Chapter 3931 The Land of Chaos

The central lobby of the Wanjie Martial Arts Academy is built with great style.

When Ye Feng came here again, he could feel even more how unfathomable the entire central lobby was.

When Ye Feng walked into the central lobby, he saw a familiar scene again.

I saw Dean Tianshu standing there with his hands behind his back, looking very majestic and unfathomable, looking at a picture.

As Ye Feng's cultivation level continued to improve, he became more and more aware of how powerful Dean Tianshu was.

Ye Feng saw at this time that Dean Tianshu was still staring at the special painting on the wall.

On that painting, there was a blue planet slowly rotating in the boundless universe. .???.??

Ye Feng now knows that the mysterious blue planet in the painting is the hometown of Dean Tianshu. It is in a very special universe and is not the same universe as the origin world.

Even a transcendent figure like Dean Tianshu cannot find the way home or touch another universe and time.

At this time, Ye Feng stepped forward and was about to say something.

Uh-huh!

But at this time, Dean Tianshu had turned around, with a faint smile on his rather elegant face, and said loudly: "During this period, it seems that your cultivation has improved a lot. It has broken through to the king level, and is initially comparable to the level of the real masters in the world of origin. Before the king level, everyone was an ant. Only when you step into the king level of the

holy king realm can you truly be regarded as the origin. The ranks of masters in the big world will not be killed so easily."

Hearing what Dean Tianshu said, Ye Feng's eyes showed a look of surprise, and then he couldn't help but asked: "Dean, how far am I from the most powerful master realm in the Origin World??"

Dean Tianshu said slowly: "There are still many levels. Above the king level is the emperor level, and above the emperor level is the emperor level. The emperor level is already considered the top existence in the origin world. "

Ye Feng couldn't help but ask: "What about those above the emperor level?"

Dean Tianshu smiled slowly and said aloud: "Above the emperor level, there is the god level. The god level is already considered an ancestor-level figure of a transcendent power. It is a being with the foundation of a transcendent power. Above the God level, there is the Dominator. However, this level is difficult to enter. Only the transcendent power that stands at the pinnacle of the Origin World can give birth to Dominator level beings. Dominant level creatures can be found in the Origin World. To put it bluntly, you can dominate and even control an interface."

Hearing what Dean Tianshu said, Ye Feng couldn't help but take a breath of air. He didn't expect that he was still so far away from the true realm of domination.

Ye Feng's current cultivation level is at the sixth level of the Saint King Realm, which is the king level.

Above the king level there are the emperor level, emperor level, and god level.

In the end, it is the strongest level in the Origin World, the realm of dominance.

At this time, Ye Feng was silent for a moment, and then said loudly: "Dean, I am here this time to ask you a question."

Dean Tianshu smiled slightly and said aloud: "If you have any questions, just ask them directly."

Ye Feng nodded slowly and said: "The dean should have noticed before that I have the Hongmeng blood of the Ye family, which originated from the sea of chaos in the great world, so now my

cultivation has been promoted to the king level. I want Stay away from here, go to this special place called the Sea of Chaos, and look for our Ye family

There are traces of them, and I still have relatives there. I am worried that they are being attacked by the Dark Demon Cult. Although my strength is at the king level, it is estimated to be comparable to the existence of the emperor level, so I want to take a look, maybe It can help, and it is also of great benefit in fighting the Dark Demon Cult. "

Hearing what Ye Feng said, Dean Tianshu was slightly silent.

Ye Feng was really afraid that Dean Tianshu wouldn't let him go.

After all, he is now a super genius at the Wanjie Martial Arts Academy.

But the next moment, Dean Tianshu smiled slightly and said loudly: "Your bloodline level has developed to a relatively high level now. It is estimated that it will be difficult to continue to improve in our Ten Thousand Realms Martial Arts Academy. Maybe you will go to Chaos next "Going to the Ye Family in the Sea of Chaos is dangerous, but it may be of unexpected benefit to you. After all, the origin of your Hongmeng bloodline is the Ye Family in the Sea of Chaos."

Hearing that Dean Tianshu agreed, Ye Feng's face suddenly showed a look of joy.

At this time, Dean Tianshu continued to speak: "However, the Sea of Chaos area is a very dangerous place, because the Sea of Chaos area has been a very precious cave heaven paradise in the Origin World since ancient times. Many ancient families , including your Ye family, were all born in the Sea of Chaos, so the Dark Demon Cult is very greedy and covets this special place, the Sea of Chaos, and has always wanted to completely control the Sea of Chaos, because Chaos The sea has produced immortal immortals and gods in ancient times, and contains countless treasures and opportunities. "

When he said this, Dean Tianshu stared at Ye Feng in front of him and reminded him very solemnly: "And the Sea of Chaos is still the most chaotic place in the Origin World, because the Sea of Chaos is located in the eastern part of our Origin World.

The edge of the earth, and on the other side of the Sea of Chaos, after crossing the endless central ocean, is the western land where the same great forces are lined. There are many transcendent great forces in the western land, and they really want to cross the entire central ocean and chaos. The sea,

attacking our eastern land, wants to get all kinds of opportunities and resources of heaven and earth in our eastern land, so it is a mixed place. "

Hearing what Dean Tianshu said, Ye Feng's eyes showed surprise, as if he didn't expect that a small sea of chaos could be so complicated.

Not only were various ancient families from the eastern land bred there, but the forces of the Dark Demon Cult were entangled there. There were even transcendent forces from the western land on the other side who wanted to cross the central ocean and the sea of chaos and attack the entire eastern land. .

Ye Feng thought for a while at this time, and then said aloud: "Anyway, I want to go over and take a look, maybe I can also find immortal luck there, so that my cultivation strength can be improved faster. I think We must step into the true realm of domination as soon as possible. Only in this way can we fight against the Dark Demon Cult and Dark Yuan Zun. It will also be of great benefit to the overall strength of the entire Ten Thousand Realms Martial Arts Academy. After all, I am from the Ten Thousand Realms Martial Arts Academy. Son of God."

Hearing what Ye Feng said, Dean Tianshu smiled slightly and said: "Since you are going to a chaotic place like the Sea of Chaos, you must leave the Ten Thousand Realms Martial Arts Academy in a low-key manner, otherwise, you will probably encounter something along the way. Many horrific assassinations. After all, you are now the Son of God of our Ten Thousand Realms Martial Arts Academy. You stole the show in the dark trials organized by the Dark Alliance. Now there are many big forces, except for the Righteous Alliance in our eastern land, or the Dark Alliance. , and even in the western land on the other side of the Sea of Chaos and the Central Ocean, many super powers have probably listed you as a key target of their attention. "

Chapter 3932 Peerless Technique

Hearing what Dean Tianshu said, Ye Feng immediately nodded and said loudly: "I know this, so in addition to asking the dean for your opinion, the other reason why I came here this time is to ask if the dean can give Some ways to save my life."

Hearing Ye Feng's question, Dean Tianshu's eyes suddenly showed a look of surprise, and then he couldn't help but shake his head and smile, and said: "Last time, didn't I already re-inject your body token into my dominating power? "

Ye Feng couldn't help but said: "That can only save your life once."

Hearing what Ye Feng said, Dean Tianshu was quite helpless, but Ye Feng was indeed very important to the Wanjie Martial Arts Academy.

After all, at the beginning, Dean Tianshu just pushed Ye Feng out as a son of God on the surface, to lure out the spies of the dark demon sect that lurked into the Wanjie Martial Arts Academy.

But as Ye Feng became stronger and stronger and his breakthroughs became faster and faster, Dean Tianshu suddenly felt that Ye Feng had already qualified to become the divine son of the Wanjie Martial Arts Academy in the true sense, not just on the surface. The Son of God is so simple.

Therefore, Dean Tianshu still attaches great importance to Ye Feng and wants to train Ye Feng to become the next generation dean of the Wanjie Martial Arts Academy.

Because Dean Tianshu knew very well that he probably wouldn't be able to stay in the Great World of Origin for long.

His cultivation level is too terrifying, his skill is too profound, and the rules of the world can no longer accommodate him to stay for much longer.

Therefore, Dean Tianshu still values Ye Feng very much.

In fact, Dean Tianshu did not want Ye Feng to take risks in a chaotic place like the Sea of Chaos.

After all, although Ye Feng's strength has now reached the king level, he is already considered to be a very powerful master in the world of origin.

But the Sea of Chaos is too chaotic, with fish and dragons mixed together, not to mention king-level, even emperor-level strength. Once you enter the chaotic place like the Sea of Chaos, where fish and dragons are mixed, you will probably be in great danger.

However, Dean Tianshu also knew that Ye Feng had Hongmeng blood from the Ye family flowing in his body. Going to the Sea of Chaos, if he could really find the self-enclosed Ye family ancestral land, it would definitely be of great benefit to Ye Feng.

After all, the Ye family is the place where the Hongmeng bloodline is studied most deeply.

Moreover, the Hongmeng bloodline awakened by Ye Feng has the dominant aura of the Hongmeng ancestor, and is not an ordinary Hongmeng bloodline.

Therefore, if Ye Feng really enters the Ye family, he will definitely be taken seriously, and it will also be of great benefit to the future fight against the entire Dark Demon Cult.

Thinking of this, Dean Tianshu suddenly stretched out a finger and touched Ye Feng's eyebrows.

Buzz!

Suddenly, a very terrifying and huge secret of inheritance was injected into Ye Feng's mind.

"This set of inheritance is very special. It is different from other inheritances in the entire world of origin. This inheritance is a special breathing method called the breathing method of the gods. After you learn it, you can use this breathing method of the gods during battle. Dharma, every breath you take will bring you huge energy of heaven and earth, which can greatly increase your combat effectiveness, at least ten times, and as you understand more deeply, the power of the increase will also increase. The stronger it becomes, how many times it can be increased depends on your own level of understanding. "

r\u003e

After finishing speaking, Dean Tianshu turned around and said loudly: "This set of extremely special breathing methods of the gods is still practiced by me even now. It is very precious. You cannot pass it on to others. Otherwise, I will kill you with my own hands. Currently, only you and I can practice this set of inheritance. Even my daughter, I have not passed it on to her because of the origin of this special set of God's Breathing Techniques. It is very mysterious. Once you practice it and be recognized by others, it may cause huge harm, so you cannot let it out easily. "

Hearing what Dean Tianshu said, Ye Feng suddenly showed a look of deep horror in his eyes.

I didn't expect that Dean Tianshu would give me such a set of supreme opportunities.

Ye Feng could really feel at this time that this very special set of God's Breathing Techniques was very rare. It was really different from other inheritances and was a peerless technique!

Even though Ye Feng had received many powerful inheritances before, he felt that none of them were as magical as this God's Breathing Technique.

Because this is a special method that allows cultivators to increase their strength and strengthen their body in just one breath. This is the first time Ye Feng has seen this kind of method that can continuously make him stronger in just one breath. It is really amazing. It's so magical, so unbelievable.

Moreover, the origin of this set of God's Breathing Techniques is very mysterious. Even an unfathomable and transcendent figure like Dean Tianshu is very secretive about the origin of this set of God's Breathing Techniques and does not want to say more.

It can be seen from this that Dean Tianshu attaches great importance to Ye Feng now. He simply regards Ye Feng as his successor.

At this moment, Ye Feng couldn't help but clasped his fists and said loudly: "Thank you, Dean, for teaching such an earth-shattering special technique. If I can step into the realm of domination in the future, I will definitely protect the safety of the entire Wanjie Martial Arts Academy."

Hearing what Ye Feng said, Dean Tianshu smiled slightly and said loudly: "Go and find the origin of your true bloodline. If you encounter any life danger that is really irresistible, you use the Ten Thousand Miles Transmission Symbol to contact me, and I will It depends on the situation. Although I can't use my peak power and may be punished by the world's rules, there should be no problem if I use 1% of my power, which is enough to kill some ordinary masters."

Hearing what Dean Tianshu said, Ye Feng's eyes suddenly showed a look of astonishment. He didn't expect Dean Tianshu to be so powerful to such a terrifying level.

Ye Feng couldn't help but asked very curiously: "Has the current level of the dean surpassed that of the master?"

Dean Tianshu did not confirm or deny Ye Feng's question. He just smiled lightly and said: "Go, don't waste time. I have a premonition that the world will undergo great changes in the future. The self-protection of the Origin World, It is very likely that they will disappear, and many powerful people from the heaven will come to the origin world. "

"What??"

Hearing what Dean Tianshu said, Ye Feng's eyes suddenly showed surprise.

Ye Feng understands very well how terrifying those super powers and super figures in the heaven are.

If the great forces of heaven really come in force, it can be said to be a dimensionality-reducing blow to today's cultivation civilization that originated in the big world.

If those super powers and super figures in the heavenly realm can really descend to the entire world of origin without hindrance, then it will definitely be a disastrous result for the major local cultivation forces and practitioners in the world of origin. Hearing what Dean Tianshu said, Ye Feng immediately nodded and said loudly: "I know this, so in addition to asking the dean for your opinion, the other reason why I came here this time is to ask if the dean can give some ways to save my life."

If those super powers and super figures in the heavenly world can really descend to the entire world of origin without hindrance, then it will definitely be a disastrous result for the major local cultivation forces and practitioners in the world of origin.

