

## Ancient 2861

Chapter 2861 Guardian

Buzz!

At this moment, Ye Feng didn't even have time to check out the treasures in the storage ring.

The powerful momentum not far away has already arrived.

At this moment, Ye Feng's eyes immediately showed deep fear, and he looked in a certain direction not far away.

He immediately saw a middle-aged man wrapped in steel armor flying over from a forest in the distance.

The aura emanating from his body was cold and terrifying, giving people a very terrifying feeling, like a steel demon.

Ye Feng immediately understood that this extremely powerful middle-aged man was definitely the guardian of the young man in golden robe that he had killed just now.

Because Ye Feng knew very well that the young man in golden robe who was killed by him just now was definitely very noble and might be a super genius of some super power.

So now that the young man in gold robe was killed by him, his protectors naturally came to save him.

But at this time, the young man in golden robe had been killed by Ye Feng.

So at this moment, when the middle-aged man wrapped in steel armor saw the young corpse in front of Ye Feng, his eyes were filled with deep shock.

boom!

Then an extremely terrifying murderous aura suddenly erupted from his body.

For an instant, a pair of cold and ruthless eyes stared at Ye Feng, and with a voice that sounded like it came from the Nine Nether Hell, he said, "Damn little brat, did you kill the little Dragon Emperor of our Dragon Emperor Holy Land?"

Hearing what the middle-aged man said, Ye Feng couldn't help but said: "The person I killed with one punch turned out to be the Little Dragon Emperor of the Dragon Emperor Holy Land, the super power in the center of the God Realm? How could he? Could it be that weak?"

Hearing what Ye Feng said, the middle-aged man wrapped in steel armor immediately couldn't help but show deep astonishment in his eyes.

Then comes intense anger.

Because Ye Feng's words were simply insulting their Dragon King Holy Land.

But at this time, the middle-aged man wrapped in steel armor stared at Ye Feng and couldn't help but said: "The aura of cultivation in your little brat is only the third level of the Yushen Realm, but our little dragon The emperor's cultivation level is at the tenth level of the God-Yu Realm, and he is also a super genius. His combat power is extremely terrifying. I didn't expect you to be able to kill the little Dragon Emperor of our Dragon Emperor Holy Land. It seems that you He is also a peerless genius in a certain super power, and his qualifications are even higher than our little dragon emperor. But even so, if you kill our little dragon emperor today, you will be dead. "

At this moment, the moment the middle-aged man finished speaking, he immediately burst out with his extremely powerful cultivation aura.

That kind of cultivation momentum is a powerful cultivation level that has surpassed the level of the Immortal Movement Realm above the Yushen Realm.

Moreover, he is a profound being in the Immortal Movement Realm. He is very likely to be a super strong person in the fifth or even sixth heaven of the Immortal Movement Realm.

I have to say that this middle-aged man wearing steel armor is still very scary. He is worthy of being the protector of the Little Dragon Emperor in the Holy Land of the Dragon Emperor.

At this moment, he exuded an extremely powerful cultivation aura and rushed towards Ye Feng.

A huge spear appeared in his hand. This spear instantly burst out with terrifying light, as if it could tear the sky apart.

The earth split the entire sky into pieces.

This attack was so terrifying that Ye Feng immediately put on anti-injury spike armor at that moment.

Boom!

The terrifying divine beam struck Ye Feng's anti-injury spike armor, and a terrifying roar suddenly erupted.

This kind of roar was extremely terrifying and contained a very powerful impact. Ye Feng's whole body flew out at once and hit a mountain in the distance hard, instantly smashing a large piece of it. mountains.

At this moment, Ye Feng immediately climbed up from the ruins, with a look of shock and anger in his eyes.

He obviously didn't expect that this middle-aged man wearing steel armor would possess such terrifying power.

"I'm no match for him!"

At this moment, Ye Feng immediately realized this, and then took the storage ring he just got from the little dragon emperor and flew quickly in a certain direction in the distance.

Because Ye Feng knows that he has only one way now, and that is to escape from here.

Because the cultivation level of this middle-aged man wearing steel armor is too terrifying. He is not something he can resist temporarily, so it is better to escape first.

Uh-huh!

So at this moment, Ye Feng immediately rushed towards a certain direction in the distance.

When he saw Ye Feng actually trying to escape, the middle-aged man wearing steel armor suddenly showed a trace of surprise in his eyes, as if he didn't expect Ye Feng to run away without fighting him.

But this made the middle-aged man even more afraid, because he knew that the other party was a super genius who could bend and stretch.

Such people are very scary.

Because some geniuses have their own stupid self-esteem, even if they encounter a powerful enemy, they will fight until they die.

But Ye Feng is not such a person.

At this moment, the middle-aged man immediately flew out of a huge steel giant sword, and then the middle-aged man jumped directly onto the giant sword.

boom!

At this moment, the giant sword burst out with extremely fast speed, allowing the middle-aged man to cross layers of space and fly behind Ye Feng in an instant.

Ye Feng's eyes showed a hint of horror, as if he didn't expect this middle-aged man to be so fast.

So almost at this moment, Ye Feng released the power of the space gem without any hesitation.

Buzz!

Almost at the moment Ye Feng released the power of the space gem, Ye Feng's speed also increased tremendously.

He immediately opened a space channel in front of him, and then moved away in an instant.

Seeing that Ye Feng was able to open a space channel, the middle-aged man showed a hint of surprise in his eyes and murmured: "What kind of super power does this kid come from? He can actually control the power of space and open up space." Out of the space wormhole."

This middle-aged man was thinking about Ye Feng's special identity while pursuing Ye Feng.

Because the Little Dragon Emperor died, as a protector, he couldn't explain it to Ye Feng if he didn't catch the culprit. So at this time, the middle-aged man's desire to kill Ye Feng became more and more intense! Buzz!

At this moment, Ye Feng didn't even have time to check out the treasures in the storage ring.

Because the Little Dragon Emperor died, as a protector, he couldn't explain it to Ye Feng if he didn't catch the culprit. So at this time, the middle-aged man's desire to kill Ye Feng became more and more intense!

Chapter 2862 The place where dragons are buried

Swish, swish, swish!

At this time, the middle-aged man wearing steel armor was constantly chasing Ye Feng.

Because the protector of the Little Dragon Emperor knew very well that if he didn't kill Ye Feng and take him back today, he wouldn't be able to go back.

After all, the death of the Little Dragon Emperor was really a big deal.

At this moment, this middle-aged man in steel armor is absolutely determined to kill Ye Feng!

Ye Feng also understands this. At this moment, he is running wildly with the power of the space gem and escaping quickly.

At this time, Ye Feng was still quite anxious.

Because this middle-aged man in steel armor is really too powerful.

At this time, Ye Feng was quickly thinking of ways to escape.

Under the feet of this middle-aged man, the giant steel sword was very special.

The speed is as fast as lightning!

Even if Ye Feng now uses the power of the space gem, he still cannot escape the pursuit of this middle-aged man.

Of course, this does not mean that the space gem is inferior to a steel giant sword.

It's because Ye Feng's current cultivation level is not enough to unleash all the potential of the space gem.

At this time, Ye Feng's eyes showed a hint of thinking.

Because Ye Feng knew very well that he might not be able to get rid of the middle-aged man in steel armor who was chasing him from behind today.

"The only way now is to make another breakthrough in my cultivation to kill this steely middle-aged man, or I can consider driving the tiger to devour the wolf."

Ye Feng thought in his mind that the second method was more realistic.

Because Ye Feng cannot break through the current level of cultivation quickly at all, and it is impossible to break through to the point where he can compete with the middle-aged man in steel armor in such a short period of time.

