Chapter 3311 Frightened Stupid

"Are you really not bragging?"

The corner of Jun Wuxie's mouth twitched. Looking at Ye Feng's confident look, he could only nod helplessly and said: "Ye Feng, I know that you have an extraordinary status, otherwise you would not have such great strength. Anyway, I'll take you there. If you're bragging, we'll probably both be miserable."

Seeing Jun Wuxie like this, Ye Feng couldn't help but patted Jun Wuxie on the shoulder, smiled and said, "Don't worry, don't be afraid."

Jun Wuxie could only smile bitterly, endure the fear in his heart, and fly quickly towards a certain direction of the Five Emperors Divine Sect with Ye Feng.

Bingyue also followed Ye Feng, still silent.

Soon, the three of them came to a magnificent mountain.

This mountain is suspended high in the sky, with many disciples shuttled around it, and there are also extremely majestic-looking guards patrolling the surrounding area.

"Beidi Mountain"

Ye Feng stood in front of the mountain and immediately saw that there was a stone tablet in front of him, with these three characters written on it.

At this time, Jun Wuxie's eyes were filled with deep awe, and he said aloud: "This is the place where Lord Beidi lives. Lord Beidi was originally thought to have died by the world, but he didn't expect that just a few months later... He suddenly returned mysteriously, and his cultivation level increased greatly. He announced it to the world and shocked the whole north. "

When Ye Feng heard what Jun Wuxie said, he nodded slightly and felt quite happy in his heart.

From this point of view, there should be no big problem with Senior Bei Wentian's body, otherwise there would not be such a big movement, directly announcing to the world that the king is back.

At this time, Ye Feng stepped forward directly, preparing to enter the Beidi Mountain.

"He who comes is stopped!"

But at this moment, several guards wearing golden armor, each with extremely powerful aura, came directly in front of Ye Feng and blocked the way.

At this time, Ye Feng immediately said: "I want to see Bei Wentian

senior. "

"shut up!"

A powerful golden-armored guard immediately shouted coldly: "How can a young boy like you, Lord Beidi, give you a taboo name? He should be punished!"

"Don't!"

At this moment, Jun Wuxie immediately stepped forward and said, "Brother, we know Lord Beidi, and we are really here to meet Lord Beidi."

The golden armored guard recognized Jun Wuxie's identity, frowned, and said aloud: "A master on the Mountain and River Ranking? Since you are a master on the Mountain and River Ranking, you should also be an old disciple of our Five Emperors Divine Sect, aren't you? Do you know that Mr. Beidi cannot be called casually? Otherwise, it will be a death penalty. Didn't you tell this friend of yours? "

Jun Wuxie smiled helplessly and said, "I told you, he is just my friend..."

"Senior Bei Wentian and I know each other."

Ye Feng suddenly spoke up, and then shouted directly to the entire Beidi Mountain: "Senior Bei Wentian! Junior Ye Feng is here to see you!!"

Ye Feng's voice was very loud at this moment, and it resounded throughout the entire Beidi Mountain, causing the expressions of several people in front of him to suddenly change.

The expressions of both Jun Wuxie and those golden-armored guards changed drastically.

"Ye Feng! Don't be rude!"

Jun Wuxie turned pale with fright, and grabbed Ye Feng and ran back.

The golden armored guards shouted angrily: "Arrogant boy, you are deliberately provoking and seeking death!"

boom!

A group of golden armored guards roared angrily at this moment, and then burst out with powerful force, intending to kill Ye Feng, the arrogant boy who broke into Beidi Mountain without permission.

These golden armored guards, as Beidi Mountain

The guards are all very powerful, and their cultivation levels surpass those of Ye Feng and Jun Wuxie.

The moment he took action, Jun Wuxie was so frightened that he immediately pulled Ye Feng to run away.

Ye Feng was motionless at this time, as if he didn't want to escape at all.

And just when the terrifying attack of this group of golden armored guards was about to fall on Ye Feng.

"Back off."

An eternal and majestic voice suddenly sounded throughout Beidi Mountain.

Buzz!

Almost at the moment when this majestic voice fell, a boundless force directly pulled a group of extremely powerful golden armored guards around.

"Buzz!"

And, at the next moment, accompanied by a majestic power, a huge shadow like a god stood directly on the entire Beidi Mountain, towering between heaven and earth, and appeared in everyone's field of vision.

"Greetings to Lord Beidi!"

A group of powerful golden armored guards couldn't help but kneel on the ground at this moment, and their tone was very respectful.

"Lord Beidi has really revealed himself?"

Jun Wuxie was completely shocked at this time.

Even though Jun Wuxie is a peerless genius among the Five Emperors Divine Sect and a being on the list of mountains and rivers, facing the unparalleled Lord Bei Wentian like Bei Wentian, he still feels as small as an ant. At this moment, he has two legs. He almost collapsed to the ground.

At this time, Ye Feng looked at the huge shadow. There was no trace of stage fright on his face. Instead, he smiled slightly and said, "Senior Bei Wentian, we meet again."

The huge, god-like shadow stared at Ye Feng at this moment, and actually let out a hearty laugh and said: "Ye Feng, since you chose to see me directly in person, it seems that you are ready to deal with it. Everything."

In fact, a long time ago, when Bei Wentian got out of trouble, he asked Ye Feng to follow him back.

He went to the Five Emperors Divine Sect and promised to give Ye Feng a very noble status.

But Ye Feng refused at that time, saying that he would continue to practice for a while and become stronger before entering the Five Emperors Sect.

At this moment, Bei Wentian saw Ye Feng again, and Ye Feng did not hide anything and went directly to Beidi Mountain to see him.

Bei Wentian knew that Ye Feng was ready for the noble status he was about to have in the Five Emperors Divine Sect.

"What?!"

"Lord Beidi actually spoke to Ye Feng so casually? His words felt like he was really seeing an old friend!"

At this time, not to mention those golden armored guards, even Jun Wuxie's eyes widened for a moment. He finally understood that Ye Feng was really not bragging.

Originally, Jun Wuxie thought that even if Ye Feng knew Lord Beidi, it was probably just an acquaintance. He was probably the descendant of one of Lord Beidi's friends, who came to find Lord Beidi and seek asylum.

But what Jun Wuxie never expected was that Ye Feng himself had such a close relationship with Lord Beidi.

Between the words, it really felt like two old friends hadn't seen each other for a long time.

This made Jun Wuxie freeze on the spot, unable to calm down his inner emotions for a long time.

And the next moment, what shocked Jun Wuxie's heart was once again.

Master Beidi continued to speak: "Ye Feng, I am about to go see some of my senior brothers, so I will take you to meet them and let these five old guys make you the divine son of the Five Emperors Divine Sect. "

Hearing these words from Lord Beidi, Jun Wuxie was completely dumbfounded and frightened.

The group of golden armored guards who were about to attack Ye Feng just now stared at Ye Feng for an instant. Although they were several realms higher than Ye Feng in cultivation, their whole bodies were trembling at the moment.

What kind of monster is this boy in white?

It's too scary!

Chapter 3312 The Order of the Son of God

At this time, Jun Wuxie was simply shocked and speechless.

Because he never thought that the relationship between Ye Feng and Lord Beidi would be so close.

Master Beidi even took Ye Feng to meet the five strongest controllers of the legendary Five Emperors Divine Sect, and wanted to make Ye Feng the Son of God!

All of this simply made Jun Wuxie feel like he was in a dream.

Although Jun Wuxie is a master on the mountain and river list, he is ranked very low, and there is still a huge gap between him and the real top player on the mountain and river list.

Not to mention a person of the same level as the Son of God, that is definitely a huge gap like the chasm between heaven and earth.

But he didn't expect that the Ye Feng he knew would soon become the Son of God?

No one will doubt Lord Beidi's words.

Because for such a top big shot, it is definitely an existence like an imperial edict.

At this time, Ye Feng also had a look of surprise in his eyes.

Unexpectedly, Senior Bei Wentian would directly want to make himself the divine son of the Five Emperors Divine Sect.

At this time, Ye Feng couldn't help but smile and said: "Senior Bei Wentian, you are too polite. I came to see you just to visit the old senior, not to seek glory or wealth. "

Bei Wentian came directly in front of Ye Feng at this time, smiled and patted the other party's shoulder, and said loudly: "You once saved me from a huge crisis, and now that you have the ability to come to the Five Emperors Divine Sect, I naturally I also want to give you the best conditions."

After saying that, Bei Wentian took Ye Feng and flew quickly in a certain direction not far away.

Soon they came to a sacred mountain with colorful lights.

On the top of this colorful sacred mountain, there is a magnificent hall.

There are five extremely bright pillars of divine light, connecting the entire sky.

Bei Wentian said with a smile at this time: "My five senior brothers, the five controllers of the Five Emperors Divine Sect, the five great emperors, live in this palace on the colorful sacred mountain. I will take you to see them. them."

