

## Ancient 3591

Chapter 3591 A huge fortune

Although I don't like it, I can't waste it.

So at this time, Ye Feng controlled a hundred thousand demon warriors, accelerated his speed, and dug out all the small ore veins with relatively low reserves in front of him overnight.

At last count, Ye Feng earned nearly 600,000 kilograms of mineral crystals.

If it were before, Ye Feng would be quite happy to have earned so much.

But now I heard from the middleman that this central area of the desert can earn so many vein crystals at once.

Ye Feng naturally looked down upon this small mineral vein.

However, Ye Feng still honestly put the 600,000 kilograms of vein crystals into his storage ring.

After all, no matter how small the mosquito legs are, they are still meat and cannot be wasted.

Swish!

At this time, Ye Feng followed the middleman and quickly flew towards the center of this desert land.

For Ye Feng, this is definitely a huge opportunity for him to make a fortune.

Although the cultivation level of these demon warriors summoned from the gate of Abi Hell is limited to the same level as myself, after devouring them, their skills will not increase in any significant way.

But there is an endless supply of these demon warriors, and they can be used as their own slaves to mine mineral veins, which is a very good use.

After all, these demon warriors are almost endless.

Back then, the Lord of Abi Hell trained countless demon armies in order to conquer the legendary heaven.

Therefore, Ye Feng has a steady stream of free labor in his hands.

At this moment, Ye Feng followed the middleman and soon came to the center of this desert land.

There are mineral veins everywhere here, and you can find a new mineral vein by walking a few steps.

It can be said that this is the most precious place in the entire desert.

Therefore, the entire central area is controlled by the royal family of the Asura Empire.

However, no matter how powerful the royal family of the Asura Empire is, it is impossible to fully develop the power of the entire vast mineral vein.

So the current situation was formed.

Anyone who is willing to mine the veins here can come to you, but they must hand over one million kilograms of vein crystals to the royal family every day.

For the royal family of the Asura Empire, this was a sure-profit deal.

Therefore, the Asura royal family is also happy to mobilize the power of all slave owners in this way.

However, few slave owners came here to mine the veins.

Because it's simply not cost-effective.

If they calculate the consumption of slaves, including the one million vein crystals handed over, they will have nothing left at all in the end.

So Ye Feng came here with this middleman at this time

At that time, it was almost impossible to see too many people mining mineral veins here.

Even if there are people mining mineral veins here, it is only some super huge slave owners who have a lot of slaves who have the courage to mine here.

But these restrictions are nothing to Ye Feng.

Because Ye Feng has a steady stream of demon warriors, they can provide Ye Feng with a huge free labor force.

And Ye Feng is not afraid of these demon warriors dying from exhaustion at all.

Because for Ye Feng, his Abi Hell Gate can connect to the depths of Abi Hell and summon a steady stream of demon warriors.

At this moment, Ye Feng followed the middleman directly to the center of this land full of mineral veins.

There is a huge pavilion here.

At this time, the middleman said to Ye Feng: "Your Excellency Ye Feng, wait for me for a while. In this pavilion are members of the royal family who are looking after this land of mineral veins. I will just go over and buy some connections."

When Ye Feng heard what the middleman said, he immediately nodded slightly, and then started waiting directly on the spot.

At this moment, Ye Feng looked around and found that a lot of ground was unmined.

Obviously there are many mineral veins here, but many resources have not been mined, which makes Ye Feng's eyes full of deep expectations.

If you start your own business and have a steady stream of demon warriors mining, you will definitely be able to earn huge wealth.

However, Ye Feng also knew that he could not summon too many demon warriors at once, otherwise, it would definitely arouse the suspicion of the royal family of the Asura Empire, which would be troublesome.

Therefore, Ye Feng felt that he could only summon 200,000 demon warriors at most.

But this is enough, allowing Ye Feng to earn tens of millions of kilograms of vein crystals every day.

After Ye Feng waited for a while, the middleman came back quickly with a happy smile on his face.

Ye Feng saw this scene and immediately understood. It was obvious that this middleman had bought the relationship.

At this time, the middleman held a special golden token in his hand, handed it to Ye Feng, and said loudly: "From now on, Mr. Ye Feng, you can mine around here as you like, but you must turn in a piece of gold token every day." No matter how many jins of crystals you dig out, after turning over one million jins of crystals, all that is left belongs to you."

When Ye Feng heard what the middleman said, he immediately took the special golden token and said with a smile: "Okay, I understand."

After saying that, the middleman did not leave, but followed Ye Feng.

Ye Feng saw this scene and said aloud: "You follow me, I am not comfortable with it, you should wait for me in the imperial city. I will tell you how many kilograms I have dug out in the end."

The middleman seemed a little hesitant when he heard what Ye Feng said.

But then he nodded.

After all, Ye Feng is already a very mysterious existence in his heart, so this middleman does not dare to offend Ye Feng too much.

Next, he did as Ye Feng said and left the place directly, returning to the imperial city first. .??.

At this moment, Ye Feng discovered that there were no strong men from the Asura Empire around to watch over his mining veins.

Because the rule here is that no matter how many veins you dig, you must turn in one million kilograms of vein crystals every day, and you can keep the rest.

When the royal family of the Asura Empire formulated this rule, they also fully considered the mining capabilities of the major slave owners.

Therefore, they feel that no matter how large a slave owner is, he can only dig up a few million kilograms of mineral crystals in a day.

But they probably would never have thought that Ye Feng had the Gate of Hell in his body and a steady stream of free labor.

Moreover, you must know that these demon warriors are well-trained, their combat effectiveness is very strong, and their physical strength is naturally very durable. Mining mineral veins is naturally a piece of cake.

At this time, when Ye Feng saw no one around, he immediately stopped hesitating and directly released the Golden City, and began to summon the demon warriors from the Abi Hell Gate hidden deep in the Golden City.

Wow!

At this moment, all the demon warriors flew out from the Gate of Abi Hell, and then quickly flew in front of Ye Feng, digging for the mineral veins hidden in the entire ground.

At this time, Ye Feng exuded his soul power and explored the surroundings.

While there was no one around to observe him, Ye Feng released a million demon warriors at once, far exceeding the 200,000 demon warriors he had planned before.

Originally, Ye Feng felt that in this very precious place where mineral veins gathered, there must be strong men from the Asura Empire monitoring the surrounding activities at any time.

Therefore, Ye Feng initially planned to release at most 200,000 demon warriors.

But now Ye Feng suddenly discovered that there was no such thing at all, and there was no monitoring by the powerful people of the Asura Empire.

So Ye Feng was naturally preparing to frantically dig all the mineral veins here.

At this moment, Ye Feng released one million demon warriors at once.

Then Ye Feng suddenly discovered that he could not release the demon warrior.

This made Ye Feng couldn't help but murmur, "It seems that there are a million demon warriors at the same level as him."

Ye Feng also understood at this time that the demon warriors summoned by Abi Hell Gate were not endless.

These are the demon armies trained by the Lord of Abi Hell back then, and they still have limitations.

But for Ye Feng, one million demon warriors are enough.

And you must know that this is just a demon warrior at the same level as Ye Feng currently.

Next, Ye Feng summoned demon warriors who were at a lower level than himself.

In the end, Ye Feng released tens of millions of demon warriors, frantically digging for mineral veins here.

In just three days, Ye Feng hollowed out almost the entire underground.

All the mineral veins are collected into the pocket.

In the end, Ye Feng roughly took stock and found that in the past three days, he had excavated nearly a few billion kilograms of vein crystals!

Billions of pounds!

This can be said to be a huge fortune!

And what shocked Ye Feng was that the entire surrounding mineral veins had been mined by him and were gone.

This made Ye Feng's eyes suddenly stunned, and he couldn't help but feel a thump in his heart.

I have dug out all the mineral veins around here and put them into my bag. It is estimated that this situation will be discovered soon, and I will have to run away quickly.

Uh-huh!

At this moment, Ye Feng immediately returned to the entrance of this mineral land, then paid three days of fees, a total of three million crystal stones, and then left here directly, flying quickly towards the direction of Asura Imperial City. go.

After Ye Feng returned to Asura Imperial City, he was still a little worried. He didn't know if the strong men of Asura Empire would find out that he had done these things.

But in the next few days, Ye Feng breathed a sigh of relief.

Because the news coming from the land of mineral veins has little to do with him.

Countless mineral veins disappeared overnight, which really shocked the entire Asura Imperial City.

But no one would doubt Ye Feng.

After all, no one thought that a little demon boy could do all this.

Including the middleman who contacted Ye Feng, no one would doubt Ye Feng.

Because no one would have thought that Ye Feng could let tens of millions of demon warriors mine at once, which is really a huge deal!

I'm afraid even the Asura royal family wouldn't be so generous.

Chapter 3592 Nine Claws

In the following period of time, in order to avoid the limelight, Ye Feng did not immediately take out the mineral crystals in his hands.

Otherwise, it is very likely that someone with an intention will discover it.

As for the middleman who took Ye Feng to mine, Ye Feng met him once and gave him some reward, and then Ye Feng directly cut off contact with him.

After all, all the mineral veins outside the imperial city of the entire Asura Empire have been hollowed out by himself.

So it is estimated that Ye Feng will not continue to mine in the future. Naturally, he does not want to waste time maintaining the relationship with the middleman.

Ye Feng's next plan is to lurk for a while, and then sell all the mineral crystals in his hands, and then exchange them for various precious training resources to improve his cultivation strength.

But in the next few days, a piece of news caught Ye Feng's attention.

That is, a very grand auction will be held in the imperial city of the Asura Empire.

In this auction, there will be many excellent cultivation resources from all over the Demon Realm.

This made Ye Feng immediately give up his plan to exchange for resources from ordinary shops in the imperial city.

Instead, he plans to keep all the billions he gets after mining and prepare to buy things in this auction.

After all, this kind of grand auction is only held once every many years. Ye Feng happened to meet it this time, so naturally he would not miss it.

After all, the items in the auction are absolutely unique and rare treasures, otherwise they would not be put up for auction, and they are things that cannot be bought in ordinary shops.

In the next few days, Ye Feng stayed in the wing of his long-term rental inn, waiting for the grand auction.

On the early morning of the fourth day, Ye Feng finally walked out of the inn and flew quickly towards the central area of the Asura Empire's imperial city.

Ye Feng's speed was very fast, and he arrived at the central area of the imperial city in a blink of an eye.

In the central area of the imperial city, not only the palace of the Asura Empire stands here, but also many other industries of the Asura Empire, such as the grand auction center, or the VIP hotel where the royal family specializes in receiving foreign dignitaries, etc., all of them are Concentrated in the most central area of Asura Imperial City.

Therefore, this is the most prosperous place in the Asura Empire, and it is also a place where only the most noble people are qualified to come.

When ordinary demons come here, they will probably be shocked by the luxurious buildings in front of them and feel that they are poor and humble.

At this time, Ye Feng walked directly into the Asura Empire's auction center.

The grand auction center of the Asura Empire is a place specially used to hold auctions of all sizes.

This grand auction, which is held every three years, is naturally held here.

The entire building of the Grand Auction Center is a huge venue that stands nine kilometers tall. It has a unique shape and looks very majestic and magnificent. It is simply a spectacle.

When Ye Feng walked to the door of the big auction center, he actually had to pay a million kilograms of mineral vein crystals before he could enter.

This one million is the ticket to this big auction center.

In other words, if you don't have huge wealth in your hands, you are not qualified to enter the large auction center to participate in this grand auction.

Ye Fengjiang

All the large and small mineral veins in the desert outside have been hollowed out, so now that I have billions of wealth in my hands, I naturally don't care about the admission fee of just one million.

So at this time, Ye Feng very casually paid one million kilograms of vein crystals, and then walked into the auction center very casually.

