

Ancient 3881

Chapter 3881 Didn't expect it

At this time, when Ye Feng heard the ancestor of the puppet clan in front of him say this, his eyes immediately showed deep surprise.

Because Ye Feng never thought that someone would give up his own flesh and blood in pursuit of eternal life, and instead transform himself into a puppet.

If Ye Feng had to choose, then Ye Feng would definitely not choose this way, because Ye Feng felt that his body was the most perfect.

If you pursue a machine puppet body without any feeling just for the sake of immortality, then everything will feel meaningless, and it will be no different from death.

Of course, at this time, Ye Feng did not express his inner thoughts. He just smiled slightly and said: "Since senior is so powerful, what else do you need my help for? My cultivation strength should not be inferior to senior." It's nothing."

Hearing what Ye Feng said, the puppet ancestor in front of him immediately made a sound like metal friction, and said loudly: "Although I relied on the ancient and incomparable puppetry technique of our puppet clan, I got the eternal puppet. body, and used special things to permanently combine my mind and soul into this puppet. It cannot be erased, but I have also been cursed by the mysterious power, so I need you to help me now. The curse is lifted, allowing me to leave this underground underground city."

Hearing what the puppet ancestor said, Ye Feng was stunned for a moment and couldn't help but said: "What can I do to help senior unlock the curse? Even ancient powerful figures like senior cannot unlock it. Curse, I guess there's nothing I can do about it."

The puppet ancestor immediately said: "You can enter this dungeon, so it means that you are related to the curse. Maybe you have the ability to help me solve the curse, so I appeared directly in front of you and talked to you." Dialogue, otherwise, I would have killed you long ago."

"Um?"

Hearing the seemingly threatening words of the puppet ancestor in front of him, Ye Feng said calmly: "Then senior, you must give me a direction."

, otherwise I don't know how to lift the curse. "

The puppet ancestor pointed to the bottom of the underground city and said, "The core power of the curse emanates from there. Go down and take a look."

Uh-huh!

At this time, the Dark Gu Insect King flew over from a short distance, stood beside Ye Feng, and grinned at the puppet ancestor. Obviously, the Dark Gu Insect King really wanted to have another fight with this puppet ancestor. field.

But Ye Feng stopped the Dark Gu King from thinking.

Because Ye Feng knew very well that the puppet ancestor in front of him was definitely a fierce man from the ancient era.

Otherwise, it would be impossible to remove all of his flesh and blood and integrate his thoughts and soul into this terrifying puppet.

An existence with such an idea must be very terrifying, and it is simply not something that the Dark Gu Insect King or himself can fight against now.

Therefore, Ye Feng could only seek stability at this time, and first stabilize this puppet ancestor.

At this moment, Ye Feng immediately nodded and said, "Okay, then I'll go down and take a look."

At this time, Ye Feng felt that the threat of this puppet ancestor was too great, so he should not be too tough for the time being and go down to see what was going on.

Uh-huh!

Uh-huh!

At this moment, Ye Feng and the flame dragon immediately jumped towards the bottom of the underground city.

When Ye Feng came to the bottom of the underground machine city, Ye Feng immediately saw a ghostly figure sitting on a dark throne, which looked very ancient.

At this moment Ye Feng came here

In front of the ghostly shadow, it was discovered that this ghostly shadow seemed to have no self-awareness.

This seems to be a ghost composed of special power.

Ye Feng looked at the ghost in front of him with doubts in his eyes.

Could it be that the curse mentioned by the puppet ancestor was this ghost?

At this time, Ye Feng did not hesitate and simply tried to use his soul power to touch the dark ghost in front of him.

boom! ! ??

However, the moment Ye Feng's soul power just touched this dark ghost, Ye Feng immediately felt a terrifying dark curse power, which invaded his entire body in an instant, and instantly destroyed himself. The whole person was enveloped.

There are even ancient curse symbols on the surface of Ye Feng's skin at this moment, and they are flashing rapidly.

At this time, the laughter of the puppet ancestor suddenly came from high in the sky: "Finally, I lured you kid down below and touched the cursed ghost. The cursed power of the ghost is now all. If it is passed on to your kid, I will be able to escape. This is the art of grafting flowers and grafting trees on!"

At this moment, the puppet ancestor laughed loudly, which made Ye Feng underneath immediately understand that he was not a destined person at all, but was just used by this puppet ancestor to threaten him to go down below and let the power of the curse be transferred to him. scapegoat.

After figuring this out at this moment, Ye Feng's eyes immediately became very frightened and angry.

It is equivalent to saying that now he has replaced the puppet ancestor and endured the power of the ancient and terrible curse.

After learning this at this moment, Ye Feng's face suddenly became extremely gloomy.

At this moment, Ye Feng did not hesitate at all, and directly activated the soul gem in his mind to fight against the ancient curse power that entered his body.

Boom!

At this moment, a brilliant golden light suddenly burst out from Ye Feng's head, directly forming a golden prison, covering the dark ghost with curse power all over his body, and locking it in his mind.

Almost at this moment, the dark ghost actually sent out a thought for help: "Please don't erase me, you can control the puppet ancestor by controlling me!"

Hearing this dark ghost say this, Ye Feng's eyes were stunned, and then he showed a deep ecstasy.

Swish!

At this moment, Ye Feng immediately flew high into the sky, and then looked at the puppet ancestor who was laughing not far away, and suddenly said: "Kneel down!"

Almost at the moment when Ye Feng's voice fell, the arrogant smile on the face of the puppet ancestor suddenly became extremely stiff.

Because he couldn't help it at this time, his whole body suddenly knelt down in the direction of Ye Feng with a "thump", kneeling on the ground, very humble.

"What?"

After sensing all this, the puppet ancestor couldn't help but show a deep look of horror in his eyes, and immediately screamed wildly: "How is this possible! How can you control me? You should have been wiped out by that terrifying curse power, why didn't you die?"

At this time, Ye Feng's face suddenly showed a deep sarcastic smile, and he said: "Unexpectedly, not only did I not die, but I also controlled this curse power, and used this curse power to control your powerful puppet body."

"This is impossible!!"

Hearing Ye Feng say this at this time, the puppet ancestor couldn't help but scream angrily, his tone full of deep disbelief and impotent rage.

Chapter 3882 It's simply too miserable

"This is impossible!"

At this moment, the puppet ancestor roared angrily, but there was nothing he could do.

Because Ye Feng now asked him to kneel down, he had to kneel down. His puppet's immortal body was not under his control at all.

At this moment, Ye Feng stared at the puppet ancestor in front of him, smiled slightly and said: "You wanted to harm me just now, but you didn't expect that I have such means. Not only can I resolve the harm caused by the curse, but I can also Doesn't it feel frustrating to control you through that curse?"

Hearing what Ye Feng said, the eyes of this puppet ancestor suddenly became extremely ugly.

But Ye Feng just smiled indifferently at this moment and said: "When you harm others, you have to consider the consequences. Now this is your retribution."

After saying that, Ye Feng felt very happy.

This time, not only did they resolve a huge crisis, but they were also able to control this puppet ancestor, which was a killing two birds with one stone.

At this moment, the flame dragon beside him couldn't help shouting excitedly: "Master Ye Feng, you are really amazing. Not only can you resolve such a terrifying crisis, but you can also turn this The hateful puppet ancestor has been controlled. You must know that the combat power of this puppet ancestor is very terrifying. Lord Ye Feng has received a huge help. It is estimated that he can walk sideways on every level of the entire ancient sacred mountain. "

Ye Feng nodded slightly at this time.

For this puppet ancestor, Ye Feng knew that he was a ruthless man with very terrifying methods.

I have to admit that this puppet ancestor is still very powerful. Even the Dark Gu Insect King will not be able to grow to the level of this puppet ancestor in a while.

At this moment, Ye Feng didn't hesitate at all. He looked directly at the puppet ancestor in front of him and said, "Follow me and serve me honestly."

After finishing speaking, the puppet ancestor immediately shouted angrily: "How can I serve a humble human ant like you? This is impossible!"

"Palm mouth!"

But at this moment, Ye Feng immediately shouted loudly.

Snapped!

Snapped!

Snapped!

Almost at the next moment, the hands of this puppet ancestor

, and immediately began to slap himself without self-control, making a loud bang on his metal face.

At this time, the puppet ancestor did not dare to say anything more.

Because Ye Feng now has complete control over his puppet body through the power of the curse, he cannot resist at all and can only find other ways in the future.

So at this time, the puppet ancestor did not dare to anger Ye Feng anymore. He was really afraid that Ye Feng would directly give him a death order in a rage. Then the puppet ancestor would commit suicide and would not be able to resist at all. .

So at this time, the puppet ancestor decided not to go against Ye Feng for the time being.

At this moment, when he saw that the puppet ancestor in front of him became silent and became honest, Ye Feng suddenly showed a look of satisfaction on his face and said loudly: "Do things for me honestly. In this case, you still can If you can survive, you will only die. If I order you to commit suicide now, you will not be able to resist and will have no choice but to commit suicide. "

Hearing what Ye Feng said, the puppet ancestor couldn't help but show a look of shock and anger in his eyes.

But after thinking about it, I realized that now my life was in Ye Feng's hands. After all, I didn't curse out and could only stand beside Ye Feng silently.