Chapter 3933 The Grand World

Dean Tianshu said slowly: "Ye Feng, in fact, the Great World of Origin is not as low-level as you think. The Great World of Origin, as you can tell from its name, is the place where all things originate. Even if the cultivation civilization in the heaven is lower than The Great World of Origin is much brighter and more glorious, but in fact, a large part of all the cultivation civilizations in the heavens originated from the Great World of Origin. Today's Great World of Origin has completely declined for some reason. The spiritual energy of heaven and earth has also become much thinner, so no supremely powerful person can be born. Moreover, the world of origin seems to have been cursed by some mysterious existence, so the creatures in the world of origin can only cultivate to the point of domination. The realm cannot continue to break through, which is why the local strong people in the origin world have begun to flee since ancient times and are increasingly declining, while the heaven is becoming more and more glorious, and I want to tell you a big secret, in addition to the heaven , and there are many other advanced interfaces, which are more brilliant and powerful than the world of origin."

When Ye Feng heard this, his eyes immediately revealed a look of horror. He didn't expect that besides Heaven, there were other powerful advanced interfaces.

Dean Tianshu didn't seem to be nervous at all, but was very confident and said: "But in the future, with the great changes in the world of origin and the changes in the rules of the world, the world of origin will gradually recover and regain its glory. However, those In the so-called highest-level interfaces such as heaven, many cultivating civilizations and powerful people will come to the Origin World because they want to find immortal opportunities and creations from the Origin World. Only the Origin World is the strongest in ancient times. It is the interface that contains the secret of immortality. Even if other advanced interfaces are very brilliant and powerful now, they cannot have the foundation of the great world of origin. After all, we are here where all things originate."

Hearing what Dean Tianshu said, Ye Feng couldn't help but take a breath of air immediately, and couldn't help but say: "In that case, the Great World of Origin is the source of all things."

Dean Tianshu smiled slightly, then looked at the blue planet slowly rotating in the boundless universe in the picture on the wall in front of him, and said aloud: "In the universe we are in now, the great world of origin is indeed It can be regarded as the source of all things, but it has declined now because it was cursed by an unknown existence. But now, the curse is gradually dissipated, the rules of the world have changed, and many powerful people with advanced interfaces will come to the Origin World and want to plunder the Origin World. The various inheritances and traditions left over from the glorious days of the world are intended to be immortal."

Ye Feng couldn't help but nodded in shock, and then said aloud: "This is a disaster for the Origin World, but it may also be an opportunity to go against the current, which can make our Origin World The world has once again become the most powerful interface among all the worlds."

Dean Tianshu nodded, and then said: "We, the native creatures of the Origin World, must seize this opportunity. The reason why the Dark Demon Cult wants to conquer the entire Origin World is because we know this. The super powerful force in the heaven that supports the dark demon sect also wants to obtain the chance creation and orthodoxy that have been lost for countless years in the world of origin during this great change in the world, so that it can soar into the sky and become immortal. Along with the great world of origin, With the great changes in the world, all the supreme traditions and inheritances that originated from the decline of the great world will gradually revive, reborn from the endless depths of the earth, and reappear in the world."

Ye Feng couldn't help but look a little worried at this time, and said aloud: "If there are many powerful people from the transcendent power coming to the heaven, or other mysterious and powerful high-level interfaces, it is estimated that we, the local forces who originated from the big world, will not be able to survive at all. I can't resist it."

Dean Tianshu smiled slightly and said aloud: "You don't have to worry about this for the time being. The great changes in the world have not yet come, and the world rules of our origin world have not yet been completely changed. At present, the most powerful one in our origin world is still the master. Level existence, even in the heaven or other high-level interfaces, many super powers have used some special methods to transport some powerful existences, and their cultivation will only be suppressed by the rules of the world and remain in the realm of domination. However, The rules of the world have been quietly changing. No one knows when the self-protective world rules of our origin world will completely disappear. By then, it will be chaos and the saints will fight for hegemony. It will be a war. A huge disaster, and the entire world of origin is expected to be plunged into continuous war."

At this moment, Dean Tianshu couldn't help but sigh slightly as he spoke.

Apparently as powerful as Tianshuyuan

Having such a transcendent existence means that you are a little worried about the future and need to make plans in advance.

Ye Feng nodded slightly, and then said aloud: "In any case, becoming stronger quickly and continuously is the only way out. As long as it is strong enough, even if the world rules of the Origin World change by then, those in the heaven or other advanced interfaces will The strong ones have arrived, so there is no need to be afraid of them."

Dean Tianshu smiled slightly, nodded, and said aloud: "Ye Feng, you are very courageous and talented. You are the most promising young man I have seen in so many years. I hope you work hard and can be successful in the future." Take your place in the great world of completely resurrected and glorious origins."

Ye Feng nodded slightly, and then suddenly seemed to have thought of something, and couldn't help but ask: "By the way, Dean, the most powerful Hongmeng ancestor of our Ye family back then should have also cultivated to the realm of the Great Perfection Master, and stepped on it." After entering the strongest level of our world of origin, where did he go? Did he leave the world of origin voluntarily and go to other advanced interfaces, or was he forcibly transported out by the rules of the world? "

When Dean Tianshu heard Ye Feng's question, he shook his head slightly and said, "I'm not sure about this either. Maybe Hongmeng Ancestor hasn't left the Origin World at all in the past tens of thousands of years, but just stayed in a special place." The place is dormant, waiting for this great change in the world tens of thousands of years later to be reborn. After all, the Great World of Origin is the place where all things in this universe originate, and it contains the great secret of immortality. "

Hearing Dean Tianshu's speculation, Ye Feng was immediately startled. Maybe it was really possible.

Next, Ye Feng left the central lobby with the magical and mysterious breathing method of the gods taught to him by Dean Tianshu, and then silently and very low-key left the Wanjie Martial Arts Academy, heading towards the Sea of Chaos in the middle of the Origin World. Rush over quickly.

According to Dean Tianshu, the entire world of origin is very vast and can be divided into the eastern earth and the western earth.

And what connects the eastern land and the western land in the middle is a vast ocean.

This vast and boundless ocean is unfathomable, and it has not only given birth to countless ancient families, but also many marine cultivation civilizations.

In this central ocean, close to the eastern land, there is a small ocean area called the Sea of Chaos.

Because the Sea of Chaos area is the only area in the central ocean that is shrouded in chaos energy. It is a special cave heaven blessed land that gave birth to many ancient families, including the Ye family.

It can also be said that the Sea of Chaos is part of the central ocean, adjacent to the eastern land.

The entire central ocean separates the eastern and western lands of the origin world, making it impossible for the cultivation civilizations of the eastern and western lands to touch each other.

Because the entire central ocean is so vast that there is no end to it.

But now some of the great transcendent forces in the western land, such as the Guangming Cult, seem to have found a special passage that can travel through the entire central ocean and enter the eastern land.

There are many elixirs and spiritual materials growing in the eastern land, but they have deeply attracted all the major forces in the entire western land.

Because the western land is relatively barren and barren, although there are many mineral veins, it lacks various elixirs, spiritual materials, etc.

Therefore, the great transcendent forces in the western land naturally covet the eastern land very greedily.

There was even an army organized by the Western Earth, known as the Eastern Expedition Army, which was used to conquer the entire Eastern Earth. However, it failed miserably and was severely punished by the superpowers of the Eastern Earth and retreated to the Western Earth. For tens of thousands of years, I dare not set foot on the eastern land again.

But now, with the changes in the rules of the world of origin, and maybe there are behind-the-scenes pushers from other high-level interfaces, such as heaven, etc., many super powers have arisen in the entire western land, and their ambitions for the eastern land The fire burned brightly again.

Ye Feng was walking on the way to the Sea of Chaos, from Tian Academy

Chang Na, he also has a general understanding of the current structure of the entire Origin World.

The entire origin world can now be divided into three major parts as a whole.

They are: Eastern Earth, Central Ocean, and Western Earth.

Ye Feng's range of activities has always been limited to the eastern land of the origin world.

Today, the structure of the entire eastern land is basically the Righteous Alliance and the Dark Alliance.

The central ocean is home to marine cultivation civilization and various marine giants.

Of course, there is another part, which is the junction between the eastern land and the central ocean, where the Sea of Chaos is located. Many ancient families and ancient families from the eastern land were born there.

The Sea of Chaos can be said to be only a small area in the central ocean.

In addition, the western land is a very strange and vast land, where many powerful cultivation civilizations were also born.

It's just that the western land has been blocked by the central ocean and has been unable to extend its tentacles to the eastern land. Therefore, many cultivating forces in the eastern land do not understand the western land at all.

But a person of the level of Dean Tianshu naturally knows a lot about the western land. Even Dean Tianshu once crossed the entire central ocean and went to the western land, as if he was looking for something.

According to Dean Tianshu, the most powerful forces in the western land are almost comparable to the Righteous Alliance in the eastern land.

Among the Righteous Alliance in the eastern land, there are the Ten Thousand Realms Martial Arts Academy, Haoran Academy, Phoenix God Guo, Taixuan God Sect, Sanqing Dao Sect, and many ancient aristocratic families and ancient families.

The Dark Alliance in the Eastern Land is headed by the Dark Demon Cult. In addition, it also includes the Demon Palace of Everlasting Hatred, Taixuan Demon Sect, Blood Demon Temple, Hunting Heaven Dynasty, Demon Mountain, etc.

The central ocean is a very mysterious vast sea area. In addition to some ancient dragon palaces, there are also many forces controlled by ocean giants. They are relatively unfamiliar and difficult for ordinary people to explore and know.

As for the most powerful forces in the Western Land, Dean Tianshu basically knows about them because he has been to the Western Land and dealt with some of the big forces in the Western Land.

According to Dean Tianshu, the top powers in the western land include the Sect of Light, the Holy Dragon Empire, the Ancient Divine Court, the Sun God Mountain and so on.

These are the great transcendent forces in the western land.

Moreover, the cultivation civilization system and the energy of cultivation in the western land are very different from the magic power in the eastern land.

In this regard, Dean Tianshu did not explain much, and just told Ye Feng that he would naturally understand if he met practitioners from the western land in the future.

Along the way, Ye Feng was quickly digesting the world structure of the entire Origin World that Dean Tianshu told him, and was secretly shocked in his heart.

Unexpectedly, the entire world of origin is so vast. No wonder it is called the place of origin of all things.

Even in the heavenly world, or in other higher-level interfaces, the ancestors of the cultivation civilization and practitioners ran away from the origin world and established powerful and glorious cultivation civilizations in other interfaces.

Because the great world of origin has declined, the rules of the world have dried up.

But now, I don't know why, the world has undergone tremendous changes, and the Great World of Origin seems to be once again full of vitality like the ancient times. The major cultivation civilizations in other advanced interfaces are all very interested in the Great World of Origin, the most glorious place of origin back then. covetousness and greed.

Because here, there may be the secret of immortality in ancient times.

All the superpowers and big shots in advanced interfaces are flocking to this.

They tried every means to arrive at the Origin World in advance and make arrangements in advance.

Today, if the world rules of the Origin World were not still able to prevent the entry of these transcendent and powerful people with advanced interfaces, perhaps the entire Origin World would have been plunged into war, and the local cultivation civilization would have been completely wiped out.

Thinking of this, Ye Feng's heart became even more urgent.

Now it seems that the Dark Demon Cult is really not a huge threat.

Those transcendental forces among the major high-level interfaces that are eyeing the world of origin are the real threats.

Because even the Dark Demon Cult, a superpower in the east that originated from the big world, is just a pawn of a certain advanced cultivation civilization in the heaven.

Not to mention, Dean Tianshu also told Ye Feng that in addition to the heaven, there are many other advanced cultivation civilization interfaces that may be more powerful than the heaven. They are all eyeing the world of origin, but they can't get in yet.

However, these high-level interface forces must have used some special methods to transport the strongest among them to the Origin World. However, they do not dare to show their faces for the time being, or it is not the time to show their faces yet, because the Origin World has not yet The recovery is really starting to happen.

Ye Feng once asked Dean Tianshu if there was any support from a high-level civilization behind the Ten Thousand Realms Martial Arts Academy.

Hearing Ye Feng's question, Dean Tianshu answered with certainty: "No."

This made Ye Feng even more frightened by Dean Tianshu.

Dean Tianshu has really managed to build up a super power all by himself, and he is definitely an amazing person from all ages.

Because Dean Tianshu said, whether it is the western land, the central ocean, or the eastern land, behind the great transcendent forces, there are more or less the shadows of some advanced cultivation civilizations, and there are traces of advanced cultivation civilizations. Only with support can we become a super power in the world of origin.

But there is no such thing as Wanjie Martial Arts Academy.

The Ten Thousand Realms Martial Arts Academy can become a powerful and transcendent force in the eastern part of the world of origin, all thanks to the support of Dean Tianshu alone.

Ye Feng became more and more curious about Dean Tianshu, wondering what the true identity of this eternal strange man was.

In which time and space does the mysterious blue planet he comes from exist?

However, Ye Feng guessed that the mysterious blue planet, the hometown of Dean Tianshu, must be a very remarkable place, otherwise it would be impossible to give birth to such an eternal and wonderful person as Dean Tianshu.

After many conversations and discussions with Dean Tianshu, Ye Feng became more and more shocked by the grandeur of the entire world.

Because the great world of origin and heaven, or the heavens and realms where other advanced cultivation civilizations are located, are just a certain universe.

There are other universes that exist in this world.

For example, the universe where the azure planet is located, the hometown of Dean Tianshu, is not the same universe as the universe of Origin.

This made Ye Feng sigh in his heart, the vastness of the world, the infinity of the world, it is really too grand and boundless.

