

Ancient 3211

Chapter 3211 Bei Wentian

"Rumble..."

At this time, along with the devouring, a stream of energy was directly absorbed from the two Xiao family masters and injected into Ye Feng's dantian, rapidly increasing his power.

I have to say that although these two masters from the Xiao family are not very good at fighting, they are still in the ninth level of the Open Heaven Realm.

Therefore, the energy contained in their bodies is quite abundant.

After Ye Feng absorbed it, his power suddenly felt much stronger.

However, these energies were ultimately not enough to allow Ye Feng to break through to the current Half-Step Open Heaven Realm, but it only increased Ye Feng's skills a lot.

At this time, Ye Feng felt that as long as he absorbed some more energy, he should be able to break through the current bottleneck of the Half-Step Open Heaven Realm.

After Ye Feng searched out the storage rings of these two Xiao family masters, he strode out of here.

Because the mysterious energy in the spring water in this stone room has been absorbed by himself, and all of it has been used to enhance the chaotic body, and it is of no use anymore.

However, Ye Feng felt that he still had to find a way to activate his most powerful Hongmeng bloodline as soon as possible.

Because the Chaos bloodline has now been promoted to the eighth heaven, it will still have a very huge effect and powerful lethality for a long time to come.

But maybe when Ye Feng enters a more advanced realm in the future, after the chaotic body enters the tenth level of perfection, it reaches its peak and cannot keep up with its use.

Therefore, Ye Feng felt that if he had the chance, he must awaken the Hongmeng bloodline. After all, the Hongmeng bloodline is the most powerful.

At this time, Ye Feng left the stone room and continued into the ancient cave outside, hoping to find the real treasures left by the Emperor of the Earth.

After all, this is an ancient relic left by the Emperor of the Earth. It is very rare, and no major forces have intervened in it yet. This is an excellent opportunity for Ye Feng.

After Ye Feng left the stone room, he came outside.

Buzz!

Ye Feng directly exuded powerful soul power and began to sense the energy fluctuations around him.

Because any rare thing, whether it is a magical medicine or a treasure, will emit specific energy fluctuations.

A normal warrior would definitely not be able to detect such obscure fluctuations.

But Ye Feng is a soul master, and his soul power is now very powerful, so he can sense it.

Ye Feng's soul power spreads out, just like Ye Feng has a radar to detect the surrounding area. He can detect those obscure energy fluctuations at any time, thereby finding precious treasures or other rare things.

In addition, the fusion of Emperor Chu and the Soul Gem can also greatly enhance this detection ability.

In the next few days, Ye Feng

It was a quick shuttle in the cave of this ancient ruins.

Ye Feng encountered many ancient puppets on the road, which should have been created by the Emperor of the Earth who built this underground ancient ruins.

These puppets are as if they are made of divine iron and are very strong.

Even Ye Feng's current chaotic body was unable to smash them into pieces.

In the end, Ye Feng used the soul master's method to directly destroy these puppet centers, and then took control of them himself.

This can be considered a big gain.

After all, these puppets are like warriors who are not afraid of death. When facing the enemy, or when exploring some dangerous situations, they can be allowed to attack and explore first.

In addition, Ye Feng also encountered some demonic beasts in this ancient ruins.

This made Ye Feng feel a little wary in his heart.

Could it be that there are still traces of demons in the ancient ruins left by the Earth Emperor?

You must know that in the Star Territory, the Galaxy Dynasty has a very terrifying enemy, and that is the Demon Realm.

The Heavenly Demons in the Heavenly Demon Realm are very terrifying.

When Ye Feng and Princess Meng'er were ascending, they were almost interrupted by the demon masters in the Heavenly Demon Realm and died in the turbulence of the void.

Therefore, Ye Feng is still quite afraid of the Demon Realm.

Of course, Ye Feng also had a cold look in his heart.

If he encounters a demon in the Demon Realm, Ye Feng will kill them without hesitation.

Ye Feng would do this whether it was for the righteousness of the human race or for his own personal grudges with the demon world.

"Poof!"

"Poof!"

At this moment, Ye Feng released several rays of sword light, and after killing several demon beasts that rushed in front of him, he frowned.

Ye Feng sensed some obscure energy fluctuations, coming from the dark depths ahead.

But the further Ye Feng walked towards the depths of darkness, the more terrifying the monsters and beasts that emerged around him became more and more numerous.

This made Ye Feng suddenly feel that what he was detecting at this moment was not a treasure left by the Emperor of the Earth, but probably something related to the Demon Clan.

This made Ye Feng hesitate a little as to whether he should move on.

Because Ye Feng's current cultivation level is actually not very powerful in the Star Territory, he can only be considered an ordinary master.

If you rashly enter this darkness,

Here, I encountered some very scary demons.

Then I guess my life will be decided here.

Therefore, Ye Feng was still very hesitant at this time whether to continue going deeper.

After all, Ye Feng came to the ruins of the Earth Emperor this time to find the treasures left by the Earth Emperor, a legendary figure in the human race.

Ye Feng was actually not that interested in taking the risk to explore the belongings of the Heavenly Demon clan that might be left behind in the Heavenly Demon Realm. Moreover, there might be great dangers in it, and he might even lose his life.

"Human race...Human race...Young man, are you a human race?"

But just when Ye Feng was about to turn around and leave, an ancient voice suddenly sounded in Ye Feng's ears.

This voice was very old and weak, with a deep exhaustion, but also a sense of eternal vicissitudes.

Ye Feng listened to the old and tired voice in his ears, and suddenly his eyes moved, and he couldn't help but look into the dark depths not far away.

Because that ancient voice came from the direction of this dark depth.

Ye Feng immediately couldn't help but responded: "Your Excellency, are you a human? Are you a demon?"

"Of course it's people..."

The ancient voice seemed stunned for a moment, and then continued to slowly ring in Ye Feng's ears: "I am a member of the largest sect in the Northern Wilderness of the Star Territory, the Five Emperors Divine Sect, called Bei Wentian."

"Bei Wentian!"

Suddenly at this moment, Emperor Chu's very surprised voice sounded in Ye Feng's mind: "Bei Wentian, this is a legendary figure in the Star Territory three thousand years ago. Among the Five Emperors and Divine Sect, he is the only one who can rival the five. The strength of the Great

Emperor is a super powerful existence known as the 'Sixth Emperor' throughout the ages. The most important thing is that Bei Wentian seems to have mastered a very mysterious secret method. Even the memory fragments of my awakening do not know this. What is this mysterious secret method, but this mysterious secret method allows Bei Wentian to explode into several realms of power, which is the key to making Bei Wentian aspire to the Five Emperors Divine Sect. "

When Ye Feng heard what Emperor Chu said, he was immediately shocked. He didn't expect that Bei Wentian was so famous in the Star Territory. Even Emperor Chu's memory fragments contained records about Bei Wentian.

It seems that this is really an ancient big shot.

But at this time, Ye Feng asked with some doubts in his mind: "Isn't the most powerful force in the Star Territory the Galaxy Dynasty? It is a unified dynasty. The Five Emperors Divine Sect sounds like it is very huge. What does it look like? exist?"

Emperor Chu said aloud: "The Star Territory is a very huge second-level world. Except for Zhou

There are two areas of land controlled by the human race, the endless wilderness, and the demonic world that is attached to it and are eyeing it. The most central one is the unifying dynasty of the Galaxy Dynasty. In addition to the central land, there is also an adjacent area in the star area. The 'Northern Wilderness' area of the endless wilderness. "

Ye Feng's eyes moved and he asked: "Beihuang?"

Emperor Chu continued: "Yes, the most powerful sect in the Northern Wilderness is the Five Emperors Divine Sect. Although the overall foundation of the Five Emperors Divine Sect is not as good as that of the Galaxy Dynasty in the most central area, the five great emperors in the Five Emperors Divine Sect, including Bei Wentian, the Sixth Emperor's reputation has spread throughout the entire Star Territory. Even some of the demon giants in the Heavenly Demon Realm do not dare to rashly provoke these human emperors, so in the Northern Wilderness, the Five Emperors Divine Sect is definitely a hegemon-level existence. Even the Galaxy Dynasty is very afraid of the Five Emperors Divine Sect in Beihuang. If it were not for the extremely ferocious beasts in the endless wilderness and the threats from the demon world, it is estimated that among the human race, there has been internal fighting for a long time. There will definitely be a war between the Galaxy Dynasty and the Five Emperors Divine Sect. However, due to the threat from the Heavenly Demon Realm and the eye-catching gaze of countless beast gods in the endless wilderness, these two great human forces are temporarily in a state of insecurity. A state of tacit alliance cooperation without internal strife."

When Ye Feng heard the popularity of Emperor Chu, he immediately had a basic understanding of the entire Star Territory.

