

## Ancient 3531

Chapter 3531 Death of an old friend

"It must be an illusion!"

At this time, the Hell Dragon Elephant Lord roared loudly, as if he couldn't believe what he was seeing.

But reality is not an illusion.

Because the light power in the Gate of Heaven released by Ye Feng at this moment is rapidly and continuously melting the dark energy mask released by the Hell Dragon Elephant Lord.

Seeing this scene, everyone had a look of deep surprise on their faces.

Everyone's eyes were full of wonder. ??

They never thought that Ye Feng, the most inconspicuous young genius among all the top experts, would be so powerful and possess such a powerful treasure.

Even the dark energy mask released by the Hell Dragon Elephant Lord can be dissolved!

After all, everyone saw just now that even the top and strongest men like the Ice and Snow Dragon Emperor were unable to smash the defensive light barrier propped up by the Hell Dragon Elephant Lord, which is enough to show that this Hell Dragon Elephant Lord The energy mask released must be very terrifying.

But even so, Ye Feng, alone, still dissolved all the energy shield of the Hell Dragon Elephant Lord.

As the surrounding dark light shield dissolved, the Ice and Snow Dragon Emperor, the three supreme masters and other powerful men immediately bombarded the Hell Dragon Elephant Lord, directly attacking the Hell Dragon Elephant Lord.

"ah!!"

The attacks of these superpowers are still very terrifying.

Even though the Hell Dragon Elephant Lord was very ancient and powerful, he couldn't help but let out a huge scream at this moment, feeling that his entire body was about to be shattered.

Although the Hell Dragon Elephant Lord repaired the Ten Thousand Demon Altar at this time, he only opened up an incomplete passage, so everyone could only see that the other side of the passage was connected to the higher demon realm, but the ancient powerful ones in the demon realm  
However, at this moment, I cannot pass through this incomplete passage. I can only look at this side and cannot come here.

At this moment, the first demon god who had fought with the three masters before flew over, trying to resist the attack of the Ice and Snow Dragon Emperor and others.

But at this time, Ye Feng said to the Ice and Snow Dragon Emperor and the three supreme masters: "Pour all your power into me, and I will fully activate the Gate of Heaven."

Hearing what Ye Feng said, the Ice and Snow Dragon Emperor and the three supreme masters all nodded their heads.

Uh-huh!

Princess Caiyun's graceful figure came to Ye Feng's side at this moment, and then everyone's palms were pressed on Ye Feng's shoulders.

Buzz!

At this moment, all the power of everyone was poured into Ye Feng, and then through Ye Feng, the terrifying power of Heaven's Gate was stimulated.

This is a very terrifying motivating force!

Because this is the power of everyone united.

At this moment, everyone's power was combined together to activate the Gate of Heaven, which immediately burst out with a bright white divine light.

This area

The white divine light even condensed into a super archangel with thousands of wings. It was filled with unparalleled power of light and instantly shattered all the demon gods and hell dragon elephant lords in front of it. It turned into fly ash and was melted by the boundless power of light.

"So powerful?"

Ye Feng was shocked by the power of light erupting from the Gate of Heaven at this moment.

The last demon god and the Hell Dragon Elephant Lord didn't even have any damaged fragments left, they all turned into ashes.

"What a terrifying light-attribute magic weapon!"

Seeing this scene, even the Ice and Snow Dragon Emperor couldn't help showing shock in his eyes.

Originally, he thought that the light-attribute magic weapon on Ye Feng was just an ordinary ancient and powerful treasure.

But now it seems that it is definitely far from that simple.

Although the Ice and Snow Dragon Emperor had never heard of the Gate of Heaven, the Ice and Snow Dragon Emperor knew that the magic weapon with light attributes obtained by Ye Feng was definitely an extremely ancient and extremely high existence.

At this time, everyone breathed a sigh of relief when they saw that the last demon god and the Hell Dragon Elephant Lord had all died under the power of the Gate of Heaven.

At this moment, Ye Feng himself was completely relieved.

Finally, all these threats from the dark demons have been eliminated!

"Princess Caiyun..."

At this time, Ye Feng turned around and was about to discuss with Princess Caiyun the specific locations of the teleportation altars to see if they could enter the Demon Realm, because Ye Feng had almost completed his responsibilities in the Snow Realm.

boom! !

But suddenly at this moment, a terrifying and boundless dark power was suddenly grabbed from the incomplete realm channel, and a big black hand was condensed, which directly took out all the top-level people present. All the strong men were blown away.

Then this big black hand grabbed directly in the direction of Princess Caiyun, and forcibly grabbed Princess Caiyun away from the snow domain, and actually grabbed her directly into the demon domain on the other side of the passage.

"Princess Caiyun!"

When Ye Feng saw this scene, his eyes suddenly became extremely frightened and angry, and he rushed forward, rushing directly into the realm passage.

Ye Feng knew very well that the existence that could pass through this incomplete realm passage was definitely an adult-level figure from the dark race in the Asura Empire.

Ye Feng estimated that the other half of Princess Caiyun's body was the bloodline of the Asura Empire royal family. It was probably discovered by the dark power of the Asura Empire on the other side of this realm passage, so he captured Princess Caiyun. , probably because he wanted to turn Princess Caiyun into a demon again.

Seeing this scene, the Ice and Snow Dragon Emperor couldn't help but exclaimed: "Ye Feng, you can't be so impulsive. You entered the Demon Realm in such a confused way. There will be huge dangers."

."

Ye Feng was in the realm passage at this moment. He turned back to look at the Ice and Snow Dragon Emperor in the snow realm, and said loudly: "Senior Dragon Emperor, I will go to the Demon Realm sooner or later. Princess Caiyun is now given to the Asura Empire in the Demon Realm. She has been captured. I must save her. I cannot watch my friend turn into a dark demon. Senior Dragon Emperor, after I leave the Snowy Region, you can destroy the Altar of Ten Thousand Demons. This way If I do, the Demon Realm will never be able to invade the Snow Realm, and I have fulfilled my responsibility."

Buzz!

After saying that, Ye Feng disappeared into the realm passage and flew quickly towards the Demon Realm.

In addition to saving Princess Caiyun at this moment, Ye Feng also had another important reason: Ye Feng was originally going to the Demon Realm.

So now I am taking this opportunity to pass through this incomplete passage to see if I can enter the Demon Realm.

Although this passage is not complete, Ye Feng has no choice now because Princess Caiyun was captured by the dark power of the Demon Realm on the other side.

He also has no way of knowing the specific location of the teleportation altars built by the dark demons in the snowy realm, so he can only venture into this incomplete realm passage.

Now in such a hurry, this is the only way to enter the Demon Realm.

Ye Feng has a space gem on his body, so he is not too afraid that this unstable space channel will cause fatal harm to him.

Boom! !

However, when Ye Feng entered this incomplete realm passage, he immediately encountered very violent void turbulence.

After all, this is traveling between two realms.

Naturally, it is very dangerous and terrifying!

I am afraid that even a super strong person like the Ice and Snow Dragon Emperor who is about to reach the perfection of the God Realm would not dare to rush into such an incomplete realm passage.

But Ye Feng is now only in the half-step expansion realm below the Kaishen realm, and he still dares to enter it because he has the space gem in his body.

Boom! !

However, Ye Feng's luck was not very good. He soon encountered a very violent void turbulence, and Ye Feng immediately felt that his entire body was about to be torn apart.

If Ye Feng's Hongmeng Immortal Body hadn't been so powerful, he would have been torn to pieces by the void turbulence.

boom!

At this moment, Ye Feng no longer hesitated, fully stimulating the power of the space gem, and condensed a space barrier around him to resist the turbulent flow of void.

Then Ye Feng used all his strength to attack upward.

Because Ye Feng knew that if he wanted to enter the Demon Realm, he had to quickly rush to the top of this incomplete realm passage, and then he would enter the Demon Realm.

The whole process lasted for a long time. Ye Feng didn't know how long it had passed, or whether it was hours, days, or months...

At the end, Ye Feng used up all his strength and suddenly broke through this incomplete passage, and suddenly came to a vast area.

The endless land.

This piece of land is full of desolation and ruin. The surrounding ground is all red. The entire sky is very dim, but there are eighteen blood-colored moons hanging in the sky, turning the entire world into red. Some dark red, looks very depressing.

This is the Demon Realm!

"Finally a success!"

Ye Feng was very happy at this time. He exhausted all his strength and finally came to the Demon Realm through the incomplete realm passage.

But Ye Feng didn't know where he was in the Demon Realm now, nor how far it was from the Asura Empire where Princess Caiyun was captured.

Buzz!

Suddenly at this moment, Ye Feng felt dizzy.

"Oops! I have used too much power during this period, and it has almost overdrawn my own origin..."

Ye Feng only had time to think this in his mind at this time, and then he fell directly from the sky. With a "bang", he fell on the scorched earth of this demonic realm and passed out.

At the last moment, Ye Feng just thought about not being too unlucky. If he encountered a demon passing by and was eaten, that would be too unlucky.

...

I do not know how long it has been.

"Hey, wake up!"

Suddenly a very noisy sound sounded, as if someone was calling him.

Ye Feng felt his head hurt very much at this time, but he still opened his eyes with great difficulty.

He immediately saw the head of a huge black dragon right in front of him. At first glance, it looked so ferocious and evil that Ye Feng was almost frightened.

This black dragon was staring at Ye Feng at this moment and said loudly: "How come you, young man, look so much like an old friend of mine?"

Ye Feng stared at the black dragon in front of him and looked around. It turned out to be a bone palace made of white bones. It looked very evil, as if he had arrived in the underworld.

Ye Feng suddenly stared at the black dragon in front of him, thought about it carefully, his eyes suddenly changed, and he suddenly shouted in shock: "Are you...Shang??"

"I'm going!"

The black dragon in front of him immediately widened his dragon eyes when he heard Ye Feng say this one-word title, and couldn't help shouting: "You are so little Ye Zi! Damn! I just said why are you like this?" Why do you look so similar to Little Yezi? It turns out you are Little Yezi himself!"

This black dragon turned out to be Ye Feng's old friend whom he hadn't seen for many years, the old demon dragon, Shang! !

Appeared in the Demon Realm!

And he happened to meet Ye Feng who was unconscious!

this.....

It's really a twist of fate!

One person and one dragon, big eyes and small eyes stared at each other in shock at this moment.

When we meet again in the Demon Realm one day, we will look at each other through all the vicissitudes of life!

Chapter 3532 Low-Level Lord

"Little Leaf..."

"Sad..."

At this time, everyone and the dragon were staring at each other, with big eyes and small eyes, and their faces were full of astonishment.

Obviously they never thought that after so many years, they could meet again in the Demon Realm, which was really incredible.

Since embarking on the journey of spiritual practice, Ye Feng has experienced many things and met many friends.

However, as Ye Feng's cultivation continues to improve and he enters an increasingly advanced world of practice, some old friends can only be forgotten in the world.

And Shang, the old demon dragon, was a very special friend of Ye Feng. He helped Ye Feng a lot when he first started practicing.

Ye Feng originally thought that he might never see the old demon dragon Shang again, but unexpectedly, he met Shang in the Demon Realm.

Ye Feng looked around and couldn't help but said: "Shang, have you become a rich man in the Demon Realm? You actually own such a huge bone palace, you are doing well."

