

## Ancient 2851

### Chapter 2851 Flame Mountain Zone

At this moment, when Ye Feng heard what Venerable Black Dragon said, Ye Feng suddenly showed a trace of surprise in his eyes.

Ye Feng couldn't help but ask: "Venerable Black Dragon, do you know other places where chance creations are stored in this ancient ruins? It seems that you know this underground ancient ruins very well."

The Black Dragon Venerable smiled slightly at this time and said: "Yes, because I have been in this ancient ruins all year round. There is a passage in my residence that leads to this ancient ruins, so I am very familiar with this ancient ruins. Familiar, I have visited many special places in advance."

When Ye Feng heard this, he immediately nodded and said: "That's great, let's look for other opportunities first. This time I came to this underground ancient ruins to find various resources and improve myself. "

When the Black Dragon Master heard what Ye Feng said, he immediately said: "Then please follow me to the nearest place of creation from here. It is a mountain of flames, and there is a very special vein of flame crystals in it. , it has huge benefits for fire attribute practitioners like me and you, who both have our own natal flames."

The Black Dragon Master can spit out black dragon breath flames, while Ye Feng has his own natal flame.

If you can get some fire attribute resources, it will indeed be of great use.

Ye Feng nodded slightly and said: "Okay, let's go to the Flame Mountain first. My natal flame is not strong enough and I really need to improve it."

When the Black Dragon Master heard Ye Feng's words, the corners of his mouth twitched slightly.

He knew how powerful Ye Feng's natal flame was. The Black Dragon Lord had just seen it before, and even his ancient black dragon flame couldn't compete with it.

However, the Black Dragon Master did not say much, because he knew very well that a super genius like Ye Feng must have very high requirements for himself, which cannot be matched by ordinary warriors.

At this time, even the Black Dragon Master couldn't help but sigh. Ye Feng is so young and has such a strong cultivation, but he is still not satisfied. This shows that Ye Feng has high requirements for himself.

At this moment, Venerable Black Dragon was flying in front, and Ye Feng was following him.

Soon the two of them arrived at their destination.

No one dared to stop or take action against the two of them along the way.

Although Ye Feng's cultivation aura is very secretive, it is difficult for ordinary people to discover what kind of strength he has.

But the Black Dragon Venerable is very arrogant. He always releases the powerful cultivation of the tenth level of the Divine Education Realm in his body anytime and anywhere. He is very impressive and bluffing.

Along the way, no matter whether it was the warriors who entered this ancient ruins to explore, or the local creatures in this ancient ruins, they sensed the powerful and boundless aura of the Black Dragon Lord, and they did not dare to approach, let alone find trouble.

At this moment, Ye Feng and the Black Dragon Master were standing on the edge of the Flame Mountain area.

They looked forward and found many mountains, all of which were burning with flames. They looked very majestic and vast.

At this time, Ye Feng couldn't help but asked: "Venerable Black Dragon, is the flame crystal vein you mentioned hidden in this Flame Mountain?"

The Black Dragon Lord nodded.

He raised his head and said aloud: "Yes, yes, this Flame Mountain is the area I came to explore half a month ago. Through a special talent, I can sense that there is a very special mountain in this Flame Mountain. Huge flame crystal veins."

Ye Feng's eyes were a little surprised, and he couldn't help but ask: "You discovered this flame crystal vein half a month ago, why didn't you plunder it directly?"

The Black Dragon Venerable couldn't help but blush, and said loudly: "Because there is a flame giant living in this flame mountain. I couldn't defeat it and almost burned to death."

"Forehead....."

Seeing the Black Dragon Lord like this, Ye Feng suddenly showed a trace of surprise in his eyes. It seemed that he did not expect that such an arrogant Black Dragon Lord was almost beaten to death by others.

At this time, Ye Feng couldn't help but said: "My strength is only a little stronger than you, Lord Black Dragon, but this flame giant in the Flame Mountain almost burned you to death, Lord Black Dragon, for speaking like this, the two of us joining forces may not be the opponent of the flame giant."

Hearing what Ye Feng said, the Black Dragon Lord immediately shook his head and said: "Sir, the reason why the flame giant is so vicious is not that his cultivation is much stronger than mine, but that the quality of his flames is very high. High, much more advanced than my Black Dragon Flame, that's why I was almost burned to death by that flame giant. But when I fought with Lord Ye Feng before, I saw that Lord Ye Feng, the quality of your natal flame, and The flame giant is almost high-level, so as long as Master Ye Feng can withstand the flame power of the flame giant, then the flame giant is not enough. "

Hearing this, Ye Feng nodded slightly and said, "In that case, let's do it."

boom!

Almost at the moment Ye Feng finished speaking, Ye Feng's body suddenly erupted with an extremely powerful aura of cultivation.

At this moment, Ye Feng directly released his own flame without any hesitation.

You know, Ye Feng's natal flame is a combination of various powerful flame sources, so it is extremely advanced.

At this time, Ye Feng released his advanced natal flame, and suddenly the colorful flames directly enveloped Ye Feng's entire body.

At this moment, Ye Feng was like a young God of Fire. He flew to the sky above the Flame Mountain in an instant, and then shouted to the ground: "Fire Giant, come out!"

"Sir, you are really reckless!"

At this moment, seeing Ye Feng suddenly flying high into the sky, the Black Dragon Master was suddenly startled.

Originally, he was planning to have a long-term discussion with Ye Feng to see how he could better deal with the flame giant.

But what I didn't expect was that before the Black Dragon Master could say anything, Ye Feng had already flown to high altitude and began to release his natal flame, directly provoking the flame giant.

Uh-huh!

At this time, Lord Black Dragon could not say anything more. He could only fly to Ye Feng's side in an instant, with a dark flame emitting from his body, and said loudly: "Master Ye Feng, that flame giant is very powerful. , Not only is the flame lethality amazing, but there is also an ancient flame sword in his hand, and its killing ability is extremely terrifying. We must be careful." At this moment, when Ye Feng heard what the Black Dragon Lord said, Ye Feng's eyes suddenly revealed. A hint of surprise.

Ye Feng couldn't help but ask: "Venerable Black Dragon, do you know other places where chance creations are stored in this ancient ruins? It seems that you know this underground ancient ruins very well."

The Black Dragon Venerable smiled slightly at this time and said: "Yes, because I have been in this ancient ruins all year round, and there is a passage in my residence that leads to this ancient ruins, so I am very familiar with this ancient ruins. When the Black Dragon Master heard what Ye Feng said, he immediately said: "Then please follow me to the nearest land of opportunity. It is a mountain of flames, and there is a very special vein of flame crystals in it. , it has huge benefits for fire attribute practitioners like me and you, who both have our own natal flames."

The Black Dragon Master can spit out black dragon breath flames, and Ye Feng has his own natal flame.

If you can get some fire attribute resources, it will indeed be of great use.

Ye Feng nodded slightly and said loudly: "Okay, let's go to the Flame Mountain first. My natural flame is not strong enough and it really needs to be improved."

When the Black Dragon Master heard Ye Feng's words, the corners of his mouth twitched slightly.

He knew how powerful Ye Feng's natal flame was. The Black Dragon Lord had just seen it before, and even his ancient black dragon flame couldn't compete with it.

Almost at the moment Ye Feng finished speaking, Ye Feng's body suddenly burst out with an extremely powerful aura of cultivation.

At this moment, Ye Feng did not hesitate and directly released his own flame.

You know, Ye Feng's natal flame is a combination of various powerful flame sources, so it is extremely advanced.

At this time, Ye Feng released his advanced natal flame, and suddenly the colorful flames directly enveloped Ye Feng's entire body.

Chapter 2852 This is the feeling

"Don't be so verbose."

Ye Feng couldn't help but glance at the Black Dragon Lord next to him, and said loudly: "Didn't you look quite domineering before? Why are you so timid now?"

The Black Dragon Venerable couldn't help but smile helplessly, and said aloud: "Because this flame giant in the Flame Mountain is really ferocious. I was almost burned to death half a month ago, and I still have lingering fears and the shadow of death."

