Chapter 2901 Improving Chaos Body

At this time, the old man in white robe did not hesitate at all, and directly began to count the materials in the storage ring and how much they were worth.

Because Ye Feng has already said that he needs all the materials in this storage ring.

At this moment, the face of the old man in white robe was full of joy, because this was a big business.

Under the quick inventory of the white-robed old man, he quickly calculated the specific value of these materials.

The old man in white robes said: "Sir, all the materials in this storage ring are worth nine million divine crystals in total."

Hearing what the old man in white robe said, Ye Feng nodded slightly.

He had just investigated and found that there were a lot of materials in this storage ring, all of which were very precious body-refining materials, so it was within Ye Feng's expectation that it was worth so much money.

At this time, Ye Feng took out nine million of the mountains of divine crystals in front of him, and handed nearly half of the divine crystals to the white-haired old man.

At this time, Ye Feng suddenly looked at the group of people watching around him and said loudly: "Everyone, if you have any materials that can improve your physical fitness, you can take them out directly, and I will directly use the same amount of divine crystals to follow. You exchange."

Hearing what Ye Feng said, many of the people watching around showed a hint of surprise in their eyes.

They didn't seem to expect that Ye Feng would be so heroic and would directly exchange the divine crystals for various materials that could improve his physique.

Many people immediately understood that this young boy must be a body-refining warrior, and he was also the kind of obsessive body-refining warrior.

In order to improve his physique, he almost squandered all his wealth. People really have to admire this tenacious martial arts will.

After Ye Feng finished speaking, as expected, many people had a hint of emotion in their eyes.

Because there is indeed someone with body-refining materials that improve their physique.

At this time, a young man wearing a white robe suddenly walked up to Ye Feng, took out a round pill from the storage ring, and said loudly: "This pill is the one I once had." Obtained from an ancient ruins, it is said to be the 'Vajra Body Refining Pill' refined by the giant clan in ancient times. After swallowing it, you can instantly gain the power of the giant clan's diamond, which has huge benefits for improving your physical fitness, but I am not a body-refining warrior, but a sword cultivator. I don't have much use for this kind of diamond body-refining pill, so I can sell it to you. I wonder if 200,000 divine crystals will do?"

Wow!

After the young man in white robe finished speaking, Ye Feng didn't even frown. He handed over 200,000 divine crystals to the young man in white robe, and then took the diamond body refining pill directly to his own. In his hand, he said aloud: "Okay, I bought it."

"What?!"

At this time, seeing that Ye Feng didn't even lower the price, he would pay whatever the young man said. This immediately caused a sensation among everyone around him.

They all showed excitement in their eyes, and they quickly took out all the things on their bodies that could improve their physique.

Then they came to Ye Feng and started selling to Ye Feng.

There are fewer and fewer mountains of divine crystals around Ye Feng.

But he was getting more and more body-refining materials and various medicines.

☺

Soon, all the divine crystals around Ye Feng were consumed.

And Ye Feng also obtained countless body-refining materials.

At this time, Ye Feng's eyes showed a trace of expectation and he immediately left the scene and returned directly to his living area.

After returning to his room, Ye Feng immediately took out all the body-refining materials.

If it were pills or something like that, Ye Feng would swallow them all directly.

If it was a special material, Ye Feng would directly use the Protoss gloves to extract the attribute power.

In this way, Ye Feng quickly consumed the countless purchased materials in seclusion.

His physique also began to improve rapidly.

Waves of extremely powerful energy fluctuations spread out from Ye Feng's body.

Previously, Ye Feng's body power was at the eighth level of the early stage of the sixth heaven of the Chaos Body.

But after so many materials were continuously improved, the strength of Ye Feng's Chaos Body was finally raised to the ninth level of the late Sixth Heaven of Chaos Body!

This is already a huge improvement for Ye Feng.

At this moment, Ye Feng could feel that the power of his body was many times stronger than before.

The strength of the Chaos Body has become stronger and stronger after this transformation.

However, Ye Feng was quite disappointed that his chaotic body did not directly cross the entire sixth heaven and rush into the seventh heaven.

But it's soon.

After all, it has now been promoted to the ninth level of the late sixth heaven of the Chaos Body.

If Ye Feng can continue to find very special materials and extract the power of attributes, then Ye Feng knows very well that his chaotic body will soon be improved again, and even completely transformed to the seventh heaven.

At that time, the strength of the Chaos Body will reach another level, and a very powerful mysterious bloodline talent will be awakened.

Ye Feng is very looking forward to this.

Moreover, Ye Feng knew very well that this day would never come too late.

Because Ye Feng will soon follow Jialan to the mysterious ancient world.

In the ancient world, there must be countless chance creations from the ancient era, as well as remaining fragments of divine weapons from the ancient era.

Those fragments of divine weapons may not be of much use to ordinary people.

But for Ye Feng, he can extract the ancient attribute power from these magic weapon fragments to improve his chaotic body.

At this time, Ye Feng walked out of his house and walked directly towards the central area of Tiandao Holy Land.

Soon, Ye Feng returned to the mountain peak where Jialan was located.

Ye Feng immediately saw a beautiful figure wearing a light blue dress, already standing on the mountain peak, as if she had been waiting for him for a long time.

Ye Feng spent three days and three nights in seclusion this time, which happened to be the departure time agreed upon by Ye Feng and Jia Lan.

When Jia Lan saw Ye Feng arriving, he immediately smiled and said, "Junior brother Ye Feng is very punctual, so let's set off directly."

After finishing speaking, Ye Feng nodded slightly and flew directly to Jia Lan's side. The two of them flew towards the outside of the Holy Land of Heaven in an instant. At this time, the old man in white robe did not hesitate at all, and directly began to count the materials in the storage ring and how much they were worth.

After finishing speaking, Ye Feng nodded slightly and flew directly to Jia Lan's side. The two of them flew towards the outside of the Holy Land of Heaven in an instant.

Chapter 2902 Interface Barriers

After Ye Feng and Jialan left the Holy Land of Heaven, they headed west.

Soon, the two passed through a large area of desolate land and arrived at the extreme end of the wilderness.

When the two came to the end of the wilderness, Ye Feng saw a shocking scene.

In front of the very end of this wilderness, the entire sky and earth seemed to be connected together.

The sky high in the sky and the fragments on the ground seemed to be fused together. There were space cracks everywhere, which looked very turbulent and had a doomsday-like scene.

At this time, Jialan said: "Junior Brother Ye Feng, if we want to go to the ancient world, we must pass through this void fragment area. The ancient world was originally a fragmented interface left over from the ancient times, attached to the edge of the God Realm. "

When Ye Feng heard what Jialan said, he immediately nodded and said: "This void fragment area is very dangerous, we must be careful."

In fact, what Ye Feng said was to Jia Lan, because Ye Feng had a space gem on his body, so he was not afraid of the threats of these void fragments and space cracks.

When Ye Feng said this, Jialan just smiled and said: "I also have some research on the mysteries of space. These void fragments don't have much impact on me. The only danger is , after we pass through this void fragment area, we may touch the interface barrier of the ancient world. To break the interface barrier, we need a very powerful force, and in the process of passing through the interface barrier, our bodies will suffer. The entire ancient world was torn apart by the power of the entire interface. That was the most dangerous time. I wonder if Junior Brother Ye Feng has any strong armor that he can put on directly now. "

Ye Feng nodded slightly and said aloud: "I think these should not be a big threat to me. My body is very strong and I don't need to wear armor for the time being."

Hearing what Ye Feng said, Jialan felt that Ye Feng might not realize the seriousness of the matter.

But Jialan didn't say anything more, because she knew that when Ye Feng couldn't hold on anymore, Ye Feng would definitely put on the armor.

Buzz!

At this moment, Jialan took out a set of ice blue armor from his storage ring and put it on himself.

This set of ice blue armor does not look bulky at all, but is very thin and light. It outlines Jialan's beautiful and graceful figure and makes Jialan look even more sacred and beautiful.

Jialan smiled slightly at Ye Feng beside him and said, "Junior Brother Ye Feng, let's take action directly."

Ye Feng immediately nodded, looked at the fragmented void area where the sky and the ground were connected at the end of the wilderness ahead, and jumped directly into it.

Uh-huh!

Jialan immediately flew up at this time and followed Ye Feng into the void fragment area.

"Buzz..."

This area is very dangerous. There are vertical and horizontal space cracks everywhere. If a person accidentally hits a space crack, no matter how powerful the warrior is, his body will be cut into several pieces in an instant.