At this time, Ye Feng looked at the silent puppet ancestor and knew that this guy must be thinking of some plan to see if he could escape.

But Ye Feng was not afraid at all.

Because Ye Feng now imprisons the ghostly thought of the power of the curse through the soul gem, and can control the puppet ancestor through the power of the curse, Ye Feng is not afraid of any bad tricks used by the puppet ancestor at all.

At this moment, Ye Feng was very happy. Perhaps the biggest surprise when he came to this underground city this time was to control such a powerful puppet ancestor.

You know, this puppet ancestor is an eternal ruthless man, very powerful, and almost immortal.

Moreover, the puppet body he made with special materials is very strong and terrifying.

At this moment, Ye Feng suddenly looked at the puppet ancestor in front of him and said: "Let these two

The puppets under his command should just blow themselves up. "

"What??"

A look of anger suddenly appeared on the face of the puppet ancestor, and he couldn't help but said: "The two of them were my right-hand men back then, so they are qualified to lie in the same palace with me."

Ye Feng smiled faintly at this time and said aloud: "Didn't you hear what I said? I order you to let them blow themselves up!"

When the puppet ancestor heard Ye Feng's order, he immediately began to involuntarily ask his two men to expose themselves. .??.

Boom!

Boom!

Almost at this moment, the two puppet men of the puppet ancestor immediately self-destructed and turned into countless fragments.

Then Ye Feng found two energy crystals from among the fragments.

Ye Feng has now taken control of this puppet ancestor, and has taken control of this extremely powerful puppet. There is no need for those two subordinates at all.

So Ye Feng might as well blow up those two men and get the energy crystals in their bodies.

At this moment, Ye Feng knew very well that the two puppets under the command of this puppet ancestor were very high-level puppets, not ordinary puppets.

Therefore, the energy crystals contained in their bodies are absolutely very high-grade.

Ye Feng got two high-level energy crystals at this time and immediately started to devour the power in them.

"Rumble..."

At this moment, streams of very pure energy suddenly burst out from the two high-level energy crystals, which were directly injected into Ye Feng's body, rapidly increasing Ye Feng's power.

At this moment, Ye Feng's cultivation aura immediately began to break through rapidly.

"boom!"

The eighth level of Hexu Realm!

"boom!"

The ninth level of Hexu Realm!

"boom!"

The Great Perfection of the Tenth Level of Hexu Realm! !

At this time, Ye Feng's cultivation level directly broke through to the tenth level of Hexu Realm, and broke through the third level in a row, making Ye Feng's eyes suddenly reveal a look of deep surprise.

At this moment, Ye Feng couldn't help but exclaimed: "These two high-level puppets are indeed the two men carefully selected by you, the puppet ancestor. The energy crystal cores contained in their bodies are really huge. , My cultivation skills have improved so much."

"What? You can actually absorb the power in the energy crystal to strengthen your cultivation?"

At this moment, the puppet ancestor saw the scene in front of him and immediately couldn't help but show deep horror in his eyes.

This was the first time he saw a living creature that could absorb the energy core in their puppet body.

This is simply incredible.

Because the puppet ancestors knew very well that only beings of the same kind who were also puppets could absorb the energy crystals in other puppets' bodies by killing other puppets.

But Ye Feng, now a living creature, could actually absorb the core of these puppets, which is really incredible to the extreme for this puppet ancestor.

It was as if he saw a brand new existence.

The puppet ancestor immediately understood at this time that Ye Feng was completely different from what he imagined.

The young man Ye Feng seemed to be much more terrifying than he imagined.

At this moment, the puppet ancestor immediately fell silent without saying anything more. He was really afraid that Ye Feng would swallow him up and disintegrate his puppet ancestor.

At this moment, Ye Feng glanced at the entire underground machine city and suddenly asked: "Ancestor Puppet, you have buried yourself here for so many years and built such a huge underground machine city. There must be some... A lot of the wealth of your puppet clan back then, you should hurry up and take me to find it now."

"you.....!"

When the puppet ancestor heard what Ye Feng said at this moment, a deep ugly look suddenly appeared in his eyes.

Now he is not only controlled by Ye Feng, but Ye Feng also wants to get so much wealth accumulated by their puppet clan back then.

This is simply too miserable.

But the puppet ancestor couldn't resist Ye Feng's order at this time. His body could not help but run quickly in a certain direction.

Ye Feng looked at the flame dragon beside him and immediately said with a smile: "Let's follow."

Chapter 3883 Treasure House Wealth

Uh-huh!

Uh-huh!

At this time, the puppet ancestor quickly led the way.

Ye Feng and the Flame Dragon quickly followed.

For Ye Feng and the Flame Dragon, what they hope most now is to get the huge wealth in this underground city.

Because Ye Feng knew very well that this puppet ancestor could make himself immortal in disguise, and also built such a huge underground machine city, then there must be a lot of huge wealth accumulated by the puppet clan hidden in this underground machine city.

According to the plan of the puppet ancestor, it is estimated that he is waiting to lure someone to transfer the power of the curse. At that time, the puppet ancestor can escape, control the entire underground machine city, and then fight for world dominance.

But this puppet ancestor probably never thought that he was so unlucky that he met such a monster like Ye Feng and directly controlled the puppet ancestor.

At this moment, Ye Feng secretly chuckled in his heart. He really gained a huge harvest this time.

Not only can he control such a terrifying puppet master like his puppet ancestor, but he can also now obtain the huge wealth accumulated by this puppet family. Ye Feng is very much looking forward to this.

Because Ye Feng knows that this puppet family is a race that specializes in making puppets.

Casting these puppets requires a lot of energy crystals to maintain the operation of each puppet.

Therefore, Ye Feng guessed that there must be a lot of energy crystals among the wealth of the puppet clan hidden in this underground organ city.

This kind of energy crystal is of great help to improve Ye Feng's skills.

Ye Feng had killed many puppets before and devoured the energy crystals contained in those puppets' bodies, which indeed improved his skills a lot, so Ye Feng was naturally looking forward to the treasure trove of this puppet clan.

Of course, at this moment, the puppet ancestor's expression was very gloomy.

But his puppet body is involuntary and must obey Ye Feng's orders and lead the way.

Soon, they walked through the winding underground city passages and finally arrived at the deepest part of the underground city.

A huge bronze door was actually cast here.

At this moment, Ye Feng asked aloud: "Is the wealth accumulated by your puppet family behind this bronze door?"

The puppet ancestor immediately nodded, his face was very ugly, but he still obeyed the order and said honestly: "Yes, all the wealth accumulated by our puppet clan in the past is behind this bronze door."

At this moment, Ye Feng immediately showed deep joy on his face and said loudly: "Then hurry up and open this bronze door."

The puppet ancestor could only obey Ye Feng's order at this moment, and slowly opened the bronze door honestly.

Rumble...

As the bronze door opened, Ye Feng immediately saw

After entering this bronze door, there is indeed a huge space.

This space is like a huge cave, with many kinds of wealth piled inside.

However, most of them are puppets unique to the puppet family, and there are also many various materials and weapons for equipping puppets.

Ye Feng didn't hesitate at this moment, he just stretched out his hand and instantly displayed the hand of God.

boom!

Suddenly, a huge hand of white light appeared, and all the puppets in the treasure house were smashed to pieces.

After each puppet was broken, an energy crystal fell down.

After all, Ye Feng doesn't need these puppets, he only needs the energy crystals contained in the puppets' bodies.

Because having an extremely powerful puppet ancestor is enough.

Other ordinary puppets are useless to Ye Feng.

What Ye Feng needs is the energy crystals contained in the bodies of these puppets.

So at this time, Ye Feng used the hand of God and smashed all the puppets.

There were hundreds of puppets, and hundreds of energy crystals suddenly fell out.

Although these hundreds of energy crystals are not as advanced as the two energy crystals under the previous puppet ancestors, they still contain a lot of energy.

"Wow!"

Ye Feng didn't hesitate at this time. He just opened his mouth and swallowed all the hundreds of energy crystals in his stomach.

Seeing Ye Feng do this, the puppet ancestor standing next to him immediately flashed his eyes and felt a flash of joy in his heart.

Because he could sense that Ye Feng's cultivation was at the tenth level of Hexu Realm, which was not very powerful.

If you swallow these hundreds of energy crystals at once, you will definitely be burst by the energy crystals.

But just as the puppet ancestor was thinking secretly, Ye Feng suddenly burst out with terrifying aura of cultivation.

"boom!"

"boom!"

"boom!"

"..."

Ye Feng's cultivation level immediately broke through from the tenth level of Hexu Realm to the Poxu Realm above Hexu Realm.

Then he was promoted crazily to the sixth level of the entire Void-Breaking Realm!

"What??"

At this moment, seeing Ye Feng breaking through so much at once, seemingly digesting all the energy of hundreds of energy crystals in an instant, the puppet ancestor standing next to him couldn't help but stare. eyes.

The puppet ancestor seemed to have never thought that Ye Feng not only did not burst his whole body, but also

And with the help of so many energy crystals, he broke through so many cultivation realms at once.

This made the puppet ancestor's eyes look extremely shocked. He even opened his metal mouth wide and couldn't calm down for a long time.

He couldn't help but feel very horrified in his heart.

This human kid is really terrifying.

It was much scarier than he imagined!