The old demon dragon immediately laughed out loud: "Gah ga ga, over the years, I have indeed received a lot of opportunities and adventures, so I was finally able to enter the Demon Realm, a rather advanced fourth-level realm, and hang out nearby. A low-level lord who controls a radius of one thousand meters." .??.

"It's only a thousand meters!"

When Ye Feng heard what Shang said, he couldn't help being a little surprised.

"It's already pretty good."

Shang couldn't help curling his lips, looking at his bone palace around him, and said aloud: "Do you know how dangerous the Demon Realm is? This is a very vast world, and there are thousands of various demon races living there. If I hadn't merged with the body of an ancient demon dragon by chance and came to the Demon Realm, I would have been swallowed up by other demons. Now that I can become a low-level lord, it is already very good. You know, there are many The demons in the demon realm are very powerful, much higher than your current level, and they are not qualified to become low-level lords."

When Ye Feng heard what Shang said, he immediately asked curiously: "Shang, how big is the Demon Realm?"

Shang immediately said loudly: "It's very big. Anyway, I haven't visited the surrounding area yet. The area around me is only a small part of the entire Demon Realm."

Ye Feng immediately asked: "So Shang, do you know about the Asura Empire?"

A look of surprise appeared in Shang's huge dragon eyes, and he said loudly: "Looking at your condition, little Yezi, you must have just arrived in the Demon Realm. I didn't expect you to know

The Asura Empire, the Asura Empire is the most powerful demonic force in the nearby area. It is an empire-level existence. It is much larger than a small low-level lord like me. The Asura Empire has many vassals under its command. The senior lords all led their respective teams to fight for the Asura Empire. "

Hearing what Shang said, Ye Feng's eyes showed surprise.

I didn't expect the Asura Empire to be so huge.

It seems that it may take a long time before I want to find Princess Caiyun.

After all, it would definitely be very dangerous to enter the Asura Empire rashly now.

Ye Feng also knows that his current cultivation level is definitely not very powerful in the new fourth realm, the Demon Realm.

At this moment, Shang stared at Ye Feng in front of him with slightly suspicious eyes, stretched out his huge dragon claws, couldn't help but patted Ye Feng's shoulder, and said with some suspicion: "Little Ye Zi, you don't know how to Did you provoke a behemoth like the Asura Empire? From my understanding of you kid, you must have a grudge against the Asura Empire, otherwise it would be impossible for you to know the name of the Asura Empire just after you came to the Demon Realm."

Ye Feng shook his head, smiled and said: "It's not that big of a grudge. It's just that the Asura Empire in this demonic realm sent an army of darkness and invaded the snowy region where I was before, so I will conquer it all by myself." Many armies of the Asura Empire, as well as several commanders, were all killed."

"What?"

Hearing what Ye Feng said, Shang immediately couldn't help but widen his eyes and said loudly: "You kid can kill several commander-level figures in the Asura Empire by yourself? How is this possible? They are all extremely cultivated. A powerful presence, I feel like you are bragging."

Ye Feng smiled and said: "What I said is true. The reason why I was able to kill so many dark demon commanders of the Asura Empire is because I got a treasure, which is a treasure with light attributes. Specializes in suppressing the demons with dark attributes in the demon realm."

"Um?"

When Shang heard what Ye Feng said, he immediately became interested and couldn't help but said curiously: "What kind of magic weapon is it that has light properties? Let me take a look! I haven't seen you for so many years. You must have accumulated a lot of trump cards." Let's talk about the magic weapon, I know you are a very lucky person."

Shang knew very well that Ye Feng was not an ordinary person.

He is a young man from the tribe, but a being with extremely powerful means and great luck.

Ye Feng said slowly at this moment: "If you want to see it, Shang, then let you have a look. If it were someone else, then I would definitely not reveal this treasure of mine, but Who told you to be my old partner?"

Ye Feng was naturally telling the truth at this time.

If it were anyone else, it would be impossible for Ye Feng to reveal such a super magical weapon with huge implications like Heaven's Gate.

After all, it was the natal magic weapon of the Lord of Heaven, very advanced and terrifying.

But standing in front of him now is Shang, the old demon dragon, who was Ye Feng's best partner back then.

Therefore, Ye Feng naturally had no doubt that Shang would have a negative impact on him.

At this moment, Ye Feng directly revealed the Gate of Heaven.

Buzz!

At this moment, an extremely ancient door, filled with noble power of light, appeared above Ye Feng's head.

The pure white holy light fell from the mid-air, shining so brightly that Ye Feng was like a god of light!

Full of boundless holiness and nobility!

It's as if the entire demonic world is out of place!

"Wow! What a dazzling holy light!"

At this time, Shang immediately screamed and couldn't help but stretched out two huge dragon claws to cover his eyes.

After a long time, Shang couldn't help but open his eyes, looked at the white holy light above Ye Feng's head, stared at the door of heaven in the endless light, and immediately said in horror: "This... heaven Door! Little Leaf! You actually got the legendary lord of heaven's magic weapon? This is the top-notch magic weapon with light attributes. It's really incredible!"

At this time, Shang immediately screamed, obviously extremely excited.

When Ye Feng saw Shang like this, he immediately felt a sense of familiarity.

In Ye Feng's long memory, Shang has always been such an easily excited old demon dragon, and he would get very excited and scream from time to time.

He was completely opposite to the always calm Emperor Chu.

At this time, Ye Feng immediately took back the Gate of Heaven, and then said proudly: "Not bad."

"awesome!"

r\u003e

Shang couldn't help but nodded excitedly, and then said aloud: "It seems that you really didn't brag this time. With an artifact like the Gate of Heaven, you can indeed kill someone better than you." A demon with powerful dark attributes that is several levels higher."

When Shang said this, he suddenly seemed to have thought of something, and his expression immediately became quite solemn. He stared at Ye Feng in front of him and said loudly: "But little Ye Zi, don't be too high-profile. After all, your current cultivation level is not that powerful in the Demon Realm. If the news about the Gate of Heaven you possess is revealed, I am afraid that thousands of different types of demons in the entire Demon Realm will want to kill you. Because for the entire Demon Realm, the Supreme Magical Weapon with the light attribute of Heaven's Gate is definitely their biggest nemesis and their biggest disaster. It can be said that you, little Yezi, who owns the Heaven's Gate, are a threat to the entire Demon Realm. A huge disaster."

When Ye Feng heard what Shang said, he immediately shrugged and said: "I don't want to destroy the entire Demon Realm. I just have some grudges with a demon empire like the Asura Empire. Moreover, when I came to the Demon Realm, it's not to destroy the whole world, it's to seek more powerful power and then enter a higher realm."

Hearing what Ye Feng said, Shang immediately patted Ye Feng's shoulder and said loudly: "You don't understand at all. Every one of the thousands of demons in the Demon Realm are selfish beings, including me. , these dark demons do not distinguish between right and wrong, as long as it is beneficial to them, they will do it, so this is a truly cruel and chaotic realm. On this vast land, violent events are happening every moment. of fighting and conquest."

Hearing this, Ye Feng nodded slightly and said loudly: "No matter what, the philosophy I have always believed in is that I will not offend anyone unless they offend me. If someone offends me, I will kill them."

Shang laughed, stretched out his huge dragon claw, patted Ye Feng's shoulder, and said loudly: "Little Ye Zi, you will gradually know how chaotic the Demon Realm is in the future."

Ye Feng nodded, and then said with some sigh: "Anyway, this time is really a coincidence. I was seriously injured and fell into coma, and you happened to find me."

Shang smiled and said: "Little Yezi, I know your evil talent. Next, I will take you to a good place, which will not only allow you to recover quickly from your injuries, but also allow your skills to be restored again." Diligence."

When Ye Feng heard what Shang said, he immediately became interested and couldn't help but ask: "What good place can there be in such a dilapidated realm as the Demon Realm?"

#### Chapter 3533 The Land of Demon Ruins

Seeing Ye Feng's seemingly suspicious eyes, Shang immediately shouted: "Little Ye Zi, you have to know that the Demon Realm is a world higher than the realm you were in before. The Demon Realm can be born. Thousands of extremely powerful dark demons are not as simple as you think. What you see is a scorched earth with dilapidated and dim areas everywhere. But in fact, the demon realm is full of various rich resources, and there are many resources. , ordinary dark demons simply don't have the ability to mine it, but our two brothers have experienced so much in the past and have learned many resource manufacturing processes in major interfaces. Naturally, we can make full use of the various resources contained in the demonic land. resource."

After finishing speaking, Ye Feng glanced at Shang in surprise and said, "You mean, many demons in the Demon Realm don't know how to use some precious resources?"

"That's right."

Shang nodded at this moment, then looked in the direction of the door of his bone palace, and said loudly: "Come in."

Uh-huh! .??.

Uh-huh! .??.

The next moment, two demons wearing white bone armor, with dragon heads and humanoid bodies, walked in from outside and immediately said respectfully: "Lord, do you have any orders?"

Shang said aloud: "Let all brothers prepare, we are going to continue to the Demon Ruins."

"Yes, noble lord."

The demon guards wearing white bone armor nodded immediately and walked out.

Ye Feng looked at Shang beside him at this moment and couldn't help but ask: "The Land of Demonic Ruins? What is that place? Is it the good place you mentioned?"

Shang nodded, with a mysterious smile on his face, and said aloud: "It is a place with very rich resources. There are many lords around here competing for various cultivation resources, and the Demon Ruin Land There are also many inheritances and weapons and armors left over from the ancient wars. This territory of mine has just been established, and I really need all kinds of armors and weapons left over from the ancient times in the land of demon ruins. Even if they are broken, I can assemble an elite team for me. It just so happens that you, little Yezi, have also come to my place, so we two brothers can have a good time in this demonic realm. I know that you, little Yezi, are a restless master. You can make as much noise as you want in the vast land of Demon Realm, because this Demon Realm is already full of all kinds of chaos, with major lords, demon lords, empires, demon dynasties, etc. fighting in melee."

Hearing what Shang said, Ye Feng nodded slightly and said loudly: "It seems that the next days will be very uneasy."

Shang laughed loudly: "Quack, don't you like this kind of life?"

And just as one person and one dragon were talking, they had already walked out of the Bone Palace and headed outside.

What Ye Feng saw was a deserted area, with almost an inch of grass.

Not alive.

But most of the Demon Realm is like this.

Therefore, the feeling of the Demon Realm to Ye Feng was as if he had experienced a battle of gods, and then the entire land was in ruins.

However, Ye Feng also knows very well that the Demon Realm can give birth to so many extremely powerful dark demons, and there are also such terrifying top-level dark creatures. Naturally, it is impossible for him to see such a ruined place.

The entire Demon Realm must contain great opportunities and great fortunes.

When Ye Feng followed Shang to the outside of the Bone Palace, he immediately saw that a large team of demons wearing bone armor had gathered outside, with hundreds of them in total.

Shang said quite proudly at this moment: "Little Ye Zi, you see, these are all the troops I recruited under my command."

"Army?"

Hearing what Shang said, Ye Feng couldn't help but smile immediately and said loudly: "When you can recruit tens of thousands, or even hundreds of thousands of troops, then you can call it an army."

Shang immediately twitched the corner of his mouth and said aloud: "If I can have so many armies, then I will not be a simple low-level lord, I can even become a high-level lord, or even a great lord-level existence. "

Hearing this, Ye Feng couldn't help but ask: "What are the specific divisions of the masters of the major forces in the Demon Realm? Shang, you are now a low-level lord, the weakest level, right?"