It seems that the Star Territory is not as simple as I thought before, it is simply full of dangers.

At this moment, Ye Feng asked in his mind: "Emperor Chu, do you think I should go into the depths of darkness to see what kind of situation Bei Wentian is in now? He is probably trapped in To be able to trap such an earth-shattering figure, it is estimated that something terrible happened here three thousand years ago. "

Emperor Chu spoke up and said: "Bei Wentian was called the 'Northern Emperor'. He had a pretty good reputation in the Northern Wilderness three thousand years ago. When he became a human race, he made great contributions to the Hummer and successfully resisted the attacks of many giants of the demon world. The attack also penetrated deep into the wilderness and killed several beast gods. The combat power was so powerful that it shocked the five oldest emperors in the Five Emperors Sect since ancient times. Now Bei Wentian has been trapped here for three thousand years. , disappeared. It is estimated that the world has almost forgotten this 'North Emperor' who once amazed an era. Ye Feng, I think you can go in and take a look. Three thousand years have passed, and there is probably no big danger inside. , Moreover, Bei Wentian possesses the most powerful attack secret method in all eternity that even the Galaxy Emperor of the Galaxy Dynasty is very interested in. If Ye Feng has the opportunity to obtain this secret method, your overall strength will be greatly improved. , I think you can go in and take a look. It's really dangerous. If you don't, then exit. Anyway, you have the space gem on you. There are very few dangers in the world that can trap you. "

Hearing this, Ye Feng thought about the pros and cons, then nodded slightly and walked towards the depths of darkness.

Chapter 3212 The Bat Clan

The moment Ye Feng walked into the depths of darkness, he immediately sensed a very strong demonic energy spreading around him.

Ye Feng immediately understood that this place should have been a place where the very ferocious demons lived.

I don't know why, this extremely powerful Bei Wentian came here, and probably a very terrible battle broke out, and then he was trapped in it for three thousand years without dying. His vitality was extremely tenacious.

So Ye Feng is still very interested in Bei Wentian.

Such a powerful human being has been trapped here for three thousand years. If he had the ability, Ye Feng would definitely rescue him.

Once a peerless powerhouse like Bei Wentian could return to the world, it would not only be of great significance to the human race, but would also be of great benefit to himself.

With such a strong man supporting him behind him, his future path in the Star Territory will definitely be clearer.

So no matter what the consideration was, Ye Feng naturally had to go into the depths of darkness at this time to see what was going on.

"Tap, step, step..."

In this dark cave, only Ye Feng's footsteps could be heard at this moment.

There was silence everywhere, and it looked like a dead silence, which made people feel frightened.

However, Ye Feng has experienced many storms and waves since he entered the path of spiritual practice.

Therefore, this situation does not put any psychological pressure on Ye Feng.

Ye Feng continued to walk inside, following the guidance of the ancient voice in his ears.

Uh-huh!

Suddenly at this moment, a very fast figure suddenly burst out from the surrounding darkness, revealing its shining fangs in the darkness, and rushed directly towards Ye Feng, towards Ye Feng's neck. Bite through.

"what?"

Ye Feng immediately sensed this figure at this moment, and subconsciously punched the side. \u003c

br\u003e

Ye Feng didn't need to use any weapons at this time, because his chaotic body was already powerful enough.

When he really encountered an existence that the Chaos Body could not contend with, Ye Feng planned to use the ancient bronze sword that the Lord of the Eastern Region had given him before, which was the Ancient Human Emperor Sword.

But there is no need to use it yet.

boom!

And almost at the next moment, Ye Feng immediately felt his fist, as if it hit the top of a very strong weapon. It was very sharp, causing Ye Feng's chaotic body to feel a trace of pain. .

However, the thing that came out of the darkness was knocked to the side by Ye Feng and did not cause any harm to Ye Feng.

"What a big bat!"

At this time, Ye Feng used the Divine Eye of Creation, and he immediately saw what he saw in the darkness. It turned out to be a creature like a humanoid bat.

Just like the vampire bat in ancient legends, it is very big, as big as a person, and very terrifying.

Emperor Chu's voice rang in his mind: "This seems to be a clan of vampire bats in the demon world. Although it gives people a very weird feeling, their combat effectiveness is not strong and they can only attack in the dark. But for Ye Feng, it's not a big problem for you. After all, Ye Feng, you are a soul master and your perception is very strong. This kind of vampire bat that relies on sneak attacks is not a big threat to you. "

When Ye Feng heard what Emperor Chu said, he immediately nodded and couldn't help but said: "It seems that my guess is right. This was indeed a place where many demons in the Demon Realm once stayed. Otherwise, it would not be so sinister." It was very dense, and there was also a clan of vampire bats in the Heavenly Demon Realm. It is estimated that the senior Bei Wentian really had a fierce battle with the demon giants in the Heavenly Demon Realm here, but this is the earth.

Regarding the relics of the Emperor, could it be that they did not have a personal grudge back then, but were trying to rob the treasures left by the Emperor of the Earth? "

At this moment, Ye Feng was thinking in his heart, of course, all this is just speculation. The specific situation will have to wait until he meets Bei Wentian, an ancient senior.

"Roar!"

At this moment, seeing Ye Feng standing there without moving, the vampire bat suddenly roared.

Swish, swish, swish!

Swish, swish, swish!

Almost at the moment when the vampire bat roared, a dozen or even dozens of vampire bats flew over from the dark surroundings.

Each one is human-sized, with black wings spread out. They look very scary, and their mouths are full of fangs.

Obviously, this vampire bat knew that it was no match for Ye Feng, so it called out all its surrounding companions at this time, intending to kill this powerful human being and then absorb its blood.

Ye Feng saw dozens of vampire bats gathering over, but there was not much fear in his eyes.

Although these vampire bats are all a kind of demons in the demon world, their bodies are very strong, and even their own chaotic bodies cannot break them into pieces.

But you must know that this kind of vampire bat is a creature of the dark and is very afraid of fire.

So at this moment, Ye Feng directly released his natal fire without any hesitation.

boom! !

You must know that Ye Feng's current natal fire is very powerful. It is formed by the fusion of many different types of special flames from heaven and earth. It has incredible power and its burning attribute is extremely powerful.

At this moment, in addition to releasing his natal fire, Ye Feng also activated the flame ancestral talisman he had obtained before, greatly strengthening his natal fire.

Boom!

So almost

At the next moment, Ye Feng's body suddenly erupted with terrifying flame power, forming a sea of fire.

Ye Feng seemed to have become a flame king. He looked very noble, and he directly released endless flames, burning the sky with thousands of fires.

The endless flames enveloped the dozens of vampire bats in an instant.

The intense flame illuminated the entire dark cave very brightly.

"howl!"

"howl!"

"howl!"

Dozens of vampire bats were enveloped by Ye Feng's infinite sea of fire before they even made a move, burning and howling rapidly.

I have to say that these dozens of vampire bats are very unlucky.

If they encountered ordinary human masters, their sneak attack would have been successful.

Even if the sneak attack is unsuccessful, dozens of vampire bats using human sea tactics together can still kill the human masters.

But what they met was Ye Feng.

Ye Feng has too many tricks.

Flame method is one of Ye Feng's powerful trump cards.

At this time, the terrifying sea of flames was released, which immediately cured the dozens of vampire bats.

"Devouring the Realm!"

At this moment, Ye Feng directly released his devouring power.

He absorbed the blood energy of these vampire bats, and his eyes suddenly lit up.

"The energy of these vampire bats is very high-level. They are worthy of being demon creatures from the second-level realm of demons. Their energy is very high-level!"

Almost at the next moment, Ye Feng burst out with a powerful momentum.

That's the momentum of a breakthrough!

Ye Feng finally succeeded in accumulating his skills, achieved transformation, broke through the half-step of the Open Heaven Realm, and stepped into the true first level of the Open Heaven Realm!

Chapter 3213 The place of inheritance

When Ye Feng's cultivation entered the first level of Kaitian Realm, he immediately felt that his strength had been greatly enhanced.

It must be said that the gap between the half-step Kaitian Realm and the real first level of Kaitian Realm is still very large, as if crossing a huge chasm.

Ye Feng's strength has once again reached a new level.

At this moment, Ye Feng looked at the dried-up vampire bat corpses around him and continued to walk towards the deepest part of this dark cave.

On the way, Ye Feng encountered many other demons from the Heavenly Demon Realm one after another.

Not only the vampire bat clan, but also several other demons from the Heavenly Demon Realm, such as the red-scaled demon, the silver-horned Yaksha, etc.

This made Ye Feng understand that the Heavenly Demon Realm is worthy of being the number one enemy of the Xinghe Dynasty and the number one enemy of the entire Star Domain Human Race.

There are too many types of demons in the Heavenly Demon Realm, and each type of demon has its own unique talents and abilities.

