Chapter 3871 Under the Magma

"Too strong!"

"As expected of the King of Dark Gu Insects!"

Ye Feng was very excited at this time. He didn't expect the Dark Gu Insect King to be so powerful.

Ye Feng has not let the Dark Gu Insect King take action before. In addition to being afraid that others will find out that he controls the Dark Gu Insect King trained by the Dark Demon Cult, there is also another important reason, that is, he is afraid that the Dark Gu Insect King has not yet taken action. When you really grow up, it will be troublesome if you die prematurely.

But what I never expected was that when the Dark Gu Insect King took action, it would be so terrifying and lethal. Like a black lightning, it instantly killed all the masters.

"boom!"

At this time, Ye Feng did not hesitate and directly released his Devouring Domain and began to devour the blood and energy skills of the group of masters killed by the Dark Gu Insect King.

"Gululu..."

A huge amount of energy was immediately injected into Ye Feng's body, allowing the skill in Ye Feng's dantian to quickly grow and improve.

"boom!"

The fifth level of Dongxu Realm!

"boom!"

The sixth level of Dongxu Realm!

At this time, Ye Feng's cultivation aura finally stopped.

It has to be said that the blood energy of these masters is still very rich. After Ye Feng devoured it, he directly broke through the sky twice in a row.

Directly from the fourth level of Dongxu Realm, he broke through to the sixth level of Dongxu Realm.

Still a very good improvement.

Ye Feng did not hesitate at this time and continued to use the flame shield released by the flame gem to protect himself, allowing him to walk quickly in the second layer of magma of this ancient sacred mountain.

"boom!"

However, just after Ye Feng left for a while, suddenly a huge fire dragon rushed out of the lava not far away, and directly sprayed a large pillar of flame light towards Ye Feng, thinking

Ye Feng must be killed.

It seems that in this second-level magma land, there are still many powerful creatures born in the magma.

Ye Feng saw many masters in front of him, and many of them were killed by this evil beast that suddenly emerged from the lava.

Ye Feng didn't hesitate at this moment, and directly exploded with his extremely powerful power, punching hard towards the flame dragon.

You know, there is a flame gem on the top of Ye Feng's head, which protects Ye Feng and puts a layer of flame light around Ye Feng's body.

Therefore, the flames sprayed out by the fire dragon could not harm Ye Feng at all, and Ye Feng directly punched him hard.

Click! !

The scales on the flame dragon were immediately shattered by Ye Feng's fist.

"howl!!"

The flame dragon immediately couldn't help but scream, and said in shock: "How come you, a weak human being, have such a powerful body? Even my flame scales can't resist your fist." ? This is impossible! Moreover, you are not afraid of my fire power at all, is this possible? "

I have to say that this fire dragon was simply shocked to the extreme.

Because he originally thought that his flames would burn Ye Feng to ashes in an instant.

But he never expected that not only was Ye Feng not burned to ashes, but his scales were shattered with a fist.

This made the fire dragon immediately frightened, and he immediately got back into the lava river, trying to escape.

Since Ye Feng had been provoked by the fire dragon at this time, he naturally refused to let the fire dragon go easily.

Uh-huh!

So at this moment, Ye Fengli

The horse just shouted: "You can't escape!"

Boom!

The next moment, Ye Feng also exploded with his own power and dived directly into the lava.

Seeing this scene, many of the masters around who were dealing with the monsters had deep horror in their eyes at this moment.

They never expected that Ye Feng would be so violent and jump directly into the lava.

You know, they had a hard time resisting the power of the flames of the lava, but Ye Feng directly entered the lava with his whole body, which was really tough to the extreme.

Some masters couldn't help but said: "Is this young man a super genius from which big force in our origin world? He is so tough, he is really a peerless fierce man!"

At this moment, Ye Feng has the flame gem to protect his entire body, so he is naturally not afraid of these very powerful molten lava.

The flame gem was suspended above Ye Feng's head, and a flame mask condensed around Ye Feng, which could protect Ye Feng from being burned by the magma and speed through the magma quickly.

At this time, Ye Feng jumped into the lava, locked the escaping flame dragon in front with his huge soul power, and rushed directly towards the flame dragon quickly.

At this moment, the escaping flame dragon discovered that Ye Feng had also jumped into the lava with him, and immediately said in horror: "Human boy, who are you? How can you not be afraid of our ancient sacred mountain?" God-level lava? This is impossible! Even superpowers who are several levels higher than you can't resist this lava, let alone you."

Ye Feng just smiled faintly at this time and did not explain anything more. Instead, he said slowly: "Anyway, you provoked me. You will never escape and will be killed by me."

Hearing what Ye Feng said, the flame dragon immediately showed a cold smile in his eyes and said loudly: "Don't think so."

Because you are not afraid of the power of lava, you can kill me. You will know how powerful it is later. "

Boom!

At this time, the flame dragon said, immediately speeding up, and actually escaped directly to the deepest part of the magma land.

In the deepest part of this magma land, huge totem poles appeared under the long river of magma.

These ancient totem poles were emitting red light at this moment. When the flame dragon escaped here, he immediately hid in the totem poles.

And these totem poles seemed to form an extremely powerful ancient formation, and they quickly bombarded the pursuing Ye Feng with pillars of flame light, trying to crush Ye Feng.

The attack power of the formation formed by these ancient totem poles was very terrifying. Ye Feng was slightly hit by a flame beam, and he couldn't help but stepped back more than ten steps, feeling that his whole body was about to be broken.

"Um?"

"What a powerful flame attribute formation!"

This made Ye Feng's eyes suddenly show a look of surprise.

Because Ye Feng saw that in this ancient totem pole formation, there was actually the corpse of an extremely ancient strongman lying in a red coffin.

This ancient totem pole formation should be protecting the body of this ancient powerful man.

This giant flame dragon is hovering in this ancient totem pole formation at this moment.

The flame dragon looked at the surprised look on Ye Feng's face not far away, and immediately laughed out loud: "Boy, this ancient totem pole formation was arranged after the death of the owner of the lava land. The super formation that came out, even if your cultivation level is three or four realms stronger, it is impossible to break in. If you know better, you should leave here quickly,

otherwise, I will directly control the super formation of this ancient totem pole. Formation, kill your kid!"

Chapter 3872 The Ancient Holy Fire Domain

At this time, the flame dragon said, making Ye Feng grin and say: "If you can really control the formation formed by this ancient totem pole, you have already started to attack me. You are just Just hiding inside."

Hearing what Ye Feng said, the flame dragon's face suddenly turned very green and ugly.

He immediately said: "No matter what, it is simply impossible for you to kill me now. If you want to force your way into this ancient totem formation, you will definitely die without a burial place."

Hearing what the flame dragon said, Ye Feng immediately smiled lightly and said, "Then I'll give it a try."

At this time, Ye Feng was not very interested in the flame dragon. Instead, Ye Feng was very interested in the body of the strong man lying in the ancient totem formation.

Because it can be used as his burial place in the deepest part of this endless magma land, it means that the corpse of this ancient strong man is absolutely extraordinary. It is very likely that an ancient super strong man died here.

It is even possible that the entire magma land was formed after the death of this powerful man.

In any case, there must be extraordinary wealth on the corpse of this ancient powerful man.

Since Ye Feng met him at this time, he naturally wanted to take a look.

At this moment, Ye Feng immediately rushed towards the formation formed by the ancient totem poles.

Seeing Ye Feng really rushing towards him, the flame dragon couldn't help but screamed: "You are really crazy! I will see you die with my own eyes!"

Boom!

At this moment, the moment Ye Feng approached this ancient totem formation, as expected, a terrifying red light burst out from every totem pole, instantly bombarding Ye Feng.

Such a terrifying attack, even Ye Feng

The Hongmeng Immortal Body is unable to compete.

At this moment, Ye Feng directly burst out the majestic magic power of the sixth level of his Dongxu Realm, and then instantly released the Qing Emperor Divine Furnace that Ye Feng had obtained before.

The Qing Emperor Divine Furnace was the first treasure that Ye Feng obtained in this ancient cave. It was a powerful treasure from heaven and was very powerful.

At this moment, after Ye Feng released the Qing Emperor Divine Furnace, he directly resisted the red flame attack erupted by those ancient totems.

In addition, Ye Feng also directly released the Dark Gu Insect King and said: "Go directly and destroy those totem poles."

The Dark Gu Insect King immediately nodded, and suddenly turned into a black lightning and rushed down.

The red flame attack released by those ancient totem poles was unable to damage the body of the Dark Gu Insect King at all.

"What??"

Seeing this scene, the flame dragon immediately couldn't help shouting in horror: "How is this possible! Even my dragon body can't withstand the power of the flame formation released from the ancient totem pole. So How can a small insect be so powerful and strong?"

At this moment, the Dark Gu Insect King had no time to say anything to the flame dragon. It strictly followed Ye Feng's orders.

Boom!

At this moment, the Dark Gu Insect King flew directly in front of an ancient totem pole, and then stretched out his sharp insect claws, cutting the ancient totem pole in front of him into countless pieces.