Seeing Ye Feng giving out one million so casually, the reception staff at the surrounding auction centers suddenly looked in awe of Ye Feng.

They knew that this must be the heir of a certain super family to have such a huge wealth.

Spent a million and didn't even blink an eye.

They probably never imagined that Ye Feng, who looked young, was actually not a scion of a super wealthy family, but a rich man who made a fortune through mining.

At this moment, Ye Feng held billions of mineral vein crystals in his storage ring. Naturally, he was wealthy and very confident. He walked into the grand auction center and sat down in the VIP seat.

At this time, Ye Feng looked around and found that many people had entered one after another.

All of these people are distinguished figures in the Asura Empire, and even other major forces outside the Asura Empire.

For example, some princes from the demon dynasty or princes from the demon dynasty will come here to participate in this super auction.

Because only big shots of this level are qualified to participate in this auction.

Therefore, almost everyone present was a big shot!

Noble status and prominent status!

For Ye Feng, now that he is participating in this grand auction, he naturally wants to buy treasures that can quickly improve his cultivation.

You know, although the resources in many shops are very good, they are definitely not as high-end as those in such grand auctions.

Ye Feng is now in the imperial city of the Asura Empire. His only purpose is to purchase various cultivation resources, improve his cultivation strength, and reach the peak state of the Demon Realm as soon as possible, and then he can go to the dark world.

If Ye Feng cannot ascend to the most powerful realm that the Demon Realm can accommodate, he probably feels that after entering the dark world, he will still be unable to defeat the superpowers of the terrifying Dark Demon Cult.

Therefore, in order to avoid this situation from happening, Ye Feng naturally wanted to improve his cultivation strength as much as possible in the demon realm, which was relatively safe for the time being, before he officially faced the terrifying and huge dark demon sect.

And while Ye Feng was thinking secretly, more and more big shots came to the entire venue.

These big shots are all very noble, and they all come from various super powers, and of course there are also various nobles from the Asura Empire itself.

They are all giants in every industry, and their wealth is very huge, so they have the confidence to participate in such a grand auction.

If they were ordinary nobles or some small lords, they probably wouldn't be able to auction anything at all here.

Because their wealth is simply not enough to support their bid here.

Ye Feng is probably the most identityless person present.

But although Ye Feng does not have a distinguished status now, nor is he a scion of a super big family, Ye Feng has earned huge wealth through mining this time and is already as rich as the country.

So at this time, Ye Feng felt that no matter what big shot came around, as long as he wanted it, he would be able to auction it off.

After all, Ye Feng now has billions of kilograms of vein crystals in his hands.

Mine crystals are definitely as hard currency as currency in the Asura Empire.

It can be said that Ye Feng now has a large amount of cash flow wealth, so he is naturally very confident about this auction. ??

At this moment, almost all the seats in the guild hall were filled with big shots coming from afar.

On the high platform in the middle of the guild hall, the demon old man who presided over the auction also appeared.

The cultivation aura of this demon old man is very powerful.

It was obvious that the old demon at the auction was a very noble figure who could suppress the entire place.

Otherwise, someone will definitely cause trouble.

Buzz!

At this moment, the light in the entire venue dimmed.

All the light was gathered on the auction platform in the middle.

At this time, the old demon man who presided over the auction looked at all the big shots in the audience, looking neither humble nor arrogant. He smiled very calmly and said: "Thank you all for coming and supporting this grand auction. The auction will be official next time." start."

Almost at that moment, the demon old man clapped his hands, and immediately there were several guards in armor, working very hard to carry a huge stone to the high platform in the middle of the auction.

Swish, swish, swish!

All eyes are focused on this huge stone.

"This should be the first auction item in this auction."

In the audience, someone couldn't help but whisper.

However, many of the big names present were not very interested in the auction items that had just begun.

Because they all know that the things that are auctioned at the beginning are usually relatively common things, or some strange things that even the auction house itself does not know the purpose of.

The truly precious things basically appear at the end.

At this moment, the old demon from the auction immediately made an introduction and said: "This stone is the first auction item in this auction. It is said to come from a higher realm and fell from the sky. , no one knows what is contained in it, because this stone cannot be broken open at all. This stone was entrusted to us for auction by a mysterious figure. This mysterious figure said that there is a peerless divine object hidden in this stone. , but we can't find out whether it is really there at the auction, so it's up to the big shots present to show their talents. The starting price for this stone is three million crystal stones."

Almost at the moment when the old man in charge finished speaking, Ye Feng's eyes suddenly showed a trace of surprise.

Sure enough, not just ordinary people can participate in this grand auction.

In addition, at the beginning of the auction, the broken stones, which had no specific purpose, had a starting price of three million crystal stones. It really made Ye Feng see the luxury of such a grand auction.

At this moment, many of the big shots present seemed not very interested in this mysterious stone.

So there was a moment of silence.

The demon old man seemed to have anticipated this scene, and immediately waved his hand in embarrassment, asking the guards around him to carry the stone down again. It was an unsold auction item.

Someone in the audience below suddenly spoke up and said: "This piece of broken stone was put up for auction at the last auction. No one bought it. I think you should serve the real food quickly. Don't fool people with such weird things." "

But at this moment, a clear young voice sounded: "I will pay three million crystal stones to take a picture of this stone."

Almost at the moment when these words fell, the eyes of many important people present were inevitably focused on the direction of the young man's voice.

"Um?"

"Who is this kid?"

They immediately saw an ordinary young man in white sitting in the audience. He didn't seem to have anything special.

But he was so generous, spending three million crystal stones to buy a piece of broken stone that no one knew what it was used for.

It's truly luxurious.

Although the people present were all big figures from various major forces and had huge wealth in their hands, they would not waste three million crystal stones to buy a piece of rubble that they knew nothing about.

But this boy in white did this, which was surprising.

Some people couldn't help but sarcastically said: "Every grand auction, there is always a group of ignorant young people from big families who don't know the heights of the world and squander money here. They are really prodigal."

However, at this time, the young man in white seemed to have turned a blind eye to the sarcastic voices of the people around him. He just looked forward to paying three million crystal stones to buy this piece of broken stone that no one knew what it was used for.

This boy in white is naturally Ye Feng.

The reason why Ye Feng bought this stone was because Ye Feng possessed the Divine Eye of Creation.

The moment this huge stone was moved to the high platform, Ye Feng immediately used the Divine Eyes of Creation to see through all illusions and obstacles, and saw clearly that there was a small dragon sealed in this stone.

This little dragon seems to have been sealed for thousands of years. It is not completely dead yet and still has life.

The small black dragon, covered with pitch black scales, seemed to be a demonic dragon with demonic attributes.

A demon dragon with demonic attributes is actually not very precious.

But Ye Feng saw that the claws of this demon dragon with demonic attributes were not the ordinary three or four claws, but the legendary nine claws!

You know, the nine-clawed dragon is definitely the emperor among dragons!

In other words, the nine-clawed little black dragon sealed in this stone may be the emperor among the legendary dragons.

Although he is still very young now, if he is nurtured, he will definitely grow into an earth-shattering Demonic Dragon Emperor in the future!

Chapter 3593 Very embarrassing

At this moment, after Ye Feng got this piece of broken stone, the eyes of all the important people present were all focused on Ye Feng.

They were very curious as to why Ye Feng spent so much money to buy such a broken stone that failed to sell at the last auction.

Some people think that Ye Feng is a useless second-generation ancestor and a complete prodigal.

Spending this money is just to show off in front of everyone and show that you have a lot of money.

However, there are also many big shots with a slight twinkle in their eyes, as if Ye Feng has seen something particularly precious hidden in this huge stone, which is why they are so looking forward to such a stone.

So at this time, many big shots looked at Ye Feng, with deep curiosity in their eyes and a hint of anger.

Because they felt more and more that Ye Feng must have seen something particularly precious hidden in this stone before he bought it.

Because now Ye Feng didn't hide his expression at all.

Ye Feng's face was full of joy.

At this moment, Ye Feng, even in the midst of everyone's attention, took out a demon-slaying sword from his storage ring, and then began to slowly cut away at the huge stone in front of him, and finally dug it out directly from the stone. A small black dragon.

The reason why Ye Feng did this at this moment was not to deliberately show off his methods in front of everyone, but because Ye Feng suddenly felt that the life breath of the nine-clawed little black dragon sealed in this stone had already Almost too weak to be noticed.

Therefore, Ye Feng must now directly cut out the nine-clawed black dragon sealed in this stone on the spot, and then maintain its life force as soon as possible.

Ordinary things simply cannot maintain the vitality of this little nine-clawed black dragon. After all, this little nine-clawed black dragon must be a very advanced creature, a born-born Demonic Dragon Emperor-level existence among the legendary Demonic Dragon Clan.

Although it is still very young, it is not just ordinary resources that can sustain its life.

But Ye Feng has Hongmeng Purple Qi in his body, which is naturally enough to maintain the vitality of this nine-clawed little black dragon.

So at this time, after Ye Feng cut the nine-clawed black dragon out of the stone, he directly began to transfer Hongmeng purple energy to it, so that the vitality of the nine-clawed black dragon continued to flourish.

At this moment, when they saw Ye Feng cutting a small black dragon directly out of the stone, many big shots around him who were still very curious suddenly showed a trace of disdain in their eyes.

"It turns out to be just a small black magic dragon. This young man still treats it as a treasure. He really has no vision."

At this moment, many big shots felt that Ye Feng was making a fuss out of a molehill. After all, a small, ordinary black dragon was of little value and was very common.

\u003c

br\u003e But suddenly at this moment, someone present suddenly seemed to see something, and couldn't help but exclaimed: "Look at the claws! This doesn't seem to be an ordinary magic dragon, the claws of this little black dragon, It's actually Nine Claws!"

"What? It's the legendary Nine Claws?"

Hearing someone making such a sound somewhere in the auction venue, many big shots around him suddenly widened their eyes.

An old prince of the demon clan couldn't help but said: "A nine-clawed dragon is a natural emperor among the dragon clan. This kid actually got a young nine-clawed imperial dragon that may become emperor in the future. !"

"Nine-clawed Imperial Dragon!"

At this time, everyone was so shocked that they couldn't help but widen their eyes and stared in the direction where Ye Feng was sitting in shock.

"What? It's actually a nine-clawed imperial dragon?"

At this moment, even the old man who was hosting the grand auction couldn't help but have a look of deep surprise in his eyes.

As an old man, he didn't seem to have expected that this mysterious stone that failed to be auctioned last time was not a broken stone, but an ancient stone that sealed a young nine-clawed emperor dragon for tens of thousands of years!

At this time, the old man in charge immediately stared at where Ye Feng was sitting, with a trace of strangeness in his eyes.

He began to pay attention to this ordinary-looking boy in white.

This is definitely a very far-sighted being, and he is not at all like a prodigal son as everyone imagines.

At this moment, many big shots who had just ridiculed Ye Feng for being a prodigal son looked very ugly and embarrassed.

Because at this moment, Ye Feng cut out a nine-clawed Earth King Dragon from the stone in front of everyone, and hit them hard in the face, making them very embarrassed and their faces turned livid.

"well!"

"What a pity!"

At this time, many important people also regretted not buying this stone.

You know, although this is just a young nine-clawed emperor dragon, its future potential is immeasurable.

If you can cultivate it to maturity, you will definitely be able to fight the legendary demon!

This young nine-clawed imperial dragon is definitely worth hundreds of millions of crystals!

And Ye Feng just spent only three million crystals to buy this nine-clawed imperial dragon. It was really a huge profit!

It makes people envious, jealous and hateful to the extreme.

At this moment, Ye Feng could naturally feel that the eyes of everyone around him were becoming a little jealous.

There were even some big shots with murderous intent in their eyes, which Ye Feng could sense.

"hehe."

In response, Ye Feng just smiled coldly and did not react.

Ye Feng's current cultivation level is very powerful.