The conversation with Dean Tianshu made Ye Feng feel that even though he has been cultivating to this day, he still feels like a drop in the ocean when facing the entire vast universe and world.

In the following time, Ye Feng continued to study the mysterious and special inherited breathing method of the gods taught to him by Dean Tianshu.

Because this set of God's Breathing Techniques can not only improve one's combat effectiveness in battle, but can also be used as a daily practice. Every time Ye Feng uses the God's Breathing Technique, he can absorb a special and incomparable energy from between heaven and earth. Immortal energy can quickly strengthen his life source and body constitution, so that the strength of his Hongmeng Immortal Body is constantly improving and growing, which makes Ye Feng extremely frightened.

Ye Feng did not go to the Sea of Chaos with great fanfare, but walked and ran on land in a very low-key manner.

Because Ye Feng feels that his current strength is at the king level, and it is probably far from enough to go to a chaotic place like the Sea of Chaos, and he needs to continue to improve.

Therefore, along the way, Ye Feng was not in a hurry, but was practicing in the world, and paying attention to whether there were any opportunities along the way that could continue to improve his cultivation strength.

Because Ye Feng knows very well that when he goes to the Sea of Chaos, he will face all kinds of super terrifying ancient families, the dark demon sect, and even the terrifying sea monsters and sea beasts in the central ocean, and maybe some from the western land. A strange and powerful practitioner.

Therefore, it is very important to improve your strength. Otherwise, if you go to the Sea of Chaos, let alone help the Ye family, you may still need the Ye family to protect you.

Chapter 3934 Go see the little brother

For today's Ye Feng, before heading to the Sea of Chaos, he still hopes that his cultivation strength can be upgraded from the king level to the true emperor level.

Only in this way can one be able to navigate a very chaotic place like the Sea of Chaos with ease.

Ye Feng walked all the way from the Wanjie Martial Arts Academy and moved quickly towards the westernmost direction of the eastern land.

Because the Sea of Chaos is at the westernmost edge of the eastern land, adjacent to the entire central ocean.

However, what makes Ye Feng feel regretful is that along the way, he has not encountered any special opportunities or places of ancient ruins.

After all, you can't find this kind of thing just by looking for it.

Sometimes you need good luck to encounter a place of opportunity.

Half a month later, Ye Feng was almost reaching the Sea of Chaos area.

At this time, Ye Feng was walking in a vast desert area, which was almost close to the central ocean area and was already the westernmost point of the eastern land.

On this day, Ye Feng passed by a small town and suddenly saw several young geniuses wearing Haoran Academy clothes. They seemed to be dealing with something in the town.

This made Ye Feng immediately think that Haoran Academy, the headquarters of the giants in the eastern land, seemed to be nearby, not too far from the central ocean.

Because Ye Feng had been to Haoran Academy before and helped the dean of Haoran Academy solve a huge crisis.

At this moment, Ye Feng suddenly thought that the little brother Haoran Baobao whom he had met before was the son of the dean of Haoran Academy.

"I don't know how baby Haoran is doing in his cultivation now."

Ye Feng had previously helped the dean of Haoran Academy to secretly kill a spy of the Dark Demon Cult.

Then the dean of Haoran Academy asked Ye Feng to directly

Entering the ancient holy mountain of Haoran Academy and receiving the baptism of the holy mountain greatly increased Ye Feng's cultivation.

Therefore, Ye Feng's impression of Haoran Academy is still very good.

Thinking of this at this time, since Ye Feng was already here, he happened to stop by to see how baby Haoran was doing now.

Ye Feng still misses this innocent and cute little brother.

At this time, Ye Feng glanced at several disciples of Haoran Academy in this small town. Without any hesitation, he did not waste any time and flew directly towards the nearby headquarters of Haoran Academy.

When Ye Feng came to the gate of Haoran Academy's base camp, he immediately saw countless buildings built in the surrounding mountains, surrounding an ancient holy mountain in the middle that exuded holy light.

It is said that this ancient holy mountain of Haoran Academy is the foundation of the entire Haoran Academy.

Haoran Academy, a powerful force for cultivating immortals, relied on the power and inheritance from the ancient holy mountains to develop and become a giant force in the eastern part of the origin world.

Previously, Ye Feng thought that the ancient holy mountain was nothing. It might just be an abandoned mountain in the heaven that fell into the world of origin.

But after what Dean Tianshu said now, Ye Feng knew that behind Haoran Academy there was probably the support of a super powerful force from the heavens, which enabled it to grow to its current level.

So now Ye Feng looks at it, this ancient holy mountain is probably not as simple as he imagined.

This ancient holy mountain is said to have fallen from heaven. It is very likely that it was

A certain super power in the heaven used some special method to drop this ancient holy mountain containing inheritance from the heaven.

Because the world rules of the entire world of origin do not allow superpowers from other advanced interfaces to enter this interface, otherwise they will be directly obliterated by the world rules of the world of origin.

Therefore, those super powerful forces cannot bring truly powerful people into the world of origin. They can only use some special means to transport some special things from the heaven to the world of origin, and then cultivate the local cultivation of the world of origin. The reporter, as his own spokesperson, makes arrangements in advance.

Thinking of this, Ye Feng suddenly felt that there must be shadows from the advanced interface behind Haoran Academy.

After all, Ye Feng had previously followed the dean of Haoran Academy and entered the ancient holy mountain of Haoran Academy, and was baptized by the ancient holy mountain.

It was a very advanced energy, many times more advanced than the declining aura of the Great Origin World. ??

Ye Feng couldn't help but sigh. He didn't know what happened to the Origin World back then, but it had declined to what it is today.

After all, according to what Dean Tianshu said, the great world that originated back then was the most glorious and powerful interface in the universe. It was known as the place where all things originated. How advanced must it be.

Today there are many so-called advanced interfaces, such as the heaven world, the true dragon world, the hell world, etc., among which more powerful cultivation civilizations have been born.

But you must know that the ancestors of the cultivation civilizations and transcendent forces in these more powerful advanced interfaces basically came out of the origin world, and then created brilliant cultivation civilizations and forces outside.

Because it originated in the big world back then, I don't know

Why did it encounter a curse? The rules of the world cannot accommodate existence beyond the realm of domination, which has led to many super strong people escaping from the world of origin.

At this time, Ye Feng came to the gate of Haoran Academy's base camp and directly exuded his huge soul power, wanting to find out whether Baby Haoran was in Haoran Academy now.

You know, Ye Feng's current strength has reached the king level, and he can be regarded as a master in the entire world of origin.

Before the king level, everyone is an ant.

After reaching the King level, one is truly a master of the Origin World and is no longer an ant.

Buzz!

At this moment, as Ye Feng exuded his soul power, a very familiar aura fluctuation immediately made Ye Feng's eyes light up.

He sensed that Haoran's baby's breath was somewhere in Haoran Academy.

Ye Feng didn't bother to formally visit Haoran Academy, as it was too troublesome.

Therefore, Ye Feng directly circulated the space gem, shuttled through the void, and flew directly towards a certain direction inside Haoran Academy, wanting to see Haoran's baby.

In addition to missing Haoran's little brother, Ye Feng also has another purpose, which is to remind Haoran to practice hard.

Because Ye Feng already knew from Dean Tianshu that the structure of the entire world of origin would soon change dramatically, and there would be advanced cultivation civilizations with more advanced interfaces invading the entire world of origin.

However, the world rules of the Great World of Origin have not yet been completely changed, so local practitioners like them still have the opportunity to go upstream, seize this once-in-a-lifetime opportunity for the Great World of Origin to revive, become saints and ancestors, and become immortal. Above and beyond.

Chapter 3935 Sealed

You know, Ye Feng's current cultivation strength is already very terrifying, so the running space gem opened up a space channel and entered the inner area of Haoran Academy without attracting anyone's attention.

Moreover, Ye Feng discovered that the dean of Haoran Academy did not seem to be in Haoran Academy.

The only master-level figure is not in Haoran Academy, so naturally no one can find Ye Feng.

Uh-huh!

At this moment, Ye Feng quickly arrived at the place where Haoran's baby was.

This is a royal garden-like place inside Haoran Academy. All kinds of spiritual trees, flowers and plants are planted everywhere around it, exuding very pure spiritual energy.

Practicing here will definitely enable practitioners to make rapid progress.

Buzz!

At this time, Ye Feng walked out of the void and stood in front of a palace completely made of crystal.

Ye Feng sensed the breath of Baby Haoran, which was inside this crystal palace.

At this time, Ye Feng walked directly into the crystal palace.

But the next moment, Ye Feng saw a rather shocking and angry scene.

Because at this moment, Baby Haoran was actually locked up in a golden prison.

This golden prison seems to be made of a very special metal and is very strong.

Even if Baby Haoran's current cultivation level has been raised to a very high level, he still cannot break this prison.

Ye Feng immediately came in front of him, looked at the baby Haoran in the prison, and found that the baby was falling into a special state of sleep, seemingly sealed by some kind of force.

Seeing this scene, Ye Feng couldn't help but show deep surprise in his eyes.

Unexpectedly, Haoran Academy would undergo such a change.

Even Baby Haoran, the only son of the dean, was secretly sealed here, and no one knew about it.

At this time, Ye Feng suddenly thought that when he first entered Haoran Academy, he didn't seem to notice the aura of the dean of Haoran Academy.

Did something happen to the dean of Haoran Academy?

Otherwise, it is impossible that Baby Haoran would be imprisoned here by the people of Haoran Academy and ignored.

Click, click!

At this moment, Ye Feng stretched out his hand and tore apart the golden prison in front of him.

You know, Ye Feng's current Hongmeng Immortal Body has transformed to the early stage of the sixth level, so the power of Ye Feng's body is already very terrifying.

Moreover, Ye Feng's cultivation level has also entered the sixth level of the Saint King Realm. He is a powerful existence at the king level. He is considered a good master in the entire world of origin and is no longer an ant.

So this kind of prison was torn apart by Ye Feng in an instant.

Then Ye Feng stretched out his hand and pressed it on baby Haoran's big head.

At this moment, Ye Feng immediately sensed that there was indeed a special sealing power in Baby Haoran's body, forcing Baby Haoran into a sleep state and unable to wake up.

Ye Feng saw it now. Baby Haoran seemed to be a little older than before. Before, it could be said that baby Haoran was a huge baby, but now it has grown into a boy who looks like a two or three-year-old boy. He looks more refined. Quite a bit, no longer in a baby state.

Moreover, Ye Feng could sense that Baby Haoran's power had also been greatly improved. Although he had not yet reached the king level like himself, he was about to reach it.

At this moment, Ye Feng didn't hesitate at all, and directly injected his surging mana to help Baby Haoran open the seal on him.

Ye Feng's current magic power was extremely powerful, and he almost didn't waste any time. At the next moment, there was a "bang" and the seal of Baby Haoran was shattered.

At this moment, Baby Haoran immediately opened his eyes and saw a familiar figure in front of him. He couldn't help but let out a milky voice in surprise: "Brother Ye Feng! Why are you here?"

Ye Feng touched baby Haoran's little head at this time, and then asked aloud: "Baby Haoran, what's wrong with you? How did you fall into this trap?"

Falling asleep and being sealed? And you are still locked up in this prison. Where is your father? "

When Baby Haoran heard what Ye Feng said, he immediately showed a look of distress and anger on his face, and said loudly: "In order to evolve my physique, my father once again entered a very mysterious forbidden place in our eastern land. I entered the Cemetery of Gods and Demons, hoping to find me the legendary fruits watered by the blood of gods and demons, so that my physique could continue to improve. But this time, my father never came back. He had disappeared for half a year, so Many big shots in Haoran Academy think that my father has died in the Cemetery of Gods and Demons. After all, the Cemetery of Gods and Demons is indeed a very scary place, so now many big shots are vying for control of the entire Haoran Academy. They think that I Dad is dead, and now most of the power in the entire Haoran Academy is basically in the hands of the old guy Gu Tianming, the vice president. Gu Tianming is a half-step domination level existence, and his voice is very high among our Haoran Academy. , so now he has become the acting dean of our Haoran Academy. Several of his direct disciples had grievances and conflicts with me before, so now that my father is dead, do you have any scruples, although I dare not kill him directly? Me, but they forcibly sealed me and trapped me here, preventing me from continuing to grow in cultivation, for fear that I would become stronger and pose a threat to them. "

Hearing what Baby Haoran said, Ye Feng's eyes suddenly revealed a cold look, and he said loudly: "I didn't expect them to be so bold and dare to be so unscrupulous to you, the son of the dean of Haoran Academy. "

Baby Haoran's innocent big eyes showed deep anger at this time, but the next moment, his little face showed a look of deep distress, and he said loudly: "Brother Ye Feng, my dad doesn't I don't know if I really died in the Cemetery of Gods and Demons. If I did, it would be the end."

Ye Feng frowned at this time, and then said aloud: "Your father is a master-level existence. Although he is the original junior master, he is still a master-level existence after all. He is the most powerful creature in this world. , it is impossible to die so easily. I think your father may just be trapped in a special area in the Cemetery of Gods and Demons and cannot come back for the time being."

When baby Haoran heard Ye Feng's comfort, he immediately breathed a sigh of relief and said, "I also think that daddy will not die so easily. After all, daddy is so powerful. Maybe daddy is just trapped in the gods." Somewhere in the Demon Cemetery."

Ye Feng nodded, and then said aloud: "In any case, I will take you out of Haoran Academy first. Now according to what you said, Haoran Academy has no place for you. Why don't you follow me and leave here? I'm going to Sea of Chaos, go to my family."