Seeing Bei Wentian's enthusiasm at this time, Ye Feng did not refuse anything, but quickly followed Bei Wentian to the colorful sacred mountain.

When Ye Feng came to the magnificent palace, he immediately felt five overwhelming auras surging in the palace.

Ye Feng felt as if he was suffocating.

At this time, Ye Feng's eyes were filled with wonder.

Although his current cultivation level has improved a lot, there is still a big gap between him and the real top figures in the Northern Wilderness.

While Ye Feng was thinking, Bei Wentian spoke to the palace: "Five senior brothers, the talented young man I told you before has now appeared, and he is right next to me. beside."

Weng!

After Bei Wentian finished speaking, the space suddenly fluctuated, and five white-haired old men appeared at the entrance of the palace, staring at Ye Feng for a moment.

At this moment, Ye Feng felt it immediately, and a deep sense of oppression came to him.

It was as if there were five heavy and towering mountains pressing on his shoulders, causing Ye Feng's entire body to break.

However, Ye Feng knew that this was not intentional. The vision of the five controllers of the Five Emperors Sect was originally so powerful.

Ye Feng at this moment

He immediately secretly inspired the power of the Chaos Body to resist the pressure of this look.

At this moment, a white-haired old man suddenly smiled and said: "Junior brother, this young man you brought is indeed quite good. He is actually an extremely rare Chaos Body, and the Chaos Body is about to be tempered to a great level. When he transforms into the Great Perfection Chaos Body, it will be pretty good, but his temporary cultivation level is still a bit too low. If he directly becomes the Son of God, it will probably be difficult to convince the public. Instead, many people will be jealous of him, and this young man will suffer. Invisible murderous intent, and it is not good to be too eye-catching. After all, you have to know that although our Five Emperors Divine Sect is a super large sect in the Northern Wilderness, we also have many enemies overtly and covertly, such as those from the Heavenly Demon Realm. Demons, orc tribes in the wilderness, etc., so we can make him a quasi-divine son of our Five Emperors Divine Sect, and let him become a seed disciple secretly cultivated by our Five Emperors Divine Sect. His identity will not be announced to the public for the time being, but he can enjoy the resources of the divine son level. "

Hearing this old man say this, Ye Feng's eyes immediately lit up.

This method is quite good.

Anyway, Ye Feng has no interest in so-called fame.

What he is really interested in are resources that can actually improve his cultivation.

As long as you can enjoy the cultivation resources and power of the Son of God, that will be enough. Status and other things are just a cloud.

However, Bei Wentian spoke out at this time: "Since Ye Feng is here, it means that he has the confidence to bear all this. I don't think it is good to give him the treatment of a secret quasi-god son."

Ye Feng quickly spoke up at this time: "Senior Bei Wentian, I think this old man's arrangement is quite good. Personally, I am very low-key and don't want to be so high-profile."

I heard Ye Feng himself say this,

Bei Wentian could only nod his head and said, "Okay, since you think it's okay, then it's okay."

Obviously Bei Wentian was very grateful to Ye Feng for saving him, and he wanted to do the best he could for Ye Feng.

At this moment, the five white-haired seniors suddenly took out a fragment from their own storage ring, and then put it together to form a white jade token, which flew directly in front of Ye Feng .

An old man with white hair said: "From now on, you are the quasi-divine son of our Five Emperors Divine Sect. This token is specially made by the five of us and contains the power of the Five Emperors. With this divine son token, you can enjoy the divine son The level of treatment can reveal your identity at critical moments to deal with everything, but do not use it lightly, otherwise, it may make you rely too much on the privileges of the Son of God, which will not be of much benefit to your future practice. "

What the white-haired old man said was filled with a hint of seriousness.

Ye Feng immediately stretched out his hand to take the piece of God's Son Token, clasped his fists and said loudly: "Seniors, don't worry, I will definitely work hard and will not misuse my authority."

At this time, Bei Wentian also patted Ye Feng on the shoulder with satisfaction and said loudly: "Now that you have obtained this identity token, you should practice hard and strive to become the divine son of our Five Emperors Divine Sect in an upright manner in the future."

Ye Feng immediately nodded solemnly.

Ye Feng is still very interested in the identity of the Son of God of the Five Emperors Divine Sect, because it represents an extremely noble identity.

Moreover, Ye Feng knew that if he truly became the Son of God of the Five Emperors Divine Sect in an upright manner and had all the privileges, it would be of great benefit to him in investigating the man behind the Galaxy Dynasty who had placed a vicious curse on him.

Chapter 3313 Ancient Continent

When Ye Feng left the colorful sacred mountain in the center, he still felt that everything he experienced was a bit dreamy.

Unexpectedly, he had just arrived at the Five Emperors Divine Sect and suddenly became the quasi-divine son of the Five Emperors Divine Sect.

Having such a distinguished status all of a sudden made Ye Feng feel a little unreal for a moment.

But Ye Feng was holding the Divine Son Token in his hand at this moment, feeling the power of the Five Emperors contained in it.

He knew that this was not a dream, it was all real.

At this time, Ye Feng was somewhat fortunate that he had saved Bei Wentian, an extremely powerful figure in the Northern Wilderness.

Otherwise, he would never be able to enjoy the privileges of this status when he came to the Five Emperors Sect.

When Ye Feng returned to the place he came from before, he found that Bingyue and Jun Wuxie were still waiting there, waiting for him to come back.

The moment Jun Wuxie saw Ye Feng, he immediately walked up to Ye Feng very excitedly and couldn't help but ask with great anticipation: "How is Ye Feng? Have you become the divine son of our Five Emperors Divine Sect?"

Ye Feng smiled slightly at this time, nodded, took out the five divine son orders given to him by the great emperors, and said loudly: "Currently, he is not a real son of God, but a quasi-god son. When my cultivation becomes stronger, I will probably become a son of God." I can become the divine son of the Five Emperors Divine Sect in an upright and upright manner."

"This is really the order of the Son of God!"

At this time, Jun Wuxie stared at the special token in Ye Feng's hand, his eyes were extremely bright, and he said excitedly: "I have seen such a token before, it is so precious, and it is said that the Son of God The legendary power of the Five Emperors is stored in the token. It can be said that this is not only a token, but also a very powerful treasure. "

Hearing what Jun Wuxie said, Ye Feng immediately nodded. He could also feel that the token contained terrifying energy.

At this moment, Jun Wuxie couldn't help but continue: "It's really like a dream. I didn't expect you, Ye Feng, to actually become the quasi-divine son of our Five Emperors Divine Sect!"

Ye Feng suddenly asked at this time: "Are there any other divine sons in our Five Emperors Divine Sect?"

"have."

Jun Wuxie nodded and said: "However, among the millions of disciples in our Five Emperors Divine Sect, there are only a few divine son-level figures born, and they are all divine dragons that

are seen first but not at the end. Normally, they are not seen at all. , I have been working hard in the Five Emperors Sect for so many years, but I have never seen a real Son of God face to face. I have only seen a Token of the Son of God, manifesting power in the air and killing powerful enemies from the wilderness. "

When Ye Feng heard what Jun Wuxie said, he immediately nodded slightly. He didn't expect that there were other sons of gods. It seemed that all of them were earth-shattering big shots. There probably weren't any who used the back door like himself.

Ye Feng knew very well that if he had not saved Bei Wentian's life, he would never have become the quasi-god son.

Apart from Ye Feng himself, it is estimated that no one else can experience this kind of experience again.

At this time, Ye Feng took a deep breath and said aloud: "Jun Wuxie, don't be so excited now. I have only obtained the identity of a quasi-god son. If I rely on this identity to cheat, I will probably end up very miserable. , what I have to do is to silently increase my strength first, and I will talk about the other things later. Jun Wuxie, please don't reveal my identity.

When I was an ordinary disciple, I could use the privileges of the Son of God Order as much as I could. "

"I know."

Jun Wuxie immediately nodded and said: "I am very clear about the reason why holding a jade is a crime. After all, if a tree is beautiful in the forest, the wind will destroy it. Before you have truly strong strength, it is indeed good to keep a low profile."

After finishing speaking, Jun Wuxie suddenly thought of something and said immediately: "By the way, Ye Feng, I told you when you first entered the sect. After you are certified as an official disciple of our Five Emperors Divine Sect, I will bring you You go to a good place to repay your life-saving grace. I think you are definitely very interested in that place."

When Ye Feng heard this, there was a trace of expectation in his eyes, and he couldn't help but asked: "What a good place, please tell me in detail."

Jun Wuxie said with a smile: "At the junction of our Northern Wasteland and the Galaxy Dynasty, there is a very large area that stretches for tens of millions of miles. It is a very ancient ancient land, in which countless ancient times are buried and left behind. resources and relics, and some people even found the dragon bones from the ancient dragon era, and then integrated them into their own bodies, becoming the most powerful dragon emperor in the entire star field. Anyway, there are countless opportunities, whether it is Our various major sects in the Northern Wasteland, including our Five Emperors Divine Sect, and the Galaxy Dynasty on the other side of the Northern Wasteland all have many young people who enter that ancient land to explore ancient ruins. That area is what we call 'Ancient Continent'."