At this time, the puppet ancestor stared at Ye Feng's body, seeming to be thinking about the nature of Ye Feng's body, what kind of existence it was, and why it felt more magical than the puppet body he created that could live forever.

At this moment, Ye Feng walked into the treasure house of this puppet clan, exuding soul power, and wanted to find if there were any other good things.

And then Ye Feng really found something good.

In the treasure house of this puppet clan, Ye Feng found a set of armor that looked very special.

This set of armor is all khaki in color and seems to be very inconspicuous, as if it is made of clay.

But Ye Feng reached out and pinched the armor, and found that he could not cause any damage to the armor.

When Ye Feng saw this scene, his eyes suddenly showed surprise.

Because the power of Ye Feng's body is very terrifying, he can destroy advanced weapons casually.

But this set of earth-yellow armor that looks very inconspicuous is actually so strong.

At this moment, Ye Feng immediately looked at the puppet ancestor not far away and asked: "What level of armor is this set of armor?"

The puppet ancestor spoke slowly: "The material of this set of armor is the same material as the immortal puppet body I cast. It is a mysterious material from outside. It is very strong, even if it's a special material that's rarely found in the heavens and is outside the mysterious realm."

Hearing what the puppet ancestor said, Ye Feng suddenly showed surprise in his eyes and said aloud: "Outside the realm of heaven, the mysterious material descended? Is there an outside world in heaven? Isn't heaven the highest level world in the legend? Why? Will there be something more advanced than heaven?"

When the puppet ancestor heard Ye Feng say this, he immediately smiled coldly and said: "Have I not said before, in the heaven, I have cultivated to a level that is even more powerful than the master, even far beyond Beings who dominate many realms still feel that they will die, and there are more powerful beings in the world, so I used this special and incomparable material to cast this almost immortal puppet body. This special and incomparable The material does not exist in the heaven, so I judge that it comes from outside the territory. As for what kind of world this outside the territory is, I am not sure. After all, the heaven is already very vast, endlessly vast, even in ancient times. The gods probably cannot understand how vast the heaven is.

Bar. "

Hearing what the puppet ancestor said, Ye Feng's eyes suddenly revealed a look of deep horror.

Ye Feng knows that this puppet ancestor is the first generation founder of the puppet clan. The cultivation civilization from the heaven is very large and the realm is very high. It is estimated that it is a big force in the heaven.

Unexpectedly, a big man of this level would be confused at the end of his training, and would even think that he would die, so he used this special material that does not exist in the heaven and comes from a mysterious outside world to cast an immortal body. Puppet body.

At this moment, Ye Feng suddenly showed a look of deep surprise in his eyes.

Unexpectedly, the armor in front of me was made of materials that did not exist in the heaven. It must be very advanced and very terrifying.

Although it looks khaki and very inconspicuous, it is definitely the most advanced armor that Ye Feng has obtained so far.

Ye Feng didn't hesitate at this moment and started refining this set of armor directly.

But when Ye Feng was refining, this set of earth-yellow armor didn't react at all, which made Ye Feng's eyes suddenly show doubts.

Even with his extremely advanced Hongmeng power, he was unable to refine this set of earth-yellow armor.

"Don't waste your efforts."

At this time, the puppet ancestor beside him suddenly said: "I cast this set of armor back then just to protect myself, but I found that it was impossible to refine this set of armor because of the material of this set of armor. , does not exist in the heaven, and comes from a more advanced and mysterious realm, so not to mention your power, even the power I used to practice in the heaven, cannot refine this set of armor, and it is different from this set of armor. Compatible, so I know how precious this material is and how it is almost immortal, so I used this material to cast myself a puppet body that can never be damaged."

When Ye Feng heard the puppet ancestor say this, his eyes suddenly showed surprise.

It seems that this set of armor cannot be refined by oneself.

However, Ye Feng smiled broadly at the next moment and said loudly: "Even if I can't refine this set of earth-yellow armor, if I wear this set of armor directly on my body, it can withstand a lot of damage. It is equivalent to an indestructible The turtle shell can withstand strong damage."

Hearing what Ye Feng said, the puppet ancestor nodded slightly and said nothing more.

At this time, the flame dragon not far away suddenly exclaimed: "Master Ye Feng, come and see, I seem to have found the original inheritance of the puppet clan!"

Hearing the exclamation of the flame dragon not far away, Ye Feng's eyes suddenly lit up.

The puppet ancestor's face darkened, and he cursed in his heart. This giant flame dragon didn't expect that his eyes were so poisonous, and he actually found the inheritance of the puppet clan that he had hidden so deeply. He really suffered a big loss this time!

Chapter 3884 Time is precious

At this moment, Ye Feng immediately flew quickly towards the direction of the flame dragon.

When Ye Feng came to the flame dragon, he immediately saw that the flame dragon scratched through the entire wall.

An iron box unexpectedly appeared in the inner layer of the wall.

Inside this iron box lies an ancient book. .??.

There are several big words written on the book: "Puppetry of Heaven and Earth".

At this moment, looking at this book, Ye Feng's eyes immediately lit up and he started practicing.

In the process of practice, Ye Feng immediately understood that after successfully practicing this set of heaven and earth puppet techniques, the practitioner can directly use the power of the entire heaven and earth to condense huge puppets composed of the energy of the heaven and the earth. to deal with enemies and produce extremely terrifying attacks.

For example, Ye Feng can use the Heaven and Earth Puppet Technique to communicate with the power of the earth and directly use countless pieces of soil to condense a huge earth puppet with the power of the earth, which is very terrifying.

For example, when Ye Feng encounters a mountain, he can directly communicate with the mountain and make the entire mountain form a mountain puppet.

In other words, as long as the power of heaven and earth is visible and tangible, it can be used by Ye Feng to condense extremely powerful puppets of heaven and earth to deal with the enemy.

After Ye Feng understood this, his eyes immediately showed deep joy.

I have to say that this set of inheritance from the puppet clan, the Heaven and Earth Puppet Technique, is still very powerful.

At this moment, Ye Feng's demon understanding ability quickly succeeded in practicing this heaven and earth puppet technique.

At this moment, Ye Feng wanted to test this new powerful inheritance.

Buzz!

At this moment, Ye Feng stretched out a hand directly towards the bronze gate in front of him, and then used the Heaven and Earth Puppet Technique.

"Crunch, crunch..."

almost down

For a moment, an incredible scene happened.

I saw that the bronze door began to twist, and then the bronze reassembled into a puppet giant, which had very terrifying power.

"What a strong understanding."

Seeing this scene, even the puppet ancestor couldn't help showing surprise in his eyes.

This set of heaven and earth puppet techniques is the strongest inheritance of their puppet family, and it is also the most magical inheritance, because it allows practitioners to use various materials existing in the world to condense extremely powerful puppets.

What the puppet ancestor never expected was that Ye Feng could master and perform the Heaven and Earth Puppet Technique in just a short moment.

You must know that the ancestors of the puppets spent many years studying and comprehending the puppetry of heaven and earth in order to practice it.

At this time, the puppet ancestor felt more and more that the human boy in front of him was definitely a super monster, otherwise he would not have such terrifying comprehension ability.

At this moment, Ye Feng was very satisfied. This time he came to this underground machine city, and he really gained a lot. Not only did his cultivation strength get a huge improvement, but he also got the inheritance of the puppet clan.

And the most important thing is that Ye Feng completely controls the immortal existence of the puppet ancestor.

Moreover, the power exerted by this puppet ancestor is still very powerful.

In addition, this puppet ancestor comes from the most legendary world above the origin world, the heaven.

Therefore, it will definitely be of great help for Ye Feng to understand everything about the heaven.

However, heaven is still too far away for Ye Feng.

First look at the target

Let's understand the previous world of origin before talking about it.

After all, the strongest combat power in the Origin World, the Dominator, is still somewhat out of reach for Ye Feng.

Not to mention the ethereal and distant heaven.

At this moment, Ye Feng didn't hesitate at all. He just looked at the flame dragon and the puppet ancestor in front of him and said: "Since everything here has been explored, let's go out directly. This underground machine city is still there. In the fifth space of the ancient sacred mountain, I will continue to explore towards the top of the ancient sacred mountain. "

Hearing what Ye Feng said, the flame dragon immediately nodded, and the group of people walked quickly towards the ground of the underground machine city.

Soon they left the underground organ city, passed through the small pool of water, and returned to the ground of the primeval forest.

At this time, Ye Feng looked at the puppet ancestor beside him and said aloud: "The top of this ancient sacred mountain, on the top of the mountain, is very extraordinary, with bright divine light shining. Do you know the top of this ancient sacred mountain? What exactly exists on the top of the mountain?"

The puppet ancestor shook his head and said aloud: "I don't know, I have never climbed to this ancient sacred mountain, because I am not interested in those. I just selected the deepest part of the fifth-level primitive forest of this ancient sacred mountain. , no one should bother me, so I built an underground machine city and waited to wake up. Because our puppet clan encountered a very terrible crisis of extinction that year, so I fled here with the remaining clan members. I didn't know anything about everything here. So understanding."

Hearing what the puppet ancestor said, Ye Feng could only nodded slightly and stopped asking any more questions. It seemed that he still needed to investigate on his own.