Buzz!

this one

In an instant, Ye Feng immediately emitted a huge amount of soul power and began to cover the entire surrounding area where the ancient dragon clan lived.

Ye Feng wanted to find a very dangerous place, let the middle-aged man in steel armor enter the dangerous place, and overwhelm him, so that he could have a chance to escape.

At this time, Ye Feng exuded huge soul power and soon found a very special place.

There is an area filled with the terrifying dragon clan's death energy.

Ye Feng felt deeply fearful.

But at this moment, Ye Feng's eyes suddenly lit up.

Finally found a good place.

Uh-huh!

Ye Feng flew quickly in that direction instantly.

Soon Ye Feng arrived at his destination.

At this moment, Ye Feng looked forward, his eyes a little shaken.

I saw that in the large land ahead, there were ancient tombs buried everywhere.

These tombs look very old and seem to have been passed down from a long time ago.

A very terrifying and rich aura of death spreads in the tomb in front.

Each of these tombs is extremely huge and looks like it was used to bury giants.

"This is the burial place of the ancient dragon clan, this is the burial place of dragons!"

At this time, Emperor Chu suddenly spoke in Ye Feng's mind.

"The place where dragons are buried!"

Ye Feng's eyes suddenly trembled.

He had heard that in ancient times, no one

Countless dragons will be buried together after death, in the place where the ancient dragons live. There is a very special place called the Dragon Burial Ground.

"It turns out that this is the place where dragons are buried in ancient legends."

Ye Feng couldn't help but murmur at this time.

Buzz!

Suddenly at this moment, behind Ye Feng, a very huge cultivation aura suddenly invaded from a not far away direction.

At this moment, Ye Feng's expression immediately changed slightly.

"There's no time to think about it, it just depends on luck."

Ye Feng's eyes showed a hint of determination at this moment, and he immediately jumped into the dragon burial ground in front of him.

Although Emperor Chu had warned Ye Feng, the place where the dragon was buried was very dangerous and it was a taboo place passed down from ancient times.

But at this time, Ye Feng had no choice but to take risks in order to get rid of the pursuit of the protector behind him.

At this moment, Ye Feng jumped into the dragon burial place ahead, and soon his back disappeared into the vast darkness.

Uh-huh!

At this moment, the middle-aged man in steel armor who was chasing Ye Feng from behind suddenly arrived here.

The middle-aged man in steel armor stopped at this time and stared at Ye Feng's back disappearing into the darkness in the distance. Suddenly there was a hint of fear in his eyes.

Because although he didn't know where the area ahead of him, which was full of tombs, was.

But the middle-aged man in steel armor could clearly feel at this time that the area in front was very strange and had a terrifying aura, which made this extremely powerful protector feel terrible.

Uh-huh! Uh-huh! Uh-huh!

At this time, the middle-aged man in steel armor suddenly jumped up, flew to a very high altitude, and looked down at the ground.

He immediately saw that the dragon burial land in front of him turned out to be a closed area.

The entrance and exit are the same, there is only the place where he is at this moment.

This made the middle-aged man in steel armor smile coldly, and landed on the ground again. Staring at the darkness in the Dragon Burial Land, he murmured, "I'll be waiting for you kid here. I don't believe you kid will never do it." Come out, this area feels very dangerous even to me. You, a kid with low cultivation level, can't possibly survive in it forever."

At this moment, after the middle-aged man in steel armor finished speaking, he just closed his eyes and rested on the spot, as if waiting for Ye Feng to come out on his own initiative, waiting for the rabbit to come out.

At this time, Ye Feng, who entered the Dragon Burial Land, felt the breath of the middle-aged man in steel armor behind him lingering at the entrance, and he immediately breathed a sigh of relief.

At the very least, he was temporarily freed from the pursuit of the protector of the Dragon King Holy Land.

At this time, Ye Feng just breathed a sigh of relief.

Snap!

But suddenly at this moment, a cold palm suddenly placed on Ye Feng's shoulder from behind in the darkness.

"what!"

Ye Feng's eyes were startled, and he immediately burst out with force and blasted away from behind.

"when!"

But at the next moment, Ye Feng's attack seemed to have hit some solid metal, and a huge roar suddenly erupted.

"This is....."

Ye Feng saw clearly what was behind him at this time, and suddenly felt a little creepy!

Chapter 2863 Looking for the Dragon Ball

At this moment, behind Ye Feng, a rotten dragon skeleton crawled out of the soil.

The cold thing that was placed on Ye Feng's shoulder just now was the dragon's claw from the dragon's skeleton.

This dragon skeleton was rotten and glowing green, looking very scary in the dark.

At this moment, Emperor Chu immediately said aloud in his mind: "This is an evil spirit from the dragon clan. It has died, but now it has crawled out again. It must have been affected by the blood that naturally emanates from Ye Feng." "

Hearing what Emperor Chu said, Ye Feng suddenly twitched the corner of his mouth and couldn't help but said: "What? Can my blood cause the evil spirits of the dragon clan to crawl out of the grave in this place where dragons are buried? That's terrible. Yes, there are ancient dragon clans buried everywhere in this dragon burial place."

Ye Feng wanted to go out at this time, otherwise he would be swallowed by this evil spirit.

This kind of dragon evil spirit has no soul fluctuations, but its body can move. It is very magical, but also weird.

Therefore, Ye Feng's soul master methods have no effect at this time.

At this moment, Ye Feng immediately walked towards the place where the dragon was buried.

But at this time, Ye Feng thought again that at the entrance to the dragon burial place, there were more terrifying and powerful guardians of the Dragon King Holy Land waiting for him to go out and hunt.

"No, you can't go out yet."

Ye Feng was a little helpless at this time.

The evil dragon spirits in this dragon burial place have no souls, their bodies have lost all blood and energy, and they are completely corrupt.

Therefore, Ye Feng cannot devour souls, nor can he devour blood energy, nor can he increase his cultivation strength.

At this time, Emperor Chu said aloud in his mind: "Ye Feng, you should continue to go deep into this dragon burial place to see if there are any good things in it. Some extremely powerful dragons, after death, even if a few years have passed, in a hundred thousand years, the most essence of the dragon ball in the dragon body will not dissipate. Perhaps, Ye Feng, you can look for any dragons from the ancient dragon clan.

If you keep the pearl, it will be a great tonic for you. It is many times better than some elixir. After all, those who can be buried in this place of dragon burial must have been the powerful dragon clan with dignity. "

When Ye Feng heard what Emperor Chu said, he couldn't help but his eyes lit up. Then he nodded and said, "Okay, I'll look for it to see if there are any dragon beads from the ancient dragon clan."

At this time, after Ye Feng finished speaking, he immediately headed towards the surrounding dragon burial place to explore.

For Ye Feng, now that the middle-aged man in steel armor who was chasing him did not take the bait and entered this dangerous place where dragons were buried with him, Ye Feng had to think of another way.

Now Emperor Chu said that there may be many dragon beads in this dragon burial place.

This made Ye Feng's eyes suddenly show deep excitement.

If you can really find the Dragon Ball, then if you swallow it yourself, you can greatly increase your skill, and your cultivation will break through in a short time, which is not a problem.

Because each of these dragon beads from the ancient dragon clan must be filled with very abundant and vast energy.

Moreover, these energies are all very advanced and powerful dragon energy.

Even if Ye Feng's body is like a bottomless pit now, these high-end dragon balls are definitely a great tonic.

Buzz!

At this time, Ye Feng suddenly exuded his extremely powerful soul power, radiating towards the surroundings, wanting to carefully search for various energy fluctuations around him.

Because each Dragon Ball is extremely special.

If there really is a dragon ball in any tomb, then Ye Feng's powerful soul power will definitely be able to sense it instantly.