Boom!

Because the entire ancient totem pole formation

is integrated into one body, so after a totem pole was destroyed by the Dark Gu Insect King at this time, the entire formation immediately collapsed.

It's like causing a chain reaction!

An ancient totem pole was broken, and the formation had a weak point, so naturally it could no longer release its power.

Uh-huh!

At this time, Ye Feng rushed forward and was in front of the flame dragon. He stepped on the flame dragon with one foot and said with a smile: "Don't you see that I'm coming in? "

The flame dragon was extremely frightened at this time. He had never seen such a tough human boy before. His fighting ability was really terrifying.

Especially the big black bug was so terrifying, even more powerful and solid than his dragon body.

At this moment, the flame dragon immediately kowtowed and begged for mercy, shouting: "Sir, have mercy on me, my lord, have mercy on me! I will tell you everything! This ancient powerful man is called the Flame King. After his death, his entire body The power in it radiated out, forming the entire lava land, and in the storage ring of the Flame King, there is a set of extremely powerful flame inheritance. I have obtained it. I will dedicate it to you now, and ask you to Do not kill me."

At this time, Ye Feng's eyes showed a look of surprise, and he couldn't help but said: "First, show me the inheritance of the Flame King you got."

The flame dragon nodded immediately, and then respectfully took out a set of ancient books from his storage ring.

The flame dragon immediately said: "I was just a snake in the river back then. It was because of the inheritance of this flame king that I practiced and transformed into the fire dragon I am today. So please don't kill me. I'm sorry. After so many years of practice

, it would be a pity to kill me. I can serve you, and I am very clear about the chance creation in the ancient sacred mountain, because I am a creature born in the ancient sacred mountain, so I know that there are many opportunities and hidden wealth in this ancient sacred mountain. "

"Um?"

When Ye Feng heard what the flame dragon said, there was a look of surprise in his eyes, and he couldn't help but ask: "Then tell me first, what is the nine-color divine light emitting from the top of the ancient sacred mountain? "

The flame dragon's eyes were immediately startled, and then he hurriedly said: "I really don't know this, because I have never entered the top level of this ancient sacred mountain. The top level of this ancient sacred mountain was covered by a mysterious nine The color power was so shrouded that I couldn't even peek."

When Ye Feng heard what the flame dragon said, he immediately nodded and said: "Okay, because you are so sensible, I will spare your life first, and then enter other sacred mountains, and in each layer of space, You must tell me all the opportunities."

The flame dragon immediately nodded and bowed and said: "Don't worry, sir."

At this time, Ye Feng nodded slightly, and then looked at the Flame King's inheritance in his hand, preparing to practice the Flame King's inheritance first.

As for the body of the Flame King, because after death, all the energy was emitted, forming an entire molten land. There was no blood energy left to devour, which made Ye Feng feel quite regretful.

However, Ye Feng is quite satisfied to receive the inheritance from an ancient powerful person like the Flame King.

At this moment, Ye Feng looked at the inheritance of the Flame King in his hand. It was actually called the "Ancient Holy Fire Domain". It was a very rare ancient domain inheritance!

Chapter 3873 The third level of treasure

"The realm of ancient holy fire?"

At this time, Ye Feng looked at the set of inheritance in his hands with deep surprise in his eyes.

I didn't expect it to be a field-based inheritance, but it's still very good.

At this moment, Ye Feng did not hesitate and started practicing this inheritance directly.

For Ye Feng, Ye Feng's inheritance now, in addition to the Hand of God taught by Dean Tianshu, has very powerful attack power.

In addition to this, other inheritances can no longer keep up with Ye Feng's improvement in cultivation and will be eliminated. .????

So now that Ye Feng has received the inheritance of this mysterious flame king from heaven, he is naturally very happy and starts practicing on the spot.

At this time, the flame dragon beside him couldn't help but whispered: "Sir, if you practice here directly now, wouldn't it be a waste of time? Because this set of inheritance practice may take several years. If you delay your cultivation for such a long time, the chance creation in each space of other sacred mountains will most likely be plundered by other masters. "

Hearing what the flame dragon said, Ye Feng just smiled and said, "It doesn't take such a long time for me to practice inheritance."

boom!

Almost at the next moment, Ye Feng's body suddenly burst out with a terrifying power of fire.

Then under the horrified gaze of the flame dragon, the power of flames erupted from Ye Feng's body unexpectedly formed a field of flames.

As long as anything exists in this flame field, it will start to be burned, which is very terrifying.

At this moment, after seeing this scene, the flame dragon immediately widened his eyes and couldn't help but said in horror: "Is this a sign of success in the ancient holy fire field? It was actually given to me by you in just a few minutes, sir." How is this possible?"

Hearing what the flame dragon said, Ye Feng smiled slightly and said: "I have said it before, I don't need to waste so much time. I have always been very fast in practicing inheritance. It can be said to be an epiphany."

Hearing what Ye Feng said, the flame dragon immediately opened its mouth wide, unable to calm down for a long time.

At this time, Ye Feng has simply become synonymous with mystery in the eyes of the flame dragon.

The flame dragon couldn't help but guess that Ye Feng was probably the descendant of a certain god, otherwise he wouldn't have such terrifying potential.

At this time, the flame dragon immediately couldn't help but knelt down in front of Ye Feng and said loudly: "Your Majesty, your magnificence is unparalleled and will last for eternity. Xiaolong is willing to dedicate his whole life to you, and he can follow you behind Master Ye Feng, this is Xiaolong's honor."

Hearing what the flame dragon said, Ye Feng's eyes showed surprise. He couldn't help but smile and said, "You are following the wind and steering the ship."

At this time, after Ye Feng finished learning the Ancient Holy Fire Domain, he gained an extremely powerful inheritance and left this lava land directly.

The flame dragon followed Ye Feng very respectfully.

From time to time, the flame dragon would look at the Dark Gu Insect King suspended on the other side of Ye Feng, with surprise in his eyes.

Because he had seen before that this Dark Gu Insect King was extremely terrifying and was not afraid of the terrifying attacks unleashed by the Ancient Totem Formation. This was really frightening to the extreme.

However, the flame dragon did not dare to ask any questions at this time and just remained very respectful.

At this time, Ye Feng let the Dark Gu Insect King return to the storage ring.

Because the origin of the Dark Gu King is too special.

If some masters in the Dark Demon Cult see the Dark Gu Insect King, their identities will most likely be exposed.

When the time comes that he is being fully hunted by the Dark Demon Cult, it will be more troublesome.

So Ye Feng finally let

The Dark Gu Insect King returned to the storage ring and came out at the critical moment.

Uh-huh!

At this moment, Ye Feng took the flame dragon and rushed out of the lava land, returning to the surface of the long lava river in the second space of the ancient sacred mountain.

At this time, Ye Feng discovered that there were not many experts around, and it seemed that they had all gone to the third level of space.

Ye Feng no longer hesitated, and immediately took the flame dragon and flew directly towards the end of the molten land.

When Ye Feng came to the end area, he saw a door leading to the third space.

Uh-huh!

Ye Feng immediately took the flame dragon into the third layer of space.

Buzz!

When Ye Feng entered the third layer of space, he immediately saw a scene of ice and snow.

I saw that the entire third level of the ancient sacred mountain was completely covered in ice, with heavy snow falling from high in the sky, and it was bitingly cold.

Ye Feng immediately saw that at the entrance to the third layer of space, several experts were frozen into ice sculptures, standing there, frozen to death.

When Ye Feng saw this scene, he couldn't help but look shocked.

It seems that the ice and snow in this third layer of space is very terrifying. The cold air is so terrifying that it can freeze the masters who enter it into ice sculptures.

"boom!"

At this time, Ye Feng conveniently swallowed the blood energy skills of these masters who were frozen into ice sculptures, which increased Ye Feng's skills a lot.

At this moment, Ye Feng looked at the flame dragon beside him and said, "Where is this third level of opportunity?"

The flame dragon immediately said respectfully: "Sir, just follow me."

At this moment, the flame dragon said and flew quickly in a certain direction.

On the flame dragon

The burning flame can withstand the terrifying cold air in the entire third layer.

Moreover, the flame dragon was originally a creature born inside the ancient sacred mountain, so the power in the ancient sacred mountain was naturally gentle to the flame dragon and would not harm the flame dragon too much.

But at this time, Ye Feng felt a very terrifying cold air, which was frantically invading his entire body, almost making Ye Feng freeze into an ice sculpture.

boom!

But at this time, Ye Feng instantly used the power of Hongmeng's immortal body, and the blood in his body was like a roaring river, which immediately dispelled the terrifying cold air.

At this time, Ye Feng followed behind the flame dragon and immediately flew quickly towards a certain direction in the ice and snow of the third layer of space.

Half an hour later, the flame dragon stopped in front of a glacier.

Ye Feng walked over, looked at the glacier in front of him, and said with some confusion: "Is there any chance of good fortune here?"

