Chapter 3661 The ruins of the Beast Control Dynasty

At this moment, everyone was discussing the topic of the Dark Demon Cult, and they all felt a little heavy in their hearts.

"We're almost there."

But at this time, Ye Feng suddenly said: "According to the map I analyzed from the surface of the big red scorpion shell, we have almost arrived at the relics of the Cultivation Civilization of the Beast Control Dynasty."

Senior Brother Gu looked around at this time and seemed to have discovered something. He couldn't help but exclaimed: "Look! In the desert not far away, there are countless ancient buildings, many of which have collapsed. , is that the relic left by the ancient cultivation civilization of the Beast Control Dynasty?"

Swish, swish, swish!

At this moment, after hearing Senior Brother Gu say this, several people present immediately looked quickly in that direction.

Sure enough, they saw a vast and endless desert appearing in that direction not far away.

There are many ancient buildings in this desert.

But as Brother Gu said, although each of these ancient buildings is very grand and majestic, most of them have collapsed and are very damaged. It feels like a building that has just experienced a terrible event. The ancient battlefield of a tragic war.

At this time, Ye Feng nodded slightly and said loudly: "This should be the headquarters of the Beast Control Dynasty back then. Now only a dilapidated ruins are left."

Uh-huh!

Ye Feng flew over and blew away the dust on a huge stone tablet on the ground.

"Beast-controlling Dynasty, Eternal Town Monument"

Seven large characters were engraved on this huge stone tablet. As the dust dispersed, they reappeared in the world's sight.

Uh-huh! Uh-huh! Uh-huh!

Senior Brother Gu, Senior Sister Lan and Bai Ling, who were not far away, all flew over.

They all looked at the huge stone monument in front of them and the vast and dilapidated ruins behind the stone monument with complicated expressions.

It can be seen how glorious and prosperous this beast-controlling dynasty was back then, but it eventually became a ruin and disappeared in the rolling wheels of history, leaving only such dilapidated ruins.

If Ye Feng hadn't accidentally analyzed such a map from the surface of a large insect shell, the relics of this huge cultivation civilization might have been forgotten by history forever, standing here quietly without anyone asking.

At this time, several people present were somewhat silent for a moment.

Such a glorious ancient cultivation civilization eventually withered away in the long river of history.

Individually, they appear even more insignificant.

If you cannot become the strongest being, you will eventually die one day in the future. Not only will your body decay, your consciousness will also completely dissipate, and you will completely disappear in this world, just like disappearing into smoke.

For a moment, everyone present felt a great sadness about life.

"One day, everyone will die and disappear completely from this world. This world will no longer have my body, my thoughts, and my person. I will completely cease to exist. It feels good to think about it. It's scary..."

Bai Ling suddenly spoke in a low voice at this time, with a hint of sadness in his tone.

Senior Brother Gu nodded slightly and said: "As the saying goes, there is great terror between life and death, so God will make people age slowly and die.

, wouldn't it be a pity to die in young adulthood? Slowly getting old, suffering from disease, and dying may be regarded as a kind of comfort and transition from God before death. "

"Stop feeling so emotional."

Senior Sister Lan suddenly spoke up: "Everyone will die, and it is true to live the limited process in the middle. Death is not terrible, but what is terrible is that a life is meaningless, so we must work hard to cultivate, become a great person, and become the most powerful person in the world." A strong man will take his life with others and with God."

Ye Feng spoke up at this time: "Let's spread out and look for the relics of this beast-controlling dynasty. I just used my soul power to roughly detect it while you were sighing, and found that the entire beast-controlling dynasty's ruins are very wide. , the area is very large, and it cannot be explored in a few days or nights. If we investigate separately, it will be much more efficient. "

"good."

Hearing what Ye Feng said, Senior Brother Gu and others nodded.

Bai Ling said aloud: "Senior Brother Gu, Senior Sister Lan, don't forget what you said before. As long as you find rare and exotic fruits that can improve your skills, they will be reserved for Junior Brother Feng to use. Although Junior Brother Feng has improved his cultivation this time, It's a lot better, but compared to us, it's still one or two big gaps away. It's best to make up for it this time. In the future, our small team can take on more dangerous tasks and earn more."

"good."

Senior Brother Gu and Senior Sister Lan both nodded in agreement.

They all agreed very much with Bai Ling's words.

Because during this mission, whether he was dealing with the skeleton mage or the evil tree man, Ye Feng had already proven his potential, which was very good. If he grows up, he can indeed become the sole leader of their small team. It is even comparable to Senior Brother Gu, the strongest combat power.

By then, this small team will have a powerful main force.

This is a very good thing for the entire team.

"Everyone must be careful when exploring."

Ye Feng said aloud: "Although this beast-controlling dynasty has been destroyed for countless years, we have encountered a very difficult red scorpion before, which is the ferocious giant insect left behind by the beast-controlling dynasty, so no one can guarantee it. , are there other terrifying demons and beasts in the ruins of this beast-controlling dynasty, so be careful."

"good."

Several people nodded one after another, and then dispersed, exploring various areas of the entire Beast Control Dynasty's ruins.

At this moment, Ye Feng was alone and flying towards the inner area of the ruins of the beast-controlling dynasty.

Ye Feng asked directly in his mind: "Demon Ancestor, you have been wandering in this ancient lost interface for so many years. Do you know the relics of this beast-controlling dynasty?"

Demon Ancestor shook his head in the thunder prison in the space between his eyebrows, and said: "I have never heard of the Beast Control Dynasty. This ancient lost interface actually escaped here after my death, so I don't actually know much about this ancient lost interface. It's not that familiar.

The interfaces I'm familiar with are basically all major advanced interfaces. When Ye Feng, you kid, becomes strong enough, I'll take you to hunt for treasures on some advanced interfaces alone."

Hearing what the Demon Ancestor in the eyebrow space said, Ye Feng immediately nodded. Without saying anything more, he exuded his soul power in an instant. It seems that the relics of this beast-controlling dynasty can only rely on himself. Went to explore, hoping to find some good stuff. At this moment, everyone was discussing the topic of the Dark Demon Cult, and they all felt a little heavy in their hearts.

Hearing what the Demon Ancestor in the eyebrow space said, Ye Feng immediately nodded. Without saying anything more, he exuded his soul power in an instant. It seems that the relics of this beast-controlling dynasty can only rely on himself. Went to explore, hoping to find some good stuff.

Chapter 3662 Ancient Alchemy Furnace

Buzz!

At this time, Ye Feng exuded his huge soul power and spread towards the surroundings.

Now the spread range of Ye Feng's soul power has been able to expand to a distance of tens of thousands of meters in radius.

So Ye Feng suddenly covered his surroundings with his soul power, and immediately sensed some unusual fluctuations.

"Uh-huh!"

At this moment, Ye Feng flew quickly in a certain direction not far away, and soon flew in front of a huge palace.

This palace looks very majestic and magnificent, but half of it collapsed, but you can get a glimpse of its glory and grandeur back then.

At this time, Ye Feng could sense that a very violent magic wave was emitting in this huge collapsed palace.

Uh-huh!

Ye Feng no longer hesitated and flew into this huge palace alone.

At this moment, Ye Feng immediately saw that in this huge collapsed palace, there was a huge ancient alchemy furnace.

This ancient alchemy furnace gave Ye Feng the feeling that it was very precious.

Because Ye Feng was able to sense the energy fluctuations of the pills from this ancient pill furnace.

This made Ye Feng's eyes suddenly light up!

"Could it be that this palace was the alchemy room of the Beast Control Dynasty back then? There are actually elixirs fluctuating in this alchemy furnace. Those must be very precious and ancient elixirs refined by the Beast Control Dynasty back then. They must be very precious. "

Ye Feng's eyes still looked very excited at this moment.

Because he never expected to find such a precious pill furnace as soon as he came up.

"Uh-huh!"

At this moment, Ye Feng rushed directly in front of the ancient alchemy furnace, preparing to open it.

"Crash!"

But suddenly at this moment, dense black insects suddenly surged out of the gap in the ground where Ye Feng was standing.

These little black bugs, when seen alone, are covered with strange symbols and have dense fangs, making them look very ferocious.

At this time, countless dense black bugs gathered together, just like a black tide, which could instantly devour a living creature into bones.

"The Flame Emperor dominates the bones!"

Ye Feng did not hesitate at this moment and directly released his flame power.

Wow!

A large flame burst out directly from Ye Feng's body, burning the small black insects surging around him and making a crackling sound, giving off a burning smell.

"Crash!"

But at this time, more small black bugs surged out of the gaps in the surrounding ground, like a dark tide that was impossible to get rid of.

"Looks like I've reached a worm's nest."

At this time, Ye Feng's eyes showed a hint of surprise.

But with dominator-level flames burning on his body, Ye Feng was not afraid of these ferocious black insect swarms.

At this moment, Ye Feng was just concentrating on doing his own thing, and the countless black bugs couldn't get close at all.

"Clang!"

At this time, Ye Feng used his hands to lift the lid of the ancient alchemy furnace in front of him.