"Huh? Found it!"

Sure enough, just when Ye Feng had just checked whether

After a while, he suddenly felt a very strong dragon energy fluctuation.

Uh-huh!

Ye Feng immediately flew in that direction.

Soon Ye Feng came to a tomb that was entirely made of steel.

This tomb is very brilliant. There is even a huge sculpture of a five-clawed golden dragon in the front, which looks very domineering.

Buried in such a domineering tomb must be a very powerful dragon clan.

At this time, Ye Feng didn't hesitate at all. He stretched out a hand and grabbed the tomb in front of him.

"Boom!"

Along with a huge roar, Ye Feng quickly shattered the tomb in front of him.

At this moment, Ye Feng immediately saw that after the tomb was shattered, the scene inside was immediately revealed.

What I saw was an underground palace-like scene inside.

When Ye Feng saw this scene, his eyes suddenly showed deep surprise.

"It seems that the powerful dragon clan buried in this tomb must have been a big shot back then. Even after his death, he needed to build his tomb like a glorious underground palace. It is really luxurious."

At this moment, Ye Feng murmured and walked directly into the underground palace under the tomb.

This underground palace is not as big as imagined. It is composed of more than a dozen palace groups.

But when Ye Feng just walked into the palace under the tomb.

"boom!"

Suddenly, the soil broke apart, and dozens of tall puppets made of steel appeared in front of Ye Feng with their eyes glowing red.

These are dozens of steel puppets!

And they are all puppets without decay!

Every steel puppet has an extremely tall body.

, looking very domineering.

Moreover, the steel puppet's body is pitch black and its eyes are glowing red. It is extremely terrifying in the darkness and has an extremely strong deterrent effect.

Just like the Steel Demon God in the darkness, it is very oppressive.

At this moment, Ye Feng did not hesitate and directly attacked the dozens of steel puppets.

Because Ye Feng knew that these steel puppets should be the means left by the owner of this tomb in order to protect the owner of this tomb.

At this moment, Ye Feng did not use the brute force gem, but directly punched out.

"when!"

When Ye Feng's fist struck these steel puppets, a huge roar erupted.

At this moment, Ye Feng immediately sensed the strength of these steel puppets, which were very strong and hard.

It is actually comparable to my current Chaos Body!

"What a good thing! Such a strong steel puppet!"

Ye Feng's eyes suddenly showed surprise.

The reason why Ye Feng did not fuse the brute force gems before was naturally because he was afraid of destroying these steel puppets.

Because Ye Feng wanted to test it to see if these steel puppets were particularly strong.

Now it seems that the hardness of each of these steel puppets is comparable to his own chaotic body.

This shows that these steel puppets are very strong and are already very precious puppets.

At this time, Ye Feng should be able to smash these steel puppets using the brute force gem.

But Ye Feng couldn't bear it.

Because Ye Feng was planning to find a way to collect these steel puppets of the ancient dragon clan and make them his subordinates.

In this case, when the time comes to go out and fight the guardian of the Dragon King Holy Land, these dozens of steel puppets should be able to share a lot of pressure for themselves.

Chapter 2864 Finally got it

At this time, Ye Feng was thinking about how to safely subdue all the dozens of steel puppets.

boom! boom! boom.....

At this time, in the deepest part of the tomb palace, violent roars suddenly sounded.

That kind of roaring sound was very terrifying.

It feels like a very terrifying ancient evil beast is about to reawaken from its ancient slumber.

At this moment, Ye Feng didn't hesitate at all and instantly released the Great Ice-Sealing Technique!

Because Ye Feng knew very well that the vibrations deep in the tomb palace must be that the owner of the tomb was about to revive, and it was most likely a very terrifying dragon evil spirit.

So Ye Feng must hurry up and deal with these steel puppets in front of him.

"Great ice sealing technique!"

Wow!

Almost at this moment, Ye Feng released the Great Ice-Sealing Technique, and a very cold breath suddenly came out of Ye Feng's body.

At this moment, the frozen energy released by Ye Feng was extremely terrifying.

After all, the Great Ice-Sealing Technique ranks thirty-fifth among the three thousand avenues in the universe!

Therefore, the cold air released by Ye Feng using the Great Ice Sealing Technique at this moment is not ordinary cold air.

But the cold air of the avenue!

"Click, click..."

Almost at this moment, the icy aura released by Ye Feng froze all the dozens of steel puppets around him.

The next moment, dozens of steel puppets were all frozen in place, unable to move at all.

At this time, Ye Feng temporarily put these frozen steel puppets into his storage ring. When everything is resolved, he will study how to control these steel puppets.

"Boom!"

At this moment, Ye Feng had just put dozens of steel puppets into the storage ring.

In the palace deep in the tomb, suddenly a huge and majestic green dragon claw stretched out, filled with a strong aura of death, like the claws of the god of death, trying to tear Ye Feng apart instantly. broken.

The aura of death that hit his face was so strong that Ye Feng felt a deep fear at that moment.

"Gem of Brute Strength!"

"boom!"

At this moment, Ye Feng didn't hesitate at all, and directly integrated the brute force gem into his fist, and then punched it out hard.

"Boom!!"

At this moment, Ye Feng's fist, which was fused with the brute force gem, instantly burst out with a huge impact, directly colliding with the dragon claw grabbed from the depths of the palace, and immediately erupted with an earth-shattering roar.

This roar was so huge that the entire surrounding tomb palace collapsed and turned into a large area of ruins.

Uh-huh!

At this moment, Ye Feng jumped out from under the tomb without any hesitation and flew into the air.

At this time, Ye Feng suddenly saw a huge dragon skeleton crawling out from the ruins of the collapsed tomb.

This dragon skeleton is extremely majestic and huge. It is tens of thousands of meters long. It looks full of majestic and shocking feeling.

But this powerful dragon man was obviously completely dead, leaving only a skeleton, but it was full of incomparable strength.

Even Ye Feng's fist that was fused with the brute force gem just now was unable to break the dragon claws of this powerful dragon clan man.

There was some fear in Ye Feng's eyes.

But at this time, Ye Feng suddenly saw that in the body of this dragon skeleton, there was a round bead emitting golden light, exuding strong dragon energy fluctuations.

"Those are Dragon Balls!"

Ye Feng was immediately overjoyed. Sure enough, the dragon ball in the tomb owner's body had not completely dissipated.

At this moment, Ye Feng could feel that this dragon ball contained a very majestic energy. .??.

That kind of energy is like a vast ocean, surging and surging, and it feels very scary.

But at this time, Ye Feng was staring at the dragon ball that exuded bright golden light, with deep excitement in his eyes.

Because Ye Feng can sense that if he can swallow this dragon ball of the ancient dragon clan powerhouse, then his skill will definitely be greatly improved in an instant.

At this moment, Ye Feng took a deep breath. He must deal with this dragon evil spirit today.

At this time, Ye Feng directly released the power of the space gem.

Buzz!

Ye Feng stretched out a hand, and the power of the space gem emitted, directly forming a heaven and earth space sealing prison around the entire area.

Now Ye Feng has explored other abilities of the space gem. For example, the space prison of heaven and earth released by Ye Feng at this moment is a brand new energy dug out of the space gem.

"boom!!"

But at this time, the dragon skeleton seemed to have no intention of escaping, but rushed towards Ye Feng.

\u003c

br\u003e It's scary to think about it. At this moment, a majestic dragon skeleton tens of thousands of meters away collides with it. It can definitely shatter everything around it in an instant.

At this moment, Ye Feng didn't hesitate at all. He took a deep breath and unleashed all his strength.

"Six Paths of Reincarnation Fist!"

