

Ancient 2661

Chapter 2661 Someone got there first

When they heard that Ye Feng agreed, these local men in black from the world of ancient giant city ruins couldn't help but said with some joy: "Young hero can agree to cooperate with us, that's really great. It is a great good thing for us, and it is also a good thing for Young Hero, because we sincerely want to cooperate with strong men like Young Hero. If we can safely find the giant city guided by the secret map in our hands, The treasures and wealth in the temple, then both of us can gain huge benefits."

Hearing what the man in black said, Ye Feng immediately nodded and said with a smile: "Then I wish us a happy cooperation."

After Ye Feng finished speaking, several men in black on the opposite side took out a fragment of the map from their storage rings, and then combined them together to form a complete map.

"Um?"

When Ye Feng saw this scene, there was a trace of surprise in his eyes.

It seems that although these men in black are wearing the same uniform, they should not be in the same camp. They should also be a small team formed together.

Thinking of this, Ye Feng breathed a sigh of relief.

It seems that although the opponents are all local warriors from the ruins of the ancient giant city, they are not from the same camp. They each hold a map fragment in their hands, and when combined together, they form a truly complete map.

At this time, after the complete map combination was successfully completed, the man in black looked at Ye Feng and immediately said with a smile: "Then let's go straight ahead. According to the route on the map, we should start from Giant City. Enter through the southern entrance of the temple."

Ye Feng looked around at this time and found that there were many entrances to the entire giant city temple, there should be more than a dozen.

Each entrance leads to a different space in the giant city temple.

Hearing what the man in black said at this moment, Ye Feng immediately nodded and said: "Since the map indicates this, then we will proceed according to the map."

Seeing that Ye Feng did not refuse, the man in black immediately breathed a sigh of relief.

He was really afraid that an extremely young and powerful man like Ye Feng would have some unsociable quirks, and it seemed that Ye Feng didn't have them.

Next, Ye Feng followed these men in black and walked into the Giant City Temple from the intersection south of the Giant City Temple.

The Great City Temple is not a single hall, but a combination of countless small palaces.

When Ye Feng followed several men in black into the interior space of the Giant City Temple from the southern entrance of the Giant City Temple, Ye Feng immediately felt that he had entered a dense maze.

Sure enough, as the man in black said before, the interior of the Giant City Temple is an architectural ruin like a huge maze.

At this time, the man in black had a map in his hand. Ye Feng naturally did not think that they could take the wrong route. After all, they could just follow the map.

But just when they were halfway to the distance indicated on the map, a group of collapsed palaces suddenly appeared in their field of vision.

This collapsed building smashed all the routes indicated on the map.

In other words, their route was now disrupted and they could no longer move forward according to the route guided by the map.

Seeing this scene in front of them, the eyes of several men in black revealed traces of ugly expressions.

They originally thought that with the map in their hands, they would be able to reach the final place where the treasure was hidden, but unexpectedly, the route collapsed halfway through.

At this time, Ye Feng did not speak, but walked directly to the collapsed building. After feeling it for a while, he suddenly appeared.

He said loudly: "The collapsed building in front of us at this moment is not handed down from ancient times. In other words, the collapsed route in front of us did not exist back then, but was chopped off recently. broken."

"What?"

Hearing what Ye Feng said, several men in black present immediately couldn't help but look horrified.

A man in black immediately spoke out: "Brother Ye Feng, are you sure what you sensed is correct? Did this collapsed building form recently?"

Ye Feng nodded, then stretched out his hand and grabbed it casually.

Swish, swish, swish!

Suddenly, several magic weapon fragments appeared in this building, and they were still shining with light, and they were absorbed into Ye Feng's hands.

Ye Feng stared at these magic weapon fragments and said aloud: "There must have been an extremely fierce battle here, which shattered and collapsed the surrounding maze roads and buildings."

The man in black couldn't help but have a deep gloomy look on his face when he saw the magic weapon fragments absorbed by Ye Feng.

A man in black couldn't help but said: "Could it be that someone had the map in our hands before us and found the ultimate treasure?"

Another man in black also sighed and said aloud: "It seems that we are really unlucky this time, and someone got there first."

But at this time, the man in black headed by this small team suddenly said: "Everyone has worked hard to get here, don't be discouraged. Although all the routes and buildings along the way have collapsed, It does not mean that the place that those who fought here before are looking for is the final area guided by the map in our hands. Maybe this road leads to other treasures and inheritance places. "

Hearing what the leader in black said, Zhou

Several other people around couldn't help but shook their heads, and then said aloud: "This road is very remote. Since there have been strong people here to hunt for treasures before, they must be for the final guidance of the map in our hands. That treasure came from, after all, most people are looking for treasures in the central area of the giant city temple. It is impossible for them to come to such a remote place and have such a tragic battle."

The leading man in black suddenly fell silent when he heard what several people said, because this possibility is the greatest, and the treasure may have been captured first.

Everyone fell into silence, and the atmosphere was a bit dead.

However, Ye Feng suddenly spoke up at this time: "In any case, we will find other routes to the final area of this map. Maybe the people who were looking for the treasure before have died on the rest of the way. After all, you are not Are there dangerous dangers in the remaining half of the journey? And even if those who arrive first find the final place indicated on the map, they may not be able to obtain the treasures and opportunities contained in this final place."

Hearing what Ye Feng said, the eyes of several men in black suddenly brightened.

The man in black at the head immediately couldn't help but nodded and said loudly: "What little brother Ye Feng said is very possible. Although the place ultimately pointed to by this map hides huge opportunities and treasures, but It is also full of great dangers, and those strong men who came here before may not have obtained the final treasure. "

Ye Feng nodded, and then said aloud: "So there is still hope for everything, let's all continue to move forward, rush to the final area guided by this map, and see what the situation is, we can't go in vain. "

Several men in black nodded at this moment, and then based on the route around the map, they once again found a way to the final place, and quickly moved towards the final area of the map.

Chapter 2662 The terrifying power of frost

Ye Feng and the men in black quickly walked towards the area finally guided by the map.

Although they speculate that the final treasure may have been discovered first.

But after a few people finally got here, they naturally wanted to see the final result.

So at this time, they must see the final result before they are willing to give up.

So everyone then chose another path based on other routes on the map, and finally arrived at the final area where the treasure was buried guided by the map.

When they arrived at the final area, they immediately saw an incredible scene.

Not far away was a kingdom of ice and snow in the underground space.

A vast dynasty, all covered by countless ice and snow.

No matter what kind of building it is, or the people who lived inside it, they are all frozen into ice sculptures.

At this time, Ye Feng and several men in black quickly arrived at the edge of this ice and snow country.

At this moment, Ye Feng immediately felt a terrifying cold that was eroding his body.

Even with such a strong body strength, Ye Feng felt a cold feeling at this moment, which was as cold as bone marrow.

Therefore, the other men in black standing next to Ye Feng were not as strong as Ye Feng. Naturally, they were so cold that their whole bodies were covered with a layer of frost.

At this moment, these men in black couldn't help but said: "This final treasure hiding place is indeed a strange place. Even if we are just standing on the edge of this land of ice and snow, we can feel it." A terrible feeling of death, as if the whole person's blood and energy are about to be frozen."

Ye Feng nodded slightly, and then said aloud: "Looking at the surrounding situation, it seems that no one has been here in advance, but there may be other entrances to this final area. The one we came to may be just one entrance."

The man in black nodded and said loudly: "It is indeed possible, so we should hurry up and enter it to see if the treasure has been plundered in advance."

Another man in black also said aloud: "We really can't waste time. It is very likely that other entrances, those who were the first to get there, may have entered this land of ice and snow from other entrances."

When Ye Feng heard what some men in black said, he immediately said: "Okay, then we can't waste time anymore, let's go deep into it."