At this moment, Ye Feng looked at the flame dragon beside him and said, "Let's go directly to the sixth floor."

The flame dragon nodded slightly.

A group of people are directly

Flying quickly towards the sixth level of this ancient sacred mountain.

The fifth level of this ancient sacred mountain is a virgin forest. After Ye Feng passed through the entire primeval forest, he came to the end area of the fifth level.

Sure enough, Ye Feng saw another space door.

Ye Feng took the flame dragon and the puppet ancestor and entered the gate of space.

Buzz!

In an instant, with a burst of space fluctuations, they had reached the sixth level of this ancient sacred mountain.

Now that there is such a terrifying existence as the puppet ancestor by his side, and he is still obeying his orders, Ye Feng is naturally a very brave man, and he is going to fly towards the top of this ancient sacred mountain quickly.

The sixth floor space is a desolate ruins, with broken buildings everywhere.

The flame dragon said loudly: "Lord Ye Feng, this sixth floor is a complete ruin, there is nothing. Let's go to the seventh floor."

Ye Feng nodded.

This flame dragon is a local snake in this ancient sacred mountain area. He is very familiar with every layer of the ancient sacred mountain, so Ye Feng naturally listens to the flame dragon and will not waste time here.

Because Ye Feng was delayed for a long time in the underground mechanism city of the fifth-level primitive forest.

Ye Feng was afraid that if he didn't speed up, he might not be able to keep up with the other masters.

Because Ye Feng knew that those who entered this ancient cave this time were not only masters from the Righteous Alliance, but also many super strong men from the Dark Alliance in the Origin World. They also had the ability to enter the top level of this ancient sacred mountain. , so Ye Feng naturally had to catch up quickly at this time.

If there is nothing good in this sixth floor, then don't stay here to avoid wasting time, because Ye Feng's time is very precious now.

Chapter 3885 Space God King

Everyone moved very quickly, and in a blink of an eye they passed through the ruins of the entire sixth floor and arrived at the seventh floor.

When Ye Feng entered the seventh floor, his eyes suddenly froze.

Because he discovered that the seventh level of this ancient sacred mountain turned out to be a place full of space cracks.

Ye Feng saw the corpses of many strong men, all of which were broken into several sections. They should all be strong men and masters from other major forces who entered the seventh layer of

space. They accidentally encountered the cracks in the space, and then their entire bodies were broken into pieces. It was cut into several pieces and fell to the ground, completely dead.

Seeing this scene, Ye Feng couldn't help but take a breath of air.

Every level of this ancient sacred mountain is extremely dangerous.

And it feels like the danger is getting bigger and bigger. .??.

However, Ye Feng has a space gem on his body, so he is not afraid of the various space cracks in the seventh layer.

The flame dragon suddenly spoke up at this time: "Master Ye Feng, the most precious thing on the seventh level is the inheritance of space attributes left by an ancient strong man called the Space God King. This is important to you, Master Ye Feng. It will definitely be of great help, because Mr. Ye Feng, you already have very precious space gems in your body. If you get the inheritance of the Space God King, you will fully exert the power of the Space God King's inheritance. Ye Feng Your Excellency will definitely have another extremely powerful trump card by then."

Hearing what the flame dragon said, Ye Feng's eyes suddenly lit up, and he couldn't help but say: "I didn't expect that in this seventh layer of space, there would be such a special and incomparable space attribute left by the ancient strongman like the Space God King. The legacy passed down is pretty good."

Hearing what Ye Feng said, the flame dragon immediately couldn't help but said respectfully: "The reason why there are so many space cracks in this seventh-level space is that it is said that the Space God King fought with a super powerful existence. It is said that the space god king used his most powerful inheritance, causing countless space cracks to appear in the entire space world on the seventh floor of the ancient sacred mountain, turning it into a dangerous place. A single inheritance can It is really terrifying to change the appearance of the world in a small world. It is hard to imagine how powerful the Space God King was back then, and his opponent must be even more terrifying, otherwise the Space God King would not have fallen."

After the flame dragon finished speaking, the puppet ancestor next to him had a look of surprise in his eyes, and couldn't help but said: "This guy, the Space God King, was also quite a famous master in our heaven. Unexpectedly, he also fell into this ancient sacred mountain. It seems that this ancient sacred mountain was a very special existence back then. It actually fell from the heaven into this great world of origin, and it also brought so many powerful people and Cultivation essay

Ming, fell inside. "

When Ye Feng heard the puppet ancestor beside him say this, there was a hint of surprise in his eyes.

Originally, Ye Feng thought that everything in the ancient caves, including this ancient sacred mountain, were brought down from heaven by the puppet clan.

But now I heard what the puppet ancestor said. The entire ancient cave ruins, including the ancient sacred mountain that I was currently exploring, were far from being as simple as I imagined.

Thinking of this, Ye Feng became even more interested in the origin of this ancient sacred mountain.

And I am even more looking forward to what is on the top of the highest mountain in the ancient sacred mountain.

However, the ancient sacred mountain had a total of eighteen levels, and Ye Feng had only reached the seventh level, and there was still a long distance to explore.

At this time, Ye Feng didn't hesitate at all. He immediately looked at the flame dragon beside him and said loudly: "Now you take me to find the inheritance of the Space God King in the seventh layer of space. I hope you won't be betrayed by others." Got there first."

The flame dragon immediately nodded and said: "It is really possible that other masters will get there first, because the inheritance of the Space God King is in the place where the Space God King fell, in this seventh-level world. The most central position can be easily discovered by other experts. Unlike when I was on the third floor, I brought the frozen giant sword you were looking for, Mr. Ye Feng. The frozen giant sword was on the third layer of ice. The sealed world is a very secret place that only I know."

Hearing what the flame dragon said, Ye Feng immediately nodded and said: "So don't waste time talking nonsense, hurry up and take me there."

"Okay, okay!"

The flame dragon immediately nodded and bowed, and quickly flew in a certain direction.

Uh-huh!

Uh-huh!

Ye Feng and the puppet ancestor immediately followed.

Along the way, they encountered many space cracks and the corpses of many masters. Ye Feng naturally accepted the blood energy and improved his skills a lot.

As for the danger in this seventh level.

Ye Feng has a space gem to protect his body, so he is not afraid of the cutting of these space cracks at all.

The Flame Dragon is a veteran. He has been in every layer of space in the ancient sacred mountain for so long and is very familiar with it, so he is very familiar with it.

Cleverly avoided being cut by various space cracks.

The Puppet Ancestor is much simpler and cruder. The material for casting his body cannot even be produced by heaven and comes from the mysterious outside. Therefore, the Puppet Ancestor simply goes on a rampage, and those space cracks cannot cut and shatter his body. The puppet body made Ye Feng on the side take a breath of air.

It seems that this puppet ancestor is really immortal, and there is almost no way to destroy its puppet body.

At this time, Ye Feng couldn't help but feel happy. Fortunately, he was lucky enough to have mastered the power of the curse and thus mastered this puppet ancestor.

Otherwise, I probably wouldn't be able to fight against a puppet ancestor.

It is estimated that the dominant power in the Son of God token given to him by Dean Tianshu will not be able to completely destroy the body of the puppet ancestor.

At this moment, Ye Feng did not hesitate and put on the earth-yellow armor that he had obtained before and made of the same material as the puppet ancestor.

Although this set of earth-yellow armor looked very inconspicuous and even a little rustic, after Ye Feng put it on, he found that he could withstand space cracks.

The space cracks cannot leave any traces on this set of earth-yellow armor. ??

Ye Feng couldn't help but show excitement on his face immediately.

It is indeed a mysterious material from outside the realm of heaven.

So sturdy!

Just when Ye Feng was thinking about it, the flame dragon leading the way immediately stopped and said loudly: "Master Ye Feng, we have arrived. It seems that someone has already arrived first."

When Ye Feng heard the flame dragon say this, his heart suddenly sank and he immediately looked forward.

He discovered that a huge castle had appeared in the center of the seventh-level world, but now the top of the entire castle had been blown to pieces.

The flame dragon said aloud: "This ancient castle was the place where the Space God King lived after his fall. It seems that someone has forced his way in."

At this time, Ye Feng suddenly said: "Let's go in and take a look."

Uh-huh!

Uh-huh!

After saying that, Ye Feng, the flame dragon, and the puppet ancestor immediately flew quickly towards the broken castle.

When Ye Fengfei flew in, he immediately saw a dozen masters wearing black robes, full of demonic aura.

In this broken castle, a crystal coffin is being attacked frantically.

There is a tall and majestic corpse hidden in this crystal coffin.

The flame dragon immediately couldn't help but said: "Buried in this crystal coffin is the Space God King! The supreme inheritance of the Space God King must be in the storage ring on the finger of his corpse."

At this moment, the arrival of Ye Feng and others immediately attracted the attention of a group of demonic black-robed masters.

The cultivation aura of these dozen black-robed masters made Ye Feng's eyes look surprised.

Because their cultivation level is actually two or three realms stronger than the sixth level of Shattering Void Realm that Ye Feng just broke through.

This made Ye Feng suddenly look horrified in his eyes.

You know, Ye Feng's current cultivation level is already very terrifying.

But these black-robed masters were much more powerful than him.

Ye Feng immediately understood that these dozen black-robed masters were definitely the core beings in the Dark Demon Cult, otherwise it would be impossible to have such a powerful cultivation realm.

