

Ancient 3951

Chapter 3951 Eye of Heaven and Earth

Buzz!

The entire ancient famous mountain feels very majestic and vast, making people feel as if they are facing an ancient giant.

Even all the young geniuses present had very profound cultivation abilities. They all felt as insignificant as ants in front of this famous ancient mountain.

This made everyone couldn't help but have deep amazement in their eyes.

Some experts couldn't help but said: "In the glorious era when our world originated, I don't know how prosperous it was. Just seeing this famous ancient mountain in the glorious era, I can imagine the glory back then. Degree." ??

The moment the master finished speaking, many people around him couldn't help but nodded in agreement.

At this time, the young city lord of Chaos City suddenly said: "We are now almost halfway up the mountain. This ancient famous mountain has become very dangerous from the halfway point. The higher the cultivation level, the more dangerous it is." The taller and stronger the existence, the higher the height will be climbed, so next we have to work together. After all, our individual strength is definitely not as good as those of the older generations, but as long as we unite, we can climb of higher."

Hearing what the young city lord of Chaos City said, everyone nodded.

At this moment, Ye Feng looked at Shangguan Tianya, Phoenix Goddess, and Baby Haoran beside him, and whispered: "Follow me when the time comes. This famous ancient mountain is very dangerous, even if we are both top geniuses. Level existence may also fall at any time."

After hearing what Ye Feng said was so serious, both Shangguan Tianya and Phoenix Goddess showed deep surprise in their eyes.

But they believed Ye Feng's words, because Ye Feng couldn't scare the two of them for no reason.

Naturally, Baby Haoran had no choice but to trust Ye Feng.

At this time, Shangguan Tianya, Phoenix Goddess and Baby Haoran were all standing next to Ye Feng, very close to him.

In this way, everyone can help each other and be able to respond to dangers around them at any time.

"Boom!"

Just when everyone reached the mountainside and continued to climb up, suddenly a blue-purple lightning burst out from somewhere on the surrounding mountain, from a seemingly ordinary rock, and instantly engulfed everyone. An emperor-level martial arts master was instantly crushed.

This emperor-level martial arts master came from a large family in the eastern land. He was also a very powerful genius. However, he didn't expect that he was killed in an instant, and he didn't even have time to scream.

You know, this was an emperor-level master. Although it was not that rare, he was still considered a pretty good master in the Origin World, but he was still killed in an instant.

"very scary!"

The young city lord of Chaos City immediately couldn't help but said: "This is the power of the ancient formation in the famous ancient mountains. Do not get close to the area near that rock, otherwise, you will be affected by the power of the formation. Destroyed instantly."

At this time, everyone saw that the emperor-level master who was instantly killed was slightly deviated from the position where he was standing, and was instantly obliterated by the hidden formations around him.

When everyone saw this scene, they were all secretly frightened and felt chilled in their hearts.

Even some young masters who were not afraid at all before now showed a trace of solemnity in their eyes.

It seems that the terrifying formation passed down from ancient times in this famous ancient mountain is not a joke to them, it is really terrible.

At this moment, the young city lord of Chaos City immediately warned: "Everyone must be careful. Now we

You may encounter dangers at any time, and these dangers come from the invisible, because no one can see through where the formation is. "

When everyone heard what the young city lord of Chaos City said, they all nodded and their expressions became very solemn.

Even the group of arrogant guys from the western land, such as the dragon knights and others, stopped their contempt at this moment.

This famous mountain from the ancient glorious era that suddenly appeared in the eastern land was much more terrifying than they imagined.

At this time, Ye Feng suddenly discovered something unusual.

At this time, Ye Feng held his breath and concentrated, and he was able to see through his own eyes the surrounding formation framework and structure formed by the power of heaven and earth that ordinary people could not see.

"What's going on..."

Seeing this scene, Ye Feng immediately widened his eyes slightly. He never thought that he could actually see the specific structures of various powerful and ancient formations around this famous ancient mountain. ??

This ability immediately surprised Ye Feng.

In this way, Ye Feng can definitely seek advantage and avoid danger, and avoid the harm of various terrifying formations in this famous ancient mountain.

At this moment, Ye Feng suddenly received a blood message in his mind.

Ye Feng understood everything immediately.

It turns out that the reason why I was suddenly able to see the faint framework and structure of the formation around me was because my bloodline talent at the sixth level of the Hongmeng Immortal Body was finally slowly awakening.

The sixth-level bloodline talent is called Eyes of Heaven and Earth, which allows Ye Feng to have a pair of eyes that can see through the power of heaven and earth.

And you must know that no matter what the formation is, even the terrifying ancient formation or restriction left in this famous ancient mountain, its essence is that the ancient strong man used some special equipment or materials to stir up the entire world.

The general trend of the surrounding heaven and earth, that is, the power of heaven and earth, thus formed a special formation, or restriction.

Therefore, Ye Feng has the Eye of the Emperor of Heaven and can see through the power of heaven and earth and the general trend of mountains and rivers. Naturally, he can see the structure of various formations.

At this moment, Ye Feng's eyes showed deep ecstasy.

Unexpectedly, at the critical moment, the blood talent of the sixth level of his Hongmeng Immortal Body slowly awakened, giving Ye Feng a pair of eyes of heaven and earth that can see through all kinds of forces of heaven and earth.

This is simply an unparalleled talent, allowing Ye Feng to have great conveniences that others simply do not have in the process of exploring famous ancient mountains.

So at this moment, Ye Feng couldn't hide the ecstasy in his eyes.

Shangguan Tianya, Phoenix Goddess, and Baby Haoran beside him all clearly felt Ye Feng's emotional changes.

Shangguan Tianya immediately couldn't help but patted Ye Feng's shoulder and said loudly: "Brother Ye, what's wrong with you? Do you have any grudge against the emperor-level master who was killed by the formation just now? He died tragically, so you That's why I'm so happy."

Ye Feng couldn't help but shook his head immediately, and then said aloud: "That's not the reason. I just suddenly discovered that there were some incredible changes in my eyes."

At this moment, Ye Feng did not directly say that he was gradually able to see through the framework and structure of the entire formation.

Because Ye Feng's Eye of Heaven and Earth has just awakened and is not yet proficient, Ye Feng can only see through some relatively basic formations.

However, there are endless extremely advanced and terrifying formations in this famous ancient mountain, as well as ancient restrictions, which Ye Feng cannot yet see through.

Therefore, Ye Feng did not speak out about his ability all at once. After all, he had not yet fully awakened it, so as not to be embarrassed if he misunderstood and put Shangguan Tianya, Phoenix Goddess and others in danger.

Chapter 3952 Dragon Soul Fruit

Buzz!

At this moment, Ye Feng continued to use his newly awakened sixth-level bloodline talent, the Eye of Heaven and Earth, and looked around.

The next moment, Ye Feng could indeed see that most of the mountains of this ancient famous mountain contained ancient formations, which had very dangerous destructive and lethal power.

Seeing this scene, Ye Feng couldn't help but take a breath of air.

This famous ancient mountain is simply like a forbidden land shrouded in countless formations.

One wrong step and you may die in an instant. ??

However, their current location is okay. After all, they have just arrived halfway up the mountain. There are not too many formations and it is a relatively safe area. It becomes more and more difficult to walk towards the end.

At this moment, Ye Feng looked towards the top of the mountain and found that the higher you went to the top of the mountain, the more formations there were, and the levels of the formations were getting higher and higher.

Even at the end, Ye Feng used his eyesight to look towards the highest direction of the mountain and found a misty white fog that was impossible to see through.

In other words, my current ability of the Eye of Heaven and Earth is not fully mature yet, and I am still unable to see through all the formations of this mountain.

Therefore, Ye Feng can only see the framework and structure of some elementary formations now.

Some of the more advanced and terrifying formations are still not visible to Ye Feng for the time being.

After discovering this at this time, Ye Feng felt that he should not rely on others for the time being.

If you are too arrogant and think that you have the Eye of the Emperor, you can see through some formations, and you can act unscrupulously on this famous ancient mountain, then you will definitely end up very miserable.

But after all, Ye Feng has awakened the Eye of Heaven and Earth, and can slowly cultivate the Eye of Heaven and Earth, allowing himself to see more and more advanced formations. In this case, there will be no problem.

At present, Ye Feng feels that it is safer and safer for him to follow the others and explore slowly.

At this moment, Ye Feng discovered that the young city lord of Chaos City who was leading the way had a golden compass in his hand, with a pointer on it, which seemed to indicate the direction.

The road they are currently walking on is still very safe.

This made Ye Feng look surprised.

It seems that the young city lord of Chaos City can sense some dangerous formations around him with the golden compass in his hand, allowing everyone to walk in a safe place.

However, Ye Feng's Eye of Heaven and Earth is of course more advanced and can directly see through all the frames and structures of the surrounding formations.

As long as the formation can be seen by Ye Feng, Ye Feng can enter the formation very skillfully and will not be harmed by the formation.

Because not every position in the area covered by the formation will be harmed by the formation.

There are some places in the formation that are very safe.

Ye Feng can see through the entire framework and structure of the formation, and can naturally walk safely within the formation.

According to the information in the bloodline talent, even in the final stage of development, Ye Feng may use his Eye of Heaven and Earth to change the structure and framework of the entire formation, allowing him to have the ability to change the general trend of the world at any time.

It was absolutely extraordinary and terrifying.

Thinking of this, Ye Feng suddenly showed a hint of joy in his eyes.

In any case, now that I have awakened the Eye of Heaven and Earth, even if it is only the initial Eye of Heaven and Earth, it is an extra safety net compared to many other masters and young geniuses around me.

At a critical moment, it is very likely that this is the trump card to save your life.

At this time, Ye Feng remained silent, still standing in the crowd, silently practicing the Eye of Heaven and Earth.

Ye Feng naturally hopes to quickly cultivate the Eye of Heaven and Earth to a more advanced level, so that he can see through more advanced formations.

It will definitely be safer to explore the fortunes of chance on this famous ancient mountain.

"Look! There is a crimson fruit there. The fruit is emitting bright light and condenses into a small red dragon!"

Suddenly at this moment, someone couldn't help but exclaimed, as if they had discovered something special.

Swish!

Swish!

Everyone looked in that direction, and sure enough they saw a bright red fruit growing on a small green tree.

