

Ancient 3381

Chapter 3381 Demons are rampant

Uh-huh!

At this time, the golden centipede continued to rush towards Ye Feng and Bai Jingjing.

"Crack!"

At this moment, Bai Jingjing, who was standing next to Ye Feng, suddenly appeared in his hand with a long ice sword, slashing directly forward, cutting the golden centipede's entire body into two halves in an instant.

When Ye Feng saw this scene, a look of surprise suddenly appeared in his eyes.

It seems that Bai Jingjing is still very powerful.

Before in the Snowy Land, I'm afraid Bai Jingjing didn't dare to show her strength for fear of attracting the attention of the powerful in the advanced realm. Now that she's in the Snowy Land, she can give full play to her power. .??.

"Let's go."

Bai Jingjing seemed to be used to such scenes and said: "In the snowy land, there are dangers everywhere. The golden centipede that attacked us just now is just a very ordinary monster, a truly powerful monster. If we encounter one, we will most likely perish in an instant, so our race has set up survival bases one by one, so that the weak among the race can practice in a relatively safe place to avoid premature death. We Fengxue Villa is one of these foundations of survival."

Ye Feng heard Bai Jingjing say this and nodded slightly.

At this time, Ye Feng understood that after arriving at Fengxue Villa, he had to quickly improve his cultivation strength, otherwise he would probably have to stay in the survival base and not be able to come out.

The snowy land is indeed full of dangers. Only by becoming truly powerful can one be able to walk and wander everywhere.

Because in the outside world, you may encounter powerful races and monsters at any time.

When these races and monsters encounter humans, they simply regard humans as food. They will not talk to you about benevolence, justice and morality at all, and they just want to devour you. It is very dangerous.

But although Ye Feng realized that Xue

The domain is very dangerous and demons are rampant, but Ye Feng is still looking forward to it in his heart.

Because the more powerful and dangerous monsters there are, it means that you have a steady stream of nutrients. If you continue to devour them, you will be able to obtain a steady stream of powerful energy.

But if you want to do this, you must first improve your strength.

Uh-huh!

At this moment, Ye Feng reached out and put the golden centipede into his storage ring.

This golden centipede can actually resist the attack of his Dzogchen Chaos Body. It is absolutely very powerful and can provide him with a lot of blood energy.

At this time, Ye Feng secretly swallowed up all the blood energy of this golden centipede.

Ye Feng immediately felt that his skill had grown rapidly.

However, Ye Feng's cultivation level did not directly break through, because the blood energy of a golden centipede was not enough to allow Ye Feng to break through the first level in an instant.

At this time, Ye Feng followed Bai Jingjing and continued to move forward, flying quickly towards the location of Fengxue Villa.

But just when they had walked less than a few hundred meters, suddenly the surrounding quagmire exploded.

Boom!

As the quagmire exploded, a three-headed dragon with green scales all over its body flew out of the earth, roaring and roaring, very ferocious, and charged towards Ye Feng and Bai Jingjing.

Boom!

The green three-headed dragon was so terrifying that it suddenly knocked Ye Feng backwards and smashed a large area of land.

If Ye Feng's Dzogchen Chaos Body hadn't been powerful enough, he would have been killed by the sudden impact of the green three-headed dragon.

hiss!

At this time, even Ye Feng couldn't help but take a breath of air.

The advanced realm is indeed terrifying.

No wonder many strong men in low-level realms are unwilling to come to high-level realms.

Because the high-level realm is very dangerous and full of powerful and terrifying creatures.

At this time, Ye Feng also realized that the Snowy Land was indeed not the home of the human race, and the human race was indeed living in the cracks.

boom!

At this time, Bai Jingjing held the ice sword in her hand and charged directly towards the green three-headed dragon.

when!

But when the ice sword in Bai Jingjing's hand struck the green three-headed dragon, there was a metal collision sound.

Her ice sword was unable to pierce the scales of this green three-headed dragon!

boom!

The green three-headed dragon flicked its tail at this moment, sending Bai Jingjing flying out with the same bombardment. At this moment, Bai Jingjing also suddenly fell next to Ye Feng.

Ye Feng saw that Bai Jingjing was also knocked over, and he couldn't help but smile helplessly: "Now I finally realize what you meant before when you said that the human race survives in the cracks in the snowy land. Sure enough, It's a demon running rampant."

Bai Jingjing's eyes were a little horrified at this time, and she couldn't help but said aloud: "We have been walking so secretly. I don't know why we still encounter monsters one after another. It seems that we are not lucky this time. I have never been there before. This has never happened."

At this moment, Ye Feng suddenly remembered that he

It has always seemed that the body is prone to attracting all kinds of dangerous physiques.

At this time, Ye Feng couldn't help but suspect that it was probably because he and Bai Jingjing were walking together that he encountered so many demons that appeared one after another.

Strangely enough, Ye Feng sometimes doesn't know what's going on. He often encounters dangers that ordinary people may not encounter.

At this time, Bai Jingjing couldn't help but said: "Ye Feng, let's change the route. This green three-headed dragon seems to be a mutant of the poisonous dragon clan. It is too powerful and cannot be fought against now."

Ye Feng immediately nodded at this time, and now he could only run.

"Buzz!"

But suddenly at this moment, a large piece of rich green mist instantly sprayed out from the three heads of the three-headed evil dragon, directly covering the entire space around Ye Feng and Bai Jingjing.

Ye Feng and Bai Jingjing suddenly had no way out.

"Oops!"

When Bai Jingjing saw this scene, her eyes suddenly darkened.

"boom!"

But at this extremely critical moment, suddenly, a golden spear engraved with a dragon-shaped sculpture fell from the sky, and with an instant "puff", it pierced the head of the green three-headed dragon, and the whole body was also injured. It was pierced and nailed to the earth.

"Kill with one blow!"

"So strong!"

Ye Feng couldn't help but look surprised at this time.

"This is....."

At this moment, Bai Jingjing stared at the golden spear with a dragon-shaped sculpture, and couldn't help but said in surprise: "This is the legendary dragon spear! Could it be the senior brother of our Fengxue Villa? Ask Cangsheng! Why does Senior Brother appear here?"

Chapter 3382 The kind senior brother

"Elder brother asks the common people?"

Hearing what Bai Jingjing said at this time, Ye Feng's eyes showed a trace of surprise.

The strength of this senior brother Bai Jingjing said was truly terrifying.

This green three-headed dragon is very powerful, but the golden dragon gun can kill this ferocious dragon in an instant. This shows how terrifying the owner of this golden dragon gun is.

Bai Jingjing looked at the surrounding jungle at this time and couldn't help but asked: "Is it senior brother?"

"it's me."

The next moment, accompanied by a voice that contained a hint of majesty, a young man wearing a golden robe appeared.

This young man in golden robes looks very tall and majestic. There are even some halos looming in the void behind his head. He looks like a young god among the human race.

"It's really you, senior brother!"

Bai Jingjing obviously has deep admiration for this senior brother of Fengxue Villa. When she saw Wen Cangsheng actually appeared, her eyes suddenly showed deep surprise.

Uh-huh!

At this time, Wen Cangsheng flew down from high in the sky and pulled out his golden dragon gun directly from the body of the green three-headed dragon.

It has to be said that Wen Cangsheng is very powerful, and one shot is enough to kill such a terrifying three-headed dragon.

At this moment, Bai Jingjing walked up to Wen Cangsheng and couldn't help but asked: "I didn't expect to meet you, senior brother, here. I'm really lucky."

Wen Cangsheng nodded slightly, as if he was born with a kind of indifference that repulses people thousands of miles away, and said loudly: "I happened to pass by here and saw this green three-headed dragon, and it happened to remind me of an old man from our Fengxue Villa, please I looked for some poisonous materials that can be used to refine poison from the ice and snow jungle outside."

At this moment, I asked Cang Sheng and directly put these three heads

The three green heads of the dragon were cut off.

He said aloud: "All the toxins from this green three-headed dragon are concentrated in the head."

Swish, swish, swish!

After saying that, he asked Cangsheng to put the green heads of the three dragons into his storage ring.

The remaining huge dragon body of the three-headed dragon was left aside, seemingly not interested at all.

At this time, Ye Feng suddenly stepped forward and said, "Elder brother, can you give me the remaining body of the three-headed dragon?"

Wen Cangsheng glanced at Ye Feng, then nodded slightly and said loudly: "If you want it, just take it. I don't need this either. What I want is the three green heads of the three-headed dragon." Come and get poisoned."

"Thank you, senior brother."

Ye Feng's eyes showed a look of joy at this time, and he directly put the remaining three-headed dragon's body into his storage ring.

You must know that these three-headed dragons are very powerful, and neither you nor Bai Jingjing can resist them.

If the eldest brother of Fengxue Mountain Villa hadn't come here, he probably wouldn't have been able to deal with this three-headed dragon.

At this moment, Ye Feng suddenly began to silently swallow the blood energy of the three-headed dragon in the storage ring.

"Buzz buzz..."

Suddenly, huge amounts of energy were injected directly into Ye Feng's body, surging through his limbs.

At this time, Ye Feng suddenly felt that his cultivation skills had been greatly improved.