"Um."

All the men in black nodded.

Then the group of people walked directly towards the inner space of the ice and snow kingdom.

After they walked for a while, they suddenly saw ancient buildings frozen in the ice and snow.

The surfaces of these buildings are covered with a thick layer of ice.

At this moment, a man in black said: "Let's break through the ice and enter these buildings. There may be huge opportunities hidden in each building."

Boom!

After the man in black finished speaking, he immediately punched the ice in front of him crazily.

Suddenly, the entire field erupted into a terrifying roar.

At this moment, the ice on the surface of the building did not suffer any damage, nor did any cracks appear.

But the man in black's fist was suddenly covered with a layer of frost, and then it quickly covered the entire surface of his body.

"What?"

The man in black immediately said with some horror: "This ice layer is ridiculously thick, and there is also very terrifying ice attribute power on the surface. I just touched these ice layers, and there was a very terrifying frost immediately. The power spread and invaded my entire body, which was really terrifying. "

At this moment, the man in black immediately unleashed all his strength to resist the power of frost spreading on the surface of his body.

But the man in black discovered that he couldn't resist the power of these frosts, and his whole body was about to be frozen into a human-shaped ice sculpture.

This made the man in black immediately panic to the extreme, and he couldn't help shouting: "Hurry up and save me! These frost powers are very weird and powerful, and they are very advanced. I can't resist them at all!"

"What?"

"Why is this ice and snow country so weird!"

The other men in black present couldn't help but have deep horror in their eyes.

They all came to the man in black who was covered in frost, and then quickly used their own methods to help him resist the power of frost.

But they couldn't resist it, even the bodies of the helpers were covered with a thick layer of frost.

At this moment, Ye Feng saw this scene and immediately walked towards these men in black, and then instantly released his own flame and began to burn the power of frost.

"Crash..."

Almost at this moment, the natal flame released by Ye Feng was extremely hot and strong, melting all the frost power and ice and snow in one fell swoop.

At this moment, a few talents in black were out of danger.

At this moment, the man in black who was first covered by frost couldn't help but let out a sigh of relief, and said with some fear: "It's too dangerous! I was almost frozen into an ice sculpture and died just now!"

At this time, several other men in black also nodded, deeply feeling the danger of this terrifying power of frost.

At this moment, the man in black at the beginning immediately came to Ye Feng, couldn't help but clasped his fists and said: "Thank you little brother Ye Feng for helping me this time, otherwise I might really die." Being frozen by this terrifying power of frost, I just felt like all the blood in my body was about to be frozen. It was really terrifying."

At this moment, after the man in black finished speaking, several other men in black also showed surprise in their eyes, staring at Ye Feng, and couldn't help but said: "I didn't expect that little brother Ye Feng turned out to be It is extremely rare for a fire-attribute warrior to be able to withstand such advanced frost power. It seems that the quality of my little brother's fire is also very high."

Ye Feng smiled slightly and said: "This is nothing, let me break the ice of this building."

At this moment, Ye Feng walked up to the frozen building that the man in black wanted to break open, and then slowly stretched out his palm and touched the ice.

"be careful!"

Seeing Ye Feng do this, several people in black around him couldn't help but exclaimed.

Because they had just seen the terrifying power of frost contained in this ice layer. Ye Feng and the men in black quickly walked towards the area finally guided by the map.

"be careful!"

Seeing Ye Feng do this, several people in black around him couldn't help but exclaimed.

Because they had just seen the terrifying power of frost contained in this ice layer.

Chapter 2663 Ancient Figures in the Ice

Although at this moment, several people in black around him couldn't help but exclaimed, reminding Ye Feng not to do that.

However, Ye Feng did not show fear on his face. Instead, he directly accelerated his speed and touched the ice in front of him.

Buzz!

Almost at this moment, a very terrifying air of ice suddenly covered Ye Feng's palm, and then quickly froze Ye Feng's entire body.

But at this moment, Ye Feng released his powerful natal flame.

All of a sudden, a terrifying scorching power was produced, which instantly melted the thick ice in front of him and turned it into droplets of water, falling on the ground.

Seeing this scene, the several men in black standing around had deep horror in their eyes.

They didn't expect that Ye Feng's natal flame would be so powerful.

Even in the face of such a terrifying and deep layer of ice, Ye Feng relied on his own power of fire to burn and melt the entire ice layer.

How much skill does it take to do this?

At this moment, Ye Feng immediately continued to increase his natal flame.

Boom!

A screen of flame light suddenly rushed out from Ye Feng's palm, directly covering the entire building in front of him with ice.

Then all the ice melted, and eventually the entire building recovered from the ice.

At this moment, several people in black around them couldn't help but exclaimed in amazement: "Little brother Ye Feng's power of fire is really powerful!"

At this moment, Ye Feng smiled and said: "Let's go into this ancient building and take a look. Maybe there will be some chance."

When several other men in black heard what Ye Feng said, they immediately nodded and walked towards this ancient building.

When they came to this building

In the middle, I immediately saw ancient humanoid ice sculptures, as well as some ice sculptures of monsters, standing in this ancient building.

These ice sculptures look very old, and they have probably been frozen here for endless years.

At this moment, a man in black couldn't help but said: "The characters in these ice sculptures probably existed tens of thousands of years ago, or even hundreds of thousands of years ago. I don't know why the entire dynasty was frozen overnight. Yes, everyone remains the same as they were at that time."

At this time, a man in black walked up to an ice sculpture and released his magic weapon, trying to break the ice sculpture.

Because the character in the ice sculpture in front of him has a storage ring on his finger. It is a very ancient storage ring. If it can be obtained, it might contain some very precious resources.

But just when the man in black released his magic weapon and wanted to attack the ice sculpture in front of him.

boom! !

Suddenly, the entire ice sculpture burst apart, and the ancient figure inside actually came alive. He stretched out a hand and scratched the man in black's entire chest to pieces.

"ah!!"

The man in black felt the heartbreaking pain, and immediately screamed in pain. His expression was full of deep fear. He couldn't help but stare at the figure in the ice sculpture in front of him, and said loudly: "You! How could you be alive? !"

This sudden scene was beyond the imagination of everyone present.

When Ye Feng and several others saw this scene, the man in black had been killed by the ancient figure in the ice sculpture.

"What?!"

Seeing this scene, several people present couldn't help but look deeply shocked.

How are they

Nor did he expect that characters from the ancient era who had been frozen for endless years would actually come alive again.

At this moment, several other men in black immediately attacked the ancient figure who came out of the ice sculpture.

Rumble...

But all their attacks fell on this ancient figure, but they had no effect.

The surface of this ancient figure's body was covered with a thick layer of frost, like the strongest armor, which resisted all attacks from these men in black.

"What?"

"So powerful?"

Several men in black immediately showed deep surprise in their eyes.

They wanted to retreat, but it was too late.

Boom!

Almost at that moment, the ancient figure who came out of the ice sculpture stretched out his hand and grabbed the surroundings.

These men in black had no time to react. They were torn to pieces by this ancient figure in an instant, and the entire surrounding palace was dyed red.

At this moment, Ye Feng ran outside quickly without thinking, because he also felt that he was no match for this ancient figure who broke through the ice.

This must be a very terrifying ancient powerhouse.

Now I don't know why, but suddenly it revived and ran out of the ice.

Moreover, the surface of this ancient figure's body is covered with a strange layer of frost, which is like the strongest armor and cannot be broken at all.

"Um?"

"There's still one person missing!"

At this moment, looking at Ye Feng's fleeing back, this terrifying ancient figure who suddenly resurrected suddenly showed a trace of surprise in his eyes.

Boom!

And then

In the next moment, this ancient figure covered with frost quickly chased Ye Feng in the direction of his escape.