Among the crowd, there were some powerful elders who couldn't help but exclaimed: "This seems to be the legendary Dragon Soul Fruit. This is a treasure of heaven and earth that was only recorded in ancient books and has long since disappeared in the long river of history." Among them, I didn't expect one to appear here. It seems that this ancient famous mountain is really the place passed down from the glorious era of our origin in the great world. This kind of fruit cannot be bred by many advanced interfaces. Only our origin Only then will the great world, the place where all things originate, appear."

Someone else in the crowd nodded, with awe in his eyes, and said loudly: "It is said that after eating this dragon soul fruit, one can instantly possess the ancient dragon soul body, and can use the ancient dragon soul's power. The power can transform an ordinary practitioner into a new person in an instant. It possesses the supreme power of creation and is absolutely a rare treasure."

Hearing what these elders said, many of the experts present couldn't help but have deep fiery looks in their eyes.

Uh-huh!

Uh-huh!

Uh-huh!

At this moment, several young geniuses immediately came to

He rushed over and wanted to pick the bright red Dragon Soul Fruit at that moment.

Shangguan Tianya and Phoenix Goddess, who were standing next to Ye Feng, also wanted to take action and fight for it.

But at this time, Ye Feng held the shoulders of the two of them, shook his head and said: "Don't go there, there is huge danger around that Dragon Soul Fruit."

At this moment, Ye Feng was turning his eyes of heaven and earth, and he could clearly see that the dragon soul fruit that looked very tempting was actually surrounded by two very terrifying ancient formations.

But ordinary people without Ye Feng's eyes of heaven and earth cannot see through it.

At this time, Ye Feng also clearly discovered that the young city lord of Chaos City who was standing at the front did not take action immediately.

Obviously, the young city lord of this city of chaos can use the compass in his hand to sense that there is great danger around the dragon soul fruit, and there may be ancient formations hidden there.

But the young city lord of Chaos City did not stop the three young masters who went to snatch the Dragon Soul Fruit.

Ye Feng understood immediately. It is estimated that the young city lord of the Chaos City did not know how powerful the formation around the Dragon Soul Fruit was, so he did not stop the young masters who went to snatch the Dragon Soul Fruit. It seemed that If you want others to be cannon fodder, go there first and try it out.

Boom!

And sure enough, the three young masters who rushed to the front all had the same level of cultivation as Ye Feng, and were second-level masters of the imperial level.

But when they were about to get close to the Dragon Soul Fruit, suddenly the ground around them, which was originally calm, suddenly emitted a very terrifying light of flames, which instantly burned a nearby young master to ashes. , didn't even make a scream, and died instantly.

On the other side of the Dragon Soul Fruit, an extremely cold air suddenly burst out from the ground, freezing the other two young masters directly in place, freezing them into two ice sculptures, and then the ice sculptures quickly shattered. It turned into fragments.

Three emperor-level masters died in an instant!

"hiss!"

Seeing this scene, everyone couldn't help but gasped, with deep fear in their eyes.

They never thought that the seemingly calm ground would suddenly release such terrifying killing power.

Suddenly someone couldn't help but said: "That Dragon Soul Fruit, there are two terrifying formations on the ground around it. If you get closer, the power of the formation will be activated. What a pity. This is a legendary fruit. After eating it, it can greatly enhance the practitioner's physique. It contains the power of the ancient dragon soul and can make people reborn. "

Everyone felt very sorry.

Even the young man from the city of chaos

The city lord couldn't help but shook his head and decided to give up this extremely rare dragon soul fruit.

Because although the compass in his hand can seek benefits and avoid dangers, it can only predict the dangers of the formation and cannot directly break the formation and obtain the fruits.

And just now everyone also saw the terrifying destructive power of the two formations around the fruit. Even the emperor-level masters were killed in an instant.

It is estimated that even the emperor-level masters above the emperor-level cannot bear it.

Of course, the old law enforcement man next to the young city lord of Chaos City may be a god-level master above the emperor level, but he does not dare to take risks.

It's not worth it for a god-level master to risk his life for a fruit.

Therefore, even the young city lord of the City of Chaos could only give up on the sudden appearance of the Dragon Soul Fruit and continue moving forward with everyone.

But at this time, Ye Feng in the crowd flashed his eyes slightly.

Because the formation around the Dragon Soul Fruit is not particularly advanced, it is just a rudimentary ancient battle method, and Ye Feng can see through it.

Since Ye Feng can see through the framework and structure of the two formations around the Dragon Soul Fruit, it means that Ye Feng can walk safely in these two formations.

Moreover, the three young masters had already tested it for Ye Feng. There were only those two formations around the Dragon Soul Fruit, and there were no other formations.

Ye Feng originally suspected that he only saw two formations around this fruit, but there might be more advanced formations that he couldn't see.

However, when the three masters approached the fruit, they only activated two formations and were killed by the two formations.

It seems that there are only two formations and no other more advanced formations.

At this moment, Ye Feng immediately looked at Shangguan Tianya, Phoenix Goddess, and Baby Haoran beside him, and said loudly: "You guys cover for me, surround me, I'll come as soon as I go."

At this moment, Ye Feng stood in the middle of the three people, running the space gem and directly entering the void.

No one around noticed this scene.

Because Shangguan Tianya, Phoenix Goddess, and Baby Haoran surrounded Ye Feng.

At this moment, seeing Ye Feng disappearing into the void, Shangguan Tianya couldn't help but said in shock: "Brother Ye...could he be trying to pick that Dragon Soul Fruit? That's too dangerous."

At this time, the Phoenix Goddess's beautiful eyes showed a hint of thinking, and she said aloud: "Since Ye Feng thinks he can pick it, there should be no problem. After all, there have been masters who have tried it before, and they were beaten by two terrifying... The formation was wiped out instantly, and Ye Feng also saw this scene with his own eyes, so he is not so impulsive and must have his own countermeasures and methods. We can just cover him with peace of mind and wait for his return. "

Chapter 3953 Silver Paper

Buzz!

At this time, Ye Feng was running the space gem, and he was quickly traveling through the void.

No one discovered Ye Feng's whereabouts.

Ye Feng watched the whole team continue to move towards the mountain, and he returned to the place where the Dragon Soul Fruit appeared before.

Uh-huh!

Then Ye Feng walked out of the void.

At this time, Ye Feng tried to get close to the Dragon Soul Fruit, which immediately activated the ancient formations set up around the Dragon Soul Fruit.

Boom!

Boom!

At this moment, an extremely cold air and a terrifying burning force rushed towards Ye Feng, seeming to kill Ye Feng instantly.

But at this moment, Ye Feng's whole body was instantly moved to a special place in this formation.

The two terrifying formation lights bombarded the place where Ye Feng was standing before, but they were unable to attack the special place where Ye Feng was standing at this time.

Seeing this scene, Ye Feng immediately showed deep surprise in his eyes.

It seems that my eye of heaven and earth can really see through the overall framework and structure of these tactics.

The place where Ye Feng was standing at this time was a safe place in this formation.

The place where he was standing just now was a dangerous place.

Ye Feng now uses the Eye of Heaven and Earth to determine which specific position in the formation is very safe and will not be harmed by the power in the formation.

At this moment, after Ye Feng's test was successful, he was naturally very happy. He immediately started to move the Eye of Heaven and Earth, looking for a safe place between the two formations,

and moved step by step towards the emerald green one growing in the mountain at the front. He quickly walked over to the Dragon Soul Fruit that grew on the small tree.

It has to be said that Ye Feng Hongmeng's sixth-level bloodline talent, Eye of Heaven and Earth, is really a bit too heaven-defying.

As long as the formation can be seen through by Ye Feng, it will basically not cause any harm to Ye Feng.

Unless it is a more advanced formation that Ye Feng cannot see through, then there is nothing he can do.

However, Ye Feng was able to see through the frames and structures of the two formations surrounding the Dragon Soul Fruit, so Ye Feng quickly arrived safely in front of the Dragon Soul Fruit.

Buzz!

At this time, the Dragon Soul Fruit exudes a faint red light.

There is also a small red dragon made of light, floating and surrounding the fruit.

If you listen carefully, you can even hear the faint roar of dragons, which gives people a very majestic feeling, and Ye Feng's eyes suddenly reveal a look of deep surprise.

At this moment, Ye Feng didn't hesitate at all. He stretched out his hand and picked the Dragon Soul Fruit growing on the green tree in front of him.

Almost at the next moment, Ye Feng was able to sense that the dragon soul fruit indeed contained a very majestic energy.

It was an ancient dragon soul energy.

Ye Feng didn't hesitate and started to devour the Dragon Soul Fruit directly.

"Boom!"

Suddenly, a very majestic energy began to surge directly in Ye Feng's body.

It has to be said that this Dragon Soul Fruit seems to be small in size, but the energy contained in it is like a vast ocean, and it explodes in Ye Feng's body all of a sudden.

This is

A very powerful medicine.

After all, this kind of dragon soul fruit could only grow in the glorious era of Origin World many years ago.

So after Ye Feng swallowed it at this time, he naturally felt that his skill was rapidly and continuously growing and improving.

The next moment, Ye Feng's cultivation aura began to rise steadily.

"boom!"

The third stage of the Imperial Level!

"boom!"

The fourth stage of the Imperial Level! !

At this moment, Ye Feng's cultivation level suddenly broke through two levels!

At this moment, Ye Feng's eyes suddenly showed deep excitement.

It seems that I really got huge benefits this time.

It's really great that this Dragon Soul Fruit can provide me with such huge power.

Moreover, Ye Feng also discovered that his physical strength had improved a lot.

Because this dragon soul fruit not only contains majestic medicinal power, but also contains a very special dragon soul power.

After ordinary people eat it, they can immediately transform themselves into super geniuses.

However, Ye Feng is already a super genius, and his physique is already very advanced, so the power of the dragon soul in the dragon soul fruit is directly absorbed by Ye Feng's Hongmeng Immortal Body, allowing Ye Feng's Hongmeng Immortal Body to obtain A big improvement.

However, a Dragon Soul Fruit will certainly not allow Ye Feng's Hongmeng Immortal Body to directly transform from the current mid-sixth level to the late stage.

Ye Feng still needs more fruits of this glorious era to improve his Hongmeng Immortal Body.

At this moment, Ye Feng was about to leave, but Emperor Chu suddenly spoke in his mind: "Ye Feng, the mountain here looks very ordinary, but it can actually grow Dragon Soul Fruit, which shows that the Dragon Soul Fruit is There must be something unusual beneath the roots. Dig out the roots of this Dragon Soul Fruit tree and take a look."

When Ye Feng heard what Emperor Chu said in his mind, his eyes immediately moved, and he immediately reached out his hand and began to quickly dig at the roots of the emerald-green tree in front of him that grew the Dragon Soul Fruit.