Almost at the next moment, Ye Feng saw

, this ancient alchemy furnace is indeed filled with round pills, and they are all colorful, emitting light, and looking very strange.

"Crash!"

The next moment, Ye Feng didn't care, he directly lifted up this huge ancient pill furnace, and drank all the ancient pills in this ancient pill furnace like drinking soup. Swallowed.

This scene made the demon ancestors in the eyebrow space see it, and their eyelids twitched, seeming to be shocked by Ye Feng's "feat".

Demon Ancestor couldn't help complaining and said: "Boy Ye Feng, there may be poisonous elixirs in this ancient elixir furnace. If you eat them indiscriminately, you will die."

Ye Feng was indifferent and said, "I'm not afraid of poisonous elixirs. My physique can handle it."

In fact, what Ye Feng said is not a big lie, because Ye Feng's Hongmeng Immortal Body can originally integrate energy of any attribute in the world, and Ye Feng has also integrated parts of the bodies of many ancient powerful men and even demon gods since he has been practicing. , such as the backbone of the god of death, the supreme bone, the heart of the god, the master bone of the Emperor of Fire, etc...

Therefore, Ye Feng's body was like a hodgepodge, already invulnerable to all poisons.

"Rumble..."

At this time, as Ye Feng swallowed all the elixirs in the entire ancient elixir furnace, waves of very majestic energy suddenly surged rapidly in Ye Feng's limbs.

The ancient elixirs turned into pure medicinal energy, rapidly increasing Ye Feng's entire skill.

"boom!"

The second level of the immeasurable realm!

"boom!"

The third level of the Infinite Realm!

"boom!"

Infinite Realm Four

Chongtian! !

At this time, Ye Feng's cultivation level actually broke through the third level in a row and was directly promoted to the fourth level of the Infinite Realm. It can be said to be a huge improvement and breakthrough.

Ye Feng's eyes suddenly became extremely bright: "As expected, it is an elixir refined by an ancient cultivation civilization like the Beast Control Dynasty. The medicine is so powerful. After so many years, the medicine has not completely dissipated. The only remaining It's incredible that the power of the medicine can make me break through so much at once."

"Boom!!"

But suddenly at this moment, the entire palace collapsed completely.

Uh-huh!

Ye Feng immediately flew out and was not buried in the ruins.

At this time, Ye Feng suddenly saw that the reason why the palace collapsed completely was because a huge crack opened on the ground!

A big black bug covered with ferocious steel thorns, the size of a small mountain, crawled out directly from the huge crack. Its huge fangs and dense claws seemed to be made of black steel. It looked extremely ferocious and terrifying.

This huge black insect is probably a ferocious insect beast that was cultivated by the Beast Control Dynasty back then. The aura exuding from it is a powerful existence that surpasses Ye Feng's current extreme transformation level and is above the immeasurable level!

He is on the same cultivation level as Bai Ling.

Senior Sister Lan and Senior Brother Gu are more powerful beings in the Talisman Realm above the Extreme Transformation Realm.

At this moment, facing this big black bug that was a level higher than himself, Ye Feng not only had no fear, but was eager to try to see what level his combat power had reached now.

You know, this big black bug is not an ordinary monster, but a terrifying monster cultivated by the ancient cultivation civilization of the Beast Control Dynasty. Its combat power is naturally very terrifying!

Chapter 3663 Ice Attribute

At this time, although Ye Feng was not afraid, he did not dare to despise it.

After all, this is a ferocious insect cultivated by the beast-controlling dynasty of ancient civilization. It is not so easy to deal with. It is not as simple as it seems on the surface.

So at this time, Ye Feng didn't hesitate at all and directly stimulated his physical strength in an all-round way.

"boom!"

The next moment, Ye Feng didn't hesitate at all, and directly punched the big black insect in front of him with a fist.

For Ye Feng, this kind of big black bug is actually not as scary as imagined, because this kind of big black bug generally does not have any martial arts heritage, so it is much easier to deal with than the strong humans of the same realm. .???.??

Of course, this is also because Ye Feng's body is very powerful, otherwise it would be very difficult for ordinary people to deal with him.

"boom!"

At this moment, Ye Feng's fist directly hit the big black insect, and a huge roar suddenly erupted.

And at the next moment, this big black bug suddenly felt a huge power, which directly caused its entire towering body to take several steps backward.

"Roar!!"

The big black bug immediately let out an angry roar, as if he didn't expect that the weak-looking human boy in front of him actually possessed such terrifying power.

"Crash!"

At this moment, the big black insect waved its countless claws. Each claw seemed to be made of steel and looked very sharp. It immediately grabbed Ye Feng and wanted to kill Ye Feng. shred.

"Fire Palm of the Sky!"

boom!

At this time, Ye Feng did not hesitate and directly released the power of Emperor Yan's master bone, and then

Then he released his extremely powerful martial arts inheritance, the Sky Flame Palm.

Because Ye Feng knew very well that if he wanted to deal with this ancient and vicious insect, using fire attacks was very effective.

When dealing with the evil tree men before, Ye Feng also released his own flame power to defeat the enemy.

So at this time, facing this big black insect, Ye Feng also chose to use the old method and directly use the Sky Flame Palm.

Boom!

At this moment, large flaming hands suddenly appeared in the sky, filled with terrible burning power and impact power. All of a sudden, they fiercely bombarded them from high in the sky, towards the big black bugs. Attacked the past.

Wow!

But at the next moment, what made Ye Feng's eyes look deeply surprised was that this big black bug actually opened its mouth and sprayed out a large wave of cold air, which suddenly froze the flaming palms that hit from high altitude into The ice palms fell from the sky and fell to the ground one after another, breaking into countless ice fragments.

"What?"

Seeing this scene, Ye Feng suddenly showed deep surprise in his eyes.

Because this big black bug actually possesses this very special ice attribute power, it can directly spray out a frenzy of ice and freeze its own sky flame palm. It is really unbelievable to the extreme.

Ye Feng immediately showed deep astonishment in his eyes.

Unexpectedly, this big black bug turned out to be a mutant species, capable of releasing terrifying ice energy.

You know, Ye

Feng's Sky Flame Palm contained a master-level flame, but it was still instantly frozen by the ice energy released by this big black bug. It was really incredible.

Uh-huh!

At this time, Ye Feng no longer used the Sky Flame Palm, but fully aroused the power of his body to directly fight the big black insect in close combat.

Because Ye Feng's most powerful thing now is actually his physical strength.

You know, Ye Feng's Hongmeng Immortal Body is the most powerful body in the world.

So at this time, fighting this big black bug directly in close combat is the best option.

Boom!

Boom!

Next, Ye Feng mobilized his body strength to the maximum, and the terrifying and boundless destructive power exploded, fighting with the big black bug, causing the big black bug to retreat continuously.

Obviously, although this big black insect is an ancient evil insect, it cannot resist Ye Feng's terrifying body power at this time.

Swish, brush, brush!

At this time, the big black bug suddenly retreated quickly, and then instantly sprayed out a terrifying wave of ice, trying to freeze Ye Feng.

Obviously this big black bug has now realized that the physical strength of this human boy is too terrifying and cannot be resisted. It still needs the frenzy of ice attributes to freeze it.

"Buzz!"

At this time, the frenzy of ice released by the big black bug was very fast, and it suddenly enveloped Ye Feng's entire body.

Almost at the next moment, Ye Feng was frozen into a huge ice sculpture, staying in place, as if he had been frozen to death.

When the big black bug saw this scene, he immediately laughed out loud: "Damnable human boy, you dare to fight against me, your end will be death."

Obviously, this big black bug has its own spiritual intelligence and can actually speak human words. It seems that it is an old monster that has been practicing for many years, otherwise it would be impossible to speak human words.

At this moment, the big black bug looked at Ye Feng, who had turned into an ice sculpture not far away, and walked over slowly, with deep contempt in his eyes, as if to say, if you want to fight with me, then The end will definitely be death.

Uh-huh!

At this moment, the big black bug slowly stretched out a claw that looked like steel and touched the ice sculpture that Ye Feng had turned into, as if it wanted to completely crush Ye Feng.

Boom! !

But at this moment, the ice sculpture suddenly exploded, Ye Feng rushed out of the ice sculpture, and then punched out hard.

With this punch, Ye Feng released the power of his hell hand.

You know, Ye Feng's palm is fused with the palm of the Lord of Hell, Abi, and also fused with an eyeball of a god and demon, which hides the power of the Lord of Hell and the gods and demons, which is very terrifying.

"Pfft!"

Therefore, at this moment of sudden sneak attack, the big black bug did not react at all, and was directly pierced through the body by Ye Feng's hell hand.

"ah!!"

Almost at this moment, the big black bug suddenly let out a huge scream, and couldn't help but said in horror: "How is this possible! You, a human boy, were not hit by my ice frenzy. Frozen death is impossible! How can a small human body have such strong life energy!"

Chapter 3664: Once out of control

At this time, facing the horrified tone of this big black insect, Ye Feng just smiled coldly and said, "The abilities I have are beyond your imagination."

Boom!