The energy provided by this three-headed dragon is very abundant.

Almost at the next moment, Ye Feng's cultivation level immediately broke through.

From the seventh level of the Shattering Void Realm, he broke through to the eighth level of the Shattering Void Realm!

You must know that as Ye Feng's cultivation level continues to improve, the skill energy he needs becomes larger and larger. Every breakthrough requires a terrifying amount of power to accumulate.

If Ye Feng was in the previous star field, it would probably be difficult to break through for a long time.

Because there are no so-called strong men in the star field, and there is no huge energy for Ye Feng to swallow. .??.

But coming to the more advanced third-level realm of Snowland, Ye Feng could easily devour very powerful creatures, thus being able to break through his own cultivation level.

And just when Ye Feng was secretly happy, Bai Jingjing and the elder brother of Fengxue Villa not far away asked Cangsheng what they seemed to be talking about.

Ye Feng discovered it and asked Cangsheng to look at him with a hint of surprise in his eyes.

Ye Feng knew immediately. It seemed that Bai Jingjing told this senior brother about his legendary deeds in the star field.

At this moment, Wen Cangsheng came to Ye Feng, with a kind smile on his majestic and unparalleled face, and said loudly: "It seems that this time I am very lucky, and I can rescue one of our Fengxue The future super genius of the Villa, Bai Jingjing has told me everything about you. Your talent is very good and your future potential is unlimited. You may be able to catch up with or even surpass me. "

Hearing what Wen Cangsheng said, Ye Feng's eyes suddenly showed a hint of surprise.

This senior brother of Fengxue Villa is very powerful, but he doesn't seem to be arrogant, and he is also very polite to ordinary disciples.

Ye Feng immediately smiled and said: "Elder brother is so ridiculous. I don't know how long it will take to catch up with my elder brother's cultivation."

Wait. "

Wen Cangsheng smiled and said: "Work hard. In this vast land of snow, the human race is really too weak. Each of us human race cultivators not only cultivate for themselves, but also for As the human race rises and cultivates, every super genius in our human race is very important. This time I decided to personally escort you back to Fengxue Villa to avoid any unknown dangers and accidents on the road. "

When Bai Jingjing heard that Wen Cangsheng wanted to personally escort them, she immediately smiled and said, "Thank you, senior brother."

Ye Feng also had a look of surprise in his eyes at this time. The quality of this Senior Brother of Fengxue Villa was still very good.

Next, Wen Cangsheng held the golden dragon gun in his hand, leading the way like a golden god.

With Wen Cangsheng's personal escort, even if Ye Feng and Bai Jingjing encountered some extremely powerful demons, they were easily killed by the senior brother of Fengxue Villa.

And Ye Feng also picked up a lot of demon bodies in vain, and gained a lot of energy, which allowed Ye Feng's cultivation to reach the tenth level of the Shattering Void Realm in just a few days.

This made Ye Feng very happy. He didn't expect that he would improve so much in just a few days.

But Ye Feng also knows that this is basically all due to the senior brother of Cangsheng Fengxue Villa.

Because all Ye Feng devoured were extremely powerful monsters that he could not deal with on his own, and they were all killed by Wen Cangsheng.

This made Ye Feng's impression of this senior brother of Fengxue Villa suddenly become very good.

This senior brother is very special. Unlike the senior brothers in the sects that Ye Feng joined before who only bullied newcomers and were dictatorial, this senior brother is a very kind senior brother who can completely protect his junior brothers and sisters. Protect one side.

Chapter 3383 The Strongest Ace

Under the personal escort of Senior Brother Wen Cangsheng, Ye Feng and Bai Jingjing safely passed through the dangerous area of a large ice and snow forest, and finally arrived at the base camp of Fengxue Villa.

Fengxue Villa is built in a very independent special space, like an independent small world.

When Ye Feng followed Bai Jingjing and his senior brother across the space gate, he immediately saw a very shocking scene.

I saw a large area of buildings completely made of ice, densely arranged on the ground not far away.

This small world doesn't look very big, but there are majestic buildings everywhere, which is extremely shocking.

Among the countless ice buildings, there is a cultivator of a human race everywhere, flying here and there, coming and going. It looks very lively, just like a paradise for the human race.

There is no danger outside, it is a safe paradise for humans.

While Ye Feng was watching, Senior Brother Wen Cangsheng suddenly said: "We finally arrived at our Fengxue Villa safely. Next, Ye Feng, you can practice well in our Fengxue Villa for a while. Don't go out for the time being." , the outside world is really too dangerous."

Ye Feng nodded, clasped his fists and said, "Thank you so much, Senior Brother, for being able to personally escort me back this time."

Wen Cangsheng nodded slightly, patted Ye Feng's shoulder, and said aloud: "If you really have such a powerful super talent as Bai Jingjing said, then in the future I believe you will be able to become a great person in our Fengxue Villa." We are the pillars, and when the time comes, we will work together for the entire human race of Fengxue Villa."

After saying that, Wen Cangsheng took the golden dragon gun in his hand and quickly disappeared from Ye Feng's sight. He walked towards the distance, left Fengxue Villa, and re-entered the snowy land outside.

Obviously, Wen Cangsheng still had other things to do in the snowy land outside Fengxue Villa. This time, he was specifically to personally escort the super genius Ye Feng back.

It has to be said that having a strong talent has its privileges.

In other words, on the snowy land, the human race is too weak. Once any super genius with extraordinary talents appears in the human race, they will receive great attention.

At this time, Bai Jingjing looked at Ye Feng and said with a smile: "Don't let me and senior brother down. We all value you and think highly of you. You have to practice hard."

Ye Feng nodded, smiled and said: "Don't worry, even if you don't tell me, I will work hard to practice and improve my cultivation strength."

Bai Jingjing smiled and said: "I believe in you. I have seen your talent in the previous star field. I hope you can grow into such a strong and indomitable person in the snow field. In that case, our entire human race will stand upright." It's very difficult for the human race to survive in the snowy land. If we can have a few more top-notch experts, our entire human race will be much better off."

After Bai Jingjing finished speaking, she led Ye Feng directly toward the central area of Fengxue Villa.

Next, Bai Jingjing took Ye Feng to register his identity in Fengxue Villa. From now on, Ye Feng can enjoy various resources in Fengxue Villa.

However, Bai Jingjing told Ye Feng that the many resources in Fengxue Villa, such as some powerful inheritance and various cultivation elixirs, are not free. You must contribute to the human race of Fengxue Villa in order to obtain these resources. use.

At this time, Ye Feng has officially become a part of Fengxue Villa.

r\u003e

At this moment, Bai Jingjing gave Ye Feng a map and said aloud: "This map marks some places that can be explored around our human base of Fengxue Villa. These places are not too dangerous. The possibility of encountering powerful demons is very small. With this map, you can go out to practice at any time, and search for various resources for our Fengxue Villa, or explore unknown areas, and continuously improve the scope of this map, you can get it Contribution points."

Ye Feng took the map, glanced at it briefly, and then put it into his storage ring.

At this moment, Ye Feng couldn't help but asked: "Senior Sister Bai, is there any method or resource in our Fengxue Villa that can activate the hidden bloodline?"

"Activate the hidden bloodline?"

When Bai Jingjing heard what Ye Feng said, she nodded slightly and said: "We human race have various physiques, and our Fengxue Villa has also produced many super strong people with special bloodline physiques. For this I don't know much about it, but our Fengxue Villa has a 'Bloodline Temple' that specializes in bloodline enhancement and bloodline activation. You can go to the Bloodline Temple to find some of the seniors who study bloodline and see if they can do anything. Ability to activate hidden bloodlines."

When Ye Feng heard what Bai Jingjing said, he immediately smiled and said, "Thank you, Senior Sister Bai, for your advice."

Bai Jingjing nodded, and then said aloud: "I brought you to our Fengxue Villa. I have completed my mission. I have other things to do now, so I will leave first. Next, you can practice well by yourself. I hope You can stand out in our Fengxue Villa's super genius selection half a year later. Only by outstanding performance in the semi-annual super genius selection ceremony can you become the key training target of our Fengxue Villa. Ye Feng, although you have just joined us. It usually takes two or three years for newcomers in Snow Wind Villa to show their talents, but I have great faith in your talent. Half a year should be enough for you. Work hard and practice for the rise of the human race. "

Uh-huh!

After saying that, Bai Jingjing jumped up and her beautiful figure disappeared from Ye Feng's sight.

"Practice for the rise of the human race?"

Hearing what Bai Jingjing said, Ye Feng's eyes showed a twinkle.

Senior Brother also said this before when he asked the people.

Perhaps among the human race in the Snowy Land, the human race is unprecedentedly united and has a common belief. This belief is to cultivate for the rise of the human race.

At this moment, after Ye Feng thought for a while, he quickly flew towards the Bloodline Temple that Bai Jingjing mentioned.

The reason why Ye Feng asked how to activate the hidden bloodline was naturally to stimulate his most powerful Hongmeng bloodline.

The Chaos Body has entered the Great Perfection state and cannot continue to improve. It has reached the upper limit. Therefore, if Ye Feng now wants to continue to improve his strength and strengthen his combat power, he must find a way to stimulate his energy as soon as possible. Hongmeng bloodline.