At this time, a slight spatial fluctuation appeared on Jialan's body, allowing Jialan to avoid those spatial cracks and sense in advance some invisible spatial cracks hidden in the void.

When Ye Feng saw this scene, there was a hint of surprise in his eyes. He didn't expect that Senior Sister Jia Lan really knew a lot.

r\u003e

But at this time, Jia Lan was even more shocked.

Because she originally thought that Ye Feng might be very dangerous, but Jia Lan discovered that when traveling through this area of void fragments, Ye Feng looked very relaxed, even more relaxed than herself.

This made Jia Lan's beautiful eyes suddenly reveal a look of surprise.

Because she once swallowed a very magical space fruit when she was young, she had the ability to have spatial attributes.

But Jialan didn't sense any spatial fluctuations from Ye Feng at this moment.

But Ye Feng seems to have a natural perception of the spatial cracks hidden in the surrounding void.

This discovery shocked Jialan. He didn't know why Ye Feng had such magical abilities.

But Jialan didn't ask any more questions, because everyone had their own secrets.

With their strong cultivation and fast speed, they quickly traveled through the entire void fragment area and arrived at the edge of a super large interface.

Ye Feng looked forward at this moment and could see this huge interface floating in chaos.

It's like there are eggshell-like interface barriers around it, wrapping the entire huge interface.

Ye Feng immediately understood that the huge interface in front of him was the ancient world.

Sure enough, Jialan beside him couldn't help but said: "Junior Brother Ye Feng, the huge interface floating in the endless chaos in front of you is the ancient world. If we want to enter this ancient world, we must pass through it. There are thick interface barriers. If we enter the interface barriers, we will be torn apart by the extremely terrifying power of the world, so Junior Brother Ye Feng must be careful next time."

Uh-huh!

After Jialan finished speaking, he rushed directly into the interface barrier without any hesitation.

When Ye Feng saw this scene, he quickly followed.

boom!

When Ye Feng entered the interface barrier, he immediately felt that the surrounding space became as solid as steel.

Flying in the interface barrier is like moving the whole person through thick mercury, very heavy and slow.

And in addition, Ye Feng could feel that there was indeed a terrifying power of the world around him, which was rapidly tearing apart every part of his body, trying to tear his body into pieces.

At this moment, Ye Feng immediately exploded with the original power of his chaotic body, making his entire body strong to the extreme, and he was able to withstand the entire interface barrier and the tearing force of the entire interface.

"What a strong body!"

Jialan, who was not far away, saw this scene, and his expression suddenly became a little shocked.

Because she originally thought Ye Feng was bragging.

But now I have seen with my own eyes that Ye Feng can actually use the pure power of his body to tear apart the interface barrier of the entire ancient world.

This scene is really shocking.

Even a powerful top disciple like Jia Lan felt a visual impact.

"Boy Ye Feng, this interface barrier in the ancient world is a good thing. It can't be wasted like this."

Suddenly at this moment, Emperor Chu's voice sounded in Ye Feng's mind. After Ye Feng and Jialan left the Holy Land of Heaven, they headed west.

"Boy Ye Feng, this interface barrier in the ancient world is a good thing. It can't be wasted like this."

Suddenly at this moment, Emperor Chu's voice sounded in Ye Feng's mind.

Chapter 2903 Coming to the Ancient World

At this time, Ye Feng heard what Emperor Chu said in his mind, and his eyes suddenly showed a hint of surprise, and couldn't help but ask: "Emperor Chu, you said that the interface barriers around you are a good thing, what are they? mean?"

Emperor Chu continued to speak in his mind: "The interface barrier of a large interface contains very advanced space power, which is the so-called 'world power'. Ye Feng, if you activate the space gem and absorb this interface The power of the world in the barrier will once again develop the potential of the space gems and gain extraordinary abilities."

Hearing this, Ye Feng couldn't help but ask: "What kind of abilities will the space gem be able to develop?"

Emperor Chu said: "If you can absorb all the power of the world in the entire interface barrier, then Ye Feng, you may be able to use the space gem to release the power of the interface barrier and instantly restrain the enemy wherever you go. "

Hearing what Emperor Chu said, Ye Feng's eyes suddenly lit up and he couldn't help but say: "Oh? So magical? Then how can I absorb the power of space from the surrounding interface barriers now?"

Emperor Chu smiled and said: "Of course, you use the space gem on your body to absorb the power of the world in the surrounding interface barrier."

When Ye Feng heard this, he immediately nodded, no longer wasting time, and directly started to stimulate the power of the space gem.

Buzz!

At this moment, the space gem in Ye Feng's head suddenly began to emit a ray of light.

Then, a very special power of space appeared around Ye Feng, rapidly and continuously absorbing the power of the world in the interface barrier around Ye Feng into the space gem in Ye Feng's head.
.???.??

Buzz!

Along with absorbing the power of the world in the surrounding interface barriers, the light emitted by the space gem in Ye Feng's mind became more and more intense.

At this time, Ye Feng could even feel that the interface barriers around him began to weaken from very strong tearing abilities.

At this moment, Ye Feng could clearly feel that the energy stored in his space gem was getting larger and larger.

Ye Feng has always been aware that the true power of his space gem has not been fully unleashed.

So Ye Feng knew this time that by absorbing the power of the world in these interface barriers, the space gems would be developed even more powerfully.

"Buzz..."

At this moment, the interface barrier around Ye Feng began to collapse under the absorption of the space gem in Ye Feng's head.

Rumble...

The entire interface barrier began to collapse quickly, like a huge city, falling apart in an instant.

Ye Feng saw this shocking scene and couldn't help but said in his mind with some surprise: "Emperor Chu, the interface barrier collapsed, there should be no problem, right?"

Emperor Chu smiled slightly in his mind and said aloud: "The collapse of the interface barrier has nothing to do with you. The collapse of the interface barrier may have a great impact on this ancient world, because there is no interface barrier. With the protection of the ancient world, it is very likely that powerful creatures from outside the territory will enter the ancient world. However, Ye Feng, what you have absorbed is only a small part of the world power of the interface barrier of this ancient interface, and it will not have much impact. , and even if there is an impact, the crisis will not befall you."

When Ye Feng heard what Emperor Chu said, his eyes suddenly showed a hint of relief.

Just don't have any big problems with yourself.

At this time, Ye Feng continued to control the space gem to absorb the power of the world in the surrounding interface barriers.

The space gem in Ye Feng's head glowed more and more intensely.

finally.

"boom!"

The space gem in Ye Feng's head suddenly burst out with a very strong wave of space energy.

It seems that at this moment, some very essential transformation occurred.

"Success!"

Emperor Chu said aloud in his mind: "The space gem has now absorbed enough of the power of the world in the interface barrier. It has undergone the first stage of transformation and activated its special ability. Ye Feng, if you activate the space gem now, it should You can directly release the interface barrier and instantly restrain the enemy."

When Ye Feng heard this, his eyes immediately revealed a look of deep surprise. He didn't expect that when he was crossing the interface barrier, he could actually develop the special ability of the first stage of the space gem and be able to release the space barrier by himself.

Ye Feng knows very well how terrifying interface barriers are.

You know, Ye Feng's chaotic body is so powerful that it is very difficult to shuttle through the interface barriers and may be torn apart at any time.

Not to mention other ordinary creatures.

Ye Feng now controls the power of the interface barrier, which is tantamount to Ye Feng controlling a very powerful killing method.

At this time, Ye Feng saw that Jia Lan's beautiful figure was almost disappearing into the distance.

Uh-huh!

Ye Feng instantly chased in the direction of Jialan.

Ye Feng wasted a lot of time absorbing the power of the world in the interface barrier around here.

Ye Feng is very fast, and he now controls the power of the interface barrier through the space gem.

So Ye Feng quickly caught up with Jialan in front.

"boom!"

At this time, the two of them rushed forward vigorously.

With a huge roar, Ye Feng and Jia Lan finally crossed the entire interface barrier and descended into the real ancient world.

Buzz!

At this moment, Ye Feng and Jia Lan were floating high in the sky of this ancient world.

They looked down and found a lot of mountains and land, which were extremely green and looked like a primitive world.

But this is quite normal.

After all, this ancient world, a fragmented world handed down from ancient times, must have retained the original scene from several epochs ago.

Uh-huh! Uh-huh!

Ye Feng and Jia Lan quickly descended and stepped on the hard ground.