"Ancient Continent?"

"The junction of the Five Emperors Divine Sect and the Galaxy Dynasty?"

"There are many ancient ruins buried?"

When Ye Feng heard Jun Wuxie say this, his eyes showed great interest.

After all, Ye Feng knew very well that this kind of place would have a huge improvement effect on him.

Ye Feng possesses huge soul power and perception, and is more capable of exploration than ordinary warriors.

Ye Feng looked at Bingyue beside him and said, "Do you want to go with us?"

Bingyue nodded slightly and said briefly: "Wherever you go, I will go."

"good."

Ye Feng nodded and immediately said: "Then we will set off directly tomorrow."

"good."

Jun Wuxie immediately said happily.

...

Early the next morning.

After everyone rested for a night, they set off directly.

On the way to the ancient continent, Ye Feng looked at Jun Wuxie beside him and asked, "Have you been there many times?"

Jun Wuxie nodded and said aloud: "I must have been there more than a dozen times. After all, I have been in the Five Emperors Divine Sect for more than ten years. Every year I go to the ancient continent once, and every time there is a lot of meaning. The harvest, the powerful star war sword in my hand, was obtained from a cave in the ancient continent. With this powerful war sword, I was able to enter the mountain and river rankings, but there is no place in the ancient continent. Occasionally there will be very serious dangers, not only from the dangers in the ancient ruins of the ancient continent itself, but also from many murderous intentions from other colleagues. After all, there may be various rules in the sect that restrict fellow disciples from killing each other. , but there are really no rules outside. Whoever has a stronger fist is the king." When Ye Feng left the colorful sacred mountain in the center, he still felt that everything he experienced was a bit dreamy.

Unexpectedly, he had just arrived at the Five Emperors Divine Sect and suddenly became the quasi-divine son of the Five Emperors Divine Sect.

Having such a distinguished status all of a sudden made Ye Feng feel a little unreal for a moment.

Jun Wuxie, please don't reveal my identity.

When I was still an ordinary disciple, I could use the privileges of the Divine Son Order as long as I could. "

"Ancient Continent?"

"The junction of the Five Emperors Divine Sect and the Xinghe Dynasty?"

"Buried with many ancient relics?"

After all, Ye Feng knew very well that this kind of place had a huge improvement effect on him.

Chapter 3314 Sky Sword Team

Ye Feng still agreed with what Jun Wuxie said.

After all, Ye Feng has encountered many such situations since he has been practicing.

So at this time, Ye Feng smiled and patted the other party's shoulder and said loudly: "Since you are so experienced, I will rely on your guidance when the time comes."

Jun Wuxie smiled and said, "Don't worry, I know which places have a lot of resources, and there are some places I don't dare to go to. But now that Ye Feng and you are with me, I dare to try it."

"Um."

Ye Feng immediately nodded.

Bingyue still didn't talk much and was taciturn. She just followed Ye Feng's side, inseparable.

The three of them are all very powerful beings, so they are very fast at this time.

In less than three days, they had completely left the Five Emperors Divine Sect and arrived at the edge of the ancient continent. .???.??

This is already the edge of the Northern Wasteland, and opposite it is the territory of the Galaxy Dynasty.

In the middle of these two human plates, there stands a very special vast area that stretches for tens of millions of miles and is extremely chaotic.

"That's the ancient continent..."

At this time, Jun Wuxie pointed in a certain direction ahead and spoke.

Ye Feng and Bingyue both looked in that direction.

They saw it at that time, an extremely chaotic area, standing on the land in the distance.

The surrounding land is very barren, but occasionally there are some very special and strange plants growing there, and there are many ancient ruins standing on it. It seems to have a sense of historical vicissitudes, but it also has a mysterious and fascinating feeling. The sense of anticipation that people want to explore.

At this time, Ye Feng asked aloud: "What should we do now? Where to start exploring?"

Jun Wuxie smiled slightly at this time and said aloud: "Let's go to a nearby city first, take a good rest, and then buy a nearby map."

Ye Feng's eyes showed surprise and he couldn't help but ask: "There is a city in this kind of place?"

Jun Wuxie nodded, smiled and said: "Of course, there are many wandering warriors here, as well as many sect disciples, and a paradise for some members of the royal family, because there are many ancient ruins buried here, many People have made fortunes here, so more and more people gather. Gradually, many people gather together, and naturally various cities of different sizes are formed. Let's go to the nearby cities to take a look. "

Hearing what Jun Wuxie said, Ye Feng nodded and said, "Okay, let's get to know the situation nearby first."

Bingyue, who had been silent all this time, suddenly spoke up: "Jun Wuxie, didn't you say you are very familiar with this area? Just take us to a place where there are many resources."

When Jun Wuxie heard Bingyue's question, he immediately scratched his head in embarrassment and couldn't help but said: "This place is still far away from the area I am familiar with. We can explore the outer area first. , my plan is to first find a nearby gathering place city, and then I can follow some more experienced mercenary groups, or some wandering warriors, or some small teams of sect disciples who spontaneously gather together to explore the surrounding area. In this case A little safer and a little more directional."

\u003e When Ye Feng heard what Jun Wuxie said, he nodded slightly and said: "This method is quite good. After all, we are new here, and this is not an area that you are familiar with Jun Wuxie. Maybe if you follow other teams, Better."

When Jun Wuxie heard Ye Feng's agreement, he immediately said happily: "Yes, it was like this every time I came here before, always exploring with the team."

At this moment, the three of them were talking and walking towards the city not far away.

With Jun Wuxie leading the way, they soon arrived at a large nearby city.

This city looks very dilapidated, and you can tell at a glance that it was not built by a professional construction team.

It was built temporarily by some wandering warriors. The city looked very dilapidated and incomplete. Many city walls were not fully built and were only half-length.

But the whole city was very lively with people coming and going.

Most of them are practitioners among the human race.

Occasionally there are some practitioners from the demon clan.

There are even some mysterious beings wearing black robes, exuding some evil energy.

He should be a demon practitioner, or a real demon.

But many people don't do it directly.

Although the human race and the demon race are incompatible, in this chaotic zone where no one cares, no one is willing to provoke a powerful enemy for no reason, and they all choose to protect themselves wisely.

When there is no benefit, no one will attack each other for no reason.

So when Ye Feng and the others came in, they were not blocked, and no one caused trouble for them for no reason.

Everyone just walked around and did what they wanted to do.

Jun Wuxie spoke up at this time: "If we don't need to rest, we can follow a team into the surrounding ancient continent to explore the ancient ruins at night. I just saw an announcement at the city gate, which said something called 'The team of Tianjian Team is recruiting people to explore an ancient underground dragon cave about ten kilometers away from this city. They want to find ancient dragon resources or ancient dragon blood from that ancient underground dragon cave. Dragon meat to enhance their life level, they are really a bunch of crazy guys.'"

Ancient underground dragon caves, especially the dragon caves on this ancient continent, are absolutely dangerous and terrifying. No one knows what terrifying ancient existence exists inside.

Ye Feng heard what Jun Wuxie said at this time, glanced at Bingyue beside him, then nodded and said: "Okay, we will go exploring with this team tonight. This time we came to this ancient continent, originally just to improve our own strength and find various resources, we happened to meet this team to explore the ancient underground dragon cave. There is no reason not to participate. There happens to be another team with rich experience leading the way. Even if we follow the team to make soy sauce, you should be able to get some benefits, anyway, don't waste time, take action when you have the opportunity."

After Ye Feng finished speaking, Bingyue didn't say anything because he supported Ye Feng's decision unconditionally.

Jun Wuxie was also eager to give it a try at this time, and said quite excitedly: "Okay, then we will follow the Tianjian team tonight. It is estimated that many other wandering warriors and sect disciples will join them, and they should be there by then. It's very lively." Ye Feng still agreed with what Jun Wuxie said.

After all, Ye Feng has encountered many such situations since he has been practicing.

So at this time, Ye Feng smiled and patted the other party's shoulder and said loudly: "Since you are so experienced, I will rely on your guidance when the time comes."

Jun Wuxie smiled widely and said, "Don't worry, I know which places have a lot of resources, and there are some places I don't dare to go to. But now that Ye Feng and you are with me, I dare to try it."

"Um." ??

Ye Feng immediately nodded.

Bingyue still didn't talk much and was taciturn. She just followed Ye Feng's side, inseparable.

The three of them are all highly cultivated beings, so they are very fast at this time.

In less than three days, they had completely left the Five Emperors Divine Sect and arrived at the edge of the ancient continent.