Hearing this, Ye Feng couldn't help but smile and said, "Hearing what you said, I'm looking forward to it more and more. Is that flame giant really that powerful?"

Buzz!

And just as Ye Feng and the Black Dragon Master were talking, a very violent fluctuation suddenly came from the underground Flame Mountain.

"coming!"

The Black Dragon Lord's eyes immediately showed deep vigilance, and he quickly released the black dragon flames, covering the surface of his body.

Obviously, the Black Dragon Master was really afraid of the flame giant and had a psychological shadow.

"Rumble..."

At this moment, the entire Flame Mountain area was completely shaken violently.

Click, click...

As the ground cracked, a giant with an extremely majestic body crawled out from under the ground.

The surface of this giant's body is burning with layers of red flames. In his hand is a steel sword that is several kilometers long. The surface of the sword is still burning with flames. It looks very domineering and full of energy. An ultimate visual impact.

At this moment, the Black Dragon Lord was immediately frightened and said: "Master Ye Feng, this is the flame giant! It is very dangerous and very powerful!"

"I'll give it a try."

Ye Feng didn't hesitate at this moment and rushed towards the flame giant in an instant.

"Outsiders, you are too presumptuous. If you dare to directly challenge me, I will give you death!"

At this moment, the flame giant immediately roared, and then the flames on his body burst out, forming a fire storm that swept directly towards Ye Feng.

"Boom!"

Ye Feng's whole body was directly impacted by the fire storm. Suddenly, Ye Feng felt that his whole body was about to melt.

If he hadn't released his own life flame and covered his body, he might have completely melted.

This made Ye Feng's heart suddenly become serious.

This flame giant is indeed extremely terrifying.

Because you must know that Ye Feng's body is a chaotic body, very strong, and can withstand a lot of damage in the world.

But even so, at this time, the flame storm released by the flame giant almost melted Ye Feng's chaotic body.

The flame origin of this flame giant is indeed very terrifying.

However, the more terrifying the fire giant's flame origin is, the more excited Ye Feng's eyes are at this moment.

Because once you can kill this flame giant and devour the flame source of this flame giant, your own natural flame will be greatly improved.

For example, the Black Dragon Fire of Lord Black Dragon is lower than Ye Feng's natal flame, so even if Ye Feng devours it, it probably won't be of any use to his own natal flame.

Thinking of this, Ye Feng couldn't help but glance at the Black Dragon Lord not far away. He seemed to feel that besides his body, he had

Apart from the powerful blood and energy, there is not much worth devouring.

At this moment, it seemed that he noticed Ye Feng's gaze and saw the scrutinizing look in Ye Feng's eyes, and the Black Dragon Master's heart tightened for no reason.

But the next moment, Ye Feng didn't look at the Black Dragon Venerable anymore, but looked at the Fire Giant in front, and laughed: "Fire Giant, your fire storm is nothing more than that, it won't do any harm to me at all."

boom!

At this moment, the Dark Nine Dragon Cauldron appeared in Ye Feng's hand, and he quickly smashed it directly at the flame giant underneath.

The best way to deal with a huge opponent like the Fire Giant is to smash it into pieces.

Because the target enemy is large, the Dark Nine Dragon Cauldron in Ye Feng's hand has a huge effect.

You must know that the Dark Nine Dragon Cauldron was originally an important weapon of war. It was extremely heavy and towering, like a dark ancient sacred mountain.

Coupled with Ye Feng's own ferocious Chaos Body, the destructive power caused is absolutely astonishing.

At this time, Ye Feng's eyes showed a trace of madness, and he passed through the flame storm released by the flame giant, and then waved the Dark Nine Dragon Cauldron in his hand, and hit the flame giant hard. .

"boom!!"

A terrifying roar suddenly sounded.

Ye Feng's Dark Nine Dragon Cauldron suddenly hit the flame giant.

"Crack!"

Even though the flame giant was very powerful, at this time, Ye Feng's body was hit hard by the Dark Nine Dragon Cauldron and he almost fell to the ground.

"ah!"

The flame giant immediately issued a

There was a painful scream, because Ye Feng's attack severely injured his body.

After all, when the Fire Giant fought with others before, he basically used his extremely powerful flames to directly burn the enemy to death.

Even if the enemy cannot be burned to death, the enemy basically does not dare to approach the flame giant.

Because the power of the flames burning on the flame giant is very terrifying, if an ordinary warrior comes close, he may spontaneously combust and die in an instant.

This was the first time that the flame giant encountered such a close attack from Ye Feng, and the attack power was extremely terrifying.

This made the Fire Giant suddenly feel a little nervous.

Because Ye Feng, a young human race boy, is too fierce.

And he's not afraid of his flames.

This made the Fire Giant become a little solemn for a moment.

This human boy was completely different from any enemy he had encountered before.

"That's what it feels like!"

At this time, Lord Black Dragon shouted excitedly.

He saw Ye Feng using the Dark Nine Dragon Cauldron to hit the Flame Giant hard, and saw the Flame Giant scream in agony, which made the Black Dragon Master extremely excited.

Because Venerable Black Dragon had been hit by Ye Feng with the Dark Nine Dragon Cauldron before, the feeling was absolutely sour to the extreme.

So at this time, seeing the flame giant who almost burned him to death was also howled when Ye Feng smashed him with the Dark Nine Dragon Cauldron, which naturally made the Black Dragon Venerable very happy and inexplicably excited.

"Master Ye Feng, let me help you!"

At this time, the Black Dragon Venerable shouted loudly, and immediately jumped up and transformed into his true form. A majestic black dragon rushed towards the direction where Ye Feng and the flame giant were fighting!

Chapter 2853 Destroy the Flame Mountain

Boom!

At this time, the Black Dragon Master transformed into a majestic black dragon and charged downwards in an instant.

"boom!"

The majestic black dragon suddenly hit the flame giant.

Kick, kick, kick!

Even though the Fire Giant was extremely powerful, he was still knocked back several steps by the sudden impact of the Black Dragon Venerable.

"hateful!"

"Ancient flame swordsmanship!"

At this moment, the flame giant roared loudly, holding the flame giant sword in his hand, and rushed towards the killing.

The weapons in the hands of the Fire Giant are very magical, and they can constantly switch between knives and swords. ??

When he crawled out of the ground, the flame giant was holding a very huge steel sword.

But now, the big knife in the hand of the flame giant was directly transformed into a big sword, because it was in order to perform a powerful swordsmanship.

"boom!"

"boom!"

"boom!"

Almost at this moment, thousands of terrifying flame sword energies rushed out from the big sword in the hands of the flame giant. There were countless flame sword lights, crisscrossing the entire sky, trying to kill Ye Feng. and the Black Dragon Venerable were all cut into pieces.

"Anti-injury stab armor!"

At this moment, Ye Feng immediately thought, and instantly his whole body was covered with a layer of extremely strong metal armor.

Clang! Clang! Clang...

Those flaming sword energy cut into Ye Feng's body and collided with the anti-injury spike armor, making a sound like metal being cut.

However, the anti-injury spiked armor is worthy of being a divine item, it is very powerful and successfully blocked those terrifying flaming sword energy.

But the Black Dragon Venerable was not so lucky. He was cut and injured all over his body.

He was scarred and screamed in pain.

However, Venerable Black Dragon is, after all, a powerful cultivator of the Tenth Heavenly Perfection of the God-Educating Realm.

Although these flaming sword energy cut its entire dragon body with scars, they did not harm the life of the Black Dragon Lord.

At this time, Ye Feng was wearing anti-thorn armor and his eyes were a little downcast.

Because he discovered that this flame giant couldn't be killed with the Dark Nine Dragon Cauldron.

This flame giant seems to be integrated with the entire Flame Mountain.

Even if the flame giant is injured, it can recover in a short time with enough flame energy supplied by the Flame Mountain.

At this moment, it was obvious that the Black Dragon Master also noticed this.

He immediately flew to Ye Feng's side, his expression was a little ugly, and he couldn't help but said: "Master Ye Feng, what should we do?"