Because he would not let anyone escape from his grasp, he must kill Ye Feng, the last person to escape.

Then Ye Feng quickly fled throughout the entire Frost Kingdom, while the ancient figure behind him was constantly chasing Ye Feng.

Ye Feng had wanted to confront this ancient figure several times.

But in the end, even if Ye Feng released the most powerful natal flame, even if he released the Ice Ancestral Talisman, it would have no effect.

This ancient figure was too powerful to fight against. Otherwise, it would have been impossible to instantly kill several extremely powerful men in black who were similar to Ye Feng in such a short period of time.

Ye Feng only has one thought now, and that is to run away quickly and get out of the pursuit range of this ancient figure.

Boom!

Just in the early morning of the next day, Ye Feng suddenly sensed a very loud roar coming from the center of the frost country, which was a very strong battle wave.

Ye Feng's eyes immediately lit up and he flew quickly in that direction.

When Ye Feng flew to the central area of the frost kingdom, he immediately saw several super strong men radiating light, fighting with several towering ice beasts in the central area.

Ye Feng understood in an instant that these super strong men who exuded divine light must be the ones who had arrived first.

At this moment, Ye Feng looked at the ancient figure in the ice chasing him not far behind him, and immediately thought of a plan, which was to divert the disaster eastward.

In other words, Ye Feng is now going to introduce this ancient figure into the battlefield in the central area, and he will use the space gem to lurk in an instant. In this way, he should be able to escape, observe in secret, and wait for opportunities to act.

Chapter 2664 Space Teleportation Formation

Uh-huh!

At this moment, the moment Ye Feng flew to the center of this ice and snow country, he immediately activated the power of his space gem, and then instantly hid himself in the void.

Protected by the power of space gems, Ye Feng is hiding in the void at this moment and will not be discovered by anyone unless it is a super powerful existence.

At this time, the ancient figure in the ice who was chasing him not far away instantly lost Ye Feng's aura.

His eyes seemed a little confused, and he didn't know why Ye Feng suddenly disappeared from the surroundings.

Boom!

But at the next moment, the battle in the center of the ice and snow country suddenly attracted the attention of this ancient figure in the ice.

This ancient figure seemed to be a little unclear. At this moment, he instantly forgot the existence of Ye Feng, and immediately flew towards the battle battlefield in the central area.

When he arrived on the battlefield, he immediately saw several strong men exuding divine light, killing the guardian beasts in the imperial city at the center of the ice and snow kingdom.

This ancient figure immediately showed a look of deep anger in his eyes, and made an indistinct voice from his mouth: "Outsiders dared to break into my palace and kill the guardian spirit beasts that I had kept in captivity. , It's really too presumptuous!"

Boom!

Almost at this moment, this ancient figure suddenly burst out with extremely powerful momentum, and instantly rushed towards the few super strong men in the center area not far away who were exuding divine light.

Ye Feng, who was hiding in the void, heard the vague words spoken by this ancient figure, and his eyes showed deep surprise.

He never thought that this ancient figure who was released from the ice by his group was actually the emperor of this land of ice and snow.

At this moment, Ye Feng did not leave the void, but continued to hide his entire body in the void, quietly watching everything that happened on the field.

"A strange and powerful man has arrived! He is exuding a strong corpse aura!"

At this moment, when the ancient strong man arrived in the central area, the super strong men who were fighting several evil beasts with their bodies exuding light suddenly showed a trace of surprise in their eyes.

They rushed towards the ancient strong man in an instant.

Boom!

Several super strong men and ancient figures exuding divine light collided with each other all of a sudden, and a terrifying roar suddenly sounded throughout the world.

And at the next moment, that ancient figure repelled several super strong men who were exuding divine light.

"What?!"

Seeing the incomparable fighting power of the ancient figures, these super strong men who were exuding divine light could not help but show deep surprise in their eyes.

They never seemed to have thought that with their cultivation and strength, they would not be able to compete with this ancient figure.

At this moment, a super strong man with divine light all over his body, who didn't know where he came from, immediately took out a huge picture full of skeletons. This seemed to be an extremely powerful magic weapon.

This super strong man, who was exuding divine light, immediately said to his companions:
"Everyone should stop hiding and trying to find the most precious lost treasure of the Ice and Snow Dynasty in this giant city temple. , now we can only change this sudden jump

The extremely powerful corpse cultivator that came out was killed! "

At this moment, it was obvious that this group of super strong men exuding divine light felt that the ancient figure was a zombie.

Boom!

Almost at the next moment, a group of super strong men fought together, and the terrifying power boiled the whole world, which looked extremely shocking.

However, after Ye Feng watched for a while, he felt that the battle might not be decided so quickly, and he immediately had other thoughts.

"While these super strong men were fighting outside, I secretly went around to the deepest part of the palace to see if there was anything good."

At this moment, Ye Feng was thinking in his mind, and immediately controlled the space gem, allowing his entire body to traverse the hidden void, and in an instant, he went around to the depths of the palace of this ice and snow country.

Buzz!

Ye Feng moved very quickly in the void. Because of the power blessed by the space gem, he quickly arrived deep in the palace of this ice and snow country.

At this moment, Ye Feng could still hear terrifying collisions outside the palace. It seemed that those super strong men were still fighting desperately.

For Ye Feng, this situation is very happy to see, because in this way, Ye Feng can safely explore the possible treasures deep in the palace of this ice and snow country.

Ye Feng first came to the deepest area of the palace of the ice and snow country. He immediately saw a very huge central hall, standing in the snow and wind.

Uh-huh!

Ye Feng walked into the central hall in an instant.

The entire central hall was covered with ice and snow, but Ye Feng had a powerful natal flame, and he was instantly

All the ice and snow in the central hall were melted, and then he got directly into it.

After entering the space inside the central hall, Ye Feng immediately felt an ancient aura rushing toward his face.

Obviously, this central hall has been frozen for tens of thousands of years, or even hundreds of thousands of years, giving people a sense of historical vicissitudes.

"Um?"

The moment Ye Feng came in, he immediately saw that the central hall was empty.

When Ye Feng saw this scene, he couldn't help but look disappointed in his eyes: "Is there no treasure hidden in this palace?"

But at this moment, Emperor Chu's voice suddenly sounded in Ye Feng's mind: "Ye Feng, look at the southwest corner of the central hall. I sensed a special spatial fluctuation."

When Ye Feng heard what Emperor Chu said, he immediately nodded and walked towards the southwest corner of the central hall.

When he arrived at his destination, he immediately saw an ancient formation imprinted on the ground.

Emperor Chu said in his mind at this moment: "This should be a space formation. It should be able to be transmitted to a specific space. That specific space may be the place where the treasure is hidden."

When Ye Feng heard what Emperor Chu said, his eyes suddenly lit up.

What Emperor Chu said should be correct, otherwise who would be so bored that he would imprint a space teleportation formation in the central hall of the palace.

At this moment, Ye Feng immediately outputted his mana without wasting any time and entered the space teleportation formation.

Buzz!

The space teleportation array was activated in an instant, and Ye Feng disappeared into the space teleportation array the next moment.

Chapter 2665 Immortal Spirit

Buzz!

Following a very violent space fluctuation, Ye Feng's entire body disappeared into the space formation in an instant, and then he was instantly teleported to a very empty space.

"This is....."

At this moment, Ye Feng looked around and immediately discovered that the entire space around him seemed to be under a huge snow mountain, surrounded by huge and unattainable snow mountains.

At this moment, Ye Feng's eyes showed a hint of surprise, and he couldn't help but said: "The place that this space teleportation array is teleported to does not seem to be a treasure hiding place?"

Buzz!

Emperor Chu was also radiating his soul power in Ye Feng's mind at this time, sensing everything around him.