Hearing what Ye Feng said, Baby Haoran immediately clapped his hands happily and said loudly: "Okay, okay, it would be good to go out with Brother Ye Feng to practice. I also want to go out and play."

Seeing what Baby Haoran said, Ye Feng couldn't help but shook his head helplessly. Baby Haoran was really a very nervous child, and he still wanted to play at this age.

But just when Ye Feng was about to leave the palace with Baby Haoran, two young figures suddenly walked outside.

They were an imposing young man wearing a silver robe.

There is also a young woman with fair skin wearing a pink dress.

Both of them seemed to have extraordinary temperament, and they were obviously young geniuses from Haoran Academy.

They came over and before entering the palace, they were already talking and making noises outside the palace.

The young man said aloud: "Anyway, now that the dean is dead, our master has become the new acting dean. Now it is estimated that no one will pay attention to baby Haoran, and no one will care about baby Haoran's life and death. We Bring him directly to our place of residence, extract the powerful blood contained in his body, and integrate it into our own body. This will definitely help our skills to reach a higher level. "

The young woman next to him also had a cold and greedy look in her beautiful eyes, and said loudly: "Senior Brother Xiao, you are right. You must know that Baby Haoran has been forcibly injected with many powerful things by his father over the years. Bloodline, those bloodlines are very precious and priceless, they can't be wasted on a useless kid."

Chapter 3936 The treasure left behind

At this moment, the two young disciples outside the palace were talking, with no concealment of greed and cruelty in their tone.

They actually planned to directly extract all kinds of powerful bloodlines contained in baby Haoran's body.

This is simply cruel to the extreme!

At this moment, Ye Feng and Baby Haoran in the palace heard the voices of the two young disciples outside, and their faces showed angry expressions.

Especially the Haoran baby, he couldn't help but say: "These two disciples seem to be direct disciples of the old guy Gu Tianming, the acting dean of our Haoran Academy, so they are all very arrogant. These two My direct disciples, the male is called Xiao Mo and the female is called Chen Ling. They were the two of them who, together with a group of other masters, sealed me here. Unexpectedly, they were trying to extract all the powerful blood in me. "

It has to be said that Baby Haoran is very lucky to have met a good father. Many powerful ancient bloodlines have been forcibly injected and integrated into his body, just waiting to be activated. It can be said that his future is unlimited.

But this also caused Baby Haoran to become a favorite in the eyes of others, who wanted to extract various powerful ancient bloodlines from the body of Baby Haoran, who was not yet powerful.

At this time, Baby Haoran said, and then looked at Ye Feng beside him, seeming to see the killing intent on Ye Feng's face. .???.??

Baby Haoran immediately couldn't help but said with some worry: "These two direct disciples of the Acting Dean are very powerful. They are extremely powerful young geniuses in our Haoran Academy, and it is said that the current Acting Dean Gu Tianming That old guy seems to have received the help of some mysterious and transcendent beings behind the scenes. His cultivation strength is about to completely break through from half-step dominance to real dominance, so it is best for us not to provoke them now, and this Xiao Mo and Chen Ling's cultivation strength has already reached the king level, which is very powerful and cannot be resisted by us. "

Hearing what Baby Haoran said, Ye Feng immediately smiled faintly and said: "Don't worry, I will vent my anger for you today. Although I may not be able to resist that acting dean, but his direct disciple , a king-level practitioner is no longer considered powerful to me now."

Buzz!

At this moment, Ye Feng was speaking, and he was also exuding a terrifying king-level aura.

Sensing this aura, Baby Haoran immediately couldn't help but his eyes lit up, and he said loudly: "Brother Ye Feng, I didn't expect that you have also stepped into the king level now. I haven't seen you for such a long time. I didn't expect that brother Ye Feng is already powerful. It has reached this level, but can you deal with the two of them alone? These two are the beings of the tenth level of the Holy King Realm, and are the most powerful ones at the king level."

Ye Feng smiled and said, "Don't worry."

After saying that, Ye Feng took Baby Haoran directly towards the outside of the palace.

The moment they opened the palace door and appeared outside.

"Um?"

The two young disciples Xiao Mo and Chen Ling who came not far away had expressions of deep surprise on their faces.

They couldn't help but stare at Baby Haoran and Ye Feng in front of them, and said loudly: "Baby Haoran, I didn't expect that you would have friends here to save you, but this doesn't make any sense."

After finishing speaking, Chen Ling, the beautiful young woman among the two, moved slightly with her graceful figure, directly blocking the path of Ye Feng and Haoran's baby.

Chen Ling first stared at Ye Feng next to Haoran's baby and said

Said: "Who are you? You dare to break into our Haoran Academy privately. Don't you know that this is a capital crime?"

Ye Feng smiled faintly at this time and said: "I am a friend of Baby Haoran. Baby Haoran is the son of the dean of Haoran Academy. If I come to see him, does it count as trespassing into Haoran Academy?"

Although Chen Ling's eyes were very beautiful, they showed a deep cold look at this time, and he said loudly: "Baby Haoran's father has fallen into the restricted area of life in the Cemetery of Gods and Demons. Now the whole world Our master has become the acting dean of Haoran Academy, and now Baby Haoran has become irrelevant in the Academy. You still want to rely on Baby Haoran's identity to suppress us? This is impossible."

Hearing what Chen Ling said, Ye Feng immediately smiled lightly and said loudly: "You two are so brave. You dare to seal my good brother Haoran baby here, and you also want to take away all the blood from him. All the powerful blood was extracted, what a cruel method, today I will take a good breath for my brother. "

"Hahaha!"

Hearing what Ye Feng said, Chen Ling had not yet spoken. The young man not far away, Xiao Mo, suddenly showed a deep sarcasm on his face and said, "You want to be with us?" Confrontation, now, under the training of our master, our cultivation levels have all reached the king level, and we are still at the peak of the tenth level of the king level! Even the number one genius in our Haoran Academy is now! It is no longer comparable to us. To tell you the truth, the world has changed drastically. There are many things that you don't understand at all. To fight against us is to disobey the will of God, because behind our master, there are countless resources given by gods from outside the territory. Our strength has grown unparalleled."

At this moment, Chen Ling immediately said: "Senior brother Xiaomo, stop talking nonsense with this kid, let me deal with him."

Uh-huh!

After finishing speaking, a red long sword suddenly appeared in Chen Ling's hand, exuding a bright sword light, and he walked slowly towards Ye Feng with a contemptuous smile on his face.

Ye Feng rushed forward at this time, without any hesitation, and grabbed Chen Ling with one hand.

Buzz!

At this moment, a terrifying aura like a wild beast suddenly burst out from Ye Feng's body, fierce and boundless, vast and endless.

"This violent aura..."

Chen Ling sensed that the aura of cultivation on Ye Feng was the same as hers, a king-level existence, but the aura of power exuded by Ye Feng was many times more powerful and vast than her own.

This shows how terrifying Ye Feng's cultivation foundation is.

This is definitely a super-top genius with earth-shattering fighting power.

"not good!"

At this moment, Chen Ling's beautiful face suddenly showed a look of deep horror, and she quickly retreated towards the back.

Because she knew that although she was at the same level of cultivation as the other person, she was definitely no match for this young man.

But at this moment, Ye Feng smiled coldly and said: "You two are so cruel, we can't keep your lives, otherwise, what will happen next?"

Endless troubles. "

After saying that, Ye Feng suddenly accelerated the movement of the space gem, and instantly flashed in front of Chen Ling. He stretched out a hand and turned into a big purple hand, full of the power of Hongmeng, like a purple ancient mountain. The pressure continued, and the red sword in Chen Ling's hand was directly shattered.

Then under Chen Ling's horrified eyes, he twisted Chen Ling's head.

Snap!

A beautiful headless corpse fell.

A powerful king-level being was completely killed!

one move!

Just one move!

He killed Chen Ling, a young genius who was also at the king level.

Seeing this scene, Baby Haoran couldn't help but exclaimed: "Brother Ye Feng is so awesome!"

"Ye Feng? Are you Ye Feng??"

Hearing the name of Baby Haoran, Xiao Mo who was not far away couldn't help but look horrified in his eyes. He immediately stared at Ye Feng and said loudly: "So you are the Son of God from the Wanjie Martial Arts Academy. I heard that Baby Haoran is a good friend with Shenzi from the Wanjie Martial Arts Academy. I didn't expect to meet you here. Why did you come here after traveling thousands of miles?"

Xiao Mo said this with a look of deep fear in his eyes.

Ye Feng once represented the Righteous Alliance before and lurked into the dark trials organized by the Dark Alliance to kill everyone. He almost killed nearly half of the super geniuses in the Dark Alliance and shocked the whole world.

Therefore, Ye Feng's name has already spread to all the major forces in the entire eastern land.

Even among the Dark Alliance, Ye Feng is very famous.

Everyone knows that the Son of God of the Ten Thousand Realms Martial Arts Academy is definitely not a person in vain, but a very terrifying top genius.

Xiao Mo's eyes were ugly. He never thought that he would meet Ye Feng, the divine son of the Wanjie Martial Arts Academy.

At this moment, Xiao Mo knew that although his cultivation level was at the same level as Ye Feng's, there was absolutely no way he could be a match for a top genius like Ye Feng.

Uh-huh!

At this moment, Xiao Mo immediately flew towards the rear without any hesitation, and quickly flew towards the rear, wanting to leave here and notify other masters to deal with Ye Feng.

But at this moment, Ye Feng was well prepared and had already quietly released his inheritance, endless space cutting, in the space where Xiao Mo retreated.

Wow!

Wow!

So the moment Xiao Mo stepped back, countless spatial cracks appeared directly in the void behind him.

Xiao Mo didn't even have time to scream and hit countless space cracks.

The entire body suddenly turned into countless pieces with a "poof" and "poof".

It was like being cut and broken by the sharpest sword and shadow in the world. It fell to the ground and was instantly killed.

"Brother Ye Feng is so awesome! He feels more powerful than some ordinary emperor-level masters!"

Seeing this scene, Baby Haoran clapped his little hands happily, his big eyes full of excitement.

There was naturally no surprise in Ye Feng's eyes at this time, because Ye Feng knew better than anyone else how terrifying his current cultivation and methods were. \u003c

br\u003e

Strong men of the same level had almost no room for resistance in front of him.

Buzz!

At this moment, Ye Feng released the Devouring Domain, swallowing up all the skills and vitality of Xiao Mo and Chen Ling.

boom!

Ye Feng's skill suddenly increased tremendously, breaking through from the sixth level of the Holy King Realm to the seventh level of the Holy King Realm.

Of course, the Holy King Realm is the name given to ordinary practitioners.

Among the major transcendental powers, those in the Saint King realm are called "King level", which means that they will be kings from now on, no longer just ants, but can be regarded as first-class masters in the true sense.

Ye Feng's current cultivation level is the seventh level of King Level.

At the king level, he has become stronger.

At this time, Ye Feng did not hesitate and walked directly towards the Haoran baby and said loudly: "The two ruthless people who were killed can be regarded as a bad breath for you. Now we will leave Haoran Academy directly. Bar."

Baby Haoran immediately nodded.

Now his father has disappeared into the Cemetery of Gods and Demons, and he does not know whether he is dead or alive.

For Baby Haoran, he doesn't have any relatives or friends here at Haoran Academy.

Therefore, Baby Haoran doesn't have any nostalgia for Haoran Academy, so he might as well just follow his brother Ye Feng out to explore.

Because Baby Haoran now realizes that relying on his father is of no use. He still needs to become stronger to be useful.

At this moment, Ye Feng wanted to take Baby Haoran and leave directly.

But at this time, baby Haoran suddenly said: "By the way, brother Ye Feng, my father left a very powerful treasure in Haoran Academy. He was originally planning to give it to me when he comes back, but now his father has disappeared. In the cemetery of gods and demons, I need to take away that powerful treasure. It must not fall into the hands of the old guy Gu Tianming, the current acting dean. Otherwise, when Gu Tianming breaks through to the master and my father comes back, I'm afraid I can't beat this old guy Gu Tianming."

When Ye Feng heard what Baby Haoran said, he immediately nodded slightly and said loudly: "Since it is the treasure left by your father, it must be very precious and powerful. Originally, this belongs to you, Baby Haoran, and it will definitely be of great help to you." to enhance your strength."

For Ye Feng, if he wants to take Baby Haoran out of Haoran Academy now, the stronger the overall strength of Baby Haoran will be of great help to him.

After all, Baby Haoran seems to be a two or three-year-old child who doesn't understand anything, but Baby Haoran's body contains many powerful ancient bloodlines.

Once Baby Haoran can continue to improve his strength and stimulate Baby Haoran's various ancient bloodline powers, then Baby Haoran's combat effectiveness will become very terrifying, even no less than his own.

For Ye Feng, it is definitely a huge help.

After all, Ye Feng didn't have many real friends in the origin world, but Baby Haoran was definitely a true friend, the kind of friend who could trust each other.

So Ye Feng looked at Baby Haoran at this time, smiled and said: "I will turn the space gem later and hide the two of us in the void. What is the name of the precious treasure your father left behind? Where is it specifically? Where? Tell me and I'll find it for you."

Chapter 3937 Big Search

Half an hour later, Ye Feng and Baby Haoran stood side by side, standing in front of a huge mountain.

This mountain is pure white all over, exuding a faint white divine light. It is vast and majestic, like an ancient giant lying there, giving people an endless feeling of vastness.