Wow!

As the soil continued to fly, Ye Feng's hands had completely dug out the roots of the emerald green tree.

"This is....."

Almost at the next moment, Ye Feng immediately discovered a surprising scene.

I saw that the roots of this emerald green tree were actually rooted in a piece of silver paper.

It is said to be a piece of paper, but it is actually a silver foil and looks very thin.

Uh-huh!

Ye Feng immediately stretched out his hand, took the piece of silver paper into his hand, and looked at it carefully.

Ye Feng suddenly discovered that this silver piece of paper seemed to record some very ancient secret, and it contained symbols that Ye Feng could not quite understand.

At this time, Emperor Chu suddenly said in his mind: "This seems to be something left by the Ancient Dragon Clan. The symbols on it are the symbols of the Ancient Dragon Clan. This seems to be the silver foil used by the Ancient Dragon Clan to record a powerful inheritance." "

"The silver foil recorded and inherited by the ancient dragon clan?"

Hearing what Emperor Chu said in his mind, Ye Feng suddenly had a look of surprise in his eyes.

You must know that the current headquarters of the Taikoo Dragon Clan is the Taikoo Dragon Realm.

The Ancient Dragon Realm, like the Heaven Realm, is a very advanced cultivation civilization and interface.

Unexpectedly, on this famous ancient mountain, there would be papers recording the inheritance of the ancient dragon clan, a high-level cultivation civilization.

In his mind, Emperor Chu continued to speak: "Don't be too surprised. You have to know that the founders of what everyone today calls the advanced cultivation civilization interface all came from the great world where the glorious era originated. Out, so it is very normal for the inheritance and creation of the major advanced cultivation interfaces to appear in the Origin World. This ancient famous mountain suddenly emerged from the depths of the seabed, indicating that the world rules of

the entire Origin World are changing. Many things from the ancient glorious era will slowly appear and reappear in time.”

Speaking of this, even a mysterious existence like Emperor Chu seemed to have a hint of expectation in his tone, saying: "Now only this ancient famous mountain is revealed, which is really too little. You know, the origin of the great mountain In the glorious days of the world, I don't know how many terrifying inheritances and traditions emerged. Some of the ancestors of advanced cultivation civilizations with advanced interfaces were born in the world of origin. Therefore, in the future, the entire world of origin will have more and more... There are more and more ancient relics from the glorious era. When the time comes, Ye Feng, you must seize the opportunity and look for the supreme traditions and inheritance left over from these glorious eras. There are also many rare and exotic fruits that can only be grown in the ancient glorious era. The treasures of heaven and earth are of great benefit to your cultivation and life transformation."

Hearing what Emperor Chu said in his mind, Ye Feng immediately nodded, with a firm look in his eyes. .??.

At this moment, Ye Feng said aloud: "By the way, Emperor Chu, can you understand the symbols of the ancient dragon clan written on this piece of silver paper?"

Emperor Chu nodded and said aloud: "The symbols on the silver paper are recorded in my memory fragments. I have now recorded them all. Later I will analyze the powerful inheritance of the ancient dragon clan contained in it. Then it is taught directly to your mind. As for this piece of silver paper, it is a very powerful material and can be used as a hidden weapon. "

"Used as a hidden weapon?"

Hearing what Emperor Chu said, Ye Feng's eyes suddenly froze.

Unexpectedly, the paper now used by the ancient dragon clan to record the powerful inheritance is a powerful treasure in itself.

Emperor Chu nodded in his mind and said aloud: "This piece of silver paper is a very special material. It comes from the mysterious realm outside the universe we are in. The ancient memory fragments in my awakening Among them, the Ancient Dragon Clan specially uses this kind of immortal silver paper to record inheritance. In this way, their inheritance can be preserved forever. Therefore, this kind of silver paper can be used as a very secret magic weapon and hidden weapon. Use it to throw out this piece of silver paper at a terrifying speed at a critical moment. It definitely

has a very terrifying cutting power, which is more terrifying than any so-called magic weapon you have seen in Ye Feng. "

Hearing what Emperor Chu said, Ye Feng suddenly showed a look of wonder in his eyes, then nodded and put the piece of silver paper in his sleeve.

This silver paper is not a magic weapon in the true sense, so it cannot be refined and can only be used as an external weapon.

Buzz!

At this time, Ye Feng re-entered the void and quickly lurked towards the climbing team ahead.

Buzz!

Soon Ye Feng caught up with the large team in front.

Then in Shangguan Tianya, surrounded by the Phoenix Goddess and Baby Haoran, they reappeared.

No one noticed this.

When he saw Ye Feng reappearing, Shangguan Tianya's eyes immediately lit up and he couldn't help but ask: "Brother Ye, how are you? Have you gained anything?"

Ye Feng nodded slightly at this time.

Seeing Ye Feng nod, Shangguan Tianya couldn't help but said happily: "It seems that the Dragon Soul Fruit has been pocketed by Ye Feng."

Phoenix Goddess showed a beautiful smile and said loudly: "I'm afraid it was not only taken into the pocket by Ye Feng, but also probably completely refined by Ye Feng. Didn't you notice that the aura of cultivation on Ye Feng's body, From the second stage of the imperial level to the fourth stage of the imperial level now."

It has to be said that the Phoenix Goddess is really paying close attention to Ye Feng, and is very aware of the changes in Ye Feng's cultivation.

Baby Haoran clapped his little hands and said very happily: "Great, the first opportunity to climb this famous ancient mountain has been secretly collected by our small group, and it can be regarded as belonging to our entire group. reward."

Hearing what Baby Haoran said, Shangguan Tianya and Phoenix Goddess both nodded slightly.

Although Ye Feng ate the Dragon Soul Fruit alone, they are now a group.

In the future, the entire world of origin will undergo tremendous changes. They have experienced many things together, and they naturally rely on each other.

Ye Feng becoming stronger also has huge benefits for Shangguan Tianya and Phoenix Goddess.

After all, the entire origin world will change more and more in the future, and there will even be an advanced cultivation civilization in the advanced cultivation interface.

Therefore, no one can be immune to the great changes in the world in the future.

In the future, whoever has strong connections will definitely have huge benefits.

Shangguan Tianya is the young master of the ancient family, Phoenix Goddess is the saint of the Phoenix Kingdom, Ye Feng is the son of the gods of the Wanjie Martial Arts Academy, and Haoran Baobao is the young master of the Haoran Academy.

Of course, he is now the young master in name only.

But if Haoran's baby's father had not died, he would definitely be able to regain control of the entire Haoran Academy in the future.

Therefore, they are all on the same level and have similar identities. Naturally, they can chat together and become a real group. They can rely on each other and help each other in the great changes in the world in the future. These are all connections.

"Look! There is a huge unicorn covered with silver scales, shrouded in light of thunder and lightning. It is dormant in a jungle not far away, exuding a terrifying aura like a wild beast."

Suddenly at this moment, someone at the front of the team couldn't help but exclaimed, as if they had discovered something extraordinary.

At this time, Emperor Chu in Ye Feng's mind suddenly spoke: "Ye Feng, I have analyzed the inheritance in that silver paper. This is the inheritance of a certain lineage of the Ancient Dragon Clan, called 'The Ancient Thunder Dragon!.' "Dharma" is a peerless inheritance from the Thunder Dragon lineage of the ancient dragon clan. It is very good and extremely valuable. It can be found but not sought. "

Chapter 3954 Chaos Pill

"The Dharma of the Ancient Thunder Dragon?"

At this time, Ye Feng's eyes showed a trace of surprise. It seemed that he did not expect that this ancient dragon clan's inheritance was actually the inheritance of Dharma in ancient legends. It was a very special kind of inheritance.

Ye Feng's eyes immediately showed deep joy.

This ancient dragon clan is a highly cultivated and civilized race, and their inheritance is naturally very powerful and terrifying.

Ye Feng couldn't help but sigh in his mind at this time: "I originally thought that in order to pursue stronger power in the future, I would go to a more advanced cultivation interface, such as heaven, etc., but now it seems that it is not necessary because of the origin. The big world has begun to recover, and it is necessary to recreate the glorious era of ancient times, so now I just need to work hard in the big world of origin, and in the process of world recovery, to grasp the inheritance and opportunities in the various ancient ruins that appear one after another. By doing so, I can become stronger and stronger, and there is no need to go to those so-called advanced cultivation interfaces. Instead, the advanced cultivation civilizations in those advanced cultivation interfaces have to go back to the origin world."

At this moment, Emperor Chu directly input the racial inheritance of the Thunder Dragon lineage of the Ancient Dragon Clan and the inheritance secrets of the Ancient Thunder Dragon Dharma into Ye Feng's mind.

Ye Feng immediately mastered this inheritance.

However, Ye Feng has not tested how powerful this inheritance is now, because there are too many people around now, and Ye Feng does not want to attract attention.

At this moment, Ye Feng looked forward.

Because just now someone in the front team seemed to have discovered something very remarkable.

It seemed like an extremely powerful and terrifying beast lurking in a jungle ahead.

Ye Feng looked forward, and sure enough he saw a huge unicorn covered in silver scales lying in a jungle.

On this Qilin's body, streaks of blue-purple thunder and lightning shine on the surface of its scales.

show

Of course, this is a very terrifying ancient evil beast.

I am afraid that only the powerful creatures that can be born in the glorious age of the origin world can be born.

At this time, the young city lord of Chaos City who was leading the way couldn't help but look at the people around him and said loudly: "This ancient unicorn seems to be the legendary ancient thunder and lightning unicorn, but the old law enforcement man beside me has just been It has been judged that this ancient thunder and lightning unicorn is not fully mature yet, it is only in its infancy, so its strength is not as terrifying as we imagined. Maybe we can capture this ancient thunder and lightning unicorn together. "

Hearing what the young city lord of Chaos City said, everyone couldn't help but look astonished in their eyes.

They looked at the jungle not far away, where there was a huge unicorn that was hundreds of meters tall, and they couldn't help but have a look of horror in their eyes.

It seems that he did not expect that such a ferocious and majestic unicorn was only in its infancy.

How terrifying would it be if this immature ancient thunder and lightning unicorn grew to a mature stage, or a complete form?

It is estimated to be comparable to the legendary ancient beast!

At this time, everyone also understood. It is estimated that the young city lord of Chaos City has taken a fancy to this infant ancient thunder and lightning unicorn, and wants to capture it, then tame it and become his own mount.