Ye Feng thought for a moment, and then said aloud: "You go and destroy the entire environment of the Flame Mountain, and I will continue to hold back this flame giant. As long as the geographical environment of the Flame Mountain is destroyed, then the flame giant will lose its source of power. , there will be no energy replenishment."

Hearing what Ye Feng said, Venerable Black Dragon's eyes suddenly lit up and he couldn't help but said: "Yes! The entire Flame Mountain is the energy supply of this flame giant. If the entire Flame

Mountain can be destroyed, Then if this flame giant loses its energy source, it will naturally dry up slowly. Your Excellency is really smart. My admiration for you is like a torrential river, endless..."

boom!

However, Ye Feng slapped the Black Dragon Master away and said loudly: "Stop talking nonsense, hurry up and destroy the geographical environment of the Flame Mountain!"

boom!

At this time, the flame giant not far away seemed to have returned to its peak state and continued to attack Ye Feng.

"The body of the ancient overlord!"

At this moment, Ye Feng directly used his powerful inheritance, and his whole body began to grow rapidly on the spot, rising up from the ground and becoming an ancient overlord, possessing the power of the ancient overlord.

"boom!"

Ye Feng held the Dark Nine Dragon Cauldron and instantly collided with the flame giant.

Boom!

The entire field suddenly fell into a chaotic battle and collision.

"Rumble..."

At this time, while Ye Feng and the Flame Giant were fighting, the Black Dragon Lord quickly hit the mountains in the entire Flame Mountain area. ??

Suddenly, the mountains shattered, the earth collapsed, and countless rivers of lava and flames flowed outside, or sank directly into the ground.

The entire environment of the Flame Mountain is being severely damaged, and the long river of magma is slowly drying up.

"What's going on? Why is my power getting weaker and weaker?"

At this time, the flame giant who was fighting Ye Feng suddenly sensed something abnormal.

That is, he feels that his power is getting weaker and weaker.

And at the next moment, the flame giant looked into the distance, and his eyes were suddenly filled with anger.

Because the Black Dragon Venerable is constantly destroying the entire Flame Mountain area at this moment.

The entire Flame Mountain is simply in ruins at this moment. All the mountains and lava rivers have collapsed, flowing deep into the ground, or flowing to areas outside the Flame Mountain zone.

Therefore, the flame giant's energy is getting weaker and weaker without the flame supply from the Flame Mountain.

"hateful!"

\u003e The flame giant roared and charged directly towards the Black Dragon Lord who was destroying the Flame Mountain not far away.

"Your opponent is me!"

But halfway, Ye Feng blocked the way of the flame giant. He held the Dark Nine Dragon Cauldron in his hand, grinned, and said: "You are dead!"

"Get away!"

The flame giant roared loudly, and suddenly he held the ancient flame sword in his hand and slashed at Ye Feng in front of him.

"boom!"

But at this moment, Ye Feng fiercely raised the black cauldron in his hand, directly blocking the fierce sword of the flame giant.

"when!!"

The ancient flame sword struck the dark Nine Dragon Cauldron in Ye Feng's hand, making a huge roar.

But it did not send Ye Feng flying.

Because the flame giant's power at this moment is much weaker than at the beginning.

"Fire Giant, you can't do it anymore!"

Uh-huh!

At this moment, Ye Feng held up the Dark Nine Dragon Cauldron in his hand, flew directly in front of the flame giant, and collected all the flame sword energy into the cauldron.

"boom!"

Then Ye Feng stretched out his hand, clenched it into a fist, fused it with the brute force gem, and punched fiercely.

I saw a bright light burst out from the fist, and it suddenly bombarded the head of the flame giant.

"Crack!"

The flame giant's head shattered in response, and his huge body crashed to the ground the next moment, completely dead!

"Very good!"

The Black Dragon Lord, who was destroying the Flame Mountain not far away, was panting at this moment, and immediately shouted in surprise: "Finally, this flame giant was consumed to death!"

Chapter 2854 Flame Crystal Veins

The flame giant finally exhausted its power and died silently.

Uh-huh!

At this time, the Black Dragon Lord immediately flew to Ye Feng's side, looked at the body of the flame giant lying on the ground in front of him, his eyes showed an excited expression, and couldn't help but said: "The flame giant is really dead. It's so refreshing! I was almost burned to death by this guy before! You are really powerful, being able to fight with such a terrifying creature like the Fire Giant for such a long time, the villain's admiration for you is just like that. The surging river water is endless..."

Snapped!

Ye Feng slapped the Black Dragon Lord directly, sending him flying not far away, and said: "Stop talking nonsense, hurry up and find where the flame crystal veins are hidden in the Flame Mountain."

"Yes, sir!"

At this time, the Black Dragon Master went to look for the flame crystal veins honestly. .??.

Because the Black Dragon Master knows very well that Ye Feng's strength is too strong, and he must obey Ye Feng's orders and not resist, otherwise he may be the next person to die in Ye Feng's hands.

So at this time, Venerable Black Dragon went to look for mineral veins honestly.

On the same spot, Ye Feng suddenly stretched out his hand and sucked out the natal flame from the flame giant.

Buzz!

At this time, a crimson flame was burning in Ye Feng's hand, emitting a dazzling light, looking like a small sun, with a terrifying energy fluctuation that burned the sky and extinguished the earth.

This is the flame giant's natal flame, which is very powerful and terrifying.

At this moment, Ye Feng did not hesitate at all. He directly swallowed the source of the flame, then quickly ran the Ancient Burning Heaven Technique, and began to integrate the original flame of the flame giant into his body. middle.

At this moment, Ye Feng immediately revealed a deep flame light in his eyes.

The moment Ye Feng swallowed this natal flame, he felt completely

The whole body felt like it was on fire.

If Ye Feng wasn't a Chaos Body and was protected by his natal flame, his internal organs would have been burned to ashes by the natal flame of the flame giant.

At this time, Ye Feng frantically ran the Ancient Burning Heaven Technique to quickly refine the natal flame of the flame giant.

Because the fire giant's natal flame contained so much flame energy that it exceeded Ye Feng's expectations.

However, Ye Feng is a monster-like existence after all, and the Ancient Burning Heaven Technique is very magical. He quickly merged the flame giant's natal flame into Ye Feng's own natal flame.

Buzz!

At this moment, Ye Feng could immediately feel that the quality of his natal flame was rapidly changing.

At this time, Ye Feng felt that his natal flame had undergone a complete upgrade and breakthrough.

Previously, Ye Feng's natal flame quality was a fourth-grade Dacheng.

But now, Ye Feng's natal flame quality has been directly upgraded and transformed to the fourth level of perfection!

Although it was only upgraded by one level, Ye Feng could feel that the energy level of his natal flame was many times greater than before.

You know, the level of the natal flame is very difficult to improve.

Ye Feng had practiced for so many years and integrated so many different types of heaven and earth fires before he upgraded his natal flame level to the fourth level.

This time, the flame origin of a flame giant was able to increase his own natal flame by one level, transforming into the fourth level of perfection. This was already a huge improvement and made Ye Feng very happy.

"Buzz..."

At this moment, after the original flame was swallowed by Ye Feng, the huge body of the flame giant slowly dissipated in front of Ye Feng.

Because this flame giant itself was born in the endless lava of the Flame Mountain and belongs to the category of spirits.

After his death, the original flame was plundered, and his huge body naturally dispersed.

The flame giant itself has no blood energy.

All the energy was gathered in the natal flame that Ye Feng had just swallowed and refined.

At this time, Ye Feng looked not far away and found that the Black Dragon Lord was flying towards him from a distance.

Uh-huh!

Ye Feng immediately flew forward and asked: "Have you found the flame crystal vein?"

"found it."

The Black Dragon Lord nodded immediately.

At this time, the Black Dragon Lord inadvertently glanced at the place where the battle was fought and found that the body of the flame giant was gone and completely dissipated.

This made the Black Dragon Master couldn't help but tremble.

What on earth did the human boy in front of him do to the flame giant?

The Fire Giant's huge body of tens of thousands of meters disappeared in just a few minutes.