"Yes."

Shang nodded and said with some embarrassment: "It hasn't been long since I came to the Demon Realm. It's already very good to be able to get a low-level lord. Above the low-level lords, there are intermediate lords, then senior lords, big lords, demon lords, etc." Lord, Demon King, Demon King, Demon God."

When Ye Feng heard this, he couldn't help but said in surprise: "I didn't expect that there would be so many levels of power in the Demon Realm?"

"That's right."

At this time, Shang's huge dragon eyes showed a trace of expectation and longing, and then he said aloud: "After being promoted to the Demon King, you can establish your own Demon Dynasty, and the Demon Emperor can establish a dynasty, and in the end A super-level demon god can begin to create an extremely powerful demon empire. So you see, the Asura Empire you asked about before can be said to be the top huge force in the demon realm. As for the one that came to you before The so-called demon god in the low-level realm is just a title to fool the creatures in the low-level realm. In fact, the army sent by the Asura Empire is not a truly powerful elite team, because the Asura Empire seems to be fighting with other people recently. The demon empire is fighting, so it is sent to where you were before

The team in the Snow Region is not that powerful. I guess the so-called Demon God you killed before, Xiaoye, was just an ordinary team leader under the Asura Empire. But the Hell Dragon Elephant you mentioned before The lord is indeed a powerful guy. He probably has the strength of a senior lord and is loyal to the Asura Empire. "

When Ye Feng heard what Shang said, he couldn't help but nodded in amazement.

It seems that the Asura Empire is much more terrifying and larger than I imagined.

However, Ye Feng is not too worried about the safety of Princess Caiyun. After all, Princess Caiyun is the daughter of the princess of the Asura Empire. She is the most noble royal family in the Asura Empire, with half of the royal blood flowing in her body.

Ye Feng just hopes that Princess Caiyun will never lose her true heart and become a complete devil.

While Ye Feng was thinking secretly in his heart, Shang led his army, that is, the team of several hundred demon soldiers, and flew quickly in a certain direction.

Ye Feng was also following Shang at this time, looking at the surrounding environment curiously. .??.

After all, Ye Feng came to the Demon Realm for the first time, and he was still very curious about this new, dark and chaotic special world.

The Great World of Origin has nine realms, and there are probably not many realms similar to the Demon Realm. The Demon Realm is a very special world.

But after watching it for a while, Ye Feng felt a little bored.

After all, the entire Demon Realm seems to be covered in charred black everywhere, and the sky is dark, with only eighteen blood-colored moons hanging high in the sky, which looks quite strange.

After half a day, Ye Feng didn't know how far he had advanced.

At this time, Shang suddenly stopped the entire team.

At this moment, there is a land of ruins ahead.

This land of ruins is very vast, and there are other different types of demons around it, and they seem to be looking for something in this land of ruins.

Ye Feng felt like scavengers when he saw the demons searching in the ruins.

Ye Feng couldn't help but asked: "Shang, what good resources can be found in this ruined land? It looks like an abandoned land."

Shang smiled mysteriously at this moment and said aloud: "Little Ye Zi, you have to know that this is a very precious demon ruins place. As long as we find the right way, we can find very good resources, but we have to be careful about other demons around us. A sudden attack, because if anyone finds something good, it will definitely lead to a siege. "

When Ye Feng heard what Shang said, he nodded slightly and said, "Whoever dares to steal our things, I will definitely blow them up."

Sad at this time

Then he led the entire team into this land of demonic ruins.

Buzz!

The moment Ye Feng came in, he immediately felt something different.

This land of demonic ruins gave Ye Feng a very palpating feeling.

Even after Ye Feng entered the Demon Realm, he had transformed his life source and became the same dark attribute as the demons in the Demon Realm, Ye Feng still felt a sense of life threat.

At this moment, two red rays of light suddenly emitted from Shang's eyes, and he said aloud: "Little Ye Zi, this is the powerful talent of the ancient demon dragon that I have fused. It can be used to see through everything. It's a bit similar to Xiao Yezi's Divine Eye of Creation back then, so every time I was able to find a lot of good things in this Demonic Ruins, but several times I was almost beaten by the powerful demons around me. This time there was a small group of demons. Ye Zi, if you help me, I will be much more courageous."

Ye Feng grinned, patted Shang on the shoulder, and said loudly: "This time, you can find resources. If anyone dares to steal our resources, I will definitely help you with all my strength and fight them all away. I will even attack them." kill."

Ye Feng was speaking at this moment with great confidence in his tone.

Because Ye Feng's current Hongmeng Immortal Body has transformed to the early stage of the third level, and his cultivation level is not weak. He is a half-step expansion of the frontier realm, almost as long as the team in the Asura Empire, so it is still quite awesome.

When Shang heard what Ye Feng said, he opened his mouth and said with a big smile: "Quack! I haven't seen you for so many years. Little Ye Zi, you are still as fierce as before. It's great that we can meet you here." Little Ye Zi, you are really great, I'm so excited!"

I have to say that what Shang said now was indeed true.

After all, Shang has been extremely lonely since he came to the Demon Realm. Suddenly meeting his old friend Ye Feng, he was naturally very happy and excited.

"Buzz!"

At this time, Shang activated his natural talent, his eyes glowed red, and he soon found a place of resources.

When Shang came here with his team and Ye Feng, Ye Feng immediately saw a huge tomb buried in the ruins in front of him, with a golden tombstone missing a corner standing on the ground.

"Quack! This is the tomb of a powerful ancient demon! There must be good things in it!"

Shang immediately screamed.

Ye Feng was stunned.

At this time, he finally understood what resources Shang was talking about.

Ye Feng originally thought it was some kind of natural resource, but it turned out to be the dead wealth of the fallen demon warriors left over from the great war.

Chapter 3534 Going to get rich

Seemingly seeing the surprise in Ye Feng's eyes, Shang immediately laughed and said: "Little Ye Zi, what kind of resources do you think they are? The resources we are looking for are all handed down

from the ancient war era. The wealth of dead people after the fall of various great powers, but there are some special places in the Demon Realm where there are many innate resources that are naturally raised, such as some very precious super-large mineral veins, etc., but these naturally raised are huge Resource veins are basically in the hands of major top empires or dynasties, and we small lords simply cannot compete with these powerful forces. "

Ye Feng asked: "Shang, with your qualifications, you should be able to achieve a good status by entering some demon dynasties or empires."

Shang grinned and said: "I don't like kneeling, and I don't want to succumb to others, so I don't want to hold a position like team leader in any dynasty, dynasty, or some empires. I would rather be My earthly emperor, be free."

Hearing what Shang said, Ye Feng immediately smiled and nodded, and said loudly: "Your idea is okay. If it were me, my first thought would naturally be to let myself be free and not be restricted by anything. , Unless there is no other way, they will enter some big forces. "

Shang nodded and said with a rather solemn face at this time: "Little Yezi, the Demon Realm is different from the various realms you were in before. Some big forces don't train you as a disciple at all, but just treat you as cannon fodder. It is used to expand the scope of influence and allows you to fight every day. Therefore, instead of creating glory for those big forces, it is better to create glory for yourself. As long as we two brothers work together, I believe we will definitely be able to rise in the Demon Realm. Our upper limit, It's definitely not just a low-level lord. Becoming a king and an emperor in the Demon Realm and establishing an immortal cause are our goals."

When Ye Feng heard what Shang said, he looked at him in surprise.

Back then, in Ye Feng's mind, Shang was a very unreliable old demon dragon who liked to brag all day long.

Unexpectedly, now that he encountered Shang again, this unreliable old demon dragon would become so ambitious and ambitious. ??

"Not bad."

Ye Feng couldn't help but patted Shang on the shoulder at this time and said aloud: "Don't worry, I will definitely help you, and my goal is to enter a more advanced realm, so in order to improve my own strength, I I will also do my best to help you continue to advance. As long as your power grows

stronger, you will be able to control and plunder more and more mineral resources and other resources, which will also be of great help to me. "

Shang laughed loudly: "Little Ye Zi, you are the closest person to me now. It is necessary for us to help each other in the Demon Realm. As long as I am there,

If you stutter, you will definitely be able to drink in one sip. In the future, I will really be able to advance to become a senior lord, or even a great lord, with more and more resources under my control. I will definitely give priority to you, little Yezi, by providing a steady stream of training resources so that you can Your cultivation and strength are constantly improving, but don't think about entering a higher realm for the time being, because in the demon realm, you are still just a weak existence. Sometimes, don't think too much, just do the things in front of you first Well, after all, when I first came to the Demon Realm, I was very ambitious, and it took me so many years to become a small lord. "

Ye Feng nodded, then looked at the tomb in front of him and asked, "Shall we dig directly now?"

Shang immediately laughed and said: "Of course! Just dig! But you and I don't need to do this little thing. Let the soldiers under my command do it. After all, no one knows about this kind of ancient tomb. What kind of dangers are contained inside, so it is better to let these demon soldiers be used as cannon fodder, because these ancient tombs have defense mechanisms, dangerous formations buried in them, or ancient hidden weapons hidden in the dark, we are all aware of these. Not sure."

Swish, swish, swish!

Swish, swish, swish!

And just after Shang finished speaking, the hundreds of demon soldiers under his command immediately stepped forward and began to dig up the ancient tomb in front of them.

Ye Feng was observing the surroundings at this time.

At this moment, he was staring at the golden tombstone exposed, with a hint of surprise on his face.

This golden tombstone with one corner missing gave Ye Feng a very magical feeling.

Although there is no special power flowing on this golden tombstone, Ye Feng can feel its extraordinary quality.

It should also be a treasure.

At this time, Ye Feng stepped forward, pulled out the golden tombstone with one corner missing, and then put it into his storage ring, waiting to study it slowly later.

Seeing Ye Feng do this, Shang immediately laughed loudly: "Little Ye Zi, you are still you, don't let anything go."

Ye Feng grinned and said, "It's not for nothing. I feel there is something about this golden tombstone, so I will take it and study it carefully. Maybe I will find out some special secrets."

When Shang heard what Ye Feng said, he nodded slightly and said loudly: "You have always been very smart, I believe you will be able to research something.

"

And just when one person and one dragon were talking.

suddenly.

"boom!!"

A huge roar sounded.

I saw that several demon guards who were digging in front were blown to pieces, and even the white bone armor on their bodies was blown to pieces.

"These tombs are really dangerous!"

Ye Feng was startled by the sudden roar.

Because the power of this roar is still very terrifying.

Otherwise, it would be impossible to blow up all the several fully armed demon guards. After all, the cultivation strength of these demon guards is still very powerful.

At this time, Shang looked at Ye Feng beside him and said with pride, "Little Ye Zi, you see I'm not lying to you. These tombs are really full of dangers."

Ye Feng said with some surprise: "Since they knew such a danger, these guards under you still did not hesitate to dig this ancient tomb. What special method did you use to make them so obedient?"

Shang smiled and said aloud: "These ordinary demons, before loyal to a powerful lord, must swear an oath to the world rules of the entire demon world and be loyal to the lord sincerely. For the lord, they can go up mountains of swords and seas of fire. Otherwise, these demons will be instantly wiped out and die by the world rules of the Demon Realm, so this is a very special oath in the Demon Realm, which is used by many big forces, so I am unwilling to enter those big forces. This is the reason. , because if I join any demon dynasty or demon empire, I also need to make this kind of oath to the commanders of these dynasties. Although I have sworn the oath, the other party may provide you with huge safety protection, but I will. I don't want to be like this, I don't want to be anyone's lackey."