At this moment, they were in a very lush primeval forest. The surrounding trees were so huge that their crowns could almost block out the sky. Each tree was majestic and boundless, giving people a vast and primitive feeling.

At this time, there was a trace of admiration in Jia Lan's eyes. He took a deep breath and said: "This is also the first time I have come to this ancient world. Junior Brother Ye Feng, there are resources from the ancient times here. Can we You must take good care of it, but you must also pay attention to the dangers, not only from the ancient world itself, but also from the threats from top geniuses of other major forces or the powerful elders." At this time, Ye Feng heard what Emperor Chu said in his mind. Then, a trace of surprise suddenly appeared in his eyes, and he couldn't help but ask: "Emperor Chu, what do you mean when you say that the interface barriers around you are a good thing?"

Emperor Chu continued to speak in his mind: "The interface barrier of a large interface contains very advanced space power, which is the so-called 'world power'. So Ye Feng knew this time that by absorbing the power of the world in these interface barriers, the space gems would be developed even more powerfully.

"Buzz..."

At this moment, the interface barrier around Ye Feng began to collapse under the absorption of the space gem in Ye Feng's head.

Rumble...

The entire interface barrier began to collapse quickly, like a huge city, falling apart in an instant.

Ye Feng saw this shocking scene and couldn't help but said in his mind with some surprise: "Emperor Chu, the interface barrier collapsed, there should be no problem, right?"

Emperor Chu smiled slightly in his mind and said aloud: "The collapse of the interface barrier has nothing to do with you. The collapse of the interface barrier may have a great impact on this ancient world, because there is no interface barrier. With the protection of the ancient world, it is very likely that powerful creatures from outside the territory will enter the ancient world. However, Ye Feng, what you have absorbed is only a small part of the world power of the interface barrier of this ancient interface, and it will not have much impact. , and even if there is an impact, the crisis will not befall you."

When Ye Feng heard what Emperor Chu said, his eyes suddenly showed a hint of relief.

Just don't have any big problems with yourself.

At this time, Ye Feng continued to control the space gem to absorb the power of the world in the surrounding interface barriers.

The space gem in Ye Feng's head glowed more and more intensely.

finally.

"boom!"

The space gem in Ye Feng's head suddenly burst out with a very strong wave of space energy.

It seems that at this moment, some very essential transformation occurred.

"Success!"

Emperor Chu said aloud in his mind: "The space gem has now absorbed enough world power in the interface barrier. It has undergone the first stage of transformation and activated its special ability. Ye Feng, if you activate the space gem now, it should You can directly release the interface barrier and instantly restrain the enemy."

When Ye Feng heard this, his eyes suddenly revealed a look of deep surprise. He didn't expect that when he was crossing the interface barrier, he could actually develop the special ability of the first stage of the space gem and be able to release the space barrier by himself.

Ye Feng knows very well how terrifying interface barriers are.

You know, Ye Feng's chaotic body is so powerful that it is very difficult to shuttle through the interface barriers and may be torn apart at any time.

Not to mention other ordinary creatures.

Ye Feng now controls the power of the interface barrier, which is tantamount to Ye Feng controlling a very powerful killing method.

At this time, Ye Feng saw that Jia Lan's beautiful figure was almost disappearing into the distance.

Uh-huh!

Ye Feng instantly chased in the direction of Jialan.

Ye Feng wasted a lot of time absorbing the power of the world in the interface barrier around here.

Ye Feng is very fast, and he now controls the power of the interface barrier through the space gem.

So Ye Feng quickly caught up with Jialan in front.

"boom!"

At this time, the two of them rushed forward vigorously.

With a huge roar, Ye Feng and Jia Lan finally crossed the entire interface barrier and descended into the real ancient world.

Buzz!

At this moment, Ye Feng and Jia Lan were floating high in the sky of this ancient world.

They looked down and found a lot of mountains and land, which were extremely green and looked like a primitive world.

But this is quite normal.

After all, this ancient world, a fragmented world handed down from ancient times, must have retained the original scene from several epochs ago.

Uh-huh! Uh-huh!

Ye Feng and Jia Lan quickly descended and stepped on the hard ground.

At this moment, they were in a very lush primeval forest. The surrounding trees were so huge that their crowns could almost block out the sky. Each tree was majestic and boundless, giving people a vast and primitive feeling.

At this time, there was a trace of admiration in Jia Lan's eyes. He took a deep breath and said: "This is also the first time I have come to this ancient world. Junior Brother Ye Feng, there are resources from the ancient times here. Can we You must take good care of it, but you must also be aware of the dangers, not only from the ancient world itself, but also from the threats from top geniuses of other major forces or strong men of the older generation."

Chapter 2904 Crimson Palace

At this time, upon hearing Jialan's reminder, Ye Feng immediately nodded and said, "Okay, I understand."

Jialan nodded slightly, then looked around and said aloud: "I am also very unfamiliar with the ancient world. This is a strange land left over from the ancient times. Let's start exploring from the primitive forest where we came. , as long as you can find some elixir fruits that grew in ancient times, you will make money."

Ye Feng heard this and had no other plans for the time being. After all, he was not familiar with this ancient world, so he could only go with Jialan, the powerful senior sister.

Uh-huh! Uh-huh!

The two of them quickly shuttled through the primeval forest, trying to find some ancient elixirs and fruits that had grown from ancient times, or some rare treasures from heaven and earth.

After all, in this extremely dense primeval forest, it would be difficult to find the inheritance of a powerful person from ancient times.

But if you look for some rare treasures from heaven and earth and ancient elixirs, you will be more likely to find them.

Both of them are super masters, and their spiritual thoughts are naturally very powerful.

During the entire march, the two of them released their powerful spiritual thoughts to detect various movements around them.

They soon found a lot of rare treasures from heaven and earth, as well as some heavenly materials and treasures. They were all grown from ancient times to today, and their medicinal power was very powerful, which made both of them very happy. .??.

Unexpectedly, just after arriving in this ancient world, I found a lot of good things in this primitive forest.

Ye Feng naturally didn't hesitate at all, and directly devoured and refined these medicinal materials, and his skill improved a lot.

Jia Lan, who was following Ye Feng, did not do this because she could not directly refine these elixirs.

Jialan needs to bring these elixirs back to the sect and ask some powerful alchemists to refine them into various elixirs before he can swallow them and improve his own power.

Jialan was very interested in Ye Feng being able to directly swallow the elixir and improve his own skills.

Jialan asked Ye Feng carefully how he had acquired this ability, but Ye Feng could only answer that it was innate to him, which made Jialan couldn't help but shake his head and sigh.

Otherwise, she also wants to learn it, because if she has the ability to devour, she can always look for resources and quickly grow herself.

There is no need to go back to the sect and invite some high-level alchemists to refine the elixirs to improve your own skills.

In that case, it is really too slow and a waste of time.

But ordinary warriors can only do this. They cannot be like Ye Feng, who can use any resources around him anytime and anywhere to improve himself at any time and support fighting through fighting.

"boom!"

And just as the two of them kept moving forward and searching for all kinds of natural materials and treasures in this primitive forest, suddenly there was a very strong fluctuation somewhere not far away.

Ye Feng and Jia Lan both sensed this fluctuation instantly, their eyes lit up, and they quickly galloped in that direction.

When they arrived at the destination where the wave came from, they were immediately shocked by the sight in front of them.

At the end of this primeval forest, there is an endless river of lava.

In this magma long

In mid-air above the river, there was a huge red palace suspended.

This crimson palace is surrounded by extremely thick black iron locks, tying this crimson palace into the endless river of lava, which looks very visually impactful.

Jialan was standing next to Ye Feng at this time, staring at the crimson palace in mid-air with a pair of beautiful eyes, and couldn't help but said: "This crimson palace is probably an ancient powerful palace." We didn't expect to be so lucky that we would encounter the place where a powerful man lived in ancient times so quickly."

Ye Feng also showed a hint of joy in his eyes at this moment, and said loudly: "We are indeed very lucky, but we just don't know if there are any ancient powerful people from ancient times in this crimson palace. Something left behind."

Jialan smiled and said aloud: "If you want to know if there is any, we can just go and investigate. But after all, this is an ancient world, and there may be huge dangers hidden there. We have to be careful."

"good."

Ye Feng nodded at this time, and he and Jialan flew towards the crimson palace in mid-air.

But just when they had just flown to the edge of the lava river ahead, waves of terrifying fluctuations suddenly erupted in the lava river.

Boom!

Boom!