This is already the edge of the Northern Wasteland, and opposite it is the territory of the Galaxy Dynasty.

In the middle of these two human plates, there stands a very special vast area that stretches for tens of millions of miles and is extremely chaotic.

"That's the ancient continent..."

At this time, Jun Wuxie pointed in a certain direction ahead and spoke.

Ye Feng and Bingyue both looked in that direction.

They saw it at that time, an extremely chaotic area, standing on the land in the distance.

The surrounding land is very barren, but occasionally there are some very special and strange plants growing there, and there are many ancient ruins standing on it. It seems to have a sense of historical vicissitudes, but it also has a mysterious and fascinating feeling. The sense of anticipation that people want to explore.

At this time, Ye Feng asked aloud: "What should we do now? Where to start exploring?"

Jun Wuxie smiled slightly at this time and said aloud: "Let's go to a nearby city first, take a good rest, and then buy a nearby map."

Ye Feng's eyes showed surprise and he couldn't help but ask: "There is a city in this kind of place?"

Jun Wuxie nodded, smiled and said: "Of course, there are many wandering warriors here, as well as many sect disciples, and a paradise for some members of the royal family, because there are many ancient ruins buried here, many People have made fortunes here, so more and more people gather. Gradually, many people gather together, and naturally various large and small cities are formed. Let's go to the nearby cities to take a look. "

Hearing what Jun Wuxie said, Ye Feng nodded and said, "Okay, let's get to know the situation nearby first."

Bingyue, who had been silent all this time, suddenly spoke up: "Jun Wuxie, didn't you say you are very familiar with this area? Just take us to a place where there are many resources."

When Jun Wuxie heard Bingyue's question, he immediately scratched his head in embarrassment and couldn't help but said: "This place is still far away from the area I am familiar with. We can explore the outer area first. , my plan is to first find a nearby gathering place city, and then I can follow some more experienced mercenary groups, or some wandering warriors, or some small

teams of sect disciples who spontaneously gather together to explore the surrounding area. In this case A little safer and a little more directional.”

When Ye Feng heard what Jun Wuxie said, he nodded slightly and said: "This method is quite good. After all, we are new here, and this is not an area that you are familiar with Jun Wuxie. Maybe if you follow other teams, Better."

When Jun Wuxie heard Ye Feng's agreement, he immediately said happily: "Yes, it was like this every time I came here before, always exploring with the team."

At this moment, the three of them were talking and walking towards the city not far away.

With Jun Wuxie leading the way, they soon arrived at a large nearby city.

This city looks very dilapidated, and you can tell at a glance that it was not built by a professional construction team.

It was built temporarily by some wandering warriors. The city looked very dilapidated and incomplete. Many city walls were not fully built and were only half-length.

But the whole city was very lively with people coming and going.

Most of them are practitioners among the human race.

Occasionally there are some practitioners from the demon clan.

There are even some mysterious beings wearing black robes, exuding some evil energy.

He should be a demon practitioner, or a real demon.

But many people don't do it directly.

Although the human race and the demon race are incompatible, in this chaotic zone where no one cares, no one is willing to provoke a powerful enemy for no reason, and they all choose to protect themselves wisely.

When there is no interest, no one will attack each other for no reason.

So when Ye Feng and the others came in, they were not blocked, and no one caused trouble for them for no reason.

Everyone just walked around and did what they wanted to do.

Jun Wuxie spoke up at this time: "If we don't need to rest, we can follow a team into the surrounding ancient continent to explore the ancient ruins at night. Jun Wuxie was also eager to give it a try at this time, and said quite excitedly: "Okay, then we will follow the Tianjian team tonight. It is estimated that many other wandering warriors and sect disciples will join them, and they should be there by then. Very lively."

Chapter 3315 Familiarity

After wandering around the city for a day, Ye Feng and the others gathered directly outside the city gate at night.

At this moment, many people were already standing on the deserted land outside the city gate.

The uniformed group of people standing at the front is none other than the Tianjian team that organized this ancient underground dragon cave exploration mission.

There are more than thirty members in the Sky Sword team. They are all wearing very powerful armors. They are uniformly golden and look very dazzling in the darkness.

At this time, there were also many warriors standing in front of the Tianjian team, nearly a few hundred people in total.

Most of these people were disciples from various major sects, or some wandering warriors, who voluntarily joined the team exploring the ancient underground dragon cave.

Because many people know very well that although there are many ancient ruins in this ancient continent, these ancient ruins also contain many very precious cultivation resources and treasures and elixirs left over from ancient times.

But everyone knows very well that if they go in to investigate alone, if they encounter any danger, they will not be able to fight it alone.

Even a small team of more than a dozen people would not dare to enter such ancient ancient ruins easily.

So most of the time, these people followed the large team into the ancient ruins.

In this case, if you encounter any extremely powerful evil beast, you can kill it through the human sea tactic.

At this time, Ye Feng, Jun Wuxie and Bingyue all entered the team silently.

At this moment, Ye Feng could sense the cultivation auras of many warriors present, and they were all very powerful.

At this time, Ye Feng's eyes showed a trace of surprise. He didn't expect that there were so many powerful wandering warriors outside.

It seems that in the entire human territory, not all the strong men are gathered in the major sects or the royal family. Many wandering warriors are also very powerful, and some mercenary teams are also quite powerful.

While Ye Feng was silently observing, the captain of the Tianjian team standing at the front was a burly middle-aged man wearing golden armor. The aura of cultivation on his body was very terrifying and powerful.

At this moment, the captain of the Tianjian team looked around and saw that more than a hundred people had gathered here. He was very satisfied and said: "The time has come. We will not wait for our friends who have not arrived yet. Now We went directly to the ancient underground dragon cave. The members of our Tianjian team had already explored that location in advance. There was no big danger around it, so we could just go directly into the underground ancient dragon cave, and there were some things to do before departure. One thing I need to explain is that if you really encounter any danger, don't panic. Let's face it together and fight it together. This way, it will be much better than running around in panic. "

The captain of the Sky Sword Team is not a good person. He wants to share the underground ancient dragon cave ruins with the more than a hundred wandering warriors and disciples of various major sects present.

Because he also knew very well that with just the dozens of people in their Tianjian team, it was estimated that they would not be able to find too many resources from the underground ancient dragon cave.

Only by gathering the strength of many people together can we thoroughly explore the ancient ruins.

Moreover, the captain of the Sky Sword Team is also very confident in his own strength. He feels that if he encounters any real treasure, he will definitely

It's your own.

As for other ordinary resources and treasures, even if they are shared with these warriors who join, nothing will be lost.

The captain of the Sky Sword Team is very ambitious. What he wants is the truly precious thing in the ancient underground dragon cave.

Swish, swish, swish!

Swish, swish, swish!

Under the cover of night, a group of several hundred people flew directly from the entrance of the city in a certain direction in the distance, towards the truly desolate part of the ancient continent.

Ye Feng was among the crowd at this time, looking at the desolate and ruined ancient continent around him, with a trace of surprise in his eyes.

This was his first time to truly appreciate the beauty of the entire ancient continent.

And standing among hundreds of people around him, Ye Feng did feel a rather safe feeling.

Jun Wuxie beside him seemed to have seen what Ye Feng was thinking, and couldn't help but smile and said: "Ye Feng, do you feel safe? In fact, when I first came to the ancient continent, I didn't want to be with other people, and I wanted to act alone, but when I was walking alone in the entire desolate and lonely ancient continent, I just felt that I was the only one left in the whole world, which was very scary. So after that, I followed the big team to explore the ancient ruins. This way, I would be safe, and I wouldn't have that terrible feeling of loneliness, as if the whole world had left me."

Hearing what Jun Wuxie said, Ye Feng nodded slightly, and then said aloud: "I can sense that the people in this group of teams are very mixed. There are wandering warriors, disciples from various major sects, and even some I can't detect some auras, so I must be careful when entering the ancient underground dragon cave."

Jun Wuxie nodded and said with a smile: "Okay, I know all this. Even though so many people are united now, it was when facing danger from the outside world. If there were any resources, everyone would ignore them. Everything, kill each other and fight for each other."

"It feels very familiar to me here."

Suddenly at this moment, Bingyue, who was standing next to Ye Feng, spoke up.

"Familiar feeling?"

When Ye Feng heard Bingyue suddenly say this, his eyes immediately moved slightly and he couldn't help but said: "That may be the familiarity hidden in the amnesia part of you. Could it be that Bingyue, you have been to this ancient continent before?"

There was also a trace of confusion in Bingyue's beautiful eyes at this time, and then she nodded slightly and said loudly: "Maybe, but I can't remember everything clearly. Maybe this place will help me understand my true identity back then. Made a new discovery."

Ye Feng immediately nodded, his eyes showing a hint of joy.

After so long, I finally found some clues about Bingyue's true identity.

Because this is Ye Feng's promise to Bingyue.