"I see."

Hearing what Shang said, Ye Feng suddenly nodded.

"correct!"

At this time, Shang suddenly seemed to have thought of something and said aloud: "But little Ye Zi, you are very special. You can transform your own life source at will, and you have a unique gate to heaven. You are the Lord of Heaven and the Lord of Heaven." Spokesperson of the Lord of Light, maybe you can ignore the world rules of the Demon Realm. If you have a chance, you can try to swear allegiance to someone and then betray him to see if you will be obliterated by the rules of the Demon Realm."

Ye Feng: "..."

Seeing Shang's seemingly very interested expression, Ye Feng immediately twitched the corner of his mouth. He would not try such a stupid behavior.

"Crack!"

\u003e

And suddenly at this moment, the group of demons who were digging suddenly seemed to have crushed something.

Uh-huh!

A demon guard immediately flew out of the hole and said to Shang: "I'm telling you, Lord Lord, we have dug through the top layer of this tomb. Do you want to enter this tomb now?"

At this time, Shang immediately said: "You can retreat, and then I will go down with my brother to investigate the situation personally."

Naturally, Shang would not let all the demon guards go down at this time, because Shang naturally wanted to enjoy all the wealth in the tomb.

After he gets what he wants, he will distribute some leftovers to his guards.

Although it is cruel, there is no other way. This is the rule of the Demon Realm.

If you want to enjoy being around a strong person, get safe shelter, and not be killed and devoured by other powerful demons, then you have to work hard for the strong person you are attached to.

At this moment, Shang looked at Ye Feng beside him, immediately rubbed his dragon claws, and said with great anticipation: "Little Ye Zi, let's go down and have a look. This is the first ancient powerful creature we have found. I hope the wealth inside will not disappoint us too much."

Ye Feng immediately nodded and jumped directly into the huge pit.

At this time, Shang turned around, looked at the hundreds of demon guards wearing white bone armor around him, and said loudly: "You guys are guarding this tomb outside. Don't let anyone approach. Who dares to approach?" , shoot without mercy."

"Yes, Lord Lord!"

Hundreds of guards in bone armor immediately spoke respectfully.

Uh-huh!

At this time, Shang also flew his huge black dragon body and entered the tomb space under the huge pit.

"this....."

When Ye Feng and Shang entered the tomb space below, they were immediately shocked by the scene in front of them.

I saw that in this tomb, terracotta warriors and horses made of pure metal were actually cast. They were densely packed, there were probably tens of thousands of them, and they looked very impressive.

When Shang saw this scene, he couldn't help but said in surprise: "Little Ye Zi, it seems that we are really off to a good start. The owner of this tomb must have been an extraordinary big shot back then, otherwise he would not have been so generous. Even after death, thousands of metal soldiers will be cast to protect the place of death. I feel like we are going to make a fortune this time."

Chapter 3535: Growing subordinates

Hearing what Shang said, Ye Feng immediately smiled and nodded, and said loudly: "I also think that the owner of this tomb must have been a great person back then, and maybe it really contains very rich resources. "

Whether it is Ye Feng or Shang, they all know very well that after the death of those big figures, their descendants will accumulate a lot of wealth that they accumulated before their death, and they will be buried with him in the grave.

That is the so-called grave goods.

And the most precious things are actually the personal items left behind by these fallen ancient warriors.

For example, their natal magic weapon, or personal armor, martial arts inheritance, etc., these are the most valuable.

Ye Feng's growth has always been so fast, and it is inextricably linked to the search for the wealth left behind by these ancient powerful men after their death.

After all, Ye Feng's cultivation breakthrough speed is too fast, so many techniques and inheritances can no longer keep up with Ye Feng's pace, so Ye Feng must continue to look for more abundant resources and powerful inheritances. to be able to meet their own needs.

At this time, looking at the thousands of terracotta warriors and horses in front of him, Ye Feng said aloud: "I have encountered these terracotta warriors and horses before. It is estimated that they were left by the descendants of the owner of the tomb after his death, or he cast them himself. The ones that come out are placed here as a protective army after death, so the terracotta warriors and horses made of these metals may also be offensive, so we must be careful when walking. "

Shang nodded, and Ye Feng walked towards the inner space of this tomb.

But what made one man and one dragon relieved was that these terracotta warriors and horses had no formation to urge them to attack.

Ye Feng and Shang passed through the thousands of terracotta warriors and horses smoothly and reached the deepest part of the tomb.

When they came to the deepest space of this tomb, they immediately saw a very ancient underground palace.

"Little Ye Zi, look!"

At this moment, Shang seemed to have discovered something, and his tone was quite surprised.

"This is....."

Ye Feng looked in the direction Shang said, and immediately saw that there was a huge dark throne in the middle of the palace.

On this dark throne, there is actually a huge white skeleton sitting, which looks quite strange under this dim tomb.

"Crunch, crunch..."

At this moment, what made the two of them feel chilled was that this tall white-bone skeleton actually stood up from the dark throne.

Shang immediately shouted: "This is a White Bone Demon Clan! It seems that this tomb has been climbed by this White Bone Demon Clan a long time ago, and he has been practicing down here! No wonder I said I didn't see anything along the way. Damn it, all the wealth has been consumed by this guy!"

After saying that, Shang suddenly moved his huge dark dragon body and attacked the white-bone skeleton.

Ye Feng's eyes showed surprise. This was the first time he saw a demon in this form.

Sure enough, in the demonic realm

There are thousands of different types of demons, each of which is very strange and terrifying.

There are many demons Ye Feng has never even heard of, such as this bone demon who looks like a skeleton.

"Boom!"

And just when Ye Feng was thinking secretly in his heart, Shang's huge dark dragon body had collided with the white-bone demon clan, and suddenly there was a huge roar.

Almost at the next moment, what shocked Ye Feng's eyes was that the white-bone demon just stretched out a bone palm and directly grabbed Shang's dragon tail, and then threw Shang far away in an instant. It hit the surrounding palace walls and made a huge roar.

"ah!"

Shang screamed immediately and couldn't help shouting: "Little Ye Zi, why don't you come and help me! This Bone Demon Clan is too powerful. I can't deal with him alone."

At this time, Ye Feng only had a slight smile on his face and said loudly: "I haven't seen you for so many years, but your strength is not as powerful as I imagined."

Shang grinned and said immediately: "I've always been weak, okay!"

Uh-huh!

And when Shang was talking, Ye Feng had already rushed towards the bone demon clan.

Hongmeng Immortal Body!

At this moment, Ye Feng didn't hesitate at all and directly stimulated his extremely powerful physique.

boom!

I saw one of Ye Feng's fists immediately turned into a huge purple fist and bombarded the bone demon clan.

"A humble young boy dares to take action against me? He is really stupid!"

At this time, the huge white skeleton actually made a sound.

I saw him stretching out a bone-white palm, and then the palm suddenly became very huge, as if it had turned into a white mountain, and moved towards Ye Feng to cover it, obviously trying to cover it with Ye Feng. Ye Feng was destroyed in an instant.

"Boom!!"

But the next moment, when Ye Feng's big purple fist collided with this huge white bone palm, the two were evenly matched and took several steps back from each other.

"What? How is this possible?"

The Bone Demon Clan immediately showed a look of deep surprise and couldn't help but said: "You are just an ordinary Demon Clan. I can't feel any powerful Demon Clan bloodline breath from you, but How is it possible that you are able to resist me with the power of your body? My body and bones, but the powerful bones left behind by the Lord of the Tomb, are so powerful and terrifying that they didn't kill you for even a moment. The kill is really a bit unexpected for me. It seems that your physique is also very extraordinary. Even I can't see your depth. But this is good for me. I am special. The incomparable bone demon clan, as long as

If you can find a strong physique and absorb your special bones, you will become stronger and stronger. "

"Xuanyin White Bone Hand!"

Swish, swish, swish!

Swish, swish, swish!

At this moment, this Bone Demon Clan immediately displayed a very special inheritance, an extremely powerful Demon Clan inheritance. ??

Buzz! Buzz!

The next moment, all he saw were his two palms, which suddenly transformed into thousands of bone palms, and metal-like nail thorns grew out of the tips of the palms, and they suddenly grabbed Ye Feng, as if they could Ye Feng was instantly torn into countless pieces.

Ye Feng did not hesitate at this moment, and also inspired Hongmeng's true form.

"boom!"

I saw Ye Feng's whole body immediately expanded into a small purple giant, filled with unparalleled power of Hongmeng, rushing forward, and colliding with the countless white bone palms of this white bone demon clan.

"Dang! Dang! Dang!"

These bone-white palms have extremely sharp nails and thorns that can tear everything into pieces.

But when they touched Ye Feng's Hongmeng Zhen, they were unable to penetrate Ye Feng's purple membrane. They only made sounds like metal delivery, which sounded very harsh and noisy.

"What?"

Seeing this scene at this moment, the Bone Demon Clan's eyes widened immediately, and he couldn't help but exclaimed: "I have been practicing the most powerful martial arts for so many years, but I can't even break through your defense. This Impossible! What kind of demon are you, how can you transform into such a purple giant form? I have never seen a demon like you."

When Ye Feng walks in the Demon Realm, he naturally converts his life source into the Demon Clan, so this Bone Demon Clan has no idea what kind of existence Ye Feng's Hongmeng real body is.

At this moment, Ye Feng just smiled indifferently and said: "What kind of demon am I? I don't need to tell you this, because you will die soon."

Boom! !

Almost at this moment, Ye Feng used the powerful power of Hongmeng's Immortal Body and charged directly towards the Bone Demon Clan, intending to completely kill it.

Boom!

Boom!

Every time Ye Feng punched out, the big purple fist was able to burst out with unparalleled destructive power. The skeleton bones of the white-bone demon clan were beaten to pieces, and there were cracks all over the body, making it look very miserable.

"Good! Good!"

Seeing this scene, Shang who was not far away immediately shouted excitedly and said loudly: "Little Ye Zi, you really did not disappoint me, you are still as fierce as before, even in a higher world like the Demon Realm. , you are still as strong as before, you are still the tough young man before, there is no change at all! "

You must know that the realm of this Bone Demon Clan is the tenth level of the God Realm, which is a whole level higher than Ye Feng's current half-step expansion realm.

But he was beaten all over the floor by Ye Feng. No wonder Shang was screaming excitedly at this time.

After all, the stronger Ye Feng is, the more resources Shang will be able to plunder in the future.

In the dark and chaotic land of the Demon Realm, fists are the last word.

And just when Shang was screaming, Ye Feng had already beaten the bone demon in front of him until it almost broke into pieces.

But suddenly at this moment.

"Plop!"

This extremely tall white-bone demon suddenly knelt on the ground and quickly screamed: "Sir, have mercy on me, please have mercy on me! I am willing to be loyal to you, as long as you can

spare my life. I have been practicing for so many years." , It's not easy, I don't want to waste so many years of hard work."

When Ye Feng heard what the Bone Demon Clan said, he still punched out fiercely, as if he wanted to continue to kill the opponent.

"Little Ye Zi, wait a minute!"

But at this time, Shang made a sound not far away.