If it weren't for Ye Feng's many means, Ye Feng might not be able to move forward in this dark cave.

Ye Feng absorbed a lot of high-level energy cultivation from the demons of the Heavenly Demon Realm along the way, and broke through from the first level of the Kaitian Realm to the third level of the Kaitian Realm, which was a good harvest.

When Ye Feng came to the deepest part of this dark cave, he was immediately shocked by the scene in front of him.

On a huge wall, there was a skeleton with little flesh and blood on it.

Above the head of this skeleton, there was a ray of soul light.

The soul light was composed of an old man who looked very old.

Ye Feng guessed that this old man should be the peerless figure of the Five Emperors Divine Sect who was whispering in his ear, Bei Wentian, the Northern Emperor.

Tat tat tat...

At this time, Ye Feng walked up directly and looked at this miserable skeleton with a trace of shock in his eyes.

It was hard to imagine what kind of tragic battle and fighting had happened back then, and in the end, Bei Wentian, the peerless and powerful man, was attacked into such a miserable and desolate appearance.

Who would have thought that the sixth emperor of the Five Emperors Divine Sect, the Beidi, who was once so powerful and omnipresent throughout the Northern Wilderness, is now lingering in this dark underground cave nest.

At this time, Ye Feng stepped forward. He couldn't help but ask, "Are you the senior Bei Wentian who sent me a message?"

The old man with the Yuanshen on the top of the skull nodded immediately and said, "Yes, I am Bei Wentian."

When Ye Feng heard what the old man with the Yuanshen said, he immediately clasped his fists slightly and said, "Senior called me here, is there anything you want to tell me?"

Ye Feng knew that the reason why Bei Wentian called him here must be that he had something very serious to tell him.

The old man's soul on the skull stared at Ye Feng and couldn't help but say: "I saw everything you did just now. You have an extraordinary talent and master a very powerful secret technique that can greatly accumulate your strength. Although your current cultivation is not that strong, I think you will definitely grow to a very powerful level in the future. Over the years, many other people have come here, but they all failed." Ye Feng heard Bei Wentian say this, and immediately a look of surprise appeared in his eyes, and he couldn't help asking: "They all failed, what do you mean?" Bei Wentian's soul pointed to a certain direction not far away at this moment, and said: "In the area at the end of the darkness, there is a place of inheritance left by the Emperor of the Earth." Ye Feng's eyes were shocked when he heard this. The inheritance of the Emperor of the Earth is actually here! Bei Wentian nodded, and then continued: "The inheritance place of the Great Earth Emperor was found by me and a demon giant from the Heavenly Demon Realm at the same time. We both fought for it. Although I killed the demon giant, I became so miserable. I hope you can enter the final inheritance place left by the Great Earth Emperor and get his recognition. In this way, I can escape from this dark prison." Ye Feng was surprised when he heard this, and couldn't help asking: "Does the Great Earth Emperor still have his own will?" Bei Wentian nodded and said: "The reason why I am trapped here and can't get out is that , not only is the injury serious, but also a very important point is that I fought with the demon giant of the Heavenly Demon Realm, which violated the majesty of the Earth Emperor, so I was sealed here by the Earth Emperor. Many people have come here before, and many people have been selected by me and guided to the inheritance place of the Earth Emperor, but without exception, they all failed. "

When Ye Feng heard Bei Wentian say this, he couldn't help but move his eyes: "The final inheritance place of the Earth Emperor is not far from here?"

However, the talents who can be selected by Bei Wentian must be peerless geniuses, and they are probably stronger and more talented than himself.

Ye Feng couldn't help asking: "What is the result of failure?"

Bei Wentian said slowly: "It's death, because the Earth Emperor will not let anyone who has seen his final inheritance place leave here alive. The reason why I am still alive is because the Earth Emperor's will pities me. He felt that I was a rare super genius in the human race. It would be a pity to kill him. However, he did not take a fancy to me and did not pass on the inheritance of the Emperor of the Earth to me. He just left me trapped here. I don't know the earth. What does the emperor mean by trapping me like this? Maybe it's to temper me, or maybe it's a punishment, haha."

When Bei Wentian said this, he couldn't help but smile bitterly.

He was high-spirited. Three thousand years ago, he was the most powerful in the Northern Wilderness, and he also obtained the most mysterious and powerful No. 1 attack technique in all eternity.

It's been smooth sailing almost all my life.

\u003e

But when he arrived at the Emperor of the Earth, he was not favored by the Emperor of the Earth. He was inexplicably trapped here for three thousand years, which dealt a severe blow to Bei Wentian, a peerless figure.

Over the past three thousand years, Bei Wentian has lost the sharpness of the past and gained endless vicissitudes and composure.

Perhaps, this may also be a good thing for Bei Wentian.

At this moment, when he heard Bei Wentian say this, Ye Feng suddenly showed a hint of surprise in his eyes.

I didn't expect that the Emperor of the Earth would be such a guy who likes to torture people.

However, even beings like Bei Wentian were in awe of the Earth Emperor.

This legendary Emperor of the Earth was probably indeed an unparalleled figure throughout the ages. Even the Emperor of Chu was full of praise for the Emperor of the Earth.

Ye Feng knew that the road ahead might be very difficult.

But at this time, he still wanted to give it a try.

Not only to save this senior Bei Wentian, but also to consider his own future.

Because if I can get the approval of a legendary figure like the Earth Emperor, then I will be equivalent to getting a huge trump card in the star field.

Because according to what Emperor Chu said, the Emperor of the Earth was extremely respected by every emperor of the Galaxy Dynasty.

The Emperor of the Earth is a legendary figure in the entire Star Territory.

The inheritance of the Earth Emperor is estimated to be comparable to the ultimate inheritance of the Galaxy Dynasty, the Great Galaxy Eternal Magic.

And just when Ye Feng was thinking, Bei Wentian's next words strengthened Ye Feng's determination to give it a try.

Bei Wentian slowly spoke out: "Young man, if you can succeed, then I will teach you the unique and most powerful attack secret technique that I control, the 'Eternal Battle Technique'. , you will be the only inheritor of this set of the most powerful attack secrets in the ages."

Chapter 3214 Ancient Stone Sculpture

"The art of eternal great battle?"

When Ye Feng heard what Bei Wentian said, his eyes suddenly showed a trace of deep excitement.

It turns out that Bei Wentian controls the most mysterious battle secret technique of all time, which even Emperor Chu does not know very well, is called "The Technique of the Great Battle of Eternity"!

You must know that the reason why Bei Wentian became the sixth emperor of the Five Emperors Divine Sect and the powerful Northern Wilderness plate in the entire star field was because of this set of the first combat secrets in the ages, which allowed Bei Wentian to possess far beyond ordinary powers. man's fighting power.

You know, Ye Feng can only use various methods to fight across a large realm and kill the enemy.

But Bei Wentian relied on this set of the first secret combat method in all eternity to be able to fight across several realms, which was really amazing.

Therefore, Bei Wentian's promise at this time made Ye Feng more determined to go to the inheritance place of the Earth Emperor. ??

At this time, Ye Feng clasped his fists at Bei Wentian in front of him, and then said aloud: "I have remembered the words of the seniors in my heart. Next, I will try to go to the inheritance place of the Emperor of the Earth to see if I have any No more luck."

Bei Wentian suddenly continued to speak at this time: "I have said before that once you are not recognized by the Emperor of the Earth, the Emperor of the Earth will not let you leave his inheritance place alive, because the inheritance place is It can't be leaked, so this time is very dangerous. You still have a choice now to leave here safely. "

Ye Feng thought for a moment after hearing this, then grinned and said loudly: "If I just give up like this, I won't come here from a very low-level world."

Uh-huh!

After saying that, Ye Feng turned around and walked towards the depths of darkness.

That direction is the direction of the inheritance place of the Earth Emperor.

Bei Wentian, who was standing there, looked at Ye Feng's resolute retreating figure, with a trace of approval in his eyes.

Because Bei Wentian has told Ye Feng all the dangers, many peerless

Wizards, even those with more talent than Ye Feng, all failed.

But Ye Feng still resolutely went to the inheritance place of the Earth Emperor, even if the outcome may be death.

This kind of courage is not something ordinary people can achieve.

Bei Wentian is also very confident in Ye Feng.

Because he always felt that although Ye Feng, a young man, was not strong in cultivation and could even be called weak, he always felt that Ye Feng had a special temperament.

That is a very trustworthy temperament.

Bei Wentian couldn't explain why.

But it just feels like this.

"Maybe he is really the destined one... It has been three thousand years, I have waited too long..."

Bei Wentian couldn't help but murmured softly at this time.

And while Bei Wentian was waiting silently, Ye Feng was walking alone into the depths of darkness.

