, which contained boundless ancient body power, immediately began to move.

But no matter how hard the green-haired giant struggled, his chest was still nailed to the ground by the immortal war spear, unable to stand up from the ground.

Ye Feng stared at the ancient immortal war spear and said, "We need to pull out that immortal war spear."

The big black dog said with a trace of solemnity in his eyes: "This immortal battle spear was once the soldier of a mysterious Headless Horseman. It is an ancient artifact. It contains the immortal fighting will of the Headless Horseman. How dare you do this rashly?" To pull it out could be extremely dangerous."

Hearing this, Ye Feng couldn't help but ask: "What should we do?"

The big black dog said aloud: "I'll give it a try first, my body and bones are stronger."

Uh-huh!

After saying that, the big black dog immediately ran towards the immortal war spear that penetrated the body of the green-haired giant.

Ye Feng looked at the strong figure of the big black dog and couldn't help but touch his chin. He murmured in surprise, "Why do I feel that this dead dog is deliberately scaring me? It wants that immortal war spear." "

And just when Ye Feng was whispering.

The big black dog had already run in front of the Immortal War Spear. The dog's eyes were full of excitement. He immediately stretched out his dog paws, held it on the Immortal War Spear, and then pulled it out with all his strength. He yelled: "Come out here!!"

boom!

But suddenly at this moment, an immortal and terrifying martial arts will burst out from the Immortal War Spear, instantly killing the big black dog who was pulling out the Immortal War Spear.

The time flew away!

"Crack!"

The big black dog was directly blasted in front of Ye Feng, and fell hard to the ground, grinning in pain: "Damn! I was just talking nonsense, how could there really be an immortal will in this immortal battle spear? What a bad luck! It hurts me so much, Mr. Dog!"

When Ye Feng heard the big black dog say this, his eyelids twitched slightly.

This big black dog was really talking nonsense just now, and it didn't know what exactly existed in the Immortal Spear.

"I'll do it."

Uh-huh!

Ye Feng instantly ducked in front of the immortal war spear.

Buzz!

At this moment, he suddenly felt a very terrifying will, which was emerging from the war spear, rushing around crazily, making Ye Feng feel that his whole body was about to be broken. Feel.

"What a powerful will from ancient times!"

At this time, Ye Feng's eyes immediately showed a look of terrifying determination.

He stepped towards the immortal war spear, and then instantly grasped the war spear with one hand.

The big black dog was watching all this not far away, with shock in his eyes.

Ye Feng's martial arts will is really too strong.

Even the powerful immortal will of the Headless Horseman in the Immortal Spear failed to defeat Ye Feng.

"Come out!"

"boom!"

At this moment, Ye Feng immediately burst out with terrifying brute force, and in an instant, he shot the immortal battle spear from

The whole thing was pulled out of the ground, and also pulled out of the green-haired giant's body.

"Boom!"

But suddenly at this time.

A very huge heroic soul suddenly rushed out of the Immortal War Spear!

That is the immortal soul of a headless horseman!

"boom!"

The Heroic Soul of the Headless Horseman immediately charged towards Ye Feng and let out an earth-shattering roar. That kind of roar could shake and shatter the soul of an ordinary person.

When the big black dog saw this scene not far away, he immediately couldn't help but exclaimed: "Young man Ye, get out of the way! This is the heroic soul of the Headless Horseman, and it actually still exists in this immortal war spear. He It will crush your soul in an instant!"

At this moment, Ye Feng stood still, motionless.

When the tall heroic spirit of the headless horseman struck in front of him.

Ye Feng's eyebrows split instantly.

The power of the Eye of Sin was instantly revealed.

Look at the sinful eyes floating in the space between Ye Feng's eyebrows.

This tall heroic soul of a headless horseman suddenly knelt down on one knee in front of Ye Feng and paid homage.

"Oh my god! What's going on?"

The anxious look on the face of the big black dog not far away disappeared, and he was immediately stunned by the sudden change in front of him.

The ancient headless horseman, the heroic spirit of the mysterious superpower, was kneeling in front of Ye Feng at this moment.

Are you even still worshipping?

What's going on here?

"What happened in that moment just now?"

At this time, the big black dog looked towards Ye Feng. Because the big black dog

The dog was standing behind Ye Feng, so it didn't see the sinful eyes that appeared between Ye Feng's eyebrows just now.