At this moment, Ye Feng continued to punch out.

This fist was also the hand of hell, once again piercing through the entire body of the big black bug.

The big black bug immediately screamed like a slaughtering pig. ??

Then this big black bug immediately sprayed out a large wave of ice, trying to freeze Ye Feng.

But at this time, Ye Feng used the power of the space gem to hide himself directly in the void.

The frenzy of ice sprayed by this big black bug cannot freeze the void at all, it can only freeze the outside space, so it cannot harm Ye Feng at all.

Uh-huh!

Almost at the next moment, Ye Feng continued to rush out from somewhere in the void, and then punched through the body of the big black insect again.

At this moment, the entire body of the big black bug was riddled with holes.

If this big black bug hadn't been so tenacious, it would have died long ago.

At this time, the big black bug finally knew that Ye Feng was simply not something he could deal with.

He immediately couldn't help screaming and said: "Master of the human race, spare me, spare my life. I have practiced for so many years before I reached this state. I evolved from countless small insects into a giant..." Bugs, it's very difficult, I don't want to die."

Ye Feng smiled coldly at this time and said: "Since we are already enemies, one of us must die before we can stop. It is obviously unrealistic for you to survive with just a few words of begging for mercy." "

Boom!

After Ye Feng finished speaking at this time, he continued to explode with his extremely powerful power, and then charged towards the big black insect.

The power released by Ye Feng at this time was still very terrifying. In less than a moment, he had beaten this big black bug to the point where it was almost completely dead.

The big black bug was so frightened that it felt like the shadow of death enveloped it.

At this moment, the big black bug immediately knelt in front of Ye Feng and begged for mercy: "Sir, please don't kill me. I can provide you with very beneficial information."

Hearing Big Chongzi say this, Ye Feng suddenly showed a look of surprise in his eyes, then stopped his hand and said, "What useful information can you provide me?"

The big black bug immediately spoke out: "I am a powerful creature left behind by the Beast Control Dynasty, so I am very familiar with all the arrangements and distribution of the entire Beast Control Dynasty. I know very well the ancient ruins left by the Beast Control Dynasty. There are specific resources where adults need them."

Hearing what the big black insect said, Ye Feng's eyes revealed a hint of surprise.

really.

This big black insect is a creature left over from the Beast Control Dynasty. If you can follow this big black insect to explore the entire ruins of the Beast Control Dynasty, you might really be able to get some very unusual opportunities.

r\u003e

Ye Feng immediately stared at the big black bug in front of him and said slowly: "You'd better not lie to me, otherwise I will kill you instantly."

When the big black insect heard what Ye Feng said, he was so frightened that he trembled and said quickly: "Of course I will not lie to you. You must rest assured. I am absolutely loyal to you now. As long as you Just don't kill me."

This big black bug was obviously a flexible and flexible monster. When it encountered an irresistible opponent like Ye Feng, it naturally wanted to beg for mercy.

At this time, Ye Feng nodded slightly, but still put a soul mark on the big black insect's mind, and said loudly: "I have now put a very terrible soul mark on you. Once you dare to betray me, If so, if I just move my mind, your spirit and soul will completely collapse."

When the big black insect heard what Ye Feng said, he couldn't help but exclaimed: "Your Excellency is actually a legendary soul master. His ability to control the soul level is really amazing. I admire you so much." It is like a torrent of water, which is endless, and like a river that overflows and cannot be controlled. "

Hearing what the big black bug said, Ye Feng just nodded indifferently, and then jumped directly on top of the big black bug's head.

He simply regarded this big bug as his own mount.

Ye Feng stood on top of the huge black insect and said slowly: "Then you can take me to this place where the beast-controlling dynasty has good fortune."

At this moment, the big black bug immediately nodded and said: "Okay, sir, I will take you there right away. By the way, sir, what kind of luck do you need?"

Ye Feng said aloud: "What I need most now are various resources that can improve my skills, such as the elixirs contained in the ancient elixir furnace in this palace, as well as some rare and exotic fruits, spiritual herbs and elixirs. OK."

Hearing what Ye Feng said, the big black bug's eyes immediately lit up, and he quickly said: "When our Beast Control Dynasty cultivated various monsters and beasts, we once planted a very vast medicinal field area. In that There must be something you need in the medicinal field, Mr. Ye Feng,

because no one has been to that medicinal field for many years. The last time I went there was hundreds of years ago, and no one has picked it in the medicinal field for countless years. , It must be growing very lushly now.”

Hearing what the big black bug said, Ye Feng immediately nodded and said: "Okay, then you can take me there now. This medicinal field planted by ancient forces does have a huge effect on me. , if you behave well, then I can spare your life."

At this moment, when the big black bug heard what Ye Feng said, his eyes immediately showed deep ecstasy, and he quickly said: "Yes, sir, I will definitely serve you well, and I will definitely serve you." It's full. The first place I want to take you to is the medicine field. Let's go and take a look. Maybe we can get a lot of elixirs, because the Beast Control Dynasty planted a large area of the medicine field in order to cultivate many demons and evil beasts. The medicinal fields are all ancient elixirs, and they are of great value, and you will definitely be very satisfied.”

Uh-huh!

After the big black insect finished speaking, he immediately held Ye Feng and flew quickly towards a certain direction of the beast-controlling dynasty. At this time, facing the horrified tone of this big black insect, Ye Feng just smiled coldly and said, "The abilities I have are beyond your imagination."

Boom!

At this moment, Ye Feng continued to punch out.

This fist was also the hand of hell, once again piercing through the entire body of the big black bug.

Boom!

After Ye Feng finished speaking at this time, he continued to explode with his extremely powerful power, and then charged towards the big black insect.

The power released by Ye Feng at this time was still very terrifying. In less than a moment, he had beaten this big black bug to the point where it was almost completely dead.

The big black bug was so frightened that it felt like the shadow of death enveloped it.

At this moment, the big black bug immediately knelt in front of Ye Feng and begged for mercy: "Sir, please don't kill me. I can provide you with very beneficial information."

Hearing Big Chongzi say this, Ye Feng suddenly showed a look of surprise in his eyes, then stopped his hand and said, "What useful information can you provide me?"

The big black insect immediately spoke out: "I am a powerful creature left behind by the Beast Control Dynasty, so I am very familiar with all the arrangements and distribution of the entire Beast Control Dynasty. I am very familiar with the ancient ruins left by this Beast Control Dynasty. There are specific resources where adults need them."

Hearing what the big black insect said, Ye Feng's eyes revealed a hint of surprise.

really.

This big black insect is a creature left over from the Beast Control Dynasty. If you can follow this big black insect to explore the entire ruins of the Beast Control Dynasty, you might really be able to get some very unusual opportunities.

r\u003e

Ye Feng immediately stared at the big black bug in front of him and said slowly: "You'd better not lie to me, otherwise I will kill you instantly."

When the big black insect heard what Ye Feng said, he was so frightened that he trembled and said quickly: "Of course I will not lie to you. You must rest assured. I am absolutely loyal to you now. As long as you Just don't kill me."

This big black bug is obviously a flexible and flexible monster. When it encounters an irresistible opponent like Ye Feng, it naturally wants to beg for mercy.

At this time, Ye Feng nodded slightly, but still put a soul mark on the big black insect's mind, and said loudly: "I have now put a very terrible soul mark on you. Once you dare to betray me, If so, if I just move my mind, your spirit and soul will completely collapse."

When the big black insect heard what Ye Feng said, he couldn't help but exclaimed: "Your Excellency is actually a legendary soul master. His ability to control the soul level is really amazing. I admire you so much." It is like a torrent of water, which is endless, and like a river that overflows and cannot be controlled. "

Hearing what the big black bug said, Ye Feng just nodded indifferently, and then jumped directly on top of the big black bug's head.

He simply regarded this big bug as his own mount.

Ye Feng stood on top of the huge black insect and said slowly: "Then you can take me to this place where the beast-controlling dynasty has good fortune."

At this moment, the big black bug immediately nodded and said: "Okay, sir, I will take you there right away. By the way, sir, what kind of luck do you need?"

Ye Feng said aloud: "What I need most now are various resources that can improve my skills, such as the elixirs contained in the ancient elixir furnace in this palace, as well as some rare and exotic fruits, spiritual herbs and elixirs. OK."

Hearing what Ye Feng said, the big black bug's eyes immediately lit up, and he quickly said: "When our Beast Control Dynasty cultivated various monsters and beasts, we once planted a very vast medicinal field area. In that There must be something you need in the medicinal field, Mr. Ye Feng, because no one has been to that medicinal field for many years. The last time I went there was hundreds of years ago, and no one has picked it in the medicinal field for countless years. , It must be growing very lushly now."

Hearing what the big black bug said, Ye Feng immediately nodded and said: "Okay, then you can take me there now. This medicinal field planted by ancient forces does have a huge effect on me. , if you behave well, then I can spare your life."