If these so-called big shots around want to plunder the nine-clawed imperial dragon in their hands, then they will definitely let them know what regret is.

But Ye Feng also knows that in this grand auction venue, no matter how high the identity and status of the big shots are, they will not mess around.

After all, this is the imperial city of the Asura Empire. It is heavily guarded and has strict rules. No one dares to mess around here.

At this moment, under the greedy gazes of many big shots, Ye Feng's face was calm, and he very calmly placed this small nine-clawed imperial dragon into the golden city space hidden in his body.

Ye Feng asked the sisters of the Fire Phoenix clan in the Golden City to take good care of this young nine-clawed imperial dragon.

Feng Jiuling, the younger sister in the Golden City, saw Ye Feng bringing in a small nine-clawed imperial dragon, only the size of a palm. She couldn't help but smile and said: "What a cute little black dragon, hehe, I just don't know if it's a little boy or a little girl?"

As for her sister Feng Jiuyao, her vision was much higher. She stared at the nine claws of this little black dragon, and she couldn't help but exclaimed: "It turns out to be the legendary nine-clawed imperial dragon, Ye Feng, you The luck is really good."

Ye Feng didn't say much at this moment, he just asked the sisters to take good care of the nine-clawed imperial dragon and not let it die, otherwise it would be a big loss.

At this moment, in the auction venue, Ye Feng very calmly sent the nine-clawed imperial dragon into the golden city, and continued to sit in his original seat, watching the next auction.

At this moment, many big shots also turned their attention away from Ye Feng.

Although Ye Feng's action this time made many people feel envious and jealous.

But no one dared to take action against Ye Feng at this time.

After all, auctions have auction rules.

At this moment, many big shots secretly memorized Ye Feng's appearance, obviously wanting to take action against Ye Feng after the auction.

Ye Feng naturally knew this, but Ye Feng did not leave. Instead, he sat there very calmly and did not move at all.

Because this grand auction has just begun, there will definitely be many good things coming, and Ye Feng doesn't want to miss it.

You know, Ye Feng has billions of crystal stones in his hands at this moment that he has not spent yet!

At this time, the old man in charge of the auction also came to his senses and said quickly: "Congratulations to this young man for winning the prize."

After this auction ends, if this young man wants to cooperate with our auction, our auction can recycle the nine-clawed imperial dragon in your hand at a high price. "

Ye Feng just smiled faintly at the words of the old man in charge and didn't say much.

The old man in charge did not say anything more, but said aloud: "Okay, the auction will continue. The second auction item this time will definitely surprise everyone. It is an absolute good thing."

At this moment, the old host said, and then clapped his hands.

Suddenly there were several very beautiful demon women, each holding a plate in their hands.

There were nine demon women in total, each holding nine plates. Each plate contained a uniquely shaped weapon.

At this moment, the old man in charge immediately said to the audience: "The weapons in these nine plates are the Kunlun artifacts left behind by the tenth-ranked superpower in our Demon Domain, the 'Kunlun Demon Lord'. A total of It has nine parts, and when combined together, it can unleash extremely terrifying power. The auction is now open, with a starting price of 10 million crystal stones."

"hiss!"

The moment the old man finished speaking, there was a gasp of air in the room.

I didn't expect this auction to be so big.

It was just the second auction item, and the starting price had already reached 10 million crystal stones.

You know, according to the rules of the grand auction, the starting price is getting higher and higher, which means that the value of each auction item is getting bigger and bigger.

In other words, the starting price of every subsequent auction item will exceed 10 million crystal stones.

This made many of the big shots present feel a little embarrassed, but their eyes became more expectant.

"It seems that this grand auction has a lot of good things."

Some big shots couldn't help but sigh.

You know, in previous grand auctions, the starting price for the second auction item was only three to four million crystal stones at most.

But this time, the second auction item came directly to 10 million crystal stones, which is really a big deal!

Ye Feng was not very interested in the second auction item at this time, the weapons of the Kunlun Demon Lord. After all, the weapons in Ye Feng's hands were enough for him to use for the time being.

But just when Ye Feng closed his eyes and rested, preparing to wait for the third auction item.

suddenly.

A message sounded in Ye Feng's ears:

"This little friend, I am the emperor of the Warcraft Dynasty. I want to use 100 million crystals to buy the young nine-clawed dragon king you just got. What do you think? You have to know that your cultivation level is too low. Now, the ninth level of the Caidao Realm can't guard this young nine-clawed emperor dragon with unlimited potential."

Chapter 3594 Blood of Gods and Demons

The moment this voice rang in Ye Feng's ears, Ye Feng's eyes were slightly stunned.

Listening to the tone of this voice, in addition to making a deal with himself, there seems to be a hint of threat.

After all, the other party said that he couldn't guard the nine-clawed imperial dragon, which made Ye Feng's eyes reveal a hint of sneer.

Uh-huh!

At this moment, Ye Feng suddenly looked in a certain direction. He immediately saw an old man who looked like a fairy, watching him from a certain seat in the auditorium.

Ye Feng looked at this immortal old man. He should be the emperor of the Warcraft Dynasty.

However, this person does not look like an emperor, and he does not have the majesty of an emperor. Instead, he looks like a master of Taoism.

Ye Feng's face was very indifferent at this moment, and he said loudly: "Whether I can guard this young nine-clawed emperor dragon is my business and has nothing to do with you. I will not trade it."

Hearing Ye Feng's firm refusal, the emperor of the Warcraft Dynasty suddenly showed a trace of gloominess in his eyes.

He never expected that he would reveal his identity as the emperor of the Warcraft Dynasty, and also say that he would use a huge wealth of 100 million crystal stones to trade for this nine-clawed earth king dragon, but the other party did not agree.

"What an arrogant boy."

This made the emperor of the Warcraft Dynasty look very angry and depressed.

At this time, the emperor of the Warcraft Dynasty continued to send messages to Ye Feng and said: "Young man, this is the imperial city of the Asura Empire. It is not as simple as you think. The water is very deep, so don't make a mistake."

Hearing what the emperor of the Warcraft Dynasty said, Ye Feng immediately smiled, sent the message back, and said aloud: "It's easy to eat carrots and don't worry about it."

"you.....!"

Hearing Ye Feng's response, the emperor of the Warcraft Dynasty suddenly became furious.

The appearance of an expert with an immortal spirit also became a bit ferocious.

At this time, the emperor of the Warcraft Dynasty immediately did not say anything more, but stared at Ye Feng coldly, and there seemed to be a deep murderous intention in the depths of his eyes.

However, Ye Feng didn't bother to pay attention to such murderous eyes.

Although the emperor of this Warcraft dynasty is very powerful, he is the leader of a dynasty second only to the power of the empire.

However, Ye Feng is no longer the same person he was when he first entered the Demon Realm.

Ye Feng's current cultivation level is also quite strong.

And you must know that Ye Feng's true combat power is much stronger than the superficial strength shown by his cultivation.

And in addition, Ye Feng has various powerful trump cards in his hand, which are not as simple as the big shots around him think.

At this time, Ye Feng no longer paid attention to the emperor of the Warcraft Dynasty, but continued to look at the auction table in the middle.

At this moment, the second auction item, the powerful weapon, had been bought by another person for a high price of 20 million crystal stones.

At this moment, the old host on the high platform smiled and said: "Next, we will conduct the auction of the third auction item."

After finishing speaking, the old man in charge clapped his hands.

Behind the auction table, two strong men with a height of more than three meters suddenly came up carrying a huge coffin.

This coffin is all red and looks quite strange.

I saw this third auction item, Ye Feng's

His eyes became slightly more attentive.

Buzz!

At this moment, Ye Feng was turning the Divine Eye of Creation, trying to see what was hidden inside the coffin.

But the next moment, Ye Feng's face showed a look of surprise.

Because this was a red coffin, it actually blocked Ye Feng's Divine Eye of Creation, preventing him from peeking into the secrets inside.

"Um?"

This made Ye Feng's eyes show curiosity.

It seems that this red coffin is very unusual.

At this moment, many big shots present also had deep surprises in their eyes.

"Why did the coffin come up? What a bad luck!"

"I'm talking about the grand auction. Don't you have anything left to auction? You've brought up the coffins. Who will buy a coffin for yourself? Doesn't this mean that you are waiting to die?"

At this time, many big shots below couldn't help but make some disdainful noises.

At this moment, the old host on the high platform looked very calm, and did not show any special emotions because of the noise of the crowd.

The old man in charge just smiled slightly at this moment and said to the audience: "This is not an ordinary coffin, but a coffin dug out of the abyss of gods and demons."

"What?!"

Hearing what the old host said, the disdainful expressions of all the big shots present suddenly turned into fanaticism.

"The Abyss of Gods and Demons! The most terrifying and magical restricted area of life! Many of the top experts dare not step into it!"

"But it is said that there are huge treasures buried inside, which come from myths and legends of an era when there were many gods and demons."

At this time, some big shots couldn't help but exclaimed.

Some older people couldn't help but say: "Yes, it is said that the leader of a large empire did not believe in evil, had a vast cultivation base, and almost stood at the pinnacle of the demon realm. He directly broke into the divine realm. In the Demonic Abyss, I wanted to see what peerless treasures were buried inside, but in the end I fell into it, and was even enslaved by the taboo existence in the Demonic Abyss. It is said that every night when the moon is full, that An enslaved lord of the empire will roar angrily in the depths of the abyss of gods and demons. Some people say that he has become a kind of unconscious slave of gods and demons. "

hiss!

Everyone present could not help but gasp.

The abyss of gods and demons is so terrifying!

But at this time, everyone heard the old host saying that the coffin was dug out of the legendary abyss of gods and demons, which immediately attracted the attention of everyone present.

After all, the reputation of the Abyss of Gods and Demons is so great!

Many big shots were staring at the red coffin at this time, with deep fanaticism in their eyes.

Because everyone knows that no matter what is in the Abyss of Gods and Demons, it contains huge value.

At this time, the old host on the high platform seemed to be very satisfied with the performance of all the big shots present. He immediately squinted his eyes and smiled, and then continued to say: "This coffin is not dug by our auctioneers from the abyss of gods and demons. What came out was that we were entrusted by a mysterious young man. The identity of this mysterious young man is unknown, but I guess he should come from the abyss of gods and demons.

He brought out this coffin, and judging by his tone, there was a legendary corpse of a god and demon buried in this coffin. "

"Wow!"

Almost as soon as the old host finished speaking, there was an uproar in the entire venue.

"The corpse of a god and demon? It turns out to be a corpse of a legendary god and demon, in this red coffin?"

"That is an extremely precious thing. Not only can it be used to refine high-end medicinal materials, but some powerful forces may have secret techniques that can refine this corpse of gods and demons into extremely powerful puppets. In that case, But it's indestructible."

At this time, all the big shots present couldn't help but exclaimed in surprise, their voices filled with deep passion.

"Bodies of gods and demons?"

At this moment, Ye Feng also had a look of deep anticipation in his eyes.

The corpses of gods and demons are of great value to Ye Feng.

Not only can he steal the blood of gods and demons from this corpse of gods and demons, he will definitely be able to greatly improve his Hongmeng Immortal Body. He may be able to break through to a new level in time, allowing his physical strength to skyrocket unparalleledly.

In addition, if Ye Feng swallows the blood energy of gods and demons from the corpses of gods and demons, he will definitely be able to greatly increase his cultivation skills.

At this time, Ye Feng's eyes suddenly became extremely expectant, and he immediately stared at the red coffin on the auction platform.

At this moment, the atmosphere was like a powder keg, which was suddenly ignited and almost exploded.

If it weren't for the profound strength of the grand auction and the terrifying cultivation of the old man who presided over it, many of the big shots present would have been unable to hold back and would have wanted to kill people and buy goods.

At this time, everyone's eyes were fixed on the red coffin, with deep excitement in their eyes.