After all, it was difficult for Ye Feng to kill any ordinary monster he encountered on the way to Fengxue Villa.

If it hadn't been for the escort by his senior brother, maybe he and Bai Jingjing would have died on the road.

Ye Feng saw the huge dangers in the snowy land, and naturally his pursuit of power became even more intense.

And the Hongmeng bloodline can be said to be Ye Feng's strongest trump card in the increasingly dangerous advanced realm! Under the personal escort of Senior Brother Wen Cangsheng, Ye Feng and Bai Jingjing safely passed through the dangerous area of a large ice and snow forest, and finally arrived at the base camp of Fengxue Villa.

Chapter 3384 Bloodline Temple

Ye Feng's speed was very fast. In less than half an hour, he had arrived at the center of Fengxue Villa.

There are many halls here, and each hall performs different functions.

Uh-huh!

After Ye Feng found the Bloodline Temple, he flew over directly.

The whole body of the Bloodline Temple is made of ice, but this ice is purple transparent ice, which looks very strange.

When Ye Feng walked into the main hall, he immediately saw many other young people, also in the Bloodline Temple, sitting on special seats, all exuding a faint aura. bloodline fluctuations.

There was a look of surprise in Ye Feng's eyes. He couldn't help but look at an old man in the hall and asked: "Senior, I came here to see if I can activate the bloodline hidden in my body. I don't know. How do I activate it?"

The old man glanced at Ye Feng and seemed to be very familiar with Ye Feng's words, because everyone who came here wanted to awaken their bloodline.

The old man said aloud: "These seats are all made by the masters of refining in our Fengxue Mountain Villa. They contain special abilities that can help us humans awaken the powerful bloodline hidden in our bloodline. These low-level awakening bloodline The chair does not require contribution points. You can see if you can awaken your bloodline. If your bloodline is too strong and you need a more advanced chair to awaken it, then you need to pay enough contribution points, otherwise you will not be able to use those Premium seats."

"A seat that can awaken the blood hidden in the body?"

At this time, Ye Feng looked at the chairs with surprise in his eyes.

I didn't expect that the master craftsman in Snow Mountain Villa was so powerful and could craft such a special chair.

As long as human warriors sit on it, they can awaken the special blood within their bodies. It is extremely magical. It is worthy of being in the advanced realm, and the manufacturing process is still very advanced and magical.

At this time, Ye Feng nodded, walked directly to an ordinary seat, and sat down.

Buzz!

At this moment, Ye Feng suddenly felt a very special energy wave, which was transmitted to his body from the chair he sat on, and was vaguely connected to the blood in his body.

However, what disappointed Ye Feng was that the energy fluctuations in this seat were so weak that even his own chaotic bloodline could not connect with it.

This is definitely a very low-level bloodline awakening seat.

But it's normal for Ye Feng to think about it. After all, it's free to use, so it can't be that powerful.

At this moment, Ye Feng stood up, looked at the old man, and said loudly: "Senior, these ordinary chairs don't seem to have much effect on me."

The old man glanced at Ye Feng in surprise, as if he didn't expect that this kind of chair could not awaken the blood in Ye Feng's body. It seemed that the blood in Ye Feng's body was very advanced.

At this time, the old man nodded slightly and said loudly: "If you want to use a higher-level bloodline awakening chair, you need enough contribution points, but you can use those high-level seats first without losing these contribution points. , see if you can awaken your bloodline, and you can repay it directly when you accumulate enough contribution points."

"Can I still owe contribution points first?"

listen

When the old man said this, Ye Feng suddenly showed a trace of surprise in his eyes.

Seeing the surprise in Ye Feng's eyes, the old man immediately smiled and said: "The original intention of establishing Fengxue Villa is to cultivate more super geniuses for human beings. Since your bloodline is so advanced, then you can Use those seats in advance to avoid delaying your practice."

Hearing what the old man said, Ye Feng immediately nodded and said, "That's great!"

Originally, Ye Feng wanted to leave directly, go out to collect some resources in exchange for contribution points, and then see if he could use those high-end seats to awaken his Hongmeng bloodline.

But now that the old man has said this, Ye Feng is naturally very happy to pay the contribution points first and see if his bloodline can be awakened first.

Because if the awakening can be successful, Ye Feng will definitely get greater security when he goes out to practice again.

After all, the Chaos bloodline is already so powerful.

Not to mention the most supreme Hongmeng bloodline in the origin world, it must be even more evil!

"Follow me."

At this time, the old man with bloodline walked towards the interior of the hall with Ye Feng.

Ye Feng quickly followed the old man towards the deepest part.

Ye Feng noticed at this time that many people around him gave him very envious looks.

Obviously, everyone understands that if you can use a high-end chair to awaken your bloodline, your bloodline must be very advanced.

Soon, Ye Feng followed the old man from the Bloodline Temple to the deepest part of the hall.

There is actually a huge Frozen Throne here.

The old man looked at the Frozen Throne at this moment, with a hint of respect in his eyes, and then said aloud: "This Frozen Throne was left by the first generation owner of Snow Mountain Villa, and can be compared with any human race The bloodlines in the genius are connected, thereby activating the bloodline energy in your body. You can sit on it and give it a try. "

"good."

Ye Feng also felt an unfathomable aura from the Frozen Throne.

At this moment, Ye Feng didn't hesitate at all, he just walked forward and sat on the huge Frozen Throne.

"Buzz!"

Almost the moment Ye Feng sat on it, he immediately sensed an energy fluctuation that was tens of millions of times stronger than those previous ordinary seats. It was transmitted from the Frozen Throne underneath and began to interact with the energy in his body. The bloodline produced a very strange resonance.

Almost at the next moment, Ye Feng immediately felt that a bloodline energy hidden in the deepest part of his bloodline was slowly awakening.

Buzz!

At this moment, Ye Feng's body produced an inexplicable aura of greatness and boundlessness.

It was as if a supreme master had awakened deep in Ye Feng's blood.

That is definitely the Hongmeng bloodline!

"What a great breath..."

The old man from the Bloodline Temple who was watching not far away also sensed the boundless and supreme aura of greatness coming from Ye Feng at this moment.

His eyes suddenly showed a trace of horror. He had never sensed such great and noble blood energy. Ye Feng's speed was very fast. In less than half an hour, he had arrived at the center of Fengxue Villa.

There are many halls here, and each hall performs different functions.

Uh-huh!

After Ye Feng found the Bloodline Temple, he flew over directly.

The whole body of the Bloodline Temple is made of ice, but this ice is purple transparent ice, which looks very strange.

When Ye Feng walked into the main hall, he immediately saw many other young people, also in the Bloodline Temple, sitting on special seats, all exuding a faint aura. bloodline fluctuations.

There was a look of surprise in Ye Feng's eyes. He couldn't help but look at an old man in the hall and asked: "Senior, I came here to see if I can activate the bloodline hidden in my body. I don't know. How do I activate it?"

The old man glanced at Ye Feng and seemed to be very familiar with Ye Feng's words, because everyone who came here wanted to awaken their bloodline.

The old man said aloud: "These seats are all made by the masters of refining in our Fengxue Mountain Villa. They contain special abilities that can help us humans awaken the powerful bloodline hidden in our bloodline. These low-level awakening bloodline The chair does not require contribution points. You can see if you can awaken your bloodline. If your bloodline is too strong and you need a more advanced chair to awaken it, then you need to pay enough contribution points, otherwise you will not be able to use those Premium seats."

"A seat that can awaken the blood hidden in the body?"

At this time, Ye Feng looked at the chairs with surprise in his eyes.

I didn't expect that the master craftsman in Snow Mountain Villa was so powerful and could craft such a special chair.

As long as human warriors sit on it, they can awaken the special blood within their bodies. It is extremely magical. It is worthy of being in an advanced realm, and the manufacturing process is still very advanced and magical.

At this time, Ye Feng nodded, walked directly to an ordinary seat, and sat down.

Buzz!

At this moment, Ye Feng suddenly felt a very special energy wave, which was transmitted to his body from the chair he sat on, and was vaguely connected to the blood in his body.

However, what disappointed Ye Feng was that the energy fluctuations in this seat were so weak that even his own chaotic bloodline could not connect with it.

This is definitely a very low-level bloodline awakening seat.

But it's normal for Ye Feng to think about it. After all, it's free to use, so it can't be that powerful.

At this moment, Ye Feng stood up, looked at the old man, and said loudly: "Senior, these ordinary chairs don't seem to have much effect on me."

The old man glanced at Ye Feng in surprise, as if he didn't expect that this kind of chair could not awaken the blood in Ye Feng's body. It seemed that the blood in Ye Feng's body was very advanced.

At this time, the old man nodded slightly and said loudly: "If you want to use a higher-level bloodline awakening chair, you need enough contribution points, but you can use those high-level seats first without losing these contribution points. , see if you can awaken your bloodline, and you can repay it directly when you accumulate enough contribution points."

"Can I still owe contribution points first?"

listen

When the old man said this, Ye Feng suddenly showed a trace of surprise in his eyes.