This mountain is the foundation of Haoran Academy, the ancient holy mountain.

At this time, Baby Haoran came here with Ye Feng, because according to Baby Haoran, the dean of Haoran Academy, the father of Baby Haoran, once left a treasure that was intended to be given to Baby Haoran, in the ancient mountains. On top of the mountain.

After knowing all this, although Ye Feng had a look of surprise in his eyes, he still brought Baby Haoran here without any hesitation.

Since that treasure belongs to Haoran's baby, there is absolutely no way Ye Feng would let it fall into the hands of the so-called acting dean of Haoran Academy.

At this moment, Ye Feng looked at the Haoran baby next to him and couldn't help but ask: "Since that treasure is so precious, it might have been taken away by the acting dean of Haoran Academy."

Baby Haoran shook his head and said aloud: "With the acting dean's current half-step mastery, he cannot control that treasure, nor can he take away a treasure, or even get close to it."

Ye Feng couldn't help but said: "Even half-step masters can't get that treasure, so can we?"

Baby Haoran nodded, smiled, and said aloud: "My father once incorporated some of the energy of that treasure into my body, so I can be said to be very close to that treasure. If I can get in close contact with that treasure, There is a chance to take that treasure away and integrate it into my body, and it will become my exclusive treasure from now on." .??.

Hearing what Baby Haoran said, Ye Feng immediately nodded in realization and said, "Since this treasure is so important to you, I will definitely help you get it."

Buzz!

At this time, Ye Feng said, directly running the space gem, integrating himself and baby Haoran into the void.

Ye Feng's current cultivation level has reached the king level, so if the space gem is used now, the power released by the space gem will be more mysterious and powerful.

At this moment, the entire bodies of Ye Feng and Baby Haoran disappeared directly into the void, and then quickly flew towards the top of the ancient holy mountain in front of them.

Along the way, Ye Feng saw through the void that the entire ancient holy mountain was extremely heavily guarded.

When Ye Feng came here for the first time, it was many times more strict than before.

Obviously, that treasure is very important to the current acting dean, so many masters and strong men were sent to guard it here.

However, the acting dean's current cultivation level has not truly entered the realm of domination, so he cannot approach and obtain the treasure.

So now that treasure can still only be stored on the top of the ancient holy mountain.

At this time, Ye Feng secretly thought that it was best for the acting dean not to be in the ancient mountains, otherwise it would be very difficult to obtain the treasure.

What made Ye Feng breathe a sigh of relief was that Ye Feng did not see the existence of the Half-Step Domination level along the way, nor did he sense the aura of the Half-Step Domination level, indicating that the acting dean was not in the ancient holy mountain now.

But it's normal to think about it. The acting dean must be in the base camp of Haoran Academy, dealing with various things. It is impossible to stay in the Holy Mountain every day.

After all, the ancient holy mountain is a very special place and is heavily guarded. I guess the acting dean would not have thought that someone would be bold enough to come to the ancient mountains of Haoran Academy to steal the treasure.

And it is estimated that the acting dean also felt that even a half-step master like him could not approach and control that treasure, and it was impossible for others to plunder it.

However, the acting dean probably never imagined that the dean of Haoran Academy had penetrated the body of Baby Haoran with the power of a treasure, which was integrated into the body of Baby Haoran.

Therefore, even if Baby Haoran's cultivation has not reached the king level, he can still approach and fuse with that treasure.

At this time, Baby Haoran was very happy in the void. He couldn't help but clapped his hands and said excitedly: "Brother Ye Feng, this space gem of yours can be

It's really amazing. There are so many experts guarding the entire ancient holy mountain, but they can't find us. "

Ye Feng smiled slightly at this moment and said: "There are many more wonderful uses of space gems."

Ye Feng had been to the Ancient Holy Mountain once before, so he was very familiar with the geographical location of the Ancient Holy Mountain.

In less than a moment, Ye Feng opened a space wormhole through the space gem. The two of them shuttled through the void and had reached the top of the ancient holy mountain.

But at this time, Ye Feng saw that there were many masters on the top of the ancient holy mountain, surrounding the middle position.

In the middle of the top of this ancient holy mountain, there is a huge platform.

Above this platform, there is an eye floating with bright white light.

This eye is the treasure that Haoran baby said.

"It's actually this eye."

When Ye Feng saw this treasure, his eyes suddenly moved.

Previously, Ye Feng helped the dean of Haoran Academy escape from the sealed prison of the Dark Alliance, so the dean of Haoran Academy once took Ye Feng to the ancient holy mountain and accepted the baptism of the ancient holy mountain, allowing Ye Feng's cultivation Both his skill and physical strength have transformed a lot.

When Ye Feng was baptized by the Holy Mountain, he had close contact with this eye.

According to the previous dean of Haoran Academy, this eye is called the Eye of Saints. It fell from the heaven. It is a very powerful treasure. Legend has it that it contains the power of countless saints in ancient times. It is suspected to be the Great Perfection. Dominant level weapons.

And maybe the real situation is even more powerful than the weapon of the Great Perfection Lord, because it fell from the heaven.

Therefore, this Eye of Saints can indeed be said to be a supreme treasure.

Ye Feng spoke up at this time: "The power of this Eye of Saints is very terrifying. I have experienced it before when I was baptized by the Holy Mountain. Baby Haoran, if you go to refine it, be careful."

Baby Haoran nodded immediately at this time.

According to Ye Feng's plan, Ye Feng is preparing to jump out of the void, attract many masters on the mountain top, and use the strategy of diverting tigers away from the mountain to lure away all these masters who guard the Eye of the Saints.

Then Baby Haoran came out of the void, went directly to refine and fuse the Eyes of Saints into his body, and then took it away.

At this time, Baby Haoran looked at Ye Feng in front of him and couldn't help but said: "Brother Ye Feng, you must be careful. These masters who guard the Eyes of Saints are all the old acting dean Gu Tianming." The very powerful masters sent here, I can not only sense the king-level aura, but also the emperor-level aura, so Brother Ye Feng, you must be careful, if it is really impossible to resist, even if we don't want the Eyes of the Saints. , they all fled immediately, Brother Ye Feng's safety is the most important."

Obviously in Baby Haoran's heart, the Eye of the Saints is just a treasure. If Ye Feng's life is really threatened, Baby Haoran will definitely choose to keep Ye Feng safe.

Ye Feng smiled slightly at this time and said: "Don't worry, there will be no problem. As long as we don't get entangled with these masters and don't attract the real superpowers in Haoran Academy, there will be no danger."

After saying that, Ye Feng jumped out of the void without any hesitation, and then immediately exuded his powerful aura.

"What??"

"How dare someone break into the forbidden area at the top of our ancient holy mountain?"

At this time, sensing Ye Feng's aura, a group of masters from Haoran Academy present immediately looked in Ye Feng's direction.

They couldn't help but said coldly: "The thief dares to break into the holy land of our Haoran Academy without permission, and he will be captured without hurrying up!"

Ye Feng laughed at this time and said aloud: "I would like to know whether these so-called masters in your Haoran Academy are as powerful as the rumors say?"

Boom!

Almost at this moment,

Ye Feng directly released a wave of energy and blasted forward, exploding in the crowd of many experts.

"presumptuous!"

Seeing Ye Feng taking action directly, these guardian masters all showed angry expressions on their faces, and they all shouted: "Thief, are you too brave to attack us? You are so impatient today!" I must let you die here!"

Swish, swish, swish!

At this moment, a group of experts guarding the Eye of the Saints were all attracted by Ye Feng, and immediately flew quickly in the direction of Ye Feng, trying to kill Ye Feng.

Ye Feng will not fight these masters on the spot at this time. After all, Ye Feng's main purpose now is to draw these masters away and create conditions for Baby Haoran.

Uh-huh!

So at this moment, Ye Feng immediately flew quickly towards another direction of the ancient holy mountain.

Many experts were now angered by Ye Feng's active attack, and they all chased after him. .??.

At this moment, Baby Haoran flew out of the void alone, and then immediately approached the Eye of the Saints quickly.

Buzz!

The Eyes of Saints exudes a vast and vast aura, giving people the feeling that they are the eyes melted into by many saints in ancient times, exuding a sacred and vast aura.

After Baby Haoran approached, sure enough, Baby Haoran's body also emitted a white light of the same attribute, which was connected to the Eye of the Saints.

Seeing this scene, Baby Haoran's eyes immediately brightened, and he began to absorb and accommodate this Eye of Saints, wanting to take this treasure away.

After all, there is nothing in Haoran Academy that Baby Haoran misses anymore. His father is also in the God's Tomb Cemetery, and he does not know whether he is alive or dead. Therefore, Baby Haoran naturally wants to take away this treasure that belongs to him and his father, and cannot leave it to the imagination. Those hateful guys who want to kill themselves.

At this time, when Baby Haoran quickly integrated the Eyes of the Saints, Ye Feng attracted the experts from the ancient holy mountain, and after seven or eight circles, he had reached the halfway area of the ancient holy mountain.

At this moment, Ye Feng immediately turned around and looked at the dozen masters chasing after him.

This group of masters from Haoran Academy consists of king-level existences, as well as emperor-level super masters above the king level.

But at this time, Ye Feng didn't have any fear at all. Instead, he showed a faint smile on his face and said loudly: "You are lucky, I will not kill you, otherwise it will attract the attention of other super powerful people in Haoran Academy." Attention, that's it for today, I won't play with you anymore."

Buzz!

After saying that, Ye Feng was like a running space gem, lurking into the void, disappearing, and then quickly returning towards the top of the mountain.

If Ye Feng really wants to fight this group of masters, he should not fail.

But Ye Feng's main purpose now is to help Baby Haoran refine the Eyes of Saints, so Ye Feng doesn't want to fight these masters directly.

Otherwise, the violent fluctuations in the battle will definitely attract the attention of countless powerful people in the entire Haoran Academy.

When the time comes, he and Baby Haoran will really have no chance of escaping.

Although Ye Feng has a space gem in his hand that can open a space wormhole, Ye Feng knows that Haoran Academy is after all a giant and powerful force in the Origin World, with countless strong people.

And it is said that the acting dean has broken through to the half-step domination realm.

A master of this level can block the space wormhole he created.

Therefore, Ye Feng naturally does not want to make a small mistake and scare the snake, otherwise it will lead to more terrifying existences in Haoran Academy, which will be troublesome.

What Ye Feng has to do now is to help Baby Haoran obtain the Eyes of the Saints, and then quickly escape from here. That means he has achieved his goal.

So at this time, Ye Feng attracted this group of experts away. After walking around, Ye Feng had received the information from Baby Haoran, and Baby Haoran had successfully refined the Eye of the Saints.

So Ye Feng naturally entered the void and left.

At this moment, everyone looked at Ye Feng directly

The whole person entered the void and disappeared, and he could not even feel his breath.

This group of experts guarding the Eye of the Saints seemed to understand something.

The leader of the master from Haoran Academy was a powerful being at the imperial level. At this moment, his expression immediately changed, and he quickly flew towards the rear crazily, saying loudly: "Oh no! This is a plan to lure the tiger away from the mountain! Besides this thief, there must be another thief who wants to steal the Eyes of the Saints."

"Don't panic."

However, a group of other experts quickly said: "Don't worry about the Eye of the Saints. Now our acting dean, a transcendent existence at the level of half-step master, cannot get or approach the Eye of the Saints, let alone Some little thieves."

Hearing what this group of experts said, the leader of the imperial-level expert also showed a hint of relief in his eyes, and said loudly: "You are right, even the acting dean is half a step ahead of the transcendent existence of dominating the level of cultivation. It is impossible to get close to such a treasure as the Eye of the Saints, and we can only guard it a thousand meters away, let alone get close. Even if a thief wants to steal the Eye of the Saints, he will definitely be caught in the Eye of the Saints in an instant. Obliterated by the power of terror."

At this moment, this group of experts suddenly became very relaxed and walked slowly towards the top of the mountain, feeling that nothing could happen to the Eyes of the Saints.

It is estimated that only a master-level existence can forcibly take away the Eyes of the Saints.

But if a master really comes and wants to steal the Eyes of the Saints, there is no need to lure them away. Just kill them in an instant. There is no need to go to so much trouble and use the tactic of luring the tiger away from the mountain.

But the moment this group of experts reached the ancient holy mountain, they suddenly panicked.

"What??"

Because they saw that on the high platform on the top of the mountain in the distance, the Eyes of the Saints that were originally floating there and emitting bright light had disappeared.

It was completely empty there!

"What??"

"How can this be??"

At this moment, countless experts present suddenly showed panic and panic in their eyes.

boom!

At this time, a terrifying aura suddenly descended here.

It was an old man wearing a silver robe, with a full head of black hair. He didn't look like an old man, but like a heroic young man.

This heroic old man is now the acting dean of Haoran Academy and the original vice dean, Gu Tianming.

This is a half-step dominance level existence, one foot has almost touched the real realm of dominance.

At this moment, he exuded a terrifying and destructive aura that was like a volcano about to erupt.

Gu Tianming looked coldly at the disappeared Eyes of the Saints, and immediately said angrily: "What a bunch of idiots!"

Boom!

At this moment, a terrifying aura erupted from Gu Tianming's body, which directly shattered the dozen masters guarding the Eyes of Saints present and turned them into countless blood mist.

It can be seen that this Gu Tianming is definitely a super cruel person. Under extreme anger, he is so cruel to his subordinates.