At this time, the young city lord of the City of Chaos smiled slightly and said: "I think everyone should have guessed that I value this ancient thunder and lightning unicorn in its infancy very much. I want to capture and tame it. As long as everyone If you can help me capture this ancient thunder and lightning unicorn, then I will give all those who contribute a chaos elixir that can instantly break through a level of cultivation. It is an elixir made from the purest chaos energy, which can make Man is reborn, and there is no

A level of cultivation that breaks through any limitations. "

"What?"

"The legendary chaos elixir?"

"Hasn't the recipe for refining this peerless elixir disappeared into history long ago? I didn't expect that the City of Chaos would actually refine it."

Hearing what the young city lord of the City of Chaos said, many experts present couldn't help but have deep horror in their eyes.

As we all know, the gas of chaos is a very special gas, which can also be called a material, and it is of great benefit to the body tempering of ordinary creatures.

However, many practitioners cannot directly absorb the energy of chaos, otherwise it may damage the origin of their bodies.

But if the energy of chaos can be fused with other materials through a special elixir, and refined into an elixir that can be safely absorbed by the human body, that is, a chaos elixir, then it can solve the problem of the direct impact of the energy of chaos on harm caused by people.

At this moment, the young city lord of the city of chaos actually said that he had in his hand a chaos elixir refined with the energy of chaos as the raw material. This is an extremely precious elixir and has a huge effect.

Not only can it temper a person's physique, but it can also allow a practitioner to instantly break through to a higher level without any restrictions.

Of course, it's not a big realm, just a small level.

But it is also very precious.

After all, it is very difficult for many practitioners to break through a small level of cultivation, and it takes a long time of hard work to improve their cultivation.

But as long as you take this chaotic elixir, you can instantly break through to a small level.

So at this time, everyone present suddenly showed deep surprise in their eyes, staring at the young city lord of the city of chaos in front of them.

Someone couldn't help but said: "Young City Master, you, the God of Chaos, actually have a method in your hands that can refine the energy of Chaos into Chaos Pills. It is so rare and enviable."

Everyone knows that in the Sea of Chaos area, the entire heaven and earth are covered with the energy of chaos, which is simply inexhaustible and endless.

But at this time, the young city lord of Chaos City couldn't help but shook his head and smiled bitterly, and said: "If our city lord's palace in Chaos City really has the ability to refine the energy of chaos into chaos elixirs, The elixir recipe, then the power of our City of Chaos has long been so

large that it can compete with the major top forces. The chaos elixir in the hands of our City of Chaos is not refined by ourselves, but by our ancestors. , obtained from an ancient ruin in the Sea of Chaos, so everyone is overthinking it.”

Hearing what the Young City Lord of Chaos City said, everyone couldn't help but ask: "How many Chaos Pills does the Young City Lord have in his hands?"

The young city lord said aloud: "The chaos elixir in my hand is very limited. After all, this elixir is very rare, and there is no limit on the number of times. For example, if you eat a chaos elixir, you can rise to a level. If you take it After taking three chaos elixirs, you can upgrade to three levels at once without developing resistance. Therefore, this elixir is very precious, and can even be said to be very heaven-defying. This kind of chaos elixir, in our city of chaos, I have very few in my hands, but this time in order to invite everyone to help me capture the very rare ancient thunder and lightning unicorn in its infancy, I risked my life this time. In my personal hands, I have a total of twelve chaos elixirs. It is all my private collection. Now I am willing to give these twelve extremely precious chaos elixirs as a reward. Whoever can help me subdue that ancient thunder and lightning unicorn, I will share these twelve chaos elixirs equally. them."

Hearing what the young city lord of Chaos City said, the eyes of many experts present suddenly lit up and they all became eager to take action.

Chapter 3955 Complete Body

"Chaos elixir?"

At this time, Ye Fengdu showed a trace of surprise in his eyes when he heard the young city lord said that he had twelve chaos elixirs in his hand.

Unexpectedly, the young city lord of the City of Chaos actually had so many precious and ancient elixirs in his hands.

Shangguan Tianya, who was standing next to Ye Feng, couldn't help but said: "The young master of this city of chaos is really wealthy. He is much richer than me, the young master of the ancient family. This young master of this city of chaos is really rich." Although it is just a city, its heritage is probably deeper than that of ordinary ancient families like us."

"No, you think too highly of the City of Chaos."

Ye Feng shook his head at this time, smiled and said: "Brother Shangguan, after all, the ancient family you belong to has a much deeper foundation than this independent city. I guess even you

yourself don't know the true nature of the family behind you. What a huge wealth, and what a powerful ancestor-level person."

When Shangguan Tianya heard what Ye Feng said, he immediately couldn't help laughing and said: "Indeed, if we look at the number of strong people, then our ancient family must be able to beat this kind of independent city, but this Chaos The city is very special, and it is probably not as simple as we imagined, otherwise it would not have been able to stand in the Sea of Chaos area for so many years without collapsing. "

While the two were discussing, Baby Haoran said angrily: "Only super geniuses like Brother Ye Feng are qualified to control that noble ancient thunder and lightning unicorn. This kind of chaos has no chance at all." The young lord of the city."

Obviously, in Baby Haoran's heart, his brother Ye Feng is the most powerful super genius in the world.

When Ye Feng heard what baby Haoran said at this moment, he just smiled, touched the baby's brain, and said loudly: "No matter what chance comes, those who are destined can get it. Chaos elixirs are indeed very rare. For For me, it also has a huge effect. It is probably more precious than a so-called ancient beast, the ancient thunder and lightning unicorn. Of course, this is to me. "

The Phoenix Goddess stood beside Ye Feng and couldn't help but say: "Ye Feng, are you going to help the young city lord of this city of chaos to subdue that ancient thunder and lightning unicorn?"

Ye Feng was noncommittal and just said: "Let's take a look at the situation first. Although the ancient thunder and lightning unicorn is in its infancy, it is definitely not as simple as everyone thinks. Otherwise, the young city lord would have asked the old law enforcement man beside him to I have taken action to subdue the ancient thunder and lightning unicorn. I guess the young city lord of the city of chaos does not know how powerful this ancient thunder and lightning unicorn is in its infancy, so he said that he would use the chaos elixir to invite many masters to take action. It is probably just If you want some people to resist the temptation of chaos elixir, go ahead and try the water first."

Baby Haoran immediately couldn't help but said angrily: "This young city lord of the City of Chaos is really deceitful. He doesn't want his own people to take risks, but wants to use others as cannon fodder."

Ye Feng nodded slightly at this time and smiled.

"So we are not in a hurry, let's take a look at the situation first," he said.

But at this time, under the heavy money, there must be a reckless man.

Sure enough, when the young city lord of Chaos City said that he would give away twelve chaos elixirs, several young masters were eager to give it a try.

These young masters turned out to be the eldest prince from the Dark Alliance Split Heaven Dynasty who had threatened Ye Feng before.

Ye Feng had killed nearly half of the demonic geniuses in the trial of the Dark Alliance.

Therefore, Ye Feng almost became a public enemy of the Dark Alliance in the Eastern Land.

There are even rumors among the Dark Alliance that whoever can come back with Ye Feng's head will receive a huge reward from the entire Dark Demon Cult.

So when he was in the City of Chaos, the eldest prince of the Split Heaven Dynasty in the Dark Alliance came to Ye Feng in person and threatened Ye Feng.

At this time, Prince Split Sky and several masters under his command actually surpassed Ye Feng's current emperor level in cultivation and were at the tenth level of the peak emperor level.

At this moment, Prince Split Sky led several of his masters, walked directly to the young city lord of Chaos City, smiled and said: "I need Chaos Pills now to break through my emperor level cultivation. , Next, let me help you, Young City Master, to subdue that immature ancient thunder and lightning unicorn."

At this time, it was obvious that Prince Split Sky was very confident in the strength of himself and his masters. He simply did not want help from others and wanted to go alone with his men to capture the ancient thunder and lightning unicorn, and then have the Young City Lord of Chaos City to himself. The twelve chaos elixirs in his hand.

The young city lord of the City of Chaos, seeing that a well-known top genius like Prince Split Sky was willing to serve him, immediately nodded with great joy and said loudly: "Okay, Prince Split Sky, you can give it a try. , you are a top talent, I wish you immediate success."

Prince Splitting the Sky immediately nodded, quite confident, as if he had some trump card, he took the four or five masters under his command and instantly flew towards the ancient thunder and lightning unicorn in the jungle ahead.

At this moment, Prince Splitting the Sky did not rely on his strength, and did not directly lead his masters to attack the ancient thunder and lightning unicorn.

Instead, he asked all his subordinates to take out a very powerful magic weapon.

It was a large silver net, made entirely of a special kind of mithril, with a cold metallic luster on it, giving it a very solid and magical feeling.

"This seems to be the most precious treasure of the Split Heaven Dynasty, the Luotian Net, which means it can encompass the entire sky."

Someone around immediately recognized this person

Zhang Dawang's origins were filled with surprise in his tone, as if he didn't expect that Prince Split Sky would actually bring out such a powerful magic weapon from Split Sky Dynasty.

When the young city lord of Chaos City saw this scene, he couldn't help but his eyes lit up. He wanted to see if the eldest prince of the Tiantian Dynasty could catch this ancient thunder and lightning unicorn in its infancy.

At this time, everyone immediately saw that the eldest prince of the Split Heaven Dynasty, with four or five masters under his command, directly surrounded the sleeping ancient thunder and lightning unicorn.

Then at this moment, the eldest prince of the Split Heaven Dynasty suddenly said: "Do it!"

Wow!

At this moment, several of their masters input their magic power into the silver net in their hands.

Buzz!

At this moment, the entire silver network suddenly burst out with bright silver light.

Then the entire network quickly grew in size, covering the sky and the sun, and suddenly wrapped up the sleeping ancient thunder and lightning unicorn, trapping it in the silver network.

The ancient thunder and lightning unicorn in its infancy immediately began to struggle at this time, opening its mouth to spit out streams of thunderous light, but it was unable to tear this large silver net.

Prince Split Sky immediately smiled proudly and said aloud: "This Luotian Net is a super magic weapon passed down from the ancestors of our Split Sky Dynasty. It can snare the heaven and the earth and lock and trap all the spirits in the world. Even the magical weapons cannot tear this web apart." A Luotian net."

"What??"

"It's that simple? Have you captured the ancient lightning unicorn?"

The many masters watching not far away could not help but have astonishment in their eyes at this moment.

"Roar!!"