The flame dragon smiled slightly and said, "Sir, please take a look."

At this time, the flame dragon opened its bloody mouth and spit out a piece of molten dragon breath, which turned into a rolling pillar of flame, and then burned and melted the ice on the surface of the glacier not far away.

As the glacier melted, a huge ice sword appeared in the entire glacier. The whole body seemed to be cast from ice crystals, exuding a dazzling brilliance, and there was also an extremely terrifying ice-bound sword. gas.

The flame dragon immediately said: "This is the natal weapon left behind by a super strong man in our ancient sacred mountain, the Ice King. It is called the Ice Giant Sword. It has the very terrifying ancient ice power. It can be said to be the most precious thing in this third layer of space. It is the treasure of the third layer. Fortunately, no one has reached it first, but most people can't find it here. Only I know about it, but I am a fire attribute, so I can't use this. Sword, it is very difficult to refine this frozen giant sword, it depends on your own ability."

Chapter 3874 Abandoned Ancient Battlefield

At this time, when Ye Feng heard the flame dragon say this, he nodded slightly, and then walked to the frozen giant sword.

The entire body of the frozen giant sword is made of special and incomparable tens of thousands of years of ice. It looks very delicate and beautiful, but it exudes an extreme cold energy that can threaten life.

Buzz!

At this moment, Ye Feng didn't hesitate at all. He stretched out his hand and grabbed the ice-bound sword.

But at this moment.

"boom!"

A terrifying and boundless cold aura was immediately released from the giant ice sword, which instantly froze Ye Feng's stretched out palm.

Layers of ice suddenly appeared on the surface of Ye Feng's palms and arms, making Ye Feng's hands somewhat unable to move for a moment.

This made Ye Feng suddenly show a hint of horror in his eyes. ??

Unexpectedly, the cold air in this frozen giant sword was so terrifying that it froze his Hongmeng Immortal Body.

Ye Feng felt more and more that his Hongmeng Immortal Body had to find a way to continue to improve quickly, otherwise it would not be that powerful anymore.

Because during this period, Ye Feng's cultivation level improved too quickly.

Therefore, Ye Feng felt that his physical strength could not keep up with his magic practice.

At this time, Ye Feng did not hesitate and directly released the other domination gem he had obtained before, the ice gem.

Ice gems and fire gems were both collected by Ye Feng from the residence of Dark Yuan Zun before, and they were very precious.

Buzz!

At this moment, the ice gem flew out and floated above Ye Feng's head, exuding a terrifying cold air.

The ice gem and this frozen giant sword have the same origin, so at this time the ice gem blessed Ye Feng with the power of ice, naturally allowing Ye Feng to escape from the confinement of the frozen giant sword. .

Ye Feng's frozen arm suddenly moved.

Feeling free, he immediately grasped the hilt of the frozen giant sword.

At this time, Ye Feng was trying to refine the frozen giant sword.

Uh-huh!

But suddenly at the next moment, the ice gem flew into the frozen giant sword in front of Ye Feng, and automatically merged into the frozen giant sword!

"Buzz!"

At this moment, a terrifying light of ice suddenly erupted from the giant frozen sword.

Uh-huh!

Then at the next moment, the frozen giant sword automatically flew out from the ground, and then flew into Ye Feng's body, automatically recognizing its master.

"this....."

Seeing this incredible scene, the flame dragon beside him immediately widened his eyes, as if he couldn't believe what he was seeing.

At this moment, Ye Feng understood everything.

Refined the ice gem by myself.

The ice gems were fused into the frozen giant sword, which not only increased the quality and power of the frozen giant sword, but also made the frozen giant sword recognize Ye Feng as its master.

Buzz!

At this moment, Ye Feng thought, and with a bright light of ice, the frozen giant sword suddenly appeared in Ye Feng's hand.

Ye Feng wanted to test the power of this frozen giant sword.

"boom!"

At this moment, Ye Feng held the frozen giant sword in both hands and immediately slashed straight ahead.

Boom! !

A terrifying ice energy suddenly burst out from the frozen giant sword, forming a huge sword light, and instantly condensed into a cold ice ball tens of thousands of meters long. The ice sword slashed towards the distance.

"Rumble..."

The next moment, the entire ground was cut in half by the ice sword with a height of tens of thousands of meters, and the entire ground was frozen.

"What a powerful force!"

Seeing this scene, Ye Feng suddenly showed a hint of surprise in his eyes.

This frozen giant sword is already very terrifying, let alone now that it is fused with an ice gem, it is naturally even more terrifying.

"Let's go to the fourth level of space."

Ye Feng looked at the flame dragon beside him and said.

"Yes, sir."

The flame dragon nodded immediately.

At this time, the flame dragon took Ye Feng directly towards the end area of the third layer of space.

On the way to the end of the third level, Ye Feng saw that in this third level ice and snow world, many masters were frozen in place, turned into countless ice fragments, and died completely.

This made Ye Feng's eyes look surprised.

It seems that this third layer of ice and snow world is still very dangerous, and the terrifying cold air may freeze people into ice sculptures at any time.

If it weren't for Ye Feng's powerful Hongmeng Immortal Body and the protection of the frozen giant sword, he might have been frozen into an ice sculpture by some kind of terrifying cold air without paying attention, completely freezing to death.

At this time, Ye Feng was very lucky that he could get the guidance of the flame dragon and find this frozen giant sword.

Ye Feng didn't waste any time. He followed the flame dragon and soon reached the fourth level of space.

"This is....."

When Ye Feng walked into the fourth floor, he immediately saw the entire fourth floor, which turned out to be an abandoned land.

There are broken buildings everywhere, and there are many broken weapon fragments stuck on the ground, giving people a very chaotic battlefield feeling.

\u003e At this time, the flame dragon actually showed a hint of fear in its eyes, and said loudly: "Master Ye Feng, you must pay more attention to this fourth layer of space. Every time I come to the fourth layer of space, they are all very careful and cautious, because the fourth level of space is an ancient battlefield in ancient times, so there are many ghosts of strong men, as well as many fragments of residual soldiers, releasing terrifying weapon energy, and they may enter it at any time. The masters were obliterated."

When Ye Feng heard the flame dragon say this, his eyes suddenly showed a look of surprise.

Unexpectedly, this fourth layer of space turned out to be an abandoned ancient battlefield.

An ancient battlefield like this is indeed extremely dangerous.

So next, Ye Feng followed the flame dragon in this abandoned ancient battlefield on the fourth level and moved forward very carefully, because there may be danger at any time.

Boom!

And just as Ye Feng was traveling through this ancient battlefield, a huge roar suddenly sounded not far away.

Uh-huh!

Ye Feng immediately flew to high altitude, looked in that direction, and found many disciples wearing the clothes of the Ten Thousand Worlds Martial Arts Academy, fighting with a huge war puppet left in this dilapidated battlefield.

Moreover, Ye Feng saw a familiar figure among this group of disciples, and it turned out to be Luo Li.

This made Ye Feng look happy. Could it be that Luo Li had successfully practiced in seclusion in the Baihua Temple?

Appearing here this time, it seems that he also came to this ancient cave to look for opportunities.

Thinking of this, Ye Feng immediately flew quickly in that direction.

Because Ye Feng discovered that the terrifying war puppet almost attacked a group of disciples from the Wanjie Martial Arts Academy, including Luo Li, and was about to be defeated.

Ye Feng happened to meet him, so he naturally wanted to rescue his fellow disciples, not to mention that Luo Li, a confidante, was also among them.

Chapter 3875 Energy Crystal

Uh-huh!

Ye Feng was very fast at this time, and in a blink of an eye he flew to the place where a fierce battle was taking place not far away.

At this moment, Ye Feng saw that a group of disciples wearing the clothes of the Wanjie Martial Arts Academy, including Luo Li, were fighting fiercely with a majestic war puppet that was several kilometers tall.

This war puppet should be a war puppet left behind in the abandoned battlefield on the fourth level of the ancient sacred mountain. It is very terrifying. The whole body is made of steel, giving people a very majestic and violent feeling.

At this time, the moment Ye Feng came here, Luo Li in the crowd immediately saw Ye Feng, and immediately couldn't help but said in surprise: "Brother Ye Feng, why are you here?"

Luo Li never thought at this time that she would meet her brother Ye Feng in the sacred mountain of this ancient cave.

At this moment, the group of disciples from the Ten Thousand Realms Martial Arts Academy around Luo Li were all female disciples. They should be a group composed of all the female disciples in the small world.

This time, there were a dozen female disciples here, all direct female disciples of the Wanjie Martial Arts Academy. Each of them had very good cultivation, and they were obviously core figures among the direct disciples.

At this time, when Luo Li said Ye Feng's name, the dozen or so female disciples all stared at Ye Feng with their beautiful eyes. They couldn't help but exclaimed: "Luo Li, you said that this person is the Son of God of our Ten Thousand Realms Martial Arts Academy, God Son Ye Feng?"

At this time, all the female disciples knew that the divine son of their Wanjie Martial Arts Academy was called Ye Feng, and that his relationship with Luo Li was very unusual.