At this moment, the angry Gu Tianming immediately made a majestic voice: "All the masters above the king level in the entire Haoran Academy are dispatched! We must find the thief who stole the

Eye of the Saints. One of them is definitely the Haoran baby. , because only baby Haoran has the special ability to take away the treasure of the Eye of the Saints. If I had known, I would have killed this little thief directly! If anyone could find these two thieves who stole the Eye of the Saints, I will reward him as my personal disciple, teach him the supreme skills, and make him the next generation successor of our Haoran Academy!"

"Wow!"

At this moment, the moment Gu Tianming finished speaking, the entire Haoran Academy suddenly boiled.

Countless masters rushed out of Haoran Academy, preparing to conduct a carpet-like search of the area around Haoran Academy, because the reward mentioned by Gu Tianming was too tempting, enough to drive countless strong men of Haoran Academy crazy.

A large-scale search for Ye Feng and Haoran's baby started immediately.

Chapter 3938 Saints Energy

Swish, swish, swish!

The moment Gu Tianming finished speaking, several figures suddenly came to Gu Tianming from all directions and knelt down on one knee.

These figures, both male and female, are all very young, but the aura on their bodies is very powerful. They are all emperor-level beings above the king-level, and they are also tenth-level masters at the peak of the emperor-level.

It has to be said that the foundation of Haoran Academy is really getting stronger and stronger now, and it is probably related to the secret support of the transcendental forces with other advanced interfaces.

After all, the world rules of the entire Origin World are gradually changing, and many inheritances and secrets from ancient times that can make people immortal will gradually resurface.

Therefore, although many powerful cultivating civilizations in high-level interfaces, including the heavenly realm, cannot come to the world of origin in person for the time being, they have used some ancient and special methods to secretly find their own spokespersons in the world of origin,

striving to serve the entire future. Prepare for the complete recovery of the world of origin and make arrangements in advance.

At this time, Gu Tianming, the current acting dean of Haoran Academy, was kneeling on one knee in front of him. All of them were his direct disciples who had been secretly trained by him. Each of them was a very powerful genius, more than the top geniuses that Haoran Academy had introduced before. are many times stronger.

At this moment, there were four figures kneeling down in front of Gu Tianming, three men and one woman. They were named Lu Fei, Xu Shan, He Wushuang and Shen Yue.

These four figures are all super geniuses trained by Gu Tianming. They are his direct disciples. Their cultivation strength is all at the tenth level, the peak of the emperor level. They are only one step away from being able to step into the emperor level above the emperor level. class.

This kind of strength is considered a top-notch master in the entire world of origin, and it is very powerful.

Moreover, they may have this extremely powerful ancient inheritance taught to them by Gu Tianming, which makes their combat effectiveness even more terrifying.

At this time, the four super geniuses knelt in front of Gu Tianming and said loudly: "Master, please rest assured, we will also go out to find those two thieves. According to our judgment, those two One of the thieves is Baby Haoran, and the other is Baby Haoran's good brother, Ye Feng, the son of God of the Wanjie Martial Arts Academy."

Hearing what his disciples said, Gu Tianming immediately showed a hint of fear in his eyes and said loudly: "The Ten Thousand Realms Martial Arts Academy is not easy to mess with. The Tianshu Dean of the Ten Thousand Realms Martial Arts Academy is a very scary person. Guys, but these two thieves stole my most precious treasure, the Eye of the Saints, and they must settle the score."

Among the four super geniuses, Lu Fei was a young man wearing a black robe with a sinister look in his eyes. At this moment, he immediately smiled coldly and said: "Master, please don't worry, as long as we don't reveal it, who knows?" Who are the two people we are chasing? As long as we kill them secretly, even if the Wanjie Martial Arts Academy knows about this, it's hard to say anything, because they have indeed stolen our Haoran. The most precious treasure of the academy comes first."

Hearing what Lu Fei said, Gu Tianming nodded slightly, then with a cold look in his eyes, he said: "Don't worry, Dean Tianshu of Wanjie Martial Arts Academy, although his strength and cultivation are very terrifying, but now Origin The world rules of the big world have not been completely changed. He cannot use his peak power, so there is nothing to be afraid of. Moreover, behind me, there is the support of a big shot from the heaven. Even if that big shot cannot send a powerful existence, he Last time, through some special means, a lot of terrifying inheritance was delivered to me. I am not far away from the real realm of domination. You all behave well this time. If you can catch Baby Haoran and Ye Feng, let them bring them back. , regain the Eyes of the Saints in them, then, I will pass on the super inheritance transmitted to me by the big people behind me, and make you the strongest young generation in our Haoran Academy, and follow me to conquer the world in the future. !"

"Thank you Master!"

Hearing what Gu Tianming said, the four super geniuses present all expressed surprise.

Uh-huh!

At this moment, suddenly a young figure shrouded in black robes flew over not far away.

This young figure is more terrifying than the four geniuses present. His aura is very unfathomable. He has clearly surpassed the emperor level and is a god-level existence above the emperor level.

This is actually an emperor-level genius!

Very rare.

Even in the world of major giants, emperor-level geniuses are very precious.

This person is Gu Tianming's favorite disciple, Xiao Chen.

At this time, Xiao Chen was shrouded in a black robe and was unfathomable. He flew over, clasped his fists and said loudly: "Master, please allow me to take action. I have learned that Ye Feng helped Baby Haoran kill Xiao Mo and Chen Ling, and Xiao Mo is my biological brother. I must avenge my brother and cut that Ye Feng into pieces. "

Hearing what Xiao Chen said, Gu Tianming nodded slightly and said loudly: "You have been lurking for so long, it is time to prove your strength to the people of the world. Before, you were practicing in seclusion secretly, and the people of the world didn't care at all. Knowing that there are such powerful super geniuses in our Haoran Academy, this time is your chance to prove it to the world. Killing Ye Feng, the god son of Wanjie Martial Arts Academy, is the best proof of your strength, because that Ye Feng, now in the entire Righteous Alliance, the voice is very high, and he is vaguely known as the number one genius, huh, all because he entered the dark trial before and killed half of the geniuses of the Dark Alliance, and now Ye The wind will become your stepping stone, making you famous all over the world, and it will make our Haoran Academy famous all over the world."

"Don't worry, Master! We will definitely kill both baby Haoran and Ye Feng!"

After finishing speaking, these super geniuses all left one after another, with terrifying cultivation aura emitting from their bodies, and joined the search team outside.

At this time, in a jungle not far from the base camp of Haoran Academy.

Ye Feng and Baby Haoran were running away quickly.

Because Ye Feng had already sensed it, at the moment when Baby Haoran was refining and merging the Eyes of Saints, a terrifying aura of half-step dominion suddenly arrived.

Fortunately, Ye Feng left with Baby Haoran at the critical moment, otherwise, he would definitely not have been able to escape the half-step dominance level pursuit of Gu Tianming.

At this time, Ye Feng and Baby Haoran were lurking in the jungle.

They suddenly discovered that there was a divine light flashing in the distance, and there were countless figures faintly searching the entire sky and the ground.

Obviously, these are powerful search teams sent by Haoran Academy.

At this time, Baby Haoran couldn't help but said aloud: "I didn't expect that their movements were so fast, and they also instantly contacted the strong men in the outer territory of our Haoran

Academy, creating a blockade that prevented us from escaping from Haoran Academy. Territory scope.”

Ye Feng nodded slightly at this time, and then said aloud: "We will not escape for the time being. If we continue to flee, we will probably encounter those strong men who are searching. Under the detection of so many strong men's spiritual thoughts, even the void passage opened by the space gem cannot completely hide our traces. Our best way now is to let you completely refine the Eyes of the Saints first. "

Haoran babyton

Shi just nodded and lurked in the jungle.

At this moment, Baby Haoran's whole body was radiating white light, looking very sacred, like a descendant of a god.

At this time, the Eyes of Saints were scurrying around in Baby Haoran's body, making Baby Haoran very uncomfortable.

Ye Feng said aloud at this time: "Next, I will help you completely refine the Eyes of the Saints, so that the treasure of the Eyes of the Saints will completely become a part of your body. In this way, you can greatly activate your With the power of bloodline, your cultivation level will be improved again, and it is possible to even reach the king level."

When Baby Haoran heard what Ye Feng said, he immediately nodded his little head very solemnly, with an innocent face full of seriousness, and said loudly: "If my cultivation level can reach the king level, , with the help of the power of the Eyes of Saints, we will definitely be able to help Brother Ye Feng fight against those masters."

Ye Feng immediately nodded, then stretched out a hand and placed it on the top of Baby Haoran's head, instantly bursting out his powerful magic power.

Although Ye Feng's cultivation level is at the seventh level of King level.

But the vastness of Ye Feng's magic power is comparable to that of an emperor-level existence.

So at this time, after Ye Feng input his own mana, the Eye of the Saints in Baby Haoran's body immediately stopped running around, but was restrained by Ye Feng's mana.

At this moment, a terrifying saint power suddenly burst out from the Eyes of Saints, obviously wanting to resist Ye Feng's imprisonment.

Ye Feng immediately spoke out at this moment: "Baby Haoran, concentrate on thoroughly refining the Eyes of the Saints and make it a part of your body."

Baby Haoran nodded immediately, not daring to be distracted, and quickly started to use his skills and blood energy, and began to turn into energy threads, quickly winding towards the Eye of the Saints in his body.

During this process, the Eye of the Saints continued to erupt with waves of terrifying energy, causing Baby Haoran's small body to collapse rapidly.

Baby Haoran immediately became very painful and shouted: "Brother Ye Feng, I feel like my whole body is about to completely fall apart. Am I going to die?"

Seeing this scene, Ye Feng immediately frowned.

The power of the Eyes of Saints is too terrifying after all. Even if Baby Haoran's body contains part of the original power of the Eyes of Saints, it still cannot bear the energy frenzy that the Eyes of Saints burst out at this time.

This treasure is so terrifying that it would be difficult for ordinary people to carry the terrifying energy of the ancient saints.

Ye Feng immediately spoke out at this time: "I am here to absorb the power surge erupted by the Eyes of Saints. I will never let this power surge completely crush your body, baby Haoran. Otherwise, Haoran baby, you are really going to die."

When Baby Haoran heard what Ye Feng said, he immediately said eagerly: "Brother Ye Feng, then hurry up and absorb this wave of power that bursts out from the Eyes of Saints. I feel like my body can't hold it anymore." Come on, no wonder this Eye of Saints is so valued by my father. The energy of Saints contained in it is really terrifying. Fortunately, brother Ye Feng, you have the devouring talent and can absorb the energy emitted by this Eye of Saints. A frenzy of power,

otherwise, I wouldn't be able to conquer this terrifying treasure by myself, because the power of countless ancient saints contained in it is really terrifying.”

At this moment, Ye Feng released the Devouring Domain and began to absorb the power of countless ancient saints erupted from the Eyes of Saints.

Only by absorbing all the violent power of the Eyes of Saints can the Eyes of Saints become honest, and then

Integrated into the body by Haoran Baby.

"Rumble..."

At this moment, with the devouring, Ye Feng's eyes suddenly lit up, and his skill had increased tremendously.

Because the power contained in the Eye of Saints, which is the power of countless saints in ancient times, is naturally very advanced and powerful, Ye Feng's skill in Dantian immediately increased tremendously.

This is a good thing that kills two birds with one stone.

On the one hand, Ye Feng can absorb the power of the ancient saint left in the Eye of the Gods, which can greatly increase his skill and cultivation.

On the other hand, in the Eye of All Saints, after this violent saint power is absorbed by Ye Feng, it will not harm baby Haoran. Baby Haoran can quietly control and integrate the Eye of All Saints into his own body.

At this moment, Ye Feng's cultivation aura suddenly began to break through rapidly.

"boom!"

The eighth dan of the king level!

"boom!"

The ninth dan of the king level!

"boom!"

The tenth dan at the king level!

"boom!"

Half-step to the imperial level!

At this time, Ye Feng's cultivation breath finally stopped, and he suddenly got such a huge breakthrough, which made Ye Feng sigh that it was indeed the energy of the ancient saints, even if it was only a part of the energy left in the eyes of the saints, it was powerful and vast. , like the vast ocean, Ye Feng's skill has greatly increased.

Buzz!

At this moment, Ye Feng looked in front of him and found that the Eye of the Saints had been completely integrated and controlled by Baby Haoran.

At this time, the Eye of the Saints appeared on Baby Haoran's forehead, emitting a faint white light. Baby Haoran had a "third eye" and looked very sacred.

In addition, after baby Haoran fused with the Eyes of Saints, his cultivation skills also skyrocketed, and he directly transformed and broke through to the king level, the first stage of the king level.

"I have also entered the king level! I can help brother Ye Feng to kill the enemy!" Baby Haoran opened his eyes at this time and felt that his power had entered the king level, and he was very happy.

Because in the great world of origin, only by reaching the king level can one be considered an ant, have strong fighting power, and not fall down so easily.

Of course, if you encounter a powerful monster like Ye Feng, even if he is in the same realm as Ye Feng, he will be killed instantly. It can only be said that Ye Feng's combat power is too strong.

"Buzz!"

At this time, Baby Haoran tried to use the Eye of the Saints, and the third eye on his forehead immediately burst out with an extremely bright energy beam, instantly shattering a huge mountain in the distance.

"What a powerful force!"

Baby Haoran was very happy and screamed excitedly.

"There is movement over there, go and have a look!" But at this moment, a strong man from Haoran Academy in the distance noticed the movement here, and quickly approached to search.

Baby Haoran quickly asked: "Brother Ye Feng, what should we do now? Should we continue to escape, or should we face the enemy head-on."