"boom!"

"boom!"

At this moment, these dozen black-robed masters suddenly erupted with the terrifying aura of demonic cultivation. They stared directly at Ye Feng, sneered and said, "I sensed the terrifying cultivation in us." Breath, he dared to walk into this broken castle without knowing his life or death. I think this kid is tired of living! Kill this kid. What this kid is wearing seems to be a genius from the Wanjie Martial Arts Academy of the Righteous Alliance. After killing this kid and carrying his head, he might be able to get a reward from the top by returning to the Dark Alliance. "

At this moment, these dozen Dark Alliance super masters temporarily stopped attacking and destroying the crystal coffin, and instead flew quickly in the direction of Ye Feng, trying to hunt down Ye Feng, the super genius of the Righteous Alliance. , in exchange for huge wealth from the upper echelons of their dark alliance.

At this moment, Ye Feng looked at the puppet ancestor beside him, and suddenly said in a relaxed voice: "I'll leave these dozen masters to you. I'll go see how to open the crystal coffin."

After saying that, Ye Feng immediately flew towards the crystal coffin.

At this moment, when the dozen or so powerful Dark Alliance masters saw that Ye Feng was ignoring them, they immediately shouted angrily: "Boy, you are so arrogant! This little guy next to you is... How dare you, a little puppet, use it to fight against us?"

Chapter 3886 Endless Space Cutting

Boom!

At this time, a dozen powerful Dark Alliance magic masters directly attacked the puppet ancestors blocking their way, with disdain in their eyes.

Because in their eyes, the puppet in the hands of Ye Feng, a genius from the small Righteous Alliance, was nothing at all.

Therefore, these dozen or so powerful demon masters from the Dark Alliance all launched very ordinary attacks on the puppet ancestors. They seemed to think that they could easily kill the puppet ancestors instantly and blast them into countless pieces. fragments. ??

Boom!

But the next moment, when all the attacks from the demonic masters fell on the puppet ancestor, what made these dozen Dark Alliance demonic masters almost stare out their eyes was that their attacks hit the puppet ancestor. , unexpectedly did not cause any harm to the puppet ancestor.

The surface of the puppet ancestor's puppet body is still glowing with a cold metallic luster, seemingly indestructible.

"What??"

Seeing this scene, these dozen magic masters couldn't help but show deep horror in their eyes.

A magic master couldn't help but said: "How is this possible! Our attack can instantly destroy a high-level puppet, but we didn't expect this earthy-colored, ordinary puppet to be so strong! Boy, you are Where did you get this puppet?"

But Ye Feng has no time to pay attention to these dozen magic masters now.

Ye Feng is currently studying how to open the crystal coffin in front of him.

Because what lies inside this crystal coffin should be the body of the "Space God King", a super powerful person in this ancient sacred mountain.

If this crystal coffin can be opened, Ye Feng will not only be able to obtain the power of the God King left in the corpse of the Space God King, but also obtain the powerful inheritance of the Space God King.

You must know that after the Space God King released his natal inheritance, he turned the entire seventh-level world space of the ancient sacred mountain into such a dangerous appearance.

This shows how terrifying the natal inheritance of the Space God King is.

Therefore, Ye Feng is naturally very interested in the inheritance of the Space God King.

And you must know that Ye Feng has a space gem on his body.

If Ye Feng can learn the inheritance of the Space God King, then the power he can exert will naturally be more terrifying and powerful.

"Damn it! How could this kid have such a powerful puppet!"

At this moment, the dozen magic masters who were blocked by the puppet ancestors immediately became anxious when they saw Ye Feng studying the crystal coffin, and rushed madly in Ye Feng's direction.

Because they discovered this place first, they didn't want the wealth here to be obtained by Ye Feng, an uninvited guest.

But at this moment, Ye Feng immediately gave an order to the puppet ancestor not far away and said: "Stop being lazy and deal with all these dozen magic masters."

The puppet ancestor was naturally unable to disobey Ye Feng's order at this time.

Uh-huh!

The puppet ancestor simply rushed towards the dozen magic masters in front of him involuntarily.

In fact, the puppet ancestor did not want to work for Ye Feng, but he had to obey Ye Feng's orders.

So at this time, the puppet ancestor rushed directly in front of a dozen magic masters and said loudly: "I can only blame you for your bad luck."

Boom!

At this moment, the puppet ancestor stretched out a hand and instantly penetrated the body of a magic master in front of him.

"ah!!"

Although this master of magic was extremely powerful in cultivation, he was unable to block the attack of the puppet ancestor at this moment. He was directly pierced through his body and died instantly.

"What??"

Seeing this scene, the remaining group of magic masters suddenly widened their eyes.

You know, their cultivation level is very high and they are the core existence in the Dark Alliance, but now they were killed by a puppet in an instant.

This made a group of other magic masters immediately widen their eyes, as if they couldn't believe that such an earthy-colored puppet, ordinary, could have such terrifying strength, not only a solid body, but also combat power. Also very powerful.

"Let's work together to smash this puppet first!"

At this moment, a group of magic masters all understood that this puppet was definitely not simple.

So they began to join forces at this time, releasing their extremely powerful inherited powers, and a brilliant black divine light burst out from their bodies, preparing to smash the puppet ancestors first!

After all, the puppet ancestor is a puppet that does not know pain, so they know that this puppet ancestor poses the greatest threat.

If this extremely powerful puppet ancestor is dealt with first, then it will definitely be much easier to attack Ye Feng.

Uh-huh!

But at the next moment, the puppet ancestor didn't have any fear at all, and directly faced the terrifying attacks of more than a dozen magic masters, and rushed forward.

Boom!

The inherited power and black divine light released by more than a dozen demon masters all bombarded the puppet ancestor, but they were still unable to cause any damage to the puppet ancestor.

Instead, the puppet ancestor rushed directly in front of a dozen magic masters. He punched out one punch after another in a very simple and crude way. He directly blasted through the bodies of each of the demon masters in an instant and killed them directly.

"This is impossible!!"

These demon masters who died tragically could only let out a huge scream in the end, and then they fell from the sky one after another. They were all killed and died.

At this time, Ye Feng, not far away, had successfully studied how to open the crystal coffin.

This crystal coffin is actually sealed by a very mysterious space secret.

No wonder those magic masters couldn't open this crystal coffin after studying it for so long.

At this moment, Ye Feng directly turned on the air

The power of gems.

Buzz! ??.

Suddenly, a supreme master-level space secret was directly input into the crystal coffin.

"Crack!"

The lid of the crystal coffin was opened at once.

This made Ye Feng couldn't help but show a trace of wonder in his eyes.

This Space God King is indeed a super strong person with space attributes. The crystal coffin he cast for himself actually sealed the entire coffin with a very mysterious and mysterious space power.

Even a very powerful master cannot forcefully open this crystal coffin.

I am afraid that only Ye Feng, who possesses the space gem, can open this crystal coffin so easily.

Buzz! .??.

At this moment, when Ye Feng opened the crystal coffin, he could immediately sense a very terrifying space aura emanating from the corpse of the Space God King.

Ye Feng's eyes suddenly showed surprise at this moment.

Because he discovered that after the death of the god king of this space, the corpse left behind actually contained a lot of the power of the god king.

Although a lot has been lost, there is still a lot of power that the Space God King cultivated back then.

At this moment, Ye Feng did not hesitate and directly moved out the body of the Space God King.

Ye Feng planned to explore the storage ring of the Space God King first.

Next, Ye Feng found a set of inheritance in the storage ring of the Space God King.

It has the words "Endless Space Cutting" written on it, which looks very vigorous and powerful.

Ye Feng immediately understood that this should be the terrifying inheritance of the Space God King back then.

At this time, Ye Feng somewhat understood why there were so many space cracks in the seventh-level world space of this ancient sacred mountain, and the appearance of the entire world was changed.

It turns out that the Space God King used this kind of endless space cutting, which can cut out countless space cracks in the space of a world in an instant.

My scalp feels numb just thinking about it!

This kind of inheritance is really terrifying!

It is hard to imagine how terrifying and destructive it would be to release countless space cracks in an instant and change the appearance of the entire world.

"Buzz!"

At this moment, Ye Feng did not hesitate at all, and directly imprinted the secret of this endless space cutting inheritance into his mind, and then continued to understand it.

Then Ye Feng looked at the dozen magic masters who were killed by the puppet ancestor not far away, and said with great satisfaction: "You did a good job, but next time you take the initiative to kill the enemy with one click, don't wait for my order, Go ahead and do things, don't be lazy, otherwise, be careful if I give you an order to commit suicide, and you will be finished in an instant."
"

Hearing Ye Feng's words, the puppet ancestor's face immediately froze, he didn't say anything more and just remained silent.

When Ye Feng saw this scene, he chuckled inwardly.

Of course, I am not willing to let such a terrifying existence as the puppet ancestor commit suicide. It would be too wasteful.

However, it is still very meaningful to threaten this puppet ancestor occasionally, and always remind him not to have his own little ideas.

"boom!"

At this moment, after finishing speaking, Ye Feng directly released the Devouring Domain and began to devour the dozen demon masters who died tragically, as well as the remaining power of the God King left in the corpse of the Space God King.

"Rumble..."