At this moment, Ye Feng's own eyes also showed a hint of surprise.

Because he just saw the terrifying heroic soul of the headless horseman charging towards him, Ye Feng himself was ready to release the Soul Emperor Seal to fight against the enemy.

But what Ye Feng didn't expect was that the evil eye in his eyebrows would take the initiative to manifest itself, releasing the majesty of the Dark Emperor, causing the immortal soul of the Headless Horseman to kneel down on one knee.

Ye Feng really didn't expect it.

"It seems that this headless horseman is an ancient strong man among the dark races. Otherwise, it would be impossible for him to voluntarily surrender to the majesty of the Dark Emperor. The Dark Emperor is definitely the recognized emperor of the dark races."

At this time Ye Feng murmured.

He couldn't help but look at the headless knight in front of him, preparing to communicate with him.

"boom!"

But suddenly at this moment, the heroic soul of the Headless Horseman suddenly transformed into a powerful dark force, directly linking Ye Feng to the immortal war spear.

Then Ye Feng suddenly felt that there was an inseparable connection between himself and the Immortal Spear.

It felt to Ye Feng as if the Immortal War Spear had become a part of his body. He could release the power of the Immortal War Spear as he pleased without Ye Feng having to spend time refining it himself.

Uh-huh!

The big black dog immediately ran over from a short distance away. The dog's eyes were wide open and he couldn't help but gasped and said, "Boy Ye! The immortal soul of this headless horseman actually killed you and his before he died." The Immortal War Spear is connected together and no one can take it away. You can directly use the power of the ancient artifact, the Immortal War Spear, in the future. Damn, this is great luck!"

Chapter 2328 Taking away the body

At this moment, Ye Feng's eyes were filled with a trace of surprise. He was holding the Immortal War Spear in his hand and could feel that the entire war spear was releasing waves of powerful power every moment, injecting it into In Ye Feng's body.

"Boom!"

At this moment, Ye Feng held the Immortal War Spear and stabbed forward. Suddenly, a huge energy light burst out from the tip of the spear, which instantly shattered a large black mountain in front of him. .

"boom!!"

The entire mountain exploded into countless fragments, and the destructive power was astonishing.

"sharp!"

The big black dog's eyes widened, looking eagerly at the dark spear in Ye Feng's hand, his expression full of longing.

But the big black dog knew that the Immortal War Spear had been integrated with Ye Feng and became part of Ye Feng's body.

At this time, Ye Feng immediately took the Immortal War Spear into his body and nourished it.

At this moment, the big black dog looked towards the depths of the underground palace and said loudly: "We have reached the deepest area. Let's go back. There is no oil or water to fish here."

At this time, Ye Feng nodded and said, "Okay, let's go out."

On the way back, Ye Feng still looked very happy.

Because this time he came to this underground palace, the harvest was still huge.

At this moment, one person and one dog quickly left the underground palace and returned to the ground.

At this time, Xuan Wuji stood outside, seeming a little anxious.

When he saw Ye Feng and the big black dog coming out, his eyes immediately lit up and he hurriedly greeted them. He couldn't help but said, "You are finally back."

Ye Feng saw Xuan Wuji's anxious look and couldn't help but asked in surprise: "What's wrong?"

Xuan Wuji said: "With my clairvoyance, I saw many extremely powerful soldiers, encircling and suppressing them from the area of Dahuang Leize. They seemed to be the army of a powerful country in this small world."

Ye Feng's eyes moved and he said: "Maybe he is a strong man from the Rain Kingdom. When I killed those thunder and lightning unicorns in the Great Wilderness Lei Ze, I seemed to have provoked a guy who claimed to be the Princess of the Rain Kingdom."

At this moment, Ye Feng looked at the big black dog beside him and said loudly: "Big black dog, are there any other good things you can search for?"

The big black dog shook his head and said, "We've almost finished searching."

Ye Feng said in surprise: "So fast?"

The big black dog rolled his eyes and said: "Before you arrived, Mr. Ye, I had already searched nearly nine-tenths of the place. These last few places are the only areas left, but they also have the most treasures and resources. "Young man Ye, you really made a lot of money this time. You got the green-haired giant body clone and the immortal battle spear, which are all good things."

At this moment, Ye Feng smiled and said: "Big black dog, you are also extremely rich. You have already plundered nine-tenths of the area."