Ye Feng thought for a moment, and then said slowly: "Escape while killing, trying to break through the blockade formed by the strong men of Haoran Academy."

Ye Feng originally wanted to go on a killing spree, but he was worried that the half-step master of Haoran Academy might take action. There were also other transcendent beings of Haoran Academy, such as god-level masters or emperor-level masters, who were all very scary.

Therefore, Ye Feng felt that it was better to escape now without getting entangled.

Chapter 3939 Four Geniuses

For Ye Feng, the goal has been achieved now.

The Eye of the Saints has been obtained by Baby Haoran and integrated into the body. Moreover, he has also obtained the energy of the Saints in the Eye of the Saints. His cultivation strength has been greatly improved, and he has directly broken through to the half-step emperor level.

Therefore, Ye Feng felt that it would be better not to get entangled with those super powerful people from Haoran Academy now.

Otherwise, it is very likely that he will perish here.

At this time, Ye Feng immediately took Haoran's baby and began to open a void passage, flying quickly in a certain direction outside, wanting to leave the territory of Haoran Academy as soon as possible.

But Ye Feng just opened up the second space wormhole.

Boom!

He and Baby Haoran directly hit an invisible barrier in the void passage, and could no longer continue to advance secretly in the void passage.

"What?"

Ye Feng immediately showed an ugly look in his eyes, and couldn't help but said: "A space barrier has appeared in the entire territory of Haoran Academy, which can block the space wormhole opened by my space gem. It seems that it is that With the methods of Gu Tianming, the acting president of Haoran Academy, only a half-step master can release such a powerful space barrier to block my space wormhole."

Uh-huh!

At this moment, Ye Feng could only take Baby Haoran and fly out of the space wormhole. He could not continue to release the space channel and escape secretly. He could only escape and walk in the outside space.

Although the space gems are very magical and belong to the Chaos God Emperor at the advanced master level.

However, Ye Feng's current cultivation is not as good as the Half-Step Master. The gap is too big. Therefore, Ye Feng's current Half-Step Emperor cultivation is used to operate the space wormhole

opened by the space gem. Naturally, it cannot break through the ancient times. The space barrier released by Tianming, the half-step master.

At this moment, Baby Haoran also had a look of worry on his little face, and couldn't help but say: "It seems that we can only walk in the outside space now, and we may attract the attention of those chasing us at any time."

Ye Feng nodded, took a deep breath, and said: "Let's go, this place is already far away from Haoran Academy. As long as we continue to move a certain distance, we should be able to completely get out of the territory of Haoran Academy. At that time, the sky will be as high as the birds can fly, and the sea will be as wide as the fish can jump."

"good!"

Baby Haoran immediately nodded excitedly.

Obviously, for the current Haoran Academy, Baby Haoran no longer wants to go back.

Because his father has not come back, Haoran Academy is simply a huge prison for Baby Haoran.

If he continues to stay in Haoran Academy, not only will he die, but all the powerful blood in his body may even be drained, which will be used to enhance the strength of other disciples, and he will die miserably.

At this time, Baby Haoran naturally wanted to follow Ye Feng to escape from the entire Haoran Academy.

"Where to escape!!"

But just when the two were about to move forward, suddenly a dozen figures flew over from the surrounding jungle.

The cultivation levels of these dozen figures are all at the king level, and there are even many masters who are half-step to the king level.

Obviously, they were all elite masters from Haoran Academy, and they suddenly gathered in front of Ye Feng.

The leader is a young man wearing a white robe. He should be a master in Haoran Academy. He has a half-step emperor level cultivation and is at the same level as Ye Feng.

He immediately focused on Ye Feng and Hao

Ran Baobao said aloud: "If you are sensible, just hurry up and capture him, otherwise, I will make you die in pain."

Boom!

But at this moment, Ye Feng didn't bother to talk nonsense at all, and just rushed forward. His whole aura was like a dragon and a tiger, very ferocious, and he suddenly rushed in front of the master of Haoran Academy who spoke out. , the master's head exploded with one fist.

This master of Haoran Academy, who was in the same realm as Ye Feng and was at the half-step emperor level, had no resistance at all in the face of Ye Feng's ferocious attack, and was directly killed by Ye Feng.

"What??"

"How can it be so powerful??"

Seeing this scene, the other dozen or so king-level tenth-level masters present showed deep horror in their eyes.

Everyone couldn't help but exclaimed: "How could this kid next to Baby Haoran have such a strong combat power? Masters at the same level as him were killed by him in an instant? What a terrifying combat power this is!"

At this moment, more than a dozen king-level masters all fled quickly towards the surroundings in fear.

In fact, the ordinary masters of Haoran Academy do not know Ye Feng's true identity. Only a few disciples under Gu Tianming, the acting dean of Haoran Academy, know.

Because this matter is confidential.

Therefore, these masters did not know Ye Feng's true identity at all, and thought that a dozen of them could catch Ye Feng and take him back to claim credit.

Therefore, after these dozen king-level masters discovered the traces of Ye Feng and Haoran's baby, they did not directly notify other strong men of their arrival, wanting to make contributions themselves.

At this time, Ye Feng looked at the king-level masters running around, just smiled coldly, and suddenly burst out his extremely powerful soul power.

Soul power attacks are extremely useful for group damage.

So at this moment, Ye Feng burst out with huge and incomparable soul power, directly forming soul spears and piercing the surroundings.

More than a dozen king-level masters had no time to resist, and they were unable to resist. Ye Feng used the soul spear to instantly pierce their souls. In an instant, the whole person fell from the sky one after another, completely killed. .

boom!

At this moment, Ye Feng released the devouring domain and quickly devoured the blood energy of these dozen masters.

But in the end, there was no breakthrough in Ye Feng's cultivation, but his skill was slightly increased.

It seems that Ye Feng's body now looks more and more like a bottomless pit.

Ordinary masters can no longer satisfy Ye Feng's rapid breakthrough. They can only increase Ye Feng's skill a little bit, but cannot make Ye Feng achieve a qualitative breakthrough.

At this time, Ye Feng continued to move forward with baby Haoran, wanting to leave here as soon as possible.

Next, Ye Feng continued to meet many masters, and they surrounded him and Baby Haoran one after another.

However, none of these masters knew Ye Feng's true combat power, so they basically lost miserably.

Even some emperor-level masters were instantly wiped out by Ye Feng and Haoran Baby together.

So along the way, Ye Feng and Baby Haoran walked very fast.

And after Ye Feng killed him along the way,

His cultivation skills have also been greatly improved.

The bottleneck of breaking through the half-step emperor level is getting closer and closer. There is only one final step left to completely break through the half-step emperor level and enter the true emperor level.

But just when Ye Feng and Baby Haoran were about to completely leave the territory of Haoran Academy.

Swish!

Swish!

Suddenly, four mysterious-looking figures suddenly descended from the sky ahead.

These four figures are obviously different from other ordinary masters.

Their temperament is very extraordinary, and their eyes are very sharp. The cultivation aura exuding from their bodies is impressively that they are all at the peak of the tenth level of the emperor.

These four figures were none other than Gu Tianming's four highly regarded direct disciples, Lu Fei, Xu Shan, He Wushuang and Shen Yue.

Three men and one woman, four direct disciples that Gu Tianming valued very much, are all hidden super geniuses of Haoran Academy. Their cultivation levels are very terrifying, and their inheritance of methods is very powerful. ??

They immediately surrounded Ye Feng and Baby Haoran, blocking their way.

At this moment, Baby Haoran couldn't help but look surprised in his eyes, and whispered in Ye Feng's ear: "Brother Ye Feng, these four young people are all super men who are highly regarded by the old guy Gu Tianming." Geniuses are all at the tenth level of the peak of the emperor level. They are only one step away from being able to step into the emperor level above the emperor level. Moreover, their cultivation inheritance is different from that of ordinary masters. They are ancient. The inheritances imparted by that old guy Tianming are all very powerful, and their combat power is very terrifying, comparable to ordinary emperor-level experts. They are all cultivated in secret and have never been shown in public. "

Hearing what Baby Haoran said, Ye Feng nodded slightly. He also sensed that the cultivation auras of these four people were very extraordinary and powerful. Their fighting power was terrifying and not something ordinary masters could fight against.

This made Ye Feng's eyes reveal a trace of solemnity.

After all, Ye Feng's current cultivation level is only at the half-step emperor level. If he only faced a genius at the tenth level of the peak emperor level, Ye Feng might still be very relaxed.

But four of them suddenly appeared, and their respective cultivation inheritances were very powerful, and their combat power was amazing. They were not ordinary tenth-level emperor-level existences, but super geniuses with strong combat power. This was a bit stressful.

But Ye Feng also knew that this was his chance, because it was not easy to meet such a powerful super genius in other places.

Their skills are extremely pure, and once they are devoured, they will definitely allow Ye Feng to completely break through the current bottleneck.

At this moment, among the four super geniuses, Lu Fei, the leader, couldn't help but look at his companions and asked aloud: "We have met Ye Feng and Baby Haoran, should we inform Senior Brother Xiao Chen?"

Xu Shan, another super genius next to him, shook his head and said with a cold smile: "This divine son of the Ten Thousand Realms Martial Arts Academy has only half-step to the imperial level. Even though his combat power is very powerful, it is impossible for him to fight alone. We can't beat him, but the four of us working together can definitely beat him. As for Baby Haoran, he is just a useless kid, nothing at all. Although Senior Brother Xiao Chen is a super genius with an emperor-level existence, his combat power is terrifying, even better than ours. The four of us together are even more powerful, but we are also very valued direct disciples of Master. This time the four of us join forces, if we can defeat Ye Feng, the divine son of the Wanjie Martial Arts Academy, and Baby Haoran. Kill and kill the eyes of all saints

If we take them back, Master will definitely pay more attention to us. "

After Xu Shan finished speaking, another super genius Shen Yue, the only female disciple, had a pair of beautiful eyes showing a trace of jealousy at this moment, and said aloud: "Master is really jealous of Senior Brother Xiao Chen. He paid too much attention to it. Not only did he pass on his own destiny inheritance to Senior Brother Xiao Chen, but the daily cultivation resources were also tilted too seriously towards Senior Brother Xiao Chen. The cultivation resources of the four of us combined were not as good as those of Senior Brother Xiao Chen. Senior Brother Xiao Chen is alone, so this time we don't want Senior Brother Xiao Chen to make meritorious deeds. We don't want to inform Senior Brother Xiao Chen yet. The four of us are enough to deal with Ye Feng, the son of the World Martial Arts Academy."

At this moment, these four super geniuses discussed with each other, nodded one after another, and decided not to notify Xiao Chen because they wanted to be the number one hero.

Just when the four super geniuses thought they were sure of Ye Feng and Haoran's babies.

Ye Feng, who was standing not far away, suddenly sent a message to Baby Haoran and said: "Baby Haoran, they don't seem to know that you have reached the King level, and they don't know about your combat power. The tempering of the Eyes of Saints has become very powerful. Don't take action later. I will fight with these four super geniuses first. Baby Haoran, just watch the right

moment and deliver a fatal blow. They They won't be defensive against you, because in their eyes you are still a child with weak fighting ability. As long as you can spot the right moment and kill a super genius in an instant, we will have a greater chance of winning. "

When Baby Haoran heard what Ye Feng said, a look of surprise suddenly appeared on his little face, and he quickly said through the voice: "Brother Ye Feng, don't worry, I will definitely act according to your plan. Let them know that I am not a useless kid, I am also a master who can rival a super genius!"

After speaking, Ye Feng nodded slightly, and then deliberately asked Baby Haoran to stand aside, as if he felt that Baby Haoran could not help him.

Ye Feng flew directly towards the four super geniuses in front of him alone.

At this moment, the four super geniuses, Lu Fei, Xu Shan, He Wushuang and Shen Yue, saw Ye Feng flying over alone, and their faces suddenly showed sarcastic smiles.

They all said aloud: "As expected of the divine son of the Ten Thousand Realms Martial Arts Academy, he really values loyalty and is willing to die for Haoran's baby. You are really good brothers."

At this time, Ye Feng just smiled coldly and said, "It's not yet certain who will live and who will die."

Boom!

At this moment, Ye Feng immediately burst out with his half-step emperor-level terrifying cultivation aura, and then without any hesitation, released the inheritance of the extremely powerful space attribute of Endless Space Cutting.

Wow!

Suddenly, many space cracks appeared in the space in front of Ye Feng, and then like swords and sword shadows, they directly bombarded the four super geniuses in front.

Countless space cracks form a dragnet, which is very terrifying and is an all-round attack.

Seeing this scene, Lu Fei and the other four super geniuses immediately smiled sarcastically and said loudly: "Let's take action together to let this god son of the Wanjie Martial Arts Academy know the gap between him and real hidden super geniuses like us. How big is it? The time has come for us hidden super geniuses!"

Boom!

At this moment, the four super geniuses burst out with powerful auras at the tenth level of Huangji Peak, as if the entire void was about to shake and shatter!

Chapter 3940 Chaos Area

boom! !

At this moment, Ye Feng didn't hesitate at all, and directly unleashed his most terrifying power, colliding with the four super geniuses.

Boom!

The entire field immediately erupted with a huge roar.

Ye Feng actually resisted the attacks of the four geniuses by himself.

"What??"

Seeing this scene, these four super geniuses from Haoran Academy couldn't help showing deep astonishment in their eyes.