At this moment, a stream of very majestic energy was immediately injected into Ye Feng's dantian.

Ye Feng could feel that the power in his Dantian was growing at an incredible speed.

This made Ye Feng's face suddenly show a look of ecstasy.

This energy is absolutely terrifying and majestic to the extreme, and it can give you a huge improvement.

But when I think about it, it feels normal.

After all, that is the cultivation skill of more than a dozen magic masters.

And you must know that the cultivation strength of these dozen magic masters is two or three levels higher than Ye Feng's current level.

Moreover, these magic masters had just been killed by the puppet ancestors and were still very fresh, so the power in their bodies had not drained much yet.

At this time, it was immediately devoured, which naturally provided Ye Feng with very majestic energy.

In addition, among the corpses left behind by the Space God King, there is still a lot of residual power of the God King, which can naturally provide Ye Feng with very majestic energy.

So at this time, Ye Feng's skill has naturally increased unparalleled.

Ye Feng immediately burst out with powerful aura of cultivation.

"boom!"

Breaking the Void Realm Seventh Heaven!

"boom!"

Breaking the Void Realm Eighth Heaven!

"boom!"

Breaking the Void Realm Ninth Level!

"boom!"

The Great Perfection of the Ten Heavenly Levels of Breaking the Void Realm! !

At this time, Ye Feng's cultivation momentum finally stopped completely.

"What a powerful force!!"

At this moment, Ye Feng's whole body was exuding dazzling divine light, his eyes were as bright as stars, his momentum was overwhelming, and he was majestic!

Ye Feng's eyes were full of deep ecstasy. This time he was really lucky. He got the remaining power of the God King of Space, coupled with the skills of more than a dozen super masters of magic, he suddenly got A huge breakthrough!

Chapter 3887 The Tenth Floor

At this time, after Ye Feng's cultivation reached the seventh level of Tianxu Realm, he felt that his power had undergone earth-shaking changes.

Sure enough, a major level improvement can greatly increase Ye Feng's combat effectiveness.

At this time, Ye Feng was very happy. This time he really got a huge breakthrough in cultivation, and he also got the inheritance of an ancient strong man like the Space God King.

You must know that the inheritance of this space god king is the inheritance of a very special space attribute.

Endless space cutting, once used, will change the appearance of the entire world, directly turning the entire world into a terrifying state after being cut by countless space cracks.

At this time, Ye Feng immediately looked at the flame dragon and puppet ancestor beside him, and said loudly: "Let's continue to move towards higher levels."

The flame dragon immediately nodded at this time and said loudly: "The eighth and ninth floors are also ruins. Just like the sixth floor, there are no good things."

Ye Feng nodded and said, "Then let's go directly to the tenth floor."

Next, Ye Feng, the Flame Dragon, and the Puppet Ancestor quickly headed towards the tenth level of the ancient sacred mountain.

When Ye Feng entered the tenth floor, he immediately saw a scene of ancient wilderness.

I saw countless towering trees growing on the entire land, and there were many demons and beasts living on this land that was like a wilderness era.

At this time, Ye Feng immediately sensed a terrifying aura emanating from him, making Ye Feng's eyes suddenly reveal a look of deep horror.

Because every monster and beast living here is extremely terrifying, almost like an ancient god.

Even the puppet ancestors are probably unable to kill these monsters and monsters from ancient times.

At this time, the flame dragon immediately said: "The tenth level is very dangerous. There are many demons and beasts from ancient legends. They are very scary. We must be careful."

Ye Feng nodded, and then asked aloud: "What good things are there in this tenth floor?"

The flame dragon immediately smiled and said aloud: "I know the survival lairs of many demons and evil beasts. Where are they specifically? These ancient times

There are many good things in the survival lair of the monsters and monsters, such as some rare treasures from the world and the wealth collected by these ancient monsters and monsters. "

Hearing what the flame dragon said, Ye Feng was stunned for a moment, and then couldn't help but say: "If you want to find something in the lair where these ancient demons and beasts live, you will definitely be killed by these demons and beasts." They were hunted down very badly."

The flame dragon immediately spoke out: "Of course we have to wait until these demonic beasts are no longer in their lair before we attack, so we can visit them one by one."

After saying that, the flame dragon immediately flew quickly in a certain direction and said loudly: "Master Ye Feng, I will take you to a lair called Ice Phoenix first. Inside the lair of Ice Phoenix, But there are very precious ice nine-color flowers growing there. This kind of treasure from the world can definitely bring you a huge increase in energy, Mr. Ye Feng."

Hearing what the flame dragon said, Ye Feng's eyes suddenly lit up and he immediately said, "Okay, let's get there quickly."

At this time, the puppet ancestor suddenly spoke up: "I don't want to go there. My dignified ancestor of the puppet clan, a big shot in the heaven, actually wants to be thieves with you two boys and do some sneaky things. It loses my identity."

When Ye Feng heard what the puppet ancestor said, he immediately grinned and said loudly: "You have no choice, I order you to follow me."

After saying that, the puppet ancestor immediately followed Ye Feng involuntarily.

This made the puppet ancestor's eyes suddenly reveal a look of deep shock and anger, and he said aloud: "I didn't expect that one day, a big shot like me would follow you two boys to do some sneaky things. It's really too much. Damn it, I have lost my identity!"

Just when the puppet ancestor was complaining, Ye Feng and the flame dragon had already passed through a large area of virgin forest and arrived in front of a mountain on the tenth level of space.

At this time, the flame dragon immediately said: "The lair of the Ice Phoenix is halfway up the mountain. Lord Ye Feng, please feel it and see if the Ice Phoenix is there."

at home. "

Buzz!

Ye Feng nodded slightly at this time, exuding his soul power.

But at the next moment, Ye Feng suddenly sensed an extremely terrifying and ferocious aura, which emanated from halfway up the mountain.

Almost at the next moment, an ice phoenix that covered the sky and sun, like an ancient mythical beast, appeared on the mountainside.

Just a trace of evil spirit emanating from it made Ye Feng's whole body about to burst.

Even the puppet ancestor could not help but say at this time: "My strength has not been fully restored. I am no match for this demonic beast. Although this ice phoenix cannot destroy my body, I cannot Defeat this Ice Phoenix."

Hearing what the puppet ancestor said, Ye Feng could only say immediately: "Let's go, Ice Phoenix is at home, there is nothing we can do."

The flame dragon also nodded immediately and ran quickly in the other direction.

Then the flame dragon continued to speak: "Then let's go to the next location. The next location is the place where a giant named Silver Armor lives. I hope the giant in silver armor is not at home."

At this moment, the flame dragon said that and immediately began to lead the way.

Ye Feng and his puppet ancestor followed behind the flame dragon.

When they arrived at the place mentioned by the flame dragon, Ye Feng immediately saw a grassland burning with flames.

In the middle of this flame grassland, there is a huge palace made of stone.

There are many ancient fire symbols engraved on the surface of this huge palace, which looks very mythical and epic.

At this moment, the flame dragon couldn't help but said in surprise: "The silver-armored giant is not at home! That's great!"

Uh-huh!

At this time, the flame dragon said that it immediately flew towards the palace in the middle of the flame grassland.

Ye Feng and the puppet ancestor quickly followed.

When we arrived at this palace, it turned out that the whole palace was empty.

The flame dragon is devouring this crazily at this moment.

On the ground around the palace, fruits emitting fiery red light grew.

If the flame dragon eats one fruit every day, the power of flames in his body will become stronger.

When Ye Feng saw this scene, his eyes suddenly showed a strange look.

These flame fruits seem to be a special treasure of heaven and earth that can enhance the power of the flame dragon.

boom!

At this time, Ye Feng did not hesitate and directly released the Devouring Domain and began to devour the flame fruits growing around him.

There are many of these flame fruits, and they were probably planted by the silver-armored giant.

At this time, Ye Feng, along with the devouring, immediately felt a stream of extremely pure flame power injected into his body, causing Ye Feng's skill to increase rapidly.

You must know that these treasures of heaven and earth are all grown by the epic-level monsters and monsters from the ancient era, such as the Silver Armored Giant. Naturally, they are of very high quality.

A stream of very powerful medicinal power was injected into Ye Feng's body, and Ye Feng immediately began to emit a powerful aura of cultivation.

His cultivation level continued to break through.

"boom!"

The eighth level of Tianxu Realm!

"boom!"

The ninth level of Tianxu Realm!

"boom!"

The tenth level of Heavenly Void Realm is complete!

At this time, Ye Feng had devoured all the flame fruits, and immediately let his cultivation continue to break through the third level.

Ye Feng's eyes immediately showed joy.

Unexpectedly, the energy contained in these flame fruits was so powerful, which was really beyond Ye Feng's expectation.

At this time, the flame dragon was also a little full. He immediately looked at the palace not far away and said loudly: "This giant in silver armor likes to make various weapons. Let's go in and see if there are any high-quality weapons." "

When Ye Feng heard what the flame dragon said, he immediately said: "Okay, let's go in and take a look. The weapons made by this epic-level demon beast must be very extraordinary."

Chapter 3888 Silver Armor Giant

At this moment, Ye Feng said and immediately entered the palace in front of him with the flame dragon.

The moment they entered the palace in front of them, Ye Feng and the flame dragon immediately saw densely packed weapons placed on the ground.