Seeing the surprise in Ye Feng's eyes, the old man immediately smiled and said: "The original intention of establishing Fengxue Villa is to cultivate more super geniuses for the human race. Since your bloodline is so advanced, then you can Use those seats in advance to avoid delaying your practice."

Hearing what the old man said, Ye Feng immediately nodded and said, "That's great!"

Originally, Ye Feng wanted to leave directly, go out to collect some resources in exchange for contribution points, and then see if he could use those high-end seats to awaken his Hongmeng bloodline.

But now that the old man has said this, Ye Feng is naturally very happy to pay the contribution points first and see if his bloodline can be awakened first.

Because if the awakening can be successful, Ye Feng will definitely get greater safety when he goes out to practice again.

After all, the Chaos bloodline is already so powerful.

Not to mention the most supreme Hongmeng bloodline in the origin world, it must be even more evil!

"Follow me."

At this time, the old man with bloodline walked towards the interior of the hall with Ye Feng.

Ye Feng quickly followed the old man towards the deepest part.

Ye Feng noticed at this time that many people around him gave him very envious looks.

Obviously, everyone understands that if you can use a high-end chair to awaken your bloodline, your bloodline must be very advanced.

Soon, Ye Feng followed the old man from the Bloodline Temple to the deepest part of the hall.

There is actually a huge Frozen Throne here.

The old man looked at the Frozen Throne at this moment, with a hint of respect in his eyes, and then said aloud: "This Frozen Throne was left by the first generation owner of Snow Mountain Villa, and can be compared with any human race. The bloodlines in the genius are connected, thus activating the bloodline energy in your body. You can sit on it and give it a try. "

"good."

Ye Feng also felt an unfathomable aura from the Frozen Throne.

At this moment, Ye Feng didn't hesitate at all, he just walked forward and sat on the huge Frozen Throne.

"Buzz!"

Almost the moment Ye Feng sat on it, he immediately sensed an energy fluctuation that was tens of millions of times stronger than those previous ordinary seats. It was transmitted from the Frozen Throne underneath and began to interact with the energy in his body. The bloodline produced a very strange resonance.

Almost at the next moment, Ye Feng immediately felt that a bloodline energy hidden in the deepest part of his bloodline was slowly awakening.

Buzz!

At this moment, Ye Feng's body produced an inexplicable aura of greatness and boundlessness.

It was as if a supreme master had awakened deep in Ye Feng's blood.

That is definitely the Hongmeng bloodline!

"What a great breath..."

The old man from the Bloodline Temple who was watching not far away also sensed the boundless and supreme great aura coming from Ye Feng at this moment.

His eyes suddenly showed a trace of horror. He had never sensed such great and noble blood energy.

Chapter 3385 Complete Awakening

This old man is a temple elder in the Bloodline Temple. He has always experienced great storms and has taken everything lightly.

However, he had never seen such bloodline energy fluctuations as those emanating from Ye Feng at this moment. It was simply so great that the temple elder couldn't help but feel as if he wanted to surrender and kneel down on the spot. .

This feeling is very terrifying, because it is completely bloodline pressure, just like a born mortal who meets the born emperor of the human race and has to kneel down and salute.

However, at this moment, Ye Feng did not observe the horror in the eyes of the old man in front of him. He was concentrating on activating his bloodline energy and wanted to completely awaken his bloodline.

The power in this Frozen Throne is very terrifying, and it should be able to awaken Ye Feng's bloodline.

Buzz!

At this moment, Ye Feng was frantically absorbing the ancient power in the Frozen Throne, hoping to completely awaken his dormant Hongmeng bloodline.

You know, the Hongmeng bloodline has been sleeping for a long time.

Ever since Ye Feng started practicing cultivation, so many years have passed, but the Hongmeng bloodline has not yet awakened, and now it is finally beginning to awaken.

"I have been waiting for this day for too long..."

Ye Feng himself couldn't help but murmured.

However, Ye Feng knew that once the Hongmeng bloodline was awakened, his strength would reach a higher level, and his talent and cultivation limits would also be greatly improved.

Buzz!

At this moment, countless energy from the Frozen Throne began to be injected crazily into Ye Feng's body, quickly awakening Ye Feng's Hongmeng bloodline from its slumber.

Finally at this moment.

"boom!!"

A terrifying wave of blood energy suddenly erupted from Ye Feng's body.

That kind of great fluctuation made the temple elder not far away finally unable to bear it anymore, and he knelt on the ground with a "pop".

At this moment, no matter how high the cultivation level of this temple elder was, he could not stand in front of Ye Feng at all, because this was a kind of

The terrifying pressure from the origin of blood.

At this moment, Ye Feng's eyes were filled with deep excitement.

Because at this time, Ye Feng's Hongmeng bloodline finally fully awakened.

Buzz!

At this time, a very mysterious message appeared directly in Ye Feng's mind.

That is the information of Hongmeng bloodline!

At this time, Ye Feng could feel that his Hongmeng bloodline had begun to replace the Chaos bloodline, and even swallowed up the Chaos bloodline like an evil beast.

The awakening of the Hongmeng bloodline is like the awakening of an emperor!

This immediately made Ye Feng feel that his life essence had been improved.

At this moment, Ye Feng stood up from the Frozen Throne, feeling the changes after the improvement of his bloodline.

Ye Feng's cultivation level has not broken through, but now the improvement of bloodline makes Ye Feng even happier than the breakthrough in cultivation level.

Because the Hongmeng bloodline has finally fully awakened!

At this time, Ye Feng was comprehending the information about Hongmeng bloodline in his mind.

According to the information transmitted by Hongmeng bloodline, Ye Feng immediately obtained the cultivation method of Hongmeng bloodline from the deepest part of the bloodline.

This method of cultivation allows Ye Feng to continuously improve the power of his Hongmeng bloodline and develop a unique and super strong physique: the Hongmeng Immortal Body!

The Hongmeng Immortal Body is a physique that is greater and more powerful than the Chaos Body. It has ten levels in total.

After cultivating to the tenth level of the Hongmeng Immortal Body, you will become immortal and truly step into the legendary realm of supreme domination!

At this time, Ye Feng was very happy. He had finally fully awakened the Hongmeng bloodline, and he had also seen the end of cultivation, which was the realm of dominance!

And Ye Feng knew very well that if he could make Hongmeng Immortal

If you reach the tenth level of physical cultivation, you will become the most powerful master in the world.

Because Ye Feng knows that the Hongmeng Immortal Body is the most powerful master in the world and the inherited method left by the ancestor of Hongmeng.

If he can cultivate the Hongmeng Immortal Body to the tenth level of Great Perfection, then he will be able to rival the Hongmeng Ancestor.

At this time, Ye Feng suddenly saw the Frozen Throne where he was sitting. At this moment, there were tiny cracks on the surface, like porcelain, which was about to break.

Ye Feng suddenly showed a trace of surprise in his eyes. Could it be that in order to awaken the Hongmeng bloodline, he had absorbed all the energy in the Frozen Throne, so that the Frozen Throne produced such a behavior? Variety.

However, Ye Feng, who was at the front, could see some tiny cracks on the surface of the Frozen Throne. Ordinary people would not be able to notice it if they didn't pay attention.

So at this time, Ye Feng could only pretend to be stupid, pretend not to see anything, and walk forward.

"Huh? Elder, why are you kneeling here?"

At this time, Ye Feng suddenly saw that the elder of the Bloodline Temple who had brought him here was kneeling in front, with a look of shock on his face.

After Ye Feng spoke up at this time, the elder of the Bloodline Temple immediately showed a trace of embarrassment on his face.

He quickly stood up, and then said with some concealment: "Just now I sensed the aura of our number one master of Snow Wind Villa from the Frozen Throne, so I knelt down."

At this moment, the elder of the Bloodline Temple will naturally not tell the truth, because it would be too embarrassing to tell the truth. After all, Ye Feng is just a junior figure.

Ye Feng didn't suspect anything at this time. He just nodded and said, "Thank you so much, elder, for bringing me here and activating my bloodline."

Hearing Ye Feng talk about bloodline, the elder of the Bloodline Temple immediately turned serious.

He said aloud: "The power of your bloodline is simply the most powerful one I have ever seen, unprecedented. I hope you can practice well and not let down the power of your extremely powerful bloodline."

When Ye Feng heard what the elder of the Bloodline Temple said, he immediately nodded and said, "Elder, don't worry, I will definitely work hard to practice for the rise of the human race."

After saying that, Ye Feng left the Bloodline Temple and walked outside.

Ye Feng has now fully awakened the Hongmeng bloodline, and naturally wants to go back and feel the power of this new and powerful bloodline.

At this moment, looking at Ye Feng's retreating back, the elder of the Bloodline Temple flashed his eyes slightly, and suddenly jumped and flew directly to the deepest part of the Bloodline Temple.

In the deepest part of the Bloodline Abyss, there is an ancient-looking garden.

At this moment, in the middle of what looks like a royal garden, there is a pavilion.

Under the pavilion, stood a mature woman who looked extremely graceful. She was wearing a long black dress and was very graceful.

At this time, the elders of the Bloodline Temple were very respectful in front of this mysterious woman in a black dress. They did not even dare to raise their heads. They bowed and clasped their fists and said, "Tell the Lord, I just discovered a person with extremely powerful bloodline." His peerless genius, and even the great aura of bloodline power, made me unable to help but kneel on the spot."