Suddenly at the next moment, Emperor Chu seemed to have discovered something, and couldn't help but said: "Ye Feng, the place you are being transported to now contains a very strong immortal spirit."

"The spirit of an immortal?"

When Ye Feng heard what Emperor Chu said, he couldn't help but look puzzled, and asked aloud: "What does the Qi of the Immortal God mean?"

Emperor Chu said aloud: "There must have been an immortal god here before, so it was contaminated with the aura of the immortal god. Search the entire surrounding space area carefully. There is no way there is nothing."

When Ye Feng heard what Emperor Chu said, he immediately nodded. He also felt that such a very obscure space teleportation formation was imprinted in the central palace at the core of the ice and snow kingdom, and the area it was teleported to, It must be very special, it cannot be nothing.

At this time, Ye Feng immediately walked quickly towards the surroundings and began to explore everything around him.

When Ye Feng came to the end of this special area surrounded by countless snow-capped mountains.

He was immediately shocked by the scene in front of him.

I saw countless snow-capped mountains, surrounded by

There is a huge ice sculpture made of countless ice and snow.

This huge ice sculpture is as majestic as mountains, and it is like a miraculous work of nature.

At this moment, Ye Feng saw that under this huge ice sculpture, there was an Ice Throne that looked extremely noble.

On top of this Ice Throne, there is also a huge skeleton sitting.

I saw that on the bone palm of this skeleton, one hand was holding an ice scepter, and the other hand was holding a book made of ice.

In addition, there is a very ancient-looking purple gold ring on one finger of this skeleton, which should be a storage ring.

Ye Feng couldn't help but said: "Could this skeleton be the emperor of the Ice and Snow Kingdom back then? But it's impossible. The Emperor of the Ice and Snow Kingdom is the ancient figure outside who is fighting other superpowers. "

Emperor Chu was silent for a while, and then said aloud: "This huge skeleton exudes a very strong aura of immortality. This huge skeleton is definitely not an ordinary emperor, but a real immortal god, perhaps from A powerful immortal god who descended from the great world of origin."

When Ye Feng heard what Emperor Chu said, there was a hint of surprise on his face, and he couldn't help but said: "Emperor Chu, are you sure that this huge skeleton came down from the more advanced and mysterious world of origin? A fairy?"

Emperor Chu spoke out at this time: "I'm not sure about this, but the skeleton exudes a very authentic and rich immortal spirit. It is a high-level immortal spirit that our low-level gods do not have. breath."

When Ye Feng heard what Emperor Chu said, he smiled slightly.

He nodded slightly and said aloud: "No matter what kind of existence is in front of this huge skeleton, he must be a powerful person, earth-shattering, and everything on him must be of extremely precious value."

At this moment, Ye Feng stared at the three things on the huge skeleton, with deep excitement in his eyes.

These three objects are the ice scepter held by the giant skeleton in one hand, the ice book held in the other hand, and the purple gold storage ring on one finger of the skeleton.

Uh-huh!

At this moment, Ye Feng immediately dodged towards the Ice Throne where the huge skeleton was sitting.

Emperor Chu reminded him in his mind: "Ye Feng, be careful, there may be unknown dangers."

Ye Feng nodded slightly at this moment, and then instantly released his own flame.

Wow!

At this moment, a terrifying and powerful flame suddenly burned on the surface of Ye Feng, making Ye Feng look like a young fire god as he slowly walked in front of the huge skeleton. .

What surprised Ye Feng was that there was nothing dangerous about the whole process.

Ye Feng easily walked in front of this huge skeleton.

Boom!

But suddenly at this moment, Ye Feng suddenly saw an extremely terrifying ice frenzy burst out from the eyes of this huge skeleton, and instantly rushed in front of him, trying to kill him. Frozen in the endless air of frost.

Rumble...

Almost at this moment, Ye Feng subconsciously released his extremely powerful fire attribute power and bombarded with this terrifying ice frenzy.

\u003e But what makes Ye Feng very shocked is that the power of his natal flame, which combines the powerful qualities of many advanced flames, is somewhat unable to withstand this infinite frost energy at this moment.

It seems that the frenzy of ice condensed by this frost energy will never end and be endless.

At this moment, Emperor Chu immediately said aloud in his mind: "Ye Feng, don't force yourself to confront this frenzy of ice. The body of this huge skeleton must still contain high-level cold energy like an immortal god. You have to do it now." What you need to do is, hurry up and take off all three treasures on his body, and then hurry up and get out of here."

Ye Feng immediately nodded. In an instant, he desperately released his own flame in the endless frenzy of cold air, and then stretched out his hand to take the ice scepter, ice book, and the ice scepter in the giant skeleton's hand. A purple-gold storage ring was taken off directly.

Uh-huh!

Then Ye Feng didn't hesitate and ran quickly towards the distance in an instant, trying to get away from this frenzy of ice.

Because even if Ye Feng is so powerful, he still feels that he can't resist this ice frenzy.

It's simply endless!

At this moment, Ye Feng immediately asked in his mind: "Emperor Chu, how should I leave this space now?"

At this time, Emperor Chu immediately said aloud in his mind: "Continue to leave from the place where you just came in, activating the reverse teleportation array."

When Ye Feng heard what Emperor Chu said, he immediately flew quickly towards the place where he had descended into this special space.

He doesn't even have time to explore the functions of the three precious treasures he just won.

Because the most important thing for Ye Feng right now is to leave this extremely dangerous special space that has been enveloped by countless ice waves.

Chapter 2666 Total Blockade

Wow!

At this time, countless ice waves swept in from a distance, sealing the entire surrounding space with ice.

It seems that the entire world will be frozen in thick ice!

Very scary!

Swish, swish, swish!

But at this time, Ye Feng was running away extremely quickly.

Even though Ye Feng possesses extremely powerful advanced flames, at this time he can deeply feel that he is no match for this terrifying ice craze.

This frenzy of ice rushed out from the eye sockets of the tall skeleton. It seemed to be a skeleton left by the ancient gods. It was extremely terrifying.

At this moment, Ye Feng used the spatial displacement power of this space gem to finally reach the place where he entered this special space before.

"boom!"

At this moment, Ye Feng instantly activated the anti-teleportation formation, and his whole person disappeared into the space formation.

The next moment, Ye Feng's entire body appeared in the main hall in the central area of the ice and snow kingdom.

At this moment, Ye Feng ran out of the central hall in an instant, and then quickly ran in a certain direction in the distance.

Just when Ye Feng left, several super strong men with divine light suddenly arrived here.

These super strong men exuding divine light actually saw a big hole in the ice at the entrance of the central hall the moment they arrived.

When they saw this scene, a gloomy look suddenly appeared on their faces.

A super strong man who exuded divine light couldn't help but said: "Oops! We have been fighting that hateful zombie emperor outside for too long, and someone has already arrived first! The ice god from the legendary Origin World I don't know if the king's legacy is still there!"

Another super strong man immediately rushed towards the central hall and said loudly: "Hurry up and take a look!"

When these superpowers entered the special space through the teleportation formation in the central hall, they were immediately enveloped by countless ice frenzy, and they almost lost their lives before escaping in a hurry.

"The entire territory is blocked! We must catch that nasty thief!"

At this moment, these superpowers, all exuding divine light, were furious.

A super strong man immediately said: "Unite all the local strong men in our ancient giant city world, unite all the forces, and kill all outsiders who enter our ancient giant beast world!"

And just when these superpowers issued orders angrily.

Ye Feng was alone, having left the ice and snow country far away, and returned to the giant city temple in the world of ancient giant city ruins.