At this moment, the eyes of many female disciples were full of deep expectations and surprises. It seemed that they never expected that at such a dangerous moment, the Son of God from their Ten Thousand Realms Martial Arts Academy would come directly here.

At this moment, all the female disciples of the Wanjie Martial Arts Academy had deep surprise and expectation in their eyes, staring at Ye Feng who fell from the sky.

Uh-huh!

Ye Feng flew directly in front of Luo Li at this time, then glanced at everyone, and couldn't help but ask: "Luo Li, I didn't expect to meet you here. You should have come out of seclusion, so came here

A trial, right? "

Luo Li nodded immediately and said with a smile: "Brother Ye Feng, I didn't expect that I would be so lucky to meet you here, Brother Ye Feng."

Boom! !

And while everyone was talking, suddenly the huge war puppet in front flew towards everyone, trying to crush them all.

Luo Li immediately couldn't help but said: "Brother Ye Feng, let's leave here first. This war puppet is a remnant of this abandoned ancient battlefield. It is very terrifying. Even if we join forces with more than a dozen of us, we can't do it." The opponent of this war puppet."

Ye Feng smiled slightly at this moment and said: "Don't worry, this war puppet is nothing to me."

Uh-huh!

After saying that, Ye Feng took out the frozen giant sword and slashed forward fiercely.

Boom! !

At this moment, a terrifying and boundless ice energy suddenly burst out from the frozen giant sword, forming an ice storm, which actually froze all the war puppets that were flying over. , frozen into an ice sculpture.

"What??"

Seeing this scene, both Luo Li and a group of other female disciples from the Wanjie Martial Arts Academy suddenly showed deep horror in their eyes.

They never thought that the Son of God of their Ten Thousand Realms Martial Arts Academy was not as weak as the rumors said, but very powerful. He could freeze this terrifying war puppet with a single sword. .

You must know that these dozen female disciples are not ordinary female disciples from the Ten Thousand Realms Martial Arts Academy. They are all the proud girls from the small world of direct disciples. Each one of them is very powerful in cultivation.

Especially Luo Li, the ancient Luo God Body is extremely powerful.

But this war puppet that a dozen of them couldn't deal with together was actually frozen by Ye Feng with one sword.

Living.

This terrifying strength naturally shocked everyone present to the extreme.

Even Luo Li couldn't help but widen her eyes and said in surprise: "Brother Ye Feng, how come you have become so powerful now?"

Ye Feng smiled slightly at this time: "Let's completely deal with this war puppet first."

Boom!

At this moment, Ye Feng flew directly onto a war puppet that was frozen in ice, and then punched it out hard.

boom! !

A terrifying force suddenly burst out from Ye Feng's fist, shattering every inch of the war puppet's body.

Click! Click...

At this moment, this war puppet directly turned into countless fragments.

Among the countless fragments, Ye Feng discovered a crystal that exuded bright light.

Not far away, Luo Li couldn't help but said: "This is the core of the war puppet. It is a very high-level energy crystal that contains very terrifying high-level energy. It can sustain the entire huge war puppet explosion." Showing terrifying power."

Ye Feng immediately nodded at this time, and then directly swallowed the energy crystal that maintained the war puppet under the stunned eyes of everyone.

Boom!

At this moment, a terrifying high-level energy suddenly burst out in Ye Feng's entire body.

You must know that the energy crystal that can maintain such a terrifying war puppet must contain very terrifying energy.

So at this moment, Ye Feng received a very terrifying accumulation of energy. His cultivation level at the sixth level of Dongxu Realm immediately began to break through, and he directly broke through to the seventh level of Dongxu Realm!

This made Ye Feng's eyes reveal a hint of surprise.

Unexpectedly, a small energy crystal allowed me to break through to the next level.

It's really good.

At this time, Ye Feng looked at Luo Li beside him and said loudly: "What do you have next?"

What's the plan? If you continue to explore this ancient sacred mountain, you are likely to encounter huge dangers. After all, the higher the level, the greater the danger. "

The reason why Ye Feng knew this was naturally because the flame dragon told Ye Feng.

The ancient sacred mountain had a total of eighteen levels, and each level was more and more dangerous. It was impossible for ordinary people to break into the last level.

At this time, Luo Li nodded slightly and said aloud: "The first three levels are fine. After arriving at the fourth level, we feel very difficult. When we encounter this kind of war puppet, we can only deal with it in a hurry. We will take the next step. When you come down, you should continue to look for other opportunities on the fourth floor. You should not take risks on the fifth floor. Brother Ye Feng, do you want to go directly to the fifth floor?"

Ye Feng nodded slightly at this time and said aloud: "Yes, my goal is to enter the highest level of this ancient sacred mountain. I want to take a look at the nine-color light on the top of this ancient sacred mountain. what exactly is it."

"What?"

Hearing what Ye Feng said, Luo Li suddenly showed a trace of worry in her eyes, and couldn't help but said: "Brother Ye Feng, you must be careful."

Ye Feng immediately nodded, and then flew quickly towards the distance.

This time Ye Feng happened to be passing by here and saved Luo Li and more than a dozen female disciples from the Wanjie Martial Arts Academy. Therefore, Ye Feng did not want to waste time and continued to fly quickly towards the fifth floor of the ancient sacred mountain. .

Because according to what the flame dragon said, there is a lot of chance in each layer.

If I continue to waste time, other masters will definitely get there first.

At this moment, looking at Ye Feng's retreating back, the dozen or so female disciples from the Wanjie Martial Arts Academy all looked at Luo Li and couldn't help but said with some envy: "Junior sister Luo Li, you are really What a blessing to be able to meet such a unique and elegant person as Ye Feng Shenzi."

Luo Li heard a group of direct female disciples around her say this, and a trace of pride appeared on her beautiful little face.

After all, Ye Feng's casual move just now shocked the entire audience.

That kind of strength is really terrifying, even the most proud women like them are amazed.

Chapter 3876 Treasures of Heaven and Earth

At this moment, Ye Feng left the place where he fought with the war puppet before, still savoring the taste of the high-grade energy crystal.

At this time, Ye Feng glanced at the flame dragon beside him and said, "Are there any other opportunities in this abandoned battlefield in the fourth level of space?"

The flame dragon spoke out at this time: "I really don't know this, because in this fourth layer of space, there is an ancient battlefield from ancient ruins. It is very terrifying and contains a lot of dangers, so I am in the ancient sacred mountain. In order to survive, we rarely look for opportunities in this fourth level of space."

When Ye Feng heard what the flame dragon said, he nodded slightly and didn't ask any more questions.

Next, Ye Feng and the flame dragon flew quickly towards the fifth floor.

Along the way, Ye Feng saw the corpses of many powerful men, all of whom died tragically on the battlefield of this ancient ruins.

Therefore, along the way, Ye Feng released the Devouring Domain and absorbed the blood energy skills of these powerful men who died tragically, and actually allowed his cultivation level to break through from the seventh level of Dongxu Realm to the eighth level of Dongxu Realm.

This made Ye Feng's eyes reveal a look of deep surprise.

It seems that it is a good choice for me to come to this ancient cave to find opportunities and fortune.

But I still have to thank this guy Zhan Cangtian.

Because if Zhan Cangtian hadn't dragged him to this ancient cave, Ye Feng probably wouldn't have known that there was a place of chance like the ancient cave here.

When thinking of Zhan Cangtian, Ye Feng also had doubts in his eyes.

He and Zhan Cangtian entered this ancient cave together. They haven't met Zhan Cangtian yet, so they don't know where this guy is now.

But it stands to reason that Zhan Cangtian should have entered this ancient sacred mountain, but Ye Feng has not encountered him yet.

While Ye Feng was thinking about it, Ye Feng had already arrived at the end of the fourth layer of space.

There is also a portal here, leading to the fifth floor.

Ye Feng and Fire

The flame dragon directly entered the fifth layer of space.

The moment Ye Feng entered the fifth layer of space, he immediately saw a very primitive scene.

I saw that the entire fifth-level space was like a primeval forest, with towering trees and rolling mountains everywhere, and ancient evil beasts faintly roaring in the primeval forest.

This place is like a primitive world, exuding a ferocious atmosphere of ancient wilderness, giving people a very ancient and primitive feeling.

After the flame dragon arrived at the fifth level of space at this time, he immediately said with bright eyes: "Master Ye Feng, this fifth level of space is a good place. There are many wonders of the world hidden in this primitive forest. Jane, these treasures of heaven and earth have been growing for many years, and no one dares to mine them now, because there are many powerful and ferocious monsters in this primitive forest. I am very afraid of them, but there are peerless people like Master Ye Feng. With the strong ones here, we can plunder the treasures of heaven and earth to our heart's content."

Ye Feng nodded slightly at this time and said aloud: "Looking at the traces of the entrance to the fifth floor, there should be very few masters who have come to this fifth floor like me, because they

can break through several floors in a row and enter the fifth floor. There are fewer and fewer masters in space.”