I saw the flame giants with lava flowing all over their bodies, and they suddenly stood up from the long river of lava.

In an instant, they quickly bombarded Ye Feng and Jia Lan, trying to kill these two uninvited guests.

"In this piece of molten magma, very powerful flame creatures have indeed been bred. The cultivation auras of these flame giants are extremely powerful. It seems that this molten magma has existed in a very early era. After so many years, Many powerful flame giants have been born here to protect them."

At this moment, looking at the flame giant charging over, Jialan's face did not show any fear, but showed a trace of expectation. He couldn't help but said: "In this case, the one suspended above The

crimson palace in mid-air must contain a very good fortune. Otherwise, there would not be so many flame giants guarding here. Serving as guards must be a precautionary measure left by the owner of the crimson palace, who is afraid of future generations. Someone came to rob him of the wealth and treasures he left behind."

When Ye Feng heard Jialan say this, he couldn't help but nodded and said, "That should be the case. Leave these flame giants to me."

boom!

At this moment, after Ye Feng finished speaking, he rushed directly forward in an instant. Incomparably powerful chaotic power suddenly burst out from his body, and then he bombarded the front wildly in an instant.

Almost at this moment, Ye Feng's powerful body power burst out with a terrifying impact, shattering all the flame giants into pieces.

The reason why Ye Feng took the initiative to kill these flame giants was because Ye Feng felt a very pure and majestic flame power from these flame giants, which could provide Ye Feng with huge energy.

At this moment, Ye Feng smashed these flame giants, and directly released the Devouring Domain, which began to devour the pure and incomparable flame energy emitted by these flame giants after they were broken, and used it to strengthen his own power! At this time, upon hearing Jialan's reminder, Ye Feng immediately nodded and said, "Okay, I understand."

Jialan nodded slightly, then looked around and said aloud: "I am also very unfamiliar with the ancient world. This is a strange land left over from the ancient times. At this moment, Ye Feng smashed these flame giants, and directly released the Devouring Domain, which began to devour the pure and incomparable flame energy emitted after these flame giants were shattered, using it to strengthen his own power!

Chapter 2905 Ten Thousand Demons Sect

It has to be said that the flame energy contained in the bodies of these flame giants is still very terrifying.

At this moment, after Ye Feng devoured a dozen flame giants, he immediately felt that his skill had been greatly improved.

Coupled with the elixirs and natural treasures found in the primitive forest that Ye Feng had swallowed before, Ye Feng's accumulation of skills at this time has been transformed.

Finally, he broke through the first level of heaven again and directly broke through to the fourth level of the Immortal Ascension Realm!

At this moment, he sensed the change in Ye Feng's cultivation aura. Jialan, who was standing aside, suddenly showed a look of disbelief in his eyes. He couldn't help but said in shock: "Junior brother Ye Feng, you are like this Isn't it too scary to have such a devouring ability?"

Faced with Jialan's shock, Ye Feng just smiled and said, "It's just some small tricks."

Jialan: "..."

Jia Lan never expected that Ye Feng would be so humble.

After all, Jialan saw with his own eyes how powerful and terrifying Ye Feng's devouring ability was, but in the end, Ye Feng said it was just some small tricks.

If you put it this way, how many other methods does Junior Brother Ye Feng have?

It's scary to think about it.

However, Jialan did not hesitate for too long. At this moment, after he and Ye Feng solved the obstruction of the flame giants, they came directly to the crimson palace.

The two people immediately discovered that the door to the crimson palace was tightly closed.

Moreover, there were many thick iron locks outside, which tied the entire crimson palace together, seeming to be trapping a strange existence inside the crimson palace.

Both of them noticed the abnormality, and Jialan couldn't help but said: "Junior brother Ye Feng, there may be something very scary and strange in this palace. You must be careful when you enter later."

Ye Fengsi

He didn't seem to be too nervous, but said slightly relaxedly: "There shouldn't be any problem. Even in this palace, there may be some very strange and powerful existence locked up, but you know, this

is ancient times." It has been handed down from time to time. After so many endless years, even the most powerful existence has probably turned into a handful of loess. "

Hearing what Ye Feng said, Jialan's originally nervous face suddenly showed a smile and said, "Junior Brother Ye Feng's words seem to make some sense."

Uh-huh! Uh-huh!

At this time, as the two of them were talking, they had already arrived at the gate of the crimson palace.

boom! !

At this moment, Ye Feng and Jia Lan took action together and directly broke all the iron locks on the red palace door, and then the entire palace door slowly opened.

As the palace door opened, Ye Feng and Jialan immediately looked inside. They saw that the entire hall was empty.

But the moment they entered the hall, a huge formation suddenly lit up on the ground of the originally empty hall.

In this formation, a large crimson snake several kilometers long was lying there, seemingly dead.

Jialan saw this scene and immediately understood something. He couldn't help but said: "It seems that this palace is just to trap this big red snake."

When Ye Feng heard what Jialan said, he nodded, agreed, and said: "This big crimson snake was probably a very powerful and ferocious beast in ancient times. I don't know who was the strong one." The person was imprisoned here.

After so many years, it seems that there is no breath of life at all. It is probably completely dead. All the vitality has been consumed in the long years. "

Jialan also nodded at this time and said loudly: "It seems that you can devour as much as you want, Junior Brother Ye Feng."

This dead red snake didn't have much effect on Jialan, but it was a good target for Ye Feng to devour.

When Ye Feng heard what Jia Lan said, he immediately smiled and said, "Sister Jia Lan still understands me."

After saying that, Ye Feng walked forward directly, walked to the formation, and then released the Devouring Domain, preparing to directly devour the red snake.

At this time, Jialan said aloud: "I will search around this palace to see if there are any other treasures."

Ye Feng immediately nodded and said: "Okay, Senior Sister Nagalan, please investigate. I think there should be other treasures. It can't be nothing. After all, this crimson palace looks very extraordinary."

But just when Ye Feng finished speaking, a burst of conversation suddenly sounded outside the crimson palace.

"Look! There is an opened palace here!"

"This crimson palace is tied high in the sky by countless iron chains. It must be very extraordinary. Let's go in and take a look."

Following these conversations, Ye Feng and Jia Lan's eyes immediately became alert and looked towards the door of the crimson hall.

Uh-huh! Uh-huh! Uh-huh...

The next moment, a dozen tall men wearing armor walked in from outside.

Every tall man looks very burly, with a demonic aura on his body. He is obviously a cultivator of the demon clan.

scholar.

The moment these dozen or so demon clan experts came in, they immediately saw Ye Feng and Jia Lan, and their eyes also fell on the huge red snake.

Then a strong man from the demon clan couldn't help but said: "It turns out to be a ferocious beast body left over from the ancient times. It must be of great benefit to us demon cultivators. Let's snatch it over quickly and present it to the sect master. , you will definitely receive a huge reward."

Hearing what this demon clan strongman said, Ye Feng immediately said: "We discovered this crimson palace first. Do you want to rob it by force?"

When a strong man from the demon race heard what Ye Feng said, he immediately showed deep sarcasm in his eyes and said loudly: "Young man from the human race, I advise you not to mind your own business and get out of here quickly, but the people around you This beautiful human woman cannot leave because we all love her, hahaha."

"presumptuous!"

When Jia Lan heard the words of this powerful demon clan man who had no taboos, his face suddenly showed cold killing intent, and in an instant he released a terrifying killing move.

boom! !

A shower of blue light suddenly appeared on her body, like thousands of arrows fired in unison. Countless rains of light rushed forward in an instant, and suddenly "puffed" and "puffed" these dozen powerful monsters. , all of them were pierced through the body and killed instantly.

"ah!"

Screams suddenly started coming one after another.

It has to be said that Jialan's strength is still very terrifying.

At this moment, there was a strong demon clan man on the ground who was seriously injured but not dead. His eyes widened immediately and he couldn't help but said: "How dare you kill us? We are all members of the Ten Thousand Demon Sect. The Lord of Ten Thousand Demons will definitely not let you go, you are dead!"

Chapter 2906 The disappeared Jialan

For these powerful monsters, they never expected that the two young people from the human race who looked very ordinary in front of them would dare to kill them directly.

However, they did not expect that the cultivation strength of these two young people was so terrifying. In just a moment, they all died. It was really terrifying to the extreme.

The last demon clan strongman who was not completely dead yet revealed their identity as the Ten Thousand Demons Sect, as if they wanted to use this to frighten the two young human race men, Ye Feng and Jia Lan.