But suddenly at this moment, an earth-shattering roar suddenly came from a mountain not far away from this jungle.

The roar was deafening and terrifying, making even the emperor-level masters feel trembling for a moment.

"That is....."

Then in the horrified eyes of countless people, a huge thunder and lightning unicorn that was dozens of times larger than this ancient ancient thunder and lightning unicorn in its infancy, with a towering height of tens of thousands of meters, suddenly appeared from the mountain in the distance. He rushed out and ran quickly in this direction.

This huge beast-like beast has thousands of thunder and lightning surging all over its body. It is like an ancient thunder beast. It is very terrifying. The thunder connects the sky and the earth and can destroy everything.

That terrifying momentum was simply devastating.

"What?? It's actually an ancient thunder and lightning unicorn in a complete state! This is definitely comparable to the peerless experts among us practitioners. Run! This is definitely the elder of the ancient thunder and lightning unicorn in its infancy!!"

At this moment, those present

Countless masters couldn't help but have a look of deep horror on their faces.

Even the young city lord of Chaos City changed his expression drastically at this moment.

Even the old law enforcement man next to the Young City Master of the City of Chaos, this senior strongman who had surpassed the emperor level and was half a step above the god level, was suddenly shocked.

Uh-huh!

He quickly grabbed the young city lord of Chaos City beside him, and immediately flew quickly in a certain direction of the mountains, trying to escape from here like crazy.

"Quickly retreat!"

At this moment, Ye Feng also immediately led several people around him directly into the void and hid in the depths of the void.

Boom!

And at the next moment, endless thunder erupted from the complete thunder and lightning unicorn not far away, covering the entire area.

Boom!

The next moment, the entire earth was shattered by endless thunder.

Those masters who had no time to escape, even the young geniuses and top masters at the emperor level, were instantly bombarded by the thunder power of this terrifying complete lightning unicorn. Into countless fragments.

The eldest prince of the Split Heaven Dynasty, even though he was the top genius in the Dark Alliance of the Eastern Earth of the Great Origin World, and a super master at the peak of the tenth level of the Emperor Level, he was all of a sudden panicked at this moment.

He didn't even have time to take back the powerful magic weapon of Luotian Net, so he just led his subordinates to quickly escape from this terrifying area.

But his speed was a little slower after all.

And he was closer than the other teams to the complete thunder and lightning unicorn that rushed out from the depths of the mountain.

Therefore, the terrifying power of thunder was vented to the area near him. Several masters behind Prince Splitter were killed in an instant. They were directly smashed into pieces and turned into fly ash, without leaving even a single fragment.

As for the eldest prince of the Splitting Heaven Dynasty, a set of golden armor appeared on his body, which protected him from the terrifying light of thunder. However, he still suffered heavy injuries. He spurted out a mouthful of blood and his body was a little burnt. .

But in the end he escaped and disappeared into the distance.

It has to be said that this thunder and lightning unicorn in its complete state is really terrifying. Its cultivation strength is estimated to be comparable to the existence of the peak god level, and may even be comparable to the existence of the half-step master level.

Therefore, even a team formed by a group of super masters and top geniuses would suddenly collapse, be defeated, die, and escape.

It has to be said that no one could have predicted the changes in the world.

No one expected that because of an immature ancient thunder and lightning unicorn, it ended up provoking a terrifying evil beast at the peak of the god level in its complete state. It can only be said that everyone was extremely unlucky.

Chapter 3956 Treasured Land for Cultivation

Rumble...

This area was completely shattered by countless thunder bombardments.

Finally, the thunder and lightning unicorns, one big and one small, disappeared.

All energy is gone.

The smoke cleared.

This piece of land was simply destroyed and riddled with holes.

"Buzz!"

At this time, the void fluctuated.

Ye Feng reappeared from the void with several of his companions.

"this....."

At this time, looking at the devastated land around us, it was as if the world had been destroyed.

Shangguan Tianya couldn't help but said in horror: "I didn't expect that the complete ancient thunder and lightning unicorn would be so terrifying. Just the light of thunder on its body already has such terrifying destructive power. Fortunately, Ye Feng, you With space treasures like space gems, a magical domination level, we can hide in the depths of the void and avoid this crisis. "

The Phoenix Goddess' face was also a little shocked at this time, and there was a deep look of amazement in her beautiful eyes. She said loudly: "This ancient famous mountain is worthy of being left over from the glorious era when we originated in the great world. It's really terrifying that such a terrifying ancient beast exists."

Baby Haoran also nodded, with a look of deep fright on his little face, and said loudly: "That monster is really terrifying. This is the first time I have seen such a terrifying monster. I'm afraid only my father can Can defeat this monster."

Ye Feng said aloud at this time: "This complete ancient thunder and lightning unicorn is estimated to have at least the tenth level of the peak god-level cultivation. Moreover, the bloodline of this ancient thunder and lightning unicorn is very advanced and possesses terrifying magical powers." , able to communicate with the power of thunder above the nine heavens, it is estimated that it can fight against the half-step master level practitioners among our human race. It seems that the danger in this ancient famous mountain is not only the formations handed down from the ancient times.

, there is also this extremely terrifying ancient evil beast living in it, and we may encounter it at any time. "

Shangguan Tianya looked around at this time and said aloud: "It is estimated that a lot of people died this time, but it is no longer possible to identify their bodies, all of them turned into fly ash."

When Ye Feng heard what Shangguan Tianya said, he couldn't help but shook his head with regret.

These masters who died instantly at that time were all destroyed to ashes by the thunder. Now if they want to find the blood and energy to devour them, they have nowhere to look.

At this time, Ye Feng looked not far away and found a broken silver net where the ancient thunder and lightning unicorn slept just now.

This large silver net was an extremely powerful super magic weapon of the Tiantian Dynasty behind Prince Hunting. Unexpectedly, it was torn into pieces by the claws of a complete ancient thunder and lightning unicorn.

It has to be said that this ancient evil beast is really terrifying.

At this moment, there are still traces of light of thunder and lightning flashing on the entire surrounding land that is riddled with holes.

Baby Haoran touched it curiously.

"Click" sound!

One of his fingers was immediately burnt by the electricity.

"It hurts!"

Baby Haoran immediately couldn't help but screamed, and no longer dared to touch the light of thunder and lightning that was flashing on the ground around him.

"These lightning lights should be the remnants of the ancient thunder and lightning unicorn that was in its complete form just now. It still has very terrifying destructive power."

Phoenix Goddess said aloud: "Let's leave here first. If the ancient thunder and lightning unicorn in its complete state returns here,

If so, we probably won't be able to leave. "

Ye Feng nodded slightly and was about to lead everyone away from here.

But suddenly at this moment, Emperor Chu in his mind spoke up: "Ye Feng, don't leave in a hurry. The inheritance of the Thunder Dragon lineage of the Ancient Dragon Clan and the Ancient Thunder Dragon Dharma that you received before can be completely used in Practice here. Although this place is riddled with holes, a lot of the thunder power of the ancient thunder and

lightning unicorn has been left. This kind of thunder power of the ancient thunder and lightning unicorn, and the inheritance you are learning now, the ancient thunder dragon method, They have the same purpose and belong to the same origin of thunder, so if you practice the inheritance of the Ancient Thunder Dragon Dharma here now, you may be able to successfully condense an Ancient Thunder Dragon Dharma, which has very powerful power, and maybe here The light of thunder can also temper your body, allowing your Hongmeng Immortal Body to be transformed again, and your friends can also practice here, attracting thunder and melting the body, which is also of great benefit to them. "

Hearing what Emperor Chu said in his mind, Ye Feng's eyes suddenly lit up.

Unexpectedly, this place riddled with holes would turn out to be a treasured place for cultivation in the eyes of Emperor Chu.

At this moment, Ye Feng immediately looked at Shangguan Tianya, Phoenix Goddess, and Baby Haoran, and said loudly: "Don't leave in a hurry, this is a treasure land for cultivation."

"What?"

"A treasured land for cultivation?"

Hearing what Ye Feng said, several people had astonishment in their eyes.

At this time, Ye Feng immediately smiled and said: "Although this land is riddled with holes, there is still a lot of thunder power from the complete thunder and lightning unicorn, and those thunder and lightning lights that Baby Haoran touched just now , also has very terrifying destructive power, but it is not enough to harm our lives, so if we practice here, we can activate the light of thunder around us and temper our bodies, which has huge benefits. "

r\u003e

Ye Feng said at this time, he took the lead directly on the spot, sat down cross-legged, and then drove to practice the inheritance of the Ancient Thunder Dragon Dharma that he had received before.

At this moment, Ye Feng instantly triggered the remaining thunderous light around him and quickly gathered towards his body.

Buzz!

Suddenly, streaks of thunderous light began to temper Ye Feng's body.

The next moment, Ye Feng's eyes were very happy.

Because he discovered that these thunderous lights can really transform the power of his body quickly.

My own flesh and blood and bones are constantly improving at this moment.

Seeing this scene, Shangguan Tianya grinned and said: "Being friends with Ye Feng is really the greatest luck in my life. Ye Feng is so awesome. He knows everything. It's so cool." It's a living encyclopedia."

After finishing speaking, Shangguan Tianya sat down beside Ye Feng without any hesitation, and began to activate the thunder light of the thunder and lightning unicorns remaining in the surrounding earth, and began to temper his body.

Seeing this scene, the Phoenix Goddess' beautiful face showed a smile of surprise. She sat down in front of Ye Feng and began to absorb the surrounding thunder and lightning.

There are a lot of thunder and lightning lights here, enough for several people to practice.

"I want to practice too! Become stronger! Save daddy!"

At this moment, Baby Haoran, a little baby who looked to be only two or three years old, was also very presentable. He followed the example of others and sat down cross-legged.

Several people immediately entered a state of cultivation.

It is estimated that no one thought that after the complete state of the thunder and lightning unicorn destroyed the earth, although it was riddled with holes, it would become a natural treasure land for cultivation.

Chapter 3957 Continue to climb

Buzz!

At this time, the few people present were rapidly absorbing the thunder energy of the ancient thunder and lightning unicorn that was left in this riddled land.

You must know that this ancient thunder and lightning unicorn is in a complete state and is a very terrifying ancient evil beast.

In the glorious age of the Origin World, such terrifying and ferocious creatures were born.

Therefore, the thunder energy it left behind was enough for everyone present to practice and use.

At this moment, the person who absorbed the most was of course Ye Feng.

At this time, Ye Feng's body was "cracking" with a lot of thunderous light.