The flame dragon immediately nodded and said: "This primitive forest is said to be formed by the fragmentation of a part of the heaven. There are many demons and beasts from the ancient times living in the primitive jungle area. Lord Ye Feng still wants to Be careful."

When Ye Feng heard the flame dragon's reminder, he immediately nodded and said, "Don't worry, I will pay attention."

At this moment, Ye Feng looked around and said, "Then, Flame Dragon, just take me directly to the place where chance creation is hidden in the fifth layer of space."

The flame dragon nodded immediately and said very excitedly: "This

In the primeval forest of the fifth layer of space, I have marked the places where chance creation is hidden. However, every chance creation place is guarded by very vicious monsters. I dare not provoke them, but Now there should be no problem with Master Ye Feng. "

At this time, the flame dragon said and flew quickly in a certain direction, and Ye Feng quickly followed.

On the way forward, the flame dragon immediately spoke out: "Master Ye Feng, the first place we want to go is a natural medicine field where rare treasures from the world grow. However, that natural medicine field is blocked by several powerful people. Controlled by incomparable demons and beasts.”

Ye Feng nodded slightly and asked aloud: "How many demonic beasts are there in total? What are their cultivation levels?"

The flame dragon immediately spoke out: "There are three demonic beasts in total, all of which are overlord-level beasts in this primeval forest. They are the Frost Phoenix, the Storm Eagle and the Night Giant Ape. These three demonic beasts They are all powerful demons passed down from ancient times. They are very terrifying. They guard the naturally formed medicinal field and do not allow anyone to get involved. So if we want to go to that medicinal field, we can get the world that grows in the medicinal field. Qizhen, then we must kill these three demons.”

Ye Feng's eyes showed anticipation and he said aloud: "The medicinal field where many rare treasures from heaven and earth grow, I am very interested in. What are the specific cultivation levels of those three demonic beasts?"

The flame dragon shook his head and said aloud: "I don't know much about this. When I first found that place, the cultivation of these three demons was much stronger than mine, and they almost killed me. So I don't know exactly how powerful it is. I just ran away at that time. Then we can observe it secretly. If it is too powerful, we can run away directly instead of plundering the wonders of the world in the medicine field. "Jane, let's survive first. After all, there are other opportunities in this fifth-level primitive forest space, so there is no need to stick to this one."

When Ye Feng heard what the flame dragon said, he nodded slightly and said, "Let's go and take a look first."

\u003e

Ye Feng's current cultivation strength has become very powerful and terrifying, not to mention that Ye Feng also has a variety of extremely powerful trump cards.

For example, the frozen giant sword you just got is fused with a domination gem. It is a very powerful weapon that can explode with terrifying power.

There is also the ancient holy fire field that Ye Feng practiced before. It is the inheritance of the Flame King and is also very powerful.

And the most powerful thing about Ye Feng is the extremely powerful trump card of the Dark Gu Insect King.

As for the dominant power of Dean Tianshu in the Son of God Token, Ye Feng would not use it so easily.

That is a life-saving trump card and cannot be used lightly.

Unless absolutely necessary, the dominant power of Dean Tianshu in the Son of God's Token cannot be released, because it would be too wasteful.

While Ye Feng was thinking secretly, the flame dragon in front had already brought Ye Feng to the southwest area of this primitive forest.

A huge mountain appeared here.

There are many trees growing on the mountains, making it difficult to see what the specific situation of the entire mountain is.

At this time, the flame dragon spoke out: "Master Ye Feng, we have to be more careful from now on. That medicinal field grows on the mountainside of this mountain. In this mountain, except for the three things I mentioned, There is an extremely powerful demon beast overlord, and there are many other demon beasts, all under the command of the three demon beast overlords. If we were discovered in advance, we would probably fall into countless beast tides. "

Ye Feng nodded slightly at this time and said, "Let me investigate first."

After saying that, Ye Feng directly released a huge amount of soul power, covering the entire mountain in front of him.

Before going to the medicine field and obtaining the treasures of heaven and earth, Ye Feng naturally wanted to investigate carefully to see if he had the ability to deal with the monsters and beasts all over the mountains and plains, as well as the specific cultivation level of the three evil beast overlords. strength.

Chapter 3877 What happened

Buzz!

At this moment, Ye Feng directly released his huge soul power, covering the mountain in front of him in an instant.

At this moment, Ye Feng indeed sensed the auras of many ferocious monsters and beasts floating in them.

Once you enter it rashly, you will definitely be greeted by countless monsters.

But most of the demons and beasts are nothing in front of Ye Feng now.

What Ye Feng is most concerned about now is the three most powerful evil beast overlords in the mountain that the flame dragon said.

But at the next moment, Ye Feng's eyes showed a look of surprise.

Because after Ye Feng's soul power covered the entire mountain, he didn't find the aura of the three evil beast overlords.

This made Ye Feng's eyes look doubtful. He immediately couldn't help but look at the flame dragon beside him and said loudly: "I didn't sense the breath of the three evil beast overlords. They were all quite ordinary." Monsters and monsters, what's going on?"??

Hearing what Ye Feng said, the flame dragon immediately widened its eyes, and then said with great surprise: "If you say that, it seems that the three evil beast overlords have probably left here temporarily, and I don't know what they did. This is a good opportunity for us to steal the treasures in the medicine field. Otherwise, if the three evil beast overlords join forces, we may not be able to resist it. "

Hearing what the flame dragon said, Ye Feng immediately nodded, with a look of joy in his eyes.

It would be great if we could get the many treasures of heaven and earth that grow in that medicinal field without fighting.

At this time, Ye Feng no longer hesitated and immediately followed the flame dragon and flew directly towards the halfway up the mountain.

Because according to what the flame dragon said, the medicinal field full of rare treasures from the world is halfway up the mountain.

At this moment, Ye Feng followed the flame dragon and directly entered the mountain.

At this time, the flame dragon couldn't help but said: "Sir, we'd better be careful not to provoke other monsters and beasts living in this mountain, because if our traces are discovered, it is very likely that they will It would be bad to pass on the message to the three-headed evil beast overlord outside. "

When Ye Feng heard what the flame dragon said, he thought it made sense. He immediately released the space gem and directly pulled the flame dragon beside him into the void. Then he began to cross the void and directly arrived at the mountainside area. .

At this time, the flame dragon's eyes showed horror. He did not expect that Ye Feng actually had such a magical treasure with spatial attributes on his body.

At this moment, Ye Feng and the flame dragon were hidden in the void, unable to attract the attention of other monsters and beasts in this mountain.

At this time, they arrived at the mountainside area, and immediately saw a large medicinal field not far from the mountainside.

In this medicine field, there are many kinds of rare treasures growing in the world, including elixirs, spiritual fruits, towering spiritual trees, etc., all of which exude a very strong medicinal fragrance, making Ye Feng and Flame The giant dragon's eyes suddenly lit up.

At this moment, the flame dragon immediately said: "It seems that the three evil beast overlords have not picked the treasures in this medicine field recently. These treasures are growing lushly now, and it is the time for thieves to harvest them." What a good time to take it."

Ye Feng nodded slightly at this time and said loudly: "No

Around this medicine field, there are several monsters and evil beasts guarding them. They need to be eliminated calmly without alerting the snake. "

At this moment, Ye Feng said, directly releasing his huge soul power.

Because Ye Feng was preparing to use his soul to attack, he calmly killed all the demonic beasts guarding the medicine field.

At this time, Ye Feng immediately exuded his terrifying soul power and directly formed a terrifying soul attack. In an instant, he quickly attacked several monsters and monsters that were guarding the front.

At this moment, Ye Feng's soul power was so terrifying that he shattered all the souls of more than a dozen demonic beasts guarding the medicine field.

As a result, at this moment, the souls of dozens of demons and demons guarding the medicine field were all shattered by Ye Feng in an instant.

They just stood there in a daze, without any movement, as if they had become the living dead.

At this time, Ye Feng walked out of the void directly with the flame dragon.

The flame dragon looked at a dozen demonic beasts standing motionless, and his eyes suddenly showed a horrified look. He couldn't help but said: "Master Ye Feng, you can actually attack a living being directly. It directly wiped out their souls and turned them into a living dead, which is really terrible. "

The flame dragon spoke at this time, his tone becoming more and more respectful and awed towards Ye Feng.

Ye Feng just smiled slightly and said: "It's just a small trick."

At this time, after Ye Feng finished speaking, he flew directly to the sky above the medicine field.

At this moment, Ye Feng discovered that there were many treasures in this medicine field, including many elixirs, many fruits, and even many very tall trees.

However, these trees are not ordinary trees, but spiritual trees with medicinal power.

boom!

At this moment, Ye Feng no longer hesitated and directly released his Devouring Domain, which suddenly enveloped all the treasures in the entire medicine field.

Since he was here to plunder these precious and rare treasures of heaven and earth, Ye Feng would naturally not let go of any of them, and would devour all the medicinal power contained in all the treasures of heaven and earth produced here.

Boom!

