

## Ancient 3541

Chapter 3541 Lord Silver Horn

"No! I can't just let this matter go!"

When Lord Silver Horn heard what his elder brother said, he seemed to want to give up on investigating the cause of Lord One Horn's death. He immediately said angrily: "No matter what, I must find the culprit who killed my third brother and cut him into pieces." Wan Duan, the three of us brothers, all have the blood of the ancient One-Horned Demon God clan flowing through our bodies. We have always supported and helped each other. Although the third brother is indeed weaker, he cannot let others bully him. Now he has fallen. Now, I must find his murderer, and I will crush him."

After finishing speaking, Lord Silver Horn led a team of more than 10,000 demons behind him and began to quickly sweep around the Demon Ruins.

Lord Golden Horn frowned when he saw Lord Silver Horn doing this, and then said aloud: "Then you go find the culprit who killed the third brother. I will first find this Demonic Ruin based on the map in my hand. The place where the big secret is hidden."

"good."

When Lord Silver Horn heard what his elder brother said, he immediately nodded and said: "Brother, you first go to find the core base camp of the Golden Burning Ancient Demon Clan. I hope you can find the Golden Burning Ancient Demon Clan as you wish. It took countless years to forge the golden city. If we find it, it will no longer be a dream for us two brothers to dominate the entire Demonic Realm in the southwest. It may even develop further. Maybe the two of us can directly join us. In the territory, from senior lord to demon lord above senior lord, it will be no problem to compete with some demon dynasties around here. "

"That's right."

Lord Golden Horn couldn't help but nodded at this time, with a hint of excitement in his eyes, and said loudly: "In the Golden City, there is contained all the wealth of the Golden Burning Ancient Demon Clan, and there is also the legendary The army of gold-burning ancient demons left by the golden-burning ancient demons is in the hundreds of thousands. If we can get it, we will instantly have an army of hundreds of thousands of golden-burning ancient demons. When the time comes,

we will burn these hundreds of thousands of gold-burning ancient demons. The ancient demon army has all resurrected, and we can really dominate this southwest land, not to mention competing with the dynasty or the empire, but we can definitely compete with a demon dynasty-level force. "

When Lord Silver Horn said this, his eyes were full of excitement, as if he felt that he was about to stand at the pinnacle of the southwest land of the Demon Realm.

But the next moment, a trace of anger flashed across his eyes, and he said: "Originally, the third brother could have enjoyed this kind of glory, wealth and superiority with us, but the third brother suddenly fell. , I must find the culprit who killed my third brother and crush him to pieces."

After finishing speaking, Lord Silver Horn led his demon team of more than 10,000 people and headed directly towards the surroundings to quickly search, trying to find the culprit of the one-horned demon lord who was killed.

At this time, the Golden Horn Lord was leading his own demon team of ten to twenty thousand people, heading towards the depths of the Demon Ruins, hoping to find as soon as possible the place where the Golden Burning Ancient Demon Clan was. The remaining base camp is the Golden City.

It was a very special base camp, with the countless wealth of the Golden Burning Ancient Demon clan and hundreds of thousands of sleeping Golden Ancient Demon troops.

Beyond that, the City of Gold itself is a

The mobile war fortress is easy to defend and difficult to attack. It is very precious and absolutely priceless.

...

Next, Lord Silver Horn led his army of more than 10,000 demons and conducted an absolutely mighty search around the Demon Ruins. He did not appear to be keeping a low profile at all.

Because for Lord Silver Horn, in a remote place like the Demon Ruins, he has an army of more than 10,000 demons, and his own strength is also a powerful existence at the Naling Realm level above the Kaishen Realm. He is not afraid that there are any low-level lords or mid-level lords in this remote place who can resist him.

Because the overall strength of Lord Silver Horn is already comparable to that of senior lords.

So he felt that he was absolutely invincible in this remote place, and he didn't need to worry about anything at all.

Lord Silver Horn has a special ability. He can smell where the breath of the one-horned demon lord has dispersed after his death.

After all, they both have the blood of the ancient one-horned demon flowing in their bodies, so they can sense each other's breath.

Soon, Lord Silver Horn led his mighty demon army, following the death aura after the death of the One-horned Demon Lord, to a very remote and desolate place around the Demon Ruins.

There is no life here, everything is dilapidated.

But Lord Silver Horn suddenly saw that a huge territorial base camp was being established here.

A majestic and boundless black hall has been erected, and there are still people setting up formations.

Seeing this scene, Lord Silver Horn's eyes immediately moved, "I didn't expect such a mysterious territory to be hidden here."

When he said this, Lord Silver Horn's expression suddenly changed.

Because he saw that during the construction of this territory, those running errands were the flying demons that he and his eldest brother had captured for the third brother, the one-horned demon lord.

"They were definitely the ones who killed the third brother! They also plundered thousands of flying demons under the third brother's command! How abominable!"

At this moment, Lord Silver Horn immediately showed deep anger in his eyes, and with his army of more than 10,000 demons, he flew high into the sky in an instant, attacking the mysterious territory under construction not far away. , and were immediately surrounded.

This is the territory that Lord Silver Horn found at this time. Naturally, it is the territory established by Ye Feng and Shang.

"what's the situation?"

"Why are we suddenly surrounded?"

At this moment, Ye Feng and Shang never expected that so many demonic armies would suddenly surround the base camp they were building.

The next moment, Shang seemed to see something and couldn't help but exclaimed: "Little Yezi, we think we are in trouble. That demon with a silver horn on his head is probably a high-ranking lord. His cultivation and aura are too high." Powerful, and also controls more than 10,000 demonic armies, and is estimated to be as powerful as

It has something to do with the one-horned demon lord we killed before. They all had horns on their heads. It was just a black horn. This one is a silver horn. "

Hearing what Shang said, Ye Feng also showed a hint of surprise in his eyes.

I didn't expect that the one-horned demon lord had such a powerful being behind him.

Ye Feng also felt a very powerful cultivation aura from this Silver Horn Lord at this moment.

That is exactly the cultivation level of the Naling Realm above the Kaishen Realm!

But Ye Feng is not too afraid.

Although the fighting strength of these demons in the Demon Realm is very strong, their own fighting power is even stronger!

In particular, Ye Feng has now obtained two very powerful demon inheritances from the tombs in the Demon Ruin Land, the Destroying Demonic Light Wave and the Dark Holy Spirit Dharma, both of which allow Ye Feng to burst out with earth-shattering power.

As for the more than 10,000 demon army behind the Silver Horn Lord, it is still quite threatening. After all, the number is too much.

Once these demonic armies all swarm up, they will definitely have a huge impact on the territorial base camp they have just established.

After all, Ye Feng knew that the base camp they had just established had not yet set up a defensive formation, and the materials used were not very strong. A casual impact would probably completely destroy it.

Thinking of this, Ye Feng immediately looked at Shang beside him and said loudly: "Shang, just lead thousands of flying demons in the rear to firmly guard our base camp. Leave the rest to me. "

When Shang heard what Ye Feng said, he couldn't help but said in surprise: "Little Ye Zi, are you sure you can do it alone?"

Ye Feng smiled slightly, gave Shang a reassuring look, and then jumped directly into the sky, facing Lord Silver Horn and the demon army of more than 10,000 people behind him alone.

Ye Feng stared at the Silver-Horned Lord at this moment and said slowly: "We didn't kill the one-horned demon lord casually and deliberately. He provoked us first."

Lord Silver Horn looked very gloomy at this moment. He stared at Ye Feng and said loudly: "That is my third brother. No matter if he provoked you first or under any other circumstances, you should not kill him." , if you kill him, you will have to pay a huge price."

When Ye Feng heard the arrogant and unreasonable words of Lord Silver Horn, his face turned cold for a moment, and he said, "Are you sure you are qualified to tell me about bearing the price?"

"Hahaha!"

Lord Silver Horn burst out laughing at this moment, and then a sarcastic smile suddenly appeared on his face, and he said loudly: "Boy, who are you? A weak low-level person who has opened the sixth level of the God Realm. Lord, you dare to say such arrogant words to a senior lord like me? I think you are impatient! I will kill you first, and then kill your subordinates and your friends. All of them will be crushed to death, and let them know what will happen if they offend our three brothers? Let them endure endless despair!"

"Yin Demon Knife!"

Lord Silver Horn suddenly had something in his hand.

A long black knife appeared, exuding an extremely strong evil aura. It flashed in front of Ye Feng in an instant. The light of the knife was like lightning, and it was about to split Ye Feng's whole body in half.

Buzz!

The next moment, Ye Feng disappeared on the spot, leaving the Silver Horn Lord's sword to kill everything.

"Huh? So fast?"

When Lord Silver Horn saw this scene, his eyes suddenly showed surprise. He couldn't help but look around and found that Ye Feng had disappeared.

"Does your kid have a space magic weapon on his body?" Lord Silver Horn suddenly showed a trace of surprise in his eyes.

"boom!"

And the moment Lord Silver Horn finished speaking, suddenly there was a fluctuation in the void behind him on his left.

One of Ye Feng's fists has been punched out!

This fist is a big purple fist. It is obvious that Ye Feng has activated the power of Hongmeng's true body at this moment, directly bursting out the most powerful destructive power of Hongmeng's immortal body, and also integrated the brute force gem into his fist. .

Ye Feng was hiding in the void and naturally wanted to give the Silver Horn Lord a fatal attack damage.

"Flying Scorpion Demon Slash!"

Lord Silver Horn is a powerful being in the tenth level of the Naling Realm, above the Kai Shen Realm, and his cultivation and reflexes are also very powerful.

At this moment, the moment after Ye Feng's big purple fist came out, he held the Yin Demon Sword in his hand and had already displayed an extremely powerful inheritance of demon sword skills.

Flying Scorpion Demon Kill!

In an instant, the Yin Demon Sword in Lord Silver Horn's hand slashed out. In the light of the sword, a huge black scorpion with wings appeared, and it instantly collided with Ye Feng's big purple fist. .

Boom! !

Suddenly, a horrifying roar sounded on the field, causing many weak demons around them to tremble and bleed from their eardrums.

"Click, click..."

And at the next moment, what shocked the originally confident Silver Horn Lord to the extreme was that the black scorpion manifested by the sword skill inheritance he displayed was directly blasted into pieces by Ye Feng's big purple fist. Crush.

Then the big purple fist seemed to have infinite crushing power and continued to bombard the void, shattering the Yin Demon Sword in his hand into pieces.

Then the big purple fist continued to hit Lord Silver Horn's chest, and a terrifying and majestic power burst out. Lord Silver Horn's entire tall body was directly blasted away into the distance, and there was a "bang" sound, and the collision. A large piece of land was broken into pieces and was buried in the ruins. It was unknown whether he was dead or alive.

"What?!"

"Lord Silver Horn is a noble high-ranking lord. A super-powerful man who has perfected the tenth level of the Naling Realm was actually punched away by a low-level lord who opened the God Realm?"

"This is impossible! I must be dazzled!"

At this moment, the demon army brought by more than 10,000 Silver Horn Lords around them were all shocked and horrified to the extreme!

Chapter 3542 Tracking

quiet!

Deadly quiet!

All the demon army teams present did not expect that the Silver Horn Lord, whom they thought was extremely powerful, would be defeated by a small low-level lord.

After all, the cultivation level of this low-level lord is only about the sixth level of Kaishen Realm.

It is a whole level lower than the tenth level of Naling Realm, Great Perfection, possessed by their Lord Silver Horn, or even more.

But he was still punched away by this young demon in white clothes. He was really shocked to the extreme. This kind of power was simply unbelievable.

Boom!

At this moment, among the ruins not far away, Lord Silver Horn suddenly emerged from the ground, his whole body was extremely embarrassed, and the armor on his chest had been deeply dented.

At this time, a trace of blood overflowed from the corner of Lord Silver Horn's mouth, looking very miserable.

Lord Yinjiao stared at Ye Feng and couldn't help but said in disbelief: "You are a small boy who is only at the sixth level of the God Realm. You are just a low-level lord. Why do you have such a strong combat power? Able to fight directly across a large realm? "

Ye Feng was naturally too lazy to explain anything at this moment. He just smiled indifferently and said, "I think I don't need to answer your question now, because you are going to die soon."

Boom!

The moment Ye Feng's words fell, Ye Feng didn't hesitate at all. He directly burst out with terrifying power and charged towards the Silver Horn Lord.

Ye Feng knew very well that this Silver Horn Lord must not stay as he would be a huge trouble.

So at this moment, Ye Feng crazily activated the power of Hongmeng's immortal body, and then his whole body directly turned into a little purple giant. Under the shocked eyes of countless surrounding demons, Ye Feng turned into a little purple giant. , simply possessing the power of an ancient demon, crazily beating the Silver Horn Lord to pieces in their eyes.