At this moment, Ye Feng did not continue to look for other opportunities, because he could feel that the things he plundered this time were absolutely precious, and Ye Feng also understood that if those super strong men with divine light emanating from their bodies would After seeing all the treasures in the central hall of the Frost Kingdom being plundered, he would definitely be furious and even send various powerful men to hunt him down.

But Ye Feng also knew that those super powerful people who exuded divine light had never seen his true face. If they wanted to find him, it would be as difficult as climbing to the sky, like finding a needle in a haystack.

But next

In the next few days, Ye Feng suddenly discovered that all the disciples of the Tiandao Sect and the Everlasting Hatred Demon Sect were being surrounded and killed by powerful masters from the ruins of the ancient giant city.

Ye Feng immediately understood that those superpowers who exuded divine light should be the top existences in this ancient giant city ruins world.

They must now be pursuing the principle of preferring to kill before missing, to hunt down all outsiders who enter the world of the ruins of this ancient giant city.

Ye Feng felt a sense of crisis. In the next few days, he did not run around. Instead, he found a remote place around the temple area of the giant city and began to check the three treasures he had obtained before.

To be able to make these top powerhouses in the world of ancient giant city ruins go to war so violently shows that the few things Ye Feng obtained are absolutely precious and extraordinary.

At this moment, Ye Feng settled down in a dilapidated palace, and then arranged some hidden formations around the dilapidated palace to prevent others from noticing his presence here.

Next, Ye Feng took out the three things he had obtained from that special space before.

The first thing is an ice scepter.

Ye Feng touched the surface of the ice scepter at this moment, and immediately felt the extremely vigorous ice energy contained in this scepter.

Even the Ice Ancestral Talisman that Ye Feng had obtained before was unable to compete with the cold energy in this Ice Scepter.

The ice energy contained in this ice scepter is very advanced. It is more advanced and noble than the various ice attributes Ye Feng has encountered before. Once released, it can freeze the world.

"This is definitely a very powerful weapon! It is a super magic weapon refined by an extremely powerful being. It is very advanced!"

Ye Feng's eyes were extremely excited at this time, because he was currently lacking powerful weapons.

Even the Earth Sword and the Human Emperor Sword that he had obtained before were definitely not as good as the super magic weapon that Ye Feng had in his hand at this moment, which may have come from the Great World of Origin, the Ice Scepter.

Next, Ye Feng did not directly refine the ice scepter, because Ye Feng felt the unfathomable power from this ice scepter. It cannot be refined temporarily by himself, and it needs to be constantly warmed and nourished. Can eventually become your own weapon.

So now Ye Feng just swallows the Ice Scepter into his body and constantly uses his blood energy to wash it away. Only in this way can the Ice Scepter finally connect with himself and become himself. Weapons of control.

Next, Ye Feng looked at the second thing he got, which was an ice book.

Ye Feng opened the Ice Book and immediately saw some ancient writings recorded on it.

Ye Feng didn't recognize these words. They seemed to be an ancient language of another race.

At this moment, Emperor Chu said in his mind: "This is a kind of writing written by the ice race. I have seen it before. This ice book should record some secret techniques of ice attributes. Let me take a look. , maybe we can decipher some powerful ice attribute secrets."

When Ye Feng heard what Emperor Chu said, he immediately nodded and handed the ice book in his hand to Emperor Chu.

Finally, Ye Feng took out the purple-gold storage ring he had obtained.

In fact, what Ye Feng is most interested in is this storage ring, because it contains the treasures of the tall skeleton who is suspected of being an immortal. Wow!

Finally, Ye Feng took out the purple-gold storage ring he had obtained.

In fact, what Ye Feng is most interested in is this storage ring, because it contains the treasures of the tall skeleton who is suspected of being an immortal.

Chapter 2667 Advanced Energy Crystal

Buzz!

At this time, Ye Feng instantly released his soul power and began to explore the purple-gold storage ring in his hand.

For Ye Feng, he is very much looking forward to what is contained in this storage ring.

At this moment, Ye Feng immediately began to explore the inner space of the storage ring.

When Ye Feng looked inside the storage space, he was immediately dazzled by the scene in front of him.

Because the inner space of this storage ring is filled with piles of crystal stones that emit colorful light.

These crystals all contain rich energy, and they all exude a very noble aura of immortality.

Obviously, this must be the high-grade energy crystal brought from the origin world in front of the tall skeleton.

At this moment, Ye Feng couldn't help but show joy in his eyes.

In fact, to be honest, Ye Feng is not lacking in weapons now, nor is he lacking in inherited techniques.

What he lacks now is the majestic energy that he can devour to break through his current cultivation level.

Ye Feng looked at the piles of energy crystals, and then continued to look in the other direction of the inner space of the storage ring.

There is an ancient stone tablet there. Ancient writings are recorded on the stone tablet, which seems to be a very powerful ancient inheritance.

However, Ye Feng could not understand the text recorded on the stone tablet now, so he could only hand it to Emperor Chu and let him continue to decipher it.

Then Ye Feng suddenly saw a small spring in the deepest part of the storage ring. There was a beast egg the size of a fist suspended in the spring.

This small beast egg exudes a very cold air, which makes Ye Feng feel threatening. It shows that the life source of this beast egg is extremely terrifying, and its life level is absolutely very advanced.

Ye Feng couldn't help but flash his eyes slightly at this time, and couldn't help but think in his heart that this beast egg could be the descendant of the super strong man with ice attributes from the world of origin.

At this moment, Ye Feng felt that this was very possible.

Therefore, Ye Feng did not devour the egg directly. He felt that it would be too wasteful to devour it directly. It would be better to hatch the egg and maybe cultivate a super powerful pet with ice attributes.

Wow...

Next, Ye Feng directly took out the piles of glowing high-level energy crystals, and then instantly released his Devouring Domain, directly covering all these energy crystals.

Boom!

Almost at the next moment, an extremely powerful devouring force instantly absorbed all the high-level breath from these energy crystals, and then injected it into Ye Feng's own body.

You must know that these high-level energy crystals that may come from the Great World of Origin contain all the energy of the gods, so after Ye Feng swallowed them, his skill and cultivation level immediately increased rapidly.

Almost at the next moment, Ye Feng's cultivation aura began to continuously break through, getting bigger and bigger.

boom!

The bottleneck of the Half-Step Cause and Effect Realm was instantly broken through by the huge energy, and he stepped directly into the first level of the Cause and Effect Realm.

But that's not all.

Ye Feng's cultivation momentum is still rising rapidly.

boom!

The realm of cause and effect is on the first level!

boom!

The second heaven of cause and effect!

boom!

The third heaven of cause and effect!

boom!

The fourth level of the realm of cause and effect!

boom!

The fifth heaven of cause and effect!

boom!

The Sixth Heaven of Cause and Effect Realm!

Finally, at this moment, Ye Feng's cultivation momentum stopped.

In the end, Ye Feng broke through to the sixth level of causality.

I have to say, this is a huge improvement.

Directly from the half-step cause and effect realm, he stepped into the sixth level of the cause and effect realm.

This kind of continuous breakthrough is really terrible.

You know, if you are an ordinary genius, even a powerful genius from the Tiandao Sect or the Demon Sect of Everlasting Hatred, if you want to break through from the half-step causal state to the real causal state, I am afraid it will take decades of seclusion to practice. Break through the final bottleneck.

But at this moment, Ye Feng broke through this huge level in one fell swoop, stepped directly into the Karma Realm, and continuously broke through to the sixth level of the Karma Realm.

This is a very scary and huge progress, it is simply unbelievable. ??

If others saw it and spread it, I'm afraid the whole world would be greatly shaken by it, and all the super geniuses would be ashamed of it.

At this time, Ye Feng deeply realized how valuable this energy crystal was.