Almost at this moment, Ye Feng immediately felt a terrifying and powerful medicinal power, which was directly injected into his body.

Almost at the next moment, Ye Feng's cultivation aura immediately began to break through rapidly.

"boom!"

The ninth level of Dongxu Realm!

Half step to the virtual realm!

At this time, Ye Feng's cultivation suddenly broke through three levels.

At this moment, all the treasures, elixirs, fruits, and spiritual trees in the entire medicine field were all withered, completely shriveled, and obviously drained of all their life essence.

The flame dragon couldn't help but sigh: "Where Master Ye Feng has passed, there is really no grass growing!" Buzz!

At this moment, Ye Feng directly released his huge soul power, covering the mountain in front of him in an instant.

Chapter 3878 It's a treasure land

Buzz!

At this time, Ye Feng's cultivation had reached the half-step level of unity, and the aura emanating from his body was very terrifying, giving the impression that he had undergone transformation and evolution.

At this moment, Ye Feng couldn't help but exclaimed: "The Hexu Realm, which is the supreme Dongxu Realm, is indeed a new and powerful level. It has indeed improved my combat effectiveness a lot, and I am only halfway to the Hexu Realm. It's hard to imagine how powerful I will be after I break through to the true Hexu realm."

The flame dragon heard what Ye Feng said from the side, and quickly nodded and bowed and said in compliment: "Master Ye Feng, you are unparalleled in magnificence. It is impossible for ordinary people to have such a powerful aura and combat power when they are half-step into the virtual realm, but Lord Ye Feng is different. Lord Ye Feng's qualifications are truly the most unparalleled and terrifying that I have ever seen."

Ye Feng just smiled slightly at this time, and then said aloud: "Let's leave here and see if there are any other strange creations in this fifth-level primitive forest."

Boom!

But the moment Ye Feng finished speaking, a terrifying and majestic aura suddenly descended from the sky. Ye Feng stopped in place and was unable to fly to high altitudes for a while. ??

"That is....."

At this moment, Ye Feng immediately saw an eagle covered with blue scales and feathers. It was very majestic. It spread its wings and covered the sky and the sun. Each feather seemed to be made of blue steel. It is extremely sharp, capable of cutting and breaking anything solid.

Moreover, this eagle exudes extremely terrifying storm power. The pressure that prevented Ye Feng from flying into the air just now was the storm field emanating from this eagle.

At this moment, Ye Feng's eyes immediately moved and he couldn't help but said: "Flame Dragon, this is the Storm Eagle among the three evil beast overlords you mentioned."

The flame dragon immediately nodded, with a look of fear in his eyes, and said loudly: "Master Ye Feng, look at two more behemoths coming from other directions, they are the other two evil beast overlords."

Ye Feng looked in the other two directions, and sure enough he saw two more giant creatures flying over.

They were each exuding a terrifying and cold aura, like a phoenix that could freeze everything in the world.

There was another one, a giant ape holding a huge black iron rod in his hand, exuding a dark aura. His body was as towering as a mountain, as if it could carry the world on its shoulders.

It is the other two evil beast overlords, the Frost Phoenix and the Dark Night Giant Ape.

At this moment, the three evil beast overlords had deep cold looks in their eyes, staring at Ye Feng and the flame dragon who were stealing the elixir from the medicine field.

These three evil beast overlords seemed to be looking for something when they went out this time, but they suddenly sensed that the scent of the rare medicinal power in the base camp's medicine field was about to disappear.

So they hurried back, and sure enough, someone was stealing the countless treasures of heaven and earth that they had worked so hard to protect for so many years.

You know, this medicine field is an important place where these three evil beast overlords can grow to what they are today.

If all the treasures of heaven and earth in this medicine field wither, it will greatly affect their cultivation.

Therefore, this medicine field is very important to these three evil beast overlords.

He said that it was definitely like his own treasure house and no one else could get involved.

At this moment, seeing all the rare treasures in the entire medicine field withered, the eyes of these three evil beast overlords suddenly revealed a look of deep shock and anger, and then they exuded a terrifying murderous look. meaning.

At this moment, the storm eagle flying high in the sky immediately stared at Ye Feng and the flame dragon below, and couldn't help but said: "It's you again, this cowardly dragon! Before you You just wanted to steal the treasures from our medicine fields, and we almost caught you and killed you. I didn't expect you to come again this time!"

The flame dragon had Ye Feng standing beside him at this time, and he had a lot of confidence. He couldn't help but said: "You, the treasure of heaven and earth in the medicine field, are not cultivated by yourself, but are born." Raised on the ground, this kind of thing can only be obtained by those who have the ability. Whoever is more powerful is qualified to get the treasures of the world in this medicine field. You also used cruel methods to occupy this medicine field. "

Hearing what the flame dragon said, the Storm Eagle immediately shouted angrily and said, "I'm going to kill both of you!"

Boom!

At this moment, a terrifying storm power burst out from the Storm Eagle, forming a storm field and attacking directly in the direction of the Flame Dragon and Ye Feng.

In the eyes of the Storm Eagle, the flame dragon was nothing at all, and Ye Feng, who was standing beside him, was not even noticed by him.

Because in the heart of Storm Eagle, a humble human like Ye Feng doesn't have much strength at all.

But at this moment, Ye Feng suddenly moved.

Boom!

At this moment, Ye Feng immediately burst out with his terrifying cultivation aura.

You know, Ye Feng's current cultivation level has broken through to a whole new level, so his combat effectiveness has become even more powerful.

Although these three evil beast overlords are also very powerful, Ye Feng is not so afraid anymore.

At this moment, Ye Feng took out the frozen giant sword and struck directly at the Storm Eagle.

"boom!!"

At this moment, a burst of ice energy burst out from the frozen giant sword, which actually froze all the storm power of the Storm Eagle.

"What??"

Seeing this scene, the Storm Eagle immediately couldn't help but exclaimed: "You kid actually controls the frozen giant sword, a treasure of an ancient strong man? How is this possible!"

Ye Feng just grinned at this moment and said loudly: "Is this impossible?"

At this moment, another evil beast not far away, Frost Phoenix, immediately said: "Let me deal with this kid. Although he has a frozen giant sword in his hand, I am also a frost attribute, so I can deal with it." His great ice sword."

The Storm Eagle immediately nodded, looked at the Night Giant Ape not far away, and said loudly: "The two of us will kill the flame dragon first."

At this moment, Ye Feng suddenly stood at the front of the flame dragon, laughing loudly: "You three come together, I want to fight three of them one by one!"

"Arrogant!!"

Hearing what Ye Feng said, the three evil beast overlords all said angrily: "Human boy, you are so arrogant! Then the three of us will join forces to kill you first!"

Boom!

At this moment, the Storm Eagle opened its mouth and spit out a terrifying force of storm, which seemed to be able to sweep everything in the world into pieces.

At this moment, the Dark Night Giant Ape was also holding the big black iron rod in his hand and bombarding Ye Feng directly, as if it could smash the entire world to pieces. ??

The Frost Phoenix is also releasing a terrifying frosty air at this moment, which can freeze everything.

Ye Feng didn't hesitate at this moment and just frantically activated the power of the frozen giant sword in his hand.

Buzz!

Suddenly, an ice sword light tens of thousands of meters long erupted directly from the blade of the frozen giant sword.

In addition, Ye Feng also released the Ancient Holy Fire Domain.

I saw countless flames appearing on Ye Feng's body, condensing into a field of flames, covering all three behemoths in front of it.

"This is actually the legendary ancient holy fire realm! Isn't this the inheritance of the extremely powerful flame king in our ancient sacred mountain? How come this kid can do it!"

At this moment, the three evil beast overlords were shrouded in the realm of the ancient holy fire, and they suddenly felt that the flesh and blood all over their bodies began to burn, greatly weakening their combat effectiveness.

At this moment, Ye Feng was holding an ice sword that was tens of thousands of meters long in his hand, and he was slashing forward fiercely.

Plop!

The Storm Eagle didn't even have time to react, it just split into two halves and completely fell.

"What??"

When Frost Phoenix and Dark Night Giant Ape saw this scene, they immediately couldn't help but exclaimed: "This kid's strength is too terrifying, let's run away!"

Uh-huh!

Uh-huh!

At this moment, both the Frost Phoenix and the Dark Night Giant Ape were running away frantically towards the surroundings.

Ye Feng just smiled coldly at this time and continued to release his extremely powerful inheritance, the Hand of God.

"boom!"

At this moment, Ye Feng stretched out a hand, and that hand suddenly turned into a huge hand of white light, which suddenly bombarded the Frost Phoenix, shattering it completely. was killed.

Then Ye Feng directly asked the Dark Gu Insect King to take action, which instantly turned into a black lightning, directly cutting and breaking the head of the escaping Dark Night Giant Ape.

At this time, in just a short moment, Ye Feng relied on his various powerful trump cards to successfully kill all three evil beast overlords.