At this moment, when the big black bug heard what Ye Feng said, his eyes immediately showed deep ecstasy, and he quickly said: "Yes, sir, I will definitely serve you well, and I will definitely serve you." It's full. The first place I want to take you to is the medicine field. Let's go and take a look. Maybe we can get a lot of elixirs, because the Beast Control Dynasty planted a large area of the medicine field in order to cultivate many demons and evil beasts. The medicinal fields are all ancient elixirs, and they are of great value, and you will definitely be very satisfied."

Uh-huh!

After the big black insect finished speaking, he immediately held Ye Feng and flew quickly towards a certain direction of the beast-controlling dynasty.

Chapter 3665 Ancient Medicine Field

Ye Feng stood on top of the big black insect's head, looking at the surrounding relics and buildings of the Beast Control Dynasty, with a hint of sigh in his eyes.

Thinking about how glorious and grand this beast-controlling dynasty was back then.

But now, it has become such a ruins with no end in sight, which is really a pity.

At this time, Ye Feng asked curiously: "By the way, Big Chongzi, what kind of disaster did your beast-controlling dynasty encounter back then? How come such a huge ancient civilization, so powerful, was suddenly destroyed like this?"

Hearing Ye Feng's question, the big black bug couldn't help but shook his head, smiled bitterly, and said: "Master Ye Feng, I really don't know this because I was just a very weak bug back then. , so I don't know exactly what happened to the entire Beast Control Dynasty back then. After the Beast Control Dynasty was destroyed, I practiced for many years before I finally successfully evolved from a group of ordinary bugs to the mature stage I am today. "

Hearing what the big black bug said, Ye Feng immediately nodded and didn't ask any more questions.

Although Ye Feng is also very curious about what happened to this ancient lost interface back then, so that so many big forces in the entire interface were destroyed.

But since Ye Feng couldn't ask the real reason, he wouldn't worry about it. At this moment, Ye Feng concentrated on looking at the entire ancient ruins around him to see if there were any other special places.

But after all, Ye Feng didn't know much about the ancient ruins of the entire Beast Control Dynasty, so Ye Feng didn't find anything special along the way.

Finally, the big black bug took Ye Feng to the medicinal field where the Royal Beast Dynasty planted various ancient elixirs.

Almost at this moment, Ye Feng immediately saw that in a large open space in front of him, there were trees that looked very tall, towering into the clouds.

\u003c

br\u003e At this moment, Ye Feng couldn't help but said: "It seems that these are not trees, but elixirs that have grown for countless years, and finally grew into the size of towering trees."

At this time, Ye Feng looked at the medicine field in front of him, which had almost grown into a virgin forest, and his eyes suddenly shone.

These elixirs are all ancient elixirs grown by the Beast Control Dynasty back then. They are of very high quality and grade.

And after growing for so many years, no one has come here to mine these elixirs, so they have all grown to the size of a virgin forest.

It is conceivable that this entire medicine field is like a primitive forest of ancient elixirs, how much terrifying energy it can provide to itself.

Uh-huh!

Almost at this moment, without any hesitation, Ye Feng flew directly from the top of the big black insect's head to the medicine field ahead, ready to start harvesting the elixirs from these pills.

Boom!

But suddenly at this moment, the entire ground at the edge of the medicine field in front suddenly collapsed.

A black giant with nine heads suddenly appeared. His whole body was covered with pitch-black scales. Each pair of eyes was red, emitting a scarlet light, and he looked very evil.

The big black bug immediately couldn't help but exclaimed: "Sir, be careful, this seems to be the nine-headed giant that was trained by our Beast Control Dynasty back then. It is specially used to guard various important places in the entire Beast Control Dynasty. The strength is very terrifying."

I heard the big black bug say this at this moment

, Ye Feng looked at the nine-headed giant in front of him who was exuding a terrifying demonic aura. His eyes suddenly showed a trace of surprise, and he couldn't help but said: "Your beast-controlling dynasty is really strange. These evil beasts and bugs that have been cultivated are all so strange in shape and look extremely evil. They seem very different from ordinary beasts."

The big black bug immediately nodded at this time and said loudly: "The commander of our Beast Control Dynasty, the Beast Control Emperor, was a demon cultivator. He integrated the magic way and beast control together, so he cultivated These demonic beasts are all very evil and ferocious existences. They are indeed different from ordinary beasts, but their combat capabilities are very terrifying. "

Ye Feng nodded slightly, then stared at the nine-headed giant in front of him, and said slowly: "You want to stop me?"

The nine-headed giant made a majestic voice at this time: "Although the Beast Control Dynasty has been completely destroyed, I am still here, so no one is allowed to touch this precious medicine field. My mission is to protect this medicine field." field."

When Ye Feng heard what the nine-headed giant said, his eyes showed a look of surprise, and he slowly said: "I didn't expect that so many years have passed. The Beast Control Dynasty has been destroyed for countless years, and you are still guarding it wholeheartedly. In this medicine field, it seems that you are indeed a loyal person, but this does not mean that I will leave like this, because so many ancient elixirs growing in this medicine field are of great benefit to me. It's impossible to give up."

When the nine-headed giant heard what Ye Feng said, he said coldly: "In that case, let's fight. If you can kill me, you can get all the ancient elixirs in this medicine field." , but I think the last person to die will definitely be you, because I am not the weak black bug next to you.

The cultivation level is beyond the immeasurable realm and the extreme transformation realm. It is not something you can fight against. However, you probably won't leave, so I will kill you instantly.
"

Boom!

Almost as soon as the nine-headed giant finished speaking, he charged towards Ye Feng.

The towering giant's body seemed to be full of shocking power, as if it could crush everything.

At this moment, Ye Feng didn't hesitate at all and quickly retreated without directly confronting the nine-headed giant.

Because Ye Feng also realized that this nine-headed giant was very powerful. It was covered with dark scales and seemed to be more powerful than his current Hongmeng Immortal Body.

After all, Ye Feng's current Hongmeng Immortal Title has not entered the realm of Dzogchen, but has just broken through to the early stage of the fourth level.

So at this time, Ye Feng was preparing to use other powerful inheritances to fight against this nine-headed giant, and did not directly confront him head-on.

Hands of hell!

At this moment, Ye Feng directly displayed the power of the Hand of Hell.

A huge black palm struck out directly from Ye Feng's palm and bombarded the giant forward.

boom! !

The energy palm released by the Hand of Hell collided with the nine-headed giant, and a huge roar suddenly broke out, resounding throughout the world.

But it didn't resist the nine-headed giant at all. The nine-headed giant easily tore the energy palm of the Hand of Hell into pieces, and said with a ferocious smile: "I told you before, the gap between your cultivation level and mine is too big, your Any method is extremely weak and ridiculous in my eyes!"

Chapter 3666 Soul Attack Method

Boom!

At this moment, the nine-headed giant looked directly at Ye Feng with a look of disdain on his face.

His hands were covered with dense black scales, as if they were made of black steel. They looked very strong and full of tyrannical power, as if they could tear everything apart.

At this time, in the eyes of the nine-headed giant, Ye Feng was nothing at all, and he could kill the human boy in an instant.

"Hands of Hell!"

At this time, Ye Feng did not release any more energy palms, but directly used his original hell hand to bombard the nine-headed giant in front.

"Boom!"

Almost at this moment, the body of Ye Feng's Hand of Hell collided with the hands of the nine-headed giant, and a huge roar suddenly erupted.

The entire surrounding ground and buildings were about to break and collapse. This shows how terrifying the aftermath of this collision is.

The next moment, the nine-headed giant actually felt that his hands had a painful feeling of splitting.

He immediately couldn't help but retreat quickly, and then stared at Ye Feng with a look of deep surprise in his eyes.

Especially the hand that was staring at Ye Feng.

Seeing the light of hell flashing on Ye Feng's hand, the nine-headed giant couldn't help but exclaimed: "What kind of palm is your hand? It is definitely not your human palm."

Ye Feng just smiled indifferently at this time and said: "You don't care what kind of hand I am, as long as I can knock you down."

Boom!

The moment Ye Feng finished speaking, he directly used the space gem, and his whole body suddenly stepped into the void, making it impossible for the nine-headed giant to capture the specific traces of Ye Feng.

Boom!

But at the next moment, Ye Feng suddenly rushed out from the left rear of the nine-headed giant, and then suddenly a hand of hell struck hard at the nine-headed giant.

"Just wait

You sneak up on me. "

The nine-headed giant didn't seem to panic at all at this time, and was obviously ready.

He immediately shouted: "Magic Sound Prison."

Almost at this moment, a terrifying sound wave suddenly erupted from the nine heads of the nine-headed giant.

A kind of sonic prison was formed, surrounding Ye Feng's entire body, and actually sealed him in the space.

Then the nine-headed giant smiled ferociously and said loudly: "You can't escape now, the hands of the evil dragon!"

The nine-headed giant roared loudly at this time, bursting out with terrifying inherited power.

His hands immediately turned into two evil dragons, roaring and attacking towards Ye Feng.

Ye Feng did not hesitate at this moment and directly released the power of his soul level, directly casting the cursed crystal ball left by the Cursed Demon Lord that Ye Feng had obtained before.

Boom!