It was like kicking a ball, beating and attacking crazily at high altitude. In the end, Lord Silver Horn was killed by Ye Feng's violent power, and his huge body fell to the ground, smashed to pieces. A large area of land.

This time, Lord Silverhorn could no longer rise from the ruins.

Because Lord Silver Horn's vitality had been completely wiped out by Ye Feng.

At this moment, Ye Feng's incomparable fighting power made the tens of thousands of Silver Horn Lords' demon team present widen their eyes, and they didn't know what to do for a moment.

At this time, when Ye Feng looked at the extremely miserable Lord Silver Horn who was beaten to pieces by himself, he couldn't help but show a trace of surprise in his eyes.

Even Ye Feng himself didn't think about it

To the extent that now he actually possesses such a powerful force, he can actually defeat such a powerful person.

However, Ye Feng knew very well that being able to win and kill this powerful enemy this time largely relied on his extremely powerful physique.

His own Hongmeng Immortal Body underwent a huge transformation after coming to the Demon Realm, which is why Ye Feng has such a powerful combat power.

After all, the power of Hongmeng's true body is constantly improving following the level transformation of Hongmeng's immortal body.

The higher the level of the Hongmeng Immortal Body, the more powerful and terrifying the destructive power Ye Feng will become when using the Hongmeng True Body.

At this time, Ye Feng suddenly looked at the army of more than 10,000 demons not far away, with a ferocious look in his eyes, and said loudly: "Submit to me, and I will spare your life."

"We will not surrender to your enemy! We still have Lord Golden Horn!"

After saying that, this group of demons flew quickly towards the distance and disappeared in the blink of an eye.

Shang came to Ye Feng's side at this time and couldn't help but ask: "Little Ye Zi, let's hunt down this group together."

Ye Feng shook his head at this time and said aloud: "If there is a melee among more than 10,000 demonic teams at the God level, they will destroy all the territorial base camp we have worked so

hard to build. , so I did not take action against them directly, and I let them escape on their own. Another important reason is that I wanted to track them to see what the two lords were doing here. "

"It's definitely a bit strange."

Shang nodded thoughtfully and said aloud: "Whether it's the Silver-horned Lord that you just killed, Xiaoye, or the Golden-horned Lord that this group of demon army just mentioned, they must be extremely powerful. The powerful senior lords must have something special to do when they come here, otherwise it would be impossible for them to lead so many demonic armies and easily leave their territory and come here. After all, our place is still a very remote place."

Hearing Shang's speculation, Ye Feng seemed to have thought of something, and immediately nodded with bright eyes, and said loudly: "I guess they are looking for some very special resources in the Demon Ruins, otherwise it would be impossible to travel thousands of miles away." We have come all the way here to such a remote place because we rarely see high-ranking lords here."

"That's right, maybe there will be a great opportunity in the land of searching for the Demon Ruins."

Shang said excitedly: "But having said that, Xiao Yezi, your current fighting power is really terrifying, it makes me feel very..."

I'm amazed, the Silver Horn Lord's strength just now was still very terrifying. I thought it was over now. The newly established territory was about to be completely destroyed. We wanted to escape, but I didn't expect that Xiao Yezi would kill you in just a few clicks. He killed it, it was really powerful. "

Ye Feng smiled at this time and said aloud: "This Silver Horn Lord is actually very powerful in cultivation. The main reason is that he may not realize that my body is very powerful. At that moment, I was absolutely The suppression of the power of my body caught him off guard, and then killed him. If this Silver Horn Lord reacted, he would stay away from the power of my body and only use some of the power of the demons from a distance. If it is inherited, it may not be possible to kill it."

When Shang heard what Ye Feng said, he immediately showed surprise in his eyes, stared at Ye Feng's whole body, and then said aloud: "Sometimes I really doubt that your kid is not human at all. Ever since I met him back then, When you were here, your physical power was very powerful, more powerful than any other means you had. Moreover, it was only powerful in the low-level cultivation world we encountered back then, but in such a high-level demonic land, , it's really unbelievable

that the power of your body can still sweep across the entire field. Little Yezi, honestly speaking, what is your identity? It can't be as simple as the prince of a small place."

Ye Feng smiled at this time and said aloud: "Now I have to hurry up and chase the escaped demon army to see what they are looking for in the Demon Ruins. The aftermath work here will be left to me. I'm sorry to you, but I will tell you my true identity when I have time." .??.

After saying that, Ye Feng directly released the Devouring Domain and began to devour the blood and energy of the Silver Horn Lord he had just killed.

The bloodline of this silver-horned lord is the same as the bloodline of the one-horned demon lord that Ye Feng swallowed before. They are both the bloodline of the ancient one-horned demon god. Therefore, after Ye Feng swallowed this silver-horned lord, his Hongmeng Bloodline has not been improved.

Because of the same bloodline power, Ye Feng's Hongmeng bloodline has no effect after it has been improved.

Therefore, if Ye Feng wants to improve his Hongmeng bloodline as soon as possible and make his Hongmeng Immortal Body gradually become more and more powerful, he must look for different types of advanced bloodlines.

At this moment, with Ye Feng's devouring, Ye Feng's skill suddenly increased tremendously.

This time Ye Feng can be said to have better luck. He directly suppressed the Silver-horned Lord with the power of his body, leaving him no chance to perform at all, so he used his extremely powerful body to beat the Silver-horned Lord to death. .

It has to be said that the skill of this Silver Horn Lord is still very powerful. After all, he is an existence at the Great Perfection level of the tenth level of the Naling Realm above the Kai Shen Realm, which is almost comparable to the cultivation level of a senior lord.

At this time, after Ye Feng devoured it, his cultivation immediately experienced a breakthrough.

"boom!"

Open the Seventh Heaven of God Realm!

"boom!"

Open the eighth level of the divine realm!

"boom!"

Open the Nine Heavens of God Realm!

At this moment, Ye Feng's cultivation stopped.

Ye Feng could feel that his skill and combat effectiveness had been greatly improved in an instant.

But it is a pity that the bloodline of this Silver-horned Lord is the same as the bloodline of the One-horned Demon Lord that he swallowed before, so there is no way to repeatedly upgrade his Hongmeng bloodline level.

Uh-huh!

At this time, Ye Feng had finished devouring it. Not wanting to waste any time, he immediately chased after the more than 10,000 demon army in the direction of their escape.

At this time, Shang continued to build their territorial base camp.

Ye Feng possesses the space gem, so he is very fast.

And at the moment when the group of more than 10,000 demons left, Ye Feng marked their aura alone.

So at this time, Ye Feng followed the aura and soon caught up with this group of more than 10,000 demons.

Buzz!

"That is....."

At this moment, Ye Feng was lurking in the void, looking in the direction not far away, with shock in his eyes.

Ye Feng immediately saw that this group of demon armies quickly arrived at a very deep area in the Demon Ruins. Here, Ye Feng saw more than 10,000 demon armies stationed there. .

In other words, the two lords, Silver Horn Lord and Golden Horn Lord, brought a total of more than 20,000 demon troops, which was very terrifying.

Moreover, Ye Feng sensed a very vast and boundless cultivation aura from the deeper area ahead.

That is a cultivation level that is even more terrifying than that of Lord Silver Horn. He is definitely a super strong person at the level of the Out-of-body Realm above the Naling Realm!

A strong person at the out-of-body level is definitely the best among the senior lords of the Demon Realm!

Even Ye Feng felt a suffocating feeling.

Ye Feng immediately understood that even if his cultivation had reached the ninth level of the Kaishen Realm, he would probably not be able to match a powerful enemy that was two realms higher than himself.

So at this time, Ye Feng did not act rashly, but lurked in the dark to see what the Golden Horn Lord, who had the terrifying cultivation of the out-of-body realm, wanted to find in the depths of the Demonic Ruins.

Chapter 3543 Token of Fire

For the current Ye Feng, if he takes action rashly, he will definitely be attacked by the Golden Horn Lord and so many demonic troops.

So Ye Feng is now lurking in the dark, which can be said to be the best choice.

Ye Feng was very curious as to what these two powerful senior lords were looking for when they came here.

Because according to what Shang said, the resources hidden in this Demonic Ruin Land are very ordinary resources. .???.??

After all, this is just a very remote resource point, and no big influence would be willing to come here.

But this time, two such powerful senior lords suddenly came over, so Ye Feng judged that what they were looking for was definitely extraordinary.

Ye Feng was also a little scared at this time. If he hadn't been here this time, Shang and his territory would have been destroyed by these high-ranking lords.

At this moment, Ye Feng was lurking in the void, slowly approaching that place.

He saw that after the more than 10,000 demon army that escaped and the more than 10,000 demon army stationed here merged, they should have reported the situation, which caused a stir.

But soon the restlessness calmed down.

Ye Feng saw that at this moment, there was indeed a tall demon with a golden horn on his head standing at the front of the demon team, which totaled nearly 20,000 people.

This demon looks very towering and majestic, and the aura exuding from it is exactly the powerful aura of cultivation at the level of the out-of-body realm above the Naling Realm that Ye Feng had noticed before. It is much stronger than the previous Silver Horn Lord. a lot of.

Therefore, Ye Feng naturally cannot act rashly now.

At this moment, Ye Feng looked into the distance in the void, and immediately saw a dark golden token that looked very ancient and mysterious appeared in the hands of the Golden Horn Lord, and then he threw it directly forward.

brush!

Almost at this moment, the dark golden token suddenly turned into a golden light, and was directly imprinted on a huge mountain in front of it.

Then the entire mountain immediately "rumbled" and made a huge shaking sound.

The entire mountain began to split into two, and a huge passage appeared in the middle.

Then Ye Feng saw that the Golden Horn Lord walked directly into this passage with an army of more than 20,000 demons.

When Ye Feng saw this scene, he immediately used the power of the space gem and quickly chased towards that place.

Fortunately, a huge passage appeared in the middle of the mountain and did not close. The passage was still open.

So the next moment, Ye Fengguo easily lurked in.

Ye Feng discovered that space gems seemed to be very useful in the Demon Realm.

Because there are very few demons with spatial attributes in the Demon Realm.

Therefore, even if there were more than 20,000 demons in front of him, and there was even a Golden Horn Lord with an extremely powerful cultivation level at the out-of-body realm, they could not find Ye Feng hiding in the void behind him.

Lord Golden Horn seems to be very enthusiastic about the things in this passage at this time, so he has no time to pay attention to the things behind him.

He did not carefully sense the movement behind him, but quickly flew inside with more than 20,000 troops.

Of course, this Golden Horn Lord does not have the talent of space attributes. Even if he senses carefully, he probably cannot sense Ye Feng hidden in the void.

After all, the space gem is the legendary master gem. As Ye Feng's cultivation improves, more and more space gems are developed, and the effect of the space gem will naturally become greater and greater.

At this moment, Lord Golden Horn was rushing forward with an army of more than 20,000 demons, with Ye Feng following closely behind.

Soon, they had penetrated deep into the innermost area of the passage.

Ye Feng's eyes were very surprised at this time, and he guessed in his heart that there must be a small world-like space hidden in this mountain, otherwise the space inside could not be so big.

Buzz!

At this time, suddenly the Golden Horn Lord in front stopped with an army of more than 20,000 demons.

When Ye Feng saw this scene, he quickly stopped in the void behind him.

"That is....."

At this moment, Ye Feng curiously looked forward and saw a very shocking scene.

I saw a broken starry sky not far ahead, with countless star fragments surrounding and floating.

In this starry sky, there is a huge and towering golden city suspended.

This golden city is entirely made of gold. It is very majestic and vast, and seems to be full of infinite nobility and supreme ancient aura.

Moreover, Ye Feng also saw an army of hundreds of thousands sleeping in this huge golden city.

These armies are a very ancient demon called the Golden Burning Ancient Demon.

Because Ye Feng had encountered this kind of demon when he was practicing in a world, he immediately recognized this type of demon.

The Golden Burning Ancient Demon is a very special kind of demon with a very ancient history. This demon is very tall and has golden flames burning all over its body, so it is called the Golden Burning Ancient Demon.

It is said that this demon was born in the Hell of Fire among the eighteen levels of hell. The golden flame burning on its body is the fire of hell, so it is called the Golden Burning Ancient Demon by the world.

This kind of ancient demon is very powerful, has tenacious vitality, and is very powerful in combat. It is a very advanced demon race.

Ye Feng never thought that there would be a sleeping place of the Golden Burning Ancient Demon here.

Looking at the majestic golden city, Ye Feng finally understood at this time that several high-ranking lords such as Lord Golden Horn came here with so many armies just to find gold and burn the ancient demon.