Thinking of this, Lord Black Dragon suddenly felt a deeper fear of Ye Feng.

Because he felt that Ye Feng was really unfathomable and unpredictable.

At this time, Lord Black Dragon immediately became more respectful and said quickly: "Master Ye Feng, I have found the flame crystal mineral vein. You just need to follow me."

Uh-huh!

After saying that, the two of them flew quickly in a certain direction, one after the other.

A few minutes later, they arrived at a deserted land to the north of the Flame Mountain.

At this moment, in this desolate land, the ground has left, and there are traces of digging.

It was obviously the Black Dragon Master who was digging the soil.

At this moment, Ye Feng saw that under this barren ground, there were indeed pieces of flame crystals exposed.

Uh-huh!

Ye Feng flew over, squatted down, stretched out his hand, and touched the flame crystal exposed on the surface.

"Buzz!"

At this moment, Ye Feng immediately sensed that the flame crystal contained extremely powerful and intense flame power.

"These flame crystals are definitely high-quality flame crystals, and they contain a lot of energy."

Ye Feng couldn't help but smile and said loudly at this time.

Upon hearing this, Lord Black Dragon immediately said: "Of course, after all, this Flame Mountain area gave birth to such a powerful and terrifying flame giant, and the flame crystal veins that were born are naturally of very high quality. "

At this moment, the Black Dragon Lord was talking, and suddenly he seemed to have thought of something, and said loudly: "I am willing to dedicate all of this spar vein to you, sir!"

"I'm not a selfish person either."

Ye Feng said with a smile: "Since you and I worked together to find this opportunity, I will not monopolize it. I will give you 30% of this flame crystal vein. After all, I am the main force in this battle. Do you have any objection to the distribution?"

"Of course I have no objection!"

Hearing what Ye Feng said, Lord Black Dragon was immediately overjoyed and said happily: "The adults are different from others. They are powerful, so benevolent and moral, so open-minded. The respect that a villain has for an adult is simply incredible. It's like a surging river, which is endless and overflows beyond control!"

Chapter 2855 Blood of the Dragon

At this moment, Ye Feng glanced at the Black Dragon Venerable next to him in surprise, and couldn't help but said: "I didn't expect you to be so good at flattering me. I can't tell."

After all, in Ye Feng's eyes, the Black Dragon Lord was considered a powerful being who dominated one side.

After all, Venerable Black Dragon is a powerful being with cultivation level at the tenth level of the God of Education.

But as a result, he has been flattering Ye Feng all the time. His image has changed too quickly and the contrast is too great, which makes Ye Feng unable to adapt for a while.

But at this time, hearing what Ye Feng said, Lord Black Dragon chuckled and said: "I am not born to be so powerful. I have also come up step by step from a small person, so I know very well that those who understand current affairs As a Junjie, Lord Ye Feng is so powerful, so I naturally have to obey Lord Ye Feng's orders."

Ye Feng stared at the Black Dragon Lord, just smiled slightly, and said: "Actually, you don't have to be so afraid of me, as long as you lead me to find the habitat of the ancient dragon, and get the opportunity of the ancient dragon, then we can resolve our grievances peacefully, wouldn't it be beautiful?"

The Black Dragon Lord immediately nodded and said: "Lord Ye Feng, since this flame giant has been destroyed by us, after we divide the flame crystal mineral vein, I will take Lord Ye Feng to that ancient place. The place where the dragon lives."

"OK."

Ye Feng nodded and immediately jumped into the flame crystal vein in front of him.

At this moment, Ye Feng released the Devouring Domain in an instant, and then enveloped 70% of the flame crystal veins in his Dark Devouring Domain.

"Rumble..."

Almost at this moment, huge amounts of blood energy entered Ye Feng's body.

Buzz!

At this moment, Ye Feng suddenly felt a huge

All the extreme energy was injected into his body.

The next moment, Ye Feng could feel that his power was rapidly accumulating and growing.

At this moment, Ye Feng knew very well that the energy in this flame crystal vein was very huge.

And they are all high-quality flame essence energy!

"boom!"

At this moment, Ye Feng's cultivation suddenly changed.

It was a breakthrough all of a sudden!

Directly from the tenth level of the True Destiny Realm, the transformation and breakthrough reached the Half-Step God-Education Realm!

At this time, Ye Feng discovered that 70% of the flame crystal veins had completely disappeared.

All turned into billowing energy, transforming his own skills and cultivation.

This is pretty much what Ye Feng expected, breaking through to the half-step cultivation realm.

Because Ye Feng knew very well that his body was like a bottomless pit.

Every breakthrough requires huge and boundless energy.

And as his cultivation level improved, Ye Feng's bottomless pit became more and more terrifying.

However, this also created Ye Feng's terrifying and powerful fighting power.

After all, not to mention ordinary warriors, even genius-level warriors. At Ye Feng's level, it is simply impossible to defeat the Black Dragon Lord. Instead, they will be obliterated by the Black Dragon Lord with one move.

But Ye Feng was able to defeat the Black Dragon Lord and make a powerful being like the Black Dragon Lord surrender.

This is the benefit of deep accumulation.

At this moment, Ye Feng's eyes

He showed a trace of satisfaction and looked to a place not far away.

He saw that the Black Dragon Master was using the storage ring to put the remaining 30% of the flame crystal veins into the storage ring piece by piece. It looked quite shabby.

When Ye Feng saw this, his eyes suddenly showed surprise. Why didn't this Black Dragon Lord refine it on the spot?

But the next moment, Ye Feng realized that it was impossible for everyone to have such powerful devouring abilities as he did.

It is impossible for everyone to have their own powerful and terrifying body of chaos.

At this time, the Black Dragon Master finished installing the remaining flame crystals and immediately looked towards Ye Feng.

He immediately saw that the flame crystal veins on Ye Feng's side had completely disappeared and became empty.

Lord Black Dragon had also seen before that Ye Feng did not pack up the flame crystal veins like him, but refined it on the spot and absorbed it all.

This extreme and rare cultivation method almost scared the Black Dragon Master.

The next moment, what shocked the Lord Black Dragon even more was that Ye Feng absorbed a full 70% of the flame crystal veins, but only broke through half of the sky.

This shocked the Black Dragon Master to the extreme.

Because the Black Dragon Master knows very well how powerful the energy of this flame crystal vein is.

If a normal cultivator could refine 70% of the flame crystal veins, he would probably be able to break through the tenth heaven in a row, which would be enough for an ordinary cultivator to practice for more than ten years.

But Ye Feng refined the entire flame crystal vein in just half an hour.

It's really terrifying.

"A full 70% of the flame crystal veins only allowed Lord Ye Feng to break through half of the sky. How terrifying must the martial arts foundation accumulated by Lord Ye Feng be?"

At this time, Venerable Black Dragon was thinking in his heart, and his expression was shocked to the extreme.

He felt more and more that Ye Feng was unfathomable.

He now understood why Ye Feng had such terrifying combat power at such a low level.

All because Ye Feng's accumulation of martial arts practice is too profound.

At this time, Ye Feng looked at Lord Black Dragon and said, "Let's go directly to the habitat of the ancient dragon."

The Black Dragon Lord immediately nodded and said, "Okay."

At this moment, the Black Dragon Master suddenly drew a drop of blood from his body.

This drop of blood exudes golden light.

It seems very special.

Ye Feng's eyes were puzzled.

The Black Dragon Lord seemed to see Ye Feng's doubts and immediately explained with a smile: "This drop of blood is the blood of the dragon that I have condensed for hundreds of years. Just this drop took me a hundred years."

Ye Feng's eyes were surprised and he couldn't help but said: "Don't you have the constitution of an ancient black dragon? How can you condense a drop of the blood of a divine dragon?"

Venerable Black Dragon smiled bitterly and said: "The lair of ten thousand dragons that I fell into before turned my previous body of the ink dragon into the body of an ancient black dragon. The ancient black dragon was also inherited from the ancient divine dragon, so in my There are some rare ancient dragon genes in the origin of blood. I have worked hard for hundreds of years to condense this drop of dragon blood. The purpose is to use this drop of dragon blood to find and locate this ancient ruins. The place where the ancient dragons live."