One of the geniuses couldn't help but exclaimed: "How could this godly son of the Ten Thousand Worlds Martial Arts Academy have such a strong fighting power? His cultivation level is obviously only half-step to the emperor level. Even if his fighting power is very amazing, he cannot compete with him." The four of us are fighting against each other, and the fighting power of the four of us is far beyond that of ordinary people."

At this moment, these four super geniuses were shocked by Ye Feng's super fighting power. ??

And at the moment when they were shocked, Ye Feng immediately sent a message to Baby Haoran not far away, and said loudly: "Do it!"

Boom!

At this moment, Baby Haoran did not hesitate, and directly released his king-level power, and then released the power of the Eyes of Saints.

At this moment, a bright beam of light suddenly burst out from the third eye between baby Haoran's eyebrows, with terrifying penetrating power.

That was the power of the Eyes of Saints, which burst out all of a sudden.

The divine light is like a sword, fierce and domineering!

"Pfft!"

At this moment, the four super geniuses did not react at all. One of them was directly pierced by the power beam erupted from the eyes of the saints in the center of Baby Haoran's eyebrows.

"ah!!"

The super genius who was screaming at this moment was none other than Lu Fei, the leader of the four.

This Lu Fei's cultivation was the most powerful, and the fluctuations in combat power were the most terrifying, so Baby Haoran was very smart. He caught four of them by surprise and killed the most powerful one first.

Lu Fei's head had already been pierced at this time, and he only had time to let out a scream before his whole body fell to the ground, completely dead.

"What??"

"Is he dead now??"

Seeing this scene, the remaining three super geniuses, Xu Shan, Shen Yue and He Wushuang, all had deep horror in their eyes.

Xu Shan couldn't help but exclaimed: "Baby Haoran, I didn't expect that you would also step into the king level, and also completely control the Eyes of the Saints? Otherwise, it would be impossible to unleash such terrifying power! You are so insidious!"

Baby Haoran's delicate little face was also full of cold expression at this time, and he said loudly: "You treated me like this, sealed me, and you also want people to extract all kinds of powerful blood from my body. , It's so cruel, I won't show any mercy to you now, so what if you're a little more insidious?"

At this time, Baby Haoran really started to grow up, and gradually showed no mercy to the enemy and became less hesitant.

At this moment, the remaining three super geniuses all had ugly looks in their eyes.

The only woman among them, Shen Yue, immediately said: "It seems that we need to inform Senior Brother Xiao Chen as soon as possible. We can't deal with this divine son of the Ten Thousand Realms Martial Arts Academy and the baby Haoran who holds the Eye of the Saints. They His strength and methods are really great."

At this time, even these three super geniuses felt that it was impossible for them to fight against the combination of Ye Feng and Baby Haoran.

Because the most powerful Lu Fei has been killed by Haoran Baby with lightning speed.

At this moment, Ye Feng immediately looked at Baby Haoran not far away and said loudly: "Baby Haoran, you continue to release the power of the Eye of Saints and interfere with these three super geniuses. I will hunt them down."

"OK!"

Baby Haoran naturally nodded immediately at this time, and then

In an instant, the power of the Eyes of Saints was activated.

Swish, swish, swish!

Swish, swish, swish!

The terrifying divine light technique burst out from the third eye of Baby Haoran's eyebrows. It was like a magic sword. It burst out from the third eye of Baby Haoran's eyebrows and headed forward. Going crazy.

Although Baby Haoran is now operating the Eye of the Saints, the beam of light released is very terrifying, has very strong penetrating power, and has terrifying killing power.

But the remaining three super geniuses are already on guard, so Baby Haoran's divine light technique can no longer harm these three super geniuses, but they can still be forced. These three super geniuses are a little confused.

So at this time, Ye Feng naturally took action directly.

At this moment, Ye Feng didn't hesitate at all. He wanted to cut through the mess quickly and directly released his extremely powerful attack magic weapon, the nine-color feather.

Uh-huh!

This nine-color feather is the strongest feather given to me by the nine-color peacock, the most magnificent goddess beast of the ancient sacred mountain in the heaven.

So at this moment, Ye Feng released the nine-colored feathers, which was like releasing a divine sword composed of nine-colored divine light. The speed was very fast, just like lightning, and it was heading forward all of a sudden. Xu Shan, the second most powerful among the three super geniuses, quickly attacked and left.

At this moment, Xu Shan saw Ye Feng releasing the nine-colored feathers, which had terrifying piercing power, and immediately couldn't help but yell: "Taikoo Town Tianyin."

At this moment, a palm-sized bronze seal suddenly appeared in Xu Shan's hand.

However, the moment this palm-sized bronze seal was thrown by Xu Shan, it expanded rapidly and became the size of a small mountain. It had to resist the nine-color feathers released by Ye Feng.

But he underestimated the nine-color feather in Ye Feng's hand. He also didn't know that the nine-color feather in Ye Feng's hand was the most powerful feather on the ancient divine beast. It was like the sword of the gods, with terrifying tearing power. Split strength.

"Crack!"

Almost at this moment, the nine-color feather in Ye Feng's hand burst out with a terrifying cutting light, which seemed to be able to cut through everything, directly cutting the bronze seal released by Xu Shan into two halves. .

"What??"

Seeing this scene, Xu Shan's face suddenly showed a look of horror, and he couldn't help but exclaimed: "This bronze seal is a powerful magic weapon given to me by the master himself. It is definitely the best in the world of origin. How could the magic weapon be cut in half by the nine-color feather in your hand? Doesn't the nine-color feather in your hand belong to our origin world and is a super magic weapon from a more advanced and powerful interface? So powerful!"

Ye Feng just smiled coldly at this time, not bothering to talk nonsense at all. He controlled the nine-color feathers in the sky, and then immediately headed towards Xu Shan to kill him.

"ah!!"

Xu Shan simply couldn't resist the terrifying nine-color feathers. He was split into two halves and died tragically on the spot.

The four super geniuses, Lu Fei and Xu Shan, have been completely killed, leaving only the last two super geniuses, Shen Yue and He Wushuang.

At this time, He Wushuang immediately took out a silver token from the storage ring and threw it high into the sky.

Boom!

At this moment, a silver beam of light burst out from the silver token, exuding a bright light.

Seeing this scene, Baby Haoran immediately couldn't help but said: "No! Brother Ye Feng, this is the summons token of our Haoran Academy. It is estimated that many super masters will go here later, and they will The senior brother Xiao Chen I mentioned before seems to be an emperor-level genius, the most mysterious person in our Haoran Academy.

A powerful existence, very powerful, and it seems to have the inheritance from the transcendent power in the heaven that is supported by our Haoran Academy. "

When Ye Feng heard what Baby Haoran said, he immediately nodded, then rushed forward and punched out hard. The terrifying Hongmeng Qi burst out from his fist, matching the terrifying Hongmeng Immortal Body. The power directly crushed He Wushuang, who was summoned, in an instant.

When Shen Yue saw this scene, a look of deep horror suddenly appeared on her beautiful face.

Because she never thought that three of their four super powerful geniuses would die in the hands of Ye Feng and Baby Haoran, leaving only Shen Yue as the last super genius.

Shen Yue felt extremely regretful at this time. She shouldn't have been so arrogant and not informed Senior Brother Xiao Chen in advance.

But it's too late now.

Originally, these four super geniuses were planning to become famous all over the world after the entire Origin World was revived.

But now three are dead.

I have to say that no one really knows what will happen tomorrow during the journey of spiritual practice.

"Blood Escape Technique!"

At this moment, Shen Yue immediately spurted out a stream of blood and performed a blood escape technique. The whole person disappeared directly on the spot, and even Ye Feng could not catch it for a moment.

Seeing this scene, Ye Feng did not go after Shen Yue directly, because he had already sensed that in the surrounding jungle, many super strong men with terrifying auras were approaching in this direction, and they had obviously seen the previous summons. A silver beam of light erupted from the card.

Ye Feng said aloud: "Our position has been exposed. We should not waste time now, we should hurry up and get out of here."

At this moment, Ye Feng released the Devouring Domain, swallowing up all the blood energy and skills of the three super geniuses, Lu Fei, Xu Shan and He Wushuang.

boom!

Ye Feng's skill suddenly underwent a qualitative transformation, and he finally stepped from the half-step to the emperor level to the first stage of the real emperor level!

At this moment, Ye Feng immediately felt that his power had increased dozens of times.

However, Ye Feng doesn't want to get entangled with these super masters from Haoran Academy, because their positions have been exposed, and it is very likely that many super masters will come quickly, and there may even be god-level ones, or even that one The acting dean, a half-step master level existence, may come here, and Ye Feng cannot stop it now.

Even if Ye Feng's cultivation has now reached the first level of the true emperor level, Ye Feng doesn't want to get entangled anymore.

Because Ye Feng's current strength alone is not enough to fight against an entire giant force like Haoran Academy.

Uh-huh!

Ye Feng wasted no time, plundered all the storage rings of several geniuses, and immediately left here quickly with Baby Haoran.

Now Ye Feng's cultivation has been improved again, to the true emperor level, so the space gem has opened up a space wormhole, and those space barriers can no longer stop Ye Feng.

Because Ye Feng's power has now increased dozens of times, he is more proficient in using space gems, and the space wormholes he created are also more powerful.

Finally, Ye Feng took Haoran's baby and successfully left the territory of Haoran Academy.

We have almost reached the westernmost edge of the eastern land, and are close to the central ocean area adjacent to the eastern land.

In other words, Ye Feng will soon reach the destination of his trip, the Sea of Chaos.

At this moment, Ye Feng took Baby Haoran to a small town on the edge of the Sea of Chaos and stayed in an inn.

At this time, Ye Feng finally breathed a sigh of relief.

This place is already within the scope of the Sea of Chaos at the junction of the eastern land and the central ocean. It is a no-nonsense zone.

Therefore, no matter how many powerful people there are in Haoran Academy, they will not be able to

Dare to come here in a big way rashly.

Otherwise, if it causes hostility among many ancient families and superpowers in the Sea of Chaos area, Haoran Academy will also be unable to bear it.

Haoran Academy is not that bold yet.

At this time, the two of them finally breathed a sigh of relief.

Baby Haoran seemed very happy and said loudly: "I finally escaped from Haoran Academy. My strength has also reached the king level, and I also took away the Eyes of Saints. This time I really have to thank Brother Ye Feng. , Otherwise, I will probably be dead, and even all the powerful blood in my body will be drained."

Hearing what Baby Haoran said, Ye Feng smiled slightly and said: "I also got a lot of benefits this time. Not only did I absorb the remaining saint power from the Eye of Saints, but I also killed the old man from Haoran Academy. The three direct disciples of Gu Tianming, the acting dean of the East and West, gave him a hard lesson. They also absorbed the skills of three super geniuses and successfully allowed me to enter the imperial level. In this way , As long as they are not at the peak of Emperor level or God level, I am no longer afraid of ordinary masters."

Baby Haoran immediately nodded, and then asked aloud: "Brother Ye Feng, we have now reached the scope of the Sea of Chaos. Now we want to go directly to the family behind you, Brother Ye Feng?"

Baby Haoran now knows that Ye Feng left the Wanjie Martial Arts Academy this time and traveled thousands of miles to come here, not just to visit Baby Haoran, but to enter the family behind Brother Ye Feng.

That family is in the sea of chaos.

Ye Feng nodded slightly at this moment and said aloud: "Originally, I wanted to take you to the Cemetery of Gods and Demons to find your father and see if he was trapped somewhere, but our current cultivation strength , after all, it's still not enough. Beings of your father's level are trapped in the Shenmo Cemetery. If we go there, we will probably just die, there is no meaning."

Baby Haoran nodded slightly and said loudly: "Then we will wait until we become stronger, and then go to the Cemetery of Gods and Demons to look for my father. My father is a master-level existence and the most powerful creature in the world. He should It's not so easy to die in the

cemetery of gods and demons. I also feel that dad is not dead yet, but is trapped somewhere in the cemetery of gods and demons.”

Ye Feng nodded and said: "Next, let's go to the Sea of Chaos first to see if we can find the family behind me. My relatives are also there."

Baby Haoran's eyes showed a look of expectation, and he said aloud: "I have heard my father say a long time ago that the Sea of Chaos is a very chaotic place, but it is also a place full of all kinds of opportunities, and the Sea of Chaos is a very chaotic place. The sea is located at the junction of the eastern land and the central ocean. It is only separated from the legendary western land by the central ocean. Therefore, there are not only various practitioners from our eastern land here, but also various marine races in the ocean, and even some people. There are some powerful practitioners in the western land. I heard that in the western land, there are very burly giants, beautiful fairy elves, and even very powerful dragon knights. If there is a chance, I would also like to I met a dragon knight from the western land and saw if I could buy him. The mounts of the dragon knight are all giant dragons from the western land. They are very domineering. "

Hearing what Baby Haoran said, Ye Feng couldn't help but shake his head and smile, and then said aloud: "Let's rest in this inn for a few days, and then go directly to the depths of the Sea of Chaos."

Ye Feng knows that the Ye family is an ancient family in the Sea of Chaos, so it should live in the deep area of the Sea of Chaos, isolated from the world.

And now the entire Ye family has closed itself off in order to prevent the Dark Demon Cult from invading the entire family.

Therefore, it is still very difficult to find the location of the Ye family's real headquarters.

But now that Ye Feng has arrived here this time, he will not give up easily.

He must find the location of the Ye family's headquarters and see how his father and mother are doing now. Ye Feng naturally misses them very much after not seeing them for a long time.