Countless weapons looked sparkling and very dazzling.

Seeing this scene, Ye Feng's eyes suddenly lit up and he couldn't help but said: "Flame Dragon, you are really right. There are indeed many high-end weapons built in the palace where this silver-armored giant lives. ah."

At this time, Ye Feng said, and immediately began to use his soul power to investigate.

Because of Ye Feng's soul power, he can identify which weapon is the most advanced and powerful.

At this moment, the flame dragon was also very happy and immediately started collecting treasures and weapons one by one.

At this time, Ye Feng also quickly discovered the most advanced weapon.

It was an ax burning with flames. It was red in color and looked very broad and domineering.

Ye Feng stretched out his hand and held the flaming axe. He could immediately feel the infinite and terrifying power of the flaming ax burning in the axe.

At this moment, the flame dragon saw the ax chosen by Ye Feng, and his eyes suddenly showed deep surprise, and he couldn't help but said: "This ax burning with flames, as if This is where the silver-armored giant lives, left behind by the original owner."

"Original owner?"

When Ye Feng heard the flame dragon say this, he immediately nodded slightly and said: "I was also surprised before, why the place where this silver-armored giant lives is such a place burning with flames. It turns out that This land of flames still had its original owner, but the silver-armored giant finally occupied this place of residence. "

The flame dragon immediately nodded and said: "This flaming ax is definitely very powerful and terrifying. Lord Ye Feng, after you refine it, you can try the power of this flaming ax."

Ye Feng nodded, then

Then he began to directly input his own mana into this flaming axe.

Buzz!

Almost at this moment, Ye Feng immediately sensed a terrifying and extremely surging energy from the flaming axe.

That is the ultimate flame energy!

Very scary!

It's like there is a god with the attribute of fire contained in this axe, unfathomable and vast as the abyss!

At this moment, Ye Feng's eyes immediately lit up. This flame ax was absolutely extremely advanced, even a little more powerful than the frozen giant sword he had obtained before.

And just when Ye Feng was thinking secretly, suddenly there was a huge roar outside the palace.

Almost at this moment, Ye Feng immediately felt an extremely terrifying and ferocious aura descending on this area.

Sensing this ferocious aura, Ye Feng couldn't help but change his expression immediately.

Even the giant flame dragon beside him couldn't help but trembled, and said aloud: "Master Ye Feng, could it be that the silver-armored giant is back? Such a ferocious aura is really too strong. Terrible."

Hearing what the flame dragon said, Ye Feng couldn't help but nodded and said, "It's very possible that the silver-armored giant is back. Let's get out of here as soon as possible."

At this time, Ye Feng took the flaming ax in his hand and walked out of the palace with the flaming dragon.

Outside the palace, the puppet ancestor stood outside the door, looking in a certain direction not far away.

Ye Feng also looked quickly in that direction.

Sure enough, we found a giant with a majestic body, several kilometers tall, covered with silver scales, and with only one vertical eye on his face. He looked very ferocious and was coming from a distance.

Running quickly.

Rumble...

Every time the huge sole of the foot fell, the whole earth shook.

Seeing this scene, the flame dragon couldn't help but exclaimed: "Sure enough, the silver-armored giant is back, let's run quickly!"

Ye Feng nodded immediately at this moment and flew quickly in a certain direction.

But at this time.

The silver-armored giant not far away immediately shouted angrily: "Damn thief! How dare you steal my wealth when I leave, you will all die!"

At this time, the silver-armored giant roared loudly, and the vertical eye on his face suddenly burst out with a bright silver divine light, forming a silver beam of light, which immediately bombarded in the direction of Ye Feng. Come.

Boom! !

Ye Feng was running the space gem at this moment and avoided this attack.

This silver beam struck the ground, and immediately bombarded the entire ground with a huge hole.

Seeing this scene, Ye Feng suddenly showed a look of surprise in his eyes.

This giant in silver armor seems to have a very terrifying physical strength.

He actually has this kind of magical power that can burst out silver beams of light!

It seems that the blood of this silver-armored giant is very ancient.

At this moment, he saw the silver-armored giant not far away blocking his way. Ye Feng looked at the puppet ancestor beside him and said, "Can you defeat this silver-armored giant?"

The puppet ancestor's face darkened and he said aloud: "I'm not sure either."

Ye Feng immediately nodded and said: "Then go and give it a try. Your puppet body will not be damaged anyway. You can take a wave of damage first and see the situation."

At this moment, Ye Feng directly ordered the puppet ancestor to rush towards the silver-armored giant running forward. \u003c

br\u003e

The puppet ancestor's face was a little gloomy at this time, but his body couldn't help but charge towards the silver-armored giant.

At this moment, the silver-armored giant saw a little puppet and dared to rush towards him. He couldn't help shouting: "Damn boy, you actually look down on me so much. Let a little puppet Come against me as a puppet, I will crush you puppet in an instant!"

At this moment, the silver-armored giant suddenly stretched out a huge fist, covering the sky and the sun, and suddenly bombarded in the direction of the puppet ancestor.

At this time, the puppet ancestor could only bravely greet him.

Boom! !

At this moment, the fists of the puppet ancestor and the silver-armored giant collided together.

"Crack!"

And at the next moment, what shocked the silver-armored giant to the extreme was that the puppet ancestor's body was extremely strong.

He didn't smash the puppet ancestor's puppet body at all, but one of his fingers was smashed by the puppet ancestor.

"Ah!! This is impossible!!"

At this moment, the silver-armored giant couldn't help but scream in pain.

Seeing this scene at this moment, Ye Feng's eyes lit up, and he couldn't help but said to the puppet ancestor: "Let's join forces to kill this silver-armored giant!"

Seeing that the puppet ancestor was able to withstand the damage of the silver-armored giant, Ye Feng was naturally extremely happy.

Because this silver-armored giant is very ancient and powerful, if he can be killed, he will definitely be able to provide himself with immense blood energy.

In addition, this silver-armored giant can use very powerful magical means, and his bloodline level must be very high.

By then, if you fuse the special high-level bloodline of this silver-armored giant, you may be able to evolve your Hongmeng bloodline again, and the strength of your Hongmeng Immortal Body will also be rapidly improved!

Chapter 3889 Silver Bloodline

At this time, Ye Feng was very excited.

Because he discovered that the puppet ancestor could fight against this silver-armored giant.

At least in terms of physical strength, he can fight against this silver-armored giant.

This shows that he still has a chance to kill this silver-armored giant.

This silver-armored giant is of great significance to Ye Feng.

Because the cultivation strength of this silver-armored giant is very terrifying.

If you can kill this silver-armored giant and plunder the blood, energy and blood of this silver-armored giant, then your own strength will be greatly improved.

At this moment, Ye Feng no longer hesitated and directly ordered the puppet ancestor to instantly withstand the damage of the silver-armored giant.

Boom!

At this moment, the silver-armored giant continued to directly display his natal magical power.

The vertical eye on his face immediately erupted with a silver beam of light, which had terrifying destructive and penetrating power and directly bombarded the puppet ancestor.

Wow!

At this moment, the puppet ancestor was completely blown away, smashing a large piece of land behind him.

However, when the silver-armored giant felt that the puppet ancestor was bound to die, the puppet ancestor climbed out of the ruins with his entire body intact.

"What?? How is this possible??"

The silver-armored giant was shocked again.

He never thought that this seemingly small puppet would have such a strong body. It was really incredible.

At this moment, the silver-armored giant charged directly towards Ye Feng.

Because the silver-armored giant discovered that this puppet ancestor was following Ye Feng's orders.

If the master Ye Feng is killed, then the puppet will no longer obey the master's orders, and it will be very easy to deal with.

Because the silver-armored giant now knows very well that this puppet is extremely strong and cannot be damaged at all.

this

At this moment, the puppet ancestor's eyes showed deep surprise, and he couldn't help but said: "It seems that my body is stronger than I thought, although my strength has not been fully restored. , but my body is almost indestructible."

After the puppet ancestor finished speaking at this time, he continued to attack in the direction of the silver-armored giant, resisting the second wave of attacks from the silver-armored giant.

Ye Feng had no choice at this moment. He just frantically inputted his mana into the flaming ax he had just obtained.

Ye Feng's current cultivation strength has been greatly improved. If he can fully stimulate the destructive power of the flaming ax, he might be able to kill this silver-armored giant.

Because according to the flame dragon, this flaming ax is a precious treasure left by the original owner of the place where the silver-armored giant lived.

So at this time, Ye Feng frantically inputted his mana into the ax in his hand.

"Boom!"

Immediately, the entire flaming ax erupted with terrifying power of flames, and it started to kill crazily forward in an instant.

A terrifying light of flames condensed into a huge flame ax with a majesty of tens of thousands of meters, and it directly slashed hard at the silver-armored giant in front of it.

Boom! !

At this moment, the tens of thousands of meters long flaming ax struck directly on the head of the silver-armored giant.

Click!

Almost at the next moment, the silver scales on the head of the silver-armored giant were more than half broken, and silver blood flowed out.

"ah!!"

At this moment, the silver-armored giant couldn't help but let out an earth-shattering scream. It was obvious that he was in extreme pain.

But the silver-armored giant did not die completely. After all, the silver-armored giant could

It is a very terrifying ancient demon. It is very powerful and cannot be killed so easily.