## Chapter 2856 Dragon Palace Ruins

There was a look of surprise in Ye Feng's eyes, and he immediately nodded and said: "Okay, then you can use this drop of the dragon's blood to find the place where the ancient dragon lives."

At this time, the Black Dragon Lord nodded, and then immediately began to recite a string of ancient spells that Ye Feng could not understand.

Buzz!

As the Black Dragon Master recited this string of spells, Ye Feng saw that the drop of dragon's blood suspended in front of the two people suddenly began to emit a very strong light.

Then that drop of dragon's blood suddenly transformed into the shape of a six-pointed star formation and flew directly in a certain direction.

"Walk!"

The Black Dragon Lord immediately spoke out.

Ye Feng nodded slightly, and the two of them followed the dragon's blood and flew quickly in a certain direction.

Soon, they traveled through most of the ancient underground ruins, and finally arrived at the deepest area of the ancient underground ruins.

In the deepest area of this ancient ruins, there is a long black river that stretches as far as the eye can see.

On the edge of this long black river, that drop of dragon's blood was staying there, emitting bright golden light and looking very sacred.

Lord Black Dragon and Ye Feng came here immediately, watching the drop of divine dragon's blood emitting golden light slowly sinking into the wide black river in front of them.

The Black Dragon Master couldn't help but said: "Is the place where the ancient dragon lives in this black river?"

Ye Feng nodded slightly, with a twinkle in his eye, and said, "You'll know if you go down and take a look. Guessing will never solve the problem. Practice is the truth."

"good!"

The Black Dragon Lord immediately nodded, and then jumped directly into the black river.

At this moment, Ye Feng put on the anti-injury spike armor, fully armed, and entered the Black River.

Wow!

\u003c

br\u003e At this time, Ye Feng and the Black Dragon Master immediately dived quickly under the Black River.

Soon they arrived at the lowest area of the Black River.

They immediately saw that at the bottom of the Black River, there were the ruins of huge ancient buildings.

"Is this a dragon palace from ancient times?"

The Black Dragon Master couldn't help but speak out at this time.

Ye Feng nodded slightly and said: "It looks a bit like the ruins of the ancient Dragon Palace. Let's continue to take a closer look inside."

Swish!

The two quickly continued diving towards the depths of the Dragon Palace ruins.

Soon they touched an air cover. After entering the air cover, there was no water.

The two stepped on the hard ground, surrounded by extremely tall dragon bones and ancient dragon buildings, but most of them collapsed.

At this time, the Black Dragon Master couldn't help but said excitedly: "Master Ye Feng, this is definitely the habitat of the ancient dragon clan! From the deepest part of my bloodline, I can sense the lofty feeling of worshiping the emperor. Feel."

Ye Feng nodded slightly and glanced at the various tall buildings around him, as well as the exaggeratedly large keels, and his eyes suddenly showed surprise.

At this time, Ye Feng stretched out his hand and wanted to collect these very huge dragon bones around him.

Because these dragon bones are most likely the bones left behind after the death of the ancient dragon clan, and are of very high value.

Buzz!

But just after Ye Feng reached out and touched these tall keel bones, the huge keel bones shattered inch by inch, and then instantly

The room turned into ashes.

Venerable Black Dragon said: "Lord Ye Feng, these dragon bones have completely withered and lost all bone quality and energy support."

Ye Feng nodded slightly, without saying anything else, and just walked towards the depths of the habitat of the ancient dragon clan.

The Black Dragon Lord quickly followed.

Along the way, Ye Feng and the Black Dragon Master saw that many buildings had collapsed and there were withered parts everywhere.

Both of them felt a very desolate feeling from the surrounding air.

This desolate feeling was felt most strongly by the Black Dragon Master.

Because the Black Dragon Lord himself is a dragon.

Therefore, the Black Dragon Venerable is naturally very sensitive to the ruins of the ancient dragon clan.

At this time, Venerable Black Dragon felt a great sadness in his heart.

Because even as powerful as the ancient dragon clan, they eventually withered away, leaving only this dilapidated ancient ruins, existing cold and dry under an unknown black river.

At this moment, the Black Dragon Venerable couldn't help but said: "Lord Ye Feng, do you think that no matter how glorious a force or a powerful existence, it will eventually die and wither?"

When Ye Feng heard the Black Dragon Venerable next to him say this, his eyes suddenly showed surprise.

But Ye Feng didn't say much, just shook his head slightly.

Because Ye Feng believes that as long as he reaches the final level of mastery, he will be able to transcend everything and control his own life and death.

At this time, Ye Feng continued to move forward.

Seeing that Ye Feng was silent, Lord Black Dragon didn't ask any more questions. In fact, he was just sighing to himself.

At this moment, Ye Feng suddenly saw that in this dilapidated and helpless place,

In the middle area of Bi's ancient ruins, there stands a huge golden hall.

In the golden hall, Ye Feng saw a tall, middle-aged man wearing glazed armor sitting on a huge throne, looking full of endless majesty.

"There are actually living creatures!"

Lord Black Dragon also saw the tall middle-aged man in the golden hall, who looked extremely powerful.

At this moment, Ye Feng immediately released his soul power and moved towards the front.

He immediately sensed that the armored middle-aged man sitting on the throne in the golden hall did not have any life fluctuations on his body.

"It's not a living thing, it's a dead existence."

Ye Feng spoke up at this time.

Uh-huh!

After saying that, Ye Feng instantly flashed into the golden hall.

Venerable Black Dragon stood in awe behind Ye Feng, not daring to look directly at the middle-aged man.

Because the Black Dragon Venerable felt a very terrifying bloodline pressure from this middle-aged man.

This middle-aged man wearing glazed armor must have been an extremely powerful being when he was alive.

It is very likely that he was an extremely powerful warrior from the ancient dragon clan.

At this time, Ye Feng walked up to the middle-aged man in glazed armor and looked at him carefully for a moment.

"The blood energy in the body is very abundant."

Ye Feng nodded slightly, and then in the eyes of the Black Dragon Master, he stretched out his hand and slapped the head of this majestic-looking middle-aged man wearing glazed armor.

"boom!"

At this moment, Ye Feng immediately broke out and swallowed the field.

Chapter 2857 A complete breakthrough

At this time, he saw Ye Feng directly pressing one hand on the head of the middle-aged man wearing glazed armor.

The Black Dragon Lord's face suddenly changed, and he couldn't help but said: "Master Ye Feng, this middle-aged man wearing glazed armor must have been a very powerful existence back then. He was very noble in the ancient dragon clan, and his status must be very high. "Extraordinary, Lord Ye Feng, your reckless actions are very disrespectful to the ancient gods. It is very likely to cause dissatisfaction with some ancient dragon spirits in the place where the ancient dragons live, and it is very likely to cause disaster."

Obviously, as a member of the ancient black dragon clan, the Black Dragon Venerable has a sense of awe for the place where the ancient divine dragon clan lives.

Unlike Ye Feng, he has no taboos against anything.

But Ye Feng is such a person, there is no taboo at all.

At this moment, Ye Feng heard the admonition of the Black Dragon Lord next to him, and immediately smiled indifferently and said: "I don't believe in any taboos, I only believe in my own power."

boom!

At this time, after Ye Feng finished speaking, he did not stop his actions, and immediately increased the output of his devouring power. All of a sudden, he began to consume the remaining blood energy of the ancient strong man of the ancient dragon clan in front of him, as well as the mighty dragon clan. All the skills started to be swallowed up quickly.

"Boom!"

At this moment, Ye Feng immediately sensed that the huge dragon energy was absorbed by himself, and then swallowed it all, and began to replenish his skills.

During the whole process, the Black Dragon Lord looked at the powerful man of the ancient dragon clan in front of him. His whole body shriveled up quickly, and his expression suddenly became a little frightened.

But Ye Feng was extremely excited at this time.

Because he got extremely rich energy from the body of this powerful ancient dragon clan.

At this time, Ye Feng could feel that his skills were rapidly growing and transforming, and he was about to break through.