At this moment, Emperor Chu suddenly said in his mind: "This is the legendary golden city? This is the core base camp forged by the golden burning ancient demon clan. The city itself is a very precious Treasure, the whole golden

In the city, countless special formations among the demon clan are imprinted. It is an out-and-out war fortress, which can be retreated and defended, and advanced or attacked. "

Hearing what Emperor Chu said in his mind, Ye Feng suddenly showed a hint of excitement on his face.

For Emperor Chu to take the initiative to introduce it, it must be something very powerful and ancient.

Moreover, Ye Feng has now established his own territory and urgently needs a powerful base camp.

Although Shang and thousands of flying demons also built a hall, it was just an ordinary hall. If it was attacked by some demon armies, it would easily collapse. ??

If he could obtain this golden city cast by the Golden Burning Ancient Demon Clan back then, it would have a huge impact on the territory he had just established.

Thinking of this, Ye Feng stared at the golden city floating in the broken starry sky not far away, and his eyes suddenly showed a deep burning color.

Buzz!

At this moment, Ye Feng slowly lurked forward in the void, preparing to seize the golden city.

However, Ye Feng has not taken action now, because the extremely powerful Golden Horn Lord in the out-of-body realm is still very powerful and poses a great threat to Ye Feng now.

Ye Feng felt that with his current fighting power, he might not be able to defeat this Golden Horn Lord.

Besides, Ye Feng felt that this golden city would definitely not be easy to obtain.

After all, there is an army of hundreds of thousands of gold-burning ancient demons sleeping inside.

Once they are awakened, it will be a devastating disaster.

So at this time, Ye Feng thought carefully and decided to wait and see again, first to take a look at the movements of the Golden Horn Lord and the more than 20,000 demon army.

At this moment, while Ye Feng was observing, Lord Golden Horn suddenly fumbled for a golden token from his storage ring.

This golden token is engraved with an ancient word "fire", which is the character of the demon clan. It seems to have a historical charm of endless years.

Buzz!

At this moment, Lord Golden Horn input some of his demon power into the fire token in his hand. Suddenly, the fire token burned into a ball of golden flames.

Uh-huh!

At this moment, Lord Golden Horn held the fire token in his hand and flew directly towards the golden city in the broken starry sky above. He laughed out loud and said, "Soon, the entire golden ancient demon clan will be in the golden city." It belongs to me. When the time comes, I will be invincible, and I can control hundreds of thousands of gold-burning ancient demons. Whoever dares to stop me, I will be able to sweep everything."

Poof!

But just when the Golden Horn Lord flew into the air, there was a sudden fluctuation in the void, and a very sharp space crack suddenly appeared in front of the Golden Horn Lord, trying to cut the entire Golden Horn Lord. In half.

"What?!"

Lord Golden Horn sensed this huge crisis in an instant

.

He was worthy of being a powerful being at the out-of-body level. He quickly moved to the left and changed his direction.

But in the end, he was still a step too slow. Before he could change direction, one of his hands was cut off by the sudden space crack in front of him.

"ah!"

Lord Golden Horn immediately let out a huge scream.

The hand he cut off was the palm holding the fire token.

At this moment, the hand that was cut off, still holding the token of fire, fell from the sky.

Then suddenly there was a fluctuation in the void below, and Ye Feng's figure appeared, just in time to catch the Fire Token.

"you....."

Lord Golden Horn looked at Ye Feng who appeared not far away, his eyes filled with deep shock and anger, and he yelled angrily: "Who is your kid? You've been hiding in the dark all this time!"

Ye Feng smiled slightly at this time and said aloud: "Originally, I was very afraid of the hundreds of thousands of gold-burning ancient demons sleeping in the Golden City. I didn't expect that the Fire Token in your hand could control the entire Golden City. City and hundreds of thousands of gold to burn the ancient demon army, then I don't have to hesitate anymore."

Originally, Ye Feng wanted to observe more in secret, but when he saw that the Golden Horn Lord suddenly took out an ancient fire token, which seemed to be able to directly command and control the entire Golden City, Ye Feng naturally couldn't bear it. After stopping, he immediately released a space crack. He wanted to take advantage of the opportunity when the Golden Horn Lord was unaware of his attack, and instantly cut the Golden Horn Lord into half and kill him directly.

But what makes Ye Feng feel a little pity is that the Golden Horn Lord is indeed a powerful existence at the level of the out-of-body realm, so he escaped the attack of the space crack that Ye Feng suddenly attacked and only cut off one hand.

But this is enough

Because at this moment, the Token of Fire is already in Ye Feng's own hands.

It can be said that Ye Feng now directly takes the initiative.

Uh-huh!

At this moment, Ye Feng did not directly confront the super powerful Lord Jinjiao, but rushed towards the Golden City in an instant to control the entire Golden City.

Because as long as Ye Feng can control the entire golden city and revive an army of hundreds of thousands of gold-burning ancient demons, then all enemies present will be crushed by him.

At this moment, it seems that he saw Ye Feng's intention, and the Golden Horn Lord immediately yelled: "Damn little bastard, I won't let you succeed!"

Boom!

Almost at this moment, Lord Golden Horn's entire body suddenly expanded and turned into a huge golden rhinoceros, full of terrifying power, tens of thousands of meters tall, straddling the middle of the Golden City and Ye Feng, blocking Ye Feng's path entirely.

The golden giant rhinoceros transformed by Lord Golden Horn at this time was tens of thousands of meters tall. Its red-gold eyes as big as the sun burned with terrifying demonic flames. It stared at the little Ye Feng in front of him and let out a cruel The voice reached the extreme: "Damn little bastard, I will crush you completely!"

Chapter 3544 Run away quickly

For Ye Feng, now that he has obtained the Fire Token, he has taken the initiative.

As long as Ye Feng can get close to the Golden City and enter the Golden City, he can instantly wake up the sleeping army of hundreds of thousands of gold-burning ancient demons.

By then, Ye Feng can be said to be able to sweep everything.

But at this time, it was naturally impossible for Lord Golden Horn to let Ye Feng succeed.

Buzz!

At this moment, the Golden Horn Lord directly traversed the middle of the Golden City and Ye Feng, turning into a huge golden rhino that was tens of thousands of meters tall and majestic.

Obviously, the body of this golden dragon lord is the ancient golden-horned rhinoceros demon clan, which is very powerful. .??.

At this time, Lord Golden Horn immediately used the power of his huge and majestic body to attack directly in the direction of Ye Feng, like an ancient mountain cap pressing down, trying to crush Ye Feng instantly.

Ye Feng did not hesitate at this moment. Facing such a powerful existence, Ye Feng naturally burst out his most terrifying power in an instant.

At this moment, Ye Feng directly activated the power of Hongmeng's immortal body with all his strength.

The next moment, Ye Feng began to expand rapidly, directly expanding into a purple giant with a length of several kilometers.

Although the purple giant several thousand meters high is also very towering and majestic, it still looks very small in front of the huge golden rhinoceros tens of thousands of meters high.

After all, the difference is ten times the size!

But Ye Feng's eyes didn't have any fear at all at this time, but were filled with a deep will to fight.

At this moment, Ye Feng immediately rushed forward, waved his purple fist, and collided with the huge golden rhinoceros.

Boom! !

Ye Feng's fist collided with the horn of this huge rhinoceros, and a huge and terrifying roar suddenly erupted.

The terrifying sound wave shook many star fragments floating around into powder.

This shows how terrifying this attack is.

There were more than 20,000 other demon army troops around who wanted to come up to help, but now that they saw this scene, they all retreated towards the rear, their eyes full of horror.

Although the cultivation aura on Ye Feng's body is only the ninth level of the Kai Shen Realm, at this moment, it can actually challenge the body that the Golden Horn Lord has transformed into, which is really terrifying to the extreme.

At this moment, Lord Golden Horn turned into a huge golden rhinoceros and immediately couldn't help shouting: "How is it possible! How can you, a boy who is two levels lower than me in cultivation, have such physical strength?" So powerful, what kind of demon are you? Are you a descendant of some ancient demon clan? Otherwise, you wouldn't have such powerful power!"

At this time, Ye Feng didn't care how shocked the Golden Horn Lord was by the power of his body.

At this moment, Ye Feng is just quickly stimulating

The power of Hongmeng's immortal body continued to bombard the huge golden rhinoceros in front of him.

Because Ye Feng is now very eager to enter the scope of the Golden City. In that case, he can use the Fire Token in his hand to control the entire Golden City.

Then I won't have to fear any enemies.

But now the Golden Horn Lord has turned into a huge golden rhinoceros, blocking here, making it difficult for Ye Feng to move at all.

At this time, Ye Feng naturally released the most powerful force, trying to make it retreat.

At this moment, Ye Feng not only activated the second talent of Hongmeng Immortal Body, Hongmeng True Body, but also integrated the brute force gem into his fists.

Therefore, Ye Feng's brute force at this moment is naturally very huge, with overwhelming power, and he can go head-to-head with the Golden Horn Lord, who is two realms higher than himself.

"Boom!"

At this time, the two men suddenly broke out in extremely terrifying battle fluctuations at high altitude.

The golden rhinoceros is covered in golden light, like the ancient golden holy spirit.

Ye Feng, on the other hand, exudes the aura of Hongmeng, giving the impression that he is a descendant of a god who came out of the primitive chaos, and also has boundless power.

The battle between the two literally shattered all the surrounding buildings.

However, the Golden City still stands in the broken starry sky, looking majestic and motionless, like an eternal monument, and it is basically an immortal existence.

Suddenly, at this moment, Ye Feng seized the opportunity and suddenly displayed the power of the space gem.

Buzz!

Ye Feng instantly opened up a space wormhole and teleported directly to the edge of the golden city ahead.

"not good!"

Seeing this scene, the golden rhinoceros transformed by the Golden Horn Lord suddenly had a bad look in his eyes.

He knew very well that if Ye Feng could not approach the Golden City and control the army of gold-burning ancient demons in the Golden City, then he would still have a chance to kill Ye Feng, this hateful boy.

But now if Ye Feng can really control the entire Golden City, then the Golden Horn Lord knows that he has lost any hope.

It is estimated that he will be crushed by Ye Feng in an instant.

After all, no matter how confident the Golden Horn Lord is, it is impossible to withstand the power of the hundreds of thousands of gold-burning ancient demons in the Golden City.

So at this moment, Lord Golden Horn immediately performed a terrifying secret technique that burned his own life.

"Golden Holy Four Seal!!!"

The Golden Horn Lord roared loudly at this moment.

It was the terrifying inheritance power that exploded.

boom!

His body suddenly bloomed with bright and boundless golden light, and then condensed four different mysterious marks, forming the shape of a pagoda, and directly suppressed Ye Feng, wanting to give Ye Feng Forced to leave the Golden City.

"What a terrifying destructive power!"

At this moment, Ye Feng could immediately feel a terrifying and boundless destructive power from the Golden Saint Four Seals, as if it could directly destroy his own body.

But Ye Feng also knew very well at this moment that if he wanted to get close to the Golden City, this was his last chance.

If he is forced to retreat again, Ye Feng's power will be exhausted and he will end up disastrous.

So at this moment, Ye Feng's eyes suddenly showed a hint of cruelty and madness. .??.

The next moment, what horrified all the demons present was that Ye Feng did not avoid the Golden Holy Four Seals displayed by the Golden Horn Lord, but went straight towards him, as if he wanted to hit Jin Jiao head-on. Holy Four Seals.

Seeing this scene, the Golden Horn Lord not far away suddenly showed a deep mocking look in his eyes, and couldn't help but said: "Boy, no matter how powerful your body is, you can't fight against me. The Four Seals of the Golden Saint, this is the most powerful inheritance that I have practiced for countless years. It is the inheritance of the Golden Saint and Demon Lord that I obtained from an ancient ruins. Your body will definitely be destroyed in an instant. Yes, hahaha."

At this time, it was obvious that Lord Golden Horn was very confident in this inheritance.

Because this is his most powerful ancient inheritance.

The next moment, when Ye Feng's body was about to approach the Golden Saint Four Seals, Ye Feng's entire body indeed began to disintegrate inch by inch.

Ye Feng suddenly felt huge pain.

Even if the brute force gem is integrated into the body, it cannot resist such a powerful inheritance power.

Seeing this scene, the Golden Horn Lord not far away immediately laughed out loud: "Boy, you are going to die soon. You are so stupid. You dare to use the power of your own body to compete with my Golden Saint Four Seal." Such a powerful inheritance is impossible!"

At this moment, Ye Feng felt a little chilly in his heart.

This Golden Horn Lord is truly worthy of being an incomparably powerful out-of-body level super strong man, and the demon inheritance he unleashes is truly terrifying.

So at this moment, Ye Feng no longer hesitated and directly used his strongest trump card, the Gate of Heaven!

Boom!

Behind Ye Feng, an extremely ancient door suddenly appeared, filled with an endless aura of nobility.