Then Ye Feng could feel it.

His entire flesh, bones, and every part of his body were being rapidly shocked by thunder.

Along with this continuous electric shock, Ye Feng could feel that the power of his body was constantly improving at a very fast speed.

Previously, after Ye Feng ate the Dragon Soul Fruit, his Hongmeng Immortal Body was enhanced.

However, it did not break through the middle of the sixth level.

But now I have obtained the extremely powerful light of thunder energy left by these ancient thunder and lightning unicorns.

The strength of Ye Feng's Hongmeng Immortal Body finally achieved a complete breakthrough.

boom!

At this moment, Ye Feng's Hongmeng Immortal Body broke through directly from the middle of the sixth level to the late sixth level.

At this moment, Ye Feng's Hongmeng Immortal Body has transformed into the late sixth level.

Ye Feng could immediately feel that his body's power had been greatly improved.

And Ye Feng was very surprised.

When the Hongmeng Immortal Body was transformed again, the bloodline talent awakened on the sixth level, the Eye of Heaven and Earth, actually became more powerful.

At this moment, Ye Feng activated the Eye of Heaven and Earth and could see through more and more formations.

Advanced formations that Ye Feng could not discover before can now be seen by Ye Feng.

This made Ye Feng's eyes suddenly reveal a look of deep joy.

Ye Feng's heart suddenly thought

Understood.

It seems that if you want to increase the power of the Eye of Heaven and Earth, you must transform your Hongmeng Immortal Body.

The stronger the Hongmeng Immortal Body, the more powerful the Eye of Heaven and Earth seems to be.

At this time, Ye Feng's physical strength had transformed.

Then Ye Feng began to practice the ancient dragon clan's inheritance, the ancient thunder dragon dharma.

This is a set of inheritance, which has the same attributes as the ancient thunder and lightning unicorn. It is a powerful inheritance of thunder attributes.

At this moment, Ye Feng was practicing in this thunder field left by the ancient thunder and lightning unicorn, which was really getting twice the result with half the effort.

At this time, Ye Feng began to operate the Ancient Thunder Dragon Dharma.

An ancient thunder dragon in an illusory state suddenly appeared behind him.

This ancient thunder dragon has blue scales all over its body, and each scale is made of thunder.

But now it is only in an illusory state and does not have much power.

But Ye Feng can absorb the thunder and lightning light left behind by the ancient thunder and lightning unicorn from the surrounding thunder field.

At this moment, Ye Feng continued to absorb and enrich the shadow of the ancient thunder dragon behind him.

When the shadow of this ancient thunder dragon completely solidified, it became a real state.

This means that Ye Feng successfully condensed an ancient thunder dragon dharma of his own.

Every time during a battle, as long as this ancient thunder dragon is released, it can explode with incomparable power and recreate the glory of the ancient thunder dragon lineage.

The reason why Emperor Chu allowed Ye Feng to practice here was because it was a natural place for practicing the inheritance of thunder attributes.

At this moment, Ye Feng began to continuously absorb the surrounding thunder and lightning light, and quickly injected it into the illusory ancient thunder dragon form condensed behind him.

As Ye Feng continued to absorb the surrounding thunder light, the book behind Ye Feng

The ancient thunder dragon that came into the illusory state suddenly began to slowly solidify.

In the end, it completely became a real state!

A lifelike ancient thunder dragon appeared behind Ye Feng, roaring to the sky, exuding monstrous majesty and possessing terrifying destructive power.

At this time, the huge roar woke up Shangguan Tianya, Phoenix Goddess and Baby Haoran who were all around them who were in a state of cultivation.

"This is....."

At this moment, they saw the lifelike ancient thunder dragon behind Ye Feng, which was tens of thousands of meters tall, and they were all shocked.

Moreover, every scale of this ancient thunder dragon seemed to be condensed by thunder, exuding a terrifying light of thunder, and obviously possessed extremely terrifying destructive power.

Several people couldn't help but show deep surprise in their eyes.

Shangguan Tianya immediately couldn't help but said: "Ye Feng, this inheritance of yours is probably an ancient inheritance that has disappeared in history. I have never seen such a terrifying dharma. It turns out to be the lineage of the legendary ancient thunder dragon." "

The Phoenix Goddess also nodded slightly at this time. ??

This was also the first time she saw Ye Feng display this ancient inheritance.

At this moment, Ye Feng was very satisfied with integrating the ancient thunder dragon dharma that had been successfully condensed into his body.

You can release it directly when fighting in the future.

You must know that the thunder light absorbed by this ancient thunder dragon is the thunder light left behind by a complete thunder and lightning unicorn.

The origin of this thunderous light is very advanced.

Therefore, the power of this ancient thunder dragon is naturally very powerful.

Ye Feng looked at the people around him at this time, smiled slightly, and asked: "How is your cultivation going?"

Shangguan Tianya nodded immediately, with a hint of surprise in his eyes.

He said aloud: "The light of thunder is used to temper the body, and it really has huge benefits. My cultivation has broken through to a new level."

The Phoenix Goddess also nodded slightly and said loudly: "My true Phoenix body has also been strengthened a lot."

"And me, and me!"

At this time, Baby Haoran also quickly raised his little hand, and said aloud as if claiming credit: "I feel that my Haoran's true energy has become stronger."

After hearing what several of his friends said, Ye Feng immediately nodded with great satisfaction.

Sure enough, these people are indeed top-notch geniuses, and they have all benefited greatly from using the thunder light left by this ancient thunder and lightning unicorn to practice.

At this time, Shangguan Tianya looked at Ye Feng in front of him, and couldn't help but asked: "Brother Ye, now our big team has been completely dispersed. Those who die and those who can escape, our small group, now Do you want to continue climbing this extremely dangerous ancient mountain?"

Hearing Shangguan Tianya's question, Phoenix Goddess and Baby Haoran also looked at Ye Feng.

Obviously, Ye Feng has now become the backbone of this small team.

Ye Feng thought for a moment and then said, "Let's continue climbing."

Ye Feng is not too big.

Because Ye Feng's current Hongmeng Immortal Body has been improved, so has the Eye of Heaven and Earth.

Therefore, there are many formations that Ye Feng can see through now.

As long as it's not the top-notch formation, Ye Feng can see through it and pass through it safely.

Therefore, Ye Feng felt that he could continue to try to climb this famous ancient mountain, and the risk would definitely be much less than others.

The main reason is that there are too many opportunities in this famous ancient mountain.

They are all things left over from the glorious days of the Origin World. They are very precious and very ancient. Ye Feng naturally does not want to miss them.

Moreover, Emperor Chu also said before that if you want to survive the huge changes in the future world of origin, you must seize the wealth in the famous mountains and monuments of these glorious years that are constantly emerging.

Chapter 3958 Ancient Temple

So at this time, Ye Feng did not leave directly.

Although this ancient famous mountain has many dangers from the glorious era.

But Ye Feng feels that he has an extra pair of eyes of heaven and earth than others, and can see through various formations, so the danger should be less.

Ye Feng was not willing to leave this famous ancient mountain.

Although the entire big team has broken up, the strength of Ye Feng's small team is also very powerful when combined together.

So Ye Feng naturally wanted to continue moving forward at this time and climb this famous ancient mountain.

Because Ye Feng had received too many benefits from this famous ancient mountain.

Just after walking on this famous ancient mountain for a moment, I got a Dragon Soul Fruit, which greatly improved my cultivation.

Moreover, from a piece of silver paper, a powerful inheritance of the thunder dragon lineage of the ancient dragon clan was analyzed.

In addition, being in this lightning field has greatly improved my physical fitness.

Therefore, this ancient famous mountain is a very important place for Ye Feng.

At this moment, Ye Feng looked at the people around him and said, "If you feel it is dangerous, you can leave first. I should continue to explore this famous ancient mountain."

Hearing what Ye Feng said, Baby Haoran was the first to raise his little hand and said loudly: "I want to be with brother Ye Feng."

"Count me in."

Shangguan Tianya also grinned and said: "If you follow Brother Ye, you will have meat to eat. Naturally, I will follow Ye Feng and continue to explore this famous ancient mountain."

The Phoenix Goddess stood beside Ye Feng, with a very calm face on her beautiful face, and said loudly: "I want to be with you, Ye Feng."

When Ye Feng heard what a few people said, he immediately nodded, and then said with a smile: "If there is really any irresistible danger next, you can leave first."

Everyone nodded.

Next, several people once again formed a small team and continued to climb towards the top of this famous ancient mountain.

This famous ancient mountain is very majestic and towering, so its area is also very large.

The group continued walking.

With Ye Feng's Eye of Heaven and Earth, they escaped many extremely dangerous formations.

And after learning that Ye Feng was able to see through the formations in this famous ancient mountain.

Shangguan Tianya, the young master of the ancient family, couldn't help but be shocked. He couldn't help but said: "Oh my God, Brother Ye, you can actually see through the ancient formations in this famous ancient mountain, and you can sense danger in advance. Even the ability to travel through the formation without being harmed by the formation is really incredible. No wonder you were able to get the Dragon Soul Fruit from before."

Phoenix Goddess also had a look of deep surprise in her eyes, as if she didn't expect Ye Feng to have such a special ability.

Baby Haoran immediately burst into laughter and said, "If you put it this way, we are invincible on this famous ancient mountain."

At this time, Ye Feng couldn't help but shook his head with a wry smile, and said aloud: "Don't be so optimistic, I can only safely shuttle through the formations. Although I can see through various formations, I am too advanced. It is impossible to see through, and this ancient famous mountain

The dangers on the mountain are not only the terrifying formations left over from the ancient times, but also the many ancient evil beasts that live in this mountain. For example, the ancient thunder and lightning unicorn we encountered before was in its complete state. The energy of thunder is simply devastating. Let alone us, even god-level experts will probably die from the terrifying destructive power of thunder. "

Hearing what Ye Feng said, several people around him fell into silence slightly.

At this moment, Baby Haoran, who was exploring the surroundings, suddenly discovered something, and immediately couldn't help but said: "Come over and take a look. There is a huge temple built on the mountainside not far away. But that temple seems to be very dilapidated."

Hearing what Baby Haoran said, Ye Feng, Shangguan Tianya and Phoenix Goddess all looked quickly in that direction.

The next moment, they saw an ancient temple standing on the mountainside not far away. It seemed to have been there for a long time.

Ye Feng's eyes immediately lit up and he said: "Let's go over and take a look. The fact that a temple was built on the mountainside of such a famous ancient mountain in that glorious era means that the owner of this temple must have been very special. He is so powerful, otherwise he would definitely not be qualified to live on this famous ancient mountain."