When the flame dragon saw this scene, he immediately couldn't help but take a breath of cold air, and said in awe: "Master Ye Feng is really amazing. The respect that a villain has for an adult, Jane

Straight is like a torrential river, which is continuous, and like a long river that overflows and cannot be controlled at once. "

Just when the flame dragon complimented Ye Feng, Ye Feng happily released the Devouring Domain, swallowing up all the blood and energy of the three evil beast overlords in front of him.

These three evil beast overlords are all very powerful ancient demonic beasts, so the energy contained in their bodies is very terrifying.

Ye Feng's cultivation aura immediately began to explode crazily.

"boom!!"

The cultivation bottleneck of the half-step Hexu realm that Ye Feng had just broken through suddenly exploded completely, allowing Ye Feng's cultivation to break through to the real first level of Hexu realm.

And it goes far beyond that.

Because these three evil beast overlords are ancient demonic beasts that have been cultivated for countless years, they are very powerful. However, they were very unlucky when they met Ye Feng, a guy with a monster fighting ability, and they were all killed.

The energy contained in their bodies was extremely terrifying, allowing Ye Feng to continue to achieve rapid breakthroughs in his cultivation.

Waves of extremely powerful momentum immediately began to explode on Ye Feng's body.

"boom!"

The second level of Hexu Realm!

"boom!"

The third level of Hexu Realm!

"boom!"

The fourth level of Hexu Realm!

"boom!"

The fifth level of Hexu Realm!

"boom!"

The sixth level of Hexu Realm! !

At this time, Ye Feng's cultivation aura finally stopped.

"readily!"

At this moment, Ye Feng's eyes were filled with deep excitement.

Unexpectedly, the blood energy contained in these three evil beast overlords was so majestic, just like the vast ocean, which made his cultivation level rise so much all at once.

Ye Feng clenched his fists at this moment and could feel the powerful dragon-like energy flowing and roaring through his entire body, limbs and bones.

At this moment, Ye Feng's combat effectiveness increased by an unknown amount.

At this moment, Ye Feng felt more and more that entering this ancient cave was a very wise choice.

Because it contains many powerful creatures from the legendary heaven. After being hunted by yourself, you can devour the energy of these advanced creatures to your heart's content and increase your own power crazily.

This is impossible in the Origin World, because strong men of this level basically hold important positions in major forces. If they are killed and devoured at will, there will be serious consequences.

But in this ancient sacred mountain, there is no such worry, because these powerful demons and beasts have no background, and even if they are killed, there will be no more powerful beings to cause trouble.

At this moment, the flame dragon immediately said: "Lord Ye Feng, there is a place of opportunity in this fifth-level primitive forest. I will take you there immediately, Lord Ye Feng."

"good!"

Ye Feng looked full of expectation at this time.

This place is simply a treasure for Ye Feng.

Chapter 3879 Underground Organ City

At this time, Ye Feng followed the flame dragon and continued to fly quickly in the other direction of the primitive forest on the fifth level of the ancient sacred mountain.

According to what the flame dragon said, the place he wanted to take Ye Feng to at this time was the northernmost part of the primeval forest.

At this moment, one person and one dragon were heading north.

When they arrived at the northernmost part of the fifth-level space, Ye Feng discovered that the trees and forests here were getting taller and denser.

In the northernmost center of this primeval forest, there are dense jungles of trees everywhere.

In the central area of the jungle, a small pool of water unexpectedly appeared.

This pool looks very peaceful, like an ordinary small pool.

But at this time, the flame dragon came here with Ye Feng, and suddenly said in a rather expectant voice: "Master Ye Feng, this pool hides the entrance to an underground machine city."

"Underground city?"

When Ye Feng heard what the flame dragon said, a look of surprise suddenly appeared in his eyes, and he couldn't help but said: "Who built this underground machine city?"

The flame dragon spoke out: "This underground machine city is the secret underground base built by the heavenly cultivation civilization in this ancient cave. However, it has been abandoned for many years. I have gone in once before, but I did not dare to go too deep. , But I am sure that the core of this ancient cave cultivation civilization must be hidden in the deepest part of this underground mechanism city. It may be a treasure, or it may be a special ancient mechanism technique. "

Hearing what the flame dragon said, Ye Feng's eyes immediately lit up and he said, "It seems like this is a good place."

When Ye Feng first entered this ancient cave, he had already encountered many extremely powerful puppets, including the war puppet he had dealt with when he met Luo Li. They were all very advanced and powerful.

Therefore, Ye Feng once guessed that this cultivation civilization that came down from the heaven was probably a cultivation civilization that specialized in making machine puppets.

At this moment, Ye Feng and the Flame Dragon no longer wasted time, and jumped into the pool in front of them with a "pop".

Buzz!

When Ye Feng jumped into the pool, he saw a huge gate built in the pool.

Ye Feng had to admire the flame dragon,

Such a secret place can be found. It seems that the flame dragon has lived in this ancient sacred mountain for so many years and has indeed explored many places.

At this moment, Ye Feng and the Flame Dragon immediately swam towards the underground machine city under the pool.

"Uh-huh!"

"Uh-huh!"

When they entered the gate of the underground mechanism city, all the water was gone. The water in this pool could not enter the underground mechanism city.

At this time, Ye Feng looked around. It was very dark and the air was a little damp.

At this moment, Ye Feng and the Flame Dragon immediately walked quickly towards the inner area of the underground machine city.

"Crack!"

"Crack!"

But not long after they left, the ground around them suddenly cracked open, and several huge ape-like puppets, all made of steel, instantly moved in the direction of Ye Feng and the flame dragon. Impact away.

"boom!"

A steel puppet bombarded the flame dragon, causing the entire body of the flame dragon to fly out.

"ah!"

The flame dragon immediately screamed.

This shows how powerful this steel puppet is.

"Um?"

Seeing this scene, Ye Feng didn't hesitate at all and just punched forward with his fist.

Boom!

Ye Feng's fist immediately collided with the steel puppet, and immediately blew the steel puppet away.

"good."

Ye Feng nodded immediately.

This steel puppet withstood his fist and was not broken. It was just blown away, which shows that it is still very good.

"Boom!"

Next, Ye Feng rushed forward, very fiercely, and instantly bombarded these steel puppets to pieces.

"Boom!"

"Bang dong

!"

The next moment, after these steel puppets were broken, stones that emitted light fell out.

"It's an energy crystal!"

When Ye Feng saw this scene, his eyes immediately revealed a look of deep surprise.

Like the war puppet that Ye Feng smashed before, the core of each puppet is energy crystal, which provides these puppets with the power to move.

At this time, Ye Feng did not hesitate at all. He directly took several energy crystals that fell from the ground into his hands, and then began to absorb the energy in these energy crystals.

"Buzz!"

At this moment, Ye Feng immediately sensed that a very high-level and pure energy was directly injected into his Dantian.

These puppets are all cast by the cultivation civilization in the heaven, so the cores of these puppets, these energy crystals, all come from the heaven, and the energy in them is very pure.

At this time, after Ye Feng absorbed the energy crystals of these puppets, his own skills were greatly improved.

"boom!"

The seventh heaven of Hexu Realm!

Ye Feng's cultivation level immediately broke through to the next level.

This made Ye Feng's eyes suddenly light up.

"I didn't expect that three energy crystals would allow me to break through to the first level of heaven! They are indeed energy crystals from the heaven."

Ye Feng couldn't help but murmur at this time.

Although the number of these energy crystals is very small, the energy in the energy crystals is very advanced and pure, and the quality is very high, so Ye Feng's cultivation level is immediately improved, which is more than the blood energy of several masters. To work.

At this moment, Ye Feng said directly: "Flame Dragon, let's move on. The energy crystals in these puppets are really useful to me!"

The giant flame dragon climbed up from the ruins not far away, grinning in pain, and said loudly: "Master Ye Feng, the strength of your body is really powerful. You can kill these solid puppets with just one fist." It was blown away or even shattered. It is too powerful, but if we continue to move forward, there will definitely be more powerful puppets, so we must be careful. "

"

fine. "

Ye Feng did not hesitate at this moment and directly took out the Dark Gu Insect King from the storage ring.

Buzz!

The Dark Gu Insect King suddenly appeared next to Ye Feng, floating quietly.

For Ye Feng, the Dark Gu Insect King is currently Ye Feng's most powerful trump card.

And the most important point is that the King of Dark Gu Insects is not a dead thing, but a living being with his own consciousness, but he only needs to obey Ye Feng's orders.

Therefore, when encountering danger, the Dark Gu Insect King can make its own attack judgment, which can protect Ye Feng's safety to a great extent.

Moreover, the King of Dark Gu Insects was originally an extremely powerful insect creature from the legendary heaven. He was the king born from the fighting of tens of millions of Dark Gu Insects.

Therefore, the Dark Gu Insect King is very terrifying.

Even Ye Feng is not sure how powerful the Dark Gu Insect King is now, but it is very powerful anyway.

Ye Feng took out the Dark Gu Insect King at this time and continued to explore the underground machine city, which naturally gave him a lot more confidence.