Bingyue has always helped Ye Feng a lot, so Ye Feng also promised Bingyue that he would help her find her true identity.

"Here we are."

Just in the middle of the night, a group of members of the Sky Sword team leading the way suddenly stopped.

At this moment, the burly Captain Tianjian, who was wearing golden armor, pointed at a huge abyss not far away and said loudly: "That abyss is the entrance to the ancient underground dragon cave. Now everyone wants to stay vigilant, hold on to the weapons in your hands, and be prepared to face the possible dangers." After wandering around the city for a day, Ye Feng and the others gathered directly outside the city gate at night.

At this moment, many people were already standing on the deserted land outside the city gate.

The uniformed group of people standing at the front is none other than the Tianjian team that organized this ancient underground dragon cave exploration mission.

Chapter 3316 Mutated Species

Buzz!

At this moment, under the reminder of Captain Tianjian, everyone nodded, took out their weapons, and their skills were ready to go.

At this time, Captain Tianjian took a deep breath, and then walked directly into the underground ancient dragon cave with dozens of members of the Tianjian team.

Swish, swish, swish!

Swish, swish, swish!

At this moment, more than a hundred people behind him followed him one after another, with nervous and fearful eyes.

Because it was the first time for many people to follow this kind of team and enter the ancient ruins of the ancient continent.

So at this time, many people feel a little guilty.

At this moment, Ye Feng also showed a trace of vigilance in his eyes.

After all, he also knew very well that there were still many dangers in ancient ruins similar to this ancient underground dragon cave.

It's very possible that one of them was not careful and died directly.

At this time, Jun Wuxie also took out his own Star Sword to prevent bad and dangerous situations from happening at any time.

Bingyue still looked indifferent, standing beside Ye Feng, inseparable.

At this moment, everyone walked into the underground ancient dragon cave one after another.

The entire underground ancient dragon cave is very huge, vast in area, and the environment is very dark, making it difficult to see the specific scene around it.

If a person entered this underground ancient dragon cave, he would definitely be frightened.

But now there are hundreds of people together, so everyone feels a lot more at ease.

"Whoa! Whoa! Whoa..."

There seemed to be some sound in the darkness.

"What moves in the dark?"

At this time, someone couldn't help but exclaimed.

This kind of dark ancient ruins originally gave people a sense of

A very strong sense of oppression and heart palpitations, not to mention all kinds of strange noises in the surrounding darkness, which made people even more hairy.

A group of members of the Sky Sword Team who were leading the way had their swords drawn from their waists at this moment, obviously aware of the danger.

"Light up!"

The captain of the Tianjian team suddenly shouted loudly at this time.

"Yes, Captain!"

The dozens of members of the Sky Sword team behind him all nodded, took out rocks one by one from their storage rings, and then threw them directly into the air.

These stones actually fused together in mid-air, forming an energy crystal like a small sun, which emitted a dazzling light and illuminated the entire surrounding darkness.

After the darkness was illuminated, everyone's eyes were suddenly startled.

They saw a horrifying scene.

Those noises in the darkness turned out to be caused by venomous snakes covered with pitch black scales.

Each of these venomous snakes are more than ten meters long and look like kings of eyes. They are on the surrounding walls. The snakes' eyes are emitting dark light and they are crawling densely. They look very scary.

"It turned out to be just some common venomous snakes."

A warrior in the crowd couldn't help laughing.

This is a bald man holding a huge ax in his hand.

Uh-huh!

At this moment, he rushed directly to the distance and slashed hard at the poisonous snakes with his axe, hoping to kill all of them.

"boom!"

But when his ax struck these poisonous snakes, it made a roar like metal hitting a copper wall.

The scales on these poisonous snakes are so strong that they look like they are made of divine iron!

The ax cannot cause harm to these poisonous snakes at all.

"What?"

"How can the scales of these snakes be so strong? My ax is a powerful warrior made of Xuantian cold iron!"

The bald man couldn't help but look astonished immediately.

But just the next moment.

Before he could react. .??.

"Swish, swish, swish!"

Several venomous snakes around him stood in front of the bald man like black lightning and tore the limbs of the bald man into pieces with a "sizzling" sound.

"ah!"

Under the horrifying looks of everyone around him, the big man's body was immediately torn into pieces, and he only had time to let out a final scream.

"These are not ordinary poisonous snakes! They are poisonous dragons that have mutated by absorbing the dragon's blood in the ancient dragon cave! They have evolved into dragons!"

At this time, the captain of the Tianjian team suddenly spoke up.

The captain of the Sky Sword Team, an extremely powerful middle-aged man, couldn't help but take out the black iron sword on his back at this moment, and said with serious eyes: "Everyone stand in a circle, prepare for action. This It should be a mutant from the ancient underground dragon cave!"

Among the crowd, Ye Feng couldn't help but have a look of surprise in his eyes: "These were just ordinary poisonous snakes originally, but I didn't expect that they would mutate into such poisonous dragons with extremely high defense."

Jun Wuxie stood next to Ye Feng.

, holding the Star War Sword in his hand, his eyes also showed a vigilant look, and said: "It is very rare for such a mutant species to appear in such ancient ruins, because many ancient ruins on the ancient continent are full of lifelessness. It is impossible to breed life at all. I didn't expect that there

is still such vitality in this underground ancient dragon cave, and it actually breeds such a terrifying mutant species.”

A warrior next to him heard the discussion between Ye Feng and Jun Wuxie, and couldn't help but join in the discussion, saying: "This should be a terrifying mutant poisonous dragon that has absorbed the blood of an ancient dragon. It is very difficult to deal with. Even the Xuantian Cold Iron Ax of the bald man just now was unable to cause any damage, and I always felt as if we had entered a den of poisonous snakes."

At this moment, the warrior said, asking the two of them to look not far away.

"That is....."

The next moment, both Ye Feng and Jun Wuxie's eyes showed shock.

They saw that around them, whether on the walls or on the roads on both sides, there were more and more mutated poisonous snakes covered with black scales. They were so terrifying that they gave people trypophobia. .

The captain of the Sky Sword team also noticed this scene. Seeing more and more dense mutants gathering around him, he immediately burst out with divine light and shouted loudly: "We can't stay here forever and follow directly. I rushed forward and rushed out. This area should be a den of poisonous snakes. We must break through the poisonous snake blockade here as soon as possible, otherwise, we will be trapped in the quagmire of poisonous snakes, which will be dangerous! "

"A viper's den?"

Hearing the words of the captain of the Tianjian team at this moment, the more than a hundred people around them couldn't help but feel a little chilly. It seemed that they didn't expect that they were so unlucky. Not long after they entered the ancient underground dragon cave, they encountered this kind of thing. Terrifying mutants, and there's a litter of them!

Chapter 3317 It's so strange

Boom! !

At this time, after the captain of the Sky Sword team finished speaking, he took a step forward, holding the black iron sword in his hand, and charged forward.

"Clatter!"

A large group of venomous snake mutants on the road ahead immediately rushed towards the captain of the Sky Sword team. Their eyes were emitting a green light and their ferocious teeth were revealed. They were extremely poisonous.

"kill!"

At this time, the captain of the Tianjian team was not a vegetarian, and directly shouted: "Kill indiscriminately with the wind!"

At this moment, the black iron sword in his hand suddenly burst out with thousands of sword energy, full of terrifying sharp power, and slashed directly towards the front with a rumbling impact.

"Rumble..."

Almost at the next moment, thousands of terrifying sword energies collided directly with the thousands of venomous snake mutants rushing forward.

However, these sword energies were unable to penetrate the scales of these mutant venomous snakes, and only made a series of "ding-ding-ding-ding-ding" sounds.

At this moment, the captain of the Sky Sword team suddenly changed his eyes, as if he did not expect these poisonous snake mutants to be so terrifying.

He originally thought that his sword energy could pierce all these mutant poisonous snakes.

Unexpectedly, even the outermost scales cannot be destroyed.

"This is bad!"

The captain of the Sky Sword team suddenly showed a hint of ugliness in his eyes.

"It seems that we really can't tangle with these mutant poisonous snakes any longer. We can only use the human sea tactic to rush past and stay away from this den of poisonous snakes."

At this moment, the captain of the Sky Sword team suddenly spoke to a group of team members behind him: "Everyone stood around me and jointly used the giant sword technique we had practiced before to directly break through the defense of this venomous snake. As long as you stay away from this den of poisonous snakes, there should be no problem."

"Yes, Captain!"

Dozens of members of the Sky Sword team behind them were all nodding their heads at this moment.

Their heads were all "swish, swish, swish" as they stood around the captain of the Sky Sword team, and then they all took out their respective swords.

boom! !

At this moment, they immediately displayed the giant sword technique.

I saw dozens of members of the Sky Sword Team, including the captain of the Sky Sword Team, all united together.