Almost at the moment when Ye Feng released his soul power, the cursed power suddenly burst out from the cursed crystal ball. It passed through all visible forces and directly bombarded the soul of the nine-headed giant. middle.

boom!

The nine-headed giant was unable to withstand this soul-level attack at all. He was suddenly attacked by the cursed power in the cursed crystal ball. Suddenly, the whole person felt great pain in his spirit and soul.

It was as if the entire person's soul was about to be destroyed in one fell swoop.

"ah!!"

This made the nine-headed giant immediately turn pale, couldn't help but take several steps back, and screamed.

Obviously at this moment, the nine-headed giant's soul and spirit suffered heavy damage.

The nine-headed giant couldn't help but look at it immediately

With a look of deep horror on his face, he said loudly: "You are actually a rare human soul master who can directly attack my soul and spirit?"

At this time, the nine-headed giant finally understood that the young human boy in front of him, who did not seem to have a very high level of cultivation, was a super genius with countless tricks, and was very terrifying.

At this time, the nine-headed giant's face finally became serious. It was obviously the first time that he felt deep fear and respect for Ye Feng, a seemingly ordinary human boy.

"Curse the crystal ball!"

But at this moment, Ye Feng would not give this nine-headed giant a chance to breathe.

Instead, he continued to unleash his soul master's skills and frantically urged the cursed crystal ball in his hand, a soul magic weapon, which could directly cause huge damage to the enemy's soul and spirit.

When Ye Feng fought against the Skeleton Mage before, he deeply realized that the methods and attacks at the soul master level, which he had always ignored, were also very terrifying.

Especially against opponents who don't understand soul cultivation, it often has miraculous effects.

For example, at this moment, the nine-headed giant that Ye Feng was fighting against had a very terrifying body power and could even suppress Ye Feng.

But once Ye Feng unleashed his soul master-level attack, it immediately caused huge damage to the nine-headed giant's soul, making his face suddenly turn pale.

At this moment, the nine-headed giant looked very ugly.

Because he never thought that Ye Feng, a seemingly ordinary human race boy, would have such terrifying fighting power and possess the legendary soul master's skills.

Soul attacks are really weird and hard to guard against.

So at this time, the nine-headed giant actually retreated quickly towards the back, trying to escape from here.

When Ye Feng saw this scene, he smiled coldly and said: "If you want to escape now, I'm afraid

I'm afraid it's too late. "

Boom! !

Almost at the moment Ye Feng finished speaking, Ye Feng directly released the power of Emperor Yan's Dominator Bone.

As Ye Feng grabbed one hand in the direction of the nine-headed giant's escape, endless sky fire suddenly descended from the entire sky, condensing into a huge flaming palm.

This is the Sky Flame Palm!

It is the ancient inheritance contained in the bones of Emperor Yan's master, and it is very powerful.

"Boom!"

The next moment, the terrifying and huge flaming palm directly bombarded the nine-headed giant who was escaping, and in one fell swoop the entire body of the nine-headed giant was torn apart.

"ah!!"

With a shrill scream, the nine-headed giant instantly became dead. It was directly beaten into countless pieces by Ye Feng's sky flame palm, and it died completely.

At this moment, the big black bug not far away trembled when he saw this scene.

It seems that when he fought with Ye Feng before, Ye Feng did not show his true methods and power at all.

Otherwise, the big black bug felt that he must have died long ago.

At this time, the big black insect was very lucky that he begged for mercy in time, and took Ye Feng to explore the various opportunities and fortunes in the ruins of the entire Beast Control Dynasty.

Otherwise, he would probably be killed instantly by Ye Feng.

At this moment, after Ye Feng killed the nine-headed giant, without any hesitation, he directly released the Devouring Domain and began to completely cover the torn body of the nine-headed giant.

This nine-headed giant is very powerful. If Ye Feng's soul master hadn't been so powerful, he probably wouldn't have been able to fight against this nine-headed giant.

Therefore, the skill and energy contained in the body of this nine-headed giant is still very powerful, and it is definitely a great tonic!

Chapter 3667 Physical Evolution

"Buzz!"

At this moment, as Ye Feng released his Devouring Domain, the skill energy contained in the nine-headed giant's body was immediately devoured by Ye Feng, rapidly strengthening Ye Feng's own skill.

At this time, watching the body of the nine-headed giant gradually shrivel up, the big black bug watching this scene not far away suddenly showed deep horror and fear in its eyes.

At this time, the big black bug seemed to finally see clearly the other side of Ye Feng, which was a very evil side.

He actually practiced this terrifying demon-devouring skill, which can directly absorb the life energy contained in the bodies of other living beings, thus improving his own skills.

Even though the big black bug was a ferocious bug himself at this time, he felt a huge and terrifying feeling towards Ye Feng, a young human race boy who looked pretty and delicate. ??

He just felt that the other person was not a human boy at all, but a big demon king in human skin.

At this time, Ye Feng's skills were greatly improved as he swallowed the body strength and blood energy of the nine-headed giant.

Ye Feng's cultivation also began to break through.

"boom!"

The fifth level of the Infinite Realm!

"boom!"

The sixth level of the Infinite Realm!

At this time, Ye Feng's cultivation reached two levels in a row.

There was a trace of surprise in Ye Feng's eyes. He didn't expect that the energy contained in this nine-headed giant was indeed very powerful and terrifying, and it actually allowed Ye Feng to break through so much in one go.

You know, as Ye Feng's cultivation level improves, the energy he needs is getting bigger and bigger.

Every breakthrough is very difficult.

However, the blood energy provided by this nine-headed giant to Ye Feng can still make Ye Feng break through two levels of the sky at once, which can be said to be extremely majestic and majestic.

It shows that the energy contained in the body of this nine-headed giant is still very terrifying.

At this moment, after Ye Feng devoured the nine-headed giant, his whole body suddenly shook. He could feel that his physical strength had also been greatly improved.

The level of the Hongmeng Immortal Body has transformed directly from the early stage of the fourth level to the middle stage of the fourth level.

This was something Ye Feng didn't expect.

r\u003e

It can be said to be an unexpected surprise.

Next, Ye Feng investigated carefully and finally understood why his Hongmeng Immortal Body had been improved.

It turns out that the body of this nine-headed giant actually contains a very ancient bloodline, which seems to be the bloodline of an ancient giant.

Therefore, after Ye Feng devoured this nine-headed giant, he also integrated the bloodline of this ancient giant into his body, which naturally improved his Hongmeng bloodline.

Let his Hongmeng Immortal Body evolve and enter the middle stage of the fourth level.

At this time, Ye Feng's eyes showed a look of surprise.

Because he discovered that after his Hongmeng Immortal Body entered the fourth level, whether it was when he broke through the early stage of the fourth level before, or now continues to transform into the middle stage of the fourth level, the fourth level bloodline talent of the Hongmeng Immortal Body Ye Feng was really surprised that he hadn't awakened yet.

Because every time Ye Feng evolved the Hongmeng Immortal Body to a new level before, he was able to instantly awaken a powerful bloodline talent.

But that didn't happen this time.

There was a hint of helplessness in Ye Feng's eyes, and he didn't understand why.

However, Ye Feng was unable to forcibly activate the bloodline talent at the fourth level of his Hongmeng Immortal Body.

It seems that we still have to wait a little longer.

Maybe when the Hongmeng Immortal Body is promoted to the late fourth level, the bloodline talent of the fourth level can be awakened.

Ye Feng has no way to control the entire Hongmeng bloodline, so now he can only wait slowly.

But no matter what, although the blood talent of the fourth level of the Hongmeng Immortal Body has not been awakened, the Hongmeng Immortal Body has finally transformed to the middle of the fourth level, which has given Ye Feng a huge increase in physical strength, which is still very good.

After all, Ye Feng's comprehensive combat power, in addition to his powerful magic inheritance, Ye Feng's own physique and body strength are also a very big trump card.

Therefore, the Hongmeng Immortal Embodiment has now evolved, which makes Ye Feng very satisfied.

At this time, Ye

Feng couldn't help but look at the big black bug not far away, as if wondering whether the body of the big black bug also contained some ancient and powerful bloodline.

Because now if Ye Feng's Hongmeng bloodline wants to evolve, it must absorb that very ancient and advanced ancient bloodline in order to evolve.

Ordinary special bloodline can no longer allow Ye Feng to evolve.

At this time, Ye Feng stared at the big black insect, and his body immediately trembled, as if he was guessing what Ye Feng wanted to do.

He secretly thought in his heart, did Ye Feng want to devour him together?

That's too scary!

But what made the big black bug heave a sigh of relief was that Ye Feng just stared at him for a while, and then shifted his gaze to the ancient medicine field that looked like a primitive forest not far away.

At this time, Ye Feng suddenly asked: "Big Chongzi, do you know where the other high-level monsters and evil beasts trained by the Beast Control Dynasty live? Are they still in this ancient ruins?" Survive?"

After Ye Feng devoured the nine-headed giant at this time, he obviously tasted the sweetness.

Not only his cultivation skills have been greatly improved, but his Hongmeng bloodline has also been improved.