However, Jialan's eyes didn't even flicker, and he directly stretched out a finger.

Uh-huh!

In an instant, a divine light burst out from his fingers, and with a "pop" sound, it directly pierced the head of the last demon clan strongman who was not completely dead.

Ye Feng saw this scene from the side, with a hint of surprise in his eyes.

Jialan's strength is indeed very powerful.

You must know that the cultivation levels of these dozen monster clan experts are all at the first level of the Immortal Ascension Realm.

But Jialan killed him instantly.

I have to say that this senior sister is still very powerful.

As expected of a weak woman, she was able to create the extremely powerful Jialan Society in the entire Tiandao Holy Land.

At this time, Ye Feng couldn't help but asked: "Senior Sister Jialan, do you know what kind of force the Ten Thousand Demon Sect mentioned by these powerful demon clan men is? Why do I seem to have never heard of it? Pass."

Hearing Ye Feng's question, Jialan immediately spoke up and said: "The Ten Thousand Demons Sect was a very powerful force on the western edge of the center of the God Realm before we entered the ancient world. Although it is not as good as the overlord force like our Holy Land of Heaven, but it can be regarded as a first-rate force, and its background is quite powerful, especially the leader of the Ten Thousand Demons Sect, the Lord of Ten Thousand Demons, whose strength is even more terrifying, and has far surpassed the Immortal Ascension Realm, and even surpassed The Creation Realm is most likely a powerful existence at the Eternal Realm level above the Creation Realm. Among all the monsters, the only one we have to fear is this Lord of Ten Thousand Demons."

"A powerful man in the Eternal Realm!"

When Ye Feng heard what Jia Lan said, there was a hint of surprise in his eyes.

Unexpectedly, in this ancient world, there are actually powerful people at the level of the Ancient Realm who have surpassed the Divine Movement Realm and the Creation Realm to enter it.

Jialan seemed to have guessed Ye Feng's inner thoughts at this time, and immediately said aloud: "There are no restrictions in this ancient world, so no matter how powerful the existence is, you can enter the ancient world. This time the ancient world is opened, I After obtaining two quotas, other major forces will definitely find ways to enter this ancient world and rob it of various resources left over from the ancient times. Therefore, it is not surprising that extremely powerful elders will enter it. things, so we have to be more careful, because we are facing not only the generation of the same age, but also those older generations who have practiced for many years, such as the Lord of Ten Thousand Demons, and other major forces. Old antiques may appear."

Hearing what Jia Lan said, Ye Feng immediately nodded solemnly and said, "I understand."

boom!

At this moment, Ye Feng no longer hesitated and released the Devouring Domain, directly covering the big red snake left over from ancient times.

There were also more than a dozen powerful men from the Ten Thousand Demon Sect who had been killed by Jialan before, and they were also enveloped in his devouring domain.

Ye Feng started to quickly

Absorb blood energy and strengthen your own skills.

Uh-huh!

At this time, Jia Lan entered the interior of the hall to look for other opportunities.

"Rumble..."

At this moment, very abundant and majestic blood energy was absorbed into Ye Feng's body, and was quickly refined, strengthening Ye Feng's power.

Perhaps the dozen or so powerful men of the first level of the Immortal Movement Realm among the ten thousand demons could not provide Ye Feng with much majestic power.

But that big crimson snake handed down from ancient times provided Ye Feng with a lot of blood energy, allowing Ye Feng's skills to transform again at this time.

"boom!"

finally. Half an hour later, when Ye Feng had devoured all the blood energy, an extremely powerful cultivation aura suddenly erupted from Ye Feng's body.

That's the momentum of a breakthrough!

At this moment, Ye Feng's cultivation level once again broke through.

From the fourth level of the Immortal Movement Realm, he broke through to the fifth level of the Immortal Movement Realm!

Ye Feng opened his eyes at this time and found that the big red snake in front of him had completely shriveled up. It had obviously been drained of all its blood energy and completely withered.

At this time, Ye Feng walked towards the inside of the palace, wanting to see if Senior Sister Jia Lan, who had entered early, had discovered anything.

But when Ye Feng arrived inside the palace, he saw that Senior Sister Jialan had disappeared.

The entire palace was still empty.

This made Ye Feng's eyes immediately show doubts.

He was refining the big red snake at the entrance area of the hall, and did not pay special attention to the situation inside the hall.

But unexpectedly, Senior Sister Jialan was no longer in the hall.

This made Ye Feng couldn't help but wonder, where did Senior Sister Jialan go?

Did you leave early?

But if Senior Sister Canaan wants to leave this hall, she must pass through the entrance area where she practices.

At this time, Ye Feng suddenly discovered something and flew quickly towards a certain direction inside the hall.

Uh-huh!

The next moment, Ye Feng had arrived at a deeper area inside the hall.

He saw a damaged teleportation array on the ground.

Seeing the damaged teleportation array, Ye Feng immediately understood what happened.

"This is a one-time teleportation array!"

Ye Feng has encountered this kind of formation before, and can only use it once, and then the teleportation formation will be completely damaged.

It seems that Senior Sister Jialan entered this one-time teleportation formation and was teleported to an unknown area.

But no matter what, the teleportation formation has been damaged, and Senior Sister Jialan cannot teleport back to the inside of the hall.

Therefore, Ye Feng knew that there was no point in continuing to wait at this time. He could only leave here first and see if he could be lucky enough to meet Senior Sister Jialan in other places in this ancient world.

But just when Ye Feng was about to leave, Emperor Chu in his mind suddenly said: "Ye Feng, don't leave in a hurry. The innermost area of this hall has not been explored yet. I sensed extraordinary things from there. You can go and take a look at the energy fluctuations. "For these powerful monsters, they never expected that the two young people from the human race who looked very ordinary in front of them would dare to kill them directly.

However, they did not expect that the cultivation strength of these two young people was so terrifying. In just a moment, they all died. It was really terrifying to the extreme.

The last demon clan strongman who was not completely dead yet revealed their identity as the Ten Thousand Demons Sect, as if they wanted to use this to frighten the two young humans, Ye Feng and Jia Lan.

boom!

At this moment, Ye Feng no longer hesitated, and directly released the Devouring Domain, directly covering the big red snake left over from ancient times.

There were also more than a dozen powerful men from the Ten Thousand Demon Sect who had been killed by Jialan before, and they were also enveloped in his own devouring domain.

Absorb blood energy and strengthen your own skills.

Uh-huh!

At this time, Jia Lan entered the interior of the hall to look for other opportunities.

"Rumble..."

At this moment, very abundant and majestic blood energy was absorbed into Ye Feng's body, and was quickly refined, strengthening Ye Feng's power.

Perhaps the dozen or so powerful men of the first level of the Immortal Movement Realm among the ten thousand demons could not provide Ye Feng with much majestic power.

But the big crimson snake handed down from ancient times provided Ye Feng with a lot of blood energy, allowing Ye Feng's skills to transform again at this time.

"boom!"

finally. Half an hour later, when Ye Feng had devoured all the blood energy, an extremely powerful cultivation aura suddenly erupted from Ye Feng's body.

That's the momentum of a breakthrough!

At this moment, Ye Feng's cultivation level once again broke through.

From the fourth level of the Immortal Movement Realm, he broke through to the fifth level of the Immortal Movement Realm!

Ye Feng opened his eyes at this time and found that the big red snake in front of him had completely shriveled up. It had obviously been drained of all blood energy and completely withered.

At this time, Ye Feng walked towards the inside of the palace, wanting to see if Senior Sister Jia Lan, who had entered early, had discovered anything.

But when Ye Feng arrived inside the palace, he saw that Senior Sister Jialan had disappeared.

The entire palace was still empty.

This made Ye Feng's eyes immediately show doubts.

He was refining the big red snake at the entrance area of the hall, and did not pay special attention to the situation inside the hall.

But unexpectedly, Senior Sister Jialan was no longer in the hall.

This made Ye Feng couldn't help but wonder, where did Senior Sister Jialan go?

Did you leave early?

But if Senior Sister Canaan wants to leave this hall, she must pass through the entrance area where she practices.

At this time, Ye Feng suddenly discovered something and flew quickly towards a certain direction inside the hall.

Uh-huh!

The next moment, Ye Feng had arrived at a deeper area inside the hall.

He saw a damaged teleportation array on the ground.

Seeing the damaged teleportation array, Ye Feng immediately understood what happened.

"This is a one-time teleportation array!"

Ye Feng has encountered this kind of formation before, and can only use it once, and then the teleportation formation will be completely damaged.