Seeing Ye Feng's seemingly malicious eyes, the big black dog immediately covered his mouth and said, "Don't worry about my treasures, otherwise I will fall out with you, Mr. Dog."

At this time, Ye Feng was too lazy to talk to the big black dog. He changed the subject and said: "Since a powerful ancient country in this prehistoric small world has sent an army, let's go and see the inheritance of the Thunder God Crocodile accepted by King Lanling. What's going on, get out of here quickly."

"good."

Xuan Wuji nodded, agreed, and said: "King Lanling has accepted the inheritance for so long, it should be almost done. Let's go and take a look."

"The inheritance of Thunder God Crocodile?"

At this time, the big black dog murmured, without saying anything more, and followed the two people towards the inheritance place where the Thunder God Crocodile lived.

When they came to the inheritance place of Thunder God Crocodile again, they immediately saw King Lanling standing there, seemingly waiting for them for a long time.

"You are here."

After King Lanling accepted the inheritance, his whole temperament seemed to be different, becoming deeper and nobler, giving people an inexplicable mysterious and hazy feeling.

At this time, Ye Feng immediately laughed out loud and said: "King Lanling, how do you feel now that you have accepted the inheritance?"

Prince Lanling smiled slightly and said, "It feels very good. Now my whole body has transformed."

At this time, Xuan Wuji was also very happy, and immediately said: "Then let's leave here quickly, leave this ancient little world, and return to the God Realm."

"good."

Prince Lanling nodded immediately and prepared to leave with the two of them.

Uh-huh!

But suddenly at this moment, the big black dog stood in front of King Lanling and said loudly: "He is no longer the friend you are familiar with, he has been taken away!"

"Has been taken away?"

At this time, when Ye Feng and Xuan Wuji heard this, their eyes suddenly changed.

At this moment, King Lanling stared at the big black dog, with a cold smile in his eyes, "You useless dog who can't die, I didn't expect you to expose me. Why, I just want to enter the divine world." , just develop my own power."

"Shut up!"

Xuan Wuji seemed to be very excited, and his expression was very angry. He stared at King Lanling and yelled: "Monster! Who are you? You actually took away our friend? Damn it!"

King Lanling laughed, with a trace of sarcastic smile in his eyes, and said loudly: "That friend of yours is just a stupid good-for-nothing boy, and I, as the first generation steward of the Thunder God Crocodile clan, , I have now taken this body, and completely reborn this Lanling King area, integrating the natal bone of the Thunder God Crocodile into this body, making it more perfect and powerful, you can't stop me! "

boom!

At this moment, Ye Feng didn't speak at all, he just took action and launched a fierce attack.

The great steward of this place of inheritance was so ruthless that he directly took away King Lanling. This was something Ye Feng could not tolerate.

So at this time, Ye Feng must avenge his friend!

"Boom!"

Ye Feng directly took out the Immortal War Spear and instantly stabbed King Lanling who had been taken away.

"boom!"

Suddenly, a terrifying destructive energy burst out of the Immortal Spear.

"This is... the Headless Horseman's Immortal Spear?"

At this moment, King Lanling, who was still very confident and calm, stared at the dark war spear in Ye Feng's hand, and suddenly became extremely shocked, and couldn't help but said: "How is it possible? How could the Headless Horseman's Immortal War Spear fall into the hands of a weak human boy like you?" At this moment, Ye Feng's eyes were filled with a trace of surprise, and he could feel the whole battle while holding the Immortal War Spear in his hand. The spear was releasing waves of powerful power every moment, injecting it into Ye Feng's body.

At this moment, King Lanling, who was still very confident and calm, stared at the dark war spear in Ye Feng's hand, and suddenly became extremely shocked, and couldn't help but said: "How is it possible? How could the Headless Horseman's Immortal Spear fall into the hands of a weak human boy like you?"

Chapter 2329 Returned

At this moment, Ye Feng didn't care what the shocked King Lanling said.

He was just filled with anger in his heart, and he immediately burst out with the strongest power in the Immortal War Spear, and immediately assassinated him in front of King Lanling.

"Thunder Shield!"

boom!

At this time, after being taken away, King Lanling instantly released an extremely powerful force of thunder, and condensed a huge thunder shield in front of him, trying to resist the attack of the Immortal War Spear.