A sword light erupted from each of them. These dozens of sword lights merged together and condensed directly into a huge sword light in front of everyone, and they rushed forward in an instant. .

This huge sword light was like a war chariot, crushing forward quickly.

Those mutant poisonous snakes were all torn into pieces under the attack of this huge sword light, and a huge passage appeared.

"good!"

Seeing this scene, the captain of the Tianjian team couldn't help shouting excitedly.

Then he led everyone present and charged directly forward.

I have to say that the joint attack technique of this Sky Sword team is still very magical.

Dozens of people unite together, and the huge sword light released is full of extremely terrifying power.

The thousands of venomous snakes that surrounded the front blocked the circle and directly tore a hole.

However, there were many mutant poisonous snakes around, attacking from behind and from all sides.

"ah!"

"ah!"

Many warriors in the team were accidentally bitten by these mutant snakes.

Either it was torn into pieces, or it was directly poisoned and died.

Screams suddenly erupted from the field.

Ye Fenghe

Although Jun Wuxie and Bingyue were standing on the outer edge, their individual attacks were very powerful.

The three of them joined forces to attack the mutant poisonous snakes that rushed over, without encountering any great danger.

"Swallow!"

Although these mutant poisonous snakes mutated due to the dragon blood in the ancient underground dragon cave are very terrifying, the blood energy generated after being killed is also very powerful and rich.

At this time, Ye Feng did not waste any time at all, and secretly released the Devouring Domain, quickly swallowing all the blood and energy of these poisonous snakes into his own body.

Buzz!

The next moment, Ye Feng suddenly felt that his skill was improving rapidly.

boom!

The fifth level of the divine realm!

boom!

The sixth level of the divine realm!

After the whole process, Ye Feng devoured enough blood energy, and his cultivation level actually broke through two heavens in a row, and entered the sixth heaven of the realm of gods.

This made Ye Feng's eyes reveal a hint of joy.

This time, I didn't expect that I had already broken through several levels without really getting any cultivation resources from the ancient dragon cave.

At this time, everyone finally fought their way out of the area blocked by the mutant venomous snakes, and completely stayed away from the den of venomous snakes at the entrance.

Everyone breathed a sigh of relief when they saw that there were no poisonous snakes chasing after them.

However, many people showed traces of panic on their faces.

Because they discovered that after this fighting, there were only more than 60 people left in the entire team of more than 100 people, and nearly half of them died!

This made many surviving warriors unable to help but have deep fear in their eyes.

After all, no one thought that this time they

It was very bad luck to encounter such a terrifying den of poisonous snakes.

At this moment, the members of the Tianjian team leading the team were panting heavily. It was obvious that they had consumed a lot of energy in opening the way ahead.

At this time, some warriors in the crowd had the intention of retreating, and couldn't help but said: "There is such a terrifying den of poisonous snakes just at the entrance, so will there be even more terrifying mutants living deep in this underground ancient dragon cave??"

Hearing what this warrior said, many warriors around him couldn't help but started to tremble.

Because the more they think about it, the more terrible and frightening they feel.

The captain of the Sky Sword Team saw that people were in confusion, and said with an ugly face at this moment: "Don't panic, everyone. Our Sky Sword Team has entered many ancient ruins, but this is the first time we have encountered such a terrifying mutant species. This It is impossible for other terrifying mutant species to appear in the ancient underground dragon cave."

Boom!

But the moment the captain of the Tianjian team finished speaking, a large piece of soil suddenly exploded in front of him.

Wow...

Then huge centipedes with golden scales all over their bodies and dragon horns came out from the ground. They looked very ferocious and terrifying, and they rushed towards everyone in an instant.

Seeing this scene, the captain of the Sky Sword team's eyes suddenly darkened.

Because he just wanted to appease everyone, but he didn't expect the facts to hit his face very quickly. In an instant, another mutant that looked extremely ferocious appeared!

The captain of the Tianjian team couldn't help but said: "It's so strange! How could there be so many mutants in this ancient underground dragon cave? It is absolutely impossible for them to be naturally bred! Could it be that... in this ancient underground dragon cave, There is a very terrifying existence? Are all these poisonous insects cultivated by that mysterious existence? "

Hearing what the captain of the Tianjian team said, everyone present couldn't help but change their expressions.

Chapter 3318 Controlling the Golden Centipede

In any case, at this moment, we saw so many golden centipedes rushing over not far away. Before everyone could take a breath, they could only helplessly pick up the weapons in their hands and continue to resist.

"Boom!"

At this moment, the entire field was once again enveloped in a terrifying fighting spirit.

The crowd collided with a group of golden centipedes, and a fierce battle ensued.

Ye Feng naturally joined the battle.

Fortunately, Ye Feng can still absorb blood energy while fighting to replenish his lost skills.

Moreover, the blood energy of these mutants was extremely advanced and powerful, allowing Ye Feng's cultivation to break through again during the entire process.

From the sixth level of Tongshen Realm, he broke through to the eighth level of Tongshen Realm. .??.

But at this time, Ye Feng was probably the only one with a happy look on the face of everyone present.

Because in this battle, although those golden centipedes were eliminated, everyone lost nearly a dozen masters.

There are only about forty people left in the entire field.

Even the members of the extremely powerful Sky Sword Team had lost several elite members in the fight just now.

After all, they were the first to bear the brunt and collided with those golden centipedes on the front line.

At this moment, the captain of the Tianjian team also had extremely gloomy eyes.

This time they were really unlucky. They entered the underground ancient dragon cave, but they had not yet found any treasures in the ancient dragon cave. Unexpectedly, they were attacked by two groups of mutants, causing great losses.

This made the captain of the Sky Sword team very depressed and helpless.

Because so far, he has entered many ancient ruins to explore for treasures, and he has never been so unlucky as this one.

"So many mutants must be cultivated by mysterious beings behind the scenes. We must find the person who cultivated these mutants. In this way, we can solve the crisis of these mutants!"

The captain of the Sky Sword team couldn't help but speak out at this time.

However, many people present had panic in their eyes.

Because they were attacked by two groups of mutants, they were a little panicked.

Many companions around him died.

At this time, someone in the crowd couldn't help but say: "We are going back, we don't want to continue exploring."

"What?"

When the captain of the Sky Sword team heard someone say this, his eyes suddenly showed an ugly look.

But these people are not his team members, so the captain of the Sky Sword Team cannot force them to do anything.

At this time, the captain of the Tianjian team could only nod his head and said loudly: "If anyone is afraid, you can leave early."

Hearing what the captain of the Tianjian team said, many people in the crowd couldn't help but sigh, and left the scene one after another, heading outside the Ancient Dragon Cave.

Nearly half of the entire crowd left one after another, leaving only about twenty people.

Counting the dozen or so members of the Tianjian team, there were only about thirty people left on the field.

This undoubtedly put a heavy pressure on everyone present. After all, there were more than a hundred people when they came, but now there are only a few left.

Ye Feng, Jun Wuxie and Bingyue naturally stayed and did not leave.

At this moment, the captain of the Tianjian team looked at everyone present, with a very solemn expression, and said loudly: "Those who are still willing to stay now are all brave people, and they also want to get rid of the ancient underground dragon cave ruins. For those who have obtained the real treasure, what we have to do now is to find the person behind the cultivation of these mutant poisonous insects, and after killing them, there should be no great danger. "

"I agree."

At this time, Ye Feng suddenly spoke up in the crowd and said: "I also think that this kind of special mutant species is not derived naturally, but is cultivated by special beings."

The captain of the Tianjian team glanced at Ye Feng, and his eyes lit up slightly.

During the previous battle, he also noticed Ye Feng, a young man in white.

Although he does not seem to be very powerful, in every melee, this young man in white lives peacefully, which is enough to show that he is very extraordinary and not as simple as it seems on the surface.

The captain of the Sky Sword team immediately said: "Then how should we find the person behind the scenes to cultivate mutants now?"

The captain of the Tianjian team was staring at Ye Feng. He knew that Ye Feng would not say such words for no reason, and he must have his own way.

Ye Feng smiled slightly at this time and said aloud: "It's very simple, as long as these mutants can take us there in person."

"The mutant will take us there himself?"

After hearing what Ye Feng said, not to mention the other people around him, even the captain of the Tianjian team was stunned.

Immediately, many people showed helpless smiles on their faces. It seemed that the young man in white was a braggart, and he actually said such unreliable words. Each of these mutants were so cruel and ferocious. , how could he lead them to find the person behind the scenes?

"I thought this boy in white clothes really had some real talent, but it turns out he's just a young man who likes to brag."

There were comments among the crowd.

The captain of the Sky Sword team couldn't help but say at this time: "This little brother, are you sure what you are telling the truth?"

Ye Feng smiled slightly and said aloud: "Of course, I have a way to let these mutants take us to find the person behind the scenes."

Uh-huh!

After finishing speaking, Ye Feng walked directly to a certain direction not far away and found a dying golden centipede.