At this moment, Ye Feng fused the brute force gem and the space gem in his fist, and then directly bombarded it with the secret of the Six Paths Reincarnation Fist.

Boom!

The next moment, an extremely bright divine light burst out from Ye Feng's fist.

This piece of divine light contains the secret of six reincarnations, the infinite brute force of the brute force gem, and the terrifying space cutting power of this space gem.

"Boom!"

Ye Feng's punch hit the dragon skeleton in front of him almost immediately.

This is Ye Feng's most powerful attack and the most powerful fist. It is full of extremely terrifying destructive power. After all, it combines two domination gems at once.

So at this moment, when Ye Feng's fist touched the dragon bones, a terrifying and boundless destructive power shattered the huge dragon bones into pieces in an instant.

"Click, click..."

As the huge dragon bones shattered, the golden dragon ball finally fell down.

Uh-huh!

Ye Feng stepped forward at this moment, stretched out his hand, and immediately grabbed the golden dragon ball in his hand.

Sensing the majestic dragon energy contained in the dragon ball, Ye Feng's face suddenly showed a smile of joy, "I finally got the first dragon ball!"

Chapter 2866 The mysterious old man

Buzz!

At this time, Ye Feng murmured, no longer hesitating, and directly released the devouring power.

"Buzz!"

In an instant, a pitch-black devouring realm rushed out from Ye Feng's body, covering all twenty-one dragon balls in front of him.

next moment.

"Crash!"

Huge streams of dragon energy were directly absorbed by Ye Feng's Devouring Domain, and then all injected into Ye Feng's own body.

Ye Feng's skill suddenly began to increase rapidly at this moment.

You know, these are twenty-one dragon balls, swallowed together!

So at this time, the energy injected into Ye Feng's body was simply majestic to the extreme.

The power in Ye Feng's dantian was like being injected into a vast ocean instantly at this moment.

It started to skyrocket in an instant!

Even that kind of vast ocean-like energy began to surge continuously in Ye Feng's limbs and bones.

At this moment, Ye Feng felt that his whole body was beginning to swell.

It was as if countless amounts of energy were forcibly injected into his body.

It feels very swollen, as if the whole body is about to explode.

If it were an ordinary warrior, after so much energy was injected into his body at once, his entire body would definitely explode in an instant, and he would simply not be able to withstand such terrifying energy.

But Ye Feng's body is a chaotic body, and its strength is extremely high.

So at this time, Ye Feng quickly digested so much Long Yuan energy.

His skill finally experienced a huge surge after receiving the dragon energy of twenty-one dragon balls.

His cultivation aura began to rise steadily.

boom!

Fifth level of Yushen Realm

sky!

boom!

The sixth level of Yushen Realm!

boom!

The seventh heaven of Yushen Realm!

boom!

The eighth level of the Yushen Realm!

boom!

Ninth level of the God of Education realm!

Finally, at this moment, Ye Feng's cultivation aura stopped.

At this moment, Ye Feng's whole body was exuding bright light, and he looked like a young god. The aura of his cultivation was extremely powerful, spreading in all directions.

It feels like a young real dragon that has finally matured, grown up, and is full of infinite power.

boom!

At this moment, the aura of cultivation that Ye Feng invisibly exuded spread to the surroundings, instantly shattering the surrounding ground.

You know, this is a place where dragons are buried, and the soil on the ground is special and very solid.

Ordinary swords, guns, swords and halberds are invulnerable.

But at this moment, Ye Feng's momentum shattered.

It is enough to show how terrifying and powerful Ye Feng is at this moment when his cultivation has broken through to the ninth level of Heavenly Empress of the God of Education.

At this time, Ye Feng's eyes were filled with excitement.

Sure enough, the dragon energy contained in the twenty-one dragon balls was simply terrifying and huge to the extreme.

Even if Ye Feng's bottomless pit-like body swallowed the energy from twenty-one dragon balls at this moment, he had broken through so much at once.

Even Ye Feng himself was a little shocked.

At this time, Ye Feng felt that with his current cultivation level, he should be able to compete with the protector of the Little Dragon Emperor.

Confronted.

After all, his current breakthrough in cultivation is really huge, and his combat power has increased many times.

Ye Feng felt that if he stood in front of himself before his cultivation breakthrough, he would be able to kill him with one fist.

This shows that Ye Feng is now confident in his own strength.

However, Ye Feng's self-confidence is not arrogance. Ye Feng has broken through so many worlds at this time, and his combat power has naturally been increased a hundred times.

At this time, after Ye Feng stabilized his cultivation level, he was ready to leave this dragon burial place and go outside the dragon burial place.

He was ready to fight to the death with the middle-aged man wearing steel armor. ??

Buzz!

However, just when Ye Feng stood up and was about to leave here, suddenly a mysterious energy rushed towards Ye Feng from the depths of darkness surrounding this area.

That mysterious energy came too quickly.

It was so fast that even Ye Feng didn't react.

He was directly absorbed into a mysterious space by this mysterious energy.

Ye Feng's figure suddenly disappeared on the spot.

When Ye Feng opened his eyes, he immediately saw that he was in a very closed basement at this moment.

Although the basement was very large and empty, Ye Feng felt a deep sense of depression.

I just feel a little breathless inside.

It was as if I was sealed in this basement and could no longer leave.

Ye Feng looked at the entire empty basement at this time, and suddenly said: "I wonder which senior absorbed me into this space? It seems that the junior has not offended the senior, right?"

Ye Feng knew that there must be a very powerful taboo deep in this dragon burial place.

But I didn't expect that I would be so unlucky and encounter it directly.

At this time, Ye Feng looked at the empty basement around him, wondering what kind of existence the other party was and what his purpose was.

Of course, if the other party really had murderous intentions, then Ye Feng knew that he would be dead by now.

Since the other party absorbed him into this basement, there must be other things going on.

So at this time, Ye Feng was not too afraid, but said in a neither humble nor condescending voice: "Senior, if you need help from this junior for anything, then just show up and see me. As long as junior can help, That will definitely help seniors."

Buzz!

Sure enough, the moment Ye Feng finished speaking, a very mysterious spatial fluctuation suddenly appeared in the middle area not far away from the entire basement.

Along with this mysterious spatial fluctuation, a figure composed entirely of light and shadow appeared in Ye Feng's field of vision.

This ray of light is the image of an old man. He does not look majestic, but gives people a very kind feeling.

But the eyes of this old man made of light are extremely profound, giving people a sense of unfathomable vicissitudes.

Buzz!

Ye Feng was exuding soul power at this moment and could not sense the other party's depth.

At this moment, Ye Feng immediately clasped his fists and said loudly: "Junior Ye Feng is a super genius of the human race. I have met my senior. I don't know that my senior has absorbed me into this space. Do you have anything to tell me?"

Hearing what Ye Feng said, the radiant old man immediately smiled and said: "You are very smart. You guessed right away that I brought you here because I have something to ask you for."

Chapter 2867 Give you a great blessing

The old man, whose whole body was made of light, spoke out at this moment: "Young man, you don't have to be afraid of me. I won't kill you, because I do have something very important and I need your help."

Hearing what the old man said, Ye Feng suddenly showed a trace of surprise in his eyes, and then asked: "I wonder what the senior's identity is?"

Hearing Ye Feng's question, the radiant old man smiled slightly and said, "I am the guardian of this place where dragons are buried."

"Guardian of the Dragon Burial Land?"

When Ye Feng heard this, he immediately showed a very embarrassed look on his face.

Unexpectedly, this old man turned out to be the guardian of the entire Dragon Burial Land.

You know, Ye Feng just swept away and swallowed all the dragon beads in the Dragon Burial Land.