At this time, Emperor Chu couldn't help but said aloud in his mind: "Ye Feng, this kind of energy crystal definitely does not belong to our low-level divine world, but comes from the more advanced and huge world of origin. Only the world of origin can The world's advanced ultimate interface can give birth to such terrifying energy crystals. This tall skeleton with ice attributes must have come from the origin world. "

At this moment, when Ye Feng heard what Emperor Chu said, he nodded excitedly.

This time, Ye Feng's cultivation level suddenly broke through so much, which made Ye Feng feel extremely happy.

In addition, Ye Feng also obtained a super magic weapon like the Ice Scepter. This is a powerful weapon from the world of origin. Once it is completely refined by him, it will definitely be able to explode with extremely terrifying power and be able to freeze ice instantly. Seal the whole world.

At this moment, Emperor Chu continued to speak in his mind: "The stone tablet you just discovered is not a powerful inheritance, but a text recorded by that tall skeleton before he died. above

What is said is that the beast egg in the spring is indeed the descendant of this tall skeleton, and this tall skeleton is called the Ice God King. It does come from the Great World of Origin. After coming to our God Realm from the Great World of Origin, He established a huge ice kingdom, but unfortunately encountered a disaster in the end and died. The above paragraph records that if the destined person can get his inheritance, I hope to take good care of his heirs. In this case, the Ice God The king will bless you in the dark. "

"Bless me in the dark?"

When Ye Feng heard what Emperor Chu said, he felt a little mysterious.

However, Ye Feng naturally would not just swallow the beast egg directly, because cultivating an extremely powerful heir of the Ice God King would definitely have a greater effect on him.

At this moment, Emperor Chu said: "This Ice God King is from the ancient frost dragon clan in the origin world. That beast egg is very precious. If Ye Feng can hatch it, it will be a young ancient frost dragon." , this is a great opportunity, Ye Feng, you must seize it. "

Ye Feng nodded, looked at the small beast egg bred in the spring water in the storage ring, and decided to find a way to kill this ancient frost dragon clan after the trial of the ancient giant city ruins. The animal eggs were hatched.

"Rumble..."

While Ye Feng was thinking, suddenly a group of iron-blooded warriors wearing black armor flew over not far away.

There was a deep cold look in their eyes, and they immediately stared at Ye Feng and said loudly: "Look at the clothes you are wearing, you must be an outsider from our world of ancient giant city ruins, hurry up and catch him, follow us One trip will save you a lot of pain!"

When Ye Feng heard this group of strong men wearing pitch black armor say this, his eyes suddenly showed a hint of surprise.

Unexpectedly, the local strongmen in the world of ancient giant city ruins fought back so quickly. They even swept away all outsiders in the entire ancient giant city ruins world, hoping to catch themselves, the first to seize the ice god king's legacy. .

Chapter 2668: Captured without mercy

At this moment, Ye Feng looked at the group of armored warriors surrounding him, and immediately understood in his heart that it must be those local superpowers who finally discovered that the Ice God King's wealth was missing. So sweep away all outsiders to find yourself, the "culprit".

"interesting."

After Ye Feng understood this in his heart, he did not directly deal with these local strong men who came to capture him. Instead, he simply surrendered and said, "Okay, I will capture them without mercy. Don't kill me. I will follow you."

Seeing Ye Feng like this at this moment, the local strong men in the world of ancient giant city ruins suddenly showed deep disdain in their eyes.

They have seen many talented disciples with experience from the outside world, and they are all a bunch of cowards.

At this moment, these local masters wearing armor from the ruins of the ancient giant city immediately came to Ye Feng and restrained Ye Feng's entire body with a magical iron lock made of pure gold. , and then took it in a certain direction far away.

Ye Feng did not resist at this time, naturally not because of cowardice, because Ye Feng could easily kill all the local strong men who came to arrest him. The cultivation level of these people wearing armor was only the first level of Karma Realm. God, in Ye Feng's eyes, they are just a group of minions. ??

But Ye Feng wants to play a big game.

That is to go with the flow and let this group of minions lead him into the base camp of the super strong people in this ancient giant city ruins world, and then go on a killing spree and devour all the local strong people.

Ye Feng had previously observed the scene in the void where a few super strong men radiating light fought with the zombie emperor.

Ye Feng sensed that the cultivation levels of the most powerful local experts were probably at the level of the Other Side Realm above the Cause and Effect Realm.

Those local strong men exuding divine light should all be at the sixth level of the other side realm.

These existences are very important to those who enter the world of ancient giant city ruins and experience them.

The talented disciples are indeed very powerful.

But now Ye Feng's cultivation has broken through to the sixth level of causality.

If he uses his various powerful trump cards and methods, he might be able to directly kill the local superpowers in these ancient giant city ruins worlds.

In this case, Ye Feng would be able to devour several super top beings with very strong skills at once.

Ye Feng thought this in his heart, but did not show anything on the surface. Instead, he followed the minions who came to catch him very calmly and walked quickly towards a certain direction in this world of ancient giant city ruins.

Soon, these little men in armor brought Ye Feng to the base camp of the local forces in the world of ancient giant city ruins.

This is a dynasty made entirely of steel.

The controllers of this Iron Dynasty should be the superpowers that Ye Feng encountered before, exuding divine light.

Those super strong men who exude divine light are definitely the top beings in this world of ancient giant city ruins.

As long as we can kill them, there's nothing to fear.

At this moment, after Ye Feng was captured by these minions and brought to the base camp, he was directly locked in a small prison.

Ye Feng saw at this time that there were other prisons around him, and the people imprisoned in them were all disciples of the Tiandao Sect or the Everlasting Hatred Demon Sect.

However, Ye Feng did not meet his acquaintance Zhu Qingshan. Maybe Zhu Qingshan had escaped. Of course, it was also possible that Zhu Qingshan had died in this raid.

At this moment, Ye Feng didn't think much, nor did he immediately go on a killing spree.

Because Ye Feng knows,

The top local powerhouses in the world of ancient giant city ruins are quite terrifying, so you have to make your own decisions.

You can wait for a sudden attack at night, so that you can maximize your benefits.

At this time, Ye Feng looked around. There were many other Tiandao Sect disciples or masters from the Everlasting Hatred Demon Sect, all of whom had deep despair in their eyes.

Because they were all forcibly captured here to inquire and explore who finally captured the legacy of the Ice God King in the Ice Kingdom.

However, this group of Tiandao Sect disciples or disciples of the Everlasting Hatred Demon Sect know very well that if this group of top local powerhouses cannot find out the ultimate culprit, they may all be buried with them, and everyone will die.

"I'm dead this time!" .??.

At this moment, all the captured disciples of the Tiandao Sect or the geniuses of the Everlasting Hatred Demon Sect were sighing in their respective prisons, losing hope in their hearts.

In a blink of an eye, the time has come to night.

Tomorrow is Ye Feng's trial time.

Because not only Ye Feng was captured today, but also other disciples of the Tiandao Sect or the Everlasting Hatred Demon Sect, and the newly captured outsiders had to be interrogated every day.

At this moment, under the dark sky, all the captured disciples of the Tiandao Sect and the disciples of the Everlasting Hatred Demon Sect were sighing, feeling that they were absolutely dead.

However, Ye Feng's eyes at this time were extremely bright in the darkness.

"Crack!"

Almost at this moment, Ye Feng exerted a slight force and instantly shattered all the chains in his hands.

"What?!"

The Tiandao Sect disciples and the Everlasting Hatred Demon Sect disciples in the nearby cells saw this scene, and their eyes widened immediately.

They couldn't believe it, this person who was arrested

, a seemingly ordinary young man, actually possesses such terrifying brute strength, and in one fell swoop he broke free from all the chains that could limit a person's magic power.

"Brother, please save me!"

"I am also a disciple of Tiandao Sect, my fellow disciples, hurry up and save us!"