It seems that Senior Sister Jialan entered this one-time teleportation formation and was teleported to an unknown area.

But no matter what, the teleportation formation has been damaged, and Senior Sister Jialan cannot teleport back to the inside of the hall.

Therefore, Ye Feng knew that there was no point in continuing to wait at this time. He could only leave here first and see if he could be lucky enough to meet Senior Sister Jialan in other places in this ancient world.

But just when Ye Feng was about to leave, Emperor Chu in his mind suddenly said: "Ye Feng, don't leave in a hurry. The innermost area of this hall has not been explored yet. I sensed extraordinary things from there. Energy fluctuations, you can go and take a look."

Chapter 2907 Ancient Text

When Ye Feng heard what Emperor Chu said, there was a hint of interest in his eyes, and he walked directly towards the deepest interior area of the hall.

Soon, Ye Feng arrived at the deepest part of the hall.

He immediately saw that a small shrine was built in this hall.

In this temple, there is a golden sculpture that looks like an ancient god standing in it.

Ye Feng stepped forward, stared at the golden body of the god in the temple, and asked: "Emperor Chu, is this the thing you sensed?"

Emperor Chu said aloud in his mind: "Yes, this is it. This seems to be the golden body of an ancient god. It was cast by the ancient ancestors. There should be a lot of power of faith in it, and it has a great influence on me." the benefits of."

Buzz!

At this time, after Emperor Chu finished speaking, he flew directly out of Ye Feng's mind, and then instantly transformed into a small red light person and settled into the golden body of the god.

Buzz!

The next moment, Emperor Chu was able to control this god's golden body, bursting out with very powerful power.

Ye Feng saw this scene, his eyes showed surprise, and then he smiled and said: "It seems that you have got a good treasure, Emperor Chu."

"What is truly precious is the power of faith stored in the golden body of this god, but it needs to be mined slowly."

Emperor Chu said at this time, bringing the golden body of the god back to Ye Feng's mind space.

At this time, Ye Feng suddenly saw some ancient words carved in the shrine.

Ye Feng had not seen this ancient text before because it was blocked by the golden body of the god.

Now that the golden body of the god was taken away by Emperor Chu, Ye Feng immediately saw a very ancient text written on the wall of the temple behind the golden body of the god.

At this time, Ye Feng stepped forward and looked closely. He discovered that he didn't recognize this ancient text at all. It seemed to be the text of an ancient race.

Ye Feng could only say in his mind: "Emperor Chu, help me take a look at this ancient text. Which race is it from and what does it mean specifically?"

Ye Feng knew very well that Emperor Chu was a very ancient existence and very knowledgeable. Emperor Chu knew many things.

Ye Feng has always speculated that the Emperor of Chu might not just be the emperor of the Great Chu Kingdom, but might also have other mysterious identities.

At this time, after Ye Feng finished speaking, Emperor Chu immediately began to observe in his mind.

After a while, Emperor Chu said: "This seems to be the writing of a very ancient race in ancient times. Even I don't know much about it, but I have imprinted this ancient writing. Next, I will take my time. Decode it, but I'm not sure whether it can be deciphered in the end."

When Ye Feng heard what Emperor Chu said, his eyes suddenly showed a look of surprise.

Because in Ye Feng's impression, Emperor Chu was very knowledgeable, and there was basically nothing in the world that Emperor Chu didn't know.

But this time, even Emperor Chu could not recognize this ancient text. It would take time to decipher it, and it might not even be possible to decipher it yet.

It seems that this ancient palace was cast by a very ancient race back then.

That paragraph of text made Ye Feng vaguely aware that

Yes, it must involve a big secret, and it is likely to be some kind of very special and ancient inheritance.

However, Ye Feng was quite disappointed that he could not practice for the time being.

But this paragraph of text has been imprinted by Emperor Chu, and I believe that Emperor Chu will be able to decipher it in the future.

By then, he would be able to obtain a supreme divine secret. Thinking of this, Ye Feng became happy again.

At this time, Ye Feng searched the depths of the palace for a while again. After making sure that there was nothing, he turned around and left the palace.

When Ye Feng walked out of the crimson palace, he glanced at the palace behind him, then left without hesitation.

Buzz!

But just when Ye Feng was about to leave this piece of molten power, suddenly a very powerful cultivation momentum descended around Ye Feng.

This kind of cultivation momentum was extremely terrifying, making Ye Feng feel a deep pressure at this moment.

The next moment, Ye Feng immediately looked up high in the sky.

He immediately saw a young man wearing black armor, holding a long black knife in his hand. He looked very bloodthirsty and ferocious.

"What a powerful evil spirit!"

At this moment, Ye Feng suddenly felt a very majestic evil spirit from this young man wearing black armor.

He immediately understood that this was probably a strong man from the Ten Thousand Demons Sect.

Sure enough, before Ye Feng could say anything, the young man in black armor suddenly showed a deep cold look in his eyes. He stared at Ye Feng and said loudly: "It's you, the boy, who will kill us." You killed all the ten masters of the Ten Thousand Demon Sect, right? You still have the death aura of our masters from the Ten Thousand Demon Sect."

Ye Feng did not defend himself at this time, but stared at the young man in black armor from the Ten Thousand Demons Sect, and said loudly: "Yes, I killed the dozen masters of your Ten Thousand Demons Sect, but they are In order to rob the wealth I discovered, there shouldn't be anything wrong with me doing this, right?"

"You killed the master of our Ten Thousand Demons Sect. This is a huge mistake!"

The young man wearing black armor suddenly burst out with a terrifying murderous aura.

The aura of cultivation on his body is impressively that of a powerful being at the Creation Realm level that has surpassed the Immortal Movement Realm!

It has to be said that this young man in black armor is an extremely powerful being and a very terrifying monster!

At this moment, Ye Feng felt the murderous intent on the opponent's body, and his own fighting spirit burst out in an instant.

boom!

The boundless aura of chaos surged out from Ye Feng's body.

At this moment, Ye Feng faced the young man in black armor at the Creation Realm level, his eyes were extremely bright, and he exuded a bright divine light, without any fear at all.

Just in time, Ye Feng was going to use this battle to test his current improvement in cultivation and what level of combat power he had reached.

"kill!"

At this time, the young man in black armor held the long knife in his hand and slashed in the direction of Ye Feng in an instant.

boom!

His long sword was a demonic sword. The moment it was slashed out, the long sword turned into a ferocious evil dragon, opening its huge mouth and trying to swallow Ye Feng instantly! But just when Ye Feng was about to leave the power of the magma, suddenly a very powerful cultivation momentum descended around Ye Feng.

This kind of cultivation momentum was extremely terrifying, making Ye Feng feel a deep pressure at this moment.

His long sword was a demonic sword. The moment it was slashed out, the long sword turned into an extremely ferocious evil dragon. It opened its huge mouth and wanted to swallow Ye Feng instantly!

Chapter 2908 The horror of the troll battle ax

boom!

At this moment, Ye Feng directly exploded with his extremely powerful cultivation power, and directly punched out fiercely.

"Boom!!"

A very terrifying chaotic power burst out from Ye Feng's fist, and immediately formed a shock wave, which suddenly collided with the evil dragon transformed from the armored young man's demon sword.

The entire field suddenly erupted with a huge roar that resounded throughout the entire world.

"Kick, kick, kick!"

The next moment, Ye Feng suddenly felt a very powerful force, which was transmitted to his fist, making him couldn't help but take several steps back before stopping.

However, Ye Feng was not discouraged at this time. Instead, with a hint of surprise in his eyes, he said, "It seems that my current physical strength is indeed much stronger than before."

"What? How is that possible?"

But at this time, the one who was most shocked was the armored young man from the Ten Thousand Demons Sect who attacked Ye Feng.

At this moment, he couldn't help but exclaimed: "You can actually use the strength of your body to resist this sword of ten thousand demons in my hand. How is this possible?"

Ye Feng did not respond to the armored young man at this time. He just smiled indifferently and then rushed towards the armored young man in an instant.

"Damn you boy! I don't believe I can't break your body!"

"All demons appear!"

"One strike will leave no ghost behind!"

boom! !

At this moment, the armored young man held the long knife in his hand, and suddenly a terrifying and powerful inheritance burst out.

The long knife in his hand suddenly burst out with the soul power of demon clan, which seemed to be able to collapse the whole world, making people's whole spirit shake.

Shattered.

This knife is very terrifying, not only has specific destructive power, but also has a very terrifying impact on the enemy's soul power.