At this moment, it seemed that he could see Ye Feng's embarrassment. The mysterious old man smiled slightly and said with an extremely calm expression: "I know everything you did, so you don't have to be embarrassed. Those dragon beads are nothing." If you use it and keep it buried in the ground, it would be better to become a source of nourishment for your cultivation, young man, and help you."

Hearing what the guardian said, Ye Feng was a little surprised and said: "Senior is so generous to this junior. It seems that the matter that senior wants me to help must be very dangerous."

The old guardian of the Dragon Burial Land shook his head, then nodded again, and said loudly: "The thing I want you to help me with is not dangerous at all, but it's not that safe either."

Ye Feng nodded immediately and said loudly: "Since senior is so generous, if senior has anything to do, as long as I can help, I will definitely be able to help. Senior just tell me what you need me to do."

"Okay, young man, you are a fast talker, so I won't talk nonsense."

The old guardian nodded, and then said aloud: "Due to some special restrictions, I cannot leave this place where dragons are buried, so I cannot complete this matter, but you can, young man."

After saying this, the guardian stretched out a hand and pointed it in Ye Feng's direction.

Buzz!

Suddenly, a piece of golden light appeared in front of Ye Feng, forming a mysterious token.

On this token, a very special and complex pattern is carved, and it is unclear what it is.

The old guardian spoke out at this time: "You take this token. This is the token that I specially condensed with my own power of origin. You take this token and go to the world of origin. When the time comes, you go to a place called Saint In the Land of the Dragon, give this token to the owner of the Land of the Holy Dragon. This will be considered as completing the mission I asked of you."

"The Great World of Origin?"

"The Land of the Holy Dragon?"

When Ye Feng heard what the old guardian said, the corners of his eyes twitched slightly.

Origin of the big world.

That is the vast world above the God Realm.

It is the most glorious world outside the territory.

I am going to the world of origin, but I don't know that it will be in the Year of the Monkey and the Horse.

At this time, Ye Feng could only answer honestly: "Senior, I am only a small figure in the God Realm now, let alone going to the Great World of Origin. Senior asked me to complete this task. I am afraid it will take a long time." For a long time, even I may not be able to complete it. Maybe I will die in the chaotic war in the God Realm before I reach the origin world."

"Hahaha."

Hearing what Ye Feng said, the old guardian just laughed and said: "Even the World Matrix of the God Realm is protecting you invisibly. You must be able to go to the Origin World. This task of mine does not require time, as long as Just remember to send the token over."

When Ye Feng heard what the guardian said, he immediately nodded and said, "Okay, I can only say that I did my best."

At this moment, Ye Feng had a look of surprise in his eyes regarding the world matrix that the guardian said was protecting him invisibly.

It seems that this old guardian of the dragon burial place is really not simple. He can actually see that my father is protecting me with the world matrix.

At this time, Ye Feng asked aloud: "By the way, senior, senior is extremely powerful. Can you help me deal with a hateful middle-aged man outside the Dragon Burial Land?"

When the old guardian heard what Ye Feng said, he just smiled slightly and said: "As I said just now, all my power is limited to the Dragon Burial Land and I cannot go out. Therefore, that It's up to you, young man, to deal with it."

Ye Feng nodded slightly and said, "Okay."

At this time, the guardian of the elderly said: "But it is fate that the two of us meet. I don't know when we will meet next time. I will give you a great blessing."

Uh-huh!

After saying that, the old guardian stretched out a finger and touched Ye Feng's forehead.

boom!

Almost at this moment, Ye Feng immediately felt as if his head was going to explode.

A huge and boundless spiritual imprint entered Ye

In Feng's mind.

It turned out to be a chapter that exuded bright golden light!

This seems to be a very strong legacy.

"This is the inheritance of the ancient dragon!"

Emperor Chu couldn't help but say in Ye Feng's mind at this time: "Ye Feng, this old man is definitely a super big man in the ancient Shenlong clan. He is most likely the leader of the Shenlong clan and the Emperor of the Shenlong!"

At this moment, Ye Feng did not reply.

Because he was watching the profound meaning of this golden chapter that was imprinted in his mind.

"The power of the ancient dragon god!"

Ye Feng looked at the inheritance chapter in his mind with surprise and shock in his eyes.

What is recorded in this inheritance chapter is not a technique or martial arts.

It is a summoning technique of special power.

This power is called "the power of the ancient dragon god".

Once the secret is activated, Ye Feng can summon the "power of the ancient dragon god" from the distant supreme dragon god interface, which can give the enemy a fatal blow.

However, according to the inheritance chapter records in my mind, it is possible to summon this special and incomparable power of the ancient dragon god.

Not every call can be successful.

Ye Feng was about to ask some questions about summoning the power of this ancient dragon god.

But at this time, the mysterious guardian elder in the basement has disappeared.

Buzz!

At this moment, Ye Feng suddenly felt a fluctuation in the space around him.

He closed and opened his eyes and found that he had left the basement and appeared outside.

At this time, Ye Feng clasped his fists in the darkness of the place where dragons were buried, and said loudly: "Thank you, senior, for giving me the method of summoning the power of the ancient dragon god to this junior. As long as I have the ability, I will definitely use the command of my senior." The card was sent to the Land of the Holy Dragon in the Great World of Origin."

After saying that, Ye Feng turned around and left here, regardless of whether the guardian heard it or not.

At this moment, Ye Feng's eyes became extremely cold.

Because next, he will face a battle that may be very tragic.

Uh-huh!

When Ye Feng reached the edge of the Dragon Burial Land.

He saw it at first sight.

At the entrance to the Dragon Burial Land, on a hillside, a middle-aged man wearing cold steel armor was standing there, like a steel demon, his whole body full of energy.

Full of mighty cultivation momentum.

"Baby, you finally couldn't help but come out."

The middle-aged man in steel armor stared at Ye Feng who was walking from the Dragon Burial Land for a moment. He smiled coldly and said, "I thought you could last for half a month in this weird area, but you can't. I didn't expect you to come out in just a few days. It seems that I still think highly of you. "

Ye Feng looked at the middle-aged man in steel armor standing on the hillside not far away. He just smiled indifferently and said, "I came out just to kill you."

"Hahaha!"

When the middle-aged man in steel armor heard what Ye Feng said, he immediately burst into laughter, his eyes full of sarcasm, and said loudly: "How dare you, a boy with such a low cultivation level, say such arrogant words? Are you really Do you think I am easy to fool? I can feel that the cultivation aura on your body is indeed much stronger than before you went in a few days ago, but compared with me, it is still a world of difference, boy, I It will teach you what despair is."

boom!

The moment the middle-aged man in steel armor finished speaking, he was afraid that Ye Feng would continue to run away.

Without any hesitation, he charged directly towards Ye Feng.

The aura that erupted from the man was as majestic as breaking the heavens and the earth.

Every time he took a step, the ground beneath his feet was shattered and collapsed, making people feel very terrifying, filled with a deep sense of suffocation, and extremely ferocious.

At this time, Ye Feng took a deep breath and did not retreat. Instead, he frantically used the powerful cultivation level he had just broken through.

Wow!

At this moment, huge mana and the blood of the Chaos Body surged through Ye Feng's body, providing endless power to Ye Feng's limbs.

"kill!"

At this moment, Ye Feng roared loudly, and his whole body erupted with divine light. His eyes were bright, like a young god of war. He held the Dark Nine Dragon Cauldron in his left hand and the Dragon Sword in his right hand, charging towards the steel armor that was rushing forward. The young man attacked fiercely and left.

"Nine Heavens Great Devil's Palm!"