At this time, Ye Feng seemed to have discovered something. He couldn't help but show a trace of surprise in his eyes, and said loudly: "I can't sense the energy of gods and demons from this red coffin. Is there anything inside this coffin?" There's no body there, are you lying to us?"

"Um?"

The moment Ye Feng finished speaking, all the big shots in the room couldn't help but stare blankly, as if they didn't expect that Ye Feng would say such words and dare to question the grand auction.

However, at this time, some people still hold a wait-and-see attitude.

Because Ye Feng had already revealed his skills before, he actually saw a young nine-clawed emperor dragon hidden in a broken stone.

So at this time, Ye Feng's words made the heated atmosphere on the field suddenly become a little colder.

The old man who was hosting the auction was not angry at this time. He just smiled and said: "This little friend has good eyesight. He is right. I am going to continue talking. That is what is inside this red coffin." , it did contain a corpse of gods and demons, but that corpse of gods and demons had been eaten by the mysterious young man who entrusted us to auction this crimson coffin. At this time, the crimson coffin only contained a stained It has some skin of the blood of gods and demons, but it is also of great value, after all, it is the skin of the legendary gods and demons. "

"What?"

Hearing what the old host said, all the big shots present had expressions of astonishment on their faces.

It seems that I didn't expect that the real situation would be like this.

"What are you doing? It turns out that there is only a skin of gods and demons left! That's worth a hair!"

"Yes! Even if this skin of gods and demons is stained with some blood of gods and demons, it is not considered a treasure. It can only be said that for some old monsters who like to collect such strange things, there may be some attraction."

"But I estimate that people from the Heavenly Demon Alchemy Sect will be very interested in this thing. They like such weird things, and this skin of gods and demons is stained with the blood of ancient gods and demons. They can Use this to refine a peerless elixir, but this thing is not of much interest to ordinary people, because they don't have the ability to refine such weird things into a peerless elixir that will generate great value."

At this moment, many big shots present spoke out.

The attention paid to this red coffin was immediately reduced by more than half.

Only some big shots who like to make alchemy or practice medicine will be more interested in this piece of skin of gods and demons stained with the blood of gods and demons.

Although everyone was quite disappointed, they thought it was normal.

After all, this is only the third auction item today, and it is impossible to directly bring up a priceless complete corpse of a god and demon.

That's too exaggerated.

So it is within the acceptable range of everyone.

At this time, the old man in charge smiled slightly, as if he had anticipated everyone's reaction.

Next, the old man in charge just looked at the several important people present who seemed to be alchemists or alchemists, and said loudly: "This red coffin contains a skin stained with the blood of gods and demons. The starting price is one thousand and five thousand." Millions of crystal stones, masters who like to make alchemy and medicine, don't hesitate, this is a very rare thing, it is an extremely precious and peerless material. "

After hearing what the old host said, most big shots really didn't have much interest.

But there are several demon alchemists who are very interested.

After all, this kind of thing can only be encountered but cannot be sought.

They started bidding immediately.

"Sixteen million crystals!"

"Seventeen million crystals!"

"I offer 20 million crystal stones. I am the chief alchemist master of Tianmo Alchemy Sect. Jun Tianya, please give me some face."

...

"What? It's actually Jun Tianya, the chief alchemist master of the legendary Demon Refining Sect?"

"Oh my god, I didn't expect that this highly respected master of alchemy would also come!"

At this moment, everyone in the entire auction venue couldn't help but scream in surprise.

Obviously, Jun Tianya, the chief alchemist master from the Demon Refining Sect, enjoys a great reputation in the Demon Realm.

At this moment, no one in the audience made any bids.

Because this chief alchemist master has a very high status, no one is willing to offend this big shot.

Seeing this scene, Jun Tianya's face suddenly showed a look of deep satisfaction, with a trace of pride.

But at the next moment, an untimely voice suddenly sounded: "I am also very interested in this membrane stained with the blood of gods and demons. I will continue to bid 21 million crystal stones."

The person who spoke was none other than Ye Feng!

Because Ye Feng had extremely high expectations for the blood of gods and demons.

That will definitely allow your Hongmeng bloodline to evolve tremendously!

Chapter 3595 Early stage of the fourth level

At this moment, what Ye Feng said was somewhat inappropriate.

This made the alchemy master Jun Tianya, whose face was full of pride, suddenly turn a little gloomy.

At this moment, Jun Tianya looked in the direction of Ye Feng, with a hint of threat in his tone, and said, "Young man, do you really want to continue competing with me for this red coffin?"

When Ye Feng faced Jun Tianya's gaze, he just smiled faintly, seemingly without the slightest fear, and said, "Auctions rely on one's own wealth to compete. I don't care what your background is. Today I have Money, then I will buy everything I want."

mad!

Incredibly crazy!

Ye Feng said such words at this moment, which made many big shots present couldn't help but look deeply surprised in their eyes.

They never thought that this ordinary-looking young man would have such courage to dare to confront Jun Tianya, the chief alchemist master of the Demon Refining Sect.

At this time, the moment Ye Feng said these words, Jun Tianya, the chief alchemist master from the Demon Refining Sect in the audience, this elegant middle-aged man, his eyes suddenly became extremely gloomy at this moment. , and his face became a little ferocious, with a crazy killing intent deep in his eyes.

For Ye Feng, the other party's expression was not enough to cause him any fear.

So at this moment, Ye Feng responded to Jun Tianya with an indifferent smile, as if there was a look of disdain in his eyes.

"Damn boy!"

Seeing this scene, Jun Tianya suddenly stood up and shouted: "Boy, you are too arrogant! I will teach you a lesson!"

Buzz!

But suddenly at this moment, the old man in charge standing on the high platform not far away suddenly burst out with a terrifying and boundless cultivation aura.

That kind of cultivation aura is like a vast ocean, giving people a very scary and depressing feeling.

Jun Tianya, the chief alchemist master from the Demon Refining Sect, couldn't help but tremble.

At this moment, the presiding old man was full of divine light, like a demon coming, his face was very majestic, and he said loudly: "Everyone, please don't be impulsive. This is the venue of our grand auction, and no one is allowed to cause trouble, so Jun Tianya Although you are the highly respected chief alchemy master of the Demon Refining Sect, you must abide by the rules of my grand auction, otherwise, I will have to force you out. "

Hearing what the old auctioneer said, Jun Tianya suppressed his extremely angry expression.

But his eyes were filled with terrifying murderous intent. He stared at Ye Feng not far away and said harsh words: "Boy, I remember you. I will not let you leave Asura Imperial City alive." ”

Hearing what Jun Tianya said, many adults around him

Everyone's eyes showed deep horror.

Unexpectedly, Jun Tianya would dare to say such words in public. It seems that he has the intention to kill Ye Feng, a young man.

"This kid is so pushy and has offended several big shots. He is probably dead."

At this time, many of the big shots present felt deep pity for the young man Ye Feng.

Because they felt that although Ye Feng had extraordinary eyesight, his cultivation strength did not seem to be very good, and he did not seem to have any special identity.

If you offend a distinguished chief alchemist master like Jun Tianya, the outcome will definitely be very miserable.

"I once heard that there was a peerless genius who was very rude to Jun Tianya, so he was forcibly refined into a human-shaped elixir by Jun Tianya. It was really terrifying."

At this time, someone present whispered.

Many people couldn't help but their eyes trembled when they heard this.

Apparently, Jun Tianya, the chief alchemist master who looks gentle and gentle, is actually a very cruel and dark big devil secretly.

At this time, Ye Feng was indifferent. He sat in his seat very calmly and said loudly: "If no one continues to bid, then this red coffin will be mine."

Jun Tianya gritted his teeth at this time, but did not continue to compete with Ye Feng, because he still wanted to keep his money and auction the more precious final auction items.

After all, not everyone is like Ye Feng now, holding billions of cash flow crystals.

At this time, the old man in charge immediately smiled and said: "Okay, it seems that the skin of the god and demon in this red coffin belongs to this little brother."

Next, Ye Feng took out tens of millions of crystal stones and purchased this auction item.

"Hey, I have to say that although this guy in white is crazy, he is really rich!"

Everyone saw every time Ye Feng made a move, he just took out tens of millions without blinking an eyelid. It was really extremely generous.

Everyone couldn't help but guess who this young man in white was. His cultivation didn't seem to be that powerful, and he was much weaker than many major powers present, but he actually had so much money and so many crystals. , it's really incredible.

"Could this kid be the heir of a hidden family in the Demon Realm?"

At this moment, some people can't help but speculate like this.

But everyone knows that this possibility is very low.

Because the many big shots present are almost all prominent figures in the entire Demon Realm.

.

They have never recognized Ye Feng's appearance, so Ye Feng should not be a descendant of a super big family.

So at this time, Ye Feng's identity suddenly became the biggest mystery in the entire auction house.

What kind of existence is this young man who possesses huge wealth, but whose cultivation and status are not very good?

Confusing!

After this small episode, the old man in charge continued the auction of the next product.

The fourth auction item is a large cauldron inlaid with nine monster heads. It should be an extremely powerful weapon and can also be used to refine elixirs. It is a very rare treasure with different functions.

The field immediately fell into a scramble.

In fact, this kind of popular thing is what many big shots are willing to take pictures of. And it is precisely like the broken stones that just appeared, or the skins of gods and demons in the red coffins that can only be used to refine elixirs. Such strange and weird things cannot arouse any heated atmosphere. Only some special people would be willing to spend a high price to auction something like this.

So Ye Feng got the two most precious things at this time, and they actually didn't cost much.

At this moment, Ye Feng did not join the fight for the fourth auction item. Ye Feng was focused on staring at the red coffin that had just been delivered to him.

At this time, Ye Feng immediately opened the coffin on the spot.

Buzz!

Then he suddenly saw a bloody skin of gods and demons, exuding an ancient and majestic sacred aura.

Ye Feng immediately began to fuse the blood of gods and demons at this time.

This is a brand new bloodline of gods and demons, very advanced, coming from the age of myths and legends.

So after Ye Feng merged at this time, he immediately felt that the level of his Hongmeng bloodline was rapidly growing and transforming.

You must know that Ye Feng's Hongmeng bloodline has been promoted to the third level of Dzogchen before. At this time, with the help of this high-level and sacred blood of gods and demons, it is undergoing an extremely rapid transformation and improvement.

Wow!

At this time, Ye Feng felt that his whole blood was boiling, as if a brand new energy had been injected into him, making his whole body explode completely.

After all, the blood stained on this skin is the blood of gods and demons from ancient myths and legends, so it is naturally very high-level, very sacred, and its origin is also very powerful.

Ye Feng's Hongmeng bloodline immediately received an unparalleled improvement.

Boom! !

Suddenly at a certain moment, Ye Feng felt that the life source of his whole body was suddenly shaken.

Ye Feng

I know that my Hongmeng bloodline has completely transformed again, directly from the third level of Dzogchen to the new early stage of the fourth level in an instant!

At this time, Ye Feng could feel that his entire physical strength had made a qualitative leap.

You know, the Hongmeng bloodline has entered the early stage of the fourth level, which means that the power of Ye Feng's Hongmeng Immortal Body has also evolved to the early stage of the fourth level.

"A complete transformation on a large scale!"

Ye Feng clenched his fists at this time, feeling that every inch of his flesh and bones contained extremely powerful and infinite energy.

It's like a fist that can instantly smash an ancient sacred mountain into pieces.

At this time, Ye Feng's eyes were very excited.

Unknowingly, his combat effectiveness has been improved unparalleledly.

Ye Feng was very lucky that he was able to auction off this piece of skin stained with the blood of gods and demons, which greatly improved his most essential Hongmeng Immortal Body.

For Ye Feng, any means will eventually be eliminated.

But the Hongmeng Immortal Body will never be eliminated, it will only become stronger and stronger.