This mysterious woman in black dress is none other than the master of the Bloodline Temple, Ye Weiyang!

This is an extremely mysterious and powerful woman, very noble.

At this moment, Ye Weiyang turned around, revealing a stunningly beautiful face.

Her tone was very ethereal and mysterious, and she said aloud: "The bloodline that can make you kneel down is probably one of the only extremely powerful top bloodlines in the world. This is a good seedling. I will pay attention to it personally, please step back."

"Yes, Palace Master."

The elder of the Bloodline Temple immediately clasped his fists respectfully and retreated.

Chapter 3386 Ice Arowana

Ye Feng didn't know that the elders of the Bloodline Temple reported his powerful bloodline talent to the master of the Bloodline Temple.

After Ye Feng left the Bloodline Temple at this time, he returned directly to his residence.

At this moment, Ye Feng could feel the Hongmeng bloodline he had just awakened.

Ye Feng could notice that after the Hongmeng bloodline awakened, his chaotic body gradually began to transform into a more powerful and greater Hongmeng immortal body.

But now Ye Feng's Hongmeng Immortal Body is in the early stage of the first level, not even the early stage.

But even so, Ye Feng also felt that his physique had undergone a qualitative transformation.

Ever since the Chaos Body entered the Great Perfection state, Ye Feng's physical strength has been stable at the Great Perfection state and cannot continue to grow.

But now Ye Feng's physique can continue to strengthen.

Because Ye Feng's physique has transformed into the Hongmeng Immortal Body with more potential.

If he cultivates to the tenth level of perfection, it means that Ye Feng has become the most powerful master and is immortal.

After Ye Feng thought about it at his residence for several days, he finally discovered that the promotion of the Hongmeng Immortal Body and the Chaos Body were different.

To improve the Chaos Body, you can directly use the Protoss Gloves to extract various solid attributes to increase the strength of the Chaos Body.

But the Hongmeng Immortal Body needs to continuously improve its bloodline power.

Only when the bloodline power is improved can the Hongmeng Immortal Body be improved.

In other words, the original body refining method is not of much use when used on the Hongmeng Immortal Body.

In the future, Ye Feng will need to constantly search for various powerful bloodlines and integrate them into his body in order to improve his Hongmeng Immortal Body.

This gave Ye Feng a sense of urgency in his heart.

Because the powerful bloodlines in this world basically exist in the bodies of all the top creatures and super clans.

Want to get all kinds of powerful

This is a very difficult thing to do, and it is much more difficult than improving the Chaos Body before.

At this time, Emperor Chu suddenly said aloud in his mind: "It is not as difficult as you think to improve your bloodline ability. You must know that among the major realms of the Origin World, especially the higher realms, In the domain, there are more and more ancient civilization relics. Among these ancient ruins, there are the skeletons and bodies of various powerful creatures left over from ancient times. From the skeletons and bodies of these powerful creatures left behind, , you can obtain the super powerful bloodline from ancient times, thus improving your Hongmeng bloodline."

Hearing what Emperor Chu said, Ye Feng's eyes suddenly lit up.

It seems that I need to explore more ancient ruins that may contain ancient powerful creatures.

This gave Ye Feng a new direction for the improvement of Hongmeng Immortal Body.

Uh-huh!

At this time, Ye Feng took out the map that Bai Jingjing had given him before, and wanted to explore the nearest trial place around Fengxue Villa.

After all, Ye Feng knew that Fengxue Villa was just a survival base for the human race, and it was different from the sect he was in before.

Everyone is in Snow Wind Villa just to have a temporary foothold and provide themselves with a safe place to practice.

If you want to become more powerful, Snow Wind Villa cannot provide you with many resources. You need to go out and wander on the snowy land by yourself to gain powerful strength.

After all, the human race is very weak on the snowy land and has very few resources. Most of the resources are controlled by the major super races and countless powerful demons.

It can be seen that even the eldest brother of Wen Cangsheng, the extremely powerful Fengxue Villa, needs to leave Fengxue Villa frequently and look for various resources outside.

Not to mention Ye

Feng is a newcomer who has just arrived at Fengxue Villa.

Everything needs to be worked hard by oneself.

Snow Wind Villa only provides a safe harbor.

At this time, after realizing this, Ye Feng took the map in his hand and left Fengxue Villa directly.

In fact, Ye Feng thinks that a place like Fengxue Villa is very good.

Because in Snow Wind Villa, every member of the human race encourages each other, grows up with each other, and practices together for the rise of the human race, and there is rarely any intrigue between them.

Because everyone has no time, everyone's only wish is to improve their strength and rectify the name of the weak human race on the snowy land.

At this time, Ye Feng looked at the map in his hand. After leaving Fengxue Villa, he flew directly towards the north quickly.

The place Ye Feng is heading to now is an icy lake recorded on the map not far to the north of Fengxue Villa.

This ice lake, according to records, as long as you don't enter the deepest part of the ice lake, you won't encounter any too powerful monsters.

So Ye Feng planned to practice in this ice lake first.

In addition, the map also records that there is a rather strange ice arowana living in this frozen lake.

This kind of fish is not very aggressive, but its body contains the blood of the ancient ice and snow dragon clan.

If this kind of ice dragon fish can be caught, ordinary human warriors can strengthen their flesh and blood strength and improve their physique after eating it.

What Ye Feng is interested in is the ice and snow dragon bloodline hidden in the body of this ice dragon fish.

After all, you must know that the Ice and Snow Dragon Clan is the dominant race in the snowy region.

If you can get the bloodline of the Ice and Snow Dragon Clan from the Ice Dragon Fish, even just a trace of bloodline, it will be of huge benefit to Ye Feng's own bloodline improvement.

Swish, swish, swish!

\u003c

After Ye Feng left Fengxue Villa, he immediately restrained his aura.

After all, Ye Feng encountered many dangers when he followed Bai Jingjing to Fengxue Villa.

So Ye Feng was naturally very cautious when he was on the road.

But it has to be said that the snowy land is full of dangers, and there are quite extraordinary monsters living everywhere.

Uh-huh!

Just when Ye Feng left Fengxue Villa and came to the wild, before flying for long, a small green snake suddenly sprang out from a towering tree not far away.

Like a bolt of green lightning, it struck directly at Ye Feng and was about to bite Ye Feng's neck in an instant.

This is fatal damage!

boom!

But at this moment, Ye Feng reacted immediately.

After all, when Ye Feng was on the road, he released his soul power around his body, like a radar that could scan the situation around him at any time.

So Ye Feng was aware of the little green snake that was attacking him in an instant, and he directly stretched out his hand to catch the little green snake in his hand.

Ye Feng saw this small green snake, which was covered with dense black snake teeth. It looked very ferocious and was definitely poisonous.

At this moment, Ye Feng was about to crush this little green snake.

"Young Master, please be merciful. This little green snake is my pet. It has not yet opened its wisdom. Because of its wild nature, it accidentally offended the Young Master. Please let it go. I can give you the appropriate compensation." In exchange for the life of this little green snake."

Suddenly at this moment, a girl's voice sounded very light.

The next moment, Ye Feng looked not far away, but he saw a beautiful girl walking out from behind a big tree not far away. She was wearing a light yellow dress and fluffy hair. She looked graceful and cute.

Chapter 3387 Spirit Tribe

At this time, Ye Feng stared at the girl in a light yellow dress who appeared in front of him, with a hint of surprise in his eyes. He couldn't help but ask: "Are you the beast controller of our human race?"

"I'm not a human being."

The girl in the light yellow dress walked towards Ye Feng at this time, with a gentle smile on her face and said loudly: "I am from the Spirit Clan."

"Eldar?"

Ye Feng stared at the girl in front of him at this time, and saw that the other person's skin was not the skin of an ordinary human being, but a kind of jade-like skin, crystal clear, and even exuding a faint aura.

At this moment, the girl in a light yellow dress immediately smiled and said: "Let me introduce myself first, my name is Chu Xiaomeng. Our spirit race is born with the talent of communicating with various spirit beasts. With you human race, The beast control masters are different, but they are similar. Once we can communicate with the spirit beasts to a certain extent, we can control the behavior of various spirit beasts. The little green snake in your hand is what I am currently doing. As a communicating spirit beast, if I succeed in communicating, I can unlock its wisdom and it will listen to me."

Ye Feng looked at the little green snake in his hand, nodded slightly, and said: "Since it is the pet you are communicating with, then I will give it back to you."

Chu Xiaomeng stared at Ye Feng and said playfully: "This young master of the human race, I will make it up to you."

"My name is Ye Feng."

Ye Feng smiled and said: "Forget it, you don't have to make up for anything. I think you are quite good, and you don't look down on me just because I am a weak human race. It shows that all of you spirit race are very good." kind."

Chu Xiaomeng immediately said with a smile: "Of course, on the snowy land, our spirit race is the kindest race, but I will definitely make it up to you, Mr. Ye Feng."