At this moment, the Tiandao Sect disciples in the nearby cells couldn't help shouting, wanting Ye Feng to save them.

However, Ye Feng just smiled slightly at this time and said: "There will be a chaos soon. You can escape in the chaos. I don't have time to save you one by one now."

Uh-huh!

At this moment, after Ye Feng finished speaking, he immediately jumped up, like a lone shadow in the dark night, and instantly lurked towards the interior of the Iron Dynasty.

Soon Ye Feng's back disappeared from the sight of several disciples in the surrounding prisons.

The Tiandao Sect disciples in these prisons immediately looked at each other, their eyes filled with deep horror, and they couldn't help but say: "This fellow disciple, what on earth is he going to do?"

At this time, Ye Feng had merged into the endless darkness and arrived at the center of the Iron Dynasty.

In the center of this steel dynasty, Ye Feng saw a majestic hall, standing in the center.

Buzz...

Ye Feng slowly groped around, and immediately saw three tall figures with faint light all over their bodies, sitting in the center of this majestic hall, seeming to be discussing something.

These three tall figures with rays of light all over their bodies are the same three people who led Ye Feng's disaster to the east and fought the frozen zombie emperor. They are also the most powerful beings among the local warriors in this world of ancient giant city ruins. .

All three of these people have transcended the Karma Realm and are top experts at the Sixth Heaven level of the Other Shore Realm!

Chapter 2669 Extremely horrified

At this time, Ye Feng was lurking in the darkness, thinking about how to catch these three top powerhouses who exuded divine light.

"I shouldn't be able to kill these three top powerhouses at once, but it is still possible to kill one at once."

At this moment, Ye Feng was thinking in his heart, and the power of running the space gem suddenly opened up a space passage in front of him, directly connecting to the central hall.

Uh-huh!

Almost at the next moment, Ye Feng's figure instantly passed through the space passage and appeared in the inner space of the central hall.

"What?"

At this moment, the three top powerhouses in the central hall who were exuding divine light did not react at all. Ye Feng appeared in front of them in an instant.

"Six Paths of Reincarnation Fist!"

boom!

Almost at this moment, Ye Feng took advantage of the fact that these three top powerhouses had no reaction at all, and instantly launched his most powerful punch.

Moreover, his fist also incorporates the power of the Brute Force Gem, which is the pinnacle punch.

boom! !

In an instant, Ye Feng's fist burst out with divine light, filled with boundless destructive power. In an instant, it shattered the entire world, directly aiming at the top powerhouse standing on the far left. before.

Boom!

"Pfft!"

Almost at this moment, the top powerhouse did not react at all, nor did he make any move to resist. He was instantly blown into countless pieces by Ye Feng's punch and was killed instantly.

"Great, one of them was killed in an instant!"

At this moment, Ye Feng's eyes immediately revealed a look of deep surprise.

"Be bold!"

"Damn thief!"

boom! boom!

At this moment, the other two top powerhouses reacted immediately. They released their extremely powerful terrifying cultivation strength at the other side level, and all of a sudden they rushed out with boundless and terrifying aura. In an instant, They bombarded Ye Feng together.

Thunder Shield!

At this moment, Ye Feng instantly used a thunder shield technique, condensing a huge shield composed of thunder in front of him, and instantly blocked all the attacks of these two top powerhouses.

Boom! !

The entire field suddenly erupted with a terrifying roar.

No matter how strong Ye Feng's cultivation and combat power were, at this moment, facing the attack of two top powerhouses from the sixth level of the other side realm, he was suddenly blown away, and his thunder shield was instantly shattered.

Bang!

Ye Feng's entire body immediately flew upside down and hit the square of the central hall outside. It shattered a large area of land and was buried in the ruins.

"This kid should be dead now!"

At this moment, the two top experts couldn't help but speak out.

But their eyes were still full of shock and anger, because they never thought that in the dead of night, in the central hall where they were discussing things, such a hateful boy would suddenly appear, and in an instant he would All the trump cards killed one of the three strong men instantly.

It's so abominable and insidious.

Boom!

But at the next moment, the ruins not far away suddenly exploded.

Uh-huh!

Ye Feng's figure rushed out of the ruins in an instant and floated into the air. His eyes were filled with a deep and bright color, and his whole body was exuding divine light. He did not suffer any damage at all, but was simply blasted. He flew out without suffering any injuries.

"What?!"

Seeing this scene, the two top powerhouses couldn't help but turned pale to the extreme, and their eyes were extremely ugly.

They never expected that Ye Feng, a boy who was only at the sixth level of the Karma Realm, would be able to withstand the attacks of two of their top powerhouses. Nothing would happen to him. His aura was still very majestic and astonishing. It's incredible that I didn't suffer any trauma.

Because if it is an ordinary warrior of the sixth level of Karma and Karma, let alone a joint attack by two top powerhouses, even a casual attack by a top powerhouse can kill a warrior of Karma and Karma in an instant.

But the kid in front of him was as powerful as an invincible little strongman, which made the two top experts suddenly look serious.

At this moment, they were not fools. They knew that Ye Feng must have come specifically to kill all their top experts, rather than simply assassinate them, because this boy was so powerful.

"Damn boy, who are you?"

At this moment, the two top powerhouses had extremely ugly expressions on their faces. They stared at Ye Feng in the air not far away and spoke in a very cold tone.

"who I am?"

Ye Feng looked at these two top experts, with a slight smile on his face, and said loudly: "It doesn't matter who I am, the important thing is that you all have to die today!"

boom!

Almost the moment Ye Feng finished speaking, a terrifying and powerful aura suddenly erupted from his body.

At this moment, Ye Feng's whole body was radiating endless divine light, and every inch of his body contained majestic power.

At this moment, Ye Feng seemed to have turned into a young god, full of boundless and terrifying fighting power.

"The future body of Dzogchen!"

boom!

At this time, Ye Feng burst out his Dzogchen cultivation in an instant, and his cultivation was directly promoted to the Dzogchen of the tenth level of cause and effect.

Then Ye Feng also released his Devouring Domain, covering the entire central hall area in endless darkness.

You must know that the Devouring Domain now not only has a devouring effect, but the moment it is released, the blood and skills of the two top powerhouses not far away are constantly flowing away, which can weaken the combat effectiveness of these two top powerhouses. .

"What a weird field!"

"This kid is definitely a peerless genius among outsiders!"

At this time, the two remaining top local powerhouses in the world of ancient giant city ruins could not help but say with ugly faces.

And at the next moment, when Ye Feng took out the super magic weapon of the Ice Scepter and prepared to attack, the two top powerhouses suddenly looked horrified.

They couldn't help but exclaimed in unison: "So you are the thief who got there first and robbed the Ice God King's treasure!!" At this time, Ye Feng was lurking in the darkness, thinking in his mind how to combine these three. All the top strong men exuding divine light were captured in one fell swoop.

"I shouldn't be able to kill these three top powerhouses at once, but it is still possible to kill one at once."

At this moment, Ye Feng was thinking in his heart, and the power of running the space gem suddenly opened up a space passage in front of him, directly connecting to the central hall.

Uh-huh!

Almost at the next moment, Ye Feng's figure instantly passed through the space passage and appeared in the inner space of the central hall.

"What?"

At this moment, the three top powerhouses in the central hall who were exuding divine light did not react at all. Ye Feng had appeared in front of them in an instant.

"Six Paths of Reincarnation Fist!"

boom!

Almost at this moment, Ye Feng took advantage of the fact that these three top powerhouses had no reaction at all, and instantly launched his most powerful punch.

Moreover, his fist also incorporates the power of the Brute Force Gem, which is the pinnacle punch.

boom! !