The power of the body is the most basic thing for Ye Feng.

So at this time, Ye Feng's physique has been greatly improved, and Ye Feng's combat power has naturally become unparalleled.

The Hongmeng Immortal Body accompanying Ye Feng finally transformed and upgraded to the early stage of the fourth level.

Ye Feng could feel that his fourth-level bloodline talent was slowly awakening.

However, Ye Feng has not yet fully discovered the fourth-level bloodline talent. It is estimated that it will take some time to buffer before his fourth-level bloodline talent can be fully revealed.

So far, the bloodline talent brought to Ye Feng by the Hongmeng Immortal Body is still very powerful.

The first bloodline talent is the melting pot of all things, which allows Ye Feng to plunder various bloodline constitutions for his own use.

The second is the Hongmeng True Body, which allows Ye Feng to transform into a purple giant, filled with the huge power of Hongmeng.

The third-level bloodline talent, Hongmeng Purple Qi, allows Ye Feng to repair all spiritual things in the world, and it also has a magical effect.

Ye Feng is now looking forward to what kind of blood talent he will awaken after entering the fourth level of his Hongmeng Immortal Body.

Anyway, Ye Feng knew that he must be very powerful.

While Ye Feng was thinking secretly, the tenth item on the auction stage had already been auctioned.

The old host said at this time: "The tenth auction item will be the final auction item. There are three finale auction items in this auction. The next tenth auction item will be these three finale items. This is the first auction item, I hope it will satisfy everyone. "

Chapter 3596 The Great Emperor's Original Skill

Swish, swish, swish!

At this time, when the old man in charge of the auction venue finished speaking, everyone's eyes were focused on the auction stage.

After all, many big shots came here specifically for the final auction items.

Because the final auction items of every grand auction are very precious, very rare, and priceless.

Therefore, many big names have already prepared money and are ready to compete for the last three products.

At this moment, the old host smiled and said: "The next auction is the first of the three grand finale products."

At this time, the moment the old man in charge finished speaking, there were several trolls wearing armor and fully armed behind him. They all seemed to have very deep auras and were very powerful.

Together they pushed a prison car made of steel and slowly walked out from behind the auction platform.

"What it is?"

Swish, swish, swish!

Swish, swish, swish!

At this moment, everyone's eyes were focused on the prison car guarded by these trolls.

I saw a ball of light emitting golden light suspended in this prison car.

This light group seemed to be alive, running around, trying to escape from the prison car.

But the material made of this prison car is not ordinary steel, but a kind of steel engraved with countless demonic runes, which can effectively control this light group that exudes golden light.

At this moment, everyone's eyes showed a trace of surprise, as if they did not expect that the first final auction item would be such a weird thing.

At this time, the old man who hosted the auction said with a smile: "This first auction item is the original skill of a demon emperor! If anyone auctions it and absorbs it, and refines it for ten years, his cultivation level will be gone. It's limited and breaks through to a big realm!"

"What?!"

Almost at the moment when the old auctioneer finished speaking, countless big shots in the field suddenly showed deep horror in their eyes.

They never thought that the first auction item of this grand auction would be so precious, and it was actually the original power of a legendary demon emperor.

As long as you absorb it, you can break through to a great realm without limit.

For those demon elders who have been unable to break through the realm for hundreds or even thousands of years, this is great news.

At this moment, many demon elders were staring at the original power of the demon emperor imprisoned in this prison, with deep longing in their eyes.

Because for them, they have already cultivated to a very high level. If they can break through to a larger realm without limit, then they will stand at the pinnacle of the entire Demonic Realm.

For them, this is simply unimaginable.

Because when you reach the end of your cultivation, it will be more and more difficult to break through.

The entire world will naturally suppress the cultivation realm of these seniors.

But these old timers are not willing to go to a more advanced dark world, because now

Everyone knows that the dark world is very dangerous, and no one is willing to die.

Therefore, if they can break through to another level in their relatively safe Demon Realm, then they are likely to stand at the pinnacle of the entire Demon Realm.

This is a huge attraction for every big force and can determine the fate of a big force.

But what's a bit useless is that the refining time is also quite long. It actually takes ten years to refine. This is not very attractive to some young people whose cultivation level is improving very quickly.

But this is normal. After all, this is the original power of a legendary demon emperor. The energy contained in it is naturally like a vast ocean and takes a long time to refine.

Uh-huh!

At this time, Ye Feng, who was sitting in the crowd, suddenly stood up, his eyes filled with deep excitement.

For Ye Feng, it does not take that long to refine the original power of this group of demon emperors.

For Ye Feng, it is estimated that in just a short moment, Ye Feng can absorb all the original skills of this group of demon emperors.

Therefore, if Ye Feng obtains the original power of this group of demon emperors, his cultivation realm will definitely be greatly improved.

This is a great thing for Ye Feng.

Because Ye Feng participated in the grand auction this time, whether it was the nine-clawed imperial dragon cut out of the previous stone or the blood of gods and demons he finally got, it can be said that it was Ye Feng's unexpected harvest.

What Ye Feng really wants is precious resources that can quickly improve his cultivation level.

The original skill of the demon emperor imprisoned in this prison is very rare, very difficult to obtain, and is many times more advanced than those ordinary cultivation resources.

For Ye Feng, this has a huge effect.

At this time, Ye Feng was immediately ready to start bidding.

Even if you join the bidding for the original power of this demon emperor, it is very likely that you will offend all the elders present.

But Ye Feng didn't care anymore.

Because what Ye Feng wants, he must try his best to get it.

Otherwise, if you miss it, you have missed it, and it is such a pity.

So at this time, everyone was waiting for the starting price from the old host.

At this moment, seeing the fiery eyes of many seniors present, the old host was very satisfied.

He knew that the original skills of this group of demon emperors would definitely fetch a sky-high price.

Because those who want the original power of the Demon King are definitely the old monsters from the major forces.

These old monsters have accumulated huge wealth throughout their lives and are very generous with their purchases.

Therefore, the original skills of this group of demon emperors will probably be auctioned for a very outrageous price.

In fact, for this old host

Generally speaking, he also really wants to get the original skills of this group of demon emperors.

But after all, this is another client who entrusted them to auction it at the auction, so naturally even the old man cannot keep it to himself.

At this time, the old man in charge secretly said a pity in his heart, and then said to the audience: "The original skill of this group of demon emperors, the starting price is 90 million crystal stones!"

"Wow!"

Almost as soon as the old host finished speaking, the entire venue was in a state of excitement.

No one expected that the starting price of this group of demon emperors' original skills would be so high.

A total of 90 million crystal stones!

This is a huge fortune for a demon dynasty, or even for a demon dynasty.

And you know, this is just the starting price.

However, the original skill of this group of demon emperors is indeed very attractive to all the powerful demons present.

To be honest, for young demon cultivators, it's not bad, because they still have the potential to improve their cultivation, and there is no need to waste ten years refining a group of demon emperor's skills to improve to a greater realm.

However, for those old monsters and seniors from various major forces whose cultivation realm has been stuck for hundreds or even thousands of years, they are absolutely eager for the original power of this demon emperor.

Because, for them, they must now want to obtain the treasures of heaven and earth that can improve their cultivation at all costs.

For these older people, improving their cultivation realm is more important than anything else.

Because whether it is the wealth or the rights in one's hands, there is no reality that comes from improving one's own strength.

These old monsters who have lived for countless years are naturally very clear about this.

So at this moment, an old monster from a big force said directly: "I will offer 100 million crystal stones!"

The moment the words fell, many people present couldn't help but feel a little horrified.

Unexpectedly, the first person to increase the price directly added a full 10 million crystal stones.

The starting price of 90 million crystals was suddenly raised to 100 million crystals!

"I'll give you 110 million!"

The next moment, without any hesitation, another old monster from a powerful force spoke up.

"One hundred and thirty million!"

At this moment, the price increase began to become very intense.

"One hundred and fifty million!"

"One hundred and sixty million!"

"I offer 190 million!"

Suddenly at this moment, a powerful voice suddenly sounded, causing the entire audience to fall into a brief silence.

Suddenly, no one increased the price.

Because the price is too high.

Nearly 200 million!

For many big forces, it is probably too much.

At this moment, the person who has increased the price to 190 million is an old man who looks like a fairy.

When Ye Feng saw this old man, his eyes suddenly showed a look of surprise.

This old man turned out to be the emperor of the Warcraft Dynasty who had secretly sent him a message that he wanted to buy his nine-clawed imperial dragon.

It has to be said that the emperor of the Warcraft Dynasty is still very rich, and he just spent 190 million crystal stones.

The previous emperor of the Warcraft Dynasty wanted to buy Ye Feng's nine-clawed imperial dragon, and he directly offered 100 million. It can be seen that he is really rich.

However, the emperor of the Warcraft Dynasty, as the leader of a super dynasty, naturally has huge wealth.

But Ye Feng didn't have much fondness for the emperor of the Warcraft Dynasty. After all, the previous emperor of the Warcraft Dynasty threatened himself because he rejected him, saying that he couldn't protect the Nine-clawed Emperor Dragon.

At this moment, many people present saw the emperor of the Warcraft Dynasty directly bidding 190 million crystal stones, and they couldn't help but exclaimed: "It turns out to be the Emperor of the Warcraft Dynasty, Mo Wudao. This Mo Wudao It is said that he was just a little-known person at the time, but later he seemed to have obtained the wealth from the ancient ruins of the ancient Warcraft Empire, so he founded the Warcraft Dynasty and became the emperor. The wealth in his hands is estimated to be immeasurable and very huge. "

But at this moment, Ye Feng suddenly said: "I will pay 200 million crystal stones to buy the original power of this demon emperor."

Almost as soon as Ye Feng finished speaking, all the big shots present had astonishment in their eyes.

"It's the boy in white again!"

"Why does this boy in white jump out every critical moment?"

"Is it intentional to disrupt the situation?"

"But it's not that serious. Who would be willing to spend 200 million crystals to disrupt the situation and offend a super big shot like Mo Wudao? Isn't this courting death?"

"This kid is so young, and his cultivation is not high. He can improve quickly by practicing in other ways. Why does he have to buy the original power of the Demon Emperor and waste ten years of refining time? I thought the original power of the Demon Emperor would only be liked by those old predecessors whose cultivation can't improve."

At this moment, many people had doubts in their eyes.

Because it takes a full ten years to refine this group of the original power of the Demon Emperor.

For young practitioners, it is really a waste of time, it is simply a chicken rib.

It is only of great use to those old predecessors who have been unable to improve their cultivation.

But what they don't know is that Ye Feng has an unparalleled devouring ability, and his body is very strong, which can quickly accommodate huge energy.

Therefore, as long as Ye Feng gets this group of Demon Emperor's original power, he can swallow it instantly and make his own cultivation level get an unparalleled improvement.

"You again, kid!"

At this moment, the emperor of the Warcraft Dynasty, Mo Wudao, stared at Ye Feng all of a sudden, with a very gloomy look in his old eyes.

Chapter 3597 A big realm

At this time, the emperor of the Warcraft Dynasty looked at Ye Feng in the audience not far away, his eyes full of murderous intent.

But Ye Feng turned a blind eye to this threatening look.

After all, Ye Feng had offended a big man before, the chief alchemist of the Heavenly Demon Alchemy Sect, Jun Tianya.

So Ye Feng didn't care about offending a few more so-called big men now.

And in Ye Feng's eyes, as long as he could successfully auction this group of Demon Emperor's original power, after swallowing and refining it.

Ye Feng's cultivation will have a huge improvement in a short period of time.

So Ye Feng was not afraid of these so-called big men in the Demon Realm at all.

And Ye Feng was very confident about bidding for this group of Demon Emperor's original power.

You know, the auction price has now increased to 200 million crystals, which has made many old predecessors present a little stretched.