"Boom!!"

Under the terrifying attack of this knife, even though Ye Feng was surrounded by the energy of chaos, he couldn't help but retreat quickly at this time, unable to withstand the terrifying power of the monsters.

"Hahaha, boy, you are dead! This sword of mine contains the essence of thousands of monsters! Once the terrifying power breaks out, it will gather the power of thousands of monsters in ancient times, and you will not be able to resist it. living!"

At this moment, the armored young man roared, with deep confidence in his tone.

At this time, Ye Feng smiled coldly and said, "Do you think you are the only one with powerful weapons?"

boom!

At this moment, a huge black ax appeared in Ye Feng's hand, full of terrifying dark power.

It's the Troll Battle Ax!

Ye Feng got it from the ruins of the troll clan in the dark interface.

Contains the power of the extremely ancient and terrifying troll!

At this moment, Ye Feng held the troll battle axe, and he could immediately feel that this troll battle ax contained very terrifying dark energy.

"boom!"

The next moment, Ye Feng didn't hesitate and directly slashed the troll battle ax in his hand.

Boom! !

Almost at this moment, Ye Feng saw an unyielding fighting spirit rushing out of the troll battle axe.

Like an ancient troll heroic soul, the troll battle ax is endowed with extremely terrifying power and is full of terrifying destructiveness.

boom!

At this moment, the troll battle ax slashed hard on the demon knife in the hand of the armored young man in front, and a terrifying roar suddenly burst out.

At this moment, the troll battle ax in Ye Feng's hand was like the ax that created the world, capable of chopping the entire world into pieces.

The demon sword in the hand of this armored young man, even if it is a very powerful weapon, cannot stop the troll battle ax in Ye Feng's hand at this moment.

At this time, Ye Feng held the exorcism battle ax in his hand, as if he had become an ancient troll god. The dark energy around him was surging, as if he could open up the world.

Ye Feng is simply unshakable at this moment!

The troll battle ax in his hand slashed hard again, instantly smashing the demon sword in the armored young man's hand into pieces.

Click, click...

Even the armor on the chest of the armored young man was broken into pieces, and a huge wound appeared.

Blood burst out from the armored young man's body, and he was seriously injured by Ye Feng's axe.

"What?!"

At this moment, the eyes of this armored young man, a super master of the Ten Thousand Demons Sect, were filled with horror.

He couldn't help but stare at the troll battle ax in Ye Feng's hand, and said in horror: "What kind of weapon is the ax in your hand? How can it have such terrifying power! This seems to be a kind of weapon." Weapons with dark attributes, you are a human being, how can you use the forbidden treasures of the ancient dark race?"

Ye Feng just sneered at this time and didn't bother to pay attention to it at all.

The armored young man exclaimed.

"Die!"

boom! !

At this time, Ye Feng held the troll battle ax in his hand, full of unparalleled power, and once again slashed crazily towards the armored middle-aged man. The entire void was chopped and collapsed, the space collapsed, and it was extremely dark. Like a black hole that can drown everything.

"ah!!"

This super master from the Ten Thousand Demons Sect, a young man wearing black armor, may be the strongest man dominating the land at the center of the God Realm.

But at this time, under the terrifying combat power of the troll battle ax in Ye Feng's hand, he had to die young. His whole body was directly broken into pieces by the troll battle ax in Ye Feng's hand, and he fell completely.

call!

At this time, Ye Feng finally let out a sigh of relief.

This creation-level master was finally killed by himself, and the crisis was resolved instantly.

At this time, Ye Feng felt that a lot of his power had been consumed.

He couldn't help but look at the extremely black troll battle ax in his hand, and felt that this ax must have been a very terrifying taboo weapon back then, full of terrifying and boundless power.

At this moment, Ye Feng felt that after the troll battle ax was stained with blood, it seemed that there was a terrifying evil energy about to burst out, as if it could tear the sky apart, which made Ye Feng feel a little shocked.

But no matter what, this troll battle ax was full of terrifying power, allowing Ye Feng to quickly defeat an extremely powerful opponent this time.

"Swallow!"

At this moment, Ye Feng did not hesitate at all, and directly released the devouring power, covering the killed armored young man in his devouring domain.

Chapter 2909 Swamp Monster

"Crash..."

Almost at this moment, streams of powerful blood energy were instantly absorbed by the Devouring Domain, and then injected into Ye Feng's own body, rapidly increasing his power.

The next moment, Ye Feng could feel that his cultivation skills were rapidly growing.

"boom!"

A huge aura of cultivation suddenly broke out on Ye Feng's body.

Ye Feng's cultivation at this moment once again broke through and he entered the sixth level of the Immortal Ascension Realm!

It has to be said that this armored young man from the Ten Thousand Demons Sect has very strong skills, which directly allowed Ye Feng to break through to the next level.

At this moment, after Ye Feng's cultivation level broke through, he left here without any hesitation. .???.??

Because Ye Feng knew very well that if he didn't leave, it was very likely that the Lord of Ten Thousand Demons from the Ten Thousand Demon Sect would come here.

Ye Feng was still very afraid of the extremely powerful Lord of Ten Thousand Demons.

After all, it is a powerful existence at the level of the Eternal Realm that has surpassed the Immortal Movement Realm and the Creation Realm. It is very terrifying and cannot be resisted by Ye Feng for the time being.

But Ye Feng is not afraid, because he knows that as long as he can find an extremely powerful opportunity in this ancient world, then his cultivation will continue to improve, and one day he will be able to fight against the Lord of Demons.

After Ye Feng left this lava land, he bypassed this primitive forest and came to the other side of the primitive forest.

Here is a very ancient area, full of poisonous miasma, and various deep water swamps and mire swamps, which look very dangerous.

However, Ye Feng still walked into this area.

Uh-huh!

And the moment Ye Feng just walked in, the quagmire suddenly exploded, and a green poisonous snake rushed out and rushed towards Ye Feng.

This green venomous snake is extremely venomous and difficult to guard against. Its sudden appearance catches people off guard.

But who is Ye Feng?

Ye Feng's powerful perception allowed him to react in an instant.

Uh-huh!

Almost at the next moment, Ye Feng stretched out a hand and grabbed the green poisonous snake.

"boom!"

The next moment, Ye Feng used force and crushed the green venomous snake in an instant.

"Boom..."

And at this time, suddenly there was another violent fluctuation, coming from a poisonous gas swamp not far away.

Almost at the next moment, Ye Feng saw a monster covered in pustules and exuding poisonous swamp gas, appearing in Ye Feng's field of vision.

This seems to be a monster born in this harsh place. It is exuding poisonous swamp gas and looks disgusting and ferocious.

"Roar!!"

At this moment, the swamp monster charged directly in the direction of Ye Feng and burst out with a roar.

boom! !

The next moment, a large amount of highly toxic swamp gas burst out of the swamp monster's bloody mouth.

The moment these highly toxic methane gases spread out, the surrounding environment turned into a highly toxic mess.

As long as they come into contact with this poisonous gas, whether they are trees, weeds, or some creatures living in the swamp, they will wither and die instantly.

Buzz!

At this moment, Ye Feng inhaled some highly toxic gas and felt that his entire body had become weak.

"What a terrifying poison. Even my Chaos Body is currently somewhat unable to resist it!"

Ye Feng's eyes were suddenly startled at this moment.

Sure enough, the creatures born in this extremely ancient world are all extremely terrifying. It is difficult to encounter such a powerful existence in the center of the God Realm.

However, Ye Feng's eyes showed excitement, because the more powerful the creature, the more nourishing it would be to him if he killed it.

After all, if Ye Feng wanted to find such a powerful creature to kill and devour in the center of the God Realm, he would probably have to challenge the elders of the major forces.

But that would be tantamount to courting death and is not realistic.

But in this ancient world, you can encounter such a powerful existence at any time.

"kill!"

At this moment, Ye Feng did not hesitate and directly released the poison-eating insects to protect himself from the poisonous gas.

Then a troll battle ax appeared in Ye Feng's hand, and he slashed hard at the swamp monster in front of him.

Now the most powerful thing in Ye Feng's hand is this troll battle ax.

Boom!

At this moment, the moment Ye Feng slashed out, a black ax light spread across the world, full of unparalleled power, suddenly burst out from the troll battle ax.

"Boom!"

Ye Feng held the troll battle ax in his hand and successfully chopped up all the poisonous swamp energy.

"Crash!"

But in the next moment, plant-like vines appeared on the swamp monster's body.