"Buzz!"

But suddenly at this moment, the entire golden hall suddenly shook violently.

Ye Feng saw it immediately. In the golden hall, the light suddenly became dim.

An extremely huge golden dragon soul rushed out from the bottom of the golden hall, exuding a terrifying and huge energy.

The dragon is majestic.

"Plop!"

At this time, when the Black Dragon Master saw the earth-shattering golden dragon soul, he was so frightened that he knelt down on the ground.

This was a subconscious behavior, just kneel down.

Because that kind of pressure from the depths of the soul is really terrifying.

Venerable Black Dragon's face was extremely pale, and he couldn't help but said: "It's over, it's over! Master Ye Feng, you have angered the ancient dragon's dragon soul, it's completely over this time!"

Sure enough, the huge and boundless golden dragon soul spoke at this moment: "You old foreigners are really too bold. You dare to desecrate the dragon body of my ancient dragon clan general. It is really abominable. Today I will judge your fate."

boom!

But suddenly at this moment, Ye Feng suddenly burst out with a huge and terrifying soul power.

Buzz!

A dark soul giant, tens of thousands of feet tall, suddenly stepped out of Ye Feng's body, full of unparalleled majesty.

This is Ye Feng's own dark soul giant!

You know, Ye Feng's current soul power has skyrocketed to a full 400,000 levels!

Four hundred thousand level soul power!

That was terrifying to the extreme.

So at this time, Ye Feng didn't have any worries, but continued to devour the dragon power contained in the middle-aged man's body.

At this moment, the golden dragon soul saw the dark soul giant stepping out of Ye Feng, and his eyes suddenly showed shock.

Because he sensed that the soul power emitted by the dark soul giant released by Ye Feng was really strong to the extreme!

"Damn it! I didn't expect it to be a powerful human soul master, but even so, as the soul of the great ancient dragon warrior, I still need to kill this human boy like you!"

boom!

almost

At this moment, the golden dragon soul rushed towards the dark soul giant suspended above Ye Feng's head, stretching out a huge golden dragon claw that seemed to be able to tear everything into pieces.

Boom!

But at this time, the dark soul giant above Ye Feng's head did not show any fancy. He directly clenched his fist and punched the dark dragon soul that was attacking not far away.

"Click, click!"

And at the next moment, the Dark Soul Giant's punch actually shattered the golden dragon soul's dragon claws inch by inch.

"ah!" ??

The golden dragon soul immediately let out a painful scream, because its dragon claws were also part of the dragon soul and were shattered at this time. Naturally, its dragon soul body also suffered heavy damage.

"kill!"

The dark soul giant was now under the control of Ye Feng. Without any hesitation, he directly pursued the victory and flew in front of the golden dragon soul.

Then, under the horrified gaze of the Black Dragon Lord who was kneeling on the ground, the Dark Soul Giant punched directly into the flesh, blasting the golden dragon soul into pieces, and then swallowed it in one gulp.

"Gulu!"

Seeing this shocking scene, the Black Dragon Master immediately couldn't help but swallow his saliva.

This is so fierce!

Even the dragon soul of the ancient dragon was killed directly!

At this time, Ye Feng could feel that after devouring the dragon soul of this dragon warrior, his soul power had also been greatly improved.

It was directly upgraded from the original level of 400,000 to 430,000 levels!

At this time, Ye Feng's eyes showed a trace of happiness.

Because this is considered a good improvement.

After all, he was suddenly promoted to level 30,000, which shows that the dragon soul of this dragon warrior is quite powerful.

At this time, Ye Feng continued to increase the power of the Devouring Domain, and in an instant absorbed and devoured all the remaining power of the Divine Dragon in the body of the Divine Dragon Warrior in front of him.

"boom!"

in a whole god

With the accumulation of Dragon Warrior's skills, Ye Feng finally achieved a complete breakthrough in his skills.

"boom!!"

A terrifying and boundless cultivation aura, like a vast ocean, burst out from Ye Feng's body in an instant and spread rapidly towards the surroundings.

At this time, Ye Feng's cultivation level completely transformed, and he completely entered the first level of the true cultivation realm!

At this moment, Ye Feng's eyes were shining brightly, filled with unparalleled momentum.

When Ye Feng's cultivation level entered the true cultivation realm, Ye Feng could feel that his combat power was many times stronger than before.

Ye Feng felt that the energy bursting out from his movements was simply terrifying to the extreme.

It's like being able to smash a large mountain range at any time and at any time.

At this time, Venerable Black Dragon, who was kneeling on the ground, suddenly stood up.

He immediately walked up to Ye Feng and said respectfully: "Master Ye Feng, you are really powerful, simply awesome! When you killed the golden dragon soul just now, you were really majestic. Lin Lin, you are just like a young human god! My admiration for you, Lord Ye Feng, is like a torrential river..."

"Stop talking nonsense."

Ye Feng couldn't help but glance at the Black Dragon Lord and said loudly: "What I destroyed just now was not the soul of a divine dragon, but just the dragon soul of a divine dragon warrior."

The Black Dragon Lord was stunned for a moment, but then he smiled and said: "Anyway, Master Ye Feng is so powerful. I didn't expect that Master Ye Feng is also an extremely powerful legendary human soul master. This is also my first time." Meeting a human soul master is really amazing."

At this time, Ye Feng just smiled slightly and said loudly: "Stop bragging, it makes my ears hurt. Let's continue to go deep into the ruins of the Dragon Palace and see what good things are hidden inside. Even if there are no good things, there are bodies." The immortal dragon master allows me to devour my skills and improve my cultivation, which is already a great gain."

The Black Dragon Lord immediately smiled and said respectfully: "Everything will be subject to your arrangements, Lord Ye Feng! With Lord Ye Feng's soul power, we won't be afraid of the attacks of the remaining dragon souls in the ruins of the Dragon Palace. Very good!"

#### Chapter 2858 Royal Palace Group

At this time, after the Black Dragon Master finished speaking, Ye Feng nodded slightly and said: "As long as it is not an ancient dragon soul with particularly powerful soul power, there is nothing to be afraid of."

When Lord Black Dragon heard what Ye Feng said, he immediately smiled and said, "Lord Ye Feng, I didn't expect that you are also a legendary human soul master."

Hearing the compliment from Lord Black Dragon, Ye Feng couldn't help but shook his head and said loudly: "There are many soul masters in our human race. It's not a very rare thing. It's just that my soul power is stronger than that of ordinary people." It's indeed a lot stronger."

The Black Dragon Lord immediately nodded and said: "I have seen this a long time ago. Even the golden dragon soul of a dragon god war general is no match for Master Ye Feng. This shows how powerful Ye Feng's soul power is. How awesome."

Ye Feng didn't say anything more at this moment, but put the glazed armor that fell off after sucking up the body of the Dragon God War General in front of him into his storage ring.

Although this set of glazed armor is not a particularly powerful armor, it is not as good as the anti-injury spiked armor that Ye Feng is wearing now.

But this glazed armor is a treasure after all, it is the armor of the ancient dragon clan. If it is brought back to the Tiandao Holy Land sect in the future, it should be sold for a lot of money.

Now that Ye Feng has come to this place where the ancient dragon lives, he naturally won't waste anything.

As long as it is a treasure of some value, Ye Feng will put it into his storage ring. After all, these are just a little bit of wealth. Ye Feng has never been very picky about wealth.

At this time, the Black Dragon Lord spoke out: "Lord Ye Feng, let's go directly to the deepest part of the ancient Dragon Palace ruins. The real huge treasure of the ancient dragon clan should be hidden in the deepest area of the Dragon Palace ruins. "

Now that we know that Ye Feng is actually an extremely powerful human soul master, he can even destroy the golden dragon soul of the Dragon God War General.

Now the Black Dragon Lord is less and less afraid of the place where the ancient dragon lives.

Because no matter what powerful dragon soul appears, Master Ye Feng can basically destroy it.

The reason why the Black Dragon Venerable was afraid of this ancient dragon's habitat was because he was afraid of the surviving dragon souls.