But for Ye Feng, he now has a full few billion crystals in his hands.

So a mere 200 million crystals is nothing to Ye Feng.

At this time, the emperor of the Warcraft Dynasty seemed to be very obsessed with the original power of the Demon Emperor.

After all, he seemed to have been unable to improve for many years.

So now that he encountered the original power of the Demon Emperor that could directly improve a realm, the emperor of the Warcraft Dynasty naturally wanted to get it.

At this moment, the emperor of the Warcraft Dynasty immediately gritted his teeth and said, "I continue to bid, 230 million!"

Wow!

"What?!"

When everyone heard it, they couldn't help but cause a commotion.

Because this price was really at a very high level.

"Too rich!"

Someone couldn't help but say, "It seems that the emperor of the Warcraft Dynasty really got a huge opportunity back then, and the wealth in his hands is really huge."

But in the next moment, Ye Feng suddenly continued to speak: "I will directly bid 300 million crystal stones!"

"What?!"

"300 million?!"

"Hiss!"

"So terrifying!"

Countless people were shocked.

Even though the people present were all well-known figures in the Demon Realm, they could not help but be shocked to the extreme when they heard the price Ye Feng said.

Ye Feng did not want to keep raising the price slowly at this time.

Because Ye Feng was determined to get the original power of the Demon Emperor.

So now Ye Feng directly raised the price madly.

After all, for Ye Feng, the crystals dug out of those ordinary Demon mines were of no help to his cultivation.

For Ye Feng, these crystals were just meaningless things. Only when they were exchanged for various resources would they have practical significance.

At this moment, the moment Ye Feng's voice fell, the field suddenly became silent.

Silence!

Deathly silence!

Everyone in the field was silent, staring at Ye Feng not far away in amazement.

No one expected that this seemingly ordinary boy would once again make a shocking statement and directly bid 300 million crystals to buy the original power of the Demon Emperor.

He was really rich to the extreme!

"Who is this guy? How can he have such a huge fortune? This is incredible. I have never seen such a generous young man."

"Did this guy pick up the treasury treasure left by an ancient empire? Otherwise, how could he be so rich?"

At this moment, everyone couldn't help but speculate in their hearts, with horror and confusion in their eyes.

But it is estimated that all the big figures present would not have thought that Ye Feng's wealth was all mined.

Ye Feng directly dug out all the mineral veins in the desert outside the imperial city of Asura Empire.

At this moment, Ye Feng looked at the emperor of the Warcraft Dynasty not far away, smiled and said: "This senior, you'd better not bid. I am determined to get the original power of this group of demon emperors."

The emperor of the Warcraft Dynasty had a very gloomy face at this time.

He stared at Ye Feng, as if he wanted to swallow Ye Feng, his eyes were very fierce.

At this time, the emperor of the Warcraft Dynasty slowly said: "The original power of the Demon Emperor is simply a chicken rib for you young practitioners. Why do you deliberately go against me?"

Ye Feng immediately shook his head at this moment, and said with a smile: "No, no, no, I didn't deliberately go against you, senior. I really need this group of Demon Emperor's original power."

The emperor of the Warcraft Dynasty immediately said: "Boy, if you are so arrogant, your end will generally be miserable."

Ye Feng smiled slightly, his tone was very calm, and said: "It's not you who can define it, it's me who defines it. If you don't believe it, let's wait and see."

"You...!"

The emperor of the Warcraft Dynasty was furious when he heard Ye Feng say this.

But the next moment, he forcibly suppressed his violent murderous aura that was about to be used. After all, this was still the venue of the grand auction, and he couldn't mess around.

The emperor of the Warcraft Dynasty suppressed his inner anger at this moment, stared at Ye Feng, and said loudly: "You have offended two big shots who can easily crush you to death. Next, be careful and say You might end up dead on the street tonight."

The emperor of the Warcraft Dynasty, what he said at this time has completely threatened Ye Feng.

Hearing what the Emperor of Warcraft Dynasty said, Ye Feng's face was still very calm, and he said calmly: "It's not certain who will die on the streets."

"hehe."

Hearing what Ye Feng said, the emperor of the Warcraft Dynasty just sneered and said nothing more.

In the eyes of the emperor of the World of Warcraft dynasty, Ye Feng was probably the kind of young upstart who had no idea what kind of powerful person he had offended.

At this moment, Ye Feng ignored everyone's surprised looks and said directly: "Old host, no one is bidding now. The original power of this group of demon emperors can be given to me directly."

The old man in charge immediately nodded with a smile and said loudly: "All auction items will be awarded to the highest bidder."

At this time, after the old host finished speaking, he directly asked people to put the original skills of the demon emperor in the prison and sent them directly to Ye Feng.

And almost at the next moment, everyone's eyes were horrified when Ye Feng opened his mouth and swallowed all the original skills of the demon emperor trapped in the prison. abdomen.

Boom!

At this moment, Ye Feng's whole body suddenly burst into brilliant light.

"this.....!"

"This is too fierce!"

At this time, everyone's eyes widened, and they almost dropped their eyes in shock.

At this moment, Ye Feng swallowed the demon emperor's original power on the spot, which really shocked everyone.

At this time, an older and powerful man couldn't help but shook his head and said sarcastically: "This kid seems to be just a lunatic. He directly combined the original skills of this terrifying demon emperor." If he swallowed it, with his current level of cultivation, he would probably explode and die in an instant. This huge energy must be absorbed slowly. If it is an older generation like us, it will take ten years to absorb it. If it is such a young person, it will probably take hundreds of years to fully absorb it."

But the moment this senior figure finished speaking, suddenly all the light on Ye Feng's body converged into Ye Feng's body, and there was nothing strange anymore.

"What?!"

"This kid really swallowed up the power of the Demon Emperor in one fell swoop, and nothing happened at all?"

At this moment, everyone's faces showed surprise.

Extreme expression.

Even the old man who had just mocked Ye Feng could not help but widen his eyes at this moment, as if he did not expect that Ye Feng did not explode and die.

At this time, after Ye Feng swallowed the original power of the Demon Emperor, his cultivation level increased like crazy.

"boom!"

The Great Perfection of the Tenth Level of the Taoist Realm!

"boom!"

Half-step to the Immortal Punishment Realm!

"boom!"

The first level of Immortal Punishment Realm!

"boom!"

The second level of Immortal Punishment Realm!

"boom!"

The third level of Immortal Punishment Realm!

"boom!"

The fourth level of Immortal Punishment Realm!

"boom!"

The fifth level of Immortal Punishment Realm!

"boom!"

The sixth level of Immortal Punishment Realm!

"..."

"boom!"

Perfection in the tenth heaven of the Immortal Punishment Realm! !

At this time, Ye Feng's cultivation level suddenly rose to a great level. From the previous ninth level of the Tao Seed Realm, he instantly broke through and stepped into the tenth level of the Immortal Punishment Realm!

The speed of this breakthrough is really terrifying.

Under normal circumstances, Ye Feng didn't know that it would take several years of practice before he could break through to the tenth level of the Immortal Punishment Realm.

But now that he has obtained the original power of this group of demon emperors, the huge energy has allowed Ye Feng to break through so much at once, which is really a huge and terrifying improvement.

Of course, Ye Feng's breakthrough at this moment was a breakthrough within his own body.

Therefore, Ye Feng did not let others around him know about his realm at this time, and he had made so many breakthroughs at once.

So in the eyes of everyone, what they saw was just the golden light on Ye Feng's body, which all disappeared and converged into Ye Feng's body.

They didn't know that Ye Feng had now broken through an entire realm at once, reaching the tenth level of Immortal Punishment Realm and the Great Perfection.

The cultivation level of those elders present is not much different, only two or three realms away at most.

At this time, Ye Feng's cultivation level has been greatly improved.

The blood of gods and demons was fused before, which made his physical strength reach a huge level.

Ye Feng's every move now contains explosive power.

Ye Feng's eyes suddenly became extremely confident.

Because now Ye Feng is not afraid of those so-called elders at all.

If they dare to provoke him, then Ye Feng will definitely let them know what regret and cruelty mean!

Chapter 3598 It's getting more and more outrageous

At this time, Ye Feng's cultivation level achieved an unparalleled breakthrough, making Ye Feng much more confident now and not as timid as before.

Uh-huh!

At this moment, Ye Feng stood up from his seat, staring in the direction of the auction table with burning eyes, seeming to be very interested in the two remaining final auction items.

When everyone saw this scene, their eyes showed deep astonishment.

Someone couldn't help but said: "This guy spent 200 million at once. Why does it feel like he hasn't spent enough yet?"

At this time, everyone's eyes showed deep horror.

They were all thinking and guessing fiercely, where did this kid come from?

How did he master such huge wealth?

It is as if one person can match the wealth of a demon dynasty!

It can be said that the country is extremely rich!

At this time, seeing that Ye Feng seemed to want to conduct the next auction and had not left early, even the old man hosting the auction could not help but show a trace of surprise in his eyes. Thinking that this young man in white has so much money, he is extremely rich.

At this moment, the eyes of many important people around him became a little gloomy.

If this kid really still has huge wealth, will the remaining two final auction items be auctioned by him?

In that case, it would be too speechless.

After all, these big shots came all the way to Asura Imperial City to participate in this grand auction just to get the three final treasures.

After all, to be able to become the finale of a grand auction, each of them must be very precious and rare, something that can only be encountered but not sought.

At this moment, a big shot couldn't help but said in horror: "This boy has just spent 200 million crystal stones, and the previous auction also spent a lot. Such a huge amount of wealth, even a demon dynasty can't." It's too much, I don't believe this guy will still have money."

The big shot who said this at this time was none other than the former chief alchemist master of the Demon Refining Sect, Jun Tianya.

This middle-aged man who looked quite elegant had a cold tone at this moment. It was obvious that Jun Tianya was very unhappy with Ye Feng when he threatened to kill Ye Feng before. At this time, he naturally took any opportunity to mock Ye Feng. wind.

But Ye Feng didn't care at all about the ridicule of the people around him.

Because Ye Feng doesn't need to care.

At this time, the old man in charge on the high platform said slowly: "Okay, now we will proceed with the second auction item among the three major auction items in today's finale."

After finishing speaking, the old man who presided over

He didn't clapped his hands, but carefully took off a storage ring from his finger.

The old host said: "The thing contained in this storage ring is the second auction item among the three final items today. It is very precious."

When he said this, the old man in charge suddenly burst out with his extremely powerful cultivation momentum.

"boom!!"

That was a terrifying cultivation level that surpassed the Immortal Punishment Realm by two entire realms.

Obviously, the old man in charge was afraid that someone would try to snatch the second auction item, so he unleashed his cultivation and stood ready to prevent unexpected situations from happening.

"Are you so solemn?"

“What exactly is this second grand finale auction item?”

At this moment, many big shots in the surrounding audience saw a trace of surprise in their eyes when they saw that the old host was so solemn.

It seems that this second final auction item is definitely more precious than the first one.

Otherwise, the old man in charge would not be allowed to behave in such a prepared manner.

And under the gaze of countless big figures on the field, the old host slowly opened the storage ring.

Buzz!

Following a burst of spatial fluctuations, the second auction item in the storage ring was directly released by the old man who hosted it, and was revealed to the eyes of everyone in the room.

"That is....."

At this moment, the eyes of countless people were all focused on the second auction item.

They immediately showed deep horror in their eyes.

The elders with extraordinary eyesight couldn't help but exclaimed: "This seems to be...the legendary...eyes of gods and demons!"

Buzz!

At this moment, what the old man in charge released from the storage ring was a dark eyeball!

This eyeball is not ordinary. It has countless spell symbols composed of black light. It is rotating rapidly, exuding an extremely profound meaning.

At this time, everyone's eyes were focused on this special eyeball, and their eyes were full of surprise.