The old demon dragon quickly flew in front of Ye Feng and said with some surprise: "The White Bone Demon Clan is very rare, because the White Bone Demon Clan can continuously absorb various bones and become stronger, and in the end it can even become a White Bone Demon Clan. The Demon King is very powerful. He is just like a puppet made of divine iron. He is not afraid of death and cannot be killed. If you can take this very rare demon under your command, then he will be your most powerful one. helper."

Shang, this old demon dragon, obviously knows all kinds of demons very well, so he asked Ye Feng not to kill this bone demon at this time.

When Ye Feng heard what Shang said, his eyes showed a look of thinking.

really.

Killing this Bone Demon Clan doesn't seem to have much meaning.

After all, this White Bone Demon Clan is just a skeleton and doesn't have much blood energy.

Even if he killed him directly, he wouldn't be able to devour the blood to improve his cultivation, so he might as well keep it.

In the special realm of the Demon Realm, Ye Feng already knew from Shang that as long as other demons are loyal to you, he will never betray you.

Because he is bound by the rules of the entire demon world, he is not afraid of the other party betraying him.

At this time, Ye Feng immediately nodded, looked at the Bone Demon Clan in front of him, and said loudly: "Since you want to save a life, then you must swear allegiance to me and the world rules of the entire Demon Realm. I."

The strength of this white-bone demon is still very good, especially the bones in his body, which are as strong as divine iron.

If Ye Feng's Hongmeng Immortal Body hadn't transformed and evolved to the early stage of the third level before, he might not have been able to fight against this bone demon clan.

And according to what Shang said, this kind of white-bone demon is an evolved demon that can continuously absorb other bones to increase the hardness of the entire skeleton body.

In the end, he will even be unable to be beaten to death or broken into pieces. This is still a very good growth-oriented subordinate.

Chapter 3536 The hiding place of wealth

At this moment, Ye Feng stared at the bone demon in front of him, becoming more and more satisfied with it.

Ye Feng no longer hesitated and immediately said: "If you are willing to be loyal to me, then I agree. You can swear the oath directly in front of me now."

"Thank you, sir, for sparing me!"

The Bone Demon immediately nodded very happily, then quickly knelt down in front of Ye Feng and began to make a special oath of the Demon Realm. ??

When the Bone Demon Clan took the oath successfully, Ye Feng immediately sensed himself, and he had control over the Bone Demon Clan in front of him from the depths of his soul.

If this Bone Demon Tribe dares to betray him, or even has the idea of betraying him, he will be instantly obliterated by the rules of the entire world of Demon Realm, without Ye Feng even having to do it himself.

After sensing this, Ye Feng's face immediately showed a deep look of joy.

The strength of this Bone Demon Clan is still very terrifying. After all, it can throw Shang out in an instant, and it can also compete with the power of the Hongmeng Immortal Body and Hongmeng True Body with its full strength, which shows that its current strength has been Very powerful.

And the most important thing is that this white-bone demon can continuously absorb the bones of various demons and other living creatures to increase the hardness of its own skeleton bones, and finally turn into an indestructible fighting machine.

And the most important thing is that this Bone Demon Clan has its own thoughts, which are much more powerful than those cold, thoughtless puppets.

At this time, Ye Feng immediately asked the White Bone Demon in front of him to stand up, and then said with a smile: "Since you are under my command in the future, if you encounter special bones, I will let you absorb them directly, so that you can continue to The lifting power."

The Bone Demon Clan immediately clasped his fists respectfully and said, "Thank you, Master."

At this moment, the White Bone Demon Clan's name for Ye Feng has changed.

Ye Feng nodded slightly at this time, and then said loudly: "I will call you White Bones from now on."

Bai Gu immediately nodded respectfully, not daring to have any objections.

At this time, Shang laughed loudly beside Ye Feng: "Little Ye Zi, if you enter this tomb this time, even if you don't get other wealth, you can get such a growing and extremely powerful Bone Demon Clan. My subordinate's fighting ability is on par with yours, which is a huge gain."

When Ye Feng heard what Shang said, he immediately nodded slightly.

But then Ye Feng still said: "No matter what, I still hope to get more cultivation resources so that my cultivation strength can be continuously improved."

, because a friend of mine was captured by the Asura Empire, and I must rescue her. "

"Friends? What kind of friends?"

Hearing what Ye Feng said, Shang immediately showed an inexplicable look in his eyes and said loudly: "I don't think he is a friend, but your boy's confidante, quack quack."

When Ye Feng heard this, he looked slightly stunned, and then said noncommittally: "They are just friends."

Shang didn't believe it at all. He stretched out his huge black dragon claw, patted Ye Feng's shoulder, and said a little sadly: "Little Ye Zi, you are really restless wherever you go, but I told you before As I said, the Asura Empire is very terrifying. It is the most powerful force in the Demon Realm. It is difficult to fight against. When you can fight against the entire Asura Empire, I estimate that you will also be able to leave the Demon Realm and enter the next higher level. It's the fifth level realm."

There was curiosity in Ye Feng's eyes, and he couldn't help but ask: "The fifth-level realm above the Demon Realm, it is estimated that the world will be even larger and vaster. I don't know what the fifth-level realm of the Origin World is called."

Shang shook his head at this time and said aloud: "I'm not sure about this either. After all, like you, Little Ye Zi, I come from a small place."

Hearing this, Ye Feng nodded slightly, and then suddenly asked in his mind: "Emperor Chu, do you know what the fifth-level realm above the Demon Realm is called?"

Emperor Chu's voice immediately sounded: "I'm not sure about this either. Although my ancient memory fragments have awakened a lot, there are no records about the fifth-level realm. Maybe I will have other memory fragments awakened later. Just know."

Hearing that Emperor Chu didn't know, Ye Feng could only give up temporarily.

At this moment, Ye Feng looked at the bones in front of him and asked aloud: "Did you absorb the bones of the tomb owner here to become so powerful?"

Baigu immediately nodded and said, "Actually, I only absorbed the bones of the tomb owner, and I did not plunder other resources."

Hearing what the Bone Skeleton said, Shang's eyes immediately lit up and he couldn't help but say, "That's great. It's not like our trip was in vain. Where is the wealth in this tomb hidden?"

White Bones said at this time: "I have been looking for the wealth of this tomb for a long time but have not found it. The entire tomb is completely empty except for the ancient corpse left by the owner of the tomb."

"What?"

"Not even hair

."

Shang immediately said with some frustration: "How could this happen? I finally found an ancient tomb, but there is nothing there. This is really bad luck."

Ye Feng suddenly thought of something at this time and couldn't help but say: "There can't be nothing in the entire tomb. For example, the thousands of terracotta warriors and horses we saw at the entrance of the tomb are all made of metal. It's done."

Shang immediately shook his head and said aloud: "What value can some terracotta warriors and horses made of metal have, and they cannot be eaten."

Ye Feng smiled and said: "I already know where the wealth of this tomb is hidden, it is hidden among the terracotta warriors and horses."

"What?"

Hearing Ye Feng say this, Shang's eyes suddenly revealed a look of astonishment.

Then Shang seemed to have figured something out, and immediately burst into laughter: "Yes, Xiao Zizi, you are really smart. How could the whole tomb be empty? We can't find this tomb anywhere else." The wealth left by the owner back then must be hidden in some secret place. It is estimated that the owner of the tomb set it up so that it is difficult for ordinary people to find it, so it is impossible to just bury it somewhere in the tomb. There is a great possibility that it is hidden among the metal terracotta warriors and horses that look bright but no one pays attention to. "

After finishing speaking, Bai Gu who was standing aside immediately said in amazement: "Master Ye Feng's wisdom is really high. I have never seen a being as smart as Master Ye Feng. I have no idea about Master Ye Feng." His admiration is like a surging river, endless..."

Just when Bai Gu was flattering, Ye Feng and Shang were already walking towards the outermost part of the tomb.

They came to the entrance of the tomb again and looked at the thousands of metal terracotta warriors and horses.

"Just smash it!"

Shang grinned at this time, and immediately stretched out a huge black dragon claw, and instantly bombarded the surrounding metal terracotta warriors.

"Crack, click, click!"

These terracotta warriors and horses seemed to be very strong, but in fact they were not very strong. Shang used a huge black dragon claw to smash the terracotta warriors and horses made of metal into pieces.

Ding-ding-ding-ding!

Ding-ding-ding-ding!

As the terracotta warriors and horses were shattered, stones emitting bright light, as well as spiritual beads, all rolled out.

When Shang saw this scene, his eyes immediately lit up, and he couldn't help shouting: "These

All of them are heaven and earth spirit beads and heaven and earth spirit stones that contain the most original power. "

At this time, Ye Feng also punched out one punch after another, shattering all the metal terracotta warriors and horses.

Ancient books fell inside, which seemed to contain various powerful inheritances.

In addition, there are demon ores that emit dark light, falling from them, containing huge demonic dark energy.

If you absorb it, your skill will definitely be greatly improved.

At this time, Ye Feng's eyes also showed deep excitement. He guessed correctly, all the wealth was hidden in the terracotta warriors and horses made of metal.

And you know, there are thousands of terracotta warriors and horses present.

There is a lot of wealth hidden in each terracotta warriors and horses.

Thousands of terracotta warriors and horses, what a fortune that would be!

I feel excited just thinking about it!

At this moment, Ye Feng immediately looked at the bones beside him and said, "Hurry up and break all the metal terracotta warriors into pieces. I want to practice on the spot."

boom!

After saying that, Ye Feng didn't even take action himself. He directly released the Devouring Domain on the spot, covering the entire audience.

Baigu, on the other hand, sincerely served Ye Feng and began to take action, smashing the terracotta warriors and horses one by one, and falling down pieces of original spiritual stones, or original spiritual beads, or exclusive demonic ores in the Demon Realm.

The darkness swallowing domain spread out from Ye Feng's body immediately began to absorb this energy.

At this time, Shang saw that Ye Feng started to absorb it, and he immediately shouted: "Little Ye Zi! You are too fierce, you just practiced and swallowed it on the spot! No! I want to swallow it too!"

After saying that, Shang opened his huge mouth and began to devour all kinds of wealth and spiritual stones that fell from the broken terracotta warriors and horses around him.

One person and one dragon immediately started refining these resources.

As for the bones, he doesn't need these resources at all. What he needs are various special bones to continuously improve the strength of his body and thereby enhance his combat effectiveness.

So at this time, Bai Gu directly became Ye Feng and Shang's hard worker, constantly smashing the terracotta warriors and horses, but he couldn't get anything. But there was no way, Bai Gu had become Ye Feng's subordinate, and swore allegiance to Ye Feng. Then he would do anything for Ye Feng without hesitation, and he could not ask for anything in return, which was equivalent to free labor.

Chapter 3537 Intermediate Lord

"Rumble..."

The wealth contained among thousands of metal terracotta warriors and horses is very rich.

In addition to various inherited books, weapons, armors, etc. left by the owner of the tomb, there are also a lot of mineral resources, as well as heaven and earth spirit beads, etc., which were probably collected by the owner of the tomb back then.

But at this time, they all became nourishment for Ye Feng and Shang.

And the most important thing is Ye Feng, because if Shang is just swallowing, nothing can compare to the huge swallowing field released by Ye Feng.

That enveloped the entire scene.

So at this time, Ye Feng released the Devouring Domain and immediately absorbed a huge amount of energy, which greatly increased Ye Feng's skill.

At this time, Ye Feng's cultivation level immediately began to make continuous breakthroughs.

"boom!!"