At this time, Chu Xiaomeng said, suddenly it seemed

Thinking of something, he quickly said: "I am about to go to the ice lake area not far away. I got the news that there is an ice dragon hidden in the depths of the lake. I went to the ice lake this time just to be able to Tamed that ice dragon and made it my pet, and it is said that at the bottom of the lake, there are the remains of the ancient ice clan. I spent a lot of money to learn this secret news, so this news can be regarded as compensation for you. Yes, we can go there and explore the treasures together."

Hearing what Chu Xiaomeng said, Ye Feng's eyes suddenly moved and he couldn't help but said: "Then we are really destined. I came out of our human survival base this time to explore the nearby ice lake area. , because it is said that there are many ice arowanas living in those ice lakes. After eating these ice arowanas, we humans can improve our physique. Unexpectedly, there is an ice dragon in the depths of this ice lake. "

Chu Xiaomeng immediately spoke up and said: "That ice dragon evolved from the ice dragon fish. It should have been affected by the special energy in the ancient ruins of the ice clan under the lake."

Ye Feng immediately nodded, with a hint of expectation in his eyes, and said loudly: "Then let's go and investigate together. This time we were really lucky and met Miss Chu."

Chu Xiaomeng immediately smiled and said: "I have always wanted to find a partner to go explore with me, because I am not strong enough alone, and Mr. Ye Feng has a very good attitude and looks very kind, so I trust you."

When Ye Feng heard what Chu Xiaomeng said, he just smiled and didn't say much.

Next, the two of them moved forward together, towards the icy lake area not far away.

Go.

Soon they passed through a large jungle and finally arrived at the edge of the icy lake.

The air here is already full of cold breath.

Ye Feng even felt that his blood was about to freeze, and traces of ice began to condense on the surface of his entire body.

However, Ye Feng's current physique has completely evolved to the Hongmeng Immortal Body.

Although it is only the early stage of the first level of the Hongmeng Immortal Body, it is still a very powerful body, and its life essence is much stronger than the Chaos Body.

So at this time, these cold air cannot freeze Ye Feng's body.

Ye Feng used the blood energy of his Hongmeng Immortal Body to dissipate the cold air from his body.

At this moment, Chu Xiaomeng seemed a little cold, but her skin, which looked like it was made of jade, suddenly emitted a faint spiritual light, which actually blocked the cold air directly from the outside and could not invade, just like the skin. An energy shield appeared on the surface.

Seeing this scene, Ye Feng's eyes showed a trace of surprise.

Sure enough, each major race has its own talents, which are very magical and powerful.

If you think about it this way, it seems that the human race really has no so-called talents, and they all rely on the various abilities they have acquired through their own cultivation.

However, many other races are born with very special abilities. For example, the jade-like skin of the Spirit Race and the innate talent of being able to communicate with various spiritual beasts make Ye Feng quite envious.

At this time, Ye Feng understood why the human race was so weak on the snowy land.

Because from the moment the human race was born, it was left far behind by many races.

\u003c

br\u003e But at this time, the look in Ye Feng's eyes became more and more determined.

Because the human race represents self-improvement.

The human race does not need to be born with anything, because if the human race needs anything, it will work hard to obtain and create it.

Just when Ye Feng was thinking secretly, Chu Xiaomeng next to him looked at the map in his hand and said loudly: "The location shown on the map is here. I don't know where the specific ice dragon is. We can first settle down here and have a good look around."

Ye Feng nodded slightly and said aloud: "I came to this ice lake mainly to catch ice dragon fish to improve my body and physique, so I really want to live here for a while."

Uh-huh!

While Ye Feng was talking, he had already taken out a small wooden house from the storage ring, placed it on the thick ice, and lived here temporarily.

When Chu Xiaomeng saw that Ye Feng had even brought the house, she immediately said with some joy: "That's great, Mr. Ye Feng, you are so thoughtful."

Ye Feng smiled slightly and said, "Of course."

After saying that, Ye Feng walked directly into the cabin.

This cabin is no ordinary cabin. It is a camping treasure that Ye Feng got in Snow Wind Villa.

Various formations are engraved on the walls of this cabin, which can gather all kinds of spiritual energy around for practice. It also has a heating effect, making people stay very warm inside.

Chu Xiaomeng also walked into the cabin at this time, and immediately said in surprise: "The manufacturing process of your human race is really amazing. Although your human race is not a powerful race in the snowy land, you are definitely the smartest. "

Chapter 3388 Improving Bloodline

At this moment, Chu Xiaomeng said, making Ye Feng's eyes show a hint of surprise.

I didn't expect that Chu Xiaomeng, who came from the Spirit Clan, would have such high regard for the Human Clan.

However, Ye Feng didn't say much. Maybe Chu Xiaomeng was too simple, and didn't have too many bad intentions, nor did he have any inherently superior attitude.

At this moment, Ye Feng walked towards Bu Wai and said loudly: "I'm going fishing, do you want to come with me?"

"want!"

Chu Xiaomeng nodded immediately, walked to Ye Feng's side quickly, and said with a smile: "Although I came here mainly to look for the ice dragon, but as for the things that grow in this ice lake, I am also very interested in the ice arowana, because if I can communicate with an ice arowana and successfully tame it, then this ice arowana can become my 'eyes' underwater in the frozen lake. , can search various underwater situations for me."

Hearing what Chu Xiaomeng said, Ye Feng immediately nodded in admiration. At this time, Ye Feng was even more envious of the various abilities innate to other races.

At this moment, Ye Feng and Chu Xiaomeng left the cabin and came to the ice of the frozen lake outside.

At this time, Ye Feng didn't hesitate at all, and directly blasted out with a palm.

Boom!

A hole was punched out of the thick lake ice by Ye Feng.

At this time, Ye Feng took out a bait-like fruit directly from his storage ring and threw it under the ice cave.

This fruit was bought by Ye Feng from the Fengxue Villa trading market before leaving Fengxue Villa. It can induce the Ice Arowana to come and eat it.

At this time, Ye Feng became more and more proud of being a human being.

Because the human race does not seem to have any special talents, but the human race is very smart and can create various powerful martial arts and inheritance, various special magic weapons, and various practical things.

For example, this fruit can induce ice dragon fish to come and eat it.

If they were from other races, they could only jump into this cold ice lake, go under the water, and then catch the ice arowana, they could only use the most primitive method.

You know, the water under this ice lake is very cold. Even Ye Feng does not dare to jump into it rashly for fear that his whole body will be frozen.

At this time, after Ye Feng dropped the fruit, he stood quietly next to the big hole in the ice and waited quietly.

Chu Xiaomeng was standing beside him at this time, but he did not dare to make a sound because he was afraid that he would disturb the ice arowana under the water.

"Crash!"

The fruit Ye Feng threw down was very useful.

In less than half an hour, the two of them suddenly heard the sounds of swimming in the water under the ice.

They should all be ice arowanas.

"Uh-huh!"

At this moment, without any hesitation, Ye Feng stretched out his hand and grabbed it downwards.

Ye Feng's hand suddenly grew in size quickly, and then turned into a super big hand, which directly grabbed all the ice arowanas that were attracted.

This time Ye Feng caught a total of nearly fifty or sixty ice arowanas.

Ye Feng threw the fifty or sixty ice dragon fish directly on the ice.

The ice dragon fish struggled on the ice, but could never return to the water.

At this moment, Ye Feng took an ice arowana and threw it to Chu Xiaomeng beside him. He smiled and said: "Take this ice arowana to communicate with and tame it, and find the secret hidden in this ice lake." The ice dragon, as well as the search for the ancient ruins of the Ice Clan you mentioned, probably depend on you to tame this ice dragon fish."

Ye Feng knew very well that if Chu Xiaomeng could really tame an ice arowana and make it sane and able to communicate with them, then the ice arowana would indeed be able to find for them the locations of hidden treasures in this frozen lake. .

After all, the Ice Arowana is a native of this frozen lake, and must be very familiar with all locations in the entire frozen lake.

"Thank you!"

Holding the ice arowana that Ye Feng threw to her, Chu Xiaomeng was very happy. She immediately began to use her racial talents and began to communicate with this ice arowana, allowing it to open up its wisdom and do things for her. .

At this moment, Ye Feng looked at the more than fifty ice arowanas in front of him, and he opened his mouth and swallowed all the more than fifty ice arowanas.

"Buzz!"

The moment more than fifty ice arowanas entered Ye Feng's belly, they immediately turned into streams of very special energy and began to temper Ye Feng's entire body.

Ye Feng could immediately feel that the strength of his body began to slowly increase.

However, this kind of ice arowana improves Ye Feng's body power very slowly, so Ye Feng has no intention of relying on the special energy of these ice arowanas to improve his physique.

He mainly wanted to extract the special and powerful ice and snow dragon blood from the blood of these ice dragon fish to enhance the power of his own blood.

At this moment, Ye Feng extracted all the purest ice and snow dragon blood from more than fifty ice dragon fish.

But in the end, it only turned into a drop of ice and snow dragon blood and merged into Ye Feng's body.

This made Ye Feng's eyes reveal a hint of surprise.

Unexpectedly, more than fifty ice dragon fish could only condense and purify one drop of pure ice and snow dragon blood.

The pure blood of the ice and snow dragon clan contained in the bodies of these ice arowanas is really extremely thin.