It is the gate of heaven!

The Gate of Heaven can restrain any dark attributes in the entire demonic realm.

The power, including the inheritance exerted by these demons.

So at this moment, Ye Feng was protected by the Gate of Heaven, and a bright and boundless power of light bloomed from his whole body, illuminating the entire dim and broken starry sky in an instant, and actually directly resisted the power of the Golden Saint Four Seals. .

"What?!"

When Lord Golden Horn saw this scene, his eyes immediately widened with a look of deep disbelief in his eyes. He couldn't help shouting like crazy: "Who are you, kid? How can you use us?" The opposite power of light in the Demon Realm! This is impossible! How can a demon cast a light-attribute magic weapon, and how can this light-attribute magic weapon be so advanced that it can resist the use of a powerful person who is two realms higher than you? Come out with the inheritance!"

At this moment, Lord Golden Horn's originally triumphant face suddenly became stiff, and he became very shocked, shocked, and unbelievable.

At this moment, Ye Feng had no time to talk nonsense with the Golden Horn Lord. With the help of the Gate of Heaven to fight against the Four Seals of the Golden Saint, Ye Feng directly entered the Golden City in a flash.

Buzz!

Almost at this moment, the Fire Token in Ye Feng's hand sensed the aura of the Golden City, and immediately bloomed with bright and boundless flames, covering the entire Golden City.

Then Ye Feng immediately saw an incredible scene.

The fire token in his hand turned into a mark like a flame totem, imprinted on his eyebrows, making Ye Feng feel like he had become a flame emperor at this moment.

And when the fire token turned into a flame totem mark and appeared between Ye Feng's eyebrows, Ye Feng suddenly felt that he could control the entire golden city.

Moreover, the eyes of the hundreds of thousands of gold-burning ancient demons sleeping in the Golden City suddenly opened at this moment!

Each pair of eyes was burning with golden flames, and hundreds of thousands of eyes lit up in the darkness!

This scene is very visually impactful!

Heart-stopping!

The terrifying ancient aura emanated from the Golden City in an instant.

At this time, the Golden Horn Lord not far away saw this scene and immediately shouted in horror: "Run away!!"

Wow!

Almost at this moment, the Golden Horn Lord led his team of more than 20,000 demons and fled quickly towards the distance in an instant.

At this moment, Ye Feng was suspended in the golden city.

Behind the hundreds of thousands of gold, the ancient demon burned, slowly waking up in the darkness.

Ye Feng smiled coldly and lowly at this moment, as if the dark devil was judging him, and said loudly: "Lord Golden Horn, you can't escape."

Chapter 3545 Priceless

Buzz!

At this moment, the moment Ye Feng finished speaking, he stretched out a hand in the direction where the Golden Horn Lord was escaping not far away.

The hand Ye Feng stretched out at this moment was not his own strength, but the strength of the entire Golden City.

"boom!"

At this moment, a golden flame suddenly surged out of the Golden City. In front of Ye Feng's palm, a big golden flame that covered the sky and the sun condensed, full of unparalleled suppressive power and power. The power of burning.

In an instant, this big hand of golden flames covered the heads of the Golden Horn Lord and the more than 20,000 fleeing demons, and then suppressed them with a bang.

At this time, Lord Golden Horn immediately shouted: "Golden Saint Four Seals!"

boom!

At this moment, Lord Golden Horn once again displayed his extremely powerful inheritance, hoping to use it to fight against that big golden hand of flames.

Boom! !

But this time, the extremely powerful Golden Saint Four Seal could no longer resist Ye Feng's power.

Because the golden flame hand that Ye Feng is now displaying is not just Ye Feng's power, but the power of the Golden City that Ye Feng is now guiding.

You must know that this golden city was the base camp built by the Golden Burning Ancient Demon Clan at its peak, and it possesses unparalleled power.

Now that Ye Feng has the totem of the Fire Token, he naturally merges with the entire Golden City.

Therefore, every move Ye Feng makes now can use the power of the entire Golden City.

So at this moment, Ye Feng's golden flame hand was filled with unparalleled ancient power. It directly shattered the golden holy four seals released by the Golden Horn Lord this time, and then bombarded them fiercely. They reached the top of Lord Golden Horn and the more than 20,000 demon army he led.

Boom! !

The next moment, the entire field suddenly erupted with an extremely terrifying roar.

Ye Feng's golden flame hand had boundless destructive power. In one fell swoop, the Golden Horn Lord and more than 20,000 demon clan troops were blasted to the ground and buried in ruins.

The army of more than 20,000 demons was defeated in one fell swoop and died instantly.

Although Lord Golden Horn withstood this attack, his entire demonic body was bleeding, and it was obvious that he would not live long.

The Golden Horn Lord's eyes widened at this time, staring at Ye Feng, who was floating in the golden city not far away, looking extremely noble.

Lord Golden Horn suddenly looked very unwilling, and shouted loudly: "I hate it! I hate it!"

After saying that, Lord Golden Horn suddenly spurted out a mouthful of blood and died on the spot.

He was obviously pissed off!

At this moment, Ye Feng's eyes were full of excitement. After he took control of the Golden City, the Golden City could enhance his combat power so much. It was really a very powerful treasure.

Not only can

It is the base camp of your own territory, and as long as you are in the Golden City, your combat effectiveness will be greatly improved.

However, Ye Feng knew that it was best not to reveal the Golden City for the time being, otherwise it would definitely cause other superpowers around to covet it.

So the best thing now is to import the Golden City into your body first and hide it first.

At this time, Ye Feng has not yet revived the hundreds of thousands of gold-burning ancient demons in the Golden City.

Because now that Ye Feng has taken control of the entire Golden City, he has discovered that it is not that simple to revive the sleeping ancient gold-burning demon in the Golden City, and it requires a huge amount of mana.

But now Ye Feng's cultivation level is still relatively low after all. He has only opened the ninth level of the God Realm, which is at most comparable to the level of an intermediate lord. For the time being, Ye Feng's mana has not paid attention to supporting the recovery of the hundreds of thousands of gold-burning ancient demon armies in the entire Golden City.

However, the Golden City itself is a very powerful war fortress, which can also be called a magic weapon. Just like the golden burning hand released by Ye Feng just now, the attack power is very terrifying, with the help of the magic weapon contained in the entire Golden City. energy of.

However, Ye Feng knew that he should use it carefully, because the remaining energy in the Golden City has been consumed a lot in the endless years, and it will definitely be used up if he keeps using it.

At this time, Ye Feng's thoughts moved, and he directly turned the entire huge golden city into the size of a grain of rice, and then turned into a ray of light, which flew into the flame totem on Ye Feng's eyebrows and entered Ye Feng's mind space. .

At this moment, Ye Feng landed directly from the sky. Looking at the killed Golden Horn Lord and the army of more than 20,000 demons, his eyes suddenly showed a rather excited look.

Next, without any hesitation, Ye Feng released the Devouring Domain, covering all the killed demons present.

Although the army of more than 20,000 demons are only at the first level of the God Realm, the more than 20,000 demons of the first level of the God Realm can naturally provide Ye Feng with a huge amount of energy.

And the most important thing is that Lord Golden Horn, a super strong man at the out-of-body level that transcends the Kaishen Realm and the Naling Realm, provides Ye Feng with even greater power.

So at this moment, after Ye Feng released the Devouring Domain, he immediately felt a very terrifying energy, which began to be injected into his body, causing the skill reserve in Ye Feng's dantian to skyrocket.

At this moment, Ye Feng suddenly felt that his cultivation aura was rising rapidly and continuously.

"boom!"

Open the tenth level of the God Realm!

"boom!"

Half step to the spiritual realm!

"boom!"

The first level of Naling Realm!

"boom!"

The second level of Naling Realm!

"boom!"

The third level of Naling Realm!

At this time, Ye Feng's cultivation level suddenly broke through many realms, and then stopped.

At this moment, Ye Feng's eyes revealed a bright light.

Ye Feng's cultivation level suddenly broke through to a great level, and then Ye Feng's combat effectiveness and all his magic power were raised to a new and powerful level.

At this moment, Ye Feng felt that he should be able to revive some of the gold-burning ancient demons in the Golden City.

Because Ye Feng has now broken through to a new level of the third heaven of the Naling Realm, his mana is many times more powerful than before, the ninth level of the God Realm.

So at this time, Ye Feng could sense that if he input his own mana into the Golden City, he should be able to revive hundreds of golden burning ancient demons.

You must know that the Golden Burning Ancient Demon is a very powerful and ancient demon fighting force. It is very terrifying and very fierce.

Therefore, a golden burning ancient demon is estimated to be comparable to dozens of ordinary demons in the same realm.

Now Ye Feng's mana is enough to revive hundreds of gold-burning ancient demons, which is actually pretty good.

At this time, after Ye Feng absorbed the blood energy of all the demons, he suddenly saw a storage ring in the finger of the golden-horned demon.

Seeing this scene, Ye Feng's eyes suddenly lit up and he took the storage ring directly into his hands.

Then Ye Feng investigated and immediately discovered a set of inheritance, called the Golden Saint Four Seals!

It was the most powerful natal inheritance displayed by this Golden Horn Lord at that time!

Seeing this inheritance, Ye Feng's eyes suddenly lit up.

Because for Ye Feng, he currently lacks a powerful inheritance.

With the improvement of cultivation realm, many inheritances can no longer keep up with Ye Feng's use.

Now Lord Golden Horn's Golden Saint Four Seal can just make Ye Feng's body burst out with extremely powerful power.

After all, Ye Feng had witnessed the previous power of this Golden Saint Four-Seal. It was very powerful and powerful, and it almost disintegrated his own Hongmeng Immortal Body.

If it weren't for the Gate of Heaven, it probably wouldn't be able to resist the Golden Saint Four Seals that Lord Golden Horn had used before.

At this time, Ye Feng didn't hesitate at all and just practiced the Golden Saint Four Seals on the spot.

Ye Feng's talent is very evil, because the soul gem once transformed Ye Feng's comprehension ability, which is very powerful. He can comprehend a very mysterious inheritance to perfection in a short time.

So at this time, Ye Feng got the powerful inheritance of the Golden Saint Four Seals. Naturally, he didn't want to waste time and started to understand this set of Golden Saint Four Seals.

In the next half hour, Ye Feng was meditating on this set of Golden Saint Four Seals.

Finally, just three hours later, Ye Feng's whole body was shaken.

\u003c

br\u003e He finally understood all the secrets of this set of Golden Saint Four Seals.

At this moment, Ye Feng opened his eyes and suddenly stretched out his palm towards the front and began to form seals.

Almost at the next moment, Ye Feng's body burst out with brilliant golden light.

These golden rays of light condense directly into a pagoda-shaped Sihe Seal, which is the Golden Saint Sihe Seal!

At this moment, it was obvious that Ye Feng had successfully understood the meaning of the Golden Saint Four-Hold Seal, and was also able to unleash the powerful power of the Golden Saint Four-Hold Seal.

In other words, Ye Feng now completely masters the powerful inheritance of the Golden Saint Four Seals.

After all, this is the natal inheritance of a powerful demon at the level of the out-of-body realm, so it is naturally very terrifying.

Moreover, Ye Feng's current magic power is very powerful, and when combined with the Golden City, the power of the Golden Saint Four Seal will explode, which will probably be even more terrifying and fierce.

"Not bad."

At this time, Ye Feng's face was naturally filled with joy.

After all, following him this time has brought huge benefits.

Not only has his cultivation level been greatly improved, but he has also received the super powerful demonic inheritance such as the Golden Saint Four Seals.

Of course, the most precious thing is naturally the golden city suspended in Ye Feng's mind.

This is the war fortress of the Golden Burning Ancient Demon. It is very precious and priceless.

At this time, Ye Feng hummed a little tune, left the space inside the mountain, returned to the outside, and then flew quickly towards his territory, wanting to tell Shang the good news.

But just when Ye Feng walked out of the inner space of the mountain, he came to the passage outside.

Buzz!

At this moment, Ye Feng suddenly felt a terrifying murderous intention, attacking him from the void, as if he wanted to kill him with one blow.

"There is a strong man lurking at the entrance of the passage. He seems to be waiting for me, the person inside, to come out. He wants to kill me with one blow. He probably wants to rob me of my wealth!"

Ye Feng reacted immediately at this moment.

But when it comes to assassination, Ye Feng is an ancestor-level figure.

After all, along the way, Ye Feng owned the space gem and assassinated others countless times.

So this time when he was assassinated by someone else, Ye Feng naturally reacted instantly and directly used the power of running the space gem to leave the place and then appear in another location.

At this moment, where Ye Feng was standing just now, a figure shrouded in black robes appeared.