When he came to the end of the dark passage, he immediately saw a very shocking scene.

At the end of this dark passage, there is an endless starry sky and universe area.

Ye Feng felt like he was a little reptile, suddenly enlightened from the dark passage, and came to an endless starry sky.

In this starry sky, there is a huge floor floating.

On this large floor, a majestic pyramid measuring tens of thousands of feet was built, which looked very shocking.

Ye Feng seemed to feel that he had arrived in the era of myths and legends and saw the buildings in myths and legends.

Uh-huh!

At this time, Ye Feng flew into the starry sky and quickly headed towards a huge and majestic pyramid there.

fly away.

The closer Ye Feng got to that huge pyramid, the more Ye Feng felt the vast and vast weight of the times, pressing towards him.

However, Ye Feng's mental power is very strong, and he is not so oppressed by the pressure of the myth of the era that he cannot get close to him.

The moment Ye Feng stepped onto the continent floating in the starry sky, he immediately felt that he was standing in front of the tall and majestic pyramid, just like an ant facing a legendary ancient giant.

"Is this the inheritance place left by the Emperor of Earth?"

There was a hint of shock in Ye Feng's eyes.

This Emperor of the Earth is really generous.

With the mighty power of the sky, he did not know where he had taken in such a huge block of floor, and directly tore off a piece of starry sky, and combined it here to become his own inheritance place.

At this time, Ye Feng was hesitating whether he should directly enter the majestic and boundless pyramid in front of him.

Buzz!

But suddenly at this moment, a door made of light suddenly appeared on the bottom layer of the pyramid, seeming to guide Ye Feng to enter.

Ye Feng saw this door made of light, his eyes moved slightly, and he walked directly towards this door.

Buzz!

When Ye Feng crossed the door made of light, he immediately saw the scene inside the entire pyramid.

Inside the huge and majestic pyramid, sculptures of ancient giants appeared.

The sculptures of these ancient giants are very majestic and seem to be tens of millions of years old or even more distant.

In addition, Ye Feng also saw around him not only sculptures of ancient giants, but also many evil beasts of various forms from ancient times, as well as sculptures of mythical beasts.

r\u003e

The internal space of the entire pyramid is very vast, and so many sculptures of gods from ancient times have been built, which is like presenting the scenes of that era of myths and legends before the eyes of the world.

"Senior Earth Emperor? Are you here?"

Ye Feng shouted to the surroundings at this time, trying to find the will of the Emperor of the Earth.

But after Ye Feng finished speaking, he waited for a long time without getting any response.

This made Ye Feng's eyes show a trace of confusion, not knowing how to accept the test of the Emperor of the Earth.

Emperor Chu suddenly said aloud in his mind: "Ye Feng, you continue to walk inside. I sensed a special energy wave coming from inside."

When Ye Feng heard what Emperor Chu said, he immediately nodded slightly and continued walking towards the inner space of this huge pyramid.

As Ye Feng walked, he saw densely packed sculptures continuing to appear on the surrounding land.

These stone statues and sculptures are in the form of various races, including ancient giants, ancient mythical beasts, ancient evil beasts, ancient angels, and dragon knights. They are simply a collection of many races that Ye Feng had never thought of.

The only thing they have in common is that they are very large, and each statue is lifelike, as if they really live here.

"The predecessors of these huge sculptures are probably followers of the Earth Emperor." Emperor Chu suddenly spoke in his mind.

"What?"

When Ye Feng heard this, his eyes widened immediately: "This Emperor of the Earth actually has so many ancient and powerful followers. It seems that the strength of the Emperor of the Earth back then was really terrifying to the extreme."

But it's normal to think about it. Only such an earth-shattering ancient figure can make Bei Wentian and a demon giant in the demon world fight fiercely for it. In the end, one fell and the other was miserable.

Chapter 3215 The test begins

At this time, Ye Feng was looking forward to the inheritance of the Emperor of the Earth more and more.

Because this Emperor of the Earth may be more terrifying than he imagined.

To be able to command so many ancient giants and ancient beasts in ancient times is as powerful as the king of the gods.

I don't know if this earth emperor has reached the realm of dominion.

But even if they don't arrive, they are definitely among the strongest ones under the Lord.

Uh-huh!

At this moment, Ye Feng immediately continued to move quickly towards the inner space of this majestic pyramid.

Soon, Ye Feng reached the deepest part and discovered a huge giant of light, whose entire body was composed of bright yellow light, floating in the deepest space of the pyramid.

There are three divine rings on the top of this bright yellow giant of light. Each divine ring seems to contain a small world, giving people a feeling of ever-changing and unfathomable.

The moment Ye Feng arrived here, he immediately sensed this huge giant of light, which contained a huge energy aura, making Ye Feng feel like he had encountered the legendary supreme god.

At this moment, Ye Feng simply cupped his fists and said: "Junior Ye Feng, I came here specifically to accept the test of the senior Earth Emperor."

After Ye Feng's words fell, the bright yellow giant of light immediately spoke out: "I am not the Emperor of the Earth, I am the guardian of the true inheritance place of the Emperor of the Earth. This pyramid, including countless The giant statue is just a building outside the inheritance place. The real inheritance place of the Earth Emperor is behind me."

Uh-huh!

When Ye Feng heard what the giant of light said at this moment, he immediately looked behind him.

He discovered that there was a huge arch bridge there.

The other end of the arch bridge is connected to somewhere, and there is no end in sight.

The Giant of Light spoke slowly: "If you want to enter the final inheritance place of the Earth Emperor, then you have to walk through this arch bridge that is hundreds of thousands of kilometers long. Various things may appear on the arch bridge at any time. Such danger, that is the Emperor of the Earth

For your test, many geniuses have already died on the bridge and become a withered skeleton before they have even reached the halfway point of the arch bridge. That means failure, and once you step onto this arch bridge, there will be no There is no way to turn back. Once you turn back, you will be obliterated by the will of the Earth Emperor. So young man, you still have a chance to choose. Do you want to step into this arch bridge? "

Ye Feng was silent for a moment, and then walked directly towards the arch bridge without saying a word.

Seeing this, the Giant of Light smiled slightly and said: "It seems that you have made your choice. In fact, this is also a test. If you don't enter this arch bridge and choose to leave at this time, you will be instantly obliterated."

When Ye Feng heard this giant of light say this, the corners of his mouth twitched slightly.

He looked around and found that there were indeed many skeletons scattered around the giant of light. Ye Feng didn't even see them when he came here before.

It seems that this Emperor of the Earth is really a guy who cannot grasp his mentality.

Ye Feng nodded slightly at this time, and then stepped directly onto the huge arch bridge.

Buzz!

When Ye Feng took the first step onto the arch bridge and looked towards the other end of the arch bridge, he found that everything he saw was dark. He couldn't see where the end of the bridge was, nor could he see what the arch bridge contained. What kind of dangers are there, all dangers are hidden in the darkness.

However, Ye Feng took a deep breath at this time and continued walking towards the other end of the arch bridge.

No matter what, we have already arrived here, so there is no possibility of retreat.

Because once they retreat, they will be obliterated by the will of the Earth Emperor.

And Ye Feng is also very determined to obtain the inheritance of this Earth Emperor.

Ye Feng knew very well that he had just arrived in the Star Territory and his cultivation base was still very weak, but his time was limited, only three years.

So if you want

You must find the big man behind the scenes who has placed an evil curse on you as soon as possible. If you want to fight against him, you must use any means to quickly improve your strength.

In this case, only after arriving at the Galaxy Dynasty can he have the right to speak and take the initiative.

Ye Feng knew very well that if he only relied on Princess Meng'er, it would probably not be of much use.

After all, a backer is just a backer and can help you solve some minor troubles.

But if you really encounter some very huge crises, your backers cannot be relied on, and you still have to rely on your own strength to determine your own destiny.

Ye Feng realized this very early.

So although Ye Feng sometimes likes to find a backer, in the end Ye Feng knows that everything still needs to rely on his own strength.

Regardless of whether it is a backer or a force to join, the ultimate goal is to improve one's own strength.

Because in the martial arts world, only one's own strength is strong enough to control everything, otherwise everything is empty.

"call!"

At this time, Ye Feng took a deep breath and quickened his pace.

Ye Feng was still exuding his huge soul power at this moment, and was alert to dangers that might appear at any time around him.

"Buzz!"

Sure enough, just a few minutes after Ye Feng was walking on the arch bridge, an evil dragon with a length of several kilometers suddenly rushed out from the darkness and rushed out from the dark river under the arch bridge. He opened his big mouth and bit at Ye Feng, trying to swallow Ye Feng.

This evil dragon has a very tragic and ferocious aura. It is definitely an evil beast from ancient times.