, as solid as iron, swept towards Ye Feng crazily.

And at the end of each vine, there is a vicious monster's mouth, full of dense silver fangs, which looks very vicious.

"Born Flame!"

Almost at this moment, Ye Feng immediately understood that this swamp monster should be a creature with wood attributes.

So at this moment, Ye Feng directly released his natal flame. Because his natal flame is of fire attribute, he should be able to restrain this wood attribute swamp monster.

Boom!

At this moment, after Ye Feng released his own fire, infinite and terrifying flames suddenly burst out from Ye Feng's body. In an instant, it swept the entire surrounding area and burned the entire sky. It looked very... of shock.

Because the level of Ye Feng's current natal flame is extremely high, once it is released, the burning power is very terrifying.

At this moment, endless flames immediately enveloped the swamp monster.

The vines emerging from the monster were instantly burned by Ye Feng's flames.

"howl!!"

The swamp monster immediately let out a miserable howl. It was obvious that the power of fire had a natural suppression on him.

When Ye Feng saw this scene, his eyes suddenly lit up with joy.

Sure enough, my guess was right.

His own natal flame is naturally destructive to this swamp monster.

Uh-huh!

At this moment, Ye Feng controlled his own flame to suppress the swamp monster, and flew directly in front of the swamp monster. Holding the troll battle ax in his hand, he slashed the swamp monster with a "puff" in an instant. Became two halves!

Chapter 2910 Coming in person

boom!

At this moment, after Ye Feng split the swamp monster in half, he directly released his devouring domain, swallowing up all the blood and energy of the swamp monster.

However, what makes Ye Feng a little disappointed is that although this swamp monster has good combat power and the poisonous energy it releases is very powerful, it does not have much blood energy in its body.

At this moment, after Ye Feng swallowed it, he did not strengthen his cultivation much, let alone achieve a breakthrough, but only improved his skill a little.

"It seems that you still need to look for monsters with sufficient blood and energy to kill and devour them, so that you can quickly increase your power."

At this time, Ye Feng thought in his heart, and the powerful soul power he emitted immediately began to spread around, looking for monsters with large blood energy fluctuations to kill.

Because Ye Feng doesn't need to sharpen his combat experience at all now. What he wants is to be able to find monsters with deep skills to kill, so that he can quickly grow his cultivation.

"Um?"

Under the exploration of Ye Feng's powerful soul power, he soon found a good target.

Uh-huh!

Ye Feng flew quickly in a certain direction in an instant. Half an hour later, Ye Feng came to a huge river.

The next moment, Ye Feng saw a huge bull-headed monster covered with blue scales lying in the river, seemingly recuperating.

"Buzz!"

At this moment, a very majestic and powerful demonic energy and blood energy radiated from the body of this huge blue-scaled bull-headed monster.

It felt to Ye Feng like a vast ocean of blood and energy contained in the body of this bull-headed monster, which made Ye Feng extremely coveted.

"Roar!!"

This bull-headed monster with green scales on its body naturally noticed the arrival of Ye Feng, an uninvited guest, at this moment.

It immediately roared and roared, charging directly towards Ye Feng, intending to tear the outsider Ye Feng into pieces.

Because the area here is the territory of this bull-headed monster.

When Ye Feng, a strange creature, arrived, he

However, the owner of the Minotaur must be expelled.

"Troll Axe!"

At this moment, Ye Feng didn't waste any time. He directly took out the extremely powerful weapon Troll Battle Ax from the storage ring, and then slashed hard at the charging bull-headed monster.

"when!!"

But at the next moment, the troll battle ax struck the bull-headed monster's horns, making a sound like a metal collision without splitting the bull-headed monster in half.

This made Ye Feng suddenly have a look of deep surprise in his eyes. He seemed to have never expected that the horns on the head of this bull-headed monster were so strong that they could withstand the powerful force of the ancient troll clan such as the troll battle axe. The slashing of the war soldiers.

"Since the horns on your head are so strong, then attack from other places."

Ye Feng directly activated the power of the space gem at this moment, allowing himself to teleport behind the bull-headed monster, and then slashed hard at the waist of the bull-headed monster.

"Pfft!"

Sure enough, although the waist of this bull-headed monster was also covered with blue scales, it was not as strong as the horns. A huge wound was cut directly by the troll's battle axe, and green blood immediately flowed out.

"howl!"

This bull-headed monster seemed to realize that Ye Feng was not easy to mess with, and immediately turned around and ran away, trying to escape from here.

Bang!

It has to be said that the impact of this bull-headed monster covered with blue scales was very terrifying. Even Ye Feng was knocked upside down by the bull-headed monster at this moment.

Seeing that the minotaur was about to run out of sight.

Ye Feng did not hesitate at this moment and directly activated the first level of ability that the space gem had just developed: interface barrier.

Buzz!

At this moment, Ye Feng stretched out his hand and faced the green-scaled minotaur that was escaping not far away.

The object was grabbed from afar.

Buzz!

Suddenly, layers of thick interface barriers appeared in the space around the Minotaur, filled with unparalleled solidity, directly trapping the Minotaur within the interface barriers.

Boom! !

This bull-headed monster tried to break through the constraints of this space, but to no avail.

Although the impact of the bull-headed monster was extremely terrifying, when it hit the interface barrier, it was directly bounced back. It hit its head and was bleeding, and there was no way to escape.

Because you must know that this is an interface barrier, not an ordinary space constraint. .??.

The interface barrier is very terrifying, very strong, and contains the power of the original world. Ordinary creatures cannot escape the shackles of the interface barrier.

"You can't escape."

Uh-huh!

Ye Feng flew directly in front of the bull-headed monster at this moment, then held the troll battle ax in his hand and slashed hard again.

"Pfft!"

This extremely powerful bull-headed monster was directly killed by Ye Feng with an axe.

Devour!

The next moment, Ye Feng did not hesitate and directly released his devouring ability, covering this extremely powerful bull-headed monster directly in his devouring domain.

Wow...

Suddenly, huge amounts of blood energy were directly absorbed by Ye Feng and injected into Ye Feng's body. Ye Feng's skill was immediately greatly improved.

The bull-headed monster hunted this time had very powerful blood energy. Although it did not directly break through Ye Feng's cultivation level, it increased Ye Feng's skill by a lot.

After Ye Feng finished devouring it, his eyes revealed a murderous light and he murmured.

"The hunt continues!"

...

Three days later, in the northwest area of the Swamp Land.

A noble Silver Moon Wolf King with silver hair all over its body was chopped off by Ye Feng with a troll axe, and then Ye Feng began to devour it.

"boom!"

The seventh heaven of the Immortal Ascension Realm!

...

Seven days later.

"Crash!"

Ye Feng released his natal flame, burning thousands of poisonous spiders in front of him in the endless flames, burning them to death instantly.

Then.

Ye Feng released the Devouring Domain and began to devour!

...

Half a month later.

In the ice and snow, Ye Feng fought fiercely at an altitude of 9,000 meters and killed a majestic frost dragon that was tens of thousands of feet long. The dragon's blood stained the entire ice and snow.

"boom!"

Ye Feng releases the Devouring Domain and continues to devour.

At this moment, Ye Feng's cultivation, with so many days of continuous hunting and devouring, finally accumulated and broke through to the tenth level of the Immortal Movement Realm, the Great Perfection!

It is only one step away from the Creation Realm above the Immortal Movement Realm!

This made Ye Feng very happy.

Sure enough, there are really many resources and evil beasts in this ancient world!

For Ye Feng, all of them are very rare and huge nutrients!

Buzz!

But just when Ye Feng swallowed the frost dragon and was about to leave from the ice and snow.

A huge and boundless aura of terror suddenly descended here.

"Young boy from the human race, I have finally found you. You are the one who killed a dozen of the protectors of my Ten Thousand Demons Sect, as well as my number one general! Today, you will die without a burial place!"

Accompanied by this majestic voice, a tall, middle-aged man with incomparable stature walked down step by step from high in the sky.

The aura of cultivation that he exudes is a super strong person at the level of the Eternal Realm that has surpassed the Immortal Movement Realm and the Creation Realm! !

"Lord of all demons!"

"He came in person!"

Ye Feng's eyes suddenly changed slightly at this moment.

Although I have made many breakthroughs in my cultivation during this period, I have not yet entered the Creation Realm.

Now I'm afraid it's impossible to deal with the Lord of Ten Thousand Demons at the Eternal Ancient Realm level!