But the great steward who seized the King of Shelan Mausoleum seemed to have underestimated the power of the Immortal Spear.

"Boom!"

Ye Feng's immortal spear, which contained the immortal soul and power of the Headless Horseman, pierced the thunder shield and stabbed the head of King Lanling in an instant.

"Pfft!"

King Lanling's head was pierced.

Blood rush!

"ah!!"

The chief steward's screams came from King Lanling's head.

Although this great steward took away the body of King Lanling, he also got the natal bone of the Thunder God Crocodile.

But after all, he had just taken control of King Lanling's body, so the power he could use was very limited.

Moreover, King Lanling himself is not powerful.

Before the big housekeeper could grow up, he was shot through the head by Ye Feng holding the Immortal War Spear.

at this time.

"Uh-huh!"

At this moment, a piece of bone emitting thunder and lightning was instantly wrapped in a soul, rushed out from King Lanling's damaged head, and flew quickly in a certain direction in the distance.

"Pfft!"

But it is impossible for this great housekeeper Yuanshen to escape so easily in front of Ye Feng, a powerful soul master.

"The Divine Eye of Creation!"

At this moment, Ye Feng instantly activated the Divine Eye of Creation.

"boom!"

"Boom!"

br

Suddenly, two dark soul light waves burst out from Ye Feng's eyes, tearing the void apart instantly, and hit the soul of the great butler who was about to flee not far away.

"ah!!"

The great butler's soul immediately screamed, and then the entire soul was instantly torn apart by the soul light waves erupting from Ye Feng's divine pupils of creation.

At this time, Ye Feng's eyes had a hint of coldness, and he stretched out his hand to grab the natal bone of the Thunder God Crocodile.

Xuan Wuji flew over, looked at the body of Prince Lanling on the ground, couldn't help but sigh, and said, "Brother Lanling Prince is really not lucky."

At this time, Ye Feng said aloud: "Bury Brother Lanling and let him rest in peace."

"good."

Xuan Wuji nodded.

Next, the two dug a pit nearby and buried King Lanling.

At this time, Ye Feng looked at the tombstone and said: "Let's go, we can't waste any more time. I can feel that there are many super strong people coming to the Rain Kingdom, and some of them have auras that make me extremely afraid."

Xuan Wuji also nodded and said: "In this ancient and small world, there are still super powerful forces with strong foundations. The Rain Country you mentioned, Brother Ye, probably covets the inheritance of the Thunder God Crocodile, so it attacks here in a large scale."

At this time, Ye Feng looked at the natal bone of the Thunder God Crocodile that was still emitting thunder and lightning in his hand, and immediately smiled and said: "What they want to get is now in my hands, they can't even think about it. "

The big black dog looked longingly at the natal bone of the Thunder God Crocodile in Ye Feng's hand, and said in a loud voice, "The inherited natal bone of the Thunder God Crocodile is the most precious thing in this habitat. , Mr. Ye, if you have time, can you lend me Dog Master to watch and learn?"

What is contained in it is a set of powerful inherited secrets of the Thunder God Crocodile. "

Ye Feng put away the inheritance natal bone of the Thunder God Crocodile in his hand, and then said loudly: "Let's go out first. We have attracted the attention of many super powerful people in this ancient little world, and this time we got even more attention. There are many treasures in this habitat that will definitely become the treasures of the major ancient countries, so we'd better leave as soon as possible."

At this moment, Xuan Wuji and the big black dog nodded one after another, and then followed Ye Feng towards the outside.

Under the detection of Ye Feng's huge soul power, the super strong men of the Rain Country could not find any trace of Ye Feng and the others.

Soon the two of them and the dog left this vast wilderness of Lei Ze and completely stayed away from this small and ancient world.

They arrived at the entrance to this ancient and small world. ??

It is impossible for ordinary people to find it here.

At this time, the three people shuttled through the passage, and soon left the small world of the ancient world and returned to the northern land of the God Realm.

And the moment they came out.

The entrance space passage leading to this ancient little world suddenly collapsed.

At this time, Xuan Wuji looked at the completely closed space passage and couldn't help but sigh: "I didn't expect King Lanling to die in the small world this time. It's really a pity."

Ye Feng also sighed slightly in his eyes and said: "This is how we practice all the way. Things in the world are impermanent, life and death are impermanent, and fate plays tricks on people. It is very likely that you and I will perish at some point in the future."