This golden centipede is not completely dead yet.

Buzz!

At this moment, Ye Feng directly stretched out his hand, pressed the head of the golden centipede, and then instantly controlled the golden centipede's soul.

Then the golden centipede directly obeyed Ye Feng's instructions and ran quickly in a certain direction.

After seeing the whole process, everyone around them who had sarcastic smiles on their faces suddenly widened their eyes and froze on the spot, stunned.

The captain of the Sky Sword team seemed to have thought of something and couldn't help but exclaimed: "My little brother is actually a legendary soul master who can control the souls of these mutants!"

"What?"

Hearing what the captain of the Tianjian team said, everyone present couldn't help but look at Ye Feng in awe.

To them, soul masters are absolutely mysterious and unfathomable. In any case, at this moment, we saw so many golden centipedes rushing over not far away. Before everyone could take a breath, they could only helplessly pick up the weapons in their hands and continue to resist.

Many of my friends around me are dead.

Hearing what the captain of the Tianjian team said, everyone present couldn't help but look at Ye Feng in awe.

To them, soul masters are absolutely mysterious and unfathomable.

Chapter 3319 The Poisonous Insect Army

"I didn't expect Ye Feng to be a soul master!"

At this time, even Jun Wuxie, Ye Feng's fellow apprentice, showed deep surprise in his eyes.

Jun Wuxie always thought that Ye Feng was a pure warrior.

But I didn't expect that Ye Feng was actually a hidden soul master.

After all, in Jun Wuxie's eyes, Ye Feng was definitely a warrior who practiced physical training.

But I didn't expect that Ye Feng actually practiced the inheritance of a soul master. ??

It really made Jun Wuxie feel like he had opened his eyes.

At this time, Bingyue walked to Ye Feng's side and said, "Ye Feng, the existence that can cultivate such advanced mutants must be very extraordinary and powerful. You must be careful when the time comes." Ye Feng nodded immediately and said with a smile, "Don't worry, generally, the existence that likes to cultivate such mutants will not be very powerful. The truly powerful ones are the mutants he cultivated. Just now, I suddenly discovered that my soul power can interfere with and control these mutants." "You can interfere with and control these mutants?" Bingyue heard Ye Feng say this at this time. Even though Bingyue is a mysterious female warrior, at this moment, a trace of surprise appeared in her beautiful eyes. Because Ye Feng's methods are really endless, Bingyue is a little shocked. Ye Feng whispered at this time: "This is also what I just discovered suddenly. Don't let others know. It can only be used at critical moments." Bingyue nodded immediately, said nothing more, and remained silent. At this moment, the captain of the Tianjian team was quite excited. He walked directly in front of Ye Feng and said with a smile: "I didn't expect that the little brother was actually a distinguished soul master. I was a little mistaken."

Ye Feng smiled and said: "The captain's martial arts strength is very strong. There is no need to be so polite. By the way, let's follow the golden centipede to find the person behind the scenes."

The captain of the Tianjian team looked at the golden centipede not far away and ran away. He immediately said anxiously: "Yes, yes, the most important thing now is to find the existence behind the cultivation of these mutants. After killing it, we can completely explore the entire ancient underground dragon cave with peace of mind."

Swish!

After saying that, a group of people immediately ran in the direction of the golden centipede and chased it quickly.

Half an hour later, the golden centipede was circling around the entire ancient underground dragon cave, almost making everyone dizzy, and finally stopped in a certain direction not far away.

"Be careful."

At this time, the captain of the Tianjian team and Ye Feng were leading the way in front, and they all spoke to the people behind them.

Everyone nodded slightly, lowered their bodies slightly, and lay on the ground, looking not far away.

The next moment, a scene suddenly appeared in everyone's vision.

In front of the ancient dragon cave, a huge green grassland appeared.

In the middle area of this green grassland, there was a small wooden house that looked very simple.

A withered old man in a black robe was sitting on the top of the small wooden house.

And on the green grass around the small wooden house, there were various mutant poisonous insects lying.

There were huge scorpions with colorful scales, centipedes with poisonous gas all over their bodies, and big snakes covered with spikes... and so on.

It looked very hideous and terrible.

The old man in the black robe sitting in the small wooden house in the middle looked like the king of all poisons.

The captain of the Tianjian team looked at the green grass covered with dense mutant poisonous insects, and a trace of fear appeared in his eyes. He said: "This is definitely an old poisonous creature, and it is very likely that he is a poison monk who specializes in practicing poison."

Ye Feng also felt a little bit of crisis at this time, after all, he couldn't see through the front of the black-robed old man.

At this moment, Ye Feng couldn't help but say: "Then should we attack directly? Or choose to retreat?"

The captain of the Tianjian team was also in hesitation at this time.

Because if they don't kill this black-robed old man, they won't be able to properly explore the entire ancient underground dragon cave, and will often be attacked by some terrifying mutant poisonous insects.

But if they attack this black-robed old man now, let alone the strength of the black-robed old man himself, the numerous dense mutant poisonous insects on this green grass are enough for everyone to drink a pot, and they may be wiped out.

But if they leave now, they are really unwilling.

Just when the captain of the Tianjian team was very hesitant, Ye Feng suddenly looked fierce and said, "Let me try to control some of the mutant poisonous insects on the green grass. If I can control them successfully, then maybe we can go to war with this old man in black robe." Hearing what Ye Feng said, the captain of the Tianjian team's eyes lit up and said excitedly, "Brother Ye Feng, you can actually control these mutant poisonous insects in reverse? It's amazing!" Ye Feng immediately said, "I should only be able to control a part of them, not all of them. I don't have that kind of powerful soul power yet." "That's enough."

The captain of the Sky Sword team immediately spoke expectantly: "Then, little brother Ye Feng, hurry up and give it a try. If it succeeds, my Sky Sword team and I will fully cooperate with you. It is best to give this old man in black robes to Get rid of it, so that we can properly explore the treasure resources in the entire ancient underground dragon cave."

After the captain of the Tianjian team finished speaking, Ye Feng immediately nodded and said, "Okay, I will try my best."

For Ye Feng, he also very much hopes to be able to safely explore various resources and treasures in the entire ancient underground dragon cave.

And now, if a powerful warrior like the captain of the Sky Sword Team is on the field to cooperate with him, if he can kill this old man in black robe, then Ye Feng will be able to get all the poisonous insects.

You must know that these mutant poisonous insects are not ordinary poisonous insects, but specially cultivated mutants, and their combat effectiveness is very amazing.

If Ye Feng could obtain all the mutant poisonous insects and control them all, it would be equivalent to obtaining a terrifying army.

An army of mutant poisonous insects!

That would be a very scary trump card!

Buzz!

At this moment, Ye Feng did not hesitate and directly released his huge soul power, heading towards a large area of densely packed mutant poisonous insects surrounding the green grass ahead. "I didn't expect Ye Feng to be a soul master!"

At this time, even Jun Wuxie, Ye Feng's senior brother, had deep surprise in his eyes.

Jun Wuxie always thought that Ye Feng was a pure warrior.

Unexpectedly, Ye Feng was actually a hidden soul master.

After all, in Jun Wuxie's eyes, Ye Feng was definitely the kind of warrior who practiced physical training.

Unexpectedly, Ye Feng actually practiced the inheritance of a soul master.

It really felt like an eye-opener for Jun Wuxie.

At this time, Bingyue walked up to Ye Feng and said loudly: "Ye Feng, being able to cultivate such an advanced mutant must be very extraordinary and powerful. You must be careful when the time comes. "

Ye Feng immediately nodded and said with a smile: "Don't worry, generally those who like to cultivate such mutants will not be very strong themselves. The truly powerful ones are the mutants he cultivated, and just now, I suddenly discovered that my soul power can interfere with and control these mutants."

"Can you disrupt and control these mutants?"

Bingyue heard what Ye Feng said at this time. Even though Bingyue was a mysterious strong woman, there was a trace of surprise in her beautiful eyes at this moment.

Because Ye Feng's methods were really endless, Bingyue was a little shocked.

Ye Feng said in a low voice at this time: "This is what I just discovered suddenly. Don't let others know. It can only be used at critical moments."

Bingyue nodded immediately, said nothing more, and remained silent.

At this moment, the captain of the Tianjian team was quite excited. He walked directly in front of Ye Feng and said with a smile: "I didn't expect that little brother is actually a noble soul master. I was a little mistaken. ”

Ye Feng smiled and said: "The captain's martial arts strength is very powerful. There is no need to be so polite. By the way, we should follow the golden centipede to find the person behind the scenes."

The captain of the Sky Sword team saw that the golden centipede not far away had run away, and immediately said anxiously: "Yes, yes, the most important thing now is to find the being behind the scenes who cultivated these mutants, and kill him , we can explore the entire ancient underground dragon cave with complete peace of mind."

Swish, swish, swish!