But it's good to be able to extract a drop of it and integrate it into Ye Feng's blood. Ye Feng can immediately feel that his blood's ability has begun to improve slightly.

Ye Feng could feel that his Hongmeng Immortal Body was rapidly improving.

Although it did not move from the early stage of the first level of the Hongmeng Indestructible Body to the middle stage, it also made the Hongmeng Indestructible Body significantly improved.

Because Ye Feng could feel that his strength was much greater than before.

Sure enough, absorbing the extremely powerful racial blood and using it to enhance the power of your own bloodline can greatly increase the strength of your Hongmeng Immortal Body.

In addition, these ice arowanas themselves also have very good blood energy, which has improved Ye Feng's skills a lot.

Ye Feng was very happy at this time. This ice dragon fish really had a huge effect, killing two birds with one stone.

It can not only improve one's own skill, but also improve the power of one's bloodline.

Ye Feng did not hesitate and continued to drill holes in the ice of the frozen lake. Then he dropped the bait fruits one after another and began to catch the ice arowana in the frozen lake. At this moment, Chu Xiaomeng said, making Ye Feng's eyes show a hint of surprise.

I didn't expect that Chu Xiaomeng, who came from the Spirit Clan, would have such high regard for the Human Clan.

However, Ye Feng didn't say much. Maybe Chu Xiaomeng was too simple, and didn't have too many bad intentions, nor did he have any inherently superior attitude.

At this moment, Ye Feng walked towards Bu Wai and said loudly: "I'm going fishing, do you want to come with me?"

"want!"

Chu Xiaomeng nodded immediately, walked to Ye Feng's side quickly, and said with a smile: "Although I came here mainly to look for the ice dragon, but as for the things that grow in this ice lake, I am also very interested in the ice arowana, because if I can communicate with an ice arowana and successfully tame it, then this ice arowana can become my 'eyes' underwater in the frozen lake. , can search various underwater situations for me."

Hearing what Chu Xiaomeng said, Ye Feng immediately nodded in admiration. At this time, Ye Feng was even more envious of the various abilities innate to other races.

At this moment, Ye Feng and Chu Xiaomeng left the cabin and came to the ice of the frozen lake outside.

At this time, Ye Feng didn't hesitate at all, and directly blasted out with a palm.

Boom!

A hole was punched out of the thick lake ice by Ye Feng.

At this time, Ye Feng took out a bait-like fruit directly from his storage ring and threw it under the ice cave.

This fruit was bought by Ye Feng from the Fengxue Villa trading market before leaving Fengxue Villa. It can induce the Ice Arowana to come and eat it.

At this time, Ye Feng became more and more proud of being a human being.

Because the human race does not seem to have any special talents, but the human race is very smart and can create various powerful martial arts and inheritance, various special magic weapons, and various practical things.

For example, this fruit can induce ice dragon fish to come and eat it.

If they were from other races, they could only jump into this cold ice lake, go under the water, and then catch the ice arowana, and they could only use the most primitive method.

You know, the water under this ice lake is very cold. Even Ye Feng does not dare to jump into it rashly for fear that his whole body will be frozen.

At this time, after Ye Feng dropped the fruit, he stood quietly next to the big hole in the ice and waited quietly.

Chu Xiaomeng was standing beside him at this time, but he did not dare to make a sound because he was afraid that he would disturb the ice arowana under the water.

"Crash!"

The fruit Ye Feng threw down was very useful.

In less than half an hour, the two of them suddenly heard the sounds of swimming in the water under the ice.

They should all be ice arowanas.

"Uh-huh!"

At this moment, without any hesitation, Ye Feng stretched out his hand and grabbed it downwards.

Ye Feng's hand suddenly grew in size quickly, and then turned into a super big hand, which directly grabbed all the ice arowanas that were attracted.

This time Ye Feng caught a total of nearly fifty or sixty ice arowanas.

Ye Feng threw the fifty or sixty ice dragon fish directly on the ice.

The ice dragon fish struggled on the ice, but could never return to the water.

At this moment, Ye Feng took an ice arowana and threw it to Chu Xiaomeng beside him. He smiled and said: "Take this ice arowana to communicate with and tame it, and find the secret hidden in this ice lake." The ice dragon, as well as the search for the ancient ruins of the Ice Clan you mentioned, probably depend on you to tame this ice dragon fish."

Ye Feng knew very well that if Chu Xiaomeng could really tame an ice arowana and make it sane and able to communicate with them, then the ice arowana would indeed be able to find for them the locations of hidden treasures in this frozen lake. .

After all, the Ice Arowana is a native of this ice lake, and must be very familiar with all locations in the entire ice lake.

"Thank you!"

Holding the ice arowana that Ye Feng threw to her, Chu Xiaomeng was very happy. She immediately began to use her racial talents and began to communicate with this ice arowana, allowing it to open up its wisdom and do things for her. .

At this moment, Ye Feng looked at the more than fifty ice arowanas in front of him, and he opened his mouth and swallowed all the more than fifty ice arowanas.

"Buzz!"

The moment more than fifty ice arowanas entered Ye Feng's belly, they immediately turned into streams of very special energy and began to temper Ye Feng's entire body.

Ye Feng could immediately feel that the strength of his body began to slowly increase.

However, this kind of ice arowana improves Ye Feng's body power very slowly, so Ye Feng has no intention of relying on the special energy of these ice arowanas to improve his physique.

He mainly wanted to extract the special and powerful ice and snow dragon blood from the blood of these ice dragon fish to enhance the power of his own blood.

At this moment, Ye Feng extracted all the purest ice and snow dragon blood from more than fifty ice dragon fish.

But in the end, it only turned into a drop of ice and snow dragon blood and merged into Ye Feng's body.

Ye Feng was very happy at this time. This ice dragon fish really had a huge effect, killing two birds with one stone.

It can not only improve one's own skill, but also improve the power of one's bloodline.

Ye Feng did not hesitate and continued to drill holes in the ice of the frozen lake. Then he dropped the bait fruits one after another and began to catch the ice arowana in the frozen lake.

Chapter 3389: Predating Physique

For the next three days, Ye Feng kept catching ice dragon fish one after another in the ice lake.

It has to be said that this ice lake is very wide, and there are also a lot of ice arowanas living in it.

In just three days, Ye Feng caught nearly thousands of ice dragon fish.

And Ye Feng finally relied on the pure ice and snow dragon blood extracted from the body of the ice dragon fish to qualitatively improve his bloodline ability.

Ye Feng's Hongmeng Immortal Body has now broken through directly from the early stage of the first level to the middle stage of the first level.

In addition, relying on the powerful blood energy contained in the bodies of thousands of ice dragon fish, Ye Feng's cultivation skills also achieved breakthroughs.

From the tenth level of the Broken Void Realm, he broke through to the Half-Step Void Realm above the Broken Void Realm.

This made Ye Feng's eyes reveal a hint of joy.

It has to be said that the blood energy contained in these ice dragon fish is still very powerful. Just a few thousand of them allowed Ye Feng to achieve a breakthrough in cultivation, which is still very good.

Of course, what Ye Feng is most happy about at this time is that his Hongmeng Immortal Body has achieved a qualitative breakthrough.

From the early stage of the first level of the Hongmeng Immortal Body, it broke through to the middle stage of the first level.

Although it was only a small breakthrough, Ye Feng felt that his physical fitness had been greatly improved.

Ye Feng could feel that the power of his body had once again been greatly enhanced.

However, what makes Ye Feng quite disappointed is that the Hongmeng Immortal Body and the Chaos Body seem to be different.

Each level of the Chaos Body has an accompanying talent.

But Hongmeng Immortal Body seems not to have it.

However, Ye Feng is still looking forward to this.

Because he has just activated the Hongmeng Indestructible Body, perhaps the accompanying talent at the first level of the Hongmeng Indestructible Body has not yet been fully awakened.

And just when Ye Feng was thinking secretly in his heart, suddenly the void in front of Ye Feng fluctuated.

A huge ancient furnace suddenly appeared in front of Ye Feng.

The moment this ancient and huge furnace appeared, Ye Feng immediately received information about this huge furnace.

This huge furnace turned out to be exactly what Ye Feng had expected as the accompanying talent of the first level of the Hongmeng Immortal Body, called the "Furnace of All Things".

But this kind of melting pot of all things is not for devouring.

Because Ye Feng already has the ability to devour.

This kind of melting pot of all things allows Ye Feng to plunder various special physiques and merge them into one for his own use.

This made Ye Feng's face suddenly show a look of deep excitement.

The Hongmeng Immortal Body is indeed more powerful than the Chaos Body. The awakened first-level accompanying talent is so overbearing that it can directly plunder the special physiques of other creatures and then allow itself to possess the ability of this physique.

In other words, if Ye Feng can obtain the bodies of various creatures in the future, he can put them into this melting pot of all things and gain various physical abilities.

It's like merging thousands of physiques into one furnace!

This ability is really terrifying!

Even in a sense, robbing one's body is more terrifying than the ability to devour one's body.

Because the swallowing ability only swallows the energy of the outside world to improve one's own cultivation skills.