Boom!

At this moment, the puppet ancestor flashed in front of the silver-armored giant and directly attacked one of the silver-armored giant's arms.

Boom!

At this moment, the puppet ancestor relied on its extremely powerful puppet body to forcefully tear off an arm of the silver-armored giant.

At this time, the silver-armored giant finally realized that these people in front of him were not easy to mess with.

He just ran away crazily into the distance.

But at this moment, Ye Feng immediately shouted: "Endless space cutting!" .??.

It is the powerful inheritance of the Space God King.

At this moment, Ye Feng not only relied on his own strength to display this set of inheritance, but also inspired the power of the space gem, using the supreme dominance level power among the space gems to display this endless space cutting.

At this moment, the entire surrounding world seemed to be shattered.

It felt like a piece of glass was broken, space cracks appeared, and the whole world was filled with space cracks.

Space cracks suddenly appeared around the silver-armored giant who was escaping in the distance.

The space world around it seemed to be shattered all of a sudden.

The silver-armored giant didn't even let out a scream. His whole body was cut into pieces by countless space cracks, and then fell to the ground, killing him instantly.

Seeing this scene, Ye Feng suddenly showed joy in his eyes.

Sure enough, the inheritance of space attributes left by the Space God King is very powerful. It is so powerful that it can turn the entire small space of the world into countless space cracks, enough to cut any living thing.

"As expected of the Space God King, it is indeed terrifying!"

At this time, the flame dragon not far away could not help but exclaim, with a tone full of shock.

Because the flame dragon knows very well how terrifying this silver-armored giant is. It is a terrifying evil beast from the ancient times that was bred in the ancient sacred mountain.

At this time, the puppet ancestor not far away also showed a trace of surprise in his eyes.

It stared at Ye Feng in surprise. It seemed that it did not expect that Ye Feng could so quickly master the inheritance of the Space God King and cut the endless space to such a powerful level that he

could suddenly change the appearance of the heaven and earth in a space not far away. , were completely changed, and instantly turned into areas with countless space cracks.

Uh-huh!

At this time, Ye Feng did not hesitate and flew forward quickly, directly arriving at the place where the silver-armored giant's entire body was cut into countless pieces and fell.

At this moment, Ye Feng did not hesitate. Taking advantage of the fact that the Silver Armor Giant was still relatively fresh after his death and his blood had not been lost much, he immediately released his devouring domain, covering all the numerous fragments of the Silver Armor Giant. Immediately it began to devour and absorb the blood and energy of the silver-armored giant.

Wow!

At this moment, along with the devouring, a stream of very majestic energy was immediately injected into Ye Feng's body.

The skill in Ye Feng's dantian immediately began to increase at an incredible speed.

"boom!"

A terrifying aura suddenly broke out on Ye Feng's body.

Ye Feng completely broke through the cultivation bottleneck of the tenth level of Tianxu Realm and reached the half-step Holy Void Realm above Tianxu Realm!

At this time, Ye Feng's cultivation level broke through to the half-step Holy Void Realm, and he could immediately feel his own strength. There was a huge enhancement, and Ye Feng's face suddenly showed an ecstatic look.

And in addition, Ye Feng also felt a special silver bloodline being integrated into his own bloodline at this moment...

Chapter 3890 Broken Ruins

This silver blood is naturally the high-level bloodline contained in the body of the silver-armored giant.

The silver blood contained in the body of this silver-armored giant is very advanced.

When this silver blood continued to blend into Ye Feng's own blood, Ye Feng was immediately able to sense a very ancient and terrifying energy from the silver blood.

At this moment, Ye Feng could immediately feel that the silver bloodline that his Hongmeng bloodline was in contact with was rapidly and continuously improving.

Ye Feng's Hongmeng bloodline and Hongmeng immortal body have been upgraded and evolved to the late fifth level.

After obtaining the special and incomparable silver bloodline of this silver giant this time, Ye Feng's Hongmeng bloodline and Hongmeng immortal body immediately underwent a complete transformation.

From the late stage of the fifth level, it directly transformed into the fifth level of Dacheng state!

This made Ye Feng's eyes suddenly reveal a look of deep surprise. ??

You must know that Ye Feng's most powerful and basic trump card is, after all, his Hongmeng Immortal Body.

Now that his Hongmeng Immortal Body is about to transform towards the sixth level, Ye Feng is naturally looking forward to it.

Because every evolution of the Hongmeng Immortal Body allows Ye Feng to awaken a new and powerful bloodline talent.

Therefore, Ye Feng is very looking forward to the evolution of his Hongmeng bloodline and Hongmeng immortal body to the sixth level.

At this time, after Ye Feng completely integrated the silver bloodline, he raised his Hongmeng bloodline to the fifth level of perfection.

Ye Feng could immediately feel that the physical strength of his Hongmeng Immortal Body had been greatly improved.

And what surprised Ye Feng was that he actually got the silver-armored giant's natural talent from this silver bloodline.

That is, the vertical eye can erupt with terrifying silver light waves.

Buzz!

At this time, Ye Feng suddenly closed his eyes.

A gap suddenly opened between Ye Feng's eyebrows, and a huge vertical eye appeared.

boom! !

This vertical eye immediately erupted into a brilliant silver wave of light, which instantly shattered the mountain in front into countless pieces.

Seeing such huge power, Ye Feng's eyes suddenly showed surprise.

I didn't expect that I would get the gift of this silver-armored giant again. It was such an unexpected surprise!

At this time, the flame dragon standing aside was stunned, and immediately couldn't help but said: "Master Ye Feng, your ability is really terrifying, isn't it? You can actually rob this silver-armored giant of his talent. Supernatural power, this is incredible!"

At this moment, the puppet ancestor came over from not far away and stared at Ye Feng in front of him, with an unbelievable look in his eyes.

Even this big shot from heaven felt deeply frightened by Ye Feng's ability at this time.

At this time, the puppet ancestor immediately thought secretly in his heart, who is this young man, and how could he have such terrifying and incredible abilities.

At this moment, Ye Feng did not explain anything at all, but smiled slightly and said: "Flame Dragon, this

Are there any other opportunities on the tenth level? "

The flame dragon shook his head at this moment and said aloud: "There are only so many places where the monsters and monsters that I have marked exist. If I rush to find other uncertain places where monsters and monsters live now, it is very likely that It will provoke some ancient beasts and kill us in an instant. "

Ye Feng nodded and said: "Okay, then we won't take the risk and continue to the eleventh level of this ancient sacred mountain."

The flame dragon nodded at this time and said loudly: "The eleventh floor, all the way to the sixteenth floor, are all places with very harsh environments in the world, so there is no chance of creation."

Hearing what the flame dragon said, Ye Feng was stunned for a moment, then nodded and said, "Then let's quickly pass through the eleventh and sixteenth floors."

At this moment, Ye Feng took the puppet ancestor and the flame dragon and flew quickly towards the eleventh floor above the tenth floor.

When Ye Feng arrived at the eleventh floor, he immediately saw the eleventh floor. There were huge ice cones everywhere, intersecting between the sky and the earth. The scene looked very shocking.

But if you are not careful, you may be instantly pierced by these ice picks.

Ye Feng and the rest of the group wasted no time and went directly to the twelfth floor, then passed through several floors and successfully reached the seventeenth floor above the sixteenth floor.

When Ye Feng and his party entered the seventeenth floor, they immediately saw countless broken and collapsed buildings floating in the endless void.

The entire seventeenth floor is like a world in the air, with all the buildings floating in the air.

It seems that a very powerful cultivation civilization was once born here, but now it has experienced a horrific battle and was shattered, thus forming this land of broken ruins floating in the air.

The flame dragon immediately spoke out: "Master Ye Feng, above the seventeenth floor is the eighteenth floor. The eighteenth floor is the highest floor of the ancient sacred mountain. I have never been in it, because I There is no way to find the entrance to the eighteenth floor from the seventeenth floor, even if you go to the end of the seventeenth floor. "

When Ye Feng heard what the flame dragon said, his eyes flashed slightly, and then he said: "Find the chance creation of the seventeenth floor first. If ordinary people can't find the entrance to the eighteenth floor, I may not be able to find it, but I have soul power and can explore very secret passages."

Hearing what Ye Feng said, the flame dragon immediately nodded, and then said aloud: "Master Ye Feng, this broken ruins formed by countless collapsed buildings on the 17th floor, most of the chance creation is in some There are still relatively complete palaces preserved, so we only need to look for those palaces or pavilions that are not completely broken, and there may be something lucky inside. "

Hearing what the flame dragon said, Ye Feng nodded slightly, and then said aloud: "Let's start searching directly from this entrance. On the way, I will release my soul power and explore to see if I can enter the 18th floor. What secret place is the passage hidden in?"

The puppet ancestor was standing next to Ye Feng and the flame dragon at this time, looking at the vast and endless broken ruins floating in the air around him, his eyes flickering slightly, as if he was thinking about something.

When Ye Feng saw this scene, he immediately couldn't help but ask: "Ancestor Puppet, do you know any special information about the broken ruins in the seventeenth level of space?" This kind of silver blood is naturally The advanced bloodline contained in the body of that silver-armored giant.

The silver blood contained in the body of this silver-armored giant is very advanced.