Ye Feng said at this time, Shangguan Tianya couldn't help but exclaimed: "This ancient famous mountain was probably not just an ordinary mountain, but a habitat for many powerful creatures and powerful forces, such as the Sea of Chaos. , is just a small ocean area in the central ocean, but there are indeed many powerful ancient families living in it. This ancient famous mountain must have had many big forces or powerful evil beasts and creatures living in it. "

Ye Feng nodded slightly, and then several people immediately rushed towards the mountainside.

Everyone did not fly, because there was probably a secret formation in the void of this famous ancient mountain that even Ye Feng could not see through.

So everyone walked slowly on the mountain.

Ye Feng was trying his best to run his Eye of Heaven and Earth at this moment to prevent a terrible formation from suddenly appearing around them and attacking them.

With the help of Ye Feng's Eye of Heaven and Earth, everyone avoided all kinds of terrifying formations along the way, and finally came to the temple standing on the mountainside that Baby Haoran had seen.

At this moment, four people, Ye Feng, Shangguan Tianya, Phoenix Goddess and Haoran Baby, stood in front of this ancient temple.

They saw the plaque of this temple, which seemed to have been cut in half by a very sharp weapon and fell to the ground.

The entire surface of the temple is covered with spider webs and looks very old.

Apparently many years have passed and no one has set foot here.

At this moment, the Phoenix Goddess seemed to sense something, and couldn't help but say: "There seems to be a presence in this small temple that scares me for my life."

Shangguan Tianya also nodded slightly and said loudly: "I also sensed it."

Ye Feng said aloud: "Since you've come here, let's go in and take a look. Endless years have passed. Even if there were any very vicious existences inside, they would have been wiped out in history long ago. If there was something inside I can see through any dangerous formations or ancient restrictions in an instant."

Hearing what Ye Feng said, several people felt that it made sense, nodded one after another, and then walked slowly towards the interior of this ancient temple. So at this time, Ye Feng did not leave directly.

Although this ancient famous mountain has many dangers from the glorious era.

But Ye Feng feels that he has an extra pair of eyes of heaven and earth than others, and can see through various formations, so the danger should be less.

Ye Feng was not willing to leave this famous ancient mountain.

Although the entire big team has broken up, the strength of Ye Feng's small team is also very powerful when combined together.

So Ye Feng naturally wanted to continue moving forward at this time and climb this famous ancient mountain.

Because Ye Feng had received too many benefits from this famous ancient mountain. .??.

Just after walking on this famous ancient mountain for a moment, I got a Dragon Soul Fruit, which greatly improved my cultivation.

Moreover, from a piece of silver paper, a powerful inheritance of the thunder dragon lineage of the ancient dragon clan was analyzed.

In addition, being in this thunder and lightning field has greatly improved my physical fitness.

Therefore, this ancient famous mountain is a very important place for Ye Feng.

At this moment, Ye Feng looked at the people around him and said, "If you feel it is dangerous, you can leave first. I should continue to explore this famous ancient mountain."

Hearing what Ye Feng said, Baby Haoran was the first to raise his little hand and said loudly: "I want to be with brother Ye Feng."

"Count me in."

Shangguan Tianya also grinned and said loudly: "If you follow Brother Ye, you will have meat to eat. Naturally, I will follow you, Ye Feng, to continue exploring this famous ancient mountain."

The Phoenix Goddess stood beside Ye Feng, with a very calm face on her beautiful face, and said loudly: "I want to be with you, Ye Feng."

When Ye Feng heard what a few people said, he immediately nodded, and then said with a smile: "If there is really any irresistible danger next, you can leave first."

Everyone nodded.

Next, several people once again formed a small team and continued to climb towards the top of this famous ancient mountain.

This ancient famous mountain is very majestic and towering, so its area is also very large.

The group continued walking.

With Ye Feng's Eye of Heaven and Earth, they escaped many extremely dangerous formations.

And after learning that Ye Feng was able to see through the formations in this famous ancient mountain.

Shangguan Tianya, the young master of the ancient family, couldn't help but be shocked. He couldn't help but said: "Oh my God, Brother Ye, you can actually see through the ancient formations in this famous ancient mountain, and you can sense danger in advance. Even the ability to travel through formations without being harmed by them is so incredible, no wonder you were able to get the Dragon Soul Fruit from before."

Phoenix Goddess also had a look of deep surprise in her eyes, as if she didn't expect Ye Feng to have such a special ability.

Baby Haoran immediately burst into laughter and said, "If you put it this way, we are invincible on this famous ancient mountain."

At this time, Ye Feng couldn't help but shook his head with a wry smile, and said aloud: "Don't be so optimistic, I can only safely shuttle through the formations. Although I can see through various formations, I am too advanced. It is impossible to see through, and this ancient famous mountain

The dangers on the mountain are not only the terrifying formations left over from the ancient times, but also the many ancient evil beasts that live in this mountain. For example, the ancient thunder and lightning unicorn in its complete state that we encountered before, The energy of thunder is simply devastating. Let alone us, even god-level experts will probably die from the terrifying destructive power of thunder. "

Hearing Ye Feng say this, several people around him fell into silence slightly.

At this moment, Baby Haoran, who was exploring the surroundings, suddenly discovered something, and immediately couldn't help but said: "Come over and take a look. There is a huge temple built on the mountainside not far away. But that temple seems to be very dilapidated."

Hearing what Baby Haoran said, Ye Feng, Shangguan Tianya and Phoenix Goddess all looked quickly in that direction.

The next moment they saw it, an ancient temple stood on the mountainside not far away. It seemed to have been there for a long time.

Ye Feng's eyes immediately lit up and he said: "Let's go over and take a look. The fact that a temple was built on the mountainside of such a famous ancient mountain in that glorious era means that the owner of this temple must have been very special. It is so powerful, otherwise it would definitely not be qualified to live on this famous ancient mountain."

Ye Feng said at this time, Shangguan Tianya couldn't help but exclaimed: "This ancient famous mountain was probably not just an ordinary mountain, but a habitat for many powerful creatures and powerful forces, such as the Sea of Chaos. , is just a small ocean area in the central ocean, but there are indeed many powerful ancient families living in it. This ancient famous mountain must have had many big forces or powerful evil beasts and creatures living in it. "

Ye Feng nodded slightly, and then several people immediately rushed towards the mountainside.

Everyone did not fly, because there was probably a secret formation in the void of this famous ancient mountain that even Ye Feng could not see through.

So everyone walked slowly on the mountain.

Ye Feng was trying his best to run his Eye of Heaven and Earth at this moment to prevent a terrible formation from suddenly appearing around them and attacking them.

With the help of Ye Feng's Eye of Heaven and Earth, everyone avoided all kinds of terrifying formations along the way, and finally came to the temple standing on the mountainside that Baby Haoran had seen.

At this moment, four people, Ye Feng, Shangguan Tianya, Phoenix Goddess and Haoran Baby, stood in front of this ancient temple.

They saw the plaque of this temple, which seemed to have been cut in half by a very sharp weapon and fell to the ground.

The entire surface of the temple is covered with spider webs and looks very old.

Apparently many years have passed and no one has set foot here.

At this moment, the Phoenix Goddess seemed to sense something, and couldn't help but say: "There seems to be a presence in this small temple that scares me for my life."

Shangguan Tianya also nodded slightly and said loudly: "I also sensed it."

Ye Feng said aloud: "Since you've come here, let's go in and take a look. Endless years have passed. Even if there were any very vicious existences inside, they would have been wiped out in history long ago. If there was something inside I can see through any dangerous formations or ancient restrictions in an instant."

Hearing what Ye Feng said, several people felt that it made sense, nodded one after another, and then walked slowly towards the interior of this ancient temple.

Chapter 3959 Monk

At this time, when everyone walked into this ancient temple, they immediately saw an incredible scene.

I saw a dead two-winged demon lying on the ground in this small temple.

This two-winged demon looks very ancient, and its entire body has shriveled up, but it still exudes a terrifying dark aura.

"I didn't expect that a two-winged demon would appear in this temple, and this two-winged demon seems to be an ancient demon from the western land."

Seeing the scene in front of him at this moment, Shangguan Tianya couldn't help but have a look of astonishment in his eyes.

Because no one could have imagined that a two-winged demon would appear in such a sacred temple.

At this moment, Ye Feng suddenly saw this two-winged demon kneeling in this temple.

In the direction where it was kneeling, there was a huge Buddha statue.

Ye Feng couldn't help but look at him immediately, and said loudly: "This two-winged demon should be dead, its body has shriveled up, and its blood and energy have completely dissipated. It's a pity that it can't be swallowed. Back then, he I came here probably to find something special, maybe some treasure, but I ended up dying here."

The Phoenix Goddess couldn't help but said: "This two-winged demon gave me a very terrifying feeling. It was definitely an extremely powerful creature back then, but it was able to kill such a powerful dark creature in an instant. This temple must have There are very terrifying Buddhist masters living there."

When Ye Feng heard what the Phoenix Goddess said, he immediately nodded and said, "Let me investigate."

Uh-huh!

At this time, Ye Feng walked directly to the huge Buddha statue in front of the two-winged demon kneeling.

After the death of this two-winged demon, he knelt under this Buddha statue, which shows that this Buddha statue must have something special.

Ye Feng stepped forward at this moment, stretched out his hand and touched this huge Buddha statue.

Buzz!

And almost at the moment Ye Feng's hands touched this huge Buddha statue.

Suddenly, this huge Buddha statue, which was originally very calm, suddenly emitted an extremely bright golden light.

"Ye Feng, be careful!"

The Phoenix Goddess not far away immediately couldn't help but remind her, somewhat worried about Ye Feng's safety.

Ye Feng nodded and said, "It's okay. The golden light emitted by this Buddha statue did not cause any harm to me."

And just when Ye Feng was talking.

Buzz!

Suddenly, the golden light of the Buddha statue condensed an ancient monk directly in front of everyone.

This monk is entirely made of golden light, giving people a very sacred feeling.

At this moment, the monk actually had his own thoughts and said to several people: "Under this temple, there is a very terrifying interface entrance suppressed. That interface is called the 'Hell Realm'. You must not destroy it." This is a small temple, otherwise, once this entrance is opened, there will be a steady stream of terrifying hell demons running out of the hell world, and the entire world of origin will fall into a disaster. "

"What??"