The cultivation power of this evil dragon is located in the tenth level of the Open Heaven Realm, Great Perfection, and it is an evil beast from ancient times, possessing unusually powerful power.

This made Ye Feng couldn't help but take a breath of air.

Although Ye Feng can easily deal with this evil dragon with his current strength.

After all, Ye Feng's current cultivation level is also at the third level of Open Heaven Realm.

But Ye Feng was shocked

To his surprise, he had just walked on this arch bridge for a few minutes when such a powerful evil beast attacked him.

This arch bridge is truly hundreds of thousands of kilometers long.

At Ye Feng's speed, it would take him several days and nights to walk.

Then it is hard to imagine how terrifying the tests and dangers that Ye Feng will encounter next are!

"boom!"

The next moment, Ye Feng swung out a punch and knocked the evil dragon unconscious on the arch bridge.

The dragon's roar stopped abruptly.

Like a dead dog, he lay on the arch bridge in front of Ye Feng and was knocked unconscious by Ye Feng's punch.

The first test and danger did not have much impact on Ye Feng

But Ye Feng's eyes became more and more solemn.

Because he knew that the next road would be difficult to walk, and it would become increasingly difficult.

Uh-huh!

But no matter what, Ye Feng had no way of turning back at this time and could only bite the bullet and move forward.

Ye Feng put the evil dragon into his storage ring, and then swallowed it secretly.

Ye Feng's skill instantly increased a lot, and he actually broke through from the third level of the Open Heaven Realm to the fourth level of the Open Heaven Realm.

"Um?"

This made Ye Feng's eyes light up slightly, because if Ye Feng swallowed ordinary creatures of the same realm, he would probably not be able to break through instantly.

But this evil dragon made Ye Feng directly break through the first level of the sky, which shows that the energy contained in this evil dragon is very huge.

"As expected of a creature from ancient times."

Ye Feng couldn't help but look slightly happy.

But it's normal to think about it. The evil beasts living in the dark river under this arch bridge were probably put in by the Emperor of the Earth at that time, in order to test the proud people of heaven who could accept his inheritance in the future.

Therefore, each of these evil beasts must be very ancient, contain powerful and rare blood, and the blood energy is naturally very rich and advanced.

Chapter 3216 Snow Lotus

At this time, Ye Feng continued to move towards the front of the arch bridge.

"boom!"

In less than a moment, several evil beasts once again rushed out of the dark river under the arch bridge.

These evil beasts were extremely ferocious, and Ye Feng couldn't even identify what kind of evil beasts they were. They were definitely creatures from ancient times.

These evil beasts have been living in this dark river for an unknown length of time, and now they have emerged, exuding an evil aura.

Ye Feng understood immediately. It seemed that the Earth Emperor's assessment was to verify a person's true combat power.

But this is just the beginning, and there may be other tests next.

But Ye Feng liked this initial test very much, because although these evil beasts were stronger than him in cultivation, Ye Feng could leapfrog and fight.

After killing these evil beasts, devouring their power was of great help to Ye Feng.

So for Ye Feng, this is not only a test, but also a good opportunity for Ye Feng to improve his cultivation. There are not so many high-level evil beasts that survived from the ancient times to devour for him outside.

"This is such a great place."

Ye Feng couldn't help but sigh.

If these words were heard by those fallen geniuses who came to the inheritance land of the Earth Emperor, they would definitely curse.

Uh-huh! Uh-huh! Uh-huh!

At this moment, there were three evil beasts rushing towards Ye Feng, all with very different shapes.

But every evil beast has a level of cultivation that is half a step beyond the Kaitian realm.

It was much more powerful than the evil dragon that Ye Feng killed in an instant.

Ye Feng still didn't use any moves at this time, he just punched out three fists in a row.

The three punches all hit the three evil beasts hard.

The entire field suddenly erupted with huge roars.

Ye Feng's current chaotic body is already very powerful. Even three ancient evil beasts with half a step to the Xuantian realm cannot resist Ye Feng. The fists cast by Ye Feng, which are like divine iron, are directly destroyed by Ye Feng. He flew out and fell hard on the huge arch bridge. He couldn't help but scream miserably.

Seeing this, Ye Feng smiled slightly and said loudly: "It is indeed a half-step Xuantian level evil beast that has surpassed the Kaitian level. After all, it is a little more resistant than the evil dragon just now, and it was not even hit by my fist. Bombed to death."

If Ye Feng's words were heard by others, they would definitely roll their eyes.

Because Ye Feng's own cultivation level is only at the fourth level of the Open Heaven Realm.

It is incredible to be able to blow away an evil beast that is half a step into the Xuantian realm with one punch, but Ye Feng takes it for granted.

Click, click...

Ye Feng was very calm and indifferent, and walked towards the three evil beasts. He directly punched out the three evil beasts again, and directly eliminated the three evil beasts, then put them into the storage ring and swallowed them silently. their blood energy.

"Buzz..."

The blood energy provided by the three half-step Xuantian realm evil beasts was extremely powerful, which immediately greatly strengthened Ye Feng's skills.

next moment.

"boom!"

"boom!"

Two consecutive waves of huge momentum suddenly burst out from Ye Feng's body.

Ye Feng's cultivation reached two levels in a row at this moment.

From the fourth level of the Open Heaven Realm, he directly broke through to the sixth level of the Open Heaven Realm!

This made Ye Feng's eyes reveal a deep look of joy.

These ancient evil beasts that the Emperor of the Earth has kept in captivity for so many years are really a great source of nourishment.

Things.

And just when Ye Feng continued to walk forward.

"boom!!"

In the long dark river under the arch bridge, countless streams of water burst out.

A majestic dark whale that was several kilometers long sprang out directly from it, opening its bloody mouth.

Moreover, the moment the giant whale appeared, the entire world was shaken.

This is definitely an extremely terrifying evil beast that can instantly affect the entire world!

"Sixth level of Xuantian realm!"

At this moment, Ye Feng sensed the majestic evil energy of the dark whale, and his eyes suddenly changed slightly.

Unexpectedly, such a powerful ancient evil beast suddenly jumped out!

It seems that the test of this arch bridge is much more difficult than I imagined.

The inheritance of the Earth Emperor is indeed not that easy to obtain.

It's no wonder that Bei Wentian, an old man, waited for three thousand years, but no one could rescue him.

An ordinary genius would probably bleed at this point.

And that's exactly what happened.

Ye Feng glanced sideways and found that where he was at the arch bridge, there were several dead bones scattered around the edges and corners.

These withered bones should be the generations of geniuses who came here to be tested before, and they all perished here.

"boom!"

And just when Ye Feng was thinking, the dark giant whale that could fly, with its bloody mouth that covered the sky, swallowed Ye Feng directly.

"Buzz!"

Ye Feng's whole body was suddenly swallowed into the belly of this dark whale.

It seems that it has fallen.

However, this dark giant whale didn't feel like it was full of food yet.

“Boom!”

A very terrifying energy fluctuation suddenly exploded from the body of the dark whale.

Poof!

A huge blood hole suddenly opened on the back of the dark whale. Ye Feng's whole body was exuding bright divine light, and it burst out directly from the belly of the dark whale like a sharp blade unsheathed.

"howl!!"

The dark whale immediately let out a miserable cry of pain.

Ye Fengfei was flying in mid-air, staring at the dark giant whale with a hint of a smile in his eyes, and said loudly: "If you don't swallow me, maybe I need to use some means to deal with you, but you are so bold that you can just kill me I swallowed it, just in time to break through from the inside and kill you with one blow!"

It is estimated that this dark whale has been living in this dark river for too long, has not been in contact with a human race with strong blood like Ye Feng for too long, and has been hungry for too long, so it just swallowed Ye Feng.

But what it never expected was that Ye Feng was a "humanoid weapon."

Ye Feng had just destroyed the heart of this dark whale in its belly.

This dark whale can now be said to be dead.

"Uh-huh!"

But suddenly at this moment, from a certain direction not far away, a beautiful young woman wearing a light blue dress suddenly flew over. She held a snow-white long sword in her hand, and the blade exuded the ultimate cold air. , a sword instantly killed the dying dark whale.

When Ye Feng saw this, his eyes suddenly moved. He never expected that such a mysterious and beautiful woman in a blue dress would appear on this arch bridge!

But before Ye Feng could say anything, the beautiful woman in a blue dress with elegant temperament suddenly looked at Ye Feng, with a faint smile on her cold face, and said loudly: "Hello, my name is Xuelian. , I didn't expect to meet another tester from the Earth Emperor's inheritance place here. It seems that you are a super genius."

Chapter 3217 Two people join forces

Hearing the sudden appearance of the woman in blue skirt introducing herself, Ye Feng's eyes showed a hint of surprise.

Unexpectedly, in the inheritance place of the Earth Emperor, I could meet other testers who came here for the test.