So Ye Feng is now very interested in hunting this ancient demonic beast.

If he could hunt down a few more demonic beasts like the Nine-Headed Giant, his skills and bloodline would be greatly improved.

In addition to improving his cultivation level, Ye Feng now also wants to evolve his Hongmeng bloodline and Hongmeng immortal body.

Because Ye Feng wants to see what the fourth level bloodline talent of Hongmeng Immortal Body is?

So at this time, Ye Feng hopes that his Hongmeng bloodline and Hongmeng immortal body can continue to evolve and transform.

In this case, you might be able to awaken your fourth-level bloodline talents as quickly as possible.

At this moment, after Ye Feng finished asking, the big black insect seemed to understand Ye Feng's intention.

So at this time, the big black bug did not hide anything, but nodded quickly and said loudly

: "I still know most of the places where other powerful beast-controlling dynasties left over demonic beasts, but many of them are more powerful than this nine-headed giant. Lord Ye Feng really wants to hunt them down. They?"

Ye Feng nodded slightly and said aloud: "As long as it is not much stronger than this nine-headed giant, my soul master's methods, coupled with my martial arts methods, basically there is no big problem, and you You can also help me fight against those demonic beasts. If you can perform meritorious deeds, not only will I not kill you, I will also train you and even increase your bloodline level so that you can continue to evolve into a more powerful insect."

When the big black bug heard what Ye Feng said, his eyes couldn't help but light up, and he asked aloud: "Lord Ye Feng, there is actually a way to evolve my bloodline and life level?"

Ye Feng smiled slightly at this moment and said: "I control a special and incomparable gas, called Hongmeng Purple Qi, which can enhance and evolve your bloodline level, and can make your vitality become more advanced and great, so As long as you serve me wholeheartedly, the benefits in the future will definitely come from you."

Hearing what Ye Feng said, the big black bug immediately showed deep joy on his face.

Because for the big black bug, what he wants most is to improve his life and blood level.

In this way, he can continue to evolve into more powerful bugs.

You know, this big black bug evolved from a group of countless small bugs, so it is naturally very interested and eager to evolve its own vitality.

So at this time, Ye Feng suddenly said that he had the means to evolve its vitality and bloodline level. Naturally, this big black bug was as if it had been injected with chicken blood. It was very excited and couldn't help but say: "Then Master Ye Feng, please harvest this ancient medicine field quickly, and then I will take you to find a demonic beast that is more powerful than the nine-headed giant. That demonic beast is also very powerful, and has everything in its body. The energy contained is very huge, more powerful than the nine-headed giant, and it will definitely satisfy Lord Ye Feng."

At this time, in order to survive and improve his bloodline and life level, the big black insect naturally thought of Ye Feng wholeheartedly and did not hesitate to betray the Beast Control Dynasty to which he had once been loyal.

Chapter 3668 I am very satisfied

At this moment, Ye Feng flew directly into the ancient medicine field on the scale of a primitive forest.

Buzz!

At this time, Ye Feng took a deep breath and even felt that his skill had been greatly improved.

Because the entire ancient forest-like medicinal field underneath is really growing too many elixirs, it is very vigorous, and naturally the medicinal power is sufficient. Even the air is impregnated with a lot of elixirs. It makes people feel refreshed and refreshed when they smell it, and they feel like they are about to break through.

"boom!"

Next, Ye Feng no longer hesitated and started to release the Devouring Domain, covering the entire ancient medicine field.

You must know that this ancient medicine field was all planted by the powerful ancient civilization of the Beast Control Dynasty.

Therefore, the elixirs grown in it are all very ancient, very precious, and of very high quality.

So at this time, after Ye Feng released the Devouring Domain, he immediately began to absorb the power of countless elixirs in this ancient medicine field.

You know, these ancient elixirs have grown for countless years, and they are like towering trees.

It can be seen from this that how powerful the medicinal power contained in each huge elixir is, and how majestic the energy contained is.

So at this moment, Ye Feng released the Devouring Domain and enveloped the entire ancient medicine field. The next moment, there were waves of boundless medicinal power, which were directly absorbed by Ye Feng, and then merged into Ye Feng's body. .

At this time, it can be seen with the naked eye that these elixirs in the entire ancient medicine field are withering rapidly.

Because their medicinal power and life essence were all absorbed by Ye Feng, and then injected into Ye Feng's own body, rapidly increasing Ye Feng's skill and energy.

Seeing this scene at this time, the big black bug not far away had a look of horror in its eyes, and asked aloud: "Master Ye Feng, if you forcefully absorb so much elixir power, will it affect your practice?" Are there any sequelae?"

When Ye Feng heard what the big black bug said, he just glanced at the big black bug and said loudly: "Of course not. I am extremely talented and will never have any so-called sequelae."

After saying that, Ye Feng increased his devouring power.

Buzz!

Suddenly, Ye Feng's cultivation aura began to increase rapidly and violently.

"boom!"

The seventh level of the Infinite Realm!

"boom!"

The eighth level of the Infinite Realm!

"boom!"

The ninth level of the immeasurable realm!

"boom!"

The Great Perfection of the Tenth Level of the Infinite Realm! !

At this time, Ye Feng's cultivation aura finally stopped.

Ye Feng's whole body at this moment was radiating bright light, and the aura in his whole body was like a vast ocean, turbulent and unfathomable.

But at this moment, in the ancient medicinal field not far away, all the elixirs had completely withered and shriveled, apparently drained of all their life essence and medicinal power.

At this time, the big black insect saw Ye Feng's rapid breakthrough and was suddenly promoted to the tenth level of the Infinite Realm.

Full.

Even this vicious creature that survived from ancient times felt a kind of shock and fear from the heart.

Because Ye Feng's ability is so terrible, so terrifying, it may bring huge disasters to the entire world. Wherever it passes, not even a blade of grass will grow, and the energy of all other living beings will wither. Eventually, Become Ye Feng's nourishment.

Thinking of this, the big black bug immediately understood in his heart that he must please Ye Feng in the future, otherwise, Ye Feng might get red-eyed one day and swallow the big black bug directly.

As soon as he thought of this, the big black bug immediately clasped his fists respectfully at Ye Feng, who had just broken through at this moment, and said loudly: "Congratulations to Lord Ye Feng for his great achievement! His cultivation level has skyrocketed! The admiration of a villain for an adult is simply incredible. It's like the water of a river, flowing incessantly and getting out of hand."

Hearing what the big black bug said, Ye Feng just smiled faintly and didn't say much. Instead, he slowly said: "The ancient medicine field you brought me to this time is very good. It makes my My cultivation has improved so much all of a sudden. I am very satisfied, so I will not kill you now. I will even help you improve your life level and bloodline level. This is what I promised you, and I will naturally do it. After doing this, and improving your life level and bloodline level, you will become more powerful, and you will be able to help me with my attacks."

Buzz!

After saying that, Ye Feng stretched out his hand and pressed it on the head of the big black insect.

At this moment, Ye Feng directly released Hongmeng Purple Qi.

Hongmeng Purple Qi is the bloodline talent awakened by Ye Feng's Hongmeng Immortal Body when it reaches the third level.

The greatest effect of Hongmeng Purple Qi is to repair all spiritual things in the world.

But recently, Ye Feng also discovered another effect of Hongmeng Purple Qi, which is that it can greatly develop and enhance a creature's bloodline and life energy.

At this moment, Ye Feng released Hongmeng Purple Qi, which directly began to cover the entire big black insect.

After the big black bug absorbed this Hongmeng purple energy, it immediately felt like it was floating, and it felt like its entire body was about to undergo a very subtle evolution.

The big black bug could feel that his bloodline level and life level were rapidly and continuously improving.

After sensing all this, the big black bug immediately widened his eyes and couldn't help but exclaimed: "Master Ye Feng, what kind of existence are you? You actually control such a magical evolutionary gas! This is simply... It is an incredible gas that can completely change the life level of a living being. It is so precious and priceless. "

Ye Feng would naturally not tell this big black bug at this time that the Hongmeng Purple Qi was the gas he had awakened.

At this time, Ye Feng just said indifferently: "Don't worry about where I got this purple gas. You just need to silently absorb this gas, evolve quickly to improve your strength, and then go hunting." Other monsters and beasts may still need your help. It would be a pity if you were so weak and died casually. "

Hearing what Ye Feng said, the big black bug did not dare to ask any more questions, and quickly began to concentrate on absorbing the Hongmeng Purple Qi released by Ye Feng, and began to rapidly increase his bloodline level and evolve his life level.

For the big black bug, this is also a once-in-a-lifetime opportunity, so naturally it must be firmly grasped. At this moment, Ye Feng flew directly into the ancient medicine field on the scale of a primitive forest.

Buzz!

At this time, Ye Feng took a deep breath and even felt that his skill had been greatly improved.

Because the entire ancient forest-like medicinal field underneath is really growing too many elixirs, it is very vigorous, and naturally the medicinal power is sufficient. Even the air is impregnated with a lot of elixirs. It makes people feel refreshed and refreshed when they smell it, and they feel like they are about to break through.

"boom!"