At this time, the flame dragon standing aside saw Ye Feng taking out the Dark Gu Insect King, and his eyes lit up.

The flame dragon had seen the terror of the Dark Gu King before, and instantly cut off the head of the evil beast overlord Dark Night Giant Ape in the primitive forest, killing it almost instantly.

Therefore, the flame dragon has always been in awe of this dark Gu Insect King.

This is a creature many times more powerful than him.

Buzz!

At this moment, the Dark Gu Insect King was suspended around Ye Feng, always alert to possible upcoming dangers.

Ye Feng took a deep breath and continued to move towards the deep area of the huge underground machine city in front of him.

Even if there is no wealth buried in this underground organ city, Ye Feng is very satisfied with the energy crystals dropped by just crushing those powerful puppets, because the energy crystals in those puppets contain a lot of energy. It is very advanced and has huge benefits in improving Ye Feng's skills.

Chapter 3880 The Puppet Clan

Click, click...

At this time, in the slightly dim underground city, only the footsteps of Ye Feng and the flame dragon could be heard.

The flame dragon said aloud: "This underground machine city is an underground base built by the cultivation civilization from the heaven. It must be very huge. We estimate that it will take a long time to explore."

Ye Feng nodded slightly and said, "It's okay. Let's explore slowly. There must be many good things in this underground base of ancient cultivation civilization."

The flame dragon immediately nodded and said: "Yes, although I have not explored this underground machine city in depth, I can be sure that there must be many good things in this underground machine city."

Ye Feng, who seemed quite Buddhist, smiled and said, "As long as you give me more of those high-end energy crystals, I'll be satisfied."

At this time, after Ye Feng finished speaking, he suddenly discovered that a huge palace appeared in front of him.

This palace actually floats in the very center of this underground city.

Moreover, there are actually three huge bronze coffins placed in this palace.

Seeing this scene, the flame dragon couldn't help but exclaimed: "I didn't expect that the core of this underground organ city was actually an ancient burial place. Could it be that the three coffins in that hall were from this cultivating civilization back then? Where the big shots are buried?"

Ye Feng nodded slightly at this time and said loudly: "Let's fly over and take a look."

Uh-huh! Uh-huh!

At this moment, Ye Feng and the flame dragon immediately flew quickly towards the central hall.

If the people buried in the three coffins were all important figures of the cultivating civilization who were the puppets back then, then there must be many precious burial objects.

boom!

boom!

But just at the moment when Ye Feng and the flame dragon flew to the door of the palace.

Suddenly, the lids of the two coffins on the far sides of the three coffins exploded.

Then two dark figures suddenly appeared in the field of vision of Ye Feng and the flame dragon.

Ye Feng and the Flame Dragon immediately saw that the two figures flying out from the coffins on both sides turned out to be two puppets made entirely of special materials.

The aura exuded by these two puppets was very terrifying and unparalleled. Ye Feng and the Flame Dragon immediately felt a terrible sense of pressure at that moment.

At this moment, Ye Feng couldn't help but said: "It seems that what is buried in this coffin is not the body of this important figure from the cultivating civilization, but two puppets."

r\u003e

The flame dragon spoke out at this time: "What exploded now are only the coffins on both sides of the three coffins. Perhaps these two coffins contained puppets to protect the middle one. Inside that coffin might be the flesh and blood of this great man who practiced civilization."

Hearing what the flame dragon said, Ye Feng thought it was reasonable, and immediately nodded, and then said loudly: "First see if these two puppets can be solved, and then go explore the inside of the middle coffin. What the heck is pretending."

At this moment, after Ye Feng finished speaking, he and the flame dragon immediately charged towards the two puppets flying out of the coffins.

"boom!!"

At this moment, the flame dragon opened its mouth and spit out a stream of flame dragon breath, which immediately hit one of the puppets.

The terrifying flames can melt all things, but they cannot harm these two puppets.

"What??"

Seeing this scene, the flame dragon suddenly showed a look of surprise in his eyes, and couldn't help but said: "My ball of flame is my most essential pure fire. Flame can melt everything in the world, but it cannot melt it." These puppets, even the shells of these two puppets have not melted, which is really incredible!"

At this time, Ye Feng also nodded slightly and said: "These two puppets are different from other ordinary puppets we have encountered before. They are indeed quite powerful."

Boom!

At this moment, Ye Feng said, and punched out hard, colliding with one of the puppets.

Kick, kick, kick!

At this moment, even Ye Feng couldn't help but take several steps back, and even felt that his fists were a little sore.

After sensing all this, Ye Feng suddenly showed surprise in his eyes and couldn't help but said: "The materials made by these two puppets are absolutely very powerful and cannot be broken at all."

At this time, another puppet sneaked towards Ye Feng's back.

Uh-huh!

But at this moment, the Dark Gu Insect King, who had been standing next to Ye Feng, immediately attacked the puppet sneaking up from behind.

Boom!

When the two collided, a terrifying roar suddenly erupted.

Almost the next moment, another puppet directly

Was blown away.

It has to be said that the Dark Gu Insect King is still very terrifying, and he blew this powerful puppet away in an instant.

But Ye Feng was surprised to find that the puppet that was blown away did not suffer any damage at all.

Even the extremely sharp terrifying insect claws of the Dark Gu Insect King were unable to cut and shatter the shells of these two puppets.

You know, the King of Dark Gu Insects is a terrifying creature from the heaven. Those claws can easily cut and shatter all kinds of advanced weapons.

But at this moment, even the shells of these two puppets cannot be cut and broken, and there is not even a trace left.

Seeing this scene, Ye Feng suddenly showed deep horror in his eyes.

These are really two very different puppets!

While Ye Feng was thinking, suddenly the lid of the coffin in the middle of the palace in front slowly opened.

"Click, click..."

Ye Feng and the Flame Dragon immediately looked towards the middle coffin, and found another puppet figure inside the middle coffin, slowly standing up.

However, this puppet looks different from the puppets that ran out of the two coffins before.

For example, the puppets that jumped out of the two coffins on the two sides of the three coffins just now are very powerful and solid, but the entire puppet's body design is very stiff, and it can be seen at a glance that it is a puppet.

But at this moment, the puppet standing up slowly in the middle coffin feels like a real person.

The design of the entire puppet's body is not rigid at all, but is very flexible, and the lines are very smooth, just like a real person appearing in the field of vision of Ye Feng and the flame dragon.

But this simulated puppet is still a puppet after all. The puppet body is made of unknown materials and has a cold metallic luster.

However, the pair of puppet eyes made of special materials emit green light, giving people a very smart feeling.

At this moment, Ye Feng only felt that the person he was facing was not a puppet, but a living creature.

This puppet seems to have a mind!

At this moment, Ye Feng was shocked by his guess.

This was the first time Ye Feng encountered a puppet who might have his own independent thoughts.

At this time, Ye Feng subconsciously felt a very terrifying aura coming from the middle coffin.

It emanated from the simulation puppet standing up in front of him.

At this time, the simulated puppet suddenly made a very old voice, full of vicissitudes of life: "The flesh and blood are suffering, the mechanism is soaring..."

Uh-huh!

After the words fell, the simulation puppet rushed in front of Ye Feng, breaking through the constraints of space almost instantly.

If it were a human body, it simply wouldn't be able to withstand the spatial pressure caused by the rapid shuttle.

But this puppet can bear it.

Because the materials all over his body seem to be very special and very strong.

At this moment, the simulation puppet suddenly came to Ye Feng.

Uh-huh!

The Dark Gu Insect King sensed the danger and immediately flew in front of Ye Feng to protect Ye Feng.

Boom!

But this simulated puppet just stretched out a hand and slapped such a terrifying existence as the Dark Gu Insect King away into the distance.

"howl!!"

Even the Dark Gu Insect King screamed in agony at this moment, and the shell on the surface of his body that looked like it was made of divine iron showed a slap mark and dented.

It can be seen from this that the terrifying power contained in the palm of this simulation puppet just now.

When Ye Feng saw this, his eyes widened immediately, and he even subconsciously wanted to release the dominant power in the God Son Token.

But the next moment, the simulated puppet stared at Ye Feng with its dark green eyes, and slowly spoke out in a hoarse old voice: "You can find this place, it means that you and I are very destined. I have a I'm busy and need your help."

Ye Feng's eyes were stunned and he couldn't help but ask: "Who is this senior?"

The ancient puppet in front of him, with its metal voice, immediately made a hoarse voice: "By the way, let me introduce myself first. I am the ancestor of the ancient puppet clan. I practiced for many years and reached many realms. More powerful than the Lord, but the strongest has its own strength. I can't see the end of my practice. I always feel that I may die. No matter how I practice, I always feel that I can't live forever. Finally, I found a way, that is Create an indestructible puppet body for myself. In this case, even if part of my puppet body is damaged, it can be repaired directly with puppet parts. As long as my spiritual core remains immortal, I will have immortality in disguise. , the belief of our puppet family is to suffer flesh and blood, soar through the machine, and use the ancient machine puppet technique to make ourselves immortal. "