At this moment, Ye Feng nodded slightly and said, "My name is Ye Feng."

"Ye Feng?"

The beautiful woman in blue dress who called herself Xuelian thought for a moment and seemed to have never heard of Ye Feng's title.

She couldn't help but smile and said: "The Star Territory is so huge and has countless geniuses. It's normal that I haven't heard of it, but I know most of the geniuses in the world."

Hearing what Xue Lian said, Ye Feng smiled slightly and said, "It seems that you have a very extraordinary background and are well-informed."

Xuelian immediately smiled and said: "I come from the Galaxy Dynasty and am the daughter of King Jiuding. Usually they call me Princess Xuelian. However, it is fate that you and I meet here today. You and I will be called by our names. Can."

"Princess Xuelian?"

When Ye Feng heard what Xuelian said, a trace of surprise suddenly appeared in his eyes.

Unexpectedly, this Snow Lotus actually came from the Galaxy Dynasty.

Ye Feng couldn't help but said: "This is the Northern Wasteland area, so far away from the Galaxy Dynasty. How did you get here?"

When Xuelian heard what Ye Feng said, she immediately smiled and said: "It seems that Ye Feng, you are a warrior from the Northern Wilderness. I came here through the cross-domain teleportation array. I have been looking for the inheritance place of the Emperor of the Earth for three years. Yes, I finally found it."

Ye Feng couldn't help but said: "So, did you see anything outside?"

Xuelian said doubtfully: "No."

Ye Feng's heart moved. It seemed that Senior Bei Wentian had not manifested his soul in front of this Snow Lotus.

At this time, Ye Feng couldn't help but said: "Then let's test it together on this arch bridge, is that okay?"

Xuelian said aloud: "It should be easier if we join forces."

Ye Feng said in surprise: "The test of the Earth Emperor, can two people join forces?"

Xuelian nodded and said: "Of course, but the formation on this arch bridge will also determine what dangers and tests we will face based on the combined strength of the two of us."

Hearing this, Ye Feng nodded slightly and said, "Okay, let's move forward together. After all, once we get to this arch bridge, there is no way back."

When he said this, Ye Feng couldn't help but look at Xuelian beside him, and said with some surprise: "I thought that a pampered royal nobleman like you would not risk his life and come here to find the inheritance of the Emperor of the Earth. , Only a nameless little person like me wants to come to such a dangerous place to try my luck for the future. "

Hearing what Ye Feng said, Xue Lian glanced at Ye Feng and said, "I have liked taking risks since I was a child. I am not a pampered person. Everything I have gained is based on my own experience outside. I learned from my father King Jiuding has never asked for any treasures or inheritance."

When Ye Feng heard what Xue Lian said, he couldn't help but look at the royal princess of the Galaxy Dynasty in surprise.

It seems that Princess Snow Lotus is different from the type of little princess that Ye Feng originally imagined.

This is a very independent royal family.

At this time, Ye Feng said nothing more and directly put the dark whale that had just been killed into his storage ring.

When Princess Xuelian saw this scene, her beautiful eyes were a little surprised, and she asked: "This kind of dark whale is a dark evil beast from the ancient times, and it cannot be sold for a high price outside."

Obviously, Xuelian County

The Lord thought that Ye Feng wanted to collect this dark whale and sell it for money.

Ye Feng just smiled slightly and didn't explain anything.

At this moment, Ye Feng began to release the Devouring Domain, secretly absorbing the majestic blood energy of the dark whale in the storage ring, and integrating it into his body.

"Buzz!" .??.

The next moment, Ye Feng's skill was greatly improved.

You must know that this dark giant whale is an evil beast at the sixth level of Xuantian Realm that has surpassed the Open Heaven Realm.

The blood and beast energy contained in it is simply extremely powerful.

"boom!"

Ye Feng's cultivation momentum suddenly exploded.

Directly from the sixth level of the Open Heaven Realm, he broke through to the seventh level of the Open Heaven Realm!

"Huh? Why did you suddenly break through?"

At this moment, Princess Xuelian, who was standing next to Ye Feng, suddenly widened her beautiful eyes slightly.

Princess Xuelian's cultivation is so unfathomable that even Ye Feng cannot see through it.

But Ye Feng's sudden breakthrough made Princess Snow Lotus very surprised.

Because this was the first time she had seen someone suddenly break through in cultivation on the spot for no reason.

Ye Feng just gave a universal reason for this: "I had an epiphany just now during the battle with the dark whale."

"Epiphany?"

Hearing what Ye Feng said, Princess Xuelian's eyes widened slightly, and she couldn't help but say: "You actually have such a talent that is rare in all ages? A sudden breakthrough in cultivation during the battle? Our planet in the Star Territory has changed in tens of millions of years. There was a war king before who became more courageous and stronger as he fought. Do you have the same talent as that legendary war king?"

Hearing this, Ye Feng couldn't help but slightly twitching at the corners of his eyes.

He twitched, but he didn't expect that Xingyu really had such a talented person.

However, Ye Feng didn't explain much. He just smiled and said, "Maybe, I don't know. I have always made breakthroughs in battles since I started practicing."

Ye Feng was naturally bragging at this time.

But it frightened Princess Xuelian who came from the royal family.

Princess Xuelian widened her beautiful eyes and stared at Ye Feng. Her eyes shone brightly, as if she felt that she had met a legendary genius.

It can be seen that Princess Xuelian is indeed an adventurous person who likes to make friends with all kinds of talented disciples.

At this time, seeing Ye Feng continue to move forward, Princess Snow Lotus did not ask any more questions. Instead, holding the snow-white sword in her hand, she came to Ye Feng's side and walked side by side with Ye Feng.

There was a firm look in Princess Xuelian's beautiful eyes, and she said loudly: "Let's join forces to obtain the inheritance of the Emperor of the Earth. In this case, when I return to the palace, I can defeat those people who bully us and the titled royal family with different surnames. The heir."

Hearing the murmur of Princess Xuelian next to him, Ye Feng had a look of surprise in his eyes.

It turns out that Princess Xuelian is not an orthodox royal heir of the Galaxy Dynasty, but a heir of a royal family with a different surname. She is fundamentally different from the Princess Meng'er whom Ye Feng met before.

Princess Meng'er, that should be pure royal blood.

This Princess Xuelian is a descendant of a king with a different surname from the Galaxy Dynasty.

Such princes with different surnames would indeed sometimes be despised and bullied by the legitimate royal bloodline heirs in the palace.

At this time, Ye Feng suddenly understood why Princess Snow Lotus, despite being afraid of danger, came to such a dangerous inheritance place of the Earth Emperor. It seemed that she wanted to pursue power that could compete with the legitimate heirs of the royal family.

Chapter 3218 King Kong Puppet

"Tap tap tap..."

"Tap tap tap..."

On the huge arch bridge with no end in sight, Ye Feng and Princess Xuelian temporarily joined forces and walked together.

"boom!"

Suddenly, a huge King Kong puppet, whose whole body was made of Kobelco, fell from the sky in an instant, and hit hard not far in front of the two of them.

The eyes of this King Kong puppet are glowing red, like two red lanterns in the dark, giving people a very fierce feeling.

This time their opponent was not an ancient evil beast of flesh and blood, but a huge steel puppet that knew no pain!

boom!

The moment the King Kong puppet came down, it almost didn't waste any time and rushed directly towards Ye Feng and Princess Xuelian.

"when!"

Princess Xuelian held the snow-white long sword in her hand and slashed directly at the Vajra Puppet. Unexpectedly, she was unable to cause any harm to the Vajra Puppet. It was as if she had struck a copper wall and an iron wall, and a huge blast erupted. The sound of metal delivery.

"What?"

Princess Snow Lotus's eyes changed, and she couldn't help but exclaimed: "Why is this Vajra Puppet so strong? Even my Snow Dragon Sword can't break it into pieces, and it can't even cut a gap!"

It must be said that Princess Snow Lotus was very frightened at this time, because the long sword in her hand was a powerful weapon she obtained from the royal family. It was extremely sharp and could cut iron like clay.

boom!

At this moment, the Vajra Puppet would not give Princess Snow Lotus time to react. Its sandbag-sized fists immediately struck towards Princess Snow Lotus, trying to smash Princess Snow Lotus into pieces.

"boom!"

But suddenly at the next moment, a slender hand, clenched into a fist, suddenly appeared next to Princess Snow Lotus, and collided with the sandbag-sized steel fist of the King Kong puppet.

\u003c

br\u003e Boom! !

The entire void suddenly resounded with a huge roar.

It's Ye Feng!

Ye Feng's punch was many times smaller than the huge fist of the Vajra Puppet.

But at this moment, Ye Feng's punch exploded with incredible power.

All of a sudden, the King Kong puppet was blown away, and with a "bang", it fell hard on the arch bridge not far away.