The moment this figure was revealed, he suddenly made a surprised voice: "Huh? You actually escaped my carefully prepared assassination? It seems that this young man like you is very extraordinary. It's interesting. I'm getting more and more curious. You What did you get from the ruins in this passage? But no matter what you get, it belongs to me after all."

Chapter 3546 Young Island Master

Almost at the moment the black-robed figure finished speaking.

Ye Feng stood not far away, staring coldly at the figure shrouded in black robes, and said slowly: "Who are you? Why are you trying to assassinate me here? I don't seem to have offended anyone. "

"Who are you offending? No, no, no, on the land of the Demon Realm, the law of the jungle always preys on the strong. It doesn't take someone to offend someone to cause a dispute. It seems you are still very naive."

The black-robed figure immediately laughed and said loudly: "I passed by here accidentally, and I didn't expect that a huge passage appeared here. I think there should be good luck in it, but I'm afraid there is danger inside. So I didn't go in and lurked here to assassinate the people who came out, wouldn't I be able to reap the benefits? Hahaha."

Hearing what the black-robed figure said, Ye Feng smiled coldly and said, "What's so funny? You didn't succeed in the assassination."

The black-robed figure just smiled slightly and said aloud: "If the assassination is not successful, then I will kill you in front of you and plunder your wealth. You should have gained a lot from the ruins inside this passage. Wealth, but it will all belong to me later, hehe."

Buzz!

Almost at the moment when the black-robed figure finished speaking, the black-robed figure turned into an afterimage and merged into the void. The next time he appeared, he had already appeared behind Ye Feng.

Extremely fast!

Hard to guard against!

The moment the black-robed figure appeared, holding a black dagger in his hand, he stabbed Ye Feng directly on the back of the neck.

"Um?"

Ye Feng immediately sensed the murderous intention attacking from behind at this moment.

Uh-huh!

At this moment, Ye Feng immediately turned around and punched out hard, directly colliding with the dagger in the hand of the black-robed figure.

when! !

Almost at this moment, Ye Feng's fist collided directly with the dagger, making a sound of metal delivery.

Then Ye Feng quickly stepped back.

The black-robed figure also felt a huge force at this moment, impacting from the dagger, directly shaking the palm of his hand holding the dagger to some splits.

"What?!"

Seeing this scene, the black-robed figure immediately couldn't help but express a tone of surprise, and asked aloud: "What kind of demon are you? How could you have such a strong body and power, and be able to compete with this thing in my hand?" A dagger forged from Ten Thousand Years of Dark Iron? I have been practicing for so long, and I have never seen a demon with such a strong body!"

Obviously, this black-robed figure was very surprised that Ye Feng's body was so strong and powerful.

Ye Feng did not answer the black-robed figure at this time. He just stared at the black-robed figure coldly, with a trace of speculation in his eyes, and said aloud: "The method you used just now can be integrated into In the void, it seems that you are a demon with void attributes. You should be the legendary shadow demon, right?"

In the past, when Ye Feng and Shang were fine, they would discuss the topic of demons.

The major demon clans in the domain, so Ye Feng is quite familiar with the various demon clans currently living in the demon domain.

The moment Ye Feng finished speaking, the black-robed figure smiled slightly and said loudly: "Yes, I am indeed a shadow demon, from the Shadow Island in the Demon Realm. I came out to practice this time just to hunt all kinds of demons. A strong person to improve my ability."

When he said this, the shadow demon immediately stared at Ye Feng's whole body and said slowly: "I feel that you are very proficient in assassination in the void, otherwise you would not have been able to escape me twice in a row. Assassination, are you also a demon with space attributes? But it's impossible, I didn't sense any space fluctuations from you. You should have a very powerful space attribute magic weapon in your hand."

It has to be said that this shadow demon is still very discerning. He guessed in an instant that Ye Feng had a powerful space magic weapon in his hand, and was able to avoid his assassination every time.

Ye Feng just smiled faintly at this moment and said: "I don't need to tell you what I have. Since you choose to assassinate me and want to plunder my wealth, you have to bear the corresponding price, and the price is death. And after meeting such a special and advanced shadow demon like you, I am very interested in your bloodline."

At this moment, after Ye Feng finished speaking, a trace of cold murderous intent suddenly appeared in his eyes, and he directly exploded the power of Hongmeng's true body, and then rushed towards the shadow demon in front of him.

When the shadow demon saw Ye Feng rushing towards him, he immediately smiled disdainfully and said: "Even if your body is very strong and I can't break through your defense, you still want to kill me." Me, it's not that simple. I am a unique shadow demon who can lurk in the void at any time. You can't hunt me down at all, hahaha!"

Buzz!

Almost in an instant, this shadow demon was about to run away into the distance.

Because every time he assassinated Ye Feng, he had no effect at all. Therefore, the Shadow Demon Clan felt that Ye Feng was a tough opponent. He probably would not be able to successfully assassinate him, so he was ready to leave directly now.

After all, he came out of Shadow Island to practice this time just to improve his abilities, not to fight others to the death.

So at this time, the Shadow Demon Clan naturally chose to give up assassinating Ye Feng and leave here first.

"It's too late to leave now."

But at this moment, Ye Feng just smiled coldly, and immediately shouted: "Space Confinement!"

The next moment, Ye Feng did not hesitate, and instantly released the power of the space gem, directly condensing a confinement space in the void, and immediately imprisoned the shadow demon who had escaped into the void. , unable to move.

"What?!"

This shadow demon clan was frozen in the void, and his face suddenly became extremely horrified. He couldn't help shouting: "How is it possible! What level of space magic weapon do you have in your body? How could you possibly kill me?" species

All the innate abilities of the clan have been imprisoned! "

At this time, the shadow demon clan was shocked and obviously did not expect that he would be fixed in the void.

You know, what this shadow demon clan has always been proud of is its special racial talent ability to sneak into the void and shuttle invisibly.

Unexpectedly, this time he kicked the iron plate directly and encountered Ye Feng, who had a space gem. Naturally, he was dealt with badly.

At this moment, Ye Feng rushed into the void, and then directly crushed his head to pieces in the shadow demon's horrified eyes, without giving him any chance to speak or regret.

This extremely special Shadow Demon Clan, a peerless Demon Clan genius who came out of the Shadow Island to experience, was killed instantly!

Looking at the dead body of the Shadow Demon Clan in front of him, Ye Feng smiled coldly and said: "What an unexpected harvest. If I absorb the special bloodline of this Shadow Demon Clan, my Hongmeng Immortal Body should be able to evolve again. "

At this moment, Ye Feng directly began to absorb the skill and blood of this shadow demon clan.

The cultivation level of this shadow demon is actually not very strong, it is about the same as Ye Feng, otherwise it would not be possible to deal with Ye Feng only by assassination.

Therefore, the skill of this shadow demon can only increase Ye Feng's power a little at most.

But what interests Ye Feng the most is the special bloodline of this shadow demon clan.

Because Ye Feng needs to continuously improve the strength of his Hongmeng bloodline and Hongmeng Immortal Body, he needs to absorb different types of advanced bloodlines.

Even if the opponent's cultivation level is very weak, as long as the bloodline is advanced, it can greatly increase the level of Ye Feng's Hongmeng bloodline, thus increasing the strength of Ye Feng's Hongmeng immortal body.

But when Ye Feng continued to absorb the blood of this shadow demon clan.

It's not too far away from the edge of this magical land in the southwest.

On a sea of darkness, there stood an island.

This island is not that big, but it exudes a very deep and terrifying atmosphere.

The entire island was shrouded in a confusing black mist, making it look quite mysterious.

This island is the origin of the Shadow Demon Clan, Shadow Island!

The moment Ye Feng killed the shadow demon clan.

In the Shadow Island, a very frightening and angry roar suddenly came out: "Who killed my heir?! I want him to pay with his blood!!"

The moment this loud and frightening roar rang out, countless shadow demons in the entire Shadow Island had expressions of deep horror.

"The young island master was actually wiped out?"

All the demons in Shadow Island looked shocked.

They never seemed to have imagined that someone could actually kill the young island owner of their Shadow Island.

"Next, in the southwest of the Demon Realm, which is closest to our Shadow Island, there will probably be a horrific bloody storm."

All the shadow demons in the Shadow Island have eyes that reveal

A look of deep shock.

Because they never thought that in the southwest, this rather barren place, there would be someone who could wipe out the young island owner of their Shadow Island.

After all, the racial talents of their shadow demons are very magical, and they can escape into the void at any time.

And who is so bold? Knowing that the Shadow Demon Clan is a very large demon clan, yet he did not hesitate to kill the noble young island owner of the Shadow Demon Clan. It can be said that he is extremely bold.

And just when the entire Shadow Island was boiling because of the death of the young island owner.

In the Demon Ruins in the southwest of the Demon Realm, Ye Feng had successfully absorbed all the power and blood of the shadow demon he had just killed.

At this moment, Ye Feng could feel that his Hongmeng Immortal Body and Hongmeng bloodline were transforming again.

From the previous middle stage of the third level, it has directly transformed into the late stage of the third level.

The strength of Ye Feng's Hongmeng Immortal Body has once again increased a lot, and his combat effectiveness is even more fierce than before.

After all, Ye Feng's strongest strength has always been his body.

At this moment, Ye Feng probably would never have thought that the shadow demon he killed was actually the extremely noble young island owner of Shadow Island.

This young island owner possesses the void lurking ability of the Shadow Demon Clan. It was estimated that no one could catch him, but this young island owner was so unlucky that he offended Ye Feng, who had a space gem. Naturally, he was captured. Dead.

At this moment, Ye Feng looked at the completely shrunken Shadow Demon in front of him, and suddenly seemed to see something.

"Huh? What is this?"

Ye Feng knelt down at this moment and took a token from the waist of the shadow demon into his hand.

There are four big characters written on this token: "Order of the Young Island Master".

"What? This shadow demon that I killed couldn't be the young master of Shadow Island, right? Why is he so weak?"

Ye Feng's face looked a little uncertain at this time.

Unexpectedly, the shadow demon he killed casually turned out to be the young island owner of Shadow Island.

I just don't know what the strength of this Shadow Island is.

However, since the Shadow Demon Clan can become a major force on its own, it must be very powerful.

"It seems that I need to ask Shang when I get back where this Shadow Island is, and see if it will threaten my place for a while."

Ye Feng was planning in his mind at this moment, and then quickly flew towards the edge of the Demon Ruin Land, wanting to ask Shang what the strength of Shadow Island was and what level of power it was.

If there is a huge threat, then you need to plan ahead.

But Ye Feng is not too afraid. After all, now that he has obtained the Golden City, if the shadow demon army from Shadow Island really comes, he can put all his territorial troops into the Golden City at any time, and he can leave here at any time. Plan for other developments.

You must know that the Golden City is the war fortress and core base camp built by the Golden Burning Ancient Demon Clan back then. Its internal space is very large, enough to accommodate countless armies of the Demon Clan.

#### Chapter 3547 Preemptive Strike

Ye Feng's speed was very fast. In less than half an hour, he had already walked out of the inner area of the Demon Ruins Land and arrived at a relatively remote area outside the Demon Ruins Land.

This is where Ye Feng and Shang established their own territory before.

Uh-huh!

At this moment, Ye Feng flew into his territory and immediately saw that Shang Zheng was leading thousands of flying demons and was still building his territory.

In addition to building the central hall, tall surrounding walls are also being built, with a very high plan.

Obviously, Shang was very attentive this time and wanted to truly help Ye Feng and himself, establishing a real territory rather than a temporary residence.

At this time, when he saw Ye Feng flying over, Shang immediately asked with great anticipation: "Little Ye Zi, you are finally back. By the way, did you find anything good after tracking the demon army?"

Hearing Shang's question, Ye Feng immediately smiled and said, "Of course I got something good, come with me."

After saying that, Ye Feng immediately walked quickly in a certain direction of the territory and found a place where there was no one around.

After all, there are too many things involved in the Golden City to reveal even a single bit.

"Huh? What happened to Little Ye Zi? It's so mysterious."

Shang's eyes were filled with surprise at this moment. He followed Ye Feng and walked over with a look of deep curiosity on his face.

He didn't know why Ye Feng suddenly became so mysterious.

At this moment, Ye Feng came here with Shang and directly took out the golden city in his mind.

"This is....."

At this moment, the Golden City suddenly appeared in front of Shang, exuding majestic and boundless ancient power.

When Shang saw this scene, his eyes widened immediately, and he couldn't help but said in horror: "This... this is the legendary golden city? An extremely precious war fortress built by the golden-burning ancient demon clan? How is this? Maybe? Where did you get the little leaf? It's incredible, even the big powers at the dynasty level covet it!"