But this kind of melting pot of all things can directly plunder other people's physiques for their own use.

This is simply too overbearing!

At this time, Ye Feng was deeply amazed at the Hongmeng bloodline

of strength.

At this moment, Ye Feng gathered the first level of talent awakened by Hongmeng Immortal Body, the melting pot of all things, into his own body.

This kind of thing must never be revealed.

Otherwise, I am afraid that I will be hunted down by all the races on the snowy land.

Because this ability is really terrifying, even too evil. .??.

At this time, Ye Feng suddenly looked at Chu Xiaomeng who was not far away, with a hint of curiosity in his eyes.

If Chu Xiaomeng can be thrown into this melting pot of all things, maybe he can plunder Chu Xiaomeng's spiritual talent.

But Ye Feng just thought about it.

Ye Feng didn't kill innocent people indiscriminately.

Only those who offend him will be severely punished by Ye Feng.

At this time, Ye Feng walked to Chu Xiaomeng's side not far away.

At this moment, Chu Xiaomeng was sitting on the ground, holding the ice arowana in his hand, and seemed to be still communicating with it.

Three full days have passed, and Ye Feng discovered that he had almost caught all the ice arowanas in the area around the ice lake, and it was time to move to another place.

At this time, Ye Feng was ready to say something.

But suddenly, Chu Xiaomeng opened her eyes and stood up.

There was a look of deep joy on her delicate and beautiful face, and she quickly said: "Master Ye Feng, I have successfully communicated with this ice dragon fish. It has been tamed by me, and I We also know where the ice dragon hidden in the deepest part of this ice lake is, but that ice dragon seems to be quite powerful, so we must be careful when the time comes."

Ye Feng immediately nodded and then spoke out

Said: "Then let's set off directly. My strength and cultivation have improved a lot during this period. An ice dragon evolved from an ice dragon fish shouldn't be that powerful. The two of us should be able to work together." victorious."

When Chu Xiaomeng heard what Ye Feng said, she immediately nodded, and then directly threw the ice dragon fish that she had tamed in her hand into the icy lake in front of her.

There was a crash!

The Ice Arowana fell into the lake and immediately swam quickly in a certain direction.

"Let's follow."

Chu Xiaomeng said immediately.

Ye Feng nodded.

The two of them followed the ice dragon fish and quickly flew towards the deep part of the icy lake.

In less than half an hour, they followed the Ice Dragon Fish and had crossed almost half of the ice lake and arrived at a deeper place in the north of the ice lake.

The ice surface here seems to be deeper, and the cold air in the surrounding air is getting more and more terrifying. It can freeze a person's entire body and freeze it into an ice sculpture.

However, Ye Feng's current Hongmeng Immortal Body has been qualitatively improved, and he is not afraid of these cold airs.

As for Chu Xiaomeng's spiritual race, even if her combat effectiveness is not high, her racial talent protects her from the cold.

At this moment, Ye Feng and Chu Xiaomeng saw the ice dragon fish stopping on a lake in front of them and did not dare to move forward.

Obviously, even if the ice arowana was tamed by Chu Xiaomeng, it still had a natural fear and would definitely not dare to approach the ice dragon hidden in the depths.

At this moment, Ye Feng's eyes moved and he said: "I also sensed a very vicious aura. It should be the ice dragon under this layer of ice."

Chapter 3390 Battle with Ice Dragon

At this time, after Ye Feng finished speaking, he looked at Chu Xiaomeng beside him and said, "Let's take action now."

Chu Xiaomeng nodded, took out a silver ring-like treasure from his storage ring, and said loudly: "This ring can increase the power of my racial talent. When the time comes, Ye Feng Young Master, try your best to control that ice dragon, and then I will forcefully communicate with it and tame it."

Hearing this, Ye Feng nodded slightly and said, "Don't worry, since I agreed to help you catch that ice dragon together, I will definitely do my best."

"Thank you, Mr. Ye Feng."

Chu Xiaomeng immediately nodded happily, and then said aloud: "As long as I capture this ice dragon, if I can tame it, I should be able to use this ice dragon to find the hidden place under this ice lake. When the time comes, you can take all the treasures in the ancient ruins of the Ice Clan, Mr. Ye Feng. The one I am most interested in is this ice dragon, because our spirit race is naturally only interested in powerful spiritual beasts. What kind of treasures or inheritances, etc., are actually of average interest."

"good."

Ye Feng nodded immediately at this time, and then rushed directly into the icy lake under his feet at this moment.

Buzz!

The biting cold water suddenly made Ye Feng's whole body freeze.

But at this moment, Ye Feng used the Hongmeng Immortal Body to forcefully eliminate this terrifying cold air.

Wow!

At this time, Chu Xiaomeng also jumped into the ice lake.

Chu Xiaomeng is from the Spirit Clan, and her jade-like skin can protect her from the cold ice water.

Uh-huh! Uh-huh!

At this moment, the two people quickly lurked underneath.

Soon they were lurking at the bottom of this icy lake.

They immediately saw that there was a continuous underwater mountain at the bottom of this icy lake.

On a certain mountain under the water, there was an extremely huge dragon hovering.

This dragon looks very magical, because the scales growing on the surface of this dragon's body look like they are made of ice. They look crystal clear, but are also filled with a deep chill.

This is definitely a very noble evolved monster!

Of course, in Chu Xiaomeng's eyes, this was not a demon, but a spiritual beast raised by nature.

At this time, Chu Xiaomeng's eyes showed a trace of excitement, and she couldn't help but said: "What I want is this ice dragon. If I can tame this magical ice dragon, I will be able to tame it." When the time comes for us to return to the Spiritual Clan, we will definitely be praised by everyone, and when the time comes, they will definitely praise not just my brother who is the number one among the younger generation of the Spiritual Clan."

Hearing what Chu Xiaomeng said, Ye Feng nodded slightly and said, "Then I will take action directly."

Boom!

Almost at the moment when Ye Feng's words fell, Ye Feng did not hesitate at all, and directly released his extremely powerful power, and immediately rushed towards the ice dragon not far away.

boom!

At this moment, the ice dragon immediately sensed Ye Feng's rushing breath, and a monstrous demonic energy burst out from its body, which was so vast that it covered the sky and the sun.

This demonic aura is a whole level stronger than Ye Feng's half-step to the void realm, the cultivation level of the tenth heavenly perfection of the void realm!

have to say

, this ice dragon is very powerful, and its cultivation is also very terrifying!

Ye Feng is a whole level behind it.

But at this time, Ye Feng didn't have any fear in his eyes.

Because Ye Feng's current Hongmeng Immortal Body has been greatly improved during this period, Ye Feng's body is much stronger than before.

"boom!"

At this moment, Ye Feng directly punched out with a fist.

Hongmeng Immortal Body immediately burst out with power. .??.

I saw a faint black-gold light appearing in Ye Feng's hand.

When Ye Feng first created the divine body, he released the power, mostly golden light.

The Chaos Body allows Ye Feng to reveal the light of chaos.

But the Hongmeng Immortal Body is a kind of black light that looks very deep and noble, with a little bit of gold.

"Boom!!"

Ye Feng's punch collided with the ice dragon not far away.

At this moment, Ye Feng immediately felt a terrifying power, transmitted from his fist, as if he had hit a huge mountain.

I have to say, this ice dragon is really terrifying.

But Ye Feng's punch was also very powerful.

Although the ice scales on the surface of the ice dragon's body were not shattered, it was still able to knock this behemoth back several steps.

The ice dragon's eyes widened immediately, as if he didn't expect that this small human race had such a majestic power.

Wow!

At this moment, the ice dragon opened its mouth and sprayed out a large amount of ice air, directly covering all the water in the surrounding lake.

frozen.

Ye Feng and Chu Xiaomeng were also frozen into the ice in an instant.

"boom!!"

But the next moment, Ye Feng directly shattered the surrounding ice, and he still rushed towards the ice dragon not far away.

Although Ye Feng now possesses a lot of cultivation inheritance, most of it was brought from low-level realms.

These low-level inheritances can no longer keep up with Ye Feng's current use.

Therefore, many of the inheritances that Ye Feng actually has now are simply unable to explode into correspondingly powerful power.

Therefore, what Ye Feng can rely on most now is his newly awakened Hongmeng Immortal Body.

Boom!

At this moment, Ye Feng was like a humanoid tyrannosaurus, rushing towards the ice dragon crazily, it was a head-on collision.

This ice dragon was originally proud of its dragon power, but it couldn't gain the upper hand in front of Ye Feng.

So at this moment, Ye Feng and Bingjiao suddenly fell into a fight.

During the battle, Ye Feng immediately said to Chu Xiaomeng who was not far away: "I am already fighting with this ice dragon. It will not be able to break away from my fighting circle in a short time. You Communicate with it forcefully and tame it."

When Chu Xiaomeng heard Ye Feng's voice transmission, she immediately nodded and flew directly to the battlefield not far away.

Then she took the silver ring in her hand and put it directly on her head.

Buzz!

At this moment, a faint silver light suddenly emitted from the silver ring, which greatly improved Chu Xiaomeng's innate ability at this moment.

Chu Xiaomeng immediately began to forcefully communicate with the ice dragon to tame it.