"What a powerful force!"

At this moment, Princess Xuelian stared at Ye Feng's fist in surprise, as if she couldn't believe that such a terrifying power was contained in that small fist.

Moreover, Ye Feng only relied on one fist, he did not use any weapons.

This made Princess Xuelian feel more and more frightened the more she thought about it.

She couldn't help but stare at Ye Feng beside her, thinking about what force this young boy came from, and whether he was the inheritor of some special physique, otherwise it would be impossible for him to possess such terrifying physical power.

And just when Princess Xuelian was secretly frightened and thinking.

Ye Feng suddenly said from the side: "Princess Xuelian, don't be careless. I just blew away the King Kong puppet and did not cause any harm to it."

boom!

The moment Ye Feng finished speaking, the King Kong puppet lying on the ground not far away suddenly stood up again.

The tall and majestic puppet body and red eyes make it look like a steel demon, very oppressive.

Princess Xuelian couldn't help but said: "I guess the two of us joined forces to break through and let the arch bridge formation be given to us in advance.

Such a terrifying ancient puppet appeared. "

Ye Feng nodded slightly, and at this time his eyes showed a trace of solemnity.

Because the strength of this King Kong puppet is still very terrifying, it can actually defeat his current chaotic body.

And you must know that Ye Feng's fierce punch just now did not damage this King Kong puppet in the slightest.

This is enough to show that the comprehensive lethality of this King Kong puppet is really terrifying to the extreme.

Because it can't be beaten at all.

"boom!"

"boom!"

"boom!"

At this moment, the King Kong puppet didn't know the fatigue and pain. It was like an ancient warrior who was not afraid of death. It attacked Ye Feng and Princess Snow Lotus crazily.

Ye Feng, his fists, and Princess Snow Lotus' sword were unable to resist this King Kong puppet.

"If you want to destroy the King Kong puppet, you must destroy the core energy center of the puppet."

Ye Feng suddenly spoke up at this time.

Ye Feng has encountered many such cold and terrifying puppets and has done a lot of research on them.

Since this is the Earth Emperor's test for the two of them.

That means there must be a solution.

The Emperor of the Earth specially set up his inheritance place here, so all these tests on the entire huge arch bridge cannot be a dead end.

Hearing what Ye Feng said at this time, Princess Snow Lotus immediately asked: "Ye Feng, how can we destroy the core energy center of this King Kong puppet? Why can't I understand what you are talking about."

Ye Feng said aloud: "Now you find a way to control the continuous ferocious attacks of this King Kong puppet. I will look for opportunities to explore where its core energy center is. As long as it is destroyed, this puppet will be destroyed."

Without the energy drive, there is no threat. "

After Ye Feng finished speaking, Princess Xuelian immediately understood.

She comes from the royal family and grew up in the palace. The flattery and deceit of the palace made Princess Xuelian very smart.

Princess Xuelian's execution ability was very strong. At this moment, she rushed towards the Vajra Puppet and suddenly took out a dragnet-like iron net from her storage ring.

"Buzz!"

This dragnet, exuding bright spiritual light, was thrown violently by Princess Xuelian, and it immediately enveloped the huge puppet body of the Vajra Puppet.

Although this dragnet still cannot cause any harm to the King Kong Puppet, it greatly restricts the King Kong Puppet's mobility.

This immediately gave Ye Feng the opportunity to release his soul power and explore all aspects of the specific location of the core energy center of this King Kong puppet.

Because if you want this kind of puppet to explode with terrifying impact and combat effectiveness, there must be somewhere to put raw stones or some energy crystals in order to drive such a powerful steel puppet.

"Click, click..."

But at this moment, the five fingers made of steel of the Vajra Puppet suddenly lengthened rapidly and turned into five sharp steel swords. Broken.

"Frozen for thousands of miles!"

At this moment, Princess Snow Lotus shouted coldly, and the long sword in her hand fell down, turning into a large swath of frost and cold current, instantly freezing the King Kong puppet in place.

Click, click...

However, the ice on the surface of the King Kong Golem is rapidly cracking and breaking.

"found it!"

Ye Feng suddenly spoke up at this time and finally found the location where the Vajra Puppet placed the energy crystal!

Chapter 3219 Heart of Fear

Uh-huh!

At this moment, Ye Feng didn't waste any time or hesitate. He rushed directly to the King Kong puppet that was just frozen not far away like lightning.

"boom!"

Ye Feng spotted a spot and punched it hard.

when!

But Ye Feng's fist could not break through the place where the energy crystal was installed on the King Kong puppet.

"Uh-huh!"

At this moment, Ye Feng was so anxious that he directly took out the bronze giant sword that the Lord of the Eastern Region gave him before, which was the ancient human emperor sword, and fiercely moved towards the location where the energy crystal was installed on the Vajra Puppet. Stab it.

"Pfft!"

The ancient Human Emperor Sword was very extraordinary. Under the impact of Ye Feng's terrifying power, the tip instantly penetrated the place where the energy crystal was installed on the Vajra Puppet, directly destroying the energy supply array inside.

"Boom!"

The King Kong puppet, which was as huge as a steel demon, collapsed to the ground at this moment, completely losing its energy supply and turning into a "dead" puppet.

"Finally it worked!"

Seeing the King Kong puppet fall to the ground, Princess Xuelian immediately let out a long sigh of relief.

For Princess Xuelian, she was really helpless against this indestructible King Kong puppet.

Fortunately, Ye Feng seems to be very smart and knows where the weaknesses of this steel puppet are.

At this time, Ye Feng took back the Ancient Human Emperor Sword in his hand, and then stared at the King Kong puppet lying on the ground.

This King Kong puppet is extremely huge and majestic. Even if it falls to the ground at this time, it gives people a very strong sense of oppression.

At this time, Ye Feng looked at Princess Snow Lotus beside him and said, "Do you need this King Kong puppet?"

Princess Xuelian immediately shook her head and said with a wry smile: "I don't know how to use this thing, and I have no interest in this big steel guy."

When Ye Feng heard this, he couldn't help but nodded slightly and put the King Kong puppet into his storage ring.

Because Ye Feng felt that the attack power of this King Kong puppet was too fierce. If he could control it in the future, it would be a very terrifying trump card.

Because this King Kong puppet is just like a heavy weapon of war, it's so terrifying.

"Next, keep going."

While waiting, Princess Xuelian pointed to the end of the arch bridge not far away and said loudly: "I calculated the distance. We should have advanced one-third of the distance to this arch bridge."

"A third of the distance?"

When Ye Feng heard this, he immediately spoke out: "I didn't expect that before I knew it, I had traveled one-third of the test distance."

Uh-huh! Uh-huh!

At this moment, the two of them moved on.

"That is....."

The next moment, they suddenly saw a large pile of bones appearing on the ground of the arch bridge in front of them.

A large pile of bones piled on the ground gave people a very scary feeling.

Princess Xuelian couldn't help but said: "These skeletons should be the skeletons of those geniuses who came here for testing."

Ye Feng nodded and said solemnly: "On the previous trial road, the skeletons of fallen geniuses that I saw were basically one at a distance, but here suddenly a large number of skeletons of fallen geniuses appeared. , It seems that the test of this journey is very terrible. "

Princess Xuelian's beautiful eyes also showed a hint of solemnity, and she agreed: "Yes, Ye Feng, your guess is correct."

Buzz...

Next, the two crossed the location where the large number of bones were located.

Suddenly.

A sudden change occurred!

"Boom! Boom! Boom..."

In the dark sky above this arch bridge, the sky suddenly collapsed, and meteors burning with flames fell crazily from high in the sky, just like doomsday meteors. Ye Feng and Princess Xuelian From the position he was standing, he couldn't escape at all and could only retreat.

However, on the trial road above this arch bridge, if you retreat even a little bit, you will be obliterated by the will of the Earth Emperor!

"I can't resist it at all..."

Looking at the countless meteors falling from the sky, each one burning with flames, the scene was simply terrifying to the extreme.

Not to mention Ye Feng and Princess Xuelian, even a steel city that had stood on the earth for tens of thousands of years would be instantly smashed into a desolate and inhabited ruin by countless doomsday meteors.

This is simply a devastating blow!

At this time, the two finally understood why there were so many skeletons of fallen geniuses around them.

No one can resist this apocalyptic destructive power.

Buzz!

At this moment, Princess Xuelian looked at the countless doomsday meteors that were about to hit her head, and almost subconsciously prepared to retreat.

"Don't!"

Ye Feng suddenly grabbed Princess Xuelian's small white hand and stopped her from subconsciously retreating due to endless fear.

"Um?"

Princess Xuelian suddenly woke up with a start. Looking at Ye Feng who was holding her, she couldn't help but break into a cold sweat: "If I had retreated just now, I would have been wiped out instantly!"