Ye Feng smiled slightly at this time and said aloud: "Those senior lords came here just to find the golden city hidden inside the Demon Ruins. I followed them and then used some means to successfully I obtained the Golden City, and the most powerful Golden Horn Lord was also killed and swallowed by me. Look at my current cultivation level, which has been promoted to the third level of the Naling Realm above the Kaishen Realm. "

Buzz!

At this moment, Ye Feng said, directly radiating the extremely powerful fluctuations in his cultivation.

Shang sensed this terrifying cultivation aura, and his eyes immediately revealed a look of deep surprise, and then he said loudly: "Little Ye Zi, what have you done? How did you get such a terrifying place as the legendary Golden City?"

Something scary? "

Ye Feng smiled slightly at this time and said: "As I said just now, Lord Golden Horn led a group of troops to find the ancient ruins of the Golden City. Then I went in and killed Lord Golden Horn, and then got This city of gold."

At this time, Shang couldn't help but said with some surprise: "Little Ye Zi, you are really powerful. Before, your cultivation level was only at the God Opening Realm, but it was the cultivation level of a high-ranking lord like Lord Golden Horn. At least it was at the Out of Body Realm." It's really unbelievable that you can kill such a powerful senior lord as the Golden Horn Lord!"

Although Shang knew that Ye Feng's combat power was astonishing, it was still a bit unbelievable to be able to kill a high-ranking lord like Lord Jin Jiao.

Ye Feng smiled at this time and said: "Of course I used some special means. If there is a head-on confrontation, then I am naturally no match for Lord Golden Horn."

When Shang heard what Ye Feng said, he immediately laughed out loud: "Anyway, if we get something like an artifact like the Golden City, then the development speed of our territory will definitely be a thousand miles a day, that speed is amazing! "

Hearing what Shang said, Ye Feng couldn't help but shake his head, smile, and said, "That's true."

When he said this, Ye Feng seemed to have thought of something, and suddenly asked: "By the way, Shang, I want to ask you a question, what is the background of this big force in Shadow Island?"

When Shang heard Ye Feng ask this question, a suspicious look appeared in his eyes, as if he had guessed something immediately. After all, he knew Ye Feng very well.

Shang immediately couldn't help but said: "Little Ye Zi, have you got into trouble with Shadow Island?"

Ye Feng immediately spoke up at this time: "Tell me first what the background of Shadow Island is like?"

Shang frowned and couldn't help but said aloud: "Shadow Island is a very powerful force. It is a big force composed entirely of shadow demons. Therefore, its cohesion is very strong, unlike those mixed fish and dragons. Territory, once the entire Shadow Island is in motion, even a powerful dynasty needs to be very wary. "

"Is it comparable to the heritage of a demon dynasty?"

Hearing what Shang said, Ye Feng's eyes showed surprise.

I didn't expect Shadow Island to be so powerful.

At this time, Ye Feng couldn't help but ask: "Where is the Shadow Island exactly?"

Shang thought for a while and then said aloud: "I have never been to Shadow Island, but I have heard from other demons that the base camp of Shadow Island stands on the sea of darkness on the southwest edge of our demon territory. Inside, it's very close to us anyway."

When he said this, Shang once again stared at the front of him suspiciously.

Ye Feng couldn't help but asked: "Little Ye Zi, tell the truth, is my feeling correct? Have you provoked the huge force of Shadow Island?"

Ye Feng immediately nodded, took out a token from his storage ring, and said loudly: "I plundered the Golden City. When I came out of the ancient ruins, someone wanted to assassinate me and plunder me. After I killed him, I discovered that he had the token of the young island master of Shadow Island."

"What?!"

Hearing what Ye Feng said at this time, Shang immediately became extremely shocked, and then couldn't help but said in horror: "Little Ye Zi, you actually killed the young island owner of Shadow Island invisibly??"

Seeing Shang's horrified expression, Ye Feng immediately understood that he was probably in big trouble.

But at the next moment, what made Ye Feng suddenly become extremely shocked was that the horror on Shang's face suddenly turned into deep excitement, and then he shouted: "Little Ye Zi, you actually killed the young man from Shadow Island" Island owner? It's so exciting!"

Ye Feng: "..."

Seeing Shang's reaction, Ye Feng was immediately speechless and couldn't help but say: "Now let's think about how to deal with the aftermath. After all, the young island master of Shadow Island was killed by me. I guess the whole thing will happen next." The southwest will be caught in disputes. The Shadow Demons in the entire Shadow Island will definitely leave the Sea of Darkness and come to our southwest to look for the murderer who killed the young island owner. Moreover, Shadow Island is such a powerful The forces must have special means to track the aura of the culprit who killed their young master. Maybe I have been unknowingly targeted by all the shadow demons on Shadow Island. "

When Shang heard what Ye Feng said, the old demon dragon didn't seem to panic at all. Instead, he smiled and stretched out his huge black dragon claw, patted Ye Feng's shoulder, and said loudly: "Little Ye Zi, you don't have to be too nervous." Don't be too worried. Now that you have grabbed something like an artifact like the Golden City, if you really can't fight against the demon army killed by Shadow Island, then we can just leave here."

When he said this, Shang suddenly revealed a deep murderous intent in his eyes, and said loudly: "However, we don't need to escape this time, no matter who wants to deal with you, Xiao Yezi, even if it is a super power like Shadow Island , I also want to knock out a few teeth from it. If they dare to kill you, Ye Feng, then we will wait and see, maybe there will be an unexpected harvest. "

Hearing what Shang said, Ye Feng's eyes suddenly moved and he couldn't help but ask: "Shang, do you have any special plans?"

Shang shook his head and said aloud: "I haven't thought about it yet."

Ye Feng: "..."

Sure enough, this old demon dragon was still unreliable as usual.

But the next moment, Shang immediately laughed out loud, patted Ye Feng's shoulder, and said loudly: "Little Ye Zi, I

Just kidding, of course I have already planned it. I have been in the Demon Realm for so long. If I didn't have two brushes, I would probably be dead. "

After finishing speaking, Shang stared at the golden city in front of Ye Feng and said loudly: "The moment you said you had offended Shadow Island, I suddenly had a plan in my mind, but I need this gold city to implement my plan."

When Ye Feng heard what Shang said, a look of curiosity immediately appeared on his face, and he couldn't help but ask: "Oh? What did you plan?"

Shang grinned and said loudly: "We strike first."

"Preemptive strike?"

When Ye Feng heard what Shang said, he immediately couldn't help but asked: "If we take a preemptive strike...Shang, do you mean to directly attack the entire Shadow Island and eliminate this huge disaster first? But this is simply not possible. Maybe, although there are hundreds of thousands of ancient gold-burning demons sleeping in the Golden City, we simply don't have enough mana to resurrect all the ancient gold-burning demons. With my current cultivation level and mana reserves, I estimate that I can only resurrect a few hundred. The golden head burns the ancient demon."

Shang immediately shook his huge dragon head, and then said loudly: "Of course I'm not asking you to attack Shadow Island directly. That is definitely the same as seeking death. What I mean by pre-emptive strike is don't wait until Shadow Island takes the initiative. Find us and we will take the initiative to go to Shadow Island."

Ye Feng couldn't help but ask: "Why should we go directly to Shadow Island?"

Shang showed a rather evil smile and said loudly: "Killing with a borrowed knife, hehe. As long as we reveal the aura of the Golden City in the Shadow Island, I dare to conclude that the entire sea of darkness, including the demonic realm we are in, Many big forces in the southwest land will definitely focus their attention on Shadow Island in an instant, and they will all want to snatch the golden city on Shadow Island. Little Yezi, you have to know that the golden city is not an ordinary thing, but a valuable one. Liancheng's peerless treasure, so by that time, all the big forces will definitely put pressure on Shadow Island, and there is no need for us to take action ourselves. Shadow Island will collapse on its own and be attacked by all the major forces. "

Hearing what Shang said, Ye Feng suddenly had a look of astonishment in his eyes, and then he couldn't help but said, "Isn't this too cruel?"

Shang chuckled and said aloud: "That's how it is in the Demon Realm. If you want to survive, you have to do whatever it takes. Since the young island master of Shadow Island wants to assassinate you and plunder your wealth, but you kill him instead, even if You don't want to be the enemy of the entire Shadow Island. The Shadow Demons in the Shadow Island will definitely regard you, Little Yezi, as a must-kill target. Since they have all been identified as enemies, there is no need to be merciful. You must do everything possible. We must find a way to completely eliminate this huge disaster that may threaten your life, Xiaoye, so that we can feel at ease."

Hearing what Shang said, Ye Feng immediately nodded, with a look of expectancy in his eyes, and said loudly: "Shang, you are right."

Chapter 3548 Plan everything

At this time, Ye Feng looked in a certain direction not far away and said loudly: "Then let's go directly to Shadow Island now?"

Shang nodded at this time and said with a smile: "This place is relatively remote. No one will disturb the construction of our territory. Let's let these flying demons build our territory here."

Uh-huh!

After saying that, Shang took Ye Feng and flew quickly in a certain direction in the distance. ??

Ye Feng followed Shang, flying high in the sky, looking at the dilapidated and dark surroundings, with a hint of uncertainty in his eyes.

Because he didn't know whether Shang's plan was feasible or not.

Is the City of Gold really that charming?

Can all the big forces not help but offend the Shadow Island and take over the Golden City?

But now there is only one way.

Because if we don't take the initiative and the super strong men from Shadow Island arrive where Ye Feng is at this time, then Ye Feng's current strength will be absolutely impossible to resist.

So we can only take the initiative and take the initiative!

At this time, Ye Feng followed Shang and flew toward the edge of the southwest of the Demonic Domain.

They are very fast.

In less than half a month, he had traveled through the vast area in the southwest of the Demonic Domain and arrived at the edge.

Here, Ye Feng saw an endless and vast pitch-black ocean in the distance, which looked very deep and grand.

At this time, Shang's eyes showed a trace of sigh, and he said aloud: "This sea of darkness is an amazing place. Many extremely powerful ocean monsters have been born in it, and many huge dark monsters have also been born. Marine Civilization."

Hearing what Shang said, Ye Feng nodded slightly, and then couldn't help but ask: "Where is the Shadow Island exactly?"

At this time, Shang looked at the direction around him, then took out an old map from his storage ring, and said aloud: "Fortunately, I was very interested in places like the Sea of Darkness, so I bought it. I learned a map about the Sea of Darkness, but I didn't expect to use it today."

As Shang spoke at this moment, he directly searched for the location of Shadow Island on the map, and soon discovered the location of Shadow Island on the map.

Shang's eyes lit up immediately and he said loudly: "I found it! Shadow Island is a huge island, not too far from the shore of the Sea of Darkness, because Shadow Island does not belong to the entire Sea of Darkness. The forces moved from the land in the southwest of the Demonic Domain to the shallow sea area. "

Hearing what Shang said, Ye Feng showed a rather happy look in his eyes and said loudly: "If you say so, we will be able to reach Shadow Island soon."

Shang nodded, and then said with a serious expression:

"But Shadow Island is, after all, a transcendent power that can rival a demon dynasty. If we want to lurk into Shadow Island, reveal the aura of the Golden City, and then escape safely, the whole process will still be quite difficult. Yes, everything needs to be planned in advance."

Ye Feng nodded, and then asked aloud: "What level of cultivation is the most powerful among the Shadow Demons in Shadow Island?"

Shang shook his head at this time and said aloud: "I don't know this, but it must be very powerful."

When Ye Feng heard this, his eyes showed thinking.

Ye Feng's original idea was to directly set up a space wormhole to connect the Shadow Island and the shore area of the Dark Sea.

In this case, Ye Feng and Shang could lurk in the Shadow Island, reveal the aura of the Golden City, and escape through the space wormhole in an instant.

But now Shang is not sure how powerful the shadow demon clan is in Shadow Island.

If there really is that kind of extremely terrifying demon superpower, even if the space wormhole he opens with the space gems, it will probably be cut off by the extremely terrifying demon master in an instant.

In that case, it would be difficult to escape.

So at this time, Ye Feng felt that his previous idea was not appropriate, and he needed to think carefully about how to escape.

After all, Ye Feng and Shang's plan this time was to frame the entire Shadow Island, not to be buried with the entire Shadow Island.

After Ye Feng finished speaking, Shang immediately laughed out loud: "Little Ye Zi, you are such a thief."

Next, Shang handed the map of the Sea of Darkness into Ye Feng's hands, then stretched out his dragon claws, patted Ye Feng's shoulder, and said solemnly: "Even if the plan is perfect, you You have to be careful, Shadow Island is a super powerful force comparable to a demon dynasty, you must not show your flaws, otherwise, little Ye Zi, you will die without a burial place!"

Ye Feng immediately nodded and said, "Don't worry, I will pay attention. If something happens, I will ask you to run away and leave me alone."

When Shang heard this, his eyes widened immediately and he said loudly: "Then I will definitely try my best to save you. I will not ignore you, little Ye Zi, even if I die!"