No matter what kind of dragon soul it is, for the ancient black dragon, the Black Dragon Venerable, it has natural pressure from the depths of the soul.

But now Ye Feng actually has such a powerful soul power that he can compete with the dragon soul of the ancient dragon. This makes the Black Dragon Master feel a lot more at ease.

He felt that this time, he should be able to obtain the treasures of the ancient dragon clan.

Venerable Black Dragon is naturally looking forward to the huge wealth of the ancient dragon clan.

Because he himself is a dragon.

If he can obtain the powerful inheritance from the ancient dragon clan, then the Black Dragon Venerable will be able to continue to transform his life essence.

He will even evolve into a more noble dragon, become more powerful, and gain more ancient dragon power.

At this moment, Ye Feng and the Black Dragon Master did not say anything more, but continued to walk towards the depths of the Dragon Palace ruins.

Along the way, they still saw many collapsed buildings and some withered bones of ancient dragons.

But what makes Ye Feng quite disappointed is that,

Ever since he met the dragon god warrior wearing glazed armor in that golden hall, he had never encountered a strong man from the ancient dragon clan that he could devour.

Finally, just half an hour later, they arrived at the deepest part of the Dragon Palace ruins.

In the deepest part of the Dragon Palace ruins, they saw a glorious Dragon God Hall.

This Dragon God Hall is a combined hall, which is composed of hundreds of small palaces. When combined together, it looks very majestic, magnificent and brilliant.

Although it is now deserted, from this Dragon God Hall, you can get a glimpse of the endless glory of the ancient dragon clan.

At this moment, Lord Black Dragon seemed to sense something, and he couldn't help but said: "Master Ye Feng, I sensed the fluctuation of many dragon treasures from this Dragon God's Hall. There are a total of 100 dragon treasures in this Dragon God's Hall." Composed of hundreds of small palaces, it should have been the royal garden of the ancient divine dragon clan. Many royal members of the ancient divine dragon clan lived here. It must contain a lot of royal treasures. Those are the real wealth left by the ancient divine dragon clan. "

"The royal family of the ancient dragon clan?"

When Ye Feng heard what the Black Dragon Lord said, his eyes suddenly lit up, and then he said aloud: "Then let's go directly into the palace complex of the Dragon God's Hall and look for treasures. The two of us will split up and explore separately. In each palace, whoever can find good things will be lucky."

Hearing what Ye Feng said, Lord Black Dragon immediately nodded and said: "Everything will be subject to Master Ye Feng's arrangements. I have no objections."

For the Black Dragon Venerable, he is originally from the dragon clan, so it is naturally more advantageous to find the treasures in the palace complex left by the ancient dragon clan.

But what Lord Black Dragon didn't know was that Ye Feng's soul power was so huge that in an instant, Ye Feng's soul power covered hundreds of palaces in the entire Dragon God Hall. He could instantly discover which palaces The fluctuations among them are the most powerful, which means the treasure is the most powerful.

In any case, the two of them had their own thoughts, and then flew quickly in two directions, preparing to explore the magnificent royal palace complex of the Shenlong clan to see if they could find any particularly powerful ancient objects. The treasure of the Dragon Clan.

Both Ye Feng and the Black Dragon Master are looking forward to this.

Uh-huh!

Ye Feng quickly came to a hall made of purple-gold crystal. This hall was the place where he sensed the strongest fluctuations nearby.

Ye Feng walked directly into the amethyst hall, and instantly saw this hall. It was not a ceremonial hall, but the dormitory hall where a noble royal family member of the ancient dragon clan lived.

Because there are beds made of white jade, various shelves with armors, etc. inside.

Of course, what attracted Ye Feng the most was the golden dragon-shaped sword hanging on a hidden grid in the middle of the hall.

This golden dragon-shaped sword was made of unknown special materials.

Although endless years have passed, at this moment, it still exudes a faint divine light.

And faintly, there was a dragon's roar coming from the long sword, which was deafening.

Ye Feng could immediately feel that this was definitely a very powerful sword from the ancient dragon clan. At this time, after the Black Dragon Master finished speaking, Ye Feng nodded slightly and said: "As long as it is not an ancient dragon soul with particularly powerful soul power, there is nothing to be afraid of."

Although endless years have passed, at this moment, there is still a faint divine light.

And faintly, there was a dragon's roar coming from the long sword, which was deafening.

Ye Feng could immediately feel that this was definitely a very powerful sword from the ancient dragon clan.

Chapter 2859 Many treasures

"Let's call you Dragon Song Sword."

At this time, Ye Feng named the golden sword he found first.

Because Ye Feng didn't know the name of this golden sword, he could only name it himself.

However, Ye Feng knew very well that this long sword should have been the sword of a royal member of the ancient dragon clan. It was definitely very extraordinary.

At this time, Ye Feng directly used his magic power to refine the Dragon Sword to see if it could explode into a powerful force.

Boom!

But the moment Ye Feng outputted his magic power, a huge dragon soul suddenly rushed out of the dragon chanting sword.

This dragon soul immediately said: "Outsider, if you are willing to save me, then I will grant you supreme creation."

Obviously, this dragon soul is the spiritual thought of a royal member of the ancient dragon clan that remains in this dragon chanting sword.

But at this time, Ye Feng said aloud: "I don't need you to reward me with any supreme blessings. I only need this sword to become my treasure now."

Boom!

Almost at the moment Ye Feng's words fell, Ye Feng directly activated his extremely powerful soul power and released the soul storm, directly obliterating the divine thoughts of the ancient dragon royal family members that existed in the Dragon Song Sword.

However, for ordinary warriors, if they encounter such a treasure that contains the spiritual thoughts of an ancient powerful person, they will basically be taken away.

But this does not exist for Ye Feng.

Because Ye Feng's soul power is too powerful.

Even if the soul gem is now asleep, few people can cause harm to him from the spiritual level.

Unless it is the divine will of a particularly powerful ancient expert, it may pose some threat to Ye Feng.

At this moment, after Ye Feng obliterated the powerful spirit in the Dragon Song Sword, he immediately felt that he had a sense of control over the Dragon Song Sword.

At this moment, Ye Feng quickly felt that this dragon chanting sword contained the very powerful divine power of the ancient dragon.

If it is chopped down, it will definitely cause huge damage.

Ye Feng was very happy about this.

This dragon chanting sword is definitely not a mortal thing, and it can temporarily become a weapon of your own.

Uh-huh!

At this moment, Ye Feng put the Dragon Sword into his storage ring, and then continued to explore the first palace hall.

In this palace hall, in addition to this Dragon Sword, there are also some other armors hanging on the shelves.

Although these armors have experienced endless years, they still have not decayed and have not lost much power.

Ye Feng put all these armors into his storage ring. After all, they are some good treasures. If they can be brought back to the sect, they should be able to sell them for a lot of money.

Moreover, the materials of these armors are all made from the materials of the ancient dragon clan in ancient times for the members of the royal family. The quality of each one must be very good.

After Ye Feng finished searching the palace hall, he immediately walked out, continued to emit soul power, and flew towards the second hall with energy fluctuations.

The second hall that Ye Feng came to seemed to be a place dedicated to storing pills.

The moment Ye Feng entered the door, he smelled a very strong medicinal fragrance.

He saw a huge bronze alchemy furnace standing here.

The middle of the main hall.

Moreover, under this bronze alchemy furnace, there is actually a weak flame burning at this moment.

Ye Feng's eyes instantly brightened, and he stared at the ball of flames with a look of surprise on his face.

This flame has been burning in the ancient ruins under the ground for so long and has not been extinguished. It must be very extraordinary.

At this moment, Ye Feng directly stretched out his hand and touched the flame, using his own natal flame to sense the flame under the pill furnace.

Buzz!

Ye Feng immediately felt at this moment that in this seemingly weak flame, there was a huge amount of earth fire energy.

Ye Feng immediately understood that this was a ball of earth fire hidden under the ground. It could burn for tens of thousands of years, or even hundreds of thousands of years without extinguishing. This shows how powerful the origin of its flame is.

boom!