In an instant, Ye Feng's fist burst out with divine light, filled with boundless destructive power. In an instant, it shattered the entire world, directly aiming at the top powerhouse standing on the far left. before.

Boom!

"Pfft!"

Almost at this moment, the top powerhouse did not react at all, nor did he make any move to resist. He was instantly blown into countless pieces by Ye Feng's punch and was killed instantly.

"Great, one of them was killed in an instant!"

At this moment, Ye Feng's eyes immediately revealed a look of deep surprise.

"Be bold!"

"Damn thief!"

boom! boom!

At this moment, the other two top powerhouses reacted immediately. They released their extremely powerful terrifying cultivation strength at the other side level, and all of a sudden they rushed out with boundless and terrifying aura. In an instant, They bombarded Ye Feng together.

At this moment, they were not fools. They knew that Ye Feng must have come specifically to kill all their top experts, rather than simply assassinate them, because this boy was really powerful.

"Damn boy, who are you?"

At this moment, the two top powerhouses had extremely ugly expressions on their faces. They stared at Ye Feng in the air not far away and spoke in a very cold tone.

"who I am?"

Ye Feng looked at these two top experts, with a slight smile on his face, and said loudly: "It doesn't matter who I am, the important thing is that you all have to die today!"

They couldn't help but exclaimed in unison: "So you are the thief who got there first and robbed the Ice God King's treasure!!"

Chapter 2670 Underground Darkroom

"Yes, I am the one who got there first, but I am not a thief. All things in the world that have no owner and are created by chance are those that come first. How can we talk about being a thief? Who can tell me about the treasure of the Ice God King? Are they born to you?"

Ye Feng smiled coldly at this time and said loudly: "Anyway, you will all die later!"

boom! !

Almost at this moment, Ye Feng immediately burst out with the power of the Ice Scepter.

Although Ye Feng has not yet completely refined the Ice Scepter, Ye Feng is now constantly warming the Ice Scepter in his body, and has been able to initially use some of the power in the Ice Scepter.

You must know that the Ice Scepter comes from the extremely powerful world of origin, and it contains the extremely advanced immortal spirit that Emperor Chu said.

Therefore, the power of frost released by the Ice Scepter is not just ordinary frost power, but an ice-attribute power that contains advanced immortal energy. It is very terrifying and can freeze the entire world.

Even a powerful being at the other shore level might not be able to withstand this terrifying frost energy!

"Rumble..."

It is estimated that at this moment, the ice scepter in Ye Feng's hand immediately burst out with terrifying ice energy.

At this moment, Ye Feng is surrounded by countless ice storms, like a king with ice attributes, able to judge the world.

"hateful!"

The two top powerhouses not far away felt the terrifying ice aura, and their faces suddenly became extremely ugly, and they immediately released their own defensive methods.

"Great Five Elements Shield!"

"Golden Light Giant Spirit Shield!"

boom!

boom!

At this moment, two huge shields suddenly appeared in front of the two top powerhouses.

They are a shield condensed from the power of the five elements, and a giant shield condensed from a kind of metallic light. They seem to be full of powerful defense.

Wow!

Can

When Ye Feng's ice scepter struck in front of them, the terrifying cold wave suddenly froze the two shields.

The defense methods of these two top experts are simply unable to withstand the powerful ice power of the Ice Scepter, a high-level magic weapon from the Great World of Origin.

"Click, click..."

Almost at the next moment, the entire bodies of the two top powerhouses were frozen and turned into two ice sculptures.

"So powerful?"

At this moment, Ye Feng's eyes showed a hint of surprise.

Because it was also the first time for him to use the Ice Scepter, the super magic weapon of the Ice God King from the Great World of Origin.

Unexpectedly, I just used some of the power in the ice scepter to instantly freeze two top powerhouses from the sixth level of the other side realm into ice sculptures. It was really powerful.

Even Ye Feng himself felt a little shocked at this moment.

Ye Feng even felt that if others used this ice scepter to deal with him, I am afraid that his current flame quality level would not be able to resist the ice energy in this terrifying ice scepter.

At this time, Ye Feng walked up to the two top experts who had turned into ice sculptures, stretched out his hand, and instantly punched the front.

"boom!"

"Crack!!"

"Crack!!"

The ice sculptures transformed by the two top powerhouses split into pieces in an instant, shattered in an instant, and turned into fragments on the ground.

Obviously, these two top powerhouses were completely dead the moment they were frozen.

At this time, Ye Feng's eyes showed a trace of surprise. He did not expect the power of the Ice Scepter to be so powerful.

But Ye Feng also discovered that he only used it once

The power of the Ice Scepter has already consumed nearly one-fifth of the energy in his body.

It has to be said that this ice scepter is indeed very advanced, and every time it is used, it requires a very powerful force to explode with such terrifying power, which is equivalent to a forbidden weapon.

At this time, Ye Feng's eyes showed a trace of surprise. In any case, the Ice Scepter was so powerful, which was equivalent to having another powerful trump card.

At this moment, Ye Feng instantly put away the Ice Scepter, and then directly released his Devouring Domain.

boom!

Suddenly, a dark and deep swallowing domain of darkness burst out from Ye Feng's body, and then enveloped the fragments of the two top powerhouses in front of him who were frozen to death in the ice crystals.

Then Ye Feng continued to release the Devouring Domain of Darkness, covering all the top powerhouses in the central hall that he had instantly killed before.

Boom!

In an instant, all the blood energy and skills of the three strong men from the sixth level of the Other Side Realm were quickly absorbed by Ye Feng's Devouring Domain, and then all the huge energy was injected into Ye Feng's own body.

At this moment, Ye Feng's cultivation aura began to rise and expand rapidly.

"boom!"

The Seventh Heaven of Cause and Effect Realm!

"boom!"

The eighth level of the realm of cause and effect!

"boom!"

The Ninth Heaven of Cause and Effect Realm!

At this moment, Ye Feng's cultivation strength has been rapidly broken through and improved, directly breaking through the third heaven and entering the ninth heaven of cause and effect!

At this time, Ye Feng's eyes were shining and he was very happy.

This time I came right!

It has to be said that although these three top powerhouses in the sixth level of the other side realm are not very good at fighting, they are still powerful existences in the sixth level of the other side realm. The skills and blood energy contained in their bodies are still

Very abundant.

At this time, Ye Feng couldn't help but look at the central hall not far away, and immediately blasted into the distance with one hand.

"Boom!!"

The entire central hall was immediately shattered by Ye Feng's slap, and the terrifying roar suddenly attracted the attention of everyone in the Iron Dynasty.

All the local masters in the Iron Dynasty had deep horror in their eyes.

They looked at the broken central hall in the center, and they didn't know what happened.

Uh-huh! Uh-huh! Uh-huh!

They rushed towards here instantly, wanting to see what was going on.

But when they first came here, Ye Feng had already released the Devouring Domain, which immediately enveloped all these masters, and then directly and forcefully swallowed up all the skills of these masters. .

Ye Feng instantly gained a terrifying accumulation of skills once again.

boom!

His cultivation level broke through again in an instant, directly reaching the tenth level of Karma and Perfection. At this moment, all the masters in the entire Iron Dynasty were devoured by Ye Feng.

At this time, the entire Iron Dynasty was plunged into endless chaos.

The disciples of the Tiandao Sect and the masters of the Everlasting Hatred Demon Sect who were imprisoned in the prison all fled towards the surroundings.

Although they didn't know what chaos had occurred, all they wanted to think about at this time was to escape from here.

At this time, Ye Feng did not leave directly in the chaos, but discovered something in the ruins of the central hall of the Iron Dynasty.

Originally, Ye Feng was planning to leave directly.

But when he bombarded the entire central hall into ruins with one slap, he suddenly discovered that there was a hidden underground chamber underneath the central hall.

There might be something hidden inside.