After saying that, a group of people immediately ran in the direction of the golden centipede and quickly chased it.

Half an hour later, the golden centipede circled around the entire ancient underground dragon cave, almost knocking everyone out, and finally stopped in a certain direction not far away.

"be careful."

At this time, the captain of the Tianjian team and Ye Feng were leading the way, and they both spoke to the people behind them.

Everyone nodded slightly, lowered their bodies slightly, lay on the ground, and looked not far away.

The next moment, a scene suddenly appeared in everyone's field of vision.

I saw a huge green grassland appearing in front of the ancient dragon cave.

In the middle of this green grassland, there is a small wooden house that looks very simple.

A decrepit old man wearing a black robe was sitting on the top of the cabin.

And on the green grass surrounding this small wooden house, there are all kinds of animals lying on their backs.

Such mutant poisonous insects.

There are huge scorpions with colorful scales, centipedes with poisonous gases all over their bodies, and big snakes with spikes all over their bodies... and so on.

It looks very ferocious and terrifying.

The old man in black robe sitting in the middle cabin looked like the King of Poisons.

The captain of the Sky Sword team looked at the green grass covered with densely packed mutant poisonous insects, with a hint of fear in his eyes, and said loudly: "This is definitely an old poisonous creature, and it is very likely that it is a special training agent. A poisonous monk."

Ye Feng also felt a slight sense of crisis at this time. After all, he couldn't see through the old man in black robe.

At this moment, Ye Feng couldn't help but said: "Then shall we take action directly? Or choose to retreat?"

The captain of the Tianjian team was also in hesitation at this time.

Because if they don't kill the old man in black robes, they won't be able to properly explore the entire ancient underground dragon cave, and they will often be attacked by some terrifying mutant poisonous insects.

But if we attack the old man in black robes in a large scale now, let alone the strength of the old man in black robes, the densely packed mutant poisonous insects on this green grass are enough for everyone to drink a pot, and the whole army may be annihilated. .

But it would be a bit unwilling to leave now.

Just when the captain of the Tianjian team was very hesitant, Ye Feng suddenly looked hard and said: "First let me try to control some of the mutant poisonous insects on the entire green grassland. If I can control it successfully, Then maybe we can go to war with this old man in black robe."

Hearing what Ye Feng said, the captain of the Tianjian team suddenly brightened up and said excitedly: "Brother Ye Feng, you can actually control these mutant poisonous insects? It's really amazing!"

Ye Feng immediately said: "I should only be able to control part of it, not all of it. I don't have that powerful soul power yet."

"That's enough."

The captain of the Sky Sword team immediately spoke expectantly: "Then, little brother Ye Feng, hurry up and give it a try. If it succeeds, my Sky Sword team and I will fully cooperate with you. It is best to give this old man in black robes to Get rid of it, so that we can properly explore the treasure resources in the entire ancient underground dragon cave."

An army of mutant poisonous insects!

That would be a very scary trump card!

Buzz!

At this moment, Ye Feng did not hesitate and directly released his huge soul power, heading towards a large area of densely packed mutant poisonous insects surrounding the green grass ahead.

Chapter 3320 The King of Poisonous Insects

"Buzz!"

You know, Ye Feng's soul power has now been raised to a full million levels.

Therefore, Ye Feng's current soul strength is still quite strong.

At this moment, when Ye Feng's soul power covered most of the mutant poisonous insects, Ye Feng suddenly felt that he could control some of the mutant poisonous insects instantly.

This made Ye Feng's face suddenly show a look of joy.

At this moment, the captain of the Tianjian team standing aside saw the joy on Ye Feng's face, and immediately couldn't help but his eyes lit up, and he said loudly: "Brother Ye Feng, look at your expression like this. Happy, it must be a success?"

Ye Feng nodded slightly and said, "I should be able to control one-third of the mutant poisonous insects present."

"A third of poisonous insects?"

Hearing what Ye Feng said, the captain of the Tianjian team immediately said happily: "That's enough. If we face all the mutant poisonous insects, we probably have no choice but to settle for the next best thing. But now you can control A full third of the mutant poisonous insects is enough. "

At this moment, Ye Feng immediately said: "Okay, then I will let the one-third of the mutated poisonous insects directly rebel and attack their companions. Taking advantage of the chaos, the captain of the Tianjian team, And everyone present, all attack the old man in black robe and try to kill the old man in black robe in a short time. As long as the old man in black robe is killed, all the mutant poisonous insects present will become Everything in my bag will be completely controlled by me and will not pose a threat to you."

Hearing Ye Feng's reassuring words, the captain of the Sky Sword Team immediately showed excitement on his face, directly facing the dozen members of the Sky Sword Team behind him, as well as the dozens of warriors who were following him. He said out loud: "Everyone rush with me!"

The moment the captain of the Tianjian team finished speaking, Ye Feng launched an attack directly.

Boom!

At this moment, nearly one-third of the thousands of mutant poisonous insects crawling on the green grass suddenly rioted, and began to launch horrific attacks directly on their companions.

Wow!

The entire field suddenly fell into a boil.

"what happened?"

The sudden movement on the field caused the old man in black robe sitting on the cabin to open his eyes all of a sudden, as if he couldn't believe what was happening in front of him.

Because he saw that the thousands of mutant poisonous insects he had worked so hard to cultivate were killing each other at this moment.

This made the old man in black robe somewhat unacceptable.

But at the next moment, the old man in black robe seemed to have noticed something, and he shouted loudly: "Someone is secretly trying to seize control of these mutant poisonous insects that I have cultivated? Which soul master dares to provoke me? I must I'm going to cut you into pieces!"

But just when the old man in black robe finished speaking.

Boom! !

Suddenly, from a certain direction not far away, dozens of warriors exuding a terrifying fighting aura rushed over.

The one at the front was the captain of the Sky Sword team, who was radiating bright light.

The captain of the Sky Sword Team is still very powerful in martial arts.

The black iron sword he held in his hand at this moment was slashing towards the black-robed old man.

"boom!!"

At this moment, a huge sword light that spread several kilometers long erupted directly from the black iron sword, instantly killing the black-robed old man.

above the head of the person.

"Poisonous Insect Shield."

But at this moment, the old man in black robe controlled a large number of poisonous insects around him and formed a shield condensed by the poisonous insects around him, directly blocking the huge sword light.

Uh-huh!

At this moment, the old man in black robe retreated quickly. It was obvious that his body was still very fragile. What made him powerful was the poisonous insects he controlled.

The next moment, the old man in black robe stared at the leader of the Tianjian team who was leading the way, and immediately couldn't help but said: "Damn it, I didn't expect that you guys discovered my hiding place. I originally wanted to control him. These poisonous insects are slowly eating away at you all. I didn't expect you to be able to find this mysterious place where I cultivated the poisonous insects. It should be that a mysterious soul master hidden among you found this place, right? Where is he? Who is he?"

"I'm here."

At this time, Ye Feng suddenly flew out of the crowd, smiled coldly and said: "I didn't expect that the captain of the Tianjian team guessed it right. Someone is really secretly controlling these poisonous insects and wants to kill us." This human team has been eaten up by everyone. You are so cruel. I must completely kill you, this nasty old poison, today!"

"Hahaha!"

But the next moment, the old man in black robe burst into laughter and said with extremely cruel eyes: "Your soul power is not as strong as I thought. You didn't attack and kill me secretly. In this case, you will lose. You have the best chance. These poisonous insects you control are just the tip of the iceberg of poisonous insects cultivated by me. King of poisonous insects, come out to me!"

Boom!

At this moment, after the old man in black robe finished speaking, the entire green grassland suddenly shook.

Click, click...

Then the entire ground cracked in an instant, and seven huge creatures crawled out from under the ground.

These seven behemoths were simply enlarged versions of mutant poisonous insects. Their bodies were as majestic as mountains and extremely terrifying. They all stood in front of the old man in black robes, like seven important weapons of war.

Seeing this scene, the captain of the Tianjian team and a group of warriors suddenly showed deep fear in their eyes.

Ye Feng couldn't help but his eyes darkened at this time. Unexpectedly, this old man in black robes also trained seven poisonous insect kings.

The old man in black robe saw the ugly expressions on everyone's faces, and immediately laughed out loud and sarcastically said: "Since you are here today, then none of you should leave, and you, the soul master brat, I will arrest you alone. Then extract your soul power every day to strengthen me!"

After saying that, the black-robed old man directly controlled the seven poisonous insect kings and quickly charged towards Ye Feng and a group of warriors.

Ye Feng could only yell at this time: "Everyone gather together and resist together!"

After finishing speaking, Ye Feng looked at the captain of the Tianjian team and Bingyue who were not far away, and said loudly: "These seven poisonous insect kings are the greatest threat, and the three of us will deal with them."

boom! !

After saying that, Ye Feng burst out with divine light all over his body and charged towards the seven kings of poisonous insects.