At this time, the old man in charge slowly spoke out: "This is an eyeball of gods and demons. Like the red coffin that was auctioned before, they are both things that came out of the legendary abyss of gods and demons. They were all entrusted to me by the mysterious boy before."

"Is it that mysterious boy again?"

At this time, when everyone heard what the old host said, their eyes showed deep surprise.

Because when Ye Feng auctioned the red coffin before, the old man in charge had already said that the mysterious young man seemed to have come out of the abyss of gods and demons, and brought out a lot of mysterious things.

And according to what the old man in charge said, the mysterious young man actually ate the entire corpse of a god and demon.

There was only one piece of skin left, and it was really shocking to put it up for auction.

That mysterious boy's identity is probably very strange and terrifying.

At this moment, everyone was extremely surprised when they heard the old man in charge saying that the mysterious boy brought the eyeballs out of the abyss of gods and demons.

Many of the leaders of the big forces had their eyes flickering, as if they were looking for that mysterious young man.

If they could win this special and mysterious figure under their command, it would have a huge effect on the power they created.

And no one knows what kind of precious things the mysterious young man who came out of the abyss of gods and demons has in his body.

The things he put up for auction were already very terrifying, not to mention the things he held on his body, which were definitely even more precious and ancient.

At this moment, a big shot couldn't help but said: "The old man in charge, if it was just a simple eyeball of gods and demons, it shouldn't be used as the final auction item. Although this thing is rare, it actually doesn't have much significance. It doesn't work, and it can't be refined into any treasure."

"yes."

Hearing what this big man said, everyone around him couldn't help but speak out.

"Everyone, please be patient."

At this time, the old host standing on the high platform spoke up, with a hint of smile in his tone, and said: "If it is just a simple eyeball of gods and demons, then naturally it is not worthy of being the finale of our grand auction. It is an auction item, but this is not an ordinary god and devil eyeball, but a god and devil eyeball that can be integrated into your own eyes at any time. If you auction it and integrate this god and devil eyeball into your own eyes, then you You will be able to obtain part of the power of the gods and demons, and maybe you will also be able to obtain a set of extremely powerful inherited secrets contained in this god and demon eyeball."

Wow!

After the old host finished speaking, all the big shots present immediately became excited.

"What?!"

"This is actually a god-demon eyeball that can be integrated into one's own body?"

"

This is so amazing. It can actually allow us to possess part of the power of gods and demons. Then this is simply a magical item that can enhance our vitality! "

At this moment, all the big shots present stood up one after another.

Their indifferent eyes suddenly became extremely hot.

You must know that in the Demon Realm, demon cultivation not only improves one's own cultivation strength and forges powerful weapons.

Transforming one's body and allowing one's life essence to evolve is also what many demon cultivators pursue.

So at this time, the old man in charge actually said that the eyeballs of gods and demons could fuse with himself, which shocked everyone to the extreme.

But at this time, a big shot couldn't help but said: "Old host, how did you know this secret?"

The old man who hosted the auction said with a smile at this time: "It was said by the mysterious young man who entrusted me with the auction. Of course, it is up to you to believe it or not, and we at the auction have no way of judging it."

Hearing what the old host said, many of the big shots present fell silent.

But that mysterious young man is very powerful and can actually eat the corpse of a god and demon, so he shouldn't be lying.

So at this time, many big shots were eager to auction off this god-evil eyeball that could transform their own life force.

At this moment, Ye Feng's eyes widened slightly in the crowd.

This divine eyeball also has huge benefits for Ye Feng.

And just now, Emperor Chu suddenly spoke in Ye Feng's mind, telling Ye Feng that he must auction off this divine eyeball.

Because among the ancient memory fragments of Emperor Chu, there are actually records about this god and demon eyeball.

"There is actually nothing very powerful about the God-Demon Eyeball itself, but inside this God-Demon Eyeball contains the most taboo and earth-shattering Demon God inheritance about the God-Demon Abyss."

These were the exact words that Emperor Chu had just said in Ye Feng's mind, which made Ye Feng suddenly look forward to this divine eyeball.

At this time, the old man in charge smiled and said: "The starting price for this eyeball of a god and demon that can enhance the life essence of the demon race is 150 million crystal stones!"

Wow!

The moment the old man in charge finished speaking, the whole place suddenly burst into excitement.

Even the most wealthy people present could not help but sigh at this moment. These three final auction items are really more terrifying than the last, and the starting prices are getting more and more outrageous.

Chapter 3599 Hosting the old man's message transmission

At this time, all the big shots present were shocked by the starting price mentioned by the old host.

After all, the starting price is 150 million crystal stones, which is really terrifying.

Many so-called big shots simply don't have the financial resources.

Only the emperors of some dynasties, or the controllers of dynasties, may have such huge wealth.

And they were very hesitant.

Because if it is auctioned off, they have spent such a huge amount of wealth, which may cause instability in the power they created and other situations.

Therefore, although the leaders of these big forces have a lot of wealth, they are simply not able to spend so much money as freely and freely as Ye Feng.

Because Ye Feng is alone and self-employed, it doesn't matter how much money he spends.

However, the wealth of many powerful lords is actually not accumulated by one person, but by many people under the influence they founded.

Therefore, if they spend too much wealth at once, it is very likely that the entire force will become unstable.

But now, under the explanation of the old man in charge, this divine eyeball seems to be very precious.

So at this time, many big power lords are ready to risk their lives and must auction off this god and demon eyeball.

In this case, if they directly integrate it into their own eyes, they can obtain the power of gods and demons contained in the eyes of gods and demons, which will be of huge benefit to their vitality evolution.

The big figures of the demon clan present all think about improving their vitality as much as possible every day.

In this case, the higher their vitality is, the higher their ultimate cultivation achievements will be, and the more powerful they will be in the end.

At this time, Ye Feng stood among the crowd, his eyes filled with deep anticipation.

Because Emperor Chu once told him that the eyeballs of gods and demons contained more than just the power of gods and demons.

The most important thing is that this eyeball of gods and demons seems to contain a set of unparalleled powerful taboo inheritance of the demon clan.

This inheritance comes from the Abyss of Gods and Demons, the most mysterious and taboo place in the Demon Realm, and from that era of myths and legends.

If Ye Feng can obtain it, it will naturally be of huge benefit to Ye Feng to obtain the earth-shattering inheritance of the demon in the eyes of this god and demon.

After all, Ye Feng's current inheritance is increasingly unable to keep up with his use.

So Ye Feng naturally wants to get a very powerful inheritance.

Ordinary inheritance has no big effect on Ye Feng at all, and it is not as powerful as Ye Feng's Hand of Hell.

Therefore, since Ye Feng wants to practice now, he must practice the most powerful inheritance. Otherwise, it will just be a waste of time and energy. It has no great significance and cannot enhance Ye Feng's strong combat effectiveness.

At this time, Ye Feng had almost no hesitation and was the first to speak out: "I will directly increase the price to 200 million crystal stones to bid for this god's eyeball."

Wow!

"What?!"

"It's directly over 200 million!"

Hearing what Ye Feng said, there was an uproar in the entire field.

No one thought that Ye Feng still had so much money.

I just spent hundreds of millions, and now I have to spend hundreds of millions more to bid for this magic stone.

eyeball?

It's really shocking!

"It's so rich!"

Some people couldn't help but marvel.

But this behavior also made many powerful leaders feel very speechless.

Because originally they might be able to bid for this divine eyeball very easily.

But the appearance of Ye Feng directly raised the price from the starting price to 200 million crystal stones. It was really too high, too high. It was really ridiculously high.

So at this time, many big power leaders looked at Ye Feng with a somewhat unkind look.

They really wanted to beat this hateful boy to death at once.

Because Ye Feng's cultivation is actually nothing in the eyes of these big shots, but Ye Feng has so much wealth that these big shots simply dare not speak out.

After all, they were still in the auction venue, so they couldn't solve the problem through force.

But in terms of money, it seems to be too little compared to Ye Feng.

So at this time, many big power lords suddenly had no one to quote.

Because they are guessing that Ye Feng probably has countless wealth, and there is no way he can compete with Ye Feng in terms of price.

At this time, both the two big shots that Ye Feng offended and other big shots were looking at Ye Feng, full of deep hostility.

It can be said that they are somewhat hostile to the rich now.

But at this time, Ye Feng didn't care about the malicious looks from the people around him.

Ye Feng now has billions of crystals in his hands. Naturally, he must exchange all the crystals that are not of much use to him into actual things, so that they can have a huge effect on Ye Feng.

So at this time, Ye Feng was absolutely determined to win this divine eye.

At this time, Ye Feng directly raised the price to a sky-high price of 200 million, which made many big shots present silent and did not dare to continue shooting with Ye Feng.

Because they knew that no matter how they bid, the result would probably belong to Ye Feng.

At this time, some people at the scene suddenly couldn't help but say in a sarcastic tone: "I feel that this young man in white has just spent so much money, and now he must have no money on him. The reason why he raised the price so high all of a sudden is to play tricks on us. For example, if a big shot directly offers a price of 210 million, then this young man in white will not continue to bid, which is equivalent to auctioning this eyeball of the gods and demons at an unusual price. I feel that this may be a trick played by the auction." Hearing this sarcastic remark, many big shots at the scene moved their eyes and nodded thoughtfully. Ye Feng just smiled indifferently at this moment, and was too lazy to explain anything. And then, as expected, no other big shot continued to compete with Ye Feng. They were all watching Ye Feng's joke. Because they didn't believe that it was impossible for an ordinary young man who had just spent hundreds of millions of crystal stones to have so much wealth in his hands. However, no big shot continued to compete with Ye Feng next time. Ye Feng was also happy to see such a situation, so that he could spend less money. At this time, the old host saw that no one in the audience spoke, and he nodded slightly and said, "Okay, since no one continues to participate in the auction, then this God and Demon Eyeball belongs to this young man in white. Please take out 200 million crystals directly, and I will give this God and Demon Eyeball to you." At this moment, even the old host did not believe that Ye Feng still had so much money. So he directly asked Ye Feng to take out 200 million crystals on the spot, otherwise, it is very likely to cause disputes. "This kid must be out of money." At this time, some sarcastic words were remembered again. However, at this time, Ye Feng just stood up very calmly, and then slowly stretched out his hand. Hualala! Almost the next moment, Ye Feng opened the storage ring, and piles of crystals flashing with black light rushed out in an instant, directly filling the scene. Ye Feng took out another 200 million crystals and handed them to the old host! .??.

"What?!"

"This kid actually has so much wealth?"

"How is this possible! I must be dazzled and hallucinating!"

At this moment, all the bigwigs present widened their eyes and showed extremely shocked expressions on their faces.

Obviously, they never thought that Ye Feng still had so many crystals on him, which simply dazzled their eyes.

At this moment, even the old host on the high platform was slightly stunned at this time, as if he didn't expect Ye Feng to be so straightforward. He took out a full 200 million crystals in an instant, and didn't even say that he would use any treasures on his body to mortgage the crystals.

Because in the grand auction, if the cash flow on the body is not enough, the treasures on the body can be used to mortgage the crystals of the same value.

But Ye Feng didn't mortgage anything at all, and directly took out a full 200 million crystals, just like throwing away garbage, and threw them out of the storage ring.

At this moment, seeing the old host was stunned, Ye Feng couldn't help but say: "Old host, I have taken out all the money. The eyeball of the gods and demons in your hand belongs to me now." When the old host heard what Ye Feng said, he was stunned and seemed to have finally come to his senses. He immediately smiled and said: "Of course it's yours." After that, the old host handed the eyeball of the gods and demons in his hand to Ye Feng, his face full of amazement. At this time, the old host looked at Ye Feng in front of him, and his eyes showed deep surprise. He has been the host auctioneer in the grand auction for so many years, and he has never seen anyone with such a huge fortune. And the other party is a young boy who looks very young, which is really mysterious to the extreme. The old host couldn't help but guess who this mysterious young man in white is? Is he not a young man in the Demon Realm? But from a higher world? Otherwise, how could he have so much wealth? It's incredible that he is rich enough to rival a country. While the old man was secretly shocked, Ye Feng had already taken the eyeball of the god and demon in front of him.