Exactly half an hour later, Ye Feng's cultivation bottleneck was suddenly broken through, and he stepped into the first level of the Kaishen Realm above the Expansion Realm!

And it goes far beyond that.

"boom!"

Open the second heaven of God Realm!

"boom!"

Open the Third Heaven of God Realm!

"boom!"

Open the fourth level of the God Realm!

"boom!"

Open the fifth heaven of God Realm!

At this time, Ye Feng's cultivation breakthrough finally stopped.

At this moment, Ye Feng's eyes were filled with deep excitement. He didn't expect that he would break through a big bottleneck this time, and even reach the fifth level of the Kaishen Realm.

This made Ye Feng very amazed.

Then Ye Feng couldn't help but said with emotion: "The Demon Realm is indeed an extremely advanced realm world. If I were on the snowy land before, I still don't know when I would be able to break through to the true realm of enlightenment. , because the resources in the Snow Realm are no longer enough to support my rapid breakthrough, but when I came to the Demon Realm and randomly selected the resources in an ancient tomb, I improved so much at once. Sure enough, I entered a higher level at the right time. Only in this world can I continue to make breakthroughs and become stronger quickly."

At this time, Shang laughed loudly next to Ye Feng: "That's necessary. I have said before that the Demon Realm is not as barren and dilapidated as you think. The real good things in the Demon Realm are basically buried in "In the earth."

Hearing what Shang said, Ye Feng became a little curious and couldn't help but ask: "Why are there so many good things buried in the Demon Realm?"

Shang said with a smile: "Because this realm of the Demon Realm was the place where the gods fought. Although the war of the gods destroyed most of the vitality of the Demon Realm, it also left behind the inherited mantles of countless ancient powerful men, hidden in

In this ancient and vast land, we just need to find and dig. "

Hearing this, Ye Feng suddenly said with some clarity: "So that's it. I'm going to tell you why the entire Demon Realm looks so dilapidated and barren. It turns out that it was destroyed by the war between the gods that year. But misfortunes and blessings depend on each other. Although The vitality of the entire earth was destroyed, but the resources and inheritance of many ancient powerful people were left behind. "

"That's right."

Shang nodded and said with some regret: "Actually, the Demon Ruins place I brought you here is just a small battlefield left over from the war between the gods. Only some casual cultivators or

small lords can Come here to look for resources. It was a real battlefield back then. The inherited mantles and resources of countless more powerful beings are all in the hands of major forces. They are in the center of the Demonic Domain and we cannot get involved for the time being. "

There was a hint of brightness in Ye Feng's eyes, and he said loudly: "One day, we will also be able to look for treasures in the resources left behind in those larger ancient battlefields."

Shang nodded, and then said: "So in the Demon Realm, in addition to fighting and fighting each other, the major demon clans are basically exploring various mineral resources and the inherited mantles left by ancient powerful men to develop and grow. own power."

At this time, Ye Feng immediately began to look for various inheritances around him.

All the resources containing energy were swallowed up by Ye Feng or Shang, but there are still many weapons, armors and inheritance left by the tomb owner back then, and they are also good things.

Ye Feng smiled and said loudly at this time: "Shang, you can use all these weapons, armors and inheritances to equip the teams in your territory. However, there are several powerful inheritances left by the owners of these tombs. I want to copy them first. The portion is in my soul, and then you can use it to train your team or practice on your own."

The inheritances left by the owners of these tombs are basically the powerful inheritances of the demon clan.

Although Ye Feng is from the human race, now that he has come to the Demon Realm, his life source has already been transformed into the dark attributes of the Demon Realm.

So at this time, Ye Feng was naturally able to practice these demon inheritances and exert extremely powerful power.

Even Ye Feng's use of these demon inheritances was more powerful than the use of the demons themselves.

Because Ye Feng's original power is the supreme power of Hongmeng.

Therefore, the power unleashed by activating the martial arts inheritance is naturally much more powerful than that exerted by ordinary demons.

In the next half hour, Ye Feng has been selecting various inheritances.

Ye Feng doesn't need ordinary inheritance at all.

Even if you practice it, you won't be able to exert much power and you will waste your energy.

In the end, Ye Feng carefully selected two sets of the most advanced and powerful demon inheritances, called "Destroying Demonic Light Wave" and "Dark Holy Spirit Dharma".

These two inheritances are very advanced and ancient demon inheritances. Once practiced, they will explode with extremely terrifying power.

However, Ye Feng was quite disappointed that he did not find any powerful demon weapons among these terracotta warriors and horses.

Otherwise, Ye Feng's comprehensive combat effectiveness will further improve.

However, when Ye Feng was in the Snowy Land, the two ancient powerful natal magic weapons that he had restored, the Golden Dragon Scissors and the Sun God Needle, were barely enough for Ye Feng's current state.

However, Ye Feng knew that he still needed to hurry up and find more powerful weapons.

After all, now that I am in the Demon Realm, with sufficient high-end resources, my cultivation strength will break through very quickly.

At this time, Shang looked at Ye Feng, smiled and said: "Next, we have to look for other training resources in the Demon Ruins. Maybe we can find some powerful weapons."

Ye Feng nodded and said, "Then let's leave here."

"Um."

Shang nodded and flew upward from the space under the tomb, followed by Ye Feng and Bai Gu.

But the moment they came up, they saw a very bloody scene.

I saw a group of guards under Shang's command standing guard outside. They had been beheaded and were all lying in a pool of blood.

"What?!"

Seeing this scene, Shang suddenly became very angry.

These hundreds of guards were all accumulated by him through hard work.

Commander Shang's thousand-meter territory is all managed by these guards.

Now they are all killed?

"hateful!"

Shang immediately looked around and saw a group of demons standing in a dark area not far away.

This group of demons all have a pair of wings behind them, and they look like they are a clan of flying demons.

There are thousands of flying demons!

At the front of them stood a tall young man wearing blue armor.

This tall young man has a single horn on his head and looks very imposing.

"It's you! One-horned devil!"

Shang immediately showed a deep gloomy look on his face,

He said aloud: "One-horned devil, why are you here? You killed all these subordinates of mine?"

The man in blue armor with a devil's horn on his head smiled disdainfully at this moment and said loudly: "Your blind guards dare to block my way, I will naturally kill them." All were killed."

At this moment, Shang immediately roared and said, "Don't you know that all these guards are under my command?"

"Hahaha!"

The one-horned demon immediately made a sarcastic voice: "I knew they were your bodyguards, so I struck harder. I didn't leave any of them behind. I destroyed them all. Hehe, you snatched the one I found before. Mine, let you escape. This time I happened to encounter your subordinates. Naturally, I want to kill all your subordinates! And that's not all. Today, I will also kill you! I know that the deceitful demon dragon has been killed, and then I will drink your dragon blood to allow my life source to evolve!"

Obviously, this one-horned demon must have had a feud with Shang before, so this time when the enemies met, they were extremely jealous.

Moreover, in the Demon Realm, many demons have killed other demons and swallowed the blood of other demons. They can evolve their own life source, allowing them to transform towards a more advanced and powerful life level.

"superior!"

At this time, the one-horned demon directly ordered the thousands of flying demon guards behind him to rush towards Shang quickly, intending to beat Shang to death.

"Swish, swish, swish!"

"Swish, swish, swish!"

A group of flying demons immediately spread their evil wings, quickly flew high into the sky from behind the one-horned demon, and then swarmed towards the group of mourners.

Although these flying demons are the bodyguards of the one-horned demon, their cultivation strength is also quite strong, and they actually have the cultivation strength of half a step to reach the divine realm!

So at this moment, thousands of flying demons flew directly around Shang and began to bite Shang's dragon body crazily.

The mouths of these flying demons were filled with densely packed black fangs, which were full of terrifying tearing abilities. Shang's dragon body was hit hard all of a sudden, and he screamed in pain.

At this time, the one-horned demon immediately smiled coldly and said loudly: "If you dare to go against me, you will only die."

In fact, the strength of this one-horned demon itself is not very powerful. It only exists in the sixth level of the God Realm.

But he didn't know what means he used to gather thousands of flying demon guards to be loyal to him.

This one-horned demon can command thousands of flying demons who are half-stepped into the divine realm at once. In fact, they can all be called intermediate lords.

Chapter 3538: Follow you

"boom!"

Suddenly at this moment, an extremely terrifying force suddenly erupted not far away, directly blasting all the dozen flying demons nearby into pieces.

"Huh? Who is it?"

The one-horned demon suddenly showed deep surprise in his eyes and looked not far away.

He immediately saw a young man in white smashing all the dozen flying demon guards under his command with one punch.

This kind of power can be described as terrifying to the extreme.

Because you must know that these flying demons are not ordinary demon guards, but powerful beings at the level of half-open gods.

At this time, the one-horned demon suddenly felt a rather powerful cultivation aura from Ye Feng.

He couldn't help but show surprise in his eyes, and said aloud: "It turned out to be the fifth level of the God Realm. I didn't expect that a master of the fifth level of the God Realm would appear next to you, a little devil dragon. However, I am a powerful being in the sixth level of the Kai Shen Realm, and I also possess the bloodline of the ancient One-Horned Demon God. My actual combat power is terrifying. Even if you find such a master, you will not be my opponent after all. It just so happens that today By killing both of you and devouring your demonic blood, my life source will definitely evolve tremendously. Especially since this young man in white has such terrifying combat power, it shows that his life source must be very advanced."

Uh-huh!

The moment the one-horned demon finished speaking, a pitch black long knife suddenly appeared in his hand and charged directly towards Ye Feng.

The long knife in his hand suddenly burst out with a monstrous light of darkness, condensing a dark blade light and slashing towards Ye Feng fiercely, as if it could break the entire world.

Ye Feng did not hesitate at this moment, and a needle suddenly appeared in his hand. This needle was the Sun God Needle!

After the Sun God Needle was activated by Ye Feng, it immediately became very huge, blooming with the burning light of the sun, and had natural restraint against the power of dark attributes.

Ye Feng did not directly use Heaven's Gate, because this kind of thing cannot be used easily, otherwise it would attract the attention of some terrifying monsters in the Demon Realm, which would be really troublesome.

At this moment, Ye Feng held the Sun God Needle in his hand, or it can now be called the Sun God Stick, and suddenly struck forward fiercely, colliding with the black long knife in the hand of the one-horned demon. Together.

Boom! !

The entire field suddenly erupted with a huge roar, and the surrounding space was about to shatter.

It has to be said that the power of this collision was so terrifying that all the surrounding demons couldn't help but retreat quickly. \u003c

br\u003e

At this time, Shang immediately shouted: "Little Ye Zi! Beat this hateful one-horned demon to death!"

"good."

Ye Feng smiled slightly at this time, and once again displayed his Hongmeng true form. Ye Feng immediately turned into a little purple giant, and suddenly rushed in front of the one-horned demon and punched hard. The bombardment went out.

Boom! !

Along with a terrifying roar, the blue armor worn by the one-horned demon was shattered inch by inch by Ye Feng's big purple fist.

Boom!

Then the one-horned demon immediately felt an unstoppable and huge force, impacting him, causing him to fly backwards and smash into a large area of the ground.

At this time, the one-horned demon struggled to stand up, his eyes full of deep horror, and said loudly: "How is it possible? Your cultivation level is obviously one level lower than mine, but you are able to blast me to pieces from such a distance. How can this be!"