Next, Ye Feng no longer hesitated and started to release the Devouring Domain, covering the entire ancient medicine field.

You must know that this ancient medicine field was all planted by the powerful ancient civilization of the Beast Control Dynasty.

Therefore, the elixirs grown in it are all very ancient, very precious, and of very high quality.

So at this time, after Ye Feng released the Devouring Domain, he immediately began to absorb the power of countless elixirs in this ancient medicine field.

You know, these ancient elixirs have grown for countless years, and they are like towering trees. .???.??

From this, we can see how powerful the medicinal power contained in each huge elixir is, and how majestic the energy contained is.

So at this moment, Ye Feng released the Devouring Domain and enveloped the entire ancient medicine field. The next moment, there were waves of boundless medicinal power, which were directly absorbed by Ye Feng, and then merged into Ye Feng's body. .

At this time, the naked eye can see that these elixirs in the entire ancient medicine field are withering rapidly.

Because their medicinal power and life essence were all absorbed by Ye Feng, and then injected into Ye Feng's own body, rapidly increasing Ye Feng's skill and energy.

Seeing this scene at this time, the big black bug not far away had a look of horror in its eyes, and asked aloud: "Master Ye Feng, if you forcefully absorb so much elixir power, will it affect your practice?" Are there any sequelae?"

When Ye Feng heard what the big black bug said, he just glanced at the big black bug and said loudly: "Of course not. I am extremely talented and will never have any so-called sequelae."

After saying that, Ye Feng increased his devouring power.

Buzz!

Suddenly, Ye Feng's cultivation aura began to increase rapidly and violently.

"boom!"

The seventh level of the Infinite Realm!

"boom!"

The eighth level of the Infinite Realm!

"boom!"

The ninth level of the immeasurable realm!

"boom!"

The Great Perfection of the Tenth Level of the Infinite Realm! !

At this time, Ye Feng's cultivation aura finally stopped.

Ye Feng's whole body at this moment was radiating bright light, and the aura in his whole body was like a vast ocean, turbulent and unfathomable.

But at this moment, in the ancient medicinal field not far away, all the elixirs had completely withered and shriveled, apparently drained of all their life essence and medicinal power.

At this time, the big black insect saw Ye Feng's rapid breakthrough and was suddenly promoted to the tenth level of the Infinite Realm.

Full.

Even this vicious creature that survived from ancient times felt a kind of shock and fear from the heart.

Because Ye Feng's ability is so terrible, so terrifying, it may bring huge disasters to the entire world. Wherever it passes, not even a blade of grass will grow, and the energy of all other living beings will wither. Eventually, Become nourishment for Ye Feng.

Thinking of this, the big black bug immediately understood in his heart that he must please Ye Feng in the future, otherwise, Ye Feng might get red-eyed one day and swallow the big black bug directly.

As soon as he thought of this, the big black bug immediately clasped his fists respectfully at Ye Feng, who had just broken through at this moment, and said loudly: "Congratulations to Lord Ye Feng for his great achievement! His cultivation level has skyrocketed! The admiration of a villain for an adult is simply incredible. It's like the water of a river, flowing incessantly and getting out of hand."

Hearing what the big black bug said, Ye Feng just smiled faintly and didn't say much. Instead, he slowly said: "The ancient medicine field you brought me to this time is very good. It makes my My cultivation has improved so much all of a sudden. I am very satisfied, so I will not kill you now. I will even help you improve your life level and bloodline level. This is what I promised you, and I will naturally do it. After doing this, and improving your life level and bloodline level, you will become more powerful, and you will be able to help me with my attacks."

Buzz!

After saying that, Ye Feng stretched out his hand and pressed it on the head of the big black insect.

At this moment, Ye Feng directly released Hongmeng Purple Qi.

Hongmeng Purple Qi is the bloodline talent awakened by Ye Feng's Hongmeng Immortal Body when it reaches the third level.

The greatest function of Hongmeng Purple Qi is to repair all spiritual things in the world.

But recently, Ye Feng also discovered another effect of Hongmeng Purple Qi, which is that it can greatly develop and enhance a creature's bloodline and life energy.

At this moment, Ye Feng released Hongmeng Purple Qi, which directly began to cover the entire black insect.

After the big black bug absorbed this Hongmeng purple energy, it immediately felt like it was floating, and it felt like its entire body was about to undergo a very subtle evolution.

The big black bug could feel that his bloodline level and life level were rapidly and continuously improving.

After sensing all this, the big black bug immediately widened his eyes and couldn't help but exclaimed: "Master Ye Feng, what kind of existence are you? You actually control such a magical evolutionary gas! This is simply... It is an incredible gas that can completely change the life level of a living being. It is so precious and priceless. "

Ye Feng would naturally not tell this big black bug at this time that the Hongmeng Purple Qi was the gas he had awakened.

At this time, Ye Feng just said indifferently: "Don't worry about where I got this purple gas. You just need to silently absorb this gas, evolve quickly to improve your strength, and then go hunting." Other monsters and beasts may still need your help. It would be a pity if you were so weak and died casually. "

Hearing what Ye Feng said, the big black bug did not dare to ask any more questions, and quickly began to concentrate on absorbing the Hongmeng Purple Qi released by Ye Feng, and began to rapidly increase his bloodline level and evolve his life level.

For the big black bug, this is also a once-in-a-lifetime opportunity, so naturally it must be firmly grasped.

Chapter 3669 Nine-tailed Fox Fairy

At this time, the big black bug absorbed the Hongmeng purple energy, and it was extremely focused and serious.

At the same time, the eyes of this big black bug were also full of deep excitement.

Because for this big black bug, the only thing he wants is to survive.

But now, having been cultivated by Ye Feng Hongmeng's purple energy, his potential can evolve and his life level can be improved. It is really an unexpected surprise for the big black bug.

This also made the big black insect more loyal to Ye Feng.

Because the big black bug suddenly discovered it, following behind Ye Feng seemed to be a very good choice.

So at this time, some of the little thoughts in the big black bug's heart completely disappeared, and turned into following Ye Feng loyally. .???.??

"Buzz!"

At this moment, as the big black bug absorbed the Hongmeng purple energy, his life level and bloodline level immediately improved and transformed rapidly.

Suddenly at some point.

"boom!"

An extremely strong wave emanated from the body of this big black insect.

This extremely strong fluctuation comes from the deepest level of life. Obviously, the blood level of this big black bug has been greatly improved, and his life level has also evolved.

At this moment, you can see that the pitch-black carapace of this big black bug begins to change from black to silver.

The big black bug watched it slowly turn into a silver carapace, and immediately said excitedly: "I have evolved! I have really evolved! Once the bug carapace on my body turns completely silver, that means I am about to activate my most original ancestral bloodline and transform into a silver-armored insect."

At this moment, the big black bug's tone was full of deep excitement, and he could feel that his entire strength had become much stronger at this moment.

Because the big black bug's life level has evolved, his strength and power have naturally been greatly improved.

At this time, the big black bug suddenly opened its mouth and sprayed out a combination of ice frenzy and fire frenzy.

"Ice and Fire Frenzy!"

The big bug immediately shouted in surprise: "My innate ability has also evolved. From the Ice Frenzy, it has directly evolved into the Ice and Fire Frenzy, and its lethality is even more terrifying."

At this time, Ye Feng looked at the big bug that had turned into silver and could spray out a frenzy of ice and fire, which made Ye Feng's eyes show a hint of surprise.

Unexpectedly, the effect of Hongmeng Purple Qi was quite good. In a short period of time, this big black bug evolved into a big silver bug, and it also reawakened another type of energy, flame energy. Combined with the previous ice energy, it became an ice and fire frenzy, and its power was definitely increased many times.

At this time, the big insect's eyes were filled with deep excitement, and then full of deep respect. He stared at Ye Feng beside him, and immediately said: "Thank you Lord Ye Feng for your gift. I have undergone a huge evolution, and my strength has increased several times. The respect that my subordinates have for Lord Ye Feng is like a torrential river, continuous, and like a river overflowing, and it is out of control..."

"Stop talking nonsense."

Ye Feng suddenly spoke out at this time, saying

With a hint of expectation, Qi said: "Take me to the next place where monsters and monsters live, so that I can hunt more monsters and monsters. In this way, my cultivation will be improved. , the strength has been enhanced, and it will be of great benefit to you."

When the big insect heard what Ye Feng said, of course he nodded immediately and said: "Okay, I will now take you, Mr. Ye Feng, to another place where demons and evil beasts live. In the ancient times of our beast-controlling dynasty, To the southwest of the ruins, the demonic beast is called the Nine-Tailed Fox Fairy. It is much more powerful than the nine-headed giant that you killed before, Lord Ye Feng. But now, Lord Ye Feng, you have swallowed the entire nine-headed giant and the ancient medicine field. , my cultivation strength has also been greatly increased, and now that I have evolved, I should be able to help Lord Ye Feng. There should be no problem in hunting down the nine-tailed fox fairy, but I still have to be careful. , after all, the nine-tailed fox fairy is said to possess a very special psychedelic technique, which can easily kill the opponent invisibly. "

When Ye Feng heard what the big insect said, he nodded slightly and said, "Let's go and take a look first."