The middle-aged man in steel armor shouted loudly, and blasted out a hand, bursting out with tremendous power. His palm suddenly expanded rapidly, becoming a huge palm that covered the sky and the sun, full of terrifying impact and force. Destructive power.

Boom! !

When the two collided, a terrifying and boundless concussion force erupted in an instant, shaking and collapsing all the surrounding land.

The figures of the two people were all submerged in countless divine lights and dust at this moment!

Chapter 2868 Terrifying Silver Lightning

Boom!

At this moment, the attacks from Ye Feng and the man in steel armor were simply terrifying to the extreme.

The terrifying aftermath of their collision destroyed the entire surrounding land.

Even the place where the dragon was buried not far away had suffered considerable damage.

Ye Feng immediately backed away at this time, with a look of surprise in his eyes.

He discovered that the cultivation strength of this man in steel armor was extremely powerful.

Even if he has now broken through to the ninth level of the Yushen Realm, he is still neck and neck with this man in steel armor and cannot be directly crushed.

This shows that this man in steel armor is definitely not an ordinary powerful man in the Immortal Ascension Realm, and his inheritance is also very powerful.

However, considering that this person came from the Holy Land of the Dragon King, and was also the protector of the Little Dragon King of the Holy Land of the Dragon King, it was natural that he was so powerful.

"This man is a formidable enemy."

However, Ye Feng didn't feel anything inappropriate about this.

After all, he was hunted down miserably by this steel-armored man before, and even fled into the Dragon Burial Land to avoid the murderous intention.

Now Ye Feng's cultivation level, in just a few days, has improved to the level that he can confront this man in steel armor, which makes Ye Feng very satisfied.

"Um?"

At this time, the man in steel armor stared at Ye Feng opposite him, with a look of surprise in his eyes, and couldn't help but said: "How come your boy's current cultivation level has improved so high? And his combat power is also stronger than before. Many times, how did you do it in just a few days? "

It has to be said that Ye Feng's combat power at this moment has increased to such an extent that the steel armored man was deeply shocked as soon as he made a move.

Because Ye Feng had been in front of him before

He is just a very weak young man who can be easily crushed to death.

But in just a few days, Ye Feng came out of the Dragon Burial Land again and suddenly became so powerful that he could even fight against him without losing.

This terrifying improvement naturally made the man in steel armor feel deeply shocked.

Because even in the Dragon King Holy Land, it is impossible for a genius like Ye Feng to exist.

Ye Feng's potential is so terrifying that it can be described as incredible.

"Boy, you have to die."

The middle-aged man in steel armor turned completely gloomy at this time, and the murderous intent in his eyes became more and more intense.

Buzz!

His body immediately released an earth-shattering terrifying aura, filled with endless coldness, making the entire surrounding world seem to freeze.

Uh-huh!

He instantly rushed towards Ye Feng, and a strange weapon appeared in his hand.

This weapon was composed of a total of eighteen steel rings. At this moment, it flew out from the hands of the man in steel armor. The eighteen steel rings dispersed instantly and hit Ye Feng directly, as fast as lightning.

Ye Feng immediately felt a deep palpitation in his heart at this moment.

These eighteen steel rings gave Ye Feng a very scary feeling. They were definitely a very powerful special magic weapon.

boom!

At this moment, Ye Feng punched forward hard and collided with a steel ring.

"

Click! "

Ye Feng immediately felt that his fist was about to break, and he was in great pain from the impact.

This was the first time that Ye Feng used his Chaos Body to resist the opponent's magic weapon.

"What a powerful magic weapon."

Ye Feng did not hesitate at this moment. In an instant, he released the dozens of steel puppets he had refined before from the storage ring, and then controlled the dozens of steel puppets, and those The steel rings collided together.

Rumble...

The steel puppet was still very strong, and it knew no pain. When it collided with those steel rings, a terrifying roar suddenly erupted, successfully blocking the bombardment of these steel rings.

After seeing this scene, the middle-aged man in steel armor suddenly showed deep surprise in his eyes, and couldn't help but said: "I didn't expect that you, the boy, could control these powerful puppets. Could it be that you, the boy, are still... A puppeteer?"

At this moment, as he fought with Ye Feng, the man in steel armor became more and more frightened by Ye Feng.

Because Ye Feng's trump cards and methods are simply endless, each one more magical and powerful than the last.

Even a powerful protector from the Dragon King's Holy Land like the man in steel armor was unable to suppress Ye Feng for a while.

At this moment, the man in steel armor suddenly understood that there was no point in using ordinary means to completely defeat and kill Ye Feng.

At this moment, the steel armored man suddenly closed his eyes, and then his eyebrows suddenly cracked, and a silver lightning mark appeared on the steel armored man's eyebrows.

Then "boom"!

The silver lightning mark between the eyebrows of this man in steel armor suddenly erupted with a terrifying and boundless lightning power.

Boom! !

Silver lightning flashed out, vibrating in the void, and the entire sky seemed to be shaking at this moment.

Even the stars in the nine heavens were about to fall due to the impact of this lightning mark.

The entire vast land was shattered into pieces.

Countless scenes of destruction appeared around this silver lightning.

The silver lightning released by the middle-aged man in steel armor at this moment is probably his most powerful method.

That silver lightning seemed to be able to open up the world and shatter the world. It was full of unparalleled destructive power and destructive power, and would directly turn the entire world upside down.

The steel puppets and steel rings that were stalemate with each other in front of them were silently turned into countless pieces under the power of this silver lightning.

At this moment, Ye Feng felt as if his entire body was about to disintegrate.

"What on earth is this silver lightning? Why is it so terrifying! It feels more terrifying than the three thousand great arts of the heavens!"

At this moment, Ye Feng felt a deep shadow of death in his heart.

Because at this moment, he felt that no matter what powerful means and Taoist techniques he used, or what kind of armor he wore, he could not withstand the attack and destruction of this silver lightning.

Emperor Chu couldn't help but exclaimed at this time: "Is this the original lightning of the legendary God of Lightning! Only the original lightning of the ancient God of Lightning has such terrifying power and destructive power!"

Chapter 2869 Deep Shock

Buzz!

This silver lightning released by the man in steel armor seems to be the original lightning of the legendary ancient god of electricity, full of unparalleled terrifying destructive power.

At this moment, Ye Feng felt a shadow of death.

At this moment, Ye Feng felt that his entire body had become very cold.

Because at this moment, he felt that no matter what method he used, he could not resist this silver lightning that seemed to be able to open up the world!

"Anti-injury stab armor!"

At this moment, Ye Feng finally put on the anti-injury spike armor.

When the power of the silver lightning struck Ye Feng, even if it hurt the spiked armor, a whine-like sound was emitted for an instant.

But in the end, the anti-injury spiked armor did not break apart, allowing Ye Feng to withstand most of the power of the silver lightning.

But at this moment, Ye Feng still felt part of the electric shock of the silver lightning, which penetrated the anti-injury spike armor and was transmitted to his body.

"ah!"

At this moment, Ye Feng suddenly felt a very terrifying pain, which was stimulating every nerve in his body crazily, making Ye Feng's face suddenly look painful and ferocious.

At this time, Ye Feng immediately released the Great Thunder Technique, hoping that this Three Thousand Avenue Technique, which is the same source of thunder and lightning as the silver lightning, can resist this silver lightning.

But when Ye Feng released the Big Thunder Technique, he found that the power of thunder in his body was absorbed by the silver lightning in an instant.

The thunder released by the Great Thunder Technique was not only unable to withstand the attack of silver lightning, but instead made the power of silver lightning more and more powerful.

Ye Feng's eyes widened slightly at this time, as if he didn't expect this silver lightning to be so terrifying.

There is nothing that I can do about this silver lightning!