At this moment, Ye Feng did not hesitate, and immediately released the Devouring Domain, and directly began to absorb the earth fire under the pill furnace.

Wow!

At this moment, Ye Feng immediately felt a very abundant flame energy, which was being quickly absorbed by him, and then all of it was injected and integrated into Ye Feng's body.

Although this flame looks very weak, underneath it is connected to all the earth fire energy in the entire ground.

At this moment, with Ye Feng's devouring, Ye Feng's skill suddenly transformed.

Under the injection of such a huge amount of earth fire energy, Ye Feng could feel that his cultivation skills were rapidly and continuously improving and making breakthroughs.

boom!

The second level of Yushen Realm!

boom!

Third level of Yushen Realm

sky!

At this moment, Ye Feng's cultivation level broke through two levels in a row, and he stepped directly from the first level of the God Educating Realm to the third level of the God Educating Realm.

Finally, the earth fire energy absorbed by Ye Feng completely disappeared.

Ye Feng could also feel that all the earth fire energy under the entire ground was dissipated and absorbed by him.

At this moment, Ye Feng's eyes showed a hint of joy.

Devouring all the energy of the earth fire and directly breaking through the two heavens, it is already a very good harvest.

At this moment, Ye Feng took back his power and smashed the alchemy furnace in front of him.

"Crash..."

Suddenly, from the broken alchemy furnace, round pills all flowed out like a tide and piled up in front of Ye Feng.

As expected, there are still a lot of elixirs left in this alchemy furnace.

Although Ye Feng didn't know the efficacy of these elixirs, he put them all into his storage ring at this moment.

In the future, after returning to the Holy Land of Heaven and returning to the sect, you can ask some alchemists in the sect to identify the efficacy of these elixirs.

Although Ye Feng possesses his own natal flame and can be regarded as an alchemist, his knowledge is very simple after all. Ye Feng cannot recognize any of these ancient types of elixirs.

It takes an alchemy master with profound cultivation and broad knowledge to identify what effects it has, what price it can be sold for, or which pills can be swallowed directly by oneself to increase strength.

At this moment, Ye Feng put all the elixirs into his storage ring, then left the alchemy room and continued towards the next hall.

It has to be said that the place where the royal members of the ancient dragon clan lived was really full of treasures!

Chapter 2860 The young man in golden robe

Ye Feng was very happy now and immediately walked towards the next hall.

Soon, Ye Feng came to the third hall.

This third hall seems to be the place where the royal members of the ancient Shenlong clan used to practice martial arts.

There are many battle puppets here, all of which were specially cast by the ancient Shenlong clan and used for training by the young disciples of their royal family members.

However, these battle puppets are now rusty and of little use.

Ye Feng ignored these battle puppets and looked towards the deepest part of the training room.

He immediately saw a row of huge wooden frames at the end of these practice rooms.

There are many kinds of weapons hanging on these wooden frames, such as swords, guns, swords, halberds, axes, axes, hooks and forks, everything you need.

These weapons are still very shiny and emit very strong magic waves.

It seems that these weapons must have been used as training treasures for the young disciples of the ancient Shenlong clan.

However, Ye Feng could feel that these weapons were not as good as the Dragon Sword he had obtained from the first palace hall.

But they are treasures after all. Ye Feng stepped forward and put all these weapons into his storage ring. They were all quite a fortune.

Soon, Ye Feng was ready to leave the practice room.

But this moment.

"ah!"

"Master Ye Feng, save me!"

Suddenly, a huge scream sounded from a certain direction not far away.

Ye Feng's eyes immediately moved. This voice was the voice of Lord Black Dragon!

"Could it be that Venerable Black Dragon was attacked by evil spirits in the place where the ancient dragon clan lives?"

Ye Feng thought about it and felt that it was very possible.

Ye Feng immediately flew towards the direction of the scream.

But just when Ye Feng flew to his destination, he saw a cruel scene.

I saw that the head of the Black Dragon Venerable had been severed by a young man wearing a golden robe.

At this time, Ye Feng suddenly showed a deep cold look in his eyes.

Because the young man in the golden robe was an outsider and not a danger to the ancient dragon clan.

At this moment, Ye Feng immediately flew not far from the young man in golden robes, and said coldly: "Did Lord Black Dragon offend you? You actually killed him directly?"

The young man in the golden robe heard Ye Feng's words at this moment, and his eyes suddenly showed a trace of surprise, as if he did not expect that there was anyone else here.

This young man in a golden robe had a sneer on his face at this moment, and said loudly: "Do I need to explain anything to you? This so-called Black Dragon Lord has obtained the ancient dragon I asked him to dedicate a dragon ball of his clan to me, but he dared to resist, so I naturally killed it."

Buzz!

Hearing what the young man in golden robe said, Ye Feng suddenly showed a deep cold look in his eyes.

A very cold and terrifying killing intent was instantly released from his body at this moment.

At this moment, it seemed that he sensed the murderous intention in Ye Feng. The young man wearing a golden robe immediately showed a deep cold look in his eyes.

He immediately stared at Ye Feng and said loudly: "How dare you show your murderous intention towards me?"

, you are so courageous! "

After finishing speaking, the young man in the golden robe suddenly burst out with a very terrifying aura of cultivation.

That kind of cultivation momentum is impressively at the level of the Perfect Perfection of the Tenth Level of the God-Educating Realm.

This young man in a golden robe is obviously very extraordinary. He actually possesses such a powerful and terrifying cultivation level, which is definitely comparable to the peerless geniuses among some super powerful forces.

Although Ye Feng also knew at this time that this young man in gold robe must be a very powerful super genius, but this young man in gold robe actually killed his partner, the Black Dragon Lord.

Ye Feng was naturally furious.

So at this moment, Ye Feng didn't hesitate and charged directly at the young man in gold robe.

Because he wanted to kill this young man in gold robe and avenge the Black Dragon Lord.

Moreover, this young man in gold robe also robbed all the wealth obtained from the Black Dragon Lord, so Ye Feng naturally wanted to get it all back.

At this moment, when Ye Feng rushed in front of the young man in golden robe, the young man in golden robe seemed not to have expected that Ye Feng would dare to take the initiative to attack him.

So at this time, the young man in golden robe did not hesitate. In an instant, a gourd-like magic weapon appeared in his hand and opened the bottle cap directly.

Uh-huh!

Suddenly, a very terrifying suction ability directly sucked Ye Feng into the gourd.

At this moment, after seeing Ye Feng being sucked into the gourd in his hand, the young man in gold robe immediately smiled coldly and sarcastically, and then said aloud: "A humble boy with no means dares to fight with me. Stop being an enemy and enjoy the potent poison in my gourd."

this

At this moment, the young man in golden robe was speaking, obviously very confident in his gourd magic weapon. He felt that if Ye Feng was sucked into the gourd, he would definitely die instantly without a burial place.

At this time, Ye Feng was in the inner space of the gourd, and there was no fear on his face.

Because Ye Feng has been sucked into other gourd magic weapons before, Ye Feng no longer has the unknown fear of this kind of space magic weapon.

Instead, he directly integrated the brute force gem into his fist, and then fiercely bombarded the space barrier in the surrounding internal space.

Boom!

Suddenly, a terrifying roar sounded inside the gourd.

Ye Feng's punch was filled with unparalleled power, and it suddenly shattered the inner space of the magic gourd.

Uh-huh!

Then Ye Feng burst out from inside the gourd in an instant, blasting through the gold-robed young man's chest directly into the golden-robed young man's widened eyes, and a blood hole appeared.

"you.....!"

At this time, he felt the terrifying pain in his entire chest. The young man in gold robe suddenly showed a look of deep disbelief on his face. He couldn't help but said: "How dare you kill me..."

After saying that, the young man in gold robe tilted his head and died.

At this time, Ye Feng had just taken the storage ring of the young man in gold robe into his hands.

Suddenly there was a click, and a jade pendant on the waist of this young man in golden robe suddenly broke into pieces.

And as the jade pendant shattered, a terrifying and powerful aura suddenly invaded from a place not far from here, making Ye Feng feel a deep palpitation in his heart!