At this time, Ye Feng looked at the doomsday meteors in the sky and couldn't help but said: "This level tests the fear of the tester."

Princess Xuelian couldn't help but smile bitterly, looking at the fiery meteors falling from the sky, she said loudly: "With our cultivation methods, there is no way we can resist it."

This apocalyptic scene is really terrifying and has an extremely terrifying visual impact. Otherwise, Princess Xuelian would not have subconsciously retreated, and there would not be so many fallen geniuses here.

"We don't have to resist."

Ye Feng suddenly spoke up, his tone carrying a deep calmness.

"No need to resist?"

Princess Xuelian's eyes suddenly widened.

Although she was extremely reluctant and frightened, Princess Xuelian could not stop Ye Feng at this time and pulled her forward.

Ye Feng didn't make any move.

At this time, the flaming meteors and the scorching temperature made Princess Xuelian almost scream, and her body instinctively wanted to retreat.

But Ye Feng held her tightly.

"Buzz!"

Suddenly at the next moment, Princess Xuelian felt that they were going to be destroyed.

But all the flaming meteors that filled the sky disappeared.

The terrifying visual impact, the destructive aura, and the flames that could burn everything all disappeared the moment they came into contact with the two of them.

Princess Xuelian's beautiful eyes widened, and she felt like she was in a dream about the rest of her life.

But from beginning to end, Ye Feng's eyes were extremely calm and rational, with an absolute light of wisdom.

Princess Xuelian looked at the young man in white who was holding her, and looked at the calm, wise and unfathomable eyes. This royal princess suddenly felt like she was crazy.

"Even in the imperial city of our Galaxy Dynasty, there are very few people with this kind of talent. This kind of courageous person who can watch the doomsday collapse in front of him and remain unmoved. The key is that he is still so young. ..."

Princess Xuelian couldn't help but murmur to herself. Deep in her heart, she felt a different kind of emotion towards this friend whom she had only just met.

Chapter 3220 Guarding the Stone Statue

And just when Princess Xuelian was having a different kind of emotional fluctuation in her heart, Ye Feng didn't notice the expression of the beauty next to her and the inexplicable beautiful eyes.

"call..."

At this time, Ye Feng just breathed a sigh of relief.

I made the right bet.

When the countless doomsday scenes came before, Ye Feng actually wanted to use his strength to fight them at first.

But at that moment, Ye Feng's soul power subconsciously discovered something. He discovered that the doomsday scene turned out to be a threat to the spiritual level.

That's why Ye Feng concluded that the countless falling flaming meteors and apocalyptic destructive power were actually a test of the inner fear of the tester.

Therefore, Ye Feng held on to Princess Xuelian beside him and did not retreat.

Ordinary people, even those super geniuses, will definitely feel fear and retreat when faced with the threat of death.

But Ye Feng fortunately noticed everything.

At this time, Ye Feng was very happy that he was a soul master.

With his huge soul power, he can often detect many things that ordinary people cannot detect at all.

For example, Princess Xuelian who was following him next to him, the scion of a royal family member from the Galaxy Dynasty, almost backed away at that moment.

At this time, Ye Feng watched the doomsday scene in the sky disappear, and suddenly discovered that not far away, there was already the end area of the arch bridge.

"Huh? Could it be that the test just now was the final test?"

Ye Feng was a little strange.

After all, they were only a third of the way to the arch bridge.

Why did it suddenly appear at the end of the arch bridge?

Princess Xuelian couldn't help but look forward at this time, and said with some surprise: "That is indeed the end area of the arch bridge. It seems that the final fear of life and death is the final test."

Ye Feng nodded and walked directly towards the end of the arch bridge with Princess Xuelian.

Soon, they actually reached the arch bridge.

At the end, he successfully stepped on the ground at the other end of the arch bridge.

This made Princess Xuelian, including Ye Feng himself, feel a little incredible.

Unexpectedly, they suddenly passed the entire arch bridge.

"Ye Feng, look!"

At this time, Princess Xuelian suddenly seemed to have discovered something and pointed directly in a certain direction not far away.

"That is....."

Ye Feng looked in that direction, and his eyes were suddenly startled.

He saw that at the end of the arch bridge, there was a huge tomb.

On top of this tomb, a majestic human sculpture was built.

This humanoid sculpture is very tall, tens of thousands of meters tall, and gives people a very shocking and vast feeling.

At this moment, Princess Xuelian couldn't help but said: "Is this the place where the Emperor of the Earth is buried?"

Ye Feng nodded slightly and said aloud: "It should be so. If you say so, have we passed the Earth Emperor's assessment?"

The moment Ye Feng finished speaking.

Buzz!

Suddenly, the majestic humanoid sculpture tens of thousands of meters tall not far away seemed to come to life.

"Rumble..."

This huge sculpture of tens of thousands of meters opened its stone eyeballs, stared at Ye Feng and Princess Xuelian who were walking underneath, and suddenly said: "The will of the Earth Emperor was completely lost three years ago. The energy was annihilated, so even if you pass the test, you won't get the inheritance of the Earth Emperor, so you can just go back."

"What?!"

Hearing this huge sculpture say this, both Ye Feng and Princess Xuelian beside him changed their eyes slightly.

They never expected that after going through so much hardship and even facing the fear of final death, they arrived at this final place of inheritance, only to not receive the inheritance from the Emperor of the Earth.

How could the two of them be reconciled to this?

Ye Feng stared at the majestic giant sculpture tens of thousands of meters for a moment, and said coldly: "You are not the Emperor of the Earth, you should be the guardian stone statue of the Emperor of the Earth's mausoleum."

The tall and majestic guardian stone statue stared at Ye Feng and made a majestic voice: "Yes, I am indeed the guardian stone statue of the Earth Emperor, so after the Earth Emperor's will dissipates, everything here will be decided by me. Young people, don't be ignorant and get out of here quickly, otherwise death will be waiting for you."

"hateful!"

Princess Xuelian was also angry, her beautiful face covered with frost, and she said loudly: "The guardian stone statue has become a spirit. I think you want to monopolize the inheritance of the Earth Emperor, so you prevent us from entering the Earth Emperor." The ultimate place of inheritance."

When the guardian stone statue heard what Princess Xuelian said, he didn't say much, but the heavy and boundless aura emanating from it stopped the two from moving forward.

"Huh? What is that?"

At this time, Ye Feng suddenly saw that behind the guardian stone statue, there was a golden energy thread connecting the huge emperor's mausoleum behind it.

"This guardian stone statue is secretly absorbing the energy essence left by the Emperor of the Earth!"

Ye Feng was immediately shocked.

"What?"

Hearing what Ye Feng said, Princess Xuelian's eyes widened immediately, and her eyes were filled with deep anger. She couldn't help but shouted coldly: "What a guardian stone statue! As the guardian of the tomb of the Emperor of the Earth, Not only did you violate the Earth Emperor's last wish and prevent those of us who have passed the test from accepting the inheritance, but you secretly absorbed the energy essence left by the Earth Emperor. Do you want to be reborn?"

"Absolutely not!"

boom!

Although Princess Xuelian is a watcher

She looks like an elegant female princess, but has a very hot temper.

At this time, before Ye Feng could do anything, Princess Xuelian held the snow-white sword in her hand, jumped up, and rushed towards the huge guardian stone statue.

"boom!"

Princess Xuelian struck her with a fierce sword strike in an instant, and a terrifying cold current of sword energy burst out from the blade of the sword, which could freeze everything.

"Damn it, you discovered my secret! Then I can only kill you two so-called geniuses!"

The guardian stone statue made a threatening sound at this time. It was obvious that he did not expect that someone could really pass the test left by the Emperor of the Earth. He came to the final mausoleum and discovered the secret of it secretly stealing the energy of the Emperor of the Earth.

"boom!"

The guardian stone statue was originally lifeless, or in other words, it was just a puppet-like sculpture guarding the tomb.

But now, it possesses extremely high intelligence and extremely powerful power.

Because, since the Earth Emperor's will dissipated a few years ago, the guardian stone statue has had bad intentions on the Earth Emperor's tomb.

The tomb of the Emperor of the Earth contains strong and advanced energy of the Emperor.

The guardian stone statue has stolen the emperor's energy for several years, and now the entire body of the stone statue has undergone a huge transformation.

Its huge stone fist punched out hard, and with a "bang", Princess Xuelian's cold sword energy was instantly shattered.

"What?"

When Princess Xuelian saw this, her eyes were suddenly startled.

Because of her cold sword energy, she had frozen the terrifying King Kong puppet in an instant.

But at this moment, it was easily shattered by a punch from this guardian stone statue.

It's hard to imagine how powerful this guardian stone statue has become with the help of the Emperor's energy from the Earth Emperor!