At this moment, the man in steel armor not far away turned a little pale, and it seemed that releasing this silver lightning consumed a huge amount of his power. \u003c

br\u003e

But when this middle-aged man in steel armor saw that Ye Feng was about to die after being electrocuted by silver lightning, he suddenly showed a deep cold look in his eyes and said proudly: "Boy, don't Thinking that you can resist my silver lightning, it is impossible for you to resist. My silver lightning was obtained by my ancestors from the inheritance place of the ancient lightning god. It took hundreds of years. , and then refined it into the center of my eyebrows. Once I release this silver lightning, my skill and cultivation will fall back a lot in an instant, because the cost of activating this silver lightning is too high, but even so , as long as I can kill this kid like you with silver lightning, then everything will be worth it."

I have to say that this guardian from the Dragon King Holy Land is still very ruthless and decisive.

Even if he struggles to regress in cultivation and exhaust his skills, he must activate this terrifying and boundless silver lightning to completely destroy Ye Feng, this peerless evildoer.

Ye Feng immediately understood that ordinary methods, even many of his trump cards, were unable to fight against this silver lightning.

After all, this is the original lightning of the ancient lightning god. It is very terrifying and terrible, and can destroy everything.

At this moment, Ye Feng felt that his entire vitality was quickly disappearing.

This made Ye Feng feel anxious in his heart. If this continued, it would not work. He would definitely die.

We must find a power that can confront this silver lightning in order to break the current predicament.

At this moment, Ye Feng immediately thought of something. Suddenly his eyes lit up and he couldn't help but said: "Emperor Chu, do you think the old guardian at the deepest place of the

Dragon Burial Land said that he had given me the summoning of the ancient dragon god?" Can the means of strength resist this silver lightning? "

When Emperor Chu heard what Ye Feng said, he immediately said aloud in his mind: "The power of the ancient dragon god comes from the supreme interface.

'Dragon God Interface', the Ancient Dragon God and the Ancient Lightning God are both gods from the ancient times. They should be able to fight each other. You can give it a try. Anyway, there is no other way now. If it really doesn't work, I can only resurrect you with a drop of Ye Feng's blood after your death. Of course, there is no other way. If you can resist this silver lightning, it is naturally the best. "

Obviously, Emperor Chu was not worried that Ye Feng would completely fall.

Because with Ye Feng's current strong vitality, as long as Emperor Chu can protect a drop of Ye Feng's blood with the soul gem, he can resurrect Ye Feng.

However, Ye Feng didn't want to be resurrected in such a frustrating way, so at this time, Ye Feng gritted his teeth and prepared to give it a try.

Buzz!

At this moment, Ye Feng immediately inspired the secret of summoning the power of the ancient dragon god in his mind.

However, Ye Feng's first exposure to the secret of this summoning did not elicit any feedback.

Because the summoning of the ancient dragon god's power is probabilistic, it may not succeed every time.

Time was running out, so Ye Feng hurriedly made the second touch.

But touching the secret of summoning the ancient dragon god for the second time still didn't bring about any changes.

This made Ye Feng feel a little anxious.

Because he could feel that his vitality had dropped to fifty percent.

If he continues to delay, he may actually be resurrected with only a drop of blood left, as Emperor Chu said.

"Buzz!"

At this moment, Ye Feng hurriedly continued to touch the secret for the third time.

But still no response.

But Ye Feng was unwilling to continue with the next touch.

the fourth time!

the fifth time!

the sixth time!

...

The nineteenth time!

Finally, at the nineteenth touch, Ye Feng suddenly felt that his soul was connected to

Connected to a great and supreme ancient interface.

In this great and supreme ancient world, there exist countless dragon gods, filled with a huge and terrifying aura.

And almost at this moment, Ye Feng successfully summoned the power of the ancient dragon god, and the entire dark sky suddenly turned into a golden patch.

A terrifying golden power descended from the distant interface of the ancient dragon god, and was led by Ye Feng to the area where he was at this moment.

"what is that?!"

Almost at that moment, the middle-aged man in steel armor felt a suffocating energy fluctuation.

He suddenly looked up at the sky and found that the entire dark sky had turned into a golden patch. He was shocked by this terrifying scene of heaven and earth.

And the next moment, the middle-aged man in steel armor didn't even react.

I saw Ye Feng raising one hand not far away and yelling: "The power of the ancient dragon god!"

Boom! !

Above the bright and boundless sky, the infinite golden power suddenly condensed together at this moment and turned into a vast pure golden light beam. In an instant, it bombarded down from the boundless high altitude and hit the steel armor. On a middle-aged man!

"ah!"

Suddenly, an earth-shattering scream rang out all of a sudden.

The entire body of the middle-aged man in steel armor was completely disintegrated immediately. Even the silver lightning guarding the middle-aged man's entire body was unable to withstand the vast golden beam of light falling from the sky at this moment.

The silver lightning released by the middle-aged man in steel armor, without the control of the middle-aged man as its master, just stopped in front of Ye Feng, suspended in mid-air without any movement.

"Finally done!"

Ye Feng breathed a long sigh of relief at this moment.

The vast scene that summoned the power of the ancient dragon god just now also made Ye Feng feel deeply shocked.

Chapter 2870 Collecting Silver Lightning

After all, even Ye Feng himself did not expect that the power of the ancient dragon god that he had channeled from the supreme interface, the ancient dragon god interface, was still very terrifying.

Thinking of the golden energy that filled the sky just now, and the terrifying scene, Ye Feng himself felt deeply shocked.

However, Ye Feng felt that his mental power was a little exhausted at this time, and his soul power was consumed a lot.

It's almost gone.

You know, Ye Feng's soul power strength is a full 430,000 levels.

But even with such a huge soul power, it was immediately consumed the moment Ye Feng successfully touched the secret and connected to the Dragon God interface.

It may take a long time to recover.

This shocked Ye Feng's heart.

The Ancient Dragon God interface is probably a super scary interface. ??

At this time, no matter what, Ye Feng successfully summoned the power of the ancient dragon god and successfully killed the huge scourge of the middle-aged man in steel armor, which was very good.

However, what makes Ye Feng slightly helpless is that if he wants to summon the power of the ancient dragon god and touches the secret of summoning, he may not be able to succeed in one go. There is a probability.

In other words, if Ye Feng is lucky, if he touches the secret of summoning once, he will be able to attract the terrifying power of the ancient dragon god and kill the enemy in an instant.

But if Ye Feng is unlucky, he may touch it a dozen or hundreds of times, but still be unable to attract the power of the ancient dragon god.

Uh-huh!

At this time, Ye Feng flew forward in an instant, and then released the Devouring Domain, first devouring the remaining blood energy of the middle-aged man in steel armor.

boom!

Ye Feng's cultivation aura suddenly exploded.

A breakthrough was achieved on the spot.

Entering the tenth heavenly perfection level of the God-Yu Realm!

"It's a pity that the power of the ancient dragon god is so terrifying. It disintegrated a large part of this middle-aged man in steel armor and destroyed a lot of blood energy. It only allowed me to break through the first heaven. Otherwise, I might be able to break through the second heaven. , or the third heaven."

At this time, Ye Feng couldn't help but murmur.

At this moment, Emperor Chu suddenly spoke in his mind: "Ye Feng, these are all small things. What is really important and precious is the silver lightning released by the middle-aged man in steel armor!"

"yes."

Ye Feng couldn't help but his eyes lit up immediately, and he immediately flew in a certain direction not far away.

You know, that silver lightning is the original lightning of the ancient lightning god.

Maybe there is only one like this in the whole world now.

There is only one silver lightning.

So at this time, Ye Feng knew very well that if he could refine this silver lightning, it would be his biggest gain from coming to this ancient underground ruins this time.