Ye Feng is still very interested in hunting this special demon beast.

At this time, Ye Feng suddenly thought of something, and immediately asked aloud: "Does the bloodline contained in the body of that nine-tailed fox fairy have the bloodline of an ancient race? Is it as ancient as the nine-headed giant?"

The big insect couldn't help but shook his head at this time and said loudly: "Master Ye Feng, I really don't know this."

Ye Feng nodded and didn't ask any more questions, but stood on top of the big insect's head.

The big silver bug immediately flew towards a certain direction of the ruins of the beast-controlling dynasty.

Soon they arrived at their destination.

This is a very deserted place, seemingly barren of grass.

But there is an oasis in the distance, which looks full of vitality, and there is oasis spring water flowing in it.

In the middle of a whole desert, an oasis appeared, which shows that this place is very unusual.

Although the big bug has evolved at this time and its strength has increased a lot, he still seems to be very afraid of the nine-tailed fox fairy.

It couldn't help but said in a solemn voice: "Master Ye Feng, I have already felt a very terrifying evil spirit. After so many years, this nine-tailed fox fairy must have become very powerful. He cannot be easily Deal with it."

Ye Feng just nodded slightly at this time and said aloud: "I also sensed a very terrifying evil spirit. It seems that the body of this nine-tailed fox fairy probably hides the blood of some ancient races, otherwise it would be impossible Becoming so powerful is a very good thing for me, because I need this kind of special ancient bloodline."

After Ye Feng finished speaking, he took the big insect and flew quickly towards the oasis.

"Rumble..."

But when they came to the edge of the oasis, they suddenly heard a very noisy fight.

After Ye Feng sensed the sound of fighting, his eyes suddenly showed a look of surprise.

Could it be that someone has arrived here first?

Are they Senior Brother Gu, Senior Sister Lan and the others who are traveling with him?

Ye Feng thought secretly in his heart, and then asked the big insect to restrain his aura.

One person and one insect slowly lurked over, wanting to see what was going on. At this time, the big black bug absorbed the Hongmeng purple energy, and it was extremely focused and serious.

At the same time, the eyes of this big black bug were also full of deep excitement.

Ye Feng thought secretly in his heart, and then asked the big insect to restrain his aura.

One person and one insect slowly lurked over, wanting to see what was going on.

Chapter 3670 Haoran Academy

At this time, Ye Feng and the big insect slowly and quickly lurked towards the depths of this oasis.

When they arrived at the inner area of the oasis, there was a hint of surprise in their eyes.

Ye Feng saw that the people fighting in front were not Senior Brother Gu and others who were traveling with him, but a little boy who looked only two or three years old. He looked extremely cute.

This little boy looks very cute, but at this time, his body is actually emitting patches of bright white light. He has very powerful power and is fighting against a group of nine-tailed foxes.

Ye Feng guessed that these nine-tailed foxes should be the monsters under the command of the nine-tailed fox fairy.

At this time, there were dozens of nine-tailed foxes, besieging this little boy who looked to be only two or three years old.

This little boy seems to be babbling a little, but the power exuding from his body is very powerful.

"That is....."

At this moment, Ye Feng suddenly discovered that this little boy had a white token on his body.

This white token has the word "Haoran" written on it. It emits bright white light and forms an energy shield, resisting the attacks of dozens of nine-tailed foxes.

In fact, to be precise, it is not the little boy who is fighting against the dozens of nine-tailed fox demons, but the token suspended on his body, which emits an energy mask that resists the dozens of nine-tailed fox demons' attack.

At this moment, the little boy immediately screamed: "I just came to this interface to play, and I encountered so many powerful nine-tailed foxes. Don't attack me. I have no ill intentions towards you. I just Come and have some fun."

What this little boy said seemed to be very innocent.

When Ye Feng heard what the little boy said, there was a look of surprise in his eyes.

Whose baby is this?

How would it appear here?

And were attacked by so many nine-tailed foxes?

Suddenly at this moment, a nine-tailed fox several hundred meters tall floated out from behind dozens of nine-tailed foxes.

This should be the leader of this group of nine-tailed foxes, the nine-tailed fox fairy that Big Chongzi calls.

This nine-tailed fox fairy is very strong and tall, just like an ancient demon, exuding a terrifying and majestic demonic aura.

The moment the nine-tailed fox fairy appeared, the two or three-year-old boy showed a trace of surprise in his eyes, and couldn't help but said: "There is such a big nine-tailed fox in this world. It was a real eye-opener."

Hearing what the little boy said, Ye Feng's eyes twitched slightly.

The demonic aura emanating from this nine-tailed fox fairy was very terrifying. The two or three-year-old boy did not seem to be afraid at all. Instead, he stared curiously at the nine-tailed fox fairy who was several hundred meters tall. .

This is obviously an inexperienced child.

Totally a little baby.

Ye Feng was thinking about whether to rescue the little baby.

At this moment, the nine-tailed fox fairy stared coldly at the little boy guarded by the white energy mask, and said slowly: "It turns out that it is the Haoran baby who originated from the Haoran Academy in the Great World. You two or three A kid who is 20 years old dares to run wild in my territory, so I must teach you a lesson."

After the nine-tailed fox fairy finished speaking, Ye Feng, who was secretly observing not far away, moved his eyes slightly.

Haoran baby?

The baby Haoran who originated from Haoran Academy in the big world?

When Ye Feng entered the Wanjie Martial Arts Academy, he received a newcomer's manual.

It introduces the distribution of major forces in the entire dark world.

Among them is this

Records of Haoran Academy.

Haoran Academy is a super power in the ninth level realm of the Origin World. It is comparable to the existence of those super ancient races and is very powerful.

And Baby Haoran is the only son of the dean of Haoran Academy.

It is said that Haoran's baby has a strange disease and has never grown up. He has always looked like a two or three-year-old, and his mind has always been that of a child's and he has never grown up.

However, the dean of Haoran Academy attaches great importance to this little baby. He even went to the cemetery of gods and demons in person, dug out the bones of a god and demon, and refined many treasures, which were placed in Haoran's baby. On the body, it is specially designed to protect the safety of Haoran's baby.

Because Baby Haoran likes to play everywhere, and the dean of Haoran Academy cannot always follow Baby Haoran.

The white token protecting Haoran's baby at this moment should be a peerless treasure made from the bones of gods and demons, otherwise it would be impossible to withstand the attacks of so many powerful nine-tailed foxes.

But at this moment, the nine-tailed fox fairy, a super powerful existence, appeared, and it was estimated that he could break through Baby Haoran's defense.

Boom! !

At this moment, the nine-tailed fox fairy stretched out a claw.

That claw immediately turned into a huge claw that covered the sky and the sun in the sky. It directly and fiercely attacked the energy shield formed around Baby Haoran, and a huge explosion suddenly erupted. roar.

However, the Nine-tailed Fox Fairy's attack did not break through the protection of this energy barrier.

This made the nine-tailed fox immortal couldn't help but show a look of surprise in his eyes, and said loudly: "As expected of the son of Haoran Academy, he has many treasures on his body. If I kill you, I will rob you of all the treasures on your body." If I come here, I will become rich."

At this time, the nine-tailed fox fairy spoke, his tone full of greed.

Baby Haoran had a bitter look on his face at this time, and said anxiously: "Darkly

Big brother in the observation, can you save me? If you save me, I will ask dad to give you a lot of wealth. "

"Um?"

Ye Feng suddenly heard Baby Haoran's cry for help, and his eyes suddenly froze.

Ye Feng never thought that a child like Haoran Baby would be able to realize that he was lurking in the dark, and that he would also know that he was a brother, not a sister.

This baby Haoran's insight is really amazing.

As expected, he is the son of the dean of Haoran Academy, the dominant force in the ninth-level realm of the Origin World.

Although he is physically and mentally a two- or three-year-old baby, he is still much more powerful than ordinary warriors after being trained by a peerless figure like the dean of Haoran Academy.

At this moment, Ye Feng was originally going to hunt down the Nine-tailed Fox Fairy, so if he saved Haoran's baby by the way, he could be considered to have formed a good relationship.

It may also be of great help to your future self.

So at this time, Ye Feng no longer hid and flew out from the surrounding jungle with the big bug.

"Wow, what a big silver bug!"

Baby Haoran saw the big bug next to Ye Feng and immediately exclaimed out of curiosity.

Obviously Baby Haoran is very interested in this rare monster.

But this is also in line with the nature of children.

Ye Feng looked at Baby Haoran at this time, smiled and said: "I am Ye Feng, a student of Wanjie Martial Arts Academy. I am very happy to meet you, Baby Haoran."

Ye Feng didn't feel defensive about this innocent little baby, but greeted him with a smile.

When Baby Haoran saw Ye Feng, he immediately said happily: "Brother Ye Feng, please help me quickly. I can feel that you are very powerful. You are the most talented person I have ever seen. You can definitely fight." Beat this nine-tailed fox fairy!"