Ye Feng's eyes showed surprise at this time, and he couldn't help but said: "The high-level demons in the Demon Realm are really extraordinary. They resisted my fist and didn't die. Maybe it's your body." The armor is stronger."

After saying that, the one-horned demon suddenly felt a deep chill in his heart.

He suddenly understood that this young man in white was definitely an extremely terrifying and frightening existence, much more powerful than he had imagined.

At this moment, the one-horned demon suddenly roared and said: "All the flying demons, gather around me. Don't worry about that weak dragon. Hurry up and help me deal with this terrifying boy in white." "

Swish, swish, swish!

At this moment, all the flying demons spread their huge black wings and came around the one-horned demon. They all gathered together to fight against Ye Feng.

But the little purple giant that Ye Feng transformed into at this time wildly stimulated the power of the entire Hongmeng Immortal Body. Like a war machine, it rushed into the crowd and attacked all the flying demons crazily.

No matter which flying demon it is, as long as it touches Ye Feng, it will basically be torn apart by the collision, and there is no way to stop it. Even if thousands of flying demons are together, they will all be knocked upside down by Ye Feng and fly out in the air. It exploded.

Ye Feng, alone at this moment, was like a torrent of steel, capable of crushing everything.

Bai Gu stood not far away and saw this scene. He couldn't help but sigh and said: "Master Ye Feng is really powerful. He is much stronger than I imagined. My admiration for Master Ye Feng is simply like The surging river water is endless..."

Shang glanced at the bones beside him and said loudly: "Flattery."

At this time, Shang immediately flew forward, preparing to beat up the drowned dog.

"boom!"

But the one-horned demon suddenly displayed a very powerful bloodline secret technique. The horn on his forehead suddenly grew from the size of a finger to tens of thousands of feet, as if it could lift the sky and crack the earth. In one fell swoop, the entire huge dragon body of Shang who had just flown over was sent flying out.

"Depend on!"

Shang screamed, feeling as if his entire body was about to be pierced.

Ye Feng laughed loudly at this time: "Shang, your strength is too weak. After this battle, I will find a way to improve your strength. You are always so weak, how can you be a qualified lord? "

When Shang heard what Ye Feng said, he immediately said in embarrassment: "I can't help it. Who told me that I came from a small place? I am not the reincarnation of some ancient power. I have been able to reach this day and come here." Such a high-level demon realm is already very good, and it can be considered a genius among geniuses. Do you think anyone is as evil as you, Xiao Yezi? You are a rare existence that only happens once in a million years!"

Ye Feng thought for a while, then nodded, and said loudly: "It's true what you said. I really haven't seen anyone else like me. Many of my friends and opponents who were similar to me before and seemed to be equally powerful were basically the same. They can no longer keep up with me and have been eliminated."

And when Ye Feng was talking, the one-horned demon not far away suddenly yelled angrily: "Damn the boy in white, you actually look down on me so much, and you are still chatting while fighting me. , Damn it, damn it, you are completely despising me! I want to give you a taste!"

"boom!"

Almost at this moment, the one-horned demon immediately activated his inflated giant horn. With a majestic size of more than 100,000 meters, the huge horn, like an ancient mountain, moved towards Ye Feng. Crash away, like an ancient rhinoceros, as if it can crush everything!

"Dark Holy Spirit Dharma!"

Without any hesitation, Ye Feng directly used the extremely powerful demon inheritance, the Dark Holy Spirit, which he had obtained from the underground tomb.

I saw that behind Ye Feng, the infinite demonic energy condensed into a towering and boundless darkness.

Troll.

This is an extremely terrifying demonic form that condensed and formed behind Ye Feng in an instant.

Then it fiercely bombarded forward, and suddenly collided with the majestic horn of the one-horned demon, and a terrifying and boundless roar suddenly broke out.

"Boom!"

A terrifying roar suddenly erupted throughout the entire field.

The dark holy spirit formed around Ye Feng possesses boundless demonic power.

This is a kind of heaven and earth law exclusive to the demon clan, which allows Ye Feng to possess the terrifying power of the ancient giant demon god in an instant.

At this moment, the dark giant magic around Ye Feng suddenly shattered the huge unicorn on the head of the one-horned demon.

"ah!!"

The one-horned demon immediately screamed in pain: "Impossible! How come you, a kid, have such a powerful inheritance? Are you a descendant of an ancient troll that is rare in the ages? This set of inheritance can only be achieved by those who possess such a powerful inheritance. Only the blood of the troll can be used!"

Ye Feng just smiled coldly at this moment. No matter what inheritance, it can explode with huge power in Ye Feng's hands, because Ye Feng's life source can be transformed into the life attributes of any living creature!

"boom!!"

Almost at this moment, Ye Feng didn't bother to pay attention to the roar of the one-horned demon. He directly urged the dark Holy Spirit behind him to stampede towards the one-horned demon. There was a "puff", and in an instant He trampled this one-horned troll into pieces.

"No! Lord Lord!!"

The thousands of flying demons around them couldn't help but roar, their voices full of deep fear.

They never thought that the powerful lord in their eyes would die in the hands of an ordinary boy.

At this moment, Ye Feng released the Devouring Domain and began to devour the blood and energy of this one-horned demon. He turned around, looked at the thousands of flying demons, and said slowly: "Submit to me. , I will be your new lord."

"Um?"

Shang got up from the ruins not far away. When he saw what Ye Feng said, he immediately shouted in surprise: "Little Ye Zi! Are you going to start building your own power? I won't be the lord anymore! You want to If you become a lord, I will follow you!"

Ye Feng smiled, looked at Shang not far away, and said, "Okay, I'll give you a deputy lord Dangdang, and we two brothers can have a good time in this demonic realm."

Chapter 3539 Essence

Hearing what Ye Feng said, Shang immediately laughed loudly: "Little Ye Zi, you finally have the enlightenment. Now don't think about entering a higher realm or fighting against a behemoth like

the Asura Empire, because This is unrealistic. It is correct to grow up as quickly as possible first. If you want to grow in the Demon Realm, you must constantly plunder various resources and control various mineral veins. The fastest way is not to play alone. Fight alone, but establish your own territory, become a lord, and climb up step by step. In the end, if you can control a dynasty, or even a dynasty, you will be qualified to fight against a behemoth like the Asura Empire. fight."

When Ye Feng heard what Shang said, he nodded slightly and said loudly: "Yes, thinking too much now is of no practical significance. The most important thing is to do a good job in what I am doing now, so I decided to first Start as a low-level lord."

At this time, Shang happily patted Ye Feng on the shoulder, then looked at the thousands of flying demons not far away, and said loudly: "Now let's see if Ye Feng has the ability to make these thousands of flying demons If you can get all these thousands of flying demon clan to be loyal to you and swear an oath in front of you, then you will instantly have thousands of extremely powerful subordinates. By then, you can even compete with some ordinary people. Intermediate lords are comparable, because the standard for intermediate lords is to command thousands of subordinates at the Kaishen level. "

Ye Feng nodded slightly, and then said aloud: "In such a chaotic realm as the Demon Realm, it would indeed be of great benefit to me to have many subordinates and forces of my own, because the Demon Realm is full of opportunities. Good luck, but if I look for it one by one, I still don't know when I will find it. Only by mobilizing the power of many subordinates and establishing my own power can I concentrate on doing big things and find more mineral resources and tomb resources."

Through this incident, Ye Feng also discovered how important it is to establish his own power. With many powers, he can disperse to all nearby areas to find various resources.

If you are alone, you will be a little stretched after all.

And Ye Feng knew very well that he would eventually face a behemoth like the Asura Empire.

If you rely on your own strength, unless you grow to an extremely terrifying level, you can fight against the entire empire.

But this is very difficult.

However, if you can continue to build your power, even if your power does not develop to the empire level, it can develop to a dynasty or dynasty. Relying on the huge power and resources, as well as your own considerable cultivation strength, you can probably compete with Asura. The Empire has some confrontations.

Buzz!

At this moment, Ye Feng was rapidly absorbing the power and energy of the fallen one-horned demon.

A huge amount of blood energy immediately exploded in Ye Feng's body.

Although this one-horned demon's cultivation level is not much higher than that of Ye Feng, the blood energy contained in it is still very rich.

\u003c

br\u003e And what makes Ye Feng the happiest is that the power of the bloodline of this one-horned demon is actually very advanced. It is the bloodline of the ancient one-horned demon god, which immediately improves Ye Feng's Hongmeng Immortal Body.

From the early stage of the third level, it broke through directly to the middle stage of the third level.

At this moment, the intensity and power of Ye Feng's Hongmeng Immortal Body reached another level.

And at this moment, Ye Feng's cultivation level suddenly broke through the first level and reached the sixth level of Kaishen Realm.

This made Ye Feng extremely amazed. As expected, the creatures in the Demon Realm were all very powerful, and their energy was very large and advanced.

Because if it is in a low-level realm, if those low-level creatures are only one level higher than Ye Feng's cultivation level, then Ye Feng will not be able to increase his skill at all if he devours them.

At this time, Ye Feng's cultivation and physical strength have been greatly improved, making people feel that his combat effectiveness has increased many times at this moment.

Especially Shang and Bai Gu, who were standing next to Ye Feng, felt the strongest.

The skeletal face of Bai Gu suddenly showed an expression of wonder, and he said loudly: "Master Ye Feng's talent is definitely rare in the world, a rare genius that is rare in a million years. I am very impressed by Master Ye Feng's talent." The feeling of admiration is simply like a surging river, which is endless, and like the water of a big river, it overflows and cannot be controlled..."

Snapped!

Shang directly slapped the bones next to him, and couldn't help but said: "I really can't stand it anymore!"

At this moment, Ye Feng ignored the fight between Shang and Bai Gu, and instead walked in front of the thousands of flying demons not far away.

After the death of the one-horned demon, these thousands of flying demons had been standing there in fear, not knowing what to do, and were at a loss for a moment.

At this time, Ye Feng came in front of thousands of flying demons, smiled faintly, and said: "If you are willing to swear in front of me and be loyal to me, then I will spare all your lives."

At this time, Shang couldn't help but murmured behind his back, "To conquer so many flying demons, it takes more than just saying a few words."

Bai Gu had a look of admiration on his face and said, "Master Ye Feng will definitely have his own way."

And at this moment, as Shang said, the moment Ye Feng finished speaking, thousands of flying demons were ready to move, and they seemed not to be loyal to Ye Feng.

But they thought of Ye Feng's extremely powerful fighting power, and now they didn't dare to resist directly.

However, several flying demons suddenly shouted and said: "We are loyal to the one-horned demon lord. We must not succumb to this boy. We must escape now!"

"Um?"

Hearing what these flying demons said, Ye Feng's eyes suddenly turned cold, revealing a trace of cruelty.

Uh-huh!

Ye Feng just reached out and grabbed it, and immediately sucked those flying demons into his palm. .??.

Then, under the horrified gazes of many demons around him, Ye Feng directly used the power of devouring, grabbing several flying demons with both hands, and directly sucked out all their blood, energy, and skills.

Everyone was immediately horrified to discover that the entire bodies of those flying demons had completely shriveled up and turned into mummies falling to the ground. Their deaths were extremely miserable.

"hiss!"

Seeing this scene, the remaining thousands of flying demons all had deep horror in their eyes. They couldn't help but take a breath of cold air and felt chills in their hearts.

Ye Feng saw this scene, with a hint of satisfaction in his eyes.