After all, this silver lightning can compete with the art of the heavens.

Even if Ye Feng had used the Great Thunder Technique before, he could not resist this silver lightning.

Because, the Great Thunder Technique was originally born out of the ancient God of Lightning.

Therefore, this silver lightning was simply terrifying to the extreme.

If used properly, this silver lightning will become one of Ye Feng's next most powerful trump cards.

\u003e

At this time, Ye Feng came to the front of the silver lightning.

At this moment, this silver lightning was floating quietly in front of Ye Feng's eyes.

There seemed to be no energy at all.

But Ye Feng had just witnessed with his own eyes how devastating this silver lightning would be once it burst out with its true power.

At this time, Ye Feng asked in his mind: "Emperor Chu, how should I refine this silver lightning?"

Ye Feng didn't dare to touch the silver lightning in front of him casually now.

Because Ye Feng is very aware of the destructive power of this silver lightning. Ye Feng was almost electrocuted by this silver lightning before.

At this time, Emperor Chu thought for a while and said aloud in his mind: "It may take a very long time to refine this silver lightning. This kind of original lightning from the ancient lightning god is not so easy to refine. Yes, even if you are a chaotic body, Ye Feng, I'm afraid it will be difficult to control you."

When Ye Feng heard this, he immediately nodded and said: "I also know this. It is said that the middle-aged man in steel armor was refined by his ancestors for hundreds of years before he finally refined it into his eyebrows. , so that the middle-aged man can use it casually."

At this time, Emperor Chu thought for a moment and said, "For now, use a container to contain this silver lightning. You can carry it with you at any time and slowly refine it."

"good."

Ye Feng nodded immediately, took out the Dark Nine Dragon Cauldron, and put the silver lightning in it.

"Click..."

But just when Ye Feng put the silver lightning into the Dark Nine Dragon Cauldron, cracks suddenly appeared on the surface of the entire cauldron, and it shattered instantly.

"Depend on!"

When Ye Feng saw this scene, he was immediately dumbfounded.

The Dark Nine Dragon Cauldron couldn't even hold on to the silver lightning for a few minutes, and it shattered.

At this time, Ye Feng suddenly asked: "Emperor Chu, what are you using to install it? It can't even be installed as a war weapon like the Dark Nine Dragon Cauldron, and it's broken. Damn it."

Emperor Chu thought for a moment and said, "Ye Feng, didn't you get a Thunder Ancestral Talisman before?"

Ye Feng nodded: "Yeah, what's wrong?"

Emperor Chu said: "You can use the Thunder Ancestral Talisman to temporarily contain this silver lightning. Then you can slowly refine the silver lightning."

Hearing this, Ye Feng suddenly showed a trace of surprise in his eyes and said: "Can the Thunder Ancestral Talisman hold this silver lightning? You know, I don't have many magic weapons in my hand. If one more one breaks, it will be terrible." It's such a loss."

Emperor Chu smiled and said: "Don't worry, the Dark Nine Dragon Cauldron is just refined by a strong man from the dark race. It is not a particularly good treasure. It is normal that it cannot withstand the power of silver lightning, but your Thunder Ancestor The talisman is a very precious origin talisman, and it can carry the energy of silver lightning without any problem. "

Hearing Emperor Chu's assurance, Ye Feng said, "Okay, then I'll give it a try."

After saying that, Ye Feng immediately turned his palm over, and a talisman exuding ancient aura appeared in his palm.

This talisman, with the light of thunder and lightning flashing on the surface, looks extremely violent. It is the thunder ancestral talisman that Ye Feng obtained many years ago.

At this moment, Ye Feng took a deep breath, sacrificed the Thunder Ancestral Talisman, and began to collect the silver lightning suspended in mid-air! After all, even Ye Feng himself did not expect that the power of the ancient dragon god that he had channeled from the supreme interface, the ancient dragon god interface, was still very terrifying.

Thinking of the golden energy that filled the sky just now, and the terrifying scene, Ye Feng himself felt deeply shocked.

However, Ye Feng felt that his mental power was a little exhausted at this time, and his soul power was consumed a lot.

It's almost gone.

You know, Ye Feng's soul power strength is a full 430,000 levels.

But even with such a huge soul power, it was immediately consumed the moment Ye Feng successfully touched the secret and connected to the Dragon God interface.

It may take a long time to recover. .??.

This shocked Ye Feng's heart.

The Ancient Dragon God interface is probably a super scary interface.

At this time, no matter what, Ye Feng successfully summoned the power of the ancient dragon god and successfully killed the huge scourge of the middle-aged man in steel armor, which was very good.

However, what makes Ye Feng slightly helpless is that if he wants to summon the power of the ancient dragon god and touches the secret of summoning, he may not be able to succeed in one go. There is a probability.

In other words, if Ye Feng is lucky, if he touches the secret of summoning once, he will be able to attract the terrifying power of the ancient dragon god and kill the enemy in an instant.

But if Ye Feng is unlucky, he may touch it a dozen or hundreds of times, but still be unable to attract the power of the ancient dragon god.

Uh-huh!

At this time, Ye Feng flew forward in an instant, and then released the Devouring Domain, first devouring the remaining blood energy of the middle-aged man in steel armor.

boom!

Ye Feng's cultivation aura suddenly exploded.

A breakthrough was achieved on the spot.

Entering the tenth heavenly perfection level of the Yushen Realm!

"It's a pity that the power of the ancient dragon god is so terrifying. It disintegrated a large part of this middle-aged man in steel armor and destroyed a lot of blood energy. It only allowed me to break through the first heaven. Otherwise, I might be able to break through the second heaven. , or the third heaven."

At this time, Ye Feng couldn't help but murmur.

At this moment, Emperor Chu suddenly spoke in his mind: "Ye Feng, these are all small things. What is really important and precious is the silver lightning released by the middle-aged man in steel armor!"

"yes."

Ye Feng couldn't help but his eyes lit up immediately, and he immediately flew in a certain direction not far away.

You know, that silver lightning is the original lightning of the ancient lightning god.

Maybe there is only one like this in the whole world now.

There is only one silver lightning.

So at this time, Ye Feng knew very well that if he could refine this silver lightning, it would be his biggest gain from coming to this ancient underground ruins this time.

After all, this silver lightning can compete with the art of the heavens.

Even if Ye Feng had used the Thunder Technique before, he could not resist this silver lightning.

Because, the Great Thunder Technique was originally born out of the ancient God of Lightning.

Therefore, this silver lightning was simply terrifying to the extreme.

If used properly, this silver lightning will become one of Ye Feng's next most powerful trump cards.

At this time, Ye Feng came to the front of the silver lightning.

At this moment, this silver lightning was floating quietly in front of Ye Feng's eyes.

There seemed to be no energy at all.

But Ye Feng had just witnessed with his own eyes how devastating this silver lightning would be once it unleashed its true power.

At this time, Ye Feng asked in his mind: "Emperor Chu, how should I refine this silver lightning?"

Ye Feng didn't dare to touch the silver lightning in front of him casually now.

Because Ye Feng is very aware of the destructive power of this silver lightning. Ye Feng was almost electrocuted by this silver lightning before.

At this time, Emperor Chu thought for a while and said aloud in his mind: "It may take a very long time to refine this silver lightning. This kind of original lightning from the ancient lightning god is

not so easy to refine. Yes, even if you are a chaotic body, Ye Feng, I'm afraid it will be difficult to control you."

When Ye Feng heard this, he immediately nodded and said loudly: "I also know this. It is said that the middle-aged man in steel armor was refined by his ancestors for hundreds of years before he finally refined it into his eyebrows. , so that the middle-aged man can use it casually."