When Xuan Wuji heard this, his expression was a little heavy.

yes.

The journey of cultivation is extremely dangerous.

It may fall at any time.

But practice still attracts countless people.

Because as long as you can survive the bumpy road of cultivation and gain strong strength, you will be able to enjoy endless glory and rights, as well as endless

All the wealth.

At this moment, Ye Feng and Xuan Wuji were walking towards the previous stronghold of the blood-sucking demon clan.

The big black dog was following the two of them, looking at everything around him curiously, and said, "Is this the northern land of the God Realm? Mr. Dog, I lived in the central land of the God Realm, but I have never been to the northern land."

Ye Feng heard the big black dog's muttering and couldn't help but look surprised.

He originally thought that the big black dog had always stayed in that small world.

But now it seems that the big black dog lived in the center of the God Realm a long time ago.

If you put it this way, the identity of the big black dog is becoming more and more mysterious.

This big black dog has probably lived for many years and experienced a lot.

And just when Ye Feng was thinking secretly.

They have arrived at the demon stronghold where the human army of the Xuanwu Dynasty was stationed.

At this time, a general from the Xuanwu Dynasty rushed over and said excitedly: "His Royal Highness the Crown Prince, His Royal Highness the General, you are finally back!"

Xuan Wuji nodded and said, "Shi Tie, what's wrong? Why are you so anxious about something?"

The general immediately said anxiously: "Three days ago, our spies discovered that in this stronghold of the blood-sucking demons that we had destroyed, powerful blood-sucking demons

were marching quickly from all directions. The army should be supported from other strongholds. There are a total of six vampire demon armies, all led by extremely powerful vampire demon commanders. They will soon arrive at our stronghold. We Do you want to avoid the edge for a while?"

"Need not."

Ye Feng suddenly spoke up. He looked around the stronghold with a murderous look in his eyes and a confident smile on his face. He said: "Wait for them here. This time six armies of vampire demons came to support." , then we don't need to attack them one by one, it's too troublesome, this time we will let all the blood-sucking demon army come back!"

Chapter 2330 The First Layer of Thunder Shield

After Ye Feng finished speaking, the Xuanwu Dynasty general who came to report the situation was immediately stunned.

What?

Your Highness, a first-grade general, actually wants to fight six of them?

Those were six extremely powerful armies of vampire demons!

And there are six vampire demon commanders with terrifying cultivation levels. .??.

This is a very terrifying enemy.

At this time, he seemed to see Shi Tie's somewhat frightened expression.

Xuan Wuji immediately smiled and patted Shi Tie on the shoulder and said, "Go ahead and let the army rest where they are. Our current General, His Highness, is no longer comparable to the one before."

At this moment, when Shi Tie heard what Xuan Wuji said, he immediately clasped his fists and said, "Yes, His Royal Highness."

Next, Ye Feng rested directly on the spot and began to understand the inherited natal bone of the Thunder God Crocodile.

In this natal bone, the complete inheritance of Thunder Crocodile, a powerful ancient beast, is recorded.

The first inheritance is the method used by the great butler who took away King Lanling before, "Thunder Shield".

The Thunder Shield is the first inheritance recorded in the natal bone of the Thunder God Crocodile, and it is very powerful.

After being used, it can gather all the thunder power in the world and form a 360-degree thunder shield around itself, which has a very powerful protective power.

Had it not been for the big housekeeper who had just captured King Shelan Ling, he would not have been able to display the true power of the Thunder Shield, and Ye Feng did not have a terrifying ancient artifact like the Immortal Spear in his hand.

I'm afraid Ye Feng may really have no way to deal with the big housekeeper who took over his body.

Because the thunder power condensed in the Thunder Shield is not the thunder mana in one's own body, but the thunder of heaven and earth extracted from the power of the surrounding heaven and earth. It is very strong and has very terrifying destructive power.

At this moment, Ye Feng continued to understand his natal bones. At this time, his body was radiating the power of thunder and lightning.

At this moment, Ye Feng's entire body surface was seen to be wrapped in layers of thunder and lightning.

Those thunder and lightning gradually began to condense into a huge shield.

That's the Thunder Shield!

Ye Feng immediately shouted: "Shield!"

boom!