Buzz!

At this moment, Ye Feng immediately sensed that there was a terrifying god and demon power hidden in this eyeball of the god and demon. It was very advanced, very sacred, and also had a sense of vastness and vastness from the era of myths and legends.

At this time, Ye Feng immediately understood that he had bought the right eyeball of the god and demon.

Even if Emperor Chu had not told him that this eyeball of the god and demon contained an eternal and unparalleled forbidden demon inheritance, the body of this eyeball of the god and demon was also priceless.

If Ye Feng could merge this eyeball of the god and demon into his own eyes, it would definitely be no less than the hand of hell that Ye Feng had merged before.

The hand of hell is the palm of the Lord of Avici Hell, and it has the boundless and majestic power of the Lord of Hell.

But this eyeball of the god and demon also contains the power of the gods and demons from the ancient myths and legends.

Ye Feng couldn't wait to merge this eyeball of the god and demon.

But at this time, Emperor Chu said aloud in his mind: "This special thing cannot be fused immediately. Let me study it first. This thing is at the same level as the Hand of Hell. If it is fused rashly, even if You are Hongmeng Immortal, and you are very likely to be in great danger."

Hearing what Emperor Chu said, Ye Feng immediately nodded and sent the divine eye directly to his mind space for Emperor Chu to study.

At this time, Ye Feng obviously noticed that the eyes of many big figures around him were no longer full of unkindness and hostility, but full of deep greed.

"Oops, I'm rich."

Ye Feng understood immediately. I was afraid that he had spent so much money and auctioned off so many good things that everyone felt that he was like a mobile treasure house and wanted to divide themselves up. .

This made Ye Feng's eyes reveal a trace of gloominess.

If only the emperor of the Warcraft Dynasty and the chief alchemist master of the Demon Refining Sect, two super powerful men, coveted him, then Ye Feng's current cultivation and strength should have no problem resisting them.

But if hundreds of big figures from the Demon Realm were all targeting him, then Ye Feng would be under a lot of pressure, to be honest.

Maybe he will really be beaten by a group of people and die.

At this moment, Ye Feng immediately thought about how to escape.

But there was still the third final auction item left, and Ye Feng didn't want to miss it.

So Ye Feng did not leave the auction house for the time being.

While Ye Feng was thinking, suddenly Ye Feng mentioned a very mysterious voice transmission.

It turned out to be the voice transmission from the old man who presided over: "Young hero, after the auction, if you are afraid that all the big figures in the demon world will deal with you, you can temporarily stay at the venue of our grand auction. Our grand auction will protect you. safety, and there are some special things I want to discuss with you, some cooperation matters, don't worry, our grand auction has no ill intentions towards peerless wizards like you, Young Hero, and just want to make friends with you. , for a collaboration."

Chapter 3600 Emperor Yan dominates the bones

At this moment, Ye Feng heard the voice of the old man in charge, and a look of surprise suddenly appeared in his eyes.

Unexpectedly, the old man in charge would secretly communicate with me.

Because Ye Feng felt that the other party's status was very noble. After all, he was the host of a super big auction like the Grand Auction, so he must be very extraordinary.

Therefore, Ye Feng always felt that the old host would not like him.

But I didn't expect that the other party would value me so much and directly communicate with me through secret transmission.

At this time, Ye Feng immediately sent the message back and asked: "Your grand auction will not protect my safety for free, right? The cooperation you want to talk about with me should be very dangerous, right?"

The old man in charge immediately sent a message and said: "It's not that dangerous, and when the time comes, the powerful people from our grand auction will also go with us. In fact, in addition to young wizards like you, young hero, we are also looking for many other people." Master, help us complete that mission together."

When Ye Feng heard what the old host said, there was a hint of surprise in his eyes. It seemed that he did not expect that the grand auction would invite so many experts to help him in the cooperation.

It seems that this cooperation is going to a very dangerous place. Otherwise, with the huge heritage of the grand auction, it would be a bit incredible to invite so many experts.

However, Ye Feng was still a little confused at this time and couldn't help but ask: "With the power and background of your grand auction, there should be many strong people. Although my methods are quite extraordinary, I guess you can't see my strength. Come on, you're not as powerful as those elders, so why did you invite me?"

When the old man in charge heard Ye Feng's message, he immediately sent the message back and said with a smile: "Because this is the decision of the president of our grand auction. The president of our grand auction just personally transmitted the message to I, let me keep you, young hero, not for your current fighting strength, but for your cultivation talent."

Hearing what the old host said, Ye Feng's eyes suddenly froze. He didn't expect that he would alarm the president of this grand auction.

You must know that the power of this grand auction is absolutely terrifying, otherwise it would be impossible to have such a large auction base in the imperial city of the Asura Empire.

Therefore, the president of this grand auction must be a very noble being, even a being comparable to the controller of the Asura Empire.

Ye Feng's eyes were very surprised. He didn't expect that just by auctioning a few things, the chairman of the grand auction would take notice of him. He even personally sent a message to the old man in charge, asking him to keep him. It was really incredible. .

But Ye Feng didn't think much about it at this time. After all, Ye Feng didn't know what the other party meant.

Could it be that you have taken a fancy to yourself?

What special talent?

For example, the ability to see through the things hidden in stones?

Ye Feng was thinking secretly in his heart at this time.

At this moment, the old man in charge was on the auction stage and quietly started the auction of the last auction item.

At this time, the old host said directly: "The most important auction item of this auction will be ushered in next, and it will also be the final auction item."

After finishing speaking, the old man in charge suddenly looked in a certain direction, and then said loudly: "You can come out now."

Uh-huh!

The moment the old man in charge finished speaking, a mysterious figure shrouded in black robes flew over from a certain direction not far away.

This mysterious man in black robes immediately made a low and hoarse voice at this moment and said: "The last auction item will be auctioned by myself."

After the mysterious black-robed man finished speaking, he took out a white bone from his storage ring.

boom!

The moment it was taken out, a red flame began to appear on the surface of this white bone, which felt as if it was about to burn the entire sky and earth.

Everyone's face was a little pale at this time, and their whole bodies were covered in cold sweat.

Because the moment they saw this bone, they felt that their entire spirit and soul would be burned to ashes by the flames burning on this bone.

Feeling this terrible feeling, all the big people present couldn't help but gasp, and exclaimed: "What kind of bone is this? How come our cultivation is so strong? We still feel the whole person in an instant." My spirit and soul are about to be burned to ashes. This feeling is so terrible that I don't want to experience it again."

At this moment, all the big shots present turned pale, obviously shocked.

And the illusion they had at that moment was really terrifying.

At this time, the eyes of countless big shots were all focused on the flaming bones in the hands of the man in black robes. Their eyes were filled with horror and deep curiosity.

What kind of bones are these?

It actually has such earth-shattering power.

At this moment, the man in black robe slowly spoke out: "You are all prominent figures in the Demon Realm, so you are better than ordinary people.

Practitioners should know a lot. Everyone should know that now all the major high-level interfaces in our Demon Realm have been forcibly integrated together, forming a dark world where the Dark Demon Cult controls most of the territory. Before that, The realm above our Demon Realm is called

the Flame Realm. The Flame Realm has an extremely powerful realm master called Emperor Yan. His cultivation has just broken through to the legendary Dominion Realm, but he has encountered huge changes, that is, darkness. The invasion of the Dark Demon Cult led by Yuan Zun, and finally the leader of the Flame Realm, the extremely powerful Emperor Yan, who first entered the realm of domination, died tragically in the battle with the Dark Yuan Zun in the endless void. Among them, this bone is the master bone that fell after the death of Emperor Yan. If anyone gets it and can understand its profound meaning, then maybe you will become a new generation of master of Emperor Yan! "

"What?!"

"The Flame Emperor dominates the bones!"

Almost at this moment, the entire atmosphere of the entire auction venue was completely detonated.

The Lord, in the eyes of all the big shots, is definitely a superior being, the strongest being in all the worlds.

Unexpectedly, today's final auction item turned out to be a master bone with infinite value, and it was also a very special master bone of Emperor Yan.

This really surprised all the big shots present.

hiss!

At this moment, everyone present could not help but gasp.

After all, no one expected that at the final auction of today's grand auction, they would encounter something left behind by a legendary master. ??

And it is a very precious master bone.

You know, there is a 50% chance that the master's bones contain the inheritance of that master during his lifetime.

And if you can integrate the Dominator Bone into your body, you will have part of the Dominator's power.

For all the powerful demons present, this is definitely a great thing that they are eager to get.

But in addition, everyone heard this mysterious man in black robe say that even the master of the advanced realm above the demon realm, a junior master, died in the war against the dark demon sect.

This made many big figures in the Demon Realm show deep fear in their eyes.

Although the war has not spread to their demon domain, it has already made all the demon leaders feel very uneasy.

If the Dark Demon Cult drives out all the remaining strong men and forces in the Great World of Origin in the Dark World, the war will probably spread to low-level realms like theirs.

At this moment, all the powerful demons on the field became a little heavy.

There was silence.

At this time, Ye Feng in the crowd also suddenly moved his eyes.

Unexpectedly, the Dark Yuan Zun was really as terrifying as the rumors said, and he directly killed all the beings who stepped into the realm of domination.

Although that Emperor Yan has just entered the realm of domination, but being able to achieve the realm of domination is already very terrifying, very powerful, and absolutely unique in ten thousand.

However, after entering the realm of domination, he still could not live forever. Instead, he was directly suppressed and killed by the Dark Yuan Zun. It was very tragic and really made people shudder.

Ye Feng couldn't help but ask in his heart, isn't domination really the end of practice?

At this moment, Ye Feng couldn't help but ask directly in his mind: "Emperor Chu, is dominance really the most powerful state?"

Emperor Chu was silent for a moment, and then responded in his mind: "As far as I know, the master is indeed the most powerful existence, but the master is also divided into different levels, including primary master, intermediate master, High-level Master and Great Perfection Master, the Hongmeng ancestor of your Ye family should have stepped into the Great Perfection Master back then, so he became the most powerful existence in all the worlds, including the Origin World, and is now the Dark Yuan Lord. To be able to kill a junior master, his strength must at least be that of a senior master. Otherwise, it would be impossible to kill a junior master, because it is difficult for masters to kill each other unless the difference in realm and combat power is too great. , I guess that Yan Emperor must have just stepped into the junior master, and he probably didn't have much control over the power of the master, so he was killed by Dark Yuan Zun. Otherwise, even if Dark Yuan Zun is a senior master, it would be difficult to kill him. Drop a junior master."

Hearing what Emperor Chu said, Ye Feng immediately nodded slightly, with a hint of deepness in his eyes.

Unexpectedly, Dark Yuan Zun could be so terrifying. He is already a high-level master. He is only one step away from being able to step into the most terrifying and top-level Dzogchen Master. He is comparable to the most powerful person in the world of the Ye family, Hongmeng Ancestor. .

This made Ye Feng feel tremendous pressure.

But Ye Feng also knew that there was nothing he could do about it.

If you want to fight against the Dark Demon Cult and Dark Yuan Zun, you must face them head-on.

Blind escape is impossible.

You can only quickly strengthen yourself and expand your strength.

Ye Feng is ready to leave the Demon Realm and go to the dark world after his cultivation has improved two more realms and reached the strongest level that the Demon Realm can accommodate.

Because only by continuing to enter the dark world can one's cultivation continue to become stronger quickly.

The ordinary realm could no longer satisfy Ye Feng's cultivation. The resources provided were too low-level to allow Ye Feng to break through quickly.