For Shang, Ye Feng may have already become his relative.

Seeing Shang's excitement, Ye Feng nodded warmly at this time.

Then Ye Feng said nothing more, took the map of the Dark Sea in his hand, and flew directly towards the shallow sea area of this dark ocean, trying to find the specific location of the Shadow Island.

Swish, swish, swish! ??

Swish, swish, swish! ??

At this time, Ye Feng held the map in his hand and flew quickly towards the inner area of the Sea of Darkness according to the location indicated on the map.

Of course, the place Ye Feng wants to go is not the real internal area of the Dark Sea, but the shallow sea area where this black ocean is relatively shallow.

At this moment, Ye Feng was flying rapidly across the entire ocean surface.

Ye Feng immediately saw that although the entire ocean looked black from a distance, when it reached the surface, the water in the ocean was still transparent.

In other words, only visually, the entire ocean appears as dark as ink, but when you are really close to the water, the color of the water is still transparent.

When Ye Feng saw this, there was a hint of surprise in his eyes.

It seems that this dark sea is very extraordinary. It must contain something extraordinary to make others

Produces such a dark visual effect.

And just as Ye Feng was moving quickly on the sea, Emperor Chu in his mind suddenly spoke up: "Ye Feng, have you come to the sea of darkness?"

When Ye Feng heard what Emperor Chu said, there was a trace of surprise in his eyes. He immediately nodded and said, "Emperor Chu, do you still know about the Sea of Darkness?"

Emperor Chu immediately nodded in his mind and said aloud: "Among the memory fragments of my awakening, there are records about this sea of darkness, but many of them have been forgotten, but I know the details of this sea of darkness. There are extremely taboo and terrifying creatures living in the depths. This sea of darkness can be said to be one of the more taboo places in the world of Demon Realm. You must not go deep into this sea of darkness, otherwise your life may be in danger. "

Ye Feng immediately nodded and said, "Don't worry, Emperor Chu. I only came to the shallow area of this dark sea this time and did not go deep into this dark sea."

"Um."

When Emperor Chu heard what Ye Feng said, he immediately nodded in his mind, said nothing more, and fell silent again.

At this moment, Ye Feng's eyes showed a hint of surprise.

What is the identity of Emperor Chu?

You actually know something about the dark sea of Demon Realm?

This kind of knowledge is too profound!

"What is the identity of Emperor Chu?"

At this time, Ye Feng had such a huge doubt in his heart.

Because Ye Feng discovered that no matter which world he went to, Emperor Chu seemed to know something about that world.

Ye Feng originally thought that the Emperor of Chu was just an emperor of a low-level world, but along the way, Ye Feng discovered that the Emperor of Chu was constantly awakening various ancient memory fragments, and he knew astronomy from the top and geography from the bottom.

This has to make Ye Feng more and more curious, what is the true identity of Emperor Chu?

Emperor Chu can be said to be the only being who can keep up with Ye Feng's pace of cultivation.

Even far beyond Ye Feng's cognition.

"Anyway, Emperor Chu's identity must be very extraordinary."

Ye Feng couldn't help but murmured.

Because Emperor Chu gave Ye Feng the feeling that he was like an omniscient prophet.

And just when Ye Feng was thinking secretly in his heart, suddenly a towering and boundless huge island appeared on the sea directly in front of Ye Feng, shrouded in the misty black mist, looking looming.

"arrive!"

When Ye Feng saw this looming island in the black fog, his eyes suddenly lit up. He had finally arrived at Shadow Island!

Chapter 3549 Everyone is here

Buzz!

The entire Shadow Island is very majestic, shrouded in a misty black mist. It looks very mysterious and unfathomable, exuding a feeling that strangers should not approach it.

But at this time, Ye Feng did not hesitate and flew quickly towards the Shadow Island.

On the way to fly, Ye Feng directly used his power to directly turn his life source into a shadow demon.

At this moment, after Ye Feng's life source was transformed into the Shadow Demon Clan, he could immediately feel that he became more proficient in the use of space gems.

Obviously, Ye Feng's ability not only allows him to transform his life source into the Shadow Demon Clan, but also allows him to possess the talent of the Void Power of the Shadow Demon Clan.

This discovery made Ye Feng's eyes reveal a hint of surprise and joy.

This can be said to be an unexpected surprise.

"I didn't expect that after my life source was transformed into the Shadow Demon Clan, I would be able to use the Shadow Demon Clan's void talent."

At this time, Ye Feng secretly murmured in his heart.

Of course, maybe this has something to do with the fact that he absorbed the blood of the previous young master of Shadow Island.

If he didn't have the bloodline of the Shadow Demon Clan, he probably wouldn't be able to use the Shadow Demon Clan's void power talent.

Because Ye Feng had previously converted his life source into the attributes of various races, but none of them had the talents of that race.

But now that Ye Feng has transformed into the Shadow Demon Clan, he has the Void Power talent of the Shadow Demon Clan, which is obviously related to Ye Feng's previous absorption of the Shadow Demon Clan's bloodline.

But anyway, this is a good thing.

Ye Feng now possesses the Void Power, the bloodline talent of the Shadow Demon Clan. Coupled with the space gems on his body, Ye Feng feels that he is now more of a Shadow Demon Clan than the Shadow Demon Clan.

And just when Ye Feng was thinking secretly, suddenly Ye Feng came to the area around Shadow Island and directly sensed a very powerful scanning power, which scanned his body.

Buzz!

"That is....."

Ye Feng suddenly saw a huge defense tower in the dark mist.

This defense tower is inlaid with a huge red crystal.

A very bright red light emitted from the red crystal shone on Ye Feng in an instant.

Like a scanner, it can scan the blood and breath of living beings.

However, Ye Feng has now converted all his life attributes into the Shadow Demons, so after being scanned by the defense tower at this time, the formation alert of the entire Shadow Island was not triggered.

"call!"

"so close!"

Ye Feng immediately breathed a sigh of relief.

It seems that my decision was correct.

If he had followed his original plan and sneaked into the Shadow Island with Shang, he would have been discovered and his identity unknown.

But now that Ye Feng is alone and has transformed himself into a shadow demon, the scanning array here will not be triggered.

At this moment, Ye Feng no longer hesitated and immediately entered the range of Shadow Island.

Uh-huh!

When Ye Feng stepped on the island of Shadow Island, he felt that he had come to an extremely dark place.

The light in the entire Shadow Island was very dim, and it was so dark that it was almost impossible to see.

If Ye Feng hadn't possessed the Divine Eye of Creation and could see through all illusions, he probably wouldn't have been able to see everything around him clearly.

Ye Feng couldn't help but mutter in his heart, "The entire Shadow Demon Clan survives in such a dark environment, and I don't know how they communicate with each other."

However, Ye Feng guessed in his heart that these shadow demons probably not only have the talent of the void, but also have super vision ability, otherwise they would not be able to survive in such a dark environment.

But this is a good thing for Ye Feng.

Because Ye Feng came to Shadow Island this time with the purpose of framing the entire Shadow Island, such a dim environment also provided Ye Feng with an excellent opportunity.

Buzz!

At this time, Ye Feng first released his soul power and sensed the surrounding aura.

The next moment, Ye Feng suddenly sensed that there were many powerful auras in this shadow island.

They should all be super powerful among the Shadow Demon Clan.

There are still some auras, and even Ye Feng doesn't dare to continue to sense them, otherwise, it is very likely that he will be discovered suddenly.

So at this moment, Ye Feng no longer hesitated, and with a thought, he directly released the Golden City.

Buzz!

At this moment, the golden city flew out of Ye Feng's mind and floated in front of Ye Feng, exuding an ancient and vicissitudes of atmosphere.

At this moment, Ye Feng immediately inspired the power of the entire Golden City.

Boom!

Almost at the next moment, monstrous golden flames suddenly erupted in the entire Golden City, and even formed a golden flame light pillar, reaching straight into the sky, illuminating the entire dark sea area around Shadow Island.

The entire sky was dyed golden!

"what happened?!"

At this moment, the entire Shadow Island, which had been silent, immediately began to boil.

All the shadow demons in the Hidden Island are waking up from their slumber at this moment.

They looked at the golden pillar of flames that connected the entire sky, their eyes filled with deep shock.

Because this flaming light pillar appeared in the area of their Shadow Island, they were naturally very confused and shocked as to why such a shocking scene suddenly appeared on their Shadow Island.

At this moment, in the deepest area of Shadow Island, a tall middle-aged man wearing black armor was the island owner of Shadow Island.

He immediately opened his eyes suddenly, and a bright divine light bloomed in his pupils. He stared at the golden flame light pillar not far away that connected the entire sky. He suddenly said excitedly: "Could it be that there is someone in our Shadow Island?" What a rare treasure from heaven and earth, otherwise it would be impossible to create such a shocking vision of heaven and earth."

Uh-huh!

At this time, the owner of the Shadow Island immediately jumped up, directly across the endless void, and came to the place where the golden flame beam appeared.

But the owner of Shadow Island appeared here and didn't find anything.

The surrounding area was empty, as if the golden pillar of flame appeared out of thin air.

"Why is there nothing?"

The island owner of Shadow Island suddenly had a strange look in his eyes.

But at the next moment, the island owner of Shadow Island seemed to have thought of something, and his eyes suddenly changed: "Someone wants to frame us on Shadow Island."

! "

He is worthy of being the island owner of Shadow Island. He has experienced many vicissitudes of life and has experienced many things, so he immediately realized what the specific situation was at this moment.

At this time, the owner of Shadow Island immediately shouted: "All Shadow Island guards, seal off the entire island. Don't let anyone, including our own people from Shadow Island, get out. I must find the culprit who framed our Shadow Island." ! Maybe he is the murderer of my descendants! "

It has to be said that the owner of this Shadow Island is very smart, very flexible, and very decisive in his actions. He thought of everything at once and immediately wanted to blockade the entire Shadow Island.

But after all, he never imagined that the culprit who framed their Shadow Island, Ye Feng, was a strange existence that could transform his own life attributes at will. He couldn't find it at all, and it was probably too late to find them one by one.

Because such a terrifying phenomenon of heaven and earth erupted in the Golden City, and the masters of the major forces with a radius of tens of thousands of miles were instantly welcomed.

Just when the entire Shadow Island was boiling because of the golden flame light beam released by the Golden City, Ye Feng had already lurked among the shadow demons on the Shadow Island.

Uh-huh!

At this time, Ye Feng sneaked to a slum in Shadow Island.

Most of the people here are slaves from the Shadow Demon Clan.

Ye Feng came here, wrapped his entire body in a black robe, and squatted in a corner of this slum.

Ye Feng knew that this was definitely the safest place.

Because the demons in the entire Shadow Island would never come to this kind of place.

Naturally, those high-ranking figures in the Shadow Island would not come to such a dirty and messy area of the slums.

So Ye Feng knew that this was the best place for him to hide at the moment.

Ye Feng felt quite relaxed at this time because the plan was successful.

At the last moment, Ye Feng used the space gem to interfere with his own aura, so a super big shot like the island owner of Shadow Island might not be able to detect his own aura.

What Ye Feng has to do now is to wait silently in this slum for the next development of the situation.

Ye Feng's wait did not last long.

In less than half a day, super strong men from all major forces appeared in the sky above the entire Shadow Island.

Some of them were covered in red flames, looking like a god of fire.

Some were riding a white Pegasus with more than a dozen wings, exuding white holy light. They did not look like demons, but rather like the light clan, the opposite of demons.

There are also many super strong people, all of whom have different forms.

For example, the Demon Lord standing on the ghost chariot, or the ocean monster with a majestic body that looks like a mountain, and the hell skeleton clan with black light emitting from its bones... all of them came here.

The masters of many forces are eyeing the entire Shadow Island!

At this time, Ye Feng looked through the black robe and looked up into the sky in the slums.

He saw that the island owner of Shadow Island took countless shadow demons, all flying to the high altitude of Shadow Island, and seemed to be talking to the powerful men of the major forces.

But suddenly at this moment.

Boom! !

A fierce battle suddenly broke out across the entire sky.

Ye Feng immediately understood. It was estimated that the island owner of Shadow Island could not explain the aura of the Golden City clearly, so it aroused the greed and murder of the leaders of the surrounding major forces.

At this moment, the entire high altitude immediately fell into a melee.

The battle fluctuations of those super demon warriors made Ye Feng's entire body shatter.

Many shadow demons in the entire Shadow Island were running away frantically at this time.

After all, the battle between these super strong men can be said to be a fire at the city gate, affecting the fish in the pond.

"The opportunity has come!"

Ye Feng immediately rushed out of the slum, and quickly ran toward the ocean area outside with the chaotic group of shadow demons in the entire Shadow Island.