The cultivation level of these flying demons is half-step to the divine realm. Even if they swallow them all, it will not be enough for them to break through to the first level of heaven. At most, their skills will be improved a little.

But if you take them all under your command, you can activate the power of these thousands of flying demons, establish your own territory, and search for various mineral vein resources and tomb ruins left by ancient powerful men around you. There will be huge consequences. effect.

After all, these are thousands of free laborers, and they are all flying demons with wings. They are very mobile and play a great role in establishing territories, guarding territories, and expanding the scope of territories.

Therefore, Ye Feng has now devoured several arrogant flying demons, not to improve his skills, but to frighten the remaining thousands of flying demons.

Sure enough, his devouring power made these demons feel scared.

In fact, in the Demon Realm, many demons are very cruel and not afraid of death.

But if they encounter a being that is more evil and cruel than themselves, they will also feel fear and be frightened.

The devouring power that Ye Feng possessed at this moment was something that he would not dare to use easily in many worlds in the past, for fear that others would regard him as a demon.

But now, in a dark and chaotic world like the Demon Realm, Ye Feng can freely use his devouring power to frighten countless demons.

Are these demons evil?

Then Ye Feng is more evil than them!

More cruel!

At this time, Ye Feng forcefully

A living flying demon clan was instantly sucked into a mummy. The whole process was very visually shocking and made many flying demon clan feel scared.

Because this way of death is so terrible, I feel chills in my heart just thinking about it.

At this moment, Ye Feng looked at the remaining thousands of flying demons, his eyes full of cruelty, and said slowly: "If you don't surrender to me, you will not only die, but you will also look like Those flying demons died very miserably, very slowly, and very painfully."

Ye Feng was speaking word by word at this moment, making the remaining thousands of flying demons tremble.

After a brief silence.

"Plop"

"Plop"

"..."

One by one, the flying demons finally couldn't bear the overwhelming fear of mental depression. They all knelt down in front of Ye Feng, and then began to swear allegiance to Ye Feng, the new lord. .

Seeing this scene, Shang who was not far away immediately laughed loudly and said: "Little Ye Zi, I really belong to you! It seems that you have understood the essence of surviving and developing in the Demon Realm, which is to use violence to fight violence, and to use ruthlessness to fight against violence." "

Bai Gu glanced at Shang and said calmly: "Look, let me tell you, Master Ye Feng's wisdom is unparalleled, and he will definitely be able to subdue these thousands of flying demons in an instant."

The current Baigu definitely shows deep awe and loyalty to Ye Feng.

At this time, after Ye Feng got the oath from thousands of flying demons, he immediately felt that he had a deep connection with the rules of the entire demon world.

Uh-huh!

At this moment, Shang Fei came to Ye Feng's side, smiled quite mysteriously, and said loudly: "Little Ye Zi, do you feel something different?"

Ye Feng nodded slightly and said aloud: "I feel that I have an inexplicable connection with the rules of the entire demon world."

Shang immediately nodded and said with some envy: "When your subordinates become more and more powerful, and more and more demons declare their allegiance to you, you will slowly begin to control some of the rules of the demon world. , you must know that the entire Demonic World is composed of countless demons. The more demons you control, the more control you have over the world rules of the entire Demonic World. When you face the enemy in the future, Xiao Ye Zi, you can draw on and use the power of the world rules of the entire Demon Realm to strengthen your combat effectiveness. This is also the reason why I am unwilling to join other major forces. I want to become a lord myself, but now I am personally appointed by you, Little Ye Ye. Vice Lord, as long as our territory grows stronger, I can also share part of the power of world rules with you as the Lord. It's so cool to have an old partner like you, Little Leaf, to fight together."

Chapter 3540 Base Camp

For Shang, he has been fighting alone in the Demon Realm. He is very lonely. Sometimes he feels very tired and has lost the motivation to fight.

Sometimes Shang really wants to find a partner or friend that he can rely on in the Demon Realm.

But Shang searched for it for a long time and couldn't find it.

Because no one is trustworthy.

In the Demon Realm, there is chaos and fighting everywhere, and anyone may suddenly betray you in the future and stab you in the back for their own benefit.

But now the appearance of Ye Feng, an old friend, made Shang very excited and energetic again.

Because Shang felt a long-lost sense of security and dependence from Ye Feng.

Moreover, Shang didn't want to sign any master-servant contract with Ye Feng at all. There was a natural trust between them.

Because they have all struggled together in a small place, helped each other, experienced life and death crises together, and experienced various joys, sorrows, and joys.

So the two old friends were naturally very happy to meet again in this strange world of the Demon Realm. .??.

At this time, Ye Feng had subdued thousands of flying demons, and he could immediately feel that he had the ability to use the world rules of the entire demon world.

Buzz!

At this moment, Ye Feng stretched out his hand and grabbed a mountain in the distance.

Above the entire dark sky, streaks of black lightning suddenly descended, directly shattering the mountains.

Ye Feng's eyes lit up and he couldn't help but murmured, "Is this the power of the rules of the demon world? It is indeed very powerful, and I am only an existence comparable to an intermediate lord. If I can become more and more powerful, recruit If I conquer more and more demon slaves, the power of the entire demon world's rules will provide me with unparalleled and huge destructive power."

At this moment, Shang also stretched out a dragon claw and grabbed it in the distance. Several black lightnings also descended on the dim sky, shattering a large area of land.

Seeing this scene, Shang immediately laughed out loud: "As a deputy lord, I can also share some of the power of world rules that belong to you, little Ye Zi. It's amazing."

Ye Feng immediately smiled and nodded, and said: "Next, let's go back to the territory you established before, continue to expand your territory, and treat it as our base camp. "

\u003e Shang immediately shook his head and said: "Little Ye Zi, you now have such a powerful body strength, and you also control thousands of flying demons at once. With your current strength

and huge Force, you can directly establish a base camp in the area around this Demonic Ruins. In this case, we can go to this Demonic Ruins at any time and look for resources left by various ancient powerful people. In this Demonic Ruins, we can The land is a relatively remote land of resources, so there are not too powerful forces around it. It is just suitable for us to initially establish our own territory. When our territory becomes more and more powerful, we can even directly annex this demonic ruins. We regard this Demonic Ruins as our own private wealth."

When he said this, Shang immediately laughed loudly: "I used to have a wish to annex this entire Demonic Ruins land and treat it as my own back garden, where I can exploit its resources anytime and anywhere. But before, I I just feel that this is just an extravagant wish, but with your arrival, Xiao Yezi, this extravagant wish may become a reality."

When Ye Feng heard what Shang said, he immediately nodded slightly and said with a smile: "Then let's choose an area around this demonic ruins to build our base camp. We won't do it for the time being. Let's explore this demonic ruins. Once the base camp is established and arranged, and all the demonic slaves guard the territory, we will come over to look for other resources. At that time, we can mobilize many flying demonic slaves to find various hidden resources. The tombs or mineral veins left by the ancient powerful men."

Shang immediately nodded and flew quickly in a certain direction.

Ye Feng took thousands of flying demons and the bodyguard Bai Gu and flew quickly towards the direction led by Shang.

Shang is naturally much more familiar with the surrounding area than Ye Feng, so it is best to choose a suitable territorial base camp and follow Shang's arrangements.

Under the leadership of Shang, a group of teams soon arrived at an area southwest of the Demon Ruins.

There is a very desolate area everywhere here, there seems to be no resources, and there is no trace of the demons who would set foot here.

Seeing this scene, Ye Feng couldn't help but frowned and said loudly: "Shang, are you sure we will establish our territorial base camp here?"

Shang smiled at this time

, said aloud: "Little Ye Zi, don't you understand this? We have just started to establish our own territorial base camp, and we cannot choose places that are full of resources, or places that are full of vitality, because at any time, major threats may arise. Other lords will bring their own teams to fight, and they will be in a hurry. We just started to build the base camp in this relatively run-down place, so we will not encounter attacks from other lords. This is suitable for our early development, etc. As our strength grows, we can use this as our center to plunder other resource-rich territories around us."

When Ye Feng heard what Shang said, he immediately nodded, and then said with a smile: "Although this area is very rundown, I can use some magic ore to lay out and carve huge formations. It can attract the surrounding demonic energy and gather it here for all our teams to practice. "

When Shang heard what Ye Feng said, he immediately said excitedly: "Sure enough, little Ye Zi, you are an all-round talent. Among the demon clan, many lords don't know how to arrange formations at all, so their development is very slow. If we build a formation that gathers demonic energy, then the development of our entire territory will definitely be like turning on an accelerator. It will grow very quickly. I say, if we can use our own wisdom, we will definitely defeat this demonic realm. Those ordinary demons among them."

Ye Feng looked around at this time and said aloud: "Then I will start to arrange the formation. Shang, please help mobilize these thousands of flying demons to build a central hall for the lord's base camp that suits our status."

"good."

Shang seemed to be very excited, and immediately said: "Don't worry, little Ye Zi, I will definitely build us a beautiful and luxurious hall. When I was a low-level lord, I only had a few hundred slaves under me, so I only It's very shabby to be able to barely build a medium-sized bone palace. This time we have thousands of flying demons, so the style we have to build must be in line with our status!"

After saying that, Shang immediately began to look at the thousands of flying demons and began to issue orders.

Shang is now the deputy lord of the entire territory. These flying demons who are loyal to Ye Feng will naturally listen to Shang, the deputy lord.

Swish, swish, swish!

Swish, swish, swish!

All the flying demons were immediately mobilized by Shang.

Some of the flying demons began to dig out the huge ores around them.

Incomparable.

Another part of the Feitian Demon Clan began to draw renderings of the central hall according to Shang's instructions.

Now that Shang suddenly had thousands of flying demons as a highly mobile labor force, he naturally gave full play to the advantages of the flying demons and prepared to build the grand and luxurious central hall.

Ye Feng was not idle at this time. He began to take out pieces of demonic ores from his storage ring, and then according to a certain special sequence, he began to arrange a huge training array to gather demonic energy in the entire surrounding area. Law, in this case, it will have huge benefits for the overall improvement of the entire territory.

And while everyone was working in full swing, a large team of demons suddenly descended on the area near the Demon Ruins.

There are tens of thousands of demon clan troops, and it looks dark and very depressing.

At this moment, directly in front of this huge group of demons, they were led by two powerful lords, both of whom had powerful cultivation levels at the Naling Realm level above the Kaishen Realm.

These two lords were probably friends of the one-horned demon lord that Ye Feng had killed before.

Because of these two lords, one has a silver horn on his head, and the other has a golden horn on his head.

At this moment, the moment the two lords arrived here, their eyes suddenly changed.

Because they sensed a breath of death.

Lord Silver Horn immediately couldn't help but said: "Brother, the third brother seems to have died."

Lord Golden Horn looked around at this time, with a very gloomy look in his eyes, and said loudly: "I have smelled the death of the third brother. He has indeed fallen. Who here can kill the third brother? So In remote places, most of them are low-level lords who are unable to compete with the strength of the third brother. Not to mention that the third brother also has thousands of flying demon slaves that we captured for him, and ordinary masters cannot get close to him. , let alone kill the third brother."

Lord Silver Horn's face was filled with deep anger at this time, and he said loudly: "Brother, we must avenge our third brother."

Lord Golden Horn frowned at this time and said aloud: "But we came here this time to find a big secret in this demonic ruins. At the moment, we don't have time to search for who was so bold as to kill three people." younger brother."