Hearing what this monk made entirely of golden light said, the eyes of several people present suddenly showed deep horror.

No one expected that under this seemingly shabby little temple, there was actually the entrance to an extremely dark advanced interface.

At this time, Ye Feng couldn't help but look at the dead two-winged demon kneeling on the ground not far away, and said loudly: "It seems that this demon also comes from the hell world."

Ye Feng knows that the hell world, the heaven world, the ancient dragon world, etc.

They are all very powerful high-level cultivation interfaces in the entire universe, with very profound foundations.

These advanced cultivation civilization interfaces are eyeing the Great World of Origin, the place where all things originate.

After Ye Feng finished speaking, the monk whose body was made of golden light immediately spoke out: "This two-winged demon did not come from the hell world, but from a place called the Devil's Nest in the western land. He came here all the way across the entire central ocean, just to destroy our temple and open the real entrance to the hell world. At that time, all the Buddhist practitioners in our temple worked together to suppress this one. The two-winged demon wiped out his entire life and soul, but our entire temple also suffered heavy losses. After the decline of the origin world, we were unable to escape from the origin world, so we followed this ancient famous mountain and sank into it. The depths of the ocean have never seen the light of day, but I didn't expect that now, the rules of heaven and earth have undergone tremendous changes, the world of origin has revived, and this ancient famous mountain has also resurfaced from the depths of the ocean, which has never seen the light of day. I don't know if it's good or bad. Originally, I thought that this entrance to the hell realm would be forever sealed in the depths of the ocean with the decline of our temple and the entire ancient famous mountain. But now it has reappeared, which means that this entrance to the hell realm is An entrance is likely to be opened again, but now there

should be no problem suppressing the ancient Buddha statues in our temple, but there are also huge hidden dangers. After all, too many years have passed and the seal has begun to loosen. "

Hearing what the monk who was covered in golden light said, Ye Feng, Shangguan Tianya and others couldn't help showing surprise in their eyes.

I didn't expect that this small temple would hide such a big secret.

Shangguan Tianya immediately couldn't help but said: "Senior monk, what can we do?"

The monk whose body was covered with golden light said loudly: "It's a pity that you can't help much, because only we Buddhist practitioners can help at this time, because

If you want to re-strengthen the seal of the entrance to the hell realm in the entire temple, you must receive the strongest inheritance of Buddhism in our temple, and then use that strongest inheritance of Buddhism to release the special and incomparable power of Buddha's light. Only then can we strengthen this The seal in the temple, but your cultivation breath and life source, cannot contain the special light of our Buddha. "

At this moment, the monk said and sighed, obviously very worried that the entrance to the hell realm suppressed by their temple would be reopened.

But at this time, after hearing what the monk said, Shangguan Tianya, Phoenix Goddess, and Baby Haoran all looked at Ye Feng who was standing in the middle.

Because they know that Ye Feng has a very magical ability, that is, he can transform his life source and skill source into energy of any attribute.

At this moment, Ye Feng walked up to the sighing monk, smiled slightly, and said: "Senior, maybe I can give it a try, accept the strongest inheritance of Buddhism in your temple, and then release the power of Buddha's light. Help you strengthen the seal at the entrance to this hell realm."

This monk whose whole body was composed of golden light immediately shook his head and said: "I can sense that the source of your life and power belongs to the Qi of Hongmeng. Although it is a very advanced source of power, it cannot accommodate our Buddhist path. The special power of Buddha's light..."

Buzz!

But before the monk could finish speaking, a bright Buddha light suddenly emitted from Ye Feng's body.

At this moment, Ye Feng directly transformed all the source of his power into the sacred golden Buddha's light.

"What??"

Seeing this scene, the monk made of golden light should be the remnant clone of a certain eminent monk who stayed in the temple. At this moment, his eyes widened and he stared at Ye Feng, who was shining with the Buddha's light in front of him. , couldn't help but exclaimed: "This...how is this possible?"

Chapter 3960 Strengthening the Seal

At this moment, even if this monk who is completely made of golden light may have been a powerful Buddhist in this temple, at this time, looking at Ye Feng who is exuding bright Buddha light, he can't help but have a deep look in his eyes. A look of horror.

He seemed to have never imagined that the human boy in front of him could instantly turn his own power into the power of their Buddha.

This is really incredible.

And it doesn't seem like it's power in disguise.

It is the true source of Buddha's light!

Very pure!

At this time, the monk in front of him couldn't help but show deep surprise in his eyes, and said loudly: "Little brother, since you have this ability, you can practice the extremely powerful Buddha in our temple." When the time comes, you can directly use this powerful inheritance of Buddhism

and Taoism, and then cooperate with me to strengthen the seal in this temple. In this way, there will be no problems at the entrance to the hell world for a while. "

Hearing what the monk in front of him said, Ye Feng immediately nodded and said: "I'm ready. Senior, just teach me the most powerful lineage of Buddhism and Taoism in your temple. I will definitely do my best to teach it to you." This seal is re-strengthened."

Ye Feng was still very happy at this time.

Not only can the entrance passage to the very dangerous hell world under this temple be re-strengthened, but also a powerful inheritance of Buddhism that originated in the glorious age of the great world can be obtained for free.

This can be described as a huge opportunity.

Because you must know that in the glorious era of the Origin World, the interfaces of advanced cultivation civilizations were even more prosperous than today.

Therefore, the powerful inheritance of that era was naturally the various inheritances that Ye Feng had obtained so far.

At this time, Ye Feng stood directly in front of the monk, closed his eyes, and prepared to accept the inheritance.

The monk nodded slightly, his face became solemn, and he said aloud: "Once you accept

If you have the strongest inheritance of Buddhism and Taoism in our temple, you can be regarded as a lay disciple of our temple. In the future, you will be regarded as the only descendant of our temple. I hope you can carry forward this inheritance. If you meet someone like us by then, Other survivors of the same lineage, please pass on this inheritance to them. "

Ye Feng immediately nodded and said, "Senior, don't worry."

The monk in front of him immediately stretched out a finger and touched Ye Feng's forehead.

Boom!

At this moment, a very huge secret of inheritance was immediately injected into Ye Feng's mind.

Ye Feng immediately sensed that this extremely powerful Buddhist inheritance was called "Great Thunder Sound Buddhist Technique".

At this moment, the monk in front of him immediately said: "Our temple was called Daleiyin Temple in the past. If you meet other Buddhists and Taoists in the future, just say that you are a lay disciple of our Daleiyin Temple. In this way If you do, they won't hold you accountable for practicing this ancient and powerful Great Thunder Sound Buddhist technique."

Hearing what the monk in front of him said, Ye Feng immediately nodded. He was a little surprised. He didn't expect that these inheritances of Buddhism and Taoism could not be practiced casually. He must learn from a famous teacher, otherwise, he might be Other Buddhist and Taoist holy places will be investigated.

At this time, Ye Feng quickly understood this great thunder sound Buddhist technique.

Buzz!

Lights of thunder and lightning suddenly began to appear on his body.

However, this kind of thunder and lightning light is not ordinary blue thunder and lightning, but a kind of golden thunder and lightning, which is the unique thunder attribute energy of Buddhism and Taoism. It looks very magical.

You know, Ye Feng has already practiced the inheritance of thunder attributes and the ancient thunder dragon method.

Therefore, Ye Feng's understanding of the Great Thunder Sound Buddhist Technique of the same attribute is also very fast.

In less than a moment, Ye Feng had completely mastered the Great Thunder Sound Buddhist Technique.

At this moment, golden thunder and lightning suddenly appeared on Ye Feng's body, which looked very extraordinary.

The monk from the ancient era in front of him saw this change in Ye Feng. He couldn't help but show deep amazement in his eyes, and said loudly: "Little brother is really a peerless genius, even in this world." In the glorious age of our origin world, we are probably considered to be evil monsters."

After hearing the ancient monk's high praise, Shanguan Tianya and the Phoenix Goddess standing beside them couldn't help showing surprise in their eyes.

They knew that Ye Feng's potential was very powerful and his comprehension was terrifying, but they didn't expect that he could get such a high evaluation.

Baby Haoran clapped his little hands with a smile and said loudly: "Brother Ye Feng is really amazing!"

At this time, Ye Feng just smiled slightly, looked at the monk in front of him, and said loudly: "Senior, I have successfully practiced this set of Great Thunder Sound Buddhist Techniques, and we can directly strengthen the seal."

The monk immediately nodded and said loudly: "If you want to strengthen the seal, you must enter the space under the Buddha statue in this temple. Under the Buddha statue in our temple is connected to the legendary hell interface, so we have to enter and get close to hell. In the space at the entrance to the interface, you may have a lot of dark creatures from hell, which are very scary and extremely dangerous. You may consider whether to enter it."

Ye Feng immediately nodded at this time and said loudly: "I have obtained the strongest inheritance of Buddhism and Taoism in your temple from my predecessors. Naturally, I must contribute to your entire temple, and now the world of origin has just recovered. , we local creatures have not yet fully grown up, and we absolutely cannot allow strong men from the hell interface, a high-level cultivation interface, to invade our origin world.

Otherwise, we would not be able to resist at present. "

After Ye Feng finished speaking at this time, the monk immediately nodded, and then directly grabbed Ye Feng's shoulders, and the two of them immediately flew into the space under the Buddha statue.

Behind them, Shangguan Tianya, the Phoenix Goddess, and Baby Haoran were waiting in the temple.

Because they couldn't follow Ye Feng and the monk into the dangerous space under the temple, otherwise they would only be able to hold them back.

Buzz! !

At this moment, with a violent space transformation, Ye Feng suddenly saw that the monk took him to the space under the temple.

Ye Feng found that everything inside was dark.

In the depths of the void in the distance, there is indeed a very large dark interface, standing there, giving people an infinite and majestic feeling.

This is a corner place in the hell world.

It is also an entrance to the great world of origin.

Ye Feng saw many ancient Buddha statues, all standing in this dark void, emitting a faint golden light.

However, most of the Buddha statues have been corrupted by the dark power and have become dark, no longer holy, but very evil.

At this time, the monk standing next to Ye Feng immediately said: "If you want to strengthen the formation, you need to inject enough golden light of Buddhism into the Buddha statues that have been corrupted by the dark power to reactivate them." There are a total of one hundred and eight Buddha statues in the dark void, which can strengthen the entire seal."

"One hundred and eight Buddha statues?"

Hearing what the monk next to him said, Ye Feng suddenly took a breath of air.

I didn't expect so many Buddha statues to be activated!

This is a huge and huge project!