When Ye Feng left the Shadow Island area and came to the Sea of Darkness, suddenly a black dragon flew over from not far away.

It is Shang, this old demon dragon!

"Wonderful, wonderful!"

Shang came to Ye Feng at this time, with a scheming smile on his face. He couldn't help but laugh and said, "Little Ye Zi, I didn't expect you to move so fast."

Ye Feng smiled slightly at this time and said quite relaxedly: "It's not that I am fast, but the leaders of the major forces around the Shadow Island are very fast, and they start fighting if they disagree with each other. , It seems that the Golden City is really, as you said, very attractive to the masters of these demonic forces. "

At this time, Shang immediately nodded and said: "Of course! The Golden City is a war fortress forged by the ancient gold-burning ancient demon clan. It is very precious and rare. Even the big forces at the dynasty level will use it. Very coveted, not to mention Shadow Island and the big forces that are one level lower than the dynasty around Shadow Island, they are naturally very greedy. In the Demon Realm, many demons don't have much hesitation or thinking. Basically, they are very greedy. They all had a disagreement and started fighting directly, so this also created the entire Demon Realm, which was full of rags and rags, and scenes of all kinds of melee and chaos. But this can be regarded as a characteristic of the Demon Realm. Many other worlds Those who have experience in the realm sometimes like to come to the world of the Demon Realm, because it can greatly improve their combat experience. "

Ye Feng nodded slightly at this time, looking at the entire Shadow Island not far away being plunged into dire straits, with an interesting expression on his face.

Then Ye Feng suddenly said: "Framing Shadow Island, in my inner plan, is actually only the first step. The second step... is to take advantage of the situation."

"you....."

Shang's eyes suddenly widened at this moment, staring at Ye Feng in front of him, and immediately shouted: "You little Ye Zi! Did you say that my plan was too cruel before? Now you are still going to do it? When it comes to robbery, I think you are more cruel than me!"

Ye Feng just smiled slightly at this time and said aloud: "I don't call it cruel, but adapt to circumstances. After all, you have come, you can't leave empty-handed."

After saying that, Ye Feng immediately flew towards the chaotic Shadow Island without any hesitation.

"Wait for me! I also like to take advantage of others! It's so exciting!"

Shang screamed at this time, and immediately chased after Ye Feng, laughing loudly: "Shadow Island is a very good power, and it must hide a lot of wealth! What a shame for Shao Dao of Shadow Island The Lord feels sad. It's not good to offend anyone but us two brothers!"

Chapter 3550 Pill Reserve

Swish, swish, swish!

Swish, swish, swish!

At this time, Ye Feng and Shang flew one after another towards the Shadow Island again.

At this moment, they all hid their auras and came to the area around Shadow Island.

Boom! !

Until this time, very terrifying battle fluctuations were still erupting in the entire sky. Countless strong men were shrouded in divine light, and the sky was trembling.

The masters of the major forces are now joining forces to deal with all the resistance forces in Shadow Island, because they all want to get the priceless treasure passed down from ancient times like the Golden City.

Seeing the battle between the super strong men in the sky, Ye Feng and Shang looked at each other, both looking at each other a little bit.

Unexpectedly, their random plan this time really led Shadow Island into a situation that is beyond redemption.

In fact, when this plan was first formulated, Ye Feng thought that it would not go so smoothly.

Unexpectedly, when the plan was actually implemented, it turned out to be much smoother than expected.

It seems that many of the big power lords in the Demon Realm do not have much brains, they only know all kinds of simple and direct robbing and killing.

At this moment, Shang looked in the direction of Shadow Island and said loudly: "Little Ye Zi, let's go directly into Shadow Island to snatch the wealth."

Ye Feng nodded slightly and said loudly: "The battle at high altitude has almost restrained the strongest group of demons in the entire Shadow Island. The base camp of the entire Shadow Island must be very empty now. There is not much hindrance force."

"That's right! Now is a good time to invade!"

Shang immediately nodded excitedly, and then took out a map from the storage ring, with locations marked on it, all drawn with small red circles.

"Um?"

When Ye Feng saw this rather strange map, his eyes suddenly showed a hint of curiosity, and he couldn't help but ask: "Shang, what kind of map is this in your hand?"

Shang smiled at this time and said aloud: "This is a marked map of places where wealth may be hidden in Shadow Island. I bought it from a wandering businessman."

"What?"

Hearing this, Ye Feng had a look of astonishment in his eyes and said loudly: "The land you were in in the southwest of the Demon Realm had nothing to do with the Shadow Island in the Sea of Darkness. Why did you buy this kind of thing?" map?"

Shang just smiled mysteriously at this time, and suddenly took out more than a dozen maps from his storage ring.

Then the old demon dragon chuckled and said, "Actually, I have almost all the maps of the major forces in the southwest of the Demonic Domain and their base camps."

At this moment, Ye Feng stared at the dozen or so maps held by Shanglong's claws in astonishment, and couldn't help but admire: "You are so professional."

Shang chuckled and said aloud: "I bought so many maps to prepare for emergencies. If a big force suddenly encounters a war or is destroyed, I can find some wealth that others cannot find. To be honest, the wandering businessman who sold me the map is really a strange person."

After talking

, Shang immediately looked at the map of Shadow Island in his hand, and then said aloud: "Let's rush towards the northern area of Shadow Island first. In a barren mountain in the northern area of Shadow Island, there is the elixir reserve of Shadow Island. If we're lucky, we should be able to get the entire Shadow Island's elixir reserves."

There was a look of surprise in Ye Feng's eyes, and he asked aloud: "Can demons also make elixirs?"

Shang nodded at this time and said loudly: "Of course, but the quality of the elixirs they refined is not very good, but the materials used are very high-end materials. Anyway, Ye Feng, you want to improve your own To cultivate your skills, just swallowing the energy in the elixir is enough, and it doesn't matter what the quality of the elixir is."

Ye Feng nodded immediately: "What you said makes sense, let's go take a look quickly."

Swish, swish, swish!

Swish, swish, swish!

At this time, according to the map in Shang's hand, Ye Feng and Shang quickly arrived at the place where the elixirs were stored on Shadow Island.

Sure enough, there is a barren mountain here, which doesn't look amazing.

But Shang laughed at this time and said aloud: "No one would have thought that the Shadow Demon Clan on Shadow Island would store all the elixirs on their entire island in a cave under this barren mountain."

"I'm going to explore the way ahead."

After saying that, Shang immediately flew forward, trying to smash the barren mountain into pieces.

Uh-huh! Uh-huh!

But the moment Shang flew over, two shadow demon guards wearing black armor suddenly appeared in front of Shang, and an extremely powerful aura of cultivation burst out from their bodies.

That was clearly the breath of power of the Great Perfection of the Tenth Level of the Naling Realm.

"Who are you? How did you get here?"

At this moment, the two Shadow Demon Clan guards immediately shouted loudly.

Uh-huh!

Shang was about to say something at this time, but Ye Feng rushed forward and quickly waved two fists.

In his fist, terrifying power suddenly burst out.

Boom!

Boom!

Accompanied by two terrifying roars, the two shadow demon guards at the tenth level of the Naling Realm, the Great Perfection, were directly blown to pieces by Ye Feng.

Then it was swallowed directly by Ye Feng.

"boom!"

Ye Feng's cultivation level has been directly upgraded from the third level of Naling Realm to the fourth level of Naling Realm.

At this time, Ye Feng smiled slightly and said aloud: "My skill is pretty good, it made me rise to the next level."

You must know that the most powerful group of top experts in Shadow Island now follow the island owner of Shadow Island and fight against the masters of forces from all major forces at high altitudes.

Therefore, the defense force on Shadow Island is still relatively weak.

That's why Ye Feng and Shang dared to come to this Shadow Island so unscrupulously, looking for all kinds of wealth.

To be honest, the Shadow Island guards in this elixir storage area are actually quite powerful.

But unfortunately, they encountered Ye Feng, who had terrifying combat power. Naturally, they could not block Ye Feng's two fists and were killed directly.

At this moment, Shang opened his eyes wide, looked at Ye Feng beside him, and couldn't help but exclaimed: "Little Ye Zi, I didn't expect that your strength is so strong now. You are a perfect level expert and you can do it with just two fists. It is really amazing. It seems that I have to find a way to improve my strength as soon as possible, otherwise I will not be able to keep up with your level of cultivation, Little Ye Zi. ”

Ye Feng smiled slightly at this time and said aloud: "Don't waste time, let's quickly find the place where the elixir is stored in Shadow Island."

Shang nodded, and immediately stretched out a dragon claw and grabbed hard at the barren mountain ahead.

Boom!

At this moment, the barren mountain in front of him was directly scratched to pieces by Shang's huge claw.

As the soil collapsed, a huge underground cave appeared in their sight.

In this cave, iron boxes contain pitch-black elixirs. Each elixir exudes black demonic energy. It looks quite evil, but it actually contains a very majestic power. energy fluctuations.

When Ye Feng saw this scene, his eyes suddenly showed surprise: "The wealth of this Shadow Island is really rich, there are so many pills."

Shang smiled and said loudly: "Little Ye Zi, let's just split it equally."

"good."

Ye Feng immediately nodded and rushed towards the underground cave under the barren mountain.

The two of them directly shared the elixir reserves in the entire cave equally.

Ye Feng did not put these elixirs into his storage ring at this time, but directly swallowed all the elixirs he obtained in one go.

Seeing this scene, Shang couldn't help but raise a dragon claw and said loudly: "Little Ye Zi, you are still as fierce as before. Your devouring ability is really domineering, evil, and... magic!"

Even though Shang was already an old friend of Ye Feng and knew that Ye Feng had the ability to swallow, he still felt a wave of excitement when he saw Ye Feng being so fierce and swallowing all the pills. Shock.

At this moment, after Ye Feng swallowed all the pills, he suddenly felt infinite energy exploding in his body.

Although Ye Feng and Shang now share all the elixirs equally, they only get half.

But you must know that this is where all the elixirs of the entire Shadow Island are stored.

Even if it is only half of the elixir, it is still the wealth and resources accumulated by Shadow Island for hundreds of years.

And you must know that the energy in the elixirs refined by these big forces in the Demon Realm is very majestic, because the alchemy materials used are all

It is a very high-grade material.

At this time, Ye Feng swallowed half of the pills, estimated to be hundreds of thousands, and felt that his entire limbs were like long dragons roaring.

I feel like my whole body is going to be bursting!

But at this moment, Ye Feng immediately activated the Devouring Domain, covering all the internal space in his body, and then quickly absorbed the terrifying and majestic power of the medicine.

At this moment, Ye Feng could feel that the power in his dantian began to increase at an incredible speed.

At the same time, Ye Feng's cultivation aura suddenly began to rise steadily.

"boom!"

The fifth level of Naling Realm!

"boom!"

The sixth level of Naling Realm!

"boom!"

The seventh level of Naling Realm!

"boom!"

The eighth level of Naling Realm!

At this time, Ye Feng's cultivation breakthrough was simply unstoppable. After all, this was all the elixir reserves of Shadow Island. Even if Ye Feng and Shang Ping shared half of it, it would give Ye Feng a huge amount of energy. , Ye Feng's skill was instantly improved unparalleled.

"boom!"

Ninth level of Naling Realm!

"boom!"

Great Perfection in the Tenth Level of the Naling Realm!

"boom!"

Half step out of the body! !

At this time, Ye Feng's cultivation finally stepped into the out-of-body realm.

Although it was only half a step out of the body, it also meant that Ye Feng was about to reach the level of a senior lord.

You must know that the Golden Horn Lord that Ye Feng fought against before was a super strong man at the out-of-body level.

Ye Feng still remembers that when he fought against the Golden Horn Lord, relying on his own strength, the fight was very difficult.

Because Lord Golden Horn is too powerful.

But if Ye Feng, who is now halfway out of the body, were to fight the Golden Horn Lord again, Ye Feng felt that he could crush the Golden Horn Lord to death with one hand, without relying on the power of the Golden City at all.

At this moment, Ye Feng finally broke through to the half-step out-of-body state, and his whole body was surging with a terrifying power that made people palpitate.

But at this time, Ye Feng knew that he was still unable to fight the strongest group of superpowers in Shadow Island.

So next, Ye Feng looked at Shang beside him, with a hint of excitement in his eyes, and said loudly: "Shang, let's continue to the next place on Shadow Island where wealth is hidden. With my current cultivation level, With my strength, as long as the battle between the top demon clan warriors in the sky does not end, no one in the entire Shadow Island can stop me."

Seeing how powerful Ye Feng was, Shang immediately laughed out loud: "Okay! Next we go to the shadow island's practice storage place. Maybe we can get the most powerful inheritance from the shadow island! That is priceless. It's the secret of Shadow Island!"