The power of thunder around him instantly condensed into thunder shields, and they all began to rotate around him.

"Boom!"

Ye Feng immediately opened his eyes, and small thunder shields were spinning around him, looking very magical.

At this time, the big black dog ran over and looked at the small thunder shields spinning around Ye Feng. He immediately couldn't help but said with envy: "Boy Ye, it seems that you have initially understood the inheritance of the Thunder God Crocodile." The first level, Thunder Shield."

Ye Feng shook his head and smiled, and said: "It's only after a little understanding that I can condense small thunder shields, but I still can't condense a large thunder shield."

The big black dog looked at it eagerly and said: "That's very cool, Mr. Ye, let me also understand the natal bone of the Thunder Divine Crocodile. I also want to condense the Thunder Shield and become the Thunder God." Dog! That must be very cool!"

Ye Feng glanced at the big black dog and said, "I'll give you some benefits and I'll enlighten you together."

"Depend on!"

The big black dog couldn't help but scolded: "You have no conscience! In the habitat of the prehistoric small world, Master Gou, I took you to so many inheritance places, making you a lot of money. Why don't you give me some insights into the Thunder God Crocodile's inheritance now? Young man Ye, you are such a heartless person!"

Although the big black dog said so, he still honestly took out a lot of precious elixirs from his storage space in the end, and obtained the qualification to observe Thunder Crocodile from Ye Feng.

Ye Feng naturally wants to deal fairly with this big black dog who is greedy for money.

At this time, Ye Feng looked at the big black dog happily taking over the natal bone, and said with a smile: "I'm giving you some face to the big black dog by accepting some miraculous elixirs and allowing you to observe the inheritance of ancient beasts like the Thunder God Crocodile."

The big black dog also knew this. At this time, he did not continue to curse. Instead, he laughed dryly and ran to the side to understand the natal bone inheritance of Thunder God Crocodile.

Because Ye Feng had set a time limit for it, ten high-level elixirs could only be observed for half an hour, which made the big black dog almost cursed just now.

"How can you exploit a dog like this!"

The big black dog was very indignant, but he just muttered and began to understand the natal bone.

And Ye Feng himself had already used his powerful soul power to imprint all the secrets in the Thunder Crocodile's natal bone into his mind, and he could understand it anytime and anywhere.

As for setting a time limit for the big black dog, it is naturally because Ye Feng knows that this dog is extremely rich. Now that he has such a rare opportunity, he naturally wants to squeeze the restless dog of the big black dog.

At this moment, Ye Feng swallowed dozens of high-level pills given by the big black dog.

"boom!"

Suddenly, a powerful and brand-new cultivation aura erupted from his body.

That is the momentum of breakthrough.

At this time, Ye Feng's cultivation level suddenly reached a new level under the accumulation of the huge medicinal power of dozens of pills.

Directly from the third level of the Super God Realm, he stepped into the fourth level of the Super God Realm.

In fact, this progress is already very good.

Because Ye Feng's body, with his continuous breakthroughs and improvements in cultivation, became more and more like a bottomless pit.

Every breakthrough in cultivation requires a huge amount of energy to accumulate.

Therefore, these so-called high-end elixirs given by Big Black Dog did not deceive Ye Feng, and they were still very powerful.

At this time, sensing the breakthrough in Ye Feng's cultivation aura, the big black dog not far away immediately couldn't help but said: "Ye boy, do you not trust me, Mr. Dog, and swallowed it in front of me?" , It really hurts my self-esteem, Master Gou!"

Ye Feng held down the head of the big black dog that was roaring crazily and said with a smile: "You misunderstood. When I get pills or other things that can improve my cultivation, I will swallow them on the spot because I put them in the storage box." In the ring, you may forget it later, so swallow it on the spot, break through on the spot, and directly improve your strength. This is the best. Some people like to get elixirs and so on, and put them in the storage ring, slowly If you forget to use it, or you are too advanced to use it, that would be a pity. "

When the big black dog heard what Ye Feng said, he nodded doubtfully and stopped complaining.

At this time, Ye Feng suddenly looked in a certain direction not far away, with a hint of sneer in his eyes, and said: "What a powerful energy wave! It seems that the six vampire demon armies have arrived! "After Ye Feng finished speaking, the Xuanwu Dynasty general who came to report the situation was immediately stunned.
